

## Super D. S 330

### Chapter 330: Hunting the Holy Beast

However, an hour after they entered the Deep Sea Palace, they finally encountered a heavyweight creature.

"what happened?"

Song Congjing held the ice crystal sword and asked strangely.

"There is a big guy around the corner, I feel it." Ye Xuan answered slowly.

His supersonic bat blood can feel that this creature is an octopus, and the blood of the beasts can let him know that this is a sacred octopus.

The Song dynasty heard the news and looked forward. I saw that there were a few tentacles on the corner.

"Oh, I hate this kind of thing most." Song Congjing couldn't help but shrink behind Ye Xuan.

Many creatures, such as octopus, crabs, crickets, and even caterpillars, are creepy, especially large.

"That's just right, let me come!" Song Congjing lifted the big axe and rushed straight.

"You are waiting here, I have also looked at it." Ye Xuan said, just follow it up.

The map that Lin Wenyue gave him said that in the front section of the deep sea palace, at most, the sacred beast of the dragon.

From the middle of the section, there will be two dragons, even the holy beast of the power of the three dragons.

As for the latter paragraph, it is the same as the previous paragraph.

The Tianshui continent is far away from the \*\*\*\* rock continent. Even if the master of the three dragons wants to cross the deep sea palace, it is estimated that it will take more than a month.

So, it's still growing.

Ye Xuan and Song ruling rushed over, and the latter lifted the Axe Axe, which was on the top of a tentacle, and it was impossible to cut it off.

"Good tough, pick me up again!"

The Song ruling screamed and lifted the Axe Axe to kneel down.

"Oh!"

An octopus tentacles broke and fell to the ground.

Ye Xuan is also a step forward, and sacrificed the eight wild swords.

Oh!

The second octopus tentacles were cut off.

However, what shocked them both was that the octopus tentacles that had been decided by Fang Cai's ruling had grown out.

"Good resilience!"

Ye Xuanyi, a new octopus tentacles grow on the scene, this resilience is a bit powerful.

However, Ye Xuan is still curious to go, ready to swallow the octopus tentacles to see how much value.

At this time, the change occurs.

I saw that the two broken octopus tentacles suddenly began to twist, and then turned into a pillow-sized octopus.

"Oh, it's disgusting." I don't know when Song Cong, who came over, took a step back subconsciously.

"I rub, I will split and die!"

Ye Xuan was also shocked and waved a sword to split the small octopus into two halves. This time, this octopus did not split again.

"Mom egg, like a vase, there is no point in devouring a point. It seems that it will be swallowed up."

Ye Xuan screamed in his heart and turned his head and said: "I am going to pack this big one."

"it is good!"

Song ruling nodded.

Then, Ye Xuan was directly plucking out, and he did not attack these tentacles, and he was prepared to go directly to the main body.

He turned the corner and found the white octopus that was attached to a wall. He looked at it carefully and found that the tentacle was more than 20 meters long. This shows how big the white octopus is.

This white big octopus also glimpsed Ye Xuan, immediately retracted the tentacle and waved toward Ye Xuan. The attack speed was still above the Bohai Dragon.

"Hey!"

The tentacles slammed on the floor and the ground trembled.

In order not to let it split the small octopus, Ye Xuan directly chose to avoid and rushed to the past.

In total, four tentacles are attacking him.

Fortunately, he has eight wild winds to kill, you can use the eight-handed blade to shake the tentacles.

At that time, he came to the front of the octopus's head, ready to give the other party a fatal blow.

It is at this time.

"Hey!"

This big octopus has a brain, and suddenly a purple-black ink is ejected from the round mouth.

Ye Xuan hurriedly avoided, the ink rushed empty, and spit black on one side of the wall.

"Zizi..."

A strange voice fell into Ye Xuan's ear. He turned his head and saw that the stones and seaweed in the corner were completely eroded.

"The world is really nothing, the octopus will spray toxic ink, but you should die, even dare to scare Laozi's fiancée!"

Ye Xuan heart angered a word, eight sharp edges instantly formed a sharp cone, began to rotate at high speed.

Eight wild winds killed, the sky broke!

"boom!"

The octopus's head is instantly penetrated.

"It is said that the octopus has three hearts, seeing me smash you into a sieve!"

Ye Xuan did not relax, continued to attack, and took out a few large holes in his head. He also smashed the ink sac, and the purple-black ink came out.

This big octopus is also reluctant to recall all the tentacles before dying, and then sprays a lot of inks in an instant to black out the area.

But before that, Ye Xuan has already left here.

"The toxicity is so strong, my blood is not knowing if I can stand it..."

Ye Xuan retired to the corner and couldn't help but say.

After the death of the big octopus, he only took the body away and swallowed it.

"The body of the Holy Beast is really good, equivalent to three pieces of condensed stone."

Ye Xuan said in his heart, that is, he returned to the position of Fang Cai, said: "The sacred beast, but your Tiandan has not broken, this beast I will take it first."

When Tiandan Dacheng wants to break through to the four realms of the gods, he must first cultivate the Danyuan to the limit, and then break the Dan into a shackle. However, the two brothers and sisters are just just breaking through, so they are not used for the time being.

"Well, take it." Song Congu nodded.

Then, Ye Xuan directly swallowed it and raised 100,000 engulfed crystals, which is equivalent to ten condensed stones.

He estimated that by killing a few hundred sacred beasts, he was able to break through the power.

"The dragon's blood and the golden dragon's blood are all dragon blood, so I am still a bad one. I don't know if there is a dragon in this deep sea palace. In this case, as long as I break through to the power, I can directly treat the beast. The blood is raised to the blood of the Beastmaster."

Ye Xuan thought in his heart.

Then they continued on the road again.

The mysterious beast on the road is really quite a lot. Although the value is not comparable to the holy beast, it is less and more.

In one day, Ye Xuan has improved the experience value by one tenth. If you come back for ten days, you should be able to break through the limit of Tiandan. When you use ten different beasts, you can break through to force. territory.

There is no day or night in the deep sea palace. The speed of Ye Xuan is not fast. They sit down and rest when they have nothing to do.

The Song Dynasty and the Song ruling entered the yin and yang state to practice, and Ye Xuan defended the law for them.

Ye Xuan estimates that for at least half a month, they can also reach the limits of the environment.
