

Super D. S 3131

Chapter 3131: Stellar fifth order

"Hey..."

It seems that I felt the meaning of the headless baby corpse. The only dragon in the enemy camp that had not dissipated was finally panicked. The neck made a fierce scream, and the huge body twisted and turned and fled.

Unfortunately, everything is still too late.

"Giggle..."

The baby's head in the arms of the headless baby corpse opened his eyes again, and his mouth uttered a innocent and soft laughter. Ye Xuan was the first to hear it, but he suddenly felt a creepy feeling in his heart. .

The baby is not smiling, but a smile, the horrible breath is invisible. He is his own person. He just feels that his heart is cold, but he does not feel the slightest power to force himself, but the dragon dragon who turned and fled Miserable, as the baby's sinister laughter came into the ear, his body shape was stagnant in an instant.

At the same time, the headless baby corpse was also in front of the Devil's Supreme, and a gray chaotic temper was thrown in the wave, leaving a headless corpse at the back of the black dragon. brand.

"Hey..."

The black dragon once again screamed at the neck, but it has become a perfect sound. After this scream, there is no sound again. Compared with the blood corner of the refining scorpion, the headless baby is refining this dragon. Extreme, the process is faster and simpler.

After all, the **** corner of the soul is still the real thing, and this dragon dragon is just the energy form that the immortal ancestral tower has developed.

If there is no mistake, the headless baby will refine it, just cut off the connection between it and the immortal ancestral tower.

However, although refining and chemicalization is fast, although the power of this demon dragon has been completely preserved, it is estimated that it will be weak once. Once all the energy is consumed, it will basically dissipate.

Unless the headless baby body finds a certain method, it can make it feel like a **** corner, and take the energy to grow itself and make up for it.

All this is not what Ye Xuan can understand today.

At this moment, with the corpse light mosquitoes in the back of the neck, the body shape of the dragon dragon is rapidly reduced at a speed visible to the naked eye, and the blink of an eye turns into a black dragon with only the little finger size. The long horns, as well as the limbs, are almost like the little black mud.

The small loach flew directly to the headless baby corpse, and was externalized in his right ankle to a muddy tattoo of only the little finger size, which was left on the ankle of the headless baby.

Immediately afterwards, I did not wait for Ye Xuan to make a sound inquiry. The headless baby corpse has once again turned into a gray mang, and it is close to the left front chest of Ye Xuan, which is turned into a headless corpse. Tattoos, no more movements.

At this time, the ninth floor of the immortal ancestral tower, in addition to Ye Xuan, has been invisible to a wild animal, whether it is the own camp or the enemy's wilderness, all dissipated, and again turned into a awning blue The energy of the ninth layer of the Qingmeng energy is almost thick enough to almost squeeze out the water.

This scene, the singularity of Ye Xuan's look, is a bit more aware of the magic of this immortal ancestral tower.

This tower is definitely a treasure from the ancient to the treasure. The tower has accumulated countless Qingmeng energy in the past few years, and some of it should be supplemented after the decomposition of the strong man of the immortal royal family who entered the tower trial.

These Qingmeng energy can be divided into two parts: the pure mysterious Qingmeng energy, the combination can be turned into a headless ancient creature, and even the existence of the ancient dragons such as the golden dragon can be derived, and the end is amazing. .

At this moment, Ye Xuan even gave birth to greed. He thought that if he could make this tower as his own, when he needed it, he would command this tower to evolve a golden dragon or a wild night fork, and rush out of the tower. Enemy, although it is consumable, it is estimated that it will be finished in one go, but before it is finished, its supernatural powers are absolutely enough to sweep everything.

It's a pity that this is just thinking about it. Ye Xuan also knows that this is absolutely impossible. If you don't say anything, it's the immortal royalty. If you really let him turn this immortal ancestral tower into nothing, then you must turn the sky!

Just squatting, surrounded by countless thick blue mists in the ninth layer of the void, there are already two small stocks with spirituality, rushed to Ye Xuan's body, directly into it, followed by his body Then the rumbling sound of the roar of the storm surged.

Without waiting for Ye Xuan to react, the familiar tone of the phagocytic system has quietly sounded in his mind.

"Hey, congratulations to the host, the realm of the realm! The current realm: the fifth stage of the star!"

Finally, the star is fifth-order!

Ye Xuan stunned, and then he shook his fists, and the surprise of his heart could not be described.

At least, this time the original intention of the immortal ancestral tower is still realized.

When he first entered the tower, his cultivation was the fifth order of the planet. Now, when the ninth layer passes, his cultivation is the realm, but he has reached the fifth stage of the star.

From the fourth realm to the fifth realm, the strength of a whole big realm has been successfully overcome in less than an hour. This matter, even if it has been used to rocket upgrades Ye Xuan, can not give birth to a feeling like in a dream.

However, this is obviously not over yet.

In the first time when the system prompt sound in his mind just fell, from the left chest of Ye Xuan, the baby corpse tattoo of the headless baby corpse suddenly came without warning. The feeling of heat in the stock market, Ye Xuan clearly felt that there is a sly but seemingly familiar energy, pouring into his body along the corpse lamp tattoo, the light car is familiar with the road, seems to be attracted by what power, directly to his Knowing the sea rushed over.

"Is this..."

Ye Xuan's heart jumped, and then immediately ecstasy, if it was as he guessed, this time it really made a big profit...

.....

At the same time, the immortal ancestral tower outside!

This time, Xuan Huangzi's time to enter the ninth floor of the immortal Zulong Tower was significantly longer.

In the previous six floors, each floor stayed no more than three minutes, but now, he spent more than five minutes on the ninth floor.

In the process, the entire quaint and immortal ancestral tower has always been a great man, which represents the ninth floor of the tower. It is still working hard, not dead, and has not succeeded. .

It was also at this time that the immortal ancestral tower, which had always been a great man, was suddenly dimmed, and the glory was restrained and unpretentious, and it was restored to its former appearance.

At this moment, all the people mentioned their hearts to the eyes of the blind.

Not waiting for Long Yushou and Neapolitan, Kong Bo and Xuanyuan Ziyang and other people to react, the five emperors have already slammed into laughter.

"Ha ha ha... finished, this kid is over!"

"Seeing no, the ninth-level portal channel did not appear, and he failed the tower!"

"According to the usual practice, a body will be sent out in a while, the old eighteen, the eighteenth brother of the emperor, you are so bad..."

Chapter 3132: Speculative

Ye Xuan's words made this huge old cabinet fall into silence again!

The immortal ancestral tower is just a foreign name, but in the secret of the immortal royal family, the name of this tower is the tower of the ancient heritage.

And the secret of the family, only the immortal emperor of each generation and the old man in the old cabinet are qualified to consult. Therefore, since Ye Xuan can tell the word of the ancient heritage tower, it is enough to prove that he is not imaginary. It is.

What's more, the situation at the time, all the old people were all secretly in the eyes, Ye Xuan really wants to go, turned and did not move two steps, the tower, then automatically flew over and got into his body.

If it was said that Ye Xuan was secretly controlled by the power of the gods or the spiritual power, this matter is absolutely beyond the presence of the royal family. It is necessary to know that the twelfth realm of the virtual world is in front of them. It.

Ye Xuan, such a cockroach, is not as good as it exists. It is really not qualified to engage in such small movements in front of them.

This is Ye Xuan's savvy. From beginning to end, all the words are true and false, and there is a virtual reality in the virtual world. However, the old people have never been to the seventh floor, and Ye Xuan is Some key places, but also to avoid heavy weights, use irrelevant facts that can make this group of old people undecided, to fight the ball, to cover up the truth they can not know...

In this way, studying everything that Ye Xuan said before and after is really seamless, and there is nothing wrong with it.

However, a group of old people are still unwilling, they believe that the ancient heritage tower is indeed the initiative to recognize the Lord, entered Ye Xuan's body, but suspected that he is in the tower, there are other creations and harvests.

At least, the ninth floor of his how to successfully pass, the talented Ye Xuan did not explain clearly.

The ninth floor is the last layer of this ancient heritage tower. It is said that there is something in this tower that they have not yet learned. The most likely thing is that this is the ninth floor.

Therefore, after some silence, finally, a young man once again made a sound.

"The seventh layer, with the power of your **** horn, under the sneak attack, it is not impossible to pass."

"As for the eighth floor, as you said, there is nothing wrong with it, you can barely say it..."

This is only because he has not been to the seventh and eighth floors, and then he will say such words. The horror of the seventh and eighth floors is weakened by Ye Xuan's intentional understatement. Otherwise, if it has really experienced They will never say that.

