

Super D. S 3261

Chapter 3261: Yin Moe

With the work of Yu Wenzhuo and Huangfu both in the front and rear of the foot, they rushed into the blue-green light column. They were suddenly stunned and snarled by the sinister demons. .

"Wang Ba Gu, Lao Zi is sculpting in front, but you are picking peaches behind, is it so shameless?"

"Damn, Yu Wenzhuo, Huangfu, if you dare to win the inheritance of my Tianxing, even if you have this big tripod space, don't want to leave, you can dispel your mind early, you can also participate in part of the study, don't make a mistake!" "

The words of the two men fell, and the sound of the cold voice of Yu Wenzhuo was heard inside the blue-green light column: "The ram brother, this will not bother you to worry about it, since this is a courageous peach, it is safe to leave. Going to the policy..."

"puff!"

"Huangfu, you are shameless, actually attacking me..."

Halfway through, Yu Wenzhuo suddenly groaned, and it seemed to spurt a blood arrow, and then the sound of roaring sounded. Obviously, the battle inside the blue-green beam did not stop, and the front and rear feet rushed into it. Yu Wenzhuo and Huangfu's two treasures have not yet arrived, and they have already fought in the nest!

Taking advantage of this opportunity, the trend of retreating has been exhausted, and the stagnation of the stagnation of the extension of the wind and the Gongyang Zhi two people to the fox smashed a shot, blasted a printed magic weapon, turned into a hundred feet of the mountain to force it back Then, one after the other, and also rushed into the green light column.

"boom!"

The golden swordsman disappeared, and the imprint of the magic weapon lost its control power. It was easily repulsed by the fox, like a giant mountain from the central force, sputtering numerous debris, but the fox The flying sword that was once again sacrificed was thus collapsed, turning into a splendid, star-studded golden star.

This guy seems to like the sword-shaped magic weapon, and there are a lot of people on his body. At this moment, in time, the Baizhang Mountain, which was made into the imprint of this printing magic weapon, was opened at the fastest speed, but it was not to be worn out. A golden flying sword is cut by the self-destruction, and the front block is instantly resolved.

"This medicinal relic remains the first thing I found in the fox family. I have already explored it more than 2,000 years ago. Everything here, you guys would like to take it away!"

"The king of medicine can only be obtained by my fox, otherwise the Lord will destroy this ruin!"

Before and after seeing four people rushed into the green light column, the fox's face was gloomy, and the words were rushing in when the voice was not falling. The dark fog behind it was already swept, the sinister The strong of the family has arrived.

"Let the fox, the master, there is a veteran, this drug king passed on today who can not take it, don't forget, my Yin Mozu teamed up with you this time, but under the big blood!"

In the thick black mist, a haze of the old man sounded, and his tone of voice seemed confident, and he seemed to be very determined about what he said.

The fox was in a stagnation, and suddenly seemed to think of something. His face showed a sly color. He took the slogan and said evilly: "I almost forgot this nephew. This time, the Yin Zun adults did go down. The blood, even ... have been taken out, this clearly does not hesitate to completely reverse the rhythm of the third cosmic and even the entire Wanluo Federation, so determined, if this trip can not take the drug king heritage, this young master has what face Going back to see his old man?"

"Oh, if it is the king of medicine, it will be passed on. Otherwise, once the undead poison is sacrificed, let alone the space inside the tripod, that is, the great war empire, even the entire immortal dynasty, will be thoroughly The ground is a dead place."

"On the same day, I made the fox a near-destroyed murder. Don't take it for the sake of the Lord. I don't know that there is a shadow of the imperial concealment behind the dynasty. It is really urgent. This will hurt the world again, and the Lord is not hesitating!"

Then, the fox will turn around and step out, and the shoulder will sway and go to the blue-green beam that is rushing forward.

Also at this moment, the sky suddenly became steep!

"puff!"

At the same moment that the fox turned around, the sinister demon who fell behind him once again turned into a thick black fog, tumbling and rolling into a black long knife with a magical sorrow. With a falling edge, the electric flash is generally tied up, and the blink of an eye will make the vest of the fox sneak through the body, bringing out a **** rain, and then a straight round will rush to the green light column.

"You...oh!"

The shape of the fox that has just been swept is suddenly stagnant, and the complexion is pale. He subconsciously looks at the transparent hole in the chest and raises his finger to the black magic knife in front. Only one word is spoken in the mouth, and it is violently Squirt a blood arrow.

Among them, distinct and some minced meat, this is the debris of the internal organs, so seriously injured, it must be dead!

At the edge of the blue-green light column, the black magic knife suddenly stagnate, and once again scattered into a thick black fog. Among them, the voice of the old demon old man once again came out: "Let the fox, you really think that my lord will not hesitate to use it." If you don't have the secret of immortality, is it just to help you get the drug king heritage?"

"It's childish!"

"Look at what you are going to die, tell me the truth, why not? How much do you want to make a difference?"

"The meaning of the Sayādaw is very clear. The king of medicine inherits my yin and evil spirits, but in addition, since the immortal poison has already been brought to the third universe, it must be cast, otherwise how can the human race be chaotic? How can the people of the Second Universe Union break their hearts into the third universe? They don't send troops. How can my Yin and Mozu have the opportunity to dominate the plane like the day?

"Ha ha ha..."

"Is it very shocking? Go with peace of mind, my Yin Mozu will remember your merits, because the black hand that releases the immortal poison can only be you, this sin is too great, my Yin Mozu also bears Can't afford it! Hahaha..."

Speaking of the smugness, the sinister demon figure is suddenly swaying, and the blink of an eye has changed into a fascinating appearance, so that no one can see it.

"You... I hate!"

"boom!"

At this point, the fox finally understood everything. When he thought that he had to carry this **** pot after his death, he would be reviled and become the chief culprit in the annihilation of the third cosmic human race. His heart is hard to suppress himself. The blood in the mouth is mad, and the sky is roaring.

The last sentence came out, and his body shape exploded, turning into a fluffy flesh.

The smog of the flesh and blood, which had not yet spread completely, seemed to be suppressed by an invisible force. It quickly retracted and eventually turned into a thick black fog. As soon as it was smashed, it turned into a fascinating The sinister demons of the foxes were smashed and plunged into their bodies.

"This is really a slap in the face, not only for the most black pot in the history of this sinister demon, but the power of cultivation, vitality and blood, is completely transformed into the energy of the genie, like the grain, helping the elders to step forward. The origin of the origin, Linghu Xiaoyou... Thank you!"

"Hey..."

In the middle of the big laugh, the sinister demon who turned into a fox-like appearance suddenly squandered a terrible horror, which is clearly the unique atmosphere of the original point.

After usurping everything that made the fox, he... finally broke through!

Chapter 3262: Zhu Yun is not dead

"The original point of the origin! The old man finally broke through!"

The Yin Devil is strong... No, it may be more appropriate to call it a fox now, because it is a form or a breath, and at this time, it is no different from the fox. The true body of the latter has been turned into a fluffy, misty, and swallowed, completely disappeared.

In the mutter, the fox is full of joy and joy, and holds the right fist. The body suddenly blows out the bang of the bang, and the power rises so huge in a short period of time, crossing a big realm. This feeling makes him ecstatic!

"With the old man's current cultivation, it is the fake fox who drives the mech, and can do it all!"

Speaking of this, the fox slammed into the southern direction of the space inside the Ding, where Ye Xuan and Xuanyuan Ziyang, Duanmu Xiaocha and others circled a large circle, still not yet arrived. .

"Unfortunately, this immortal poison is the matter of the human race itself, and must rely on them to spread out, this black pot, my Yin Mozu can not afford to back! So, can only be cheaper, these juniors, let them more Live for a few days!"

"As for the few guys in the green light column... Hey, the master and heir of the top-level valve of the dynasty genetic fluid? This is really interesting!"

"If you let people know, this horrible immortal poison is not only the human hand to cast, but also the source of its proliferation, or the heirs of the top-level gates of the great genetic liquid of the immortal dynasty of the Terran Science and Technology camp, fearing that the second universe of those federal ethnic groups The sages, they have to smile a lot."

"Hey..."

