

## Super D. S 3081

Chapter 3081: Long Kui's lobbying

The cave shuttle stayed in the cosmic wormhole for only one hour, and rushed out from the other end of the cosmic wormhole, traversing the path of a virtual star that must pass through the immortal star.

The journey spanned by this wormhole jump, even if it is sailing at a normal speed of a starry fortress, takes a whole day.

The federal fortress where Naples and Xuanyuan Zijing were located only left the Tianxing Star Field half a day earlier, that is, it had to arrive at the empty space of Ye Xuan at that time, and it took half a day.

And it must pass here, as long as it wants to return to the immortal star!

The universe is full of stars, and all the streets lead to Rome. There is no such thing as a way to go, but what is the immortal star?

One of the two camps of the Terran is the emperor of the immortal dynasty. It is also the seat of the federal headquarters of the Vatican. In the immortal stars, the warships going there every year are countless.

But basically, only three fixed stars are the best choice. These three stars are the inherent lines from the emperors of the three empires to the immortal stars.

At this time, Ye Xuan is one of them, from the Emperor of the Heavenly Emperor, the Emperor of Heaven, to the main star of the immortal star!

In the void, many have been explored to prove the safety of the star route, but many of the stars, most of the time is very quiet, although there are many fleets of administrative stars, but the starry sky is too big, it caused this kind of situation.

However, this kind of smog in the smoke is almost invisible on the way of the three main stars. On the way of the three main stars, it is basically not long before you can see one or two fleets, big or small, some are forces. Some are some commercial ships.

At this time, when Ye Xuan's Dong Xuan shuttle appeared, there were some fleets in the distance.

Ye Xuan did not take care of these things. This time, the federal fortress was robbed. In addition to saving Neapolitan and Xuanyuan Ziyan, he also had a purpose, that is, by the way, he showed a gesture, an old man is very overbearing, and Laozi is not good. Gesture.

Therefore, after stepping out of the hole and waving his hand to the immortal world, Ye Xuan ignored the black mosquito number, the black wind number and the three devils of the saints.

Some of the fleets in the air around the neighborhood were frightened. The difference between the Devil's Scout and the Terran Fortress was still there. The discerning person could see it at a glance. The guys thought that the Devil attacked the third universe, and also played When they arrived at the Heavenly Empire, the scared chickens flew and fled, and they quickly fled, and they disappeared in the blink of an eye.

Ye Xuan did not take it easy. After wavering the three scouts to open the concealed tactics, he also sacrificed the 100,000-meter-diameter Thunder Star Fortress, squatting in front of the three demons scouting the fortress. Opened the hidden array method...

.....

Federal Fortress!

In the past day, Long Kui has completed the interrogation of the two men of Naples and Xuanyuan, and at this moment, he is using another kind of Huairou planning to lobby the two.

Since it is Huairou's lobbying, naturally, there is no more isolation review that is more likely to cause rejection. Long Kui even arranged a rich feast in the top-level command lounge area of the Federal Fortress, just opened a bottle. A hundred years of red wine, I plan to have dinner with Naples and

Xuanyuan Ziyang, and take the opportunity to convince them to cooperate with themselves and give a better confession!

Just at this time, a federal communications officer in a fortress sent an instant intelligence message.

What was recorded above is that in the way of the star outside the voyage of a time, there are sudden feedbacks from the three demons scouting the fortress, which is obviously the news of the spread of the merchant ships that were shocked.

Long Kui's gaze glanced at the information and immediately laughed.

When he put it down, he poured red wine and said to him, Neapolitan and Xuanyuan Ziyang: "Two, to say something, even me, I feel a little worthy of the insistence of both of you..."

"Do you know why? Because the guy you insist on is using the facts to prove that he is just a squeaky little boy, it is not worth investing!"

"In front, on the way to the main star of a time voyage, there are three scouts of the demon's scout, which naturally cannot be the rhythm of the demon squad that has hit the empire of the heavenly empire. The three devils scout the fortress, clearly it is black. Mosquito, Black Wind and Holy Son..."

Hearing this discourse, Napoli and Xuanyuan Ziyang first stunned, and then their faces changed at the same time, and they sagged.

Long Kui took all of this to his eyes, and the smug color on his face suddenly became stronger. He felt extremely good and said: "I will say bluntly, if I am your prince, this will do it. It is the first time to quietly return to the immortal star, find his recently favored mother-in-law, maybe even blowing the pillow wind in the immortal emperor, escape the robbery..."

"Unfortunately, this kid is too impulsive. Three of the demons who did not know what kind of haze they used to get their hands on the big fortress, dare to intercept a federal fortress?"

"Hahaha...and not to mention how arrogant and ridiculous his move to block the car is. This kind of action that is openly opposed to the Federal Inspectorate is enough to sit down on some of his charges."

"You two are also quite promising. One is the admiral of the immortal army, the other is the sect of the Emperor of the Emperor of Heaven, but the person who is unsuccessful, is confused by such a guy's illusory name, chooses to be loyal to him. This is really...hey, it's too regrettable!"

"But it's not too late to go back now, as long as you record a confession according to my meaning, then..."

"Dream, you!"

After waiting for Long Kui to finish the conversation, Xuanyuan Zijing even sneered, and immediately interrupted his words, and then went on to say: "Do you think Xuan Huangzi is as naive as you said? In his hands, except three Beyond the Devil's Great Fortress, there is also a Star Fortress that is not weaker than you, and there are millions of mosquito and army corps, and more than a thousand squadrons."

"You should know about the empty beast? The horror creatures that exist only in the black hole of the devil's star field are the super-star-killing guns of the general fortress. They can't be completely destroyed. They can even swallow the universe's void. It's enough to turn your federal fortress into a rotten watermelon!"

This discourse is actually what Ye Xuan once said to Naples and Xuanyuan Ziyang in the fortress of Naples, but they did not believe it at the time.

In fact, even now, Naples does not believe.

The same is true of Xuanyuan Zijing. The reason why she said this is that she is not happy with the look of Long Kui's face.

As for Longkui, it is obviously not possible to have Acai Xuan. After listening to the words of Xuanyuan Ziyang, he first squatted and then laughed up.

However, not waiting for him to laugh, the sight of the light from the side of the huge monitor screen, everything in a moment, let him open his mouth, looked blank, like a ghost...

Chapter 3082: The prince robbed

In the emptiness in front of the line of sight, the 10,000-meter-tall fortress of the three devils suddenly appeared.

But this is obviously not the reason why Long Kui is stunned. The reason why he is awkward is because in front of the three devils scouting the fortress, there is also a silver star fortress, the diameter of 100,000 meters, absolutely with him at the moment. Like the federal fortress, it is a true star fortress.

In addition, the huge fortress of the silver fortress, which has a diameter of 20,000 meters, is now a glimpse of a faint black and a few fascinating souls. This is clearly the death of the other party. The light cannon has been stored, and the rhythm of a horrible black death light can be shot at any time.

Although the federal fortress at his feet also had 20,000 meters of dead light cannons, it was not yet energy.

It takes at least ten minutes to fully store energy. At this time, it is enough for the other party to blast the federal fortress into a hole of 20,000 meters in diameter.

This is not all.

What is even more shocking to him is that the three magicians who are behind the silver starry fortress are now scouting in the Great Fortress. It is clear that there are a large number of mosquitoes and emptied beasts rushing from the main channel of the Great Fortress. After the big film, after rushing out, it will gather in the left and right.

The emptied beast is in front, the mosquitoes are behind, and between the blinks, two seas of fierce beasts have formed, which is shocking.

Looking at its scale, the army of mosquitoes is definitely more than one hundred, far more than that.

The squadron of the beasts is definitely more than 10,000, and it is far more than...

