

Super D. S 3281

Chapter 3281: Big competition is coming

In just three days, the entire third cosmic human race can be described as turbulent, and the changes are amazing.

This kind of fascinating genius, which is said to be rare and rare, has suddenly smashed out four times, but they have not yet grown up. Only the eleventh dynasty Xuanguang's ninth-order cultivation is done. People join hands and do not affect the so-called general trend.

But now it is different, the situation of the three cosmic planes is tightening, and there is a possibility of a full-scale melee at any time. At this time, the Terrans suddenly have four geniuses, and they are still eager to appear in just three days. And the drop, this thing is very strange, can not be thought-provoking!

Perhaps once the full-scale war of the plane level really broke out, with the current level of cultivation of these four generations of enchanting, there is still no way to influence the overall battle, and it is impossible to shake the points.

However, they suddenly emerged at such sensitive moments. From a certain point of view, it is very likely that it is related to this thundering gas. If there is a heaven in the sky overlooking the vastness of the people, their birth is undoubtedly heaven. The embodiment of air transport.

Although this kind of speculation is unwarranted, it cannot be said that many people think that the three cosmic situations that were extremely tense are immediately slow.

The first cosmic hegemonic singer who was in the dark was still silent, without any obvious reaction.

The federal groups in the Second Universe are obviously quieter. The high-level leaders of the powerful ethnic groups such as the Yin and Dai people who have been following the pressure to the Federal Headquarters are rarely able to temporarily listen. They are watching and want to see how the future will be reconsidered. .

Unfortunately, although the external pressure has temporarily eased some, but within the third universe controlled by the Terran, the situation is still tense, even more serious, and the chaos will become more and more obvious!

Although the four generations of enchanting singers who were born in this time belonged to the human race, they did not take care of the two camps that took over the power of the Terran.

The science and technology camp is still a good point. Although Yinxia Fairy and Xiaoyaozi are not smashing the dynasty, at least there has not been a conflict.

But the comprehension camp is not so comfortable, and the demon and the magic dust are more than a hot one. When they are born, they will kill a lot of star-studded powerhouses, except for some second-line sects and forces. Even the Dominion Palace, which is the overlord of the repair camp, was included, killing more than a dozen Tiangong disciples.

Zhao Lingling, who is the devil's dust, is still the princess of the sixth house of the tenth. This is completely the rhythm of the rebellion against the cadres. The top ten of the Tenth Heaven Palace can't stand it even if the temper is good!

Therefore, the comprehension camp will soon be chaotic.

Each of the strong men headed by the Ten Heavenly Palace formed a crusade army, and launched a comprehensive search for the two women, the magic dust and the demon. Of course, Ye Xuan's devouring is also one of the goals of the incident, and the undead phoenix !

The fierce battle soon appeared, and there were casualties. The magic dust woman and the scorpion demon, swallowed the avatar, and they were smashed out on the same day. In the face of the many strong people in the camp, they all suffered a bit of injury, but the three were injured. In the end, without exception, all of them escaped safely.

This battle, the magic dust woman and the scorpion demon two two generations of enchanting magic flame is still, but even more amazing is the devour of Ye Xuan.

It was only then that the outside world suddenly realized that his cultivation was a realm. Only the ninth-order ninth-order grand perfection was completed, and the eleventh-level imaginary ninth-order grand scorpion was completely different from the two realms.

There is also a tenth big hole in the middle!

Two days before the night of the birth of the konjac, the two men clearly had a long battle in the secluded starry sky, only the ninth-order devour of the original ninth-order scorpion, the ninth-order scorpion, did not fall. In the end, it is more calm and easy to walk.

This is simply unscientific and unacceptable!

The true bottom of the devouring avatar is still a huge question. Whether it is the comprehension camp or the top of the technology camp, it is impossible to determine whether he is a celestial avatar or a avatar.

Compared with the magical flames of the demon and the magic dust, the savage avatar is more mysterious than the arrogant tyrannical, and the scorpion is slick and slick.

For this reason, some people boldly guessed that he must have concealed the cultivation, otherwise it would only be the ninth order of the origin and the 9th-order battle with Xuanguang, and it would not fall into the wind. How enchanting is this?

It's said that it's a boulder, and it's not a big deal for hundreds of millions of loads!

In comparison, the speculation that the swallowing occult hides the cultivation is obviously more reasonable and credible, at least not difficult to accept.

It is a pity that the questioning voice against this kind of statement soon appeared. Although it is still not completely certain that the speculation is not true, it has basically been overturned.

Because on the same day, I swallowed the face of the major squadrons of the comprehension camp to fight against the army, fighting alone and fighting, all kinds of amazing magical means have been used to

the extreme, but even in the end of the serious injury, he The demonstrated combat power is still only the original 9th-order grand perfection.

If you are fortunate enough to escape, the final result is definitely the hand of a powerful person who has fallen into the Ten Heavenly Palace!

This kind of life and death, who will bite his teeth and continue to hide and repair?

I can't stand the scrutiny!

Realizing this, the entire third cosmic human race once again screamed, and the original person who still knows who is the avatar is the real horror and horror, and the ability to fight the demon through the gap between the two realms. Don't fall, it's just that people are angry!

The search for the follow-up corps of the comprehension camp has risen sharply. The heavy head has been transferred from the scorpion and the magic dust. The devour of Ye Xuan has become the main goal, and the counterattack is on the way!

In this regard, the immortal dynasty of the science and technology camp did not react, although the other party may have the avatar of the dynasty 嫡龙轩, but before the matter was confirmed, the dynasty could not be here because of this unsure reason. A sensitive moment broke out with the Ten Heavenly Palace.

The three major cosmic chaos gradually became apparent, and the Terran of the Third Universe could not be civil strife. Although the dissatisfaction and resentment of the two camps were very strong, they chose restraint tacitly!

However, just in the evening of the news that the news came from the camp of the comprehension, the immortal star of the emperor's inner city was deep, and the figure of the emperor's emperor and the immortal emperor appeared at the same time at the top of the National Teacher's Hall, looking up at the night sky. Private conversation.

Specifically, no one knows, even the royal family in the old pavilion, can not easily try to glimpse the conversation between the two of them, the immortal emperor is not the case, the key is the national division emperor II, even they are extremely incomparably fear!

However, at the end of the secret talk, before the immortal emperor turned away, the national division emperor II smiled happily, and then the voice of the words was slightly larger, and was blown by the night wind, faintly audible!

"Ha ha ha..."

"In addition to the boy who had just been taken away, in the short three days, there were four test seeds that were on the right track. The system source that was released in the past was huge, and it was not wasted!"

"The real competition is about to emerge. It is really looking forward to it. After all, I still see hope..."

Chapter 3282: origin

At that end, the third half of the universe, which was controlled by the comprehension camp, was in chaos because of the hunting operations of the more hunted hunting, and the territory of the immortal dynasty of the Terran camp was also not peaceful.

The Tianshi Empire, one of the three empires under the imperial empire, was completely abandoned by the emperor's emperor's emperor. The entire imperial official institution and all the high-level officials were all displaced overnight. This matter is of great importance, and the dynasty is naturally impossible. reaction.

Five days have passed, and the evacuation army from the Imperial Stars has basically arrived at the temporary administrative star, and the two star fleets from the imperial star are also on the way to speed. Can arrive.

The reason why there are two fleets is because the Federal Headquarters Supervision Office has also been alarmed.

In addition to an immortal army sent by the dynasty, the Senlan Fleet of the Federal Supervision Institute of Varo also swayed on the same day and dispatched a small fleet of stars and air.

After all, the terrible zombies in the territory of the human race suddenly have such a horrible singularity. If you don't get it, it will plague the entire third universe, and even spread the second universe with wormholes. Can the federal headquarters sit and watch?

Although the fleet was still on the way, it did not arrive, but as the news spread from the main network of the dynasty star of the immortal star, the big country and the imperial people in the vast expanse of the empire of the empire of the empire finally got the comfort. , no longer so fearful!

