Chapter 3311: Wars

The four twelfth emptiness of the ninth-order emptiness of the ninth-order sacred sacred spurt at the same time, and rushed into the atmosphere of the abandoned star. At the same time, Ye Xuan, who was only the seventh-order ninth-order origin, was shot at the same time...

Seeing this scene, all the stars in the surrounding area were all relieved.

This time, the fox lord will be helpless even if he adds enchanting, even if he sacrifices the ship-to-the-class private battleship with the ship-based killing system, it will not help!

And Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks are angry, Liu Mei upside down, can not wait to slap the four shameless old shame to directly kill.

But they don't have this strength, and they don't dare to show their resentment too much. Otherwise, they must be suspicious. I am afraid that it is even more unfavorable to Ye Xuan.

He always wanted to hide his true identity. He had his own reason. Although Shantou did not understand it, he would not make a suggestion to add chaos to him.

More importantly, they have confidence in Ye Xuan, even if these four shameless Lao Wang Ba United, they still believe that Ye Xuan can resolve the crisis.

Too bad, escape always escapes.

Thinking about it, Shantou suddenly became very worried, no longer worried about it...

The four oldest guys who have taken the ninth-order emptiness of the ninth-order emptiness of this time are the top masters of the Imperial Empire. Even today's Tianshi Emperor has no way to fight, they must call them four uncles. .

Of course, these four people are not the strongest of the Imperial Empire. In fact, even their younger generations, the Emperor and the Emperor, have reached the goal of the nine-order great consummation of the Nether, and they are quite equal.

There is still a stronger existence among the imperial royals.

However, the emperor was wary of sending out these four uncles who are quite similar to his strength. It is already a super-big hand. After all, it is a ninth-order ants that are the seventh-order origin. Pressure, the next shot, even more suspense!

The name of this old guy is rarely known, but because they are the most frequent appearances in the imperial affairs among the emperors of the Tianshi Empire, they have been called the war by the official officials of the Tianshi Empire for a long time. First, war two and war three, war four!

Although the cultivation of the four men is the ninth stage of the twelfth world, the nine-step great perfection, but because of the different methods of cultivation, they have their own strengths.

War One is the most domineering, and the martial arts it repairs is a kind of non-polar killing method, with three types of killing magical magical killing, killing the sky and killing and promise killing!

The second battle is the sword repair. For many years, there have been nine swords: the original sword, the sword of the birth, the sword of death, the sword of the thunder, and the power of dreams, which can make people recall the past and fall into sorrow. The illusion of the sword, as well as the sword of the electric, the sword of fire, the sword of the killing, the sword of the god, and so on!

As for the third battle, it is good at the technique of blood and magic, and its magical power is called the dragon and snake three changes: the dragon and the dragon, the dragon and the dragon!

In the fourth battle, he suffered from the extraterritorial demon in the cultivation, and he was in danger of dying. In the end, he was guilty of misfortunes. He was suddenly acquainted with the glory of the two, and he cultivated the glory and ruin, and turned into a yin and yang face. The most mysterious!

At this moment, the four imaginary monsters rushed into the inland of this abandoned planet at the same time. The first time in the north of the stars in the northern part of the ice field, the four sides of each of them will sneer at the central area of the ice field. Ye Xuan is firmly trapped in the center.

"Little doll, you are escaping today, and advise you not to be recalcitrant, so much more suffering from the flesh!"

"You are too conceited! Indeed, throughout the ages, younger generations like you who have such enchanting talents in the three major areas of the Pharmacy are really few."

"But you remember, you have not grown up yet, even if you have the genius of the enchanting talents, if you can't grow up, you will eventually be annihilated in the long river of the years, forgotten by history!"

"The emperor loves talent, can't bear to see you die prematurely, so let the old man come. The same, the old man is also very appreciative to you, now give you a chance, as long as you immediately wait for me to wait for four people Make a vow, since then, loyal to my life, the war, the war, then you will not die today."

"And, from then on, I will fully support you to grow up. The whole day of the empire is your rear support. Your road to growth will be a smooth one. You don't have to worry about losing up before you grow up... ..."

"Little dolls, chances are rare. Whether it is the Heavenly War Emperor or I wait for four people, it is not always the time to be kind. You should not make your own mistakes. You must seize this rare opportunity..."

"I bother!"

After the words of these four old guys finished, Ye Xuan turned his eyes and shouted aloud directly. Then, with a white eye, he sneered and sneered: "Which is a fart? There is also a great prince who claims to be a dynasty. Is it that the immortal dynasty is no better than your empire?"

"Even if he is not in the eyes of the Lord, the big ears are drawn on the face, what are your four dog things?"

