

## Super D. S 3121

Chapter 3121: Alarmed by the old pavilion

With the sudden appearance of a portal on the sixth floor of the immortal ancestral tower, all the royal members who waited outside, without exception, all open their mouths and fell into stagnation...

The first three floors, less than three minutes!

Four to six floors, less than ten minutes!

What is this concept?

The royal family of the entire immortal dynasty has never seen such a enchanting history!

Even the two who had reached the ninth floor, but the last one was a corpse transmitted from the ninth floor, when it passed the sixth floor, it almost took half a day.

Less than fifteen minutes before and after Ye Xuan, there is simply no comparability!

What is this tower test? It is clear that it is simple to climb the stairs, all the way ups and downs, and there is no stopping at all!

"It's over, it's over, this kid is really dead, really went to the seventh floor..."

Without waiting for all the people to come back, the portal passage on the sixth floor of the tower has disappeared. This means that everyone understands that Xuan Huangzi actually said that he must give up and actually gave up on the sixth floor. The opportunity to leave, went straight to the seventh floor.

Seeing this scene, the ancestors of the ancestral government, Yin Long, sighed and sighed. At this moment, he was really worried about Ye Xuan. Such a enchanting, if you can survive, it is definitely the

fortunate of the royal family. Even if he is not the old eighteen, but what about it? The pure royal family of the family is not allowed to be fake!

In the long sigh, the dragon squats and the whole person seems to be a few years old. He does not think that Ye Xuan can pass the back three layers, especially the ninth floor. In history, the entire immortal royalty has never had any People can live through!

In the distance, Kong Bo seems to be aware of this, and his face, when the sixth floor of the portal disappears, finally sinks.

Originally, Kong Bo thought that Ye Xuan would come out in the portal channel on the sixth floor. After all, he could pass the sixth floor and explained the problem. All the royals still alive, including the dragon guards, including the immortal emperor, including the old pavilion. Any one of them, they all came out from the sixth floor.

No one dares to go to the next three floors!

All the royal powerhouses who went to the next three floors may have successfully passed the seventh and even the eighth, but they have never survived the ninth floor.

At least, there is no living!

Don't look at Ye Xuan, this tower is so amazing, the first six floors have passed less than a quarter of an hour, just like climbing stairs, it is easy to write, but in the eyes of the empty, he succeeded in crossing the ninth floor, still not 30%!

For this reason, after discovering that Ye Xuan did not come out from the portal of the sixth floor, the face will be instantly gloomy.

Even he is so pessimistic that others don't have to say much.

Perhaps it is believed that Ye Xuan will die this time. Although the emperors did not say anything, the five emperors, but rarely held Ye Xuan in the words, perhaps they think that anyway, people are going to die, just right. Take advantage of this opportunity to show your generosity and care for your brother.

"Hey, the old eighteen is no longer an ancient one. The first six floors went through less than a quarter of an hour. It was so amazing that it made me immortal, and I rose a face!"

"Yeah, I still felt that this old name was smashed outside. The things of today are so ridiculous, the old eighteen, it is really enchanting, even if it is not comparable to the two in history. The nine-level family ancestors, but compared with a few of my brothers, the old eighteen, it is also a god!"

"Not bad, the 18th brother is not an ordinary person. If he can survive this time and successfully smash the ninth floor of the ancestral tower, I... I will only look at him in the future. What are the amazing characters? The immortal royalty set off the girders!"

"This statement is very! Eighteen brothers, it is indeed a generation of people, but unfortunately, the young died!"

"Oh, the gods are not fair, I am immortal, the imperial dynasty is so rare that it is such a talent, but like a flash in the pan, early dying, eighteen brothers, the emperor brother is not flat for you..."

With the help of these guys, they are not ashamed to perform, and in the distant royal family, there is also a powerful sense of power to sweep from time to time.

Compared with Ye Xuan's previous three-layer time in a short period of time, this time, the imperial royal family was obviously more, and the scent of the gods was at least a dozen, and the stay time was longer. Although the audience finally retired quietly, all the royal powerhouses who felt the power of these gods were all moving.

More than a dozen royal ancestors, this is not a joke, usually in the immortal dynasty, some shocking events that shocked the ruling and the wild, generally only one or two old people were alarmed.

But this time, more than a dozen of the old people were also alarmed at the same time. This is already nearly one-third of all the royal families in the entire old pavilion. Since the beginning of the years, there has never been a single accident that has caused more than a dozen elderly people.

Only by this point, Xuan Huangzi is dead without regrets!

Of course, this is just the thought of the hearts of these royal members outside the ancestral ancestral tower. In Ye Xuan's own point of view, let's not just say that one third of the old eccentrics are stunned, that is, the entire old pavilion is moving. He wouldn't think that it would be worthwhile to squander his head.

Everything else is a cloud, and only your own life is the most important!

Ye Xuan has always believed this.

Therefore, at the beginning of the first moment of entering the immortal ancestral tower, his vigilance has been raised to the extreme degree between the moments.

It is really because this seventh layer is too extraordinary and different from the previous six.

The entire immortal ancestral tower has a total of nine floors, each of which is basically the same large background.

In the first three layers, heaven and earth are all nothingness. A green world, no matter if it is up or down, is in the void.

The four to six floors are similar to the world of the ancient cages connected to the valley of the Forbidden City. Although the sky is green and vain, but below, it is a land of wild and quaint land, and the mountains are undulating. , continuous.

As for the seventh layer, and even the eighth and ninth layers after the seventh floor, it is obviously another different background environment.

This kind of backing environment, Ye Xuan is not only strange, but also extremely familiar!

It is the starry sky!

In the inheritance picture of the Void Giant Turtle, in the inheritance picture of the 陨天弓神通... Ye Xuan has seen the quaint background of this ancient starry sky more than once.

When he entered the first moment of the seventh floor, Ye Xuan even gave birth to an illusion. He thought that he once again entered the inheritance picture of Hao Tiangong, and came to the battlefield of the World War I, which happened in the ancient times.

The only difference is that this piece of quaint starry sky with a strong and ancient atmosphere is not only quiet, but even a wild animal can not be seen.

In the next moment, a terrifying roar suddenly sounded, endless fierce atmosphere, and instantly rushed open, letting Ye Xuan, who was caught off guard, mad and shocked, eclipsed...

Chapter 3122: Wild starry sky

The immortal Zulong Tower has a total of nine floors.

One to three floors is a cleansing void!

Four to six floors, is the star inland!

Seven to nine floors, it is a starry sky!

The three stages, the levels are different, and the wild and fierce beasts that appear in it are naturally different.

The starry beasts appearing in the seven- to nine-story wild starry sky are all seen by Ye Xuan in the paintings of the sacred bows of the gods, and are qualified to participate in the existence of the ancient world.

Therefore, the magic dragon behind him, here, its deterrent effect, really is not too big.

It is true that the ancient demon dragons are among the most outrageous in the wild creatures who are qualified to participate in the ancient wars of the ancient world. However, what appears behind Ye Xuan is only a virtual shadow of the dragon, only With this illusion of the dragon, I am afraid that it is impossible to hold these top-notch wilderness towns.

Far from enough!

When Ye Xuanyuan appeared, the eternal starry sky of the seventh layer of the immortal ancestral tower, except for the stars of the sky, had no objects, and did not see a figure of a wild creature.

But with the roar of the tremors, the sound of the roaring sound suddenly spread, and the endless fierceness spreads. The surrounding Xinghe is in the distance, and the head is like a small star-like giant wild creature, all appearing in succession. It is.

On the sixth floor before, the head and the wild beasts are only a few hundred feet, but when they come here, they look at it. Any wild animal is at least a thousand feet, and many of them are thousands of feet or even A huge behemoth.

It is no longer appropriate to call them the ancient and fierce beasts. Ye Xuan can only find the name of the ancient creatures of the past, to name them, to distinguish them from the wild animals.

