

Super D. S 3271

Chapter 3271: Wow is so beautiful!

Hu Qing is gone!

Taking away all the staff and resources of the entire Qingjiang Pavilion, including Hu and Ichiro, they are all the genius of the fox. Since Ye Xuan appeared, he has been regarded as the singer. I heard that the young master of the fox and the prince of Xuan were actually close friends.

If in the usual time, the entire Qingjiang Pavilion people go to the empty space, fearing that it will attract a lot of secret attention, with a suspicious review and thorough investigation.

But now the chaos of the entire day is gradually showing up. Countless star powers and the imperial people have fled, and all the people in Qingjiang Pavilion have gone out of their way. No one will think much.

This matter is actually two things for Ye Xuan.

On the one hand, he used the name of the younger fox, and his mind was somewhat stalked, but it has now been resolved.

On the other hand, Hu Qing took his team to the Arc de Triomphe, which is also of great benefit to the construction and future development of the Arc de Triomphe.

Although there are all kinds of talents at that end, there are wrinkles and mosquitoes in the strong, and there are Napoli corps in the army. In terms of construction and development, there are more than a thousand so-called triumphant think tanks that Ye Xuan called pests.

Only the top talents who can reassure him in this aspect of business, know that the death star field where the Arc de Triomphe is located is not only vast, but also has countless stars. Although they are all dead stars, various mineral resources are still very rich. However, compared with the harsh environment of the Death Star, for other forces, this mine needs to live in that place for a long time, and the harm is greater than the profit, so no one will remember it.

However, the Triumph Army is stationed there. Every day, these mineral deposits will be excavated, refined into concentrates, and traded with the outside world. This is a long-term sustainable source of resources that can be exchanged from the outside world to the cultivation of a large number of military elites. And various other reserves of the Legion.

So it is extremely important.

Hu Qing went to the Triumph City to take charge of the main piece, and Ye Xuan was completely relieved.

After solving this incident, he originally wanted to leave immediately. Tian Tianxing has become a land of right and wrong. He does not want to stay here and is infected by the immortal poison. Otherwise, he is afraid to throw himself into Shennong Ding to refine. Once again, the toxins in the body can be removed.

That is simply a sin, think about it!

Just as Ye Xuan wants to leave, Xuanyuan Zijing and Duanmu Xiaocha and Zhao Qianru are coming together and blocking the door. When Ye Xuan walks out of the hospital, the three hoes are rushing at him. Laugh!

"What's the moth?"

Ye Xuan immediately became alert, and this girl had a piece of it together, absolutely no good thing!

"Long Xuan, what do you mean? Seeing our sisters are so unsuccessful? There is another one in the loss, you have never seen you like this to your future wife!"

"Play is a play, Zi Yan, what kind of eyes have you used to be? Actually, you are watching him..."

"Oh, you two dead girls, obviously protesting against him, how come to me!"

Seeing Ye Xuan's anti-thief-like defense against them, the three hoes did not do it immediately, and they protested one after another. They could hang two pounds of meat with a small mouth, and the three beautiful women who were dripping at the same time waited outside the door. Don't be overjoyed, this guy is a black face. Really no one!

Especially Xuanyuan Ziyun, innocent lying gun, the mood at the moment is simply messy in the wind, the whole person is not good, shy face flushed, and turned away and fled.

Ye Xuanyuan, let the way out to ask the three grandmothers to enter the door. When they asked, they knew that they had already thought about the second mineral used in the refining process, and they all collected it, so hurry and leave the sky. I sent it to Ye Xuan.

For the future treasures, the three gimmicks have always been memorized. This is really normal. Women are almost all like this. When they think of beautiful clothes, they will soon get their hands. It's definitely not a tea, and the excited eyes are like chicken blood. of.

It's been the time for this, and the Star Wars will be in a state of unbreakable poisonous explosions at any time. They are nothing but ordinary people. They also remember the treasure, and Ye Xuan is completely dressed.

Soon, the three gimmicks each took out a space box, which contained a rare mineral, and Ye Xuan looked a little hot, and it was really the big lady in the top gate of the dynasty. If this thing was thrown out It is absolutely necessary to attract people, but they are easy to get their hands.

The three space boxes were quickly taken up by Ye Xuan and sent to the immortal world. Just want to say something, but Duanmu Xiaocha was stunned and excitedly: "Idol, take our treasures out quickly. Let's enjoy it. Although it is only the first time to complete the refining and refining, the fusion armor we picked last time is all very stunning. After the smelt of the treasure that was originally lacking in this respect, it must be Let it be beautiful?"

"what?"

Ye Xuan was dumbfounded, and this was understood. The three gimmicks came to send the materials on one hand, but the main purpose was to come over and see the treasures after they had completed a smelt.

After all, it has been several days since the back of the drug king's secret. Before Ye Xuan said that the first time of melting would not take any time, and the longer it takes, the longer it will take.

In the past few days, he has nothing to do, and most of the hoes are when he is closing his door to refine his treasure.

At this time, it is not enough to say that it has not been able to refine it. People are so worried that it is not an exaggeration to remember it day and night. If they let them know that they are not doing anything at all, they are afraid of a crisis of trust.

If you let them squat down the heart and tail, follow Ye Xuan, or adjust the degree of day and night, then it is really finished.

When I thought of it, Ye Xuan shuddered and shuddered. Then, in the scrutiny of the three gimmicks, he turned and went to the inner room: "You wait, there is still a little final finishing." Get it right away, just sit outside and wait."

The voice has fallen and the man has entered the inner chamber.

Ye Xuan raised his hand and wiped the cold sweat from his forehead. When even the three treasures and the magnificent treasures used for fusion were taken out, one bone was thrown to the engulfing system, and at the same time, some of them were taken from the immortal world. The source of the energy star is thrown into the phagocytic system.

He prepared three pieces to be merged together. Anyway, it was the first time. It didn't take much time to work together. After all, his cultivation was improved too much, and it was not comparable at first.

After doing all the preparatory work, Ye Xuan even gave the system an immediate fusion command, and then he waited in the inner chamber.

According to his estimation, the three treasures will be launched for the first time at the same time, and it is estimated that it will be fixed in about two hours.

Fortunately, in this process, Xuanyuan Ziyang and the three women did not come to bother, presumably know that the refiner is a meticulous work, can not be distracted, otherwise the treasure is destroyed, and they are crying.

After two hours, the system in the brain prompted to sound, Ye Xuan was relieved, and the three treasures were collected, and they got out of the inner room, and the three pieces of the brilliant brilliance of the wave were arranged in a row. The void in front of me is floating.

"Wow, it's beautiful..."

"I love you to death!"

"Big bastard, you are so handsome today!"

Chapter 3272: Emperor will pour

The three gimmicks originally had several armor. The most sturdy and practical ones were awkward and ugly. The most beautiful and flamboyant, but also flashy, not very useful in actual combat, although there are several armor, both of which are balanced. Because at the same time we must take into account these two different aspects, so it is a moderate, beautiful is beautiful, but not stunning, solid is solid, but still unsatisfactory...

For the beauty actresses who love beauty, having a sturdy, practical and gorgeous armor has almost become a pain in the heart forever, and few people have got what they want.

But now, the three women's armor displayed in front of their eyes, clearly belong to this fantasy equipment.

The stars in the eyes of the three gimmicks came out, and the armor in front of them could still see the shadows of the two different blending treasures that they provided before. The shortcomings were abandoned and the advantages were preserved. Perfectly combined together.

Just this first fusion, the three gimmicks have been amazing, although the scale has not changed, the main armor they provided before is the legendary level of the stars, and it is still the same, but the quality, especially the shape, has long since reborn. And there is a world of difference.

"God, it's amazing, isn't this a dream?"

"Big bad guys, the previous thing was written off, this lady is not angry, but the subsequent smelt can not be sloppy..."

"Idols are idols. Just rely on this magical refining device. Even if it is not a prince, it is destined to scream in the universe. Even those refining masters are afraid of it!"

In the eyes of the stars, the three scorpions loved their new armor, and they were not praised. They almost took Ye Xuan to heaven.

Later, they each sacrificed the treasure armor and equipped them to the body. The whole person's temperament was different, and Ye Xuan could not be seen.