"In addition... the emperor of the immortal dynasty has just come to recruit Ann, and your four dog things have come running immediately, saying that it represents the war of the empire of the heavenly empire, and asks the young master to be in your face. Make a vow, since then, loyal to your war of war..."

"This little master wants to know one thing now, do you do this, do you know the immortal emperor? If you don't know, do you behave like this? If this is the Lord, go out and put you just now. The words that are said go out, you guess, the so-called war of the empire of the war, can you still have a few days of happiness?"

"Bold thieves, dare to provoke dissension, why have the old man and others ever been unfaithful to the heart of the dynasty? It seems that you are leaving today..."

"Yes, this child is in a bad heart. Although there is a long-term posture, but the mind is too bad, today can not only kill him here, I must be related to the three medicines of the medicine, he has eighty-nine There is a legacy of jade, and it has the same effect!"

"Hey, do you think that you have a top-class fighter armor, and a small private battleship that has been engraved with a vain murder, can you survive the world? The old man teaches you how to be a man today..."

"Why do you have to talk nonsense with him, little ants, just kill them!"

Seeing Ye Xuan not only did not appreciate it, but it was still cold-spoken, and it threatened to announce the words of their righteousness. The four old guys were suddenly furious and murdered.

At the same time of screaming and screaming, the four old things roared at the same time with a sigh of sighs, and the four emptiness of the ninth order of the emptiness existed together to deal with a descendant of the seventh order of the origin. Open, clearly is the iron heart to suppress Ye Xuan on the spot!

In the face of all this, Ye Xuan's heart is full of anger, and it can be seen from these four old things. The so-called warrior is simply too shameless...

Chapter 3312: Ye Xuan violently gone

"Three shameless old-fashioned men, what qualifications are there to drink the Lord? Isn't it just to make people more powerful? This is the Lord who wants to see, do you have the ability to suppress this Lord!"

Not waiting for the four old guys to finish the words, Ye Xuan has interrupted the sound of a break, and while snoring, the wave will be smashed out of the glare, and directly into the second mech state.

Moreover, the **** blade of the warrior is also sacrificed together, and the wind will rise. The blink of an eye will turn into a blood black magic blade with a shape of fierce flames. It is nearly ten feet long and is equivalent to the height of the giant mech. After being lifted by the mech, he held it in the right arm, and stood cross-legged, a fierce and fierce killing atmosphere, and instantly dispersed!

For this scene, the four old things are the first to be seen, too powerful, the giant mechs of ten feet high, the knives of about ten feet, the two are perfectly together, the momentum is unmatched, blinking The four people will be shocked, making them more prosperous!

"Science kills!"

"The sword of death!"

"Rayon is changing!"

"The dry and the sorrows of the vastness of the sky!"

Under the murder of the heart, the four shameless old men also sacrificed the killer, violently screaming, and the shape of the plundering, the infinite killing power was wrapped in Ye Xuan in four different directions. Come.

On the east side, the War One sacrificed the magical killing of the heavens and the earth, one of the three types of killing magical powers, and with the horrific energy of the earth rushing out of the body,

the one side of the sky was turned into a killing. The crunching cage, the hurricane is endless, and comes to Ye Xuan.

On the west side, in the second battle, the swords of the dead in the nine swords were sacrificed. The infinite killing and suffocating enthusiasm from the body spurred the power of the heavens and the earth and turned into a five-foot-killing knife. There is a boundless burning of gold awns, with a sharp edge and unmatched momentum, heading towards Ye Xuan!

In the southern domain, the third battle activates the Leilong, one of the three great supernatural powers of the dragon and the snake. The whole body is transformed into a thunder dragon with a thousand feet. The whole body is wrapped in an infinite thunder, and the electric mantle blows up and growls. I ate it from Ye Xuan.

In the northern region, the most mysterious war four of the four people stood in the same place. He did not see that he had too much movement. He just waved his hand, but instantly melted the infinite ice cover of the northern part of the ice field. Under the ice cover, a large number of various cold creatures and beasts that were originally hidden under the ice sheet were revealed.

At this moment, this endless ice-cold beast seems to have been smashed into the vitality of the body in an instant, and is turned into a bone at a speed visible to the naked eye.

Then, in less than a moment, the innumerable ice-cream beasts rushed to the sky, gathered together, and condensed into a white-bone beast with a thousand feet, with the dryness of the sky, like to devour this world. Everything between the two, coming to Ye Xuan...

The four imaginary voids of the ninth-order large-scale full-fledged existence are at the same time, and at the same time, they are fully committed, and they are the magical techniques that they are best at, and they come from Ye Xuan in four different directions.