On his face, the first time he showed a strong gloom.

This level of ridiculous creatures, he has not seen it, but it is in some of the inheritance pictures, even in the old cages connected to the valley of the imperial ban, the most large body that Ye Xuan saw. The wild and fierce beasts are nothing but the existence of hundreds of feet.

This kind of movement is thousands of feet like a small meteor. Only in the battle of the ancient world that was seen in the picture of the heavenly bow, Ye Xuan saw a lot.

But now it is different.

In the inheritance picture, he only looks at it from the perspective of an outsider. Everything in the picture has nothing to do with him, and it does not affect him.

But this time it is different. He has become a player in the game. At this moment, it is the real starry sky, even if this starry sky is the illusion of the treasure of the immortal ancestral tower, but if Ye Xuan is It was ravaged here, and he would fall like that.

In history, it has become a \*\*\*\* fact that has entered the immortal ancestral tower and thus the members of the immortal royal family that have fallen into it.

Therefore, the picture I saw at the moment, although Ye Xuan has seen too many times in the repeated inheritance pictures, but never once, can have a huge sense of crisis like this!

The cold hair of his body is erected!

"Roar!"

"Roar!"

"Hey..."

A whistling sound of the roar of the glory of the universe, each of which led to the change of the Galaxy, the power, even through the distant starry sky, still let Ye Xuan tremble.

This has nothing to do with fear, but a natural reaction.

After all, they are powerful and mysterious, and the level of life is different. In nature, there is a repressive role in the sacredness. Ye Xuan has no fear, and the feeling of trepidation is also impossible. Avoided.

This is not the key. The key is that the powerful and desolate creatures that emerged in the distant stars and the sky are, without exception, all locked the air machine on Ye Xuan.

Although there is no hate, but the immortal ancestral tower has its own rules of operation, this tower is a treasure of the ancient city, and it is left in the inner city of this immortal imperial city. The purpose is to make some scales for the royal family members of the immortal royal family. selected.

Therefore, from a certain point of view, no matter which layer, the wild and fierce beasts and the ancient creatures in the subconscious, will subconsciously regard the human powerhouse who enters the tower as the enemy of life and death.

For example, today's Ye Xuan is clearly the case. Any powerful wild animal that appears in the distant starry sky is full of huge blood eyes, and the hatred of the hatred is locked on him, and it is booming. Never moved.

A strong sense of life and death crisis, at this moment shrouded Ye Xuan's entire body and mind.

He finally knows why the immortal royal family has never been a royal enchanting tens of thousands of years or even a long time, and he has successfully passed the ninth-level trial test.

The seven to nine floors are all based on the ancient sky and the sky, and their grandeur and level can be imagined.

It is only the seventh floor. What appears in the empty space around the Xinghe River is already a wild animal with a head shape of at least a thousand feet, not to mention the ninth floor.

Ye Xuan has no doubt that when he reaches the ninth floor, he may even encounter the existence of a virtual giant tortoise or a golden dragon, a wild night fork, or the one he once saw in the sacred bow. The grand scene of the war in the ancient times...

If so, who can pass it?

From this point of view, the two immortal royalties in the history of the ninth floor, but ultimately dying, just the enchanting sent by the corpse, is really amazing enough.

At least, with the current strength of Ye Xuan, in the case of the two major boosts of headless baby corpse and \*\*\*\* horns, he...may not be able to rush to the ninth floor!

At this time, there are countless wild creatures looting in the sky from all directions, and each one is very powerful. The highest realm that Ye Xuan knows at present is the twelfth realm of the virtual world. The dragon squatting of the Supervisory Academy is the cultivation of this realm.

But at this moment, looking at it, any wild life in the emptiness of the Xinghe River is far more than the emptiness of the dragon. Although it is not as powerful as the giant turtle and the golden dragon, it is far from Ye Xuan. Can compete.

He even has an intuition, a very clear intuition, even if he once again uses the 陨天弓, fear that it will also return without success. This magical power comes from the ancient barren cherries, which are also top-notch and ancient, and naturally different, but Ye Xuan is now The repair is limited, even if he does his best, regardless of the loss, can not show the true power of the 陨天弓.

Although the experience of the previous six layers shows that there are many wilderness creatures from the treacherous sky of the 400-year-old Xinghe, he only needs to kill one of them. This seventh layer will pass smoothly.

However, the opposite of such a group of repaired realms that have surpassed the 12th world of virtual realm, even if it is one, the current Ye Xuan can not solve.

Even the Tianzhu bow is useless. Now, the only thing Ye Xuan can ask for help is the headless baby. Perhaps, only it or the soul of the blood, can make meritorious deeds and solve the problem at hand. Lei Yuanzhu in the middle, I am afraid that it will not work...

Chapter 3123: Wilted blood horn

In desperation, Ye Xuan can only try again and turn into a headless corpse tattoo, branded on the headless baby corpse in his left chest to communicate.

What surprised him was that this time, the headless baby corpse still did not respond to Ye Xuan, but for the situation that Ye Xuan faced at the moment, it seems clear that it is in Ye Xuan's consciousness toward the chest. The corpse lamp tattoo was close to the same moment in the past, and the corpse lamp tattoo was clearly burned. Then, a touch of \*\*\*\* color was rushed out from Ye Xuan's eyebrows.

It is the soul of the blood!

This time, the \*\*\*\* corner of the soul is not controlled by Ye Xuan, but the headless baby body is directly controlled and rushed out of his body.

Although the appearance of the situation is exactly the same as in the past, but because the headless baby body is personally launched, instead of Ye Xuan with a one-time branding, it is different, and the power is different and the previous ones are different. As soon as it appeared, there was a wave of pressure from the sky, and it was no weaker than the ruthlessness of the starry sky in the distant Xinghe.

Although these ancient creatures are intact, they are, after all, the energy form simulated by the blue stone tower, and there is still a certain gap between the body and the body.

In addition, even if they are descending on the body, at the level of life, compared with the top-notch ancient creatures such as the empty giant tortoise, the golden dragon and the \*\*\*\* horn, it is far from good, so even now the \*\*\*\* soul There is only one left-right remnant, but the \*\*\*\* and sorrowful power contained in this remnant is still enough to compete with these ancient creatures.

Of course, it's just a counterbalance. It's impossible to achieve a complete crushing trend, just like Ye Xuan's use of the blood of the soul.

"Hey!"

The \*\*\*\* corner of the soul will rise in the wind, and the size between the blinks will reach 100 feet. It is far better than the size of the three feet in Ye Xuan's hands. Such a \*\*\*\* giant angle is like a pillar of the sky. Without hesitation, even when rushing toward the nearest wild animal.

It is a powerful creature with a body resembling a starry sky. It is a thousand-footed body. Although it is not the most powerful existence in these ancient creatures, its body is even a little too small, but its momentum is extremely fierce. It gives a visual impression that it is difficult to deal with rough skin.

However, in the face of the \*\*\*\* horn of the stunned anger, the starry raging bear's original powerful momentum is clearly visible to the naked eye, and the breath also shows a slight hesitation. Obviously, it is a bit stunned. The courage to go ahead is amazed.

In the next moment, it turned into a \*\*\*\* color, and the speed was so fast that the \*\*\*\* corner of the soul was tied to the chest of this starry sky without any suspense, which made it a terrible temper, followed by the starry sky. The whole body of the raging bear blasted and suddenly exploded, turning into a huge flesh and blood mist, the whole body was gone, and the fried hair could not leave one.

Although it is not the same as the previous crushing, it can at least be overwhelming. Seeing this scene, Ye Xuan suddenly ecstasy, which can all surpass the supreme existence of the twelfth realm of void. Ah, I can't think of the \*\*\*\* corner of the soul. I can't say that it's the same thing. It's the old goods of Long Yao. It's really mad, and when the blood horns come out, he's just like a dead end. What about?

