

Super D. S 3221

Chapter 3221: Storm clouds

This time, the Tianxing Star can be described as a gathering of all the forces, and all the family gates and major forces in the entire immortal dynasty territory have gathered together.

In addition to the top-level forces that have been formulated with nine-stage fluids, such as Bodhi Technology, Tianzun Bio, and Shennong Gene from the imperial star of the imperial dynasty, all the top occupants of the three empire that have the ability to prepare the eighth-class liquid have come.

The three empires of the immortal dynasty were the Heavenly Empire, the Heavenly Empire, and the Heavenly Empire.

The top three families of the Tianming Empire are the Xuanyuan family, the Huangfu family, and the Nangong family!

The three major families of the host empire are the extensions, rams and long fish!

As for the Tianfeng Emperor's family, the three major families that have formulated the eight-grade liquid are the Duanmu family, the Wuma family and the Shentu family.

In addition, there are some scattered families and forces that are not from the Imperial Capital and the three major emperors. They also have the ability to formulate eight-grade fluids, namely the Huyan family, the Baili family, and Pengcheng Pharmaceutical and Life Gene. !

The entire immortal dynasty, the top force in the field of research on gene culture fluids, is the above-mentioned families and forces. It can be used to prepare the existence of the eighth grade liquid, three emperors, three emperors of the three empires, and the scattered forces. There are four gate valves and a total of sixteen.

Of course, among the sixteen top forces, the three from the emperor's immortal star have always been detached, because they have the ability to prepare the nine-level liquid, it is the dynasty giant!

But now, even these three great dynasty giants, after coming to the Tianshou, are a bit low-key. After all, the Tianxingxing extension family has successfully formulated the ten-level liquid, and later came to the top, the gene culture in the entire dynasty. The field of liquid research is already a big one.

In this regard, the other 15 top-level gates and forces have sent important ethnic groups to participate in the exchange meeting, but all of them are screaming at each other, and they are not satisfied with each other.

In the immortal dynasty, the top forces in the field of gene culture fluid research, it is still the first time to hold such a large-scale exchange party. Although there have been similar activities in the past, it is basically the exchange between their respective empire and even some small countries. As it is today, the three empires of the entire dynasty and the top of the scattered forces gathered together.

In this kind of event, the top 16 powers and gatekeepers who came to participate in the exchange, in addition to sending a leader of the big man who can sit on the side of the town, and dispatching a group of real technical elites to come to exchange, the pulse of their respective forces The heirs, all of them have also rushed over.

For example, the Xuanyuan family, one of the three top-level gate valves of the Tianming Empire, the heir to Xuanyuan Ziyang came to the Tianxing Star.

The other 15 top-level door valves and family leaders, heirs, and the like are all coming, because for these gate valve families that study gene culture fluids, the fundamental source of whether the future of the family is still brilliant is the study of gene culture fluids. Prepare!

However, although they all have the ability to prepare more than eight grades of liquid, the subsequent research has become more and more difficult. Now that the crisis has arrived, the family has become the only one. If there is no action, it will soon be thrown away. In the end, it was gradually lost, and it was gradually forgotten by history.

In the face of this crisis, the other 15 top-level door valves all have countermeasures, and marriage is one of their many countermeasures.

The top-level gate valves and families that study gene culture in the territory of the dynasty have their own different secret recipes and secret recipes in their hands.

However, if they are married to each other, there will be no more suspicions between the two gates. At least they can cooperate with each other to a certain extent. Perhaps they can make a breakthrough. They can't say that they can surpass a single extension family, but they can guarantee The two major families of the marriage basically solved the crisis and were not thrown away by the general trend. Since then, it has been promising!

With this kind of thinking, the top-level gatekeepers and forces in the research field of gene culture fluids in the territory of the dynasty, after arriving in the sky, have not yet officially started, and they have moved around each other daily. This contact feeling.

Of course, this is basically the exchange between the older generation and the older generation. The younger generation and the younger generations meet each other, but it is also quite lively!

It is in this case that Ye Xuan arrived at the Tianxing Star.

All the way from the death star field, when Ye Xuan arrived at the Tianxing Star, there were only five days left before the official meeting of this event, and there was a slight delay on the way.

Before entering the Tianxing Star, Ye Xuan has made a change in his appearance. Today, he is a very rough trio, and it is completely different from the seemingly gentle and fascinating Emperor. Anyone who sees him now, it is absolutely impossible to go to Xuan Huangzi to Lenovo.

Of course, this kind of shape change technique is a small skill in the starry sky environment. It does not mention the great power of the sky. It is the starry sky power that generally surpasses the two or three big realms of the change. It can be seen at a glance, but Ye Xuan There is no head and baby corpse, but this is no need to worry, it is the power of Qiankun, it is impossible to see his original identity.

In order to avoid identity leakage, he even took the pet beast ring that he had been wearing at his wrist and threw it into the hole, so that he could not be seen by a person who knew him, such as Xuanyuan Ziyang, and analyzed his Identity.

So far, the pseudonym, Ye Xuan used this time is Linghu Chong!

The top gates of the dynasty were basically surnames. Ye Xuan made some research and found that there was no such thing as the top door valve of the fox, and even some other small country gates did not have the name of the fox, so they decided to use it. !

After the Tianxing Star, he even used the personal starry sky system to connect the Tianxing Star's internal star network, and issued a conditional search to the system, and soon gained a harvest, knowing that the top-level door valve was the next generation of Tianjiao. Today, we gathered at the Qingjiang Tower. In order to find out some internal news from the guys, he even rushed over.

Qingjiang Tower is very famous in the Tianshi Empire. It is located on the edge of a vast inland river in the Imperial Capital. This river is named Qingjiang.

The entire Qingjiang Tower is up to 18 stories. Generally speaking, more than ten floors, only some of the high officials of the Imperial Capital have the ability to board, because the consumption is too high, and the people receive not the federal currency, that is, the blank. The star's nucleus crystal is the true source of the star's nuclear energy.

This is a cultivation of resources, ordinary people can not get it, even if the star is strong, who would still suspect that there are too many cultivation resources in their hands, and actually used it for drinking and drinking tea?

Only those big financial valve children and high-ranking officials of the empire will not care about this.

Even so, the ability to climb the 18th floor is still very rare, because the 18th floor of the wine and delicacies are all heavenly, and in addition to landing on this floor, you must pay a seven-level purple Star nuclear source as admission fee!

Chapter 3222: Eighteen floors

Qingjiang Pavilion is in the thunder!

The 18th floor of the dome is the highest building in the outer city except for the emperors of the inner city. The top buildings in the outer city are small. The whole Qingjiang River is visible to the public. This seven-level purple star nuclear source is the price of watching the scenery, even if you don't drink a cup of tea, just wandering around, it will not be refunded!

If you look at a scenery, you have to receive a seven-level purple star nuclear source. This is simply stealing money. The average person will not be a big man.

However, it is absolutely not the case that the top-ranking and extension of the top-notch family is not in this category. Today, he invited the other 15 top-ranking gatekeepers and heirs to climb the Qingjiang Pavilion.

Sixteen people, just the entrance fee for the summit, is the source of sixteen seven-level purple star nuclear, and he is the host of the host, but it is rare to encounter this opportunity. When people come over, they just drink some tea and have some snacks.

At this time, at noon, the extension of the wind is here to prepare a table feast, all kinds of rare animals, spirits and delicacies can be described as everything, are the top quality of Qingjiang Pavilion, this meal down, the dishes at least Hundreds of thousands of seven-level purple star nuclear sources, even for him, is extremely painful.

But if you can take advantage of this opportunity to get close to one of the fifteen top-ranking gatekeepers, leaving a good impression and paving the way for future marriages, it's all worthwhile.

Yes, Tuojiang also has the idea of marriage, but the starting point is different from the other 15 top-level door valves. The other 15 top-level door valves have this kind of idea. The purpose is to strengthen the alliance and jointly cope with the emergence of the extension. The huge crisis brought about.