Without waiting for Ye Xuan to answer the words, the old man said again: "But the ninth floor?"

"According to your statement, the ninth floor is still a deserted starry sky, and this time it is a big decisive battle. It should be the re-emergence of the war that broke down in the ancient times before the endless years."

"The war of this scale is a battle of the world. The camps of both sides are in the doldrums. It is the supreme existence of the ancient and supreme level. It is feared that both sides will at least have a hundred, and even one of them will appear in the sky. ... the illusory things that the immortal ancestral tower has derived, but the power of one or two of them can still be there. Only by your cultivation, how can this layer be?"

This problem is extremely deadly. All the other old people in the old pavilion are concentrating on the attention. Ye Xuan is even more sneer, but for this matter, he has long been calculating, and he seems to be in a hurry and grin.

"This layer is really difficult. The two arrogances in the history of the royal family have stopped at this level. They are not at all embarrassed. It is absolutely impossible for me to pass my own skills."

"But it's a coincidence that I have my own person in the room. As the saying goes, it should be!"

"If this is not the case, I am afraid that this time it was transmitted from inside, it is also a dead body..."

As soon as I heard this, the old pavilion was on the spot.

"What should I do?"

"Own people?"

"What is the situation? Your kid is more and more outrageous, this is simply a slap..."

"No no no..."

Without waiting for the helpers, Ye Xuan put his hands on and off again, and raised his empty left arm. He grinned and said: "Have your ancestors forgot the bow of the sky that I just showed?"

"Hey, I am on the ninth floor, and both sides are playing. On the far left, a huge cyan sky has a slight seam, and there is nothing behind the right side."

"But the generals of the two camps exist... Oh, yes, it should be what you said about the ancient supreme, basically the same number, this one will be seen at a glance, the breath will be a shock."

"The clever thing is that there is a ugly ghost in the right camp, humanoid, two wings behind, and a horn on the top of the head. The long look is not mentioned, afraid to scare the ancestors."

"But people are ugly, though, I saw him but I met my loved ones. Is it Mao? Because the left arm of the family is raised, holding a gold giant bow exactly the same as the 陨天弓 I just showed, it is also a form of energy. It's a lot bigger."

"There is no doubt that this goods is the original owner of the sacred bow that I got. Most of the time is the old-fashioned fork of the Rauch."

"Don't look at the ugliness of the parents, but it will still be on the right side of the camp... No, there is a level of the ancient supreme level, and there is a golden dragon beside him, standing side by side with it."

"When I appeared, the ugly ghost was lifting his arm and pointing to the blue sky on the last side of the camp. Just as the emperor suddenly appeared, like a drop of vinegar in the hot pot, the coquetry was not there for a while. The momentum of the two is simply the firefly in the night..."

"Okay, say something right!"

"In short, all the eyes of the two camps, all of them came over to me. The ugly ghost initially thought that I was the gang of the **** on the left. Most of them thought that there was any conspiracy. The original was pointing at the big eyes of the blue. The golden giant bow pointed at me as soon as he moved."

"Scared me... this is my family, I really want to be killed by him, and I am not blind to death?"

"In an emergency, I also raised my left arm and pushed the sacred bow to the fullest. Then it was dumbfounded. At least I knew that I was a man, and the other camp was angry and angry. A gray dragon rushed toward me. come."

"My ugly big brother looked at the situation wrong. The golden giant bow was moved and moved directly to him. I didn't kill Bo Ren, but Buren died because of me. This war is naturally It counts on my head! You also know that no matter which layer, if you kill a big one, you will pass it successfully."

"So, I haven't waited for me to come back. All the birds and the ugly ghosts and the dragons are gone. A large piece of green light goes straight to my side. I suddenly have a small step... ..."

"Then the voice in my head appeared, scaring the Emperor a big jump!"

Quiet!

Dead silence!

After listening to Ye Xuan's words, dozens of royal family members in the old pavilion all understood.

For a long time, this kid is all the way to the dog, especially the last layer, it is simply speculative, and the old night fork helped him pass smoothly...

Actually, I am still very embarrassed to say that I don't kill Boren, but Buren is dying because of me... Is it true that people behind this sentence are generally remorseful words?

When he got to him, the words turned into a warfare... I have never seen such shameless!

As Ye Xuan guessed, the energy of the cockroach that emerged from the headless corpse lamp on his chest was from the headless baby corpse from the refining of it to the small loach attached to the ankle. The dragon is in the body of the deity, and it is stripped out.

Therefore, this energy entered the body of Ye Xuan at the first time, and was immediately attracted by the black gold dragon scales in his knowledge of the sea, and he automatically found the past.

When Ye Xuan reacted, this energy has already penetrated into the black gold dragon scale and merged into it.

In the next moment, Ye Xuan's mind once again sounded the familiar tone of the system.

"Hey, congratulations to the host, the level of blood dragon scales is improved! Current level: Variation growth level!"

"Hey, congratulations to the host, get the magic dragon blood can be: Current level: primary!"

With the prompting of these systems, the black gold dragon scales in Ye Xuan's sea are brighter and brighter. The black gold awns are interlaced, forming a mysterious pattern on the surface of the dragon scales, giving one a complex and complex atmosphere.

In addition, there are some incomprehensible smudges appearing in Ye Xuan's mind, and he will be fully realized in an instant. This is the most powerful blood and magic of the Dragon Dragon Supreme.

Previously, the Dragon Dragon Supreme used this kind of **** magical powers. In the blink of an eye, countless ancient creatures were imprisoned, and even the supreme existence of the ancient and supreme level was affected.

Unexpectedly, this kind of the strongest dragon dragon bloodline magical power, was actually stripped out of the body of the energy dragon through the headless baby corpse, although it may not be complete!

After all, this energy demon dragon is nothing but a derivative of the immortal ancestral tower. The devils and other ancient creatures created by it are basically capable of showing their own blood and magical powers, but they are absolutely impossible to be the essence of integrity. Otherwise, it is only this immortal ancestral tower, do you have to sweep the ancients?

But even so, even if it only has one of the essences of one or two, in Ye Xuan, it is also awful, but unfortunately, the weak version of the sinfulness that he has obtained so far is only the primary, the power that can be demonstrated. I am afraid that it will be weakened a bit. In a short period of time, it is not realistic to show the power that the energy dragon has shown before.

You have to wait until Ye Xuan's cultivation is uplifted, and then you can show it to you!

At this point, after entering the immortal ancestral tower, Ye Xuan finally gained a **** magical power.

In the third and sixth tiers, there was originally such an opportunity, but this kind of rewarding nature of the ancient bloodstains must be obtained from the ruined ancient creatures.

At the third level, all the ridiculous creatures smelled the scent of the demon dragon's illusion that appeared behind him, and they fled. They didn't dare to take the lead. The blood and the magic that they should have gotten naturally ruined.

In the sixth floor, although the wild animal that Ye Xuan smothered spurred a brilliance in the body, it should contain a **** magical power of the wild and old spirits. Although it is only a weakened version, the essence is estimated to be only one in two. Third, but it is better than nothing, but unfortunately, when the old creatures exploded in the body, together with the inheritance of the brilliance from the body, they were blown up and exploded.

The second chance was missed.

Nowadays, the headless baby corpse has captured the energy form of the Dragon Supreme in the style of the bandit head. The sinister blood that is separated from the body is the ninth layer of reward.

Although there is only the essence of the twenty-two, but for Ye Xuan, it is finally a consolation prize, and the unwillingness of the heart is also calmed down.

However, just as he thought that all of this would have ended since then, the ninth floor has been successfully passed, then the gateway to the exit should appear soon, and then you can carry your hands in a pretentious posture. With the eight-step step, out of this immortal ancestral tower in the eyes of the public, and enjoying the gaze of all the royal family members outside the tower and the unwilling complex eyes, the real surprise is finally coming late, suddenly coming!

"Hey? Not that the ninth layer passed smoothly, and like the previous third and sixth floors, there will also be a portal channel for the prince to leave?"

The mouth whispered softly in his mouth, and Ye Xuan shook his shoulders. His body shape swam like a star in the sky, looking around the gateway to the ninth floor.

In this way, nearly a minute passed, but he always had nothing to say, don't say the door, the window did not see one, and wanted to sneak out the window.

"Rely! Do you still want to leave this prince strong here?"

"Is it because the head of the bandit caught a dragon in his life and provoked the tower of the patriarch? Is this a rhythm?"

In the muttering, Ye Xuan couldn't help but shake his mind. Don't say, this possibility is not completely absent. If you really want that, you can't be completely trapped in the tower?

