

Super D. S 317

Chapter 317: Experience

Although the Song ruling was first entered into the natural environment, he exerted the top-level martial arts, plus the increase of the blood of the axe king. This attack is not something that ordinary people can take.

However, this middle-aged man is a small man of Tiandan, and is a master of refining, the strength is still above the Song ruling, the two fight for no win.

"Sure enough, it is weak in terms of physical fitness. However, I am not a vegetarian. He is thirty-six!"

The Song ruling flashed, and the axe that lifted the sun was a slash.

On the other side, a sneak attack by the Song Dynasty was directly to kill the other strongman who entered the Tiandan situation. At this time, she had already taken the opponent's Qiang Kun ring.

"Brother, I will help you."

Song Congjing clenched his sword and prepared to help.

"No, let me solve it myself!" Song replied.

"Bad boy, it's a big tone. The leap-level challenge came to me, look for death!" The middle-aged man was very angry when he saw his companion being killed. He directly turned anger and anger into power and began to fight back.

He and the Song ruling used large weapons, fighting for strength.

Although the ruling of the Song ruling was a bit worse, the realm was also lower than a level, but he had the 30% attack bonus of the Axe King, and the axe in his hand was the best in the top grade, so he barely made up. This gap.

"Ye Xuan, you said that brother and that person will respond?" Song cut can not help but ask.

"The big brother's overlord thirty-six hexagrams is considered to be the top of the martial arts at the prefecture level. There is a blood of the axe king. His feelings about this martial arts are extremely strong. I estimate that the person will support at most 18 斩..." Commented.

"What a joke!"

The middle-aged man heard this comment and immediately yelled.

But at this time, the 18th sect of the Song ruling fell.

"Hey!"

After a crisp sound, the middle-aged man was directly smashed into two halves by the 18-year-old tyrant. His upper-grade ware was cut off by hardship.

Both Ye Xuan and Song Dian Jing were stunned and cut off a top grade. How powerful is this power?

Ye Xuan has the blood of the beasts. If he uses the Eight-Year Sword, he can also cut off the top-grade equipment. However, the Song ruling did not have such a strong constitution.

"This tyrannical thirty-six scorpion is an explosive martial art, coupled with the axe of the sun, only to be able to kill a big green giant in Tiandan." Ye Xuan is also in the heart. language.

Anyway, the strength of the Song ruling is still pretty good.

"The brother is really powerful. If I am against him, I am afraid it is not so easy to win." Song Congjing praised.

"Oh, unfortunately, the physical condition can't keep up. People in Zhongzhou have heard that they have refining bodies, and they have all been in the middle of the year..." Song rude said helplessly, and took off the other party's Qiang Kun ring to Ye Xuan.

"Nothing, I have a great Dan here, and I can eat a power that can be doubled temporarily."

Ye Xuan smiled and took out a bottle of medicinal herbs and lost it.

The great Dan of the humanity, a five-point engulfing crystal. The condition of Didan is ten times, that is, fifty points phagocytosis. The powerful dan, which is useful for the strong people of Tiandan, is five hundred points of engulfing crystals.

This bottle of vigorously, devours 5,000 crystals.

However, Ye Xuan is now a local tyrant. There are a million phagocytic crystals for him to spend, and five thousand engulfing crystals, little meaning.

"I didn't expect this kind of good thing. However, it would be too boring to kill the other person. It can't be promoted. It can only be used as a medicinal life." Song decided to take over the great Dan, and lost his own ring.

"This is of course."

Ye Xuan smiled and took out the same bottle and handed it to the Song Dynasty.

In addition, he also exchanged the Shen Dan, who can make the Tiandan strong, instantly restore the Mandan, and give it to two people.

In the battle of Fang Cai, the Song ruling used half of the Dan Yuan. Now that he has recovered these medicines, he can let go.

Then, the three are continuing on their way to find the third group.

On the way, Ye Xuan also checked the two Qiankun Rings.

It turned out that the middle-aged man who was only two and a half ruled by the Song ruling was the head of a sect of Zhongzhou. His family was very expensive. After he swallowed it, there were about 20 million best spars, that is, two thousand swallowed crystals.

They ran for another time and met a third group, which is exactly two.

In order to improve himself, the Song ruling proposed not to attack, and to be hard-headed.

"Hey, it's the first group of people, hey, I just saw this little girl, I want to go to see you, I didn't expect that I came to the door. I see, hey, it's still a chick, good. Yes, come to an open door..."

A middle-aged man with a fascinating color, looking at the Song Dynasty that slowly came out.

Song ruling his face black, said: "Sister, this guy will be handed over to you!"

"Ok."

Song Congjing nodded, she would not be merciful to this kind of person who was so beautiful.

"Since you are playing the other side's idea, then let's take it!"

The voice of the middle-aged man who was obsessed with the color has just fallen, and the Song ruling is holding the axe and rushing up.

The battle lasted only one second.

Both of them were first entered into the Tiandan environment, and they could not resist the two brothers and sisters, and they were both spiked.

Although it is said that at least the participants in the battle for the city are strong in Tiandan, most of them are only entering the Tiandan environment. There are only more than 20 Tiandan, and three Tiandan Dacheng.

Those who first entered the Tiandan environment encountered the Song ruling, the Song dynasty two brothers and sisters, the end is to be spiked.

And Ye Xuan, like the big boss, followed the two bodyguards to collect things, a strong man who entered the world, the wealth ranged from about one million to five million. There is a lot of Xiaodan in Tiandan, almost all of them are above 10 million.

Within half an hour, Ye Xuan has won nearly 10,000 of the best spar.

However, after the Song ruling killed the fourth Tiandan Xiaocheng strong, suddenly there was a purple light rushing into the sky.

"This is, the city master order was found!"

Ye Xuan looked up and looked at one direction.

"The city master order was found, then everyone will gather in the past, this is a good opportunity." Song Congjing blinked his eyes and said.

"Well, we have to go, but for the time being, don't take the city masters, so as not to be the target of everyone, besieged."

Ye Xuan nodded.

At the moment, they are rushing toward the direction of purple light.

At that time, there will be a big chaos, and the blood of the Song ruling is already burning. With Ye Xuan, Song Cong will definitely have nothing to do, so he can also let go.

Purple sky, almost everyone saw it, and they all moved in the same direction as Ye Xuan.

During the hurry, Ye Xuan directly encountered several groups of people, and immediately killed them all.
