Chapter 3191: Refining war

At this point, Ye Xuan's deity and avatar are both in the realm of cultivation, and they both jump into the eighth realm of black hole, and they can all be regarded as true star power.

Among them, the cultivation of the devour of the avatar is the eighth perfection of the black hole in the eighth realm, and the deity is entered into this realm, which is the first step of the black hole.

However, if it really counts the comprehensive strength, the deity of the headless baby corpse and the thunder of the Emperor Yinzheng, once the fight is up, the lethality is far more than swallowing the avatar.

Even if there is a horrible devouring talent on the side of the devour, and the ancient towers, the **** corners of the dragons, the shadows of the dragons, and the voids, they still cannot shake the power of the deity.

Just a headless baby corpse, you can suppress everything!

After finishing this training for improvement, Ye Xuanping regained his excitement and quickly opened his eyes. At this moment, he saw the same devour of sitting in this big murderous emptiness with him. At this moment, he is also slightly stunned, just to look at him.

Obviously, during the time when his deity was promoted, the innate **** has completed the perfect fit with the innate treasure, and Ye Xuan's first avatar has been completely realized.

This is not a avatar in the ordinary sense. This body is not only the body of the body, but also the horrible engulfing talent. Even the gods in the avatar are intact, and they are also innate attributes.

This level of complete metaphysical and physical body treasures, and to what extent will be developed in the future, Ye Xuan can not imagine, his heart is full of expectations.

But after all, it is a matter of the future, but now there are still problems that need to be solved before the eyes.

The first is the system title exploration mission of this time, and the second is the problem of getting rid of the sixth house of the tenth camp.

Of course, if you want to get out of trouble here, for Ye Xuan, the simplest and most direct way is to complete this system title exploration task.

Once the exploration mission is completed, Ye Xuan will be able to leave in an instant. The sixth house belongs to the tribe of the human race. After all, it is still the third universe, and Ye Xuan has already died in the middle of the gap between the two major camps of the third universe. The star whirlpool is branded with a cosmic interstellar coordinate. As long as this mission is completed, he can activate the cosmic coordinate jumping ability at any time and leave directly.

From the sixth house of the tenth, it appears in the death star swirl.

In addition, with the completion of the exploration mission, Ye Xuan's system title will be promoted from the previous third-level interstellar explorer to the fourth-level interstellar pioneer.

To the interstellar pioneers, there will be jumps across the planes of the adjacent cosmic planes. Of course, there are two preconditions. One is that the two cosmic planes are connected by natural cosmic wormholes. Two cosmic planes adjacent to the large environment.

The second is that Ye Xuan has previously branded the next cosmic coordinates in the cosmic plane of the target.

These two conditions of the first universe of the magic man's star field in the life of the black hole are all in line.

Before the First Universe and the Third Universe, there was a natural cosmic wormhole in the depths of the funeral star, which really belonged to two adjacent cosmic planes.

Ye Xuan has successfully left a cosmic coordinate in the first universe, just inside the black hole of life.

That is to say, as long as this system exploration mission is successful and his system title is upgraded to the fourth-level interstellar pioneer, then Ye Xuan expands the cosmic plane coordinate jump, and even the destination can be selected more than one place.

In addition to the death star vortex between the two major forces in the third universe, even the direct jump across the cosmic plane can be carried out directly, jumping directly from the sixth house of the comprehension camp to the life of the first universe. Black hole goes...

It is a pity that there are more choices. After all, there are still preconditions. This time, the system title exploration task is not completed, and everything is just empty talk.

Although the matter is helpless, but in fact, Ye Xuan's heart is still somewhat expected.

For the inheritance of the sixth house of the tenth, even if the title of the system is not mentioned, his interest is absolutely insignificant.

It's rare to have a trip, you have to gain something!

Of course, this kind of inheritance is absolutely vital to a Zongmen power. Although the Sixth House of the Tenth is only one of the ten heavenly palaces of the Ten People's Palace of the Terran, but for such a long time, The tenth house of the tenth can stand up and stand in the queue of the Ten Heavenly Palaces of the comprehension camp. This in itself illustrates the problem.

The foundation is absolutely not shallow, and the so-called sixth house mysterious heritage, with the heel, knows that it must be extraordinary.

It's just that Huai Dongzi and Tianchenzi, or the sixth house's palace master Tianganzi old ghost, Ye Xuan's impression is not very good, even when these guys are in touch, they are all calculating him. The ugly ghost daughter, including Tian Qianzi, is the same in Ye Xuan's view.

In this case, if there is a chance to get the inheritance of the Sixth House of the Sixth House, and then refining and robbing, this kind of thing Ye Xuan is absolutely willing to do it, even if there is no such system title exploration task, he is the same. If you are willing to go, there is absolutely no psychological pressure.

But no pressure is one thing. Whether it can be done is another matter. The biggest problem that lies in front of us is that, now, Ye Xuan even the so-called tenth house of the sixth house is actually What is still a fog, I don't know it!

After a month... No, it's already twenty-five days later. Five days have passed since I'm in the air.

According to his push side, this time the so-called marriage, the old things of Tianganzi must be a big fuss, maybe the news has been spread out, this is a conspiracy, the other party's plan is to bundle the immortal dynasty of the Terran Science and Technology camp. On the battleship of the sixth house of the tenth, even if it is only on the surface, it can be maintained.

After all, the status of the Emperor of the Emperor nowadays is no small matter. If the marriage becomes a fact, the raw rice is cooked into cooked rice. Even if it is angry again in the immortal dynasty, it can only swallow its nose and swallow it.

It is related to the face of the royal family. Some things on the table cannot be ignored.

In a word, today's Ye Xuan, in the eyes of Tian Qianzi, is clearly a valuable use of baby 疙瘩, as long as Ye Xuan is trapped in the sixth house of the tenth, he has a way, a little bit of leaves The use value of Xuan is all extracted.

The latter did not fear him, even if it turned his face, it doesn't matter, if there is a head baby, who is afraid of it?

But now there is still no clueless system title exploration mission, but it has become a set of spells on the top of Ye Xuan's head, tightly bound him, and even stepping out of the tenth house of the sixth house of protection can not be a step. How can Xuan turn over the sky?

"No, this is too passive. After going out of this void, you must first explore the specific information of the things passed down in the sixth house! At the same time, the war will be merged again to enhance the defense ability..."

Chapter 3192: Undead glazed

Holding his fist tightly, Ye Xuan's deity glimmered in a slap in the face: "To this end, even if you directly tear the face, you will not hesitate, but before that, you have to make some preparations, try to improve the power of self-protection, after all, can not leave the guardian big array, this restriction is too headache!"

In the muttering, Ye Xuan waved his hand and took out the purple armor and the purple mech. He prepared to carry out the sixth fusion of the trenches...

The three basic treasures of Ye Xuan are now all starry epic.

Among them, the private battleship Dongxu shuttle has undergone six fusions, and the warfare demon star tears sword has undergone five fusions. The same is true of the battlefield, and the fusion is five times.

For these three basic treasures, Ye Xuan has always been very cautious about the subsequent integration issues. After all, whether they have been successfully combined five or six times, at least one thing is the same, that is, nowadays their quality has been It is an epic starry sky.

Further, it is the starry sky to the treasure!

Stars and treasures are not a joke, artificial things, whether it is the technological treasures of the technology camp, or the treasures of the comprehension camp or other federal ethnic groups, as long as it is artificial, it can basically reach the starry sky to the treasure level. Ye Xuan only knows one thing, that is the life fortress left by the pioneer of the Terran Technology.

In fact, it is the starry sky that is naturally bred from the heavens and the earth. He has not seen much, and Lei Di is one!

Therefore, for himself to take the initiative to take three pieces from the first to enter the starry sky environment and begin to follow his basic treasures to the star to the level of the treasure, Ye Xuan did not grasp.

It is still too weak now, and there are too few suitable resources in hand.

If it becomes more powerful in the future, you can choose to carry out the same type of heavy treasure or more materials, maybe it is possible!

Therefore, since these three basic treasures have been upgraded to the epic level of the stars after five or six fusions, Ye Xuan has never moved to the idea of subsequent integration.

If you want to speed, you can't reach it!