Just as he was depressed for this, thinking about the solution, it is really impossible to say a few whispers to the headless baby, and persuade it to put the dragon to the top, Ye Xuan's mind, the engulfing system The familiar tone, but it is extremely abrupt, suddenly rang.

"Hey, congratulations to the host, the ultimate trial of the tower through the ancients!"

"Hey, congratulations to the host, get the qualification to collect the ancient heritage tower, is it immediately charged?"

"Hey, congratulations to the host, get the request of the lord of the ancient heritage tower, is it passed? Tip: Once passed, you can take the opportunity to get the energy rumor of the ancient towers and improve your own cultivation!"

Upon listening to this discourse, Ye Xuan's whole person was dumbfounded on the spot, with a big open mouth and a stunned face, just like a thunder.

It turns out that the real name of this immortal ancestral tower is actually the tower of the ancient heritage.

This name is more literally true. After all, the tower clearly records the inheritance of all the wild and spiritual creatures. Although they are only the essence of the twenty-two, the esoteric, but like a **** encyclopedia, it is full of dazzling.

From this point of view, it is indeed a tower of blood and magical inheritance of the ancient and uninhabited, and not a private possession of the immortal royal family.

In this case, Ye Xuan will charge it, there is no psychological pressure.

At least, this tower has remained in the hands of the immortal royal family for many thousand years. It is their own incompetence. Even the nine floors can't pass. They didn't get the tower to collect the tower, so that they can confess their qualifications. Who is it?

It occupies the pit and does not pull, it is a huge waste of resources!

Then, Ye Xuan remembered the last system prompt tone. Once passed, there will be a certain chance to get the energy rumor of this tower. This is a good thing for Tianda. It has just risen nine small steps. This is not the case. Continue to rise the rhythm?

One thought of this, Ye Xuan did not hesitate, even if given a series of positive responses, the corners of the mouth are coming out quickly...

Chapter 3133: Climbing the stairs is so tired

"Hey, congratulations to the host, and the success of the Lord!"

"Hey, congratulations to the host, get the energy of the ancient towers!"

"Hey, congratulations to the host, the realm is elevated! The current realm: the sixth stage of the star!"

"Hey, congratulations to the host, the realm is elevated! The current realm: the seventh stage of the star!"

.....

"Hey, congratulations to the host, the realm is elevated! The current realm: the first step of the nebula!"

"Hey, the end of the energy reaction, is it immediately collected from the ancient heritage tower?"

As the system's prompt tone sounded again in Ye Xuan's mind, the ninth layer of the starry sky was so rich that the Qingmeng energy that dripped out of the water almost rushed toward Ye Xuan's body.

Then, the system prompts the realm of the promotion, and then one after another, do not want money to sound in his mind.

In this process, the sound of the roar of Ye Xuan is resounding, and the strength of cultivation has been skyrocketing. In the end, in a short period of time, five small steps have been raised again, directly from the fifth largest. The fifth stage of the star in the realm has reached the first order of today's nebula.

Ye Xuan has finally entered the sixth realm of the starry environment, the nebula!

At this point, the energy rumor of the first time that the ancient heritage tower recognized the Lord was finally over, and the phagocytic system in Ye Xuan's body again gave a new request tone, asking if the tower would be charged immediately.

Ye Xuan stunned a bit and could not help but hesitate.

Undoubtedly, once he gives an exact reply, the tower will immediately shrink, automatically enter his knowledge of the sea, and other treasures and its spiritual source core, hanging over the sea... ..

But in that case, those royalty members who are waiting outside the tower are not crazy!

Of course, they are crazy again, such a pagoda, is absolutely the existence of the ancient to the treasure level, the collection still has to be harvested.

But how to collect the law, but must pay attention to it.

At least, Ye Xuan can't just charge it directly, so that a fool can know that he is a ghost.

"Still wait for the emperor to go out and leave the tower for a certain distance, then secretly give orders to collect it."

"It is best to take advantage of the high winds of the moon and quietly touch it and accept it!"

"Although it still does not elude the suspicion of robbing the tower, at least on the surface, the prince has an excuse for arguing and innocent, and that's it."

After making up his mind, Ye Xuan even issued an order to the phagocytic system: "After a later charge, now, open the ninth-level portal channel, the prince will go out and say it!"

"In addition, after the emperor went out, the tower immediately closed, and anyone approached, don't bother, even if he is an immortal emperor... Now this tower is the private property of the emperor, can you open it to others?"

The phagocytic system immediately conveyed Ye Xuan's wishes to the ancient heritage tower. The tower has already recognized the Lord, but it has not yet been collected. All of it is based on Ye Xuan's

wishes. Of course, the authority of all powers is not It may be completely open to Ye Xuan now, which has gradually opened up gradually as his cultivation strength continues to grow.

Otherwise, Ye Xuan goes down with a sentence. The ancient towers of the ancients have immediately evolved a large number of ancient creatures, even the existence of the ancient level of the ancients. This ancient army has gone out of the tower, is it not directly sweeping the three universes?

In that case, the meaning of the existence of this tower is gone. To put it bluntly, it is actually a treasure that preserves the inheritance of the ancients, and it helps the individual to fight for hegemony!

However, since this tower has already recognized Ye Xuan as the main, according to his wishes, the opening of the ninth-level portal channel is still completely ok.

As a secluded flash of light flashes through the surface of a star in the distance, a portal channel similar to a space door appears, and Ye Xuanxin leads the gods, and the shoulders are swept away.

Then, after his body shape stepped out of the space door, the space door closed instantly, and the whole tower was passed down. In an instant, according to the instructions of Ye Xuan, he entered the dormant closed state and was no longer open to anyone. Even if he is an immortal emperor!

.....

At the same time, the ancients passed down the tower!

In the mouths of the five great emperors who have been gloating, the voices of the yin and yang are still not falling. The ninth floor of the tower of the immortal ancestral tower in the sight of the people has already revealed a portal channel similar to the space door.

This portal channel has only appeared twice in the past in the endless years, and the two that were transmitted were only a corpse.

Still, this can be regarded as a supreme glory.

Because among the members of the royal family of the tower, all of them chose to continue to exist in the seventh layer. If they fall in the seventh and eighth layers, they will not be able to transmit the corpse, and their wreckage and body. All the treasures will be decomposed by the power of the immortal ancestral tower, turning into the energy of the green, and accumulating in the tower, just like maintaining the normal operation of the tower.

Of course, in addition to this, the tower itself will also draw the aura of heaven and earth from the outside. The reason why the inside of the tower has such a majestic Qingmeng energy is the fruit of countless years.

At this moment, the portal passage on the ninth floor outside the tower has finally appeared for the third time in countless years. It is only transmitted from the inside. It is a lively Xuan prince, or a corpse with no breath, but it touched the hearts of all people. At this moment, even the immortal emperor and the national emperor II, who were far away from the distant temple of the National Museum, could not help but hang their hearts.

Breathing calmly, waiting for the moment when the result was revealed.

Only the five emperors, such as Long Xiang, are still stunned by gloating.

"Hey, I'm going to see the body of the old eighteen, it's a sad day..."

"The 18th brother, go all the way!"

"Don't pretend to be better than the next generation. Everything is done with the help of you. You just walked outside and took a dog and was taken up by the people. You are forgotten!"

"Oh, my old eighteen, you are so badly dead..."

Without waiting for the words of these guys to finish, Ye Xuan has stepped out of the ninth-level portal passage of the immortal ancestral tower, just to hear the voice of the five great emperors gloating.

When the white eye turned over, Ye Xuan even turned to the smashing past: "A few of you have licked the dog's eyes? The prince is alive, it is a little tired to climb the stairs of an hour. Who said that I am finished? You all The dead prince can't die..."

Quiet!

Dead silence!

All the people in this moment have widened their eyes, as if they had met a living ghost in the daytime, they looked at Ye Xuan with a blank face.

The words of the five great emperors have not finished yet. They have seen Ye Xuan appearing in the cold, and the spirits of the lively and leaping are better than them. They are not caught up in time, and the five people do not breathe in one breath, plus the unexpected scare. For the sake of it, I almost turned my eyes and fainted on the spot!

At the same moment, Naples grinned, Xuanyuan Ziyang hid his mouth and sneered, but the house of the ancestral government, Yin Long, was screaming, but he was laughing.

Chapter 3134: First person of the royal family

"Climbing the stairs? This kid really is the stairs that have climbed for half an hour..."

"Like we are like a fool, waiting to see him climb the stairs outside, only nine floors, actually spent nearly an hour, what is this slow? Deliberately, he is absolutely deliberate!"

