Chapter 3201: Withered

Zizhulin, 100 meters underground!

Just as Ye Xuan sacrificed the when the arrow stunned the four sides, it concealed all the devours that had been crouching in the bamboo forest underground. At the same time, the action was launched, and the figure quickly sank below the kilometer. The immortal purple roots are close to the past.

The actions here are equally vital. Once you succeed in taking the immortal purple root and refining it quickly, Ye Xuan's system title exploration mission can be completed in an instant, even if the deity is in trouble in the central area of the peak. It is possible to start the cosmic coordinate jumping ability at any time, and only then, it has been in an invincible position.

The distance from the kilometer is dazzling, and the swallowing body of the body quickly dive suddenly stops. Outside the lower right, a half-palm length and a purple root rhizome with **** are reflected in the line of sight.

Can be named immortal, this thing is extremely extraordinary, Zijin Huimang is restrained, the surface of Lingen is covered with mottled lines, revealing a thick and simple ancient atmosphere.

After a little hesitation, the swallowing avatar suddenly shot, swallowing the talent to fully unfold, and the invisible force of an awning wrapped the immortal purple spirit root and instantly pulled it closer.

"Booming..."

Almost at the same moment, deep in the earth beneath the foot, a dull roar suddenly came, and the surrounding mud and rocks shook gently. The feeling was like a horrible horror under the ground. The behemoth was suddenly disturbed at the moment.

The behemoth turned over and the earth fell!

What's even worse is that as this huge roaring sound came from the bottom of the bottom, it was wrapped in the invisible power of the treasure body and wrapped in the front, and it will be the immortal purple that will begin to refine in the body. Linggen, in this sudden sudden change of incomparable sinking, it seems to be connected with the whole giant peak, it is difficult to shake for a time.

Can not ingest the body!

The face of the treasure body suddenly changed, and my heart suddenly slammed my teeth. I was about to shoot again, and tried my best to force it. At the moment of her eyebrows, a small tower of only about three inches suddenly appeared, highlighting Come out, like the same vertical eye, in the middle of the eyebrow of the treasure body.

It was the headless baby corpse that was transferred to the ancient heritage tower in the body of the treasure.

I don't know why, at this moment, I took the initiative to show up and began to show power.

"Hey..."

The sound of the waterfall suddenly rises. From the tower of the ancient ruins, a gray chaotic fog is poured out. It seems to be a tiny river, which is quickly venting and falls on the root of the immortal purple spirit that swallows the treasure.

Not to be swallowed up, the treasures have returned to the gods, and the gray and chaotic fog of the canopy has been wrapped in the immortal purple roots, and instantly retracted, and fell into the tower of the ancient heritage, and disappeared.

Then, the eyebrows of the small tower in the body of the treasure disappeared and re-entered into the body.

"Hey!"

"Booming..."

At the same time, the bottom of the ground is extremely deep, and the roar of the roar is heard again. Before the victory, the roar of the roar is even mixed with a scream like a phoenix, and the surrounding soil and rock are shaking even more. The beast is no longer just turning over, it seems to be breaking out of the ground and rushing up.

What is particularly uncomfortable is that as the sound of the phoenix whistling, the surrounding soil and rock are actually affected by some kind of power, and it becomes extremely tight, and instantly allows the treasure body to give birth to a kind of viscous body. The sense of restraint in the swamp could not be quickly removed from the first time.

In addition, there are countless or thick or thin purple rhizomes spread out from all directions. They should be the roots of the numerous purple bamboos in the purple bamboo forest above the ground. They are not visible before, but now they are suddenly coming together. Life, intertwined and entangled, turned into a large net, wrapped in all directions, this is clearly the rhythm of the wings.

The face of the treasure body changed again. He only hesitated for a short time. He suddenly made a decision to bite his teeth. He swallowed the talent again and ran out of full force. An invisible power of swallowing blew out in his body.

This time, there was no specific goal. The blink of an eye appeared as a vortex black hole with a diameter around it. The body was shrouded and the figure disappeared and escaped into the black hole of the vortex.

In the next moment, some of the soil and rocks closest to the vortex black hole were quietly loose, and the mysterious forces added to it were swallowed up, so that they no longer bind the creatures like sticky mud.

From the top right, the first few dozen purple bamboo roots are also close, and at this moment, there is no suspense and a sudden stagnation. The original purple color of the stem is quickly dimmed, the energy is swallowed, and it is invisible. In the whirlpool black hole that devours the talents of the talents, they instantly wither away!

Moreover, this strange defeat is obviously expanding the radiation rapidly, and the scope of influence is gradually widening!

"Hey!"

"Hey..."

"Booming!"

In the depths of the bottom of the ground, the sound of whistling like Fengming came again. Two times in succession, all the soil and rocks are no longer just shaking. It is like the waves in the sea. It starts to undulate and has waves.

Undoubtedly, the whole peak has been affected, and it is easy to move. The ground has been so choppy, and above the ground, it must have been shaken!

Such a big movement, this is definitely not a giant beast turned over, the endless depth of the canopy in the depths of the ground, should be struggling, and it will be completely revived, then it will break out of the ground, the real body will rise and rise. !

The treasure body that has escaped from the black hole of the vortex seems to feel the crisis. Although the figure has not appeared, it has ignited the vortex black hole that engulfs the talent power, and swallows the energy in the soil and the stem of the sage. Slowly but continuously upwards.

The pressure from the bottom is getting stronger and stronger, too horrible, and it has not been long before...

.....

The ground, the peaks and the central area!

Just in the immortal purple Lingen was dumped by the ancient towers of the ancient towers, and it was successfully recharged, and at the same time, Ye Xuan's mind also unexpectedly sounded a familiar system sound.

"Hey, congratulations to the host, get the immortal purple root! Grade: starry sky to treasure! Quality: congenital root!"

"Hey, congratulations to the host, the immortal purple Linggen successfully refining! The system title exploration mission is completed! The current title: Star Trailblazer!"

"Interstellar Trailblazer: The aura effect of the title, based on the original three-level title, adds a primary plane coordinate jump ability."

"Primary plane coordinate jump: the ability to expand the coordinate jump between different cosmic planes, ignoring the cosmic plane barrier and directly jump to arrive! The primary stage is limited to the adjacent cosmic plane with cosmic wormholes!"

"Hey, after the system is finished, do you start the coordinate jump immediately?"

Successful?

Ye Xuan is in great spirit!

For a moment, he not only harvested a congenital root of the sky to the treasure level, but also possessed the ability to jump across the cosmic plane.

As long as he is willing, whether it is to the death star of the third universe, or the black hole of the first universe, now Ye Xuan, can be reached between the mind...

Chapter 3202: Baoyin Town Demon

"What happened? The ground seems to be moving, it looks like it is not small!"

"Damn, it is Zizhulin? The stinky boy, what did you do?"

"The deity has a very bad feeling. It seems that something big has happened..."

.....

With the system prompts in Ye Xuan's brain, the depth of the ground, the first rumble of roaring sounds followed, and the strong neighbors even felt that the earth under the feet was slightly swaying, after the slightest, could not help I was exclaimed.

As for the tenth house of the sixth house of the palace, it was a sudden change of brilliance, and it was already seen in the blink of an eye, staring at Ye Xuan and roaring.

At the same time, the huge repair of the claws was also under the ultimate condensation, turned into a claw-shaped cage, and the whole person of Ye Xuan was confined in a void of only about ten feet, quickly I rushed to Tianganzi.

"It's very fast to start, Tianganzi, are you a deity?"

"Either keep people, or fight, it's up to you!"

"call out!"

"call out!"

Seeing that Ye Xuan has been shackled, trapped in the paw-claw cage, the celestial spurs are rushing away, and the silver robe old man and the green-haired big man seem to have finally made a decision, while at the same time screaming out, the body has a mighty and mighty滔天伟力 vented out, and even the body of the void was stirred up and resonated, sounding a dull thunder.

This is clearly the rhythm that can be shot at any time. If the Tianganzi does not remove the paw-print cage, the two great powers from the Second Universe will not hesitate to take the shot.

This level of war will be difficult to end!

This moment, like the Tianganzi, the other nine high-level shackles in the faint face of the Guardian Guardian in the distance, the looming face flashed a hesitant color.

Unfortunately, they finally chose silence. This kind of silence represents support. Ye Xuan's they are also tempted!

