Chapter 3091: Senlan Fleet

Although the headquarters of the Federal Republic of Venezuela is located in the immortal star, in fact, the status of the Federation is super-existing on the immortal dynasty.

The entire Vatican Federation is a behemoth composed of the first universe and the countless other ethnic groups in the Second Universe. Even if it is not mentioned in the second universe, it is only in the first cosmic plane, it nominally dominates the two camps of the human race's technology and comprehension.

The significance of the existence of the Federation of Van Loo is against the heavenly family.

During the war with the Celestials, the Federation had the right to draw military power from all the ethnic groups in the alliance, but in the period of no war, whether it was the two camps of Terran technology and comprehension, or countless other federal races in the Second Universe, It's all about the family, and the federal government doesn't intervene too much.

However, even during the non-war period, the hands of the Federation of V. Luo also controlled a powerful fleet.

The Federation of Varo is only a federation, and it does not have its own jurisdiction. Even the federal headquarters located in a certain area of the immortal star is only borrowed, owning, and not belonging to the Federation of the Vulcan.

Of course, in fact, it can be said that the entire first universe and the second universe can be regarded as the land of its jurisdiction, and it is only a matter of opinion!

An institution or a force, independent of its jurisdiction, independent armed forces, must be guaranteed to exist!

Otherwise, this institution will not exist, and it will not be able to effectively demonstrate the meaning of its existence.

The Federal Fleet, which is in the hands of the Federation of Venezuela, was formed by all the members of the two cosmic planes in accordance with the strength ratio and at the beginning of the establishment of the Federation.

The size of the entire federal fleet is not bad, and it has a strong fighting power!

Although all the warships of the entire fleet, including the service personnel in the warships, are from countless enlisted ethnic groups and forces in the two universes, the command authority belongs to the Federation of Wanluo.

Only the federal headquarters can be mobilized, and any other ethnic group, even the immortal dynasty at the headquarters, can't interfere.

There are eight major colleges in the entire federal headquarters. The supervision institute is one of them, and it belongs to the more powerful faculty. After all, it is the supervision department, and the authority attribute is placed there.

The Senlan Fleet is a branch of the entire Federal Fleet, which is administered by the Supervisory Authority and is equivalent to an independent internal inspector.

The reason why it is called the Senlan Fleet is because this warship, which is only dispatched by the Federal Supervisory Authority, all the warships, including the military uniforms of the fleets, are blue and black, and are the ultimate deep. Blue.

In addition, since it is the internal supervision force, or not to shoot, a shot, must be an iron-blood wrist, giving people a feeling of cold and ruthless.

The word "Sen Lan" will come from this!

Looking around, in front of the void, a huge battleship is in the eye, without exception, the hull is all the ultimate dark blue.

This is enough to illustrate their origins. It is the action team of the Senlan fleet in the hands of the Supervisory Academy.

Since they belonged to the Federal Supervision Institute, they came to the brink now, apparently because they were instructed by the Inspector General and the Great Emperor Long Yao.

Neither the federal headquarters nor the immortal dynasty has the right to interfere in this matter.

That is to say, all of this now belongs to the independent action of this department of the Supervisory Academy. It does not represent the attitude of the Federation of the Vatican, and it does not explain the position of the immortal dynasty.

As long as this premise exists, the state of affairs is still within the controllable scope. At least Ye Xuan thinks so, so even at this moment, he is equally determined and calm, without any confusion.

"Two Star Fortresses! Eight 50,000-meter-diameter star-class fortresses! Hehe..."

"The dragon and the old ghost are really big. If you add the one in front of the wormhole, isn't the prince a one-on-three, and by the way, add eight sceptical little fortresses?"

Looking at the front of the sky, I just finished a space jump. At this moment, the array is approaching. The slamming of the Senlan fleet, Ye Xuan's lips slowly outline a sarcasm, and sneer: "So the **** and fierce suppression Potential, my great emperor has to wait for the emperor to finish, can he do it?"

"Unfortunately, this time I am afraid that the old eyes will be dim, and I have to kick the iron plate. This prince is not a soft persimmon that is squeezed by anyone. At least, just a few star fortresses are far from enough!"

These words, Ye Xuan just muttered to himself, and did not bring any emotional color at all, but passed to the ear of Neapolitan and Xuanyuan Ziyan, but it was no different than the thunder and thunder, and instantly Let them open their mouths and look at Ye Xuan with a blank look.

I am bitter, and I am persuaded!

"The emperor ... the emperor of the emperor, you do not want to stay and the other side hard to consume it? I drop a slap, do not say that we can not fight, the consequences of doing this, it is absolutely ruined."

"Yes, I can't go on anymore. Now it's just a death of a dragon. It can be remedied. But if we fight with the Senlan fleet, it will be a complete break with the federal. The third universe is big, it will be There is no place for you!"

"Impression is the devil. If you do it, you will regret it! Emperor, restraint! Be sure to restrain..."

"Let's go quickly, don't go, if the other party fires first, then it's too late to go, and they have to prevent them from using this kind of sinister trick. Maybe the supervisor of the inspector is just playing this kind of abacus, regardless of the abacus. Everything, first force them to commit the crime of constituting them..."

"Play is a play, although I am not afraid, the key can not be pitted, it is too embarrassing..."

Xuanyuan Ziyan's bold speculation made Napoli's deep thoughts. He took the words and immediately nodded like a chicken and a glutinous rice. It seemed to be worried that Ye Xuan would not eat this set. The words actually started a roundabout, and even the steps were given to Ye Xuan. Ready in disguise.

It's just that the latter doesn't mean to squat down the slopes.

"The right thing to say is that the feeling of being pitted is really uncomfortable. We can't eat this kind of loss, it is too wrong! So..."

The look on his face is still the same, Ye Xuan smiled and turned his head and glanced at Neapolitan and Xuanyuan Ziyan, respectively, and the words spoken in the mouth of the Neapolitan language, and even the two people had already hung in the eyes of the blind. The heart, instantly fell back to more than half.

Unfortunately, the following second half of the painting style changed instantly. Ye Xuan spoke and gasped. On the spot, the two men of Naples were shocked again. Just like the thunder was smashed, the whole person is not good!

"So don't let them fire first!"

"If you want to fight, you have to do it first, and you must not let them grab the opportunity!"

After the last sentence, Ye Xuan's body shape has disappeared from the original place, and he stepped into the Thunder Fortress. This is clearly the rhythm of the order.

With this thought in the brain flashing, the petrochemical Napoli and Xuanyuan Ziyan two people form a shock, excitedly shuddered, so that finally returned to the soul, face madness, panic tight Go after it...

Chapter 3092: Hongdu Lifeng

This Senlan fleet is indeed the dean of the Federal Institute of Supervision, that is, the grand emperor Long Yao of Longxuan personally signed the order and mobilized.

However, as the court esteem of the Supervisory Academy, the dragon prince of the immortal dynasty, and the sacred existence of the immortal dynasty, and a transcendental realm that has entered the twelfth realm of emptiness, he naturally cannot bring it personally. The team came.

The temporary commander of the fleet responsible for this mobilization mission is another deputy inspector of the Supervisory Academy.

Yes, Long Kui is just one of the several deputy inspectors of the Supervisory Academy. Like the giants of the Wanluo Federation, its headquarters is only eight faculties, and the eight deputies are detached. Basically, they only have some major decisions. In terms of the status, it is only a decision, and the specific affairs are actually done by the deputy.

Therefore, no matter which department is the dean, it is absolutely impossible to set up only one vice-ministership, and decentralization, at least to ensure a balance, a few deputies, mutual checks and balances, when the honor of the hospital in stomach.

The other seven federal departments do not talk about it. It is the Federal Inspectorate. The number of deputy inspectors established by Long Hao is as many as six.

One of them is basically vacant for a long time. This is naturally deliberate. If you leave an empty space there, you will be more motivated to supervise all the officials under the deputy inspector general.

Among the five deputy inspectors, the Longkui is one of them. This time, the dragon's deputy inspector, who is the leader of the Senlan fleet, is the capital of Hongdu!