After tossing for a while, the three gimmicks were reluctantly taken off, and the blushing face will still be handed over to Ye Xuan with their armor from each body temperature, and then they will be entangled in his thoughts after the second fusion. The form and change of the battle armor, and the grinding of the meal, it took only three steps to leave.

It was on this night that the second major explosion of the undead poison was repeated.

"Roar!"

"Hey!"

"Hey..."

At midnight, the horrible screams of the horrible screams suddenly came from the top three gates of the Tianxing Star, the two rams, and the Yuwen and Huangfu's homes in the temporary rent of the Tianxing Star. .

Then, dozens of hundreds of cosmic zombies rushed out of the place where the four gate valves were located, and they dispersed in an instant, heading for the different directions of the Heavenly Emperor.

These cosmic zombies were originally the star-studded powerhouses of the four gates. Perhaps it was because of this time that they contacted the extension of the wind and the Gongyangzhi, Yuwenzhuo and Huangfuzhuo, and they were all infected.

What is even more bizarre is that they have already made an appointment as early as possible. Tonight, at the same time, they have poisoned their hair, lost their vitality, dissipated their self-consciousness, and smashed the zombies of the universe.

If there is no greasy thing in this, I am afraid that no one will believe it, but the problem is where it is, but no one knows it!

The Tianshi Empire responded for the first time. A large number of emperors were dispatched to the army. In the blink of an eye, there were countless shuttles going back and forth over the outer city of the emperor, and search and hunting were carried out.

As one of the three empires, the Tiancheng City has been banned, but after the first unbreakable poison broke out in the last time, this ban will no longer be ignored.

At this time, in addition to the small shuttle machine, the imperial guards of the Imperial Army even opened the star-rated battleships of the Captain of the Decade, and occasionally blasted the energy light column and hunted the cosmic zombies of the imperial city.

Under the chaotic situation, some of the stars in the imperial capital are no longer scrupulous, and they have sacrificed their own small private warships. Cangjie fled the magic land.

As for the inner city of the Emperor of Heaven, the energy defensive hood has already been opened, which can effectively isolate the virus from spreading into it. At the same time, there are a large number

of emperors who are guarding the army and guarding the main road. Whenever there is an open-minded cosmic zombie approaching, it will be far away. Being killed...

This night, the whole heavenly warlord was completely chaotic!

Heavenly Empire, the emperor will pour!

At the same time, there are more than a hundred cosmic zombies, and they are all strong stars. Their original cultivation is not weak. After the poisonous hair is a cosmic zombie, the flesh and blood cells in the body are mutated, and the strength suddenly rises. Hunting It is extremely difficult to kill.

Even if it was successfully hunted, in the process, more people in the emperor were infected, and the splashing cosmic zombie blood could not be prepared in such a chaotic situation, so that there were only a hundred universes. The zombies are actually killing more and more, and in the end, they have gradually formed the trend of the original!

Before dawn, the zombies of the Imperial City have been clustered into pieces. Although most of them are ordinary people in the emperor, not the strong stars, even ordinary people, after being a cosmic zombie, have changed because of The power has also been shocking.

What's more, there are also a small number of star-studded powers. They have become the heads of the zombies of the universe, often lurking in the zombies, and it is difficult to hunt.

At the dawn of the sky, the zombies of the Imperial City have reached hundreds of thousands.

At this point, the Tianshi Empire official finally realized that the situation had gone, the situation could no longer be reversed, and the inner city royal family and the imperial high-rankings who were sheltered by the energy defensive cover were evacuated, and not only evacuated from the Tianshihuang, but withdrew from the battle star. Because some cosmic zombies have broken through the city, this star will be spread to other cities on the mainland, and there will be no more preserved land!

The top empire of the empire has begun to withdraw. The strong stars of the outer city and the imperial people naturally cannot have any hope. Anyone who has the ability to leave, all set off in the first universe, boarded the battleship, and took off. .

Not only did the other gates and forces that came from this Wang Jun meeting all of them rushed away, even the top-level gates of the Tianshi Empire, the ram and other families.

Including Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks, and finally left, Ye Xuan stood in the small courtyard of the 驿馆, looked up at the sky, watching the battleships of the various gates lifted off, and a stone in my heart also fell. The ground!

Ye Xuan had already left, but it has not been moved yet because he temporarily changed his mind. For the time being, he did not intend to leave the Tianxing Star.

As for the reasons, even Ye Xuan now feels a bit sly.

The reason why he stayed was for these cosmic zombies, to be precise, for the four-headed zombie king!

At the moment when the second undead poison broke out in the middle of the night, Ye Xuan's mind sounded a familiar system prompt in time, and he became the first to understand the existence of this strange poison outbreak. And without hesitation, changed the intention to leave...

Chapter 3273: Zombie king

At the beginning of the second unstoppable poison of the Star Wars, the system's prompt sounded extremely loudly, reminding Ye Xuan to discover the zombie king who successfully completed the living variant, and asked if Ye Xuan would immediately hunt!

Suddenly heard the title of the zombie king, Ye Xuan was caught off guard, because the system's prompting voice was very clear, and all named the surname, and the four zombie kings who successfully completed the living variants were the extension of the wind and the Gongyangzhi. , Yu Wenzhuo, Huangfu four!

The reason why the system asked Ye Xuan whether to immediately hunted it was because the body of the zombie who successfully completed the living variant condensed a corpse, which is a kind of temperament that can be encountered but not demanded. Jane!

Touting Linfeng and Gongyangzhi, Yuwenzhuo, and Huangfu were originally strong stars in the black hole, and they were not degraded when they were infected with immortality. They were different from the long fish.

Therefore, they have the opportunity to evolve into a zombie king.

Although in the two cosmic zombie crises that occurred in the days before and after the Battle of the Stars, in addition to a large number of ordinary people infected in the Heavenly War Emperor, the unfortunate star-studded powers are also everywhere.

Some of them even cultivated as the realm and the level of life are still far above the four people, but the origin and even the existence of the heavens.

Even so, the successful completion of the physical variation, and thus evolved into the zombie king, still only the extension of the four people.

Because they are infected with the most primitive immortality, and the immortal poisons of the ordinary people and the few star-studded powers in the Heavenly Emperor are derived from the long fish and the extension. Lin Feng and others are obviously not at the same level!

Among the five, except for the long fish, Xiaotian has been photographed as a smog of blood, completely smouldering, and the extension of the wind and the Gongyangzhi, Yuwenzhuo and Huangfu are all exceptions. After the immortality of the poison, the full invasion of its gods and flesh!

Nowadays, they are no longer normal humans. Every cell inside and outside the body has undergone transformation and embarked on another path of evolution.

From then on, they no longer need to cultivate their knowledge, because the gods have been mutated, and they have become a corpse in the body. This corpse is the existence of the zombie king, but it is the **** of the four people. Repaired as a product after being mutated by the immortal poison!

According to the phagocytic system, this kind of corpse has an unparalleled effect on the body of the star who is going to repair the body.

Of course, instead of phagocytosis, it is a medicine, and it is enough to add a little bit of the gene culture solution needed for the subsequent refining.

If you look at it from another angle, you can think of it as a flesh and blood consumable that can be taken from the body of a beast.

In fact, the extension of the four people is not a human being, and even the various kinds of starry beasts in the universe's void are inferior.

Even if it is just for the purpose of taking the corpse and killing, Ye Xuan has no psychological obstacles, and the right to kill the chicken and dog!

Unfortunately, it is obviously not easy to successfully kill these four zombie kings. It is the engulfing system, and it only captures their breath at the first moment.

Then it disappeared, and there was no trace to follow. It was obviously a hidden atmosphere. It was hidden in the chaotic zombie team. This shows that their consciousness has not been lost. Although they have embarked on a different evolutionary path, at least not like the low-level cosmic zombies formed by the infection of the emperor's people, he has lost himself.

Ye Xuan is extremely skeptical that these four guys have even retained their memories and wisdom before the mutation.

This is not a hole in the wind. The zombie riots tonight are too abrupt, and it is erupting from the four different directions of the outer city of the Heavenly War. It seems to be an appointment, giving people a sense of tight organization and careful planning.

