

## Super D. S 3231

Chapter 3231: Can Ruo Xingchen

The sixteen major gatekeepers and the inherited people of the forces have started all the time, including Zhao Qianru of Bodhi Technology, Yu Wenzhuo of Tianzun Bio, and Oriental Scale of Shennong Gene, as well as from the sky. The illusion of the Ming Dynasty.

They have already learned the importance of this drug king monument from the extension family.

It is the only key that can safely and smoothly enter the core of the drug king's relics, but of course, in order to make this key recognize the Lord, the requirements are extremely demanding, must be all three, and it is perfect.

At this point, the two most experienced family members of the Tuojiào family in genetic fluid preparation research have already tried it. It is extremely difficult. It is because they find that they can't do it, they will take out the drug king monument, hoping to have The strongman succeeded in refining and refining. At that time, as long as they took this person together, they would eventually enter the core of the remains of Yaowang.

Even the scattered repairs can try, the heirs from the top door valve and other strong players will not miss this opportunity.

At this time, all the people started to try at the same time, and their hearts were secretly screaming. They wanted to leave all the names in the three areas on the Yaowang tablet, and they passed it successfully.

Soon, dozens of blue-green lights spurred on, turning into tiny masks, and these strong men from the top-level door valves shrouded themselves.

Among them, in addition to the heirs of the top-level door valves such as the extension of Linfeng and Xuanyuan Ziyang, there are also some other 16-door valve strongmen who want to try.

Time is slowly passing...

After about seven or eight minutes, Zhao Qianru from Bodhi Technology opened his eyes for the first time. The first part of the Yaowang monument had a name, which was her.

This caused a lot of exclamation in the surrounding, and another Tianjiao was named at the first level. At least thousands of people had tried it before, but only a few dozen people were qualified to stay in the name. At this moment, Zhao Qianru only spent less than ten minutes. I did this and it was amazing.

Then, Xuanyuan Ziyang also opened his eyes, the same name.

Then there was Yu Wenzhuo of Tianzun and the Oriental scales of Shennong Gene. They were all named within ten minutes.

And the successors of several other top-level gates and forces, including the extension of the wind, and the Gongyangzhi and Changyu Xiaotian three, are all still in the first place, and it is indeed the inheritance of the top-level gate valves. The talent in this area is still fully capable of withstanding the test.

Although these guys succeeded in passing through ten minutes later, they still left a name on the tablet.

However, there is none of the perfect passing, which makes all people sigh slightly, and finally realizes the horror of this drug king monument.

Just the first level, they can't pass perfectly, and the next two levels can be imagined.

"Lianfeng, that Linghu is still in the first level. We have all passed, and we have successfully placed a name on the tablet. He started it but it is not over yet!"

At this time, Gong Yangzhi discovered an abnormality and snorted, so that everyone's eyes once again gathered toward Ye Xuan.

Changyu Xiaotian immediately smiled: "This guy is a big old man, the first pass we have just tried, it is the memory and discernment of the tested herbs and all kinds of heavenly treasures, just his five big three thick Sex, it is estimated that even one tenth can't remember, can't recognize it."

"Ha ha ha..."

The extension of the wind also laughed, and the interest was quite high. The friends and friends gathered toward Ye Xuan over the past: "Go, let's look at it in the past, and don't rush to the second level immediately. After a while, the kid ends. In the blink of an eye, we saw that we were surrounded by the side. It was estimated that we had to find a piece of land to sneak in on the spot, thinking that we would all get rid of it!"

As the voice of the voice of the extension of the wind rang, Gong Yangzhi and Changyu Xiaotian immediately followed the past, and Yu Wenzhuo, Dongfang Scale and Zhao Qianru and others slightly hesitated, recalling that almost yesterday It was the blacklist of Qingjiang Pavilion on the ground, and the heart was equally angry, so it followed the past.

Xuanyuan Ziyang slightly frowned, and his eyes were looked at by Ye Xuan, who was covered in green light. The same was true. He followed the last walk.

But she didn't look at Ye Xuan's jokes in the past. In fact, since Ye Xuan threw a nine-level nine color on the 18th floor of the Qingjiang Pavilion yesterday, she always had a strange feeling in her heart. The rough-looking guy gives himself an inexplicable familiarity.

Even the style of acting, in her view, there is a little bit of Ye Xuan's shadow, but the gap between the two is really too big, and Xuan Huangzi should still be in the star field controlled by the comprehension camp, no So quickly escaped so quickly, so she will be hesitant in her mind, both doubtful and uncomfortable, extremely entangled.

The reason why she followed the extension of the wind and other people in the past, her purpose is just to look closely at it, to see if you can find out the guesswork of your own mind.

At this moment, Ye Xuan's whole mind has already been thoroughly immersed in it, just as he is drunk and fascinated with all kinds of basic knowledge about refining medicine!

The first level of the drug king monument, the test is the memory of the stakeholders, as well as the ability to discriminate against a variety of herbs, such as herbs, treasures, and even other drugs.

The way of refining medicine is ever-changing, and there are too many kinds of herbs that can be used. These are the foundations, not only to remember their names, but also to master their functions.

At the beginning of the first pass, the stakeholders will have hundreds of millions of herbs and minerals and beasts that can be used for medicine. Each has a detailed description of the efficacy, passing at an extremely fast speed. What the stakeholders need to do is to remember them as much as possible.

At the end of this period, Yaowangbei will randomly select 10,000 kinds of requirements for the relevant officials to discern and tell the efficacy.

If you can identify one-tenth, you can make a name on the list, and if you want to pass it perfectly, you will not only ask all the 10,000 kinds of herbs and minerals to be recognized, but also the details of its efficacy, characteristics of medicines, etc. The word is not bad!

Can be selected by the drug king list to ask for recognition, naturally not ordinary things, basically the rare existence of the world, for the stakeholders, almost all of the first contact, but before the flash in the blink of an eye It's so fast.

Therefore, even if it is a black hole or even a stronger starry sky, forcibly remembering the memory of God, it is impossible to memorize all the spirits and medicines, including the names and details of the millions of species that have flashed in front of them. .

It was the fastest in the first pass. It took only about seven minutes for Zhao Qianru. When she finally passed this pass, she successfully recognized the Lingcao elixir, and only 3,000 kinds of drugs, and said the efficacy. The details are only a thousand.

In her opinion, it is possible to pass the first pass perfectly and successfully identify the 10,000 kinds of medicines randomly selected by the drug king, and the strong ones who do not sneak out the function details do not exist at all. The supreme powerhouse, the gods are terrible, and do not have that ability.

However, at this moment, a name suddenly appeared on the drug king's tablet, and it bloomed infinitely, and the stars were shining...

Chapter 3232: Perfectly passed again

"Oh, what happened? The drug king monument is shining!"

"Behold, there is one more name in the first area below, in the top of the first area, and it is the center display, the ray vision of Yaowangbei, it is the name that blooms."

"Ling Huo Chong? Is this a stakeholder? Why is his name in the middle of the list in the middle of the list, and Can't be a star?"

"God, it won't be the first pass, is it perfect? Is this person enchanting?"

"Although in the final test, I only need to identify 10,000 kinds of herbs, and at the same time say the specific effects of the words, but the 10,000 kinds of herbs are randomly selected from the previous hundreds of millions. He really passed it perfectly. Isn't it a million kinds of herbs and medicines, all of them are recorded?"

"This is absolutely impossible. With this kind of skill, how long is the brain?"

"Ling Hu Chong? Linghu? The name... God, what did I think of? This is amazing!"

.....

With Ye Xuan, the pseudonym of Linghu Chong appeared in the first area of the first kingdom of the drug king monument, and the radiance, the glory of the stars, the entire extension of the square immediately fried the pot, countless star powers exclaimed.

It was also at this moment that the blue-green mask covered by Ye Xuan disappeared, which meant that he finally ended.

It took more than forty minutes before and after!

But the reason why it is slow is obviously not slow, but most of the time should be used to identify and detail the specific effects of those herbs, a whole 10,000 kinds, each after the identification It's just over forty minutes to say the exact effect of a word, and it's almost unimaginable.