In a strange smile, the fox never hesitated, and the right hand was loose. When it was turned over, there was a baby ball-sized gray ball held by him in the palm of his hand.

This pearl is very different, the surface seems to be plain and unpretentious, such as the same low-quality gray pupa pearls, but the interior is clearly not a solid, with rolling smog in the tumultuous, sometimes revealing a head of miniature singular beasts, all Non-contemporary objects reveal a strong sense of ancientity.

And these heads of cockroaches appear to flash in an instant, and the endlessly endangered miniatures of the beasts, each showing a creepy and sinister atmosphere.

Some of them are green and demon, or blushing to win the blood, and some of them are defeated by flesh and blood, still holding pus and blood, and some even have internal organs that have slipped from the belly and hung under the chest and abdomen. This is clearly a wound to death, but it has never affected the atmosphere of these wild and savage beasts.

No matter how unbearable and horrible they are, the countless wild beasts that are dying in this gray bead are absolutely at the peak and even stronger...

All of this has been compressed in the gray-sized boxing ball, revealing the horrible horror of the soul!

"This undead poison is derived from the ancients. It is said to be the ultimate result of the legendary wild war!"

"A mysterious existence of the ancient times, the collection of endless powerful and ancient sacred souls, only two of them have been born since ancient times, and they all fell into the hands of my Yin Mozu."

"Today, the federal chaos of Wanluo has gradually risen, and the ten palaces have died. It has become the source of the chaos of the entire federation. Unfortunately, this fire is not enough, in order to make the second universe federations make up their minds, and the third cosmic people. Completely break the cracks and send troops to conquer, and my Yin Mozu will not hesitate to take out this undead, and push it out!"

"Everything, it has started!"

"A small ash-pounded jewel, but it contains a poison that is immortal, and the third cosmic human race, enjoy it!"

"Hey..."

In the strange laughter, the fox puts the undead bead on the right hand, and a fold will break into the green light column on the side.

After entering, the scene in the first time was reflected in the line of sight, and suddenly he was smiling, and the sigh of joy flashed out of joy, but the corner of his mouth outlined a curve, revealing a thick sorrowful color.

"Currently, the genocide crisis has come. These so-called human race arrogants are still fighting each other and killing them. It is ironic!"

The mouth screamed with a voice that only he could hear, and the fox licked his mouth with contempt, and the look on his face was awkward.

In front, as early as he stepped into the blue-green light column, the extension of the wind, Gong Yangzhi, and Yu Wenzhuo, Huangfu four are fighting and fighting, the battle is chaotic, simply can not see who is with whom or a group, This is true even if both Tuofeng and Gongyangzhi are the same.

Faced with a hundred feet above the top of the head, the drug king who passed the test is almost inaccessible. All the people can no longer maintain their normal heart. They have already lost their hearts and minds, and their eyes are red.

"Dare to win me, let the fox pass the treasure, and today, you will all die!"

"Ha ha ha..."

"This is the undead poison of the hard-working Lord, and enjoy it!"

Looking up and laughing, deliberately attracted the attention of the four people, and then the fox lifted his hand and threw the gray smashing undead.

"boom!"

This bead was originally extremely fragile. It was collected in the ancestral home of the Yinmo family on weekdays. Even if it was taken out one by one, it was carried out with a special storage magic weapon, and it was suddenly smashed by the steep hand, and the fox was never returned. Deliberately wrapped a layer of extremely unstable Yin Devil energy, it will make it burst open immediately after it is shot!

In the sound of the explosion, the fog of the awning ash fluttered away, so the green light that came into contact with the ash and fog was as suspicious as it was corroded, and the scorpion quickly melted away, and this rushed between the eyes. The huge green-green light column was cut off from it and collapsed.

At the same time, the green sapphire that was suspended by the green light column was lifted, and the green jade ruler hanging above the sky was also steeply falling down. It was received by the fox.

Then, after the letter was turned over, the green jade ruler disappeared and he was included in the body.

"Sure enough, it is the inheritance of the drug king, the treasure has been handed, the young master is not accompanying, this immortal poison, a few slowly enjoy it!"

The green jade ruler came to the hand, and the fox was absolutely ecstatic. He looked up and laughed in the body and suddenly retreated. He almost avoided the gray fog that was spread by the ash blasting beads. go with.

Seeing this scene, the extension of the wind and Gong Yangzhi, Yu Wenzhuo and Huangfu four people just reacted, stopped the infighting, and the body shape is ready to pursue.

It's a pity that everything is late. The fog that suddenly spreads over the awning has shrouded the four people's bodies. There are some strange particles in the breath that have entered the body. The four people only feel the spirits, and they lose their minds and dumplings. It seems to be headed down.

This scene happened to be seen by Ye Xuan, who was eager to see it. When he saw a awning, the fog was scattered, the blue-green light column was rapidly melting, and the four people who had set off the wind were plunging into the void, and he suddenly sluggish, the whole brain It's all messed up: "God, here... what happened?"

Chapter 3263: Colorful flame spray

"God, what's wrong with the extension of the wind and the Gongyangzhi? The four black hole strongmen have fallen into the dust at the same time!"

"It's not like a fallen, the body is very weird, chaotic, and seems to be experiencing something weird..."

"Who is this all the key? Is the drug king passed away?"

"Behold, the jade ruler has disappeared, the blue-green light column is rapidly melting, and a gray fog is spreading. It is they that melt the blue-green beam. What the **** is this..."

.....

Behind Ye Xuan, Xuanyuan Zizhen, Duanmu Xiaocha, Zhao Qianru, Ichiro and others followed closely. At the moment, they also saw this scene. All of them suddenly disappeared and they lost their voices!

Ye Xuan's heart leaps and leaps, and the drug king's inheritance is taken away from him. He is not too concerned. After all, the so-called drug king of ancient times was only after he got Shennong Ding and Shennong, and he did not realize his uploading.

Perhaps even the King of Medicine has never solved the true mystery of Shennong Ding and Shennongyu. These two ancient treasures together are a set of ancient treasures, not so easy to fully understand.

Ye Xuan's phagocytic system is refining Shennong Ding. Once completed, this ancient sacred treasure suit will fall into his hands. In the future, with the participation of other achievements, the achievements in the future must be far beyond the ancient times. Medicine king.

What really surprised him at this time was that the awning was spreading rapidly, and he was only able to see it clearly. Four people, such as Lin Feng and Gong Yang Zhi, fell from the dust of this canopy.

This is the star of the four black-holes, and even the existence of the black-hole ninth-order grand perfection, the situation is clearly poisoned.

What is the origin of the awning ash and fog, is it terrible?

Oh, yes, including the blue-green beam that rushed from the birth of the drug, Wang Yuji, which is now almost melted under the spread of ash and fog.

This blue-green light column is the same as the light that was previously emitted by the ancient king of medicine. It is clearly derived from the vein of the drug king. This is the power of the ancient drug king, but it can't stop the gray fog and fog. Was it melted?

Realizing this, Ye Xuan's heart was once again violently shocked. In the vagueness, he had already guessed that this awning ash would be a horrible horror, and that it would be related to the sinister family of the fox!

At the moment, both of them have disappeared. At the same time, the drug Wang Yuji disappeared. The truth of the facts is that the fox and the strong man of the Yinmo are out of the fog, and the poison has turned over the four people. Take the opportunity to take the medicine Wang Yuji away!

Ye Xuan will say the idea, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and the three women suddenly became angry and filled with anger, so that the fox Ichiro four people are even more furious, the seven guys are all in the heart of the drug king passed down.

"boom!"

Also at this time, in the rear of the ding volcano in the central area of the Ding inner space, the original one-color orange-red flame suddenly became a masterpiece, and the color of the nine colors was highlighted, illuminating the whole world. Even the face of Ye Xuan and his eight men is already a colorful color.

Previously, when Ye Xuan sacrificed the ancient king's monument in the inner space of the Ding, the Yangshuo volcano in the central domain had also erupted a nine-color Shennongyan. At that time, it was also let the extension and the people mistakenly believe that Ye Xuan had been passed down by Yao Wang. They rushed and stunned.

