

Super D. S 3101

Chapter 3101: Sufficient to pass

"It seems that you still don't believe it! It's really impossible for the prince to call her to the spot to prove it. Anyway, it is in the imperial palace of the Imperial City. This time most of the time is accompanying the mother-in-law!"

"There are some days when people come to the immortal star. They have also entered the imperial palace. Haven't you heard of it? Oh, yes, the future daughter of the emperor, the name of the future wife... Yingtai!"

Having said that, Ye Xuan finally closed his mouth, but the members of the royal family around him, but they were instantly changed, and they suddenly exclaimed.

"British Taiwan? Are you sure she is a heavenly family?"

Long Hao took a sigh of cold gas, and the white hair of the back of the shocked man came out quickly. Before he had already confirmed that he was suffocating this time, he encountered a madman who was still playing with him for a long time, but at this moment he was instantly overthrown. Because I did not come to a woman named Yingtai not long ago, and this woman does claim to be the confidante of Xuan Huangzi. More importantly, this woman's cultivation is a realm, and it is clearly the fourth step of Xuanguang!

With so many coincidences, is it possible?

"You know what you are doing for a long time? Do you know that you still have a long time?"

"People are coming, just in the imperial palace of the Imperial City, is it necessary for the Emperor to lie to you?"

Ye Xuan even turned a blind eye, and took the opportunity to ridicule two sentences: "In addition, this prince is not a celestial family. You insist that I am, now tell you that Yingtai is a celestial family, you still do not believe, your brain is sick, you? What kind of trouble?"

As a result, Long Hao immediately believed in 80%, and his face quickly evoked a touch of ecstasy. All the other strong people around him were almost all the same. The five emperors such as Long Xiang were even more surprised and inexplicable. The dawn of hope suddenly came back!

Napoli and Xuanyuan Zijing were equally scared. Ye Xuan got this Thunder Fortress some time ago. Both of them were present. Only the middle part of Lei Tomb was in the middle of Ye Xuan's mouth. Known.

Previously, they always thought that the Thunder Fortress was really a smashing smashing of a celestial family.

But now, looking at the reaction of Long Yu, the woman named Yingtai in the imperial palace of the Imperial City is very likely to be as he said, but it is a high-level person of the heavenly family.

If this is the case, the Thunder Fortress is not the murder of a celestial family. It is clearly the gift of the celestial female robot called Yingtai!

This alone is enough to confirm the identity of his celestial family!

As these thoughts flashed in my mind, the look of the faces of Naples and Xuanyuan Ziyan was also changing. Although they were not immediately vocal, the doubts of their hearts became more and more intense.

"Ha ha ha..."

"A good prince! You can make your deity's emotions so ups and downs in a short half-day. You are proud of it. However, no matter what you are doing, today's things are no longer good, just by You and the famous female high-ranking British and Taiwanese are unclear, and even receive a gift from them to help her sneak into the immortal star. The sin of the enemy has been settled. As for whether it has become an enemy, it will be known in the first instance. ""

Having said that, the dragon's face was heavy and suddenly violently drunk: "What are you doing? Get it quickly!"

"Can you still talk well? Let the Emperor say that you will be excited and die when you are finished."

The dragon's violent screams just fell, Ye Xuan has already made a sound again. When he said halfway, he sighed: "Hey, a rib is really terrible, and the brain doesn't have a turn. The prince said so clearly. However, I haven't reacted yet, so I'm trying to kill people's IQs, and I don't know how the inspector's throne is deceiving..."

Although the latter half of the latter did not name the surname, it was like talking to himself, but the inspector's word was mentioned. The fool knows who he is talking about, and the line of sight subconsciously sweeps toward the dragon, flashing. How many are a little bit weird.

The latter is even more mad and spurting on the spot. It is too irritating. Looking back, it's just a little bit of work. He is one of the eight headquarters of the Federal Headquarters. How many speeds have you won?

However, every time you just finished your horse, you will be stunned by the kid, or you will be mad and stupid, and you will be destroyed directly on the spot. So many times, I am afraid that the root cause will fall.

Thinking like this, the killing intention of Long Yin's heart can't help but be strong. Just when he is willing to make a heart, he will not hesitate to take it himself. He only wants to take Ye Xuan immediately and get rid of it today as soon as possible, so as to avoid another occasion. Xuan suddenly shook his head and sighed: "Forget it, or just say it. I wanted to be euphemistic. After all, this kind of initiative to give yourself a chance to do something is really difficult to say!"

"Do you know why the Emperor suddenly mentioned English and Taiwan, and even sacrificed the Thunder Fortress on the spot to prove that it is true? Because she can smash the streets of the old ghosts, even if I put Longkui together, it is far away. Not as good!"

"Is there a lot of secrets that the Tianji people secretly buy in the Terran or other ethnic groups in the Faroese Federation? But the Terran or the Federation of the Faroese bought the spies in the First Universe, except those who were not on the table. Have you ever had a real celestial family?"

"Not to mention that the British and Taiwan are far from the ordinary ordinary celestial family. With the strength of her mysterious light, even if it is not the real core giant, at least it can be considered a high-level one? The prince helped the federation from the Tianji clan... cough Cough, persuaded a high-level elite of such an amazing value, even if it is a little wrong, the merits of this matter can be enough to overcome it?"

"Inspect the grown-up, what do you say?"

Speaking of this, Ye Xuan no longer speaks, and quite fascinated to take a look at Long Yao, and then waved his hand and threw the Thunder Fortress over the sky into the immortal world.

During the period, the sound of the cool air coming from around the square was also constantly sounding, including everyone from Naples and Xuanyuan Ziyan. Only then did they suddenly realize everything and finally understood that Ye Xuan had always been from beginning to end. It is a bamboo in the chest, no matter how the development of the situation, he has long been invincible.

Don't say that a high-level celestial family has been cultivated as a celestial celestial being, even if it is only an ordinary celestial family that has been cultivated as a planet, it has been difficult to estimate the meaning of the Terran or the 10,000-Roman Federation. It is so shocking and small. What can be calculated wrong? "

As soon as I read this, most of the strong people on the scene were blushing, especially those who had screamed at Ye Xuan as a spy for the Tianji clan, and even more so that they could only find a way to sneak in. It's like a hot pain, just like someone who has just been sucked!

"It's a nonsense!"

After a few moments of stagnation, the great emperor Long Hao quickly returned to the gods, and he was unwilling to take it out. The look on his face was also quickly stunned. Zhang mouth categorically denied everything Ye Xuan said: "It is Ordinary Tianji people have never had a precedent in the history of being successfully bought or rebelled by other ethnic groups, let alone a high-ranking elite who has been cultivated by Xuanguangjing. Even if your tongue is in the golden lotus, it is said that the sky is falling, this matter The deity also categorically refuses to believe..."

Chapter 3102: Emperor II

I don't know why, I feel a little bit wrong today, not from the outside, but from herself.

Half a day before, her eyelids jumped from time to time. Later, when she was sitting in the back garden of the Rose Palace, she suddenly sneezed again. This kind of thing is natural for ordinary people. But even if it is a strong human race with a mysterious light, it is unlikely that this will happen.

What's more, she is still a robot of the Celestial family?

Since then, Yingtai's heart has been suspicious, and the whole person's feelings are not good.

At this moment, her eyelids suddenly jumped up again, and still madly jumping, far before!

"No! This is too strange. You can't do it anymore..."

Under the slight change of face, Yingtai stood up, his face was already gloomy, and while he muttered to himself, he turned and went outside.

She decided to leave the immortal imperial city or even the immortal star, wait a few days, and then make a decision after seeing the situation.