This person's appearance is a middle-aged strongman between the four and five and ten, short-haired, long-haired, quite handsome, not happy, but always gives a sense of maturity and mature atmosphere. Also not bad, slightly stronger than Napoli and Longkui, the existence of the fifth-order of Xuanguang.

Among the five deputy inspectors, Hongdu ranked first in the wind, and it is really necessary to calculate it. He is the first confidant of Longzheng.

Even with Long Yao, Long Kui, who is a descendant of the imperial royal family, is not so popular in front of the court.

Only this will show its means and capabilities!

In the same way, from the Long Yu this time is the Hongdu Lie Feng, but also can see from the side that his willingness to win, it seems that the fear of changing other deputies, will let his imperial sneak out of the net.

At this moment, the Hongdu Liefeng is standing in the top command cabin of the Senlan Blue's flagship fortress, Li Fenghao, and frowning to watch the replay of a holographic image.

This image is only a short ten-second period. From the **** corner of the soul to the head of the dragon, the dragon has begun to go to the steep shock of the figure of Napoleon and Xuanyuan, and the face is fading. After Ye Xuan, he entered the Thunder Fortress and his body shape disappeared!

At that time, Li Fenghao was far away from the tens of thousands of miles away, but it was not difficult to record this holographic image through some hidden means. Don't forget, here is the third universe, the territory of the Federation of Viro. It.

This holographic image of just a dozen seconds is now the thirteenth consecutive replay. The previous twelve replays, Hongdu Liefeng looked as serious as it seems, just want to be short. Looking for a certain kind of bead in the holographic image of ten seconds!

This alone is enough to prove that Long Hao is not accidental about his weight.

The revision of the fifth-order of Xuanguang may not be anything at the federal headquarters in Wanluo. It is definitely stronger than him, and it is still quite a lot.

However, when he is at this level, he still maintains a normal heart like him. No matter what the situation or the accident, he is as turbulent as the same pool of water, without the presence of emotional fluctuations. I definitely can't pick the second one.

In exchange for any other deputy inspector, I suddenly saw the scene of Long Kui being spiked in an instant. I am afraid that it will always be a bit surprising or unexpected, but such a scene has been watched 13 times. The expression and breath on his face were always quiet, even the dawn, and there was never even a slight flicker.

At this moment, just at the end of the thirteenth replay, his deep bottom of the bottom, finally pulled out a touch of fine, hidden with a happy meaning, clearly have gained.

"I immediately connected the federal main network signal. After the completion of the direct connection with the supervision institute, I said that I have important information and need to report to the Inspector General personally!"

With the ruthlessness of the bottom of the Loudi, the Hongdu Liefeng turned to look at the correspondent officer on the side and issued a new order.

"but....."

The communications officer glanced at the other holographic screen subconsciously and subconsciously asked: "What about the silver fortress in front? We just entered the range of the fortress-class main gun, and the dead light cannon is also needed. For a certain time, in case the other party fires first..."

The implication is that this is a euphemistic inquiry about the Hongdu Liefeng. Whether it will be immediately ordered to fully recharge, and the rhythm is also released.

Although I am a little busy, and even overtake the suspicion, but people are still in the bureau, worrying about their own life, more to keep an eye on, it is understandable.

"Do it according to my orders, don't ask any other questions! Go and execute..."

Hongdu Liefeng still had no expression on his face. He just swept the first contact of the communications officer again, but he quickly moved away. The light was still the same and his tone was still calm: "In addition, this is your last execution. The order issued by me personally! After the completion, leave the top command cabin. After that, don't appear in front of me again, so you should live a few more years!"

The communication officer was in a stagnation, and he was chilling. The presence in front of him, in such a calm tone, said that the killing was undoubtedly unmistakable, and there was no disguised discourse. It is not the first time, but only this time is related to himself. The fear is naturally far different.

Under the cold, the communications officer did not wait for the end, he had already fled and fled, and hurried away!

.....

Soon, the federal main network was successfully connected, and the satellite network signal was connected to the personal communication terminal of Hongdu Lifeng. Almost immediately, Hongdu Lifeng waved a simple isolation enchantment, all the shadows in the enchantment. Elephants and sounds, even the breath, are completely gone, and there is no way to sense them.

Twenty-seven seconds later, when the isolation enchantment was removed and its figure appeared again, this mysterious star network communication was clearly over, and Hongdu's face still could not see the slightest change in mood. Even if the second order is issued: "Immediately send a call request to

the front fortress, remember, it is a request! The wording must be respectful, don't forget, people are Xuanhuangzi, just like the day..."

This time, in the tone of the Hongdu Lifeng, there is a clear and faint ridicule of ridicule, and the side of the listener has just succeeded the former communications officer, dumbfounded on the spot!

He couldn't be sure if the Hongdu Liefeng said it was the opposite! But I dare not ask for confirmation. At this moment, the whole person is about to collapse...

Chapter 3093: Taste of conspiracy

For everything that happened in the top command cabin of Li Feng's flagship fortress, Ye Xuan was unaware of it and didn't have that interest. At this moment, he had just finished coping with the endless robbers of Napoli and Xuanyuan Ziyan. Just want to fire immediately to fire, first give the other party a command of a dead light energy beam to open the stomach.

The call request from the flagship fortress of Liefeng was also received at this time by the star brain of the Thunder Fortress control center.

As I said before, the Thunder Fortress is produced by the Tianzu people. Under normal circumstances, it is only necessary to sit in the whole fortress and have a self-conscious person who has given birth to the self-conscious people. It can also guarantee the normal and efficient operation of all functions of the entire fortress. .

Therefore, the top-level command module of the Thunder Fortress has no communication officers and the like. At most, some high-intelligent robots are used. The entire fortress is basically in an automatic mode.

In this mode, Ye Xuan, who has refining the starry sky as the central control center of the fortress, can issue any instructions only when he is in the middle of the battle, even if he is in the cabin of the fortress.

But the same, if the general control center receives any active network signal, no matter where it comes from, and whether Ye Xuan is willing to accept it, as long as he did not specifically say hello in advance, the starry sky will be the first time. The received ditch signal will be transmitted to Ye Xuan!

In addition, with the request sent by the ditch and the signal, the Thunder's starry sky super brain also completed the automatic reading by default, and it was also passed over at the moment, in a word in Ye Xuan's brain. It's impossible to show up, want to reject it!

"Rely! I forgot this! I almost let the other side drill a hole, and asked no questions. The signal attachments sent directly appeared in the mind of the emperor. Fortunately, it is not a mouthful, but the emperor is too late to guard against it. Suffering from this catastrophe, can't you die on the spot?"

At the same time, Ye Xuan mouth squatted, and also passed the new instructions to the fortress super brain, and then turned to look at Naples: "Hongdu Lifeng, do you know this? A communication request came over, and the message also contained a few postscripts. The tone of the word was respectful..."

"Not only lowering the attitude, taking the initiative to show your identity, and opening your mouth is the honorary name of the emperor. You even said that you even said that the inspector of the federal headquarters only asked the emperor to go back and cooperate with the investigation. He has absolutely no intention to offend. Finally, I also ask the Emperor to be more considerate!"

"Hongdu Lifeng?"

Napoli heard a sigh of relief, and took a sigh of relief, his face immediately dignified a few points: "Others are better, if it is him, it is impossible to lower the posture so respectful, among them, fear of conspiracy!"

"This person is the first of the five deputy chiefs of the Federal Institute of Supervision. Although it is not a royal family, it has won the weight of the dragon. The city is the deepest, the expression on the face is unchanged forever, even the dawn is almost the same. It is said that this For centuries, no one has ever seen any emotional changes like joy and anger on his face. It is definitely a highly dangerous guy!"

"Oh? So it's a bit weird."

Listening to the other party is such a presence, but it is so low in front of him, and the breath revealed in these episodes is so obvious, as long as someone who knows him a little, will be guilty, this point, the other side It is impossible not to understand.

But he still did it!

Is it intentional? So... purpose?

