

## Super D. S 3301

Chapter 3301: Going to the clothes

After a punch, General Samsung's bones were broken by a quarter. Don't look at his body, he opened his mouth and squirted a blood arrow. His body shape also fell to the bottom of the sky, but he was not Too serious internal injuries.

Although his cultivation is a hole in the world, it is a big realm than Ye Xuan, but in this case, it is only abnormally so skin trauma. This is obviously not normal.

Admiral Samsung is not a fool, and he immediately understands it.

At first, people didn't plan to kill him. They just wanted to teach him a meal. Of course, it was inevitable that he would force him to open the atmospheric passage that had just closed.

Thinking of this, Samsung will immediately tangled.

He did not dare to go down this order, otherwise he would definitely be slammed in the end. The career path is basically hopeless and will be suspended.

But now this \*\*\*\* little comet is clearly eyeing him, but he is not addicted by a fist, but he has chased it with a wave of fists. This is clearly the rhythm of not killing him. !

If you really want that, it is estimated that this Samsung general is also incompetent. As a strong man in the virtual environment, although the broken limb can be replanted, the flesh and blood can be regenerated, but the opponent is clearly an expert in this field. It is unambiguous at all.

Admiral Samsung has no doubt that Ye Xuan absolutely has the means to smash him to the bones, and he can't recover afterwards. If that is the case, then the last unfortunate one is still his own, and the official career will stop and he will have to live forever. Disabled...

Thinking of this, he shuddered and shuddered, and his mind immediately shook!

"Hey? This body is very tough. It's bigger than a human fist. If you punch it down, you're not dying. The Lord is not convinced, and then try again."

Seeing that the other party did not say anything, it seems that I still intend to sneer, Ye Xuan's heart sneer, but the surface is still playing and haha, and the voice is not falling, the person has come to the front again, and the fist is bigger than the human fist!

"Don't stop... misunderstanding, this is a misunderstanding!"

At first glance, the fists bigger than the people came back and forth, and it was already close to the top of the head. Samsung's stunned body once again, and then hesitated to turn to the atmospheric passage defense fortress outside the emptiness of the distance. The scorpion smashed up: "What are you doing? Just open the atmospheric passage, let go! Release immediately..."

"This is almost the same!"

"boom!"

I heard that Samsung's general finally found out the words of release, and Ye Xuan's heart was slightly loose, but the punch that had already blasted out was not intended to be recovered again, almost in the next moment when his words appeared. A huge bang came out.

"puff....."

Admiral Samsung squirted a blood arrow in his mouth, and his bones were broken by a quarter. This time, he fainted directly without any suspense. This is what Ye Xuan deliberately made. Anyway, the command to open the atmospheric passage has been Released, this guy is nothing to use value.

It's only good to have a bad punch, no harm, lest he should be troubled by other moths.

Soon after the guy slammed into a sneeze and stunned, Ye Xuan turned away and left, and the Samsung general who fell down in the void was quickly caught by other star power strongmen.

Otherwise, it's really going down all the time. Although it's because the whole piece of emptiness is imprisoned, it won't fall to the ground and directly suffocate, but in the middle of the road, it's absolutely necessary to be smashed by the above-mentioned emptiness. That is absolutely to die!

Looking up, the atmospheric passage at the outer edge of the array is slowly opening.

Seeing this scene, not only Ye Xuan completely relieved, but also the other star powers who were imprisoned in the big array were all relieved.

At this time, the thousands of strong people who were imprisoned in the big array were basically injured. Even some of the weaker guys fell directly. This opened up the power that could not be killed in half. Being bombarded, it can only be considered bad luck.

As for the hundreds of shuttles and patrol ships, they were basically completely destroyed. The Tianchen National Military Powerhouse in the ship's body had all abandoned the ship and escaped.

They have never experienced such a grievous battle. At this moment, seeing Ye Xuan's eyes are full of incomparable fear and jealousy. Even the top-notch and the ram do not regret, and the long-fishing dragons are the same.

Where is this small comet?

Clearly is the big devil!

Admiral Samsung has already opened the atmosphere channel, let him calmly leave, the horror giant punch that is bigger than the people, but he did not hesitate to blast.

At that time, the three men were clearly and unrecognizable, and they scared the three old guys to shake their bodies. Because of the fact that General Admiral Samsung and Ye Xuan had no enmity, but they were still treated like this.

In this comparison, the three of them calculate Ye Xuan not once or twice. If so, it would be awkward to think about it!

This thought has just emerged from the mind, the extension of the male and the ram do not regret, the face of the three old guys of the long fish stunned dragon immediately changed, a pale.

Because at this time, just after a boxing, Samsung's generals sneaked into a stunned Ye Xuan, and the body shape turned into a turn, actually went straight to them.

Looking at the fighter armor, the horror steel giant punch that is still a big punch, three old-fashioned old guys turned around and fled, and they stunned!

"Ling Hu Chong, what do you want to do? The atmospheric passage is clearly open, you should not be too much."

"Play is a game, if you get it, don't sell it. If you want to see it, you will receive it. Otherwise, it will take a long time. When Tianchen's top domestic powerhouse comes, you have no chance to go!"

"Yeah boy, it's still a matter of self-sufficiency, don't be impulsive, impulsive is the devil..."

"boom!"

"boom!"

"boom!"

The words of these three old guys have just finished, and the back has all smashed a heavy punch. Ye Xuan's speed in this shackle is almost as fast as it is, and it's straightforward. You don't have to worry about coming from above. All kinds of killing energy experience will fall on yourself.

But other people are different, they can only escape and escape, so as to avoid, so the speed difference between the two sides will come out.

Under this circumstance, Ye Xuan chased after the suspense of the eyes and chased the three old guys of Tuo Xiong, without hesitation, punching one by one, directly smashing them all into a \*\*\*\* coma.

Don't look at only one punch, but the strength of this punch is three points more heavy than the previous two punches of the Samsung general. Old friends, naturally have to take care of it!

After blasting these three punches, Ye Xuan's grievances finally vented almost. After calculating the time, it is estimated that the peak of the Tianchen National Capital will soon come, and he did not dare to delay, and waved directly. The cave is a virtual shuttle, and the body shape is shot from the atmospheric passage that has been quietly opened there. The figure appears in the universe of the sky outside the atmosphere of Tianchen.

It's going to go to the clothes...

Chapter 3302: Medicinal array

Ye Xuan was just leaving. From the land direction of Tianchenxing below, there are five or six figures like the superb meteors, which quickly descended.

Behind the five or six figures, there are seven or eight 10,000-meter-diameter star-studded fortresses, but the speed is not as good as the five or six figures. These figures are all the twelfth in the world. Strong!

"What happened here?"

"Damn, who opened the atmospheric passage? Let the fox rush to that guy? People?"

"Damn, you are this waste! The rice bucket! All are rice barrels!"

.....

These seven or eight figures are not only the strongest of Tianchen Guodu, but also the strongmen who are stationed here by the Tianshi Empire. The strongest one even has the supreme power of the thirteenth big territory.

They all came quickly after receiving help from the land below. Unfortunately, before the removal of the Great Five-Way Extinction System, everything in this void was not visible, and it was blocked by the five elements of the array.

It was the screaming roar of Samsung's impatience, and Ye Xuan's deliberate release. Otherwise, the guards in the defensive fort in the outer atmosphere channel could not be heard.

For this reason, all the things that happened in the previous big five-line annihilation squad, even the top seven who were rushing from the land below, were all unknown.

After arriving at this moment, I saw that the scene was so chaotic. One by one was violently thundering. Thousands of star-studded powerhouses, including the tenth-largest environment, joined forces, together with hundreds of shuttles and patrol ships. There are more than ten planets and star-rated warships.

In the end, not only did he not leave a black-eyed cockroach ant, but it was also swept away by the crowd. The whole scene was embarrassing. This scene is really too irritating.

