

Super D. S 3241

Chapter 3241: The Lord is coming

In the next two days, the heirs and Tianjiao of the nineteen top-level door valves, including Xuanyuan Zijing, under the pressure of their elders, were gnashing their teeth and staying with Ye Xuan. He screamed in a stalwart and sage, and was bleak.

Until then, they finally realized the shameless and hateful of the fox.

Fortunately, Ye Xuan is not particularly concerned about the inheritance of other gate valves, except for the extension, ram and long fish.

In these two days, the extension of the wind and the Gongyangzhi, the long fish Xiaotian three all lost a whole circle, the human spirit is a bit stunned, almost tossed leaving a psychological shadow, heard Linghu II The words will tremble and scream, and the miserable appearance will be a tear!

In addition, at noon on the second day, at the luncheon of Tuoja's family, there was a braised, blood-stained dragon liver, a large plate placed in front of Ye Xuan's eyes, and the eyes of the Tuo's eyes were red. Under the law, in order to hunt down this **** dragon, the extension of the family dispatched three old people who had a hole in the heavens. As a result, one person was seriously injured. Although it was not killed, the old man was the one who was the leader. Uncle, for the inheritance of the drug king, they obviously also fight.

This incident has also been heard by the helmsmen and homeowners of more than a dozen top-level door valves. In their eyes, this dish of braised blood is a **** dragon, and it is clearly that the caves of the Tujia family are half-lived. Who is willing to move chopsticks?

In the end, Ye Xuan's mouth full of oyster sauce, the mature body of the blood-stained dragon is also a powerful beast that is first into the hole, and its body essence is only two, that is, the dragon's horn and the dragon's liver. The former is inedible and can only be used as medicine, while the latter is the top ingredient.

And because this dragon is the day of hunting, the liver is burned, the energy loss in the dragon's liver is less, and a whole part of the dragon's liver is falling, and Ye Xuan instantly feels that the whole body has fallen into one. The huge stove is being grilled.

This is also because yesterday he just ate a **** dragon liver, although it has been placed for three days, the energy has been lost, but the energy stack of the two dragons can not be seen, other people have not yet After the meal was finished, he alone finished the braised dragon liver, and immediately hurriedly left to go to the small courtyard where he stayed.

After half an hour, Ye Xuan's small courtyard was filled with red clouds, accompanied by Ye Xuan's incomparable laughter: "Ha ha ha... cool! It's so cool, it's full of mouthfuls of oil, actually no Be careful to break through, and now the master of the qi and blood power level is the fourth stage of the black hole!"

"There are two sets of dragons and livers tomorrow, and at least one more breakthrough. The blink of an eye is the fifth-order rhythm of the black hole!"

"Hey, it's a good person to expand the family. If you can live for a long time, every day you will have a dragon liver, and this young master will not go..."

Listening to this hearty laughter, the heads of other top-level door valves in the banquet hall were all green on the face, and the old man who was originally trying to recruit and the Xuanyuan family was suddenly awakened, and the first time they were dispelled. This thought.

This guy is clearly a top-notch ransack, but it's okay to wake up in time. Otherwise, once he really brings him back to the family, I'm afraid I won't be a year, so I have to eat the whole family. !

Thinking of this, the old man of Duanmu and Xuanyuan's family looked at each other subconsciously, and all of them were all dangerous, and the cold sweat of the back was smashed out.

"Hey! The old man has a little liver pain today, so he won't stay with you! You can use it slowly!"

Tuo's gnashing teeth, starting from the dinner last night, he did not enter the grain, it is really impossible to eat, the heart is bleeding.

When he walked to the entrance of the banquet hall, he suddenly thought of something, stopped the steps, turned to the ram and did not regret and the long fish stunned the two looked at the past: "Two old friends, there are nine days behind, two meals 螭龙肝, you discuss the supply, don't connect, it's better to be a few days later, or if you are addicted, we... really can't help!"

Finished, go face with anger and anger!

At the same time, in the starry sky of the Star River, millions of miles away from the Heavenly Empire, the Emperor of Heaven, a merchant ship fleet is slowly coming, pointing to the sky.

This merchant ship fleet is not the fleet of the third cosmic people. From the logo of a merchant ship, they are clearly from the second universe.

The Bulls are also one of the federal races of the Second Universe. They have already traded with the Terran of the Third Universe. Through the plane-level cosmic wormholes, the two universes of the commercial fleet can communicate with each other, as early as tens of thousands of years ago. It is very commonplace!

Therefore, this merchant ship fleet of the bulls came, and the patrol ships around the Tianshi Empire did not have any radical reaction. They only routinely checked and released them directly.

On the flagship of the fleet, there were several figures standing at this time. When the first person was a young human man, it was quite extraordinary.

It has been cultivated as a realm, and has reached the black hole nine-order great perfection!

In addition to the black-faced human young man, there are several human powerhouses behind him, as well as several bull-powered bulls with a horn on their heads.

One of the bulls and bulls has even a strong and powerful environment.

Even so, he still stood behind the black hole, the nine-step great young man, like a follower.

This shows that this man-made man must come to the extraordinary, there must be a small force behind the scenes. Under the starry environment, it is impossible to disperse the existence of a stronger slave than his own.

Following the repair is stronger than yourself, the only explanation is that there is a giant behind!

"The young master, has connected to the second star network of the sky warrior, basically the situation is similar to what we have learned before!"

"Tuojiang really succeeded in formulating the ten-grade liquid, and the reason why they made rapid progress in the research of genetic culture fluids was indeed because they got the ruins of the drug king who was in my original fox family. Some benefits."

"The drug king monument that opened the key as the core of the relics has been brought out by the extension of the drug king..."

Just at this time, another Terran veteran hurriedly walked over and stood by and told the young and powerful young strongman that he had just learned the information: "But these are not the key points!"

"The point is that after the leader of the drug will be taken out of the relics, the monument will stand on the extension square, and anyone can make a decision."

"The result was yesterday. This monument was linked to a young black hole powerhouse, and it was a perfect customs clearance. It has already made it a confession. This person is now in the family and is treated as a guest."

"And this person is called Linghu Chong, claiming to be the lord of the fox, this is clearly ... fraudulent use of your identity!"

"Card!"

An alloy cup in the hands of a young strong man was crushed by a hand...

Chapter 3242: Second universe

The young strongman is named Linghu, and his identity is the real master of the Linghu family!

In fact, it is okay to say that he is the patriarch of the fox, because his father has fallen for many years, and the whole family of the fox escaped from the celestial stellar dynasty. , became the helm of the Linghu family!

At that time, the singer of the singer who survived the battle of the stars, the little lord of the fox, was the father of the fox!

More than two thousand years ago, the fox was never born. At that time, the Linghu family was the only one in the entire dynasty that could formulate a nine-level liquid, even the Bodhi and Tianzun creatures of the imperial star. Shennong gene, only can only prepare eight grades of liquid.

The three major families of Xuanyuan, Huangfu and Nangong of the Tianming Empire, the three families of Tianmu, Wuma and Shentu of the Tianfeng Empire, as well as the extensions of the Tianshi Empire, the rams and the longevity, are only Prepare a seven-stage solution.

It can be said that the Linghu family at that time, a large one, in the research field of the dynasty's gene culture fluid, is now more eye-catching than the introduction of the ten-level liquid extension family.

For this reason, the Tianshi Empire combined with the Tianxingxing extension, the ram and the long fish three gene liquid family, destroyed the entire Linghu family overnight, and it is said that there is also the imperial imperial inscription behind it, but this piece The matter has not been confirmed.

There are some traces of beads that are enough to prove.

Because if there is no dynasty to participate, only the Tianshi Empire, I am afraid that it can not affect the three empires of the entire dynasty, so that the two empire's secondary network and the secondary network of the countries in its territory are all inquiring. Not any words related to the Linghu family!