"Let's lie down in the grass! It took a long time for the sect tower to be broken. The prince said, with the virtue of this kid, how can he live out from the ninth floor!"

"After people go in, they don't do anything at all, just climb the stairs!"

"You guys also try, the prince has already passed the tower, can't go anymore, otherwise this opportunity is absolutely impossible to miss, it is good and bad, anyway, from the ninth floor alive..."

.....

Looking at Ye Xuan really alive from the ninth floor of the immortal ancestral tower, the five emperors can't accept it, the whole brain is all chaotic at one time, even the ability to think is gone, stupid winter I believe that Ye Xuan's clothes are more than words.

These guys even turned directly and ordered the royals who had not yet passed the immortal ancestral tower behind them to let them take advantage of this opportunity to go to the tower.

After all, even if the tower is bad, but Ye Xuan is the only member of the royal family who is alive from the ninth floor, but it cannot be ignored. In any case, he is already the first deserved royal family. People.

However, if there is a large number of people who follow him immediately afterwards, and all of them have come alive from the ninth floor, then, Ye Xuan's unparalleled glory today is naturally diluted, and this is At this moment, the five emperors have instigated the real purpose of the members of the royal family behind them.

The guys obviously have some brains that are not enough. They also believe in Ye Xuan's words. For a time, the individual is just like a shot of chicken blood, hooking his shoulders, gangs, all facing the immortal ancestral tower. Rushed over the past.

Originally, when the distance to the front of the tower was three feet, there would be a green mang, and the figure wrapped around them disappeared into the tower. But at this moment, more than 20 people walked up and down the tower, jumping up and down. I quickly touched the tower and went to the tower. The unexpected green mangling was never seen.

I tried it for a while, and after a minute passed, Ye Xuan had fallen from the ninth floor. At this moment, I was laughing with Neapolitan and Xuanyuan Ziyang, Long Yaoshou and others. The blue mans in the tower still have no appear.....

"What is the situation? How can I not get in?"

"When it's over, this kid is really a scourge, our immortal ancestral tower has been broken by him..."

"This kid is lying, can you climb the stairs and climb the tower? He doesn't know what to do inside. He has benefited. He has completely cut off the backs of other ethnic groups. It is really bad!"

"This is not the end of the matter. It must be investigated. This tower is the foundation of my immortal royalty. Now it is destroyed in the hands of the old eighteen, and must not be tolerated!"

.....

At this time, the five emperors also reacted. When they thought that they had believed in the words of Ye Xuan, they climbed the stairs. Their faces suddenly became red and angry, and they became angry and screamed that the immortal ancestral tower was because of Ye Xuan. The change has not been used now, and all these responsibilities have to be attributed to Ye Xuan.

It's just that this discourse is ignored.

For the first time in history, the entire immortal royal family successfully passed the ninth floor of the immortal ancestral tower and walked alive. In this case, the immortal ancestral tower has undergone some changes that have not occurred before. Understandable.

Although the ancestral tower seems to be unusable at present, as long as the tower is still here, then everything is not a problem. If you look back to Ye Xuan, you can understand all the conditions of the last three layers. If you have any problems, you can find a solution.

What's more, the smooth passage of the ninth floor, even if there are any changes, can only be a good thing, can not be a bad thing, so the five great emperors screaming, the real high-level people present, no one to pay attention.

The power of the dozens of royal ancestors who had been circling outside the tower body had also retreated back and returned to the old pavilion.

They are not in a hurry, just look back and find a time to call Ye Xuan to understand the situation.

Even the immortal emperor and the national emperor II, who are in the distance of the National Teacher's Hall, do not know when they disappeared.

In addition to the five emperors, there are only a few uncles and some royal members.

But these guys, Ye Xuan did not intend to pay attention to it. At this time, he was talking with Long Yushou, Napoli and Xuanyuan Zizhen. As for the return of the sea and the wretched mosquito, they stood down beside the eye, though Without words, the joy of the face is uncontrollable, and the fool can see it at a glance.

"Ha ha ha..."

"Your boy is now the first person of the entire imperial dynasty royal family, that is, the two enchanting arrogances in history, compared with you, have been eclipsed! I thought you would come out from the sixth floor, I did not expect you to actually Fat and bold went to the seventh floor!"

"What I didn't expect was that your kid actually went out of the ninth floor smoothly, and the time was still so short. The old man almost believed the words of your stair climbing. He almost didn't have a brain..."

At this time, the ancestors of the ancestral palace, Yu Yinlong, had already photographed Ye Xuan's shoulders and smiled. The words in the mouth praised Ye Xuan, and they did not forget to smash the five emperors who were gnashing their teeth. .

These guys used to count on the use of the Zongren government to deal with Ye Xuan. This matter is not good for the identity, but it does not mean that he can be regarded as not having happened.

The five emperors were ridiculed by his mind, and they just returned to their original faces, and immediately reddened again. They looked at each other and resentful, but no one dared to scream.

Fu Yin of the Clan House, they dare not know how to offend, so there will be good fruit to eat.

"Let's say, how much benefit did your kid get this time? The first person in history, the only one who came alive from the ninth floor, said that there is no big advantage, and that I don't believe in killing Laozi!"

Seeing these guys dare to speak out, they are still honest. The dragons are after all the elders, and they haven't tangled too much before. The attention has once again turned to Ye Xuan's body, with a thick Curiosity, directly asked about his harvest.

"There is nothing. In addition to the three kinds of ancient blood and magical powers, it will rise to eighteen small steps, two big realms."

Ye Xuan deliberately said that he exaggerated a little, put on his hand, a pair of indifferent, understatement: "Three or six layers, each has a wild magical powers, in addition, in addition to the nine floors of each small step, the final ninth The layer also rewards nine small steps, which is a big realm. So counted, just added 18 small steps, two big realms, oh, this prince is now the strongman of the nebula, before But I haven't reached the stellar world... It's been the shortcoming of this prince!

Chapter 3135: Bandit bandit

"puff!"

"puff!"

Upon hearing this, the five emperors almost spurted blood on the spot!

Three kinds of wild blood and supernatural powers!

Plus the improvement of two big realms!

Such a benefit, spread on them, at least for hundreds of years of hard work, and this century has to be practiced daily, and may not even reach this level.

In the short time, Xuan Huangzi got such a terrifying advantage in just less than an hour. Actually, he was extremely reluctant and quite uncomfortable. People are really mad at people.

What is even more irritating is that this kid actually said that his previous cultivation was not in the stellar realm, but now he has only reached two big realms, and he has only arrived in the nebula.

In particular, the surface repair that he showed at the moment is really a first-time nebula, only the first order of the nebula!

This is a very special way to make all the people play as pigs, too angry!

If it is less than a stellar environment, it will pass through the ninth floor of the immortal ancestral tower. I fear that in the history of the immortal royalty, I do not know how many people have passed the ninth floor.

Although it is still a gift to be the key to this tower, but the strength is the foundation, the existence of a layer of a star nuclear, even if the potential of talent is against the sky, it is absolutely impossible!

This guy, clearly got the bargain and sold it, deliberately angry!

Oh, it's not something!

"Old 18, don't be arrogant, don't you climb back to the stairs in the immortal ancestral tower? How much is your ability to put your cow?"

"The play is yes, now this is the tower is broken. If it is not bad, the little 30 people just now, maybe all come out from the ninth floor!"

"You wait, the first name of the royal family, you are not worthy of possession, as long as the tower is good, we immediately send people into it..."

"Yes, you will never have one more than the ninth floor. You are just a good life, just catch up with the first one."

"call out!"

The five emperors who didn't wait for their indignations finished talking. Ye Xuan had just walked two steps, and suddenly there was a clear and unbroken sound.

Or because he walked out of the maximum range that the ancient heritage tower can accept, this time, Ye Xuan has not issued instructions to the devouring system, and the ancient towers behind him have been reduced by themselves and turned into A touch of blue light, drilled into the body of Ye Xuan, directly into the sea of knowledge, in the central area of the sea of knowledge, echoed with each side of the Lei Di.

Such a change, the moment caused an uproar on the spot.

This time, the dragons, the Napoli and the Xuanyuan Ziyan were all stupid.

The wretched mosquito stalk is to slap the eyes of the eyes, whispering with a voice that only he can hear: "The ancient heritage tower actually... recognize it as the main? Is it..."

After waiting for the wretched mosquitoes to finish the words, the emperors and the five great emperors who finally came back to the world finally got a panicked drink from the members of the royal family, and at the same time made it difficult for Ye Xuan.