And behind the scenes planning all this, in addition to the extension of the wind and Gong Yangzhi, who else?

The immortal poison was originally terrible. The four guys took a completely different evolutionary path with this strange poison, and even the original memory and wisdom were completely preserved. The

hazard index is large. The magnitude of the line climbed up, and Ye Xuan's heart gave birth to vigilance in the first place.

He has a strong sense of crisis!

Taking advantage of the fact that these four guys have just completed the variability, the height of their growth is still extremely limited, and they must be killed as soon as possible, otherwise it will become a big problem in the future!

This is one of the reasons why Ye Xuan decided to take the risk of staying in the Tianxing Star and suspend the evacuation. He and the Tuofeng Linfeng and Gongyangzhi have deep grievances, and it is impossible to sit and watch them quickly and powerfully!

"The cultivation of these four guys has reached the black hole and the nine-step great perfection. When I walked out of the drug king's secret environment, I used the undead poisoning mutation to break through the bottleneck and enter the original point. Now it is After a few days, after the successful completion of the physical variation, the strength must have risen a lot."

"It is very likely that it is not too far away from the tenth dimension of the world."

In the sinking, Ye Xuan whispered, slightly twisting his eyebrows, his mind was flying, and soon there was a decision: "The four guys are all repaired in the original point, but I have not destroyed the glass and the The bloodstains are all in the air, and they may not be able to fight one."

"In addition, the immortal poison is horrible, but the glass glaze is completely closed. The previous mech door has disappeared. Only after refining can it be equipped with no gaps. It should be able to Insect toxins to avoid being infected in battle!"

Thinking of this, Ye Xuan is in a keen sense of war. Strictly speaking, this battle is actually after he enters the starry environment. In the true sense, he relies on his own cultivation and strength to fight across a big realm. There is an inexplicable expectation in his heart. !

"The devil blood blade!"

In the heart of the tide, Ye Xuan shakes his hand, and the body instantly throws out the black awns, and the wind rises, and the eyes are turned into a whole body black and bright, fine blood lines are covered, and the shape is even more arrogant. blade!

It is the warrior who is in the position of the starry sky to the treasure level.

This blade has been tempered by Ye Xuan six times before and after, and it has spent a lot of resources and energy, but it has never really accompanied him to the blood-blade battlefield. Today, this battle, Ye Xuan decided to use the blood of the variation of the zombie king. It starts.

Although the knives and spirits are still in a deep sleep, this blade has had the effect of licking the prey to repair the blood before the sixth tempering, and now it is integrated into the blade of the demon, presumably in this respect. The power is stronger.

The so-called poison attack, Ye Xuan believes that even the cosmic zombies that are mutated by the immortal poison, the face of the devil must be the same end, even if it is a very poisonous variation of blood, this blade also Not wrong!

As the **** whistling out, hovering over the top of his head, Ye Xuan's thoughts will soon be smashed out of the glazed glaze, and the figure will sneak into it, stepping out of the compound and going straight. At the roaring cosmic zombie army...

Chapter 3274: Warlord

The sharp exploration ability of the phagocytic system is indeed very powerful. Just as the system prompts Ye Xuan, the extension of the wind and the Gongyangzhi, Yuwenzhuo and Huangfu, all of them have successfully passed the undead poison. The erosion and assimilation of the body of the gods, and thus changed, evolved into the zombie king!

The strength of the four people has also risen sharply with this change, and they have entered the ninth-order realm of the ninth-order realm!

Only one breakthrough, you can once again cross the big realm and become the strongest in the tenth realm.

This kind of speed is really incredible. It is the Ye Xuan that has been in constant encounter since entering the starry environment. It can only be hoped that it will not be comparable.

Not only that, after the completion of the transformation, the four people even obtained an evil cultivation practice from the immortal poison in the body, which should be derived from the ancients!

All four have become the zombie kings, and the gods are condensed into corpse, and the previous exercises can no longer be practiced, even the magic weapons of the past.

These incomplete ruins and magical powers have solved the problem and are in perfect harmony with their current poisonous body!

The undead poison was originally made up of the resentment of the powerful and ridiculous creatures in the battle of the eternal years before the endless years. It is mixed with some cultivation skills derived from the ancients, or the blood of some ancient creatures. It is normal!

It is impossible to leave the brand of magical power and practice in this kind of resentment and poisonousness. Naturally, it is impossible for those attributes and powers to be partial to the sturdy, and still incomplete, not complete!

Even so, the attributes of these sinister evil spirits and supernatural powers are all from the ancients. The source is the first generation of ancient creatures that are amazing and remnant, and their power can not be underestimated.

The extension of the dialect is a ruined ancient demon method, called the devil of the devil!

In addition, there is a kind of incomplete magical power called the magical flame flashing. I don't know which wilderness exists. Once this magical power is applied, it can condense the power of the poisonous corpse and send out an attack like a thunder, and the power can be horrible and evil. It can even absorb the vitality of the opponent, the blood and the power of the gods.

Gong Yangzhi's luck is also good. Although the inheritance is also incomplete, it is called ghost demon mad magic, but Wei Neng is quite horrible. This skill comes with a kind of palm, called purgatory, and can raise his hand. It's astounding to shoot a corpse or even a corpse.

As for Yu Wenzhuo and Huangfu, they each got an evil wild magical power. Of course, it is also a broken one.

The former is a secluded corpse fire, while the latter is made into blood stasis and poisonous scorpion. They are all extremely yin to poisonous things. Once they are dispersed from the body, they can instantly evolve a large piece of life and extinction!

Tonight's cosmic zombies are really explosive. It is indeed carefully planned by the extension of the wind and the Gongyangzhi. They have successfully completed the evolution of the evolution as early as yesterday, and the metaphysical changes have become a gray ash in the body. The corpse Dan, who became the zombie king, has an innate suppression of the bloodline level of other ordinary cosmos.

What's more important is that their original memory and wisdom have not been lost, they have been completely preserved, and they realize that they are no longer human beings. Even if their family members are no longer acceptable, the four people will struggle. After the heart is completely changed.

Last night, the four people passed through the gray corpse in the body, emitting a wave of biological waves, controlling all the infected people near their respective areas, appeasing them to not shake, and through these crouching cosmic zombies. I contacted each other and finally agreed to shoot at the same time tonight, and to capture the Heavenly Emperor.

It sounds a bit ridiculous, but in fact it is very possible.

Every zombie is a source of poison. Even if it is bombarded, the corpse poison emitted in the body can create more similar kind, just like snowballing. As the base is getting bigger and bigger, the number of zombie corps controlled by the four will be With a geometric trend, climb quickly!

What is the meaning of destroying an emperor?

Touting Linfeng and Gongyangzhi have even had detailed steps. After winning the Heavenly Emperor, they will lead the cosmic zombie army to continue their battle until they capture all the cities and towns of the entire Tianxing Star. After the planet, it will temporarily stop the truce and recuperate.

Waiting for the future, the entire universe of zombies will grow and expand, and then rushing out of the sky, to annihilate the outer starry sky...

This grand vision is not a so-called dream, it has great potential to become a reality, but the most important thing in front of us is the first step: to win the Heavenly Emperor!

If you can't even do this, everything that follows will be completely reduced to a mirror.

In this regard, the extension of the four people are all clear, the four zombie kings reached a striking agreement, this night, the battle, either success, occupy the emperor, or ... annihilate!

Only by breaking the boat, human beings can't give them too much time to grow!

At this moment, the four men are leading their own cosmic zombie army, from four different directions, to the outer city's central square, slowly advancing, they will meet there, first occupy the entire emperor outside the city, and then to the inner city emperor Palace advancement!

The sky is not yet bright, just two short hours, the entire imperial city outside the city has been completely unrecognizable, this region of the star power and the imperial people have gone at least 70%, the remaining 30% are either infected with corpse, integrated The zombie army, either can not or can not leave, can only tremble and squat, hang down to die!

The four zombie corps have come all the way, and the blood and rain have been raging. The land along the way has been turned into a magical soil. The human figure that can be seen is getting fewer and fewer, but the number of zombies in the four major regiments has always been Continue to climb...