"Ten Heaven Palace, do you want to go to the dynasty? I am a dynasty, I want you to take it?"

"Receive the hand immediately, leaving the old eighteen, otherwise it will fight!"

"As a human race, once the two strongest camps turn against each other, the consequences are serious. You have to think clearly."

Previously, he had already given up the dynasty of the dynasty of the dynasty, and suddenly changed his mind. He repaired his body and screamed: "This matter is provoked by you, and the dynasty is not responsible for all the consequences!"

"really interesting!"

"In the blink of an eye, is this prince becoming a fragrant scent for everyone? It's really a shame, this one is too shameless!"

In the paw-claw cage, Ye Xuan took the hand and stood proudly, whispering like a self-speaking, and his face was even more stunned and sighed. Finally, he sighed: "Oh, unfortunately, you are destined to be disappointed. Now, this prince seems to have not yet reached the position of arbitrarily! Lei Di Bao Yin... from!"

In the last sentence, Ye Xuan suddenly violently drunk.

Immediately afterwards, it was like a response. From the inside of the body, a huge thunder roared... suddenly exploded!

"boom!"

Accompanied by the thunder and roar, a green gold slammed out of his eyebrows, and the wind plunged into the wind, and the effort was reduced, and it was turned into a quaint fist big seal, hanging over the top of Ye Xuan. The ruler is everywhere.

The endless blue-gold awns emerged from the inside of the seal, condensed behind the leaves of Ye Xuan, Guanghua masterpiece, and actually evolved a scene of vision, reflecting the small half of the sky.

This scene is quaint and simple, revealing the meaning of the ancient wildness, which seems to be a distant starry sky, the blue mist of the misty golden buds, the deepest, a golden giant lotus is blooming incomparably. The endless golden light blooms, like a natural breed, born from the void, incomparably huge, in front of it is extremely weak and small.

On the lotus flower of Jinlian, there is clearly a lotus seed, the mysterious color of the green, which looks like the same seal, the golden lightning of the whole body, the telescopic endlessness, and the things hanging by the head of Ye Xuan are exactly the same. !

Seeing this scene vision, the powerful people around the world are shocked, and the sound of coolness is one after another.

No matter how he opened his brain, he could never imagine it. In the original Ye Xuan's hand, there was such an extraordinary Lei Di Bao Yin, which seemed to be nurtured from a golden giant lotus that was almost overwhelming. Among them.

Is this going to be the rhythm of the sky? Absolutely innate, absolutely starry to treasure!

"Booming..."

"Boom!"

.....

The vision behind Ye Xuan is still, but there is always a thunder rumbling, shocking everyone's mind!

In the thunder and thunder, the lotus canopy is like a lotus-like green gold seal. It gradually wraps around countless tiny golden lightnings, and the telescopic and swallowing is not good. The whole plant is surrounded by golden lotus, and there are countless blue mines blasting one after another. The denser it is, the finalization is for countless huge golden lightnings, which have blown up countless stars, and finally all poured into the green gold seal on the lotus!

"call out!"

"Booming..."

At this moment, the faint and sharp sound of the emptiness suddenly sounded, accompanied by the infinite thunder blast, rendering a rushing thunder.

Then, the whole image of the brilliance of the brilliance, instantly collapsed, turned into a sturdy and fierce green gold and luxuriant, such as the tide is generally spread out, the degree of fierceness is surrounded by the heavens and The silver robe old man, the green hair big man and the like are incapable of power, and they seem to be unable to look directly at them. They subconsciously squint their eyes and sideways.

When they turn their heads again, the canopy is formed by the phoenix behind Ye Xuan's vision. It has been thoroughly spread and spread. It is like a hot sun melting snow, silently, without any suspense, directly collapsed. The paw-claw cage of Ye Xuan was banned in that place, and it disappeared into the void and disappeared...

The paw-printed cage dissipated, and it seemed that there was a counter-attack. The shape of the Tianganzi was slightly blurred twice, and the face was ugly to the extreme, and the iron and blue were even, even the corners of the mouth, there was a slight faint blood mark.

A fierce and sturdy man has emerged from his shackles. At this moment, Tian Qianzi has clearly killed his heart: "You can break free from the magical means of Qiankun's power, you are proud of yourself, but unfortunately, this Leiyin Although the power is still acceptable, but if you want to incite the deity, it is still a little bit worse. Some people are disappointed, but Err..."

"Hey!"

"You old things, do you think that this is all done? Just just to get some atmosphere to show grandeur, the Lord is still hanging on the head of the emperor, clearly not yet launched?"

"But there is one thing you didn't make a mistake. It's a great power to make a good impression. If you get some atmosphere, you will be shocked and injured. It really makes people look down!"

Shaking his head and sighing, Ye Xuan rolled his eyes, and then raised his hand to the gas to the old blood of the old man, pointing away, the word front turned, suddenly drunk: "Golden electricity evil spirits, Qing Lei 斩 斩The treasure of my treasure, when the suppression of this! Quickly killing..."

"call out!"

Hanging in the top of Ye Xuan's head, the faint golden horns suddenly shot out...

Chapter 3203: Fierce

At the beginning, when Ye Xuan's cultivation was the fourth largest territory of the planet, he had successfully used a Leiyuanzhu to successfully kill a high-ranking elite who had the ninth major point of origin.

Right now, he is already the strongest existence of the eighth largest black hole. He has improved a lot of control over Lei Di Baoyin. It is far from being comparable in the past. For this reason, this time, the Emperor's seal will be sacrificed. Behind the scenes revealed the vision of Lei Yin!

This point, even Ye Xuan is very surprised, but it just helps him to resolve the paw-claw cage, it is a small surprise, otherwise it will take some effort and means to escape from the paw-claw cage. !

At the moment, with Ye Xuan taking a break from the storm, he hangs over the top of his head and slams into the Qingjin Leidi, and instantly spurts a weak mile, the speed is fast, and even the great power Tianganzi failed to respond in time, and he was already near him without blinking.

This kind of micro-mans is a Leiyuanzhu. In the first space of the starry sky, Ye Xuan has condensed ten pieces. The high-ranking mountain tyrant of the celestial family used one, and this is the second. The piece is still in the treasure of Lei Di, only eight pieces!

Although Lei Yuanzhu seems to be inconspicuous, it only refers to the size of the belly, but in fact, every Leiyuanzhu is made up of countless Qinglei Jinmang, which is compressed by the power of Leidi. Extremely scary!

When I first condensed it, I was able to kill a high-level elite of the original plane.

Nowadays, it has been cultivated for so long in Lei Di Yin, and Ye Xuan Xiu has soared to the black hole. The Bao Yin Wei energy that can be stimulated after the Bao Yin Seal is far from comparable, this part of Bao Yin Wei can invisibly being applied to the blasted Ray source beads, making its power increase again.

Under the superposition of two phases, the second Leiyuanzhu, which was bombarded by Ye Xuan at the moment, has far exceeded the original one, almost the difference!

"Booming!"

"Card..."

.....

At this moment, as the Leiyuanzhu blasted out and spurred at the extreme speed, the void along the way was torn, leaving a thin black line, and more infinite thunder and lightning. It is dense and numb, and it is full of hustle and bustle. The vastness of the peaks and the central area is instantly shrouded by an invisible Thunder deity. It is too horrible, and even the pressure of the Sixth Palace's guardianship is weakened. Completely covered!

All the strong people around, all at this moment, all the stunned, fried hair, the back of the cold hair are all erected!

"This is absolutely impossible!"

As Tian Jingzi, who was locked by Lei Yuanzhu as the target of bombing, he felt the strongest feeling at the moment. He had a sense of crisis that was stared at by the wild and beasts, shrouded his body and mind, and instantly let him sweat and scream, and suddenly lost his voice!

I haven't felt this for a long time!

In front of him, this little guy who was only a black hole in the first step was originally like an ant in his eyes, even worse, but he often paid a heavy treasure. Now, he has given birth to a crisis of life and death!

shame!

anger!

This is simply the shame of the red fruit, the great power of Qiankun, was screamed by a black hole ants to suppress, and really let him hair, which makes him unable to accept anyway!

The whole person must be mad!

"If you don't marry you today, the deity will not swear in the future!"

"what....."