When this Ming Wu flashed through his mind, the extension of the wind and the Gong Yang Zhi, Chang Yu Xiao Tian and other people all open their mouths on the spot.

It was Zhao Qianru from Bodhi Technology, Yu Wenzhuo from Tianzun, and the Oriental scales of Shennong Gene. At the moment, they all looked awkward and they were completely shaken.

Standing in the final Xuanyuan Zizhen is a mouthful of delicate mouth, looking at the calm and calm Ye Xuan, this moment, she suddenly felt that she must be the wrong person, Xuan Huangzi although abnormal, but not to To this extent?

She had just passed the test and had a deep feeling about her difficulty. She was the elite of the refining family, and Xuan Huangzi had never touched this field. Even if she was enchanting, how could she do better than her?

In front of this, Linghu is clearly the same level as his enchanting enchanting. The two are good at different fields, but there is no doubt that Linghuchong's proud posture is absolutely comparable to Xuan's emperor.

"The guy, finally met the opponent?"

Mouth whispered in his mouth, the feeling of Xuanyuan Ziyang's heart is very complicated. I don't know if it's the happy Linghu, or the Xuanhuangzi who finally met the opponent of the same level...

"The first pass was just over forty minutes. It was faster than I thought. I thought it would take at least one hour. Hey, it seems that this drug king is not so much, it is too disappointing..."

Ye Xuan opened his eyes and saw the stunned standing outside his singer. His expression seemed to have just been thundered by the extension of the wind and the Gongyangzhi, the long fish Xiaotian three.

He immediately responded, knowing that the three guys wanted to see their own jokes, and they were beaten.

Under the darkness of his heart, he took advantage of the situation and groaned indifferently. He raised his hand and rubbed his nose, dug out a dark thing, and he slammed into the nose of the nose. Then, he closed his eyes again and extended the power of the gods to the drug king monument.

The mouth is even more whispered: "Forget it, since it is so simple, simply make a sigh of relief, the three levels are perfect, and the time is still early, just to go to dinner!"

In the next moment, on the tablet of the King of Medicine, which stood tall from the front, it once again spurred a blue-green light, which fell on Ye Xuan and shrouded its figure.

The second level, started!

"God, this man is too fierce, actually yelling and licking all the backs before dinner. It's been more than an hour, and the tone is too big!"

"This is not the key. Didn't you hear people say that they want to pass it perfectly? This is clearly the rhythm of the drug king's monument." The extension has already released the words, and the three passes are all perfect. The monument voluntarily recognizes the Lord, they are allowed to take it away, and they will never stop..."

"But is that possible? I heard that this monument has been derived from an ancient ruin, and it is related to some kind of inheritance. It is not easy to get a home, can you really leave it?"

"You think a bit far, there are two levels. The first pass perfect does not mean anything. At the most, it shows that this rough man is so wise, his memory is amazing, and the two tests that follow are the real refining ability. It is not a simple rote, he has no chance!"

"These are not important. The only thing I want to know now is one thing. Is this Linghu Chong really related to the Linghu family? Don't tell me that you have forgotten what the glory of the sorcerer family was. !"

"In my opinion, it should be the descendant of that pulse. I didn't see people playing a suspicious object. Is it right to fall in the middle of the extension of the family? This is clearly intentional. It is said that the extension is leading the way. At that time, they were only second-rate small families. The fox is destined to rise today. This is coming for revenge..."

"Hey, this can't be said, there will be big horror, don't you want to live?"

.....

As these words began to sound, the stagnation of the stagnation in the stagnation of the wind has finally returned to the soul, he looked up with a blank face from the bottom of the nose, a mung bean-sized black suspicious object, placed only in front of the eyes After taking a look, I immediately retched on my knees.

Like the buddies, Gong Yang Zhi and Chang Yu Xiao Tian did not talk about loyalty at this time, and they screamed their noses, such as avoiding ghosts.

In fact, this is not the kind of disgusting thing they imagined. Although Ye Xuan is dressed as a rough man, how can he really be so embarrassed? This is just a small bandit that he used to cultivate the force to secretly absorb the dust from the air. Just because it is too similar, he scared the audience on the spot!

"Wow....."

"The bastard, it's too shameless, this little master and you are not finished!"

"vomit!"

I have been retching for a while, for nearly ten minutes. At this moment, there has been no one within ten meters of the surrounding wind, and all have avoided the distance.

At this time, after a while, the vomiting of the extension of the wind, and finally gradually slowed down the gas, stopped retching, he witnessed to see Ye Xuan.

I didn't wait for him to say the words of the hairpin, and the upper central domain of the second area of the central bank of Medicine Wang's tower in the distance, once again burst into a sacred starlike glory, a name there. Suddenly appeared...

Chapter 3233: Not too challenging

Linghu Chong!

This time, the name that appeared in the first residence in the second area of the center of Yaowang Ancient Tablet was exactly the same as before. It was also the three words, and it was also shining and shining.

This represents the rough man who is called Linghu Chong, who can reach out to his nose and find a mung bean-sized black suspicious object. It is once again perfect.

And it is the second level.

The only difference is that he spent more than 40 minutes in the first pass, and the second pass took only ten minutes!

It is simply unbearable, and many people around the Extension Square have vomited blood, and they are mad.

If this second pass is perfected by a temperamental and elegant Jun Junlang, they can still accept it, but the rough man is too different, and he only used it. It's perfect in ten minutes...

Everything about this is too amazing, too... attacking people!

"This is impossible! It is impossible!"

"puff....."

It was hard to stop retching, but the extension of the wind was once again shocked by the name of Linghu Chong, which appeared on the drug king list, and roared like a madman.

Finally, the mouth opened with a blood arrow, which was hard and angry.

It was Zhao Qianru from Bodhi Technology, Yu Wenzhuo from Tianzun, and the Oriental scales of Shennong Gene. They were all awkward at the moment, and then they showed a touch of unwillingness on their faces. They all bite their teeth and know God. The force extended to the drug king monument.

This is also true of Xuanyuan Ziyang and Tuofang Linfeng, Gongyangzhi, and Changyu Xiaotian.

They are really reluctant to think that this second level may be simpler and they want to try this time.

Soon, the green and blue light spurred over and shrouded their bodies. The guys closed their eyes one by one and began to smash the second level.

Seeing this scene, Ye Xuan licked his mouth and did not agree.

The face is still a completely indifferent expression, shaking his head and shaking his head: "Hey, it's too disappointing, there is no challenge. Who can think that this second pass is even simpler? It seems that the third time is more Short, it's a bit boring."

After that, he closed his eyes again, and it was a green light shining from the distant king of medicine, and his body was shrouded.

Ye Xuan, started the third level!

Numerous powerful people around the world looked at each other and were completely defeated by this scene.

At the thought of someone who has passed the first two passes perfectly, their breathing will be extremely urgent, and this third level will not be the same?

If this is the case, isn't it... the drug king monument, will it be recognized that the Lord has disappeared?

At this moment, all the strong people in the distance to the square, the whole heart is hung up.

Relatively speaking, Ye Xuan, who went to the third level in less than an hour, was incomparably relaxed. He had almost no pressure.

For him, the first two levels, the embarrassing is really too easy!

The first test is memory. Of course, this level of memory is no longer a general test. Hundreds of millions of commonly inaccessible herbs and minerals that can be used in medicine, including their detailed medicinal properties, flash from their eyes, even It's a great power, and it's impossible to remember half of it.

But for the phagocytic system, it is not a problem at all.

Who can look like Ye Xuan, with a supercomputer? And it is not a general computer. The intelligent center of people is an immortal starry sky super brain. Although it has not yet reached the intelligent center of the immortal star dynasty primary network, it is already mature.

But the immortal level is immortal, and the computing power is not to be questioned. As long as everything flashed in front of the eye, it is recorded in the instant by the phagocytic system.