In front of the silver fortress, the figure of the Emperor Xuanzi stands on the back of a huge emptied beast with a length of about ten feet. The breath of the latter is in the middle of the origin, while the Emperor Xuan is like his master. Standing, full of free and easy expression, whispered: "Long Kui is it? This prince is idle and bored, come and fight!"

"Hey!"

Xuanyuan Zijing was originally dull, and at the moment I heard this sentence from the sound system of the Federal Fortress. Then I looked at the face of Ye Xuan, which was zoomed in on the screen, and I couldn't help but laugh. It's coming out.

It was Naples, and it was a stupid music. There was a slap in the heart. At least, Xuan Huangzi did not give up on him. He would rather bear the crime of robbing the official prison of the Federal Supervisory Authority and come to rescue.

Although Naples did not think that this was a wise move, even if it was possible, he would definitely try to stop it, but things did happen, and the coziness in his heart could not be restrained.

With such a master, even if the other party is impulsive, nothing will happen in the end, at least, no regrets in the heart... value!

At this point, a communications officer stumbled into the lounge and looked blank. He read the analysis report just obtained: "The starry fortress of the other side has been confirmed. It is the butterfly of the Tianji nationality. The gun has been stored..."

"In addition, the number of mosquitoes and the army has been roughly calculated, over ten million, and more than 10,000 heads in black holes."

"As for the empty beast, hehe..."

"More than 100,000, the existence of the black hole above, at least 5,000 or more ... oh, this is even the super stellar cannon of the big fortress is dying of the emptied beast, even the void can eat, if it is 10,000 The empty beasts swarmed up, and the entire federal fortress had to be knocked down by at least a quarter before our dead light cannons were completed."

"The key is that even if our dead light cannons are completed, there is no way to attack. All the emptied beasts have been attached to the outer wall of the fortress, and they can't fight..."

Later, the federal fortress correspondent has already cried in tears. It is such a squad. He does not say that he saw it with his own eyes. He never thought about it, it was too scary...

"Millions of mosquitoes? 100,000 emptied beasts? God..."

Hearing this discourse, Xuanyuan Ziyang scared and took a sigh of relief, his face was dull: "The original guy said that it was compressed ten times, and he thought he was bragging. Now it seems... it's really low-key!"

"A black hole of more than 15,000? I am dripping, how did he do it?"

Napoli is also scared to see you. Don't look at him as the supreme being of the mysterious light. It is not impossible to destroy the millions of mosquitoes and 100,000 emptied beasts, but it is absolutely necessary to ruin him. At this moment, he also couldn't understand the Emperor Xuanzi: "The mosquito king of the original point is just before. Now there are eight stars on the back of the beast, which is clearly the original point, plus On this black hole of more than 5,000..."

"It is me, killing it, if you want to surrender, it is impossible to repair and break through a big realm! The emperor is a man...he is a god!"

Also falling into a sluggish, there is Longkui!

He had just swept away on the big screen before, although he knew that there were a lot of mosquitoes and worms, but he didn't know that there were so many.

This is how the Federal Fortress's scanning system scans and quickly analyzes the capabilities of the realm to get the final result so quickly.

The average person, after the number reaches a certain level, basically only a lot of consciousness, but this is a lot, after turning into the substantive data, the scary feeling will rise from the heart.

However, Long Kui was shocked, and his face quickly showed a ecstasy, and he laughed when he looked up: "Ha ha ha... Finally, I still grabbed your tail and finally showed up!"

"Millions of mosquitoes! 100,000 emptied beasts!"

"Where light is above the black hole, there are more than 15,000 heads..."

"The army of pets of this scale is the supreme being beyond the mysterious light. For example, the strongmen of the dynasty of the emperor's generation are absolutely unable to conquer. What is Long Xuan?"

"On this point alone, he will not be clear about it. He will not be able to elude the suspicion of the genius."

"Not to mention that he now also sacrificed a starry fortress of the Tianji nationality? This is the fortress that the high-level people of Tianji can have. It is at least the top of the Tianji nationality who can control this kind of fortress. Could it be that he can still have strength? Didn't the top of the Tianji nationality who killed a singular lighter fail?"

"The fact that he has revealed at this moment has already made sure that he has been bought by the Tianzu people!"

"As a prince of the dynasty, the prestige is in full swing, and even rushed into the list of the sky. It turns out that all this is the investment of the celestial family to support the spies?"

"Unfortunately, everything that this idiot has done today is afraid of being the top of the Tianji nationality. It is necessary to spurt the blood and die directly, hahaha..."

Just as Long Kui thought that he had pulled out the hidden tail of Xuan Huangzi, and smirked his head and laughed, Ye Xuan, who was enlarged in close-up on the big screen, was Shen Shen's face, and again: "I used to I bought a watch! Now that you are robbing, don't you understand? Come out and live, you will die..."

Chapter 3083: Sitting down

"Robbery? Long Xuan, do you know what you are doing?"

With a sneer on his face, Long Kui stepped into the federal fortress, his body suspended in the void in front of the fortress, and his vision was swept up and down in Ye Xuan's body. He said: "In the dynasty, I am your family. Uncle, in the federation, I am the deputy inspector of the Federal Inspectorate. You robbed me. Is this a rebel, do you want to renegade the Union of Warra?"

"Oh, yes, you have already done this already. The investigation of you was still in secret. After all, it is related to the face of the dynasty, but now it seems..."

"Oh, this time after returning to the federal headquarters, I will immediately submit a report. It is a matter of fineness for you, and the federal side will conduct a public investigation."

"We are immortal, no one will tolerate rape!"

"Even if it hurts the face of the royal family, this matter, the royal family, will never cover up for you."

"If you know each other, if you still have a little bit of repentance, you will immediately get rid of it, and hand over all the resources of the battleship and pet beasts when you were bought by the Celestials. Maybe you can still sin and make a corpse. ""

"So, at least it's a little bit of royal beauty for the immortal royalty. If you look at this point, I can be the master, ask the immortal emperor, and spare your mother's life, never make it!"

"I am! Dog stuff, with you?"

Ye Xuan was extremely angry and laughed. He was too lazy to talk nonsense with the other side. He raised his hand and pointed the 20,000-meter-diameter huge dead light cannon muzzle behind the Thunder. He said, "You have seen it, you have already stored it, wait. When you come, look at it, the fortress behind you is also storing energy, but it still takes seven or eight minutes?"

"In five minutes, I will hand over Naples and Xuanyuan Ziyan. Otherwise, I will give you a way. Then the Thunder will immediately shoot the fortress behind you." If you think you can Blocking, you block, I don't stop!"

"As for Naples and Xuanyuan Zizi..."

Having said that, Ye Xuan's eyes swept to the federal fortress behind Longkui, and he grinned and said: "Admiral Napoli, as a strong black-lighter, protects the purple skull with pre-preparation. Shouldn't it be a problem for you? After all, the one that shoots out for a while, I will choose to aim at the middle of the fortress. Should you be in the top cabin?"

Upon hearing this, all the federal officers and men in the top command bay of the Federal Fortress immediately changed their face. The Emperor Xuanzi had previously used the iron and blood means of Tianhe, but they knew it, and said that they did, but they really did it.

Especially at the moment, the federal officers and men who are located in the middle of the fortress, the ones that are all the body are erected, and the 20,000-meter-diameter dead light cannons swell at such a close distance, although they are also here. A starry fortress, but even if the energy shield is fully open, it is to be shot out of the hole.

People have nodded and will aim at the central part of the fortress to open fire. That is clearly where they are at the moment. At that time, this position becomes a pair of holes. Can they still leave a hair?

If not disciplined, at this moment, these federal officers and men are estimated to have escaped!

Long Kui's face was also gloomy in an instant. With his understanding of Xuan's emperor, this guy said that he would dare to do it.

In fact, since the other side has already shown their positions, all the pets and corps from the celestial family and even the starry fortress have been exposed. Today, it is clearly a must-see. If it is not handed over, it will definitely not be good.