There has never been a shame that makes Tiangan completely violently violent, screaming and arrogant, almost mad, but the body shape is quickly and far-sighted, this is full of horror and thunder, but it is never May he be killed on the spot, but if it is hard to resist a record, not to die also have to peel off the skin, light injury is reasonable, serious injury is possible!

Can you be hurt in the hands of a black hole ants? Although it is equally shameful to avoid the edge, at least better than public blood, that is the real can not turn over, will leave a permanent shame brand!

At this moment, Tianganzi has moved the heart of murder. He witnessed the rapid retreat of the cracked side. After calculating the attack in his heart, he immediately tried his best to kill the past. Even the godlike bow and arrow did not want him. Only seek to blame the enemy for shame!

"boom!"

Just as his shoulders swayed and his body was swaying, he had already spurred to the nearest green gold, but suddenly exploded without warning.

The horrible roar of the horror swayed the entire peak, shaking it sharply and sharply. The rolling smog formed by the high-altitude guardian of the sky was instantly shattered and collapsed.

Some of the weaker strongmen spurted blood directly, and they were crumbling, and there were some sixth-day disciples who had long since avoided the departure, as well as some followers gathered behind the silver-robed old man and the green-haired big man.

The horror of this horror recently, the Tianganzi at the source is even more shocking, the blood is a little floating, everything is too sudden, so he can't take care of it, who can think of this unremarkable The faintness of the man, when he has not touched his figure, has already exploded in advance?

It is too shabby!

"Hey..."

At the same time as the explosion sounded, the Qingjin Mang, which was originally only a little weak, suddenly spewed a large piece of lightning after it was blown up. It seemed like a levy of the Thunder River, and the amount was mostly turned into a tide. When it was spread out, it was the first time that the roaring gods were drowned.

The entire thunder and the vast river were covered with a few miles. In addition to Tianganzi, the other nine high-rises from the other nine palaces were also affected. Although they were on the edge of the Thunder River, they were also inundated.

"what....."

"Hangka card..."

"Card!"

"Damn! What the **** is this thing? Everything is too sudden!"

"Return!"

.....

The blue-golden Thunder River is rolling, and countless blue thunders are blasting. The dense golden lightning weaves like a fine net, covering the area.

In the endless thunder and lightning, the high-rises of the nine palaces were screaming and screaming, and the voice of the gods was heard, but there was no substantive words. It was purely like a venting ah. It is to be mad at the rhythm of madness.

In the distance, the hundreds of powerful powers gathered in one place have been completely stunned. The situation is very strange. Only the black hole is the Xuan prince who has cultivated the Ten Heavenly Palace. High-rise one net all pockets!

Among the ten people, Tiangongzi and the other palace's palace masters are the great powers of the fifteenth world. The other eight are also the supreme existence of the vice-prefecture, and they are all in the 14th. The environment of the environment, for a moment, was caught off guard, and was actually a pot!

Too wrong!

It is cruel!

These thoughts flashed through my mind, and the strong people once again cast their eyes on Ye Xuan's eyes and then changed again. This time, even the silver robes and the green hair of the big man seemed to have some jealousy.

The emperor's old dragon crepe pattern is a slap in the eyelids. I think that I seem to have sinned this kid early, and the hatred has not been resolved. He is not good for the whole person...

Chapter 3204: Undead

This hangs the Thunder and the river is suddenly, coming fast, going faster!

In the thunder and lightning flash, the front and back only lasted for about three times, and everything was completely annihilated. The area in the circle was restored to tranquility. Only the void in the void was like a black line. Silently indicating the terror catastrophe that was experienced in this place a few moments ago.

The void was bursting and the earth was dark!

In addition, there are ten wolf-stricken figures, and the ten high-ranking temples are all above the Guangguang environment. There are also two great powers. It is obviously impossible to be killed so easily.

Even if they can't catch it!

The nine people on the edge of the Thunder River have not even suffered too severe blows, and the extent of the spread is limited, at most, a little bit more serious than the skin injury.

As for the Thunder River in the central area of the Thunder River, it was also the first time that the body was inundated by the infinite wave of lightning. It was just a **** mouth, and the injury was slightly heavier. Even the fighting power was not lost. The pressure is even more acute.

This is alive and mad!

However, although the ten of them were innocent, the image at the moment was really unbearable, too wolf, the clothing was broken, and the head was black. It was located in the central area of the Thunder River, and was covered by the brain. Even all the hair was blown up, and the sleek head and the face were the same, black and black, only a pair of roaring eyes were red and bloody, cold and not a glimpse, it turned out to be a halogen egg became fine.

There are even white smoke in the mouth and nose that spewed out from time to time. Once you see it, you know that this cargo is thunder!

Dignified and powerful, the tenth house of the sixth house of the lord of the palace, but now it has been tossed into such a miserable, this is more tempting than killing him, at this moment, the whole man is going to be The air blows up, and the only thought in my heart is to kill people. That look, like the savage beast that has just been released from the cage, is fierce and mad, and wants to choose someone!

"Sure enough, it's a great power..."

A Leiyuanzhu was thrown out, but eventually half of the serious injuries did not blow out. This kind of victory made Ye Xuan feel helpless and shook his head and sighed: "Hey, the brains are all smashed into halo, but the people are There are no ass, no one is missing, and it's not a normal anti-crime!"

"puff!"

As soon as I heard this, Tian Qianzi opened his mouth and spurted a blood arrow. It had nothing to do with the previous injury. It was completely mad. What is true resistance? This kid's mouth is too embarrassing. What is the hallmark of his power? What has changed in his mouth?

Is it a human-resistant anti-smashing machine that is specially abused?

"Today, you will die!"

Wiping off the blood marks on the corners of the mouth, Tianganzi gnashing his teeth, wanting to vent his anger: "This kind of Thunderbolt is difficult to condense, use one less one, depending on your little black hole, the deity does not believe that you have a lot of condensing ability, Do you dare to sacrifice one more?"

Sure enough, it is a powerful energy, the head is smashed into a halogen egg can be safe and horrible existence, after a sigh of relief, actually the bottom of the Lei Yuanzhu have been thoroughly understood, listening to his words at the moment, clearly is expected to Ye Xuan There is no such thing in my hand, no fear!

"Sorry, this time I am disappointed again!"

Ye Xuan was dumbfounded, and the sensational movement once again spurred the Lei Di Yin hanging over the top of the head. The slamming sound was a glimpse of the Qingjin Mang: "There are not many Leiyuan Baozhu in the hands of the Emperor. Eighty, no more than one hundred, less is less, but thoroughly plowing your ancestral home in the sixth house, it is still barely enough!"

"What? Really?"

"This little baby has to go against the sky, such a terrible thing, if there is a hundred and eighty, who would dare to provoke him?"

"A blast of one after another, afraid that even the mighty power, and finally have to be killed by his life..."

"Booming!"

Seeing that it was a glimpse of the green gold, the opposite side of the Tianganzi circled on the spot, and the nine people behind him changed their face slightly, frowned, and quickly retreated without hesitation, such as avoiding the gods.

From the powers of the various ethnic groups in the second universe, there was a large sound of cold air, which was frequently heard.

It was also at this time that the ground under the feet of the strong men suddenly swayed again, more intense than before, and the entire peak was shaken. The roar of horror came from the depths of the earth, accompanied by screaming Such as Fengming, as if there is a wild animal in the depths of the ground has been awakened from the sleep, to break the ground!

Hearing the sound of the phoenix and the whistling clear, the nine high-level colors of the Tiangong, which had just returned from the body, were mad. If you felt some kind of ominousness to come, you suddenly exclaimed.

"This is... Feng Ming?"

"Not good, the phoenix was awakened, Tianganzi, what did you do!"

"The sixth house is over, the inheritance is not guaranteed, and the immortal purple root must have a problem. Otherwise, how can the phoenix wake up in advance?"

"To make a big deal! Heavenly man, hurry up, immediately take this kid down, the sacred beast of the sixth house rioted, I need to join forces to appease..."

"Booming!"

"Card!"

"Hey..."

Not waiting for the voice of the nine people to fall, the second Lei Yuanzhu has been blasted open, no suspense, suddenly thundered the thunder of the river, covering the brain, once again will be in the circle of the heavens thoroughly Drowning!

At the same time, the swaying of the entire peak is also more serious. Some rocks have rolled down, accompanied by the sound of the explosion, a terrible crack in the ground quickly spread from the distance, so the huge peak of the behemoth was actually The terror of the stock from the depths of the earth is tearing, this is a rhythm of two!