After all, although he knows that these wild animals are transcending the emptiness of the twelfth world, but in the end, there is no concept at all, but in case there are several realms beyond, then, the blood corner For the dragon, I am afraid that it can be crushed as before.

Unfortunately, this ecstasy has just appeared, Ye Xuan immediately found out wrong!

After completing this is not a blow, the breath of the \*\*\*\* corner of the soul is wilting, and the \*\*\*\* color that was originally so fierce is retracted in an instant, becoming extremely weak.

It seems that this blow is also its full strength. The overwhelming advantage is probably only its own self-deception. The \*\*\*\* corner of the soul is a steal, but it may not be able to kill this starry bear. It.

How many of this discovery made Ye Xuan a little disappointed, has this reached the limit of the \*\*\*\* corner of the soul?

In the next moment, the flesh and blood mist formed by the blast of the whole body of the starry raging bear seemed to be smashed by a large suction force. The blink of an eye did not enter the body of the blood horn. The latter suddenly fell. The breath of the moment was instantly restored, and it was obviously improved slightly.

Seeing this scene, Ye Xuan is happy again, forgetting that the blood corner can absorb the flesh and blood energy of his opponent and improve his power. After this war, it is afraid that it is equivalent to breaking it, even though it is the end. The starry sky raging bear is just a wild creature born from the treasure of the immortal ancestral tower, but even if the flesh and blood are not real flesh and blood, it consumes roughly equal green tower energy, but it is absolutely impossible to run.

In this way, as long as it is absorbed by the \*\*\*\* corner of the soul, then its role is obviously the same. If the flesh and blood resources are used, it will help the improvement of its strength.

It seems that after this war, the power of the \*\*\*\* corner of the soul will be raised again. This is an unexpected joy.

I was thinking that the \*\*\*\* corner of the war that had already ended this battle had once again turned into a \*\*\*\* man, and came to Ye Xuan's body, and the other wildernesses in the Xinghe's void in the distance, but Without exception, the body shape gradually disappeared, and the blue mist energy around the thick ink, and a small part of it was coming forward from Ye Xuan.

There is no doubt that this level, he passed.

Sure enough, the expected system sounds, at this moment, also sounded in the brain of Ye Xuan.

"Hey, congratulations to the host, the realm is elevated! The current realm: the third-order star!"

boom!

With the influx of these cyan fog energy, Ye Xuan's body is like a roaring sound. The force of cultivation is suddenly rising, and the starry realm is getting behind. The difference between a small step is greater, and now he enters the immortal ancestor. Since the Dragon Tower, it has been a small step in the Jin

Dynasty. Compared with the fifth stage of the planet when it was first entered into the tower, it is difficult to describe the four words that are different from the heavens.

Then, the green mangure was reappeared, and Ye Xuan's body shape was wrapped in a roll, and disappeared in the same place. The seventh layer of the starry sky was finally passed.

On the seventh floor, Ye Xuan stayed in the same time as four or six floors, just two or three minutes. It is a pity that the strong people outside the tower do not know. Otherwise, I am afraid that I will fall into the eye on the spot. No one dares to believe this easily!

brush!

After a short moment, Qing Mang Pui Lian appeared again, the eighth floor, arrived!

"Hey!"

"Roar....."

As soon as the figure was revealed, the Qing Mang's skin had disappeared instantly. Then, the two roars and the whistling sounds swept from the stars and rivers in the left and right sides. The momentum was far better than before. On the seventh floor, those wild animals, Ye Xuan's careful liver trembled...

Chapter 3124: Star Scoop

Throughout the eighth floor, the big back is the same as the previous seventh floor. It is still a starry sky, and there is a vast ancient atmosphere everywhere.

But at this level, Ye Xuan's first look at the four sights, but there are not many wilderness creatures in sight. Counting them several times, he finally decided, there are only two!

On the left side, there is a star dragon, although it is not a golden dragon, it is not a mutated dragon of the candle, but a gray-yellow giant dragon, but its breath is far more than the ordinary wilderness of the seventh layer. The souls, although not yet to the extent of the golden dragons, the empty giant turtles, or the ancient wild cherries, but also the difference is not too much.

As for the wild animal on the right side, after Ye Xuan met, it was a slap in the eyelids, and the stunned color appeared. Of course, more shocked.

That was actually a hollow squad!

However, this emptiness soldier's scoop is obviously different from the squad he saw in the black hole of the first universe. It was the emperor of the squad of the squad, the nine-star scorpion, compared with it. Can be regarded as a cockroach ant!

Like the stalwart of the starry sky.

Call it the starry sky, it is the most appropriate.

The shape of the Jiuxing Shouhuang is 100 feet, and this starry sky is sculpted, but it has a horror of about 5,000 feet, which is the diameter of 15,000 kilometers, which is a big circle larger than a 10,000-meter-diameter starry fortress. .

In addition, the back of the nine-star scoop is a ghost face of nine stars, and this starry sky is sculpted, but its back is ridged with nine golden giant horns, plus the larger one on the top of the head, a total of nine Small ten golden horns!

The ladybugs are all long angles. Isn't this what Scoop is?

As for the gap between the strengths and the strengths, it is even more necessary to say that the nine-star sacred king's tenth-level realm of the heavens is repaired, and this starry sky is sculpted. When Ye Xuanyi came to this place, it was clearly and the giant In the Battle of the Dragon, the strength of the two is quite the same, indicating that the starry sky is also the same, belonging to the existence of the top-class wild creatures that are second only to the empty giant tortoise.

This kind of existence, with a \*\*\*\* corner, is hard to deal with, let alone it has just experienced a big battle, although the flesh and blood energy after the body of the starry sky is blown up, refining requires a process. The soul of the soul is not suitable for another shot.

As soon as I read this, Ye Xuan's intestines are green.

I knew this before, how much better before I slashed my workmanship?

The two ruins of the eighth and only two ancient creatures are fighting, and later, maybe they have already lost both sides. At that time, the possibility of self-driving dry fish is not easy.

But now it's too late to say that if you want to successfully pass the eighth layer, the two wild animals on the left and the right sides must at least solve one problem.

Depressed, Ye Xuan seemed to think of a quick way. When he was in front of his eyes, he suddenly excitedly said to himself: "Yes, since they are rivals, the Emperor can pick a temporary cooperation. At that time, it will be attacked by it. The prince took a hand next to him, shook a flag and shouted something, at most, the cold sneak attack harassed, the problem is not solved?"

Having said that, he couldn't help but grin.

Unfortunately, without waiting for him to finish the words, the left and right sides have once again heard the sound of roar and scream!

"Roar!"

"Hey..."

With these two distinct sounds of roar and whistling louder than before, the giant dragon on the left and the empty veil on the right side are all rushing toward Ye Xuan, which is clearly to him at the same time. The rhythm of the shot.

Say good to join hands, to two-to-one, in the blink of an eye become a person alone, to a pair of two!

The transformation was so fast, and I was scared that Ye Xuan's soul was flying, and my eyes were almost out of the way. I didn't hesitate to turn around and flee.

No way, he can't deal with this level of existence. Don't look at the seven small steps that have risen in less than an hour before, but even so, he is now the fifth largest realm in the world. In front of you, the ants are not considered.

"Rely! Just killed and killed, just blink together and bully this prince!"

"What about your strong heart?"

"What about your fuck?"

"Because of the difference between the poor and the ancient Supreme level, there are not too many supreme creatures. Are you doing this, don't you panic?"

"Hey, hello, don't chase, this prince will not surrender..."

While turning around and fleeing, Ye Xuan's mouth screamed at all, but unfortunately, no matter whether it was the giant dragon or the starry sky rushing from another direction, he did not care about his meaning at all, if the two were away from him. Extremely far away, even if Ye Xuan made a mad rush to eat milk, I am afraid that it was already smashed at this time...