I really want to rely on the hot temper of these imaginary emptiness, I just want to kill them all on the spot to get rid of it...

Soon, Samsung, who was already waking up, was rushed over and reported the general situation.

"What? Actually, you ordered the opening of the atmospheric passage? The old man shot you!"

At first, it was actually the atmospheric passage that was ordered by General Admiral Samsung. The supreme power of the seven-person who was the strongest in the thirteenth world was immediately furious.

"boom!"

At the same time of roaring, it was a real shot, and a huge explosion came out, except for the nearly half of the whole body, the Samsung general who was carried on the stretcher, even the two soldiers carrying the stretcher. The soldiers were all bombarded with flesh and blood.

"Waste! A bunch of waste!"

"This kind of supreme enchanting, even the private battleships with the starry sky to the treasure level can be refining, actually still branding such a terrible large-scale killing on the battleship, even if you are directly released because of fear of death..."

"Do you know what it means?"

"Which refining device is enchanting, what a refining drug is a ghost, everything is not important, the key is he is a horrible array of powers!"

"If you can leave this person and let him work for the dynasty, then every warship of my dynasty can brand this horrible killing, and the combat power is ten times higher than that?"

"I have engraved this large star-studded star-studded fortress, each of which is a super-killer. When you kill it, you can immediately ban a void, and it will become a trap in the field!"

"If such a new starry sky fortress can have a hundred seats, if it is spread across the void battlefield at the same time, the Tianji people will be able to dispatch the same number of 100,000-meter star fortresses, which will be trapped. , Yu Yu is falling!"

"You, this group of wastes, an excellent opportunity for the overall strength of the dynasty military to jump, so you have missed it. Once the kid is really forced to go to the celestial family, this horrible ship-borne vanity system By the hands of the enemy, the entire Terran will come to a great disaster. You are all the sinners of the Terran..."

"puff!"

At the end of the day, the supreme powerhouse in the beginning of the thirteenth realm was actually rushing out with a blood arrow under his urgency. Seeing this scene, all the star-studded powerhouses around him had already trembled.

Including the extension of the male, the ram does not regret and the long fish three are no exception.

At this moment, they finally realized that the guy named Linghu Chong was enchanting and horrible. What is the drug? The most powerful ability of others is the ability of the formation!

What is the means of branding a small private battleship with a virtual murder that can envelope the emptiness of a hundred miles?

This is clearly the rhythm of the three medical instruments, no one before, no one after!

It is no wonder that this domain has been cultivated in the beginning. It is said that the identity is even more scary. It is the supreme power of the monarchy of the Heavenly War Emperor. It will be spurted on the spot, and it is even more in public. Admiral Samsung.

Now it seems that compared with their chaos, let alone a Samsung general. If this matter is passed to the imperial capital, it is very possible for the immortal emperor to slap the king of Tianchen's kingdom with anger. .

Thinking of this, the group of pale and incomparably guys are more and more trembling. This time, it's really a big scorpion. If the other party is really forced to go to the heavenly family, the dynasty will be angry. After the fall, the accountants, all of them present, one can't run...

"Go, let's get out of this group of rice bowls, and the old man will not see it as a net!"

Perhaps it was because the palm of the hand smashed the general of Samsung, and the blood of the stagnation that was stuck in the chest was also spit out of the blood. The supreme presence of the domain began to seem a little dissipated, coldly A thousand people who swept through the trembles of the emptiness around him, turned a blind eye and swung a big hand.

All the people were as big as they were, and they quickly rushed to evacuate, and they blinked clean!

"It seems that the trend of the great human race has really come, and even the surviving ghosts of this medicinal array have emerged!"

Until the guys left, the old man from the beginning of the field sighed and said: "It's a pity that I found it too late. The waste has already killed people, otherwise the other party can't be forced. The extent to which the ship's naval killings have been painfully exposed, but to put it this, it's also a small amount of credit for the nonsense."

"Oh, if this is not the case, just the old man will not let go, all shot on the spot!"

"Now, it's useless to say that. In any case, this peerless ghost can't let him invest in the Tianji family. Immediately contact the Emperor's fleet on the Tiantian Star, let him sweep the universe and the zombie army, and immediately return."

"At the same time, the emperor also immediately contacted, reported the matter and publicized it on the main website of the dynasty. On the one hand, he requested assistance from the dynasty, and the two fleets of the Imperial Capital came to support. On the other hand, the matter was disclosed. The kid pressed and cut off the possibility of his attacking the enemy!"

Speaking of this, the old man stunned and smothered his innocence: "This is also the last time he beats him. If he is acquainted with the glory of the dynasty, it will not be studied in the past. We still have the ability to hold him up. But if this son is still unruly, then this kind of ghost, would rather kill, and can not let him vote for the enemy..."

Chapter 3303: Emperor star recovery

Sky Battlestar!

After Ye Xuan left, in less than ten days, the innocent corpse hidden in the entire zombie army was in the wind, and he led the whole zombie army in secret, and traveled the whole time at the fastest speed. The vast land of the Tiantian Star, all the human city pools, all fell.

In just a few days, after the fierce bombing of Ye Xuan, there were only two or three million zombie army left, and the number of snowballs rose by a huge amount, and finally reached more than 40 million!

More than 40 million cosmic zombies, black and pressed, hope that the bone marrow is cold.

Then, before the arrival of the fleet of the imperial star of the dynasty, the army of more than 40 million zombies was in turmoil, and there seemed to be a huge problem inside. All the cosmos of the universe began to kill each other and swallow each other!

With the mutual nuzzle between the zombie groups, the number of zombie troops that have just climbed to more than 40 million people has begun to drop sharply. In just two days, it has fallen below 10 million!

At this time, the two huge fleets that had arrived at full speed from the imperial star of the dynasty finally arrived. The Imperial Reconstruction Corps, which had long waited outside the atmosphere of the Star Wars, led the way with two huge fleets from the imperial star. Together through the atmosphere of the sky, the stars entered the interior of the stars.

In the next moment, the overwhelming energy light column is pouring out from the sky!

This scene is too fierce. A large number of cosmic zombies have been smashed into flesh and blood by the energy beam of the gun, but at the same time some warships have been torn by powerful cosmic zombies!

Yes, it is torn by hand!

In just half a month or so, a large number of extremely terrifying existences have evolved in the Cosmic Corps. Some of the cosmic zombies have even turned into zombie fortresses. They are huge in size and are located on the ground. They have long-range bombardment capability and a shelling. At the time of the outbreak, a large number of corpses containing horrific corrosion effects roared away. Once the battleship was hit, it instantly melted.

Some of the cosmic zombies have evolved into horrible zombie giants. They are like a giant peak. Even the ordinary star-rated warships are just small in front of him. The large fortress of 10,000 meters in diameter is bigger than it, but the intensity is obvious. Insufficient, this zombie giant rushed to the sky, a boxing can smash a space fortress...

The inland and the sky of the entire Tiantian Star were all turned into a smashing land, and no one noticed that while the battle was in full swing, there were about a hundred or so in different areas of the entire Tiantian. The cosmic zombies, deliberately concealed the atmosphere, and even hidden the body shape, and continued to find out the atmosphere!

These more than a hundred cosmic zombies with the ability to hide their own breath are the followers of the final selection of the innocent corpse.

When the battle for extinction in the battle star was not over yet, he and the 108-eight-dimensional cosmic zombie, which had been highly evolved, had already dispersed in the deserted star in a distant place. Successfully met!

At this time, the appearance looks the same as that of human beings. There is no scent of corpse, and it is difficult to distinguish even the breath. However, the occasional exhalation of the vagueness in the vagueness is arrogant and arrogant. Suspended from the atmosphere of this ruined star, the expression is far from the sky star in the distant sky.

Finally, a cold sigh in his nose, turned and swept away toward the distant emptiness.

The 108 cosmic zombies behind him seem to be the same size as normal humans, but they don't capture a little bit of human volatility, and some are just a horrible atmosphere. .