This time, the fox is coming back for revenge!

Originally, he was not ready. According to the original plan, the fox family who fled to the second universe needed to rehabilitate for more than a thousand years. Only after returning to the third universe, they came to the celestial star and will expand. The rams and long fishes were eradicated in one fell swoop.

Thus, once again, the general trend has become the dominant position in the field of gene culture fluids throughout the Tiantianxing and even the entire immortal dynasty.

As long as this general trend is achieved, even if the empire of the war and even the immortal dynasty have some suspicions, but as long as the fox pretends not to know the truth of the year, only the spearhead points to the three gates of the Tianxing, the empire and the dynasty in view of their powerful grasp. Most of the research capabilities of genetic fluids will temporarily tolerate their existence with suspiciousness.

In this way, the fox will be able to set it in secret.

With the years, slowly eroding the empire until the end of the annihilation, since then has the strength and capital to compete with the emperor.

From this point of view, his ambition is great, hatred is very strong, the goal is not only the top three gates of the sky, but also the empire of the heavens and the entire immortal dynasty.

Of course, if it is just to destroy a empire of heaven, even if it is replaced, there is absolutely no strength, enough to compete with the entire immortal dynasty, to compete!

But the fox is absolutely not worried, because he has other foundations, that is the second universe!

The reason why the Linghu family was able to pick up quickly and possess the ability to prepare the nine-grade liquid was because they discovered the remains of the Yaowang near the Tianxing Star!

On the outskirts of the remains of Yaowang, there were half of the kings of medicines in the past, and they were acquired by the foxes, which gave them the ability to prepare the nine-grade liquid. It was for this reason that they were recruited to kill themselves.

Later, the little lord of the fox escaping with the resources of a group of people fled to the second universe, where he rehabilitated for more than two thousand years, carefully studying the half of the drug king, and now the fox It was not long before the eleventh grade fluid was successfully configured.

Compared with the ruins of the drug king, the top-of-the-range family of ten-grade fluids has been developed. In this field, they are even stronger!

For this reason, the two major races of the fox and the second universe have secretly reached a strategic cooperative relationship. On the bright side, they cooperate with the bulls, which is one of the federal people of the second universe.

The first family is the Yinmo!

The Yin Mozu, although it is also the second universe, has not joined the Federation of the Bandar.

There are many aliens in the second universe. Not all aliens have joined the Federation of the Bandar. Although joining the federation is the general trend, there are also some powerful ethnic groups. For some special reasons, they cannot and will not join the federation.

The Yinmo is one of them!

It can be said that the fox has been ally with the two second cosmos, and the support behind it is extremely powerful. If it can destroy the empire of the heavens and the support of the second universe, he can have a confrontation with the immortal dynasty. Qualifications.

At present, the federal situation is tense. Because of the ten-day palace of the comprehension camp, the people of the Second Universe Federation have shown signs of breaking with the Federation. It is precisely because of this general trend that, coupled with the shocking extension of the family, the company has successfully developed the ten-level liquid. Let the fox suspect that the remains of the drug king located in the vicinity of the Star Wars have been exposed...

Therefore, under the circumstance, he was launched thousands of years ahead of time, with a barbarian fleet that disguised the commercial fleet, and came to the Heavenly Empire from the Second Universe.

In fact, this fleet is a powerful battle fleet. In addition to the bull-bearing strongman who appears as a caravan on the surface, there are a lot of hidden demons in the fleet!

This time, there are two goals for the singer.

First of all, enter the remains of Yaowang, enter the core of the land, and obtain the complete drug king heritage!

Second, the three families of the extension, the ram and the long fish were destroyed, and in the name of the fox, the Tianxing Star was firmly rooted. Then I pretended not to know that the ethnic group had destroyed the truth in the past, and the empire of the heavens and the empire and the snakes, Xu Xutu...

At the moment, I have come from the second universe hundreds of miles, and I have not yet arrived at the Heavenly Battle Star. I have heard that someone has used the identity of his own fox family, and the wind and the rain in the sky, not only After the refining and refining, the drug king's ancient monument, which entered the key to the core of the relic, was taken as the guest of the Tuoja family.

If this matter is known to the ancestors of the foxes, it is afraid that they will climb out of the grave on the spot.

"The **** guy, the use of the identity of the young master, but also went to the host of the Lord's family to become a guest, this is clearly the rhythm of the face of the Lord!"

At this moment, the whole fox of the fox was almost blasted. He was always calm and low-key, and he completely ran away.

In fact, I can understand that I was smug, but I did not expect to enter the Tianshen, but I received such news. It is hard to accept anyone at any time.

"Damn guy, let the fox rush? Is this the Lord does not marry you, swear not to be human!"

Under the wrath of the fox, he screamed in the sky: "Ah..."

Aside, the strong men of the second universe, the bulls, looked at each other, and their faces were dull...

Chapter 3243: Entering the world

Today, it is the third day that Ye Xuan has been ushered in as a VIP.

At the same time, today is also the day when the drug king summit meeting of the top-level door valve is held!

Today, the door valve headed by the extension family has joined hands to explore the remains of Yaowang, and only seven days remain!

In just three days, Tuo Xiongiong felt that it was like a year. It seems that after three years, the whole person has lost a big circle. When the drug king summit was held this morning, a pair of deep panda eyes came out.

Originally, at this time, at the Wangwang Summit, all the gate valves were calculated. Whether it was to invite other gate valves to come to the conference, the three families of rams and long fish, or the invitation of Bodhi and Tianzun Gates such as Shennong Gene and Xuanyuan Family!

All of them hope to find out some secrets and secrets about the distribution of genetic fluids from other families before and after this drug king summit.

But nowadays, all the top-level door valves almost completely break this thought, and do not expect it.

Everything is because of Ye Xuan!

These secrets and secrets have mastered some of the top door valves, and everyone knows that this time, the drug king summit, put it on the table to exchange discussions, are all irrelevant topics.

Only some tentative discussions and exchanges in private will involve real gold in the hands of the major families. Everyone wants to get some important technologies that they have not yet overcome from other families, but these technologies cannot be obtained from the air. Come, all the gate valves list the bottom line of exchange and need to test each other.

In this way, the greatest benefit can be obtained at the least cost.

It is a pity that Ye Xuan is also thirsty in this respect. After the summit began, he blinked into a real headless fly, wandering around, whenever he saw the important figures of two top-level door valves. When he whispered, he immediately ran out of his mouth and talked about it.

In fact, the idea was to eavesdrop on the technical exchanges under the furniture of the people!

And he, obviously, is not useful for any useful key technologies. It is clearly eating white food. It is often scared that the two sides who are already tempted, or who have exchanged willingness, are not allowed to be taken advantage of by him.

After a lot of trouble, one morning passed, and finally the *door valves sighed with each other. With this mixed king, they finally realized that this time the King of Medicine will be completely ineffective, and no one wants to communicate happily. Trading, unless you are willing to take advantage of both of them, the key technologies that will be exchanged between the two will be learned in vain!

In the afternoon, the situation is still the same. In the end, the whole drug king summit will be closed, and the door and the helm of the top door valve are all sorrowful, but they are helpless.

At this time, no one dared to offend Ye Xuan easily. In this short three days, he has successfully shaped the image of Ling Huchong. In short, this is a rough and open-minded appearance, which seems to be easy to get along with. There is no city, but in fact, every time people hate to gnash their teeth, what shameless things are dare to do, and they all do the righteous guys!

If it really provokes him, the discovery of the remains of Yaowang after seven days is very likely to be drowning. Once this guy gets up, everything goes out and promises good things to be destroyed on the spot. Play like, say that people will also be beautiful and unconstrained, and will be tempted!

Can be said to be so open-minded, the mood is extraordinary, it is estimated that he is no one except him!