The next random selection of 10,000 kinds of herbs for testing, it is simply cheating, Yao Wangbei just picked one, Ye Xuan's mind was selected by the phagocytic system, including detailed medicinal properties, followed by He just took care of it.

The reason why it took more than forty minutes was that there were too many 10,000 kinds of herbs, and it took so long to copy them with God.

As for the second level, it is even simpler.

The second level gives a thousand medicinal formulas. Of course, they are all incomplete. There is a shortage of herbs in them, or minerals and beasts that can be used as medicine. The 100 million species provided in the first pass before. Can be found in the herb.

The second test is the understanding of the herbal medicines of these medicines, rather than rote memorization.

Through the analysis of this thousand Dans, the relevant stakeholders are required to determine what the missing herb is, and what the exact amount is. If there is no mistake, then it can also pass the perfection.

This is actually a kind of calculation ability. Ye Xuan did not pay attention to it. He directly threw it into the phagocytic system to calculate. The calculus ability of the immortal starry sky super brain can be imagined. This Guan Yexuan only took ten minutes to perfect. Passed, because every time the system calculates one, he immediately copied the answer with the gods, plus a thousand kinds of herbs that need to be copied, which is much less than the first level.

So he would find it easier and easier, and he passed it perfectly.

The reason why he said that it is too challenging to say such a thing is really not a comparison. It is the true feeling of Ye Xuan's heart. He only listens to the ears of other powerful people around the Tuofang Square, but it is really enough to attract people. Many strong people have already turned their faces red and stared at Ye Xuan.

They found for the first time that some of the original appearances were rough and it seemed that there was nothing to say about it. There was no such thing as the existence of the city. Sometimes it was so hateful!

This time, Ye Xuan began to make a decision after the extension of Lin Feng and others. Of course, the latter's 16-member team is the second level, while Ye Xuan's is the third level.

Ye Xuan's Shaoguan was only less than five minutes away. Among the 16 people, the first one opened his eyes and the thousand Dans, he only analyzed the 50th, and he could not go on, so I was directly expelled. This time, he failed to make a name on the list, was eliminated, and did not even qualify for the third level.

If you want to take the next level, you will be eligible only if you leave a name on the previous level.

As the young master of the extension, the future heir, his level should not be so bad, the second level of the list can still be done, but unfortunately, everything before has made him confused, unable to play it again.

"How is it possible? In just ten minutes, a thousand incomplete Danfangs were all deduced, and even the amount of herbs that were lacking was accurate..."

I personally tried a second pass, and I was deeply impressed by the horror of Ye Xuan. At this moment, he muttered to himself, Ye Xuan, who had once again passed through the squad. : "There is no doubt that he should be the heir to the family of the fox family, otherwise it would never have such a terrible refining remedy, so that is the case..."

Chapter 3234: Ancient monument

Within ten minutes, the other fifteen people also ended in Shaoguan, and about half of them were named in the second pass. In just a few minutes, the second central area on the drug king's tablet was again there are six or seven more names, and the strong people who have drawn around are amazed.

But of course, the perfect pass, the name shines, like a brilliant star, still only Linghu Chong this one.

Among the six or seven people who are still in the second place, including Zhao Qianru of Bodhi Technology, Yu Wenzhuo of Tianzun, and the oriental scale of Shennong Gene, among them, Xuanyuan Ziyang.

But they all have no plans to continue to the third level.

At this point, the group of people looked at the third level, and now the closed Ye Xuan, one by one shaking their heads and laughing, the tone has never been lost and lost.

"This fox brother is really amazing. I personally tried the second level before I realized the difficulty of this level. I didn't expect him to pass it perfectly in just ten minutes."

"Yeah, a thousand incomplete Dan Fang, as long as it can make up one tenth, that is, one hundred, you can leave a name on the list, I just barely do this, and that one hundred Although Danfang has completed the herbs, the amount of use still needs to be scrutinized, and no detailed amount is given at all."

"But he passed it perfectly in a short period of time. Not only did he fill up the missing herbs, but the dosage was accurate. If you don't see it with your own eyes, you can't believe it. Too... enchanting!"

"The third level does not need to be tried again. At your level, it is impossible to even have the possibility of keeping a name on the list. If there is no accident, the third level should be to ask the relevant people according to the previous one hundred million herbs. And minerals, creating the perfect new Danfang out of thin air, the number should be one hundred..."

"One hundred people? Hey, it's light, and now Dan, who passed down the world, hasn't been a generation of masters and pharmacists who have been tried and tested, and finally become perfect?"

"Even if a Dan party does not know how many years of verification it takes, it is the most difficult thing to create Danish things out of thin air. One is impossible, let alone one hundred?"

"It is estimated that this is the amazing Linghu brothers who have to lose their wrists. It is simply impossible to accomplish."

"But even so, it can pass perfectly in the first two levels, and he is enough to stay in the name of the history, and become famous in the first battle!"

.....

They are right. The third level of Yaowang's monument is indeed to ask the relevant people to combine the hundreds of millions of herbs and mineral deposits that can be used in the first pass into an unprecedented Dan, only one hundred.

Do not look at the number of these hundred Danfangs seems to be very small, but the requirements of Yaowangbei are extremely strict.

One hundred Danfangs, as long as they can complete ten, can be named on the drug king.

In order to pass the perfection, the drug king will eventually recognize the Lord. From then on, master the core of the drug king's relics and obtain the final inheritance. Then, only this third level must be made out of a hundred Danfang. And each must be flawless.

All the herbs that make up Danfang can't be made into one or more kinds, and the amount must be accurate to the point. One more point is less than one.

The simple point is that one hundred words of Dan Yao, which are required by Yaowangbei, are all that kind of reality that has been passed down through the ages, and that has gone through a generation of refining pharmacists to finalize the prescription!

This is absolutely impossible task. Even the real master of refining medicine, it is not difficult for him to combine one hundred Danes in a short period of time, but if you want to ensure that these Danfangs are tested with those who have passed through the ages, The ancients are as ingenious, and the amount of use can no longer increase or decrease. That is absolutely unrealistic!

But for Ye Xuan, this is not a problem.

In fact, it is plain, this kind of ratio is out of the new Dan Fang, and at the same time determine its most ingenious dose ratio, it is a calculation.

This kind of calculation, the general starry sky super brain may not be competent, the possibility is too much, ever-changing, in a short time to simultaneously perform a hundred rough embryos, and do not want the starry sky super brain to collapse.

However, the intelligent center of Ye Xuan's personal communication system is an immortal star-space super brain, and it has entered the growth stage. It is no longer the former fragment level, and it can still do this.

It's just a little longer.

After two hours, his third pass is still going on. The previous ninety-nine perfect Dan Fang has been successfully delivered and approved by Yaowang.

What Ye Xuan is doing now is the perfect calculation of Dandan.

As long as the calculation is completed, the third level, he can pass perfectly.

This is absolutely to make the drug king's ancient monument on the spot to recognize the rhythm of the Lord...

.....

The outside world is already awkward at the moment!

The only young people who had gathered in the Tuofang Square before, and the younger generations who had the top valves and forces at the meeting, also tried to make a name for themselves.

But now, with the first two levels of Linghu Chong in the ancient king of the drug king, all of them passed through, and the powers of the top-level valves of the meeting were all shaken and rushed.

Looking into the distance, a large extension of the plaza is completely crowded at the moment, and you can't see an empty space at all. Even some strong people in the air are hanging, but in the distance.

At least hundreds of thousands of star-studded powerhouses have gathered here, waiting for the result of the third level of Ye Xuanyuan!

In the distant void, the body of the Qingjiang Pavilion Hu and the owner of the Qingjiang Pavilion, Mr. Hu, are hidden in the void, quietly watching the extension of the square, for a long time without words.

After a short period of time, Hu's supervisor spurred out: "Sir, look at you, this guy who claims to be a fox rush, can you be sure that the descendants of my fox family escaped? The main pulse took away the family. Refining medicine inheritance should be able to cultivate this kind of peerless arrogance. Besides, I really can't think of any other forces that can make such achievements. Even the refining medicine on the side of the comprehension camp will not work."