For the sake of them, the Tiandi Emperor is still very dangerous, and the supreme powerhouse in the inner city imperial palace is not hidden in the atmosphere of the four squadrons. It's impossible to finish all.

Most of them are peeping. Once they are found to have a king in the zombie army, they must fight all the way!

Unfortunately, even if they are careful, they are still discovered.

"Hey..."

In the east side of the outer city, the breathtaking sound of Sen Han and Li Xiao suddenly sounded, and a man with mysterious blood and black color tore the night sky, and swiftly plunged into the cosmic zombie army in the outer city.

"Hey!"

The blood is black and man, and in a moment, before rushing into the nearly 100,000-large zombie army, the blink of an eye is turned into a **** knife with a length of more than ten feet, which is fierce, and the volley is swept. In an instant, more than a hundred cosmic zombies were annihilated, and the dense zombie army immediately appeared a small gap.

"Roar!"

Not far away, the corpse king of the zombie suddenly screamed, no longer hiding his body shape, rushing to the **** knife.

At the same time, the body shape is violent, and the blood-staining drug scorpion is also fully motivated. A strong and **** suffocating suffocating from the body, rushing and rushing...

Chapter 3275: Corpse Dan

The blood of the devil has turned into a savage sword, and the blink of an eye has wiped out more than a hundred cosmic zombies. Even the mutant bodies in their bodies can be captured in an instant, completely transformed into a awning The bones of the flesh are scattered with the wind.

This scene was not only abrupt, but also too astounding. The entire army was alarmed. The roar of roaring screams and screams, the cosmic zombies of more than 100,000 were surging like a frenzy, and they were angered.

In addition, the king of the zombie army in the eastern part of the outer city, the emperor of the zombie army, is even more violent in Li Xiaozhong, urging blood stasis, body shape like a **** faint yang, rumbling to shoot The devil's blood blade.

"call out!"

It was also at this moment that the second sharp and violent sound of the screaming screams came out in the direction of the spurting of the blood of the sorcerer's blood, and the second state was activated. Ye Xuan, the whole figure is like a tiny purple meteor, and it is amazingly coming!

The man's right arm has been lifted, and then a black energy ball of more than one meter in diameter appears, wrapping the entire right forearm, and immediately blasting after the flash, across the void. In an instant, it has already rushed into the zombie army.

"Zi Lala..."

The black anti-matter energy of the dead light cannon is absolutely devastating, and all matter and energy will be melted. This is the same as the cosmic zombies who are known to be immortal.

Only a single shot, more than a hundred cosmic zombies were instantly evaporated, and the faint sound of the water in the void like a splash of water, scalp and numb.

All of this happened too quickly, from the blood of the devil to the blade of the sky, and it was less than three.

Even so, in a distant high-altitude chaotic and chaotic chaotic machine and large and small warships, there are still many people who are being alarmed. After seeing this scene through the holographic virtual screen, they have pumped back. Cool, exclaimed.

"Oh, what is that? Someone dares to be alone in the zombie army? Don't you die?"

"Mecha? Fighter A! Can anyone tell me what happened? Did the Tianji invasion? I actually saw a specific fighter with more than ten feet, and also brought a miniature anti-material dead light cannon. Ah, there is absolutely no such thing in our Terran technology camp!"

"Look at the zombie, the body has poured out a thick silk to a near-substantial blood color, wrapped around the entire body volley, like a **** sun slashing through the void, what happened? This cosmic zombie is too different, Has a new change occurred?"

"Don't look at it, hurry to leave, rush out of the atmosphere, or you will have an accident sooner or later. These cosmic zombies are changing all the time, and the Tianxing Star can't keep it. Maybe only the stars in the atmosphere can defend the big battle. Block them!"

.....

With the sound of these exclamations, the emperor's outer city on the lower side of the ground, the entire body was wrapped in **** drug lord, the zombie king Huangpu and Ye Xuan wearing a fighting machine, and finally came together.

"Hey!"

The devil's blood blade is emptied, and it screams, and it rushes to the front. It is smashed into the hand by Ye Xuan's right arm, without hesitation, a knife!

This scene is too amazing, the purple armor with a shape of up to ten feet is like a giant of the same mountain. In the hand, it holds a knives that resemble its size, which invisibly renders a bullying world. Vibrant, dazzling!

"Is it you? Hehe..."

"Linghu Jue, your fighter armor, although strong, but too weak state of repair but, perhaps the same order invincible, but in the face of the presence of the late origin, you can not shake!"

Thick as blood poisoning Gang of evil spirits, the zombie king Huangfu cut Senleng discourse outgoing, meaning faint trace of excitement, speed suddenly soaring stature in the void suddenly disappeared, when again, going to the right leaves Villa side, such as blood poisoning Gang omnipresent in the sky off the cover: "the second quasi-Star treasure it Zhebing Xue Ren, the king asked for?!"

Ye Xuan did not care, but my heart give birth Ming Wu, it appears that the previous guess was right, these four guys not only successfully carry off the dead immortal poison altered, transformed into zombie king, and even more fortunate to be the original memory and wisdom are all retained, on the road to another evolution.

"Booming!"

"boom....."

With the overwhelming **** poisonous scorpion, the fighter armor was caught in it, and it was no longer visible, but it was almost at the next moment. This piece spread in the **** poisonous scorpion of nearly 10,000 meters above the north side of the outer city. the sound of exploding roar continue to spread.

In the meantime, it was accompanied by roaring and fierce sympathy. This is clearly the rhythm of the fierce battle in the war. The momentum is too amazing. In the distance, all the people who are still paying attention to this area are all referring to the scorpion. eye.

At the same time, the Imperial Palace in the inner city of the Imperial City!

Although the inner city area has not been disturbed by the riots of the zombies, the entire emperor palace has also been chaotic for a long time. Over the huge square outside the imperial palace, a 10,000-meter-diameter starry sky fortress is suspended and the main passage is open. Across the figure is gradually rushing in, the entire Imperial Palace is in an emergency evacuation, and all the important materials have been included in the space magic.

Not far from the palace of the imperial palace, a few breaths of restraint, but in the invisible body exudes a certain kind of depressing figure quietly stands.

When the first person was a middle-aged man with his hands on his shoulders and his eyes overlooking the outer city area, he was able to pass through the distant voids in the light, and he clearly saw that everything was happening in the outer city area.

This middle-aged man is the emperor of the Heavenly War Empire. He is unfathomable, at least not the magic king.

There are more than ten figures behind him, either the Tianzhao Emperor, or the Imperial Minister, who are all supreme, but at the moment they all have deep helplessness and remorse.

"The situation has deteriorated too fast. In the blink of an eye, the outer city has fallen into the majority. The cosmic zombies were only a few thousand in the beginning, but now they are nearly a million. They are still skyrocketing, even if I am not killing at the same time. use!"

"The zombies can kill, but there is no guarantee that the corpse will not spread out. At that time, we have to face another zombie army, and it will be repeated..."

"Let's order, the inner city is completely evacuated, all the materials can be taken away, leave as soon as possible!"

Speaking of this, the Tianshi Emperor suddenly had a meal, and after a long sigh, he turned and went, stepping into the void, and disappeared.

The voice of the voice is still echoing: "In addition, the central super brain of the Tianxing Star Domain II network will not take it away. When you rebuild the Emperor in the future, try to find another one. The Star Defense Array needs it to maintain. Otherwise, once the zombie army rushes out of the atmosphere, it is really a big mess!"

.....

"boom!"

"Hey..."

Over the east side of the outer city, the fierce battle between the canopy and the **** drug lord was just beginning, and it ended, only lasting about three minutes.

The huge roar of the roar, the desperation of the zombie king Huangfu rang through the night sky.

With the rapid dissipating of blood stasis, Ye Xuan's heart was raging, and the first ridiculous corpse was finally reached...

Chapter 3276: Corpse

"Hey, congratulations to the host, get the ridiculous corpse!"

"Hey, congratulations to the host, the physical state of the flesh and blood is improved! The current realm: the sixth stage of the black hole!"

"Hey, congratulations to the host, the body and blood of the realm of the realm! The current realm: the black hole seven steps!"