While running, Ye Xuan began to save himself and constantly contacted the corpse lamp tattoo on the left chest, but unfortunately it was like a stone sinking in the sea, and there was no response.

At this moment, the giant dragon and the starry sky behind him have been close to each other. Ye Xuan and the speed are basically negligible compared with them. People are only too far away, and it took a little time to catch up. .

According to the current situation, at least a dozen seconds at a time, Ye Xuan will be picked up. At that time, it is not the mouth of a giant dragon. It is the belly of the starry sky. Although this is a suspense, but in Ye Xuan Really no difference.

Just as he was desperate, a gray glory, but without any warning, suddenly rushed out of his mind, no delay, no direct, directed toward the starry sky.

It is the core of the emptiness of the emptiness of the sea, which is the core of the giant virtual medulla who is derived from the black hole of life.

Nowadays, the Nether Medal has been thrown into his immortal world by the engulfing system, and is merging with its immortal world, and this hollow medullary crystal has remained in the sea of Ye Xuan, and has never played much. The big role, in addition to exudes a mysterious scent, so that all the emptiness of the squad will be close to him, as if it is the mother, there is no other power.

Unexpectedly, at the juncture of this crisis, this hollow crystal was actually autonomously flew out after sensing the breath of the starry sky.

What makes Ye Xuan stunned is that such a powerful starry sky, in the face of this little hollow medullary crystal, is actually no resistance. After the sky screams, with the emptiness of the medullary crystal Flashing, shooting a gray light on the huge gold on top of its head...

The starry sky and the scoop of the sky are rapidly shrinking at a speed visible to the naked eye. At the end, it turned into a small ladybug of the size of a fingernail, which was invaded by the hollow marrow crystal and disappeared!

"I rely on! This is clearly a robbery. It is more powerful than the previous \*\*\*\* soul. This time, I actually caught a living..."

Seeing this scene, Ye Xuan's chin was falling to the ground, and he muttered to himself with a blank face!

Chapter 3125: The tower is tossed and broken.

After entering the tower, all the way up, and now, Ye Xuan has realized that the extraordinary place of this immortal ancestral tower is absolutely a treasure of the stars to the treasure level. After all, its interior can evolve into a starry sky and a large number of The ancient creatures of the past, even

including the starry sky and the vulture, are close to the existence of the ancient and noble creatures. Can you be a common thing?

No matter whether it was the flesh and blood of the starry sky raging that was blown up by the body of the \*\*\*\* soul on the spot, it is still the starry sky scoop that is captured by the hollow crystal, although it is the immortal ancestral tower. The existence of the illusion can be seen in the power they display, and it is not so simple as a simple phantom.

Do not mention this, at least, the horror of the energy consumed by the immortal ancestral tower in order to blur them is absolutely obvious.

In this case, the flesh and blood of the starry raging bear that had already exploded in the previous awning would be nothing more than a slap in the \*\*\*\* corner of the scorpion, and it would be a little more reasonable to collect it.

But now this starry sky is not the same, this is clearly the robbery of red fruit, ran to the people's site to play live catching drama.

Ye Xuan looked at the heartbeat and jumped, and feared that the eternal ancestral tower would get more than a dozen heads of the same level to besiege. If that is the case, unless the headless baby is shot, everything will be finished.

The mysterious power of the emptiness of the medullary crystal can only be useful for the existence of the emptiness of the squad, even if it reaches the level of the starry sky, but the repression of the nature is there, it is useless, and can not resist.

But for the other levels of the same level, the void medullary crystal definitely has no such ability.

Moreover, the squandering of this kind of robbery, with the high coldness of the headless baby corpse, may not be able to lay down his face and come out to save the field.

Fortunately, his fear did not appear. After catching a starry sky and sculpting close to the ancient sacred class, the emptiness of the medullary crystal immediately turned into a gray glory, directly into Ye Xuan's forefront Lingtai, and returned to him. Know the sea.

However, Ye Xuan's thief cautiously peeked around, but did not see any powerful wild creatures appearing, even the giant dragon that had already reached the front, after the starry sky was taken away by the hollow crystal. The figure is getting lighter and thinner, and disappeared in the blink of an eye.

This means that Ye Xuan has finally passed the test of the eighth floor inexplicably, and the time is as short as it is still about two or three minutes.

With an unexpected sneak peek, the thick blue ink energy mist around the ink, and a small dial to Ye Xuan, came over, and then his body blew a bang to the sudden roar of strength. II.

After all this blink of an eye, the familiar tone of the phagocytic system sounded quietly in his mind.

"Hey, congratulations to the host, the realm is elevated! The current realm: the fourth stage of the star!"

Fourth order?

The fourth stage of the fifth realm of stellar space?

This is fast, what is sitting on the rocket is so weak!

When entering the tower, the fifth stage of the planet, this time is less than an hour, actually the fourth stage of the star, the difference is the promotion of a whole big realm, not to mention the afternoon, at least absolutely unprecedented!

These thoughts flashed through my mind, and Ye Xuan was still awkward, and suddenly gave birth to a feeling like being in a dream, everything, so unreal!

Just at this time, the Qingmang Pian practice has quietly appeared, wrapped in the shape of Ye Xuan, the blink of an eye disappeared, when it appeared again, it has already reached the ninth floor of this immortal ancestral tower!

In the next moment, the unprecedented roar of roaring and roaring in all directions, like a tidal wave, came to the fore, and the first time I shocked Ye Xuan, showing him in front of him, let him be stunned, on the spot. Petrochemical!

"This is this... what a joke? The ninth floor is actually this?"

Ye Xuan's voice is exclaimed, no, it should be said that it is mourning: "Ah... this is also unfair, it's clearly ten dead and no life!"

.....

At the same time, just in the same moment that Ye Xuan was wrapped in the ninth layer, the whole magical immortal ancestral tower, suddenly there is no sign of the green mang, a time, the whole seat The quaint green tower is actually full of treasures, which makes people dare not look at it.

Since Ye Xuan entered the immortal ancestral tower, including this time, the blue stone tower has had three appearances in total.

The first two are behind the towers of the third and sixth floors, and there is a portal passage, which represents the towerer. It has successfully passed the test of the third and sixth layers. If he chooses to leave, he Immediately, you can get out of the portal channel that appears.

Of course, the time for this decision is only 30 seconds, 30 seconds did not come out, the channel disappeared.

What appears at the moment is the third vision, but it is not at the ninth floor outside the tower, revealing a gateway to leave. After all, Ye Xuan has not yet passed the ninth floor.

This time, the whole tower was lit up, and it was a big man, and it didn't disappear immediately, but it was always going on.

This vision represents the towerer and has successfully entered the ninth floor!

In history, this vision has appeared twice, but two times, the two immortal royal enchanting Tianjiao who successfully entered the ninth floor were all sent out.

When the towerer enters the ninth floor, the whole mansion of the tower will continue until it dies or passes smoothly. At that time, the Qingmang will fade.

For the first time in the first two episodes of the previous history, the entire tower was illuminated for forty-five seconds, and the second time, for one minute and eight seconds.

But at this moment, all the people outside the immortal ancestral tower, what they think in their minds is not how long Ye Xuan can persist in the ninth floor of the tower. The jumping span of their thoughts is far from this level. At this moment, all The people are still in a state of extreme shock, one by one stunned, stunned to see the immortal ancestral tower in front of the green man, as if just had been thunder.

This is true, without exception, including the empty, the dragon guard, including the Naples and Xuanyuan purple, even the wretched mosquitoes.

As for the five emperors such as the Uncle and Long Xiang, they are all face-faced expressions that have just been passed by the dog. The mouth is wide open and can definitely be stuffed into a fist, an adult's fist.

Although the members of the royal family present all know what the ancient towers of the immortal ancestral towers represent, but at the moment, after the initial sluggishness, several emperors still can't believe it, and they muttered incomparably. With.

