

Super D. S 3111

Chapter 3111: Black-faced man

When I heard Ye Xuan's instructions, the wretched mosquitoes immediately turned around and turned away.

As for the empty blog, what I said is also said. How should this matter be dealt with? It is not that the internal manager of his prince's house can decide. Therefore, he silently stepped back two steps and quietly A pair of postures waiting to be heard at any time.

In the three people behind Ye Xuan, the same is true of Yingtai. Although she has not received a word, she has already been recognized by the national teacher. There is even a national teacher's command in her hand, but after all, it's not a royal family, not even Human beings, therefore, she has no say in this matter.

At the end of the Ye Xuan, what do she need to do, and told him that Yingtai will go all out.

It was Napoleon and Xuanyuan Ziyang, who exchanged a look after turning their heads, but immediately frowned, a worried look.

It is a pity that the two are also not among the royals. It is really inconvenient to intervene in this kind of matter. Even even giving Ye Xuan a suggestion is hesitant. The battle of imperial power can be described as extremely dangerous. Any mistake made in a small step is possible. They never recovered, they did not dare to open their mouths.

It seems that I felt the dignity of the surrounding atmosphere. Ye Xuan turned to the crowd and looked at it. Then he grinned and said: "What is it so serious? Isn't it a clan's house? Since it is a fair royal family inside. Institution, this prince is also a royal family. How much has this been done? Isn't it just going to push me out? If that's the case, I'm afraid to be suspicious of the ancestral government's Fu Yinlong. Will it be the spies of the Tianji clan, and it will not be able to move the royal family..."

This joke is not good at all. Napoli and Xuanyuan Zixiao didn't listen well, and when they heard it, they even turned their eyes.

It is the side of Yingtai and the empty, still expressionless, as if not heard.

At the same time, with the fall of Ye Xuan's joke, the 18-year-old emperor's door, a full-fledged middle-aged male voice, also responded in general, suddenly came in.

"In private, there is nothing in the house, even a half-year ago, there is a sideline, I am a dog thing after drinking."

"Of course, the first thing that this person later gets up every day is that he has a hundred songs at the door of his home. It takes half a year to calculate the time. It should be over."

"However, it is really the first time to say that the prefecture Yin is a spy, and it's fresh..."

"The key is still in front of so many people, Xuan Huangzi really is extraordinary, at least this kind of thing, your five brothers who are not a device, are not killed to kill!"

As this discourse began to sound, a stature, round face, especially with long faces and long beards, I couldn't take a look at it, and I felt the ultimate middle-aged man with a rough sense of arrogance. I have already stepped in from the door of the 18th Emperor's House.

There are not many people behind him. There are only two people, and they are also wearing a black gold dress. They are expressionless. The whole body is not weak, but they are all nine-order grand perfection.

As for walking in the forefront, I will know his identity when I listen to the previous words. It is the ancestral government, Yin Long, who swears, even the contemporary immortal emperor has seen, and they all have to call the existence of a sect, but they are all tempered. Not revealed, at first glance, just like an ordinary dynasty.

Ye Xuan is dumbfounded on the spot!

Behind him, Napoli and Xuanyuan Zijing were sighing and sighing at Ye Xuan.

Yingtai still has no expression.

And the empty, obviously also by this coincidence to the thunder is not light, shaking his head and laughing.

Then he turned to the big-faced man who was striding for a big fist and bent a little: "Long Kong has seen Fu Yin adults!"

What makes Ye Xuan stunned is that the ancestral government's Fu Yin, who is a high-ranking and handsome singer, saw him swearing at him, although he only bent his arms and bent, but his reaction was It is a bit too big.

It was a stroll and jumped to the side. It seemed that I didn't dare to be ruthless. I was so angry that I turned my eyes on the spot: "Oh, every time I come to this set, on the seniors. I have to say that you are so empty, is it so interesting? If you meet, you can count the capital Yin! Fortunately, I am smart, and I am avoiding it..."

This time, not only Ye Xuan Zhang opened his mouth, Napoli and Xuanyuan Zixiao looked at the empty face, even the Yingtai standing on the side of the face, always look up and look at the empty eyes. .

As for the wretched mosquito case that was holding a booklet from the second hospital in the back of the house, after seeing this scene, the eyeballs slid and turned, and they swept silently on the empty body. Two laps, and then before the empty mind subconsciously turned around and looked around, cleverly and carefully removed the line of sight, the singularity of the ancient spirits also converge, not revealing points.

"The master, the roster is taken!"

In the near future, the wretched mosquito swatter raised the roster of flowers in his hand and retreated to the side, no longer speaking.

Kong Bo did not pay attention to the words of the ancestral government, Yin Long, who seemed to have heard nothing at all, but at the moment, he smiled and smiled at the wretched mosquito.

The latter's well-behaved people, low-browed and pleasing to the eye, seem to have no feeling of the general, standing quietly.

"Your boy is also clever, so for a while, the roster is ready?"

Long Xing's line of sight swept a few times on Ye Xuan's body. When he talked, he raised his hand. The book in the hands of the wretched mosquito trap immediately flew into his hand. He didn't look at it and threw it to the two entourage behind him. One of the strong.

Then he answered: "If the capital is not guessed wrong, those mosquitoes and worms should be your pet beasts? As for the thousands of demons in the government, hey, even the celestial beings have been made by you. Come over, but also got the approval of the National Teacher Master, the National Teacher's Order has been given, what is the Thousands of Devils? With your mind, I must have pointed out the identity of their devils on the roster. "

"Yes, kid, beautiful!"

As soon as the words were spoken, the look on Ye Xuan's face suddenly became strange. Everything was just like the other's said. It's almost half-pointed, and it's even more shocking. It's just a while, the other person's already All the circumstances of the entire 18th Emperor's House have been mastered, and the immortal royal family's clan palace has been well-deserved.

"As for the slaves who have fewer arms and fewer legs outside, hey, don't say that you still leave them a life, it is killing and it's okay, the ancestral home is in the hands of others, Lao Tzu does not dare to say, as long as it is in my hands Holding, no matter who you are, if you want to use the power of Laozi's hands to do things for them, it's impossible!"

This is a very happy speech, and I haven't given a few faces to Ye Xuan's emperor. Sooner or later, I want to pass it out. What's even more rare is that this dragon is obsessed with temperament and atmosphere. It's the type that Ye Xuan likes, simple. A few words down, let him have the feeling of meeting each other, and almost opened his mouth to say a ancestors wise!

Chapter 3112: Open the leveling treasure

After the arrival of Long Yushou, a few words said, all the people were relieved, and the impression of the patriarch, Yin, was great. Only the empty man shook his head and smiled.

Sure enough, Ye Xuan and other talents just put the heart hanging in the eyes of the blind man back, the other side is immediately turned, and the latter half is directly changed.

"The thing of today is not to disturb the capital, but the capital is still coming, indicating that there are changes, of course, there is no change, the capital is also coming, your kid has recently been in the limelight, the capital Yin I also want to come over and see how many heads grow on your neck! Oh, it's a long time like me, it's too disappointing..."

Just when Ye Xuan listened to this, he couldn't help but laugh. Long Yao's guard was a blindfold. He said again: "I'm just saying it, it's nothing to do with this, but when you're just coming back, you'll be able to make it into the imperial city. Ghosts crying for a long time, an old monster in the old cabinet can not be quiet, and put down the words in a rage, the matter must be investigated, the capital Yin is also a bad thing, the old monster I can not afford, a My fingers can kill me."

"So, how is your kid selling the face of the capital? With my play, it is best to be sad, let the ancestor suffocate, and this matter is too big, and the little things are gone..."

Upon hearing this, Ye Xuan almost did not see a black spot on the spot.

Say good and honest?

Say good integrity?

These words are still in the ear, and now the leader of the Clan House has said such things in front of so many people, and they have all regarded the strict laws of the Zongren as a child.