And the extension of the family wants a top door valve or a force marriage, is to find a reliable partner, after the subsequent entry into the remains of the drug holy, can safely join hands to win the most benefits.

Although the 18th floor of Qingjiang Pavilion is quite large, it is enough for hundreds of people to gather here. However, there are very few people here. Even if someone wants to come today, I heard that some people will give up after they have already gotten their feet.

Basically, it is not a casual pastime that can be chosen for such a golden cave. It is a purposeful feast. In this case, it is naturally inconvenient to live in the same room as other guests. There is only one open

hall on the 18th floor, so in general, as long as the guests have arrived first, the latecomers will be interested, either change the day or turn to the 17th floor below.

At the moment, there is also a table in the 18th floor of the Qingjiang Tower. Apart from the waiters of the Qingjiang Tower, there are only 16 people, such as the extension of the Linfeng, because the boarding of this layer is based on the entrance fee, so even It's the extension of the wind, and there's no accompanying class, and other people are even more embarrassed.

Originally thought that there can be a quiet environment, there will be no unopened guys who know that the 18th floor already has the Lord, but they still have to sneak in and sway, and sweep people, but this kind of accident, but this kind of accident, but this kind of accident, but this kind of accident, but this kind of accident It happened!

The one who came is Ye Xuan!

The figure is rough, close to two meters, full of whiskers, and a gray cloth. It seems that although the momentum is extraordinary, it will be a strong one at a glance, but it gives a feeling of being a tripped, strong but strong. Oh, but it does not belong to the existence of the 18th floor of the Qingjiang Pavilion.

Therefore, Ye Xuancai just walked to the stairs on the 18th floor. When even a waiter came over with a blank expression, he politely raised his hand and stopped it. His eyes were stunned and his tone was extremely cold: "This If you are a friend, please stop. The 18th floor is not ready to be boarded. How about asking the friends to sit on the 17th floor below?"

Although he felt the cultivation of the other side's black hole, and the waiter was only the third-order repair of the fourth largest planet, but in his eyes, when looking at Ye Xuan, he clearly showed the meaning of contempt.

Here is the Qingjiang Pavilion, let alone the black hole, is the existence of the cave, and dare not come here to wild, he is very emboldened, think that it depends on!

The movement here has already attracted the attention of people such as Tuofeng Fengfeng, but they only took a look at this side and they no longer pay attention to it. The table of food that has been set up at the Fengfeng Point has just come up, all treasures, including the top spirit. Liquor, even if the other 15

young people in the room are the descendants of the various gates, it is impossible to be so extravagant on weekdays. A meal is hundreds of thousands of purple star nuclear sources, which is too scary.

Therefore, all the people are all eager to try, and the interest is quite high.

This includes Xuanyuan Zijing from Tiandi Emperor, but she seems to have a lot of thoughts. In the face of such a table of food and wine, there is no smile on her face.

"I think it's quite empty on the top. Why can't you board? Isn't your dog's eyes low?"

Since the current appearance is so rough, it naturally has to be in place in the character. Therefore, Ye Xuan is extremely free and easy at the moment, straight and straight, and when he talks, he blinks and swears.

"you you....."

The waiter was so scared by the black hole strong in his body that he almost fell into the ground, and he realized that most of him was a monk, but he did not open his eyes. This is the case, guess can guess.

However, after a little panic, he quickly calmed down. Think about it here, but Qingjiang Tower, the waiter immediately sneered, daring and strong, and squinted at Ye Xuan, he sneered and said: "This road Friends, you better not to make trouble here, the bottom of the Qingjiang Tower, you go out to inquire about it, as for the 18th floor, hey, as long as you can come up with a seven-level purple star nuclear source, but listen well This is the entrance fee, other consumption... another calculation!"

"Isn't it a seven-violet? I still think that you want nine colors! How big is it, the dog's eyes are low!"

Ye Xuan sneered under his heart, he deliberately so, want to attract the attention of the 16 top door disciples, after all, he did not have the qualification of the top door valve exchange meeting after five days, can only make an idea from these guys.

At this moment, his voice is still very large, the greater the tone, it seems that even the nine-level nine-color star nuclear source is not in the eyes, the words directly turned over, throwing a seven-level purple

The source of the star nuclear, striding up the stairs, after the top 18th floor, turned to look at the first lap, pretending to ignore the 16 top-level gatekeepers, the stalwart squad, turned to thorns Go to the window seat on the other side and sit down directly.

The waiter held a seven-level purple thrown by Ye Xuan in his hand. He was stupid on the spot, and then his face was filled with a shameful color. This guy actually said that he was looking at the dog. low?

It is clear that it is a swollen face and a fat man. It is estimated that this seven-level purple is already his whole body...

Chapter 3223: Drug sacred remains

I have to say that Ye Xuan's words just now are indeed a bit of a suspicion of a big tail wolf, at least in the eyes of the extension and the people.

The third-order revision of the black hole is indeed a master for the waiter, but the sixteen seats from the top gatekeepers and the successors, which are not the black hole of the repair?

In their capacity, they dare not say such words. Even the nine-level nine-color is not the same thing. This person is a distraction at first sight. Why is it so loud?

What's more, the group of people gathered here. The entire 18th floor except the waiter of Qingjiang Tower had only their table, no idlers, etc., very comfortable, but now suddenly came outside, and it is still a kind of appearance. Rough existence, more important is not only a big trick, but also a very temperamental attire. It is simply a big sigh of relief, and suddenly the atmosphere that was originally quite warm is a stagnation.

In addition to Xuanyuan Ziyan still faceless, like thinking about other things, the other fifteen people, some are unsatisfactory.

"Hey, a spit-up, a swollen face and a fat man, this young master is going to see how he can wear it later!"

Today, I finally invited the heirs of the other 15 top-level door valves. The original atmosphere was quite warm. At this moment, it was stirred up by a rough and scattered work. The extension was angered by the wind, in order to drive away Ye Xuan. He deliberately amplified the sound.

With a sarcasm in his tone, he sneered: "Hey, according to the Lord, this person can only look at the scenery on the 18th floor of the Qingjiang River. I am afraid that I can't afford a cup of tea. Looking at me and waiting for a big meal, this is a shameful thing, if it is me, I will leave my tail with a tail!"

In fact, this is exactly his purpose. A good party, he does not want to be disturbed by such a mess that can't get on the table. This is to use words to force Ye Xuan to leave.

As for the cultivation of strength, Ye Xuan showed only the third order of the black hole, and the extension of the wind is already the existence of the black hole nine-step perfection. He is completely fearless, even if it is not the occasion, he is planning to swear by his temper. The lesson Ye Xuan had a meal.

Hearing his words, the Qingjiang Pavilion waiter who was refuted by Ye Xuan was also greatly relieved of hate. The extension of the home in the Tianshi Emperor is the top door valve. This time, the ten-level liquid was introduced. The dynasty, at this moment, seeing that the young masters of the extensions were in the same camp as him, he took the initiative to ridicule him. He also felt that he was greatly relieved.

However, although he could not wait to go immediately, he deliberately asked Ye Xuan if he wanted to order some spirits and delicacies for humiliation, but considering that this guy is a rough man, if he is angry, he will be angry with himself. Suffered from innocent disasters.

Therefore, although the waiter was unhappy, he did not die and continued to humiliate Ye Xuan.

After the extension of the wind, seeing Ye Xuan did not talk after listening to his words. If he continues to do so, he is afraid of a bit of a downsizing. Although he is not willing, he does not continue to ridicule, and he will ignore it with a cold voice. .

After all, this unopened distraction is just an accidental episode. Today's banquet is just a matter of business. Maybe the other party will leave immediately. There is no need to pay too much attention.

As a result, the attention of the heirs of the top-level valves was quickly transferred, and they talked with each other directly, ignoring the existence of Ye Xuan.