Asked one by one, and directly surrounded Ye Xuan...

"Old 18, what do you want to do? Robbery you? You, you are... robbers, bandits, bastards, you!"

"Playing is a yes, isn't it a thing, go to your own home to rob, which rib is missing in your head?"

"Hurry up and return the immortal ancestral tower, your kid is very courageous, and even in the public, even the inheritance of the imperial royal family will dare to grab, and what you dare not do?"

"Old 18, this thing can not be a joke, quickly take out the Zulongta, put it back in place, this matter can be lightly lost. Otherwise you are the sinner of the entire royal family, this is the enemy of the entire royal family!"

"I have a grass! I have seen the fat, but the fat is like this. I have never heard of it..."

"This prince has already said it. This kid is a curse at all. Let him enter the tower and directly play the tower. Although he is honest, he finally gave up the tower. This kind of bane You must drive out the immortal star, and if the Imperial City is badly played by him, you will be in trouble..."

"Don't say, just because of the things he did, this is really not sensational!"

As the words of these guys ringed, the other royal members did not dare, but the five emperors and several emperors did not care about this. On the spot, they will reveal their breath, especially the great emperor and the other An uncle, the two are the supreme existence of the twelfth realm of the virtual world. At this time, the atmosphere is diffused, and the air machine directly locks Ye Xuan, a posture that may be hands-on at any time. In an instant, I was nervous and reached the extreme.

Long Xiaoshou's face was also black, but he did not dare to talk to Ye Xuan on this matter. He turned to him and looked at him. He said with a sigh of relief: "I said that your little brother is also fat, right? Robbery in the courtyard? Even if you passed the ninth floor, you know the charging method of this tower. Looking back, can you quietly touch the black hand in the middle of the night? I am still there. You are obviously called Laozi's embarrassment!"

In this case, almost did not put the five emperors and several emperors on the spot to spurt blood.

Ye Xuan is also listening to the white-eyed straight-forward. This so-called sect of the sect of the sect of the sect of the sect of the sect of the sect of the sect of the sect of the sect is true. Can't play with him!

"The playing is yes, the emperor, we know that you just played around, but now you have played, is it..."

The black lines of Neapolitan's heads all climbed out, and while raising their hands, they persuaded them on the side: "Would you like, or you can go back to the tower, otherwise this is really impossible." It's over."

After listening to this, Xuanyuan Zijing only knows a nod, and her eyes are staring at Ye Xuan. This time she was also scared. I used to think that Ye Xuan's courage was big enough, but this time, Ye Xuan once again succeeded in her impression, refreshing his daring degree.

Only empty, the corner of his mouth sneered with a sneer, and stood in a relaxed and incomparable circle. The five emperors and several emperors had shouted and rushed over to surround Ye Xuan, and did not dare to include him. .

Seeing his face as if he had no one to look at, he clearly did not take this matter to his heart, but sometimes sweeping into the depths of Ye Xuan's back, but there is a clear glimpse of the fine man, and it is obviously not light.

"I said that you are too unreasonable?"

Didn't wait for Naples to finish the words, and Ye Xuan, who was helpless in his heart, was forced to calm down. He turned his eyes indifferently: "Don't you have seen it before? The emperor turned and left, this broken tower I flew over and got into my body. Now I can't find it anywhere. If it becomes a stone stuck in the bladder, it will become a constipation. What should I do? I don't care, you have to find a way to get it out, 弑 It's not something, isn't it harmful to me?"

"Whoever provokes who is this is..."

As soon as I heard this, all the people around me, including the empty ones, all brewed, and almost fell to the ground...

Chapter 3136: Sue Court

All the people looked at Ye Xuan with a look at the monster!

Including Napoli and Xuanyuan Zijing, only the face of the sea and the wretched mosquitoes are indifferent, as if nothing happened.

Even the empty, obviously not a little calm, slightly frowning, I do not know what is sinking.

It's been this time, and there have been such serious incidents. Ye Xuan is still so poor. The degree of this nerve is really a bit unbearable.

"Hey, I said, are you all looking at this prince? Why do you like me, you can't find it, don't believe that you search for it..."

Ye Xuan's knowledge of the sea is shielded by spiritual power, and there is no fear of the search of human monks. Therefore, at this point, he is completely emboldened.

Just right, now that people have not left, let them search for the suspicions that can resolve themselves, at least on the table, can make him a little more arrogant and straightforward rhetoric.

Search all let you search, the results can not be found, who is it strange?

Seeing his seriousness, unlike the joke, the look of the face of the ancestral government's Fu Yinlong's face suddenly became strange. With the temptation, he asked Ye Xuan: "Bad boy, you... no joke?"

This kind of self-improvement of others into the body, the search for things is a big taboo, in case of entering the sea of knowledge, some trouble, it is a big thing.

In the case of the strength of the crushing trend, it is the rhythm of the moment!

But this concern, Ye Xuan does not care at all, he is sure that these guys, even the strength of the milk to make it out, can not enter his knowledge of the sea.

In this case, simply be generous once, let them search for enough, the more people try, the better for Ye Xuan!

Something back is something to say!

Seeing that he was so determined, a pair of bamboos in the chest, the five emperors and several emperors are also suspicious, but in such a good opportunity, they can not let go.

In the event that I found out the immortal ancestral tower from Ye Xuan's body, his previous discourse was purely sophistry. Once the matter was reached, it was the fame of Xuan's emperor. The delaminated skin can stop.

Therefore, when Ye Xuan's words were finished, several emperors immediately revealed their intentions. The five emperors were a little self-aware. They knew that their own cultivation was the strength. It is estimated that they are not as good as Ye Xuan. Nothing comes, so there is no buzz.

Long Hao defended his eyes and swept a few emperors in a circle. Finally, he stunned Yan Yexuan very deeply. Seeing that he didn't seem to be joking, he could only helplessly shake his head and smiled: "But, your kid is daring. Dare to do this, what else does Lao Tzu still dare? But you can rest assured that the capital is stunned here. This is the most dangerous thing. If someone dares to take the opportunity to give you a black hand, hey, then I will fight. The house of the patriarchal government did not do it, but he also wanted to kill him on the spot!"

This is clearly said to the five emperors such as Long Yao. Among the members of the royal family, the dragons are the highest and strongest, regardless of their status or strength. He speaks this discourse in public. It still has a certain deterrent.

It's just that the face is not given to a few emperors, and several emperors face each other face-to-face, and their faces are all gloomy and terrible, but no one has said anything.

At this time, it is unwise to stand up against Long Hao in this matter.

"Although the original Yin has always been impartial, this matter has long been widely recognized..."

The words of Long Yishou just started, and Ye Xuan, who was on the side, had already turned his eyes, and his face was unceremoniously posing a face that did not believe in the death of the Emperor.

Long Hao was almost shackled and stunned him very badly. This cleared his throat and said: "But this is not a trivial matter. Therefore, the capital Yin suggested that by me, and an uncle... Let's take a look at Long Yao. Let's do a search for the old eighteen. After all, this kind of thing is not a joke. If there is a bit of a scorpion, then the capital Yin Yi Duoxin, who tied it. It's not good to serve in the Clan House."

A group of emperors looked at each other and finally nodded.

When it comes to repairing strength, several of the emperors are originally the strongest dragons, and although they are competing with each other, in the case of the old emperor of Xuan, the other emperors still believe in the dragon. Oh.

Unless he is stupid, he will protect the old eighteen in this matter.

The matter was settled, and all the members of the royal family who were present did not have any objections.

Then, in front of all the members of the royal family, Long Hao shuns first, raises his hand and presses on the back vest of Ye Xuan, and the power of the gods pours in. After a sweep, in less than a minute, it is less than a minute. Has been retired.

Then I smiled bitterly: "Bad boy, this is really amazing now, actually can't find it, there is no knowledge of the sea, not to mention the bladder, it seems that you are not lying, this thing is afraid of that The problem of the immortal ancestral tower, if you want to pursue it, it can only be shot by the old monsters in the old pavilion."

In fact, his power of ignorance did not enter Ye Xuan's knowledge of the sea. Everything was taken out by Ye Xuan's knowledge of the sea as the last protection. The psychedelic effect of the spirit brand made him mistakenly think that he entered the sea of Ye Xuan.

What you see, everything is as usual!

Only on this point, it is also proved from one side that the power of the madness mosquito is absolutely terrifying, and even the dragon's supremacy of the twelfth realm of the virtual world is unconsciously left by him. Branding to lie, is this not enough to explain the problem?

Seeing the dragon

The five emperors are even more nervous.

