Chapter 321: Single headed holy beast

"Can you ask Yang Cheng to order the blue moon bird to fly to the center of the island? I have something to do." Ye Xuan replied.

When the words came out, Song Dynasty immediately exclaimed: "Ye Xuan, you..."

The Song ruling on the side also reacted and his face changed.

"Reassured, I have a sense of proportion, believe me." Ye Xuan said well.

Although this is said, the Song Dynasty is still looking worried.

Yang Kaideng paused, he felt a bit of something wrong, and there was a conjecture in his heart.

"This kid, it won't be..." After Yang Xinzong said a word, he nodded and said, "Okay."

At the moment, he ordered the blue moon bird to fly toward the center of the island. In a short while, he came to the top of the cave.

"This is the dragon's lair..."

A group of people are all coming out.

"Please ask the seniors of Yang to wait for a while..." Ye Xuan said, he jumped directly from the sky of hundreds of meters, and jumped into the cave.

Everyone was scared, but the next moment, they saw Ye Xuan's back condensed a pair of wings.

"Let me see the power of your holy beast!"

Ye Xuan is still in the process of falling, he directly took out the Eight Desert Sword, and then aimed at the dark cave is a burst of attack.

"Boom!" "Boom!" "Boom!"

Jianmang bombarded the stone walls of the caves and shot down countless times.

The group of people on the back of the blue moon bird is already shocked.

"What is this kid doing?"

"He shouldn't want to lead the Bohai Dragon?"

"No, he is going to single out the dragon!"

"I am really looking for death. Even the old city owner of the original city died in the hands of Bohai Dragon. What did he do?"

Everyone is going to Ye Xuan to cast a weird look.

In their view, Ye Xuan's approach is to find death.

On the other hand, Song Chongjing and others are also holding their breath and watching with anxiety.

Is it really possible to go to the holy beast to challenge the dilemma?

At this moment, the cave was also quickly crawling out of a huge guy, it was the dragon.

This dragonfly has a huge body, and the dragon head to the dragon tail is at least 100 meters long. It is covered with a layer of dark blue scales, each of which is larger than Ye Xuan.

Ye Xuan looked at the dragon and the dragon, and quickly retreated. He held the eight-year-old sword in one hand and watched the dragon and the dragon with vigilance.

"Sure enough, this kid is trying to single out the sea dragon!"

On the back of the blue moon bird, everyone was shocked.

Yang Kai is also looking at his face with dignity. He is already ready to make a good shot.

"Roar!"

Bohai Qianlong climbed out of the cave and snarled at Ye Xuan. The rolling air wave also blown a large piece of wood behind Ye Xuan.

At this time, it suddenly turned to look at the sky, and Yang Kai looked at each other.

It feels that Ye Xuan in front of him is not enough, but there is a strong breath in the air.

However, at this time, Ye Xuan faced the dragon and the dragon, and the blood of the beasts in the body began to boil.

"A strong and powerful pressure, if there are people in the land, I am afraid that it will be shaken."

Ye Xuan's heart is a dark sentence.

This time, he really wants to see the ability of this dragon, because he needs a dragon's blood.

Dragon blood!

Yes, it is dragon blood!

When he was in the Datang Dynasty, he broke through to the human world and raised his blood to the advanced level.

After breaking through to the heavenly environment, he discovered a problem. He wanted to raise the blood of the beast to the blood of the beastmaster. What he needed was not a lot of blood, but three different dragon blood.

Although there are dragon characters in the name of Xiaolong, Ye Xuan does not know that the dragon's blood is not considered dragon blood.

So this time, he wants to explore it. If the dragon blood is also a dragon's blood, then he can raise the blood of the beast to the blood of the beastmaster.

"Roar!"

This 沧海蛟龙 screamed loudly and rushed toward Ye Xuan. A front paw explored and wanted to smash Ye Xuan directly.

Although the sacred beast of the dilemma is very strong, just now Ye Xuan also saw the speed of this dragon. He estimated that after breaking through to Xiaodan, he should be able to hide.

"If I fight strength, I am definitely not an opponent, so I can only use speed."

Ye Xuan thought in his heart, his body flashed, and he escaped the claw directly, and then swept under the belly of the dragon.

"The eight wild winds kill, the sky breaks!"

Eight wild swords collapsed instantly, forming a sharp cone and directly drilling toward the top.

"Hey!"

There is no scale on the abdomen of Bohai Dragon, but even so, Ye Xuan's breaking through this day has no effect.

"Sure enough, it is not a holy beast." Ye Xuan secretly thought, once again, the sky was broken and attacked the same position.

Bohai Xiaolong only feels a little * in the abdomen, and immediately turns around and stretches his claws to catch Ye Xuan.

"call out!"

Ye Xuan's speed is very fast, and the claws are once again caught on his afterimage.

"The eight wild winds kill, the sky breaks!"

Ye Xuan once again exerted the strongest attack.

Three days of breaking through, still can not break the defense of the Bohai Dragon.

Dan Yuan in Ye Xuan's body is already consuming light. He swallowed a medicinal drug quickly, and Dan Yuan instantly recovered to its peak.

Then, continue to attack the abdomen of the dragon.

At this time, those people on the back of the Azure bird in the sky were already shocked and could not speak.

They thought that Ye Xuan was looking for death, but did not expect that Ye Xuan had the ability to fight with the Holy Beast.

You must know that there is a life in the hands of the sea of dragons and dragons.

However, after they saw the look of the 沧海蛟龙 under the 'hands and feet', they didn't know what to say, just watched quietly.

"The speed of this kid, although not as powerful as the dilemma, is already beyond the ordinary circumstances of the heavens. If he is allowed to break through to the dilemma, then..."

Yang Kai also secretly thought in his heart.

Suddenly, the movement underneath was big, and he stared at it and found that the dragon was mad.

Ye Xuan has been hiding under the abdomen of his attack. It can't catch it, so he has to move around.

"Oh, fortunately, there is a speed increase of 10%, otherwise I can't really keep up with you!"

Ye Xuan, who is under the dragon, said to himself.

However, from now until now, he has used more than ten days to break through, and the attack is still in the same position.

Even so, he still can't break the skin of the dragon.

"It seems that we still have to wait until the day is in the sky." Ye Xuan thought.

His realm is still too low. If he breaks through once, not only will the strength of the Danyuan increase, but even the eight wild swords and two cards will increase.

He estimated that by then, he could break the defense of this dragon.