Immediately, the Tianshi Emperor, who had arrived safely in Tianchen Guoguo, also issued the emperor's order at the earliest time: all the subordinates in the territory of the entire Tianshi Empire, thus enlightened to achieve full martial law, all warships were fully armed, and the emperor's stars recovered. Battle, at the touch of a hair!

In addition, a military fleet responsible for frontier surveillance missions departed from Tianchenxing in the evening of the same day and sailed to Tiantianxing. Upon arrival, the fleet will be stationed in Tianxingxingtian and explore the Imperial Star all the time. Changes within!

At the same time, the sky is inland!

The three major zombie kings, namely, Lin Feng, Gong Yang Zhi and Yu Wen Zhuo, led the entire army of zombies and the zodiac army to start from the Heavenly Emperor, and swayed all the way. In the past five days, it has swept across the country. In the middle of the half-day war star, the sky of the battleship has been hundreds of thousands of towers.

At this point, the whole zombie army has a small climate, and the number of cosmic zombies is like snowballing, reaching a terrible tens of millions.

But all this is obviously far from over. There are still more than half of the emperor's territory that has not been swept away. Some of these cities have some imperial people and strong stars, and in the eyes of the three zombie kings, such as Linfeng, these human beings are It is a new force for the zombie army to continue its growth and development. It is precious and cannot be easily let go!

In these five days, the strength of the three major zombie kings, such as the extension of the wind, has been improved to a certain extent, and they have broken through. The ninth major origin of the former period has soared to the tenth day of the present day.

Among them, the extension of the wind is the third-order of the cave, the Gongyangzhi is the second-order of the cave, and Yu Wenzhuo is the weakest, but it also reaches the first step of the cave!

In addition, the entire army of zombies has also changed tremendously. The evolutionary path of the cosmic zombies seems to be on the fast track. Every day, a large number of cosmic zombies appear in the second or even third evolution, and there are various Various new abilities have emerged, and the system of capabilities of the cosmic zombie community is shaping up!

Among them, some of the more powerful zombies gradually have the ability to think. It is clear that the new consciousness is already sprouting, and once again, the spirit will be born again, and the rhythm of the new life will be born!

For all this, Ye Xuan is completely ignorant.

Five days later, he still quietly crouched in the deep veins of the Tianshi Emperor, and now it is close to the end.

The speed at which the phagocytic system extracts the energy of the star nucleus is extremely remarkable. As early as two days ago, the source of the star nucleus provided by Ye Xuan was consumed. The reason for the retreat is not over yet, just because the subsequent refining has dragged the progress and is still not completed. Only.

It is said that a large amount of star nuclear energy is continuously injected into Ye Xuan's body by the phagocytic system, and together with this premise, the bones are swallowed and the various natural materials in the abdomen are refined. These two energies are brought together. A two-pronged approach, continuous high-level forging and strengthening of each cell inside and outside Ye Xuan's body.

Every minute, Ye Xuan's flesh and blood strength is slowly rising in an endless manner, and the meridians and organs in the body have undergone earth-shaking changes. The faintness has already

fainted Xia Rui Hui Mang, causing physical resonance, from time to time. There is a sound of dragons and tigers coming out.

If he had already motivated the brain's endogenous nucleus to revitalize the mysterious technique before the retreat, and indicated that the phagocytic system was maintained on its behalf, once the body's dragons and screams and the screams of blood rushed out, they crouched deep in the veins. Useless, mostly to be exposed!

It was another day's glare, and all the star nuclear energy injected into the body of Ye Xuan and the pure treasure of Tianmu Dibao were finally exhausted, and they were not left at all.

In the next moment, a blood-colored liquid was injected into Ye Xuan's body in time, and instantly spread, turning into a breath of energy. The river was rolling, like a roaring mountain torrent, every cell inside and outside Ye Xuan's body. The violent erosion and stimulation were launched.

It is the strong people of the Terran Science and Technology camp that is hard to find a tube on the road of gene evolution---Nine-level gene culture solution!

Applicable to the black hole, the ninth-order big perfect genetic evolution strong, used to impact the physical body, cut off the blood gene chain, and thus step into the origin!

This tube of nine-grade liquid, Ye Xuan was prepared before retreat, thrown to the phagocytic system, and 嘱咐 system intelligence, if the cultivation is over, the force of the flesh and blood has reached the black hole nine steps, it will immediately put this tube nine Stage liquid injection.

At this moment, as the horror energy contained in the gene solution spreads in the body, the whole body of Ye Xuan is completely tightened. This way of breaking the body cell sputum and breaking the blood chain gene chain is directly effective. But it is too fierce, the whole body seems to collapse in an instant, the first cell is rioting, it is not very good.

Fortunately, the time is not long, half an hour is not enough, and everything is over.

At this moment, Ye Xuan, who had sat quietly for six days, suddenly opened his eyes and shot two dazzling eyes at the bottom.

Then, a familiar system sound was heard in the brain!

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the eighth level of the black hole!"

"Hey, congratulations to the host..."

"Hey, congratulations to the host, the physical state of the flesh and blood is elevated! The current realm: the original point of the first order!"

The system prompts the sound to be repeated three times, each time representing a small-order breakthrough, which means that Ye Xuan's **** strength has risen sharply.

In just six days, three breakthroughs have been made in succession. Now, Ye Xuan's physical strength has officially entered the ninth major point of origin. The whole person is different. It seems that there is a faint Xia Rui Baoguang self-contained. The layer of black glue wrapped in the table is exposed...

Chapter 3283: The chance of the immortal star brain

The first sweep of the black-and-white scorpion covering the body surface, Ye Xuan himself felt a little unbelievable.

This situation has occurred in the early stage of the body's evolution of the quenching body, but he is already a black hole in the body. The evolution of the body is absolutely not low, but it still forces so many * impurities from the body, thus It shows that the degree of physical deformation after forging and quenching is so horrible!

This is definitely the rhythm of life!

Today's Ye Xuan has a feeling of reincarnation, the whole body is shining, it is clear that the body has become perfect, it seems to be close to the legendary congenital body of the earth!

He even suspected that there was a wild dragon in the body, and the blood and blood of the flesh was tumbling in full swing, and the rushing rushing like a big river roar!

Although Ye Xuan's cultivation has only broken through three small steps in the realm of flesh and blood, the improvement of its comprehensive combat power is far from simple.

The reason is very simple. With the improvement of the physical state of the flesh and blood, the level of blood in his body, such as the ancient demon dragon, which has been integrated into the flesh, has also been improved. In this case, similar to the roar of the dragon, the enchanting The power of all kinds of blood and blood is naturally rising.

In addition, with the substantial improvement of the realm of the realm, Ye Xuan's hands in the hands of Lei Diyin, Shennong Ding Suite, etc., will also inspire more powerful power, including the warrior's blood blade and the trenches. The same is true of 铠, after all, it is the starry sky to the treasure level, with the unique attributes of self-growth, the cultivation of the black hole is far from urging its power to the extreme!

However, although Ye Xuan has jumped three small steps this time, the cultivation of the flesh and blood of the flesh has broken through to the ninth major point of origin, but if you want to use Lei Di Yin and other treasures, On the premise of the Supreme Bloodline, the three major zombie kings, such as Linfeng and Gongyangzhi, were killed. The chances of success are still small.

I don't mention a few pieces of heavy treasures and the strongest blood vessels. Although he still has many powerful means, his comprehensive combat power is far more than his own cultivation. There is basically no fear in the same big realm. One enemy three has the possibility of winning by war.

The three zombie kings, such as the extension of the wind, have been repaired in the late period of the original point. For the past six days, with the speed of the rapid changes of the cosmic zombies, the three guys are likely to have broken through the origin and entered the hole. The situation is over.

If it is heads-up, with Ye Xuan's metamorphosis, there is no fear of fighting across the realm. However, there are three opponents in this competition, and they are extremely cautious. It is estimated that they will not be separated. If all three have entered. In the case of Dong Tianjing, Ye Xuan is fighting for an enemy, and still fights across the realm. Basically, there is no drama.

"At the moment, you can only try your luck and wait for someone to place your order and start again!"