"call out!"

In the middle of the mountain, a black mang rises from the depths of the horrible cracks in the distance. It is clearly a whirlpool like a black hole. When you smash out the place, it immediately disappears after the volley, and the face is dignified and swallowed. Stepping out, glanced at the chaos on this side, without hesitation, turned and went to the distance.

"Hey!"

The whistling of the suspected Fengming followed closely. This time, the incomparably clear and true, its sound seems to have some kind of divine power. When it was worn in the golden cracked stone, even when it was introduced into the ear, Ye Xuan could not be shocked by the spirit. If the corpse lamp tattoo on the left chest is suddenly burned and instantly resolved, it is only this phoenix whistling, you have to make his gods minimally invasive!

Accompanied by this screaming horror, the horrible seam that is rapidly spreading in the distance, suddenly found a black claw, each claw is as thick as several ten feet. The horror is nothing, like the ghosts of the emperor from the nine secluded hell, who sneaked into the sky and patted the distant devour...

"Rely! A claw toe is like a giant tree in the sky. It is a few ten feet thick. How terrible is this animal's body? The legendary Dapeng bird is just like this? Spread the wings between the wings and cover the sun for 90,000 miles... .."

This scene was too sudden, Ye Xuan was shocked, and his heart suddenly became clear. He remembered the black shadow of the awning that he had seen when he explored the depths of the purple bamboo forest. He wanted to come to this horrible black claw. On the body, is it really a dead phoenix?

Chapter 3205: Both running

The short three interest rate is not enough. After the second Leiyuanzhu blasted, the hanging Thunder Dajiang disappeared. The figure of Tianganzi appeared. This time, the head of the melon seems to be darker, revealing the black mans , sleek and bright!

If you look cold, it is clearly a success that has become a fine hail egg, and you want to be born!

The light is too dazzling!

It is a pity that although the halogen egg has become a fine, but the Tianganzi is still like that, it is still intact, and the myth of resistance to cockroaches has not been annihilated!

Ye Xuan's heart sighed, it seems that only relying on Lei Yuanzhu, fearing that it could not shake the supreme power of Qiankun, perhaps in the future, when Ye Xuanxiu is promoted, he can use the power of Leidi's seal to the extreme. Will have this effect.

As for now, Lei Yuanzhu is invalid, the only means is only the headless baby body, this is Ye Xuan's real final card, he does not want to be exposed too early!

Just swallowed the avatar and got rid of it, and went far away. Although there was a horrible undead phoenix behind it, the latter's body has not yet appeared, and the claws stretched to have a limit, and it will definitely not be able to catch up.

In addition, there is a towering heritage tower, and Ye Xuan also devours the safety of the avatar. He has not dug the pit. He has already dug the pit before. Although he has the same appearance as him, the majority of the strong peaks at the moment are mostly All regarded him as the avatar of Tianganzi.

Yellow mud off the pants, can't explain it!

Ye Xuan's heart has already sprouted out of resignation. It's time to run, and it's too big to move. Lei Yuanzhu can't really deter the group. In order to avoid the elbow, it's still a long way away from this piece of right and wrong!

As for the devour of the avatar, it is better to stay in the comprehension camp, let him devour energy everywhere on the side of the name of the celestial scorpion, and the sinister side, anyway, the black pot has been back.

One thought of this, taking advantage of Tianqian once again into shock, after a moment did not react, Ye Xuan turned around and looked at it, grinning and said: "The Qiang Kun can play! This is the anti-Thunder in the top. It's like a bathing, and there's no need to take a break at the other side. Under the ground, the big birds that are raised by the family are playing against each other's nests. The old nest is dispelled without fear. Power is power!"

Ye Xuan directly waved his hand: "By my brother, the black bird looked at the thief, the prince is not as resistant as you, or not blended! You play slowly..."

After waiting to finish, Ye Xuan has not hesitated to give instructions to the system, immediately start the cosmic coordinate jump function, jump the target death star swirl!

In the next moment, the micro-mans flashed, and his body shape disappeared completely. Seeing the eyes of the powerful people around him, it seemed to be a teleport.

Although this is a bit abrupt and unexpected, but the suppression effect of the Tenth Palace guardian sect is basically invisible at the moment, the big bang is broken, the power is lost, it is the existence of the black hole, and it can also be launched. Moved, so Ye Xuan walked very calmly, no fear of what to leak!

"puff!"

"Want to run?"

Tianganzi squirted another old blood again, and his look was very incomparable. Before Ye Xuan left, he did not forget to buckle a black pot on his head. This is really irritating.

In addition, when he swallowed his body and appeared, he had already fully understood it. The immortal purple root must have been stolen. Otherwise, how could the phoenix be angry?

The **** guy, for a moment, he was not so badly provoked by him. The whole sixth house was almost overturned, and even the undead phoenix was exposed. This is a huge crisis that has ravaged the sky, and it is no longer good!

In the cold snoring, the gods of Heavenly Emperor fully unfolded, and instantly shrouded the radius of the circle, searching for the shape of Ye Xuan.

The black-eyed ants, even if teleported, can't move directly to thousands of miles away. At most, he is very determined.

It is a pity that the result is extremely strange. Not only does Ye Xuan's deity have no trace, but even the stolen purple roots that have robbed the phoenix, and the devour of the phoenix, has completely disappeared, and no gas can be captured. No trace!

"what....."

"Booming!"

"boom!"

Tianganzi almost spurted blood again and hated anger. Today, all this is too wrong. The sixth house turned upside down, and the inheritance was stolen. The undead wind was exposed. The loss was so heavy.

Dignified and powerful, it is really a halogen egg head on the shoulders, and should not be so shackled. At this moment, he is extremely unwilling, and has begun to doubt life!

As the roar of Tianganzi rang through, the whole peak swayed again and again, and the sound of thunder and thunder continued to come from the depths of the earth. The terrible crack finally spread to the present, and the giant peak was cut open. In the second, to form a huge gap in the day, the sixth house of the tenth is completely destroyed, and the ancestral land has collapsed!

"Hey!"

In the roaring roar, the anger of the undead phoenix rushed from the depths of the sky, and then, the giant peak collapsed completely, all the strong people changed color, rushed to the sky, avoiding in the distance, some repairs The weak sixth house disciple, on the spot, was smashed by the phoenix of this

power, and the gods collapsed. The seven gods spurted and smashed, falling into the depths of the rocky waves.

At the same time, a huge shadow to the sky is also shocking from the sky, it is a gust of wind, the whole body is dark, surrounded by black fire, and spread hundreds of miles.

A flap between the wings, it has turned into a horrible flow of black mans, the void has been torn, and so far away, half-interest has disappeared at the end of the sky...

"What a horrible atmosphere, what is the origin of this phoenix?"

"To make a big deal, the horror that transcends the power of Qiankun is born out of the sky, and when the sky is raging, the turmoil of the human race will come, and the entire federation will be affected!"

"This is too sudden, and the consequences are unimaginable. I must wait for the family to return immediately, and be prepared to meet the upheaval!"

"After breaking the sky, it has provoked a horrible phoenix that transcends the mighty power of Heaven and Earth. You must be confessed to this matter. The accountability from the Federation will soon come to the Ten Heavenly Palace..."

In the midst of change, the silver robe old man and the green hair big man and other high-ranking people from the Second Universe Federation all exclaimed, and more warnings and reprimands came out, and then they turned around and even looked forward. The immortal dynasty, the royal family of the same family camp, the old dragon 梓 pattern has not been stranded, the dawn of the cold, glanced at the heavens, and walked away!

In the face of all this, the sixth house of the lord of the sixth day of the palace, the sturdy and sturdy, the anger of the strong heart has never been heard, alongside, the nine high-level and other powerful people from other heavenly palaces face each other. The eyebrows are tightly locked and sullen.

In the end, the five-gonggong, who had a private relationship with Tianganzi, sighed and sighed. He turned to look at Tianqianzi: "The sixth house has been destroyed, the inheritance of Linggen is lost, and the ancestral ancestors are angered and gone. This place is worthless, there is no meaning to stay!"

"The old sixth, don't entangle the dragon family baby again, there is a time to pick up him, the overall situation is heavy, don't let the heavenly palace wait for too long, there should always be a confession..."