"This matter is basically ok."

The head of Qingjiang Pavilion nodded, with a sense of excitement and excitement in the tone: "The old master's drug king from the ruins of the drug king was only a broken inheritance, but if you put a certain amount of effort and time, it is true. I can still cultivate the enchanting arrogant arrogance on the way of refining medicine. I am still very clear about this."

"If there is no accident, Linghu Chong, it should be the bloodline left by the young and the poor when they fled. Oh, now, my fox family is finally going to rise again."

General Manager Hu immediately got excited. Obviously, he already had his own decision in his mind. He only respected Mr. Hu's opinion, so he never said it.

Now that the other party has made a statement, he immediately can't hold back, and the voice has been a little trembling: "You mean..."

"The notice goes on, the strength of the pharmacist's ruins, and the strength of the medicinal king's ruins, fully assist the young master to get the core of the complete drug king heritage!"

Mr. Hu once again made a noise, and his tone suddenly turned cold: "Hey, this time, the drug king will recognize the Lord as the main, how can the three families stop, and never let the lesser fall into their calculations..."

Chapter 3235: Sensational emperor

At this moment, the sky is already into the night!

However, there are still hundreds of thousands of star-studded powerhouses in the Extension Square!

Even if it enters the night, it is still like a white, as the emperor, the lighting facilities at night are very embarrassing, but the most dazzling is the two names on the ancient monument of the King of Medicine, the exact same name.

Linghu Chong!

Exudes a strong starlight, the stars are shining!

At this moment, there is no second person in the Tuofang Square. It is still only a green mang shot from the towering Yaowang monument. It falls on the body of Ye Xuan, which is about 100 meters away from it. The protective cover, so that the negative hand stands there, like the sculpture, the motion of Ye Xuan, from the outside interference.

The eyes of hundreds of thousands of star-studded powers are all gathered on him.

Since the arrival of the \*top gatekeepers, the successors of the various gates of the Fengfeng and Xuanyuan Ziyang have all returned to the camp of their respective gates.

But still paying attention to Ye Xuan!

The customs clearance requirements for the drug king's ancient monument, the three customs, have already been passed out, and the entire sky is well known.

Even the customs clearance requirements of the third level have been disclosed. The two old family members who were first named in the second level tried to pass the third level, but they eventually failed. Both of them Created a few unprecedented Danfang, but it was not recognized by the drug king monument, and the number did not reach ten.

Therefore, there is no qualification to keep a name in the third customs area.

Even so, if you pass the third level, you can at least know what the third level is.

It was through them that the third level of customs clearance requirements were disclosed and spread.

This caused a sensation at the time, and all the powerful people around the world thought that Ye Xuan was creating a new Dan Fang at the moment, and this was already two hours, one of them had a kind of back hair. feel.

This kind of thing is too demanding for the ability to derive calculus. Every minute and every second will cost a lot of effort. Even if it is a great power, it can be extremely horrible to insist on an hour, and it will consume a lot of gods, but In front of this, Linghu Chong, clearly has been insisting for two hours.

Still going on!

This is simply a enchanting!

No one doubts that Ye Xuan is grinding a foreign worker, or taking a break and taking a break. It is not allowed. The two old people who once passed through the third floor have the most say, denying this possibility. Sex!

The owner of the extension family, Tuo Xiong, the owner of the Gongyang family, the ram, the repentant, the head of the long fish family, the long-lived fish, the three people, gathered in one place, staring at the cold, watching the road Ye Xuan, who was shrouded in the green light, looked uncertain.

"To expand the owner, according to your opinion... Can this kid let the drug king's ancient monument automatically recognize the Lord?"

After a short period of time, the long fisher's owner, Long Yu, whispered a whisper, with a deep sense of anxiety: "I'm suffering now, I hope that this kid is successful, because then we enter the core of Yaowang's remains. The chances of the zone will skyrocket, but you don't want him to succeed, because once it succeeds, that means..."

"Don't the third pass, can you relieve yourself?"

The ram of the ram's family, the ram, did not regret taking the words, scorned a sigh: "If you have done anything, don't regret it. Even if the third pass is not passed, you can pass the first two passes and it is enough to confirm him. The status of the fox is different. In addition to the Linghu family, who can cultivate this kind of enchanting?"

"See what happens!"

Tuo Xiong, who has never spoken before, also made a speech. He is obviously the leading brother among the three. His tone is unquestionable: "In any case, the appearance of this person is a good thing for us. He can have such amazing refining power, indicating that the drug lord of the Linghu family that had not been found in the past must have fallen into his hands, even if this time we can not enter the core of the relics to complete the book, at least the residual can still I got it..."

"Whether he can survive the third level, and explore the remains of the drug king ten days later, we must bring this child, and it is best to use him to enter the core of the relic."

"If you can't, just kill him in the ruins and take the drug king's remnants!"

The ram does not regret and the long fish stunned and turned to the first glance, and all of them flashed a glimpse of the fine man, no longer say anything!

At the same time, in the area where Xuanyuan's strong people are located, Xuanyuan's old master is staring at Ye Xuan, who is covered by the green light of the ancient king of medicine. His eyes are always green.

"Hey, this is a savage savage, it makes the old man look more and more... no, pleasing to the eye!"

As a self-speaking whisper, Xuanyuan's old master seemed to suddenly think of something. He turned to Xuanyuan Ziyun, who was next to him, and tried to ask: "Shantou, how do you see him? Okay?"

Xuanyuan Zizhen is also a little bit guilty at this moment. I don't know why. When she saw Linghu Chong, she always had a sense of familiarity in her heart. She always thought of Ye Xuan, but the gap between the two was so great.

Although it is equally enchanting, the style is completely different, and there is no intersection in the field of good at all.

This made her tangled and completely lost her judgment.

At the moment, I heard the words of Xuanyuan's old master. She didn't think much about it. It was literally understood, plus something, so she subconsciously returned: "It's really enchanting, this kind of character is amazing! "

This is to tell the truth, the talents and foundations of the refining drugs displayed by others, even if the words of enchanting and stunning are added together, are not enough to describe it.

Xuanyuan's old master obviously misunderstood her meaning. He heard that Xuanyuan's evaluation was so high, and at the moment she stared at Ye Xuan's look, the demeanor was a bit stunned, just like obsessed.

This made Xuanyuan's owner feel very satisfied.

No matter what, my silly daughter finally hopes that she will not hang on a tree. Long Xuan's heart-shaped radish, go to the ball, and today's old man rarely meets a sage who can match a stupid girl. Easily let go.

Thinking of this, the Xuanyuan old family suddenly burst into anger.

If the stupid girl can form a good relationship with the fox, the former all the effects can basically be resolved.

Look, although my family's girl is a bit stupid, she was deceived by Long Xuan's radiant radish, and she lost all her husband's face, but in the end she finally found the true man, Ruyi Langjun!

In his view, this singer is not only enchanting to the extent of enchanting, but also professional counterparts, people are also doing refining, and Xuanyuan Ziyan has a common language, and Xuanyuan is also a door-to-door, no better than this More suitable!

Thinking about it, Xuanyuan's family finally laughed up and let the Xuanyuan Zizhen on his side suddenly be shocked. There was a kind of inexplicable feeling of fog.

It was also at this moment that the scene of the sensation of the entire heavenly imperial capital suddenly appeared...

Chapter 3236: Eye-catching

On the top of the ancient king of medicine, under the three characters of the ancient medicine, the original word is empty, nothing, but at the moment, a name suddenly appeared.

Linghu Chong!

And the name appears in a flash of light, and the same name as the two layers below, in the center of the top of the top.

For a time, the entire tablet of the ancient king of the monument, the three layers have the same name, are located in the first residence of the floor, are shining, can be stars.

This means that Linghu Chong finally cleared the customs, even if it is the third level, it is the perfect posture to cross!

In the faraway sky, Hu's tears and tears: "Sure enough, the Lord, this kind of heavenly posture, in addition to the lord of the fox family, who else? Who can see you!"