At the moment, the colorful flames of the Nine-Colored Shennong Flame, which has been rushing from the central volcano, are even more amazing. They have turned over many times. Xuanyuan Zijing and Duanmu Xiaocha turned to look at the first. Time has widened his mouth and is eclipsed.

Ye Xuan is a gengden in his heart, and a feeling of not too good has come to mind.

The only thing that he ignited with the fire of the Yuanshen is just a single color of orange and red peasant flame. Now how suddenly a nine flames broke out at the same time?

Could it be that the refining and chemical industry failed, causing some kind of change?

Just as his heart was groaning, the sound of the engulfing system in his mind just sounded, causing his heart to scream, but at least the heart that had already hung up to the eyes of the blind man quickly fell back.

"Hey, congratulations to the host, refining and chemical success! Get the ancient treasures of Shennong Ding, and Shennong as a wild suit, combined into two, it is a waste of ancient treasure, is it immediately charged?"

"Hey, the system warns! I found the poison of the ancient sinister poison, whether it immediately spurred Shennong Ding, tried to purify and purify it? The poison of immortality: from the ancients, it was the legendary wild war. The ultimate evil! From the mysterious existence of the ancient times, collecting the eternal and powerful sacred sacred meditation, once touched, the vitality is extinct, turned into an immortal corpse, devours all flesh and blood energy, and persists in ancient times!"

by!

Actually, it is the poison of the endless wilderness of the legendary ruins of the ancient world.

Known as immortal, once touched, then the vitality was cut off, turned into an immortal corpse, devour all flesh and blood energy, Everlasting forever?

Isn't that the cosmic zombie?

Shocked and sluggish, Ye Xuan couldn't help but think of some of the zombies that were seen in the previous world, but the background needs to be changed. In the zombies of the earth, the horrible zombies are only ruined inside a star.

But now, if these undead poisons are spread out, I am afraid that the entire Tiantian domain will fall. When countless cosmic zombies are scattered all over the stars, it will be turned into a barren land, and all humans and starry beasts will Torn, swallowed!

This scene of horror that appeared in my mind suddenly made Ye Xuan violently shudder, which is really horrible. This is the poison of the sorrowful relics after the death of the fallen wilderness in the ruins of the ancient world. Known as immortal, it is the prompt sound given by the phagocytic system, just ask whether to activate the power of Shennong Ding to try to purify and purify!

Try it!

This is clearly the performance of the phagocytic system and the lack of confidence in the successful purification of this poison. This situation has never been seen before, so that Ye Xuan has a cold back.

The situation was too critical. He did not hesitate any more. Even if he gave a positive reply to the system, he asked the system to mobilize Shennong Ding and immediately condensed and purified the poison.

As for the collection of Shennong Ding, Ye Xuan originally did not intend to charge now, then the words are too quiet, too eye-catching, and it is tantamount to disaster.

Anyway, this star-like giant tripod has stood here for endless years. Before that, no one had ever had any power to take it away. Now it has been refining by Ye Xuan, which is even more impossible.

He can wait for this and then quietly return, and God will unconsciously take away the giant tripod.

As for now, it is imperative to leave this place immediately. This world of the world is already insecure, at least until the smog that is spreading rapidly and the immortal poison is successfully condensed and purified by Shennong Ding.

"Retire immediately, these ash and fog should be some kind of strange poison. It is too horrible to blink the four star-studded star-studded powerhouses."

After the decision was made, Ye Xuan immediately warned the seven people of Xuanyuan Zijing, and then leaped to the exit of Dingkou above the drug Wang Ding...

Chapter 3264: Poisonous

The seven people of Xuanyuan Zijing and Duanmu Xiaocha had already had speculations. At this moment, when they heard Ye Xuan's words, they were even more determined, and the look changed again.

Coupled with the faint ash of the awning, the power of the smog is too horrible, the blink of an eye has already melted the blue-green beam of light, and it is spreading at an extremely fast speed, fearing that it will not be a few Minutes, you will reach your eyes.

The thrilling scene of the four people's breaths and turbulence in the air is still in front of them. They don't want to follow their footsteps. Now they don't hesitate. Anyway, the drug king passed down the jade ruler and has been taken away. No value for nostalgia, not a poisonous fog or a horrible nine-color fireworks, it is simply a Jedi, or leave early.

I thought about it, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three people even if they followed Ye Xuan up, so that Ichiro Ichiro and other four from the Qingjiang Pavilion.

At this time, Ye Xuan, who had just rushed out of a certain distance, suddenly thought of something. His stature was stagnant, and he waved his hand to make a virtual sacrifice. He ordered the four men, including Ichiro Ichiro, to enter.

The four men met and quickly responded. They were black households. They would be besieged when they went out. Now they can enter Ye Xuan's private battleship to avoid the disaster. The right to die in Ding.

If only Ye Xuan rushed out, this thing is afraid that no one will believe, most will be searched, but there are Xuanyuan Ziyang three women companions, naturally there is no such problem.

One thought of this, the first four people of the fox, Ichiro, did not hesitate, and quickly turned into four awns, and plunged into the hole in the tunnel.

At the same moment, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and the three women were stunned for a while, and they were also exclaimed at the same time. They stared at Ye Xuan's cave, and the eyes were coming out. .

"God, what did Miss Ben see? A dream private warship?"

"Let this lady come to count the array of hull etched methods, concealed tactics, defensive arrays, accelerated arrays, transmission arrays, and there is actually a kind of Miss Lian Ben who can't see what it is, God, This will not be the starry sky to treasure?"

"Big bastard, your battleship has changed again, but you can also see some shadows of the Purple Star Shuttle. No matter this Miss, you have to help us get one of these warships. It's so beautiful, and the function is still strong and metamorphosis. Let's go back and find the right fusion material..."

With the exclamation of these three gimmicks, Ye Xuan was a glimpse, and then his face was completely green in an instant. If he couldn't be so good, would he dare to go out and swear? I was remembered once in a while, and my back was white and sweaty!

However, the three beautiful women did not ignore the madness of the overall situation. Seeing Ye Xuan smiled and nodded, waved the hole to the body, and did not entangle under the heart, even if it followed Ye Xuan Behind him, he rushed toward the top of the Dingkou, and his body shape did not enter the awning of the awning, and the awnings left the space inside the Ding...

At the same time, Shennong Ding inside!

Although Ye Xuan has left, and Shennong Ding has not been charged, but this tripod has been refining him. Before leaving, the phagocytic system has activated some magical power of Shennong Ding. At this moment, with Ye Xuan When I left, the nine-color Shennong flame that was sprayed out of the volcano in the central area of the volcano was once again mastered. At the same time as the flames and the waves, the awning was like a cloud of mist and mist, and it spread rapidly toward the surrounding area.

Soon, these nine colors of fog are in direct contact with the ash and fog that is also rapidly spreading. The feeling is like oil encounters water, although the ash and fog can instantly melt the green leaves left by the drug king. Green light column energy, but there is no way for Shennong Ding's nine-color flame fog, it will be forced to retreat after a face-up, not an opponent.

More and more colorful fog groups have emerged from the volcanoes in the central domain, and gradually covered the entire space inside the Ding, so that the smog and fog that were originally spreading rapidly were directly curbed by the proliferation. Even began to be gradually suppressed, condensed inward, and was forced to the volcano of the Dingnao space.

If this situation can continue for a long time, the smog that has spread out of the past is very likely to be re-introduced into a gray rushing undead bead under the power of Shennong Ding.

Of course, there are also some mists that have spread out and are separated in the process of being forced to retreat. This immortal poison is extremely sensitive to flesh and blood, and most of this part separated from the escape has fallen into the dust. The extension of the wind and the Gong Yang Zhi, Yu Wenzhuo and Huang Fu four people.

The direct result is that these four guys were originally lying down to the ground and die, but at the moment they were like a cold water splashing down, and after a sigh of anger, they woke up strangely.

At the same time, there are still some mists that have fallen into the body of the long fish, and in the previous war, most of the other people were physically stunned by Ye Xuan, or they were exhausted by the strong of the Yinmo. The vitality and the power of blood, even the dead bodies are not counted, not to be favored by these gray and fog.