In the blink of an eye, the entire high-level zombie army completely disappeared.

In front of their direction, there is exactly one ordinary administrative star belonging to the empire of the Heavenly War, but it is quite far away and relatively remote.

There, it seems that it has been selected by this high-level zombie army and become their first hunting ground...

.....

"Booming!"

"boom!"

"Hey..."

"Hey!"

In the atmosphere of the Star Wars, the battle has fallen into a state of slaughter.

With the devastating corpse of the corpse, the 108-eight-highly evolved cosmic zombie elite quietly retired, leaving more than a million cosmic zombies in the celestial star, the balance of the battle has been tilted The more powerful it is.

At the height of the sky, two 100,000-meter-diameter starry sky fortresses stood in the void, steadily stopped there, and did not participate in the battle. They only occasionally launched a horrible death light cannon that landed in a densely populated area of the universe. A cannon can wipe out more than 100,000 cosmic zombies.

Nowadays, the whole universe of zombie corps has been killed, and even can no longer gather, the overwhelming artillery fires block the roads they want to gather together and resist.

There has been no suspense in this battle. Although the inland of the entire Tianxing Star has been ruined by the bombardment of the sky, it will take some time to repair it after the war.

In addition to the comprehensive repair after the war, it is also very troublesome to carry out a full-range virus-free cleaning of the whole star inland.

But in any case, after all, the emperor is still recovering. Based on this, it is worthy of the joy of the war of the heavens.

At this moment, he is in one of the two 100,000-meter-diameter starry fortresses.

The two star fortresses are the flagships of the two fleets from the emperor's immortal star. Although the officers and men in the two fleets are all human, the two fleets are different.

One is the immortal army belonging to the imperial military, and the other is affiliated to the Senlan fleet of the Federal Headquarters Supervision Institute!

The imperial army of the imperial army, this fleet was led by a Samsung general, Kubumi, and the great emperor Long Xiang was on the battle. It is estimated that it was to fight for the war.

As for the Senlan Blue Fleet of the Federal Headquarters Supervision Institute, it is Ye Xuan's old enemy, and the Deputy Inspector General Hong Du Lifeng!

This person's appearance is a middle-aged strongman between the four and five and ten, short-haired, long-haired, quite handsome, not happy, but always gives a sense of maturity and mature atmosphere. Also not bad, slightly stronger than Naples, the existence of the fifth-order of Xuanguang.

Among the five deputy inspectors of the Federal Institute of Supervision, Hongdu ranked first in the rankings, but it was the first confession of Longzheng.

"It seems that these so-called cosmic zombies, but they are not so happy, they are almost over..."

Seeing that the cosmic zombie army was completely collapsed, the credit was about to be reached soon. The big prince Long Xiang stretched out and felt awkwardly saying that at this moment, the communication officer on the side rushed over and covered his face. Excited, the figure has not yet stood still, and has already said aloud: "The emperor, the generals, the good news of Tianda, the good news of Tianda..."

"The dynasty has new orders, let us assist the Heavenly Emperor, go to the Tianchen Star Field, and recruit a demon slut. This time, the Emperor is personally ordered, showing how much attention is paid. Once successful, this is definitely a big day. The credit..."

Chapter 3304: Storm clouds

The flagship fortress of the Immortal Legion of the Dynasty!

"What? There are three pharmacists? Is there such a fascinating singer?"

The stunned color of the big prince Long Xiang's face, the same as the expression of the Heavenly Emperor and the Samsung's general on the face of the squad, was shocked.

"This fox rushed to the Emperor to know that he should be the young master of the fox!"

After some shock, the Tianshi Emperor explained to the great emperor Long Xiang in detail: "This person's refining talent is indeed horrible. Before the dynasty \* the top door valve held the drug king summit, there is a medicine brought out from the remains of the drug king. Wang Gubei, the ancient monument has three levels, even the elites of the \* top-level door valves, only a few people can survive the first two levels, and still barely pass."

"But this is a three-way pass in a short period of time, and it is a perfect customs clearance. The ancient king of medicine is thus refining and refining it on the spot."

"There is new news now. He had lived in the Tianchen branch of Tuoja for ten days. He actually helped the extension and made another ten-grade liquid, including the eleventh grade liquid. One tube..."

"This alone is enough to prove its refining talent, horrible!"

"This is not a big deal. The key is that the talents of its refiners are equally enchanting. The wars, warriors and private warships of this substation are all all star-to-the-horizon, and they are still refining themselves."

"How the power of the war is still unknown. Although he has sacrificed it, he has never killed the enemy with a war. He is afraid that the power will not be weak."

"But its warships are amazing. There are two forms. The first one is a light war form that I know well, and the second one is a top fighter of ten feet. It has a miniature death. Cannon, can attack remotely!"

"On this battle alone, he can even crush several enemies across a big realm."

"But this is not the most important thing. The most important thing is his personal small private warship with a star-to-treasure level. The other power of this ship is still unknown, but one thing has already been determined."

"That is the ship actually brought its own large-scale virtual-empty system. Before the Tianchenxing, the extension and the three families of the ram and the long fish wanted to leave him. On this matter, the king of the country, the king of the country ordered the closure of the star defense. The big battle prevented him from leaving."

"This person actually sacrificed a small private warship on the spot and opened the ship's void-killing system. In a moment, a hundred miles of emptiness will be confined. The number of shuttles and patrol ships, and thousands of strong, no. The resistance was abused by him."

"But the other side obviously didn't kill, otherwise the guys couldn't escape, and only a few unlucky ones died. And this made the fox less lord, and it was easy to leave..."

"Snapped!"

"Great my brother!"

Did not wait for the Heavenly Emperor to finish the words, the big prince Long Xiang slammed his thighs and excitedly took the words: "The medicinal array is three, hey, this Linghu brother really deserves this enchanting The four words, whether it is refining medicine or refining or the method of the law, ordinary people want to master one is difficult, depends on the opportunity, he is good, all have the strength of the master level, too cattle!"

"As I see it, this makes the fox brothers more invincible than the one who is tossing in the cultivation camp. It is definitely much more powerful. The invincible \*\*\*\* of war is more powerful. After all, it is only one of them, but the fox brothers' medicinal array is absolutely perfect. It can be different, but it can create a large number of strong people, and enhance the overall strength of our dynasty!

In fact, Long Xiang still has nothing to say, although the invincible \*\*\*\* of war that is tossing over the real camp is still not sure whether it is the celestial or the prince of Xuan, but he always thinks that it may be the latter. After all, the style of action is too Like, therefore, Long Xiang has always been hostile to the invincible \*\*\*\* of war.

Now, another enchanting genie who can compete with the invincible \*\*\*\* of war, as long as he can surrender this person to his own use, even if the so-called invincible \*\*\*\* of war is really the avatar of Longxuan, he will not fear in the future, and compete. The details are not lost to him.

Thinking like this, Long Xiang was excited with a few shots of blood, and at this time the war of the Tianshi Emperor was finally over, and all the zombies of the universe were killed.

At the moment, the Heavenly War Emperor left some warships responsible for the follow-up cleanup work, and then hurriedly returned to the Tianchen Star Field.

The Great Emperor Long Xiang and the empire of the Immortal Army, which was dominated by the Samsung General, will be accompanied by the Sende Blue Fleet of the Federal Supervisory Authority, where the Hongdu Lifeng is located.

At the same time, as everything that happened in Tianchenxing was publicized on the main website of the dynasty, the entire federation was suddenly awkward. Not only did the Terran technology camp be shocked, but even the comprehension camp had a big earthquake.

The people of the Second Universe Federation were even more stunned by the thunder, and the Terran was born out of the world. Is the Terran really in the Daxing?

Only the Tianji people still have no movements. I don't know whether they are watching or secretly.

In addition to the shock, all major forces have all acted, and they all sent elite forces to come to Tianchen.