Mr. Hu is excited and inexplicable, muttering to himself: "After more than two thousand years of silence, let the fox spurt, and finally have to shine again? The old master, Hu Qing finally does not bear the burden, wait until the young The Lord has returned!"

At the same time, the entire vast extension of the square has fallen into a deadlock.

The area where the three top-level gatekeepers of the Sky Wars gather.

Tuofeng Linfeng and Gongyangzhi, Changyu Xiaotian clenched their fists, and they were full of unwillingness and sorrow.

The owners of the three top-level door valves turned their heads and looked at them. There were fine flashes in the middle of the battle, and the face was gloomy to the extreme.

"Sure enough, the little hybrid of that vein is back!"

"This is also a good thing. In the past, I fled a small lord. This son should be a descendant of his blood, and brought back the inheritance. This time, the extension of the pulse will be done in the sky, the things of the year, There is a final knot."

"Hey, the boy doesn't like it. After ten days, he enters the ruins. When your light and heat are exhausted, it is when you die..."

In addition, Xuanyuan's strong people, Xuanyuan Ziyun in the splendid color, although the heart has long been such a speculation, but when everything really becomes a fact, she is still very shocking.

At this moment, I muttered to myself: "Miss Ben asked herself that she had an amazing talent in refining medicine and never served anyone, but today she encountered this fox rush, but she was frustrated and dissatisfied."

"The right pair, to serve, must be served!"

On the side, Xuanyuan's owner took over the words and seemed to be quite satisfied with the attitude of Xuanyuan Ziyun. He grinned and said: "Hey, ah, you will eventually be at home to teach each other, how can you not accept it? It's quite good for the fox, and what is wrong with the savage? You have to take the soft gram, you will serve him first, and then he will let him serve you!"

Xuanyuan Ziyan has a big eyes: "#¥%....."

It was also at this time that the drug king's ancient monument, which had just appeared on the top floor, was suddenly changed again.

"call out!"

A ray of light rises!

At this instant, all the names of the original three-story area on the ancient king of the drug king disappeared.

Then, three huge archaic characters suddenly appeared, and the top layer appeared as a word, occupying the entire top-level area.

The middle layer is a fox, the same is true.

The bottom layer is a punch and also occupies the entire floor.

Linghu Chong!

The three big characters all have the size of the master, which is many times larger than the top three words of the drug king monument. The three words have already occupied the entire monument.

At the same time, it emits endless stars!

This means that the ancient king of the drug king was conquered, and now three words appeared, occupying the entire monument, clearly the rhythm of the ancient monument is about to recognize the Lord!

At the same time, the green light that originally shrouded Ye Xuan's body was suddenly retracted, and it was not within the ancient king's monument. Ye Xuan opened his eyes.

The system sounds in my mind sound at this moment.

"Hey, congratulations to the host, the perfect test! Received the drug king ancient monument to confirm the request, is it passed immediately?"

"Through pass! Charge the monument!"

Ye Xuan's heart is jumping wildly, he is not polite. This is the extension of the dialect's prior public appearance. Since he has done it, don't want to be white. He immediately issued the letter to accept the ancient monument and accept it. instruction!

"call out!"

With the instructions of Ye Xuan, the phagocytic system immediately got in touch with the ancient king of medicine. The latter turned into a green mang, and directly fell into Ye Xuan's body and disappeared.

At this moment, the entire Extension Square is dead, Ye Xuan, everyone is eye-catching!

The extension of the male, the ram does not regret, the long fish stunned three eyes slightly twitched, although this ancient king of the drug is the extension of the home from the remains of the drug king, but now it is charged It is the descendant of the fox, and the annihilation of the fox in the same year was caused by the joint efforts of the three of them. Therefore, the ram does not regret and the long fish is not unwilling at the moment. male!

However, after all, the three people finally resisted the attack, and even their faces were full of smiles. They saw the rise of the genius of the younger generation and the old-fashioned expression.

But in their eyes, Ye Xuan, who has unlimited scenery at this time, is no different from the dead, at least they think so.

The heart hates darkly, but the face is filled with a kind smile. The extension of the male, the ram does not regret, the long fish stunned three people stalked toward Ye Xuan in the center of the square, the home of more than ten other top door valves The same is true, one by one, laughing and not falling, the first time to go to Ye Xuan.

At this moment, Ye Xuan is definitely a super invincible fragrant meat in their eyes. You must know that this ancient king of medicine is the only key to enter the core of the remains of Yaowang.

Now the ancient monument has already recognized the Lord. This represents the fact that Ye Xuan will be able to successfully enter the core of the remains of Yaowang this time. Not only that, but also a group of accompanying people to enter, of course, the remains of Yaowang have also entered. The strength of the person can not exceed the black hole, so only the younger generation!

For the rulers of this top-level door valve, it is related to the current Ye Xuan, whether the descendants of their family can enter the core of the remains of Yaowang with Ye Xuan, which is the only hope for the ultimate inheritance of Yaowang. what!

"Taro, go, hurry to accompany you to look at it, to expand the male, the ram does not regret, the long fish and the guys are all green, this is not a good sign."

Turning to the Xuanyuan Ziyang next to him, Xuanyuan's owner is now full of enthusiasm. He has already turned Ye Xuan, who is named Linghu Chong, into a new one, and the more he looks at it.

Seeing that Xuanyuan Ziyang was quite resistant, he immediately lowered his voice and whispered: "Don't you want the drug king to pass on? The drug king monument is just the key to open the core of the inheritance. It does not mean Will be able to obtain inheritance, in addition to himself, can also bring in 19 companions who have been repaired below the original point of origin, everyone has the opportunity to win the complete drug king heritage..."

Xuanyuan Ziyang immediately moved.

Seeing this scene, Xuanyuan old man once again grinned and laughed: "So, you two have to cultivate your feelings first, and there are ten days, but it is coming. At that time, your young couple will join forces to defend the enemy, and the king of medicine will surely have a hand!" "

Xuanyuan Ziyan:

Chapter 3237: Sweet meat

"Ha ha ha..."

"This ancient Wang monument is that I have exhausted a lot of hardships from the remains of the drug king. Unfortunately, although I have gained some inspiration from the ancient monuments, I have been able to There was a breakthrough in the research topic, and the ten-level liquid was introduced in one fell swoop. However, the strong talents of the ethnic group were limited, and after all, they failed to complete the three customs, so that the monument recognized the Lord."

The figure fell on the side of Ye Xuan, and Tuo Xiong looked up and laughed. He was extremely open-minded and unpretentious. He looked at Ye Xuan and looked up and down. He nodded frequently: "The old man put this monument on the square, the purpose is to For it to win a good lord, today is indeed the wish, Xiaoyou Tianzhi capital, since the drug king ancient monument, self-qualified with me to explore the remains of the drug king."

"Yes, this little friend should not miss it!"

The ram of the ram's family did not regret to take over the words, but also smiled, watching Ye Xuan admire: "This monument is the key to the opening of the core of the remains of the drug king, with this key, refining The ancient monuments will be able to bring together 19 companions below the original point into the core of the relic."

"I have decided to start exploring after 10 days. Xiaoyou will stay with me for a few days and stay in the house to exchange ideas."

"Since the ruins are limited to the strong ones who can only be repaired below the original point, I can't wait for a lot of old guys..."

The same smile on the face, the long fisher's owner, the long fish, also stunned the dragon: "Oh, the waves of the Yangtze River push forward waves, the future is your younger generation, this time, I will send a \* each top door valve The younger generations who have been trained as black caves will enter with them. You must love and help each other and support each other in order to successfully obtain the inheritance of Yaowang and benefit my people!"

In a few simple sentences, basically everything has been clearly stated, and even the retreat is blocked, so that Ye Xuan can not refuse, otherwise it is not willing to benefit the human race, otherwise it is the medicine that has been hard to get from others. Wang monument did not pay attention to return.

The owners of the other top ten door valves seem to be very satisfied with this discourse and have echoed.

The successors of the 16 top-level door valves, such as the extension of the wind, are different.