For Long Kui, he still wants to pay people, because that is tantamount to the fact that Xuan Huangzi attacked the federal fortress and robbed his party.

At that time, not only the Emperor Xuanzi could no longer be charged with the crime, even the two of Naples and Xuanyuan Ziyan, even though the two had not known his traitor, but as they were rescued, they wanted to say this later. Clear, it is impossible.

For this reason, for Ye Xuan's robbery, Long Kui is still unwilling to make it.

But to make this happen, he can't do too much!

If it is too obvious, it will leave people criticized, and at the same time it will be unfavorable to his own career. He will leave a timid thing and easily smear the suspects who are detained by the celestial beings.

Therefore, people are to give, but at least to be pretending to struggle, it is best to make a feeling of considering the overall situation, and finally have to bear the burden of humiliation, gritted teeth will be sent to the suspect.

So everything is perfect!

Thinking like this, Long Kui's heart suddenly became a big decision, and he thought that it was acting. Since it's going to be played, it's a bit more realistic. Why does Xuan's prestige look like this?

Isn't it because he is alone in the first universe of the Tianzu people?

The times need heroes, he just turned out to be born, so he hit a dog and smuggled... Of course, this turned out, has now been confirmed, everything is the result of the operation of the heavenly family.

I have already revealed the fact that the Emperor Xuanzi is the identity of the Tianji ethnic group. It was originally a great achievement. If it is perfect in the next performance, it shows a kind of hero that should be there, maybe squatting. This opportunity to replace the Xuan Huangzi, become the new hero idol in the minds of the federal people, is not impossible.

As soon as I read this, Long Kui suddenly felt a big heart, and at the same time, his heart was smacked, but his face was a pair of sorrowful expressions, and he looked like a deadly expression. He said with a big hand: "Long Xuan, you are a mad guy, you really Do you dare to fire? Well, you are firing! As the Federal Deputy Inspector General, I will never compromise with you like this evil person. You can try it. The Deputy Inspector General will not move in one step, just stand here. To bombard the federal fortress behind me, you have to step on my body first!"

"you sure?"

Ye Xuan saw the other person's mind at a glance, suddenly dumb.

He also didn't want to really blow the federal fortress out of a hole. After all, he had to wipe his \*\*\*\* afterwards.

But now that Long Kui wants to install, he said in public that he will never move. In this case... I can't open the gun, can you give me a bow?

The federal fortress was destroyed and it was difficult to close afterwards.

But if Long Kui is dead or seriously injured... He is a royal family, as long as the royal family does not pursue it, the Wanluo Federal Headquarters is naturally less than one thing.

And this is enough, so that Ye Xuan is venting his heart, even if it is only a serious injury to the guy, Ye Xuan's gas can be almost the same!

Thinking like this, Ye Xuan even raised his left hand and grinned: "The deputy inspector, you just said that the righteousness is stunned, will not be the first to be a tortoise?"

At this moment, Long Kui's heart suddenly trembled, and Ye Xuan's move made him a very unpredictable hunch. The whole person is not good...

Chapter 3084: The contraction is shrinking

As Ye Xuan's words fell, he lifted up and pointed to Longkui, but the empty palm of his hand was empty. The golden land was picked up by a golden mang, and the golden bow of an energy form was without suspense. Appeared.

For Ye Xuan, this is very familiar: the quaint and awkward bows at both ends, the two creatures that form a semi-arc bow are still full of anger, just like Ye Xuan wants to go against the sky at this moment. Crazy roaring in general.

A bowstring formed by a number of fine gold threads twisted together, at the same time, spread out from the wide mouth of the two roaring creatures, quickly condensed into a bowstring!

On the other hand, there is clearly a golden energy arrow that appears quietly, and the arrow is already in the string!

This attack, Ye Xuan thought before thinking, must feel blasted!

His cultivation is now only the third-order of the planet. Although in the Federation of Van Rou, no one really thinks that his cultivation is only so weak, but he is not completely sure that no one is doubtful.

After all, what he did in the Devil's Field was amazing, and no one saw it in this third universe.

At the moment, if he casts a sacred bow, even if he only reinvents Longkui, then the loophole about his cultivation as a realm can at least drag on for a long time before he will be suspicious.

In order to prepare for this attack, Ye Xuan has invested a large number of chanting and star nuclear sources in the past. Of course, all of them are low-grade goods. The low-grade goods of these two resources in his hands are too much, with Ye Xuanxiu as The promotion, their role has gradually declined, used here, just right.

However, even if it consumes a lot of mourning crystals and star nuclear sources as the energy source of this attack, at the moment, when Ye Xuan once again displayed the ancient magical power of the 陨天弓, he was originally suspended in his mind to know the sea. The empty golden bow, but still draws on Ye Xuan's massive body and blood and the power of cultivation, spiritual strength, and ... vitality!

It's not that the energy prepared before is not enough, but this magical power has been branded in his flesh and blood spirits. To start, most of the energy consumption can be prepared in advance, but the activation of this golden small bow in the sea still depends on Ye Xuan's own strength to complete.

A strong sense of weakness hits my heart, although it is not as extreme as the previous two times when I used the sacred bow, but at the moment, Ye Xuan still has the illusion that the spirit is one of the glare.

If you pay such a price, if you can't kill or hit Longke, it's too worthless.

With this thought flashing in my mind, Ye Xuan's shackles are also a slap in the face of a slap in the face, and the words of the cold voice in the mouth suddenly come out: "This bow is called Haotian! This prince is today Take this bow to send you to heaven..."

As the words rang, Ye Xuan's eyes deepened, and he began to sing a strange golden glow. He raised his right hand and pinched the energy arrow that was already on the line. He suddenly pulled out and pulled it. Full bow!

At the same time, behind it, there is also a huge virtual shadow. It is a lot of heaven and earth, and it is as high as a hundred feet. It seems to be worse than the starry sky fortress of 100,000 meters in diameter, but I don't know why. The illusory shadows give people a kind of sinful feeling, such as the horrible power of ruining the earth.

The illusion is the old-fashioned yak that Ye Xuan once saw in the inheritance picture of the sacred bow of the sacred bow. When the first two leaves of Ye Xuan exhibited this sacred bow, there was no illusory appearance behind the ancient Yaksha. This time the accident appeared, even Ye Xuan was very surprised.

He did not think much about it, and it was attributed to the growth of his own strength and the reason for the planetary environment.

As for whether or not, at this moment, it is not a time to go deeper, and then look back and ponder.

In short, it is not a bad thing. At least, the yin of the nightshade behind him makes Ye Xuan's momentum of this attack instantly rise to the extreme...

It is really this illusion that is too horrible and embarrassing. There is a pair of huge wings on the back, like a demon, and there is a thick and old atmosphere on the body.

There is also an incomparable sharp killing atmosphere. When the virtual shadow appeared, it has already come to the surface, causing Longkui's whole heart to violently jump, and a strong sense of life and death, forced into the heart. .

"What is this? You and you..."

Originally headed up, a pair of dragons who went to death, suddenly changed their face and their bodies trembled. Even the words of exclamation in the mouth are stuttering.

The bag is, after all, just a bag.

In the face of the strange and sinister shadows of the ancient night, in the face of the inexplicable sense of life and death, Long Kui... After all, it is still shrinking!

"Hey..."

Under the flash of the slap in the middle of the squad, the sound of a sharp tremor sounded, and the energy giant bow in the hands of Ye Xuan was suddenly smashed into the golden awns, and the blink of an eye quickly condensed, and all of them poured into the bowstring without leaking. Within the arrow, whistling away, instantly across the endless void, coming forward, bursting out...

The golden scorpion bow energy arrow is in the form of a teleportation. The next moment from the leaf state of Ye Xuan's energy state, the sky bow whistling out, it has crossed the distant void distance, appearing in no suspense. In front of Long Kui.