Among the other fifteen people, several of them are obviously deliberately close to the extension, for example, the same two top-level gates of the battle star, the ram and the long-fisher's heir, Gong Yangzhi and Changyu Xiaotian. The atmosphere of the two people seeing the banquet at this moment was somewhat unsatisfactory. After turning around and looking at each other, they made a sound and wanted to lead the topic.

"Let the wind, let us tell us about the remains of the medicine. Although this matter has not been officially revealed to the old home, we have already received the news! You have to shirk it..."

"Yes, at the exchange meeting after the 5th, the extension of the old homeowner will publicly disclose the matter. In fact, some of the older generations of my family have already learned some things when they talk privately with the old guys. It is better to squat. Today's feast, Lin Feng brother, I am waiting for a solution?"

"Playing is a yes, anyway, it will be made public in the world after five days. I will wait for a rare trip. I will borrow your Dongfeng and sneak a sneak peek. I will tell you about it. I am told that you are in the process of genetically cultivating liquid. The research suddenly triumphed, crossed the nine-level liquid, and launched the ten-level liquid in one fell swoop. Everything was related to the remains of the medicine. After I heard the incident from the old man's mouth, I had already scratched my heart!"

"Is there still such a thing? Lin Feng brother, this matter can not be sold again, otherwise I am afraid that I am going to sleep hard!"

With the introduction of this topic, the other top-level valve successors who have never heard of this matter are all bright, and they have come to an instant and have been rushing.

Even Xuanyuan Zizhen, who seemed to have a lot of thoughts after listening to these words, also looked at the extension of the wind. Obviously, he was extremely concerned about this matter and had great interest.

When I mentioned this matter, especially after seeing Xuanyuan Ziyang's gaze finally gathered on her body, the extension of the wind suddenly became smug. Since Xuanyuan Ziyang came to the Tianxing Star

a few days ago, it was immediately after the wind met. Surprised as a man of heaven, from then on, unfortunately, no matter how he pleases, the goddess never fakes color to him.

To this end, Tuofeng Linfeng also deliberately investigated a lot, and finally learned that Xuanyuan Zizhen was actually abandoned by the imperial dynasty of the dynasty, Longxuan, and he suddenly became more and more prosperous, and unconsciously had already hated Xuan Huangzi. Up.

At this moment, I saw that Xuanyuan Ziyun seems to have finally had a little interest in him, and this matter is exactly the same as that of Gong Yangzhi and Chang Yu Xiaotian. The old homeowner of Tuojia's home was originally intended to be open at the exchange meeting after five days. It doesn't matter if I say it late.

Can take advantage of this opportunity to show a face in front of this group of top door valve heirs, but also let the goddess look at him and even give him a good impression, why not?

I thought about it, and I decided to set it down immediately. After clearing the scorpion, I turned my hand to the crowd. When I was about to make a sound, my eyes suddenly saw the boring person sitting alone on the other side. The rough and loose repairs have always been listening carefully to their conversations, and the serious demeanor has even erected their ears.

When I was able to make a fuss, I suddenly realized it. I laughed and said: "It's a long time to come and listen to the news. The friend's face is rough and his mind is delicate. However, this is my top goalkeeper. The internal secrets, fearing that it is not good, if there is self-knowledge, or leave quickly. Lest the Lord call the person to call the management, please take away..."

This is the meaning of clearing the field, and the words actually said that I would like to invite this Qingjiang Pavilion's management, directly blasted away from Ye Xuan, clearly identified the fact that Ye Xuan was shy, there is no ability to consume here!

Chapter 3224: Linghu

The waiter has been waiting for him. Qingjiang Pavilion has the rules of Qingjiang Pavilion. The owner has publicly spoken in his early years. Any guest is spending here. If there is any discourse, he can let go of the conversation. If there is a waiter who will talk about it. Out, Qingjiang Pavilion bears all responsibility.

Over the years, this kind of thing has never happened. Over time, the stalwart sages of the celestial warriors have gradually become accustomed to it, and it is a secret thing. There are waiters around, and they are no longer evasive. After all, the Qingjiang Pavilion is very big. Through mystery, even the monarch of the Heavenly Empire is said to be extremely courteous to him. It is impossible to eat his own words.

Therefore, the extension of the wind is not worried about the presence of the waiter, not to mention the things he wants to talk about. After five days, the old homeowner should be open to the public. At this time, the target is directed at Ye Xuan, which is completely deceiving.

I have long seen that he is not pleasing to the eye!

The waiter once heard that his attitude was so tough, claiming to call the general manager of the Qingjiang Pavilion to drive people, and his heart was suddenly full of energy, no longer worried about Ye Xuan's anger and wounding, really wanting that, The young master of the extension will not sit idly by, because it is tantamount to hitting his face in public.

The rough and distracting practice that is annoying is a black hole, but it is only a third-order. What fear?

In this case, the waiter immediately put his chest on his face, with a smirk on his face, striding toward Ye Xuan and smirking directly: "This friend, please leave, otherwise we really want to drive People, then I am afraid that the face is not good!"

"Snapped!"

"what....."

The waiter's words were just finished, and I did not see Ye Xuan getting up. The former's face had already slapped a slap. The whole person flew out. When it had not landed, it had already spurted a blood arrow. There are also two large molars that fall with blood.

"Hey! It's really a dog's eye to see people low! Who told you that the Lord did not consume?"

"Not to mention, the talent has already been said, come up to pay a colorful, the scenery to look casually, how long does this young master come up? Is it going to swear?"

"In addition, how do you all these waiters work? This young master sat down for a long time, and no one came forward to wait, is it necessary for the young master to go to the kitchen to find food?"

"This is not open to the eye. Today, the young master will teach you the master of the Qingjiang Pavilion, and change the individual to serve. In addition, immediately clean the dog's blood of the dog thing to the Lord, so as not to affect the appetite."

"Ding!"

After three times, he was looked down on, and Ye Xuan's anger was also coming up. At this moment, he also learned the heirs of the Tuoja family. The opening and closing of the mouth was the lord, and it was a direct lesson to the unopened waiter. And the owner of the Qingjiang Pavilion was mentioned by him. All of this suddenly shocked the table and the 16 people who were not far away from the wind and the rest of the surrounding.

It's a pity that they didn't wait for them to attack. Ye Xuan, who stopped the words, raised his hand and popped up a small crystal. He fell to the side of the mourning guy, screaming, and attracted everyone's attention. .

In the next moment, a large sound of cool air came out, and the rest of the waiters around me only looked at each other and scared and shivered.

Nine grades and nine colors!

This man with a rough shape, a temper, and a suspected squatting man, was shot with a nine-level nine-color star.

The guy lying on the floor with his **** mouth sighed and glanced at him, and he was scared on the spot.

Even in the Heavenly Emperor, the nine-level nine-color objects have not appeared in the past 100 years, and the last time they appeared in the auction of the Imperial Capital, caused a sensation.

In front of this, the man actually popped a nine-level nine color, which is clearly the rhythm of the money!

Too scary, even if the prince of the Heavenly War Empire came over, the payment of the meal was settled in seven levels of purple, and even the eight-level black star nuclear source was not allowed to come out, let alone the nine-level nine color?

This is an invaluable resource for cultivation. It has a strong breakthrough bottleneck effect for the original point, the cave and even the stronger starry sky.

In front of this grandfather, he did not take it seriously. He threw it out directly as a meal. How terrible is it?

I am afraid that the Emperor of the dynasty is said to have a large number of nine-level and nine-color existences. Isn't it so extravagant?

This kind of come, can you not scare him on the spot? Not directly suffocating and scaring death is already a big life!

The Qingjiang Pavilion was not the Qingjiang Pavilion. The other waiters around were shocked. They quickly reacted and acted. When they turned around, they fled and called the supervisor. The rest of them ran to Ye Xuan and nodded and apologized on the spot. Someone carried the faint past and hurriedly withdrew, and the blood on the ground was quickly cleared...

Ye Xuan just finished the meal, a middle-aged man who had a perfect finish in the ninth order of the original point has come in a hurry, and the cold sweat on his forehead, this scene scared Ye Xuan.