Ye Xuan does not know that this is just a minor misunderstanding that a negligible communications officer has inadvertently made, but at this moment, his curiosity is precisely the result of this misunderstanding.

With his temper, this communication request would have been ignored directly, and nothing else would be said.

But now, with Ye Xuan's interest being successfully attracted, the idea of rushing to the first shot was immediately thrown behind him. After a little indulging, Ye Xuan quickly decided and went to the fortress at the first time. Star Brain has issued new instructions.

That is to accept the request of the other party, temporarily open the restricted permission, let the other party's ditch connection signal enter, complete the communication connection!

"Hangdu Liefeng is it? Hey, this prince wants to see what medicine is sold in your gourd!"

With a grin, Ye Xuan walked down the corner of the command cabin, and sat down on the sofa, waiting for the other party's call signal to be transferred.

At the same time, Ye Xuan's mind is also quickly calculated. In fact, according to his original plan, no matter what the outcome of the confrontation with Longkui before, whether or not this **** fleet is coming, what is the attitude? After the corners have been processed, he will eventually return to the immortal star.

Only when it comes to the immortal star, everything is officially opened, and everything that happens on the way is just an appetizer!

And, no accident, with the end of the upcoming newsletter, Ye Xuan and his entourage to the immortal star, in all likelihood, will also begin immediately.

What about the other party's conspiracy? The prince has the same calculations, and the winner is in the grip, and he is guilty of intrigue. Who is afraid of who?

A touch of light smile slowly from the corner of Ye Xuan's mouth, which clearly reveals a scent of rich and incomparable fun!

For all of this, Ye Xuan has not had time to express his words to Naples and Xuanyuan Ziyang. Anyway, it is still early, and it is slow to catch up. Even if you start immediately, and as far as possible, wormhole jumps along the way, at least for several days. In order to arrive, there is time to tell them about it.

The eccentric face of Naples, Xuanyuan and Zijing, turned their eyes to look at each other, and soon followed the rest area and sat down on the sofas on both sides. Although the matter was different, it was better than saying nothing. It's a good fortune, but it's a blessing in the unfortunate...

.....

In the eastern part of the immortal star far from the endless star river, there is a vast plain that has been loaned indefinitely and unconditionally to the Federation of the Faroese. The central area of the plain stands a huge modern steel city. This steel city is The headquarters of the Federal Republic of Varo.

The Supervisory Institute, one of the eight largest federations of the Federation, is located on the west side of the headquarters of the city!

At this moment, in the deep building of the Supervisory Institute, a cold and screaming sound of endless haze, quietly sounded unscrupulously, and then, monitoring the sound of the words of Changlong's sly, it floated intermittently...

"Hey! Terran Heroes? Federal Idols? I am! A daring, the fake genius of the genius is fine!"

"But it's just like this. With the myth of Xuan's emperor shattered, the whole royal family's amnesty is tantamount to hurting the bones! Under this attack, the existence of that person has to be collected, and the inheritance of the imperial power is of great importance. It's been a long time since swinging, and now it's time for it to settle down..."

Chapter 3094: Make a couple

Like the Emperor Star, the Immortal Star is a royal dynasty, the core of the regime, but the latter is obviously incomparable to the former.

Even though the Devil's dynasty represents a whole group of devils, the immortal dynasty is only one of the two camps of the Terran, but the prosperity of the Terran is incomparable to the Devils. They are only a slave group of the First Cosmic Dominant. However, when it comes to the ethnic population, there is no one-tenth of the human race.

The Magic Emperor is already a relatively large star, and there are two satellite arches.

But as the core of the Terran technology camp, the immortal stars are also far from comparable to the Emperor.

Light is the diameter of the star, and the immortal star is several times more than the magic star. If the general administrative star is an apple, the volume of the magic star can be regarded as a slightly smaller watermelon. As for the immortal star...

Ok, you can imagine how big the basket is for the watermelon, which is roughly the ratio!

In addition, around the immortal star, a total of nine satellites are guarded, all of which are livable stars suitable for human habitation. This situation is almost impossible in the Qixing River, a large nine small ten stars. Squeeze together, all are rare livable stars, how is it possible?

In fact, the nine satellites of the immortal star are all outsiders. It is said that at the beginning of the establishment of the dynasty, the first generation of the immortal emperor of the immortal dynasty summoned some of the top powers, joined hands to display the heavens, and moved from other stars. of.

These nine satellites, either near or far, form a huge array of stars in the emptiness of the stars and rivers around the immortal star. This starry array is also the first layer of the immortal star's huge defense system.

It is worth mentioning that this emptiness star array is changing almost every moment. After all, the nine satellites can all revolve around the immortal week and the movement of the nine satellite stars moves the entire void star. The array is almost instantaneous every moment!

Only then, it is not difficult to analyze the complexity and horror of this void star array.

Nine satellites are the first layer of the immortal star defense system, that is, the nine major deputy eyes of the void star array. As for the main array, it is naturally the immortal star that they are guarding in the center.

The importance of the main line of the eye is not necessary, but the nine satellites as the vice-eyes are also of great importance. The highest commanders of the nine satellites, all of whom are uncles, can be described as the mainstay of the immortal royal family.

The dynasty has been established for many years, and the royal family has been breeding for generations and generations. The sheer size of its descendants is hard to imagine. Not to mention a large number of sideline people, only the lineage of the royal family, the number is terrible.

There are many emperors of the immortal emperor of each generation, such as Longxuan. He is called the old 18, which is the 18th emperor of the contemporary immortal emperor. In fact, behind him, there are many emperors.

The same is true of the immortal Emperor's generation today. The royal family pillars of these nine satellites are all his brothers, and they are relatively strong among the entire royal family.

For example, the two emperors, Tianlong, who went to the first cosmic demon star field with Naples, were the commanders of one of the satellites.

I will not mention the royal family who rarely show up.

Nine uncles sitting on the nine satellites, together with the immortal dynasty stationed at the federal headquarters, and the great emperor of the Federal Institute of Supervision, the ten emperors, these ten people, is the most powerful existence of the entire royal family.

Although there are many emperors of the immortal emperor today, they have already been recognized by him. There are only five who have the right to compete for the imperial power.

Big Emperor Long Xiang!

Two emperors dragons!

Six Emperors Long Yuan!

Nine Emperors Long Dive!

Thirteen Emperor Dragons!

These five emperors are the most powerful of the royal family of Longxuan. They are extremely active. The resources of the royal family are also inclined to supply them to five people. After all, before the black horse of Xuanhuangzi was born, almost all of them. Everyone has already identified one of them, and there must be one who will become the next immortal emperor of the future.

Other princes, not to mention obscurity, are at least extremely low-key. Even if they appear in public occasions occasionally, they will not take the initiative to mention their identity.

The top ten imperial powers have chosen a supporter among the five emperors. Among them, the support of the great emperor Long Xiang is the most powerful, with four people, and the other six are in power, and the other four support the other four. Prince!

Whether it is the infighting between the five emperors, or the secret confrontation between the top ten imperial powers, after these years of running-in, it has gradually stabilized, and the major imperial powers are mutually restrained, forming a delicate balance. situation!

However, with the birth of the Emperor Xuanzi, these several imperial powers are not calm, no matter whether it is the five emperors or the ten emperors, they are all uneasy!

But in addition to supporting the big prince's dragon scorpion and the two princes supporting the dragon tyrants, several emperors and other emperors have remained silent and waited for change.

It was not until a few days ago that the Xuan zizi was the news of the celestial sects from the Federal Inspectorate. These guys were like a group of chicken blood, and suddenly they were in a spirit. All the appointments were restored to their former vitality. Frequent appearances.

Just at this time, a more amazing news broke out again!

The porch, who was born and quickly became popular, was not the real dragon Xuan, a counterfeit goods!

This news is also from the Federal Supervisory Authority, but it is different from the previous rumor that the Emperor Xuanzi is a spoiler. The news this time is the grandfather's uncle, and it's officially inside the royal family. Channels, notified to all members of the entire royal family.