At the moment, it seems that Ye Xuan is like a star-shaped arch, and he feels that he has almost jumped into an equal position with the owners of the gatekeepers.

At this moment, the gatekeepers of all the gates are vying to talk to Ye Xuan. They can only stay behind, and they feel that they are shorter than Ye Xuan for no reason. This feeling is really making them angry and too uncomfortable. Now!

Ye Xuan sneered under his heart, in fact, he did not intend to get the ancient king of medicine Wang Wang will leave.

At this moment, this ancient monument has been reduced by countless times, turning into a simple blue-green monument, suspended in his knowledge of the sea.

What makes Ye Xuan unexpected is that this monument is not an ancient thing, but an ancient one. After the ancient times, its quality is obviously not low. It is suspected to represent an extremely important inheritance and enter its sea of knowledge. Like the original tower of the ancients, it was suspended in the central area of Ye Xuan's sea and juxtaposed with Lei Diyin.

It is not like the golden bow, black gold dragon scales, located in the square of the sea.

Only then can you see that the drug kings it represents are not the same.

With this in mind, Ye Xuan will never give up this opportunity to enter the remains of Yaowang. He must go in and explore and get the complete drug king heritage.

According to his estimation, as long as this is done, he can completely formulate ten-grade fluid, eleven-grade fluid, and even higher-level gene culture fluid in the future.

In this way, the road of genetic evolution, there is no possibility of breaking the front, Ye Xuan will be able to go on!

This is really important. In the face of this opportunity, let alone leave, even if you take the broom, Ye Xuan will not leave.

It is just in this ten-day period that he stayed at the Tuoja family to eat white and drink. In his current capacity, it is obviously not too bad to use the spirits and foods that the family has come out to entertain, and Ye Xuan was there before. Qingjiang Pavilion has long left an image of a big food. Even if the lions open their mouths, they will point to the dragon's liver today. If you want something tomorrow, it won't be too deliberate. No one thinks that he is Interested in this.

Anyway, looking at the extension of the wind, the goods are not pleasing to the eye, just take this opportunity, it is okay to sneer at the extension of the home!

What's more, during these ten days, you can also exchange ideas about refining medicines with the top-level door valves including Tuoja, which is a rare opportunity. Ye Xuan has passed the first three levels of Yaowangbei. It has been quite powerful in the process of refining medicine. Although everything is stored in the database of the phagocytic system, he can always come to him.

Just a flicker of the \* the top door valve's strong, take the opportunity to take some of the door valve secret remedy from their mouth, or no problem at all.

In a word, the ten days to stay in the extension family is simply a hundred miles and no harm, Ye Xuan did not think why he refused, so even when he was full of joy, he agreed.

While agreeing, Ye Xuan casually swept the extension and looked at the wind. He suddenly thought of another advantage: Is this goods not clamoring to kill Laozi? At the moment, Laozi has temporarily

settled in the extension of the house with the identity of the main gatekeepers. I am sure that all the family members will send these family descendants to make good relations.

Taking advantage of this opportunity, you can just train them!

Thinking like this, Ye Xuan suddenly smiled more brilliantly, and his eyes were more merciful. Just like watching the younger generation, Yu Tiao dialed the wind and Gong Yangzhi, Changyu Xiaotian and other 16 gates to inherit people. The face was swept one by one.

Even Xuanyuan Ziyan has not let go, so as not to be suspected by life.

These guys are also very good people, the first time they caught something from Ye Xuan's weird dawn.

The extension of the Linfeng and Gongyangzhi, Changyu Xiaotian three people stunned, the face brush is white, although they are not afraid of Ye Xuan, but if the other side use this opportunity to teach them in the attitude of the elders, this is simply better than eating Mosquitoes are also disgusting, and even more speechless, they can only hold their noses and lick them, and they can't get it.

In this way, the three guys suddenly complained, and the intestines of the repentance were green.

As for Zhao Qianru from the emperor's immortal star Bodhi technology, Yu Wenzhuo from Tianzun, and the Oriental scales of Shennong's genes, after exchanging a look, they sigh helplessly, they can't blame Ye Xuan, but they will If you are here, you will have to eat it in Ye Xuan. If you eat it here, you will be treated like a younger generation. This account must be recorded on the top of the list, and it is all tired by this kid.

As for Xuanyuan Ziyan, it was slightly frowning, and quietly sighed with a voice that only she could hear: "Strange, this style, this bad eyes, swollen, feel more and more familiar. Is it really the big bad guy..."

Chapter 3238: Long Liver Phoenix Feast

Seeing Ye Xuan nodded, the extension of the male and the ram did not regret, the long fish suddenly laughed, they originally thought that the fox lord is not good to deal with, after all, the other party suddenly returned to the celestial star at this time, to say It is absolutely impossible to know nothing about the past two thousand years ago.

Maybe they have already regarded their three as enemies in their hearts. After all, the three of them did not make public appearances in the incident that year, but in the end, the biggest vested interests of the foxes were the extensions, rams and long fish. Three, how much will always be doubtful.

But now the guy who claims to be the lord of the fox has not revealed it, either that this person has no doubt about them, or that this city is too deep, is a difficult figure.

They would rather believe that it is the latter.

Therefore, after the three exchanged a look in the dark, they had already decided tacitly. This time they went to the remains of the drug king. Once they entered the core of the relic, in any case, they must let the people in the family, the first time. Remove this person for the last time.

To do this, they are still quite sure. After all, although the fox has a half-medicine inheritance, it has made amazing achievements in the field of refining, but the generation of the fox's own master Here, only the third level of the black hole is too weak, there is no resistance at all, only the part that is killed.

At this time, it is not too late, since Ye Xuan has promised to stay in the extension for ten days, to participate in the drug king summit after three days, and then to explore the remains of Yaowang together after ten days, to expand the host as the host, naturally To do the best of the landlord, the moment I smiled and invited Ye Xuan to step into the house to go to the banquet, the other top 15 top door valve strongmen together!

A large banquet hall has a total of four tables. Sixteen homeowners and Ye Xuan sat down on the first table of the first table. The following table is lined up with three tables. One of the tables is a descendant of the descendants of the top door valve. The other two tables are the backbone of the major families. Each table can have 20 people. It is the super big round table, very stylish!

Looking at Ye Xuan's big thorns on the first table at the first table and sitting with a group of homeowners, the following extensions and the wind and other people's faces are depressed, there is no way, the heart is uncomfortable, simply drop their eyes and see no. There are few who go there.

Only Xuanyuan Zijing from time to time turned to the first table of the first table of Ye Xuan aiming a few eyes, falling in the eyes of the extension of the wind, but also she saw the Ye Xuan, suddenly more

depressed, full table of good wine The dish fell into his mouth and it all turned into a taste, chewing wax, no difference!

"Ugh....."

Just ate a few mouthfuls, Ye Xuan suddenly sighed, put down the chopsticks, a lack of interest.

He was talking with him, and he seemed to be quite enthusiastic. The leader suddenly had a bad feeling, but as a host, the host and the guest suddenly did not ask one sentence.

Then he whispered his head and asked: "What happened to the little friend of Linghu? Is it that this dish is not tasteful? The private kitchen of my extension is the top of the sky warrior!"

"It's not a problem with the cook. In fact, this cook is really amazing. The cooking in the hands is a magical thing. These simple ingredients can't be made on the table. It's rare. And sure enough, it's the private kitchen of the extension!"

This is too sullen, but Ye Xuan is a serious, straightforward look, let people not distinguish whether he intends to do it, in short, Tuo Xiong is listening to the old face is green, eyelids straight.

Ye Xuan did not stop, and then said: "Everyone goes on to eat, then eat, don't worry about me, I will accompany you first, and I will be hungry when I go back. I will go to the Qingjiang Pavilion again, even though he is there. The taste of the braised simmered scorpion dragon liver is indeed a little worse, at least it can be used, it can barely deal with it!"