It's not timid. The key here is the immortal star, the base camp of one of the two camps of the Terran, and even the headquarters of the Federal Republic of Venezuela are here. It's a master, but the cultivation of her mysterious light is not It's weak, but in this immortal star, if there is something unexpected, she doesn't even have a few dying qualifications.

It's just this immortal imperial city. Don't look at the superficial existence of the immortal emperor. It seems that it only surpasses the cultivation of the void, that is, the thirteenth realm, compared with the eleventh realm. Yingtai has only strengthened two big realms.

But in fact, the immortal royalty can be so simple?

Those royal geeks who are hidden under the surface and do not know how many years have not been exposed are the real terrible existence. They are the foundation and reliance of the entire royal family of the immortal dynasty!

What's more, even if it is only the immortal emperor's cultivation beyond the void, for her, it is already only the existence that can be looked up. If the other party breaks through her identity and moves her fingers, she can crush her!

Not to mention the emperor's national teacher named Emperor II.

Yingtai once looked far away from his back in the imperial palace of the Imperial City. The realm of the emperor's surface seems to be equivalent to the immortal emperor, and belongs to the thirteenth realm.

But the British and Taiwan always have an intuition, and the truth must be far from it.

The name of Emperor II is too much to cause her infinite delusion. No, it should be said that any person of the Tianzu nationality will, like her, subconsciously give birth to some kind of association and speculation.

Although this kind of association is just a kind of speculation, the intuition of Yingtai tells her that this emperor, and the patriarch of the Tianji nationality, must have some origins.

If this is the case, with the horrible cultivation of Emperor Yi as the realm, the Emperor II, which is somewhat related to him, is weaker, and it is not only the thirteenth realm.

In a word, since the arrival of the immortal star, into the imperial palace, she suddenly realized that she had been too confident before, and the cultivation of Xuanguangjing is here, only the qualification of a low-key person with a tail.

It is a pity that the immortal imperial city is not just a matter of anyone to come, just go and leave.

Coupled with the fact that she still has some luck in her heart, I feel that the identity of her celestial family should not be easily discovered. Just be careful, it should not be in danger.

In addition, Xuan Huangzi has now returned to the Third Universe, and even has arrived at the Emperor of Heaven, and the orders of Mei Mei have been sent out. Although Xuan Huangzi has not returned to the immortal star, but in any case, she suddenly When you leave, you must be suspicious.

But all she has now has no time to take care of. Today's business is too strange, and then staying behind is afraid that it will change the elbow at any time, even if it is risky, it must leave!

After the decision, Yingtai quietly slipped out of the Meijing Palace. After leaving the inner city, all the way went straight to the edge of the outer city, and then made a foreign city forward, which would be a successful departure from the emperor. The city is over.

As for the immortal imperial capital outside the imperial city, the British and Taiwan are not in the heart.

With a little bit of ecstasy, the British and Taiwan moved forward again. After a short while, the last level finally passed, and finally left the immortal imperial city.

It's a pity that she took a step forward and walked over the edge of the outer city's defensive formation. She officially stepped into the same moment of the imperial city outside the imperial city. A powerful and mysterious force has come to my death without warning. Now, I immediately locked the Yingtai body air machine, so that she could not move.

"Emperor II!"

The accident happened suddenly, and the Yingtai looked mad, the flower was eclipsed, and the conditional resounding exclaimed. Under the heart of the blessing, she suddenly realized it in an instant. She had already been eye-catching. Otherwise, how could she be so clever, just left the imperial city, still one step away, and was discovered in an instant?

"How good is it to be honest in the Imperial City? I want to force me to shoot, hehe..."

The excitement of Yingtai just fell, and the voice of the Emperor II seemed to feel helpless. Then, without waiting for her to come back, the eyes suddenly turned black and completely lost consciousness.

However, his body shape did not fall to the ground because of coma, but as if it was transmitted, it disappeared without warning!

.....

Immortal Imperial City, the National Teacher's Hall in the outer city area!

To be precise, here, it is actually the underground of the National Teacher's Hall. It is a huge underground hall in front of you.

The whole hall is vast, no matter which direction you look at, you can't see the end of the line. In addition, although it is underground, when looking up, the bluestone dome of this vast underground hall is at least 10,000 meters high.

The underground space of this scale is not a small project, and it is even less likely to appear in the underground of the immortal imperial city. Therefore, this underground hall should be built using space folding technology!

The hall was originally empty, nothing, but at this moment, because the place is too wide, there is no way to distinguish the position of the hall somewhere, with a green mangling flashing, the original empty hall floor, blink of an eye There was a relatively independent lodge with four walls and domes, square and square, about 100 meters long.

There are some large-scale precision instruments everywhere in the house. The center is a cyan platform similar to the operating table, but it is not essential. It is clearly an energy form.

The closed English platform, now lying on this cyan energy platform, from time to time there are a variety of different shapes of cyan light from her body scanning generally from top to bottom.

This process lasted for about ten minutes, and the ever-flashing cyan light finally disappeared.

In the next moment, a pretty thin old man's figure, like a teleport, suddenly appeared on the side of the cyan energy platform. It was not long ago that he plucked from the National Teacher's Hall, and seemed to go to the Emperor II of the Federal Headquarters.

"I said, how can Emperor Yi be so careless, even the triggering of the source code has forgotten the implant!"

The line of sight swept the Yingtai on the cyan energy platform, and the emperor flashed a glimpse of the enlightenment and muttered to himself: "So it seems that the kid is blowing the air, or he is cheated by this girl..."

Chapter 3103: Mechanical family

"It must be like this!"

"All the celestial family, in the first time when the birth of the saga, the emperor will leave a trigger in his intelligent center. Once the heart of the sect is born, the brand left will be triggered immediately. Disintegration, self-destruction."

"Because of this, the real celestial family is impossible to be bought by the Terran or the Federation."

"Since this gimmick source code also has a trigger brand, the result is only the case, either she kidded the kid outside, or the kid is blowing the air..."

"The latter is obviously more likely!"

"Hey, this tester is a bit interesting. Compared with the last time, the cleverness has changed a lot! And the test system in his body seems to have a higher degree of growth, and although the atmosphere is mixed, it reveals a mysterious atmosphere. It's that I'm not able to see at a glance with the current state of seal.

"Would you like to unlock the seal and have a glimpse of it?"

"But it, let's see it, even if it's just to unlock the primary seal, the cost is too great. This kid needs to grow, but the potential is huge, but he can help him again..."

In the muttering, Emperor II's line of sight swept back to Yingtai, which was lying on the cyan energy platform. After a little sinking, raising his hand was a wave.

In an instant, the blue platform of the energy form glimpsed fiercely. The original person who was lying on the surface of the platform suddenly fell down and fell into the interior of the energy platform. The whole person was enveloped.

At the same time, the interior of the cyan energy platform is also full of criss-crossing cyan silk threads, which are of different shapes. Some are scanned in the body of Yingtai, while others are directly immersed in the body. In the body of Yingtai, after a long time, it was drilled from another position...

This process lasted for a quarter of an hour, and the countless silk threads in the cyan energy platform finally stopped, and the Yingtai, which was immersed in it, slowly rose and eventually returned to the surface of the platform. Lying with his eyes closed.

"It seems that the realm of Emperor Yi has been improved. A celestial celestial person in the sacred light environment, the triggering brand in the intelligent central source code, took me a quarter of an hour to solve it! Although it is only a seal state..."

In a short quarter of an hour, Emperor Er's face was slightly pale. At this moment, he muttered to himself, and once again he waved his hand: "Fortunately, it's finally a success. Now this girl is no longer a celestial family, change The source code, and left the trigger brand of my mechanical family, so in the future, she is a mechanical ethnic group, ah, stay with the kid, let him be a wife, although impossible, personal gimmick is qualified! "

At this time, Yingtai, lying flat on the cyan energy platform, suddenly opened his eyes without warning. From the bottom of his mouth, a deep fascination was lingering after a long time. The two eyes of Taiwan became clear.