But the long fish whistling differently, he was only pinched off the neck by the fox, and the corpse was still warm, and it was also attracted to the ash.

Then, an awesome scene appeared, and everything that Ye Xuan had seen in the earth's zombie atmosphere did not make any difference. The long fish that had died, Xiaotian, was staggering and stood up again, both eyes. No god, but reveals a ferocious and extremely hungry red mans.

As for the repair of one of them, from the previous black hole, the ninth-order great perfection, brushed directly to the original third-order!

This kind of immortal poison can actually be regarded as a kind of gene culture liquid, but its role is to promote the destruction. The toxin has changed the flesh gene of Changyu Xiaotian. Now he can't be regarded as the former long fish Xiaotian. He is a zombie, the first cosmic zombie.

If it is released, it is absolutely necessary to poison the rhythm of a big nest!

In comparison, the extension of the wind and the Gongyangzhi, Yuwenzhuo and Huangfu four can only be regarded as virus carriers, their eyes are also somewhat red, but the self-consciousness still exists, the immortality of the poison is slow The ground changes the genes of their flesh cells. These changes may be induced by themselves, but they are not very strong and are ignored.

This stage can be seen as the incubation period of immortality. Once it breaks out, as a living infected person, their harm will be more terrible than the long fisher, but they are now Not aware of this.

They don't even know that they and the long fish are completely a creature, no longer a pure human race!

"God, what is that?"

"Long fish whistling? This guy's eyes are straight, there is no life, and the strength is raised to the third order of the origin. What... What happened?"

"Absolutely not a good thing, I have an ominous premonition, that guy can't touch, maybe it's some kind of corpse poison, it's not alive, it must be a good thing for the fox to do the gray beads, flee!"

Seeing the long fish whistling to the side of the spurt, the extension of the four people in the wind, a sigh of excitement, squatting to the top of Shennong Dingkou...

Chapter 3265: Hurry up and read the curse

Medicine king secret territory!

Since Ye Xuan and Tuo Lai Fengfeng entered the star-like giant Shennong Ding, the heads and helmsmen of the top-level door valves, such as Yu Wen Changfeng, Duanmu Liangzhu, Tuo Xiong, the Rams, and the Long Fish And the old man of Xuanyuan, etc., has been waiting outside the stars.

Including the eight top-level door valve heirs who were accidentally squeezed out in the moment before entering the Stars!

All people are filled with indignation!

Before the Huyan family, the Baili family, Pengcheng Pharmaceutical, and the life gene, eight of the top gatekeepers who had been squeezed out of the qualifications had also vented their anger to the head of the three-door valve headed by Tian Tuo. go with.

But then everyone came to realize that it was not the trick of the three gates of the Tianshi battle. They couldn't collude with the Yin and Mozu of the Second Universe, and once the wind was heard, it would be worth the loss.

Although the Yin Mozu is also one of the many ethnic groups in the Second Universe, it has not even joined the Federation of Wanluo. It is notorious between the Federation and the Tianzu, and both sides are always notorious.

Even if you are looking for a collaborator, it is impossible to see this unbearable ethnic group!

Therefore, although the gas is mad, but the heads of the top door valves and the helmsmen waiting for the stars outside the giant giants, after a little chaos, they quickly calmed down, not again, but a The eyes are red and bloody, staring at the star of the giant Ding.

There is the only way to enter and come out. No matter where the eight incoming guys come from, as long as they don't die in the space of Xingding, they must rush out from Dingkou.

At that time, it was the time when the strongmen who were outside the door suddenly joined forces to make trouble.

Originally, they thought that even if that scene appeared, most of them would have been ten days and a half months or even longer, but what everyone could not expect was that Ye Xuan and other 20 people entered the interior space of the Star Ju Ding. One day, originally only in the Dingkou where some of the colorful smog stars, the giant tripod, unexpectedly appeared in the vision, alarmed all the people, the heartstrings are tight!

The first is a strong nine-color flame masterpiece, rushing out of the stars of the giant giant tripod, the vision is thousands.

Then the strong flame of the canopy was quickly extinguished, so that the top-ranking gatekeepers who waited outside the stars of the giant Ding were surging, uneasy, and did not know what happened inside. In short, it was definitely fierce. .

Even the flames of the nine colors have rushed out of the Dingkou of the Stars of the Stars. How much movement is it?

With this kind of uneasy feeling, the top players of the top-level door valves waited for the meal again. I didn't expect that the nine-color flame that had just been extinguished before was once again a masterpiece. This time, they were even caught off guard and didn't wait for all. The people reacted, and a figure, they have already rushed out of the star of the giant giant Ding, and they are reflected in their sight!

This person is the strong man of the Yin and Devils. Of course, his appearance is a human being.

For all the top gatekeepers who are waiting outside the stars, this human being, the same stranger, has never seen it before. It is obviously one of the eight people who had been invaded before!

Then, the sound of anger and violent screams in an instant, like a conditioned reflex, all people are unanimously shot!

"Block him!"

"Damn guy, come out in one day, and the king of medicine must have been succeeded by him!"

"This matter can't be tolerated. I dare to steal my fruit and I must kill it!"

"Booming..."

In the roaring roar, the dazzling magic weapon rushes into the sky, that is, the top-notch existence of the twelfth big hole and the rams are not regretted, and the body shape of the fox rush will be drowned. The magic of all kinds of magic weapons.

"Old people, this is the main singer of the fox, you can't keep me, but the Lord has left you a big gift, go back and enjoy it!"

"Ha ha ha..."

In the face of the overwhelming magic of the magic light, the fox is not afraid of fear, shaking his hand and screaming a black compass, under the brilliance of a brilliance, a black mantle wraps his body shape, in all magical glory Before it fell, it disappeared without a trace.

"Card!"

A crisp cracking came out, the original in the void, leaving only a black palm big compass, but after the completion of the transmission, it splits itself. This is a one-time transmission compass, which can be described as a heavy treasure. The treasure of things, and now it is so ruined.

"Booming!"

"boom....."

Until then, the dozens of magic light slammed down, tearing a piece of void, and the one-time transmission compass that had been split was completely turned into fly ash, and no residue left.

But the Lord ran away, took away the drug king heritage, and also made a big slogan before leaving, and the words were not inferior, which made the four top door valve rudders anger at the same time, the faintness is even more unpleasant. feel.

The other party has the means to save lives, and what he said before he left is absolutely impossible to be targeted. Hearing what he meant, it seems that something bad happened!

It was also at this time that when the glare of the magical jewels was about to dissipate, a few figures came out again from the Dingkou of the Stars of the Stars. The first was Ye Xuan, followed by Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three women.

After the four men rushed out of the Dingkou of Juding, they immediately turned their heads and looked around. They seemed to be looking for something. Xuanyuan's three women's faces quickly showed

disappointment and depression, but Ye Xuan was stunned. Looking at the piece of magical brilliance that is gradually dimming, he grinned roughly.

"What old friends are you so polite? The drug king passed down and was snatched away by the counterfeit goods. When you came out, you were so grand, and fireworks were welcome, so the Lord was embarrassed..."

"puff!"

"Humph!"

The gatekeepers who were still in the midst of the shock and anger were mad at the spurting of the blood. Some of them saw that he was not dead, and his face suddenly sank and his nose was cold.

Xuanyuan old man and Duanmu Liangzhu and other old guys are eager to go forward to ask for details, Ye Xuan four people behind the giant Ding Dingkou, four before and after another five figures rushed out.

After a slight sigh, Ye Xuan and Xuanyuan Ziyang and others did not know what to think of, such as avoiding ghosts and fleeing to the side, a few gimmicks are even more exclaimed.

"Everyone is avoiding, these guys are poisonous, whoever dies!"

"Yes, I just saw that they had been turned over by the drug, and they blinked and jumped out. It was definitely a scam..."

"Is there an uncle who will know the secrets of Buddhism? Just read a curse and let them go with peace of mind."

"puff!"

"Lie's have a grass! Duanmu tea, you are looking for death!"

Just rushed out of the stars, Ding Ding, I heard such a speech, and the four people on the spot spurted blood on the spot, not squirting well, a spray really scared everyone, the blood spewed from their mouths. The arrow is clearly gray and rushing...