Now it is enough to use it for the time being. After all, the next step is the grade of the starry sky to the treasure level. It is not the same as a small one.

But nowadays, in the face of this helpless situation, on the one hand, in all likelihood, and in the sixth house, the sixth house is turned over. On the one hand, it is limited by the requirements of the system title task, and can't leave and can only stay in the sixth house. Within the scope of the Guardian.

In this case, Ye Xuan must do his utmost to raise his defensive power to the extreme.

The trench is the last layer of his defense!

If you get this purple fighter armor, Ye Xuan may not have the idea of giving it a try. The key is that in the death star vortex, the domain of the Tianji nationality is carrying a purple battle armor. The effect is really amazing.

In the face of the invisible tears that swallowed the power of the horror of the treasures, even the 100,000-meter-diameter starry fortress collapsed instantly. Even Ye Xuan's cave shuttle, so far away, almost did not hold, but this purple The armor is not damaged, it shows its quality.

If it weren't for the emptiness of the sky, the high-level squadron in the purple fighter plane would be shocked to death, fearing that this guy would not be able to solve it so easily.

This level of fighter armor, and not to mention its attack power, only in terms of the degree of solidity, it is enough for Ye Xuan to boldly try, and once again merged with the invincible glass.

Even if this time fails to upgrade its grade from the current starry epic level to the eye-catching starry sky to the treasure level, as long as the fusion is successful, the defensive properties of the glazed glazed scorpion are greatly improved, but it is definitely not ran.

And this is exactly the protection that Ye Xuan needs most now!

After thinking about flying in my mind, after considering all of this, Zhou Xuan's last hesitation in his heart disappeared in an instant.

At this moment, he has already swayed his heart. In any case, he must carry out the sixth system integration of the eternal glazed enamel, and do not seek to improve the quality.

Fortunately, the fusion system has never let him down. At this point, the three basic treasures have completed 16 integrations in total, and none of them failed. All of them have succeeded!

Thinking of this, Ye Xuan's last worry is also dissipated. He should have confidence in the engulfment system.

With this thought, even when he gave instructions to the body's phagocytic system to activate the affiliated fusion system immediately, he would not destroy the glass scorpion and the purple fighter armor that was ten-footed like a giant hill. The body is removed from the immortal world and thrown into the phagocytic system.

In the next moment, the familiar system prompts will ring in my mind!

"Hey, congratulations to the host, discovering the fusion of treasures! Invincible glass 铠: Starry epic, complete the fusion five times! Purple armor: Starry epic, quality is perfect! Is it immediately integrated?"

Ye Xuan's shackles are instantly illuminated.

Purple Warrior?

The name is quite good, revealing a **** momentum.

In addition, this battle machine produced by the Celestial family is actually an epic grade of the stars, which is even a surprise to Ye Xuan.

After all, this kind of fighter armor is a purely artificial treasure, and it is not a heavy treasure in the category of comprehension, but a heavy armor of the heavenly machine.

In the past, Ye Xuan's estimate of his ranks was only a legendary level of the stars. I didn't expect the result to be a big grade. It must have been that the various materials forging this armor were extremely rare. Well, the top of the celestial family, in the creation of this purple armor, must have spent a lot of effort.

Don't mention it, see if it can have an epic grade of the stars, and it is also a perfect quality. With this alone, this purple armor is absolutely qualified to merge with Ye Xuan's immortal glass. .

This is two star-level epic treasures that can be seen, and they belong to the same type of big category. Once they are integrated, they may be really pleasant.

In the thought of this, Ye Xuan's breathing was not rushed, and the first time he gave the system an instruction to immediately merge.

At the same time, he took a lot of star nuclear resources as a fusion energy source from the immortal world in the mind. In order to ensure the success of the fusion, this time, he even threw a nine-level nine color.

With such a large bloodshed, it is obviously impossible to have too many accidents in the end.

Waiting for a full three days, just as Ye Xuan couldn't hold back, the familiar system prompts in his mind finally sounded again.

"Hey, congratulations to the host, the integration is successful! Get the treasures of the glass! The grade: the starry sky to treasure! Quality: perfect..."

Does not destroy the glass armor?

The grade is actually the starry sky to treasure?

These thoughts flashed through my mind, and Ye Xuan's breath was suddenly heavy, surprise, and came too suddenly...

Chapter 3193: Life treasure

Previously, in the state of completing the fifth successful integration, Ye Xuan's name of the trench was not to ruin the glass!

But now, after joining the same level of the celestial science and technology treasures of the purple armor, and successfully completed the sixth fusion, the name of this trench has also been slightly changed.

The difference between the words, from the previous eternal glass enamel, has become the current glazed glass!

铠 and A, although the general meaning is similar, but if the latter is understood as the armor of the fighting machine, then the meaning is different.

Before that, it was only a defensive treasure, but now, after being called A, the armor of the fighter, this treasure, in addition to defense, even has the ability to attack.

After all, the purple armor used to carry out the combination is originally a combat mech, can launch small dead light cannons, these attributes, and now obviously have been inherited to Ye Xuan's immortal glass armor, so that it is reborn .

This point can only be seen from the fact that its grade has been upgraded from the previous starry epic level to the current starry sky to the treasure level.

In fact, even if you don't consider this, just look at the appearance of this immortal glass, you can also analyze its huge changes and attribute enhancement.

The previous eternal glass enamel was just a mighty trench, but now, after incorporating the technology treasure of the celestial family, the glazed armor of the scorpion, now the eternal glass glaze has become a war. The weird existence between the fighter and the fighter.

The whole body is purple, and the shape basically follows the mighty streamline style of the previous glazed enamel, but the volume has soared a lot, although it has not reached the horror of the original scorpion armor, but at the moment It stands in Ye Xuan's body, but still like a giant, up to three feet!

That is nearly ten meters!

The general fighters, including the sable armor, have access to the cabin and can be opened from the outside. Ye Xuan was so dry at the beginning. After the opening, the corpse of the top of the celestial family will be killed. come out.

This represents the original purple armor armor has the possibility of loss.

However, the successful completion of the sixth system integration of the glazed glass, but clearly does not have this problem.

Although its sixth fusion is a gem of science and technology, the scientific and technological elements occupy almost the entire proportion, but now the eternal glass glaze after the completion of the fusion, its attribute is a genus, but it is still a magic weapon, not a technology treasure. .

It does not have a so-called entrance to the cabin, and it cannot be opened from the outside. It is a magic weapon, and it has been refining it by Ye Xuan. Ye Xuan can activate it and only equip it outside the body. .

"Do not destroy the glass armor!"

After calming down the mood, Ye Xuan suddenly violently screamed, and his heart was stunned. The indestructible glazed armor of the body instantly turned into a purple rushing mang, and the body of Ye Xuan was shrouded in less than half.

A three-foot-high, full-body purple mans overflowing, the mighty armored combat body, suddenly appeared.

At this time, Ye Xuan was placed in the inner compartment of the glass glaze. The space was not too much, and it was a lot of points. It fits perfectly with his body, so that he has a kind of arm and fingers, no feeling of inconvenience. .

Defensive ability can't be tried at this time, but since it incorporates the elements of the fighter armor, this new ability to attack the glass armor can be tried. In this regard, Ye Xuan is still quite looking forward to it.

Subconsciously, Ye Xuan raised his right arm and stunned it directly.

"Hey!"

The low and fierce space trembles, and the front half of the huge right arm that he lifts is instantly surrounded by a black anti-matter energy ball of light around the diameter of Mi Xu.

Not waiting for Ye Xuan to react, with his right fist suddenly pinched, covering the entire right forearm, the diameter of the dead light cannon energy beam, it has been slammed out, blinking across the endless void, directly will A miniature star in the distance is wiped off, and the hair is not able to leave one!

This is clearly a miniature version of the fortress light cannon!

The death light cannon of the Star Fortress is 20,000 meters in diameter, and the dead light cannon that Ye Xuan's arms blasted was one meter in diameter.

Although the overall power is much smaller, the victory is incomparable, and the time of recharging is almost negligible. It is one of the rare killers.

The previous Ziyan armor also used this trick, but the diameter of the dead light gun energy light ball is only a few feet, now it can reach one meter, presumably because of the fusion with the immortal glass, the quality is improved. .