It is because of the deep understanding of the rough and frank beauty of Linghu Chong, the two families of rams and long fish that originally wanted to perfunctory things did not dare to fool him. In the following days, they Several ethnic groups who had been trained in the caves were sent to the distant void outside the Tiantianxing.

And each of them successfully hunted an adult sub-blood dragon, took the liver into the dish, and burned two plates of braised, blood-stained dragon liver for the enjoyment of Ye Xuan, finally paid the difference, fulfilled the promise!

The ram's family is okay, although the three caves of the three-day-old Tianzuo are injured, but they are not degraded, but the long-fishing family who finally shot, after successfully hunting a sub-blood dragon, but unfortunately I met a sub-blood dragon team that spent the nest and foraged. As a result, although the two old men with the hunted killing of the **** dragons escaped, they eventually lost one person.

A family of old people in the cave was so degraded. The long-term fisherman's family looked at the face and didn't have a good voice. The initial news did not come out. The **** dragon that they brought back was in the liver and burned. After the red braised simmered dragon liver, I finally let Ye Xuan break through again.

Nowadays, his qi and blood power has reached the fifth stage of the black hole, and he has entered the middle of this situation.

The news was sent back to the Changyu family. The long-distance fisherman of the owner did not slow up. He was mad at the scene, and then roared, revealing a strong killing!

In the following days, Ye Xuan did not provoke other moths. After living in the extension for a few days, the realm of blood and blood broke through two small steps, which made him very satisfied.

When everything was too late, he realized that the nerves of the top three gates of the top, the ram and the long fish had been forced to the extreme by him. If there were other more excessive demands, he was afraid to enter the drug king. The ruins will break out before.

Therefore, these days, Ye Xuan has been concentrating on the preparation of genetic fluids. From the first liquid to the seventh liquid, Ye Xuan's experience in the preparation of genetic fluids has entered the country rapidly, almost one day, to the established level. The day before the discovery of the remains of Yaowang, he was able to successfully formulate a seven-stage liquid.

As for the various herbs that make him refining his hands, the minerals that can be used for medicine, and some beasts and beasts, etc., all are provided by Tujia.

When Ye Xuan proposed that some herbs and materials should be used to study the preparation of genetic fluids, Tuo Xiong's initial thoughts were still awkward, thinking that he had to open a large lion this time. In case this kid studied the ten-level liquid, the eleventh-level liquid Class, because the required herbs and various materials are top-quality goods, if you squander it, you can't help the extension.

The result is that Ye Xuan only wants some of the lowest-level materials. It is only a sigh of relief, and he will let go of his words and open his supply. As long as he can divert his attention, don't think about going to Qingjiang Pavilion, or what to eat. Bloody dragon liver will do.

Until the day before departure, Ye Xuan wanted only a variety of herbs and materials for the preparation of the seven-stage liquid. Although it is not a low-grade item, it is completely affordable for the extension.

Of course, the most important thing is that time is approaching, and then it is the last day. Therefore, although Ye Xuan had more herbs and materials on the last day, he gave him a bite and eventually offered him. It is.

These materials have not been used up until Ye Xuan successfully prepared a seven-stage liquid, and there are still a lot of them left. All of them are included in the immortal world of Ye Xuan's bones, including the three families of Tiantian Star promised to him. The one half of the **** dragon's horn, this is the top material of the beastly animal, it is difficult to find...

Chapter 3244: Void mystery

The time has finally arrived, and all the top door valves are dispatched.

The top forces from the immortal star Bodhi Technology, Tianzun Bio, Shennong Gene!

The three major families of Xuanyuan, Huangfu and Nangong from the Heavenly Empire, from the Tianmu, Wuma and Shentu of the Tianfeng Empire, are the top three families of the Tianshi Empire, the top three gates, the ram and the long fish!

And the other four in the territory of the dynasty have other forces to prepare the eight-level liquid, the family, the Baili family, Pengcheng Pharmaceutical, and the life gene!

A total of 16 top-level gates and forces participating in the Wangwang Summit, together with some of the strong masters who were able to be named on the ancient king of medicine, were so vast that they formed a huge fleet. The star opened and sailed toward the void in the distance.

Since the remains of Yaowang were discovered by the family of Tianyue's extensions, the entire fleet of expenditures was led by the extension family, and a 10,000-meter fortress of their family was at the forefront of the entire fleet!

It is worth mentioning that although the entire fleet is full of sixteen space fortresses, it is a 10,000-meter-diameter fortress. There is no small fortress with a diameter of five kilometers, and there is no 20,000 meters or 50,000 meters. The huge castle of diameter!

After all, it is only the fleet power of the major civil forces and gatekeepers. The Wanmi Fortress is already the limit. It is impossible to have a huge castle of 20,000 meters in diameter.

Of course, the military of the Tianshi Empire still has it, but this time the Tianshi Empire did not participate in this exploration. It should be to avoid suspicion, so that other top-level gatekeepers participating in the exploration can rest assured.

Otherwise, the local military will intervene strongly, and basically there will be no other powers, including the top forces from the immortal star, Bodhi, Tianzun, and Shennong genes. Although they are

from the emperor, they are also folk. The power of the door valve is not able to compete with the official of the Tianshi Empire.

If the official participates, it is likely that all other foreign door valves will be forced to unite. This is more than good for the three major gates of the Tianshi Empire and the extension, the ram and the long fish.

For this reason, the official empire of the Tianshi Empire does not participate, but everyone knows it well, and the three top local gates of the ram and the long fish, and the official of the Tianshi Empire, must have an agreement!

Everyone is just tacit.

Therefore, in addition to the top three door valves and forces of the three top-level door valves, such as extensions, rams and long fish, there are actually other preparations in the dark.

Before the drug king passed down in the core of the remains of Yaowang's relics, it was normal for everyone to get together. But once the drug king passed down, this kind of harmony could never exist again.

If the forces other than the top three local gates of the extension, the ram and the long fish are passed down, they will certainly start the backup means, such as some instantaneous transmission arrays that have already been prepared, and the medicine will be taken at the first time. Wang Chuancheng sent away, otherwise there will be disputes.

Of course, the top three local top gates and the empire of the Tianshi Empire, which are the top three, the ram and the long fish, must have already prevented this move.

In a word, everyone is superficially amiable, but there are calculations in the dark. This time, the ruins are explored. Before the affiliation of the drug king's inheritance has been revealed, it is better to say that once the dust settles, there will be all the forces ready. After the hand, all will be revealed.

At that time, it was the Eight Immortals crossing the sea.

In addition to the fleet of * top-level door valves, the Qingjiang Pavilion on the Tianxing Star also has secret arrangements, but they are not temporary departures, and have already lurked around the location of the remains of Yaowang.

The same is true of the power of the fox.

The second cosmic wild dragon fleet that pretend to be a commercial fleet has already docked at the public interstellar dock of Tiantian, but the fox has brought some confidant and bulls of the bull and the genie, and quietly left the sky. The battle star also crouched around the remains of Yaowang.

For Hu Qing, the most important thing at the moment is to send a strong man with less master fox to enter the remains of Yaowang and compete for the inheritance of Yaowang.

In the same way, for the real Linghu less the main fox, the competition for the drug king is the same as the current priority.

However, they all know that even if there is a key drug king monument in the core of the relics, there are still only 20 places to enter, except for Ye Xuan, who refines the ancient king of medicine, the other 19 places. Has been divided by the * top door valve.

Whether it is Hu Qing of Qingjiang Pavilion or the main fox of Linghu, they want to send people to enter, they can only be at the last moment, waiting for the opportunity to grab from the top door valve!

The rules of the remains of Yaowang have limited the acceptance of inheritors into the ruins. They can only be strong stars below the original point. Therefore, Hu Qing and Linghu are the masters of the foxes. The strongmen prepared for this are all black holes. The existence of the nine-order grand perfection is four.