Such a huge disparity is really a bit unacceptable for a while!

"Looking at your face is black, can you still hurt you? Although the tower is really not a good thing, you can only get three or four out of ten, including one and a half. Disabled or scared, but that is, after all, the inheritance of my immortal royalty, as long as the life is bigger, the benefits are still there..."

Seeing Ye Xuan's black face frowning frequently, Long Hao kept his eyes straight and turned, and urged him up: "If you don't do it, you will give a quick speech. If it is dry, let's go now. If you don't do it, then I am now." Take it and take it away, it's the same anyway!"

The **** is straightforward, and it is estimated that there is no one.

After listening to this, Ye Xuan turned his eyes again, and then turned to look at the empty side of the side.

Then, what kind of sect tower, he still heard the first time, I don't know what it is. Listening to the meaning of this dragon's words, it seems that although it is dangerous, it is somewhat beneficial. If you want to go, at least you have to figure it out.

At this time, it was seen that the cat was tired. As the son of Xuan, it was impossible to even know the ancestral tower. However, Ye Xuan turned to the air, which was clearly meant to be consulted.

This scene fell into the eyes of the dragon guard, his scorpion bottom flashed a touch of fine mans, but his face floated a touch of more interested smile, up and down Ye Xuan looked up, grinning.

It's not necessary to say more about this. From the time he told Ye Xuan about the ancestral tower, Ye Xuan has already determined that he knows that he is not a real Xuan prince, but he does not care, at least he is pure and immortal. The blood of the royal family is not fake, it is not the Xuan prince, that is the illegitimate child left by the immortal emperor. It is really necessary to elaborate on it. In fact, there is no difference at all.

Therefore, Ye Xuan is now also a dead pig is not afraid of boiling water, and the empty heart knows the truth and knows it, anyway, there is nothing to be afraid of.

The performance is a bit more free and easy, but it does not attract people's doubts.

"The Clan Tower is actually the immortal ancestral tower of the royal family. It was built by a generation of immortal emperors. There are nine floors in total. The creation of each layer is different. All members of the royal family are eligible to apply for the tower experience..."

"Of course, basically no one will take the initiative to do this, because the nine layers of the tower are not small, but the torture that they have to undergo, but it is too perverted, basically go in ten, at least Half dead is inside."

"Over time, the members of the royal family took the initiative to apply for the tower to practice, and the descendants who passed the inheritance were almost gone. In order not to interrupt the inheritance of the royal family, I did not know when it was used. The tower was used by the clan government and took the individual name. , called the sect tower."

"Whenever there are some members of the royal family who have been there, many times they will be punished into the tower for trials. It is a punishment. In fact, they are looking for an excuse to force the imperial descendants who dare not enter the tower to enter the tower for trials!"

"Of course, if there is no such thing, this so-called disguised trial will become a real punishment, and it is normal to die inside!"

Hearing here, Ye Xuanton entered the enlightenment and understood all of it.

What **** is arguing with the repair of an old monster in the old club?

This is all excuses. It is clear that the old monsters are watching their own blood and returning to their ancestors, so they turned a corner and forced themselves to enter the tower.

Of course, it does not rule out that some old monsters know their identity. They want to take this opportunity to distinguish themselves as fakes, but they can't clearly reveal the possibility of the Emperor's son, directly killing the immortal ancestral tower. Sex.

Because of this, the fakes are dead, but the reputation of the Emperor Xuanzi has been preserved. For the immortal royalty, this is the best of both worlds.

As soon as I read this, Ye Xuan's heart suddenly became a sinking.

It seems that this immortal ancestral tower, they also have to be awkward, and they have to be embarrassed.

Just at this time, the empty side of the side continued to say it.

"The Zongren Tower is dangerous, but it is a place of inheritance of the immortal royalty. The benefits are obviously many."

"The clan tower has a total of nine floors, and every three floors is a stage. That is to say, as long as you enter the tower, you must rush to the third floor to select the tower."

"Of course, if you choose to continue, you need to go to the sixth floor to get out of the tower."

"After further, I will finish the tower and exit the tower from the ninth floor."

"However, since this tower was built by the first generation of immortal emperors, no one has succeeded in exiting the tower from the ninth tower!"

"Although the royal enchanting Tianjiao on the ninth floor is not without, but the only two royal patriots from the ninth floor in history, they are transmitted from the ninth floor... all the bodies!"

"Even even the royal family members who came out from the sixth floor, there are only a few dozen people since tens of thousands of years of age, except those who have already died, and the rest are now in the royal family."

"Oh, yes, there are two people outside the old pavilion. One is the immortal emperor of today, and the other is the ancestral monk Yin..."

"As for your five emperors, they all chose to go out from the third floor and didn't dare to go up!"

"There is one point that must be explained. That is, every success has passed through one layer, and the repair of the tower tester can be immediately promoted to a small stage. After the ninth floor is finished, it is a promotion of a big realm..."

Chapter 3113: Entering the tower

"In addition, the third and sixth floors of the tower have some inheritance of the immortal ancestors. As long as they succeed, they can get one on the third and sixth floors. Of course, everyone Afterwards, the inheritance of blood and blood is not the same."

"As for the ninth floor, there is no one to know. Although two people have reached the ninth floor, it is obviously a failure. It is only a corpse that has been transmitted!"

Speaking of this, Kong Bo no longer speaks, his eyes are fixed on Ye Xuan's face, waiting for his decision.

The latter, at this moment, has already begun to make waves.

After a successful one, it will rise to a small step?

I rely on!

This is simply the perfect place to open the leveling level?

This matter sounded to be thought-provoking, but I think that the tower is the inheritance of the royal family of the entire immortal dynasty, and everything is not difficult to understand.

Each layer of towers is promoted to a small step, which must be realized by the energy accumulation of the towers in the endless years.

If you say this, if you finish the nine-story, can you not directly promote to a big realm?

Ye Xuan is now the fifth-order revision of the fourth-largest planet. If he can walk out from the ninth floor safely, then his cultivation will directly jump to the fifth stage of the fifth realm.

Such a superb speed has never been experienced before him. It is absolutely unprecedented to say that the temptation is big.

What's more, in addition to this, you can also harvest two kinds of **** magical powers from the immortal ancestors in the third and sixth layers. As for the ninth floor, as the end point, I am afraid that the reward is more than just a kind of **** supernatural...

In a word, this so-called sect tower, as long as it can be successfully smashed, the benefits are absolutely shocking, that is, Ye Xuan can not ignore, in the case of he has the upgrade cheating device of the swallowing system, to rise nine small The order is also a long time, especially now that the foundation is already the fourth realm of the planet, and the more difficult it is, the harder it is to get promoted.

This time, there is a small step in the Jin and Jiu, which is a great opportunity for a great realm. In the eyes of Ye Xuan, it is dangerous and big, and he is absolutely impossible to miss.

"This sect tower, this prince... oh!"

With his fist clenched, Ye Xuan immediately made a decision. On the side, the empty boss laughed and smiled. The Yingtai was still expressionless. Napoli and Xuanyuan Ziyang exchanged a look. They are slightly frowning, and obviously they are all worried.

The ancestral government, Yin Longzhen, kept laughing when he looked up.

"Ha ha ha..."

"Your boy is best to think about it and decide again. Don't blame the prefecture Yin for not reminding you. No matter what you are doing into the tower tester, but the foreign object can not be brought in, including the pet ring in your hand. "

"Of course, the warships that you have earned in your body are not listed here. As long as you have the ability to take it out after you go in, it is allowed by the rules of the immortal ancestral tower, nobody cares you!"

"That is to say, after entering, basically do not expect external forces to help, you have to rely on your own skills, if not, the rate of damage to the tower testers will not be high, you can think Already?"

When I heard this, Ye Xuan even turned his eyes: "It's like saying that the emperor can't go to be the master. I just don't know who is going to take people into the tower. Oh... is it interesting?"