Several emperors looked at each other and eventually refused. The great emperor dragon bite his teeth and stepped out. He arched his hand toward the dragon. "Fu Yin, I don't believe you, the key thing is important..."

"Okay, it doesn't have to be said to be nice, try to hurry..."

Long Hao swayed his hand and interrupted the dragon's words without any politeness.

The latter snorted and raised his hand to the back vest of Ye Xuan. The power of the gods was poured in.

The result is obviously no suspense. His strength is slightly worse than that of Long Yao. The latter can't find any traces, and he is even more impossible.

This time, after a full minute and a half, Long Hao was reluctantly retracted his right hand.

Just as he wanted to say something, from the distant direction of the old pavilion, suddenly there was a majestic voice that echoed the inner city of the immortal imperial city: "The old pavilion is old and the old ten Eight! Speed is coming, no mistakes!"

Kong Bo frowned, his face was gloomy...

Chapter 3137: Royal Tyrannosaurus

For Ye Xuan is not really the old eighteen, in the old pavilion, all the royal geeks, all know!

However, they are not sure whether Ye Xuan is the blood of other royals left by the immortal emperor. After all, this kind of thing is a private matter of the immortal emperor. Even if they are elderly in the family, they are inconvenient to ask.

Therefore, in the entire old pavilion, the matter of treating Ye Xuan was basically divided into two factions.

One group advocates that it must be thoroughly investigated to see the blood of the immortal royal family in Ye Xuan. How come it is, after all, only if he uses the name of the old eighteen, it is already very suspicious.

The other faction has great confidence in the blood heritage of the immortal royal family. They believe that the blood of the royal family cannot be transferred from the old eighteen to another by some other means.

In other words, the old people of this school believe that Ye Xuan is a species left by the immortal emperor. As the lord of the dynasty, when he was young, he tried to travel outside, who could not have any romantic affairs?

I am afraid that even the emperor himself will not be able to tell when Ye Xuan left the species!

Therefore, in the home of ugliness can not be exaggerated, in addition to protect the starting point of Xuan Huangzi's fame, this party's royal family, decided not to pursue this matter, after all, Xuan Huangzi now in the three universe's fame, for the entire royal family, is also A kind of wealth, it is really unwise for oneself to destroy it!

Although the two major factions of the old pavilion have different opinions on this matter, but the matter is so big after all, it is not enough to reach the point of dispute. Under normal circumstances, even if it is really necessary to summon Ye Xuan, most of them have to For a while.

But as he became the first in the history of the entire royal family to fight through the immortal ancestral tower, and the people who came out alive, the entire cabinet was shaken, and the matter was summoned to him, and it was immediately mentioned on the agenda. The two factions were surprisingly unanimous and summoned the old eighteen as soon as possible.

After all, even the old monsters in the old pavilion didn't go through the seventh floor. They wanted to know the scene after the seventh floor, and... how Ye Xuan did it, actually lived from the ninth floor. Out.

In fact, the dozens of gods that had been circling around the immortal ancestral towers had negotiated on this matter in a return to the old pavilion.

It is a pity that they have not waited for their deliberation to end, and there have been major events outside, and it is a truly earth-shattering event.

The front foot just left, the immortal ancestral tower is gone... This matter, almost shocked the entire old pavilion!

Therefore, the summons that might have been dragged on for a day or two, at this moment, is coming soon!

The old pavilion, although there are only a few dozen royals, but among the dozens of old people, even the youngest are the immortal emperors, the rest, even the ancestors!

Moreover, among the immortal royalty, it is not that the seniors are high enough to enter the old pavilion. There are also many ancestors in the royal family. They can only be inactive, fearing that even a younger generation's ancestors will You don't need to look at their faces.

In order to enter the old pavilion, in addition to the generations, it is more important to cultivate and contribute to the immortal royalty.

Seniors!

Repair it!

Contribution to the royal family!

Three conditions!

In fact, among the three conditions, the first generation is almost neglected. The elite members who qualify for admission to the Regal Court are basically the next two conditions as the standard, but nothing to enter. One exception, at least it must be the ancestors of the contemporary immortal emperor, so this one was added.

Among the immortal royalty, the status of the old pavilion is extremely detached. Although the entire immortal dynasty is an immortal emperor in the weekdays, it is really important to encounter the great events of the imperial or royal family. The immortal emperor's right to speak is not as good as an ordinary one. The old one!

For example, this Ye Xuan accidentally passed the nine-layer test of the immortal ancestral tower, and as the first person in the history of the royal family, he walked out of the immortal ancestral tower, and then the whole ancestral tower inexplicably and automatically flew into his body. Since then, I have disappeared... This kind of shaking the royal family has caused the dynasty and the ruling to talk about the big things, and the old emperor has stepped in, and the immortal emperor is not qualified to ask!

Regardless of the ruling made by the cabinet on the matter, the royal dynasty must comply with it and must not have any different voices.

Even if it is a question, it will not work.

This is also the empty root of listening to the old cabinet to summon Ye Xuan, immediately the face of the gloomy frowning.

As for the few uncles and the five emperors, they were stunned after a slap in the face. Of course, among the sly and the look, there is still a hint of envy.

Although it is not a good thing, it can be summoned by all the old people in the old club. This shows the weight of Ye Xuan from one side... At least, among them, no one has ever won such a privilege.

Including the big emperor and the dragon!

"The old pavilion has the rules of the old pavilion. The old slaves can go to them on their own, but since they are now calling you because of the public call, they are not allowed to go with them. The old slaves can go in with them, and the old guys don't dare. How about it, but I am afraid that this will adversely affect you!"

In the gloomy face, the empty tone calmly expressed his attitude, watching Ye Xuan said: "Go, go calmly, there are old slaves, the old guys don't dare to take you, even if there are punishments, they must be reasonable. There is evidence, otherwise, the old slaves smashed it all over the old pavilion, and this matter will not stop doing good work!"

In this case, even Ye Xuan was shocked.

Not to mention the Naples and Xuanyuan Ziyang on the side, they have had an endless reverie of the identity of the empty, but at this moment, after listening to this discourse, they found that all the bold speculations before were too conservative. Conservative.

Dare to put the old pavilion in the bottom of the sky, then what is the word of domineering side leakage can be described? It's just a Tyrannosaurus Rex, and the entire immortal royalty has never heard of this existence!

What is even more bizarre is that several emperors, princes, and even dragon guards, none of the members of the royal family, have no doubts about this. After listening to the words of the empty, they either blink or subconsciously Shrink the neck, it seems that there is no doubt about the content of the words spoken by Kong Bo.

Could it be that this old man really has the ability to give the emperor of the immortal dynasty?

Think of it this way, it is the wretched mosquito and insects can not help but look at him a few eyes, the bottom of the bottom clearly reveals a sense of deep thought.

"The empty words are heavy. Some old people just call me to talk about the heart and chat. How can it be so serious?"

After a long time, Ye Xuan was able to recover from the shock, his eyes looked at the complicated and complicated, and then he confessed to Naples and Xuanyuan Ziyan and others, and finally greeted Long Hao, and turned around. Then walk in the direction of the old club. Li did not pay attention to several emperors and emperors...

Chapter 3138: a group of satchels

The old pavilion is the fundamental place of the immortal royal family. Although the old monsters inside are said to be only a few dozen, they are all cultivated as horror. At least, the so-called twelfth realm of the void is absolutely not qualified. Entering it.

And it is not enough!

With Ye Xuan's status in the immortal royalty, I am not qualified to know what the minimum conditions for entering the old club are!

From the outside, the old pavilion is an ordinary pavilion, but after entering, it is found that the space inside is very wide, but Ye Xuan is not seen by one person, not only the ordinary waiters can not see, even even the dozens The legendary royal family is not seen.

In the empty hall of the pavilion, only a few dozen are extremely concealed, but they are distinctly powerful and powerful. They wandered around and sometimes swept through Ye Xuan's body, but all of them were just right, not taking the liberty. Enter Ye Xuan's body and conduct a probe.

Ye Xuan's body shape has just been fixed, and several male voices that have not heard of the age have already sounded, illusory, echoing in the vast hall space, I do not know from which direction.

"Whether you are old or not, since you can let you enter this old cabinet, then your royal family identity has been recognized, you can rest assured!"

"Because of being a royal family, there is a duty that should be fulfilled throughout the immortal royalty. The ancestral tower goes to a prior and does not mention it, telling you how you walked through the nine floors of the tower!"

"Especially after the seventh floor, until the ninth floor, where it passes, nothing happens, one by one..."

.....