Chapter 3206: Roaring magic dust

The high-level powers of Tian Qianzi and the nine other Tiangong quickly rushed away, and the loss of the immortal Purple Linggen was over. The key is that the exposure of the undead phoenix is very important, and the consequences are unpredictable and have affected the whole. Some of the basic arrangements of the Ten Heavenly Palaces have appeared, and the countermeasures must be discussed immediately.

To this end, Tian Qianzi even opened the sorrowful resentment of Ye Xuan for the time being, completely disregarded.

As for the sixth house of the tenth place of the wolf, there are three deputy palace owners to clean up the mess, not to mention that he still has countless avatars here, and the aftermath is enough!

With the departure of Tiangongzi and other high-level temples, the area around the Kyoho where the Sixth House is located is completely immersed in death!

The sixth house strongmen who had previously retreated because of the collapse of the giant peaks all returned one after another. All of them looked very sad and sorrowful.

Everything in front of me is too wolf, shocking!

The entire huge peak of the sky has completely collapsed. A crack in the abyss like a scorpion runs through the whole peak from the west to the east. The ancestral land of the sixth house is completely destroyed. This level of collapse is even beyond the great The supreme presence of the power can not be restored.

In the sixth cosmic galaxy occupied by the Terran camp, the tenth house of the tenth is in control of a vast expanse of stars. There are many disciples in the palace, and the expatriates are not mentioned. It

is only this ancestral land and its surrounding areas. There are hundreds of thousands of disciples in the sixth house of the station!

This is only the number of official disciples, and some outside disciples are more.

The entire sixth house is definitely a giant, and the giant peak of the ancestral land is the spiritual symbol of this behemoth.

But now, this spiritual symbol has completely collapsed, and the disaster has come so suddenly. Until now, these sixth-party disciples who have gathered around the giant peaks still have a feeling of disbelief, how much in an angry look. There is a little confusion and confusion.

Not far from a mountain peak, the figure of the seven or eight women stood silently and silently, and the sights all fell on the sixth peak of the ancestral home where the front had completely collapsed.

The head of the woman is graceful, with a festive red makeup and a red veil on her face. At the moment, standing on the edge of a cliff at the top of the mountain, let the mountain wind squat and bring a piece of clothing. , actually exudes a dazzling dust temperament, like a fairy on the cliff, peerless and independent.

Suddenly, a mountain wind came over and set off the corner of the red gauze on the woman's face. It suddenly revealed a beautiful face, but the face was clearly tearful, and the sorrow was full of grief. And confused.

This woman is Zhao Lingyi who had previously left the main hall of the sixth palace.

The seven people standing behind them were their nieces. There were originally 13 people, but with the subsequent changes, they continued to happen. Under the circumstance, the servants and the servants and their entourage rushed out and quit the tenth ancestral temple. At the time of the land, several prostitutes accidentally fell.

For today's Zhao Lingxi, the one-time accidents that have occurred in a short period of time have completely overturned everything she had previously had.

The home that grew up here since childhood is gone!

Sisters like a girlfriend have suddenly fallen a little!

Even the father who loved his father, Tian Qianzi, went to the Heavenly Palace to plead guilty, and I wonder if he can still return safely, or... when to return!

Compared with the pain of these heart, the sorrow that was previously humiliated and ignored by Xuan Huangzi is really nothing!

At this moment, all the pity and anger of Zhao Lingxuan's heart have been unknowingly turned into hard hatred of hatred, even the whisper of his mouth, like the **** from the nine secluded Sen Han, who wants to tremble with emotion: "Is this my red dust refining heart? Xianmo red dust? Hahaha..."

"If the so-called Xianmo Avenue, you need to use such a pain of red dust to cultivate your heart, then I don't want it. Although Xianmo has a way, it is not a lonely mountain!"

"Red dust is too painful, Xianmo does not know the way! Since today, I will not have any pains and pains in Zhao Lingyi. Since then, I have sacrificed this red dust fairy, and I have no intention to abandon the fairy road, and the magic road has never been decided!"

"Long Xuan, I will marry you one day, and sacrifice your magic dust with your head!"

With the whisper of a whisper in the mouth, the breath of Zhao Lingqi's body quickly changed, just over a minute, the fresh dust, the peerless and independent arrogance and thoroughness Disappeared, and evolved into a kind of icy cold, cold, ruthless, and more boundless resentment in raging, killing the sky...

"boom!"

"Hey..."

Like the thunder and thunder, Zhao Lingqi's cultivation in this body is in such a moment of madness. Originally, only the original seven-order cultivation was the realm. It was so full of surprises that it directly crossed a big realm and stepped into the seventh heaven. territory!

Looking up and screaming, hate and blame!

Even the long, shiny black hair seems to have been assimilated by some mysterious power. When accompanied by the mountain wind and violent dance, it is full of frost at the speed visible to the naked eye!

Shortly short three interest, full of black silk, it was completely transformed into a silver hair, Zhao Lingyi at this moment has completely changed, from body and mind to soul, there is no reservation.

The arrogant woman of the sky, a roar of magic dust!

"Miss, what's wrong with you?"

"God, your hair..."

"What happened in the end? Lingbi, you look so terrible now, don't we be so good? It's too scary!"

As Zhao Lingying screamed and screamed, his brain was blackened with hoarfrost, and several prostitutes who had witnessed all of this had already been scared. While whispering, they subconsciously slowly retreated and trembled. At this moment, Zhao Lingyi suddenly became unfamiliar in their eyes, fearful, and did not dare to approach!

"Even you... have to abandon me and go?"

Zhao Lingqi suddenly turned around, full of silver flying, the veil on his face has long been lost, and went with the wind.

Reflected in the sights of several prostitutes, it is a face that is extremely extreme, beautiful and evil, covered with a layer of faint black air. If it is hidden, the light is like two sharp edges. The sharp edge of the blade, the invisible obscurity, actually reveals a chilling cold and chilly, killing!

"Since I don't want to accompany me to the magic dust, then I will send you a journey, go ahead!"

"boom....."

The roar of the roaring sounded from the sky, a majestic but chilly cold and cold to the extreme black air, without any warning from the body of Zhao Lingyu suddenly rushed out, no points stagnation, half-feet has already come crashing I will completely cover the prostitutes who are stunned not far away...

"Hey!"

Just after the appearance of several prostitutes was drowned, and at the same time as the enchanting magic of the awning, the emptiness of the mountain was far away, and a familiar Fengming whistle came from afar.

The whole vast expanse of Tianzhu's eyes will be black and a half, and the undead phoenix will be swaying in the air, and a black awn will be blasted, and will come instantly, wrapped in Zhao Lingyu, who is full of magic and sorrow...

Chapter 3207: return

In the third universe of the universe, the two sides of the Terran forces in the crack zone of the east side of the death star, the piece of the death star that stunned a while ago, causing a huge sensation.

A secluded man suddenly appeared without warning, and it was fleeting!

"call out!"

As this almost invisible sound broke into the ear, Ye Xuan's brain also sounded a familiar system prompt: "Hey, congratulations to the host, the cosmic coordinates jump is complete!"

In the next moment, a long-lost feeling of weakness immediately flooded into the whole body and mind of Ye Xuan. The side effects of the previous Tianzhu Shentong were finally surviving after completing this coordinate jump.

Ye Xuan's current cultivation is far from being comparable to the past, and this time he applied the 陨天弓, he was injected into the giant bow and the fetus, and the power of the energy arrow was only less than 90%. Only.

Such a strong sense of weakness should not have come. Everything is because Ye Xuan is after the sacrifice of the Tianzhu bow. When the state is not restored, the universe coordinates jump immediately!

After all, it spans the distance of more than half of the cosmic plane, and is still between the suffocation. In the whole process, whether he is the flesh or the god, the pressure can not be ignored!

"It seems that the repair is still too weak. If the next time you are seriously injured, you should start this kind of coordinate jump. After you finish it, you can't faint on the spot?"

After looking at the situation in the body, Ye Xuan shook his head and laughed at himself. Then he waved a large amount of star nucleus from the immortal world. All the bones and brains were thrown to the phagocytic system, and the full speed star was immediately released to the system. Nuclear energy instructions.

