Chapter 311: Two brothers and sisters

"I have a blood seed that I accidentally got, which was left by a senior who was proficient in axe." Ye Xuan handed it over.

After the Song ruling heard the blood seeds, the whole person was stunned for two seconds. "Haha, thank you brother."

He didn't think much, swallowed the blood seeds directly.

A second later, his eyes screamed and took out a long axe taller than others.

"It's so amazing. Now I feel that this cracked axe has become a part of my body. I also learned a Chinese-level martial arts..." Song decided to hold a long axe and practiced.

At the moment, Ye Xuan has exchanged a long axe of the top grade, and said: "Big brother, this is the top grade, the sun axe. And these are the top grade martial arts I got, you take it. Ok..."

"This....."

Song ruling brains can not be turned a bit, just a blood seed will be counted, and now even the top grades and top grade martial arts have come out, what happened in this more than a month?

"The Bible, these are yours."

After Ye Xuan handed the things to the Song ruling, he took out some more things.

An ordinary top grade, only worth five points to devour the crystal, but now he is the best in the top grade, is the closest to the heavenly instrument, this axe sword, spent a total of five hundred engulfing crystal .

"It seems that there have been many things happening in this month. I will wait for you to tell me..."

In the heart of the Song Dynasty, there are still some concerns, but she can be assured that she has nothing to do with Ye Xuan.

"Don't worry, there are good things." Ye Xuan smiled and took out some of the mysterious beasts. "You have already broken through to the heavens. Here are some of the mysterious beasts inside the Tiandan... .."

"Cough, we have just broken through the two talents, and we need some time to consolidate. If we want to refine the mysterious beast, we still need to wait for a while." Song ruling hurriedly.

"It doesn't matter, let's take it first, and when you get there, you can refine it yourself." Ye Xuan divides the sacred beast into two.

"That's good, then I don't bother you anymore. I will try new weapons first!" Song ruling, taking advantage of the Yanzhi axe, and left excitedly.

As for the Song Dynasty, he followed Ye Xuan back to his residence. The two sat in the yard, and the latter began to talk about this encounter for more than a month.

"You said that you have conquered a stone spirit, where?" Song Congjing asked curiously.

Ye Xuan said nothing, directly grabbed Megatron from the pet space and said: "It is it, swallowing me a lot of things, can't afford it."

"Hey, how is a kitten?" After the Song Dynasty saw Shi Ling, it was also a glimpse.

Ye Xuan heard the words and moved his eyes. The next moment, he was eclipsed.

I saw a green kitten sitting cross-legged on the stone table, looking at the two with big eyes.

"I rub, have you evolved?"

Ye Xuan hurriedly brought out the pet panel and found that Shi Lingwei Zhentian was already the soul of the peak of the real Xuanjing, and will soon become a mysterious beast.

"喵喵~"

The green stone cat screamed softly, and suddenly it collapsed, and then reorganized in front of the two and turned into an elk.

"The trough, really Transformers, can be reorganized like the Eight-Year Sword!" Ye Xuan was shocked. If this is the case, he may become a Dapeng in the future, and he will be able to sit and fly.

Song Cong Jing looked at the mini elk with his eyes wide open and said: "Is it Shi Ling? How can it change and change, can it become an arrow back pig?"

Shi Ling heard this, blinked his eyes, and immediately deformed again. It really turned into an arrow-backed pig, but it was a mini version.

"It's so cute, what is its name?" Song Congjing held this arrow-backed pig in his hand and asked curiously.

"Hey, Megatron."

Ye Xuan said a little embarrassed that there is no Transformers in this world, so I will certainly not hear about it.

"That is called Xiaotian, Xiaotian, can you become what it is?" Song said.

Then, the back-to-back pig was deformed again, and the nut that had been smashed by the zombies was restored, with two thin arms and two thin legs.

At this time, it suddenly stretched out his hand and faced Ye Xuan.

"Where, isn't it just for you in the morning, what, performance fee?"

Ye Xuan had a helplessness. This is really a food eater. At the moment, he took out two top grades. Megatron took the two faces in front of them and swallowed them.

"Does it eat this?"

The Song Dynasty was almost scared to death, but it was two top-grade goods.

"Yeah, I have to eat 30 a day." Ye Xuan nodded.

Thirty!

Ground!

Song Taijing turned a blind eye, a top grade is enough to buy the entire Song Dynasty, thirty enough to buy the entire East and even the four major domains. And most importantly, this is the daily food cost of Megatron!

"You little thing, it is already the soul of the real Xuanjing peak, and once again, you can go to the mysterious beast, but you will not always be in such a small state?" Ye Xuan asked.

Megatron shook his head and then slammed it into the ground and broke it into countless small powders. The next scene is to let Ye Xuan and Song Dianjing look stunned.

I saw that Megatron's small powder began to expand slowly. In the blink of an eye, it became the size of a football, followed by the size of a stone table...

Ye Xuan quickly added: "Show me the biggest state!"

Megatron's words began to swell and eventually became a giant of more than ten meters.

More than ten meters high, it seems to be the green giant of the Dacheng level.

"Can you become a Peng bird to fly up?" Ye Xuan said again.

The next moment, the little giant of the green source collapsed, and then became a Dapeng bird with a wings of ten meters and swam in the air.

"Not bad, the speed is already more than the average Ling Xiao Dapeng, and once again grow up, it is the level of the mysterious beast." Ye Xuan nodded with satisfaction, it seems that this time really really great luck.

In just one week, Megatron will soon break through to the level of the mysterious beast. If it is given to him for a month, at least it should not be the level of Didan.

If you give it a year, can you not break through to the existence of the dragon?

The green Dapeng bird of Shilinghua immediately attracted the attention of other disciples.

"What is this beast, the green Dapeng bird, how have I never heard of it?"

"I heard that this is a pet that Ye Shixiong tamed..."

"I just saw him as a green big stone man. How do you become a Dapeng now?"

"It's still a good time to practice. Ye's brothers are able to kill the strong people in the heavens. We haven't even broken through the land, and we're scattered."

A group of disciples are talking outside.