After all, it is a family of old people, and Ye Xuan, such a younger generation, even if it has deliberately paid attention to the tone, but in the vagueness, it still reveals a slap in the face, as if overlooking the general!

Ye Xuan felt that he did not agree with it, but on the surface it did not show it. After a little sinking, he would slowly reflect on his heartfelt response.

At the same time, he is fully urging the black gold dragon scales in the brain, revealing the virtual shadow of the dragon in the back, and there is a pure imperial to the imperial family.

"One to three floors, I didn't see the half of the beasts. I said that it was a slang to climb the stairs all the way, but the fact is that it is more laborious than this. I have no use at all. All the beasts are not waiting for me to come. I have already heard the wind and fled, and then I am trained to be a small step, and finally I am wrapped up in a green mans to go down to the next level..."

For this, in fact, the old people have basically guessed, after all, they have also passed through one to three layers, and they all know that Ye Xuan's blood is returning to the ancestors, and it is still a matter of mutating back to the ancestors.

It is entirely possible to stun the ordinary savage beasts of one to three layers with the scent of this mutated temper.

Just what they didn't expect was Ye Xuan's next words.

Having said that, the old people who saw the dragons and the dragons did not see the end were all silent. Ye Xuan also knew that the pass was over, and the tone immediately became indignant: "The matter is painstaking and laborious, but It's mad at the third floor. It's said that there is a **** magical power as a reward. The third layer of the beast is also fleeing. The so-called **** magical gods are not seen, and the broken tower Broken, specifically bullying honest people!"

I heard the words say this. In the inner space of the pavilion, there are a few voices of light cough faintly coming. This is a few signs that the old man is too late to be prevented by his words, dare to face in the old pavilion. Dozens of people in the old family, but still talk like this, there is no one in history.

Ye Xuan said that it is a fact, and it is so wronged, it is really a speechless response!

Seeing that he seems to be indignant, but also wants to say something about this matter, in a certain direction, finally came a voice with a strange meaning: "Cough, this is the third floor, here, specific We can't grasp the details, it's the ancestral tower... oh, then four to six!"

"The four to six floors are finally landed. The three layers of beasts may be down to earth. How much is a bit of a bone..."

"But the fourth floor is still a strong baggage, and it is not scared. It is snarled by the magic dragon behind me, and screams with a tail and ran away!"

"The fifth and sixth floors are a little better, but they are all shoulder bags. The fierce beast on the fifth floor is not scared by the magic dragon, but I took out the arrow and it was like a tail dog. It's slipping away."

"The goods on the sixth floor were a bit more powerful, until I condensed the arrows and scared them away."

"In one sentence, the first six layers are all straw bags, all of which are inconspicuous. I haven't moved the real thing. Basically, all of them are scared away. That's all. The key is that the sixth layer also has rewards. Wonderful, after the result of scaring away, this thing has been ruined, you are angry, I am so angry that I am..."

This time, Ye Xuan said that he was half-truthful, but with his current nebula's first-order cultivation, he made a full effort to sacrifice the sacred bow and magical powers. It is really easy to do this. Therefore, he is full of enthusiasm and opens his mouth. Come, there is no slight pressure.

When it comes to this, the four weeks have already died, that is, the gods that have been sweeping away and sweeping away are also stagnant, showing a dull meaning.

Obviously, the dozens of old ladies who had never appeared, were all thundered by Ye Xuan's words.

The first six layers of the ridiculous beasts and the ridiculous creatures were all described by him as a sloppy straw bag...they only crossed the sixth floor, and they all did not dare to go to the seventh floor. What is it?

Although these words are irritating, they can't pick a little bit of trouble. When Ye Xuan passed the first six floors, there was basically no stop. It was almost the same as climbing stairs. It was clearly that he had never experienced any fighting rhythm. Isn't it just like what he said, scare the group of bags directly?

"Bow? What kind of treasure bow is so powerful? Just the arrow is condensed, can you scare the sixth layer of the ancient creatures?"

After a while of silence, finally a young man once again made a noise and asked the key.

For this, Ye Xuan originally did not intend to conceal, and he always showed some powerful power that could not be possessed by his existence. In comparison, he exposed his headless baby corpse and Lei Yuanzhu. More willing to expose the bow of the sky.

Anyway, the blood corners of the soul have been exposed, and it is not a big deal to add a bow.

At least, this is not his real card.

"In fact, it is not a treasure bow, but a kind of magical power. It was inadvertently passed down when I was in the magician's star field. Hey, this is the power. It is a big point, that is, you have to use one layer to get one layer. skin....."

During the speech, Ye Xuan has fully motivated the sacred bow and the left hand, a huge golden energy giant bow suddenly appeared, even the arrows are faintly condensed, revealing a Mo Kefeng Unmatched...

Chapter 3139: Purely rind

As soon as the bow appeared, a burst of exclamations came from all around...

"What? It is a wild magical power? And it can only show such a power with the repair of the nebula... Is it the **** power of the ancient supreme level?"

"Beyond the huge blood horn that he killed Longkui before, it is strong, and at least it is also the **** inheritance of the ancient age. What happened to this kid? Was it robbed of a mysterious heritage?"

"It's enough to scare off the 6th-level savage beasts. It's enough."

"Ha ha ha..."

"Interesting and interesting, my royal history is so straight through the first six layers, I am afraid that this kid is alone."

"What the old man cares most about now is where does his magic power come from, and in the magician's star field, is there a land of wilderness?"

.....

With the sound of these shocked words, Ye Xuan secretly sneered, then spread his hands and innocently: "The **** corner and the magical power of this scorpion bow are from the devil's group. Holy Land, the Holy Spirit got in the forbidden land."

"Before the Devil's Field, I participated in the selection of the new Son of the Black Mosquito, and the other nine people entered it. I got some of the creations. My harvest is the two magical powers. The blood horn seems to come from a one-horned Huge bloody, and the sacred bow of the sky, seems to be a ugly ghost called a wild night fork..."

"The Sanctuary is very similar to the four- to six-story environment. At least the atmosphere is exactly the same. It is plain and simple. It is all the dead bodies of the ancient creatures I saw in the tower..."

"Oh, yes, on the ninth floor, I saw a huge blue sky in the old starry sky. At that time, when the magic man's holy demon came out, there seemed to be a resurrection in those huge corpses. What happened? Anyway, the scene at that time was like a robbery."

"There was also a blue-eyed sky, and there were countless black thunder lightnings, killing a large number of beasts, including the resurrected wild beast, and was killed."

Hearing these secrets, the distant space around him clearly heard the sound of a cool air, and then silenced for a long time, only a few sighs sounded again.

"The devil's star field, and sure enough, there is also a wild cage, and the eyes of the heavens in that person... can be fully displayed, and the power is still there!"

"It seems that the legend about the devil has been confirmed. The whole devil is a vein, and it really is..."

"Oh, this kid is also a thrilling man. As a human race, he can enter the forbidden land of the devil. This is a trouble. If it is not his realm, there is no other explanation for this encounter. The old man is almost fast. I can't believe it."

"Hey? How did your kid sneak up in the demonic group for a long time, how did you fool them?"

At the end of the day, the guys finally got another person and asked them with a sigh.

This moment, the power of the wandering around the road is distinct and tight, and the faintness once again locks Ye Xuan's air. Obviously, if he can't give a satisfactory answer, he is afraid to be suspected. The spies of the people are fine.

Ye Xuan's heart was dark, but his face was not revealed. He took out the brain of a demon man directly and carelessly, and secretly issued a command to extract the magic energy to the phagocytic system. Then, he pinched his hand. The brain of the demon was displayed in public.

"Oh, this is the brain of the devil, also known as the core of the spirit, all the devils, after the killing, split the brain, there are!"

"I was inadvertently killing a few demons in the funeral star field. I opened my mind and got this thing. I also found that there seems to be energy in it. I wonder if I can absorb it like the source of the star nuclear..."

"A bit of gongs and drums, I finally succeeded. I didn't expect to take a few of them. I actually grew a sesame-like thing in my mind. It seems to be quite easy to use, so I hunted it there. After a while, I finally found out that I was inexplicable and had the spiritual power of the devil."

"This is a good thing. When it comes to the Devil's Star Field, isn't this brain core? How much is it? So I got into the Devil's Scout Fortress and climbed up step by step. Then I found a chance to put the Scout. The head of the fortress, Nebo Mountain, was killed. At that time, a lot of the brains of the devil could be harvested. Now there is still a lot in hand!"

During the speech, the spiritual power in the brain of this demon person has been completely extracted. Ye Xuan absorbed it on the spot, then turned his hand and grabbed it again, showing it in public...