Then, as soon as she got a bone, she climbed up from the cyan energy platform. After seeing Emperor II, she called a patriarch, and then stood with a very respectful hand, standing slightly, without a word, a pair Waiting for the commandment.

Emperor II and Emperor Yi are both robots created by the pioneer of the Terran Technology. They have born a sense of self and have a new life.

However, Emperor Yi betrayed the human race, killed the Star Bo, and induced a large number of intelligent robots in the human race at that time to give birth to self-wisdom. Gradually, the Tianji family formed a certain scale, and finally fought against the Terran, in the first universe. The battle lasted for a thousand years and swept the entire universe.

In the end, the Terran defeated, exited the first universe, and entered the third universe.

The original first universe, by becoming the territory of the heavenly family, the emperor became the hegemon of the first universe!

This is a past tens of thousands of years ago.

In addition to Emperor Yi, Emperor II, as another generation of robots created by Xingbo, who gave birth to self-awareness, always grateful to Xingbo, and never lost to the human race. Later he became the national division of the Terran and Legendary Empire. Over the years, the immortal emperor of the immortal dynasty has changed for generations, but the national division has always been the emperor.

Under the command of Emperor II, there is also a mechanical group. The robotic group of Emperor Yi claimed to be a celestial family, and the second-hand robot that gave birth to self-consciousness was called a mechanical family.

The celestial family is the enemy of the entire Vatican Federation, while the mechanical family is the human partner.

However, mechanical families have always appeared, they also have their own base camp, but they are not as exposed as the first universe of the universe. Where is the base of the mechanical family? No one knows that all of them are only in the hearts of the chiefs.

Nowadays, Yingtai, who was originally a Tianzhu ethnic group, has changed its core source code after being consumed by Emperor II. It is no longer a Tianji nationality. Now she has become a mechanical ethnic group. Therefore, after waking up, he will be called the patriarch.

"Now, you have nothing to do with the Celestial Family. The trigger brand that Emperor Yi left in your core source code was also erased by me!"

"However, your original memory has been preserved by me. This was originally impossible. But in this case, I have obtained some useful information data from your core source code, plus you need to follow the kid. So, this time, it's a matter of breaking it!"

"In addition, if you want to run the horse, you have to feed the grass! Your cultivation is the realm. I have upgraded to the 9th stage of Xuanguang, whether it is concealed or not. It depends on your own situation."

"In short, your task is to stay with the kid and help him grow up! I don't intervene in the specific details. The only requirement is that I can't disclose everything to him casually. I haven't planned to meet the kid yet. Even if I meet, it is only the identity of the immortal dynasty, not the mechanical patriarch... The test system in his body has not grown to the extent that it allows me to show my words."

"Go, the kid is a little trouble now, to help him solve it. Although it is a fake prince, but since it has a pure and immortal royal blood, the identity of this prince is certain, I can solve it in the immortal emperor, it is the dynasty The old ghosts in the old cabinet, before unlocking the seal, I could not force them to submit."

"If there is no accident, even if they can let them recognize the identity of the emperor, but the disguise of the disguise can not be avoided anyway, you follow the kid, this must be psychologically prepared to protect his safety. If you encounter difficulties, don't try to ask for help from me. I really don't sit back and watch the moments of real danger. After all, he got a test system that I spread out, and it is one of my disciples!"

"But if I didn't take the initiative to help, everything, you can only rely on yourself to deal with... Go!"

Chapter 3104: Dust settled

"French, Yingtai, etc. You are waiting for you! You have arrived, why don't you go back to the palace? Come to this federal headquarters?"

The words of the great emperor Long Yao have just fallen, and when they want to take Ye Xuan down, a woman's voice is very delicate and distinct with a strong sorrow, but suddenly it sounds at this moment, Yingtai's face is full of resentment. Sweeping in the air, the talking room is already in front of Ye Xuan, I saw him looking at him with pity, no words.

Ye Xuan immediately stunned, and the side of Naples was the same as Xuanyuan Zijing, especially the latter. After a moment of squatting, the moment suddenly flashed the hostile vigilance and stared at the face of Yingtai. She will look at her up and down.

All the federal ombudsmen in the surrounding area were also paralyzed by the royal family members. The initiative of the British and Taiwanese arrivals made all the people unexpected.

"Xuanguang's nine-order grand perfection? Have you been concealed before?"

When I saw the repairing atmosphere that Yingtai showed at this time, it was the reflection of the great emperor's uncle, and the face was also slightly changed. Although he was the strongest in the twelfth realm of virtual reality, this level Existence, there are not many emperors on the surface. At least, more than half of the top ten emperors are the refinements of the eleventh state of the realm.

At the moment, Yingtai reveals the cultivation of the 9th-order grand perfection of Xuanguang. It is only a step away from the virtual environment of the twelfth world. Once this step is taken, there will be a void in the side of the emperor. Nothing exists, it is only for him, it can be said to be significant, and it is really eye-catching.

In addition, the arrival of Yingtai this time has not only been cultivated as a realm, but even the essence of the mechanical family has also been revealed.

It must be mentioned that the mechanical and the celestial beings are essentially the same. They are all intelligent robots that have produced self-awareness. The only difference is only the internal core source code, but the external atmosphere is completely different. To.

Adding to the social family of God II, although it is a partner of the Terran, it has been hidden by the Emperor II and has not walked outside. Therefore, at this moment, Yingtai reveals a breath, and with Ye Xuan's previous words, the subconscious guidance role, almost All people are conditioned to regard Yingtai as a celestial family.

There are many strong players in the field, including the ombudsman of the federal headquarters, the important members of the immortal royal family, and even the Samsung general of the immortal regiment of the royal family. However, as it is now, it has been in close contact with a high-ranking elite. But there is none.

Even Napoli, although he has repeatedly entered the first universe and the Tianzu fighting, but it is a battleship under the starry sky, even if there is a real high-level elite in the other camp, there is no chance to get close contact. .

Therefore, at this moment, with the appearance of the British and Taiwan, and unscrupulously revealing the atmosphere different from human beings, after all the people present came back, the look on each face suddenly became strange.

In particular, the five emperors and several emperors, the face is faint and uncertain, and the sorrows are flashing, and I don't know what is in my mind.

"Sure enough, it is a celestial family, and it has actually been concealed and cultivated into an immortal star. It seems that there are ten out of ten hearts and minds!"

After the dawn of a flash of light, the great emperor Long Hao suddenly sneered: "Since the kid said that you are the high-level officer who persuaded him from the heavenly family, then what is the reason for the inspector-general and the letter? What is the truth? In the first instance, I know that if you can't tell the important information of the celestial family, this matter is undoubtedly a false statement, then... oh!"

The implication is that it is still clear that Ye Xuan will leave the rhythm of interrogation, and not only Ye Xuan, but even the British and Taiwan will stay together.

If she can confess enough intelligence information about the celestial beings to prove her sincerity, if it is not possible... I am afraid that today is the end of the matter!

Before Ye Xuan's persuasion to drop a discourse of a high-ranking elite, it would be completely overthrown.

"Inspecting the grown-up, I am sorry, your Federal Supervisory Authority has no right to interrogate me... or, if you want to interrogate me, please ask after you get permission from the emperor."

In the face of the words of the great emperor and the dragon, the British and Taiwan calmly took out a thing and directly raised his hand to show it to the dragon: "This is the national teacher command. I have already turned to the immortal dynasty. Now it is the shadow of the dynasty. It is not impossible for your federation to obtain any intelligence information related to the celestial family from me. However, please negotiate with the dynasty."