"what....."

"This is impossible!"

Although knowing Ye Xuan's cultivation is not only simple, but the third stage of the planet's surface is so simple, but now, the other side is only a short-handed hit by the distant space, and he is given the dragon who is the strong man of the black sky. It brings a sense of life and death that will fall in the next moment.

How could he be so strong?

This is not scientific!

The unwillingness and doubts of the flash of my heart flashed, making Long Kui feel like a maddening, and made a terrible sound.

In fact, when the golden arrow had not detached from the bow of Ye Xuan's hand, he had already turned.

As the deputy inspector of the Federal Base of Varo, and even the emperor's empire status of the immortal dynasty, Long Kui's life-saving reserves are obviously indispensable.

Just as his body suddenly turned around and died, a cyan soul crystal appeared in the back of his figure. In the translucent cyan soul crystal, there was a drop of soul blood flowing.

Soul crystal, black hole above the strong can be condensed, once successful, it is like a dead thing, but the drop of the soul of the effort, the cost is extremely heavy, the general strong, rarely will condense.

The strong who really want to condense the soul crystal is either strong to a certain extent, does not care about the loss of a drop of soul blood, or is extremely afraid of death.

Long Kui, obviously belongs to the latter.

This soul crystal, at this moment, the moment of breath, soaring the body of Long Kui, attracted the breath of the golden arrow to lock the effect.

At the same time that the soul crystal atmosphere rose, Long Kui also stepped into the federal fortress.

This cargo seems to have forgotten the passionate words he said half a minute ago. At this moment, he fled like a dog.

Anyway, this time the face... lost!

Life and death, the shrinking turtle-head, after all, still shrink back!

"boom!"

A huge explosion came out, and the blue-colored soul crystal, which was soaring in shape or breath, instantly annihilated in a fierce golden mang...

Chapter 3085: Escape

This cyan soul crystal is the substitute of Long Kui, extremely precious, but today, it is destroyed, this matter makes him extremely distressed. After all, what is contained in the blue soul crystal is his A drop of soul blood, even if it is a strong black light, there is not much soul blood. Every time you pay a drop, it is a major loss, and this kind of soul crystal refining is extremely painful and complicated, and it is not consumed one by one. Can refine one.

However, it hurts to be distressed. At this moment, he is completely unable to take care of this.

Although he had expected that Xuan Huangzi's cultivation was absolutely not weak, at least it was the original point. After all, the Tianji people were willing to pay such money in his body. It is impossible to sit and watch his cultivation as too low, that is, the Emperor Xuan's own efforts are not working. The Tianji family will surely find ways to improve it and upgrade it.

Even so, Long Kui still did not expect that Xuan Huangzi had already reached this point. The arrow just said that although he would not kill him in an instant, it is entirely possible to make it dying.

Although there are some reasons for this, it is because the magical skills of the other side are too strange, and the power is too strong, but in his opinion, Xuan Huangzi's true cultivation is even if he has not reached the black light, at least It's a hole in the sky.

The \*\*\*\* guy, the tenth realm of the Tang Dynasty, the surface that is revealed is only the cultivation of the fourth realm of the planet, it is simply not a thing.

With such resentment, Long Kui stepped into the federal fortress for the first moment, and then roared and thundered up the command: "What are you still doing? Waiting for the shelling of others? Jump and jump immediately..."

At this moment, the only thought in Longkui's heart is only one, that is to escape! Escape from flight...

The sooner the better!

In fact, when he took the federal fortress one step at a time, he had already issued instructions to fully expand the energy of the fortress space.

Even the refueling of the death light can be conceived for this purpose, but the surface is just like it.

At that time, Long Kui had already analyzed the situation clearly. In any case, Xuan Huangzi revealed the details in his hands at any cost, which was enough to prove that he was a fine fact of the Tianji ethnic group. Only this point, Long Kui has stood on invincible position.

So, there is no need to stay here and the other side is hard.

The top surface is made to look like, then immediately expand the space to jump, take the federal fortress to leave, and return to the immortal star as soon as possible.

The other party is also a star fortress, and he is the same level as the federal fortress he commanded. As long as he gets the first opportunity, he will start the space jump first. Even if the prince is chasing all the way and wants to catch him, it is not easy, even Not too possible!

This guy is a madman. This is only from the moment he rescues Naples and Xuanyuan Ziyan, and he has completely revealed his own details. You can see that one or two of these madmen can be mad at any time. Really want to take a shot, can't you?

It is for this reason that Long Kui has changed his decision before he stepped out of the federal fortress. The progress of the death of the dead light cannon is the slowest, but the installation of the Federal Fortress, but the space jump system of the Federal Fortress I am fully charged.

Space jump, as a means of life, the charging speed is very fast, although only a minute or more at the moment, in fact, the entire charging process has just ended!

The Federal Fortress is even jumping out of space!

As a dim light flashed through, a big starry fortress, lost in a moment, the original star of the galaxy trembled slightly, giving a faint humming...

"I actually ran away? For a long time, the former Deputy Inspector General was also fart!"

This result made Ye Xuan feel surprised. The identity of the other party was there. Whether it was in the Federal Supervisory Academy of Viro or the immortal dynasty, it was extremely prominent, but when it was just said, it would be a fart in the blink of an eye. In this case, who? I can't think of it.

Blame can only blame the other party is too shameless, simply don't want Bilian!

Unwillingness, Ye Xuan even gave orders, so that all the mosquitoes and sergeants would return to their nests. Then, with the wave of hands, the black mosquitoes and the Black Wind and the Three Great Fortresses After the income of the immortal world, Ye Xuan stepped into the Thunder Fortress, and issued the command of full speed pursuit in the first time.

With a bang, the Thunder Fortress, even if it started a space jump, went all the way to the full speed!

An hour later, tens of millions of miles away from the wormhole entrance of the two star-studded fortresses, a space in the comet's river, the originally quiet and waterless universe void suddenly appeared to be disturbed by external forces. There was a layer of invisible ripples, vaguely, and there seemed to be some buzzing sounds in the space.

A starry fortress that etched the Wroc's federal logo outside the ship, without any warning, appeared suddenly in this void, and did not stop. At the first time, it rushed toward the entrance of the nearest cosmic wormhole.

This ship is the starry fortress of the Federal Inspectorate, which is dominated by Long Kui.

Even this 100,000-meter-diameter starry sky fortress does not mention the wormhole jumping. If it is only the space jump of the extreme distance of the fortress itself, it cannot be continuously performed.

Just as the barrel needs to be cooled, the space hopping device of the Star Fortress also needs a buffer time after running at full load to re-expand the second jump.

This buffer period, after the full jump of the full load, is at least six hours, that is, half a day.

Therefore, after completing a limit jump, the federal fortress can only sail at full speed and rush to the nearest cosmic wormhole.

Although it is very possible to chase the silver fortress in the back, the rank is the same as that of Longkui's federal fortress. But the other's dead light cannon has already been stored, and the 20,000-meter-diameter horror dead light energy beam is always available. Can blast.

However, Longkei's federal fortress is different. The kinetic energy of the entire fortress is already in a state of full operation at this moment. In order to ensure full speed sailing, there is no way to recharge the main gun of the fortress.

If the latter is chosen, the speed will definitely drop drastically. At that time, I am afraid that the main gun that has not waited for the fortress will be fully charged, and the silver fortress that is biting behind will be close.

At that time, the dragon singer's madman's blast was a supreme existence of Longkui's cultivation of the sacred light. Even if it was just rubbed by the horrible death light, the result was absolutely It is sour and sour, and it has to be delaminated without death.

The two starry sky fortresses have a similar level. However, because the other party has taken the lead and prepared, it will completely control the situation. At this time, Longkui is full of anger and incompetence, but it is incompetent. He, in addition to fleeing, has no other choice.

Even if you are wronged, you can only recognize your teeth now...