The thirteen other dynasty genetic fluid top door valves that had just left the territory of the Tianzhan Empire have come back. They are running the formula of the ten-grade liquid and the eleven-grade liquid in the hands of Linghu. Of course, including the half of the medicine. Wang Chuancheng.

If you can win the new born enchanting, it would be even better!

From the immortal Bodhi technology, Tianzun creature, Shennong gene.

The top three families from Xuanyuan, Huangfu and Nangong of the Heavenly Empire.

The three families of Duanmu, Wuma and Shentu from the Tianfeng Empire.

And the other four families that are idle but can also refine the eight-level liquid, the family, the Baili family, Pengcheng Pharmaceutical, and the life gene.

These thirteen top-level gates and forces, together with the three generations of Tianchenxing, the three major families of rams and long fish, and the top gates of the \* Dynasty that have just been separated, are gathered together.

And this time in addition to this \* top door valve, the dynasty also has a fleet, the Federal Headquarters Supervision Institute sent a Senlan fleet.

In addition, each of the Tianfeng Empire and the Tianming Empire also dispatched a fleet, and the entire Terran Science and Technology camp has acted.

This is not all. It is said that the two great generations of Tianjiao Xiaoyao and Yinxia Fairy on the side of the Terran Science and Technology camp have actually been dispatched.

There is even more gossip, saying that there is also action on the side of the comprehension camp. In short, the third universe of the entire Terran has been rushing in an instant, and all the powerful people gathered in the Tianchen domain.

If the federations of the second universe are not in the same cosmic plane, this time will probably come over and mix, but since this matter is related to the future of the Terran, it is more monitored by the Terran in the wormhole. Tight, it is to prevent the infiltration of foreign forces.

The previous complete drug king inheritance has been obtained by the second universe of the Yinmo, and the Terran does not want to see similar things happen again...

Chapter 3305: Origin seventh order

As soon as the news came out, the other 13 top-level gates and forces in the territory of the dynasty immediately set off.

And in order to catch up with the time, so as not to be robbed by other forces, all the forces are at any cost, using long-distance transmission to catch up.

In just five days, basically all the forces have arrived, and only those forces that have set up a large number of warships to form a fleet are still on the way.

Because they can't directly send warships with long-distance transmission arrays, they use the wormholes to jump as much as possible, but the universe wormholes are not everywhere, so these large fleets are basically still on the way.

The Xuanyuan family from the Heavenly Empire and the Duanmujia from the Tianfeng Empire, as well as the Bodhi technology from the emperor's immortal star, have already arrived, and now they are stationed in a certain city of Tianchenxing.

As for Tianchen Guodu, it is not living in, and it is already full of people.

Xuanyuan Zijing, Duanmu Xiaocha, and Zhao Qianru arrived at the three gimmicks, and they immediately got together, and the ghosts talked about it.

All three gimmicks are all indignant colors, gnashing their teeth, because they feel that they have been bullied by Ye Xuan, this time with the family team, they not only test the second smelt effect of the trenches, but also send them just collected. Beyond the third smelt of treasure.

The more important purpose is to continue to extort Ye Xuan.

Just let him refine a trench, the three gimmicks are not satisfied, this time must agree to new conditions, even if you do not open the refining, you can promise to come down first...

"This guy is really too wicked, Zi Yan sister, you are still good with him, I don't even know that he has such a terrible repair in the formation, I am not holding you up!"

"The playing is yes, this lady must help you to make a bad breath this time. Even the purple sisters are jealous, too much to treat you as a family member!"

"But then again, Zi Yan's sister's eyes are really amazing. The guy is a bastard, but this enchanting talent is really not to say, the refining medicine refiner does not mention, I did not expect him to be in the battle. Even more powerful, a small private warship can brand such a horrible killing system, once the virtual space within a hundred miles is imprisoned..."

"Yeah, yeah, I asked some people who were there at the time. It was said that the emptiness of the murder was started, and all kinds of killing energy fell down like dumplings, even the tenth largest hole. It's terrible that the imaginary sect of the imaginary world and the rams don't regret that everyone is holding their heads and squirrels."

"Hey, that big \*\*\*\* is a master of the tactics. I actually knew it. I knew it when I first met Tianhe and he first met. I just didn't expect his tactics to be terrible. ""

"Before I thought that he only branded the speed array, the attack array, the defensive array and the hidden array on the hole. I didn't expect that he could get the huge pattern of the killing system. No end, anyway, this time he must promise to help each of them to refine one, even if it will take some time..."

"I am a little worried about his safety now!"

At the end of the day, Duanmu Xiaocha suddenly frowned and looked at him with a look of sorrow: "I don't know what he thinks. He has to hide his true identity and walk with the identity of this fox." After the return of Tianchenxing, the immortal army of the immortal army and the Hongdu Liefeng team dispatched the whole staff to conduct a search in this whole star field. Once they were found, they were absolutely not good enough. ...."

"In their eyes, this young lady's idol is now a full grassroots. It belongs to the existence of being able to bully casually, but his temper is tempered... Hey, don't fight it!"

.....

For everything in the outside world, Ye Xuan is completely ignorant!

Right now, he is still in the Tianchen domain!

After leaving Tianchenxing five days ago, Ye Xuan took the Dongxu shuttle to the extremely remote star field of Tianchen, and found a ridiculous non-life planet, entered its land, and chose a secluded place. , began to retreat and practice.

In the realm of the power of flesh and blood, he is now the fifth-order origin of the ninth state, and will soon enter the later stage of this situation.

The ten-level liquid leaf Xuan has already been in his hands. As soon as he reaches the original nine-step perfection, he can immediately swallow a tube of ten-level liquid, and since then he has entered the tenth big hole in heaven!

Even as long as he enters the tenth dimension of the heavens and the earth, he can use the shortest time to accumulate the power of the flesh and blood to the cave of the 9th stage.

Then, after swallowing a tube of eleventh grade liquid, he can immediately break through a large realm in the realm of the body and blood, and enter the first step of the eleventh.

That is the real master of the sky!

The same is true of the ten-level liquid leaf Xuan, which is no longer a dream, and is no longer far away.

For the first time, Ye Xuan really felt the benefits of this genetic evolution path using genetically modified fluids, which was so rapid.

Of course, this is just him. For other people, on the one hand, the subsequent genetic fluid is difficult to get. On the other hand, even if it breaks through a big realm, it is necessary to advance all the way to the ninth stage of perfection in this big realm. It will take a long time.

However, Ye Xuan feels that since he has an advantage, he has to make good use of it. The eleventh major Xuanguang first step does not mention it. At least he must first raise the realm of flesh and blood to the tenth level. .

For this reason, he did not go directly after leaving Tianchenxing. In fact, he did not know where to go at the moment. Therefore, he randomly picked a remote star and began to practice retreat.

Two days ago, he had already broken through the fifth order from the original origin to the sixth order of the origin. Now it is three days past, and Ye Xuan is hitting the seventh order of the origin.

Once this retreat is over, he will step into the seventh-order position of the original point. Then, with only two small-order breakthroughs, he will be able to continue to the tenth-order finish of the original point, and he can continue to swallow the ten-level liquid...

Ye Xuan's original plan is like this. Here, I have been retreating to the original 9th-order Daquan, and then swallowing a tube of ten-level liquid, and upgrading the physical and mental level of the body to the tenth level, and then Decide on the follow-up!

"Hey, congratulations to the host, the body and blood of the realm of the realm! The current realm: the original seven steps!"

Everything went smoothly, and after three days of retreat, Ye Xuan opened his eyes, and the familiar system prompts in his mind sounded at the right time, finally entering the seventh order of the origin.

It was also at this time that the smile on his face did not bloom completely, but the shock suddenly happened...

"Hey!"

"Hey..."

The sound of the rushing UHF tremor suddenly sounded without warning, and Ye Xuan suddenly felt the whole body sinking.

Was discovered!