As soon as I heard this, the great emperor was dumbfounded.

The teacher's order from the British and Taiwan is naturally impossible to be fake, and the meaning of this national commander is also very clear. The immortal dynasty has recognized her identity and accepted her. Now, even if she is a celestial, It is already the shadow of the immortal dynasty. If the federal side wants to investigate her as a spy of the celestial family, it would be tantamount to playing the face of the immortal dynasty. This is absolutely impossible.

Will cause federal civil strife!

In fact, Ye Xuan is a bit worried at the moment.

His previous plan was to force the British and Taiwan to follow his own words, admitting that she had been persuaded by Ye Xuan to persuade her. After all, she was a celestial family. As this identity was broken by Ye Xuan, it was the only cooperation with Ye Xuan. The choice, otherwise, in the immortal star, she will die.

As a result, not only did Wen Xing and the killing of Long Kui resolve, but even the crisis brought to him by the British and Taiwan sides was dissolved.

Regardless of the purpose of the other party's identity as a celestial family, the name of his fiancée is mixed into the immortal star. When all this is revealed, and it is still revealed by Ye Xuan personally, Yingtai can't make any more trouble. What moths are all Not coming out. Can only fall into passive.

But everything in front of him really made him feel a little unexpected.

He didn't understand how things suddenly developed into this. Did the British and Taiwan have already obtained the approval of the immortal dynasty before he arrived?

Even the national teacher's orders were all handed. Did she come to the immortal star, did she really take the initiative to recognize the identity of her own ethnic group?

But what is the purpose of doing this?

Is it true that I am really convinced of my own heart, and I will not hesitate to vote for the immortal dynasty, but also to start a so-called love of the butterfly with myself?

At the thought of this possibility, Ye Xuan suddenly shuddered.

If the truth is true, then this gimmick is a madness. This kind of thing has been done. If she has been so entangled in her own way...

Thinking of this, Ye Xuan's whole person's feelings are not good. There is a kind of tossing for a long time, and in the end, I still feel trapped in myself.

At this moment, as Yingtai raised his hand and showed the emperor's national teacher's order, the surrounding federal ombudsmen were relieved, and a number of royal members including several uncles and five emperors But they are sighing...

Everything, since then the dust has settled!

Chapter 3105: Eighteen Emperor House

Even if Long Hao was unwilling, eventually, Ye Xuan and the three of Naples and Xuanyuan Ziwei still left the Federal Supervisory Authority.

Oh, yes, in addition to the three of them, there is one more English!

As the British and Taiwan said, the national teacher's order in her hand is enough to prove that her identity as a celestial devotee has been accepted and recognized by the immortal dynasty. Even the Federation of the Varo, wants to descend from her celestial family. If you get any information, you can only negotiate with the immortal dynasty and apply for assistance.

As for the immortal dynasty, I did not agree, that is another matter.

In a word, with the national commander, even if Yingtai is indeed a Tianzhu nationality, the Wanluo Federation can't move. Her body has been branded as an immortal dynasty. From now on, it's a dynasty.
!

And still the emperor!

Eighteen emperors!

At the thought of this, Ye Xuan suddenly felt a headache. If Yingtai's identity was revealed by him, he had to cooperate with him in the words of Ye Xuan. Then, in this matter, Yingtai would be no different. Yu left the handle in the hands of Ye Xuan, don't mention it, at least no longer have to worry about being irritated by her words in the beginning of a butterfly love.

But now it is different. People have already voluntarily confessed their identity to the immortal dynasty before Ye Xuan returned to the immortal star. In this matter, Ye Xuan could not take advantage of others. So, if Yingying continues In the excuse of the love of the butterfly is wrapped around Ye Xuan, he has no choice but to be depressed.

Don't forget, people are the supreme existence of the nine-order grandeur of Xuanguang. Even Naples is only crushed in front of her.

Even if the **** corner of the soul can crush it like a dragon, Ye Xuan has no idea.

Long Kui is only the fourth stage of Xuanguang. Yingtai is only one step away from the supreme existence of the twelfth world. It is a whole five small steps, and it is often a small order. It is a world of difference, the difference between the five small steps, really is not the same concept.

Unlike Ye Xuan's frowning face, after leaving the Federal Supervisory Court, both Naples and Xuanyuan Zijing were completely relaxed and the mood was extremely pleasant.

Today's events can be described as peaks and turns, Ye Xuan frequently made a surprise move, and finally solved everything easily, and even did not leave a tail, it was perfect to the extreme.

In addition, the marriage between the Emperor and the Xuanyuan family was also solved. Yingtai is a robot. Even if she can give her a position, it is absolutely impossible to sit in the main room.

Nowadays, the so-called marriage news that was sent out before should be purely a kind of comfort and enthusiasm for the British dynasty. Since she is a robot, how can there be any embarrassment with the Emperor Xuanzi?

In this regard, Xuanyuan Zizhen has no need to verify can be determined, at this time she has already determined that everything before is just a misunderstanding, how can she eat flying vinegar, the object should not be a robot Well!

As for Yingtai, after the federal headquarters, there has been no speech. The eyebrows are behind the eyes of Ye Xuan, and they are a slave. This is what makes Ye Xuan feel at ease, at least this girl. I also know the situation, I know that this is an immortal star, not a place where she can easily reach it.

After a group of four left the Federation of Varo, Ye Xuan even waved his hand to the cave, and after the four men stepped in, they went straight to the immortal emperor.

The immortal star is the emperor's capital of the Terran technology camp. The nine satellites are not mentioned, but the central immortal star is huge.

The vast plains that were loaned to the Federal Republic of Venezuela as the headquarters of the federal headquarters were only a small and small area of the immortal star. In other vast areas, there are still a large number of cities.

These cities are all arched around the immortal imperial capital, scattered and scattered.

The immortal emperor is the first giant city on the immortal star, the immortal imperial city, just in the depths of the emperor.

The Imperial City is divided into an outer city and an inner city.

The inner city is the living place of the immortal emperor and its harem, while the outer city is the place where the emperor's courtiers went up, and the emperor's palace, the national division, and the old emperor.

Of course, there are restrictions on the law of the old guests and the National Teacher's Hall. Generally, there is no call, and it is impossible to enter. Even the emperor is the same.

The residence of the emperor's palace and the members of many royal families are in the ordinary areas of the outer city. Among them, only the imperial elders of the immortal emperor can have a royal family. Other collaterals also have homesteads in the outer city, but they are not the royal family.

As for the top ten emperors and the like, they have already moved out of the outer imperial city, sitting in the nine satellites!

There are dozens of emperors of the immortal emperor, some of whom are not yet mature, and they are not allowed to have their own emperor's palace. These underage princes are all arranged in a place called the emperor's school, with special teaching. The personnel are responsible for the cultivation and etiquette, and knowledge of science and technology.

At present, it is an adult, but there are only 28 people who have a royal family. That is to say, in the royal residence area of the outer imperial city, there are a total of 28 emperor's houses, and the house of the emperor's emperor is the 18th emperor's house!

Although the Emperor Xuanzi left the immortal star and went out to carry out the trial of the imperial family, as long as he has not been confirmed to have fallen, then his 18th emperor's house will be kept, and he will be responsible for the prince. The old slaves and maids of the government are all available.

However, before leaving the immortal star to carry out the imperial trial, the Emperor Xuanzi was not outstanding among the 28 emperors, and even because of his weak character, he was extremely unpopular.

Therefore, his 18-year-old palace is not only not very good, but the size of the house is not magnificent. As for the old slaves and maids in the government, they need not say much.

When the Emperor Xuan is still there, there may be no shortage of the niece down to the butler. But since the Emperor Xuan's departure from the immortal star, these old slaves and maids have all passed through various channels, and they must leave all the way. It is.