Chapter 3086: Suddenly

"Hey..."

As the chief fortress of Longkui's commander suddenly appeared in the void, he sailed to the front without stopping, and quickly disappeared. After about ten minutes or so, not far from here, just after returning to the usual starry sky, it once again swayed a layer of invisible ripples.

The same tremors of tremors rang, and then, Ye Xuan's Thunder Fortress appeared, and paused for a few seconds to confirm the direction, and immediately slammed it out, turning it into a silver awn, chasing it toward the front.

The locked position is exactly the vanishing direction that Longkui's Federal Fortress disappeared ten minutes ago!

Although the two Star Fortresses belong to the same level, they are 100,000-meter-diameter entry-level system fortresses, but the federal fortress that Longkui commanded is somewhat different from Ye Xuan's Thunder Fortress.

After all, the former is created by the Terran science and technology camp of the third universe, while the latter is the first universe of the universe.

Although the approximate configuration and functions are similar, the subtle gap in the performance index still exists.

The official tribes of the Tianji nationality are all intelligent robots who have born self-awareness.

The hard work of making warships, space fortresses, and starry fortresses, although true Tianzu people can't be personally involved, but the technology is controlled by them. The specific implementation is based on some advanced wisdom that has not yet given birth to self-awareness. The robot goes to finish.

There is no doubt about human creativity. Among the universe, the Terran can be called the longevity of the universe, and it has its own reasons.

But when it comes to mechanical manufacturing technology, the Terran is really not the opponent of the intelligent robots of the Tianji ethnic group. Except for the former human star technology pioneer Xingbo, among the current human race powers, even the emperor of the immortal dynasty, In this respect, I dare not say that it is above the celestial family.

In fact, Emperor II is also a smart robot!

This weak gap between humans and robots in mechanical manufacturing may not be too much of a concern, and even the existence of such a weak gap cannot be truly determined.

But at this moment, with the two star fortresses made by the Terran and the robots, in the third universe, the universe of the universe, one after the other, one chasing and one escape, this originally extremely weak gap is unprecedented. The ground was revealed to the fullest.

The two starry fortresses, all of which use all the kinetic energy, are used at the speed of navigation, and are running at full speed in the void.

But the distance before the two has been shrinking, and the Thunder Fortress that is tightly biting behind is getting closer and closer!

Just one day later, the virtual distance of the original ten-minute voyage was shortened to about eight minutes.

At this rate, for another four days, the Thunder Fortress will be able to catch up with the federal fortress in front, and the latter, even if it enters the cosmic wormhole again and again, wormhole jumping, four days, can not reach the immortal star!

Two 100,000-meter-diameter starry fortresses, like crazy, are expediting, chasing each other in the sky and the sky. This scene is not unprecedented, but at least not in the third universe.

All the federal powerhouses along the way, or the presence of the commercial fleet, after seeing this scene, the expression on the face is no exception, all of them are sluggish.

The starry fortress that fled in front clearly etched the logo of the Federal Institute of Supervision!

Is it a dream?

In the third universe, there are people who dare to take the dog's starry fortress in the Federal Government's headquarters in the United States, and do not kill it.

When did the third universe come out with such a fierce person?

Federal Fortress, in the top command hall!

"Bao!"

"Damn! It's the same standard entry-level fortress. Is the little \*\*\*\* behind it getting closer? Too bully..."

Long Kui slammed the analysis report in his hand on the table in front of him, cursing his teeth.

This report is the result of the analysis just after the rigorous calculations of the Federal Fortress Intelligence Center. It clearly points out the exact time when the rear star fortress is close to the range: if the speed of the two star fortresses Keep it the same, then the opponent's fortress is close to the range of the dead light cannon, only three days, ten hours, forty-seven minutes!

"You must ask for help from the dynasty. If you don't get it for four days, even if you start the wormhole jump again and again, you will never be able to reach the immortal star!"

The chest was violently undulating, and the overwhelmed Longkui forced himself to calm down and said to himself: "However, if the Federal Headquarters receives the help, immediately dispatch the fortress fleet to the speed, but it is enough to be behind. The madman is close to the range, and joins me, so there is no fear..."

As soon as this was heard, the fine mans of Long Kui's squad suddenly lit up, and the first order was issued to the correspondent of the side: "I immediately connected the federal main network and asked the Federal Headquarters to immediately dispatch the fortress fleet to help..."

"The situation is a bit serious!"

"It is said that the Deputy Inspector General has already verified that Xuan Huangzi has changed his mind and has been bought by the Tianji people. There are not only the star fortresses given by the Tianji people, but also the thousands of mosquitoes and the 100,000 emptied beasts!"

"The so-called dynasty Tianjiao, the so-called Terran pride, the federal idol... But it is only the typical speculation of the Tianji people, and the typical negatives that are deliberately cultivated at any cost!"

"And the Inspector General, just because he discovered the secret of this horror, he was ambushed and chased by Xuan Huangzi in desperation and madness!"

"The Chief Inspector has no fear, but considering that this news must be sent back to the federal headquarters, including the person's card, so you can only choose to succumb to the grievances, flee all the way, and return to the dynasty... Well, let's just say, roughly That's what it means. You can think about the specific wording!"

After that, Long Kui waved his hand and his face finally showed a smile of relief. Although this was quite frightening, at least, with this great credit, everything is worth it.

Aside, the communications officer who hurriedly finished the transcript immediately turned around and rushed to the main control hub of the fortress to see his face. It was clearly the rhythm of the full line of the black line, obviously it was not light!

Half a day later, a blockbuster suddenly threw it into the official website of the Federation of Varo!

Xuan Huangzi is actually a spy of the Tianji people!

At the moment, on the main channel of the starry sky, which leads to the immortal star of the emperor, he is desperately chasing and killing the secret deputy inspector, Long Kui, who wants to kill and kill!

Although the incident only appeared in the form of a small news and spread, but because the source is said to come from the Federal Headquarters Supervision Institute, it is almost in the shortest time, the entire third universe of countless human races, All of them were blown out of the coke.

This moment, the three universe planes are all in vain!

Chapter 3087: Planet fourth order

With the rapid spread of this secret, the innumerable strongmen of the three universes were shocked in an instant!

The Terran of the Third Universe does not have to be said. Nowadays, the prestige of the Emperor Xuanzi has long been close to the existence of the entire Terran pride. The Ten Heavenly Palace of the Comprehension Camp is better, and in the immortal dynasty of the Science and Technology camp, young. The stars of the generation, seven out of ten, are almost all fans of the Emperor.

Such awkward changes are obviously unacceptable. With the spread of the news, the three immortals of the immortal dynasty, the numerous administrative stars in the territory of a large number of small countries, have completely become a pot of porridge!

Questioning voices, protesting voices, angry curses, and resounding throughout the day.

More, it is the solidarity of Xuan Huangzi!

The same scene is also in the comprehension camp and the second universe, but it is not far from the immortal dynasty, and the interpretation is in full swing.

The officials of the federal races of the Second Universe are almost always a kind of attitude to watch the lively and good dramas. There is no comment on the surface, but the high-ranking elites in private are estimated to have been happy.

Whether this matter is true or not, this time, the face of the Terran has been lost. After all, Long Kui is the deputy inspector of the Federal Supervisory Academy, but he is also a Terran, and is also a sideline of the immortal dynasty.

Looks like Xuan Huangzi sees him, but also has to call a family uncle, shaken this secret secret with such a sensitive identity, if it is verified after the fact, the face is only human and immortal dynasty, no one will deliberate To consider the official position of his Federal Deputy Inspector General!

Compared with the geniuses of the Second Universe, the first universe of the universe and its servants and hundreds of people, it is obviously even more confused!

The first cosmic servants, including the devil's group, have returned. The Emperor Xuanzi is not the secret of the cultivation and support of the Tianji people. They are also inaccurate, and their hearts are full of suspiciousness. Nothing else.