Thinking of this, Ye Xuanton felt depressed and sighed: "In addition, the problem of the ten-level liquid must also be started immediately. Now that the first step has entered the origin, if it is not until the origin of the nine-order ten-level liquid, it will face again. The dilemma of the road ahead is really not good. I can only go to the extension home..."

After the decision, Ye Xuan left the depths of the veins and returned to the ground silently. The mental strength of the brain's inner nuclear core continued to supply, maintaining the perfect vibration of the mysterious technique and concealing all breath.

But he soon discovered that this was purely superfluous. The entire inner city of the imperial capital was dead, not only did not live, but even the cosmic zombies did not, and the eyes were broken and broken, and the ground was full of broken bones.

Obviously, the zombie army has left!

Just as Ye Xuan was paralyzed by the accident of the zombie army, a familiar system prompt sound came from the brain: "Hey, congratulations to the host, found a high-level starry sky super brain! Mature body, can swallow, whether to capture immediately?"

High-level mature body starry sky super brain?

Could it be the intelligent center of the Second Star Network of the Heavenly War Empire?

The surprise came too fast, Ye Xuan was shocked on the spot, and then ecstatic, the previous depression was swept away.

There are only three secondary star nets under the imperial dynasty, which are located in the emperors of the three empires. If at ordinary times, Ye Xuan has no chance to approach, and cannot be embarrassed.

I didn't expect this kind of good thing to happen today, the pie fell in the sky and I fell directly on my head!

The super-brain of the starry sky is extremely rare, and the high-level starry sky super-brain is less common. The entire dynasty, in addition to maintaining the three majors of the three major emperors, is even more indispensable, no more than two. !

In the countless administrative stars of the big powers and small countries below the three major empires, although there is basically a starry sky super brain as the smart center of the star network, they are basically ordinary-grade goods, and the grades are different, and the mature bodies are rare. .

The evolution of the level of the super-brain of the starry sky and the opportunity of embarrassment, a long-term stage of the ordinary-level astrology, even if it takes tens of thousands of years to reach the mature body, the level of evolution is even more unexpected!

Therefore, any high-level starry sky super brain is an unforgettable thing, precious!

Stars and super brains can swallow each other to promote their own evolutionary speed. For Ye Xuan's immortal starry sky super brain that has just entered the growth stage, the immortal star brain avoids it and wants to swallow it. No ability, the ordinary level of the star brain is really not eye-catching, swallowing does not have much effect.

Only this high-level mature body star brain is an absolute big complement!

If you don't swallow, you must regret your life!

One thought and this, Ye Xuan does not hesitate, even when the instructions are given to the system, immediately start to force the ability to swallow, fully capture!

Of course, he can actually start the search by himself. Anyway, the inner city of the emperor is empty, and it doesn't matter how to toss.

But after all, it is the central center of the Tianshi Empire's second-level star network. It is impossible to prevent the defense, especially when the entire Emperor is going to the sky, but this high-level star brain has been left behind by accident.

Nowadays, there is no need to take this risk!

In the micro-strip, Ye Xuan only waited for less than a minute, and the system sounded again in the brain: "Hey, congratulations to the host, get a mature high-level starry sky super brain! Is it immediately swallowed?"

Became!

Ye Xuan took a deep breath, and even when he made a positive reply, his mood became more and more exciting.

Soon after, when the quality of the star brain contained in the high-grade star brain of this mature body is thoroughly digested, Ye Xuan's personal starry sky communication system is very likely to advance again. At that time, the power will be more powerful, and the follow-up work of the hole will be found. The chances of being embarrassed have increased dramatically, and it can be said that the whole body is moving and the meaning is too great.

"Booming..."

The mood of Ye Xuan's turbulent thoughts was calmed down, and the earth under his feet suddenly swayed violently. The sky above the sky was full of huge thunder and banging, and the sound was horrible.

Suddenly in the blink of an eye, the sky is falling apart, as if the catastrophe came, it seems to completely destroy this world...

Chapter 3284: a disaster

The sky warrior, the outer universe of the universe, the four 10,000-meter-diameter starry sky fortress is separated by a distance not far from each other, and the sky around the sky star is empty, silently suspended!

The star-studded strongmen in the four fortresses were the last moments of the imperial city's inner city depression, and the last group of emperor guards who had been evacuated, the reason why they stayed here, the purpose is to monitor the development of the emperor's Tianxingxing follow-up situation. It is the order issued by the Emperor of Heaven!

Six days have passed, and the once-deficient Heavenly Stars have no movement. Those cosmic zombies have not even tried to attack the star defenses set in the atmosphere and the surrounding voids.

The whole star defense defensive array has been fully launched for several days. The Heavenly War Emperor set the self-starting time and mode before the evacuation. At this moment, the whole sky star is like a huge star cage, and the outside people can't get in. , the inside can not come out.

Unless bombarded with a large number of warships at the same time, the 10,000-gun volley will completely exhaust the massive energy stored in the numerous defensive vacancies!

Or get the royal ambassador in the Heavenly War Emperor!

Of course, destroying the Emperor's second-class star network in a certain hub of the inner city of the inner war can also be the brain!

Unfortunately, these three ways are obviously unrealistic. The Royal Order has been taken away. The hub of the secondary star network hub is more powerful and prohibitive, and it is extremely secret and safe.

For this reason, the members of the Emperor's Palace Guards, which are monitored by the four great forts, have almost no sense of crisis. The army from the emperor's immortal star will arrive in a few days. At that time, the Emperor of Heaven will come, so I will not be able to use it. How long will the emperor star be able to recover?

It is a pity that the accident has finally come unexpectedly.

"Booming..."

"boom!"

In front of the void, the layer covered the dense atmosphere of the entire emperor star, suddenly bursting up without warning, a horrible thunder and banging continued to come, the atmosphere around the atmosphere is near, there are countless spots flashing disillusionment, dense and numb.

These light spots are the emptiness base of the defensive array of the Tianzhan Xingchen. They are densely distributed inside and outside the atmosphere of the Emperor Star. At this time, the flashing and disillusionment suddenly disappears. This is clearly a star defense problem, and the rhythm is about to embarrassing!

All the imperial guards in the four great forts were stunned by this scene, shocked to despair, and the sound of exclamation sounded again and again.

"God, what happened?"

"This is impossible! How can those **** cosmic zombies be so powerful? Can they blast the defensive squad from inside?"

"Report it immediately, it's going to be a big deal!"

.....

At the same time, in the atmosphere, the inner city of the Emperor of Heaven!

Suddenly, Ye Xuan heart stunned, subconsciously looking up at the sky, and then, with a flash of light in the brain, the smudged color that just appeared on his face, instantly turned into a sluggish!

It's a disaster!

This is clearly a star defense defensive array outside the atmosphere, and it will be a full omen!

And related to Ye Xuan, he is the initiator of the beginning, it was too excited before, did not consider too much, actually rushed to shoot, directly swallowed the center of the Star Wars secondary star network.

The intelligent center is gone, the second star network of the Sky Battle Star has completely broken the armpit, how does the Star Defense Array work?

"Since the Star Defense Defence has started, it shows that the cosmic zombie army has not left, the Imperial official opened the defensive array after the evacuation, the purpose is to turn the emperor into a cage, at least to sever the cosmic zombie out of the army in a short time. Atmosphere, the possibility of entering the universe of stars!"

Ye Xuan muttered to himself, his face was gloomy and watery, and he was a little bit annoyed. At this time he realized that he had smashed a big disaster.

If this leads to the immortality of the poison spreading to the starry sky outside the celestial star, and ultimately the entire third universe, his sin can be great, the survival of the entire Terran, the sinners of the ages!

"Fortunately, there are opportunities for remediation. As long as the top three zombie kings, such as the extension of the wind and the Gongyangzhi and Yuwenzhuo, are killed, the other cosmic zombies are not afraid even if they are more numerous!"

"After all, except for the three zombie kings, the toxins infected by the other zombies are all non-original. Whether it is the speed of evolution or the height that can finally be achieved, it is destined to be extremely limited!"

When I think of it, Ye Xuan's moment is bright, no hesitation, and the wave will be sacrificed in the wave, and one step into the ship, after the hidden array method, the wind and the electric whistling away!