Not at all? He only had a third-order black hole. How could he be so nervous that he was so nervous that he had sprinted and rushed over?

Actually, while running, wiping cold sweat?

If you don't see it all, he can't believe it!

For the first time, Ye Xuan in the practice of starry sky, actually produced a kind of illusion that came to the secular world, a nine-level nine color, instantly let him have the superiority of becoming a local grandfather.

This Qingjiang Pavilion is really a maverick, a good place!

"The deaf person Hu Dajiang, the general manager of Qingjiang Pavilion, this Taoist friend, I do not know how to call it?"

At this point, the general manager had already arrived, standing at the table respectfully, still rubbing cold sweat, politely asked Ye Xuan: "There are many offenses. The people below don't know Taishan, and the Taoist friends can rest assured. He will not appear again."

It seems that the guy is going to be cleaned up, Ye Xuan smiles faintly: "Hu is in charge of the heavy words, little things, a misunderstanding, this little master fox rush!"

"Less fox... ah? Linghu?"

General Manager Hu held the nine-level nine-color hand to Ye Xuan. He was not allowed to hear his self-reported door, and his hands were stunned. It was obviously scared. The nine-level nine-color was almost falling again.

Finally, after stealing the eye on the other side of the table, I carefully put down the nine-color nine-color in my hand and whispered reverently: "Let the fox use less slowly, this meal should be I asked Jiang Qingge, this property is too precious, how can it be used to pay for meals? Please also collect it."

"No, no... The Lord has never had the habit of asking for food and drink, a colorful one, what is it?"

Ye Xuan's heart moved, but his face did not show up. He picked up the nine-color nine color again and placed it directly in the hands of Hu's manager: "Just press this nine color on a table, to be the best, OK, not much to say, this little master is a little hungry, hurry to arrange it."

All said this, the Hu general did not dare to say more, once again wiped the cold sweat, and finally took the nine-level nine color and hurried away.

Chapter 3225: Scatter places

At this time, Ye Xuan can be described as comfortable, and the original feeling is so good?

The existence of a ninth-largest origin, the ninth-order grand perfection, is in the face of the atmosphere, and it is really cool.

In addition, in addition to claiming to be a master, Ye Xuan is only saying that there is no such thing as asking people to drink and drink habits. It is also the face of other people who are not far away. It is estimated that this time must have caused their anger. Then, there must be some contact, and maybe it will lead to conflicts. At that time, there will be more words, and I will always be able to find out some intelligence information needed.

In fact, he really thought about it. At this moment, although the table of the extension of the wind has all heard the provocative meaning of his apt words, but the strange thing is that including the extension of the wind, all the people, at this moment All of them were quiet, and looking at Ye Xuan's eyes, they were all shocked, but not much anger!

Although Ye Xuan was very surprised, his heart was also suspicious, but at this moment, people suddenly stunned, and he was not good enough to continue provoking. Anyway, no one came over and left, and the guys gathered together for dinner. Don't say anything? In this case, how much can always hear some useful information.

At this time, the restaurant of Ye Xuan's food was also coming up in succession, and all kinds of fragrances came out, letting him suddenly move.

Before Ye Xuan ordered a few dishes, but in the end he gave instructions to the general manager Hu, according to the nine-level nine color to a table, so the dishes that come up at this moment are full of a

large table, almost all It's not Ye Xuan's point, but it's the top dish of Qingjiang Pavilion. It's far better than the other side's top-level door valve heirs.

One of the dishes is actually a real dragon liver. Of course, this kind of dragon is not a legendary dragon, but a star-like beast named Yaxuelong in the void. Adulthood is the cultivation of Dongtianjing. And the liver is highly toxic before adulthood and cannot be eaten.

That is to say, Ye Xuan's **** dragon liver in front of him is a powerful starry beast that has been repaired by a hole in the sky, and it has been in the last three days because the ingredients are three days later. Will be fresh, can no longer eat!

This dish has only shocked him. Ye Xuan still thought that it was too bad to throw a nine-level nine-color, but now he feels worth it.

Although Ye Xuan had been a Xuan prince for a while, but he did not enjoy the treatment of the emperor in the emperor's immortal star, but on the way back from the Tianhe star to the emperor's immortal star, although along the way in the dusty country, the sky The emperors have all been treated with hospitality. It is said that the scale of the banquet can be compared with the table at the moment, and only when the emperor was in the sky, the official reception of the Tianming empire was almost the same.

It can be said that this kind of top-quality ingredients made a good dish, he is the second time to enjoy it. At this moment, the index finger has been moving. For a moment, even a dumb-eyed extension of the table has been forgotten, even when From the ground up, I ate the top spirits.

Just his appearance is also a strong starry sky, even if the mouth is full of oil, but it just matches, watching is very harmonious!

The first thing he tasted was the scented braised red braised **** dragon liver. This dish was originally eaten at the official reception of the Tianming Empire. Ye Xuan has already eaten once, although today this is also the top taste, but on the freshness. However, it is clear that it was a little worse than the last time.

I think that this adult sub-blood dragon can only be preserved for three days, and it can't be eaten after three days. Ye Xuan suddenly feels awkward, and while eating a big mouth, he swears: "Hey, this dragon

liver is already the third. It's a day, although the ingredients are the best, but the freshness is a little worse, affecting the quality..."

This sentence is said, the general manager Hu, who has been waiting far away, immediately slammed into the air and then quietly retired.

Only by this sentence, he has already determined that the identity of the young fox is not empty. Otherwise, the general existence of even the blood of the liver is not known, how can it be eaten? I know that this is just three days of ingredients?

In fact, the value of this **** dragon liver is almost a nine-level nine-color star nuclear source, it is the main dish, the other are attached.

A dish represents the adult **** dragon that has been cultivated in a cave. The degree of extravagance is that the young masters of the company have not dared to enjoy it, nor the qualification. The original **** dragon liver No one ordered at noon today, the evening was intended to be burned, and sent to the owner of Qingjiang Pavilion, which shows its preciousness.

However, Ye Xuan ate a piece of food and sold out the number of days, indicating that he often eats this kind of thing, can be so extravagant, and the capital is so extravagant, besides the legendary Linghu family, can it be someone else? ?

In addition to the Hu general manager, the three heirs of the imperial star that can be used to prepare the nine-level liquid are the heirs of the top gates and the forces, namely Zhao Qianru of Bodhi Technology, Yu Wenzhuo of Tianzun, and the oriental scale of Shennong Gene. The three people, at the moment, are also turning their hearts to each other.

As the heirs of the top forces from the immortal stars, they are one level higher than the top-level families of the top three families, such as the top-ranking family of the three emperors. Therefore, they are also the top ingredients of the **** dragon liver. Tasting, although only once or twice, is enough to let them determine that Ye Xuan's words at the moment are not empty.

This guy actually like them, there is also eaten at least once or twice Asian dragons liver blood, history and heritage identity never under them, which is just and Linghu family legend of the match.

Could this really is actually Linghu Linghu family's little master fails?

At this point, in addition to the three of them, other people are thinking about it at the moment, and even more people even whispered.

"Isn't this really the legendary fox family? But listening to him claiming to be a lord, it is estimated that the 1989 is too sensitive, and the name of the fox is too sensitive. It has not appeared for more than two thousand years. even if there are some scattered tribe living on the outside, can justifiably call the little master, it is estimated it was only then that Linghu home of the descendants of the entropy veins! "

"This thing is very strange. Could it be that he came to this exchange meeting? Will the fox family be born again? I can hear that they have been able to formulate nine levels as early as two thousand years ago." the liquid, the first dynasty! "

"Linghu home another amazing year, eventually annihilation in the dust of history, when no one knows what happened, but this time, Linghu from home is clearly a high-profile, and it was to be born of rhythm!"

"Unfortunately, now they are no longer brilliant, and they have no qualifications to enter the exchange..."