But the celestial family can be different, especially some high-level people. After suddenly hearing this news, all the core tops of the entire celestial family are almost dumbfounded.

What kind of trouble is this?

Has the imperial empire's royal struggle been so mad? Lianxuan Huangzi, the prestige of the royal family of the three major universes, and some dare to splash this dirty water?

Actually said that he is a human race that the Tianzu people bought?

This brain hole opened, almost caught up with the skylight!

Less than half a day later, after a lot of shock and laughter, the Tianji clan's base camp suddenly issued a decree, informing the first cosmic slaves and all the administrative stars: the first cosmic wanted for the Xuan prince. Order, complete withdrawal! I hope that Xuan Huangzi can successfully escape from the Terran and turn to the embrace of the Celestial! The gate of the Tianji family's nest will always be open, and welcome the Royal Highness of the Emperor at any time...

This is nothing but a blockbuster, enough to fill the three cosmic planes, all of which are fried in the outer focus!

The reaction of the first cosmic slaves and hundreds of people need not be said more, the news spread to the first universe, and the whole race is instantly lost!

Even some of the fans of the emperor have been shaken and lost their silence.

However, more people are still supporting the Emperor Xuan, pointing out that this is just the suspicion of the Tianzu people. The purpose is to confuse the audience, and to make the third universe, and even the entire Wanluo Federation, even more chaotic!

However, no matter what kind of views and opinions are held, the countless human races of the Third Universe, at this moment, the eyes of the gathering place, no doubt, all point to the same star field.

In that star field, Xuan Huangzi and the Federal Inspector General Long Kui, are chasing and fleeing!

Chasing, like crazy, not refusing!

If you escape, you will be shackled like a dog of a family, and you will be embarrassed!

In fact, it is paying attention to the eyes of the star field, obviously far more than the Terran of the Third Universe!

It is the Federation of the Second Universe and the Heavenly Earth of the First Universe and its servants and hunters, all without exception, all closely watching all the news related to this star field from the Third Universe!

Nobody knows what the subsequent development of this emergency will evolve into!

However, this question has long been unknowingly affecting the heartstrings of countless powerful people in the three cosmic planes...

.....

Ye Xuan, who is a party and even belongs to the event leader, has no knowledge of it all at this time!

He didn't even know that Long Kui had already been in the process of running out of life, and he was the result of the fine-grained traits of the celestial family. He was arbitrarily ruthlessly and officially reported to the Federal Institute of Supervision.

Of course, even if you know all about it, Ye Xuan doesn't care.

When he decided to use this high-profile, tough way and means to rescue Neapolitan and Xuanyuan Ziyang, it was expected that this situation would occur!

From a certain point of view, this is actually what Ye Xuan hopes to see. His purpose is to look at the immortal dynasty through the final result of this incident, and it is very likely that it will soon The emperor who is secretly calculating, and the high-ranking elites behind it, are all in a state of mind!

If you want to say that it is the next Ma Wei, in fact, it is not bad, at least Ye Xuan will not deny!

As for the final result of this incident will be...

At this point, there may be countless strong people in the three cosmic planes secretly guessing and analyzing, but for Ye Xuan, he has already made sure that he has been determined before the official action!

Right now, what he needs to do and what he is doing is just to turn the result of this suspense into a little bit of a given fact.

In this regard, Ye Xuan has a well-thought-out, so in the past day and a half, although the Thunder is like crazy, he has always maintained a full-speed quest for full load, but Ye Xuan, who is in the top command post of the Thunder Fortress, Emotional aspects have always been calm.

Even the control of the Thunder Fortress was temporarily transferred to the hands of Zuo Fengtai. As for Ye Xuan himself, he sat down on the sofa in the command area lounge area and took out a small pile of star nuclear sources. I'm busy sneaking and starting to practice...

According to the calculation and analysis of the phagocytic system, in order to maintain the current speed of the dog, it is necessary to reach the range of the anti-material dead-light cannon in the front, and it takes at least three days or more. For the strong people of the human race, it seems to be meaningless for three days, just passing by, and not practicing.

But for Ye Xuan, the three-day cultivation of the whole force is enough for him to cultivate the realm and break through a small step again.

I am still idle, while walking the dog, I can also carry my own cultivation to the fourth stage of the planet. Why not?

This is the true idea of Ye Xuan's heart, without the slightest humiliation, but fortunately Longkui has no way of knowing, otherwise it is definitely the rhythm of spurting on the spot...

Chapter 3088: Fox smells coming

Previously, when I used the ancient gods to smash the sky bow, although Ye Xuan had prepared, with a large number of star nucleus sources and multiple crystallizations as kinetic energy, it was collected in advance and stored in the phagocytic system.

When the was activated, it was delivered at the first time and injected into the golden small bow.

Therefore, the cultivation of his body, the spiritual strength, the power of blood, the vitality, etc., this time is actually not too much, far from the last time in the Forbidden Realm, enough The extent of breaking and standing.

But the effect of tapping potential is still there!

For this reason, taking advantage of this opportunity, such as the first suppression and then the promotion of cultivation, in Ye Xuan, it is just the best time to break through again!

that's the truth!

The last hour of the third day has just passed, and the source energy of the star nucleus from the phagocytic system has completely stopped!

Ye Xuan's heart was loose and opened his eyes.

In the next moment, a familiar system prompt sound came from my mind: "Hey, congratulations to the host, the realm is elevated! The current realm: the fourth stage of the planet!"

"A few more hours, can you catch up with the range of the dead light cannon?"

After getting up from the sofa, Ye Xuan's temporary control of the Thunder's fortress was collected from the hands of Zuo Fengtai, and the cave was sacrificed and ordered to enter.

After all, he is the great commander of the Devils outside the tribe. He is already a high-level of the Devils. Even though he has become the demon slave of Ye Xuan, he is still not suitable for the third universe. At least for the time being!

Anyway, the original point of Ye Xuan's account is not only one of them, but he has no regrets and helplessness!

After the cave was removed, Ye Xuan turned to sweep the huge virtual screen of the top command bay of the Thunder Fortress.

The screen is a dark endless stream of stars, with a starry sky, dotted with countless stars of varying brightness.

In front of it, a huge mysterious star like a nebula is visible. There is one of the more than ten space wormholes on the main channel of the dynasty starry sky from the sky to the immortal star.

In the past three days, Longkui's Federal Fortress and Ye Xuan's Thunder Fortress have chased and escaped. A total of three wormhole jumps have been completed before and after. The distance is long and short, but at least far beyond the Star Fortress. The limit that can be reached.

Otherwise, it is meaningless to enter the wormhole and expand the space space jump in this plane.

The nebula like a nebula in front is the entrance to the fourth cosmic wormhole. In fact, it should be regarded as the fifth place. The wormhole closest to the sky star was not counted. The hundreds of thousands of miles of the Star Fortress are coming from there!

At this moment, Long Kui's pale blue federal fortress just arrived at the entrance edge of the wormhole in front of it. Without hesitation, he plunged in and disappeared.

After the Thunder fortress followed, it broke into the wormhole entrance after a minute and twenty-three seconds!

Although the wormhole jump is not a normal interplanetary voyage, the speed of the jump is slow and slow, and it is also related to the performance of the warship.

Whether it is a warship, a fortress, a starry fortress, the same wormhole, entering from the entrance of this one, drilling out from the exit at that end, even if two warships of the same rank, the time spent in

this process is absolutely It can't be exactly the same, there is always a speed difference, even if the gap is very weak!

At present, the distance between the Thunder Fortress and Longkui's federal fortress is only one minute and twenty-two full-speed voyage. According to the analysis of the phagocytic system, this 23-second gap, the Thunder Fortress can be fully In the explosion of this wormhole, wipe it out!

Even slightly exceeded!