"Who can tell me what happened?"

"Is it because the tower is broken?"

"It must be like this, otherwise how is it possible? It will not be ten minutes through the sixth floor? This is the ninth floor? Play us..."

"This kid is really a curse. Before the death, it will also harm us, and the tower will be tossed!"

Also at this time, in the distant royal family cabinet, a strong sense of God does not want money, and come one after another...

Chapter 3126: Broken down the ancient war

Immortal Imperial City, the National Palace!

Since Ye Xuan entered the immortal ancestral tower, the immortal emperor and the national emperor and two emperors have been standing outside the dome of the National Teacher's Hall, overlooking the immortal ancestral tower in the depths of the inner city.

Before Ye Xuan passed the first three floors in less than ten minutes, the immortal emperor and emperor II were quite shocked.

Then, it took less than ten minutes, and Ye Xuan went straight through the four to six layers. At that time, the feelings of the immortal emperor and the emperor two could not be easily shocked. The word is described, it is simply a loss, almost did not believe.

At this moment, when the entire immortal ancestral tower in the line of sight is instantly green, it represents that Ye Xuan has successfully passed the seventh and eighth floors, and within a short period of less than ten minutes, it has entered On the ninth floor, the immortal emperor and the emperor two were in full shape, and almost one of them was planted from the dome of the National Teacher's Hall!

It's hard to stabilize the mind, but the two have long been all stunned. From the other side's shackles, they have seen the meaning of being in a dream.

"What happened? Could it be that the tower is broken? Otherwise, the kid... is too perverted too?"

"This is indeed a bit of a mystery. The two people who have successfully entered the ninth floor in history have spent more than one day before they reach the ninth floor. How long does this kid last? Half an hour is not there. Is it just like climbing stairs?"

Regarding the self-speaking, the immortal emperor and the emperor two did not speak again after saying this sentence, but in the depths of the bottom, they clearly revealed a slap in the face, as if they saw some kind of dawn that they did not dare to expect. Excited and excited.

With their minds, nature can't believe that the immortal ancestral tower is being played with such a ridiculous thing, then the answer is no doubt, no matter how Ye Xuan did it, but he did it, short Less than half an hour, the summit of the immortal Zulong Tower, successfully entered the ninth floor, and still ... easily!

In addition to the immortal emperor and the national emperor, the next moment in the entire immortal ancestral tower, suddenly, in the inner city of the imperial city, is not too far away from the royal residence, there is also a The powerful power of the gods, the continuation of all the spurs, circling around the immortal ancestral tower of the Qing Mang masterpiece, although there is no speech, but they have never left.

Obviously, it is waiting for the final result of the third time in the history of the entire royal family.

These old people are the true heritage of the entire immortal royal family. In a sense, their authority is even more than that of the immortal emperor. When there are certain major events in the dynasty that are related to survival, one of them said Words are more weighty than immortal emperors.

But even if they were smashing this immortal ancestral tower, they would leave at the sixth floor. It's not that no one is on the seventh floor. It's been said before that the royal family members on the seventh floor are all Fallen.

The farthest walk, reached the ninth floor, but only two people, only two bodies were sent out, while others were stopped on the seventh and eighth floors, even the bodies were qualified. Transmitted and turned into the nourishment of the immortal ancestral tower...

So, from a certain point of view, today's Ye Xuan, in fact, even these old guys must look up, maybe Ye Xuan's strength is not as good as them, but they were originally cultivated as the only strength of Ye Xuan, and nowadays Compared with Ye Xuan, I am afraid that it is worse than a little bit.

At least you have to get rid of a few streets.

In any case, even if Ye Xuan's tower failed today, the same thing that was finally transmitted is a corpse. The name of Xuan's emperor can definitely stay in the genealogy of the immortal royalty and shine.

The top three in the history of the royal family, even if it is dead, is as honorable!

In fact, at the moment, among the royal families who circling around the immortal ancestral tower, there are still a few of them. They have already given birth to hope that Ye Xuan can live alive from the ninth floor. .

They want to know the scenes of the ninth and even the seventh and eighth layers after the sixth floor.

I want to know more, when someone succeeds in smashing all the nine layers, what rewards will be received, and what kind of surprise changes will happen... Anyone who knows all of them, without exception, has all died, no one can The ninth floor is alive.

Although it was too difficult and difficult, Ye Xuan's performance today was so amazing that he reached the ninth floor in less than half an hour. Even the two ancestors who were recognized as the most potential in the history of the royal family were stunned by him. A few streets.

However, I am afraid that even the royal family members who gave birth to the hope in their hearts did not know. At this moment, the party on the ninth floor of the tower, Ye Xuan, was really desperate for the first time.

All that is presented in front of him, let him know that he must die as never before, and there is no life at all.

Everything is too exaggerated!

Starry sky, or the old starry sky!

The ancients are still those who are old, but the number is too much!

This is clearly the scene that he saw in the picture of the inheritance of the Tianzhu in the era of the ancient times, suspected of collapsed the entire ancient, and the road to the ancients was cut off from the world!

Such a scene, Ye Xuan, is not the first time I saw it. It should not be so confusing, but the difference is that he saw it from the inheritance picture, it is completely the perspective of outsiders, but at the moment, he knows clearly and incomparably Already in the game, has entered the real battle.

Because in the first time when Ye Xuan's figure appeared, his eyes were smothered in this ancient starry sky. At the same time, countless wild creatures who couldn't count on the number of people were invariably the same, all turned to him. Looked over.

It is the land of the battlefield that is endless, and it is the same as the wild creatures that are killing and killing.

This feeling, like the original male bathhouse, suddenly fell out of thin air and a big breasted big \*\*\*\* woman, even a scorpion, can smell the different meat fragrance in the first time. Alright!

The current Ye Xuan is such a toon. I am afraid that there has never been any existence in history. It can be seen at the same time by countless powerful and ancient creatures.

Among them, it even includes the surviving level of the ancient sacred level, such as the ancient yak, the golden dragon, which he is already very familiar with. Unfortunately, Ye Xuan and them are familiar, but people do not know which scallions he is. At this moment, Even the wild night fork and the golden dragon, the dawn of his look, are filled with the killing of the sky...

What's even worse is that Ye Xuan clearly has a clear intuition. This time, he wants to successfully pass the test of the ninth floor. Although he only needs to kill a wild creature, he must be a golden dragon. This level of the ancients supreme!

It's terrible...

Chapter 3127: Don't be impulsive

For the battle of the world that had been suspected of breaking the entire ancient era before the endless years, although Ye Xuan still did not know the truth, there was always some speculation. After all, the clues he touched were not. Less, through these clues, I can always analyze something.

In his view, the battle of the world must be related to its secret, and the headless baby body is the core of this secret.

In addition, that battle has affected the endless gale of the entire ancient era, and all the ancient creatures, whether it is the mighty existence of the ancient sacred class, or the ordinary ordinary wild animals, have been involved.

Whether active or passive, they are divided into two camps, and perhaps there is also a neutral presence, but that is not the mainstream, the mainstream is the two camps that are hostile to each other.

The golden dragon and the hollow giant tortoise and the ancient night fork are distinctly in the same camp. Moreover, they are not only the existence of one hundred and eight ancient sages in this camp, but this camp should still stand on the side of the headless baby.

This point, from the original obsessiveness left by the guys in the inheritance, when they rushed to the ground in Ye Xuan's body, the headless baby corpse appeared, and they immediately cheered and took the initiative to retreat, as if they found no The head of the baby was not completely degraded, and the scene of excitement can be seen.

As for the \*\*\*\* soul that left the \*\*\*\* corner of the soul, although its strength should be the same level of the ancient supreme, but it is definitely not the supreme of the camp of the headless baby corpse, this point, from the headless baby corpse Without hesitation, he directly refines the blood corner, and at the same time, Ye Xuan sees in the inheritance picture. The \*\*\*\* ghosts and ghosts admire themselves alone and peep at the back of a huge star. Can be analyzed.