Among them, the four black holes and nine teams that have been prepared by the fox are among the great and strong, even including himself!

Ye Xuan, Tuofeng Linfeng, Gongyangzhi and Changyu Xiaotian, as well as Xuanyuan Ziyang, Duanmu Xiaocha, Zhao Qianru from the immortal star Bodhi technology, Yu Wenzhuo of Tianzun, and Oriental

scales of Shennong gene, etc. With the heirs of the forces and the geniuses of the later generations, all of them are now gathered in the 10,000-meter castle of the extension.

Homeowners and helmsmen, including *door valves, are also here!

In addition to Ye Xuan's idlers, the other gatekeepers inherit the people. At this moment, they are all in front of the respective gatekeepers.

Don't look at the heirs of these gatekeepers and the Tianjiao people. They often don't dare to say that the relationship is very good, but they are quite harmonious and have a certain friendship.

However, everyone has a number in mind. Once they enter the core of the remains of Yaowang, the relationship between them will be reversed instantly, becoming a competitor, the enemy of life and death!

Among them, there may be a private alliance, and the top three local top gates, such as the extension, the ram, and the long fish, enter the descendants of the core of the relics, and even have two.

But in general, a fierce battle of dragons is absolutely inevitable!

Four days later, the void in front of the fleet was extremely desolate, and the line of sight was accessible. Only some sporadic stars were visible. It has already deviated far from the main channel of the Tianxing Star Field, and few people came on weekdays.

"Be prepared, the emptiness of the remains of Yaowang is almost coming, just in front of the void."

At this point, the extension of the family's homeowner Tuo Xiong finally sounded, and turned to Ye Xuan and others to order: "The entrance to the void is not obvious, we need to start the battle, all of which we have been arranged, but the warship can not enter. By then, after the passage appears, you will wait with me!"

The voice just fell, and suddenly there was a thunderous thunder in the void in front of the sky, which attracted everyone's eyes...

Chapter 3245: Ectopic surface

The emptiness of the remains of Yaowang is not far from the Emperor Tiantian of the Tianshi Empire. There are only four or five days of voyages. Although it deviates far from the main route of the Emperor, it is in a very remote star field, even in this area. There are not many stars in the void, and there is no development value. There are very few people who come here on weekdays.

But what to say, this area is also on the verge of the emperor, after all, it has not been tens of thousands of years, has been able to remain secret, little known.

The reason for this is that this ancient relic is not in the normal void of the universe. It is hidden in a void and is equivalent to an ectopic space, but only with the third universe. This cosmic plane is connected by a void passage.

The void channel is actually a small cosmic wormhole that connects different void planes.

The emptiness of the medicinal king's remains can be seen as another cosmic plane, but because it is small, it can't be called a cosmic plane, so this small ectopic Face, habitually known as the void secret!

The small cosmic wormhole, which is known as the void passage, is the hidden space that is hidden in the sky. Exist, it has not been uncovered, and it has been revealed to the world.

Just like the legendary peach blossom source, if you don't know the way to enter, even if you walked nearby, you can only miss it.

In the eternal years of the past, the innumerable powerhouses who passed the void of this star field have been so staggered with the mysterious remains of the drug king.

But now, with the rumbling thunder of the emptiness in front of the sky, there is a glimpse of some faint light in the emptiness of the sky, which is the array of nodes established by the extension of the family in the vicinity of the void.

All of them are now starting, and finally, in this huge void, there is a small wormhole like a black hole in the universe. It is deep and distant, and it is dark and connected to another small cosmic plane!

The 16-seat 10,000-meter-long fort of the entire fleet was stopped, and the small wormholes were fanned in a fan shape. Then, the owner and the helm of the doorkeepers led the strongmen of their respective families to step out. The battleship plucked away toward the empty passage in front.

Among them, there are some scattered strongmen who have been named on the ancient king of medicine. They are also allowed to enter the remains of Yaowang, but they can only be used in the periphery, like other strongmen who are dispatched by the top-level gates. Look for opportunities.

After entering the void passage, even if it is the ectopic surface where the remains of Yaowang are located, the entire ectopic surface is actually the periphery of the remains of Yaowang. Exploring in the periphery does not limit the cultivation and does not limit the number of people. All the strong players, including Tuo Xiong and other * top door valve owners, will be active in the periphery.

Although there is no drug king heritage in the periphery, it is a heterosexuality and a few strange fruits. It depends on the personal chances of creation. Because the peripheral area is too broad, this ectopic surface is also an independent universe. The plane, even if it is not comparable to the three cosmic planes, is less than one of the stars.

Such a vast void, there are also some stars, and even some stars are full of vitality, there is no life, but there are plants, if you are lucky, you can still hit the Universiade and pick some rare fruit.

Sixteen 10,000-meter-diameter large fortresses waited outside the void passages like small black holes, and stepped out of the fortress, and then continued to enter the void passage, and then stepped on the star-shaped powerhouse of the medicinal king's remains. Thousand people.

The repairs are about a hundred, and the others are the strongest of the *gate valves.

All the people have already been told, and at the latest 30 days later, they will return to the other side of the vacant passage in the ectopic plane and come out collectively. Otherwise, the extension will dial the family and the void will disappear. I am afraid that it will be There is no chance to come out.

The virtual space connecting the ectopic planes is maintained for one month, and the extension of the family is considered to be some blood, and the resources consumed are not small.

More than a thousand strong people have gradually entered the void passage, but it is still a similar void in front of the eyes, but it is obviously not the former Tianxue star field. The exit of the virtual passage is also a small star-like swirl like a black hole. In addition to the atmosphere of a giant star, all the strong are taking a step from here.

This small star whirlpool is extremely eye-catching, and it can be seen in the far and wide void. Therefore, the star-studded powers who enter the ectopic plane are scattered and explored. They don't have to worry about getting lost, they are too far away, they can't find their way home. !

Looking around, the dark voids around are dotted with stars and stars, some of which even emit light and heat. It seems that there is not much difference between the three universes. The only difference is the quaint atmosphere. It is a lot thicker, but it is still far from the meaning of the ancients.

In addition, its territory is small, not as good as a normal star in the third universe!

This is the remains of Yaowang, a small cosmic ectopic face!

As for the core of the so-called medicinal relics, in the depths of this eccentric star field, you don't have to look for it. When everyone just stepped out of the small star vortex, look at it at first glance. Arrived.

The scene was so strange that all the star-studded people who entered this place for the first time were caught off guard, and all of them subconsciously opened their mouths, and their faces were dull, and the doubts had an illusion!

There is a super huge star in front!

This is not the key, the key is the shape of this star!

It is clearly a three-legged four-eared tripod!

The legendary ancient bronze pottery is generally like this, but the one shown in front of it is too big, bigger than the Emperor Tiantian of the Heavenly War Empire. It is a superstar!

"God, is this really a star?"

"I suspect that it is simply a giant tripod, a bronze giant from the ancient times... No, from the legendary ancient times, no heavy tools!"

"Is it the core of the remains of Yaowang? Is the so-called drug king heritage in the giant bronze ding?"

"No wonder, the king of medicine king, this is the inheritance of refining medicine, how can the refining medicine be separated from the medicine Ding? The king's grade inheritance is hidden in such a giant tripod, but it can be understood!"

"This giant tripod is so amazing, from the ancient king of medicine, can you have this kind of supreme treasure? It seems unlikely."

"If there is no accident, this Baoding, even in the hands of the ancient king of medicine, should be a treasure. It is not the same as the drug king of the year. It is very likely to come from a farther distance. Ancient times!"

With the exclamation of the strong neighbors ringing, the stunned Ye Xuan brain, at this time, came a familiar system prompt tone...

Chapter 3246: Shennong Ding

"Hey, congratulations to the host, and found the ancient treasures of Shennong Ding! Is it charged immediately?"