"What do you think, forget and ten places scattered repair it? How do you know these ten people will not go to compete for admission to repair loose each amount to repair loose identity turned out to make a comeback, so to revive The name of the fox, this may be their strategy..."

Chapter 3226: Monument of ancient heritage

Linghu family?

Ye Xuan screamed and listened to the sound of the words in the distant table. At this time, the feeling in my heart was hard to describe.

Listening to the static, this so-called Linghu family is obviously extraordinary. It was the leader of the whole dynasty gene culture fluid more than 2,000 years ago. The first one was formulated with the presence of a ninth grade liquid.

It's no wonder that the general manager, Hu, managed to react so strongly after hearing his self-reported name.

However, the sudden disappearance of the Linghu family must be hidden, so that the name of the fox nowadays has long been invisible. Even Ye Xuan's previous search for the Federal Star Network did not find this information. It was clearly recognized. Deliberately erased.

Just starting a pseudonym, but also caused this kind of storm, it really makes Ye Xuan speechless.

But this does not matter, anyway, it is just a pseudonym. The most important thing is to enter this top-level door valve exchange meeting to obtain various secrets and secrets related to gene culture fluid.

Just listen to the guys whispering words, in addition to the top 16 gates and forces, it seems that there are still ten scattered places to fight for, look back and listen to it, the matter is safe!

I thought about it, Ye Xuan suddenly felt the heart of everyone, and I didn't bother to pay attention to what was there in the whispers of the people, and the top-class food and wine in front of this table was exchanged for a nine-grade nine-color. He has a lot of colorful things, but he can't waste it.

A rare luxury, you must not treat yourself badly.

So, Ye Xuan took back his mind and concentrated on the delicious food in front of him, and sometimes poured a cup of top-notch, the taste is simply cool, don't want it, even he is a little intoxicated.

On the side, Tuofeng Linfeng and others also recovered from the shocked people. If you see Ye Xuan, no one cares for the spirits, eats the top food, and enjoys the music. They don't care about them. The guy gradually got used to it, no one provoked Ye Xuan again, and talked very much.

Soon after, Tuofeng Linfeng mentioned the remains of the drug king that was just asked by the talents. Even the way to get the ten scattered admission places was deliberately mentioned. When talking about it, he also subconsciously looked at Ye Xuan. A glance.

The same is true of the other two top-level gatekeepers, the lord and the long-fisher.

This made Ye Xuan's heart move, and the three top-level gates of the Tianxing Star seemed to be a bit abnormal, and they were a bit nervous. It seemed that they were extremely eager to compete for the ten scattered places, and they would enter the exchange meeting.

What is hidden in this? Is it related to the Linghu family?

Or is it too sensitive to yourself... more heart?

"The remains of the drug king are located in the void in the sky not far from the sky, and it is a void. We have inadvertently discovered that after entering the house, we will bring out a drug king monument from inside, which is clearly a heritage. It is suspected to be extremely ancient, and it is the name of the drug king, which shows its mystery."

"It should be the legacy of a certain ancient cultivation camp. The extension of the family only enters the periphery, and it is unable to enter again. It is not a question of whether it is strong or not, but every step of this inheritance. Must achieve certain achievements in refining and purifying alchemy, and the follow-up channel will be opened."

"I wait for the gate valve to be the top force in the scientific camp to study the genetic culture fluid, but we all know that when it comes to real refining, the alchemy of the comprehension camp is the real horror."

"If it is the study of the genetic culture solution from the alchemy of the comprehension camp, I must wait for at least half of the top-level gate valves in the technology camp."

"Unfortunately, they think that they are too high. They always think that refining is the right way, and the genetic culture fluid of my technology camp, in their view, even Dan has not done, disdain research."

"Although the facts have long proved that this is a paradox, we have to admit that the alchemy of the comprehension camp is indeed unique in the field of refining the drug master, and is stronger than us."

"And the remains of this medicine king are clearly the top inheritance of the refining of the real camp. It is suspected to have originated from the ancient times. It is extremely rare. Although it is now in the star field of my technology camp, but it will take a long time. The alchemy of the comprehension camp was secretly entered.

"Once I let him go and get the core inheritance in the relics, we will get nothing and make a wedding dress for others."

"My extension family has also made considerable achievements in the preparation of genetically modified fluids. The foundation is profound, but even if I open up a few families and join hands, I will only survive the periphery of the remains of the drug king. When you reach the edge of the core, you can't get in."

"But even so, the drug king monument brought out, under the careful study of several ethnic groups, still has a major breakthrough, let us cross the nine-level liquid in one fell swoop and prepare a ten-grade liquid."

"You must know that this drug king monument is just a path card that stands in the outer area. It can only be regarded as a general thing. The real treasures and inheritances are still at the core and have not been published."

"So, I would like to invite the family to invite the top forces and gatekeepers behind us. In any case, we will work together to develop the remains of this drug king, so as not to be refining the real alchemy in the future. After all, This time, the dragon priest's scorpion was swayed, but the relationship between the cultivating camp and the tech camp was in an unprecedented tension, and the Terran would be split by him!"

"Oh, yes, even the purple scorpion has been bullied by him. Our *door valve is the same with the same breath. The sister of Zi Yan is deceived by the dragon singer. Is this something that everyone must be ashamed of me?"

"Hey, what about the imperial dynasty? What is the act of arbitrarily arbitrarily? Is it not being distributed? If the lord meets the dragon singer, he must teach him a meal, and export the evil for the sister-in-law..."

This guy is obviously deliberately trying to make a big turn. He originally said the ruins of the drug king, but suddenly he turned up the dynasty 嫡龙龙 , , , , and thus turned to Xuanyuan On the body, a top-level door valve in the seat of the inherited people first glimpsed, and then the face was a little weird, and they sneaked into Xuanyuan Ziyuan.

The latter has long been stunned. For a time, I didn't know how to deal with it. Especially the strange eyes cast by other heirs in the room. It is clear that the words of the extensions reminded them of everything from Longxuan and Xuanyuan.

This incident was rumored outside, and the face of Xuanyuan's family was a big loss. The extension of the wind also thought that it was a good show for the goddess. It would make the goddess move, and did not want to shoot the horse's legs. The final result was Xuanyuan. The purple eyes are a little angry and angry!

"Sorry, I suddenly feel a little uncomfortable, I will not accompany you, let me go first!"

Ye Xuan took all of this to see the real thing. I really couldn't hold back. It's a laugh when I screamed, and I'm rushing into the wind and glare!

Chapter 3227: The rhythm to be scrapped

"Hey!"

I heard that the extension of the wind suddenly mentioned myself, and the words were so rude, clamoring for a lesson, Ye Xuan's heart came to the fire at the time, and when he was not on the attack, he saw the extension of the wind and accidentally shot the horse. When I got to the horse's leg, I was on the spot and didn't hold back. I laughed directly.

But also laughter is extremely exaggerated, not only the people at that table have heard it, even the waiters in the distance are the same, the faces are weird, they all hang their heads, did not dare to look here, but double The lips are all close together, and obviously they almost all laughed out loud.

It was a bit stupid to realize that it was just a matter of arrogance. The mind was so hot that it revealed the scars of Xuanyuan Zihuang. It was originally intended to show good, but eventually offended the goddess.

Realizing this, his heart will no longer be annoyed with Xuanyuan Ziyan. It is only awkward, but at the same time, he is even more blaming himself. He blames himself for being a hot-headed man, and he has made such a low-level mistake, fearing that he is present at the moment. They have secretly doubted their IQ.

Especially the hateful guy who was suspected to be from the Linghu family, who was unscrupulously laughing in public, was just like making a face to him in public.

For a time, all the anger of the wind and the heart of the wind, all of them went to Ye Xuan.

The younger lord of the Linghu family did make him jealous, but it was before, when the heart was in anger, the extension of the wind could not care much, although the fox family lost in the night, with their celestial star The relationship between the three gates is quite deep, but things have passed for more than two thousand years, and the hidden secrets of that year may not be known.