Chapter 3266: I don't want to worry about my head

Gas to the bloodshot arrows on the spot, this is already scary enough, but the blood arrows that are spurted are still not half-stained, and the scent of the ash is generally horrified. This is absolutely shocking.

Seeing this scene, Ye Xuan and Xuanyuan Ziwei three women immediately retired, the face is full of fear, the blood has turned into gray, the water is actually still alive and kicking, this is absolutely not normal, certainly not a person!

The helmsmen of the other top-level door valves in the surrounding area were also shocked and screamed. Even the top four people were scared. They stood there with a dull face, and the whole brain was chaotic!

They still don't know what happened to them now, spit their blood, and swollen it into water?

This is not scientific!

"Roar!"

I didn't wait for everyone to return to the gods, and suddenly there was a roaring roar around the four people, listening to the voice of a person, but the momentum was not like a human being, like a beast.

All the people turned to look at the past with conditioned reflexes. Due to the sudden appearance of the four people, they immediately ignored the back. At this time, they remembered that they had rushed out of the star and the front of the star. It seems that there is still a figure, and it is this who is the beast.

This person, naturally, is a long fish whistling, and to be precise, it is no longer his, but a cosmic zombie!

Compared with the four people who are not the immortal poison carriers, they are already dead. It's because the undead poison is only alive and the other long fish whistling, the image at this time. And the state is really terrible enough.

The first is its head. Before the singer Ichiro broke his cervical vertebrae and let him die. Although the long fish whispered because of immortality, it changed the gene of the flesh, and it seems to be born again. The way came alive, and perhaps the broken cervical vertebrae have been re-grown and connected.

But... the good is also awkward. At this time, he is completely a neck, his head is placed on the left shoulder, and the arc is suspicious. At least the living person can't do such a difficult movement.

In addition, his eyes are gray, no white, no dark, completely gray, including some blood from the corners of his mouth, the same is true.

The four people in this scene looked at the wind and the four people were shocked. How do you think that the long fish whistling at this time is a true portrayal of them soon.

Moreover, the skin that is exposed to the body of Changyu Xiaotian is now carrying black pus in the gray. The whole person is just like the same corpse that has begun to rot, just crawling out from the ground, but the breath in the body is Extremely powerful, although turbulent and secretive, but powerful and powerful, it is clearly the existence of the sixth order of origin.

Compared to his previous entry into the Stars, he has almost climbed a big realm!

"Screaming me, are you swollen?"

Seeing his incomparable son suddenly became like this, the long fish screaming dragon soul is almost gone, and the strong man with several long fish families immediately rushed over, his face pale, and asked with concern.

"Hey..."

In this state, the long fish whistling is obviously not capable of language. Perhaps even the self-consciousness has long been lost. The only thought or instinct is to devour flesh and blood.

Under this circumstance, five lively and squirting bodies with a fragrant squirting flesh and blood breathe in front of them, without any precautions. How can the long fish whispering?

An excited wolf screamed out of his mouth, and then his body shape suddenly disappeared. The seemingly decaying body was so flexible that it blinked to the front of a long fisherman, kneeling on his shoulder. The head of the head was wide open and angered. This was the real smashing of the ear, and one half of the head of the original pointmaster was annihilated.

The latter is still not dead, the upper half of the head is gone, the whole body is still twitching, but the next moment there is no breath, because the remaining half of the head blinked and was stunned by the long fish.

"Mom, what the hell?"

"Scared to death, the Lord is running, run fast..."

"Monster!"

Touting Lin Feng and Gong Yang Zhi four people scared almost diaper pants, a strong point of the original point of the world was so ruined by the brain, the key is to get rid of two, it is simply creepy.

The four of them screamed in the mouth and rushed toward the strong camp of their respective families. It looked like a dog at home, or even less!

"Virus! This goods must have been poisoned by the fake fox lord. The kid colluded with the Yinmo people. This poison may have been brought by the Yinmo people. It's terrible. I didn't listen to it before. Said it!"

"There is also the king of medicine, a blue-green jade ruler, and he was taken away by him..."

"My mother, this little master has hemoptysis, but I don't feel anything about Mao? Is it wool or gray?"

The three guys wowed in their mouths, and although they were confused, they at least meant to be confessed. The faces of the powerful people who were shocked by this scene changed their faces and completely understood what happened.

The drug king passed down, that is, a blue-green jade ruler, and it was really taken away by the former fake fox lord, who claimed to be the fox.

What is even more irritating is that the smuggling of the drug king passed away. In fact, there were several people who had been poisoned by the extension of the star in the big star. The former was clearly identified and was not poisoned. Only.

However, the long fish can be terrible, and a mouth can be directly smashed into the ear. If the mouth is good enough, the head of the original point can be smashed by half. This is clearly a deep poison, and the rhythm of the full-scale attack is absolutely It is not cured!

"what....."

"Let the fox, the old man and you swear not to stand, you must tear you!"

The long fish stunned dragon must be hairy, face-to-face, and screaming in the sky, and then see the original strongman who was repaired by the original point, for a while, has been screamed by the long fish, most of the body Already in his stomach, the bulging sac will be blasted at any time, and his face suddenly shows a sorrow, turning and leaving.

At the same time, roaring: "What are you still doing? Hold him, bring it back, save it, save it, can't save it... It's gone!"

Went out?

The four people who had dialed the wind and heard the word, and once again, they swallowed their mouths and swallowed their eyes to their old dazes, panicking.

"Oh, I, I... I am not poisoned, can't I destroy it?"

"Playing is playing, I am the same, except that the blood is grayed out, everything else is normal!"

"We can refine the eight-level liquid of the emperor's family. If you want to solve a poison, what should you do?" Hey, I don't want to die, I don't want to blame others' heads, save me!"

As said, all four of these guys were crying and mourning. The dozens of top-ranking gatekeepers from all over the world looked at each other and the whole heart had sunk to the valley.

This time, the drug king passed down and the family's young masters and heirs suffered, and they were too wrong...

Chapter 3267: Heart

The long fish whistling quickly was swayed. In the process, a strong fisherman had another strong man who had lost half of his head. Although he had no chance to eat the body again, the strong man obviously could not Lived.

With his beggars, all the people were finally relieved, and the strong ones of the long fish family did not find that during the process of catching the long fish, they were more or more Less are contaminated with the gray blood of some long fish whistling.

Although it was quickly erased, it is from the undead poison of the ancients. Is it really okay to erase it?

Nobody knows!

However, Ye Xuan looked at the eyelids and jumped straight. He saw the long fish whistling into such a monster that was not a ghost or a ghost. He finally realized the horror of the immortal poison.

"The horror of the Tiantian horror is going to be chaotic. Whether it is the long fish screaming or the extension of the wind, their families will not give up the treatment easily. In this process, the horrible virus is likely to spread unconsciously... .."

Under the madness of the heart, Ye Xuan lowered his voice. He whispered to the Xuanyuan Ziyan and Duanmu Xiaocha and Zhao Qianru, who were next to them: "You better advise the strong people to leave this piece of right and wrong. I will soon be Leave, rest assured, your treasures will be refining when I look back, and I will meet you next time to meet the materials of the fusion!"

The three hoes were scared and their faces were white. They used to see the long fish screaming and being killed, but now the goods have become not only the devil, but also the strength. The skyrocketing is close to a big realm, and even a mouth can be smashed to the back of the ear. It is half a head when you go down...

All these people simply can't think, the fear in their hearts is even worse than others. At least they still don't know that Changyu Xiaotian has long been a dead person. This is the rhythm of death and survival to the world!

Of course, they will not reveal this, otherwise it will lead to suspicion.

In fact, after the three gimmicks came back to God, in order to cover Ye Xuan, the first time, everything that happened in the Dingnai space was spoken out loudly. Of course, the section of the singer Ichiro was omitted. Everything was pushed to the head of the fake fox.

No one doubts that the three Shantou and Ye Xuan are a group. After listening to their words, and adding the words of the four people who are arrogant, all the people are no longer concerned about Ye Xuan, and hatred has been thoroughly Transferred to the so-called fake and less master fox.