After doing all this, he sat down on his knees, so hovering in the void of the deepest part of the Death Star whirlpool, closed his eyes and entered the state of cultivation, fully extracting the energy of the star nucleus, refining it, and restoring the state!

After half a day, Ye Xuan opened his eyes and smashed a slap in the face. He threw a large amount of star nucleus under the blood and launched it. In a short day, his state was completely restored. The strength reached its peak!

Unfortunately, the expected system sound did not appear, quietly waited for about ten seconds, Ye Xuan only smiled again, shaking his head and sighing.

In order to recover as soon as possible, this time he took out the source of the star nuclear that was thrown to the phagocytic system to extract energy from the immortal world. Not only the number is huge, but the grade is equally amazing. There are three whole nine colors.

According to his estimation, in addition to the three nine-level nine-color at the same time, in addition to allowing him to quickly and comprehensively recover, the probability of repairing the realm again is not small.

This kind of thing is what he dares to think about. The key is that the surprises come too often, and they are getting used to nature!

As a result, this repair has not been able to break through unexpectedly, so that he has a faint sense of loss in his heart!

"Is it because after entering the black hole, even the top quality star nuclear energy such as the nine-level nine color, has been greatly weakened?"

Thinking of this possibility, Ye Xuan became more and more uneasy. If this is the case, the future cultivation can be a big problem. Although the cultivation resources he has in his hands are not only large, but also many types, but at the energy level. Beyond the nine-level nine-color star nuclear source, in addition to the one hundred and seventy-one pieces from the ancient prison cage, he has been treasured by him, and he did not dare to use the Jiu Jin Jin Jing, but he could not find the first time. Two kinds!

In fact, Jiu Jin Jin Jing is not weaker than the nine-level nine-color star nuclear source in terms of energy grade, and even quite exceeded, but the properties of the two cultivation resources are different.

The origin of the star nuclear belongs to the general-purpose cultivation resources. No matter the human strong or the second universe, the various ethnic groups of the different universes, even the magical and robotic ethnic groups are no exception. All of them can be directly and smoothly collected. The star nuclear energy can only be refining after being introduced into the body!

As for the speed of the collection, it is another problem, nothing to do with it.

The Jiuyi Jinjing is completely different. This kind of cultivation resources only has an excellent increase and reinforcement effect on the spiritual strength. The improvement effect on the cultivation of the strong people of the human race and the improvement of the gods are basically equal to zero.

It is completely negligible!

The same is true of all the other sacred crystals, even the ordinary magic star.

Therefore, even if the 107 pieces of Jiujing Jinjing in the hands of Ye Xuan's hands are of better quality, they should be replaced by the nine-level nine colors, which will be used as a breakthrough moment in the future. , a quick breakthrough, this is simply impossible!

What's more, Jiu Jin Jin Jing has a total of only 107. In the future, when the spiritual source of nuclear evolution has evolved, they have to rely on them to make a big beam. Ye Xuan does not dare to squander easily.

"It should not be repaired to the point of being promoted to the black hole. Otherwise, why should those who have cultivated the realm far beyond the black hole be so eager for the nine-level nine color?"

“Is it because I have used a few pieces before?”

"The cultivation of the flesh and the power of the gods have obvious resistance to this top star nuclear energy. For this reason, the breakthrough effect of the nine-level nine-color bottle will be greatly weakened invisibly... ”

In the muttering, Ye Xuan's mind flies and quickly analyzes the possible factors that caused this unexpected situation, and gradually got the answer!

Although this statement is still only a speculation, it has made his whole heart sink into the valley in an instant.

It was hard to get into the ranks of the black hole strong. He was still looking forward to making persistent efforts, and rushing to the hole and the void in the shortest time... until the mighty world.

However, at the moment, if we do not solve this problem and find a cultivation resource that is sufficient to replace the nine-level nine-color star nuclear source, at least the energy grade is better, the speed of his repair will be stagnant from then on, and it will be difficult. In the past, it has been like a leaping leaping!

"Fortunately, a large number of sources of engulfing have been harvested before. Although after entering the starry environment, the source of engulfing has been reduced to the systemic currency for exchange only, and it is impossible to refine and integrate, to improve the blood and improve by directly extracting its energy. Repaired for..."

"But this thing is obviously very extraordinary. Even in the background of the stars, the top forces including the Heavenly and the Commonwealth are equally eager to see it, and this will only show its value!"

In the thought of this, Ye Xuan suddenly felt a spirit, and some of the original feelings of sorrow were once again soaring, and even a little excited.

All the top forces in the three cosmic planes, including the Tianzu clan, are all eager for the devour of the source crystal. However, there is no power from any other force. What is the specific role of leaking this rare resource? Abnormal, revealing surprise.

"Is there any other use for phagocytizing the source crystal? I have never known the phagocytic system, can't I master it?"

Thinking of this possibility, Ye Xuan became very curious, and immediately issued instructions to the phagocytic system, and fully launched data analysis and search...

Chapter 3208: Golden cave

After some hard work, the result was that Ye Xuan was disappointed!

The data in the internal database of the phagocytic system about the source of the phagocytosis has not changed at all, and everything that can be learned is the same as before.

Even after Ye Xuan provided various clues and asked for systematic evaluation and analysis, there were no particularly constructive new discoveries, and he was busy.

"It seems that some of the thoughts are too simple. The major forces of the three cosmic planes are so keen on engulfing the source crystals. They must have known some hidden secrets. Unfortunately, the news was blocked too tightly. Nothing leaked out."

In the end, Ye Xuan could only helplessly give up temporarily, shaking his head and sighing: "It is a pity that the ancient heritage tower has been transferred to the body of the phagocytosis. Otherwise, the **** of the dust is the tenth house of the sixth palace." A glimpse of the soul, most of them can know a little inside, but it is difficult to count on him now."

The murderous soul of Tianzizi was directly thrown into the ninth floor of the ancient heritage tower through the phagocytic system. Even if it was still lingering, it had not fallen, and there was no way to call it in a short time!

Then, Ye Xuan remembered the empty and mosquito-killing ghosts!

The identity of the empty blog is not very clear to him. The latter has always avoided this issue, but according to Ye Xuan's estimation, even if it is not the top of the royal family of the immortal dynasty, it must have a presence with this kind of existence. An unusual relationship, for the secret of phagocytizing the source crystal, he may be able to learn a scale and a half claw.

After returning to the Triumph, you can get in touch with the immortal star, and try it.

As for the mosquitoes, the old ghosts don't have to say much. The old guys are at least able to compete with the tenth house of the sixth house, and he will sit on the sixth house of the black city. The main lord of the palace, Huai Dongzi, retired, and flew thousands of miles away, which can be described as fierce!

Since then, the mysterious degree of the old guy in Ye Xuan's heart has even surpassed that of the crazy mosquito king.

I haven't taken care of it before, but now everything in the sixth house is over, and Ye Xuan's deity has returned to the death star. After arriving at the Arc de Triomphe, he must first explore everything. This opportunity, just to ask the mosquitoes and ghosts about the secret of phagocytizing the source crystal.

Under the slightest mind, Ye Xuan then entered the system exchange store for viewing.

In the previous death of the star, the harvest of Ye Xuan is extremely amazing. There are more than 56,000 pieces of phagocytic sources, and hundreds of other rare minerals are as close as 10 million!

Other rare mineral deposits are not cultivation resources, and most of them are important elements and materials needed for refining and technology manufacturing. Ye Xuan intends to return to the Arc de Triomphe and hand them over to Naples. The development of the Arc de Triomphe and the entire fleet needs to be accelerated. These mineral resources are urgently needed.

As for the more than 56,000 devour source crystals, Ye Xuan is going to leave a part, and the rest are used for redemption. After the phagocytic system is upgraded to the starry sky level, all the items in the system exchange store have been fully updated. Some things are Ye Xuan has looked at the heat, but unfortunately has not been able to exchange.

Now the opportunity is finally here.

He even hopes to see if he can find the urgently needed resources in the system exchange store that can be used to replace the nine-level nine-color star nuclear source and better energy quality!

With this expectation, Ye Xuan plunged into the system exchange store and was excited to browse and browse.

In the system's own redemption store, the host can be exchanged for a variety of things, such as the gods, medicinal herbs, martial arts, treasures, scorpions and the like.