I haven't said much here, let's not say Ye Xuan's on-the-spot demonstration, all around the hidden secrets are there, and I saw it really.

Even if there is no such ring, it is just that he takes the brain of the devil as a jelly bean. The body is a big one, and the fool can know that he is not a demon!

Around, I fell into silence again, this time, it is estimated that a bunch of old monsters are not light.

The fact that Xuan Huangzi entered the inside of the devil and achieved such an impressive record has always been a mystery. Now the mystery is untied in front of them. I didn't expect it to be so simple. All the old monsters have a kind of smile. a feeling of.

With this feeling, there was a silent voice of sighing around, and then an old monster opened again: "Oh, all these things are clear, now let's talk about the key, Zulong Tower What is the scene from the seventh to the ninth floor? Since the ninth layer of the heavenly giant eye has appeared, how can you pass it

with your strength? In addition, where did the ancestral tower go again? Don't say nothing to you, this thing, I can't Wait....."

"Don't mention this, it's okay. When I mention it, I will be angry. The broken tower is a splash of skin. It depends on me!"

Ye Xuan's face of indignation, then said: "At the beginning of the seventh floor, there is a starry sky, and it is still okay, only a fierce beast, I used the blood corner to send."

"At the end of the eighth floor, I'm doing it. I've flung one of them, plus the sneak attack of the scorpion bow, killing the other one."

Business Trading. The horoscope of the horror of the grenade is very bright. There are also a few strong tempo. It's easy to pass this layer. Someone in my mind actually talks, saying that through the ninth floor, in line with the collection conditions of the ancient heritage tower, is it immediately charged?"

"I don't understand how it happened, but I still basically understand it. What kind of wilderness inherits the tower, it should be the immortal ancestral tower, and changed its name... But the key is that I didn't dare to accept it. I really have to accept it. You can't play with me?"

"I didn't expect it to come out. It was all commonly ready to go. I had a voice in my mind. I said that I was convinced that the Lord succeeded. Then I broke my head and flew into my body. I didn't find it for a long time. I don't know if it's going to hide in the bladder. It's a hassle to become a stone!"

"It's really a splash, this broken tower is purely surnamed, and he was caught up..."

Chapter 3140: Speculative

Ye Xuan's words made this huge old cabinet fall into silence again!

The immortal ancestral tower is just a foreign name, but in the secret of the immortal royal family, the name of this tower is the tower of the ancient heritage.

And the secret of the family, only the immortal emperor of each generation and the old man in the old cabinet are qualified to consult. Therefore, since Ye Xuan can tell the word of the ancient heritage tower, it is enough to prove that he is not imaginary. It is.

What's more, the situation at the time, all the old people were all secretly in the eyes, Ye Xuan really wants to go, turned and did not move two steps, the tower, then automatically flew over and got into his body.

If it was said that Ye Xuan was secretly controlled by the power of the gods or the spiritual power, this matter is absolutely beyond the presence of the royal family. It is necessary to know that the twelfth realm of the virtual world is in front of them. It.

Ye Xuan, such a cockroach, is not as good as it exists. It is really not qualified to engage in such small movements in front of them.

This is Ye Xuan's savvy. From beginning to end, all the words are true and false, and there is a virtual reality in the virtual world. However, the old people have never been to the seventh floor, and Ye Xuan is Some key places, but also to avoid heavy weights, use irrelevant facts that can make this group of old people undecided, to fight the ball, to cover up the truth they can not know...

In this way, studying everything that Ye Xuan said before and after is really seamless, and there is nothing wrong with it.

However, a group of old people are still unwilling, they believe that the ancient heritage tower is indeed the initiative to recognize the Lord, entered Ye Xuan's body, but suspected that he is in the tower, there are other creations and harvests.

At least, the ninth floor of his how to successfully pass, the talented Ye Xuan did not explain clearly.

The ninth floor is the last layer of this ancient heritage tower. It is said that there is something in this tower that they have not yet learned. The most likely thing is that this is the ninth floor.

Therefore, after some silence, finally, a young man once again made a sound.

"The seventh layer, with the power of your **** horn, under the sneak attack, it is not impossible to pass."

"As for the eighth floor, as you said, there is nothing wrong with it, you can barely say it..."

This is only because he has not been to the seventh and eighth floors, and then he will say such words. The horror of the seventh and eighth floors is weakened by Ye Xuan's intentional understatement. Otherwise, if it has really experienced They will never say that.

Without waiting for Ye Xuan to answer the words, the old man said again: "But the ninth floor?"

"According to your statement, the ninth floor is still a deserted starry sky, and this time it is a big decisive battle. It should be the re-emergence of the war that broke down in the ancient times before the endless years."

"The war of this scale is a battle of the world. The camps of both sides are in the doldrums. It is the supreme existence of the ancient and supreme level. It is feared that both sides will at least have a hundred, and even one of them will appear in the sky. ... the illusory things that the immortal ancestral tower has derived, but the power of one or two of them can still be there. Only by your cultivation, how can this layer be?"

This problem is extremely deadly. All the other old people in the old pavilion are concentrating on the attention. Ye Xuan is even more sneer, but for this matter, he has long been calculating, and he seems to be in a hurry and grin.

"This layer is really difficult. The two arrogances in the history of the royal family have stopped at this level. They are not at all embarrassed. It is absolutely impossible for me to pass my own skills."

"But it's a coincidence that I have my own person in the room. As the saying goes, it should be!"

"If this is not the case, I am afraid that this time it was transmitted from inside, it is also a dead body..."

As soon as I heard this, the old pavilion was on the spot.

"What should I do?"

"Own people?"

"What is the situation? Your kid is more and more outrageous, this is simply a slap..."

"No no no..."

Without waiting for the helpers, Ye Xuan put his hands on and off again, and raised his empty left arm. He grinned and said: "Have your ancestors forgot the bow of the sky that I just showed?"

"Hey, I am on the ninth floor, and both sides are playing. On the far left, a huge cyan sky has a slight seam, and there is nothing behind the right side."

"But the generals of the two camps exist... Oh, yes, it should be what you said about the ancient supreme, basically the same number, this one will be seen at a glance, the breath will be a shock."

"The clever thing is that there is a ugly ghost in the right camp, humanoid, two wings behind, and a horn on the top of the head. The long look is not mentioned, afraid to scare the ancestors."

"But people are ugly, though, I saw him but I met my loved ones. Is it Mao? Because the left arm of the family is raised, holding a gold giant bow exactly the same as the 陨天弓 I just showed, it is also a form of energy. It's a lot bigger."

"There is no doubt that this goods is the original owner of the sacred bow that I got. Most of the time is the old-fashioned fork of the Rauch."

"Don't look at the ugliness of the parents, but it will still be on the right side of the camp... No, there is a level of the ancient supreme level, and there is a golden dragon beside him, standing side by side with it."

"When I appeared, the ugly ghost was lifting his arm and pointing to the blue sky on the last side of the camp. Just as the emperor suddenly appeared, like a drop of vinegar in the hot pot, the coquetry was not there for a while. The momentum of the two is simply the firefly in the night..."

"Okay, say something right!"

"In short, all the eyes of the two camps, all of them came over to me. The ugly ghost initially thought that I was the gang of the **** on the left. Most of them thought that there was any conspiracy. The original was pointing at the big eyes of the blue. The golden giant bow pointed at me as soon as he moved."

"Scared me... this is my family, I really want to be killed by him, and I am not blind to death?"

"In an emergency, I also raised my left arm and pushed the sacred bow to the fullest. Then it was dumbfounded. At least I knew that I was a man, and the other camp was angry and angry. A gray dragon rushed toward me. come."

"My ugly big brother looked at the situation wrong. The golden giant bow was moved and moved directly to him. I didn't kill Bo Ren, but Buren died because of me. This war is naturally It counts on my head! You also know that no matter which layer, if you kill a big one, you will pass it successfully."

"So, I haven't waited for me to come back. All the birds and the ugly ghosts and the dragons are gone. A large piece of green light goes straight to my side. I suddenly have a small step... ..."

"Then the voice in my head appeared, scaring the Emperor a big jump!"

Quiet!

Dead silence!

After listening to Ye Xuan's words, dozens of royal family members in the old pavilion all understood.

For a long time, this kid is all the way to the dog, especially the last layer, it is simply speculative, and the old night fork helped him pass smoothly...

Actually, I am still very embarrassed to say that I don't kill Boren, but Buren is dying because of me... Is it true that people behind this sentence are generally remorseful words?

When he got to him, the words turned into a warfare... I have never seen such shameless!