The other party used at least two 100,000-meter-diameter starry fortresses, and the ship's super-oscillator was fully opened. This deserted star was imprisoned, and the void was completely blocked...

Chapter 3306: Imprisoning the void

"Hey!"

"Hey..."

With the rush of this ultra-high frequency tremor sounded without any warning, Ye Xuan instantly slammed, and the whole body sank at the same time, and the heart sank!

There are at least two star-studded fortresses with a diameter of 100,000 meters. This is definitely not what Tianchen can have. If there is no accident, it should be the fleet of the imperial star of the dynasty.

It seems that this time it's really no small, the immortal army has been alarmed, that is, who is not sure where it came. After all, even the 100,000-meter-diameter starry fortress has been dispatched, and it is impossible for the royal family not to send an important member. Come to the town.

"This kind of thing is a great contribution. It is estimated that the five emperors will not easily let go. If this time, it's really a good one. With this opportunity, you can just pack up and export bad luck!"

Thinking of this, Ye Xuan was not in a hurry to leave, and grinned, and there was a little excitement in the vagueness: "There is still the old thing of the Hongdu, and the last time I left the immortal star, I was too hasty. Didn't get the chance to pick him up, if it's coming this time, how good it's..."

The more this is the case, Ye Xuan really does not want to leave.

Although the other party completely banned the void around the star with a super oscillator mounted on the 100,000-meter-diameter starry sky fortress, even if Ye Xuan sacrificed the hole, there was no way to escape quickly, including the transmission of the battleship. Both the law and the concealed method will also fail.

For the general strong, even if the means is strong, it is necessary to catch up with this situation, but Ye Xuan is different, he is completely unrelated.

If he wants to leave, he can leave with the plane coordinate jumping ability at any time, and go to the death star vortex in the crack zone of the two camps of the Terran!

He can even jump across the cosmic plane, in which case he can go directly to the black hole of life in the first universe!

However, now that he realizes that it is very likely that he has come to a dynasty's emperor, Ye Xuan's evil taste has also been hooked up. The five guys are really hateful, but he is inconvenient to take them as a prince. Too embarrassed, but Linghu Chong did not have this scruples, the opportunity is rare, he did not want to miss, decided to stay and have fun...

.....

At the same time, this deserted star is outside the atmosphere!

The Immortal Legion of the Great Emperor Longxiang and the Senlan Blue Fleet of the Federal Deputy Inspector General Hongdu Lifeng are all here. The space fortress of hundreds of warships headed by two 100,000-meter-diameter starry fortresses will be the whole star in all directions. Surrounded by a leak!

To say that they can find Ye Xuan's hiding place, in fact, this is a coincidence.

The Immortal Legion and the Senlan Fleet were originally searched separately. Although they guessed that Ye Xuan should still be hiding in this star field, they did not know where it was. Therefore, when they encounter a deserted star, they will immediately sweep up and monitor. Life signal.

The result is that the star has captured a weak signal of life, and it is determined that the strong is in retreat, and its repair should be in the original point, in line with the basic information of Linghu Chong.

In the principle of Ning Buddhism, I found that the suspected Hongdu Liefeng was about to report the matter. The immortal regiment of the great emperor Long Xiang was the first to arrive. In order to prevent the movement from being too big, he was alarmed. When the plane fled, the two fleets fully opened the shipborne super oscillator for the first time, completely banned the void around the entire star.

The other fleets, including the Heavenly War Empire and the Tianchen Country, as well as the teams of the top gatekeepers, are now coming from Tianchenxing at full speed.

Although the big prince Long Xiang wants to monopolize the merits, he knows the power of the other star-to-the-class private warship. If you don't kill the whole star and keep the space turbulence, you only need to If you don't pay attention, the other party will run away.

In order to ensure that nothing is lost, he can only choose to call more warships and strongmen to come. Although this will share a little credit, as long as he can finally rush this emperor and bring back the emperor, then the greatest credit, Still his!

Soon after, a team of troops from Tianchenxing and a team of top-level gatekeepers came in succession.

Except for the huge fleet of the Heavenly Empire and the Tianfeng Empire, they have not arrived in this area of the star, and the forces and teams that have been gathered together for this matter are all surrounded.

Of course, it is impossible for Tianchen Guoguo and Tianshi Imperial Emperor to come in person. After all, this kind of thing is a little difficult to get on the table. The status of the Emperor of Heaven is not the same, and it is not appropriate to come in such a big way.

As for the dynasty prince Long Xiang, his identity has not been made public, at least the official did not say that he is sitting in this immortal army!

For a time, nearly a thousand large and small warships and fortresses and fortresses, large and small, surrounded a small abandoned star.

This scene is like a helpless little lamb surrounded by a group of starry beasts. No one thinks that the young fox who is hiding inside the abandoned star has the possibility of escape.

After all, the starry sky around this star has been banned by the turbulence of the space oscillated by a large number of space oscillators. His small private warships are perverted, and it is impossible to ignore the space and directly transfer away.

If you really want that, then the big guys don't have to chase again. The space technology that people have mastered has far surpassed the current era. All the people patted their ass, and it's useless to toss...

After all the strong teams of the fleet came, and the abandoned star was completely blocked, and there was no need to worry that the other party would have the chance to escape, the great emperor Long Xiang finally let go.

The big hand waved: "The fox brothers should have already noticed it. They may even suspect that we intend to arrest him. This is not a good thing. This time, I am coming from the enemy, but it is not a enemy. Misunderstanding, it is not appropriate to continue to expand, so, in order to show sincerity, the Emperor decided to personally ask the Linghu brothers, you will send some elite travel, just in case!"

Seeing that the great prince wants to go out in person, all the people are in great spirits. In their view, Linghu Chong is even the lord of the fox, but the fox of the year is just a top of the empire. The door valve only, facing the dynasty of the emperor's great emperor, the fox rushed to be unruly, fearing that it had to be shocked on the spot, was recruited in one fell swoop!

Everyone thinks that this time with the great emperor, it must be a good thing, and they have to ask for it.

In the end, the Great Emperor made a decision. He also wanted to take this opportunity to draw people's hearts and tie the younger generations of the major forces to their chariots: "Okay, your older generation will Don't argue, the younger generation of the major forces and the prince will go on."

"It's all young people, it's better to talk..."

Chapter 3307: Hanging the rhythm of the emperor

Soon, the great emperor took a group of younger generations with a top-level door valve, and took a star-shaped battleship, like a small boat in the choppy peak of the wrath, rushing through the atmosphere of this abandoned star and entering the stars. internal.

Among them, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and three women are also included.

As for the other top-level door valves, although the previous heirs have basically been in trouble, but now there are a number of newcomers in the upper position, are eager to show off, so they are very excited, followed by the big emperor Long Xiang, poor The wolf-like screaming.

In addition, there are some younger generations of top powers who are also there.

For example, the prince of the Heavenly War Empire, Ling Feng, and the Prince of Heaven and Country, Xu will pour and so on!

This kind of opportunity is naturally impossible for them to let go. On the one hand, they are showing up in the whole human race. On the other hand, they can also draw a relationship with the great emperor Longxiang. They can even mix in front of the deceased empire. Face is familiar, why not?

Under the leadership of the dynasty Grand Emperor Long Xiang, the younger generations of the top-level gates of the major forces, a total of dozens of people, took a star-rated battleship, and after entering the atmosphere of this abandoned planet, they directly explored The northern domain where Ming's life is in the air is gone.

The northern part of the planet has already ended its cultivation, and the body and blood have been repaired to the ninth level of the original seven-step Ye Xuan, has long waited for a long time!

He was not in a hurry, knowing that the other party was more anxious than him. He just wanted to take advantage of this opportunity to teach the imperial princes who came here to have a lesson.

But the other side is different, and the purpose is very strong. It must be because of the horror of his horror, and he wants to recruit.

To say a bit arrogant, this time, Ye Xuan completely controls the initiative, as long as he is willing, this time can definitely take the other's nose!