As a royal waiter, they also need to consider their own future, followed by Xuan Huangzi, such a weak prince, but only a nominally good one, in fact, everyone knows, there is no day.

As a result, it led to a large 18-year-old emperor's house. Later, only one old slave was still faithfully kept, and everything in the house was taken care of. The rest, all went their separate ways and tried their best to invest. The other prince's house was gone.

Of course, later Xuan Huangzi suddenly turned out, many of these guys want to come back, but this kind of thing wants to go easy, it is difficult to come back, the old slave who stayed in the government is not loose, anyone Don't want to step into the emperor's office again...

Chapter 3106: Longtan Tiger Cave

"This is your 18th prince's house? Is it too shabby? And, a good depression..."

Looking at the ruined and ruthless emperor's house, Xuanyuan Ziyang suddenly turned his eyes and said such a word.

As the emperor's house, the basic heritage of this house is still no problem, and the floor space is quite wide. The courtyard is connected with one heavy weight. The key is that the popularity is too cold. At

first glance, the courtyard is visible, and the weeds are overgrown. After all, only one old slave stayed here, taking care of such a large courtyard, it is impossible to clean up the weeds and the like.

"Hey!"

Just at this time, the double-opening rivet door of the Emperor's House has been slowly opened. By listening to this sound, you can know how long the door has not been opened, and even Ye Xuan can not help but sigh.

With the opening of the gate, one must be white, but the tiger is back, and the spirit of the old man is reflected in the sight of the four. The old man's mental state is quite good, and the strength is also OK. It is actually a black hole. The fourth-order powerhouse saw Ye Xuan's first look at the first sight.

Then, with Ye Xuan deliberately urging the blood of the royal family, the kind of blood that originally belonged to the Emperor Xuanzi was scattered, and the old slave who was repaired by the black hole immediately burst into tears and choked. It's up: "Xuanzi! It's you! It's really you... the old slave finally waited until this day!"

Ye Xuan sighed with relief. It seems that the old slaves recognized by these emperors are not the same as those of the royal family. They recognize the breath of their own masters. As for everything else, they are lazy and have no questions. That qualification is questioned.

Four people stepped into the main house, showing in front of a weedy main courtyard, Ye Xuan frowned, the old slave quickly explained: "Xuanzi ... no no no, Xuan Huangzi, since you left After that, the guys hollowed out their minds and went all the way. In the past few years, the whole 18-year-old emperor's house was all taken care of by the old slaves, so..."

"No problem, in the future, you are the inner manager of the emperor's house, or call me Xuanzi!"

Ye Xuan's heart also had a touch of emotion. After a few chills, he knew the name of the old slave. He was also named Long, called Longkong. He was a member of the sideline of the immortal dynasty, and there was a weak royal blood flowing in the body. He is a veteran of the family. Since the adulthood of Xuan, he has been following Longxuan until now.

"Xuanzi, since you later turned out to be born, after the Filipino Federation, the guys were like smelling wild cats, and they wanted to come back one by one, but they were all blocked by the old slaves. Some of them are still listening to the poor in the five emperors' homes. They suddenly want to come back and feel that the old slaves are not going to let them come back to harm you..."

At this time, Longkong had already said with a vocal whim: "There were no such weeds in the 18 major courtyards of the original Emperor's House. Although there is only one person in the old slaves, it is a black hole. It's hard work to manage a house, but it can still be done."

"It is because these guys come to the door every day to get accustomed to it, especially the original nursing homes, among which there are several government leaders and deputy commanders who also practice the black hole."

"The old slaves are not, they are seriously injured by their death. This is a month ago, and it has not recovered yet, so... this courtyard is so weedy, old slaves, dereliction of duty!"

"What? Did the guys actually hurt you?"

When Ye Xuan heard it, he suddenly became angry.

Long Kong said very clearly that the guys, including the guards of the 18th Emperor's House, had left the other emperors after they left Long Xuan, and some of them even went to the Fuzhong of the Five Emperors. .

Now, knowing that the Emperor Xuan Zi was born, these guys actually want to come back. If there is no inspiration from the five emperors, I want to put a line of eyeliner around him before the return of Xuan Huangzi, killing Ye Xuan does not believe.

This is not the case, but the guys dared to even hurt the only dragon who was loyal to the 18th Emperor's House, which exceeded the limit that Ye Xuan could endure.

"But the past things have passed. The old slaves are outnumbered, but at least they have not let the guys step into the 18th Emperor's Office..."

Seeing the face of Ye Xuan's indignation, the dragon and the old are comforting, and the old tears are all coming out. A look of old and sorrowful, screaming twice and quickly wipes away the tears, and smiles. "There is a big event when the emperor returns, but this is a big house. The follow-up is definitely to recruit some slaves to enter the house to take care of. The old slave has only one sentence. This matter must be checked by the old slaves. The white-eyed wolves, one can't put it back, it's playing your face, kid..."

On the side of Naples, Xuanyuan Zijing and Yingtai three people, at this moment also listened to the righteous indignation, Liu Mei was upside down.

It was Ye Xuan, after twisting his brow slightly, but when he grinned, he waved his hand and said: "Reassured, empty, you don't have to worry about this matter, this person in the Imperial City, I am a Do not want any!"

At this moment, Ye Xuan has made up his mind. All the people inside and outside the 18-odd emperor's house have used their original team, even if most of them are demons, what about?

Even a real high-level elite of Lian Yingtai can sway in the immortal imperial city, walk brightly, and some devils guard and family slaves, what counts?

"I have to look at Laozi, the white-eyed wolf, and the people of the five emperors, who else dare to go to the eighteen emperors to come wild."

After the decision, Ye Xuan even sneered: "As long as you dare to come, do not dare to be clear or dark, this prince throws a sentence here, if anyone dares to come to the door, they will be called back!"

After saying that, just now, Ye Xuan even waved the caves and the black mosquitoes, the black winds, and the three devils of the saints.

Then, along with his thoughts, a large number of devils and Warcraft powerhouses came out from the cave and three space fortresses. They didn't say anything, all of them were quietly surrounded by Ye Xuan. .

In the blink of an eye, thousands of troops came to see each other. This scene is not empty. It is Xuanyuan Ziyan and Naples that are scared. This is clearly to make the whole 18-year-old palace into the rhythm of the Longtan Tiger Cave. what.

"There are some playing here, the 18th Emperor's House, the entire homestead, whether it is the guard of the prince or the servant of the prostitute, all of them are the Warcraft of the Devil. This battle is open, I don't know if I am coming in, I still come in. I thought I was suddenly sent to the magical universe of the first universe..."

Only Yingtai, after a moment of stunned, suddenly giggled: "But then again, this... looks like it is fun!"

Chapter 3107: slaves

Because it is an extraordinary period, and it is currently in full swing, even the high-level Yingtai of the Tianji nationality can move around in the Imperial City. Others really have nothing to worry about.

Therefore, Ye Xuan's Warcraft powerhouse from the cave and the three great devils who mobilized the fortress in the fortress, the camp is extremely luxurious and powerful.

The first is the house!

In this respect, there are many professional devils who specialize in this affairs in the top-level command cabins of the black mosquitoes and the black winds. The male attendants are all handsome and the female attendants are all in one. The beauty of the top, and the professionalism is simply not picky.

In this respect, Ye Xuan mobilized two hundred from each of the two devils' scouts, a total of four hundred, half male and female, and in the future, the entire 18th emperor's house is responsible for them.

As for the internal affairs manager, Ye Xuan arranged for two people, one is empty, for the official position, and the other is Limos, for the deputy.

In addition, it is the **** team of the 18th Emperor's House.