Although the public has not yet been announced, but the entire royal family, but in a matter of moments, it has completely boiled!

In particular, the five great emperors, one by one, jumped up and excited like what, and that jumping is not the effect of playing a few needles of blood, especially when they learned that the fake prince has already counted. After being told by the people of the Great Emperor Long Yao that they were leading to the immortal star, they were even more excited. They were all flexing their muscles and their necks were stretched out. Just wait for the other party to come out and have a bad breath!

On the contrary, it was the immortal emperor, but I don't know why. I didn't react to this news. I kept silent, and I didn't even mean it.

In fact, the news came out, and the immortal emperor went to the National Teacher's Hall for the first time. Then, the light laughter of the National Teacher's Emperor II was passed out: "Yes and No, then I

will know at a glance, anyway, the harem Already have one, make a couple... Oh, isn't it more interesting?"

"Auntie!"

In the back garden of the Meijing Palace, Yingtai suddenly sneezed, and the eyebrows were slightly stunned. Suddenly there was a bad feeling!

Whether she or she is still in the dark, the news of the fake emperor, no one dares to pass here...

Chapter 3095: Planet fifth order

Ye Xuan did not know everything that happened to the emperor's immortal star. At this moment, he is indeed returning to the immortal star. At most, four or five days, he can reach the imperial capital.

A few hours ago, after ending the brief communication with Hongdu, Feng Xuan made a decision, and the three great fortresses, such as Thunder Fortress and Black Mosquito, were all enshrined in the immortal world. Then, along with Naples and Xuanyuan Ziyang, they entered the flagship fortress of the Senlan fleet in the town of Hongdu.

After entering the fortress, the Hongdu Lifeng only politely stayed for a while, then went to the excuses and never appeared again. The Ye Xuan three people just settled in a quiet, after entering a separate suite cabin specially arranged for them, the gate At the same time, let Napoli wave the cloth to cover the isolation and enchantment of the entire cabin, and you can freely speak freely.

"Since Hongdu has not shot the wind, then his purpose is obviously to bring us back to the immortal star. No matter what conspiracy calculations of the dragon, everything will have to wait until we reach the immortal star..."

After sitting down on the sofa in the living room, Long Xuan turned to the Neapolitan and Xuanyuan Zixiao, and smiled easily: "There are four or five days to come, are you going to keep your face so stretched?" Will cramp!"

When Xuanyuan Ziyang turned his eyes, he didn't even stand.

And Naples was shaking his head and smiling. He sighed with anxiety: "Isn't that old minister not worried? It is not intentional..."

"This time to return to the immortal star, the dragon must be there to be difficult, and in his style, either not to shoot, the shot must be different, and the matter of Wen Xing is nothing more than no matter how he is trapped, the facts are facts. We I don't know his true identity, then, who knows that he happens to be in the big fortress?"

"The key is the death of Long Kui. This trouble is not small. The guy is the deputy inspector of the Federal Supervision Institute. It can also be regarded as a federal high-level. Long Yao must be killed in this matter, making a big fuss. It was also the case of the Federation of the Vultures that it was not easy for the emperor to intervene, which made him even more unscrupulous..."

After that, Naples once again shook his head and smiled, and sighed.

"It is nothing to do with Wenxing or the death of Long Yao. Don't worry about it. I have to care about it! The more you dance, the more you jump, the more you fall, the heavier!"

"In short, don't worry about anything, don't worry about anything, just wait for the show to be good. In the next few days, the Emperor will retreat and practice. If you have nothing, don't call me!"

After that, Ye Xuan got up and went to the inner compartment of the living room on the side of the living room. He shook his head and sighed again: "Hey, I am really worried about the bones of his old man. If it breaks, you can do it..."

In the living room, Napoli and Xuanyuan Ziqi both opened their mouths at the same time, watching the back of Ye Xuan's departure, his face was sluggish!

.....

After returning to the cabin and closing the hatch, Ye Xuan even ordered the swallowing system to sneak into the local intranet of the flagship fortress, invade its astral center, and conduct information search!

As for the information of the search, it is naturally related to the dragon, including the communication information of the Hongdu Lifeng and the immortal star.

The reason why this is done is not because Ye Xuan is not confident enough. The words he said to both Naples and Xuanyuan Zizhen are all true. This time, going to the immortal star, he really has already been in the chest, no fear at all.

However, after all, Long Yao is not a general existence. Ye Xuan did not dare to underestimate the enemy. He can learn in advance what the other party's conspiracy calculations are, at least knowing oneself.

Unfortunately, this idea is obviously lost.

The response from the system came out very quickly, but it was not the search information that Ye Xuan needed, but a confirmation request!

The Star Fortress belonging to the Federal Supervisory Authority does not seem to be well dealt with. The Star Brain Center, which is the center of the fortress control, is set up with a special defensive layer. Although Ye Xuan's personal starry communication system can invade, it cannot if you do not leave any traces, you will definitely leave some traces of beads.

If it is in other stars, even if there are traces of intrusion, there is nothing in the immortal domain, because there is an immortal star in the sky.

The central star brain of Ye Xuan's personal starry-sky communication system is also immortal. It used to be a piece of debris. Now it has entered a stage of growth because of the large amount of crystallization energy.

Even so, it is still not comparable to the immortal star of the immortal star. If the latter is regarded as a lion, then Ye Xuan's immortal star that has just entered the growth stage is at most can count as a hare.

Stars and brains are also able to devour each other. The immortal astrology in the growth stage is, in terms of the other side, the best thing to do, and it is impossible to devour countless ordinary stars.

Therefore, regardless of Ye Xuan's immortal star brain leaving any traces, it is possible that the lion on the immortal star will perceive its existence. By then, the lion hunting rabbit must be fully unfolding, with that immortal star brain at that maturity stage. The ability to bear, the vines to check the results, the results are simply no suspense.

In addition, the energy of the multi-remembered crystal is also very tempting for the immortal level of the sky. If you let the other party know that Ye Xuan's starry sky is super brain, it is an immortal star brain in the growth stage, fearing that even he will be implicated in calculation. It is.

Because of the traces left by Ye Xuan's immortal brain, there will always be some breath of crystallization energy. After all, the energy it has recently collected can all be more mourning.

There are many kinds of energy consumed in the starry sky super brain. The star nuclear source and the gene culture solution can be used, but it is just a waste of energy. Just like the daily diet of human beings, eating more, the evolution of life forms is not. There will be any effect.

However, the crystallization energy of the mourning crystal is different. It can greatly increase the speed of the growth of the super-brain in the sky, but this kind of thing is rare in the devil's field, not to mention the third universe of the human race. I really want to let the other party know, I am afraid that it is not a small trouble...

All of this is the result of the analysis of the phagocytic system. After understanding the interests, Ye Xuan can only sigh and choose to give up.

This matter was quickly thrown behind by him!

Immediately afterwards, Ye Xuan took some of the star nucleus from the immortal world and handed it to the phagocytic system to extract energy. Then he sat down on the bed in the cabin and closed his eyes and entered the cultivation closed state.

I don't know how long it took, when Ye Xuan took all the energy and finished it. When I finished practicing and opened my eyes, the familiar system sounded immediately in my mind: "Hey, congratulations to the host, the realm is elevated! The current realm: Planet fifth order!"

At the same time, the cabin door was knocked twice, and the voice of Naples came in: "The emperor, it is coming out! We are only half an hour away from the immortal star..."

Chapter 3096: Royal capital

A moment later, when Ye Xuan and Neapolitan and Xuanyuan Zijing walked out from the inner cabin to the command cabin rest area on the top of the flagship fortress, the Hongdu Lie, which had not been seen for a few days, had already waited there.

Seeing the arrival of Ye Xuan, Hong Du Lie nodded slightly: "Xuan Huangzi, after half an hour, the fleet will enter the port directly in the North Star Star of the Immortal Star. There will be a small ship taking us into the immortal star. The Inspector General means sending you directly to the Federal Headquarters. Of course, I will be there as well!"