At the same time, the eight people who were squeezed out of the eligibility of the gates to inherit the people, this time is a look of fortunate color, and the extension of the four people before the appearance of the four completely different, a world of difference.

Into a total of 20 people in the Ding Nei space, in addition to the drug king passed down the jade ruler, and the murder of the fox is not a shallow, the whole must be lived out of the foot is also nine feet, and died mostly.

Among these nine people, there are only four people who are really all-tailed. They are Ye Xuan and Xuanyuan Ziyang, four other women. The other five seem to be all in the mark, one is not cured, the other four are waiting. Sentence only...

Under the heart secretly calculated these situations, the eight guys were lucky, but they were squeezed out, otherwise they are not dead, it is estimated that it is similar to the extension and others!

At this point, this so-called relic exploration operation was completely over, and it ended with a fiasco. Except for a few top-level gate valves such as Xuanyuan and Duanmu, all other forces suffered heavy losses and were simply unacceptable.

In particular, I heard that the interior space of the giant Dingxing has no other creations. Some are just the boundless flames and the horrible gray poisonous fog. All the strong players present are not wanting to go in and look at it, even even They don't want to wait for this drug king's secret.

*The strongmen of the door valve quickly left, Xuanyuan Zijiang and Duanmu Xiaocha, Zhao Qianru and the three women are also the same. In order not to be suspicious, some unwilling to leave with the army of their respective families, Ye Xuan also pretended to be a model Followed behind, returning to the sky warrior.

As for the tactics other than the remains of Yaowang, there are still some strong people in the guardianship. After all, there are hundreds of thousands of people exploring in the ruins of the stars. They don't know that there has been a big change, and it is estimated that they will wait until one month. Upon expiration, it will return to the exit.

Most of these people are the top-level door valves. There are only a hundred or more scattered repairs. Therefore, the array outside the relics cannot be withdrawn, otherwise they will not come out.

This is to let Ye Xuan breathe a sigh of relief, only one day in a month, he has time to quietly touch it, enter into it, waiting for the gods to unconsciously take Shennong Ding away...

.....

Although the *door valve tried to block the news, there were still some scattered strongmen at the time, not to mention the families and forces that were not difficult, such as the Huyan family, the Baili family, Pengcheng Pharmaceutical, and the life gene. I am extremely worried that this kind of horrible smog and scorpion spreads and screams, and I have a heart to leak. I want to secretly press the five gate valves, such as the Long Fish House.

Therefore, everything that happened in the secret of the drug king was finally spread out on the same day, and the whole day of the battle star was completely stunned.

Under the circumstance of some people, the follow-up situation in the long-term home of a house in Temporarily rented a house in Tianxing was quickly disclosed.

It is said that the long fish Xiaotian was on the night when he was escorted, or because he swallowed a strong spot, and the other two long-term fishermen had their own half-heads. The cultivation of the order is the strength, and the situation is skyrocketing again overnight, reaching the 9th order of the origin and almost escaping.

In the end, although the long fish was stunned by the dragon, it was turned into a flesh and blood, but the diffused gray flesh was once again infected with many long-term fishermen, except for a few people such as the long-water dragon. More than a hundred long-lived fishermen staying in the courtyard, most of them were hemoptysis in the night.

The situation and the extension of the four people are exactly the same, even if it is old blood, there is no trace of blood, gray is very scary...

As for the extension of the home, the ram's family, and the Yuwenjia and Huangfu's family who also temporarily rented the independent compound in the Tianxing, but they were blocked, no one knows how the progress is, only know this. The four families have devoted their resources and contacts to the family, and are working hard to help the four people!

However, from the fact that these four gates have been silent and have not published any statements related to progress, the situation of treatment is obviously not optimistic, and it is not saved.

All kinds of rumors have raged in the whole day of the battle star, some people have begun to flee, I feel that this strange poison has to spread, even the royal family of the Heavenly Empire is said to have acted, plan ahead!

On the third day, after confirming that no one has paid attention to himself again, Ye Xuan left the Tianxing Star quietly and rushed to the emptiness secret of the remains of Yaowang. Although Shennong Ding was not there, he never did. Too reassured, or receive more insurance in the body...

Chapter 3268: Qingjiang Pavilion

After the sky warrior, Ye Xuan determined that no one was around, and he sacrificed a hole in the back of a star, stepping into it.

The four men of the squad, Ichiro, immediately greeted them with excitement on their faces. They stayed in Dongxu for three days. Although they only wandered in the top control room, they realized that this small private There is more than one layer of warships.

In fact, the space of the top-level master control room is more than a three-kilometer captain's star-rated military-style warship. It should be known that the total captain of the cave is only three hundred meters.

A small private warship has actually used space folding technology internally. This kind of thing can not be achieved by some top-level existence, such as the prince of the Heavenly War Empire, that is, the private warship of the owner of Qingjiang Pavilion is not. So extravagant.

From this point, they deeply felt the depth of their own home, and naturally happy.

"It's a bit messy outside. You know it when you go back. The guy who grew up in the sky is alive again and becomes a... Cosmic zombie!"

After chatting a few words, Ye Xuan turned serious and went on to say: "I still have a little bit of things, but I have to go to Qingjiang Pavilion in the last two or three days. You should go back first and talk to Mr. Hu about what happened in the Dingnai space. I advised him to prepare early. This day, the battle star is estimated to be unstoppable... I will talk about it in detail in the past."

The first four people were frightened, especially the former. The long fish whispered, but he died by himself. The dead can no longer die. He actually survived and became a cosmic zombie, although they did not Understand what it is, but if you listen, you will be fine.

The four people originally wanted to say something, but listening to Ye Xuan said that they would go to Qingjiang Pavilion in the next few days, and they wouldn't have to squat any more. When they went out of the hole, they rushed to Tianxing.

Ye Xuan, on the other hand, opened the occult method and quickly rushed to the emptiness of the medicinal relics...

The current virtual shuttle is already the starry sky to the treasure, plus the extension of the home to stay in the king of the drug king to maintain the operation of the node is not too strong, basically the original point, so, Ye Xuan has no pressure at all, and after the arrival, the speed does not decrease, and it directly rushes into the secret.

Even so unscrupulous, but because of the hidden array method, the extension of the node to push the node strong did not sense any abnormalities, the hole shuttle suddenly rushed into.

After entering, Ye Xuan directly urged Dongxu shuttle to the depths of Shennong Ding's secret environment. What surprised him was that the colorful flames that Dingkou originally rushed to have disappeared, only some colors of nine colors. The smog is still lingering.

Ye Xuan even issued a command to collect the Shennong Ding to the phagocytic system. The latter directly connected with the internal domain of Shennong Ding, and completed all the things in the blink of an eye. The huge Shen Xing Ding, like a star, rushed into the stream. Ye Xuan's forehead entered his knowledge of the sea.

Such a large giant star suddenly disappeared, and it can be seen from a very far distance. It is feared that a strong person stranded in the secret territory will soon come.

In order to avoid exposure, or to produce other changes, Ye Xuan did not hesitate, even if he stepped into the hole, he turned in the direction and quickly left.

After a short period of time, he rushed out of the original path of the drug king, still did not cause the external nodes to guard the strong, and disappeared into the distant starry sky.

At this point, everything in the Pharmacy's mystery has finally come to an end. There is no value here. What kind of rumors will follow in the follow-up, Ye Xuan will not return again...

After everything was settled, Ye Xuan stopped the hole and remained in a hidden state, hiding on the back of a star, and then began to investigate the situation in the sea.

Shennong Ding was suspended in the central area of the sea, which was the location of the former Shennong Temple, and after the two ancient treasures were all refining, the Shennong Temple has been inserted into the Ding and slanted. It's a cold pot of peony, but it's the shape of a tripod.

If the entire Shennong Dingtong body is carrying the mysterious smog of the colorful colors, and revealing a strong and old-fashioned atmosphere, I am afraid that anyone who sees it will not think that this set of different medicines, Ding Ding, is actually A wild treasure!

Ye Xuan's knowledge quickly disappeared into the Shennong Ding.