This cargo is not only the supreme in the camp of the headless baby corpse, it is not even the strongest of the opposing camp, and it is even more unlikely to be a neutral existence. It is more like a conspiracy, and seems to want to seek a certain kind of war from this battle. A great interest.

Unfortunately, in the end, it was lost. Even his \*\*\*\* horns, which were smashed by the second world, were ruined by headless infants. No matter how terrible, even across Endless years, still living in the world, but now, everything is turned into a mirror, and no longer exists.

Although there are countless ancient creatures involved in this battle of the world, but with their own atmosphere, Ye Xuan can see at a glance which existence is the strongest of the ancient level, as far as the camp is concerned, And at a glance.

In the line of sight, the supreme level of the camp of the headless baby corpse seen by Ye Xuan in the sacred bow of the sacred bow is still one hundred and seven, including the golden dragon, including the barren cherries, but not alone. Void giant tortoise.

The number of the ancient survivors in the other camps is quite the same, about a hundred or so, but for the wildest supremacy of these hostile camps, Ye Xuan is extremely strange, one does not know, even because of their strange size, Ye Xuan even called Do not come up with an accurate name.

Only a huge number of tens of thousands of feet, and the Golden Dragon, but the body of the black dragon scales of the Dragon Supreme, Ye Xuan is recognized at a glance.

It is the legendary magic dragon candle nine Yin, I can not think of it is the wildest supreme of the headless baby corpse enemy camp!

Legend has it that the candle nine yin dragon is the first person, but the fact is not the case. Its appearance is exactly the same as that of the golden dragon. The only difference is the whole body black scale, and a pair of huge dragons, clearly closed. .

The so-called first person face is simply a vain, and it must be rumored!

Legend has it that the candle nine yin 眸 昼 昼 昼 ,,  
,,,,,,,,,,,,,

This must also be exaggerated, but at least one point is that the magic dragon of the candle nine yin is the strongest, and it should be within its huge pair of eyes.

This point was originally only Ye Xuan's speculation, although its golden dragon scale has been mutated in the \*\*\*\* back view, while possessing the blood of the golden dragon, it also has the blood of the dragon, and even got the blood of the dragon. A kind of primary \*\*\*\* magic, called the eye of the dragon.

But after all, it is only primary, whether it is this magical power or the blood of his dragon.

Therefore, for the magic dragon, the true strongest power of the nine yin is what Ye Xuan does not know, at least not yet.

But his guess was quickly confirmed.

The strongest power of the dragon's blood is indeed related to its huge pair of eyes.

Because of this moment, the huge black dragon with tens of thousands of feet in the distant enemy camp finally opened his eyes...

Two huge green dawns, like candlesticks, burst forth in an instant, the mysterious and gloomy meaning, although it does not immediately cover the entire innocent star river, making it linger from the night, but it is said that it is released in the sky, It's no exaggeration to explore the nine clear yellow springs.

At the same moment of these two green dawns, a large piece of green and brilliance spreads and spreads. In an instant, a large part of the starry sky battle is overshadowed. Ye Xuan's entire body suddenly stagnate, this moment, not only the body shape Can't move anymore, even the gods and mental powers have become sluggish, and this green and magical dragon candlelight has such power.

Under the stunned face, Ye Xuan subconsciously left and right, and found that in the entire battlefield, a large number of wild animals seem to be like him, and the dragons that have spread from this canopy restrict the ability to act.

Although not all the ancient creatures are as weak as him, the flesh and the soul can no longer function normally, but how much will always be affected.

This level of war, often a small negligence can lead to life and death, not to mention this level of action is limited? Moreover, the area of the affected area is so wide, even if the time limit is very short, fearing that it will affect the final outcome of this war of the world.

When these thoughts flashed through my mind, Ye Xuan was already a stunned look. The horror of the magic dragon candle is absolutely strategic. There are unrestricted large-scale influences. In this large-scale war, It's simply the superb power that is invincible!

"Hey!"

"Roar....."

"call out!"

The sound of roaring and roaring in the sky is awkward, and the strongest blood and blood of the magic dragon and the nine yin are powerful. However, the existence of these supreme levels of the golden dragon and the barbaric nightshare is not greatly affected.

Originally, their killings were all locked up to Ye Xuan. At this moment, they were all roaring and roaring in the same direction. They all looked toward the distant candle.

This moment, the candle in the distance is yin, but the neck screams and rushes toward Ye Xuan.

Ye Xuan almost fainted on the spot, because in addition to the candle nine Yin, the wild night fork in this camp, actually raised the left arm to the distant, a golden giant bow suddenly appeared, this is clearly to be the leaves The rhythm of Xuan's bombing!

Ye Xuan even stunned: "Looking at the grass, don't be impulsive, it's all your own..."

Chapter 3128: Baby corpse

Why is the magic dragon candle rushing toward himself, Ye Xuan is a fog, life and death crisis, and there is no time to ponder.

But for the horror of the scorpion bow, he is clearer than anyone else.

The bow is definitely an extremely deadly weapon.

What's more, Hao Tian Gong is not a kind of weapon. It is clearly a supernatural power. It is a kind of supernatural power that has been passed down from generation to generation in the ancient and supreme level of the ancient yak.

A simple arrow shot, all the strength of the body, the power of cultivation, the blood inside the body, and even the vitality, all gathered in an instant, condensed into that arrow, shot out.

In this case, this arrow is called the sky, and it is not too much.

In the original painting of the 陨天弓 inheritance, Ye Xuan saw with his own eyes an arrow of the ancient yak yoke hitting the sky of the ancient starry river. After the arrow, the ancient yak was wilting, which may be the root cause of its final fall. When the arrow is shot, the power in the body includes vitality, and all of it is poured.

The result of that arrow is that the deserted starry sky in the picture has been broken down by a small half. Although it has not really been awkward, it has actually caused the existence of a suspected ancient heavenly will to be seriously injured.

Now, this arrow is aimed at Ye Xuan. Even though this arrow and Ye Xuan are different from the arrow seen in the inheritance picture, the power of the ancient Yaksha is not so terrible, but for Ye Xuanlai It is said that there is still a feeling of being overwhelmed and at the same time feeling cold.

At this time, the ancient night fork, but the supreme existence of the sacred level of the sacred, even if this arrow is just fun to shoot at random, it is absolutely able to smash Ye Xuan on the spot, half of the hair can not stay.

The reason why the other party is doing this is obviously also the idea of killing and letting go. After all, the war has evolved to such a degree. It is not surprising that there is such an idea.

Ye Xuan came too surprised, and from this angle of the ancient battlefield, it is so incomprehensible, but the magic dragon and the candle are always closed at this time, but when he first came, he suddenly opened. And, after the shackles of the ancient battlefields of most of the battlefields were all temporarily restricted, it was directly directed toward Ye Xuan...

This is enough to cause some kind of misunderstanding. At least, the ancient Yaksha is now clearly misunderstood.

It sees Ye Xuan as the existence of the other camp, and because of the strangeness, it may be regarded as the key to some kind of conspiracy. Therefore, even the existence of the supreme level of the ancient Yaksha does not hesitate to use the bow. The first time I pointed to Ye Xuan.

As long as its right hand is loose, this arrow will instantly enter the head of Ye Xuan!

This horrible magical power of Yu Tianzhu, even if it is displayed in the hands of the small existence of Ye Xuan, can be like a teleport, instantly across the infinite distance, appearing in front of the target, let alone the ancient night fork?

For this, Ye Xuan knows better than anyone else. The only thing he has to do now is to stop the old night fork from releasing the right hand holding the golden arrow. Under this thought, even the head that is rapidly rushing. The horror dragon, he did not pay attention to it at all.