He has no need to be guilty at all.

Even if we know that the Linghu family has long ceased to be the sole overlord in the refinery field of the dynasty more than 2,000 years ago, they have expanded their homes, and now they have launched the ten-grade liquid, the same status as the Linghu family.

If everything has been reversed, the jealous one should be the guy who is suspected to be the Lord of the Fox family.

What's more, the identity of this person is true or false, but it is just an unknown number!

As for the cultivation, he is even more fearless. The other party is only the third-order black hole. He is the black hole and the nine-step is full, and one hand can crush him...

In this case, I am being ashamed, but I am smirking at the other person's unscrupulous public smirk, that is, the person with the best temper, but also the outbreak.

These thoughts are like a flash of lightning in the mind, and the extension of the wind will be a heart, and will rise to the table of Ye Xuan, not far away.

Roaring up: "Ling Hu Chong, you are the master of the book is not muddy? Three times and five times, it is simply looking for death!"

"boom!"

A blue palm of the size of the whistling whistling away, the blink of an eye has reached the head of Ye Xuan, volley shot down.

Ye Xuan did not pay attention to it. In this place of Qingjiang Pavilion, the 18th floor of the dome was connected to a circle and had to receive a seven-level purple star nuclear source. If there is no defensive formation, then it will be a ghost.

It is impossible to allow diners to fight privately. Once someone shoots, the formation must be started. It is impossible to know that the next extension can not be known, but it is only a moment of anger and brainstorming, forgetting about it.

"Hey!"

Sure enough, the blue palm print of the entire Qingjiang Pavilion was still ringing, and a huge silver mask flashed out of the air, covering the entire 18th floor. There is also an invisible power that appears on the top of Ye Xuan's head. Like a shield, he easily blocks the blue palm print from the shot.

"boom!"

A light bang, even the afterglow of energy is not there, the blue palm print of the extension of the wind will instantly dissipate, and even a wave has not picked up.

Ye Xuan's brows can pick up such power. Even if it's not a great power, it's at least the beginning of the thirteenth world, and even the power of the fourteenth world's light, can lay down such a powerful

defense. The array method, whether it is hands-on or invited to arrange, the owner of this Qingjiang Pavilion is absolutely extraordinary.

As the blue palm print dissipated, the silver defensive array that shrouded the entire 18th floor area disappeared in an instant, and did not actively attack the extension.

That obviously is not a thing. The reason why the defensive array here is set up is just to avoid private fight. How can it actively attack the attacker?

However, if the extension of the wind again shot, the silver defensive array will appear again, although he will not shoot him, but his power will be blocked, it is also shameful.

Therefore, if the extension of the wind, even if the gas is gnashing, but still endured, in vain, how can he try again for the second time?

"Take the son, you are too much!"

At this very moment, General Manager Hu walked over in a gloomy manner. He first apologized to Ye Xuan for bending over and then turned to the first to sweep the teeth.

Shen Sheng said: "My Qingjiang Pavilion has stood for more than two thousand years in the Tianshi Emperor. During this period, there have been three private cases of private guests. Two of them, the two sides of the private fight did not listen to dissuasion, and they were willing to do so. Finally, After provoking three times, he was killed on the spot by the formation. The other shot, he also activated the defensive array twice. Although he did not kill, he also made a small punishment and seriously injured him."

"I must remind the extension of the son, you have already shot once, the formation has not been counter-attacked, if there is a second time, you are afraid to climb out of Qingjiang Pavilion seriously, if there is a third time, the consequences will not have to be more said....."

"Looking for the extension of the son's weight!"

"In addition, all the people who have shot in my Qingjiang Pavilion will be listed as an unwelcome blacklist. From now on, if there is a banquet for the grandson, please change another house!"

After that, General Manager Hu turned and wanted to leave.

Until then, the extension of the wind has panic, what is Qingjiang Pavilion? The top venue of the entire Tianxing Star is that the Imperial Prince is banqueting here, and he does not accept appointments. He must be present and have a seat to be able to do so.

He is still young. If he is listed as a blacklist, he will take the initiative to entertain him. If he changes his family, he will change one. Although he is somewhat wronged, it is not unacceptable.

But what if you come to a feast for others?

This is because he is not allowed.

Once the top dignitaries of the Sky Warriors are basically here, if they are listed as blacklists, if they are not directly expelled from the celebrity circle of the entire Tianxing Star?

There is no qualification for you to enter the door. Who will ask him for a long time?

This is simply the rhythm of completely abolishing him!

One thought of this, the extension of the wind immediately chased up, want to explain: "Hu, the general manager, this is a misunderstanding, I ..."

"To expand the son, please pay attention to yourself, do not destroy the rules of our Qingjiang Pavilion!"

General Manager Hu stopped his steps and turned to him and glanced at him: "If you are entangled again, you are afraid to be tired of being with your friends at the same table, and they are all blacklisted!"

"what?"

The extension of the wind was completely dumbfounded, and turned to the other people's eyes to kill, he shuddered and shuddered...

Chapter 3228: King of medicine

General Manager Hu did not pay attention to the dumbfounding of the wind, but smiled to the table of Ye Xuan, once again politely apologized a few apologies, and finally brought up the business, said that the owner of the Qingjiang Pavilion, Mr. Hu, in order to apologize, I hope to greet him personally. When Wang Yexuan is available, feel free to come over.

After that, Hu did not say anything more, and looked at Ye Xuan with a meaningful look, then nodded and left.

Ye Xuan frowned. The owner of Qingjiang Pavilion is obviously extraordinary. At least it is an old monster that has lived for more than two thousand years. After all, Qingjiang Pavilion was more than two thousand years ago... and so on!

In the brain of Ye Xuan, suddenly a flash of light flashed over two thousand years ago? Is this a coincidence?

The legendary Linghu family was destroyed more than 2,000 years ago, and this Qingjiang Pavilion happened to be there at that time.

And the general manager of Qingjiang Pavilion is surnamed Hu, and his master is also calling himself Mr. Hu.

This Hu, and the Fox of the Linghu family, will not be involved?

Just as I was driving this Qingjiang Pavilion today, it was in the name of Linghu Chong. After the Hu housekeeper heard it, it was too big to react under the defense. Later, the extension took the lead, although Hu Guanjia also acted according to the rules of Qingjiang Pavilion, but later That discourse, I warned that the extension should not be said more, so as not to be tired of being at the same table.

Hu can not know the identity of those guys. On the surface, it is to warn the extension of the wind, but under the circumstance, it is clearly to show Ye Xuan, and would rather offend the entire dynasty's top genetic fluid research valve!

But why is this all?

Did they put these door valves in their eyes at all?

Or is it just that the name of the foxes that Ye Xuan reported is enough for them to look at these top-level door valves?

Regardless of the reason, one thing is basically certain. The owner of the Qingjiang Pavilion, Mr. Hu, is very likely to be related to the legendary fox family that has disappeared for more than two thousand years!

Thinking of this, Ye Xuan suddenly smiled in his heart, this incident is not a blessing or a curse, he just picked a surname, but did not expect to actually cause such a thing.

Although the other party only said that he hoped to entertain him to apologize.

However, with the Qingjiang Pavilion's heritage and connections in the Tianshen, if the other side is malicious, Ye Xuan wants to leave the Heavenly Emperor without knowing it, and I am afraid that it is impossible.

Of course, he also has the cosmic plane coordinate jumping ability, but in that case, once started, either go to the death star swirl, or simply go directly to the first universe of life black hole, this trip to the battle star, 𠂇Waiting for nothing?

If it is not a life-and-death crisis, Ye Xuan will never do this!

It seems that after I have finished the matter at hand, I can only go to this Qingjiang Pavilion to take another trip, but there is no fear in this matter. On the one hand, it may not be a bad thing. Even if it is really dangerous, it will not be possible to use the cosmic coordinates to jump away. It is.

As long as things are done, it will not matter if you leave.