The Ding volcano in the central area of the Ding Nei space has already stopped. Not only has the accidental smog of the nine-colored flame disappeared, but even the one-colored orange red flame that was ignited by Ye Xuan with the heart of the gods has disappeared.

However, Ye Xuan has a feeling of flesh and blood connection. He knows that as long as he can read it, a colorful orange red flame will immediately ignite again and he will practise a big medicine for him.

Of course, the one-color flame has the effect of a color flame, and the nine-color flame has the power of nine-color flame. This is different. Ye Xuan can only ignite one-color flame at present, and there is a limit to the large drug order that can be used by Shennong Ding. .

The magic is that although the space inside the Ding has almost filled the endless flames of the nine colors, the undulating hills around the volcano of the Central Domain have not been affected.

Still green mountains and green water, not only all the spirits and spirits are innocent, and even some of the beasts of the spirits can be seen from time to time.

They are all ready-made materials. They can be taken locally when they are practicing large medicines. Ye Xuan will get some kind of Linggen grass from the outside world in the future.

Sure enough, it is a waste of ancient treasures, in the same internal space, the central domain can be fireworks, but surrounded by green mountains and green water, this is the uniqueness of Shennong Ding's internal domain, amazing!

After the fascination of the space in Ding, Ye Xuan was full of joy. If he is still almost blank in the practical experience of refining medicine, he can't help but operate on the spot and try to use this ancient and sacred Shennong. Heavy Ding, smelting a big pot of medicine.

Coldly, his brain suddenly flashed a ray of light, and Ye Xuan remembered the immortal poison that had spread in the space inside the ding, which is the smog of the awning, and I don't know if it has been The nine-color Shennong flame was successfully condensed and purified. In short, everything in the Ding space is normal, and there is no such thing as the gray fog.

With a suspicious suspicion, Ye Xuan's knowledge extended to the depths of the Ding volcano in the central area of the Ding Nei space. Finally, he unexpectedly found a gray puff in his baby.

The beads are extremely strange, and the surface is plain and unremarkable. It is like a poor quality gray-flooded pearl, but its interior is not a solid body. It has a rolling smog that is tumbling, and sometimes it shows a strange and fierce beast. It is not visible in the contemporary. Things, revealing a strong sense of desert.

These cockroaches appear to flash in an instant, and the endlessly endangered savage beasts show a creepy and sullen atmosphere.

Some of them are green and demon, or blushing to win the blood, and some of them are defeated by flesh and blood, still holding pus and blood, and some even have internal organs that have slipped from the belly and hung under the chest and abdomen. This is clearly a wound to death, but it has never affected the atmosphere of these wild and savage beasts.

Just at this time, Ye Xuan's brain once again sounded a familiar system sound...

Chapter 3269: Zombies frequently

"Hey, congratulations to the host, get the wild and poisonous! Undead and indestructible beads: the inheritance of the ancient world, the war of the world, the infinite resentment, the collection of heaven and earth resentment, the pollution of the beads! Grade: the ancient treasures! Quality: finished slightly flaw!"

As the system prompts in the mind, Ye Xuan first stunned, and then ecstasy!

Those ash and poisonous, have been condensed into beads?

And this so-called immortal bead is still the existence of the ancient and precious treasures. This is definitely the king of venomous poisons. It is a smattering of the infinite resentment of the ancient warriors. This is definitely the supreme treasure of the yin. what.

However, the poison of this bead is too horrible, a poisonous large piece, if it is not timely suppressed after the spread, fearing that a cosmic plane has to fall, it is too dry, and Ye Xuan simply does not dare to use it.

This kind of thing, when it comes to the late stage of monasticism, there will be retribution.

However, having this bead in hand is also a deterrent. According to his estimation, this time the Tianxing Star is afraid of a big robbery. After the incident is spread, the undead poison will also be stunned. The universe.

Ye Xuan has an undead bead in his hand. Although he does not intend to use it at all, he may be able to use it in some occasions in the future. It is also good to scare people.

Thinking like this, even if he released a glimpse of the gods, he spread to the volcano in the lower part of the central domain, and after wrapping the gray ash beads, he carefully pulled it to his eyes.

This pearl is very different. It looks like a gray splattered bead. There is no abnormal breath. But if you look at it, you can find that there are countless wild animals and savage beasts. This is resentment. Condensed matter.

Among all the wild and fierce beasts, some of them are green and demon, or blushing to win the blood. Some of the cockroaches are defeated by blood and flesh, and still have pus and blood, some even the internal organs have slipped from the belly and hung in the chest. Abdominal, clearly is the injury to be dead.

But they have never affected their breath. Through the physical diaphragm layer on the outer layer of the gray ash, Ye Xuan can feel a strong and resentful resentment. As these beasts continue to die, they will face Come!

Ye Xuan didn't dare to look at it. This stuff is estimated to be very brittle. If it is directly blown up, or cracked, it can really be big.

He didn't even dare to go to the sea or the immortality of the body, so let it stay in Shennong Ding, so that even if it really splits, the power of Shennong Ding will not be dispersed. The scourge itself.

Thinking like this, Ye Xuan's gods even opened their eyes and opened their eyes.

Then he drove the hole in the hole and hurried back to the sky warrior. After taking the battleship one step away from the star and collecting it into the body, it hid the figure and quietly approached the star through the sky. The Royal Array Channel enters it and goes straight to the Emperor!

At the same time, one of the three gate valves of Tianzhan is within the ancestral home!

It's been a few days since I returned from the drug king's secret. I've been blind to these days in the past few days. Of course, the homeowners are all anxious, and the other strongest of the entire extension are even less. More to say.

There is something busy, nothing is also fearful and uneasy, the entire extension of the home of the vast ancestral home, are shrouded in a cloud!

The reason why Tuo Xiong is troubled is precisely because of the undead and intoxication of the body in the wind.

For the treatment of poisoning, Xuanton was quite confident. After all, all the top-level valves for studying genetic fluids can be regarded as the medical field involved, and it is not the medical path of ordinary people, but the medical path of practitioners.

Within the top-level valve of any research gene solution, there are one or two medical sages sitting in the town, and the Tuoja family has obtained a broken ancient book because of the previous sacred relics from the Yaowang, so that some important members of the family are studying. Under the major breakthrough, not only launched the ten-level genetic fluid, but also the sentiment in the field of medical treatment, but also quite advanced.

Even so, the one who has the deepest rumors in the Chinese medicine industry has already appeared, and has been deducing the whole two days. After trying various methods, it has never been able to remove the unstoppable poison from the extension.

Even the stability of its state can not be achieved, the only effect is to delay the time of poisoning.

However, this kind of delay is also extremely limited. After all, it has been a few days, and the speed of poisoning is slow. There is also a spectrum. When I came back, I was still alive and kicking. Now I am in bed, my mind is sober, sometimes I am crazy. Bundled up and banned to prevent it from breaking free.

The other three cases are basically the same. Gong Yangzhi, Yu Wenzhuo, and Huangfu's three goods are all lying down. The situation is getting more and more critical, but the four family's medical sages gather together and then participate in the whole day. There is still no progress.

Earlier today, more than ten other top-level door valves came from the medical sages invited by the family. Together with the Imperial Emperor of the Imperial War, everyone gathered together to open a seminar. After all, there was no progress.

At this time, Ye Xuan has collected Shennong Ding from the drug king secret, and quietly returned to the Heavenly War Emperor.

Just entering the Imperial Capital, Ye Xuan met a group of people who were rushing to escape the emperor. Among them, there were some figures of the imperial garrison. In the appeasement, it was obvious that some kind of turmoil had occurred, and it was obvious that the movement was clear.

The aura in the brain flashed, and Ye Xuan quickly guessed what, and my heart suddenly sinks.

If there is no accident, it should be the extension of the four people or the long fish Xiaotian over the accident, and the immortality of the poison has begun to spread, which triggered the turmoil.

This is really the case.

Just now, in a large house in the west side of the imperial city outside the city, suddenly two horrible star-studded powerhouses rushed out, and the mouth was licking the poisonous blood of the gray ash, and both of them rushed to the street and opened their mouths. The heads of several emperors have lost half of their heads. The wide mouth and the long fish are exactly the same, and one will fall behind the ear, and the horror is extremely extreme.