Before entering the starry environment, Ye Xuan once upgraded the system with the source of engulfment, thus gaining some powerful blood, such as the blood of the sword god, the blood of the

**** of war, the blood of the undead, and so on, each of which has different abilities. Unfortunately, after entering the vast starry sky, these blood vessels were cleared by the system.

At the same time, the system redemption store has also been updated to provide a large number of cosmological bloodlines!

However, the universe is tens of thousands of people, but the blood of most races is not influx. The system has once given a source of devouring, but Ye Xuan has never used it.

Only one devour source crystal, in the system exchange store, can be exchanged for only the most common blood and treasure.

At the moment, Ye Xuan's phagocytic source is a lot of crystals, but because of the ancient golden dragon's blood, it is more mutated and evolved into the nature of the dragon. If at the same time, there are two kinds of ancient bloodstains, The cosmic bloodline that can be offered in the store is completely out of sight.

Some of the cosmic bloodlines are quite good, such as the blood of the Taikoo Leilong, as well as the demon phoenix, the giant-tailed fox, the golden flame eagle, the scorpion-winged Dapeng, the swallowing scorpion, the diamond squad, and so on. If it is redeemed, hundreds of thousands of devours, and thousands of them.

Ye Xuan had been hot before, and now his vision is completely different.

In addition, there are a large number of cultivation exercises, magic weapons, even fighters, battleships, fortresses, etc. in the system exchange store. Ye Xuan carefully examined them one by one, and soon found a problem that made him laugh and cry.

Of these massive treasures and resources that can be exchanged, nearly half of the leaves are basically no longer needed, or there are similar things in their hands.

After all, he first packed up and took away all the resources that the Demon Scouts had been collecting for decades in the funeral domain. Later, they ransacked in the Devil's Field, and even more than 10,000

in the Warriors. The federal elite has smashed a lot of treasures in their hands, and the collection has long been extremely rich and complex.

For this reason, in the system store where the exchange of resources is huge, there are only items and treasures that are exchanged for Ye Xuan, and only half of them are in the blink of an eye.

Of course, just this half is still a huge amount!

The problem is that among the top-level resources, there are only 80% of Ye Xuan who have no right to redeem. There is no qualification for accessing their specific attribute information. Except for a defective product name, everything else is displayed by question mark, including redemption. The amount of phagocytic source crystals required.

Obviously, these top resources are not yet open, and some conditions are not yet met.

Although the remaining two are not in this problem, but the exchange threshold is high and scary, it will take thousands of Yuanjing to exchange, and there are no more than a thousand, but tens of thousands and hundreds of thousands of high-priced exchanges are dazzling. Looking at the back of Ye Xuan's cold sweat, he suddenly has the feeling of ordinary people visiting the top luxury stores, too scary!

He originally thought that he should be able to count on his body, but now he stumbled around in a circle and suddenly found that he was holding a few tens of thousands of devours, and he had not been out of poverty for a long time!

Ordinary goods do not look good, do not need, the exchange price of good things is tens of thousands of people, this is what is the exchange store, it is clearly a horrible sales cave that eats people without bones!

Chapter 3209: Robbery

After a round, Ye Xuan was disappointed!

The mid-term can temporarily replace the nine-level nine-color star nuclear source, and the better cultivation resources in terms of energy quality have not been found!

Perhaps the exchange price at that time is still a question mark, and there will be items that are not normally open. But the result is the same, even if it is true, there is no point at the moment, Ye Xuan even does not have the qualification to exchange!

Disappointed, he reluctantly left the matter behind, and continued to browse other commodities, gradually becoming aware of the final selection direction!

From the beginning of the initial entry into the starry environment, until now it has finally entered the black hole and become a true star power. Ye Xuan is a difficult step forward. If it is not a gas-powered anti-sky, I am afraid that it has already fallen for many times.

What is embarrassing is that in the various crises encountered in this process, Ye Xuan is mostly relying on external forces to resolve, such as the soul of the blood, such as headless baby bodies...

Although these external forces are indispensable for the strong stars, they are part of the overall strength. It is inevitable to rely on the initial stage of repairing too weak. Otherwise, it will be degraded. If it has not grown up, it will die in the middle.

But now it is different. Entering the black hole has officially entered the ranks of real star-studded powers. The subsequent growth path is even more difficult. Qiankun Power can only be regarded as another higher-level starting line. It will even involve the perception and control of the law of the universe.

From now on, Ye Xuan must rely on his own strength, step by step, and be truly strong in life and death. Otherwise, the starry road will be harder to go further!

He decided to improve his combat power as much as possible and be prepared for it.

He can only improve step by step in terms of strength. He already has the most advanced blood, exercises and magical powers. This aspect is no longer needed, but the basic treasures of the three star-studded fighters, including warriors, warriors and warships. However, there is still room for improvement.

At least you have to upgrade all of their grades to the standard of starry sky!

In addition to not destroying the glazed glaze, there is still a need to carry out another fusion. There are still two pieces of this upgraded order, namely the snails and the blood-stained tears!

These two treasures are now star-level epic, and the snails have undergone six fusions, while the blood-stained tears are five times.

Soon, Ye Xuan found two redemption items from the system exchange store, which is the best thing to use to integrate with them and improve the quality.

In addition, he also exchanged two extremely rare Tiandi treasures, intended to enhance their blood and supernatural power!

A total of four items, but the more than 50,000 pieces of phagocytic crystals in Ye Xuan's hands consumed 90%, only a few thousand in the blink of an eye.

Although there was some pain in the real thing, Ye Xuan finally submitted a redemption request with a bite, and directly confirmed that the next moment, the familiar system prompt sounded in my mind!

"Hey, congratulations to the host, the exchange is successful! Four treasures are selected, and the total amount of money to be swallowed is 50,800, and the system is automatically redeemed!"

Ye Xuan's eyelids jumped slightly and subconsciously explored the body. The group of devours that he had earned from the immortal world did not have much left. It should be directly consumed by the system. After all, the exchange goods provided by the system store could not be changed out of thin air. The blood and the magical powers, the exercises and the like are also worthwhile, and can be stored in the system as data.

But the leaves that Ye Xuan exchanged are not rare treasures, but rare minerals. They are all physical objects. The system digests the engulfing source crystals, transforming the energy into a mysterious way that Ye Xuan can't understand and understand. Four treasures exchanged by Ye Xuan!

Such a method is really amazing. After entering the starry environment, Ye Xuan was the first to exchange treasures from the system store.

At the same time, the system sounds in my mind have not stopped, and they have been ringing together, and the four treasures exchanged by Ye Xuan have been introduced.

"Hey, congratulations to the host, get the treasure! The big five elements of the extinction market: attack the magic weapon, solidify the array. Can transform the energy, turn into five kinds of extinct lightning, can be divided into, can be divided into one body and move the whole body. Wear the earth's crust, collapse the mountains and ruin the mountains. Then annihilate one side, smash the void! Grade: Starry epic level! Quality: no shortage of perfection!"

"Hey, congratulations to the host, get the treasure! The devil blade (fake): It is said that when the heavens and the earth are not divided, there is a domain outside the big devil to lose memory, the mind is no longer evil, converge in the depths of the undead, all day chaos! One day, evil thoughts Completely revived, the Great Devil is born, turned into a dry blade, dark black light, killing endless creatures, the soul of the sorcerer is dead, is the blade of the devil! Grade: Starry epic! Quality: no shortage of imitation!"

"Hey, congratulations to the host, get the treasure! A nose yuan crystal: energy crystal, gather endless, a nose and nine secluded and condensed! Grade: Starry epic! Quality: pure and flawless!"

"Hey, congratulations to the host, get the treasure! Robber Longhua: According to the inheritance of the ancients, the Dahuahua Longduer must have Qidan! Grade: Starry epic! Quality: excellent product slightly!"

"Hey, congratulations to the host, the delivery of treasures is completed, please check and confirm!"

The last reminder sound just fell, Ye Xuan only felt a slight tremor in the body, blinking out of the air out of four different top treasures, is the exchange of the system delivery.

An egg with large crystals, dark and faint!

This a nose yuan crystal is condensed with the endless suffocation of the nine secluded nose. I wonder if it will be able to enhance the power of the scorpion bow after it is collected. After all, it is the blood of the ancient yak, the latter's breath and this a nose. There are similar, there should be hope!

A golden medicinal herb, shaped like a longan!