"Hey, warning! Warning! The glass index of energy is not extinguished, the current index: 16%!
Suggested recharge!"

Just as Ye Xuan was surprised, the familiar tone of the engulfing system in his mind suddenly sounded without warning. He stunned and then realized it. He suddenly shook his head and smiled. The mind had taken a large number of stars from the immortal world. The nuclear source was thrown directly into the system, allowing it to recharge the glass.

It seems that although this small dead light cannon is easy to use, its consumption is not huge. It is definitely a burning money. If it can be used later, it should be used as little as possible!

During the meditation, the glass glaze was not destroyed by Ye Xuan, and after he was indulged, he waved his hand to the cave!

Originally, there was a large number of magic slaves and squadrons and mosquitoes in the cave, but now it is empty. Before the death of the star, Ye Xuan will return to the sea and other magic slaves and soldiers will be transferred to the black mosquito. number.

In addition to this shuttle, the Black and Black Wind Fortress, as well as the Thunder Fortress, are now left in the Death Star, and Ye Xuan is not even surrounded by a 10,000-meter-diameter space fortress.

Considering that there may be various situations in the follow-up, in some cases, only a small private warship may not be enough to cope with it. After some indulgence, Ye Xuan decided to take advantage of this opportunity to use the life fortress Longye.

After the cavern of the cave, Ye Xuan's wave of hands will always be collected in the immortal world, and the dragon battle life battleship will be sacrificed.

When I first got this life fortress, it was only a small fortress with a diameter of five kilometers. But now, since I got the world's insect growth energy provided by Ye Xuan, the world's insect self-proliferation group that formed the whole fortress can grow up. Quickly, at this time, the Hoshino is sacrificed, and it is already a giant fortress of 20,000 meters in diameter!

Although there is still a certain gap with the small fortress of 50,000 meters in diameter, the whole world of insect-derived groups can grow from a diameter of 5,000 meters to a size of 20,000 meters in such a short period of time. This speed has already made Ye Xuan extremely Satisfied.

From the outside, the Longye Life Giant Fort is not much different from the general giant fortress, but its essence is completely different.

This is a life fortress with self-repairing ability. As long as the energy provided is sufficient, even in the middle of the battle, it can repair itself. The ability to continue the battle can be described as unparalleled. Today, Ye Xuan has no big fortress or star fortress. When necessary, you can only use this life giant castle...

Chapter 3194: Immortal purple root

After checking it out, I determined that all the attributes of the Hoshino Life Fortress were in the best condition. Ye Xuan's heart was slightly loose, and he once again re-entered it in the body.

Then he fell into a short silence!

Now that the avatar has been formed, and there is a strong cultivation of the eighth realm of the black hole, then, in the end, is it to use the deity, or to use the devouring to get out of this void to face all the follow-up?

On the surface, the cultivation of the swallowing avatar is indeed slightly stronger, and has reached the black hole's ninth-order great consummation, but it is true that the comprehensive combat power, swallowing the avatar is obviously not as good as the deity of the headless baby corpse.

In addition, the devour of the avatar has only just been promoted to a big realm, and it needs to stabilize the realm.

Even though the deity is the same, even the level of this breakthrough is more than the swallowing of the avatar, reaching twelve small steps, but this kind of promotion is the accumulation of the deity in the recent period, and then the fusion of the deity of the gods. It is only after the baptism has been realized that there is no such problem at all.

With this in mind, Ye Xuan finally made a decision, and waved his hand to encroach on the body of the deity, and then his body shape, his eyes have gone to the distance.

This piece of emptiness is a small independent space like a heavenly blessed land. It is similar to the ancient cage that is connected to the valley of the Forbidden City. Before this, in this huge killing, guarding a star node, manipulating The sixth house powers who killed the enemy, after Ye Xuan arrived, have all evacuated.

And closed the access channel, if not, after Ye Xuan solves everything, it is impossible to directly devote the deity from the swallowing body to the body.

In case of being clarified by the gods, there will be some trouble.

At this moment, everything in the whole scene of the emptiness of the murder is eliminated. According to what Tian Qianzi said before, Ye Xuan only needs to approach the void passage, even if he can leave.

"call out!"

A flash of flashing light, like the activation of a certain transmission array, Ye Xuan's body shape disappeared instantly, when it reappeared, it has already reached the top of the huge peak where the sixth gate of the sixth gate of the mountain gate is located.

The location is northerly, but it still falls within the scope of the sixth house of the Guardian.

Looking around, there is a palace in the sight. This is the core ancestral home of the Sixth House of the Tenth. Although it is located in the peak, the building is endless, sweeping away, and the buildings in the front three directions are at least one hundred miles. Far away, it is the north side of the peak behind it, and the pavilion overlooking it is also thirty or forty miles away. The edge is not covered in a thick fog, and there is no side.

Today, Ye Xuan has been given certain authority to walk freely in this area, but some areas must be unable to get involved. As the gods develop, they are free to sweep, and the sense of crisis reveals a strong sense of crisis. There are at least seven or eight places in the area.

Even though the whole peak of the huge peak is shrouded in the guardianship of the sixth house of the tenth, the seven or eight places are all equipped with independent prohibition guards. With the authority obtained by Ye Xuan, they must not be able to get involved.

Although he had a heart, he finally gave up after he was slightly indulged.

Now, the only goal he needs to explore in this group of peaks and palaces is the inheritance of the Sixth House of the Sixth House. Before starting the operation, you must have accurate information, such as the headless flies. Can only be a stunned snake.

"Right, enchanting!"

In thinking about it, Ye Xuan's brain flashed a flash of light in the middle of his mind.

I almost forgot it!

In the past, when the magical emperor was in the wild cages connected to the forbidden valley, Ye Xuan traced the source with a enchanting glimpse, and inadvertently saw the vision in the depths of the corpse, which was followed by the creation. Harvesting a large number of sacred crystals, and carrying the power of the faint congenital chaos contained in the infinite corpse, forging the body with the blood quenching of the golden dragon family, officially activated the blood of the dragon.

At the moment, in order to find the mysterious inheritance of the tenth house of the tenth, the enchanting glimpse of the source of the magical powers should also have miraculous effects.

At least it should be able to see the seven or eight independent guards of the second layer, and it is very likely that the true hidden place of the sixth house mysterious heritage will be found!

As soon as I read this, Ye Xuan did not hesitate, even when it activated the enchanting shackles like the invisible vertical eyes.

Under the double-closed micro-closed, an invisible gray man shot from the center of his eyebrows, with a mysterious atmosphere of mysterious, like an invisible searchlight lamppost, sweeping away in the distance.

A glimpse of the source of magic, open instantly!

After some scrutiny, the result was that Ye Xuan was disappointed.

These seven or eight places have the second layer of independent prohibition guarding, although there are mysterious, but according to his analysis, it should not be the mysterious heritage of the entire tenth house of the sixth.

However, although this review has no fruit, but Ye Xuan has keenly discovered a strange situation, that is, the peak of the giant peak under the entire guardian ancestor, the aura of the emptiness in the void, seems to have a certain There are inherent laws, all of which are concentrated in one place.

It is very concealed. If Ye Xuan opens up the enchanting glimpse of the source of the magical power, such a slow aura flow changes, afraid that it is simply impossible to detect.

What surprised him even more was that the direction in which the whole piece of giant peaks and the aura of the void gathered together was exactly the small courtyard of the harem that he had previously descended. To be precise, it was the purple bamboo forest on the edge of the small courtyard.

Ye Xuan fled into the place in a hurry. When he was caught off guard, he once slammed into a purple giant bamboo with a waist-thickness. At that time, he felt that this piece of Zizhulin was somewhat extraordinary, but he was uncertain and never thought about it. It seems that there is a difference in this place, and there must be hiddenness.

Under the heart, Ye Xuan once again gaze at the gaze, and the enchanting glimpse of the source of the magic power can be fully opened. Gradually, his vision through the bamboo forest, strangely deep into the ground, only a short slap, three fingers thickness The roots of the purple bamboo are captured, and then down, it is a thick black ink, boundless, seems to have spread beyond the edge of the entire peak.

And the dark shadow of this awning is not only boundless, buried deep in the depths of the giant peaks, its essence, even the fascinating glimpse of the source of the power of the power can not understand, so that Ye Xuan was surprised.

