Chapter 314: On the eve of the battle

This time, Ye Xuan was in the Wanshi Pavilion for half an hour. He has too many ways to make money, so he can only pick some things that are more common in materials forging.

One day later, he took the medicinal herbs to the Wanshi Pavilion again, and at the same time, sold some of the treasures that were exchanged. These things are also very popular with Yang Kai, but unfortunately these treasures have a redemption limit.

In the end, Ye Xuan only earned 100 million of the best spar, although not many, but also made him a step closer to the environment.

However, if you want to win the city of Guangjin City firmly, you must at least have a good day!

Therefore, he went to the Wanshi Pavilion one day before the battle of the city, this time, he wants to sell something different.

He found Yang Kai.

"Ye Xuan, what new things do you have this time?" Yang Kai asked.

"This time, it was the blood seed that I once got in a predecessor's Dongfu!" Ye Xuan took out a crystal clear seed and handed it over.

Blood seeds!

When these four words fell into the ears of Yang Kai, his body trembled.

In his realm, he is also able to condense what he has learned in his life into a blood seed, but the cost of doing so is to become an ordinary person.

"What are the effects of these blood seeds?" Yang Kai asked.

"This blood seed can enhance the sensibility of sword martial arts and the power of sword martial arts. This one is more advanced, it can increase 20%..." Ye Xuan handed a past .

Yang Kaiwen said, "This is not the seed of martial arts?"

"No, this is a special blood seed. Yangcheng may not have heard of it, but it does have such an effect." Ye Xuan nodded.

Yang Kai is silent.

This type of blood seed, he was first encountered, so it is inevitable that there is some doubt.

"If Yangcheng Lord does not believe, you can find someone to come, I can take this one-of-a-kind blood seed to do the experiment..." Ye Xuan said with pain.

"No, I will test it myself. You first talk about how much these two blood seeds want to sell?" Yang Kai suddenly said.

He is actually using a sword. If he can improve the power of two swords, he can greatly improve his strength.

"How much do you think Yangcheng Lord can sell?" Ye Xuan asked.

"If there is such an effect that you said, I think that this one has at least one hundred million pieces of spar, and this one is probably more than 300 million pieces of spar." Yang Xinzong estimated it.

Of course, this is the price on the Tianshui continent. If it is on the **** rock continent, this is probably not the case.

"Yes." Ye Xuan nodded directly.

400 million of the best spar, enough for him to break through to the heavens.

In fact, he does not want to sell the blood of the swordsman and the swordsman. After all, he can use it for other friends in the future.

"Okay, then I will try it out for myself."

Yang Kai went directly with Ye Xuan and went to the back of the Wanshi Pavilion. He swallowed the blood of the swordsman. Immediately, his eyes burst into two golden awns.

"call out!"

Yang opened a long sword and went to the sky.

The strong man in his realm has a deep understanding of his own martial arts, and the power of this scorpion has indeed increased by 20%.

"Good things!" Yang Kai exclaimed, turned his head and said: "Ye Xuan, if I swallow this one, will it..."

"No, it won't have any effect."

Ye Xuan shook his head. Everyone except him had only one kind of blood. Although the swordsman is an advanced version of the swordsman, it does not work.

"Okay, then I will keep it for the dust."

Yang Kai took another blood seed and took out 400 million pieces of spar, which was directly thrown to Ye Xuan.

When Ye Xuan put the big treasure chests together, the whole person's spirit was shocked. Now he can finally break through to the heavens.

"Ye Xuan, this blood seed, do you still have it?" Yang Kai said quickly.

"There are some." Ye Xuan nodded.

These blood seeds can be exchanged because Ye Xuan has merged himself.

To put it simply, he can't exchange the blood that has not been merged. Before he gave the seeds of Song Axe's blood, he actually integrated the blood of the axe, so he was successful.

In order to make a big scorpion, he sacrificed a **** column. You must know that he can't afford a blood extension bar in his current situation.

Yang Kaiwen said that he immediately took him to his residence in the Wanshi Pavilion.

"The blood of a beast, the blood of a leopard, the blood of a flower, the blood of a shooter..."

Ye Xuan told Yang Kai about the characteristics of those blood vessels. This time, he also wants to get blood.

When Yang Kai heard the characteristics of these blood vessels, he was already thinking in his heart that it would take a lot of the best spar to buy it.

However, he was thinking that he should buy all the money, no matter how much he spends, because if you sell it, you can definitely get it back, and you can make a big profit.

This time, they talked for two hours.

In the end they decided on a price, 10 billion best spar.

After the dispute, Yang Kai also directly took out some purple-black stones and said: "This is the condensed stone, the currency between the gods and the four powerful, one equivalent of 100 million best spar, here There are a hundred..."

Ye Xuan took this condensed stone and asked inexplicably: "Why is this kind of thing going to be a currency?"

"Because the gods of the four worlds need to use these condensed stones to cultivate, I will strengthen each of them, and my strength will be strengthened, and the strength will be improved accordingly." Yang Kai explained.

"Is it....."

Ye Xuan took a condensed stone, received the phagocytic space, and then swallowed it.

According to the upgraded Dan Yuan, he can conclude that this condensed stone is indeed equivalent to 100 million pieces of spar.

"Thank you for thanking Yang Chengzhu."

Ye Xuan collected the remaining ninety-nine condensed stones. Before he could get the condensed stone, he did not expect it to be the currency between the gods and the four powerful players. In this case, Song Cong After the ruling by the Song and the Song, they were not afraid of the card being formed in Tiandan.

"Right, are you going to participate in the battle for the city of Guangjin City tomorrow?" Yang Kai suddenly asked.

"Yes." Ye Xuan nodded.

"Then you should be better to be careful. As far as I know, the three old town owners of the three cities have applied for the battle of the city owners. Although they are restricted, they are not allowed to shoot outside, but in this battle for the city, They will not have restrictions. And there will be a lot of strong people in the sky..." Yang Kai reminded.

Ye Xuan thanked: "I will."

Three old townsmen in the upper three cities?

So what?

When he breaks through to the heavens, these people have to be slammed!

After Yang Kai saw Ye Xuan's expression of carelessness, he was very helpless. He still couldn't say something. This battle for the city owner is not as simple as imagined, because this place is not a general place.