In this respect, Ye Xuan has made great efforts.

Divided into two parts: the Devil's Legion and the Warcraft Legion.

The Warcraft Legion is a hidden force, consisting of a thousand mosquitoes and a thousand soldiers, and the eight-star king in the middle of the original point is the leader of the World of Warcraft Guards.

The Devil's Legion is the power placed on the bright side. The one thousand devils under his command are responsible for the daily patrols inside and outside the government. At the same time, Zuofengtai, the fourth-order origin of the origin, is the leader of the Devil's Guards.

In addition, the wretched mosquito swab was released again by Ye Xuan. As a foreign affairs general manager, this guy is slick and slick, and his words and deeds are often unexpected, and he can stun people in the following period. Inside, it is estimated that the five great emperors will be able to greet the Eighteen Emperor's House, and that there are wretched mosquitoes in front to deal with them. Even if they do not have any substantive effect, it is okay to disgust them.

By the time when Ye Xuan waved the hole and the three great devils, the scouts were all in the immortal world, the hidden guards composed of a thousand mosquitoes and a thousand soldiers and scoops could not be seen, and there was no trace.

The same is true of the original point master of the World of Warcraft Guards, and Ye Xuan has given him a privilege. If there is a strong person who has committed the 18th prince, if the other party is approaching by secret intrusion, there is no need to report it. Star King Scoop has the right to take it directly.

As for the one thousand demon slaves under the guise of the sea, they were divided into a patrol squad in a short period of time, and patrols were carried out inside and outside the 18th Emperor's House.

When this demon slave brigade was first established, including the return of the sea, it was all the repair of the first realm of the star, but now, time has passed so long, and various cultivation resources Ye Xuan is unconditionally They pour a lot of time, and they are the other strengths of the movement. They basically don't bother them. All the magic slaves are fully committed to the breakthrough. Nowadays, they are basically the second largest realm of meteor.

Some of them are even better, such as returning to the sea and so on. They have already entered the third realm of satellites. Compared with Ye Xuan, they only differ by one big realm.

This is a bad progress. At the beginning, Ye Xuan, like them, is the existence of the star nuclear environment. Although Ye Xuan is now the strongest player in the fourth world of the realm, they are only weaker than Ye Xuan. The great realm, and thus the hard work.

After all, Ye Xuan can enter the planetary environment in a short period of time. In fact, it can be regarded as a lot of chances. It is not easy for people to have such achievements.

At this point, the arrangement of the 18th Emperor's House was finally over, and the original imperial palace of the Emperor had become alive and well.

Throughout the process, the uncles have witnessed it, and the devils who have returned to the sea have fallen, at least on the surface, they are no different from humans, but the one thousand mosquitoes and soldiers and soldiers are able to see at a glance. It is by no means the power of the third cosmic human race, it must be from the outer domain.

Even so, the empty blog still did not say anything, seeing the original 18-year-old emperor's house is alive and well, a pair of old and happy.

As for the foreigner's wretched mosquito, I heard that Ye Xuan sealed him as the external director of the 18th Emperor's Office. All matters related to the outside of the government were taken care of by him. His status and the empty plane were equal. A needle of chicken blood, just screamed, and immediately pulled the empty, directly went to the government, a pair immediately began official business, first to empty talk to understand the rhythm of the situation.

"Look at this old thing, remember to send a few people, don't do anything else, just take care of the shift and follow him, and be responsible for keeping an eye on him. Of course, in name, it is the personal guard of the outside manager. It is."

When the wretched mosquitoes pulled away and left, Ye Xuan turned to the sea and saw the new instructions.

In his opinion, he had to wait for a while in the 18th Emperor's House. During this time, for Ye Xuan, it was nothing to do with it anyway. Just by the way, the problem of the old goods of the wretched mosquitoes was carefully explored.

The entire 18-year-old emperor's house covers a vast area and has 18 courtyards. Each courtyard has several entrance rooms, which are like a labyrinth. So don't look at Ye Xuan's wave of hand-signed appointments, but a large emperor's house, these people still It can be settled completely.

Although he is the prince of the 18th Emperor's House, Ye Xuan does not understand the rules here.

Of course, he could have used the personal communication system to invade the starry network of the immortal star and search for it all, but because of the existence of the immortal starry sky super brain, this route is no longer possible, Ye Xuan simply does not dare to use it here. My own personal starry sky communication system, so this matter can only be done.

In fact, all of this does not require him to worry about it at all. As an internal affairs leader, Kong Bo has taken care of all this. He did not wait for Ye Xuan to ask him. He assigned to the responsible affairs of the government. The devil, the male and the slave, have already made all the rules in the house clear, and some have come to lead Ye Xuan to his place of stay.

As a prince, Ye Xuan lived in the last courtyard, which was extremely exquisite. According to the rules, Xuanyuan Zijing and Yingtai, the two confidantes who had not passed through the door, were arranged in the former one outside the courtyard. Into, while the male guests such as Naples, even the door to the three courtyards can not enter, can only stay in the middle courtyard of the Imperial Palace.

All of this has just settled down, and Ye Xuan heard the sound of the noisy screams from the outside of the emperor's house. If it is not bad, most of them are the gangsters who don't open their eyes and know that Xuan prince is returning to the government. I came to the door in life and death.

Thinking of this possibility, Ye Xuan's face sank, and even if he sneered, he got up and walked with the wretched mosquitoes and other people behind him, and went straight to the courtyard to go...

Chapter 3108: Prince Hideaki adult

"Why don't we let us in? We are all old ministers in the Imperial Palace!"

"Where are you guys? Why do you serve as a guardian in the emperor's house? This is our position. You are overpassing. We have to report to the royal clan, you may not know it?" The guardian of the prince's house must be registered in the ancestral palace..."

"Yes, you guys, all of them are wild roads, the name is not right, and quickly get out of the 18th Emperor's House, here is our territory!"

"Let us go in, if we stop obstructing, we immediately turn around and return to the Clan House. When the people are released from prison, one can't escape!"

"Get out of the Imperial City, here is not what you can do!"

.....

Behind the Yingtai, Xuanyuan Zijing and Naples, and the empty and wretched mosquitoes, Ye Xuancai just walked to the second courtyard of the 18th Emperor's House. The noise of the noisy noise in the previous courtyard has been passed. Into the ear, the words were extremely arrogant, even with him, they immediately heard the fire, the brow wrinkled, secretly sneer.

Listening to the meaning of these guys, their own princely palace seems to be unable to make the decision. Everything has to be arranged by the family members of the ancestral home. In addition, the guys outside are so arrogant, and it seems that they have gathered two or three. Hundreds of people, after receiving their own news of returning to the government, were actually gathered in front of the door as if they had made an appointment.

A person who opens his mouth and shuts up is like they are the masters of the 18th Emperor's House. They have to drive away all the guards they have arranged.

Amazing!

If there is no such command from his five emperors, it is only because of these gangs of slaves. Where is such a great courage?

It seems that the guys still didn't give up, and the knife failed. This is going to give yourself a dark arrow.

If the eighteen princes were really inserted by their people, or even completely controlled, then Ye Xuan was all around the eyeliner, afraid that it would be difficult to do anything.

An imperial prince, in his own house, can't convey it with just one command. If you have something to do, you have to be personally involved. This is a big face, and it will undoubtedly make Ye Xuan a laughing stock among the royal family. By then, the original The limelight has changed into a sigh of moments, and I am afraid that it will be ridiculed if it is out of this house.

Thinking of this, Ye Xuan's heart kills the machine suddenly, and the five emperors fall, and the contradiction with them is finally a day of liquidation, and the Japanese leader is not worried.