Although there are many other people, it seems to occupy an absolute advantage, even the entire abandoned planet has been confined to the void, in their view, perhaps the initiative is on their side, because Ye Xuan is already a beastly battle, Doomed.

However, Ye Xuan knows his own affairs at home, and his heart is like a mirror. He is not in a hurry. The only thing that is in his heart is that he does not know that Hongdu has come to the wind.

In addition, this time, with the imperial army of the imperial army, the royal powerhouse is one of the five great emperors!

If these two points have disappointed him, Ye Xuan will feel uninteresting, and staying with the grandson to play with them feels lack of interest, no interest, no stimulation!

However, his worries soon disappeared, because a star-length warship of a kilometer captain had passed through the atmosphere and landed on the icefield in front of him.

At this moment, Ye Xuan's heart mentioned the eyes of the blind man. He hoped to see the familiar faces. If none of them came, Ye Xuan felt that he would be depressed.

In the end he still grinned.

Because the great prince led the geniuses of the great powers of the major forces, they have already come out of the cabin of this star-rated warship.

There are indeed many familiar faces.

For example, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks are inside, and they are yelling at Ye Xuan.

Seeing these three gimmicks, Ye Xuan suddenly turned his eyes, and even if he used his heels to ponder, he could guess the thoughts of these three gimmicks.

Nai Nai, the ghost is not scattered, this time I am afraid I have to be knocked back by the three hoes. Otherwise, once they open their true identity, this thing is really lively. At that time, Ye Xuan, who is in the position of Xuan Huangzi, is faced with such a huge army of Zhao'an.

I don't know how to end it!

"Hey! It's the last time I owe them..."

Realizing that he was pinched seven inches this time, after completely taking the hoe, Ye Xuan suddenly sighed, although he was confessed, but the anger of his heart was also rushed out.

Of course, the object can't be Xuanyuan Ziyan's gimmick, he doesn't dare, so when the big prince Longxiang's figure falls into his sight, Ye Xuan's pair of scorpions are green, hungry and half-drawn. The mad wolf of the month, I can't wait to choose someone immediately!

In addition to Xuanyuan Ziyang and Duanmu Xiaocha Shantou, there are other familiar faces. After all, when the last time to explore the remains of Yaowang, the younger generation of the top-level door valves did not fall or have an accident.

Half of the top-level door valve heirs came this time, half of them were old faces, and the other half were newcomers. These newcomers, Ye Xuan, did not know and did not intend to pay attention to it. The old man, who saw him, nodded politely.

After all, there have been contacts before. They are not as good as the extension of the wind and the Gongyangzhi. They are more offended by Ye Xuan. Therefore, people smile and face each other, and Ye Xuan is not good at turning his face directly.

In this way, he only has to find those new faces out.

Among them, Tianchen's Prince Xu's prince and the Heavenly Empire's Prince's prince Ling Feng are obviously more eye-catching. They both followed the big prince Long Xiang.

And the strength is also strong, and they have all reached the original point!

What makes Ye Xuan unexpected is that after the long-term disappearance of Long Xiang, he has also entered the fourth-order of the origin, only a few small steps than Ye Xuan!

However, although it was slightly weaker than Ye Xuan, the identity of the great prince of the dynasty was placed there. The superiority of Long Xiang was obviously very strong. In his opinion, he was able to come and recruit himself. Already gave the face of Tianda.

Even if the other party is not ruthless, it is only at the level of the empire. When you meet yourself, the great prince from the emperor, it is invisibly short and half-nine.

Therefore, he was leading a group of major forces. The patriots came out of the battleship of the star-rated warships. After falling to the ground, even when they raised their hands, the other major forces behind them all stopped.

A serious face said: "The fox brothers are very nervous now. After all, there are too many people coming here. Together with the invisible gas field that the emperor is in, the outside is surrounded by a leak, and he is very good, but also hard. Hold on, change to others, I'm afraid I'm already scared!"

"So, you all stop, don't come over, just let the Emperor take the battle with Ling Feng and Xu will go over it. The Emperor condescends to be expensive, he must be grateful to Ling Xiao, only a few words of work will follow. The prince is back!"

"Reassure, everyone is a good brother. Later, the prince is in power. You are all going to follow me. This merit, and ultimately, your share. The prince will personally ask this question. On the thin, the name cannot be less than one word!"

As soon as I heard this, the gangsters of the major powers were all excited, and they shouted, only Xuanyuan Zijing and Duanmu Xiaocha, and Zhao Qianru's three girls looked at each other, and they were quiet on the surface. The heart was excited like a chicken blood.

This is the rhythm of hanging the emperor today. It's so exciting, it's rare to see it in a hundred years...

Chapter 3308: Hand sense is different

"The fox brothers, long-awaited, hahaha..."

"You may not know who I am, but it doesn't matter, this prince Long Xiang, the first emperor of the dynasty, should have heard it? Don't be excited, calm, must be calm, this prince has always been relatively low-key, and approachable, I have A strong sense of foreboding, we will definitely be good friends..."

Behind the prince of the Heavenly War Empire, Ling Feng, and the prince of Tianchen State, Xu will pour two people. The big prince Long Xiang carries his hands and walks in a splayed step. While talking, he walks toward Ye Xuan.

In his view, after self-reporting the home and identity, the squad of the squad will be squatting on the ground for the first time, first fear, and then will be convinced by his own approachable words.

As a great emperor of the dynasty, he said in a public voice that there is a strong hunch that he must be a good friend with him. This is a disappointment, and the other party must be ecstatic.

At this time, I must not be proud, to be approachable, to lift him up, and to say to him with a whimper: Good brother, finally found you, and then never separate, play together!

Words like wait...

If there is no accident, it is only a matter of time. From then on, this unruly Linghu Chong will be his own slain!

With such a beautiful expectation, the smile on the face of the great emperor Long Xiang suddenly became brilliant and more accessible.

This scene fell in the eyes of the elites of the major forces and gatekeepers at the rear, and they immediately sighed. The great emperor is the great emperor, the emperor is from the emperor, the level is different.

In comparison, the empire Prince Ling Feng and the Tianchen Guotai Xu must be behind him.

Only Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three hoes raised their hands and squinted their eyes, shaking their heads slightly, hiding behind the last sigh...

"Hey! Cups..."

"If you don't die, you won't die. This lady is finally deeply aware of the true meaning of this sentence!"

"Big bastard, here is a sensation of the Terran, it really does not stop, there are storms in his place, he is the condensed version of the entire river and lake, where to go, where is the disaster?"

.....

"The prince? The big prince? Are you the big prince of the dynasty, Long Xiang?"

At this time, the big prince Long Xiang said while walking, it was already to the opposite side of Ye Xuan, and stopped.

And as his words fell, the opposite of the foxes and the stunned color of the face, first sluggish for a few moments, then the expression was extremely excited, shortness of breath, screaming loudly, determined to Long Xiang Identity.

This scene makes Long Xiang very satisfied!

It was followed by him, and at the same time, he stood in the same position as the empire of the empire, the prince of the empire, and the prince of Tianchen, Xu Bi, both of whom fell, and they all floated with a smile.

Hey, it seems that there is still a bit high before watching this kid three points.

One listened to the imperial emperor's arrival, but he was so excited that he was only squatting on the spot, crying and screaming, and the country is a country, he has never seen the world, it is not calm!

Looking at his psychological quality, he will fight with the empire's folk squadrons, such as the ram's family and the long-fish family. It's really a big deal, let's not say the emperor's prince, even The empire Prince and even the identity of the Prince of Heaven and the State are enough to shake him up.

"Yes, this is the prince! If you change it! Do you still believe what? Although this is a bit ridiculous, but the truth is..."

In the face of the excitement of Ye Xuan's instant expression, the great emperor Long Xiang is also extremely satisfied, and the glory of the heart has been the greatest satisfaction.