Long Yushou is a straight man, talking to such people, Ye Xuan is not the habit of turning around.

"Ha ha ha..."

"You kid is interesting, although this is not polite, but it is very temperament to the capital of the house, so if you can live out from the third floor, turn back to the capital, personally ask you to drink. Hahaha..."

"Who said that the emperor is going out from the third floor?"

Without waiting for the dragon to sneak, Ye Xuan even turned his eyes again: "With such a good opportunity, one layer will rise to a small step. The prince is now in the fifth stage of the planet, and when the nine layers are finished, Can it be the fifth stage of the stellar environment, can you let go of the opportunity?"

"Although you didn't say it, the Emperor also guessed that this tower should not be able to go to it if you want to?"

As soon as he asked about this, Long Hao kept a sigh, and then nodded and said: "Yes, any royalty member has only one chance to smash the tower for life. If this time comes out from the third floor, even if it feels like the next time. After the sixth floor, there is no way, and I can't enter the tower!"

"Look, that's it!"

Ye Xuan's eyes brightened, and immediately took over the words: "On such an opportunity, if it comes out from the third floor, isn't it vainly giving up the six small steps of the Jin Dynasty? This kind of thing is fool!"

The implication is that all the royal members who had chosen to leave the third or sixth exit after entering the tower became the fools in his mouth, including the dragon guard, and he also left from the sixth floor. Did not continue to go to the seventh floor.

However, for Ye Xuan's disrespect in the words at the moment, Long Yaoshou did not care at all. His face was already weird, and Ye Xuan looked up and down a few times, and he snorted and asked: "Listen Your kid's meaning, is this really going to go all the way down to the ninth floor? The capital Yin Ke reminds you, don't forget that the two corpses from the ninth floor can not be thought of. Become a third one?"

"Listen to me, let me go to the sixth floor and let go. The back three layers are really not as simple as you think. In history, the two bodies were sent from the ninth floor. There is no prestige. Nowadays, you are all the most enchanting Tianjiao people in the history of the immortal royal family!"

"But they are on the ninth floor...fallen!"

When I said this, the look of the dragon's face was extremely serious: "Bad boy, this is not a slap in the face, it is rare to encounter a temper against Laozi in the royal family, regardless of the old monsters in the old club." What are our thoughts, at least on the side of Laozi... I really don't want you to die!"

Hearing this discourse, Ye Xuan's heart is also a glimpse. With the temperament of the dragon, it is impossible to say the kind of false words.

What's more, with his position and status, there is no need to show it in front of Ye Xuan.

Everything can only come from the heart, it is indeed the same as Ye Xuan's temperament.

"Fu Yin assured that this little life of this prince has always been very hard. Even if the immortal ancestral tower is hard and dangerous, I want to harvest my little life casually, I am afraid that it is easy to have it!"

During the talk, Ye Xuan hugged the fists to the dragon, and asked Fu Yin to lead the way. This priestly tower, today the prince will smash it, either squatting or exiting from the ninth floor...

"Ha ha ha..."

"Good! A good prince!"

The dragon squats and can't help but smile. He laughs up: "In the immortals of the immortal royal family, there is finally a person who can make the capital look good, and rush your little boy, no matter whether you can get from the tower. Out of the middle, all the people who are related to you, the capital Yin Libao to protect them safely..."

Chapter 3114: Mysterious

The meaning of the words has been different from Ye Xuan, this time he entered the tower to practice, it is not only about his life and death.

Including the Naples and Xuanyuan Ziyang, as well as the life and death of the Yingtai and all the mosquitoes, soldiers, and the devil who stayed in the 18th Emperor's House, all of them were attached to him.

Although Ye Xuan has a pure and immortal royal blood, but he is not a Xuan prince, fearing that it is the core of the entire royal family, there are already many in mind.

In this case, coupled with the stalwart of the Emperor Xuanzi, even the royal family can no longer deny this thing brightly, otherwise it is tantamount to hitting his face.

But this does not mean that the top elites of the royal family, especially the old monsters who have always been ruthlessly old-fashioned, can be willing to swallow this breath.

This time in disguise, forcing Ye Xuan to enter the Clan Tower is equivalent to a means of sanctioning him.

As long as Ye Xuan died in the clan tower, then the hearts of their hearts will be preserved, and the reputation of the Emperor Xuanzi can be preserved. More importantly, the face of the royal family can be lost.

At most, after this incident, Ye Xuan was posthumously criticized a royal name such as a royal elite. Historically, no matter what kind of political power, this kind of trick is playing purely...

All of this, although the dragon guards did not say it, but he now feels the words because of Ye Xuan's heroic spirit, but it is no different than already suggesting this point.

Therefore, after hearing the words of the dragon guard, whether it was Naples or Xuanyuan Ziyan, after a slight glimpse, they all shook their heads and smiled.

The situation has evolved to such an extent, and if they have not responded, it is simply a headache.

The Xuan Huangzi in front of me is really not the real Xuan prince. Otherwise, why is the top of the royal family so hard and so hard, a rhythm that I can't wait to kill him in disguise?

Even the mother of the Emperor Xuanzi, at this time, has never appeared, fearing that there will be words from the immortal emperor. Rose has already learned everything. At this moment, Ye Xuan has only a lot of hatred. She did not appear to be okay, as soon as she appeared, she was afraid that it would be impossible for Ye Xuan to die.

At that moment, Rose will not show up. Could it be that she is still stunned by her heart, and on the surface, she reveals a kind of maternal filial piety to Ye Xuan?

After ignoring all this, Napoli and Xuanyuan Ziyan exchanged a look again, the complex meaning, only their own heart knows.

"I am a servant! It is a fake... but still can push the entire immortal royalty to such a situation, the emperor is a man, it is a god!"

The voice was depressed, and Naples knew that there was no retreat. It was a matter of heart and heart, and smiled bitterly: "If this is the fall of the emperor, then there is a manpower insurance, and there is no interest in living. I am in Naples." How can I follow the emperor's adult?"

"But if the Emperor of the Emperor really can make a fortune, this time, from the ninth floor of the Clan Tower, at that time, I am afraid that even the emperor of the immortal royal family, but also helplessly, then, the Emperor of the Emperor will fly to the sky, from then on The fake is also true, I don't need to say more about Naples, the liver and brain are painted, and it's done vigorously, and it's dead without regret!"

Listening to the lyrical words of Naples, Xuanyuan Zixiao smiled lightly, although the words were not fierce, but the meaning of the point was absolutely determined, but the points were not allowed: "The daughter of the Xuanyuan family has never preceded the shackles, although the marriage contract has not been determined. But as the father of his family said, the matter has been fixed, and he is born to others, dead... for his soul!"

"Ha ha ha..."

Napoli looked up and laughed. For a time, the heroic spirit was raging in the whole body. It was in the distance that Ye Xuan was leading the emperor's house, Yin Long, who was walking outside the 18th Emperor's House.

Ye Xuan also stopped the steps and looked around. He was soft with a sigh: "Although I don't know what you are saying, I can roughly guess it! Go, go with the Emperor, see me. You spell out a million people!"

"The emperor is assured that the old slaves will lead them in the past. Although the inner city clan tower is a heavy land, no one dares to block the old slaves!"

Did not wait for the roar of Napoli and Xuanyuan Ziyan, the empty air on the side has already stepped forward.

This is not like the old slave of a royal family. It seems that Ye Xuan's pride seems to have infected him. He has no intention of hiding his identity, even though his true identity is now. In Ye Xuan's heart is still a fan!

"Okay, empty Bo said so, what do you have to worry about? You really want to go to the inner city, today's immortal emperor, do not dare to stop him! Your kid is really blessed, actually let him take the initiative!"

Hearing the empty words and saying such words, the face of Long Xiaoshou also showed a touch of surprise, and turned his face to look at Ye Xuan with a look of envy: "If this matter is not seen by the eyes, Lao Tzu can't believe it. If you don't die, then the whole royalty will not dare to take you, including the old club... It's really a dog!"