Shennong Ding?

Ye Xuan was shocked!

Although it is only a waste of ancient treasures, not a waste of ancient treasures, but Ye Xuan still feels a blast in his head, the whole person is smashing in an instant!

I thought that this giant Ding, like a star, was called a drug Wang Ding and so on. Even if it was enough to pull the wind, it was amazing enough. I didn't expect that the real head of the family was so terrible, it was the legendary wilderness. Heavy treasure Shennong Ding!

If it is a real thing, this thing is definitely not created by the ancient king of medicine, but from the real era of ancient times.

This has been confirmed at present, because the prompting sound of the phagocytic system is said to be the ancient treasure of Shennong Ding, rather than the imitation of ancient times.

For Ye Xuan, this is definitely the most important treasure he needs right now!

The Shennong of the ancient times was the ancestor of the refining medicine. The legend of Shennong's taste of the grass did not know how many years passed down from generation to generation, and it has never been annihilated. This has already explained the problem.

If you can get this Shennong Ding, Ye Xuan will go all the way to the research and configuration of refining and genetic fluids. Even if he can't find the follow-up exercises in the future, he will only rely on this Shennong Ding. Can achieve the highest peak on the road of human evolution!

Originally, he thought that this so-called drug king inheritance would be a general refinery or a secret recipe, so that even if the level is higher, there is still a limit, but now it seems that this so-called medicine Wang Chuancheng, most of them are the Shennong Ding.

Perhaps Dingzhong still has other inheritances of Yaowang Yimai, but compared with this Shennong Ding, all other moments are not important.

As long as the refining of this Shennong Ding will be taken away, it will be worth it. Ye Xuan will no longer have to explore the secrets and secrets of the refining of other top-level valves of the imperial court.

Because of all this, you will find the answer in Shennong Ding, and it is far better than them!

One thought of this, Ye Xuan's breathing has been rushed up, the tide of the tide, can not wait to immediately give instructions to the system, immediately charge Shennong Ding, take it to escape, refining!

But all this is obviously impossible. Although the system found Shennong Ding and asked if it was collected, it does not mean that the system really has the ability to successfully collect Shennong Ding!

This situation is not without it before. The prompt that the system asks if it is immediately charged is just to tell you that this thing can be charged, but if you have this ability, it is another matter.

This is a giant star that is much larger than the Heavenly Empire, and it is a huge treasure. It must be big or small, even small and small, but it must be built on a premise, that is success. Refine it, or let it recognize the Lord!

Before that, I was afraid that it would be a great opportunity for Qiankun to come.

The same size of the natural stars, Qiankun might be able to punch a fist, but this is a heavy weapon, and now it is manifested in such a horrible form, Qiankun can not say that it will be blown up, can be moved, It's all a problem!

Otherwise, whether it is the Linghu family who first discovered the remains of this drug king, or later discovered its extension family, even if there is no great power in the family, can't you ask for help from the Heavenly Empire?

This is also a great achievement!

But in fact, Shennong Ding has been placed here so well, and only then can explain the problem.

If you want to take this trip away, there is no other way. The only feasible strategy is to obtain the inheritance of the drug king, and further, find the method of refining the tripod from the drug king

inheritance, and then successfully refine it, or obtain it. The recognition, let it take the initiative to recognize the Lord!

In this way, the size of the tripod can be taken away, and it is taken for itself.

"The drug king heritage is in this bronze giant tripod like a star!"

When the surrounding strong people are still exclaiming, Ye Xuan is even more short of breath, and when the heart is stunned, the side of the extension has suddenly said: "This is a heavy weapon, and the old man even suspects that it is not only It's only from ancient times, it's very likely to be an ancient thing."

"There should be another space inside, and that space is the core of the remains of Yaowang. If you want to get the inheritance of Yaowang, you must enter the inner space of this tripod."

"I have tried many times to expand the home, but unfortunately, it is unsuccessful. If it is forcible, this trip will shed an endless mysterious power. That power is the great power of the fifteenth world. Have to hate, even have no chance to escape!"

"The only way is to get the approval of the ancient king of medicine, and under the protection of the ancient monument, you can enter Ding!"

"After getting the ancient monument of Yaowang, the old man had studied it for a while, although he did not get the recognition of the ancient monument, but at least some of the rules are still groping!"

Speaking of this, Tuo Xiong took the first sweep to Ye Xuan, and then he took the lead: "The Wangwang Ancient Tablet has already recognized you as the main thing. What you need to do now is to hang the ancient monument and hang it on the top of your head. Striving for its power, pouring out the ancient monuments and luxuries, such as waterfalls and venting, all the existence of the internal space of the drug Wang Ding must be safely approached under the cover of the waterfall of the ancient monument, and there is no flaw after entering. Now, feel free to act!"

"Of course, the number of places to enter, according to the restrictions of the ancient king of the drug king, is 20 people, including the younger friends of the fox, and the realm of all people must be below

the original point, the top of the black hole Great consummation, otherwise at the moment of entering, the whole drug was directly wiped out by Wang Ding."

"In addition, you may have some creatures like pets and animals in your body or some storage magic weapons. Whether these creatures can be called out after entering the drug Wang Ding, this matter is unknown, so about this matter, You should be treated with caution."

"Otherwise, if it is summoned, it will be directly wiped out by the internal rules of Yao Ding. It is your own loss. The old man must remind him in advance!"

At this point, the confession has basically been fully explained, and Tuo Xiong has not spoken too much. After a brief pause, he turned to the helm of other top-level gatekeepers such as Xuanyuan's owner and others. They all nodded and did not add anything. This time, I looked at Ye Xuan again. Shen Sheng said: "Let the little friend of the fox, do you have other questions? If you don't have it, you can now sacrifice the ancient king of the drug king and motivate him. Pour it like a waterfall, protect the other 19 door valves, and slowly enter, and enter the drug king Gu Ding together!"

"This thing, shouldn't it be dangerous? I am very afraid of death. Seeing such a big ancient tripod, now the soul is flying halfway!"

After swallowing and swallowing, Ye Xuan returned from the previous shackles, and smiled and concealed it, and then hesitated, even when he provoked the mind of the drug king in the brain, turned into a The blue-green mans, from their celestial cover, rushed to rise...

Chapter 3247: Sudden change

"call out!"

When the sound of the air broke out, the ancient monument of Yaowang rushed out from the celestial cover of Ye Xuan, and the wind rose and turned into a quaint monument of a large size. The ancient characters such as Yaowang and Linghuchong disappeared, although they did not show up. The whole form is formed, but the size of the size is also amazing enough. It floats at the height of hundreds of feet at the top of Ye Xuan, pouring a green glow that hangs like a waterfall.

The area around the square with the shape of Ye Xuan as the center is covered.

The geniuses of the generations of the *mens of the door are no longer hesitant, and they move one after another.

Zhao Qianru, including Bodhi Technology, Yu Wenzhuo of Tianzun, and the oriental scales of Shennong Gene, are the heirs of Xuanyuan Ziyang and Huangfu and Nangongjia from the Heavenly Empire, and the extensions of Linfeng, Gongyangzhi and Changyu Xiaotian. And the other three Tianjiao descendants among the three gates of the Tianxing Star behind them.

In addition, it is the four heirs of the Duanmu, Wuma, and Shentu, which are headed by Duanmu Xiaocha, and the four generations of the four other forces, including the Huyan family, the Baili family, Pengcheng Pharmaceutical, and Life Gene.

A total of 19 people, all of them came out, gathered in the leaves of Ye Xuan's body, and all of them were shrouded in the blue-green light of the ancient king of Ye Xuan.

However, a few of the people are located in different positions. Among them, the six stars of the Tianxing Star are gathered together, which is clearly a small group, while others, some of them come from small groups. They are each in politics, and they stare at everyone else with vigilance.