On the occasion of Ye Zheng, Ye Xuan's brain once again sounded a familiar system prompt: "Hey, congratulations to the host, and found the treasure of the Sixth House of the Sixth Palace: Immortal Purple Root! Attribute: Congenital Root! : Starry Treasure! Is it charged immediately?"

Hey?

Immortal purple root?

Congenital roots? A piece of bamboo?

Is this the mysterious heritage of the Sixth House of the Tenth? Is it so simple to bury it in the depths of a purple bamboo forest?

These thoughts flashed through my mind, and Ye Xuan's whole person was paralyzed on the spot. There was a feeling of unbelievable feeling. This is the inheritance treasure of the Sixth House of the Tenth. The star of the sky to the treasure level is so easy that he was Found it, it is too lucky, right?

Chapter 3195: One stone stirs up a thousand waves

Surprise came unexpectedly, but Ye Xuan did not faint. Therefore, even if he recovered the invisible exploration of the enchanting spirit, he would not sway and squat, not slow or slow, and went to the purple bamboo forest in the distance. .

Although the system gives a prompt to collect it immediately, it shows that it can be successfully collected now, but because of the distance, this place is the core ancestral home of the tenth house of the tenth, Ye Xuan really dare not take the liberty.

In addition, the huge black shadow under the lingering purple roots also made him feel uneasy. Before exploring the bottom of the roots, it is best not to act rashly. After all, there is only one chance. If it fails, it will be hopeless if you want to try again. .

In the midst of thinking, a vast expanse of pressure suddenly came out of nowhere, like a heavy waterfall, and unceremoniously shrouded Ye Xuan's body, and infiltrated him in the first time.

Under the change of color, before Ye Xuan's reaction, the corpse lamp tattoo on the left chest was steeply hot. Then, the force of this horrible power that was about to infiltrate into his body seemed to be suddenly shocked. Going out, nothing to gain.

"Hey? Even the deity of the deity can detect it. Can it be this engulfing treasure, and other mysteries?"

In the next moment, there was a whistling sound from the far side of the east side. The face of the face was slightly suspicious, and the celestial temperament took a step from the imaginary sky. The squats flashed and looked up and down: "Seven days It is over, and the progress is not slow. However, has it swallowed up so much energy, has it only raised a small step? Do you think this deity will believe?"

"The hidden cultivation is not weak. It seems that the deity has misunderstood. The power to detect the demented deity is just a certain secret law that you have mastered. It has nothing to do with this engulfing treasure!"

Then, see Ye Xuan's face is gloomy, extremely bad, and Tian Qianzi even laughed and laughed: "Now you and the deity are already on the rope, other discourses are not willing to say more, you are a smart person, I don't think I'm going to make mistakes. Otherwise, I'm afraid that those federalities that have been swallowed up by you as a peasant will not do well!"

"I need an aura-filled land to stabilize the realm, not to accompany it!"

Ye Xuan pretending to be resentful, flashing through the fine mans, and whispering back, he turned and went to Zizhulin.

Tianganzi laughed loudly: "Haha, it's just a solid state. The deity personally arranges a gathering for you! Don't forget that you and I are Weng, not an outsider..."

"The princes of Qiang Kun's hand-assembled gathers are not blessed, and if they step by step, it will be bad to become a spiritual array!"

Ye Xuantou did not return, the speed of the feet did not decrease, with an indignation should be a cry, cold and squatting away: "Do not worry, the piece of Zizhu Lin that the prince had been waiting for is good, at least safe! Hey! "

The voice was degraded, the back disappeared, and one head plunged into the rare purple bamboo forest.

"It should just be a coincidence. Even if it is not, the amount of this kid can't make any waves. Although the bamboo forest is not heavy, but the depths of the ground are... guardian, no harm!"

Twilight slightly shrank, Tianganzi hesitated for a short time, and finally relieved, did not think much, self-speaking in his body, stepping into the void, disappeared...

.....

The death of the Death Star has occurred for ten days.

Do not mention the celestial family from the first universe.

During these ten days, the Terran of the Third Universe was in turmoil, and even the situation in the entire Federation of the Vatican was uneasy and turbulent.

This time, the federal ethnic groups in the death star field have been greatly harvested, the various rare mineral deposits in the Death Star whirlpool and the phagocytic source crystal are like blowouts. All the fleets present have some gains, far more than the sum of the past hundred years.

But the last sudden accidents caused almost all the fleets to be wiped out.

Except for some star fortresses and small fortresses, the fortresses of thousands of other large and small warships were either transmitted or disappeared, or forced to sneak into the death star.

Including the immortal dynasty 嫡轩皇皇 刚刚 刚刚 刚刚 !!

It can be said that the loss is heavy and it is definitely a big event.

Afterwards, some surviving members of the federal nationalities have questioned the ten-day palace in the black city of the dead east, saying that this matter must be related to the black city, asking for a statement.

However, Huai Dongzi denied it, and even took a bite, and attributed the fall of the sixth house to the Emperor's triumphant army.

Subsequently, some of the top powers of the federal tribes who heard the news entered the Death Star whirlpool, and eventually got the bad news. All the warships and fortresses that rushed into the Death Stars because of looting, even including several Star Fortresses, and All the star powers, none of them are spared, all annihilated.

There is a certain ominousness in the death star whirlpool. All the warships have collapsed. The endless resources and the wreckage of the warships, including the corpses of all the star-studded powerhouses, have all been ruined and destroyed.

It is a pity that there is no trace of the jewels that can be specified. All this is related to the Black City.

Even so, the high-level members of the Second Universe, who heard the news, still joined together and put pressure on the Black House to ask for a statement.

Especially the extremely powerful second universe federations such as the Muling and the Yinling, they have lost one or two of the top four powers in the death zone. The phagocytic source crystals and a large number of rare minerals that have already arrived, but the bamboo and blue waters are empty, and they have never really been obtained. Naturally, they are extremely angry!

The top powers of these second universe federations gathered in the death star field, and at the same time forced the black scorpion city, and submitted an arbitration application to the federal headquarters, a two-pronged approach, a vow to stop, the entire third The vast starry sky of the universe is covered with a cloud, and the atmosphere is extremely tense.

In this case, because of the immortal dynasty that has remained silent because of the small loss of the old town fleet, it seems that there have been signs of this matter. The different voices within the Ten Heavenly Palace have not stopped, and both internal and external pressures Underneath, the tenth house of the tenth of the public can be described as stressful.

It was also at this time that the immortal dynasty had not officially stated that the different voices within the Ten Heavenly Palace had not yet formed a unity. The sixth house of the palace had suddenly thrown a blockbuster!

Twenty days later, the imperial dynasty of the imperial dynasty will be married to the celestial ancestral home of the sixth house, and the friendly allies will be invited to watch the ceremony!

A stone stirred up a thousand waves, and the entire third universe instantly exploded.

The immortal dynasty, which originally wanted to express its position, once again banned, and the different voices within the Ten Heavenly Palace disappeared. After all, the sixth house can be married with the immortal dynasty. This is already the human race, just the federation from the Second Universe. All ethnic groups, in the absence of real evidence, can not afford to see any waves!

This is the conspiracy of Tian Qianzi, but the high-ranking members of the federal tribes from the Second Universe did not buy it, and they expressed their willingness to visit the sixth house wedding banquet.

When asked about Xuan Huangzi, the details about the death star incident. At the beginning and end, slashing and smashing, severely punishing the culprit behind the scenes...

Chapter 3196: Big wedding ceremony

With the good news that Tianganzi married his loved one and Xuanhuangzi, the situation was immediately reversed. Although the federal people from the Second Universe still insisted on scrutinizing the truth, at least the different voices of the immortal dynasty and the Ten Heavenly Palace. It is gone.

Only this is enough to let the ten pressures of the Sixth House of the Sixth House be instantly invisible.

The general trend of the entire third universe is reversing, as the situation changes. All the original star-studded powers are discussing the accidental changes of the death star, but nowadays, the hottest topic has become the grand wedding ceremony of Xuan Huangzi!

Although Xuan Huangzi has been assigned to the death star field, he is a royal family, and his prestige is extraordinary. He suddenly passed the marriage message, but he did not pass the royal elders' permission. This matter has already committed a crime of rebellion.