Thinking this way, Ye Xuan suddenly relieved, and did not pay attention to this matter, turned to the side and was gnashing his teeth, which is a slap in the face!

"Ling Huchong, the Liangzi between you and me is completely settled today. I hope that you are really the legacy of the Linghu family more than 2,000 years ago. If not, dare to use the name of the fox, and claim to be the fox. Less Master, then, you should not be absent from your drug king summit!"

Looking at Ye Xuan in disgust, the sneer sneered out in front of the wind: "In addition to the top-level gates and forces, there are still ten scattered places in the remains of the Yaowang. The day after tomorrow, the three days before the Wangwang Summit All the repairs can be registered for competition. As long as they can be named on the drug king, they will be eligible to participate in the summit. The top ten will be able to enter the ruins with the top door valve. Don't let me down!"

After that, the extension will not stop, even when you turn around!

The rest of the top door valves and the inherited successors of his table were all uninteresting. They looked at Ye Xuan with a look of eccentricity. They were also full of anger and went away.

There was no gain in this meal. Instead, it was almost listed as a blacklist that was never received by Qingjiang Pavilion. This is also the heir to the top door valve heir, and it is also very unsatisfactory!

"Where is the drug king list on the drug king's tablet? If you can get on the list, you can qualify for the drug king summit?"

"And the top ten, with these 16 top-level gates and forces, can enter the remains of the drug king to explore?"

"Oh, it's a bit interesting..."

With these words in his mouth, Ye Xuan also just eats a table of top-class food. He still has a pot of top spirits, and he has not wasted. Anyway, he is now a rough man. He immediately got up. Twist the top spirit of the pot and drink while walking down the stairs.

The back, revealing the thick and unrestrained meaning, dazzling!

At the same time, in a pavilion above the 18th floor of the Qingjiang Pavilion, the two figures were hidden in the darkness, and all of them could not see the face, but from the figure, the one who was slightly behind was supposed to be General Manager Hu, slightly squatting, looks extremely respectful.

The figure before the half-step is extremely sturdy, carrying both hands and looking at the back, it should be a middle-aged man around forty.

At this point, the man suddenly screamed, his tone was light, and he couldn't hear sadness and joy: "Do you see this guy, like?"

"This... not good to say!"

Sure enough, it was the voice of General Manager Hu. He obviously knew that the former asked Ye Xuan. He did not dare to say anything. After a little hesitation, he then said: "Sir, the squad of my fox family did escape a few people. But this does not explain anything. I think this matter must be investigated in detail."

"Check is definitely to check!"

This is called by Mr. Hu, and the middle-aged strong man who is suspected to be the owner of Qingjiang Pavilion nodded. He still couldn't capture the meaning of sorrow and joy in his tone: "But I see the shape and style of his rivers and lakes. It's quite a bit like the owner of the year. Hey, if the old master was this kind of temper, he would not be..."

"Hu Mou hopes that he is the blood of the family. If this is the case, I have carefully managed this Qingjiang Pavilion for more than two thousand years, secretly collecting a lot of news, I only hope that I can find some traces of the beads, and prove that the old master still has The desire of people to stay in the world will eventually be paid off."

"Don't die, no regrets!"

"Mr. Hu, you should never say this. Although you are not the person of the fox family, since the ancestors had an accident, the gentleman took me and a few other foxes, and I have been taking care of them and never give up..."

On the side, General Manager Hu was so embarrassed that he quickly interrupted Mr. Hu's words: "I just saw a little hope now, how can the husband say such unlucky words? The Fox Leopard is frightened!"

"Hey, I hope this time will not be a happy one again!"

Mr. Hu did not continue to say anything more, sighing and sighing, turned to step by step, and disappeared.

Chapter 3229: Extension Square

After leaving the Qingjiang Pavilion, Ye Xuan casually found a shack in the outer city of the Tianhuang Emperor.

Although the residence hall where he lives is not the top, but Ye Xuan wants the best room in this building, it is an independent small courtyard, even the defensive array, although this is in the sky. The imperial empire of the empire, this so-called defensive array is basically the same, but Ye Xuan still wants this independent small courtyard of a seven-level purple star nuclear source.

On the one hand, the picture is quiet, and at the same time, he does not care about the resources of the star nuclear source. He has a lot of hands, and when he runs out of big trouble, he goes to a funeral star field. He used to be so rich when he was only a star. The harvest is now a black hole, and I really want to go around and make a big gain.

It's possible to evacuate a small half of a funeral star!

On the other hand, it is because considering this time in Qingjiang Tower, he has probably attracted the attention of the top 16 door valves, including the owner of Qingjiang Pavilion.

Since the name of the fox has been used, then Ye Xuan can only use it in the end. What's more, everything that happened in Qingjiang Pavilion today makes him vaguely think that the name of the fox is sensitive, but it is also because of this. It will be extremely easy to use, for the current Ye Xuan, it is definitely better than the disadvantages!

As long as there is convenience in front of you, as for the unfavorable things afterwards, the matter will be finished, and he will leave without any concern at all times, and there is no fear at all!

Even so, he still feels that it is necessary to know more about this past story of the fox, even if it is not impractical to replace it. This is also necessary.

After entering his own small courtyard, Ye Xuan even opened the defensive formation method. Since then, unless he summoned, it was a small shack in the shack, and he could not come in without permission.

After all, this is the price of a seven-level purple star nuclear source a day, and the benefits of the rich economy are here.

Immediately afterwards, he again issued instructions to the phagocytic system, activated the affiliated personal starry-sky communication system, and sneaked into the secondary star network of the Sky Warrior. After successfully splicing, he directly sneaked into the database of his core control center. It is not like an immortal star. There is a mature body of immortal starry sky super brain, Ye Xuan to do all this without pressure.

The intelligent center of his personal starry communication system is not mature, but it is immortal. After all, the foundation and rank are there, as long as it is not an immortal star, and even the other two empire's national secondary network. For Ye Xuan, its core database is completely undefended.

Of course, some extremely sensitive data sub-libraries, Ye Xuan did not dare to touch, the intelligent central super-brain of the three major empire secondary network is not immortal, but it is similar, and still mature.

Even if Ye Xuan's personal starry sky system can invade it, I am afraid that it will leave some traces of jewels, so it is absolutely unnecessary, so as not to be touched by the other party!

However, just searching for hidden information about the name of Linghu is completely okay.

This information, even in the Guanzhong area of the second-level star network, is not searchable, the words are not spoken, and it has been officially blocked. Ye Xuan initially did not understand the reason, but when he was from the Tianwangxing second master Some information was downloaded from a common-level confidential database of the network. After flipping through it, I finally understood the reason.

It turned out that all this has already involved the official power of the Heavenly War Empire and even the immortal dynasty. Therefore, this matter will be blocked later. At any time, those in power will do the same, and everything that is unfavorable to them will be concealed. Even if we have a number in mind, it doesn't matter.

Long time will cover up everything. When the ordinary dynasty people of that generation disappeared into the long river of history, their descendants did not experience that period of time, and they could not find a word from the dynasty star network. This is like a history. , was killed by the birthplace.

Just like never before.

Even if some of the long-lived star-studded powers know this, how can this existence confront the empire and the imperial powers, and without any interest, leak the truth of these history and find trouble for themselves?

As for the annihilation of the Linghu family and the forgotten history for more than two thousand years, the general situation is that the official does not want the truth to be made public, so it disappears!

At that time, the entire immortal dynasty had not yet been able to formulate a family or power of nine-grade liquid. The fox family was the only one, and there was no semicolon. Unfortunately, they vanished overnight, and then the emergence of the Tianshi Empire Three families of dial, ram, and long fish.

According to Ye Xuan's speculation, these three families may be related to the destruction of the Linghu family, but they obviously did not get the secrets and secret recipes of the Linghu family to prepare the nine-grade liquid.

"If Qingjiang Pavilion is really related to the Linghu family, was the secret and secret recipe of the Linghu family in the hands of Mr. Hu, the owner of the Qingjiang Pavilion?"