Among them, Xuanyuan Zijiang from the Tianming Empire is alone, apparently not joined with the heirs of Emperor and Nangong, also from the Heavenly Star.

Ye Xuan took this all in his eyes and suddenly became a bit embarrassed. There is no doubt that the reason why Xuanyuan Zijiang did not gather with the heirs of Huangfu and Nangong was clearly because Ye Xuan had been angered by Xuanyuan's home. The reason.

Maybe it was once laughed at by the two families of Huangfu and Nangong.

These guys have not yet entered the core of the remains of Yaowang, and they have already shown a tendency to compete with each other. Ye Xuan's heart sneered, and once he made his mind, once he entered, in addition to Xuanyuan Ziyang, everyone else. Wait, he has to suppress it all!

Even the heirs of the two emperors, the Emperor and the Nangong, are also the same. These two guys have not been too close to Xuanyuan Ziyang in recent days. When they look at her, they still taunt on their faces. The color, Ye Xuan has long been in mind.

Taking advantage of this opportunity, you must learn a good lesson!

The thought flashed through my mind, and Ye Xuan suddenly sneered, no longer hesitating, and stepped forward to the Shennong Ding, a huge star in front.

As his body swayed, the ancient king's monument hanging over hundreds of feet above his head moved along, moving the green and green areas underneath the Baizhang circle to move at the same time.

The other 19 heirs of the gatekeepers and the descendants of the Tianjiao who were in this protected area did not hesitate to hesitate.

Some of them are in the protected area near Ye Xuan, while others are on the edge of the periphery. The former is worried that Ye Xuan will move too fast and be out of the protected area.

The latter is intended to enter the core of the remains of the drug king, because it is at the very edge of the protection circle, will be able to leave the first time to avoid the attack at any time, but also the fastest. The speed rushed to the depths of the core, and started in advance to compete for the king of medicine.

In short, each has its own minds, each with its own calculations.

Looking at Ye Xuan and other 20 people under the protective light of the ancient king of medicine Wang Xuan go, to expand the male, the ram does not regret, the long fish, the dragon, and Duanmu Liangzhu, Yuwen Changfeng and Xuanyuan old man, etc. The nearly thousands of entrants led by the gatekeepers of the gates all came together, and now they are moving forward step by step.

These entrants are close to a thousand, but the owners and helmsmen of the gatekeepers will not leave. They will always stay around Shennong Ding, waiting for Ye Xuan and others to succeed in obtaining the drug king heritage and rushing out.

Of course, in the view of Tuo Xiongxiang and Gongyang no regrets, long fish and dragons, Ye Xuan has no chance to come out anymore!

As for the other valve masters and scattered repairers, they will be scattered and explored in this vast eccentric plane like a small star field to see if there are other creations.

At the moment, I will see Ye Xuan and other 20 generations of gatekeepers who have already acted. The thousands of entrants have turned around after they have seen them halfway through. Ye Xuan and others have sought the core creations, and they are not willing to do so. After falling into the human race, the periphery of the remains of this drug king is as vast as a small star field. It also hides some opportunities, waiting for them to explore!

Soon, these thousands of entrants have gone clean, they are on the periphery, no need to deliberately speed up.

In the blink of an eye, there are only a few rudders and homeowners, old people, and so on, who will wait for the whole time. They will wait here for a whole month, once someone rushes out, whether or not Bringing out the drug king heritage, they will be taken care of by them in the first time.

Of course, some are protection, while others are secretly blocking their departure, lest they carry the drug king heritage!

Above the dragon's dragon, which is huge beyond the stars, there is always a layer of nine-colored fog, revealing the inexplicable pressure, blocking the approach of the soul.

It is the power of Qiankun, who will be blocked by this layer of fog, unable to move forward, and fall into the inner world of Shenlongding.

At this moment, Ye Xuan, who has the ancient monument on the top of his head, has already arrived at the edge of this tripod. In the step of the step, Ye Xuan took the piece of green and green waterfall with his body around Baizhang, and half of it has entered Ding.

Seeing this scene, the remote gates of Tuo Xiong and Xuanyuan's heads and other gatekeepers all breathed a sigh of relief, and their faces showed a smile. In any case, they have at least successfully entered the world of Ding.

It was also at this time that the shock suddenly rose!

A black lightning suddenly shot from the edge of the dragon's dragon, and directly fell into the left side of the green and green waterfall that had not yet entered the world of Ding. The four figures were all covered, and all were covered by thick black fog.

At the same time, the direction of the right side of the green and green waterfall, a ray of light, as the transmission, directly wrapped the four body in the shadow of the white mans into the green waterfall.

In the blink of an eye, there were actually eight figures in the shadows, draped in the green and green waterfalls, and directly rushed into the world of Ding!

The direct result of this change is that the eight figures that suddenly broke into the sky are immersed in the blue-green waterfall of the ancient king of medicine, and rushed into the world of Ding.

And Shenlong Ding only allowed 20 people to enter. In the first half of the moment, there have been some entrances. Then count these eight people. Of the more than ten people who have not yet entered, only two can enter, and the other eight are still waiting to be reacted. , it has been smashed out of the green waterfall...

Chapter 3248: Ge Feng paused

The horror occurred too quickly, and the eight figures have not reacted, so they have been squeezed out!

Four of them are the successors of the four other forces, the Zhiyan family, the Baili family, Pengcheng Pharmaceutical and the life gene. The four people originally gathered together and stayed at the edge of the green and green waterfall. The black lightning rushed into the first place. Time is squeezed out.

The other four are the heirs of Wuma and Shentu from the three gates of the Tianfeng Empire. With the two of them being squeezed out, the entire Tianfeng Empire, only the Duanmu tea of Duanmujia entered the interior of Shenlongding. It is.

The last two are the Oriental scales of the Shennong gene from the immortal star, and the heirs from the Nangong family of the Tianming Empire.

At this moment, as the eight people were squeezed out of the green and green waterfalls, the other existences, between the suffocation, had completely disappeared into the Shenlong Ding and disappeared.

At the same time, the eight gates and the rudders of the powers of the descendants of the tribe were glaring at the same time. They looked toward the extension and the rams, and the long squid stunned the three. Obviously, this is their little trick.

In particular, the heads of the Huyan family, the Baili family, Pengcheng Pharmaceutical, and the life genes are simply blasting at this moment. Although they are not from the imperial star, they are not the gates of the three emperors, but they are within the entire dynasty. There are also four forces that have formulated eight grades of liquid.

Since the ancestral land is not in the imperial capital, nor in the three emperors, it is based on the fact that it is inherently weaker than other gates and forces. For this reason, the four of them have been tied tightly together. They thought they had four. Personal, and close cooperation, firmly clinged to the group.

This time, most of them can get the drug king heritage, but it is expected that there has been such a change, even the door has not been able to go in, directly brushed down.

At this time, the rudders of these four forces were filled with indignation and gnashing their teeth to the top three, and they identified them as ghosts and did not give others a way to live.

"Take the leader, don't you think this is too much?"

"Before it has been clearly agreed that two of you have two people to enter, but you still don't know enough?"

"Since you broke the contract, then when the dolls come out, don't be afraid that the old man will start with the three of your three generations, and our life genes are not so good..."

The atmosphere at the scene suddenly dignified, and with the smell of gunpowder, there is the possibility of a battle at any time!

"Fart fart..."

At this time, Tuo Xiongxiong was also bombarded. He was squandered by people. The key to the two people who were in trouble, each group was four, and the three of them were only six together. In case the two men joined forces, It is estimated that the drug king inheritance has nothing to do with the three of them. At this time, he is as horrified and has a bit of incompetence!

"Several friends, don't mess, can't you see it? That black lightning is the blood talent of the second universe, the evil spirits, we are being pitted by outsiders!"

