

Super D. S 315

Chapter 315: Island of death

After leaving the Wanshi Pavilion, Ye Xuan returned to his residence. The Song Dynasty and the Song ruling were still practicing martial arts, and he was shutting himself in the room.

He took out a condensed stone and began to swallow it.

"Devouring!"

"Hey, the host has broken through to the heavens!"

When he swallowed five condensed stones, he finally heard the system sound.

Tiandan, he finally reached!

"Cui Feng, I hope you don't meet me, otherwise you will die very badly!"

Ye Xuan muttered in his heart, he still remembers the tone of the previous few days, that Cui Feng said to the Song Dynasty.

As a person who must report, how can he not avenge?

"Hey!"

Just after his breakthrough, Megatron next to him climbed onto his shoulder and patted it.

"What do you want to eat?" Ye Xuan took out a piece of condensed stone.

Megatron nodded.

"This can't be for you, I want to swallow it myself, you will wait..."

Ye Xuan swallowed up the remaining condensed stone, and he had to count it down. The condensed stone he had swallowed had reached one hundred.

At this time his phagocytic crystallization is more than a million.

Then, he very generously exchanged 10,000 pieces of land to make the whole room piled up. When Megatron saw this, he immediately flew in the past and began to devour.

"Hey, a hundred condensed stones, still a little bit can break through to Tiandan, Xiaocheng, forget it, or wait for the city owner to fight for it."

Ye Xuan shook his head. He estimated that if there is no accident, it would not be a problem to win the Guangjin City.

.....

One day, it will soon pass.

When the next day arrived, everyone in Shenzhou City was assembled, and Ye Xuan was mixed in, then went to the main city of the main city.

When they came to the city's main government, they saw hundreds of people who were interested in the main city of Guangjin.

"A lot, at least the level of Tiandan, I did not expect that there are so many masters in Zhongzhou." Song Congjing could not help but feel a sentence.

"The masters of the seven major cities have come a lot, and there seem to be more than two hundred people." Song ruling also felt a pressure.

Zheng Shuohai is also helpless: "There are so many people, it seems that it will set off a storm, and I am afraid that the large group will be broken up and carried out in small groups."

"The group is going?" Ye Xuan turned his head.

"I remember once there was a battle for the city owners. At most, the three were a group and then assigned to other places. If this is the case, we have to be separated." Zheng Shuohai explained.

"Oh I got it."

Ye Xuan nodded, and the trio was so good, so he could guarantee that the Song Dynasty and the Song ruling were around.

At this time, Zheng Shuohai suddenly saw some people in the crowd, and immediately whispered: "In addition to Cui Feng of Yangling City, the other two old townsmen of the upper three cities have come, it is really troublesome."

Everyone followed his gaze. It was indeed the two old men who saw each other. They looked very ordinary, but their strength was a great achievement. It was only one step away from the four worlds.

I am afraid, if they are allowed to get some condensed Dan, they will be able to break through to the dilemma.

However, from the breakthrough of the gods to the four worlds of the gods, not many people know that they need to condense Dan, they think that it is a normal breakthrough.

Ye Xuan, who stood still, suddenly felt the same. He turned around and saw that Cui Feng of Yangling City was watching them. The old eyes were all hot.

If the people of Shenzhou City and Yangling City meet, the two sides will probably fight immediately.

Everyone waited here for a while, and some people came in and out. Finally, there was a cloud drifting in the sky, blocking the sun.

"Ah, look!"

Someone exclaimed.

Everyone looked up and found that it was not the clouds that blocked the sun, but a big guy.

"It is the blue moon bird of the deputy city owner who is a great man!"

Immediately someone recognized it.

Ye Xuan also looked up. Now, he does not envy those flying mounts, because he also has.

After eating the 10,000 pieces of top grades, Megatron has grown to the ground. If Ye Xuan needs it, he can directly train Megatron to the level of Tiandan.

However, there is a small rule in the battle for the city owner, and no Xuan beast can participate.

"Everyone, come back."

A middle-aged man on the blue moon bird shouted. During the speech, the blue moon bird also slowly descended.

"It is the deputy city owner!"

When some people recognized it, they immediately jumped on the back of the blue moon bird. In less than ten seconds, more than two hundred people jumped up.

Then, Yang Kai checked the identity of the people and then ordered the blue moon bird to take off.

"The deputy city owner, where are we going now?" someone asked curiously.

Yang Kai slowly replied: "Go to the sea!"

what?

When this was said, everyone on the back of the blue moon bird was surprised.

Is it not on land?

One day later, they understood that it was originally on an island near the Tianshui continent.

This island, no one has been there.

However, some people have heard of it.

"Deputy, deputy city owner, this should not be the island of death?" Someone asked slyly.

"What, the island of death?"

When I heard the name, many people suddenly exclaimed.

Ye Xuan also asked Zheng Shuo Haidao strangely: "Predecessors, what is the island of death?"

"This....."

Zheng Shuohai swallowed his mouth and said: "I thought that this island of death is just a legend. The reason why the island was killed by death is because there is a holy beast on this island."

"The Holy Beast?" Song cuts a glimpse. "Then we go up, aren't we going to die?"

"I am not very clear." Zheng Shuohai shook his head.

At this time, Yang Kai, who stood in the head of the blue moon bird, turned his head and said: "Yes, this is the island of death. In the center of the island, there is a force in the sea. If you withdraw, now It can be said that if you suddenly regret it, you have to swim back to Tianshui."

Everyone hesitated, but it was a holy beast, a holy beast that could easily tear everyone here into pieces.

However, they suddenly thought that Yang Kai, the deputy city owner, did not seem to be very ferocious, so he thought that the Bohai Sea dragon might be sleeping, as long as it didn't make too much noise, it would not alarm it.

Therefore, no one has withdrawn.

"Very good, since no one has quit, then you can group them yourself. Each group has a maximum of three people. After the points are over, they will come to draw lots. At that time, I will put you on the island in order." Yang Kai said slowly. .

The voice just fell, someone walked over, and immediately Yang opened a bag and asked him to draw a paper ball.