Suddenly unexpected, the situation is very tight, Ye Xuan has no time to take care of the other, the only thing that my heart thinks, is to kill the three zombie kings such as the extension of the wind as soon as possible.

Otherwise, if they let them take the opportunity to sneak out and escape the Heavenly Battle Star, then they will be powerless when they want to chase and kill.

However, these treasures of Lei Diyin and Yu Tianzhu are supernatural and powerful. He still has no intention to use it. At this moment, it is not only to be able to search for hunting in this vast expanse of heaven. Kill the target.

Once the target appears, Ye Xuan will immediately launch the shipborne killing system obtained after the seventh fusion of the hole shuttle!

After the previous major integration, Ye Xuan's war battles and battleships have all jumped to the prospect of starry sky to the treasure. Among them, the warriors and the trenches have tried and are extremely satisfied.

Only the ship-borne attack system of the battleship cave has not yet started. Today, it is just the right to take the wind and its cosmic zombie army to try its best!

After an hour, there was another city in front of the ground. The search for Ye Xuan all the way to the city has reached more than 100, without exception, all in order to be similar to the Heavenly Emperor.

Ye Xuan was still angry and mad at the beginning. Now it seems a bit numb, but the killing of the heart is more and more fierce.

After a short period of time, Ye Xuan immediately discovered an abnormality as the cave whistling past the city from the low point.

The scene in the city below is exactly the same as what I saw before, but the blood on the ground is different, and it has not dried up. This shows that the cosmic zombie army is in front and finally appears!

Ye Xuan's heart leaps and screams, no longer hesitate, even if the instructions are given to the system, immediately start the tunnel-based killing system of the hole shuttle, full of hesitation can stand by!

"Hey..."

In the next moment, a faint tremor squeaking sounds, the hidden squad of the snail shuttle is automatically released, the hull is revealed, and countless tiny spots of different shapes flash in an instant, covering the entire surface of the hull, dazzling .

After the seventh fusion of Dongxu Shuttle, the Great Five Elements of the Extinction has been turned into a layer of sinuous pattern covering the hull, and the ruins of the shoal of the shoal are now called It's intricate and complicated, and it's a layer of one layer. It's so dense that it's dizzy when you look at it.

The one that is flashing at the moment is just one of them. It represents the killing power of the Great Five Elements, and it is also the mega-display of the full-scale launch of the Dongxu shuttle ship...

Chapter 3285: Five elements of extinction

With the full launch of the cave shuttle system, and immediately began to be fully loaded with energy, Ye Xuan had already been quite excited, and suddenly became more apparent.

For everything that he witnessed in the near future, he had a kind of expectation that was almost fierce.

The Big Five is absolutely an attacking weapon in the form of a formation. It is a miniature portable killing. All the arrays are all refined and solidified into the array. It is rare in the camp of comprehension, and there are even fewer high-grade ones.

Once this battle is started, the power of extinction will instantly be able to change the earth, and it will be able to convert any energy into five kinds of extinct lightning, and it can be divided into different parts, and the points can be broken through the earth's crust. Burial one side, smash the void!

There are countless combinations of changes in the extinction of the five attributes. The pure detonation power derived from each change is different. It can be said that the whole body is moving, the change is endless, and the power is unpredictable.

This kind of majestic killing and crushing power, just think about it is difficult to calm down, it must be extremely spectacular, Ye Xuan has long been waiting!

Soon after, at the end of the front ground, the shadow of the cosmic zombie army finally appeared. The cold was not shocked by Ye Xuan, because the number of zombies was too much, spread out and covered a large land, at least it has more than 10 million.

What surprised him even more is that these cosmic zombies not only have a rapid increase in the number of ethnic groups, but their own evolutionary speed is also extremely amazing. Ye Xuan casually scanned a circle and saw a large number of cosmic zombies on the body, obviously not belonging to humans. Evolutionary features.

There are scales, sharp angles, or flesh-wings and claws on the body, and there are also body-shaped developments towards various beasts. There are even some zombies that are obviously in the process of being giantized. Xu Zhiju, if they are allowed to evolve, this type of zombie will eventually become a wild giant or behemoth like a mountain.

As for the extension of Lin Feng and Gong Yang Zhi, Yu Wenzhuo, as the three zombie kings of the zombie army, their evolution speed is obviously faster, Ye Xuan saw the three guys at a glance, all other zombies. They are running on the ground, but they are flying at low altitude above the army.

In just six days, these three guys all broke through to the hole, and the most powerful extensions have even entered the fourth-order of the cave. It is already in the middle of this!

The speed of this kind of strength improvement is too horrible, and even Ye Xuan can't match it. The heavy pressure is overwhelming.

"Activate the shipborne killing system immediately!"

After the shock, Ye Xuan's face has long been gloomy to the extreme, sneer and devour the system to issue an attack command: "Array mode: short-range burst-style killing! Attack mode: no difference coverage in the whole area! Kill the target precisely: Three corpse kings!"

The tunnel of the dongxu shuttle ship that combines the big five elements of the extinction array is not simply a bombardment.

There are two types of array mode: remote can shoot and kill mode and short-range block sleep mode!

The former is suitable for long-range bombardment, and the etched array on the surface of the hull will not manifest the killing pattern. The five elements of the extinction light converted by the array will be spurred in the form of naval guns.

The latter is different, suitable for close-range sleepy killing. When the array is activated, it will show up the five-line array, and the horizontal sky will be high. All the blanks will be confined. All subsequent attacks will be carried out in this area. .

There are also two types of attack modes. In any of the array modes, you can launch a full-area indiscriminate coverage bombing, or choose to lock the target for a precise strike, or even both, without When the difference covers the bombing, focus on one or more targets and accurately lock!

Ye Xuan's choice is to unfold the indiscriminate bombing of the whole region in the short-range blockade mode, while precisely locking the three zombie kings, the firepower is tilted, and the key strike!

"Hey!"

"Hey..."

At this moment, with his instructions, the cave shuttle, which has always maintained a speedy voyage, also arrives at the height of the central area of the zombie army. The three zombie kings who graze at low altitude are below.

Just at this time, with the creaking of the tremors of the road, the hull of the snails of the snails is also steep and brilliance, representing the numerous arrays of symbols of the ideology of the five elements of the Jinmushui and the fires, which are densely smashed. The radiant light, at the extreme speed, radiates lasing towards the hull.

Numerous different colors of the ray of energy are intertwined like a shuttle. In the blink of an eye, a large void is shrouded, as if a large network of light energy has been laid out at the height of the sky, replacing the sky, shrouded in one heaven and earth, and dazzling!

"Booming..."

The roar of terror soon blasted open, and the five pillars of energy light columns with different colors were displayed around the light energy giant network, representing the power of the five elements, pouring invisible pressure, standing in the air and suppressing one side.

Since then, the vast continent and the void under the light energy giant network have finally been completely banned. Although there are still a large number of cosmic zombies blocked by the murder, it is irrelevant.

At least, one of the three zombie kings did not slip, and they were all trapped inside the killing.

Then, a magnificent and **** bombing began, and finally began to swell...

"Booming!"

"boom....."

"Card!"

.....

On the edge of the killing, the five elements of the five-story energy light column that stood in the sky and the sky like a pillar of the sky flashed in an instant, and the energy of different colors and powers of different powers seemed to hang out, and continued to surge. Surrounded by the overwhelming horror of the ruined land, it slammed down!

In the blink of an eye, you will completely cover the square of the squad!

These killing energy not only have different powers, but even the manifestations of the manifestations vary. There are large and small rounds of lightning, and there are flashes of lightning and lightning, and

even magic weapons and flying swords. The soldiers, as well as all kinds of fierce beasts that are horrible, are fierce!

Different forms, the way of attack is naturally different. At this moment, the bones and the brains are dumped at the same time. It is simply stunned and I don't know how to deal with it.

In the face of all this, the three zombie kings who looked up at the low angle below were dumbfounded, and the whole person was paralyzed!

This kind of attack is complicated and horrible, but the number is terrifying. The desperate killing is unheard of. The three zombie kings are all dull, and suddenly there is a messy feeling in the wind. Not light.