However, the ram of the Ram family did not regret it. It seemed to be unhurried, and quickly persuaded him: "We must not mess up the square, or if we fight ourselves, then the genie of the Yin Mozu will inherit the medicine king from it. Come out, don't take the opportunity to slip away? Don't forget that the Yin Mozu is not a federal ethnic group. It is really necessary for them to succeed. The inheritance of the Chinese medicine kings will fall into the hands of the aliens."

"Yes, there is a turning point in this matter. Although I have just entered the eight people, but according to the old man, the other four people should not be aliens, but the human race. Although they deliberately showed up in their bodies, they could not hide. I will wait for the investigation."

The long-fishing dragon on the side also came over and tightened up. He even persuaded: "Unfortunately, they can only perceive that they are human races. I don't know which forces are in trouble, but the matter can be found back, they always come."

"And since they are human races, they should not join hands with the four Yinmo people. I have a total of six people entering the three gates of the Tianshi battle, and they are closely related. Even if we have competition in the internal production, However, most of the drug king inheritance will still fall into the hands of the three major gates of my heavenly battle."

"The old man and the Tuo brothers and the ram brothers promised that once the children in the tribe passed down the king of medicine, then I will wait for the three to not swallow, and how many will be printed and handed over to the friends, so good? "

Hearing this, although it is not the whole copy, but the person in charge of the Huyan family, Baili family, Pengcheng Pharmaceutical and Life Gene are also satisfied, Ge Feng paused!

No matter which of the gatekeeper's descendants got the drug king heritage, it is impossible to share the whole copy, even if they are.

Therefore, with the promise of the three gates of the Tianshen, the other gatekeepers and homeowners, although still not guilty, did not say anything more, and they all waited closely, watching closely the Shennong Giant Ding in front, right now. The only thing they thought was that, in any case, they had to stop the four invaders from rushing out of the giant tripod and smashing away!

.....

"boom!"

When the green-green light waterfall poured by the drug king monument passed through the misty mist of the medicine king Ding Dingkou, it made a huge roar, and the 20 entrants including Ye Xuan were dizzy and lost. I don't know where it is!

Time did not know how long it took. When Ye Xuan's consciousness recovered, he blinked and saw that he was actually in a medicine garden. There were no other people around him, only himself.

"King Wang Ancient Monument!"

Under the eyelids, his first thought was to see if the drug king's ancient monument was lost, and to open the mystery of the monument itself. It would also have a great use in the inner space of Shennong Ding. Maybe it would be the inheritance of the drug king. And hereby find the only hope of refining Huanong Ding.

In fact, since I realized that this star-like giant tripod is the legendary ancient farmer Shennong Ding, the main goal of Ye Xuan's exploration is no longer the inheritance of Yaowang, but Shennong Ding. .

After all, Shennong Ding was derived from the ancients, and the drug king passed away from the ancient times. According to his estimation, the so-called drug king inheritance, mostly from Shennong Ding, may be just a fur.

As long as you get Shennong Ding, it is no longer important that the drug king passes on hand or not.

Although Ye Xuan believes that Shennong Ding's refining method may be discussed in the drug king heritage, but under the circumstance, the possibility of this matter will not be too great, which requires him to explore.

At this moment, under investigation, he quickly let go of his heart. After entering Shennong Ding, the ancient king of medicine king has not been lost. He has automatically entered his knowledge of the sea, and is parallel with Lei Diyin in the center of the sea. .

But what is weird is that the original word of the drug king on the monument has completely disappeared, including the three words that appeared on it.

Today, the drug king monument, after rushing through the layer of the Shennong Ding Ding mouth, has been different from before, changed to a more quaint, revealing a strong sense of the ancient, the shape has changed at least more than a third.

"Is it..."

There was a flash of light in my mind, and Ye Xuan's heart jumped wildly. A bold guess floated on the bottom of my heart, making him breathe in a hurry...

Chapter 3249: The second piece of ancient treasure

This ancient monument is simply not the so-called drug king monument!

It should be the key to the refining and transformation of this Shennong Ding. To be precise, it is!

Shennong!

This tripod originated from the ancient, can be big or small, the big can be turned into a star giant tripod, dragon and phoenix can be entered, by the power of the stars for the fire, cook the world medicine.

At this point, the drug king monument is a shovel of the world, tumbling in the tripod, so that the drug power is even!

Small can be turned into a small medicine canister for daily use.

At this point, the drug king monument is a small medicine!

They are originally a set, with the same source!

Only later, this Shennong Ding and Shennongyu were all obtained from the ancient king of medicine. This time, the cockroach was refining by the king of medicine, and it was covered with a layer of material on its appearance, making it a drug king monument!

In this way, as long as the secret of the drug king monument is not found, no one can refine the Shennong, and this is the key to refining the Shennong Ding, the core thing.

At the moment, this cockroach is pouring green and green waterfalls, and protecting twenty people such as Ye Xuan into Shennong Ding, Yu Dingkou is tempered by the dying of the dynasty, and the camouflage of the surface is turned away. Out of the body...

All of this, at the moment, is only Ye Xuan's guess, but he has confidence. This kind of speculation is basically a fact.

Because at this moment, the ancient king of medicine, which is suspended in the central area of the sea, has indeed changed greatly. It used to be a monument. It is now a cylinder with a thin top and a thick bottom. It looks exactly the same as the medicine.

It is no wonder that it can be suspended in the central domain of Ye Xuan's sea and air, just like Lei Diyin. The former ancient heritage tower has this qualification, that is, the black gold dragon scale and the golden small bow have never occupied the central domain of Ye Xuan.

If it is only a drug king monument from ancient times, can it be compared with the inheritance tower of the ancient times?

However, if it comes from Shennong Ding in the ancient times, it is another matter. Although Shennong is not a Shennong Ding, it is the key core of this ancient treasure. Refining and charging Shennong Ding has to fall on it. Naturally, it is qualified to be juxtaposed with Lei Diyin, replacing the once-inheritance of the ancient heritage tower, and the central area of Ye Xuan's seas and seas is quietly suspended!

At this time, Ye Xuan's mind sounded a familiar system prompt.

"Hey, congratulations to the host, and found the ancient treasures of the gods and peasants! Already refining! Shennong 杵: with the ancient treasures of the Shennong Ding, it becomes a wild ancient treasure package!"

Sure enough, with the shell of the drug king monument being turned into a mist by Shen Nong Ding's nine colors, the phagocytic system has different identification results.

It can also be seen that the drug king is extraordinary. The drug king of ancient times was only put on a layer of shell by Shennong, and it was really extraordinary to block the identification of the phagocytic system.

The speculation of the heart was confirmed. At this moment, Ye Xuan has been thoroughly invigorated. Everything is as he expected. The ancient king of medicine is the Shennong Temple. Like Shennong Ding,

it belongs to the ancient treasures, but if the two pieces are together, they become The kit, then the order is rising, and it is the same as the ancient heritage tower!

This clearly means that you will get a rhythm of the ancient and the treasure. If you can charge Shennong Ding, then Ye Xuan will hold two pieces of the ancient top-level treasures, swallowing the sacred sacred tower, and his The deity has a Shennong Ding suit.

With such a connotation, there is no place in the sky, where can't you go?

At this moment, Ye Xuan is full of love!

However, although Shennongyu has already recognized Ye Xuan as the mainstay, it is necessary to rely on it to refine and refine the Shenbao Ding Ding, and completely control this set of ancient and ancient treasures. Obviously, it is not a matter of course, and Ye Xuan has a long way to go.

The combination of these two ancient treasures is a set of ancient treasures, but since it is a kit, it means that they are both a whole and relatively independent. Although Ye Xuan has refining Shennong, it only enters Shennong Ding. A key to the interior space is just to let Ye Xuan have the qualification to try and refine Shennong Ding.