With Ye Xuan stepping out like a **** drug, the familiar system prompts, and in this moment, he unexpectedly sounded in his mind. In addition to the tips of the corpse, there is an unexpected increase in the realm!

In this battle, Ye Xuan used the immortal glass armor and the demon blood blade, but in addition to the first anti-matter energy dead light gun that had just been dropped, the subsequent three-minute fierce battle, Ye Xuan has always been With the body in battle, the dead light cannon was not used again.

Although the time is short, it will not end until three minutes before and after, but this battle is very hearty, very exciting, so that Ye Xuan has a sense of self-satisfaction, the potential of the body is played to the extreme, the remains of flesh and blood cells in the body The efficacy of the genetic fluid has been thoroughly digested, which has greatly increased the strength of its flesh and blood.

"boom!"

The surprise of Ye Xuan's heart is still fading in the future. There is a huge squeaking sound on the ground below him. The **** drug in the air is very thin, almost exhausted, and the zombie king's body is falling. The dust, when it fell to the ground, blasted open and turned into a canopy of fog.

Since then, the smoke has gone away!

Everything that belongs to it has been taken over by Ye Xuan, and it is contained in the gray corpse, which is just as big as a pigeon egg. It has been taken into the immortal world by Ye Xuan and handed over to the phagocytic system for treatment.

This ridiculous corpse is the root of the existence of the zombie king. The emperor and the metaphysical gods who have been arranging the four winds and the repairs are the products of the annihilation of the invincible poison.

According to the phagocytic system, it has an unparalleled effect on the hard-working body of the starry sky, and this one is enough after being systematically processed into the same quality gray powder. Ye Xuan has been consumed for a long time.

Every time you prepare a genetic fluid, or a refining drug, you only need to add a little bit of it. The main function of it is similar to that of a drug, and a weak one can trigger a comprehensive quality change!

"Hey!"

"Roar!"

"Hey..."

Just as Ye Xuan hesitated whether or not he would solve the zombie army on the ground below, the three nights in the distant night in the direction of the central square of the city, the three mourning screams and roars suddenly came.

Ye Xuan turned his head and looked at it, his face was not changed.

On the far side of the line of sight, a zombie army like the horror of the horror is rolling in like a wave, so you can't see the head, at least nearly a million.

Obviously, the zombie army in the other three directions of the outer city has successfully met, and realized that the east side of the region has changed, and the first time came to rush.

The three screams and roars were the result of the other three zombie kings. At this time, they had already skyrocketed under the wrath, only three figures, but in the distance, the void looked dazzling, the light was too Surprisingly, the arrogance is amazing, and even the majestic powers of the millions of zombies under the ground are being suppressed.

The three figures are lined up, and they are coming to the position of Ye Xuan.

The first one on the left is Gong Yangzhi. The inheritance he obtained is called Ghost Furnace Magic. The power is quite horrible. This skill comes with a kind of palm, called Purgatory, and can raise his hand to shoot the corpse and even the corpse. It's awe-inspiring. At this moment, it's booming. From time to time, there are gray-black corpses flashing from the body. With a gray-black corpse explosion, the 10,000-meter-long emptiness of the emptiness is covered.

The first one on the right is Yu Wenzhuo. Like the emperor, he did not get the inheritance of the ancients, even if it is incomplete.

However, he has acquired a kind of wild power that is extraordinary in power. At the same time, the ridiculous corpse in his body can be turned into a sinister corpse fire, and the grayish black color reveals the 10,000-meter radius. It looks extremely horrible, but Yu Wenzhuo is in it without any loss, shocking!

As for the figure in the middle, it is naturally the extension of the wind.

What he got is a ruined ancient demon method, called the demon scorpion, which is obviously unrecognizable, and the grade is very high. Even if it is not as good as the hole that Ye Xuan has repaired, it is also true. Almost, it should be left in the era of the ancient times, which is second only to the ancient and noble powers such as the cave giant tortoise.

It is precisely because of the devil's birth, the extension of the wind is the most powerful among the four zombie kings. At this moment, the three zombie kings come together. Gong Yang Zhi and Yu Wenzhuo are clearly based on their horses.

In addition to the demonization of the genius, the extension of the wind has also received another kind of incomplete magical power, named the magic flame flashing emptiness, once the display, the power of the poison corpse will condense and shape, issuing a violent attack like a thunder, power horror And evil, even able to absorb the vitality of the opponent, the blood and the power of the gods, can be called the corpse secret!

At this moment, the top of the head of the extension of the wind is clearly hanging a mountain-like magic knife, the gray rushing through the bleeding green lines, the evil spirits are incomparable, Ye Xuan only looked at one, it has given birth to some jealousy.

A very strong instinct tells him that this blood-green hundred-foot magic knife is very strange, and if it is not good, it will leave a scar on his fighter armor.

"It seems that the guy from Huangfu is the weakest of the four. I really don't know if it's a blessing or a pity..."

My heart sighed, Ye Xuan could not help but smile.

Obviously, the three zombie kings who are coming from afar in the distance are extremely powerful. The weakest Yu Wenzhuo's power and momentum are stronger than the Huangpu who was defeated by Ye Xuan. Not to mention the other two.

The zombie army has become a small climate, the three kings, the corpse soldiers million, can be described as corpse!

If you can choose another time, Ye Xuan would rather have just hit the big game. The opponent who picks up the first place is the strongest extension of the four zombie kings.

Although he is strong, but Ye Xuan asks if he is trying his best, he should still have the opportunity to fall into the void, but the time may be delayed for a long time.

First, the strongest slaughter, and even the weaker ones behind, the pressure will not be too great.

But now it is different. The three great zombie kings come together. Unless Ye Xuan uses Lei Diyin or Yu Tianzhu, there is no chance, but that will undoubtedly reveal his true identity.

Lei Yuanzhu and Qi Tian bow have been used before, and have long been the golden sign of Xuan Huangzi!

"If you are an enemy, you have at least a chance to reach the original point, even if that is only half, because the other party is growing, and the speed is not slow!"

In the muttering, Ye Xuan even annihilated the mind of the heart, and waved the blood of the demon into the body, turning it into a singularity, and disappeared.

It is necessary to break through to the original point as soon as possible. Otherwise, it will be even more difficult to kill the three zombie kings in the future. Ye Xuan is now rushing back and forth. The purpose is to squat and devote himself to the realm...

Chapter 3277: Doomsday

Ye Xuan's sudden departure made the extension of the wind and the Gongyangzhi and Yuwenzhuo a great fire. The three zombie kings roared and roared for a long time before the whole city was quickly collapsed.

After some unsuccessful search, the three corpse kings quickly assembled all the cosmic zombies and condensed into a million-strong army. In just one or two hours, the entire outer city area was completely controlled.

When the sky was bright, the outer city had completely disappeared into a dead land. The total number of zombie army exceeded five million. The black pressured soldiers came to the city and gathered from all directions to encircle the inner city.

Only when the extension of the wind is ordered, it will rush into the inner city and occupy the Heavenly War Emperor Palace!

This scene is too desperate. There are still several powerful imperial guards in the inner city palace. They are guarded by the hope of the shackles. If the zombies do not attack the inner city, they will leave behind and guard. Emperor Palace, waiting for the emperor to kill from the sky and the stars in the future, the mountains and rivers.

But now, with the army of millions of giant cosmic zombies all over the world, they will launch a general attack and invade the inner palace at any time. These powerful imperial guards are completely desperate, no longer struggling, and they are evacuated. .

Half an hour later, the last three starry sky fortresses in the inner city emperor's palace finally began to vacate, whistling away, rushing into the atmosphere disappeared.

At this point, the inner city is empty, the emperor palace is abandoned!

Heavenly Emperor...has fallen completely!

"Hey!"

"Hey..."

After a short period of time, the three major zombie kings, such as the extension of the wind and the Gongyangzhi and Yuwenzhuo, suddenly made a scream, and the figure was violent, and they rushed into the air, first rushing into the inner city and going to the Imperial Palace.

The sound of whistling is like the horn of war. There seems to be some unknown power. The countless cosmic zombies on the ground below are still quiet. With the scream of the zombie king, all the zombies of the universe are almost instantly excited. The screams rang one after another, and the whole zombie army was like a raging anger, and the blink of an eye rushed to the inner city, rolling away...