"boom!"

"Hey!"

"Booming..."

Without waiting for them to react, the hodgepodge that had been overwhelmingly rushed down, the sound of the explosion was loud and the zombie army was in full chaos.

Miserable and screaming, roaring voices, complement each other!

Residual limbs and rotten meat, **** venom, flying and splashing!

All of this is intertwined, and a horrible and indescribable horror scene is instantly rendered. It is the Ye Xuan in the empty space, and they are all shocked...

Chapter 3286: Killing together

This array of power can be extraordinary, not the name of its extinction!

Everything has just begun, and even the long-awaited Ye Xuan has not yet prepared for serious appreciation. The killing of the ground below has already entered the fierce mode.

Faced with all this, Ye Xuan was completely dumbfounded, and the shock of his heart could not be added.

From the battle to the present, before and after the count, the power of this array has far exceeded his original expectations, too satisfied, it is simply a surprise.

The only thing that is a little imperfect is that the various bombing energy bodies that roared out of the five-story can be too complicated, and the form is really speechless, wind and rain, lightning, swords and swords, flying birds and beasts... In short, everything has!

Moreover, it is still mixed with the bones and brains at the same time, the momentum is very majestic, the key is too chaotic, and people are inexplicably associated with a bowl of hooded whistling screaming hot hodgepodge!

At this moment, the three big zombie kings at the bottom of the sky must have this feeling.

With the smashing of a large area in the vast area of the inner mile, the stumps and the rotten flesh are splashing, and the three corpse kings who have finally returned to the wrath are instantly angry, one by one, thundering, the strongest extension, or even the mouth. The wolf-like scorpion grows up, and this is clearly the rhythm of being mad, and it is close to violent!

"Roar!"

"Hey!"

"Hey..."

While roaring and roaring, the three great zombie kings simultaneously motivated the body's corpse, and launched the most powerful means, the instant breath, an invisible tyrannical and fierce breath, blowing in the face.

"Booming!"

The inheritance of the corpse and the second priest is called the ghost mad magic. The power is quite horrible. This gong comes with a kind of palm, called purgatory and thunder, and can raise his hand to shoot the corpse and even the corpse. Awkward. At the moment, under the wrath of the anger, a sturdy to the ultimate gray-black corpse instantly whizzed out of its body!

Not only did a large number of corpse flashing in this robbed corpse, but also a gray-black corpse blast, and the 10,000-meter-long emptiness of the emptiness was covered, and the roar slammed into the sky, facing the high-altitude cave. The shuttle is coming.

Although the corpse of the old three Yu Wenzhuo did not get the ancient martial arts, there is only one kind of incomplete **** magical power, but this magical magical power is obviously extraordinary.

At this moment, as he violently screams and screams, he also whispers toward the sky, and the body of the corpse in his body can also instantly evolve a hooded sacred corpse flame. Green, Yu Wenzhuo's face that has long been ruined because of the evolution of the corpse is like a nine ghost, very embarrassing.

The two younger brothers all shot, as the corpse boss's extension of the wind has fallen this time, until Gong Yangzhi and Yu Wenzhuo have both set off, he finally closed his mouth.

In any case, at least the grievances of the chest cavity rolling and nowhere to vent are passed through the rotten throat and vented in a crazy way!

"call out!"

With a long sigh of relief, the extension of the wind suddenly waved a hand, and the sound of the air broke out. A weak mile rushed out of its eyebrows, and the wind rose, and the half-interest became a mountain-like demon. The knife circling over the top of his head.

The knives of the knives are bleed through the green lines of the blood, and the evil spirits are incomparable. They reveal a certain evil spirit that shocks the soul. When you look at it, it is called a life mistake. It seems that there is an invisible magic flame that is cruelly smashing. Surging, coming over!

This magic knife is actually a kind of broken magical power. The magical flames of the gods are flashing. Once the application is carried out, the body can instantly condense and shape, the power can be horrible and evil, and even absorb the vitality of the opponent. The power of qi and blood and the power of the gods can be called the secrets of the corpse!

Among the three corpse kings, only the top-notch Fenghuang green blood knife makes Ye Xuan always feel a kind of heart-throbbing feeling, and even makes him extremely suspicious of the ancient times before the endless years, leaving the ancient **** of this **** magical power. In the hands, do you really have a magic knife?

In front of this hand, the energy state magic knife that can only be condensed by the magical power of the scorpion is already horrible. Even Ye Xuan's quasi-star to the treasure-level warfare is slightly inferior. If the fierce blade is really real, The glory of its magic is simply not to imagine!

"Let the fox be absolutely, if the king does not marry you today, he will not be a man!"

"Roar!"

Just as Ye Xuan was slightly different, because he once again saw the savage blade of the magical flame and gave birth to the association, the extension of the ground below the wind was after the smashing green magic knife, and then looked up again, then squatted and blinked. The **** murderous blade that has been hovering over the handle has risen and roared!

"Can you still point your face?"

Looking at the demeanour to the incoherent demeanor, Ye Xuan almost sneaked on the spot, and turned his eyes and sneered. Although his figure did not step forward out of the hole, but the voice was clearly passed out: "As far as you are concerned, this kind of respect can also be considered as a person. It is clear that the ghosts have to die again, and they are scared to death!"

"Hey..."

As soon as the words were finished, the outer half of the ship responded like this. Once again, a fierce mad wolf screamed, and the corpse boss slammed into the wind, because Ye Xuan's words were light and casual. A cold sarcasm, but just hit the deepest stubborn thorn in his heart, this time I am really afraid to go away!

This is exactly what Ye Xuan hopes to see. The reason why he is ridiculed is that the main purpose is to provoke the extension of the wind. After all, this is a powerful corpse of the fourth-order, and there is a fierce temper in the hand. The starry sky to the treasure and the devil's blood blade are slightly inferior.

In the face of this existence, whether the five elements of the annihilation of the murderous murderous can still kill and kill, Ye Xuan's heart is really not at the end, deliberately chaos his mind, in order to ensure that the subsequent big killings can not be prepared for a porcelain Really, Wei can do it, kill it with one blow!

The effect is obviously not bad, Ye Xuan sneer, but did not continue to sing, no longer care about the extension of the wind, take a deep breath, Shen Sheng has issued a new attack command to the system: "Cancel the full range of no Differential attack mode! Precisely lock the target: Three corpse kings!"

"The energy conversion of the killing system is fully loaded into a state of full load, concentrating all energy, splitting into three, and locking the target to full force!] Now!"

In the last sentence, Ye Xuan almost roared and roared out.

In the next moment, the five pillars that could be hovering around the sky like the pillars of the sky could kill the pile without any warning, and immediately then skyrocketed, bursting into the radiant light before the super, and turned into a solid and incomparable At the same time, the energy light column is shot above the central domain of the killing, and it is gathered into a huge energy light ball. It is like a fierce star hanging high in the sky, and the endless five-color light is shining!

The five elements of the Great Five Elements can be divided into two groups. Although the previous hodgepodge is like a rainbow, all the energy bodies are single-attribute. Now, the extinction light of five

different attributes can be fully integrated. Condensed into a five-color ball of light, this is the last big killing of Ye Xuan, the handwriting is amazing, and he wants to kill the three corpses that are whizzing...

Chapter 3287: Tenma

"Hey..."

At the high altitude, Ye Xuan sneered at the system and gave instructions to the system to transform the annihilation attack mode. At the same time, the third fierce mad wolf screams.

The extension of Linfeng is the most powerful existence among the three corpse kings. The strength of the middle of the hole is indeed a small difference. Although it is a half-step shot later than Gong Yangzhi and Yu Wenzhuo, it is the first to come.

The top of the head is hung with the fierce and fierce blade of the fierce flame. The whole figure is turned into a black electric mang, and the blink of an eye will burn the male head and the literary head behind it, and the horse will rise first and rise above the sky. The hole is no more than 10,000 meters away!

I thought I felt that I could immediately smash the small private warship above, and then I smashed out the hateful people in the cabin to kill them at will. At this time, the extension of the wind and the fierceness of the wind suddenly rose again, and the corpse rolled. It's all turned into a substance, and it's amazing!