"Empty, Yemou is here... Thank you!"

Ye Xuan rushed to the empty arm, and bent down and bowed. This time, he did not call this prince, but claimed to Ye Xuan, which means that everyone has all the hearts.

"Ha ha ha..."

"Only this sentence, everything the old man has done is worth it."

Empty and laughed, and then he waved his hand like a fly: "Go and go, don't you go to the tower to make a circle? If your kid doesn't have that skill, that person... Hey, the old man arranges a good celebration wine, Immediately lead people to cheer you in the past."

After that, the empty head turned to the inward house.

I don't know why, when he said the word in the mouth, Ye Xuan clearly felt that the corpse lamp tattoo of the headless baby corpse was faintly hot, and that the person said by the empty... What?

If this is the case, this mysterious mystery is afraid that it has to be upgraded one or two grades. Ye Xuan has a lot of strong contacts, but after careful calculation, a crazy mosquito can know the headless baby. The existence of the corpse is only now, but now, it seems that one more has to be added... empty!

In fact, the reason why Ye Xuan is so confident, the only way to rely on it is the headless baby.

Regardless of the purpose of the baby corpse, at least it is now parasitic on Ye Xuan, so as long as it is, Ye Xuan will never die.

Of course, in addition, after Ye Xuan entered the tower, although he could not use all other external forces, and even listened to the meaning of the dragon guard, the demons in his immortal world scouted the fortress and the Thunder fortress, and it seemed that they could not be used.

But Ye Xuan's mind knows everything in the sea. It should not belong to this category. After all, being able to enter his knowledge of the sea is equivalent to part of his heritage and strength. It is inseparable. Other things cannot be used. And can't you use it?

If this is the case, simply declare the depreciation notice directly!

Chapter 3115: sensation

Xuan Huangzi wants to marry the patriarch tower!

As soon as the news spread, the entire Imperial City was sensational, and countless royal members came from all directions, with different minds, but all of them were very excited.

Then, the entire immortal emperor was sensational!

The news continued to spread, until the end, not only the immortal star, even the numerous powers on the nine satellites of the immortal star were shocked.

The vast majority of the ordinary imperial courts of the Immortal Star and the Nine Satellites did not know that the Emperor Xuan had returned to the immortal star. All that happened before the Federal Headquarters Supervision Institute, only a few people received the news and were subsequently blocked.

At the moment, Xuan Huangzi has returned to the immortal star, not only will he immediately sect the sect tower, but even put down the rhetoric, or die in it, or the news of the exit from the ninth floor, the reason why it is so fast, Among them, there is obviously a factor that the immortal royal family secretly promotes.

For the core executives of the royal family who are truly in power, they are eager to know that this matter is known to the world. At that time, once the Emperor Xuanzi died in the clan tower, everything that bothered them was completely solved in an instant.

The false emperor Fuxi, but the royal name of Xuan Huangzi was preserved. He fell in the process of the imperial ancestral tower of the royal family. This matter is only in the royal family, only Baili and no harm.

As one of the members of the royal family, Xuan Huangzi is his duty. Xuan Huangzi can lay down such a rhetoric. It is not a nine-layer, and this matter will be further enhanced by his prestige.

At the same time, once the Emperor Xuanzi fell in it, then the royal family's immortal ancestral tower's prestige will also reach its peak.

The enchanting existence of the Lianxuan Emperor is not the ninth floor. It can be seen from this that the royal family's immortal inheritance tower is so tall...

All of this is a secret calculation and conspiracy. There are not many people who know or have insights, but for all ordinary imperial subjects, they know that the only thing they care about is Common, that is, Xuan Huangzi, want to marry the patriarch tower!

Look at this tower, one step at a time, one step at a time.

If you die, you will stay in the English name and everything will be empty.

Life, then step into the sky, from then on, throughout the immortal royalty, will no one capable of pressing the Emperor.

Maybe the immortal emperor of the next generation will be decided for him!

After all, the entire immortal royalty has never been truly alive from the ninth floor of the sect tower... stepping out!

.....

The immortal ancestral tower is located in the inner city of the imperial city.

In the area between the inner city's harem and the old pavilion, from the outside, this is just an ordinary nine-story tower, the appearance is not amazing, but in fact, even the royal family in the old cabinet is beyond the twelfth The old monsters in the virtual realm of the big realm bombarded the tower with full force, and they could not shake their points.

The immortal ancestral tower, although not astonishing, but it is actually the spiritual symbol of the entire immortal royalty, but because the tower itself is a treasure of the heavens, the continuous repair is a hard-hitting force that surpasses the virtual environment. It doesn't move, so in the immortal royalty, it doesn't send any power to guard it.

Purely more than one!

At this time, the distance around the immortal ancestral tower, has long been surrounded by a large number of royal members, who can come here, and only the royal family members, is the national division emperor II, do not have this qualification close to the ancestors Around the Dragon Tower, it is not that he does not have this ability, but it is not convenient to do so, otherwise it will cause misunderstanding of the old cabinet.

At present, all the members of the royal family gathered around the immortal ancestral tower, the ten emperors have all come, including the Long Yin, who was then the Federal Inspector General, and the Dragon Tianba, who was the first to meet Ye Xuan.

This is especially true of the five emperors, who are surrounded by some royal members who support them, and faintly form five groups, which are divided into one party.

It is in this case that Ye Xuan, who followed the Yinlong Temple of the Clan House, came from the outer city of the Imperial City, step by step, and recently stood only a hundred steps away from the immortal Zulong Tower. Where, look up at this seemingly unappealing blue stone tower.

A thick and old-fashioned atmosphere came to the fore, and Ye Xuan's heart suddenly realized that this bluestone tower is definitely a treasure from the ancient times, and belongs to the same era as the golden dragon and the starry giant turtle!

At this time, there were a few empty men behind him, and they came slowly from the outer city area.

There are only a few people behind him, Naples, Xuanyuan Zijing, Yingtai, and the wretched mosquitoes and the sea!

In the identity of Kong Boming, it is only an old slave of the 18th Emperor's House, but he followed a few people behind him, and all the royal members he met along the way, whether it was Long Xuan's generation, Or the great uncle, Long Yao, this generation, even higher than the dragon.

After seeing the empty, all of them have changed in color, and they have given up a road in a panic. All the people are slightly sloping, and the atmosphere is not dare to take a look.

Such a scene, let the people behind Neapolitan and Xuanyuan Ziyan behind him grow bigger and bigger, and behind the empty Bo, the pressure is even greater, unconsciously, the sweat of the head is coming out. .

Of course, only the wretched mosquitoes are an exception. This old-fashioned goods seems to feel that this situation is a good opportunity for comparison. At this moment, the head is upright, a pair of incomprehensible, stepping on the eight steps, and arms are fast. The sky is gone.

Let the royal family members who saw this scene first look at it, and then understand that this old goods are in the golden foxes, and they are all gloomy, and all of them are gnashing their teeth...

In the distance, the National Palace between the inner city and the outer city.

The immortal emperor and the national emperor emperor stood side by side, although far from the immortal ancestral tower in the depths of the inner city, but everything in the distance, but all of them are inconspicuous, all reflected in the sight of the two Among them.

The arrival of the empty Bo, the immortal emperor seems to be extremely accidental, his face is full of stunned color, after a long time said: "I can't think of even the empty Bo has officially appeared, that kid he... is a bit of a skill, even the emperor feels great Unexpectedly, it feels a bit stunned!"

"In addition... what is the devil behind the empty Bo?"

"How do you feel that he is more arrogant than the empty one?"

On the side, the sight of the second division of the National Teacher was originally locked in Ye Xuan, who was in front of the immortal ancestral tower. After hearing the words, he glanced at the back of the wretched mosquito stalk, and initially did not care, and licked his mouth. : "But a fox is under the hood of Hu Wei... eh?"