The wormhole jump distance is not too close. Even if it is a starry sky fortress, the time spent in the wormhole will reach nearly three hours when the hopping device is fully loaded at full capacity.

The performance of the space hopping device of the Thunder Fortress, although only slightly stronger than the Longkou's federal fortress, can even be neglected, but the six-hour jump is only going to be between the two sides. The distance is shortened by one and twenty-three seconds, which is obviously stress-free!

The analysis result of the phagocytic system is actually two minutes and three seconds!

That is to say, Ye Xuan's Thunder Fortress enters the wormhole with the foot of Longkui, but when this wormhole jump is completed and reaches the exit of the other end of the wormhole, the Thunder fortress will silently surpass each other, in advance forty. Second rush out of the wormhole exit...

Forty seconds, enough Ye Xuan to complete some necessary arrangements in the void near the other exit of the wormhole!

"This time you see how you can escape!"

In the middle of the flash, the mans flashed, and in a whisper, a touch of smile, slowly began from the corner of Ye Xuan.

In the last six hours, he was not idle, his mind was flying, and he had to reconcile everything. After confirming that there was no omission, Ye Xuan even started preparations for forty seconds. Too rich!

.....

"Hey..."

The emptiness of the void, and it is a horrible high frequency, far beyond the limit of the space oscillator equipped on the 10,000-meter-diameter fortress.

This is clearly the spatial shock effect produced by the super oscillator on the Star Fortress, and it is still full of horsepower, full load!

The spatial turbulence effect of this intensity is the 10,000-meter-diameter bastion. It will also fall into the extremely sticky mud, and ordinary navigation is unsustainable.

The general three-kilometer star-rated warships are directly shocked to the flameout.

Not to mention the star-rated warships of the captain of the kilometer... The quality is a little bit worse, it is estimated that it will take a long time to disintegrate.

As for the 100,000-meter starry sky fortress of the same class, although it is not difficult to move, it is so unpredictable that it enters a void with such a strong volatility effect, even if its original state is extremely fast madness, and when it enters the turbulent region, its speed, The same sudden drop of 70%.

Only the remaining 30% of the speed is also ups and downs, like a leafy boat floating in the cusp!

This is the situation at the Federal Fortress of Longkui.

Just rushed out of the wormhole, I encountered such a scene, let him all blow up!

In this case, the fool can guess, who is outside the wormhole, and who has also opened the fortress-level space oscillator... Long Kui did not think that Ye Xuan might go back in this wormhole jump He even

did some preparatory measures to deal with it, but he never imagined that the other party actually used this kind of damage.

What is the difference between this special and a large basin of oil on the doorstep? When I go out, I have to plant a rhythm of four-pronged, and it's just a shame!

In addition, because it just rushed out of the wormhole, and then immediately entered the turbulent area, the speed dropped by 70%, the effect is clearly the starry level of sudden sudden brakes...

Therefore, while the entire federal fortress hull was stagnation, a large number of federal ombudsmen in the top command cabin were even more upset, and the bones rolled down!

At the moment, there are at least five or six on the body of Longkui. I don't know which guy actually has a body odor. The face that is smoked is green, just want to marry her...

Chapter 3089: Must die

As the federal fortress rushed out of the wormhole, because the speed of the space shock was instantaneously blocked, resulting in abrupt braking, the entire federal fortress was chaotic, even the top command post was like a pot of porridge, all people were full The ground rolled and shattered into a pile...

However, this kind of chaos did not last for a long time. After all, it was a starry fortress. Although it was still under the influence of the spatial shock, it was the first kind of accidental panic caused by the sudden braking, in just a few tens of seconds. Disappeared.

The whole fortress is still swaying, but it is no longer enough for people to stand firm.

Longku, who was covered in green, climbed up and snarled in the first time: "Damn the celestial family! The \*\*\*\* dragon Xuan... And, among you, who has a body odor? Damn, the active station Come out and get out of the top floor immediately! Otherwise, look back and wait for Laozi to find out, hehe!"

It was this thing that was first investigated after he got up. All the federal officials around him looked at each other and looked dull.

Xuanyuan Zijing and Napoli were both blindfolded, and they didn't even bother to look at it. The sights were simultaneously swept away to the huge virtual screen not far away.

They obviously can't understand the feeling that Long Kui was almost smoked to almost reach out and lick his neck and kill himself alive!

Although the previous emergency brakes were too late, they were sitting on the sofa, and they just turned to the direction of the Federal Fortress. They were blocked by the sofa, but they were not like most other people. The horrible inertial force was planted on the ground and rolled into a pile.

In the crowd, a federal official quickly retracted his neck and quit the top command cabin. This is obviously the unlucky one with a body odor. Looking at his pale face, he must have realized his ending, just leaving the top. The command cabin is obviously impossible.

The matter has to be counted back, but the small life is not guaranteed, the light, will also be expelled from the supervision, it is over!

As the person left, the chest was still violently ups and downs, and the more ruined Longkui temporarily threw the matter behind his head, and his eyes quickly swept toward the holographic virtual screen.

Then he gave a slight glimpse, even when he laughed: "Is it a fat man, but I dare to use this trick? Is it really scary if I am scared?"

What is shown on the huge virtual screen is the scene of the void in front.

Thousands of miles away, a silver celestial fortress was blocked in front of it, behind it, three 10,000-meter-diameter demons scouted the fortress.

On the left and right sides of the void, there are countless mosquitoes and worms, and the federal fortress that just rushed out of the wormhole is surrounded by water.

Either go back and return to the wormhole. Otherwise, no matter which direction you choose to break out, you will encounter the power of interception. Together with the effect of the extreme shock of the space, the possibility of escaping from this area is basically equal to zero!

The current situation is exactly the same as the one that has happened before.

Blocked with a strict federal fortress, it is still impossible to immediately blast out the dead light cannon, but the opposite of the Thunder fortress towering in the sky, but the opposite.

On the surface, it is precisely this point that Xuan Huangzi relies on!

Unfortunately, the same method, the first time you can use, the second time you use it, the effect is not necessarily!

At least today's Long Kui does not care, he has already had a care in his heart!

Calculating the time, the supervision fleet of the Federal Supervisory Authority of the immortal star should also arrive. If there is no accident, it will be able to arrive here within two or three hours.

By then, with the advent of the inspection fleet, everything will be solved.

What Long Kui needs to do is just to delay the time as much as possible.

"You should be able to guess that the fleet of the Federal Supervisory Authority is coming to the side of the immortal star. If there is no accident, most of it will arrive soon..."

Stepping out of the top hatch of the fortress, Long Kui stood in the void, looking at Ye Xuan, who was waiting in the distance for a long time in the distance, and he was very confident: "So, advise you to take them before they have arrived. Get out of the way! Your own life can't be saved, why bother to be so emotional, worry about the lives and deaths of others?"

"Don't tell me what to kill, no matter where you are, I can guarantee that neither Naples nor Xuanyuan Zizhen will be spared. This threat has already appeared once, and I can't be prepared."

"In addition, the kind of magical power that you used before is amazing. It really can hurt the deputy inspector. But the consumption of this supernatural power must be no small? At least it will not be completely restored in a few days! Don't want to take it. Deaf people, I saw that you are bluffing, and you will end up early!"

"Hey, if it's not lazy, it's a waste of effort and a dying person, delaying the time! Even these words of advice, the uncle is lazy to tell you, my good dear, this time... you are completely finished It!"

"Ha ha ha..."

When it comes to pride, Long Kui's feelings are hard to suppress, and he is actually laughing up.

This time, he made a great contribution, and he will definitely go further at the federal headquarters in the future. If he can remove the deputy word in front of the official cap on the head, he will become one of the several deputies of the federal headquarters of Varo. At that time, it will be immortal. The dynasty can't take it anyway!

"You are right!"