Seeing this scene, even Ye Xuan couldn't help but admire it. His face was full of appreciation: "Hey, the corpse boss is the corpse boss. It can be different from the scorpion. The explosive power is amazing. I've never heard of it, so I've been so hard to die..."

That's right, in Ye Xuan's view, suddenly the sudden outbreak of the explosion of the wind, the true corner is to die!

Because at the same time that his words began to rise, the five-seat squad that hangs around the void is just shining, and between the electric and the fire, the horror of the air in the central area of the murder The five-color light ball.

All this happened too fast, too suddenly, not waiting for Ye Xuan to finish the words, the five-color ball of light in the central domain has already appeared, and at this time, the third mad wolf screaming out from the extension It's still not done, he simply can't react...

Subsequently, the five-color light ball suddenly exploded, divided into three, and instantly suspended from the static suspension into three extremely fast flow vectors, the potential is like destroying the earth and destroying the ground, and slamming down!

In a short period of time, there are no suspense to smash the three corpse kings who have violently rushed into the air!

"boom!"

"boom!"

"boom!"

The three horrible explosions sounded almost at the same time, and the earth was shivering slightly by the earthquake. A light curtain that was more numerous and brighter than the stars of the Ming Dynasty was smashed, swept away and swept the whole film. The land of the seal shrouded in an instant.

At this moment, everything is not visible. The void covered by the light curtain is only a gorgeous multicolored light!

Even Ye Xuan, who was in the high-altitude hole, closed his eyes subconsciously, too glaring, even if he was not at the scene, he could not look through the holographic virtual screen.

This level of violent glare is that the eyes of the strong stars can not resist, unbearable!

Fortunately, this light curtain suddenly vented, suddenly came, and went faster, when Ye Xuan closed his eyes and immediately opened again, the glare of the light curtain has disappeared!

As for the three brothers of the corpse, most of them were directly smashed into fly ash. Ye Xuan began to search for a few laps in the vicinity, and there was no gain.

Don't say the corpse king, even the corpse hair is not half!

On the vast expanse of the bottom of the world, there were still a large number of cosmic zombies and stumps, and all of them disappeared.

Although the horror light curtain that shines to the monks is only fading, the time of existence is short and completely negligible, but the power is too horrible, like the light of the world, everything in the mile of the world. It was wiped out in an instant!

If the smuggling pattern on the surface of the non-dragon shuttle hull is always flashing, the innumerable energy is transmitted into the optical network, and the five-seat smashing pile hanging around the void maintains the synchronous ditch. Just now, I am afraid that it is the leaf. Xuan will be in danger.

This level of extinction of light energy, I am afraid that even the fifteenth world of the great power can be hit hard, even if the ranks of the big five elements of the extinction of the array is higher, it is impossible to have such a terrible power.

Although it is highly probable that the murder has completely banned this void, the endless light that blasted open can't be vented, and it is limited to a limited space. This amazing horror power will appear.

However, Ye Xuan has always been a little uneasy. After thinking about it, there is no clue. In the end, he can only smile and shake his head for a while, and don't think about it.

"It's a pity that the three corpse dans are a bit too bad. This kind of thing can't be met, but it's wiped out together..."

Slightly pity and sighed a few words, Ye Xuan was about to kill and revoke, closed the ship's ship-based killing system, then drove the hole and rushed through the high-altitude atmosphere into the outside world, adjusting After the direction, go away instantly!

Although there are still two or three million cosmic zombies that have not been eliminated outside the area where the traps are blocked, but this matter has no psychological reaction, the three corpses are destroyed, and those ordinary cosmic zombies can no longer toss. How big the waves are, and when you look back, someone will pick up the bad guys.

As for Ye Xuan, at this moment, he hastily left, the goal is directed at Tianchen, the national capital of Tianchen, and the configuration of the ten-level liquid is imminent, and can no longer be dragged...

.....

The sky warrior, a piece of the distance from Ye Xuan to the Great Five Elements to kill and kill the zombie army, only less than a thousand miles away in the dark valley!

"call out!"

A faint sound of emptiness sounded incomparably, and then, from the depths of this dark valley, a huge green blood knife cut through the void, and quickly rushed out of the valley to quickly become a distant half-space. Hover.

This is clearly the top of the top of the top of the top of the wind, although the killing of the deterrence, the magic flame is restrained, but the breath is exactly the same, no mistakes.

"The devil is really extraordinary when he is born! It is impossible to think that this king was blessed in disguise, and he took the opportunity to take the opportunity to get rid of the disgusting fleshy skin, just like the military reconciliation, the level of life evolved again, and the body of the demon!"

With the sound of the voice of the extension of the wind, the Baizhang magic knife hanging in the air suddenly squirmed and changed rapidly. Just two or three interest rates, it has turned into a human being, with flesh and blood, such as fake replacement!

It is the extension of the wind!

What is even more bizarre is that the appearance of his demeanor has returned to the state before being eroded by the immortal poison. The traces of the zombies of the universe have not been left!

"This feeling is so wonderful, it is not the flesh and blood, nor the energy form, nor the human god. It seems that it does not belong to this world. It can be in the flesh and blood and the energy body, as well as the human beings. Change between states..."

The head swept to the flesh and blood body that had just emerged, and the words of the extension of the wind showed a deep joy, while he said that the flesh and blood body that was being looked down by him had changed again and instantly turned into The emptiness of the state of the gods!

Shortly within ten breaths, the form of the existence of the extension of the wind has already turned a circle in three distinct states of energy, flesh and blood, and consciousness of the gods, thoroughly confirming the guess in the heart.

Under the mood of great joy, the extension of the state of the gods is pleasing to the wind, and it will disappear without a trace!

"Ha ha ha..."

"Sure enough! This nickname is the devil of the devil, who can expect the truth, but the opposite is true? This is clearly a way of disarming the body, annihilating the gods"

Chapter 3288: Innocent

The sky warrior is still the leafy killing system of Ye Xuan's launching the virtual shuttle ship, killing the vast hills of countless zombies!

At this time, Ye Xuan had been away for a long time, and the remaining two or three million cosmic zombies gradually slowed down from the boundless fears, gathered together, and soon gathered again into a military, toward Keep going in the distance!

The extension of the wind is mixed in the zombie army that has already been headless, and the atmosphere is hidden. Even the appearance has changed deliberately. It seems that it is no different from other ordinary cosmic zombies that are densely populated around!

This time, the reason why he could not die is actually pure luck. Who can expect that a strong human being who is only a black hole can be sacrificed to kill the world? ?

Not to mention the zombie king who was repaired by the three-headed cave, it is the emptiness of the void, the beginning of the field, and even the great perfection of the ninth order of the celestial glory. It is also difficult to crush under the power of this horrible killing. Retreating completely unscathed.

This campaign has made the extension of the wind and the mind change, and the arrogance of the past has completely disappeared.

If it wasn't for his chance, he was fortunate enough to get the magical power from the realm of the devil in a few days ago. Now, it must be the same as Gong Yangzhi and Yu Wenzhuo, and it will be wiped out in an instant. It has long ceased to exist.

Whenever I think of this, the consciousness of the soul of the extension of the wind can instantly become extremely ethereal and clear, just as the original body of the zombie has completely changed, and evolved into the body of the extraterrestrial demon that is now possessed. The level of their own thinking consciousness has also been fully sublimated.

From the inside out, from the flesh to the soul, everything is like a new life, completely reborn!

He was glad that he had not been knocked down, even if he had just experienced a life and death catastrophe not long ago, but in the end he still returned.

This zombie army, he can not easily give up, do not look at them are now very weak, but as a former zombie king, the extension of the wind than everyone knows the terrible of these cosmic zombies.

As long as there is enough time and space, any cosmic zombie will eventually evolve to a very strong degree, and this speed of evolution is simply terrifying, far beyond the so-called Terran.

The entire Terran occupies a vast third universe, with a myriad of people, and there are countless administrative stars in the two camps. But on the road of spiritual or life-level evolution, it can be called the so-called Tianjiao, and it can how many?