When the sky was still unlit, all the other cities in the Sky Wars had already received news and began an emergency evacuation.

Until the Heavenly Emperor was completely framed, on the vast expanse of this life star, there were still a large number of different types of warships that were launched, which seemed busy and chaotic.

After all, it is one of the three emperors under the imperial dynasty. There are many cities and towns on the land and in the sea. The population is hundreds of billions. It is obviously impossible to withdraw in a short time.

What's more, there is still a lot of material to take away, which takes time.

Fortunately, after the full control of the Imperial Army, the zombie army did not dispatch the first time to attack the other cities. Instead, it began a short break, and let countless human races and imperial people who were still stranded here still have a sigh of relief. But the progress of the evacuation is faster.

Because all people know that their time will not be too much, and soon, the emperor will kill a horrible zombie army and rush to a city of the sky warriors...

Ye Xuan did not know all this. At this time, he had already reached the depths of the inner city of the Imperial City. He was preparing to fully attack the realm and improve his strength.

Before I pulled out from the outer city, Ye Xuan did not go far, but went directly into the underground from the outer city, and returned from the underground and returned to the inner city area, which crouched down.

It is said that the most dangerous place is the safest. The black light is the reason. Ye Xuan is worried that he will be attacked during the cultivation, so he has to guard against it. In addition, there is another consideration in the near lurking, that is, once it breaks through the original point, He can suddenly shoot at any time, and maybe there is still a chance to catch the opportunity of the separation of the three zombie kings, and secretly kill the single.

Stay here, or watch it nearby.

He has a mysterious technique to perfectly sway and conceal the breath, but no fear is discovered!

After determining everything, Ye Xuan did not hesitate. When even a large number of star nuclear sources were taken from the immortal world, all of them were thrown into the phagocytic system, and even when the command to extract the star nuclear energy at full speed was issued.

His imaginary practice has been repaired as the first step in the black hole, and the sea that represents the power of cultivation has stopped expanding during this time, but its flesh and blood has been in the previous battle with Huangfu. , broke through to the seventh stage of the black hole!

At the moment, Ye Xuan wants to improve the physical body of the qi and blood. The only advantage of the evolution of the body is that whenever a bottle of genetic culture fluid successfully breaks into a new realm, then, in this big realm. The follow-up small steps have no repairs as a bottleneck.

It only needs to absorb all kinds of energy to enhance the blood and the energy of forging and quenching the body strength, and the heavenly treasure can be used.

With the step-by-step improvement of the physical evolution level, when the power of blood and blood reaches a certain level, the breakthrough of the small stage is just like water!

Of course, ordinary star-strongers have limited speed to harvest energy, so even if there is no bottleneck, it is very difficult to upgrade a small step.

Like Ye Xuan, there is a phagocytic system that collects the energy of the star nucleus, and there are all kinds of metamorphosis of the massive celestial treasures that smelt the flesh and improve the power of the blood, exhausting the entire immortal dynasty, and finding out a few What?

In addition to the origin of the star nuclear, Ye Xuan is not insured, and at the same time, he has taken out a large number of various treasures from the immortal world, all of which were previously collected.

With Ye Xuan's current physical evolution, these things have not been effective for him to be physically tempered, but they are worth a lot of money. After purifying the essence, all the bones and brains are swallowed, how much will help. of!

In order to break through to the original point as soon as possible, he is also fighting this time!

The day passed quickly and the day was turned into night.

Ye Xuan, who is deep in the inner city of the Imperial City, is still in the process of cultivation. It is not over. At this time, with the nightfall, the zombie army in the Heavenly War Emperor is finally expanding the wind and the Gongyangzhi and Yuwenzhuo. Under the leadership of the three great zombie kings, they rushed out of the emperor and swept the expedition. Millions of cosmic zombies were like locusts and killed the most city!

The real blood wash has kicked off, and the end of the catastrophe that swept the entire sky, finally began...

.....

The horrific disaster that occurred in the Emperor of Heaven and Earth, after the full outbreak of the night, the first time passed the Empire's second-level network through the fastest speed!

Three cosmic plane vibrations!

The Federation of Varo is stunned!

The third cosmic human race is even more heart-wrenching, especially the territory of the Tianshi Empire, one of the three empires of the dynasty. The great powers of the great kingdom under the empire are even more responsive. The emperors have fallen all night, and even the stars have begun to evacuate. What a terrible catastrophe?

These big countries and small countries are all separated by a star field from the Imperial Stars. Even the nearest administrative star is not adjacent. Even so, all the strong people in the Tianshi Empire, especially the ordinary people, still have no The slightest sense of security, the small half of the dynasty territory is trembled, people heart.

A suffocating heavy breath is gradually spreading, shrouded in endless voids...

Chapter 3278: The rain is coming from the wind

The third cosmic human race has recently become an eventful event, and the huge surprises of accidents have occurred one after another. It has not only affected the third universe where the Terran is located, but even the Federation of the Faro, including many federal groups in the Second Universe, has been affected.

In addition, it has triggered a variety of subtle chain changes. The situation of the Terran and even the entire Wanluo Federation is unstable. It is obviously impossible for the First Cosmic Overlord to miss this opportunity. Although there has been silence, there has been no movement. But it is also this that is even more disturbing.

This time, I am afraid that the three major cosmic planes will be affected. It is very likely that there will be more changes in the follow-up. The three major planes have many hearts and minds suppressed, and it seems to capture some kind of mountain rain. a feeling of!

The crisis that was triggered by the death star field not long ago has not yet been resolved. The federal people of the Second Universe are still constantly exerting pressure on the Federal headquarters of Varo, and the situation is already tense.

At this time, the Heavenly Wars Empire, one of the three great empires in the Terran Science and Technology camp, came out with the sudden loss of such a terrible event.

In just one night, the emperor fell and the emperor was abandoned. This is definitely a super-starburst earthquake. The power is not weaker than the last death star crisis, and the entire federation will be shaken for a long time. Can't return to God.

On the day after the horrific explosion of the Heavenly Warrior, the Tianshi Empire official submitted a solemn protest to the Federal Headquarters. Of course, it was submitted through the immortal dynasty as one of the three empires under the imperial rule. The official of the empire is not yet qualified to deal directly with the federal headquarters.

When the protest was submitted, the Emperor's fleet that had been evacuated from the Sky Warship was still sailing in the comet, and there were numerous, large 50,000-meter-diameter small

fortresses and small planets with a length of 1,000 meters. Class warships, even small private warships with hundreds of meters of captains, are everywhere.

The incomparably various warships formed a huge fleet of horrific hordes, at least tens of thousands of ships, covering a vast expanse of the void, and rushing toward the imperial rule of a big country called Tianchen, the Tianchen country.

The celestial warriors are gone, and they can't always wander in the universe. The empire official will temporarily move to the Tianchen star. All the imperial officials, the army, and the members of the Tianshi empire are all settled.

Including some of the top powerhouses in the Tianxing Star, the top door valve family and other forces, there are also arrangements.

As for the more ordinary people of the empire and the strong stars at the bottom, they were diverted out in the middle, turning into more than a dozen teams and rushing to other administrative stars.

Although Tianchenxing is the capital of the next big country of the imperial rule, it can no longer accommodate the terrorist refugees who have escaped from the entire Emperor of Heaven. They must go all the way, absolutely the rhythm of the explosion!

The last time was that the second universe federations put pressure on the federal headquarters to make a difficult attack on the ten-day palace of the Terran camp.

This time, the protests and the accountability statement submitted by the immortal dynasty to the federal headquarters were the Terran's scientific and technological camp, which put pressure on the federal people of the Second Universe!

The culprits that caused the Heavenly War Emperor to fall all night, the whole heavenly star can only be reluctantly abandoned, is the Yinmo family from the Second Universe!

The evidence of this matter is conclusive, and the days before the emperor's second zombie crisis broke out, the convenience of the emperor's official has been thoroughly investigated.

A large number of strong demons in the second universe were mixed in a commercial fleet of a barbarian family, which sneaked into the third universe of the Terran. After the day of the Battle of the Stars, the day caused turmoil, followed by the Terran Science and Technology camp. The top-level gatekeepers in the field of genetic fluids entered a mystery.