Opposite, in the void of thousands of kilometers, Ye Xuan still squats on the huge scoop of the eight-star king's scoop, carrying his hands and looking indifferent.

After listening to Long Kui's words, he even grinned and shrugged his shoulders, showing no pressure: "But there is a slight difference between them. I can't dare to blast the dead light cannon. Use it again, but the latter... is not a card in my hand!"

"Even even the means to send you to the West, the same is true! Want the Emperor to use the cards? It depends on you... not worth it!"

"call out!"

When the last word was exported, Ye Xuanxin waved his hand, and a faint \*\*\*\* color rushed out of his palm with this movement, and immediately spurred away, and the sound of breaking the air screamed.

This \*\*\*\* color is the soul of the blood!

In the last wormhole jump, Ye Xuan had once again got a mysterious brand that could drive the blood corner from the headless baby.

It can be said that the death of Long Kui, in fact, as early as that moment, has already been prematurely early!

After the \*\*\*\* color of Manshang rushed out from the right palm of Ye Xuan, the wind will rise, and the speed will be almost the fastest. Basically, it is no different from the broken void.

In a short period of time, a huge \*\*\*\* horn, has been squatting on the head of Long Kui, a horrible pressure that even his heart is splitting, and the bang slams down, and instantly imprisons his body. Shape, let alone stepping forward, at this time, it can stand upright without squatting. In fact, it is because the muscles of the body are completely stagnant and the knees cannot bend.

"This this....."

In the pale face, Long Kui even smashed up, he knows, this time... I am afraid that it will die!

Chapter 3090: Bombing

"Hey..."

A fierce scream of screaming sounded like a fierce thing in the world, and the \*\*\*\* corner of the scorpion above the head of Long Kui suddenly shocked.

"boom!"

Almost at the same time, under the pressure of the blood corner, the body was completely banned, and there was no suspense to blow up the whole flesh and blood. Before he died, he didn't even have a complete last words to say. .

Then, the flesh and blood of this awning quickly slammed into the fog, and it seemed that there was a huge force of smashing, and they all sucked into the \*\*\*\* corner of the soul.

"call out!"

After doing all this, the blood corner didn't stop. After a slight hovering, the first time I returned to the original road. After I couldn't breathe, I turned into a faint blood color, and I fell into the body from Ye Xuan's chest position. Completely disappeared!

Less than three seconds before and after the whole process, like a glimpse of a glimpse, but the blood of the soul in the short less than three seconds to complete the results, but enough to shock the world.

A supreme being, who has the eleventh state of the realm of Xuanguangjing, is so easy to disappear!

It's easy and casual, killing an ant, but it's just that!

For this, even Ye Xuan was surprised.

Although he decided that Long Kui must die this time, there is no life, but the blood of the soul kills a black light, but the same can be done so easily, but still some are too shocking.

After all, the strongest person it had crushed before was the nine-star sculptor in the black hole of life, the existence of a virtual environment.

Don't look at the gap between Xuanguang and Dongxu, but the difference between the two adjacent realms is more obvious. Even the small steps in the same big realm can be judged.

Rolling the hole in the virtual environment, and crushing the black light, is completely two concepts.

"It seems that the Emperor's previous estimate of the strength of the \*\*\*\* corner is still a bit too conservative!"

After a moment, Ye Xuan smiled and shook his head, muttering to himself: "However, the opponent changed from a virtual environment to a black light, but it was crushed without any suspense, and even the time spent was more short-lived. It's not scientific. Is it the power of the blood horn that has been raised? The baby corpse has been cultivating it all the time?"

"In addition, the previous nine-star scoops seem to be so absorbed. Today's means are a bit cruel, directly causing each other's spirits to burst into flames, turning into flesh and blood, a whale swallowing... Could it be affected by the baby's body? "

At the same time, in the top command post of the Federal Fortress in front of the void, a large sound of cool air rushed and rang out!

All the people were wide-eyed and looked at the huge virtual screen of the top-level command module.

Through this virtual screen, they saw a strong black light, like an ant, in just less than three seconds, they were completely crushed.

The spirits are gone, and in order to fuel the flesh and blood of the slaughter, the hair has not been able to leave half a root!

"Oh my God, this is a mysterious light!"

After four or five seconds of sluggishness, Xuanyuan Ziyang finally closed his mouth, but the dawn in his eyes was more complicated. He muttered his own words and shook his head and sighed.

Suddenly, she has a strong sense of self-deprecation. Xuan Huangzi's supreme existence of Xuanguang's environment can be instantly spiked. Such horrible strength and means, there is no sinister danger in the magical universe of the first universe. Was the previous worry been wasted?

Neapolitan on the side obviously has the same feeling. When Xuanyuan Ziyang's sighs sounded, he also returned from the stagnation, and the look on his face quickly turned into a sly, even reddish, obviously a little embarrassing.

Before, he had always had the smugness of this kind of rescue, but now it seems that this is self-deception.

The devil of the Devil's Star Field, Mo Huang, asked Tian Tian, but it was only the cultivation of the tenth realm of the virtual world. As long as Xuan Huangzi did not die, he went to the Tianzu machine nest in the first universe to go toss. No one can easily pinch him.

Even if a high-ranking celestial family who was repaired above the black light environment came to the devil's star field, wouldn't the princes beat it?

Just the amazing \*\*\*\* giant horn, just enough to delay the time.

"The so-called rescue operation of this half-day is totally meaningless in the eyes of the emperor's adults. Maybe it still feels disturbed by us, and I have not been able to enjoy it!"

Turning to the Xuanyuan Ziyang, Naples was a bitter smile, and the conversation had already waved, and an invisible force wrapped the former body, and he took the federal fortress directly in the step, appearing outside the ship. The star river is in the sky.

The only strong man in the entire federal fortress is Longkui, and now with his fall, there is no longer any existence here, and Neapolitan can be left behind.

In fact, he was able to go at any time, but because Longkui and him are the third-order existence of Xuanguangjing, Naples simply did not know that under the interception of Longkui, he successfully left Xuanyuan Ziyang.

In addition, Long Kui did not get the Xuan zizi is the ironclad proof of the genius of the Tianji, and they do not need to forcefully leave, really want to be like that, instead of falling down on the handle, fleeing like a sin.

But now it is different. It must be merged with the Emperor of the Emperor immediately, and then the follow-up remedy policy. Long Kui is not only the top executive of the Vatican, but also the deputy chief of the Superintendent, and the royal family of the immortal dynasty. , carefully calculated, clearly is the uncle of Xuan Huangzi!

With his death, this matter has completely become a big problem!

Under the trepidation, after Naples took the top-level command cabin of the Federal Fortress, there was no pause. Even if the figure was unfolded, it would swiftly move to the distant void, and after a short time, it was already in front of Ye Xuan.

The three met again, but there was no speech. Napoli smiled, Xuanyuan Zixiao sighed, but Ye Xuan, but nothing happened. He laughed at the two people and grinned: "How many days? You won't be like this." I'm going to have a relationship with Long Kui's goods. He's dying, are you so ruined?"

This is naturally a joke, and Ye Xuan did not say much. When the voice did not fall, he turned to the mosquitoes and soldiers of the distant sky and gave orders to the troops.

His purpose is only to rescue Naples and Xuanyuan Zizi, although it is somewhat convenient to kill Longkui, and to introduce some hidden dangers in the future, all the bones and brains are resolved.

But now that Longkui is dead, the effect is enough, and naturally there is no need to continue to make trouble.

It's okay to die a dragon, but the federal fortress in front must not move. Otherwise, even if you can resolve it afterwards, you will be left with an indiscriminate impression. It is unwise!

In a word, the matter of the office is over, first withdraw.

"Booming!"

"boom....."

Just at this time, going to the void of the direction of the immortal star, a few huge roaring sounds suddenly sounded without warning, and the Senlan fleet that came from the rescue finally came!