"Moreover, I don't want to eat even the food, the practitioners, sometimes the conditions are not enough. It is normal to cultivate a valley for a few days. Don't worry about me, I am embarrassed..."

After hearing these words, the owners of the top-level door valves have all been stunned. Although the ingredients of this table do not have the rare goods of the \*\*\*\* dragon and the liver, it is not bad, but listen to the Lord's Meaning, it is clear that I usually get used to the dragon and phoenix banquet. I can't stand it for a little. I don't have a dragon and phoenix. People would rather not eat it.

As for the table where the top gatekeepers inherited the people to sit down, Zhao Qianru from Bodhi Technology, Yu Wenzhuo from Tianzun, and the Oriental scales of Shennong Gene exchanged a look and looked strange.

Xuanyuan Zijing was a jump of eyelids, subconsciously sneaked at Ye Xuan, and she suddenly felt that the suspicion of her heart was stronger. This style, more and more like a shameless person.

The extension of the wind is the face of the gas is green, this is clearly the public to dismantle his extension of the Taiwanese platform, what is the kitchen cooking is amazing, can be turned into a magical ah?

In fact, Tuo Xiong is also a bit skeptical at this moment that Ye Xuan is deliberately embarrassing him, but it does not seem like a superficial appearance. People are such a rough temper, and they have indeed been alone in Qingjiang Pavilion. A table is a great feast, among which there is braised blood and dragon liver.

For that meal, people directly throw out a nine-level nine-color star nuclear source, it is impossible to calculate the scene at this moment.

This is clearly not possible.

When I go to eat a big meal alone, I throw a piece of nine-grade nine colors. It only shows that this is a defeat. The remnants of the foxes of that year also took a lot of resources, but it was enough The Lord squandered.

It seems that this is a habit that has already been developed!

Even so, it is within the family of his fox family, but now the place is to expand the home, fearing that no one will smash his temper.

I thought about it, and even if I was smiling, I wouldn't smile, and persuaded me: "Let the little friend of the fox, I advise you to eat it, even if you go back to Qingjiang Pavilion, you are afraid that you can't eat that dish. The blood-stained dragon is not a good killer. If you can get into the food, you have to be an

adult blood-stained dragon. It is a superb beast that has been repaired by the cave. Even Qingjiang Pavilion will kill for a long time. One supply."

"It doesn't matter, rest assured, as long as the Lord has gone, they will surely try to hunt one to meet the Lord!"

Ye Xuan sneered under his heart, but his face smiled awkwardly. He shook his eyes at the extension and lowered his voice. "Don't you forget the owner? You can enter the ruins this time." Ten places, in addition to me and you sixteen, a total of seventeen places, in addition to three more, big deal for them all, change three dragon liver is not a problem..."

Extension: "

Chapter 3239: Spread this kind of

I heard that Ye Xuan was actually playing this idea, not only to expand the male, but even the ram does not regret and the long fish stunned dragons want to marry the mother!

It is indeed more than three different amounts, but regarding this matter, they said well to the owners of other top-level door valves, just to give them three families and one, as the host, the extension of the home is to provide the drug king monument, initiative The owner of the drug king was taken out and shared with everyone, and this qualification was fully met. The owners of other dozens of top-level door valves also agreed.

This was originally unreasonable to pick someone else!

But now?

For the sake of three braised, blood-stained dragons and livers, the defeated son actually had to give the three sums to the Qingjiang Pavilion. If that is the case, wouldn't it mean that Qingjiang Pavilion could go to three people this time? At that time, they entered the core of the relics, and they were also the ones who were the only ones. They feared that the drug kings in the core land would inherit the Qingjiang Pavilion in all likelihood.

Thinking of this possibility, Tuo Xiongxiang and Gongyang did not regret, and the long-shouldered three-year-old cold sweat came out.

Fortunately, this defeated son was straightforward and said this thing, otherwise he would not hesitate to go back to the Qingjiang Pavilion to finish the transaction. At that time, even if the extension and the ram do not regret, the long fish will not accept the account. It won't work.

The owner of the Qingjiang Pavilion is too mysterious. Even the princes of the Tianshi Empire do not dare to offend. They don't have to say anything more, even if Ye Xuan is blaming others for their interests for braised, bloody, dragon and liver. It's gone, but they can't fight with Qingjiang Pavilion at all, they can only recognize their noses!

It's really not so sad when I was a dog's day. I'm going to help the Qingjiang Pavilion to do a wedding dress for a long time!

I thought about it, even if I made a decision, I immediately made a decision. I turned to the ram next to me and I didn't regret the longevity and the dragon. I bite my teeth: "Two friends, no matter what, we After all, it's the host, and it's hard for all of you to come to the sky and the battle star. How about the three families of the braised, bloody, and \*\*\*\* dragons?

This is not because he has pulled the big head to share the pressure. It is really that the three have already formed an alliance. Since the benefits are shared after the event, why should they be responsible for the three braised, blood-stained dragons and livers?

The adult blood-stained dragon is the supreme beast of the cave, hunting for this existence, but it is going to be dead, and it is not the ordinary small fish and shrimp that is dead. It is very likely that the caves of the fallen family will be old. !

"This one....."

"Oh..."

The ram does not regret and the long fish is full of green face. The loss of a family in the cave is a big one. The price is too big, but if you don't want to nod, you may have to make a mistake in the remains of

the drug king. In the end, the Qingjiang Pavilion was cheaper. In the end, the two of them exchanged their eyes for a moment, and finally they nodded their teeth and nodded.

This scene fell into the eyes of other top-level doorkeepers, and they directly let the cold sweat on their backs come out. When they look at Ye Xuan again, the eyes of these guys are all taboo.

This product is definitely a broom!

In a word, the top gates of the three-day battle star of the extension, the ram and the long fish are very likely to lose a local elder in the heavens. This is simply not to think, the defeated family is defeated by others. Come, the bane!

"Oh, ah, the extension of the road friend is really too polite, this Asian blood dragon can not kill, ah, braised sub-blood, dragon liver, the top ingredients of the liver, but the liver from the adult blood. That is the supreme beast that the caves have been repaired, even if there is a method of hunting, it is very dangerous..."

Under the heart of the dark music, Ye Xuan was polite on the surface, a pair was very moved, while talking, while actually picking up the chopsticks, and screaming, all of a sudden appetite came back.

I ate a mouthful of oil: "Oh, yes, the owner of the house, if you really want to hunt down the dragon, then the three dragon heads can give me nothing? You also know that the dragon's horn can be used as medicine, recently less The Lord is studying the ten-level gene culture solution, and the dragon's horn should come in handy."

"puff....."

Upon hearing this, Tuo Xiongiong once again wanted to vomit blood, and this kid actually remembered the dragon horns. And still three?

You know, the reason why he promised this, half of them are also directed at the three dragons, because the ten-level liquid really needs to use the dragon's horn, although the amount is very small, but now they are expanding their homes. In the preparation technology of the ten-stage liquid is not very stable, so the consumption of the dragon's horn is not small.

The two collections in the previous family have already consumed almost all of them, and only three bottles of ten-grade liquid are prepared. If this time, the tri-headed blood-stained dragon is hunted, and at least the subsequent preparation of the ten-grade liquid can also consume the. It has been guaranteed. If it is completely ruined by this kid, this time the family is in danger of losing a hole in the elders of the heavens. Isn't there a hair?

Thinking of this, Tuo Xiong gnawed his teeth for a long time, and this hates the voice: "Little friends, this dragon horn, I need to expand the home, and it is urgently needed, so ... can only give you one!"

"One...half!"

"Complete!"

Half a root must fight, it is too shameless, and Tuo Xiong suddenly does not want to see the shameless face of this kid again. He rises up with sorrow and anger: "You slow down, the old man suddenly has a little liver pain, he will not accompany it!"

If you have a word, you have already gone!

"Little friend, are you studying the ten grade liquid?"

As the leader of the immortal star, Yu Wenchang, who was at the helm of the immortal star, immediately looked at Ye Xuan with his eyes.