"No, this old goods... actually he?"

"who?"

The immortal emperor on the side was obviously shocked. With his understanding of the national division emperor II, he was qualified to let him scream out the existence of the sound. It was absolutely impossible, at least, it would never be simpler than nothing.

"It's getting more and more interesting. I don't think that the shameful old thing has come. I still follow the kid as an old slave..."

Guoshidi did not directly answer the words of the immortal emperor, but as if muttering to himself, while talking, he chuckled: "Old man, your cheap son is not simple, just this, really If you want to start, you are not under me..."

Chapter 3116: level one

When I heard the words of the National Emperor's Emperor II, the immortality of the Emperor was so moved, and I took a deep look at the foxes and tigers. I really couldn't see the background of the wretched mosquitoes, even though they did not continue to speak, but they did not continue to speak. Deeply, this is a back note in my heart.

There is not much that can be made by the National Teacher's Emperor II. Even if it is empty, it seems to be slightly inferior. The key is that this person is more mysterious, and he is not allowed to do so.

At the same time, because this person came to the immortal dynasty with the so-called Emperor Xuanzi, and still appeared as his old slave, this alone, let the immortal emperor have to feel the so-called Xuan prince More complicated.

In this world, there is no relatives and relatives to admit their sons.

Even the old monsters in the old cabinet, even the great emperor Longkui, have a certain understanding of the bottom of the Xuan prince, the immortal emperor, naturally even more.

However, the complexity of his heart is far from comparable to the former.

On the other side of the Great Emperor, there is no power to refute, because the pure royal blood of the other party is really unmistakable.

On the other side of the royal family, they don't care about this. Although it is inconvenient to directly question the identity of the Emperor Xuan in the plain, they can retreat and use a certain euphemistic way to erase their existence.

For example, now the Emperor Xuan Xuan Zizi Zongren Tower!

In general, on the side of the old pavilion, there is basically no big objection to the problem of the fake Xuan Huangzi. The mainstream must be wiped out.

But the immortal emperor is different.

In his eyes, in a sense, in fact, Ye Xuan is really a prince or a fake prince, really not important, the important thing is the blood of the immortal royal family flowing in his body... is true.

No matter how he got it, even if he had ruined the real Emperor Xuan, he used his blood in a way that they did not know. The immortal emperor also did not care!

Even if this is the case, the other side has usurped the blood of the real Emperor Xuanzi, but now he is returning with the blood of the Emperor Xuanzi. In a sense, what is the difference between returning to the real Emperor Xuanzi?

Rising to this level, it is no longer a narrow-minded brother. The immortal emperor may not be as good as the old monsters in the old building, but since he can become the immortal emperor of this generation, he has his own unique vision. And the eye, this point, is also the old monsters of the old cabinet can not understand, can not be reached.

It is a pity that even if it is the contemporary supreme of the immortal dynasty, he speaks with the law, but within the royal family, it may not be the same. At least, the opinion of the old cabinet is not something he can freely choose.

A mature regime is like this.

Even if there is the existence of the greatest authority on the table, there is a power that can restrict its authority.

The old pavilion, in the case of the immortal emperor, is this restrictive internal force.

Therefore, for Ye Xuan, the attitude of the immortal emperor is complicated.

He knew that it was not his prince, but at the same time he knew that the blood of Ye Xuan's body belonged to Xuan's son. From a personal point of view, he hoped that Ye Xuan would die.

However, from the perspective of ethnicity, he hopes that Ye Xuan will be able to fly to the sky. After all, the immortal royalty has not been such a fascinating enchanting ethnicity for too long.

Among them, plus some influences of the National Emperor's Emperor II, today's immortal emperor, looming, has been biased to support Ye Xuan, train him, let him as the son of Xuan, for the immortal royalty, create another history Some brilliant ideas are gone.

It's a pity that this time, the old club suddenly made a mistake. Even he didn't expect it, and he couldn't stop it. Everything could only be heard!

"Don't worry about the old man, that kid is not a fake!"

It seems that I felt the complexity and bitterness of the immortal emperor. The Emperor of the State turned to look at him and sighed. Then he answered: "In addition to the stinking dead monster that I just recognized, the kid. There is a more mysterious atmosphere on my body, even I can't see through it. Perhaps, the reason why the old guy of the empty boy is so supportive to everyone is to be related to the smell of him. You know, empty. The depth of Bo is far from me, it is a real millennium..."

"In this case, the possibility of this kid falling into the immortal ancestral tower is negligible. Although I know the difficulty of the ninth floor, in my opinion, he has almost no possibility of surviving, but... .. Is there still a miracle in this world?"

"Who knows, maybe this time, it is really a miracle!"

"If this kid can't die this time, look back and find a chance, let me talk to him. In any case, your heart, you can't keep it all the time... although he is not the old eighteen, but at least that one The pure royal family is not bad, what you want is just one of his confession!"

"Ugh....."

At the end of the day, the National Emperor's Emperor II sighed, the immortal emperor, but also full of bitterness, shaking his head and laughing at himself...

.....

At the same time, the immortal inner city inner city, immortal ancestral tower!

Big Emperor Long Xiang!

Two emperors dragons!

Six Emperors Long Yuan!

Nine Emperors Long Dive!

Thirteen Emperor Dragons!

All the members of the royal family are basically gathered together in these five camps. The others are scattered people in twos and threes, and they are not allowed.

At this moment, all the people used their eyes to look at the dead, and they fell on Ye Xuan's body.

After the empty body, he led Neapolitan and Xuanyuan Ziyan, returned to the sea, and the wretched mosquitoes and four people stood in the distance, and did not approach. Although they were empty, they brought a few outsiders to the immortal ancestral tower. Dare to block, but he obviously didn't mean to lean on the old and sell old, and stood in the distance with interest.

"Kid, haven't you found out? Now these guys look at your eyes and look like dead people! The capital is followed by your suffocation."

The ancestral government Yin Long Raise your hand to the blue stone tower in front of you, and said: "Okay, I have been standing here for so long. Let's open this broken tower, go in early, go out early..."

"Break the tower? Your kid is really not a owe! If you let the old monsters in the old cabinet hear it, I am afraid that I will not play with you on the spot!"

Long Yushou also followed his eyes and raised his hand and said: "This is the blood of the immortal royal family. It is derived from the ancient things, and your kid dares to say so."

"Go, there is nothing to open the tower and not open the tower, as long as it is the blood of the immortal royal family, before the tower, there is a light to take you!"

Ye Xuan nodded, stepped forward, and when he reached the front of the tower, there was a blue light falling from the top of the tower, covered in Ye Xuan's body. When the blue light disappeared, his figure disappeared. , entered the first layer...

Chapter 3117: Eight-order planet

"I finally got in. This time, this kid will die, and he will die by himself. No one can blame!"

Seeing that Ye Xuan's figure disappeared, the Nine Emperor's dragon dive immediately grinned, and his face was full of sorrow: "Hey, let's get a little fame outside, I really thought I was too bad? Hey, and Compared with the two royal enchanters in history, he is still far behind."

"Yes, even the two are hanging on the ninth floor. The only thing that is sent out is the body. This kid obviously has no chance."

The second emperor, Long Xiao, was also the first smile of the jaw. It seemed to be very easy. It seemed to be a sigh of relief. Apart from the big heart, then it suddenly seemed to think of something. He shook his head and sighed: "Unfortunately, this kid is destined to go. Less than the ninth floor, only when the ninth layer is present, the body will be transmitted, and all the other will be decomposed by the body, and it will be cultivated as a nutrient for the sect tower. Unfortunately, otherwise it will come out. It's good to feed the dog..."

"Hey, second child, are you not afraid of the father to hear this? Whether he is old or not, the pure royal blood is always right, hey, feed the dog? If I see the father, if you know, It's not your skin!"