In the end, the Yinmo family not only took away the drug king heritage that had great strategic significance to the Terran science and technology camp, but also killed more than ten senior gatekeepers Tianjiao and heirs.

Even before he fled, he put on a very terrible strange poison. After a few days of crouching, the whole day of the war was collapsed in a short night, and the emperor star abandoned it. The Terran Science and Technology camp The loss is so large that it cannot be estimated, it is amazing.

But this should not have happened. The second universe has been connected to the periphery of the cosmic wormhole of the first universe of the Terran. It has always been stationed by the federal army, and almost all of them are selected by the second universe. The support of the army to protect the entrance of the wormhole is not the genie of the federal ethnic group. How can it enter?

What's more, they are rooted in the first universe in the commercial fleet of the Bulls. The Bulls have joined the Federation of the Faroes in the Second Universe. The Terran Science and Technology camp has suffered tremendous changes and heavy losses this time. Loss, this family has an unshirkable responsibility.

Even all the other federal groups in the entire Second Universe are hard to blame. The dynasty is now extremely skeptical that the Bulls have been colluding with the Yinmo, which may be more than one in the Second Universe.

This is so amazing that it is simply unimaginable.

The reason why the dynasty sent a protest and accountability statement was to put pressure on the federal headquarters to thoroughly investigate all the federal families in the Second Universe and clean it up!

As soon as the news and contents of the protest statement were disclosed, the two universes were instantly stunned. The federal people in the second universe did not have to say more, and all kinds of

reactions were there, or they shouted, or argued, and they were even more ruthless. At the same time, even in some occasions that are not public, there is a sound of screaming opening!

As for the two camps of the Third Universe, the reaction was even stronger, especially the immortal dynasty of the science and technology camp. It was a horrible horror, and the horrible crisis was around, naturally feeling the same.

Undoubtedly, such a trouble, the contradictions within the Federation of V. Faro are more intense, and the situation is suffocating, whether it is the third universe of the Terran or the second universe of the various ethnic groups in the Federation, all of which show that the turmoil will arise. The omen, everyone is at risk!

A supreme catastrophe that is very likely to sweep the three cosmic planes seems to be coming soon...

It was also at this time that there was a heavy news accident at the end of the ten-day palace of the Terran camp, and the Tianfeng Empire among the three empire of the Terran Science and Technology camp actually sent similar information. Shake the entire federation again!

Numerous powerful and federal citizens have been completely lost. The peace and prosperity have come to an end, and the era of war and the stars will come again?

And this time the war of the eruption is not only likely to be carried out between the Federation of the Faro and the first cosmic tyrant, but more likely to be carried out between the first cosmic humans within the federation and the second cosmic federation.

Even the possibility of unfolding between the two camps of the Terran within the First Universe cannot be completely ruled out. The stereotypes of the civil strife have been exposed to smoke!

This is simply the rhythm of all the forces in the three cosmic planes and the large melee between the inside and outside of the ethnic group. The bends around are too many and too complicated, and the people with a little less brain circuit can't understand for a long time...

Chapter 3279: Hate the piano

There were two news from the camp of the comprehension, all related to Ye Xuan.

The first news was that the head was awakened from the bottom of the ancestral home of the Sixth House of the Ten Commandments, and then returned to pursue the return of Ye Xuan, and then returned to the sixth house. The undead phoenix that walked away finally came out again.

However, the key to this news is not to die. It just disappeared once again. The purpose seems to be just to show up and declare to the outside world that Zhao Lingyi is not related to it and is sheltered by it.

Yes, the real focus of this news is Zhao Lingyi. After she lost her connection for a while, she appeared again now. Even the limelight of the undead phoenix was robbed. At that time, she was clearly standing on the back of the undead phoenix. On the other hand, flying from a remote star field of the Ten Heavenly Palace.

Undead phoenix took it to a circle in the star field, and came to several stars in the comprehension camp and the stars occupied by Zongmen. It was seen by countless self-cultivators, and then Zhao Lingyi was put down and turned back alone. went.

Undoubtedly, after the death of the phoenix, Zhao Lingyi immediately became the object of encirclement of numerous powerful people. Some people were surprised to find that her cultivation was a real rise in terror in a short period of time.

When the Sixth House of the Sixth House was changed, her cultivation had already had an amazingly large leap. It was originally only the seventh-order repair of the original point. After the devil's dust on the day, it was soaring. Directly across a large realm, stepping into the seventh heaven of the cave!

At the moment, shortly afterwards, Zhao Lingxi's cultivation is a realm. From the ninth level of the seventh day of the day when he was left undead, he climbed to the tenth level of the tenth level.

Just one more breakthrough, you can enter the eleventh world of the starry sky, and step into the ranks of the supreme virtual master!

In addition, Zhao Lingyi disappeared like this and there are other blessings, not only cultivated as a realm to climb the horror, but when it reappeared, there was a more beautiful and simple yuqin in his hand.

According to Zhao Lingqi's own words, this piano is called hate, its voice can manipulate the human mind, control the sorrows and joys, and reveal the infinite illusion on the soul level.

The origins are even more extraordinary. The rumor is from the ancient things. It is a supreme jewel made by the silky silk of a nine-day spirit jade and a sacred silkworm for a stalwart creature in the ancient times. Even the whole body is actually It is carved out by a piece of phoenix black paulownia from the nine secluded prison. Of course, the phoenix black paulowns perched on it is not the ordinary phoenix, but the undead phoenix of the nine secluded prison.

But whether it is now in the Terran cultivation camp, it is impossible to know.

Although the main material of this piano comes from the nine secluded prison, but its surface is full of gentle white light, its piano sound can make people feel quiet and peaceful, with the mysterious power that can dominate the soul of all things, this is a good thing.

Unfortunately, the refining of this piano was tempted by the devil of the heart, and broke into the magic road, claiming to be the devil, and the name of this piano hate came from this!

All of this was the information that came out later. Zhao Lingqi suddenly appeared on the same day. He didn't talk too much with people. He was black and white, and he was so angry that he just said the next sentence, saying that he founded Zongmen and Kaishan. The name of the name is from the hate palace, and she is the palace owner.

This remark immediately shocked the audience, and countless strong people exclaimed, and some of the disciples of the Ten Heavenly Palace, as well as other small powers who were willing to cultivate the real hegemony, were in trouble.

It is said that Zhao Lingyi is not rebellious, but he has rebelled against the Ten Heavenly Palaces. He has set up his own mountain gates, and even his name has been broken and abandoned. He is a self-declared evil girl. He is really unfaithful and unfilial, and wants to take her down to Tianmeng Palace!

The war was unfolding in an instant, and Zhao Lingyi did not even mean to explain one sentence. In the face of dozens of defenders who were not weaker than her, and even exceeded, they squatted in the air and sat down. The ancient piano, the knees and caress!

The following scene is simply a nightmare, whether it is the dozens of shots, or the stars and the masses of the melons around the world, all of them are suppressed by the guqin magic sound.

Some of them existed without damage, and soon they woke up quietly. Just as they just turned around from Jiuyi Hell, the whole person was devoid of emptiness and his heart was hurt.

Other strong people are even more uncomfortable. They have been injured to varying degrees. There are even a lot of serious injuries. There are also a few people who have fallen directly. In the horror of the guqin, which is manifested in the soul level of the Guqin, the spirit is completely destroyed!

The matter was passed to the Tianmeng Palace. Tianganzi was furious and roared like a thunder, but he did not show up. Somehow, he could not walk out of the void of the heavenly palace.

Immediately afterwards, it was not yet waiting for the Tenth Heaven Palace to make a clear response to Zhao Lingqi's greetings without a single slogan. In the evening, new accidents appeared again.

This is the second heavy news from the Ten Heavenly Palace, which is related to Ye Xuan's devouring!

On that day, after the annihilation of the ninth house of the ninth house, the devour of the corpse has not appeared again. This time, he is almost like an appointment with Zhao Lingyi. The former was born in the morning, and he immediately No longer diving, I will take the lead in the evening.