But the zombie group is different. Any cosmic zombie is the existence of evolutionary speed and potential that rivals the human race.

Tuanfeng Linfeng firmly believes that if it is possible to gather a trillions of zombie army, lead them into the starry sky, and go around and grow as much as possible, and strive for enough time and space for evolution.

Then, when this zombie army has grown and grown, the entire third universe of the Terran, even the first universe of the heavenly planet and the second universe of countless federal ethnic groups, without exception, will all become slaves of the zombie group, the three major The cosmic plane, from now on!

The only supreme overlord is the zombie group!

All this is really far away, but the extension of the wind is firmly believe, so he will never give up.

However, after this life and death catastrophe, the extension of the wind will not be as easy to expose their identity as before.

Presumably, the news that the three great zombie kings of the Tianxing Star have been smashed in the war will soon be spread. This is his advantage. From now on, the entire zombie army will no longer be the king, only one The innocent emperor hidden in the dark, leading the entire universe of zombie groups, step by step to glory!

With such expectations, the extension of the wind crouched in the zombie army, not showing the mountains without dew, but secretly quietly issued a unique biological wave unique to the zombie king from time to time, carefully driving the entire army toward A city in front of it slowly advanced.

The Tiantianxing is vast and nearly 70% of the human city has not yet been confiscated. In every city, there are some people who are strong or ordinary people stranded.

For the extension of the wind, this is a very attractive super big cake, which allows him to once again create a huge zombie army in the shortest possible time.

As a former zombie king, the extension of the wind is clearer to anyone. The larger the base of the cosmic zombie group, the higher the chances of having a variant zombie with various special abilities and the shorter time.

As one of the stars of the three emperors of the dynasty, the Tianxing Star is so sensitive to its significance and value. All these life and death disasters have made it possible for the top-notch to rush to the top and clearly understand the impending crisis.

This place should not stay for a long time!

The cosmic zombies that he can take away are definitely not much more!

The choice of the extension of the wind is simple and cruel. He decided to artificially promote the evolutionary speed of the zombie group. First, expand the base of the zombie army to the extreme, and then use the special biological wave frequency of the zombie king to secretly exert influence. The entire zombie army smashed each other and swallowed each other!

And by this... the speed of evolution!

It is conceivable that one day in the near future, as this cruel battle for survival is fully unfolded, it is highly probable that the surviving cosmic zombies will eventually survive.

Tens of thousands of zombies, the last remaining may be only a hundred or even less.

But they are all true zombies.

It is also the original team that led the numerous zombie corps in the future and the universe.

All of this must be done before the Terran Crusades arrive. Otherwise, in addition to the extension of the wind itself, all the cosmic zombies on this huge star, do not want to escape at all.

Must be... the whole army is over!

When I think of it, at the end of the horizon at the far end, the tall city wall of the target city has finally appeared. The extension of the wind and the slamming of the wind, the body immediately spread out a unique biological wave of the zombie king, instant divergence And open, quietly affecting the cosmic zombies in the entire army...

"Roar!"

"Hey..."

"Hey!"

Soon, a horrible corpse and a whisper of sounds rang, and millions of cosmic zombies in the entire zombie army swept away in just a few seconds, and the speed of advancement was instantly increased by dozens of times. It was only slowly slowing down, but now it is running fast!

This scene is so amazing, a huge army of millions of people, madly speeding up, and overall advancement, looking at it, a vast expanse of land, it seems like a huge land drifting, quickly approaching...

Blinking, it has already reached the wall!

In the next moment, in the closed human city pool, countless desperate exclamations and whistling sounds sounded, and more helpless crying and sorrow were faint.

Millions of zombie soldiers came down the city, and even in an instant, there was no sign of madness, and they were surprised and scared, too scary...

Chapter 3289: Whistling outside the domain

With the return of the extension of the wind, the cosmic zombie army only interrupted the **** killing for half a day, and soon it was fully launched again!

This time, it was more fierce than before. All the zombies in the universe were maddeningly, marching at a rapid speed, like a locust crossing the border, and crushing a human city without any suspense.

The scale of the cosmic zombie army has quickly recovered and is gradually growing stronger...

Everything that happened in the Heavenly Battle Star, no one knows!

In Ye Xuan's view, the three major zombie kings, such as the extension of the wind and the Gongyangzhi, have been completely smashed. This Tianshidi star will no longer be followed by him, and the rest of the ordinary cosmic zombies will not be able to weather.

As for the four space bastions that were originally guarded outside the atmosphere of the Star Wars, as early as the star's star defenses were fully smashed, they were scared to avoid it, and they did not dare to enter the atmosphere to peep. I don't know the real details.

However, in the third universe position controlled by the Terran, I don't know how far the mysterious plane is in the void, but there is a dreamlike whisper, which sounds at this time!

This mysterious void is clearly an exiled cosmic plane, and it is incomplete, and reveals a strong and ancient atmosphere.

Void cracks can be seen everywhere. From time to time, there are vain streams of horrible destruction, and some have even evolved into hollow black holes, devour everything!

Although there are countless stars and there are also the Xingxing River, but they are all ruined. Looking at it, the countless stars of the big and small in the Xingxing River are almost all staggered, and some have even completely broken down. In this dark mystery Floating in the void!

If Ye Xuan is here, I will be shocked to see the ruined ancient starry sky in front of me.

Too familiar!

Everything is exactly the same as what he saw in the inheritance picture of the sacred bow.

Here, it is clearly the end of the battle of the world in the era of the endless years of the battle of the world!

It should be part of the ancient starry sky of the ancient times, and the same ancient cage that was connected to the valley of the Forbidden City, and the same source, was also separated, and was also exiled...

The only difference is that the damaged void in the first universe of the devil's star is not only a cage, but also a buried bone, revealing an endless death atmosphere, desperate!

But here, although the starry sky is as bleak, even a star that glows and glows is not there, but if it is carefully sensed, it can capture countless lifeful breaths, though it is extremely powerful!

The vast majority of life is in the exiled wild star river, which emerges from the interior of a relatively large star. The deepest part of the core of these stars is clearly crouching with a very powerful creature. Sleeping!

In addition, there are also a lot of vagueness in the large number of void cracks that are scattered throughout the whole piece of the void. Although the number is too small, it is more horrible and powerful, without exception!

The existence of crouching in these emptiness cracks is clearly the same as the golden dragon and the ancient yak yak!

One of the void cracks, even a horrible giant turtle with a size comparable to a small star field, floated so quietly, and I don't know how many years have passed since the silence of the void cracks. The horrible body of the giant tortoise, but not ruined, has not been shaken.

However, it is like a giant turtle on the back of a vast expanse of the mainland, but it is clearly inserted with a black horror magic blade. The blade length is unknown for thousands of miles. A small part of it has been inserted into the turtle's back. It is obviously very sharp. .

However, the half of the blade of the horror demon blade was revealed, but it was clearly covered with a gap. It seemed to silently confide in it that year, and experienced a terrible battle!

Although the magic blade is also a bleak power, it has long since disappeared from the past, but the faint faint scent of the silky scent, but the energy that is condensed by the blood and the magical flames Magic knife, generally no!

The only difference is that the black magic blade that is inserted vertically on the huge turtle's carapace is solid!

The magic blade has been damaged, and the giant tortoise is sleeping!

This scene has not been known how many years have passed, never changed!

Just at this time, in the other void cracks, a few whispers like a nightmare sounded, although weak, but in this lonely and deadly exile, it was very clear.

"This breath... is the devil going to life?"

"Oh... Waiting for the endless years, the second pure demon body finally appeared!"

"Crow up! Let's hurry up..."

With this whistling sound, the innumerable concealing atmosphere in the whole piece of the ruined star field has all been slightly turbulent and touched!

Even the black magic blade, which has been emptied in the cracks of the space, has suddenly become fierce. Although it is fading, it quickly fades again, but it instantly confuses countless voids. Both are back and back!

The giant tortoise that has fallen into endless sleep, also at the same time, has opened up a pair of scorpions, and the icy coldness of the endless sang sang is shot out...

.....

The third universe, the Terran Science and Technology camp, the imperial dynasty under the rule of the empire!