After waiting for the second emperor Long Xiao to finish, the big prince Long Xiang snorted and splashed him a cold water on the spot. Seeing that Long Xiao didn't scream again, he felt a small win and smirked and did not continue to entangle In this matter, when the words turned, they said: "In addition, the boy said that he wants to marry the ninth floor. Isn't it a must? Is there such a stupid person in this world? If it is impossible to find something, he will not even have a life. Don't you? If the prince is not bad, when the third floor, it will come out!"

"But that doesn't matter, it's a fat word, and the reputation of the old eighteen is stinking since then..."

The other emperors on the side heard the first words, and then nodded!

.....

At the same time, the first layer of the immortal ancestral tower!

The space on the first floor is very vast. It is a green world. No matter which direction, you can't see the end. The first moment when the blue light is involved in the space inside this tower, Ye Xuan is sure. The origin of this blue stone tower must be derived from the ancient things.

Because this moment is only the first layer of the space inside the tower, it is a rich and ancient atmosphere, which is exactly the same as that felt by Ye Xuan in the sacred bow and the vain painting.

In addition, the ancient cages connected to the forbidden valley in the depths of the Magic City are also such a breath.

The only difference is that although this first layer has a strong ancient atmosphere, but there is no star, it can be seen that it is not in the Qixing River, nor in the land. It can be seen that it is not in the inland of a certain star, and it is surrounded by empty space. There is no heaven and earth, only a monotonous green light, it seems very mysterious emptiness.

In addition, the first moment of entering this place, the blood of the immortal royal family in Ye Xuan's body has been fully stimulated passively, and because the blood of the immortal royal family has been passed down from the golden dragon of the ancient times, therefore, Ye Xuan's knowledge of the sea The black-gold dragon scale, its power, is also stimulated, and a layer of black and golden light shrouded his body autonomously, and there is a shadow of a black gold dragon in the back.

With the dark shadow of this black gold dragon, the original green light suddenly stagnate, and then all the water, like the water, all came to Ye Xuanyong, and after entering the body, a bang, directly broke through the bottleneck.

"Hey, congratulations to the host, the breakthrough of the realm! The current realm: the sixth level of the planet!"

With the familiar system prompts in his mind, Ye Xuan was stunned.

These green brilliances are obviously the energy saved by the millions of eternal towers. They are pouring into the body, just one degree, and it is not surprising that they have raised a small step.

However, if you say that you have passed the first layer to give benefits, you have just come, haven't started to marry, and the welfare is given first. What is this ghost?

Could it be because it has already passed the first layer?

by! Is this too fake? Did you finish nothing? The dried fish on the riverside has to bend down!

Losing the dragon and defending the goods, this immortal ancestral tower said that it is similar to the eighteen layers of hell, there is no return to the general, fierce and incomparable, and arguing for a long time!

I was thinking that the Qingmengqi, which is obviously three-pointer than the Qingmeng Guanghua, has reappeared. She is wrapped in Ye Xuan. He only thinks that he has reached the second floor.

The situation of the second floor is similar to that of the first floor. It is still a vast and endless space. There are still no stars and land. But in the distance, when Ye Xuan suddenly comes, he clearly sees the backs of some beasts. Passing, it seems extremely rushed, there is a feeling of rushing away.

Then, the surrounding Qingmeng Guanghua once again came to Ye Xuan.

The familiar system prompts sounded indiscriminately and immediately rang: "Hey, congratulations to the host, the breakthrough of the realm! The current realm: the seventh level of the planet!"

"Well, this prince is not coming to the tower. The prince is coming to inspect the work. By the way, the ceremony is going on. Is this the head office?"

In the face of all this, Ye Xuan has been completely speechless, but although the mouth said that although helpless, but the heart has vaguely had some speculation.

Sure enough, as the Qingmang re-appeared again, wrapped his figure into the third layer, Ye Xuan's sight was far away, and the savage beast seen between the hurried glimpses, obviously more It is.

The first three layers were not a test. These beasts should be nothing but illusory things. It was the power of the stone tower. However, it was shocked by the shadow of the hundred-footed dragon that appeared behind Ye Xuan. A dare to be close, so that he easily passed two layers.

Ok, it should be three layers.

Because with the rapid disappearance of the beast of the beast in the distant sight, in the third layer of the radiance, some of them rushed toward him like water.

"Card!"

If there is a bottleneck that is broken and the crack is heard in the body, Ye Xuan's repair has once again raised a small step.

"Hey, congratulations to the host, the breakthrough of the realm! The current realm: the eighth order of the planet!"

Is this the eighth order? There is a small step, isn't the planet's ninth order perfect?

Not a minute before or after!

These thoughts flashed through my mind, and Ye Xuan was excited. This broken tower is really a good place. Unfortunately, everyone can only come in once, otherwise... oh, come back to Jin, a big realm, come and come. How many times can you not be invincible right away?

Unfortunately, this can only be thought of, it is impossible to achieve.

However, in this third layer, in addition to the benefits of improving a small order, it seems that you can also gain a **** magical power.

Ye Xuan turned around and looked for it.

As a result, I found it for a while, but there was nothing in the vast and innocent space, and the green mangling was soon again.

Chapter 3118: Fourth floor

On the fourth floor, the blink of an eye came, and there was no one minute before and after, but Ye Xuan was not happy at all, but instead looked like nothing.

Too bully!

It is said that at least the third layer, the sixth layer and the ninth layer will have at least one kind of **** magical power as a reward, but just now, the third layer has been passed, and it is absolutely passed at an unprecedented speed. Give him a **** magical power, but was inexplicably deducted!

He naturally does not know that the third layer of blood and supernatural powers is hidden in the body of a wild and savage beast that was developed by a blue stone tower. Defeat the wild and fierce beast, and naturally you will get the inheritance of the blood.

And Ye Xuan, because of the existence of the hundred-footed demon dragon behind the scenes, the first three layers of the fierce beast smelled a little magic dragon smell, it has already scared to turn around and ran all the way, this rewarding nature of blood, how to get it?

This is the magic dragon candle nine yin, although it is only a heritage of the virtual shadow, it is not the ordinary three wilderness of the first three layers of daring dare to face up, in the end, even their true body, placed in the ancient times, is not qualified Participated in the ruin of the ancient world that Ye Xuan had seen in the picture of the sacred bow.

The magic dragon candle nine Yin and the golden dragon, the virtual giant turtle existed, in the original battle of the world, can all be the existence of stirring, the gap between them is too big, smell the smell and run, actually Can understand.

At this moment, inexplicably entered the fourth floor of Ye Xuan, after an angry meal, attention was quickly attracted to the fourth floor scene.

The first three floors are just green, no days, no space, very empty, but the fourth floor in front of the sky, although the sky is still a piece of green, but at least the ground below is there.

It seems to be the interior of a star, the mountains are stacked, and there is a strong sense of desertion everywhere. It gives people the feeling that it is similar to the world of the ancient cages connected to the valley of the Forbidden City.

In the distant land of this area, between the undulating mountains, there are occasional roars of some fierce beasts. It seems that from the fourth floor, the level of the beasts has also increased, at least not the first three layers. The kind of smell of a little dragon smelled, and immediately turned around and smashed the goods.

After entering the fourth layer, the Qingmeng energy floating in the space is not as mad as Ye Xuan's body, just like the previous three layers, indicating that he has entered the fourth floor now. But it has not been successfully passed, and it is estimated that at least one of the beasts must be defeated to achieve this.

With this kind of thought, Ye Xuan even wandered around, and in the old cages, he saw many **** descendants of all kinds of wild and savage beasts, and then the powerful beasts saw only the tails with the tails. Ye Xuan really did not put these so-called fierce beasts in his eyes.

What's more, the beasts in this blue-colored stone tower are still not true, but the illusory things that the stone towers have come out of...

At the same time, the immortal ancestral tower outside!