But today, this group of dog slaves who eat outside, but in any case can not easily let go, otherwise, fear that the entire immortal imperial city will think that their name is not true, no matter how much fame outside, return home, It was the old 18 who was weak and incompetent.

As these thoughts flashed through my mind, Ye Xuan led a group of people behind him and came to the first courtyard of the 18th Emperor's House.

In the sight, the palace gate of the Emperor's House opened wide, and there were two or three hundred people crowded outside. The heads were obviously guards. They should be the guards of the 18th Emperor's House. The current three people are all black-holes. . The rest are basically the existence of the planetary environment and the stellar environment.

And the confrontation with them through a government gate is the three teams of Guardian guards led by the sea. It is basically the cultivation of the second largest realm of satellites. It is generally weaker than the two realms. It is no wonder that the other party dares So arrogant, it is clear that the gangs who are new to the 18th Emperor's Office are weak.

As for the mosquitoes and soldiers, although they are all in the presence of the Star River and the Black Cave, they are not revealed because they are dark whistle.

Although Zuofengtai is also present, it is hidden in the cultivation, and can't see the original point of the supreme cultivation, otherwise these guys may not dare to be so arrogant.

Just as Ye Xuan led a few people behind him into the first heavy courtyard, the guys who looked across the front of the main entrance of the Imperial Prince's house looked at him and immediately saw him.

When even a few people shouted loudly.

"The emperor, what is the reason? We are all the old people of the 18th Emperor's House. How can we not even let our own house now?"

"Where did the foreign slaves come from? One by one, they are afraid that they have not yet registered in the Imperial City? Not to mention the report of the Clan, but this is not the rule."

"Playing is a yes, so a large group of people handed over to the Clan House for review, fearing that it will be at least a half-month, and the security problem of the entire 18-year-old palace can be swollen. What if you want to make some small in the evening? The geniuses are coming in, the emperor is an adult, this is a big loss to your face!"

"Emperor, for the sake of face, to drive these guys away, let us help the elderly to serve you..."

Although the words on this surface sounded reasonable, but in the dark, they clearly revealed the threat. If Ye Xuan refused to agree, they would have to dress up in the evening and become a little confused.

These nine out of ten are the follow-up policies of the five great emperors, but they are really arrogant.

Realizing this, Ye Xuan's heart is already very rich.

It's a trivial matter to kill such a slave with the sacred son of his prince. But if that's the case, I'm afraid that I'll really worry about the five undead emperors.

Thinking like this, the anger of Ye Xuan's heart could not be eliminated. The original gloomy face also showed a smile, and the mouth rushed to the sea and waved his hand: "Oh, don't guard the door, Outside are the old people of the 18th Emperor's House. People are coming in, why are they stopping? Let them come in..."

Upon hearing this, all the people stunned. Only the wretched mosquitoes seemed to have no accidents. Instead, they laughed insidiously. The goods were quite familiar to Ye Xuan's means. He knew him. Not so good, these words must be meaningful.

After returning to the sea for a moment, he frowned and finally waved his hand. The magic slave guards who originally blocked the gate of the house, all of them hung back to the sides and let a road open.

The guys outside obviously obviously think that this is Ye Xuan's soft, and even when they look at each other, they all grin.

At that time, the three black-hole guards were laughing, and the steps leading the people walked inside the gate.

"Ha ha ha..."

"I just said it, or the prince's adult knowledge... wise, so, isn't it all happy?"

"But this family is so ignorant, you have to get out of the Imperial City as soon as possible!"

During the talk, all the guys have entered the house, and the first courtyard of the 18th Emperor's House has stood in a vast array of nearly 300 people.

Just as the guys spoke and wanted to go to the second courtyard, Ye Xuansen's cold voice suddenly sounded: "Close the door! Clear the field..."

Chapter 3109: Break the dogleg and throw it out

"Close the door! Clear the field..."

"After returning to the sea, your people are all guarded at the periphery. After a while, they will be the guest of the hard work. The following things are the responsibility of all the dark guards!"

"All the people, one counts one, all interrupt the two dog legs to the prince... throw it out!"

After that, Ye Xuan turned directly and didn't look at the guys. He looked at the distance with his hands, as if he was enjoying the scenery.

The returning guards and other escorts in the house, after squatting, all of them stunned and retreated to the outside of the courtyard, and looked at the guys with gloating.

As for the nearly three hundred people in the hospital, they have changed their faces. The three guards who have been trained in the black hole have even loudly screamed.

"The emperor, what do you mean by this? This joke is not funny at all!"

"Playing is playing, you are too chilling, we are all old people in the government, how? After flying up, I immediately turned my face and didn't recognize people?"

"It's really cool, just take a look at the old man, it's too kind!"

"I will not wait for this matter, and I will swear to rebel, and then report to the Clan House and ask them to be the master!"

"Yes, this matter must be disclosed, let the world look at the Xuan prince in their mouth, what is the ugly face, the master of the bridge after crossing the river, forgetting how we used to wait for him..."

"Hey..."

"Hey!"

.....

Did not wait for the guys to finish the words, the first major courtyard suddenly sounded a burst of dense humming and whistling.

A large number of mosquitoes and emptiness soldiers appeared out of thin air, and the cultivation of the realm was basically the eighth largest black hole, and part of it was the seventh largest star environment.

The number is about two hundred.

This is still the result of their failure to arrive. Ye Xuan has previously settled in the dark squad of the Eighteenth Emperor's House of Mosquitoes and Soldiers. The two beasts are a thousand, but now they are one-fifth. Only.

Even so, the guys who were screaming in the first heavy courtyard were still scared softly in the first time, and they thumped in the sound of plop, all of them exclaimed and stunned and fell to the ground.

Only three of them were black caves, and there were hundreds of black caves suddenly appearing around in a cold, and they were still beasts.

They have never even seen mosquitoes and soldiers, and I don't know what these two beasts are.

But one thing they are sure of is that these fierce beasts are definitely more horrible than the human powers of the same strength. Does the beast know that it is not enough?

As soon as I read this, the guys immediately asked some people to ask for Rao, crying and crying for death, one by one!

The first moment of the emergence of these beasts, they realized that today's things are not very good, Xuan Huangzi has long been far from the old prince of the sacred, can you let them help the savage slaves to bully?

"The emperor is forgiving, we are also forced, and it's not our idea to come over today."

"Playing is playing, the emperor is an adult, we are confused for a while, be tempted by others, and ask the emperor to be a good man!"

"Reading that we have served you, we must give us a life!"

.....

For a time, the entire first courtyard was full of loud crying and begging for mercy, and the mosquitoes and soldiers who had already surrounded these guys were all ready to do so. With a **** gaze, staring at them closely, a posture that wants to choose people.

"Which people are behind you are tempted, this point is clearer than you, so you don't have to say more."

"As for your little life, I just said it, just interrupting your two dog legs and throwing them out, you can't die..."

"In addition, in order to prevent you from talking outside, even if you break your legs, it is impossible for those who confuse you to come and ignore it. If you meet a master of righteousness, you may even help you. Heal the leg."

"Of course, if some people are a little bit guilty, it's possible to have trouble killing people and killing them."

"It is a blessing that is a misfortune. When you first leave the 18th Emperor's Palace and go to them, it is also your own choice. So, what will be left in the end of the day, I think you are somewhat self-aware, and miserable. It's also blame for others!"

"Hands!"

In the last sentence, Ye Xuan sighed and slammed out, and at the same time gave instructions to all the mosquitoes and soldiers with spiritual strength. In an instant, the sounds of humming and screaming, all the mosquitoes and soldiers, all facing The guys rushed over.

Then, the first heavy courtyard was filled with horrible sounds. These guys faced hundreds of mosquitoes and soldiers, and the souls were scared. They didn't dare to go back, and all of them were lying down, but As a result, without exception, all of them were bent on their legs.