Ye Xuan has been away from the Tianxing Star for four days. At this time, he is rushing to the Tianchen Kingdom, which belongs to the Tianshi Empire.

Within the vast territory controlled by the Heavenly War Empire, there are countless big countries and small countries. Tianchen is not the top country in which it is pointed, but it is closest to the Heavenly Battle Star where the Imperial Capital is located.

Therefore, the empire official who has withdrawn from the Tianxing Star will choose to temporarily settle here, including some of the top gates and forces in the Tianshi Emperor.

Ye Xuan learned the news the first time after he left the Tianxing Star. He came straight and never sleeps for four days. Now it is not far from Tianchen Star, only a half-day flight!

In the meantime, Ye Xuan has carefully studied and finally successfully formulated the first tube of nine-stage liquid. The experience and ability in the preparation of gene culture fluid has risen sharply, which is well-deserved in this field. The master has existed!

However, the preparation of the ten-grade liquid is too difficult. It is necessary to add a lot of new materials to improve the efficiency of the genetic fluid. Each addition of one will cause a geometrical formula change. Although Ye Xuan has the confidence to complete it independently, it must consume It's been a long time, even a year and a half.

I can't wait!

This is also more determined that he went to Tianchenxing to win the determination of the mature formula of the top ten liquid, but he did not hesitate to fight, this trip, must get the formula!

After a small half day, Dongxu shuttle finally entered the Tianchen star field. Ye Xuan stopped at a distance from Tianchenxing, and stepped out of the battle shuttle and waved it into the immortal world.

Then, in the way of crossing the void in the flesh, the whole body was transformed into a speedy man, and the eyes went away...

Chapter 3290: Shameless old man

Tianchenxing is not a top power in the territory of the Tianming Empire. However, as a country with many of the big powers under the rule of the Heavenly Empire, it is close to the Imperial Capital, and its relationship with the Imperial Capital is obviously very close. thread.

Similar to the top-level gates and forces of the Emperor Tianzhao, such as Tuoja, Gongyangjia and Changyujia, there are branches in the national capital of Tianchenxing.

Therefore, this time with the official army of the empire withdrew from the Tiandi Emperor, after the arrival of Tianchenxing, both the Imperial official and the top-level gatekeepers, they were all settled soon, basically in Tianchenguodu.

The empire official does not have to say that it has directly drawn a large area in the inner city of Tianchen State as a temporary operation.

And the top-level gatekeepers, such as Tuoja, live in the Tianchen National Division of the respective forces in the outer city. Everything seems to be in order and not chaotic!

The immortal army from the emperor's immortal star and the other one of the peers belonging to the Federal Headquarters Supervision Institute's Senlan fleet have been in existence for several days from the immortal star, and will be able to reach the Tianxing star in a few days.

Therefore, the Tianzhen Emperor who had just settled down in a comprehensive manner was ready to set off. He personally led an imperial fleet to the Tianxing Star, and merged with the dynasty's fleet.

At this time, the guards of the imperial palaces who were responsible for the surveillance mission outside the Emperor's Day Battle Stars came to the message that the Star Wars's star defense defensive array had been completely smashed, and today's Tianshen has been unimpeded, not only the outside world. Any presence can drive straight into.

More crucially, the cosmic zombie army inside the stars is also able to pass through the atmosphere at any time and enter the universe.

As soon as the news spread, the entire Tianchenxing countless people were stunned. Some of the big forces and gates that had just settled here were immediately unable to sit still, and they had the idea of a big withdrawal again.

Even the Heavenly Emperor could not stop the horrible zombie army. The whole emperor star fell across the night, and what could Tianchen Star count?

At least, the star defense defensive array here is not a layer of existence compared to the Imperial Sky Star. The celestial star can't hold it anymore. As long as the cosmic zombie army comes, it will be finished.

The Tianchen Star is also the closest life star to the Tianxing Star. When the cosmic zombie army is out, the first stop of the scourge is this place!

For this reason, as soon as the news spread, the entire Tianchen star was completely chaotic, and some of the star-studded powers who did not have much to do with it had already begun to evacuate. They were solitary, did not drag their homes, and walked quite decisively and decisively.

Even the evacuation from the emperor has been very convenient. The various forces that have been settled here are also very convenient. The resources brought out by all kinds are basically in the magic of storage. It's really going to happen. They can go at any time and they are ready again. Preparation for the big evacuation.

As for the local people of Tianchenxing and more ordinary people, they are not so easy. If they want to leave, they must be hurt and have big moves.

More people don't even have the ability and conditions to leave their hometowns, so the resentment soon appeared, and quickly formed a skyrocketing trend. They all questioned and accused the initiators of this zombie robbery, that is, the extension from the Heavenly War Emperor. Three families of rams and long fish.

After all, if they didn't go to the medicinal relics to get the wind and rain, they wouldn't lead to the fake foxes that colluded with the second cosmic genie, so that the zombies were poisonous. Will not appear.

Although the real black hand is the Yin Mozu and the Linghu, but the three top gates of the Tianhu battle lead the wolf into the room, although it is not intended, but still has an unshirkable responsibility.

In the face of this pressure of public opinion, the official of the Tianshi Empire did not express its disapproval. It was just that the emperor was indifferent to the war, so he sternly rebuked the master of the three gates of the imperial capital. And a group of high-level people called, and in public, a dog bloody.

And strictly order the three top-level door valves, we must give a confession to the entire imperial people on this matter, and resolve the pressure of public opinion!

The three top-level door valves have a hard time. This time, not only did they lose their wife, but they also suffered from such accusations and pressures.

In the end, in order to resolve the pressure of public opinion, the three top-level door valves squinted and said something, and it was hard to pour the water to the true and false two foxes.

It is no need to say that the fox is less than the chief fox. The collusion between him and the genie is already undoubted, but it is not enough for him to bear the anger of all the people in the entire empire.

This time, the three top-level door valves completely defended themselves as victims. Except for the fox, the murderer, who was suspected of being a real fox, was unscrupulously pulled down by the water and used as a shield.

According to the words of the three gates, it is a fact that the fox is colluding with the sinister demon, but the fox is not a good bird. He is even more excessive, and he has colluded with the federal enemy, which is the lord of the first universe.

This matter is also evidenced, because the top fighter armor of Linghu Chong has not only been sacrificed in the remains of Yaowang, but even when the Tiantianxing was completely evacuated, he also sacrificed this fighter. Fighting with the cosmic zombies, it is suspected of being fighting for something.

This scene was seen by many powerful emperors at the time, so when the news came out, it immediately caused a huge uproar. All the people were convinced that the roar of the imperial people immediately began. They were originally pressed on the top three gates and the official shoulders of the empire. The pressure of public opinion was blinded by the disaster, and most of them were transferred to the two true and false foxes.

Subsequently, the three top-level door valves threw a blockbuster again, claiming that the fox rushed into the hands of not only the ancient king of medicine, but also the half-medicine king who was taken away by the remnant of the Linghu family, but now he and the first universe The overlord's celestial family colluded, fearing that it would return to the first universe soon, and this half of the king's inheritance would have to fall into the hands of the celestial family.

This incident has once again caused great anger. The king of medicine is a treasure of the human race. Now, the jade ruler that has been unearthed from the remains of the king of medicine has been handed down by the fox and fell into the hands of the genie.

If the half of the inheritance of Linghu's hands falls into the hands of the Tianji people, what is the human race?

Although the Yin Mozu is not a federal ethnic group, at least it has not been torn apart from the human race. Compared with this, the drug king inheritance of the Tianji nationality is only half, but it is even more unacceptable.

In an instant, the entire Terran squadron, the people of the two empires of Tianming and Tianfeng, also angered and asked the three empires of the entire dynasty to force all the powerful to search and arrest, must make this collusion with the human enemy Squat out and severely punished.

Since then, the Tianshi Empire official and the three top-level gates have no pressure, and the anger of the empire and even the entire dynasty has a better target of dumping, and they have not taken care of them.

All this, when Ye Xuanyuan arrived at Tianchenxing, he immediately learned it. Immediately, he was furious, and the old man was too shameless...