When I spoke this time, although Hongdu Lifeng's face was still in peace, there was no expression, but it was a bit more chilly. Even the tone was different from that of a few days ago. Obviously, there was no such respectfulness. Meaning, faint as water!

It is clear that Ye Xuan is already in the rhythm of escaping!

However, this has not yet reached the immortal star, and the face is too fast, too?

The thought flashed through my mind, Ye Xuan turned around and the left and right Naples and Xuanyuan Ziyan exchanged a look, his face sank and sneered: "Oh, this is not seen in three or five days, the deputy grown up is not the whole person. It's the same! What is more straight than the book is fast, no wonder the face is like a dead person, the muscles and nerves of the face, I am afraid that you will be injured by you once every three kings... 孽孽!"

"Hey!"

This is really a sinister injury. Turning your face can also strain your muscles. Is that much more forceful? Aside from the Xuanyuan Zixiao brain, he pondered it. He didn't stop, and he laughed on the spot.

Even the corner of Naples, which was on the side, twitched a few times, his neck was red, and he finally didn't laugh.

"Xuan Huangzi can really make a joke, first miss it! I will come over when the fortress enters Hong Kong."

After that, Hongdu Lie turned and walked away. Ye Xuan's face was so dejected that he couldn't help it anymore. There was a faint sorrow in the depths of the bottom!

Nearly half an hour later, Ye Xuan had been admiring the outer Xinghe void, and the line of sight passed through a large unidirectional transparent ship wall at the edge of the top command cabin, and it was thrown into the void of the ship.

Soon after, a large nine and ten stars appeared in the void in front, and the distance was far, but they were all within the horizon. The immortal dynasty of the immortal dynasty finally arrived!

At this time, the Hongdu Liefeng, which had just left, appeared again, but did not pay attention to Ye Xuan, and told the officials of the supervision institutes who gathered in the near future.

Soon, the fleet sailed into a huge star dock outside the atmosphere of the immortal star. When the main channel of the top command module was opened, the floods of the winds came over: "Xuan Huangzi, we should leave, monitor the grown-ups, etc. It!"

Ye Xuan even lazy back, turned and walked with the Naples and Xuanyuan Ziyan to the channel exit, and the Hongdu Lifeng followed several officials of the Supervisory Academy.

On the side of the star dock outside the flagship fortress, a small warship has already been prepared. After the passage, Hongdu Liefeng walked to the front and led Ye Xuan to enter the small warship. Then he ordered the departure and left the star. At the corner of the dock, it quickly entered the atmosphere of the immortal star through a public checkpoint of the star defense defensive array, and headed straight to the vast plain where the federal headquarters was located...

Almost as soon as this Senlan fleet entered Star Dock and returned to Hong Kong, the news that Xuan Huangzi finally arrived at the immortal star was quietly heard by many aspects.

Among them are the names of Ye Xuan, the emperor's brother, and the vast majority of the emperors.

However, there is no one dare to reveal a word on the other side of the Palace. After all, the Xuan Huangzi who returned this time is clearly a fake. Once I hear the news, I am afraid that it will collapse on the spot.

Dare to dare to go to the door, really still use it?

It's been eighty-nine, it's been cleaned up!

And this reasonable reasoning is precisely the best excuse for the royal family members who want to make a mistake with Ye Xuan. With this excuse as a reason, even if they are rushing to the Federal Headquarters to make a big fight, There is no need to worry about being punished afterwards, no one will go to investigate!

With no fear, the five emperors all gathered some of the royal ethnic groups and rushed to the federal headquarters.

Especially the big prince Long Xiang, he gathered the most confidant and royal family members, but already a hundred, a large group of royal powers flocked, extremely eye-catching, but Long Xiang has no pressure, the Federal Institute of Supervisor's Yuan Zunlong was originally The main supporter of this vein, this time is to go to the supervision institute, their own site, how to make trouble without pressure!

The reason why the five emperors are so concerned about this matter, in addition to Xuan Huangzi's recent day-to-day realism, they have been distressed for a while, today's opportunity is rare, just to revenge and vent their anger, the more important purpose, to put it bluntly, is actually the battle of imperial power.

Although Xuan Huangzi was useless, he died in the foreign domain on the way to trial, but his death is still a little use of value. After all, it is also the blood of the immortal emperor, and it has been quietly killed by an outsider. Losing the face of the royal family, the five emperors all want to express their performance in this matter, how much can always give their impressions on the immortal emperor and the royal family.

In fact, in addition to the five emperors, even among the top ten emperors, there are a few people who have brought some confidants and are coming to the federal headquarters.

At this time, the small shuttle ship carrying Ye Xuan from the atmosphere at full speed finally arrived at the vast plains, and plunged into the steel city of the Federal Headquarters without any delay...

.....

In the depths of the Federal Institute of Supervision, the eighth floor of a tall and simple building, a figure is standing by the window, the figure is sturdy, the imposing Pentecostal, the national character face, with short hair, is extremely serious and cold. .

This person is the guardian of the court, the imperial dynasty of the imperial dynasty, repaired to the strength of the twelfth realm of the virtual world of the supreme power - Long Hao!

"Is it finally..."

As early as the small shuttle ship where Ye Xuan was located, he had not yet entered the steel city of the Federal Headquarters. When he was driving at a high altitude in the distance, Long Yao's line of sight had locked the shuttle ship, until now it plunged into it. Xiongcheng, the dragonfly who had always been expressionless, finally showed a touch of laughter.

In the whisper, he suddenly thought of something, subconsciously glanced at the direction of the immortal imperial city, the smile on his face was a bit more complicated and difficult: "At this moment, old Most of the eight hearts have already been hung up in the eyes of the blind man... Unfortunately, the last hope is soon to be shattered. How can it be unwilling to do so?"

At the same time, in the depths of the outer city of the imperial city, close to the inner city hall of the inner city, the sigh of the national division emperor II suddenly came out from a small window, vaguely audible: "Why do you have to worry so much?" Lost? Even if this road is broken, are you not there any other princes? There is always a chance! Hehe..."

Chapter 3097: The oyster sauce is coming

Although the small shuttle ship is allowed to sail at low altitudes in the steel city where the federal headquarters is located, the eight major hospitals at the headquarters have different regulations on this matter.

As the auditing and law enforcement agency of the Eighth General Hospital of the Federal Headquarters, the Supervisory Institute is only able to maintain the image of a certain majesty. From the perspective of maintaining a certain image of the majesty, there is no possibility of a chaotic scene in which a large number of shuttles fly around.

Therefore, the Superintendent is strictly forbidden to sail on any shuttle, and is not allowed to enter, even if it is only low-altitude.

However, the small shuttle machine where Ye Xuan was located, after arriving at the outer area of the supervision hospital, did not even reduce the speed. He directly rushed in and went straight to the depths of the hospital. This is also the meaning of monitoring the long dragon, which is broken. A precedent!

Tens of seconds later, the small shuttle slowly landed in a large square deep in the Supervisory Hospital. Ye Xuan and Neapolitan and Xuanyuan Zijing walked out of the hatch, followed by more than a dozen federal inspectors such as Hongdu Lifeng.

Opposite the plaza is a building that is the headquarters of the four monitoring systems of the Tiandi Xuanhuang in the supervision center. The Hongdu Lifeng brought Ye Xuan here to explain the seriousness of the problem. Xuanyuan Zijing and Ye Xuan If you don't know, it doesn't react very much.

However, the face of Naples has changed in an instant. Although he is not a person of the Supervisory Academy, he has always been an immortal star. Even if he has not been to the headquarters of the surveillance system, he has already been fascinated.

Within the Federal Institute of Supervision, the Tiandi Xuanhuang four series are responsible for the monitoring tasks and fields of different natures and different security levels. The Yellow Department is the lowest and the Tian system is the highest. Generally speaking, it can at least be the kind of relationship that can alarm the Ministry of Supervision. The highest level of security is the case or mission to the federal survival.