At the same moment that Ye Xuan was transferred from the third layer to the fourth floor from the third floor, the quaint blue stone tower suddenly made a big splash, and the portal was at the third floor of the blue stone tower without windows and windows. appear.

The people present at the scene are no strangers. This represents the royal family members who have entered the tower trial. They have successfully passed the third floor. If he chooses to end, he will soon be able to walk out of this portal. .

Of course, Ye Xuan is a special case. When he passed the third floor, although the time was slightly longer than the previous two layers, Ye Xuan was looking for the so-called blood and magical powers. A white outlet.

Therefore, once the time limit passed, he was immediately transferred to the fourth floor.

Before this, when the portal channel at the third floor of the tower appeared, all the royal members around the immortal ancestral tower, without exception, all subconsciously opened their mouths and their faces were dull.

How long does it take to go in?

Not a minute, right?

Actually passed the third floor?

Such a fast speed is the enchanting enchanting of the ninth floor in the history of the immortal royal family.

After a few moments of stagnation, the members of the royal family around him were suddenly arrogant, and they all talked about it. Several of the emperors' brows were wrinkled, and they felt that they were all bad. As for the five emperors, they even shouted.

"What's the situation? Is this the third floor? Not a minute? Isn't it so fast to climb a staircase?"

"It's a bit tricky, it's definitely tricky!"

"This kid cheated! Protest, solemnly protest..."

"It's really a dog, no, it's the dog's day, it's just plain!"

"When it's over, I thought that this kid would hang in it. I didn't expect people to go in a circle. The blink of an eye came out, the portal was opened, and the Emperor didn't believe he dared to go down!"

With the exclamation of the five emperors, even on the side of the old pavilion, there were several hidden powers of the gods swiftly swept over, but they quickly shrank back, apparently also to Ye Xuan. I passed the first three layers of the accident.

Even the empty blog, at this moment, opened his mouth blankly.

As for the ancestral government, Yin Long defensively, it is even more shocked that the chin has fallen to the ground. It takes less than a minute to pass the first three layers. This kind of thing he can't figure out anyway, it's too unscientific, immortal tyrannosaurus In the first three floors of the tower, the elites of the royal family who are present are almost all smashed. Even the strongest in the void, it is impossible to kill the wild animals of those energy forms within one minute!

Also at this time, when at least half of the royal members thought that Ye Xuan's figure would soon emerge from the portal passage outside the third floor of the blue stone tower, the portal passage existed for a short half. After a minute, it suddenly disappeared and disappeared completely.

The time limit has passed! Anyone, only half a minute of choice, after half a minute, the portal is closed, the only choice, can only continue to squat.

Seeing this scene, the five emperors immediately grinned again.

"Ha ha ha..."

"This kid is going to die and face the crime. At this moment, he is afraid that it has been sent to the fourth floor. The fourth layer of the beast can be far from the first three layers, and can only go all the way to the sixth floor. He must be unable to live..."

"It seems that you have passed the fourth layer. The sixth, the prince remembers that you also came out from the third floor. How terrible the fourth layer of the beast is, you just hear it!"

"Rely! Listening to the way, even if it is guessing? The Emperor is happy, what are you doing?"

"When you are done, don't quarrel anymore. The kid has entered the fourth floor. There are no way to come out again. This is a happy event. You two are at this time, and you can't help but see the scenery... .."

Chapter 3119: The fifth realm

This time, Ye Xuan did not spend much time on the fourth floor of the immortal Zulong Tower. It will take about two or three minutes before and after!

When he squatted to the rolling hills, he quickly captured more than a dozen wild beasts. Compared with the first three layers, this fourth layer of wild animals actually improved a grade, at least It is a cultivation above the black hole. Among the dozen or so beasts, there are even a few heads of the strength of the black light. In terms of overall strength, they are even more connected to the ancient prisoners than the valley of the forbidden land. The descendants of the beasts in the cage must be much stronger.

However, if you want to talk about the wild blood in the body, these beasts are obviously far less than the descendants of the beasts in the ancient cages.

Seeing the appearance of Ye Xuan, these dozens of wild and savage beasts all roared, but the sound of their roaring was obviously strong and strong, and it was obvious that all the dragons and candles that appeared behind Ye Xuan's The illusion was scared, and the roar was just a bluff.

Even so, the old three-layered beasts fled and fled, so that Ye Xuan could only rush in a glimpse of his back, but it was still too strong.

Even so, it is said that they dare to compete with Ye Xuan in front of the battle, but still have a high degree of three points.

Although Ye Xuan's performance is not strong, any one of these beasts can stick him to death, but the strength of the wild beasts is still second. More importantly, It is the suppression of blood.

Ye Xuan's immortal ancestral blood has returned to the ancestors, coupled with the variability of the dragon's blood, this **** nature of the blood pressure, has been the existence of the level of the virtual giant turtle, and even hidden beyond, facing These ordinary wild beasts, even if he is weak at this time, but the blood level of Tianwei, is enough to crush everything.

With the roar of these dozens of wild and savage beasts, Ye Xuan swayed up and slammed up. The result was no suspense. More than a dozen bluffing wild beasts immediately turned around and smashed. There is no courage in the frontal battle.

However, at this distance, there are courageous scorpions to escape, but this is enough to show that they are much stronger than the previous three-storey.

"Hey, congratulations to the host, the realm is elevated! The current realm: the planet's nine-order great perfection!"

As the dozens of wild and fierce beasts smashed, the surrounding Qingmeng energy whizzed into the body of Ye Xuan again. Soon, the bottleneck was broken again. The familiar system sounds in Ye Xuan's mind were also timely. The ground is ringing.

In the next moment, the Qingmang practiced again, and wrapped Ye Xuan's figure, it disappeared from the fourth floor and went to the fifth floor of the immortal Zulong Tower!

The environment on the fifth floor is roughly the same as that on the fourth floor. The sky is green and the ground is covered with a thick and ancient land and rolling hills. So it seems that this immortal ancestral tower should be every three layers. The big environment is almost the same.

Of course, compared with the fourth layer, the wild and fierce beasts in the fifth layer are obviously stronger and stronger, but they still dare not face the battle with Ye Xuan.

With the previous experience on the fourth floor, after Ye Xuan looked for it, he soon encountered a set of wild and savage beasts. This time, they even squatted toward Ye Xuan with care.

But in the end, with Ye Xuan urging the body to know the black gold dragon scales hung in the sea, the magic dragon behind it was awesome, and even roared like a loud voice, these fierce beasts finally still did not hold back, and finally turned around and ran.

The result was no suspense. For the fifth time, Ye Xuan passed it with ease. It was also two or three minutes before and after.

When the Qingmang practiced him to the sixth floor of the immortal Zulong Tower, Ye Xuan's cultivation has broken through the planetary environment and entered the first stage of the stellar environment. From this moment, he is already The star of the fifth realm is strong...

The sixth layer is the last layer of the second stage. It is among the whole immortal royalty. In history, there are only a few hundred people who can successfully pass this layer. It is estimated that there are still hundreds of people living in the world. , including those old monsters in the old pavilion.

After only from this point it will be able to infer that, although the sixth floor and the fourth, fifth floor, like, belong to the second stage of this nine-story tower, but the final hurdle is the second stage, to break through, not only to get selected opportunity to leave, and even blood will reap a supernatural, therefore, this level of difficulty, fourth and fifth by no means comparable to the previous two.

This leaves Villa in soon as he entered the sixth floor, already felt.

Although the environment is still the same, but to the sixth floor, but the number of shortage of ancient beasts improved several times, and each head beasts of individual strength, but also had far than the past, at least, the face behind the leaf Xuan virtual Tarrasque shadow, shortage of these ancient evil beasts who is not even a stage fright, but fierce look absolutely shattered, within just a few resting place, there will be dozens of heads shortage of ancient beasts, breath Beng Chung toward Ye Xuan rushed over.