Ye Xuanchun's fine man flashed. At this moment, he suddenly no longer hesitated to visit Qingjiang Pavilion in the future. He was able to have the ability to formulate nine-grade liquid more than two thousand years ago. This is absolutely terrifying. Ye Xuan does not May miss it.

In the next two days, he did not go out in the small courtyard of the museum. He carefully studied the various methods of formulating the genetically modified liquid in his hand. After coming to the Tianxing Star, he used the personal star communication system. A large number of information data related to this has been stolen from the core number of the sky warriors.

Until the last three days of the exchange meeting, Ye Xuan left the museum and walked toward the extension square.

In the outer city of the Imperial Empire of the Heavenly War Empire, there are more than a dozen top gate valves. Among them, the research on the development of genetic culture fluids, the princes and the long fish, the three top gate valves are more detached, each has a large territory in the outer city. This time, the exchange meeting will be held in the compound of the family's ancestral home.

At the moment, on the Extension Square outside the ancestral home, there is a quaint stone monument with a height of three feet.

The whole stone has a green color, and various complicated textures are etched around the back and back. On the front, only three ancient characters are written at the top: Yaowangbei!

There are also some names appearing under these three characters. The blue-green monument is smooth and smooth, like the best ancient jade, and even emits a shining light.

In fact, the surface of the whole monument is covered with a layer of turquoise fog, giving people a sense of vitality, even if it is far from hope, when you see it, you can immediately conclude that the monument must be extraordinary.

When Ye Xuan came to this place, a large number of scattered strongmen had already been crowded in the square. They all came to sign up. As long as they could be named on the Yaowang tablet, they would enter the Tuojiang compound in three days and witness the witness. This is the qualification for the exchange event.

Ye Xuan is also coming for this matter, but he is not in a hurry to sign up. After approaching, he immediately issued an identification instruction to the phagocytic system, and the target of identification is naturally the vital drug king monument. Up...

Chapter 3230: eagerly

"Hey, congratulations to the host, and discover the inheritance! Yaowangbei: the treasure of the core of the remains of the drug king in ancient times, after the refining and chemical income, you can enter the core of the remains of the drug king, get the inheritance! Is it immediately? Charge, refining?"

Hey? The original truth is like this?

This drug king monument is actually entering the core of the remains of the drug king, accepting the opening treasure of inheritance? Like a key?

Didn't they get the extension of the family and the strong, have not found this problem?

Ye Xuan was directly stupid by this identification result!

This is really speechless. The Tuojiang also invites all the top-level gates to gather in the Tianxing Star. In order to explore the remains of the Yaowang again, I hope that the power of the people can enter the ruins. The core of the land, the drug king heritage.

Unexpectedly, the key things to achieve inheritance have already fallen into their hands.

Ye Xuan's heart was moving, and almost immediately issued instructions to the system, and immediately refining the drug king's monument.

However, he soon discovered that even if it did, it would be useless!

When Ye Xuan's power of insight touched the drug king monument, the general information about the monument soon appeared in his mind.

The drug king monument has three layers of tests inside, and the three layers of tests are all perfectly completed, then the monument recognizes the Lord!

It seems that it is impossible to directly collect refining and chemicalization. This mysterious ancient monument originated from ancient times is not an ancient thing, but it is also mysterious and extraordinary. The only way to refine it is through the three layers of Yaowangbei. Test, and each test must be completed perfectly.

This should be a means of scale selection. In line with this ancient monument, it is the essence of the opening of the remains of the Yaowang ruins. Only through the three tests contained in the ancient monuments, and through the test, It is considered to have the qualification to go to the remains of the drug king to accept the inheritance of ancient medicine kings.

It is no wonder that several of the old family members of the extension family could not enter the core of the relic.

This ancient relic must inevitably have a heavy prohibition. This is a kind of protection for the drug king heritage. Only through the test of the drug king monument can it be safely entered.

The reason why the extension of the family is to erect the drug king monument here is obviously to find such a person, who can perfectly pass the three-layer test of this monument.

The so-called top ten in the monument can have the qualification to explore the remains of Yaowang together with them. This is just a gimmick. In order to attract more stars and strong people to come and try.

In fact, there are already a number of *door valves in the existence of the name on the monument of the drug king monument. Obviously they have already tried it, if only for the purpose of giving a chance to disperse, they Why bother to try?

The front of the drug king monument is divided into three areas. The top is blank. It should be the third layer test. No one has tried it. As for the second layer in the middle, there are only two names. The family of the family should be old, but unfortunately they all stop on the second floor of this monument!

In the bottom third area, there are dozens of names, more than half of them are the strongmen of the *gate valve, and there are some scattered repairs.

At this moment, there are many star-studded people crowded in the extension square. If you want to try it, you can only release a glimpse of the power of the gods, and you can make a trial and contact with the ancient king of medicine.

In the eyes of the three layers of the monument, there are less than fifty names. Obviously, after more trials have been tried, there is no qualification for the third place in the bottom of the tablet.

In fact, even if these nearly 50 names, whether they have passed the first level, or passed the second level, the two suspected to be the old family, they are not perfect, because if It is a perfect pass, and the name on the tablet of the King of Medicine will appear in a special form, which is explained by the rules of the internal field of the King of Medicine.

Although this particular form of manifestation is not explicitly stated, the existence of these existences, which are now on the list, is very simple to appear on the surface of the monument, apparently unrelated to the so-called special form. .

The two names of the two suspected extension family members appearing in the second area of the monument are actually displayed in the first area below, but they are all plain and plain.

This shows that even though the two families of the extensions have passed the second level, they have not passed the first pass when they passed the first level, and they have stopped after the second level. Perhaps I tried the third level, but I failed. I didn't even have the qualification to stay in the first area on the tablet.

Therefore, it is enough to see how all the three tests of this drug king monument are how difficult it is!

It can be said that as long as all three passes, it is enough to be famous on the tablet, and if you want to pass the three passes perfectly, you can't imagine it!

After figuring out all the rules, Ye Xuan has been completely excited. He believes that this so-called three-level test is both a scale and a kind of training. He will be able to reach through these three levels. The basic information of the drug king in ancient times, this is itself an improvement of its own refining ability.

In the face of all this, he can be described as hungry.

Without hesitation, Ye Xuan once again touched the drug king monument with the power of the gods, and confirmed the test of accepting the first pass. Of course, the name submitted by his feedback is still a pseudonym, Linghu Chong!

In the next moment, Ye Xuan closed his eyes, and a green and green sacred spurt from the drug king monument standing in front of him, turned into a micro-shaped energy shield that would cover the body of the body and avoid being disturbed by the outside world. .

This shield has always been on, and its appearance means that Ye Xuan has already begun to clear the door until the shield disappears and the Shaoguan is over.

The same shield, there are many in the vast extension of the square, full face, all the presence of the shield, all closed their eyes, as practice, their mind has been completely immersed in the drug king monument The test has gone.

At the same time that Ye Xuan began to accept the test of the drug king, he was led by four people, including Zhao Qianru from Bodhi Technology, the descendant of the top three powerful forces of the immortality, Yu Wenzhuo of Tianzun, and the oriental scale of Shennong Gene. The 16-door valve Tianjiao, at this moment just happened to go out from the Tuo family's courtyard. They also planned to come to try their best. I didn't expect to come, and I looked up and saw Ye Xuan try.

Like the Tuoja family, Gong Yangzhi and Changyu Xiaotian, who belonged to the heirs of the top-level gatekeepers of the Tianshen, sneaked a bit and then ridiculed them on the spot.

"Is the fox rush really coming? And I have already started the squad before, and I am a rough person. It is said that the first test is the memory and identification of grass and various heavens. I think he is even connected. There is no qualification for the name on the first mark!"

"Ha ha ha, the wind, this is a good opportunity for a shame, let's start, let's take a look, look back at the guy who is ashamed to sew the shackles..."