Moreover, the Ministry of Supervision is also the only one of the four major departments with exclusive privilege. The cases handled by them, if there are special reasons, can be unverified, so falling into the hands of the heavenly system, basically just waiting for a final tone, there is no need to argue and struggle!

"What do you mean by Hongdu Lifeng? I actually brought the emperor to the headquarters of the celestial system. Could you dare to convict a prince?"

Under the shock of my heart, the face of anger appeared in the face of Leon, and even when I turned to the Hongdu, the wind smashed past and almost snarled.

At the same time, Ye Xuan and Xuanyuan Ziyan, the former frowned, even when asked about Naples, the Hongdu Lifeng on the side did not intend to explain anything, still faceless, turned to the sky in front of the square. The headquarters building is overlooking.

Soon, the angry Napoli was only a few words, and the particularity of the heavenly system was explained. Ye Xuan suddenly realized that his heart was angry!

"The deity also thought that the traitor of the Tianqi nationality was a three-handed and six-armed supernatural figure. He was so arrogant that he dared to mix into the dynasty in a way that was pretending to be a prince.... But now, it turns out to be the case!"

With the words of ridiculous and ridiculous, the dozens of figures in the main hall of the celestial headquarters on the edge of the square went straight, and the ancestors were the honors of this place, the Federal Superintendent.

When Ye Xuan and others looked around, Long Yao's figure was fixed on the steps of the front headquarters building. The line of sight swept from Ye Xuan and soon looked to Naples and Xuanyuan Ziwei. Zhong Jing Mang flashed and screamed: "The matter of the two of you will go back and scrutinize and make a final conclusion. Now you can quickly retreat! If you have no decision within three seconds, you will win it!"

Tianji ethnicity?

Pretending to be a prince?

At the same time, Napoli and Xuanyuan Ziyang, their faces changed slightly, and they looked at Ye Xuan subconsciously.

The traitors of the Tianji nationality are not enough. They have already had a lot of thoughts on this crime, but which one is the act of pretending to be the emperor?

This has already reached the immortal star. The entire city can prove that the identity of the Emperor of the Emperor is not known. .

Long Hao is not fainting, and even this kind of childish and stupid crimes dare to form a trap?

This is not scientific!

Is it...

As these thoughts flashed, Neapolitan and Xuanyuan Ziyang finally changed again, and the heartstrings tightened to the extreme in an instant. The bold speculation in the mind finally scared their souls away...

"Three seconds has passed! I hope you don't regret it..."

The changes in the look of the two faces were all captured by Ye Xuan, and he was sighed in his heart. However, Naples and Xuanyuan Ziyang finally chose to stay in place, and did not shake off this point, but also made his heart slightly .

Regarding this matter, he did not intend to conceal it. He also couldn't help himself. Everything was caused by coincidence. It can only be said that God is so!

"Since you are obsessed with it, then you will take it down, just to save the trouble of going back and reviewing..."

Ye Xuan's words just fell, and on the opposite side of the headquarters of the celestial system, the sound of Long Hao's voice has already sounded again. When it was halfway, its sight was once again swept to Ye Xuan, and sneered and said: "It's still possible to die." Calm, this mind is not weak, but unfortunately it can't change anything. The deity knows that you can also be considered as a means. Even the fourth-order Longkui of Xuanguangjing can kill instantly. Although it relies on foreign objects, it is enough to be proud!"

"However, here is the supervision office of the Federal Headquarters. The deity must look at the extent to which the treasure outside you can rely on!"

"Give me a chance!"

In the last sentence, Long Hao has already come out, and the voice is still not falling. Among the dozens of supervisors who stood behind him, three figures have suddenly plucked in the first place. Ben Ye Xuan and Neapolitan, Xuanyuan Zijing came from three people, and the body was repaired with a breath of breath. When the venting came out, the void was spurred by the dull roar, and all of them were all in the sixth stage of the Xuanguangjing. Terror is repaired.

Napoli and Xuanyuan Ziyang face change again, facing the sixth stage of Xuanguang, they have no resistance at all, Xuanyuan Ziyang does not have to say more, it is Naples, it is only the fourth stage of Xuanguang!

"And slow hands!"

Just at this moment, an unexpected cry came suddenly, and hundreds of figures appeared in the air in the distance, and they were coming quickly. The first person was the big prince Long Xiang supported by Long Yao.

At this point, everyone saw them all looking forward, and the three rushing to the square area also stopped, temporarily stopped, Long Xiang this is a hand to the dragon, and then: "Inspect the grown-up, This person dares to take the identity of my eighteen brothers and sway, fearing that he will already be the old eighteen. He is a great enemy of the royal family. Even if he does not kill first, he will take the person's business and be a strong master of my emperor. Is it!"

"This is not a trivial matter, it is about the majesty of my royal family, and I hope that the inspector will allow it!"

"It's good to say! It's the head of the princes. It's the responsibility! It's accurate!"

In the middle of the dragon, the light has been realized. The big prince wants to take this opportunity to get some free impressions. Is he unreasonable?

Chapter 3098: Fell a target

The head of a public prince directly points out the identity of the person coming.

Ye Xuan, who was still blaming this person for the royal family, was even more envious of his face. Even if his face appeared to be a disgusting expression.

Among the top ten uncles, the great emperor Long Yao has always supported the big prince Long Xiang. These two goods are the ones who wear a pair of trousers, but what they are wearing now is what they are.

In particular, the dragon scorpion, the quasi-justified, and even entered the play in an instant, without the connection marks on the spot, with Long Xiang played, what is the head of the princes, there is such a **** Discourse.

This is nothing. The key is that the strong players in addition to themselves and Xuanyuan Ziyang, which do not know what they are doing?

In this case, I can still play such an investment, and this thick skin is really no one!

No, it's thicker? It is clear that it is shameless, especially the big prince Long Xiang who is coming quickly. This kind of thing can run down the oysters and take advantage of the oil. It's also a hundred people, and it's estimated that there's nothing that he can't do. Now!

"Thank you for your compliment in the hospital!"

Just as Ye Xuan's heart was scornful and his face was not concealing the grotesque expression of disgusting vomiting, Long Xuan had taken the hundreds of royal children accompanying him behind him on the other side of the square, everyone. The sight of the first time, all of them looked at Ye Xuan.

"Bold thief, the crime of using my royal identity, is enough for you to die. If you then let the prince murder your 18-year-old suspect, the prince will ask you to die!"

The head of the crowd, the big prince Long Xiang held his hands and stood upright, and he was very proud of the situation. When he said that the words were sharp and swaying, he raised his hand and pointed to Ye Xuan, and he broke out and said: Take it quickly!"

There are more than a hundred figures behind him. Immediately, there are three royal powerhouses between the four and fifty-five, who step out of the body, and the repairs in the body are filled with breath. They are also the existence of the mysterious light, but there is only one person in the sixth order. The other two are the fifth-order of Xuanguang.

Seeing this scene, Ye Xuan's mouth was happy, and the homage seemed to raise his hand and smashed the big prince Long Xiang's note. He deliberately raised the scorpion and shouted: "It's like a scorpion. Half a day, I still let others take it. I guess they should be just the royal family. This kind of thing that saves the royal family's face, you only care about acting in the first place, but you can't practice it. Ah my brother!"

"you....."

Long Xiang was on the spot and his neck was thick. When he was about to attack, the void around the square was in different directions, and the other four.

Several of the princes and the top ten uncles appeared one after another. When they were still far apart, the voices of several emperors were already coming...

"Hey! The mouth is slippery! Looking back, the old man must have cut your timidity and test how big the head is!"

"Why must you talk nonsense with him? It will be taken quickly!"

"Hey, it's better to have a few shots from our brothers. I can be hand-joined by several uncles and uncles. This kid is cheaper..."

.....

As these words began to sound, nearly ten teams also arrived in front and rear, and fell in different directions around the square. In a moment, they formed a siege of the three people in the center of the square, and they glared at them. Come!

Seeing this, the big prince Long Xiang and the great emperor Long Yao both face a sinking face, and there is even more unremarkable cold voice in the nose, which is extremely dissatisfied. There are several uncles who support other princes respectively. The idea of the big emperor's smashing the oil and fishing impressions is completely out of play.