"Ha ha ha... The little friend of Linghu is really amazing. If you want to study the ten-level liquid, you basically have to have the foundation of the nine-level liquid. I can't think of my immortal dynasty in addition to the three top-level valves of the immortal star and nowadays. In addition to the extension of the home, there is still a fifth person with a configuration of nine-level liquid, it is really gratifying."

From the end of the Tianfeng Empire, Emperor Tianfeng, the end of the wooden end of the house, Mu Liangzhu also took over the words, while talking about the side of the leaves to make a look.

Fushou said: "Look at the younger friend, shouldn't you be married yet? Just the old man has the heart to choose, right, the little girl Duanmu tea, twenty-eight years, oh, just sit there at the table, you guys I should have seen it before, absolutely the national color, the little friend is worth having!"

"Hey..."

"You are old and not shy, pull \* to the veteran of the old man, this is the goodness of my Xuanyuan family, Duanmu old man, you still have to face?"

As soon as I heard the words of Duanmu Liangzhu, Xuanyuan's family was in a hurry, and the beards trembled. They put down the chopsticks and wanted to attack on the spot.

"puff!"

"Old Xuanyuan, what do you say about who pulls? You are not shy, in the face of the junior, dare to swear this shameless words!"

Duanmuliang's suffocating blood, seeing the table will soon be on the spot, the rhythm of the table, and on the other table, Xuanyuan Ziyan and Duanmu Xiaocha looked at each other subconsciously, and at the same time they had the same illness. Feeling, and all of them are full of shame and anger, can't wait to find the seam and immediately get into it.

It's too shameful to spread this kind of jealousy...

Chapter 3240: Virtue

After the feast, the owners and helmsmen of the top-level door valves temporarily left, and Ye Xuan, who was just taken over by a big butler of the Tuoja family, came to live in a quiet small courtyard.

After finally calming down, Ye Xuan even began to view a defensive enchantment and began to look at the ancient monuments of the drug king hanging in the sea.

To his disappointment, although this ancient monument has already recognized the Lord, but Ye Xuan has always been indifferent in any matter, Ye Xuan can get the information from the ancient monument,

that is, the first three levels Millions of herbs and minerals, beasts and their detailed medicinal properties.

All this has no meaning to him, because it was copied by the phagocytic system at the beginning of the customs, and all of them were stored in the central database of the system. If you want to check the information, Ye Xuan directly adjusts from the central database of the phagocytic system. Take it, it is more convenient and faster than the drug Wang Wang monument.

"It seems that this ancient king of medicine is really just a key. With it, it can enter the core of the remains of the drug king. The so-called drug king inheritance needs to enter and fight again."

In the muttering, Ye Xuan couldn't help but sigh: "It's no wonder that Tuo Xiong Xiong will be so generous, let me refine this ancient king's monument. For them, this is just a key, just hold the key. The people are in their hands, and if they want to get the real king of medicine, they will have to kill them."

"Twenty places, I take one, \* one of the top gates, and the remaining three, should be the top three families of the extension, the ram and the long fish."

"If there is no accident, the three of them should have already secretly formed an alliance. That is to say, once they enter the core of the remains of Yaowang, they will have six younger generations with black holes, and the other 13 top gates will cooperate even if they cooperate. It is also impossible for the six to join forces, so that even the benefit distribution plan cannot be decided."

"If there is no accident, the other 13 top-level door valves, at most, two or three companies have reached a cooperation agreement. In any case, on the surface, it is the extension of the three to occupy a strong position, and the drug king inherits, not theirs."

"Unfortunately, the extension of the male, the ram does not regret and the longevity of the three people is still a misstep. In their eyes, I may be the least threatening, only the third-order repair of the black hole, but in fact Hey, is there a black hole? It can be used to refine the hand. At that time, I put on the armor and armed with the soldiers. All of them are the starry sky to the treasure, plus the sky bow magic..."

Thinking of this, Ye Xuan grinned and said: "This battle is really looking forward to it!"

After the matter was temporarily opened, Ye Xuan's fascination was withdrawn from the sea of knowledge, and he began to concentrate on the hundreds of thousands of herbs, minerals and beasts that can be used in the central database of the phagocytic system.

This time, the three levels of the drug king's monument not only allowed the central database of the phagocytic system to be fully updated in this aspect, but even let Ye Xuan see a new road to genetic fluid research, which gave him great inspiration.

Although the genetic fluid requires the use of countless herbs and beasts, various ratios, and unpredictable changes, the top-level door valves have been groping for many years, and gradually have their own ways to form the secret recipe of the system.

However, in Ye Xuan's view, even if he is just getting started, he may not necessarily fall behind, because he has an immortal starry sky.

Its derivation ability is too strong, and there is such a heavy treasure in hand, if there is a most powerful computer in today's starry environment, this can make Ye Xuan have other top-level gate valves in the research of genetic fluid. Have the inherent advantages.

Although the immortal star also has an immortal starry sky super brain, and is still a mature body, but the immortal starry sky super brain bears the important mission of the intelligent center of the first immortal dynasty first-class star network, where there is leisure for Bodhi The top gate valves of the three immortal stars, such as science and technology, Tianzun and Shennong genes, are derived from the genetic formula.

Therefore, Ye Xuan, who has a growth-level immortal star and super brain, has a far-reaching calculus in the field of genetic fluid research. As long as he gets started, he may be able to prepare it before the extension. Out of the eleventh grade!

With this expectation, Ye Xuan soon immersed himself in, starting from the configuration of the first-class liquid, such as crazy...

The next morning, Ye Xuan was just getting up. The big butler of the extension family had already led the two people to send the breakfast. The words at the dinner last night had an effect, although it was just a

breakfast. However, the ingredients are extremely extraordinary. The glutinous rice is accompanied by the light porridge of the top material of the beastly animal. Ye Xuan is extremely satisfied.

Only a stream of heat rushed into the abdomen along the throat, and instantly became a fierce energy, causing him to scream again when the flesh and blood cells were stunned.

Of course, a bowl of top-level succulent porridge is far from letting him break through the realm of blood gas, but there is no doubt that there is improvement. Ye Xuan could not help but sigh, and it is still the door valve. Well, if you can have the energy porridge to be cooked by this top-class animal of beasts every day, for a long time, it is a diet that can accumulate a certain amount of blood and enhance the realm.

If this kind of idea makes the Tujia family's homeowners know that they are going to spurt on the spot, this bowl of light beasts and porridge is worth a lot of money. Even he himself can't bear to shut down. It is completely In order to appease Ye Xuan, I was afraid that he would move the idea of taking three places to go to Qingjiang Pavilion for a big meal.

Ye Xuan still wants to eat every day, really want to be like that, afraid that it will not take a year, the entire extension of the home will have to be eaten by him!

Just after using the morning meal, the inherited successors of the top-level door valves such as Linfeng and Xuanyuan Ziyan will have a hard time coming to the door.

In addition to the 16 people I have seen yesterday, there are three more guys today. They are following the extension of the three, including the extension of the wind, the public sheep and the long fish, and it is necessary to expand the three new places. The candidate is also a black hole, with a total of 19 people.

Plus Ye Xuan, just twenty, this group of people, it should be nine days later to enter the main gate of the drug king relics of the genius.

The reason why they came together at the same time in the morning, the other 13 are directed at the good purpose of the exchange with Ye Xuan. After all, the ancient monument of refining and chemical medicine was opened, and the key to enter the core of the relics was mastered. The horror refining talents that came out were also fancyd by them. Xuanyuan and Duanmu still thought about recruiting.

As for the extension, the ram and the long fish, it is hoped that the younger generation will be wrapped around Ye Xuan and divide his attention. He hopes that he will only want to eat it all day long.

Even if I don't go to the Qingjiang Pavilion, I'll be able to eat it if I want to eat it.

For all of this, Ye Xuan's heart is like a mirror, but it's not broken. Seeing the heirs of the top door valves and the descendants of Tianjiao who took the initiative to find the abuse, he immediately grinned, carrying his hands and the posture of an elder. Slowly walked out of the small courtyard: "You are good, good morning..."