In addition, the old cabinet has made clear statements about his distribution, and he has no choice but to step out of the death star field, and not to return to the emperor.

At the moment, he not only left the death star field, but even went to the power star field of the comprehension camp, even if it was because of an accident in the death star, such as a void crack, but this matter is ultimately necessary. The emperor's cabinet gave a clear statement.

Therefore, even if the royal family did not recognize the marriage, in the end, they still issued a decree, and the royal family of the old ancestral plaque representing the old city represented the royal family and went to the sixth house of the tenth.

This slap in the face, the emperor's five emperors in the emperor's house, immediately there are some laughter sounds of gloating.

"Old eighteen, old eighteen, this time to see how you end up, the ancestors of the ancestors clearly distinguish the trend of sin, afraid of a big wedding party, hahaha..."

"Unfortunately, you can't look at it in person. It must be wonderful!"

"This kid is really dead, and he has been sent to the death star field. He has not stopped. He just got rid of the ancestors of the ancestors, and then disregarded the dynasty face, making such things, it is almost too long. !"

"As a result, the myth of Xuan Huangzi is afraid to be completely destroyed, and it will become a typical example of the opposite. This is the end of the arrogant arrogance..."

In addition, after the marriage news was passed to the Emperor of Heaven in the Heavenly Empire, the backyard of the Emperor's top door, the Xuanyuan family, also sounded the angry roar of Xuanyuan's owner and Xuanyuan Ziqitou.

"Small king gossip is really not a good thing, how long has it been? Once again, it's a big radish!"

"Long Xuan, Miss Ben and you are not finished! Ah ah..."

"Oh, my brother-in-law is not easy. This is the trouble of a celebrity. The wind and the grass are moving a little bit, and it's so full of enthusiasm. No one except him..."

At the same time, Huai Dongzi also led the members of the Black City Department, and all the members evacuated the Death Star.

The fleets and powerhouses of other forces and ethnic groups that had been piled up in this star field have also withdrawn, because the place where the death star is supposed to belong to the phagocytic source crystal ore mine is already empty, and the entire death star field It is basically impossible to find the phagocytic source crystal, that is to say, this important resource that has not been disclosed for a while is dead in the death star field!

Originally a lively and extraordinary piece of death star, the blink of an eye will be deserted, but the triumphant city of Xuan Huangzi is still as it used to be!

Surprisingly, although Naples arrived in the sixth house of the marriage, the first time he wanted to lead the fleet to go to the repair camp to pick up Ye Xuan, but the matter was directly stopped by the wretched mosquito, reason However, he did not say it at all. However, since the latter was exposed to the strength, it is now clearly the guardian of the Arc de Triomphe. He does not agree, and Naples is useless again. In the end, it can only be lost...

For all of this, Ye Xuan did not know it, but since he entered the piece of Zizhulin, every other day, there are some strongest people in the sixth house of the tenth, and walk around the edge of the bamboo forest to observe the situation inside the forest. Occasionally there are some talks about the recent situation, and Ye Xuan listened to a few ears, and the general situation has been mastered.

In the past few days, Ye Xuan has been sitting cross-legged in the Zizhulin. It seems to be practicing and consolidating, but in fact it has been secretly exploring the immortal purple roots in the depths of the underground, and the huge canopy in the lower area. Black shadow.

Although he has never been able to detect the details of the huge black shadow of the canopy, if he only collects the immortal purple root, he has more than 80% of the grasp.

As he was about to start, Ye Xuan suddenly changed his mind!

Since this time the so-called wedding banquet is so lively, and the guests from all directions come together, then it will make a big noise, and the old ghosts of Tianganzi will be pitted once, otherwise the evil spirits will be hard to eliminate!

After the decision, Ye Xuan took care of no one, quietly sacrificed the devour of the avatar, and after all the breath with the perfect mystery of perfect shock, he ordered to quietly squat down the ground, but did not go deep, so as not to stun the snake.

He always felt that the huge mysterious shadow of the awning in the depths of the earth was a little weird, and the feeling of uneasiness has been lingering in my heart!

.....

Time passes by, blinks, and the wedding is near.

Three days ago, a large number of disciples in the sixth house of the Tenth House had begun a busy arrangement, and the whole sixth piece of the peak of the sixth ancestral temple was decorated with joy.

Looking around, a grand red makeup!

Two days before the wedding, Zhao Lingyi has ended this retreat. The veil covers the face, and under the arches of more than a dozen prostitutes behind him, he came to the purple forest outside Ye Xuan's cultivation, and called a few brothers. There was a sense of excitement and joy in the tone, and even the words were a little trembled.

Ye Xuan was scared to shrink his neck. Not only did he dare not scream, but he also avoided a little bit from the depths of the bamboo forest. The female ugly ghosts were covered with veil, so that they were half-faced and half-faced. The effect of deafness must be more extraordinary, and the white hair sweat on his back is vaguely erected.

In the end, after a group of gimmicks called for no results, they sneered at each other and turned away. They thought that in order to prepare for the wedding ceremony two days later, from this day, a group of hoes would not enter the small courtyard again, but let Ye Xuan fall. Clean.

On the evening of the next day, Tianganzi sent a set of red wedding clothes and left a message: tomorrow is a big wedding ceremony. When the guests come, the bridegroom must arrive early to meet the VIPs. In the future, since There are palace disciples coming to meet!

Ye Xuan sneered, leaving a big red dress, did not say anything!

It was night, and the concierges of the other nine heavenly palaces arrived one after another. Among them, there was even a palace owner who had a personal relationship with Tian Qianzi. The rest were all represented by the deputy palace master, and they were properly arranged by Tianganzi.

As for the epoch-making dynasty of the immortal dynasty of the science and technology camp, and the top powerhouses from the major federal groups of the Second Universe, they will surely come to the next day when they will receive the next day's wedding banquet.

Anyone knows well, tomorrow's wedding ceremony, I am afraid that there will be some storms...

Chapter 3197: Celebrating hob meat

Early the next morning, Ye Xuan got up and left the Zizhulin. As for the devour of the avatar, he stayed and took all the breath and crouched down the bamboo forest.

The big red greet him did not change at all, and it immediately became a powder. After the bamboo forest, he casually walked around in a quiet place, as if the bustling scene of this huge peak was not with him. relationship!

At this time, the inside and outside of the main hall of the Sixth Palace, located in the central area of the Kyoho, has already been a lively scene. The Grand Plaza outside the temple is crowded. Although there are not many people in the temple, they are all big. The top giants of power and ethnic groups, the lineup is quite luxurious!

Tianganzi smiled and sat down in the middle of the main hall. The left row was the VIP of the remaining nine palaces, at least the main level of the vice-president.

The row on the right is from the major forces and ethnic groups outside the Ten Heavenly Palace. The royal family of the immortal dynasty sits on the top of the Tianganzi, followed by the Yin and the Muling. There are more than a dozen high-level representatives of the second cosmic federal ethnic group.

This is still not the result of the many entourage who stand behind them. Otherwise, there are more people, all of them are flat-faced, and their looks are not good.

Even the dragon scorpion pattern, which belongs to the human race with the Ten Heavenly Palace, is also black with a face. He is waiting for Ye Xuan to appear, and will be questioned on the spot.

The other second cosmic federations of the various nationalities are also the same mind. Ye Xuan is the only survivor among all the strong people who entered the death star, and they must ask Ye Xuan about the secret and inner feelings. Inquiry.

However, the latter has not yet appeared, and the heart is re-energized. They can only force them to squat. Otherwise, there is no real evidence. If they can't find the traces of the beads, they will be rude, and the truth will be untenable!

"Tianganzidaoyou, Longxuan is the protagonist today. Why is it that he has not seen his appearance? Is there some scornful guest?"

It seems that I was waiting for some impatience. A high-ranking head of a Tauren snorted and suddenly snorted and began to open the door and asked the Emperor Xuan.

Tian Qianzi frowned frowningly. He had already sent people to look for it again. He should have found it. I don't know why I have not seen it until now.

Just at this time, Ye Xuan, a white robe, walked like a leisurely family, and walked in from the main entrance of the main hall of the sixth house. He was dressed in plain white clothes, and he could not see that he was the rhythm of today's wedding party. The look on his face is also extremely meager, without any festive meaning.