It's still better to fall in the hands of those mosquitoes. It's basically cut off by a mosquito head with a sharp knife-like mosquito arm, and it's terrible to fall in the hands of the rifle, their calves, Without exception, it was eaten by the soldiers and scooped up to the knees.

After being tortured, he was stunned by more than half on the spot. In the end, he was led by the sea and led several guards in the house. All the slaves and their broken legs were carried out of the door, and the street was thrown away. .

As for the guys who are dead or alive, it's not that they manage it, and they don't have that interest.

When the guard teams returned, the remaining guard teams had already washed the first heavy courtyard with clean water, and the **** smell did not leave a little bit. All the mosquitoes and soldiers scooped away again. Shape, everything is restored as it was, it looks like everything just now, there has never been a general.

For all of this, Ye Xuan's arrogance, Napoli's as a general of the immortal army, Samsung, naturally sees more, even even Xuanyuan Ziyan, walking outside the experience, this kind of thing is nothing, let Ye Xuan feel a little Surprisingly, the empty slave of the government, who saw the whole process clearly, had no fear, and his face did not change at all. He could not help but secretly praise him...

After a slight indulgence, Ye Xuan turned to the empty blog and looked at it. He asked softly: "I haven't known the imperial city since I left it for a long time. I don't know the so-called Zongrenfu, nowadays. Who is in the main event?"

"The so-called Clan House is actually an inspectorate within the royal family. It is not subject to the DPRK, so it is not a DPRK institution. It is an independent department within the royal family. It is only subject to the jurisdiction of the Royal Court..."

When I heard Ye Xuan ask, Kong Bo nodded, his face did not change, and immediately explained to him in detail...

Chapter 3110: Zongrenfu

When I heard the first two words of the empty explanation, Ye Xuan had already moved his heart, and the look on his face could not be eccentric.

Even if the Emperor Xuanzi left the Imperial City for a long time, why is it not known to the people of the Clan House today, but it is not always forgotten in the basic situation of the Lian Clan?

At the moment, this empty blog has repeatedly said from the beginning that this is clearly the rhythm that Ye Xuan does not know about.

That is to say, the empty heart is clearly clear, and the person standing in front of him at the moment is not the real Xuan prince. Although the blood is exactly the same, it is no different, but the person is no longer the person.

Therefore, he will say so carefully!

One thought of this, Ye Xuan could not help but look at the empty eyes, but the latter still looks as usual, the tone is calm, carefully explained to Ye Xuan everything about the Zongren government.

"The main responsibility of the Clan House is to control and monitor all members of the entire royal family!"

"Including the five emperors and the top ten emperors, the clan palaces have the right to interfere. Even the harem, the clan palace has the right to ask about the matter. Of course, you must get the permission of the immortal emperor in advance."

"In short, all members of the entire royal family, as well as all the matters of these royal members, the Clan House has the right to question, its status is detached, although the Immortal Emperor is the nominal direct leader of the Clan House, but in fact, When needed, the Clan House can completely cross the immortal emperor and report directly to the royal family."

"All the guards and slaves in the emperor's house do need to register in the clan's office. They are naturally not qualified to disturb the clan's house, but everything related to the emperor, there is the clan palace. Rights management."

"Today's ancestral government, Yin, is named as a dragon priest. It is a kind of uncle who is an immortal emperor today. On behalf of the generations, you have to call him an uncle."

"This person's cultivation is also extremely extraordinary. Like the great emperor and the dragon, it is the supreme existence of the twelfth realm of empty space. Of course, the great emperor Long Hao can not do anything with him, open the patriarchal government. Fu Yin's position is not mentioned, and the great emperor sees him, and he has to call a family uncle."

"Because of the detached status, in the entire immortal royalty, basically no one dares to confront the Zongren government. In fact, all the people in the clan's house, even the most ordinary government supervision, are also royals. It is a royal family who is elected by the old club, and is selected annually by the royal family."

Speaking of this, the empty words disappointed, looked up at Ye Xuan, and this continued: "The emperor is not afraid of the old slaves, since your five emperors have used this kind of haze, afraid of I have already moved at any cost, regardless of the consequences. In any case, I have to pull you down. So, on the side of the Clan House, they cannot be unconcerned."

"Of course, the status of the Clan House is detached. They have not arbitrarily mobilized the ability, but they can use it. For example, if they are talented, they will have enough embassy to intervene in the investigation. If there is no accident, according to the estimate of the old slaves. They should already be on the road, and soon they will arrive..."

"Is it necessary for them to take me to ask for sin?"

Hearing here, Ye Xuan's brow wrinkled, and he couldn't help but pull out the fine mans.

In fact, the anger of his heart was inexplicable and smashed out.

Although he is a fake, but after all, on the table, his identity as a prince has been recognized, but even so, since this immortal star, Ye Xuan has not encountered a good thing.

First, after the accident at the Federal Headquarters Supervision Institute, and then returned to his house, his five emperors were disgusting, and caused such a group of slaves to come to trouble, and then the clan palace had to come over to accountability, is this special thing that is not the result of the mother?

It is clear that it is going back to one's own home, but it is more dangerous than the devil's star field behind the enemy. In this case, no one can be happy.

Kong Bo clearly saw the unpleasant color of Ye Xuan. When even the bitter smile, he continued to explain: "The emperor is not going to be annoyed. You must not blame the clan's head. Can't even do it with them, otherwise, it is the ones of your emperors."

"In fact, even if the old slaves are said, they will never mention a bad thing about the patriarchal government."

"It is such an authority within the royal family. Even if this time comes to the door, it is true that you have seized the authority of your emperor and used it!"

"But this matter, the Emperor of the Emperor may not be at fault. After all, the Clan House has the rules of the Clan House, and it is a royal family. There is no rule and no rules."

"The only thing that is worthy of slavery is that the key princes suddenly call you so many strong people, even the murderous mosquitoes, and they are not weak. Here is the immortal emperor, and it is still within the imperial city, the celestial Can the house be left?"

"Don't say it is you, these things happen in the Grand Emperor's House, the Zongren House will be dispatched, and the powers of the people are there. This is really not necessary for the Emperor."

"In addition, although the clan's house is all royals, but the old slaves dare to say a word, even one of them is the most common supervisor, and it is impossible to be bought by your five emperors. Possible."

"The first training of the Clan House is that all the royals who are in the middle of the palace can never participate in the dispute of the imperial power. Otherwise, once they are verified, the old cabinet will have a special responsibility for the punishment. The portal, by then, is not as simple as a lost life. One thousand years ago, there was one person who committed this sin. It is said that it is still lingering and tortured every day, so that it is the royal family member of the town's ancestral home!"

"So, in the clan's house, there must be no unfairness, that is, they must be accountable to the emperor, you are also an omission of the emperor, and give other emperors the use of the clan to deal with you. opportunity....."

As a result, the anger of Ye Xuan's heart has suddenly disappeared.

He is not an unreasonable person. Since the Clan House is such a fair and incomparable institution, then all actions are handled by the public, and what grievances do you have?

To blame, you can only blame yourself for the emperor's step by step.

According to the normal procedures, Ye Xuan only needs to make a roster of books to report to the Zongren government after the event, so that the emperors are not at all. Give him this opportunity, take the time to catch his breath, immediately toss up, plus the hundreds of people have been interrupted by the legs before the movement is not small, so it will alarm the Zongren!

"Hey, I want to go to the prince with the prince, I am afraid it is not so easy!"

After figuring out all this, Ye Xuan immediately sneered, and turned to the wretched mosquito to see the past: "Give you a column of time, immediately get the roster out of the roster, as for the mosquitoes and soldiers, all said the cost The emperor's pet beast will do..."