In the blink of an eye, the five emperors and nearly half of the imperial powers of the imperial family have arrived, even the other royal members are enough three or four hundred, but no matter which, at this moment, they are glaring toward Ye Xuan, the heart of Naples A glimpse, finally a little panic, and turned back to Ye Xuan again.

This guy is obviously scared, not only with the whisper of the language, but even the words are not very interesting: "What is the situation? The emperor ... the emperor, this, how do they all say this?"

"No one can recognize you? This shouldn't be! Or, oh, still restore the original appearance... Don't make mistakes big!"

It is Xuanyuan Zijing, although it has been locked with double eyebrows, but in the face of this clearly problematic scene, she just looked at Ye Xuan thoughtfully, nothing to say!

"If you can confirm your identity with just one face, so many people present, including your purple cicada, which one does not understand the change of shape? If you don't change your face, you can say that you are the emperor Already?"

When Ye Xuan turned his eyes, he suddenly thought of something. He raised his hand and pointed it to the front of the celestial headquarters in front of the square. "Yes, except the guy! His face must be impossible." It was already broken by himself..."

"puff!"

Hongdu Liefeng's body swayed, and an old blood lingered in the eyes of the blind man. He couldn't go down and his neck was blue. The face was even more gnashing, and finally there was a change of expression, and the face was full of anger.

At this time, Ye Xuan still did not forget to make a knife for him, no wonder the gas is like this!

"In addition, don't you think that it's a little too tricky for the guys to work on their front and back feet? The five emperors are not falling, and the top ten emperors are half-personal."

Didn't wait for Hongdu Liefeng to spurt out the old blood, Ye Xuan has taken back his sight, and the words turned: "Even with such a gorgeous lineup, the Xuan prince is really fake, in the eyes of others... Is there a difference? ?"

When I heard this, I was embarrassed when I was in Breston. Ye Xuan's words were instantly known to him: all the factions who fought for the imperial power were temporarily joined together, and it was difficult for the Emperor's uncle to take the hair, and the Emperor Xuan's son had not yet entered the palace. all.....

Although this is a bit fat, it is not impossible. After all, the identity of the participants is not trivial. The existence of these levels is combined. I want to make the immortal star so short on the dark for a little while. What?

"presumptuous!"

"Fully!"

"Get out of the hand and get it quickly. This kid's mouth is too powerful. The words are hearty, and the dead can be said to live..."

The emperors, including the dragons, also changed color. When they roared, Ye Xuan's words were all shocked. After all, there were still many federal inspectors around them. Some of them have never seen the face of Xuan Huangzi. If you listen to such words, who can guarantee that they will not think too much.

In the eyes of this counterfeit goods, some people quietly passed the matter out. All the royal members present today are not allowed to live and die.

Yellow mud off the pants, not awkward!

After realizing the seriousness of the matter, several emperors and uncles did not think about it, and the voice of roaring has not yet fallen, and they have already vacated... and finally shot!

Chapter 3099: Return to ancestors

"Is this the rhythm of the mouth? Is it all screaming and angered?"

With a flash of light, Ye Xuan once again made up a knife.

With this introverted, several of the newly-launched emperors were trembled at the same time, and almost fell back to the ground.

And some of the federal ombudsmen who are quietly peeking around in the distance, after seeing this scene, the look on their faces has obviously changed. It is clear that they believe the rhythm of Ye Xuan's words, at least already Doubt!

However, for Ye Xuan, it is obviously not enough. The language of the knife is still in the ear. He will say it again: "Since you all say that the prince is a counterfeit, then today, simply The big ones, let all the imperial courtiers in the whole immortal star come to judge whether the emperor is really a fake... the dragon roar!"

The last four words are clearly drawn out!]

At the same time, the cultivation of Ye Xuan's body was also motivated by him at this moment, and it was madly rolling in all the meridians inside and outside the body.

The black gold dragon scale that hangs in the brain and knows the sea is also separated from the core of the spiritual source by a force of six levels of spiritual origin.

In the next moment, with the inheritance power of this black gold dragon scale was suddenly promoted to the limit by Ye Xuan, a powerful force that reveals a strong sense of the ancient atmosphere rushes out of the sea, and the blink of an eye and his body are running without any loss. The power of cultivation is to blend with each other.

Instantly activate a certain **** mark in the flesh and blood of the body, and integrate it together!

All this is long, but it has been completed between suffocation.

The power of the mutant dragon in the black gold dragon scale!

Ye Xuan's self-cultivation of the hole is a force!

Finally, there is the power of the immortal royal blood that has been immersed in the dragon's immortal blood crystal and has been integrated into the blood of Ye Xuan!

All three forces were all motivated by Ye Xuan at all costs, and successfully completed the convergence of the convergence. Then, with a flash flooding violent trend, they rushed out from Ye Xuan...

"Hey!"

Ye Xuan jerked up to look at the sky, clenched his fists, raised his arms, and his face looked awkward, his mouth roared, and he screamed a bright dragon with a sorghum into the clouds!

The force of the blood flowing from the body is more responsive, and it instantly turns into a shadow of the black gold dragon, with the sound of the dragon screaming in the mouth of Ye Xuan wearing the clouds. Behind it, it's looming and rushing...

This moment, countless empire people in a personal city in the immortal star, do not know how many, all subconsciously doing the same action: look up at the sky, then open your mouth, the look on your face quickly sluggish...

"Hey!"

"Hey!"

Even the few people just vacated, and Ye Xuan rushed to the emperor, but they all sounded in the dragon's voice. The next second of the dragon shadow appeared, the whole body was frightened, in the air. In the middle of a sudden stagnation, and then, like dumplings, they fell into the air.

As for the other strong inside and outside the square, no matter how far or near, including Naples and Xuanyuan Ziyang, without exception, all of them opened their mouths at this moment and collectively fell into petrochemicals!

Each face is shocked and stunned, or a dull expression, and it's just a matter of day and night!

Inside the Imperial City, the National Teacher's Hall.

The Chinese Emperor II and another middle-aged man who revealed the invisible pressure, also screamed at this moment.

"Where is the sound of the dragon's voice? Hehe... the pure and pure blood of the Emperor's blood, can actually show off a giant dragon's shadow of the giant dragon! Who is it? In fact, it has entered the **** ancestral home!"

"Well? Black gold dragon scale? This is clearly the rhythm of variation, but the blood is pure and incomparable. There is no miscellaneous miscellaneous. Is it the mutation of the blood itself?"

The exclamation was still not falling. There was a slightly thin old man in the National Teacher's Hall. He quietly plucked out, and after stepping into the void, his shoulders disappeared without a trace.

"Ugh....."

Until then, the middle-aged male voice of the suspected contemporary immortal emperor in the National Teacher's Hall was once again ringing. Although there was no more words, only a long sigh, but it clearly revealed a bit of bitterness and helplessness!

.....

After the interest rate, as Ye Xuan loosened his fists, he hanged his arms high and raised his mouth, almost resounding the sound of the bright dragons of most of the immortal stars, abruptly stopped!

The shadow of the black gold dragon that rushed to the sky also quickly faded away, and the blink of an eye disappeared.

Until then, all the strong men who fell into the petrochemical around the square finally recovered, and they were slightly shocked. The first time they came to Ye Xuan, they gathered together.

Subsequently, the sound of exclamations began to sound, some confused, some stunned, but more, it revealed a deep unwillingness and despair...

"How is it possible? He... is it true?"

"The purity of this **** vein is enough to prove the identity of his royal family. Is it not important for the old eighteen, not the old eighteen, that is the wilderness of the father and the emperor..."

"God, the dragon and the shadow of the dragon are all manifested? This is clearly the tribute of the blood to the ancestors! Since the years have passed, the second bloodline of the royal family after the old relay of the old club has finally appeared!"

"Most the three universes! The list of the top ten is chasing the top ten! Plus the bloodline of the ancestors of the ancestors... The enchanting words are not enough to describe, how can this play?"