Tianganzi twirled his eyebrows again, and the fire of his heart was already faintly fascinated. This kid seems to be a thorn, a little tidy. Deliberately not wearing a gown, this is clearly opposed to him, wanting to give him embarrassed meaning.

"Old 18, you are so bold!"

Not waiting for the sound of the heavens, the dragon's plaque sitting on the right side of the right side has already blinked, and suddenly screamed: "As an immortal royal family, who allows you to personally marry someone? You Is there a cabinet in the eyes? Hey, just sent to the death star field, turned and immediately vacantly distributed, you are going to renege the royal family?"

This question can be described as extremely severe. The mouth is the sin of the traitor. The dragon scorpion pattern is difficult at this moment. In addition to deliberately embarrassing the heavens, there are some mixed grievances with Ye Xuan.

Sitting in the top of the top of the more than a dozen of the second universe of the various high-level people of the various nationalities face each other, it is not anxious, cold eyes temporarily on the wall.

On the left, the high-level members of the Tianzheng camps, like the Tianganzi, sank their faces with a slap in the face, and they belonged to the Terran. The dragon plaques represent the immortal dynasty. At this moment, it is so difficult. The meaning of the dynasty, this is a bit not to give face.

Among them, the tenth house of the Seventh Palace, which was handed over to Tianqianzi, was full of sublimation, and the cold voice in the nose was also instantly transmitted.

It is a pity that Ye Xuan, who has already waited for his cold words, has stepped into the main hall, and has already snorted in advance, and once he turned his eyes, he smashed the dragon to the dragon: "You are not dead, really It's a dog's mouth that can't spit out ivory!"

"Which eyes do you see that the emperor and the person are intimate?"

"Who is telling you that this prince is deliberately leaving the Death Star?"

"Do you have a brain that has been smashed by the stone in the pit? On that day, so many people saw that the emperor had no choice but to avoid the death star, and then appeared in the sixth house of the tenth. Can you not see the cat? Is it true that the Emperor is willing to come and not? If it is not caught in a trap, how can it be transmitted to this?"

"If you are a royal family, you will see that the younger generations are being held under house arrest by others. They don't think about saving. They open their mouths and put their own people on the table. They say that you are still boasting. It is clearly a cartilage head..."

"Hey..."

Without waiting for Ye Xuan to finish the words, the hall has already made a big hit and thoroughly fried the pot.

The meaning of his words is already very obvious. The so-called marriage is forced to be rooted, not at all!

What's more, this discourse also revealed that the reason why Ye Xuan appeared in the sixth house of the tenth is actually transmitted directly from the death star.

But within the ruin of the Death Star, the high-ranking members of the second universe of the various communities in the throne have already thoroughly explored it, and they have not seen the so-called transmission array. So it seems that it is a one-time one-way transmission. Array method.

In the death star whirlpool, there is such a transmission array inexplicably, and the target of the transmission is still the sixth house of the tenth. Even if it is not an ironclad certificate, it can at least be listed as a major doubt, and a group of high-ranking members of the federal community from the second universe suddenly The spirit is great.

Finally found solid evidence!

For a time, the body of the guys rushed into the air, and the middle of the squad was even more sturdy, and Qi Qi turned to the Tianganzi who sat down above the main hall and looked away.

The latter, at this moment, is like a Thunder, a shocked and directly opened his mouth, squinting at the face of the face of the innocent look of Ye Xuan, the whole brain banged and completely messed up.

This kid... Is it not afraid of death?

How dare you open the door to the public? Didn't you forget the smashing thing in the void? Is it clear that he personally swept his tail?

"What are you? You won't be dumbfounded? The Emperor hasn't finished yet!"

Turning to the first day, Ye Xuan once again grinned, the words are not surprisingly endless, raising his hand and pointing him to the road: "This old thief is not a thing, want to use this prince to resolve the pressure, and worried that the prince can not see His ugly daughter finally came to the yin and directly threw the prince into the void of the north side of the peak. There were thousands of warships, fortresses and fortresses, and they were all destroyed by them. I have left a few small fish and shrimps to call the Emperor to go to the end, saying what is the name of the name, really the Emperor is scared?"

"boom....."

When the words were exported, the original frying pan was in the main hall.

This time, in addition to Tianganzi and the top ten of the Ten Heavenly Palaces, even the top of the federal tribes on the right side of the main hall, including the dragon plaque, looked at Ye Xuan's eyes differently.

There is a deep sense of strangeness.

This kid actually came to this trick, it is simply... a hob meat!

Chapter 3198: Gas dead

"Hey..."

As Ye Xuan threw out a blockbuster in succession, the entire sixth hall of the main hall lobby, instantly burst the pot.

Everything came too suddenly, not to mention the Tianganzi and several other high-level temples. Even the high-level people from the Second Universe and the royal family's ancestral plaques representing the immortal dynasty were completely arrested. Hey, the brain is screaming, and for a while, I haven't responded to God.

Just at this time, Zhao Lingyi, who was wearing a red makeup and covered with red yarn, was also under the arch of a dozen prostitutes who were behind her. She walked over from the main hall and just stepped into the hall, just hearing the words of Ye Xuan.

Then, under the madness of the body shape, Zhao Lingxi's steps stopped immediately, and he stayed for two moments. In the end, he was soaking his face and weeping, and turned and flew away.

"Miss, Miss, wait!"

"It's too irritating, this guy actually calls you a female ugly ghost... Could it be that you can't blink?"

"It's too disappointing, Xuan Huangzi, you actually bully Lingbi sister, Xiaoxi will not like you again!"

.....

More than a dozen prostitutes crumbled, and some people chased them out directly. Some of them turned their eyes on Ye Xuan and slammed their words, and then they turned away.

"Long Xuan, you are too deceiving! Fighting me too..."

Not waiting for Ye Xuan to react, the first Tianqian on the main hall was suddenly amazed, with a face full of iron and blue, and the smashing of the unsettled strong killing of the mans, a wave of snarling and a big sixth. The main hall of the palace was suddenly disappeared in a strange way.

The surrounding environment has also changed completely. Although it is still in the central area of the peak of the giant peak, but the top of the head has a rumble of thunderous sounds, thunderclouds rolling, suffocating.

The guardianship of the sixth house was fully launched, and everyone in the hall was caught in a burst of power.

Almost at the same moment, the Tianganzi who had risen up and suddenly jumped back with the other nine high-level members of the Temple, and the figure was hidden in the sixth house of the guardian ancestor. When the fog is hidden, it is difficult to see clearly.

Around the distance, the sixth house of disciples who are responsible for different affairs have spurred themselves. They are naturally familiar with the guardianship of their own Zongmen, and they have already lost most of them in the blink of an eye.

In the blink of an eye, there is only a large group of the second universe in the central area of the main hall of the sixth house, and the high-ranking people of the second universe, and the accompanying strongmen who are staying outside the temple, including dragon crepe, etc. People and Ye Xuan, in total, touched hundreds of strong people, and were caught in the sixth house of the guardian ancestor.

This is clearly the rhythm of the desire to destroy the mouth after the loss.

Although it is difficult to close the scene afterwards, it is better to be exposed on the spot. If that is the case, the Sixth House of the Tenth Anniversary will become the target of the public in the whole of the Union of Van Loo. If it is wrong, it must be counted in the first cosmic hegemonic family. Come, this is really difficult for the three major universes to have a place to live.

Even the entire Ten Heavenly Palace will be implicated and will be affected.

For this reason, nowadays, Tianganzi suddenly succumbs to this danger. The nine seniors from other Heavenly Palaces are shocked and even unwilling, but no one is really opposed. It is of great importance and cannot be considered. .

As the main hall of the Sixth Palace disappeared in an instant, followed by the sound of thunder in the sky, an invisible pressure came on, accompanied by the high-ranking members of the federal tribes who had been stranded outside the main hall. The strong, have gathered in the first time to the top of the top of the dragon and other strong, only Ye Xuan, alone standing on the other side of the peak of the Yangshuo domain, seemingly do not want to be with them.

Suddenly standing on the opposite side, the face is not shocked, calm and calm, and the cold is invisible to reveal a peerless and independent unparalleled, eye-catching.