This Dan, Ye Xuan is specially prepared for the black gold dragon scales in the sea. Since it is the Daxiehua Longdu to evade Ochidan, I think it will have some effect on Ye Xuan's Dragon Blood, right and try!

As for the big five elements of the extinction, it is only a palm size, looks like a compass, but the surface is etched with countless crepe patterns, the ancient atmosphere is extremely strong, and there is infinite sharpness and vagueness!

This array, Ye Xuan intends to use the virtual system for the seventh system integration, if there is no accident, once this fusion is successful, the attack ability of the hole shuttle will be greatly improved, the ship passed the previous six After the second integration, it has been perfect.

The speed array method, the defensive array method, and the concealed array method are all in harmony. The ship body has more space folding technology. In addition, the short-distance space jump and the ultra-long distance worm hole jumping ability have also been perfected.

Only the ship's main gun is a short board. After all, the hull is less than 500 meters. The caliber of the star-killing gun is bigger, and the sky is 200 meters. Even a 10,000-meter-diameter fortress can't be used. After the horror power of the 20,000-meter-caliber dead-light cannon in the Star Fortress, Ye Xuan's power on the Dongxu shuttle ship to destroy the Star Cannon is really unsightly.

The Big Five is absolutely the hope of solving this short board. Ye Xuan has long been looking forward to it for a long time, and it is only today that he found the right treasure for integration!

Chapter 3210: Dead Blood Blade

The last exchange of treasure is called the devil's blade. The name of this blade is already amazing. When I browsed this kind of magic weapon in the system exchange store, Ye Xuan was attracted at a glance and quickly confirmed Out of this blade.

It is a pity that it is just a replica, which makes him feel sorry!

Even so, its grades have reached the starry sky epic level, the shape is eye-catching, the whole body is dark, the shape of the knife is incomparable, and the fierce arbitrage, although there is no sigh of relief, but invisibly gives a bully unparalleled trend. It can be described as a magical day!

This blade, Ye Xuan is prepared for the Devil's Blood Tears, and they are both swords and swords. I don't know what kind of form will be after successful integration.

In fact, Ye Xuan prefers the appearance of the dead magic blade. Although the sword is strong, but the knife is more domineering, he is more biased towards the latter, and his heart has been looking forward to it!

Just as Ye Xuanxing sent the four pieces of redemption treasures to the Philippine, the system sounds in the brain sounded again, and two more, and asked Ye Xuan whether to open the auxiliary system immediately and expand the fusion!

"Hey, congratulations to the host, and found that you can fuse treasures: Devil Blood Star Tears, Devil Blade! Is it immediately integrated?"

"Hey, congratulations to the host, and found that the treasures can be merged: the hole in the virtual shuttle, the big five elements in the extinction market! Is it immediately integrated?"

Ye Xuan did not hesitate, even if he made a definite reply, and still merged twice simultaneously!

After the decision, he waved his hand and then re-entered the demon blade and the big five-line extinction. At the same time, the cave and the blood-stained tears are also handed over to the phagocytic system, including a large number of stars that have just been taken out of the immortal world as the source of energy consumption during fusion!

In the original Xuo Xuan, there were a thousand mosquitoes, a thousand soldiers, and the one thousand slaves who were commanded by the sea. If the system is integrated, all life in the ship must be evacuated in advance.

However, this issue does not need to be considered now. Before Ye Xuan deployed outside the Death Star whirlpool, all the forces in the dongxu shuttle have been completely removed, and it has already been empty!

Everything is ready, and the system sounds at this time.

"Hey, congratulations to the host, the **** star tears sword began the sixth fusion! Progress 1..."

"Hey, congratulations to the host, the seventh fusion of the hole shuttle begins! Progress 1..."

Ye Xuan Changsong breathed a bit, and the heartstrings were inexplicably tight!

From the beginning to the end, although his warfare, armor and warships have been merged many times, they have never experienced a failure. Up to now, they have succeeded six times in succession, and the virtual shuttle has reached seven consecutive successful mergers. .

But the more likely it is to fail to merge later, the same, the more it goes to the back, once the fusion fails, in Ye Xuan, the loss will be more and more serious, and it will be a little embarrassing at this moment!

The more times the fusion succeeds, the more time it takes to continue the integration, and the time it takes is also high. This is really a torment. The integration of the two treasures of this warship is also unfolding at the same time. I am afraid it will take at least six or seven days. In order to have results, it is really speechless!

Soon after, Ye Xuan finally calmed down his mind, no longer entangled the result of the fusion, throwing the matter behind his head, and then taking out some of the soul beasts, anyway, idle and bored, just practicing spiritual power to pass the time!

After closing his eyes and knees, Ye Xuan entered the state of cultivation, and soon I forgot both, letting time pass, no surprise!

I don't know how many days later, Ye Xuan finally withdrew from the state of cultivation, his eyes just opened, and the sound of the engulfing system was heard in the brain. The integration of the warriors and the battleships was finally completed!

"Hey, congratulations to the host, the blood of the tears of the sword is the sixth fusion success! Get the treasure of the demon blood blade! Grade: the starry sky to the treasure! Quality: no shortage of perfect!"

"Hey, congratulations to the host, the success of the seventh virtual fusion! The grade: the starry sky to the treasure! Quality: no shortage of perfect!"

Unsurprisingly, this time the integration of the two treasures unfolded at the same time, the results were still successful, no accidents, let Ye Xuan loosen the tight heartstring.

Surprisingly, after the two treasures were successfully completed this time, the grades were all upgraded to the standard of the stars to the treasure, which surprised him.

At this point, Ye Xuan's warriors, armor, and warships have all three of the most basic stars and treasures, all of which have reached the level of the starry sky to the treasure. If they are known, it will cause an earthquake-like sensation. The fortune-made treasures of the day after tomorrow are more than those bred by the heavens and the earth like the Lei Di Yin, and basically the starry sky to the treasure level is already the peak.

In addition to the life fortress Longye, the pioneer of Terran Technology, Ye Xuan has not heard of the second star-studded fortune!

The name of the Dongxu shuttle ship that completed the seventh fusion has not changed, but the embossed surface on the surface of the hull is more complicated. The dense eyes look dizzy, which should be the big five elements. The plate is thoroughly integrated into the hull, which is the result of comprehensive coverage of the pattern.

As for the increase in the attack power of the hole and the specific power after the start of the battle, Ye Xuan has not explored it for a while, and there is time to find a suitable void to open the battle, and he will know it several times.

After waved his hand into the body, his eyes turned to the warrior's **** blade!

Ye Xuan, the name of the sword of the Devil's Blood Tears, didn't like it very much. The **** blade of the Devils listened to more ears. More importantly, after completing this fusion, the shape of this warrior has changed dramatically. Before, it was a sword, but now it is a knife, and it is still a whole body of black and bright, with fine blood and full cloth, and the shape is even more arrogant and superb!

It's perfect, Ye Xuan's glory is fierce, and he has been playing with enthusiasm for a long time, but he can't even pick a trace of it, so satisfied!

It was not until the mind was calmed down again that he suddenly remembered the sword spirit that was born in the body of the Devil's Blood Sword. After this fusion, the Star Tears Sword has completely changed into a stunning sword, the original sword spirit. Will not be wiped out because of this?

Thinking of this, Ye Xuan's heart jumped slightly, and quickly injected the knowledge into the magic blade for exploration. The result was a false alarm. The sword spirit was still there, but the breath changed, and the familiar blood and blood was fierce. A very secretive meaning of the magic tyrant is even more amazing.

However, it has fallen into a deep sleep, and seems to be brewing some kind of change.

"This is clearly influenced by the evil spirit of the murderous blade, which leads to the rhythm of the evolution of the sword spirit. It is simply an unexpected joy!"

After thinking a little, Ye Xuan soon became aware of it and was even more delighted.

After completing this metamorphosis, the sword spirit will only be stronger. This change is superimposed on the **** blade of the devil. The most direct influence is that the magic of this blade is more prosperous. Ye Xuan is looking forward to it. He can't feel it immediately. This superb savage blade is the ultimate magic!

"The four characters of Jianling Magic Blood are not suitable, but the word "King Ling" is awkward and awkward..."

Happy to play, Ye Xuan muttered to himself, abandoned the name of the previous sword spirit, and laughed loudly: "It is the blood of the devil, the spirit of the blade is simply named after the devil, it is perfect, hahaha..."