"Hey! God is getting people!"

.....

With the sound of these exclamations, several emperors, including the dragons, became more and more gloomy, and the five emperors including Long Xiang were even more unbearable. The look on the face was not desperate or pale, but the eyes were different. The twilight shot in the middle is full of unwillingness and resentment.

"It's time to monitor the grown-ups. Are you supposed to say something? At least let me know who I am..."

With both hands on his back, Ye Xuan smiled and turned to the big emperor's dragon on the steps of the headquarters of the celestial system, and forced the palace to express his temptation.

"Although I don't know how you did it, but to say that you are the old eighteen, the deity is still the same sentence... impossible!"

Long Yan's eyes trembled, staring at Ye Xuan with a blank expression, but the tone was calm, but the light was sharp as a knife, as if to see Ye Xuan inside and outside, it was blunt, for Ye Xuan The identity of the Eight Emperors Longxuan still does not agree!

"That said, the Emperor's body is not only pure, but also the blood of the emperor who returned to the ancestors... Is it a fake?"

Ye Xuan snorted and asked again, and there was a big urge not to let it go. Even if the other party wants only a step to save the face, it will never compromise!

This time, the dragon's face was sucked a few times. He couldn't answer this question. He could only keep silent. His eyes were almost smashed. If the eyes could kill, Ye Xuan was here. Between the number of interest, I am afraid that I have already died countless times!

Just at this time, a figure suddenly strode out, standing side by side with the dragon, and raised his hand to point to Ye Xuan...

Chapter 3100: Ye Xuan mad

This person is the wind of Hongdu!

The reason why he suddenly stepped out at this moment was actually helplessness. The silence of Long Yao clearly indicated that he would let go, and he had no choice but to do so.

The person who had contacted Ye Xuan had always been him. He had already gotten guilty. If he left the other side to leave, he would not be able to escape. It would be better to have a chance to bite his teeth.

It is out of this kind of thinking that when Hongdu Lie took a step, he had already crossed his heart, and he was unceremonious. He raised his hand and pointed to Ye Xuan, and he screamed!

"Even if you can prove that you are the royal family of the immortal dynasty? The emperor breaks the law and is guilty of the sins! This is the law of the immortal dynasty, and not to mention the crimes you have committed have affected Wanluo. The federal government does not mention impersonating the emperor, only to kill Wen... and the deputy inspector Longkui, the Supervisory Office has the right to arrest you and detain you!"

"When Wen's accident falls to the federal government, it can be said that the loss is extremely heavy. Even if you are eloquently defending, it is always true that the 10 billion contribution points that have been deducted by the federal main network center are always true. You are not?"

"As for the Deputy Inspector General Long Kui, it is not necessary to say more, you are killed by the hands of the public, even the real-time images are there, and the ironclad is like a mountain! Even if you are a prince, do you dare to resist the arrest? Is it not afraid of being royalty? Are you angry and nameless? Are you in the Federation of Varo, and you want to cover your hands..."

This series of words, Hongdu Liezhong has been in the heart for a long time, and now it is not only clear-cut, impassioned, but also lyrical, and endless, even the rhythm of the rhythm is quite delicate, simple A few words, unconsciously, pushed Ye Xuan to the opposite of the immortal dynasty and the Federation of Viro.

For a time, Ye Xuan was caught off guard by his screaming question. After opening his mouth, he did not say a word.

Willow dark flowers and another village!

Long Hao and several other powers of the Emperor and the five emperors were stunned at the same time. They were excited and could not be killed. It is also good to shut them up. It is the same as going back to other methods.

As soon as I read this, Long Hao immediately sank his face and sneered at Ye Xuan, and sneaked in it. "Is it clear?" How to defend, that is what happened after the arrest! Give me..."

"Take your sister and sister! I haven't spoken yet, are you rushing to reincarnation?"

Just as Long Hao raised his hand and waved, and wanted to release the instructions to arrest Ye Xuan again, the latter rudely replied with a swearword to interrupt his words, and his eyes turned out: "Yes, Long Kui It's true that the Emperor's own hands were killed. Seeing that he is not pleasing to the eye, what happened?"

"As for the death of the old ghost of Wenxing, although there is a relationship between the prince and the prince, it is nothing more than that. Even if you have to take responsibility, the tens of billions of points that the prince was deducted are enough to offset!"

"Believe it or not is your business, this prince has to explain it! Besides, even if the prince recognizes this matter, how can he see that he is not pleasing to the eye, killing and killing, how big is it to be excited like this..."

Quiet!

Dead silence!

With the words of Ye Xuan finished, all the strong people around the square once again fell into a state of sluggishness, staring at him with a slight open mouth, and collectively lost their voices!

I have seen the horizontal, can be like this, I have never heard of it!

Dare to say such a discourse in the headquarters of the supervision headquarters of the Federal Headquarters, the entire immortal dynasty, in addition to the current estimate is no one!

What is the fate of a word? If you don't agree with each other, you will have to play with yourself!

"The emperor...the eldest son, I was just joking, right?"

After staying for a few moments, Neapolitan, next to Ye Xuan, first came back to God. It was a bit irritating. He swallowed his throat and was actually an excuse to find a round field even if he stuttered.

If you follow this step, you can only cope with the past when you are so strong, but unfortunately, Ye Xuan does not have this meaning. He puts his hand directly and gives it: "What kind of joke? Who is joking? Not killing." What are the old ghosts and the Longkui? The fart is a little bit more, who has the leisure time to make fun of it, killing is slaughtering! Looking at the dissatisfied, not slaughtering, the heart itching?"

"Oh..."

Napoli was completely devoid of sorrow, squinting at his face and giving him a painful contempt. He understood it. For a long time, the Emperor's brain was sick, or intermittent, and suddenly suddenly broke out!

"This is your own death, no wonder the deity!"

At this point, Long Hao finally returned to God, and the sneer on his face floated again. Before he was lifted to half of his right hand, he finally waved down and screamed: "The arrogance and arrogance of the arrogant, its sin is heavy! This is the plain text of the federal law, and it is immediately taken down and put into the prison!"

"Slow!"

After waiting for the dragons, the dozens of federal inspectors responded. The sound of breaking the drink in Ye Xuan's mouth suddenly sounded: "It's still the same, Wen Lao Ghost, Long Kui, the Emperor looked dissatisfied. If you kill, you will kill, but you, the inspector, I am afraid that I have no responsibility for the matter and I am accountable to the emperor!"

"Whether it's not a matter of stubbornness, let's not mention it. It doesn't exist at all, because this prince is only stating a fact, and it's not a relationship with arrogance!"

"Oh..."

This time, even Xuanyuan Ziyan couldn't help but raise his face and face, and other people seemed to see the problem. Which one is still arrogant? Clearly it is not normal! Mostly related to the brain!

Thinking like this, the look on everyone's face suddenly became a little weird, and my eyes changed.

"Do you know what this is?"

At the same time, Ye Xuan's words turned and he waved his hand and waved his hand. In the blink of an eye, a star-studded fortress with a diameter of 100,000 meters was sacrificed. The whole body was bright silver and suspended above the supervision institute. The entire vast square is covered with strictness.

Without waiting for everyone to rationalize ideas and keep up with his rhythm, Ye Xuan reached out and pointed up, and said: "Star Fortress! Star Fortress of the Celestial Family! Know where to come? Send! The future wife of the emperor Don't believe it, people can barely count as the top of the Celestial family. In the middle of the black light, can a starry fortress still not afford it?"

At this point, all the strong players on the scene, including Long Yin and even Xuanyuan Zizhu, without exception, all have confirmed that this product is absolutely crazy.

The last second is still talking about killing Longkui. In the next second, I will pick up the starry fortress that my future wife will send him... The topic is changing fast and silent, and there is no evil feeling. If a person is not crazy, what is the reason?

Just as everyone looked at Ye Xuan with a look of fools, let him mad, the latter, but suddenly thrown a blockbuster at this moment, the smell of people have changed, buzzing... ..