Take care of the goods!

This kind of critical situation is just enough to swear at each other and swear by oneself. It is definitely not enough. Let's not mention whether the other person can understand it. If this is a big bang, scare people and hold a golden arrow. Ya's right hand suddenly disappeared, and that was all too late.

Still using the most intuitive way to show loyalty is more reliable.

With such a flash of light in the brain, after Ye Xuan finished this sentence, without any hesitation, he directly urged the brain to know the golden bow hanging in the sea.

At the same time, the left arm is also quickly raised in the direction of the candle.

In the next moment, a handle is exactly the same as the gold giant bow in the hands of the wild night fork. Even the breath is the same. Just because of the difference in body shape, the golden bow with a slight gap is in the left hand of Ye Xuan. Appeared out, pointing to the magic dragon that was coming and rushing.

Although it was just a way of doing it, Ye Xuan did not fully promote the magical power of the 陨天弓. The golden energy arrow did not appear, but it was only the golden giant bow and the breath of the giant bow. It is enough to explain the problem.

In addition, Ye Xuan raised his left arm at this moment, pointing away in the direction of the enemy. It was the magic dragon of the enemy camp. Therefore, all the ancient creatures in the distance around the battlefield understood almost all of an instant.

At the same time, they all stunned.

Especially the ancient Yaksha, a look of stunned, at this time, its entire brain is chaotic, do not understand how the ancient yak yak is only in the blood of the generations of the 陨天弓, how can it be in a human ant Reproduced in the hand, and still so pure, in addition to the power is not as good as him, the breath is actually a little bit of a sense of miscellaneous, no difference is worse than it.

This is absolutely impossible!

The whole brain of the wild night fork suddenly rushed into a lot of flour and water, the former is on the left, the latter on the right, a little brain, the whole is a paste!

But confused and confused, at least the action shown by Ye Xuan in front of him is enough to make it understand the position and attitude of Ye Xuan.

In fact, all the other factions in the same camp, including the Golden Dragon, existed in the Supreme Class. At this moment, the hostility of Ye Xuan's view was lost, and the blink of an eye disappeared completely.

On the contrary, in the hostile camp on the side of the magic dragon candle, countless wild animals, but they roared in unison, and the endless murderous machine came to Ye Xuan, and locked firmly.

Even Ye Xuan is still in the dark void in the extreme distance behind the enemy camp, looming to see a huge eyeball, and the heavenly eye in the ancient prison cage connected to the forbidden land of the Magic Emperor Valley is very similar. However, it is powerful and countless times. Although this heavenly eye only slightly opened a slit, the light fell on Ye Xuan's body, but it was already full of cold and cold, and even the soul was frozen.

This is definitely the true incarnation of the will of the heavens. It turns out that the biggest boss of the enemy camp is really the will of the world.

Realizing this, Ye Xuan's whole heart is cool and cool.

Although the era of the floods has long since gone, but since the ancient cages still exist, who dares to say that the will of the wilderness will not be there?

If it is not there, then who is the hand of the ancient cage in the Forbidden City?

That is to say, even in reality, Ye Xuan has caused great trouble, and the will of the wilderness will be gone to the enemy camp.

This is absolutely tough, and I am looking for death!

With this thought floating in my mind, Ye Xuan wants to die. It is also in this moment. When the distance is suspected, the heavens and the eyes of the will of the wilderness will be opened, and a slit will be opened. On his face, Ye Xuan's left chest suddenly became hot.

The next moment, a terrifying noise rang.

"Hey..."

Headless baby corpse, finally...falling!

Chapter 3129: No call

There is a saying, called a call!

But at the moment, Ye Xuan is not a teacher, and he has learned another sentence in an instant, called... no call!

To be precise, in fact, it should be thousands, should, and countless!

At the same moment that the headless baby corps rushed out from the left front chest of Ye Xuan, the whole piece of vast and innocent land of war and destruction was instantly filled with a drop of ice water in the oil pan, thoroughly frying the pan.

The headless baby corpse, but the pair is strange, but there is no such thing as a mighty power.

Small, and the average human baby is generally large, just the head without a head, a skull with his eyes closed, and he is held in his arms by his own hands.

However, although it was not surprising, it appeared in the first place, and it was like a thunderous move, which shocked all the wild creatures.

Including the magic dragon candle that is coming from the bang!

Including the barren night fork that just put down the left arm and put away the golden giant bow!

Even the one that is suspected to be the incarnation of the will of the enemy's last camp... Heavenly eyes!

The magic dragon candle nine yin is obviously frightened, the body's breath condenses, instantly shrinks, panic back, as if encountering a real flood of beasts, it is awesome.

The ancient Yaksha is the same as the other 106-year-old ruins of the same camp. It is suddenly rising with breath, with infinite joy, rising up and screaming.

As for all the ancient creatures of the enemy camp, including the breath and the golden dragon, the sacred level of the same level of the ancient Yaksha, but they were horrified and roared.

As for the sacred eyes of the hunter-stricken will of the hostile camp, it was at this moment, it was completely opened, and there was a chaotic, gray-like atmosphere, locked in Ye Xuan and the headless baby. Body.

"Hey!"

The shocking whistling sound, the little head of the headless baby corpse in the arms opened for the first time at this moment, greeted the giant eye of the wild, and instantly cut off the breath of this heavenly giant eye to Ye Xuan. locking.

The existence of the two ruins of the heavens and the Taoist level is turbulent. Although there is no sound of the explosion, the central area where the two lines of sight meet, there is an endless collapse of the galaxy's void, which has been stagnant in this area. Including the existence of several hostile camps, the body of the sacred, the body of the body, instantly caught in the collapse of the collapse of the galaxy, instantly turned into nothingness.

It's just a glimpse of the light, and the line of sight is on the verge of it. Now, Ye Xuan has finally confirmed the fact that the headless baby is absolutely the same level as the wilderness. The existence, just do not know its head, but who is hard to fall!

At the same moment of the headless baby corpse and the Tiandao giant eye that is suspected of being incarnate, the breath of breath is already shrouded in Ye Xuan, but it is not hostile, with strong friendship, even Flattering.

At the first time, Ye Xuan was able to distinguish the origins of these breaths: the ancient night fork, the golden dragon, and several wild creatures that are closer to his body shape, all of which are the supreme level of their own camp.

At this moment, his heart once again gave birth to the feeling of being shocked, because these breaths are clearly all with protection.

Before, Ye Xuan unexpectedly showed the magical skills of the 陨天弓. This, even now, the ancient night yoke is still full of brains and paste, did not figure out what is going on.

But all this is no longer important, at least compared to the countless wild animals in their camp. The headless baby corpse, which was maintained by life and death, was actually rushed out of Ye Xuan's body, which is enough for all. With the wilderness of the camp, I realized the importance of Ye Xuan.

Some of them are strong, and vaguely realize that most of this is related to time and space, but even so, even if Ye Xuan and his eyes are unexpectedly present, and the state is still quite different, it is the headless baby corpse with the head of the dagger. It is a period from the endless years of the future, but at least one point is certain.

That is the headless baby corpse, after all, survived after this war, and its guardian, Ye Xuan, such a human ants, their courage, let them feel gratified.

This is the scene of the battle of the Star Wars in the era of the ancient times. A human ant, which is only a star of the stars, can show such a daring color, enough to make these supreme supreme existence, and look at it.

This is also not the point. The real point is that they use the headless baby corps guarded by life. In the future, they will survive because of Ye Xuan's life and death.

Realizing this, all the 107 ancient sages are all moving.

The fastest mover, the first time to protect Ye Xuan, to ensure that he is innocent in this battle, and the other ancient Supreme, in the roar and screaming, have spurred a touch of Mang, rushing toward Ye Xuan.

This is the inheritance, belonging to the inheritance of the strongest power of the 107-year-old bloodless supreme blood.