Two pieces of ancient treasures, Ye Xuan must be refining and refining, so that they can recognize the Lord, and finally get a whole set of Shennong Zhibao!

Wandering around or returning to the origin, this time into Shennong Ding, he eventually had to find a way to refine it, and the refining of Shennong, has nothing to do with this matter, as a key to bring you in To be qualified for refining and chemical, the responsibility of others is exhausted.

All of this is the message that Ye Xuan received after Shen Shen's ability to touch the shape of the gods.

In the end, he smiled bitterly: "In addition, Shennongyu didn't even have a hint at all. It seems that this matter still depends on himself. This is also a test!"

Shaking his head and sighing, he turned his head and began to observe the surroundings of this medicine garden!

Looking around, there is no difference between the interior space of Shennong Ding and the inland of a star, which makes Ye Xuan very surprised.

This is not a space magic weapon, but a treasure of the world.

Inside is such an environment that is completely different from the inland of the stars. How do you refine the medicine at that time?

I will ignite it, can't I burn everything?

With this doubt, Ye Xuan squatted up and squatted toward the sky. Although he was in this pharmacy, there was a lot of stranger and grass, but at this moment, Ye Xuan had no idea to pick it, as long as the refining of Shennong Ding, the whole seat Ding is like a star inland in a huge space, all the succulent grass in the middle of the rolling hills, and eventually it is his, and now there is no need to give up!

Soon, Ye Xuan came to the height of the space inside the Ding. After looking down, he quickly discovered that this area is extremely vast and absolutely matched with the inland of a huge star, but its terrain is very strange.

The medicine garden where Ye Xuan Shicai is located is only the surrounding area, so the green ring is a large ring, which is distributed around the whole area, occupying less than half of the area.

The central area of the entire area is a huge crater, occupying more than half of the entire vast area.

Ye Xuan is in awesome!

Sure enough, it is still a refinery of the world, the volcano in the center is used to refine the heaven and earth, this is a giant volcano, used as a stove, really big.

At the same time, in addition to the central giant volcano volcano, the surrounding circular zone is full of medicine gardens and rolling hills, which can be used to grow and cultivate the exotic fruit grasses, and there are some strange animals in the shadows. No.

Presumably there are various minerals in the soil.

The herbs, beasts, and rare minerals needed for refining can be nurtured in this Shennong Ding, and the central area can also be used to refine the heavens and the earth. This Shennong Ding is absolutely perfect. What is the rhythm of direct material selection?

At the same time, some rare minerals have been obtained in the outside world, or picking and catching some herbs and beasts that are not found in the tripod, and throwing them into the bones is a matter of peace of mind, too shocking...

Chapter 3250: Heart fire

With amazement at the heart, Ye Xuan looked around at the height of Shennong Ding's interior space and was finally disappointed.

He had hoped to find one or two buildings, and there might be some ancient books or stone inscriptions, which might leave some guidance for refining this trip, but now it seems that everything is lost.

This space inside the Ding is completely like a place where the stars are inland. Except for the central area as a giant volcano that smelts the world's medicines, all around it are all rolling hills and medicine gardens. Any trace of human beings left behind.

In desperation, Ye Xuan can only work on the Shennong, which has already been refining, and during the sacred movement, Shennong was sacrificed by him to the sea, and turned into a cylindrical medicine pot with a length of a hundred feet. There is also a round head below, which is used to pick up medicine.

This Shennong 神 and Shennong Ding do not know how many years have passed. This may be the first reunion in billions of years, which naturally triggered a vision.

As Shennong was sacrificed and hung over the huge volcano in the central area of the Dingzhong space, the whole space inside the Ding suddenly swayed abruptly, from the huge furnace in the depths, a colorful flame of flames rises into the sky.

At the same time, the gods and pesticides that have become the size of a hundred feet, also bloomed with endless nine-color awnings, reflecting the whole world.

In Ye Xuan's mind, the sound of the phagocytic system was also heard at this moment. This must be due to the reunion of Shennong Ding and Shennong, which caused some changes. The phagocytic system captured some information in Ye Xuan's mind. It appears in the middle.

I finally got the information to refine this Baoding.

Ye Xuan took a surprise and looked at the database of the phagocytic system in the first time. The data about Shennong Ding and Shennong 果 was really updated in this instant.

Among them is the method of refining the gods and gods!

To sum it up is one sentence: to ignite the flames of the nine chaos in the volcanic furnace of the central domain! Can get a colorful flame, this tripod will be refining and successful, can be the size of the heart, send and receive freely.

But the flame of chaos, which is only a color of color, can only show only one-ninth of Shennong Dingwei.

The great medicines of the heavens and the earth that have been refined have limited potency.

When you can ignite the chaotic nine-color flame with your heart in the future, you will fully grasp the vast majority of the power of this Shennong Ding, and then you will be able to claim the ancient treasures!

After figuring out all this, Ye Xuan was shocked for the first time, and sure enough it was a waste of ancient treasures. I couldn't think of the chaotic nine-color flame!

After the search conditions are given, the phagocytic system instantly lists all the information related to the fireworks in the system.

Sprinkle hundreds of pages, very detailed!

Ye Xuan swept through the knowledge of the gods, and saw all kinds of heard and heard of the fires of the heavens, the fires of the three gods, the fires of the six yangs, the fires of the Nine, the fires of the south, the fires of Xuanyin, and so on. All the flames and fires that have passed.

But it is not the so-called heart fire!

This time he completely caught it, and was blocked again and again. He even screamed at his heart's anger. Unfortunately, this is not the heart of Shennong Ding. Otherwise, Ye Xuan is in a state of anger, not to mention chaos. Flame, it is estimated that most of them can directly point to the chaotic nine-color flame!

Tossing for a long time, although the result is a little more clue, but in the end, it is still broken from here, can't continue!

Ye Xuan's nostrils are burning quickly, I wonder if this can be considered a nose fire!

It was a bad taste, and he suddenly shook his head and smiled. At this time, the shadows of the roads had been looting in the distance. After a long distance, they screamed out loud...

The extension of the wind and the Gongyangzhi, the long fish Xiaotian with the other three came in one direction first, excited, screaming.

"Hey! Brothers, I didn't see it. The Vision was just amazed. A hundred treasures rushed from the depths of the volcano, accompanied by nine colorful faces. This is definitely the inheritance of Yaowang."

"Yes, the king of medicine king, the most important item is naturally sputum medicine. I can't think of the legendary medicine king heritage, but it is hidden in a treasure, if it is not hit by this kid, it will attract treasure. Born out, I am afraid we have to work hard to find it!"

"Ling Hu Chong, and quickly handed over Baodi, we have already seen it, Baodi was included in the body, we have more people, you don't want to be lucky, otherwise don't be afraid that the Lord is disregarding the old feelings and killing..."

Two women, Xuanyuan Zijing and Duanmu Xiaocha, gathered together, and they came quickly at the same time. They looked strange but didn't say much.

Zhao Qianru of Bodhi Technology and Yu Wenzhuo of Tianzun Bio are from the same direction. Although they look gloomy, they have not made a sound.

Finally, there is another person, the emperor from the Emperor of Heaven, and the same roaring from the far away: "Ling Huchong, you can't protect the king of medicine, you will give it away, and you will not die." !"

"Disintegration? If the lord of the fox is a loose master, isn't it better to have a door valve?"

The words of Huangfu have just fallen, and there have been four figures from the west side, murderous, all black hole nine-step great perfection: "Hey! When I made the fox family vertical dynasty gene liquid field, you * gate valve Even giving us shoes is not worthy! Today dare to be so crazy?"

"Fart! This little master is the fox, the Linghu Chong is a Western-style goods, you four blind eyes?"

I didn't wait for the people to come back to the world, and the east side was a roaring sound. The fox was sullen and gloomy. There was a human race and two groups of black fog behind him. There were actually two black hole strongmen of the Yinmo...
