

Super D. S 310

Chapter 310: Megatron

"If you want to be taller, then Murong two eggs, Huangpu Iron Bull, Xuanyuan dog left, this is OK?" Ye Xuan said.

Small things still shake your head.

"That is Megatron, Optimus Prime, shocking the sky? Potatoes, nuts, tomatoes, potatoes..." Ye Xuan tried to say a few more.

This time, the little things hesitated thoughtfully, and then stroked.

"What, the first one? Too bad taste, it is better to call the iron column, and the mouth is much more." Ye Xuan blurted out.

But who knows, after listening to the little things, I actually picked it up and slapped it on Ye Xuan's nose.

"I rub, Megatron is Megatron." Ye Xuan helpless, hurriedly named the little things.

"Hey, the name is successful!"

Small things, no, it should be called Megatron now.

After the naming success, Ye Xuan's system is an additional attribute panel, which is a pet column.

Name: Megatron

Type: Shiling

Current level: the beginning of the true spirit

"I have eaten so much, it is the beginning of the real spirit, too pitted."

Ye Xuan is slightly helpless.

At this time.

"Hey, the pet system has been turned on, and the advanced route of the beasts has been updated!"

Hearing this, Ye Xuan subconsciously switched to the blood column.

The blood of the beast:

Advanced Route 1: Power, the current advance is zero, each step improves the strength of both hands.

Advanced route 2: Agile, the current advanced is one, each step increases the speed of 10%.

Advanced Route 3: The pet growth rate, the current advance is zero, each step increases the growth rate of pets.

Advanced Route 4: Pet Attributes, the current level is zero, and each level increases the pet attribute by 10%.

Advanced Route 5: Pet expansion, the current level is zero, and one pet can be tamed each time.

The advanced route of the blood of the beast is directly three more.

Ye Xuan had to look at his eyes and he did not expect that the blood of the beast had such an effect.

"These advanced routes are all good, but unfortunately, I have not encountered the swallowing beast again."

Ye Xuan shook his head helplessly.

Then, he just sinks his mind into the phagocytic system and directly purchases a mysterious growth plan worth a thousand engulfing crystals.

"Come on, eating this stuff will allow you to grow fast." Ye Xuan opened a pack of powder.

Megatron sent the letter to the suspected place and swallowed it. It felt a little bit, and the hair did not have any effect. It immediately reached out and asked for the remaining top grade.

"Well, snacks, take it."

Ye Xuan directly exchanged twenty-nine top grades.

This little thing has to eat 150 things a day to devour the crystals. If he doesn't want to make money, he will probably be eaten poor.

The little things ate the things in three or two, and then asked to go back to the devour space to rest.

Ye Xuan is also drunk, but this time, he is directly receiving small things in the pet space. This pet space has just been redeemed, and pets staying inside will grow faster than outside.

Now, the matter of Tian Yuanzong has come to an end.

After Mo Ziyun and others returned to Lingxiaofu, they organized a disciple and prepared to rebuild Tianyuanzong.

This time, Tian Yuanzong also got a lot of mysterious beasts, the level of the entire sect, I am afraid it will also improve a lot.

However, if it is said to Nedan, it is still more than Lingxiao, and there are too many. It is already possible to break through the disciples of Danjing, the owner of Lingxiao House, all the way to Didan.

Tian Yuanzong is very busy, and Lingxiao is also very busy.

However, Ye Xuan is the most leisurely one.

Just a week after he came back, the elders of the elders, Zhou Yan, took time to find them.

"Before the elders, how come you?"

Ye Xuan in the courtyard is playing with Wei Zhen, and after seeing Zhou Yan, it is also a bit strange.

"The old man came to tell you specifically, they cut the customs." Zhou Yan said openly.

"What, go out?" Ye Xuan heard the words also a big joy, the two brothers and sisters closed for so long, and finally came out.

"But now they are still consolidating the realm, maybe it will take some time, let me come."

After Zhou Yan finished, he led Ye Xuan to Ling Xiaofeng.

When Ye Xuan came to the outside of the practice room of Zhou Yan's residence, he was there. At this time, the door of the cultivation room was frozen while being burned red, which was very strange.

"During consolidation, you still don't want to go in. The energy inside is very strange. Before I was almost shocked, you still have to wait for them to come out." Zhou Yan said a little.

He is already a strong player in Tiandan, but he was almost shocked because he opened a door. If it is passed out, it is really a shame.

"it is good."

Ye Xuan naturally will not bother.

"Oh, it's awkward. It will take me a few days before I can break through to Tiandan's Xiaocheng. They are also Tiandan, oh yeah." Zhou Yan's expression was slightly helpless.

"Is it already in Tiandan..."

After Ye Xuan listened, it was also a helpless look. He was born in Dacheng, and the Song Dynasty and Song ruling brothers and sisters were already in the sky.

However, this is also good, the strength is not much different, in the future he will be able to travel with the Song Dynasty.

The two waited outside the door for a long time, and then the door to the practice room was finally opened.

"Hey!"

The entrance to the cultivation room was wide open and two figures came out from inside.

"Ye Xuan?"

The Song Dynasty, which had just come out of the special cultivation state, saw Ye Xuan at a glance, and immediately rushed into the arms of the latter.

"I have been practicing for so long, should I be tired?" Ye Xuan caressed the hair of Song Dynasty.

"Have we cultivated for a long time?" Song Congjing asked somewhat strangely.

"It's been more than a month." Zhou Yan on the side reminded.

"so long....."

Song Congjing turned to look at the Song ruling, she felt that it only took a day or two.

"Well, if you go out, then I should close."

After Zhou Yan finished speaking, he entered another training room. He has already refining a lot of Nedan, and in a few days, he can hit Tiandan.

Song ruling felt a bit, found that the strength is hundreds of times stronger than before, and his physical fitness has improved a lot. He couldn't help but say: "Before I felt that the gods were very powerful, I didn't expect to break through to the heavens. It is incredible... .."

At this time, Ye Xuan suddenly remembered one thing and said: "For the big brother, have you always used a big axe to make weapons?"

"Yes, I used other weapons before, or the axe is relatively easy. And, look at my body shape, is it suitable for the long sword?" Song ruling nodded.

"In this case, then I have a blood seed here, you can try it." Ye Xuan directly pulled out a crystal clear blood pulse seed, this is the blood of the axe king he exchanged on the spot, and the same as the swordsman Effect.

"this is....."

Song Congjing's eyes widened and he couldn't believe it.