It was also at this time that a group of strong Guangshi, including the dragon scorpion pattern, after the sinking of the complexion, the body was repaired in an instant, and it was already aroused and slammed.

"Heavenly, your sixth house, is this the rhythm of wanting to renege and be enemies with the entire federation?"

"Hey, look at the deity, I am afraid it is not just the sixth house. Is it fear that the whole ten heavenly palaces mean this? The two camps of the Terran are finally split? After that, the Union has one more. Enemy, the Terran camp of the Terran?"

"I urge you not to make mistakes yourself. To cover up yourself, you will not hesitate to take the sixth house of the Great, or even the entire Ten Heavenly Palace to be buried together..."

"Heavenly, can you think about it? Is there really the strength to kill me?"

"Oh, fortunately, the Yin and the Mulings come from the supreme power of the two Qiankun. Otherwise, can I wait for the grievances of this day? I can arrange them with them afterwards.""

In the face of unexpected accidents, the top leaders of the various nationalities from the Second Universe were angry, but they were not flustered. With a sneer of cynicism, a long, white robes of silver robes The old man, and a middle-aged man with a head full of green hair, under his armpits, and a very mighty body, sneered and strode out, and the crowd went to the forefront.

These two strongmen are the core high-level from the Yin and the Mulings. They all have the terror of the fifteenth state of the world. Like Tian Qianzi, they belong to Qiankun.

The existence of this level, only by the tenth house of the sixth house of protection, is obviously not completely obliterated, even if it is hit hard, it can be hurt and smashed...

There are two of them here, the idea that Tianganzi wants to kill and destroy the mouth is obviously unrealistic. The right person may be impulsive, and the blood in the brain will have this move. At this moment, he is reminded by this discourse that he is afraid of his heart. The intestines are all green.

This is clearly a step of stinking, and it is also very stinky!

Sure enough, after a short silence, in the distance, the screaming sigh of the sixth house guardian ancestor deep, the gloomy Tianganzi soon appeared, and stepped out.

Followed by nine people, it is the other high-level nine palaces, one face is even more ugly than the Tianganzi, I do not know that I just married a dead baby, full of anger and anger.

"The friends of the Tao have misunderstood. You are far away from the guests. The Sixth House has a scornful reason. As for what is going on, it is a nonsense. It is a misunderstanding."

Arched his hand, Tianganzi's face barely squeezed out a smile that was more ugly than the crying. When it came to this, the front of the voice suddenly turned, and the middle of the scorpion also took out a cold and sharp edge, and looked at Ye Xuan, standing opposite the strong people of all ethnic groups. "The reason why the guardian ancestor was launched is to worry about the thief's escape. Hey, this person has a misfortune, and he screams at the deity and loves to be a woman. He said that he would voluntarily enter the sixth house, and he did not want to open his mouth in public today. Some things that are not unconventional, clearly want to chase the harmony between the various ethnic groups in my country, and their heart is awkward, and it is necessary to take it down today!"

If you have nothing to do with other people, Tianganzi waved his right hand and suddenly screamed: "What are you doing? Speed down..."

Chapter 3199: It's broken

"Tian Qianzi, Long Xuan is no more than that. After all, it is the royal family of my immortal dynasty. Can you let me bully and squat?"

Not waiting for the temper of Tian Qianzi, the old dragon plaque on behalf of the immortal dynasty has already sunk and slammed.

Although he and Ye Xuan and private grievances, but in this case, the royal family face of the immortal dynasty, but still must be maintained, even if only just do a look, go through the game.

"Where is the saying? What is the saying? Long Xuan squanders the guilty conscience, builds the deity, wants to ruin the sixth house, does the deity still take him? The big deal does not hurt him, and it is the public inspection of the Federal Supervisory Authority!"

"In addition, the deity is a great man, can you personally deal with such a junior?"

Tianganzi also saw the perfunctory meaning of the dragon's plaque, and smiled lightly. One of the blue robes behind him pointed out: "This battle will be played by Gudaozi, and it will be new. Into the younger generation, the repairs are also in the black hole, this is always no problem?"

"This one....."

The dragonfly pattern wrinkled and frowned, but it seemed to fall into the sinking, but Ye Xuan looked at it at a glance. This is clearly a slap in the face, and it is clear that the boat is going to push the boat, and I don't want to intervene to ask the rhythm of this matter.

When he was cold and smashed, he didn't break it, but he burst his mouth to reveal the sorrowful color. Anyone can see what he meant. The old face of the dragon's face is slightly hot, so it is not seen.

Seeing that he had not spoken again, a group of high-ranking members of the federal tribes from the Second Universe sneered in secret, and they stepped out of the crowd, among the two great powers of the powerful people, the silver robes from the silver scorpion The old man snorted and ignored the Tianganzi. He turned to Ye Xuan and looked over.

"Dragon family doll, just rush your temper to the appetite of the deity. Today, if you can say everything that happened in the death star whirlpool, the Lord will provide some traces of the beads, and the deity will protect you."

"In the event of a dispute, the deity can also guarantee that you will be handed over to the Federal Inspectorate for investigation and public trial, and will never let you fall into the hands of the traitor!"

"So I thanked my predecessors, but with his tenth house, I am afraid that I still can't keep me, I will not worry about my predecessors."

Arched his hand, Ye Xuan is still a cloud of light and light, do not care, actually directly rejected the silver 冀 乾 大 大 大 大 大 大 ,,,,,,,,,,,,,,,,,,,,,,,,,, 大 大 大 大 大 大 大 大 大 大 大 大 As for everything in

the Death Star whirlpool, the younger generations have seen and heard, and sincerely frankly! The truth cannot be concealed forever!"

"All the warships that sneaked into the ruin of the Death Star on that day, including the strong stars in the sky, were all degraded. Only the younger generations and ... the devotees of Tianganzi!"

"There is a crystal big egg in the death star whirlpool, the whole body is the phagocytic source crystal, after I enter the room, or because the sky dust **** has already entered the egg body, the giant egg is blasted, a crystal The body of the body appeared, opened his eyes, and swallowed his talents. He tore all the battleships on the spot, and all the strong players who fell in the ship were made into people."

"And the reason why the younger generation was left behind, you have all seen it, it is the conspiracy means that Tianganzi has prepared to resolve the crisis. After all, in order to breed him, this whole body has been turned into a dead land. It's really a big day, and he's afraid of big troubles, so the younger generation escaped a life, was smashed down by the swallow, and stepped into the one-way transmission and returned to the sixth house."

"Oh, yes, he still has a backup method, the shape of the swallowing avatar, this old guy has deliberately changed to the appearance of the younger generation, apparently after the preparations are exposed, the dirty water is poured on the younger generation, this is But it must be explained in advance!"

There are fakes in this discourse, and there is truth in the fake. As long as Ye Xuan's swallowing avatar has not been shackled, no one knows the true truth.

But it is clear that all people, at this moment, tend to believe in Ye Xuan's statement.

Even the tops of the other nine palaces behind Tianganzi have frowned, and their looks are unpleasant. Obviously, they blame Tianganzi for concealing them, and they have already swallowed their avatars, but they have been taken away by Longxuan. .

"It turns out that it is really a big hand, but at the expense of the annihilation of a whole vast field, just to nurture your avatar, Tianganzi, are you afraid of causing public anger?"

"There has been rumors in the outside world. The dust was in the sixth house of the day. It is far from the identity of the Shaogong. It is suspected that a scorpion of Tianganzi has been confirmed. The **** of this avatar is He prepared for the devour."

"Yes, it is no wonder that the dust of the day suddenly blew himself up, and did not hesitate. The original body was a thing that could be sacrificed. Later, the gods did rush into the death star."

"Lianlongjia Xiaowa can come to the sixth house through the transmission array. Can you know what the day is? I don't know why he is showing up today? With the help of your talents, it is worthwhile to reshape the body for Shaogong. What is it? It is clear that the Yuanshen has already settled in the devour."

"Speed surrender..."

.....

With this sentence coming from the mouths of the high-level people of the Second Universe, Ye Xuan's statement is completely settled, reasonable and reasonable, and Tian Qianzi is a hundred, it is hard to argue!

"puff!"

"Yellow hair, you are bloody!"

"What are you doing? Don't shoot again, the deity will kill you on the spot..."