At this time, the whole person was floating, and his face was filled with a kind smile. Long Xiang rushed to Ye Xuan and waved his hand. He approached me easily: "Come here, don't be excited, see if you are excited." What is it like?"

"Come on, don't doubt life, surprise is so easy to come, remember, we are brothers in the future, this prince allows you to come closer, come over and confirm my identity, but let me say first, can't be excited again The Emperor is very approachable..."

As the saying goes, the Linghu Chong, which is nearly ten meters away from the opposite side, is like a certain kind of konjac. His eyes are sluggish and his face is stunned, but his breathing is extremely urgent. Obviously his heart is very excited.

With a hint of cowardice and a longing for a long time, I slowly walked towards myself...

The big prince Long Xiang began to sigh, and the country is a countryman. The prince only reported his identity, and he was excited. It seems that he really looks at the psychological capacity of this kid.

However, this is also good. After a while, when he comes to the front, after confirming his identity, he must be more approachable. It is best to bend him to lift him up, then bite his teeth and squeeze two tears, sobbing. Said to him: "Brother, finally found you..."

In this way, this child will be desperate, hahaha...

When I thought of it, the smile on Long Xiang's face suddenly became more brilliant, and the whole person was floating!

Also at this time, the other party finally came to him, standing in one step, and then... unexpected accidents, suddenly happened!

"Bao!"

"Bao!"

"Bat bang..."

Without waiting for Long Xiang to return to God, Ye Xuan, who stood in front of him, raised his hand and pulled up the big ear.

Backhand, smooth, then backhand, and then handy... short three interest, less than a dozen big eared ups, Long Xiang was directly convened, turned on the spot on the spot, in front of Venus .

After picking up a dozen of large eared ears, Ye Xuan finally took over his hand and smacked his face to the right hand that had just plucked his ear. He was sobbing and muttering. Self-speaking: "Yes, it is definitely the emperor of the dynasty. Even the big ears are so loud and loud, this feel... oh, never before!"

"Hey!"

"Hey..."

With this accident happening, especially when I heard the words that Ye Xuan said with a whimper at the moment, the dozens of major forces and top-level gatekeepers who did not follow in the distance inherited the people, and they made dumplings on the spot. Planted a large piece.

It was the Xuanyuan Zizhen and Duanmu Xiaocha, and Zhao Qianru, who had been psychologically prepared for a long time. They were all lightly beaten by Lei. The first time they opened their mouths and their faces were unbelievable.

At this time, Ye Xuan, who was so excited and sobbed, seemed to suddenly think of something in general. He suddenly looked up to the dragon squadron of the Tianzhan Empire, who was still in the circle of the dragon, and the Tianchen Guotaizi Xu Bi I looked at the past.

The expression was very excited, and the middle of the scorpion was rushing out of the green mans, and asked with a trembling excitement: "You two... are also princes?"

"what?"

"No, no... no, we are following the class!"

The two of them were scared, and the cold hairs on the back were erected, their faces pale, and they subconsciously returned such a sentence...

Chapter 3309:

"Follow the class? Hey, it's too disappointing. This young master thought that today you can try different feels of different emperors..."

One listened to the words of Ling Feng and Xu Bi, and Ye Xuan was disappointed. The right hand that was just about to be lifted seemed to be going down.

Seeing this scene, it was not too light to be scared by the previous scene. At this moment, the whole person is still in the state of the circle, and the peak of the battle and Xu will plunge, and subconsciously relieved.

They thought they finally escaped.

Unfortunately, all this is just a luxury.

Did not wait for the two people's mouth to loose this tone, Ye Xuan dropped to the right hand blinked and lifted up, directly on the face of the two called.

"Bao!"

"Bao!"

"Bat bang..."

Without waiting for the two to come back, Ye Xuan, who stood in front of him, raised his hand and pulled up the big ear.

Backhand, smooth, then backhand, and then handy... short three interest, less than a dozen big eared ups, and the battle of Ling Feng and Xu Bi will also be convulsions, and still have not stopped Like the big emperor Long Xiang, the spot was turned on the spot, and the Venus was in front of him.

Until then, Ye Xuan took over and looked at his right slap, stupidly grinning, muttering in his mouth, seemingly quite satisfied: "The emperor is the emperor, even the class is different, this feel, the same It's unprecedented, the thief is so addicted..."

"Hey!"

"Hey..."

As this accident happened again, especially when I heard the words that Ye Xuan stupidly said at the moment, the dozens of major forces and the descendants of the top-level gates inherited the people in the distance, and they were hard at the time of the previous change. Down, those guys who haven't fallen down will be completely overturned on the spot, looking in the face, except for the stunned Xuanyuan Ziyan and Duanmu Xiaocha, Zhao Qianru's gimmick, no one can stand up well... ...

"Hey!"

"Hey..."

"Hey!"

Until then, the sound of the wolf in the mouth of the great emperor Long Xiang suddenly sounded, it was the tears of the listener, the sadness of the listener, the Scorpio was attracted by a lot of black clouds. It's like a day of robbery.

Just a dozen big ears, Long Xiang's entire face has been thoroughly drawn into a pig's head, swollen and incomparable, so that people can not look straight.

Immediately afterwards, the sound of the wolverines in Long Xiang's mouth was not finished. The Tianshi empire's princes and the princes of Tianchen's prince Xu must also pick up. They didn't have a

good place to go. It is a swollen face like a pig, and the relatives may not be able to recognize it until they have been arguing for a long time.

Ye Xuan did not continue to shoot, he knows that there is something to play today, this is just the beginning, no hurry.

This guy can't smoke anymore, at least until they recover. It can't be smoked anymore. Otherwise, if you come back a few times, you can draw a big ear and draw it to death. It will be boring to play behind.

Seeing that he didn't start again, the dozens of top-level gatekeepers and the descendants of the forces inherited from the back of the people inherited the people, and this one came back to God one by one, and after climbing up, one arrow seemed to be close to the front.

Did not dare to speak to Ye Xuan, one by one, holding down the neck and holding the three dragons to the star-rated battleship that was parked in the air.

After a short period of time, all the people entered the battleship, and then the warship returned to the whirlpool, and the escape also rushed to the atmosphere, disappearing directly...

.....

Outside the atmosphere, thousands of warships of varying sizes are waiting quietly.

In their view, there is a big emperor Long Xiang personally, and in one stroke, the order is slamming. It is a suspense. After all, it is a countryman. When you come to the emperor's emperor, you must not stumble immediately.

Even everyone thinks that the big prince must have taken the opportunity to draw people's hearts. Maybe there will be words that are not suitable for spreading out. So, no one will peep, it will offend the big prince, no at all. necessary.

Thus, since the star-rated warship where the great emperor and others were located entered the atmosphere, no one has ever peeked at everything that happened inside. Naturally, no one knows anything about what happened later.

Until then, when the star-rated warship of the kilometer captain rushed out of the atmosphere, all the talents suddenly appeared, and all of them were excited.

The great prince is the great prince, and it's extraordinary!

Seeing that this star-rated warship rushed out of the atmosphere so quickly, all the people lamented that the great prince's means was extraordinary, and in a short period of time, the unruly Linghu rushed to the ground.

The speed is so fast that everyone is not ready for it!

I thought about it, all the faces of the people piled up with aunt's smile, ready to wait for the big emperor to walk out of this star-rated battleship, and immediately sing praises.

After all, the medicinal array is three, and the number one of the geniuses of the genius is the same. The dynasty once helped it. In time, the overall combat power must rise several times, while the comprehension camp has a same level. Unbeaten, but after all, it's just a single person. The value of its form is different from that of the fox, and it's far worse.

From this perspective, the great emperor succeeded in recruiting the younger foxes in this time, and the merits could not be calculated. Maybe the future immortal emperor position will be roughly determined after this battle!

Who expected the battleship to come to the front, the hatch opened, did not wait for the big emperor to appear, actually first heard the sound of a wolf...