What is even more speechless is that in this second news, Ye Xuan's devouring avatar is also not the key. When his trace was discovered, he was struggling with a young and strong human being in a secluded universe. .

Later, with a large number of star-studded powers coming to the news, even the large warships of the Ten Heavenly Palaces came, and the war could not continue. In the end, the two had not yet won the game, and they swallowed the avatar and turned and hurried away. Oh.

However, the young strong man who fought with him was left in a generous manner, and took the opportunity to announce in public. Since then, he has opened a sect, the sacred name of the demon temple, self-proclaimed as the temple, and the demon!

That's right, this young man who is a self-proclaimed demon is the focus of the second heavy news.

When he spoke out the words of the sect of the sacred temple, all the surrounded-up comprehension camps were like a group of thunders, all on the spot!

This is too clever, right?

In the morning, Zhao Lingyi was just born, claiming to be established from the hate palace. It was only half a day's work in the evening, and immediately jumped out of the second place, claiming to be a demon, wanting to set up a demon temple, and open it as a sect. .

The rehearsal camp opened its sect, and the long years of tens of thousands of years are just a few examples. More powerful people have no intentions, but today, in the second half of the day, there are two new comprehension sects. ?

All of this is simply more unreal than dreams.

After the reaction, some of the self-cultivators were angered and dismissed. It seems that this person seems to be easy-going, but the faction is even more sultry than the magic dust girl Zhao Lingqi. Out of a quaint banner, it is suspected that the animal skin is refining, the flag is engraved with a word, the name, the swing, a fierce magic with a strong sense of ancientity, blowing in the face...

Chapter 3280:

A terrible battle broke out with great surprise.

The young strongman who also had the eleventh ninth-order grand syllabus was only a short five or six minutes before and after.

But the piece of void battlefield was stirred up in chaos, and the star-studded powerhouses of a large number of comprehension camps were wounded or stunned, and before the demon, the demon son just sacrificed the quaint beast flag across the void, facing them. Waving a few times!

But that is, it seems to be a random wave of waving, but from the flag of the Orc, a huge figure of the ancient demon god, a **** horn, a terrible horror, a large number of stars standing in the sky All were suppressed.

After easily suppressing a large number of star-studded powers, the scorpion demon returns to the horn demon, and when the flag is taken away, it will drift away.

It was night, and the origins of the ancient flag of the bark were betrayed, including the rumors that the young people who claimed to be the demon temple and the self-respected demon were gradually spread.

It is said that the beastly horrible beast flag is called the demon, indeed an antiquities, the same from the era of the ancient times.

At that time, there was a powerful Taikoo sacred priest in the Taikoo floods. The name was Chiyou, the other was the body of the hoof, the four eyes and six hands, the copper head iron, the ear squats like a sword, the head has a horn, the horned man, the person can not .

Even the sounds that come out of it can be called by the wind and the wind.

However, this kind of violent violent abuse, good fighting, the meaning of killing is thick, and later was called the ancient demon, and some people called the demon.

The sorcerer's flag in the hands of the scorpion is related to it. It is said that it is based on the skin of Chiyou, and its bones are flagpoles.

Once you wave it, there will be a red-colored killing cloud on the top of the flag. It will be unpredictable. If you can show your energy, you can even have the power to do it!

As for the demon temple, the demon has never appeared before, and the roots of the roots have never been known. It seems that it is out of thin air. The ten-day Heaven Palace has not done much to explore it. It is currently ok. It was this person who had exposed one side of the constellation camp a few years ago and then disappeared completely.

I did not expect that when I appeared again in a few years, it was already the supreme existence of the eleventh-order Xuanguang nine-order grand perfection, and there must be some unsuccessful adventures!

During the day, the Terran cultivation camp changed, and the two young enchanting arrogances turned out to be beautiful. It made the countless celestial sighs of the same generation sigh. This kind of supreme style, they can only look up!

After the news came out, I was shocked by the whole human race. Some people sighed. The technology camp had a hard time seeing the hope of genetic evolution. It seemed to be big, but it was aborted. The repair camp had just caught a whirlpool. It seems that the situation is not good, but it is unexpected. The emergence of two generations of annihilation in one day, this is clearly a sign of great prosperity.

Sure enough, things are impermanent, and all kinds of things in the meantime are really inexplicable.

However, without waiting for these savvy people to smooth their minds, in the territory of the immortal dynasty of the Terran Science and Technology camp, unexpectedly, there was a similar news.

The news came from the Tianfeng Empire, one of the three empires of the dynasty. The source was the two small national stars under the rule of the Tianfeng Empire.

The two small countries were not conspicuous, and they were unremarkable, but this time they broke out of the unpopularity of Tianda. There were two young and unique patriots in the two small countries that were comparable to the magic dust and the demon.

And these two people are also like an appointment between the day, through the distant universe of the void, the work of the front and rear feet have turned out.

The two generations of the science and technology camp burst out of the genius Tianjiao is also a man and a woman, also the same for the eleventh physics Xuanguang nine-order great perfection, even more shocking is that they also have a power in their hands An extraordinary treasure of terror.

The reason why they suddenly came out, the purpose is actually the same as the magic dust girl, the scorpion demon, and the singer is unceremoniously expressed directly to open the sect, and self-proclaimed as a sect!

The sacred door named Xiaoyao, founded by the young man in Lingkun State, is self-appointed!

The ancient treasures held in this person's hands are said to be called broken boots. It is said that the ancient ancestors of the ancient times were all acclaimed by the father. The legendary Kuafu chasing the sun is the power of this boots. It is a rare thing. At first sight, the gods are different, and with this boot, they can walk into the void and travel hundreds of millions of miles, physically crossing the cosmic wormhole, and the back wings are not caught.

And there is another layer of deep meaning in the wordbreaking, which means breaking the barriers and unrestrained meaning. In the face of all kinds of killings, there is no pressure. If you want to go, the word "trapped" is only in front of this treasure. A joke!

The other person is a woman, from the Longxia Guoxing domain under the rule of the Tianfeng Empire, claiming to be Yinxia Fairy.

The sect she founded was named Yulong Island. It is a mysterious island located in the vast ocean in the inland of a non-life star in the Longxia Star Field. At the moment, with the emergence of Yulong Island, the deserted star It was also privatized by Yinxia Fairy, and it is strictly forbidden for the strong outsiders to step into it.

Otherwise it is the rhythm of life and death.

Moreover, in order to prove that he has the strength to sit on a star, Yinxia Fairy has presented a silver-colored **** of softness in the public, the soul of its name!

The origins of this sorrowful soul are also amazing.

It is said that when the ancient world was first divided, the world was full of spirits, and there was a spiritual stone that existed in chaos. After the heavens and the earth divided, it took the essence of the

sun and the moon in the ancient times, exploiting chaotic energy, and finally became a day. The beast, wandering between heaven and earth!

This spirit beast was buried in the south of the Great Wilderness, and its body became a cable. After the millennium, the Great Barren Mountain was cracked, and its appearance became visible in the world. At that time, it was a natural vision, and the Taoist Tiancheng was rumored that if it could do this Exhibited, even the gods will be invisible, and the sky will be tied up...

This is by no means an exaggeration. Yinxia Fairy has been displayed in public, and the soul of the entangled soul has been thrown by her hands. It is an instant silver manuscript, turned into a giant silver dragon shadow, and the ancient atmosphere is overwhelming. In the blink of an eye, a star-rated warship of a kilometer captain was doubled, like a steel wire tofu.

This scene shocked the sound of the big sleep and the sound of cool air, until the Yinxia fairy recovered the entanglement and turned away, there are still a lot of star-studded strong men's back cold sweat, this cable is only the power of the entanglement Horror, if you can show your energy, the power can be imagined!

In just two or three days, the two camps of the Terran have successively blossomed, and the younger generation has become a generation, and each of them has two enchanting arrogances.

Not only did the entire third cosmic human being be shocked, but it did not return to God for a long time. It was the second universe of the Confederate and the hegemonic family of the First Universe, and there was little commotion.

The three major universes are in the midst of chaos, and the Terran suddenly bursts out at this moment. The enchanting enchantings that have never happened in a million years have actually broken out four times. It is surprisingly inexplicable.

It's just a coincidence that all these things are unpredictable.