"Air kills me too!"

Ye Xuan's trick was to hit the target with a suffocating suffocation. Even the other high-rises of the nine palaces on the side of the body gave birth to a suspicious heart. This fact is indignant. He almost spurted blood on the spot and immediately roared. It's up.

The last roar was obviously said to the young man in the blue robe. The latter's body trembled, and he did not hesitate. He raised his hand and rushed out, taking Ye Xuan straight.

"Hey..."

The black hole's ninth-order grand perfection is like a huge waterfall, which emerges from the body of the blue robe. It instantly turns into a giant hand with a hundred feet or so. It is overwhelming and slaps toward Ye Xuan.

"Booming!"

At the same time, the sky above the peak of the giant peaks also sent a strong thunder of the sound, the tenth house of the sixth house of protection of the ancestors in this instant response to bloom invisible large array of pressure, toward Ye Xuan fell.

Seeing this scene, several high-ranking federal leaders from the opposite side of the universe immediately screamed.

"How can the youngsters of the Sixth House in the small black hole environment have such a means to attract the support of the guardian sect? This must at least be the authority of the vice-president!"

"Too shameless, Tianganzi, do you dare to say that this blue robe kid is not your other avatar? The black hole ninth-order big perfection is the first step to the black hole of others, but it is still secretly applying such means. I really don't know how long the face is! "

Upon hearing this, Ye Xuan suddenly realized that it is no wonder that Tian Qianzi dared to send a black hole to deal with himself. How could he not know that he had even died in the original situation?

I have been waiting here for a long time!

One thought of this, Ye Xuan immediately sneered, slowly raised his left arm: "Isn't it a broken line? Dare to intervene in cheating, this prince slammed it with it..."

Chapter 3200: An arrow

Breaking the line?

What is the arrow?

When you hear these words, the strong people around you all look at each other, and the look becomes strange.

The squadron mentioned in Ye Xuankou is the ancestral guardian of the Sixth House of the Sixth House. It is the star defense defensive with the immortal emperor. The power is estimated to be too weak, and he is Here, what is it that can be smashed with a single arrow?

This is absolutely impossible. No one is serious. After some strong people have reacted, they have already pouted. Several of them are even more sarcasm.

At the same time, Ye Xuan raised the front end of the left arm, which was also a blaze of brilliance. A golden giant bow with an energy form appeared without warning. The bow tire was held in the palm of the palm by the palm of the hand. The shape of the bow is simple and sturdy, and the bow is clearly the body of two kinds of life spirits. It is the feet connected to them by Ye Xuan.

And the connection between the energy bowstrings is the wide mouth of these two kinds of life anger...

"Hey!"

As the golden giant bow appeared, the golden awn of the bowstring flashed in the middle, and the golden energy arrow of the brilliance of the brilliance quickly condensed, and the arrow opened the string, and the invisible sharpness of the sharpest to the extreme instantly burst into the air. The scalp is numb, and inexplicably gives birth to a strong sense of oppression.

The arrow is still in the string, it has already revealed a momentum of Mo Kefeng!

"This is... magical power?"

"It's so fierce, it seems to be able to break everything, and it has the horrible power of roaring, what is this supernatural power?"

"This energy arrow seems to contain incomparable majestic power, there is a breath of breath, a power of blood, and even a touch of vitality..."

"God, Long Xuan is crazy? This kind of magical power can be eye-catching, but the cost is too great. After shooting this arrow, can he stand steadily?"

Around the four, many strong people were amazed and heard. Some people exclaimed. Some people whispered and passed into Ye Xuan's ear, but they could not shake his heart.

This arrow really took a lot of the power of his body, even the life machine has a little injection, but today's Ye Xuan has long been far from comparable, in a short period of time, experienced more than one more than two times. After the cultivation of the great realm has been enhanced, his heritage has been extremely strong.

Although it is still impossible to display the most powerful power of the sacred bow, when the arrow is shot, the degree of consumption itself is completely controllable.

This arrow, he did not do his best, cultivated the power of about 80%, the same is the spiritual strength, in addition to a small amount of flesh and blood, and a weaker vitality.

The latter seems to have a finishing touch to this supernatural power, giving it life, and an arrow shoots out like a flesh-and-blood connection.

"call out!"

With Ye Xuan's right hand pinching the arrow, the three arrows are loose, and the energy arrow that has been pulled to the full bow instantly whistling away, igniting a sharp and utterly broken sound, like a teleport, directly to the sky above the sky. Destroy and ruin, and plunged into the giant of the hundred feet to repair the palm of the hand.

"boom!"

The repaired giant palm suddenly blasted without suspense, and the blue-robed young man suspected of being a scorpion spurted a blood arrow, and he was smashed with gold paper, and he was shaken, and under the counter-attack, he was already hit hard. Nothing.

Everything is far from over!

With the blue robe youth repaired as a giant palm burst, the golden energy arrow passing through the palm of the hand is like the most rapid meteor, and the sharp force is half-baked, and instantly penetrates into the higher part of the horizon. The awning is rolling in the thunderclouds.

Then there was a more violent sound of the explosion, which was repeated, and the whole peak seemed to be swaying a few times. The sky at the top of the sky was the tenth house of the sixth house. The display of the thundercloud was completely penetrated, and a hole with a diameter of about a thousand feet appeared like a gap in the sky.

An arrow crashes!

This scene shocked everyone, even Tian Qianzi and the aliens from the Second Universe, who had the sacred powers of the silver robes and the green-haired big men, all reflexively open their mouths and looked up slightly. The sky was full of shock.

When the arrow burst out, they clearly sensed the change in the strength of Ye Xuan's body. The original self-cultivation was the result of the cultivation of the force. It was only nine out of ten, but even then, he was only a first entry. The eighth world of the starry sky is only the first-order existence of the black hole. Even if the physical repair is completely dumped, it is impossible to have such a terrible terrorist power.

It is the supreme power of Qiankun, and if you want to strike a violent squad of the sixth house, you need to do your best!

"Amazing magical power! Not only can you repair a body into an instant, but it will be a shot, and there will be an invisible increase in the effect. The power will increase greatly. This is far beyond self-cultivation." A fight, a qualification has been established."

"Yes, it's really amazing. The black hole is a slap in the face. It has almost the same effect as the mighty power. The power has been increased by at least hundreds of times, too amazing!"

In the midst of shock, the silver robe old man and the green hair big man screamed, and even the middle of the singer had the color of envy. The power of this arrow is really amazing. If you can master it, you can repair it with their power. Not only can the borders be invincible, but even the stars and the sixteenth-strongers who have surpassed the Qiankun territory will be able to fight.

"Sure enough, it is the first person of the dynasty's descendants. There are some means. Unfortunately, although this magical power is amazing, the power can be horrible, but it is like a broken boat. When one arrow is shot, you have no more power to continue!"

In the distance, the Tianganzi is still in the edge of the peak of the guardian squadron rolling in the thick fog, the body shape is hidden, the scorpion also has a greedy color flashing, the speech seems to have decided. The voice of the words has not yet fallen, but suddenly shot: "Dare to destroy the sect of the sect of the sect, you can not spare today! Must be suppressed!"

"boom!"

The sound of thunder slammed, and the shape of Tianganzi did not move. He only raised his hand slightly, and the virtual seal was printed. A thousand feet of Shentong paw prints appeared out of thin air. For example, the caged prisoners covered Ye Xuan's body and quickly closed.

This is clearly intended to take advantage of the silver robes of the old man and the green hair of the big man, to prevent the lightning speed, first to say Ye Xuan.

In addition to the heart and hate is one aspect, the more important purpose, afraid to be eyeing Ye Xuan's want to grab the silver robes and the green hair big man before the decision, and ask the hand.

"Isn't it too ugly to eat? In order to get the Emperor's even the face of Qiang Kun's power is gone!"

Ye Xuan sneered, no fear at all, the light between the moments was cold and the voice was steep: "Since even the great powers of Yankun are shameless, what other concerns are there for this prince? Everything is for you. To blame me, the Sixth House of the Ninth is robbed today, thanks to what you have!"

The words came out and they were exclaimed around.

what's the situation?

Is there a more powerful means?

Actually, I am clamoring for the sixth house of annihilation today...