"Hey!"

"Hey..."

The star-studded powerhouses who waited outside and waited for a sigh of stunnedness, and Samsung's generals, Kubundon and Hongdu, quickly greeted them.

At this time, a group of dozens of elites of the major forces and top-level gatekeepers guarded the three pig heads and walked out, but they did not see the big prince.

All the faces changed in an instant, and all realized that something was wrong.

Both Kubundon and Hongdu Liefeng were in a hurry. A sneak rushed to the front, did not pay attention to the three pig heads, and they slammed into the elites of Xuanyuan Ziyang and other major forces and top-level gatekeepers. stand up.

"Why are you coming back? Actually, I brought three tribes, and the second universe federations have arrived. I actually started before I waited. What happened next?"

"These are not important. The key is the great emperor of the great emperor? There is also the imperial empire warlord peak and the Tianchen king prince Xu will pour, where did the three go?"

"Hey!"

"Hey..."

The words of Kubundon and Hongdu Liefeng just fell, and the sound of the wolf that killed the pigs began to resound immediately.

The three pig-headed people who were guarded by the elites of the top-level forces and the elite of the top-level gatekeepers in the center, like the Thunder, were very excited, if not by the people around them, Look at this posture, it is clear that it is necessary to rush to come forward with the Kubino and Hongdu Lifeng two people desperately!

The two men stunned for a moment and then they came to realize that their faces were white, and they lifted their fingers to the three pig-headed people. The mouth was squatting, and for a long time, they did not say a word...

Chapter 3310: Emperor order

"Kill him! Must kill him! Hey... this prince must kill him!"

"Oh... what are you doing? Don't you hear the big prince's instructions? That guy he \*\*\*\* ....."

"Hey..."

Around the world, countless star powers looked strange and looked at the three pig-headed people among the people, and they didn't dare to say anything!

The three pig-headed people are very excited, and their mouths are like pig-like roars, one after another!

The three people are Long Xiang, Zhan Lingfeng and Xu Bi!

They are the prince of the Tianchen Kingdom, the prince of the Heavenly War Empire, and the great prince of the immortal dynasty!

But nowadays, all of them have become pig-headed people. They have been rewarded by their own recruiting objects, Ye Xuan, for more than a dozen big-eared scrapers, and they have become a pig's head directly!

No one ever thought that Ye Xuan was so ferocious!

This guy is simply crazy!

This is the unified understanding of all the stars in the field.

Therefore, with the return of the great emperor Long Xiang and others, the follow-up actions all temporarily stopped. In the face of such a madman, everyone is playing drums. The key is that this person is too important to kill and can not kill. Elbow, too passive!

Soon, in the screams of the big prince Long Xiang three people, some of the stagnation of the major forces and the descendants of the top gates inherited the people, the general experience of the event.

The strong people had some circles, and the situation was like this. The fox rushed to the guy and said that he would directly draw the big ear of the emperor's adult, and he said that the hand-sounding is a different discourse. It's just too Arrogant, too much!

"Deceive too much!"

The commander of the immortal regiment, Kubbon, was so furious that he immediately wanted to send troops to attack Ye Xuan, clamoring that the whole star would not be smashed into slag.

The big prince Long Xiang came to this Tianchen star field with him. Now it is so difficult. The swollen face can be compared with the pig and the beast. If he does not give a confession, he will have his good fruit. eat.

Therefore, there will be no way for Hudunong to catch up with the ducks. It is necessary to promote this. It is necessary to let Linghu rush to the kid and pay the price.

"This is really too much. The kid is not tamed. It seems that it is not so easy to be recruited. In addition, the shame of the emperor's adult can't sit idly by, and this thing can't be done..."

In comparison, the commander of the Senlan, the representative of the Federal Supervisory Authority, was all more calm, but even so, he did not dare to offend the big prince Long Xiang because of this matter. Although he was calm, but the words were I dare not reveal too much.

Finally turned a big circle, or threw the problem to the big emperor Long Xiang, let him take his own idea: "The emperor, this makes Hu Chong so dead, today must have a saying, but the view of the

emperor over us I can't help but worry about it. According to the old man's intention... This matter is still reported first, to see how the decision of the Emperor of Heaven and Heaven is to make a decision."

"After all, here is still the sky of the stars, the emperor is the master of this star field, this kind of thing happened, I will not be directly involved even if I am angry again, I believe that the Emperor will not sit idly by."

"And, if there is anything wrong with the end, the emperor's emperor is in the front, and the emperor can also..."

The meaning of the words is very clear. It is clear that I want to choose myself. If the command of a full-scale attack is made by him, I am afraid that if there is anything wrong with it, it must be him.

However, if the matter is thrown to the Heavenly Emperor, even if the scorpion is big, the sky will naturally have a high top, and it has nothing to do with him!

The powerful forces in the field are all human, and the meaning of them is all clear.

At the moment, many people are secretly pouting. Looking at the sights of Hongdu Liefeng is full of disdain. Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and the three women are even white-eyed. How to look at this old thing is uncomfortable. It is too sinister.

If it is true that the Emperor of Heaven will give the command of a comprehensive general attack, is Ye Xuan in the atmosphere of the stars not a crisis?

For this matter, the Heavenly War Emperor is naturally an evasive attitude, but now this old thing is in front of the big prince Long Xiang, the latter is directly raised on the table, even if the Heavenly Emperor wants to close one eye There is no way for one eye.

"damn thing!"

"Hey, dare to dig the idol of Miss Ben, look back and wait, don't tell you the royal form!"

"The big \*\*\*\* can't be provoked by anyone. The old guy dared to put a cold gun behind him. This time you won the bid..."

The unsatisfactory color of the three faces was stunned with a voice that only they could hear, and they had already sentenced the death to the Hongdu in advance in private.

"Wang Lingfeng, what do you say!"

For the suggestion of Hongdu Lifeng, the great emperor Long Xiang apparently also took it for granted. The first time he looked at the empire of the empire, who had also become a pig's head, and snarled like a thunder.

"Emperor, this thing is on me. This is a test. Is it a relative? Just look at this one!"

The battle peak also blames the sky, this matter does not require Long Xiang to pressure him, he himself opened the Star Netcom communication.

Then there was a sigh of anger that made all the star-studded powerhouses on the spot all over the place: "Oh..."

The final result is no suspense. Although the Emperor of Heaven did not express his position on the spot, after two hours, Tianchenxing had four superpowers who were extremely powerful and came together!

No one knows that this is the meaning of the war of the Emperor of Heaven, or whether he reported the result of the imperial dynasty, but one thing is unmistakable, that is, the top four who were appointed by the Heavenly War Emperor The strong, will be the master of the fox in this abandoned star.

The four old guys are all in the twelfth world.

Come with the emperor!

Their cultivation is only one step away from the beginning of the thirteenth realm!

And the main fox fox fox rushed, according to the latest information, that is, the big prince Long Xiang and other people face-to-face contact with him, and smashed the accurate news after a dozen big ears, his cultivation is the realm The ninth big point of origin is seven steps!

The ninth big point of origin is the seventh order, and the ninth big space is empty and the ninth order is perfect!

What is this concept?

The gap between the three realms is not limited... Accurately speaking, it is three big realms plus two small steps!

Such a terrible repair is a gap, and it is no exaggeration to say that it is a temporary gap.

This kind of existence, even if only one person is dispatched, the fox and the lord are destined to be fully crushed, without any suspense, this is a one-sided slaughter!

No, not just slaughter!

The disparity in strength is so great that the latter has completely overwhelming the advantage of killing and killing.

I want him to live and die, and if he wants to die, he will die!

I don't want him to die, but even if he wants to blow himself, it is impossible!

With this utterly comprehensive and comprehensive crushing trend, the four twelfth emptiness of the ninth stage of the nine-dimensional world is full of supreme existence, and at the same time, shot and plunged into the atmosphere of this abandoned planet...