A total of thirty-seven shortage of ancient beasts, the strength of the repair are all mysterious light environment, jointly lunged at the moment actually, no wonder through this level immortal few

members of the royal family, even if the condition by just one of them beheaded It can be done, but in the face of dozens of ruthless beasts with considerable strength, it is hard to imagine the difficulty of killing one of them.

These thirty-seven wild animals are not only powerful, but also huge in size. They are all in the hundreds of meters. The general means, even if there is only one, is not so easy to kill them.

Seeing these wild and savage beasts are not afraid of the magical shadows of the dragons behind them, Ye Xuan's heart suddenly jumps, and the look on his face has never healed.

Can't let these guys rush to the front, otherwise, any one of them can stretch his fingers and he will crush him like a worm.

For the sake of the present, his only choice is to kill one of them as soon as possible and complete the conditions for passing this layer. At that time, the green mans will naturally appear immediately, and Ye Xuan will leave the place immediately.

By then, the remaining 36 wild animals will not be reluctant, they can only hope to roar, but helpless.

However, these thirty-seven wild and fierce beasts are all existed in the realm of Xuanguangjing. In order to quickly kill one, Ye Xuan, in addition to seeking help from the headless baby body, once again obtained the right to use the **** corner of the soul, fearing It is difficult to kill one of them quickly in other ways.

Unfortunately, he tried to communicate with the headless baby corpse that was turned into a corpse lamp tattoo, but like a sinking sea, there was no response at all.

At this time, the thirty-seven wild animals and beasts have arrived at the front, the head of the former head, the peak of the peak of Ye Xuan, has only been more than ten kilometers away, at the speed of the other side, You can reach between suffocation...

Chapter 3120: Bombing

At the crucial moment, the headless baby corpse went on strike, and Ye Xuan's anger was almost violent!

But when you get angry, the current situation is in crisis, but you can't allow him to continue to grind it down. Otherwise, you must be here today, but it is really a cup!

In a hurry, Ye Xuan could only bite his teeth and urging the brain to know the golden bow hanging from the sea.

It is true that he has other killers available, such as the same hanging in the sea, and is also the Lei Di Yin of the central domain, this treasure has long been refining by Ye Xuan, not only can release thousands of Qing Lei Jindian, which more Contains Lei Yuanzhu, which was previously condensed in the Devil's Star Field.

A thunder source blasted out, and these thirty-seven wild animals were afraid to die on the spot.

But the kind of battle damage is too big, and Ye Xuan's Lei Yuan ball is only nine, with one less one, it is really distressed.

The Thousands of Thunder and Thunderbolt in the Lei Di Yin is the same. At the beginning of the thunderstorm, the tomb was filled and stored in it. It can be used a little less, if it is only used under such circumstances. Ye Xuan is equally unwilling.

Of course, this is also because he is so hesitant that he can definitely protect himself from innocence. Once the real murder comes, the headless baby can not sit idly by.

With such a decision, after Ye Xuan hesitated, he quickly decided, and now he has entered the fifth realm of stellar realm, and the strength is much stronger than when he used the 陨天弓. With the current cultivation as the foundation, once the sacred bow is pushed, the power that can be displayed will be different from the original.

It is not necessarily impossible to kill a wild and savage beast with a dark light.

At least you should try it, so that you can just use the maximum power that you can use to display the power of the sky bow. If you use this power in the crisis, you can make a decision!

Under the flash of light, Ye Xuan even raised his left hand. At the same moment, the golden bow hanging in the brain of his mind disappeared, and Ye Xuan's left hand was originally empty, but there was one at the moment. The golden energy giant bow of the handle appeared quietly.

At the same time, the strength of the body and the strength of the flesh and blood in the body, is not to quickly rush to the left hand of Ye Xuan, and hold the bowstring of the golden giant bow of his left hand in the blink of an eye. It has already condensed, and at the same time, a golden energy arrow appears in the center of the bow body, which is solidified and radiant.

"Hey..."

The arrow was still unsuccessful, and the frequency of the humming sound of the frequency was already high. The sound was low and weak, but it was heard in a thousand miles. It seems that this entire sixth floor space was alarmed. The sounds of countless fierce beasts sounded at this moment, and they came one after another, all of which revealed an extreme sense of uneasiness.

As for the thirty-seven screaming screaming wild beasts, the body shape is suddenly stagnation, and the shackles reveal the meaning of jealousy. Obviously, they all realize the crisis of the arrow.

"Roar!"

The head of the wild animal is a dragon, a horn, through the fire red, body shape is about five or six hundred meters, like a small mountain, you will know that the temperament is extremely violent.

In fact, it is true. At present, these thirty-seven wild animals are in a stagnation, and all other existences are kept quiet. Only the first one-of-a-kind dragon is mad, although the figure has stagnated, but the figure has stagnated, but The fierce flames of the whole body have not been weakened, but they are still provocatively yelling at Ye Xuan.

"Don't you dare? Then... it's you!"

Ye Xuan's lips slowly cocked up, sketching out the curvature of the sputum, while whispering, it was already pulled to the full line of the right hand three fingers suddenly loose.

"call out!"

The sound of the piercing sound broke out, and the golden arrow whizzed away. As soon as he got out of the bow, it disappeared instantly. When it appeared again, it was already before the face of the one-horned dragon. It has already shot into the head of the unicorn dragon, and blasted open.

At the same time, the golden energy giant bow held by Ye Xuan's left hand disappeared instantly, and once again turned into a small golden finger, which appeared in Ye Xuan's knowledge of the sea and slowly turned.

What surprised Ye Xuan was that this time, the golden arrow was out of the bow, and when he smashed away, although he still had the familiar feeling of weakness in his body, it was weaker than every previous one. Too much, just a little swaying of consciousness, although still weak, but far from the extent that the arrow is both out and the hands and feet are soft.

As for the fainting on the spot, it is even more non-existent.

With the improvement of his own realm, when he once again displayed this sacred bow, he not only showed the horror of the power that was revealed by one arrow, but in Ye Xuan's own, the negative effect, and sure enough The weaker it is.

This is a good thing to be delighted and even pleasantly surprised, but the smile on Ye Xuan's face has just been revealed, and the next moment is immediately stagnated.

Instead, it is a touch of grief and anger.

In the line of sight, at the same moment when the unicorn scorpion blasted, the other thirty-six old savage beasts immediately followed the dilated pupils, which seemed to be covered with a huge fear, thirty-six heads. The wild and fierce beasts turned at the same time without exception, and they turned around and ran.

In the next moment, the whole body of the one-horned dragon was blasted open. The power of this arrow has not yet been fully rendered. As the whole body of the unicorn has turned into flesh and blood, it is completely blasted. A green Guanghua rushed out of his body and rushed toward Ye Xuan.

This moment, Ye Xuan double bright, Fu to the heart of the general, he instantly understood the meaning of this Qingmeng Guanghua, clearly is the sixth layer of reward, represents a **** magical power, as long as it is obtained, the sixth layer of rewards I got it.

It's a pity that the surprise of Ye Xuan's heart is completely revealed. The whole body of the unicorn dragon blasts out the huge flesh and blood mist that has formed, and it has suddenly spread, and it will be spurred out in an instant. Guanghua shrouded, and then the erosion was exhausted, and half of the hairs were not left.

Seeing the blood of the hand, the eye is so gone, Ye Xuan is standing on the spot. At this moment, he feels bad about the whole person.

"Hey, congratulations to the host, the realm of the realm! The current realm: the second stage of the stellar world!"

With the familiar system prompting sounds banging in my mind, the cultivation power of Ye Xuan's body has once again skyrocketed. After only 30 seconds or so of standing up, the smear of the smear is again without warning. Appeared, wrapped in his body shape to disappear in place, went to the seventh floor of the immortal Zulong Tower!

At the same time, outside the immortal ancestral tower, with the portal passage of the sixth floor of the tower suddenly appearing, all the royal members around them are once again in a sluggish state...