The whole street was in chaos, and the emperor's garrison army came in the first time. The strong fishermen who were rushing out of the big house and the long fish, and other long-lived fishermen, took the two poisonous hairs in a short period of time. The bombardment became a slag.

However, while the two guys were bombarded, the flesh and blood of the gray smog also spread. Some of the emperors were contaminated with a little, and they were isolated for the first time.

Also affected by the imperial people, they are not strong stars, the resistance to this immortal poison is almost negligible, and immediately after the contamination of the toxins, the war is just over, the whole street On the top, there were hundreds more crazy zombies, all of which were infinitely powerful.

Although the imperial garrison immediately increased its military input and quickly eliminated it, the panic spread quickly. Now all the people in the entire heavenly war have already known the incident, and the chaos seen in Ye Xuan's eyes. As a result, the celestial stellar faint has become a place where zombies are frequently seen. A large number of emperors and star powers have not dared to stay here, fleeing...

Chapter 3270: If the candle is a candle

With the accident of the long fish incident, the immortality of immortality, and finally began to erupt, although it is still only a small scope, but it has gradually become unable to control the trend!

All the starbursts and the imperial people who were infected with the blood of the poisonous were all infected, some were temporarily controlled, and some were poisoned on the spot and killed.

At the beginning, the Heavenly War Empire was still unprepared, but soon there were measures to deal with it. For those who were poisoned, they were no longer just simple bombings, they used technological weapons, and a large number of small patrol ships began to patrol around the Imperial Capital.

Once the poisoned person is found, it is immediately blocked, and the high temperature of the ship's energy cannon is killed. Although it is also damaged by the construction of the Imperial Capital, it is not too much in the extraordinary period.

Under the full response, the first wave of outbreaks of immortality was finally stopped, the situation was controlled, and the short half-day time was not reached. The compound that the long-fish family temporarily rented was turned into a dead place, no one dares to approach. Only the official forces dispatched by the Heavenly War Empire, after the completion of the good, plow the ground with high-temperature energy light column, and want to use this method to burn out the remaining toxins.

Hundreds of imperial people in the entire street are almost completely destroyed. There are more than a hundred strong people in the long-term fishermen. Only the head of the family, the long-fishing dragon and the old one, are even separated. Even the two of them are carefully studied by experts in the relevant fields of the empire. The quarantine inspection confirmed that the virus was not carried out before it was finally released.

Subsequently, the long fish stunned and left, and left the Heavenly Empire.

Although this matter has come to an end, with the fall of the whole block on the west side of the emperor, and the blockade turned into a dead land, the panic sentiment also spread with it. The entire heavenly warlord was completely chaotic, and countless people and the stars were strong. The people have fled, and their potential is beyond control.

Although Ye Xuan had the help of his heart, he searched the internal database of the phagocytic system, but he could not find any corresponding policy. This kind of immortal poison did not completely resolve the phagocytic system.

Previously, even Shennong Ding could only condense into a bead that would spread in the Ding, but it could not be purified. Only then can the problem be seen.

Undoubtedly, the day of the battle star is over, the first wave of eruption occurred on the west side of the Imperial City, just a beginning, some viruses must have spread, and it has not been revealed at the moment because they are still crouching.

The second wave of explosions in the near future will completely disintegrate the will of all the imperial people and the star powers of the Tianxing Star. This point, Ye Xuan seems to have seen it, not too far away!

In the sigh, he stepped into the Qingjiang Pavilion. This place should not be left for a long time. After he went to the appointment, he also planned to leave.

After meeting, Hu Qing's face was weird, and Ye Xuan looked up and down for a while until Ye Xuan was somewhat uncomfortable. He only sighed and shook his head and smiled: "If the old master can really have you, a descendant, Must be laughing with Jiuquan!"

"Unfortunately, the fox has colluded with the Yinmo, and he is not worthy of being a fox..."

"what?"

Ye Xuan awkwardly, his face suddenly changed, and Mr. Hu did not dissipate it as a breath, but Ye Xuan faced him, the invisible pressure, but vaguely and later faced the wretched mosquitoes, the difference is similar. Even if people are not the mighty power of the fifteenth realm, they must at least be the domain starters of the fourteenth realm.

Unexpectedly, he has already glimpsed the fact that he faked the fox and the lord. He even knew that the fox was the secret of the Lord. This made Ye Xuan feel a little shocked and somewhat uneasy.

"Little friends don't have to panic. If you want to pursue this matter, Hu will have already met when he meets. Why do you want to tell you this?"

Putting his hand, Hu Qing let Ye Xuan sit down and grabbed two cups of tea and gestured to him to drink. This continued: "Hu Mou is not a fox-like family. In the past, he was left by the old master, so he stayed in the sky. The guardian of the remnant of the fox's legacy, I really hoped that the young and sinners who escaped in the past would have the glory to return one day. What I could not think of was such a result..."

"Home is unfortunate!"

Speaking of this, Hu Qing once again sighed: "Speaking, Hu also has to thank Xiaoyou, if you use the name of the fox lord, the fox will suddenly collude with the genie, the fox Name, I am afraid to stink the three universes, at least now everyone thinks that you are orthodox, and preserves the reputation of the old master!"

"Hu Qing thanked me here!"

After that, he actually got up and held a fist to Ye Xuan to bend over and want to give a big gift.

"This this....."

Ye Xuan's face burned hot, and the impostor could actually encounter such a thing. If the people knew the truth, they would be so sincere and thankful, and he couldn't help but feel a little thicker. I don't know what to say.

"Unfortunately, the drug king passed on the jade ruler. After all, it was still taken away by the fox. If it can fall into the hands of a small friend, it will be able to carry it forward with a small friend."

Hu Qing seems to remember the past, with a recollection in his face: "At the beginning, the old family owner had two for Hu, and the other was that if the future generations were worthy of training, they would be able to help them and help them become talented. This is already hopeless, and the second is The king of medicine is related to the inheritance. The secret is the first discovery of the old family of the

fox, and the rise of the fox family is also related to this. It has been a half-medicine king in the periphery of the secret."

"The old master is amazed by the king of medicine, and the gods are intertwined. They worry that their inheritance will fall into the hands of the monks, and I will guard them. In the future, the reliable talents will help them to win. I didn't expect this, Humou was as untrustworthy. "

"Experiencing this matter, Hu has already seen a lot of things, and he has no intention of staying in the dust again. He wants to calm down and enlighten the road. Today, there is something to ask for, and please ask Xiaoyou not to shirk it..."

"Speaking of this, it is also a slap in the face, but in the case of Xiaoyou, it is also helpful. Otherwise, Hu will not mention it. I hope that Xiaoyou will accept the sequel to the singer in the Qingjiang Pavilion. It's not too special. With Xiaoyou's talents, there will be something big to do. When they are around, they will save a lot of energy. However, they also ask Xiaoyou not to have a moral identity and give them a spiritual support. It is also good. ""

"This....."

Ye Xuan shocked, and he was obviously a fake. Mr. Hu, who was in front of him, let him continue to pretend. Although he was painstaking, he could not do this.

After some indulgence, Ye Xuan suddenly moved, and with the idea, he handed his hand: "Mr. I want to squat and squat, I have a place to go, and the Qingjiang Pavilion can also take away, it is a very vast world. They can make them show their strengths, and if they succeed in the future, they will certainly be extraordinary. Then the battle star will not be able to wait for it, and soon it will be a great disaster, and it will be wonderful to leave early."

"Oh, is there such a place to go?"

Hu Qingyi slammed and asked: "Where is it?"

"Death Star, Triumph City!"

"what?"

Although Hu Qing has been staying in the Heavenly Battle Star, all the big things happening in the outside world are all insightful. When I heard Ye Xuan mention the death star field, I stunned it and then suddenly realized it. I laughed up and said: "Ha ha ha..."

"It turns out that I am so enchanting. It turns out that the little friend is actually... This matter is in my life, and the Qing dynasty's ancestor has a great benefit. Does Hu Mou have something to ignore?"