Perhaps, within the hundreds of pieces of Jiu Jinjin held by Ye Xuan, they have the same inheritance, but there is absolutely no direct transmission of the blood from the 107 ancient sages. Be strong...

"Booming!"

"boom....."

One hundred and seven glory, from the seven hundred and seven ancient sages except the giant turtle. Including the ancient Yaksha and the golden dragon, at this moment, all of them poured into Ye Xuan's body in a short period of time, and did not enter the sea of knowledge. I don't know where it is hidden. In short, although it exists, it is temporarily invisible. !

After doing all this, the existence of one hundred and seventy-eight-year-old Supreme Supreme has left two guards around Ye Xuan, guarding his safety. Others are like a freshly beaten chicken. All rushed toward the enemy's camp.

For the truth of this war, Ye Xuan still does not understand.

But when he saw it now, he understood at least one thing. That is, when the last battle of the world began, the commander of his own camp, that is, the headless baby, was basically life and death.

It can be said that this battle was completely initiated by the hostile camp. After killing the commanding infants of their own camps, the heavenly giants who were suspected of being incarnate in the wild, led all the wild creatures in the hostile camp. The final extermination massacre was launched against all the ancient powers of their own camp.

In fact, in history, they have indeed succeeded, as evidenced by the old cages connected to the Valley of the Forbidden City.

Among the vast corpse pools there, there are countless self-reliant people who have their own camps, and there is no shortage of such supreme level.

They, even the flesh and blood bones after the trenches, were imprisoned forever by the hostile camp forever.

But nowadays, everything that has become a reality in history, like acting, is completely reversed when the ninth floor of the immortal ancestral tower is repeated again...

Chapter 3130: Bandit head

This reversal may be meaningless. The war that is now being carried out in the immortal ancestral tower, even if it is ended in the final victory of its own camp, will not have a history of established facts in reality. The impact of the minute.

But all this, except for the existence of Ye Xuan and the headless baby corpse, all the other things, even the surviving level in the two camps, even the commander of the other camp, the suspected ridiculous heaven The heavenly eye that the will is incarnation... Without exception, all are ignorant.

Therefore, the next battle situation is so real, even Ye Xuan, almost gave birth to a sly, doubting that he is really a dream back to the wild!

"Roar!"

"Hey..."

"Hey!"

The sound of the screaming roar of the screaming sounds, the camps of the two sides had a brief truce since the sudden arrival of Ye Xuan, and now they have once again fought together.

The entire vast expanse of the emptiness of the sights is everywhere in the battlefield. This is the real killing day.

The only difference from the previous one is that on the side of his own camp, there are two uncommon levels of existence that have withdrawn from the battlefield and are tightly guarded by Ye Xuan's side. This kind of treatment has made him pounce on the prickly liver. And finally settled down completely.

Who can have the supreme treatment that this prince enjoys today?

Followed by two surviving emperors, the left and right guards in general, he is completely carrying his hands, like inspecting work in general, walking freely in the battlefield.

Behind them, the two ancient sages followed closely. There were some small ants in the enemy camp in front of them. The two escorts only exude some momentum, and they immediately let them explode and die.

As for the powerful enemy camp supreme, all have the same level of existence dragging, nowhere to come.

It is the heavenly giant eye in the distance that is suspected of the ruin of the wilderness. At this moment, it is also in the same place as the Tiandao infant corpse. The area, the gray chaotic air is shrouded, it is the existence of the ancient supreme level. I can't see the scene.

But at least, the commander of the enemy camp was dragged, and there was absolutely no way to take care of Ye Xuan.

This makes him more daring, stop and go, from time to time to point this out, let's comment on that, the leadership of a group of leaders, in the end, the two old-fashioned survivors of the two camps, which are close to them, are fast. Lived, 眸进进进着怒,,,,,,,,,,,,,,,,,,,,,,,,,,,,,

"Booming..."

It was also at this time that the distant land that was covered by the endless gray and chaotic gas suddenly burst into a shocking sound, and the entire immortal ancestral tower shook a little. The strength of this explosion seems to be close to the limit of this ancient treasure.

Even the immortal ancestral towers are slightly swayed, and the emptiness of the emptiness of the ninth floor is even more unnecessary. The entire expanse of the sky is bursting with countless stars, and the ancients killed by the aftermath of this bombing There are countless creatures.

Fortunately, Ye Xuan was blessed by the two ancient guards of the ancient sects, but it was innocent, that is, the whole brain was smashed, and there was a sense of sorrow that had just been thundered.

In the horrific sound of the explosion, the endless gray and chaotic air of the area quietly dispersed, revealing the headless baby body and the heavenly giant eye.

The headless baby corpse is still the same, the hob meat is general, and there is no fear, and it is full of anger.

And the heavenly giant eye that is suspected of the will of the wild, but the sacred eyes of the openness reveals a wise wisdom, and subconsciously looks at the end of this unshakable wild starry sky. It seems to have seen its essence. Realizing that it is just illusory, everything, even this one, is meaningless.

"Hey!"

At the moment of retracting his eyes, the giant eye of Tiandao suddenly burst into a strong gray light, clearly without a mouth, but issued a whistle that could tear the sky.

Then, the body of the giant eye collapsed instantly, and the spread of power, directly annihilated the wild animals of countless hostile camps, and even the existence of those hundred ancient sacred ranks, all in the same horror, fallen More than half.

The rest is only a few.

This is the ancient sacredness of this few hostile camps. Most of them are also aware of what they have realized from the last scream of the heavenly giant eye. They are unwilling to scream and scream, and their form gradually fades.

Obviously, this battle is finally over. The final result is hard to say who wins and who loses, because the first to retreat is the enemy camp, but they are clearly led by the heavenly eye. Spontaneously collapsed itself.

It seems to be disdainful that it is such a ridiculous treasure that the immortal ancestral tower is like a singer.

In the blink of an eye, more than a hundred ancient sacred sects of the enemy camp disappeared, and the rest of the wilderness was no longer. Only the demon dragon and the candle were nine yin, and they were red with a pair of blood eyes, staring at Ye Xuan. It seems extremely unwilling to look for opportunities to kill him.

At this time, even after a large number of wild creatures in their own camps, they have already realized the truth of this ancient starry sky. The figure has entered an illusory darkness and will soon disappear, including the two sides next to Ye Xuan. All the way to protect the well-deserved ancient supreme, including the golden dragon and the barren night fork...

Everything on the ninth floor is clearly at the end. At the moment when the commander of the enemy's commander retreats, Ye Xuan has successfully passed this layer of consideration. He has become an immortal royalty in history. It was also the immortal ancestral tower that was annihilated by the immortal emperor of the first dynasty, and stood in the depths of the inner city of the imperial city. Since the endless years, the first successfully passed the test of the entire nine layers.

In fact, the test of the ninth floor was almost impossible to pass. The existence of the heavenly giant eye of the hostile camp that was suspected of being the innocent will guarantee this.

But who can expect Ye Xuan's body, attached to a headless baby corpse, is actually able to compete with the will of the wilderness?

Moreover, the enemy's camp, which is suspected of being the innocent of the will of the heavens, is only a fake, and it is the treasure of the immortal ancestral tower, which is virtualized by its supreme power.

However, the headless baby corpse that Ye Xuan rushed out is different. It is real. Only on this point, he will judge it. The ending at the moment is the beginning of Ye Xuan just entering the ninth floor. Destined early.

At this moment, on the ninth floor of the illusion is rapidly and comprehensively collapsed, lost the opponent's headless baby body, but it is a fierce glimpse, and immediately stared at the magic dragon candle nine Yin.

Air lock!

This is clearly the rhythm of alive!

Ye Xuan was dumbfounded, and he shuddered, and suddenly a word came out of his mind...

The ancient Supreme wants to catch it... This is the real bandit!