This scene is so amazing that Ye Xuan gave birth to a feeling of horror.

He has no doubt that if these four horrible magical techniques are simultaneously bombarded on his own body, even if it is only one of them, even if he has an indestructible glass armor, the final result is still no suspense.

Perhaps, the full blow of these four old guys can't defeat the glazed glazed glaze of the stellar star to the treasure level, but the Ye Xuan repair inside the squad is too weak after all, and they are different from the three realms. In this case, even if the glass is not damaged, but Ye Xuan is very likely to be killed by the birth of the treasure.

At that time, he did not sacrifice Lei Diyin. In this way, he killed the powerful high-level core of the Tianji family?

One thought of this, Ye Xuan did not hesitate, the first time he had just paid out the blood of the devil's blood blade, he is really planning to have a good fight with these four old guys, but now it seems that it is still too much Confident.

Although he has the horror ability of the leap-level battle, but at most it is across a big realm. If the gap between the enemy and the enemy reaches two big realms, Ye Xuan has no strength at all. opportunity.

After all, he is not a swallowing avatar. The guy is the body of the innate crystal. The strength of the body is so scary that it is invincible. This is the fact that Ye Xuan, who has not evolved in the flesh, can never be compared with it. !

Of course, although the avatar is strong, but Ye Xuan is not weak, each is good at it.

It is a pity that some of the magical powers that Ye Xuan's deity is good at can't be displayed at the moment, such as the bow of the sky, such as Lei Diyin... These strong methods and **** magical powers must be exposed to the identity of the first time. It is completely unnecessary!

In this case, it is better to directly start the plane coordinate jumping ability, and directly escape from it, and you can leave this place between the thoughts, and appear in the death star of the two camps of the Terran forces!

But Ye Xuan is not willing to go!

He is not willing!

If this escapes, in the future, unless he will completely abandon the identity of the fox lord, once he appears again, then all the powerful forces and gates of the entire third cosmic camp will be like the first time. The flies that smelled the smell, quickly arrived, and rounded up and killed him again!

Although these guys are disgusting flies, Ye Xuan does not think that he is a stinky egg. He wants to resist. He wants to hurt everyone, so that they dare not use this absolute crushing mentality. Go around and run for yourself!

To achieve this, everything must start from today's war. If this battle succeeds in counterattack and defeats these four shameless vulgar monsters, then even if there is still unsuccessful existence in the future, At least not so blatantly!

In a word, killing the power is made up of tired bones and endless deaths. If you don't want to be bullied, you have to be free to be disturbed. The only way out is to have only one word, that is... ..kill!

"what....."

"You four shameless old flies, really the Lord is a soft persimmon, can you let you freely knead?"

With these thoughts flashing in my mind, Ye Xuan, whose heart anger has been completely ignited, roared up, and he decided to go out completely today, in order to walk the third universe in the future as a young fox, looking for various preparation follow-up In the process of genetic fluid, you can encounter a little bit like this kind of unnecessary killing today. Ye Xuan is going to kill the ring today, and it is necessary to completely hurt the guys who are shameless!

Since it is going to make trouble, simply let it be a big one!

In the roar of his head, Ye Xuan's eyes are already **** red. This is the rhythm of complete violent walking. This state rarely appears after entering the starry environment, but today it broke out, but it was impossible to clean up.

"Today, you four, you have to peel off your skin if you don't die..."

"call out!"

In the roar of the roar, Ye Xuan suddenly waved his hand, and a shrill sound broke through the air.

Chapter 3313: Giant ding

"You four layer of skin die off today"

"call out!"

Roar, leaves Villa suddenly a wave, with a shrill piercing sound very moment sounded a canopy of light green leaves Villa is suddenly thrown!

This green canopy of mango in fact, his brain know Shen Ding sea!

Of course, with this tripod supporting Shennong pestle leaves Villa has not resorted to, this tripod is only arouses jealous enough already, anyway, now just offering it out repression opponents, push it all the way to the cross, we do not need Shennong pestle.

Ye Xuan did not intend to make this level of shortage ancient treasure suit appeared together, it's too obvious, fool can know what it all represents.

As long as Ye Xuan does not sacrifice Shennong, even if everyone knows that he had refining and collecting the ancient monument of medicine, but the ancient monument at that time has not yet revealed the true face of Shennong, so it should not someone will think of this talent.

The reason why I decided to sacrifice Shennong Ding at this moment is that Ye Xuan is also helpless!

Linghu Chonghao called the three geniuses of the medicinal genitals, and this morning has been the supreme scent of the major forces. However, his identity is only a small family of the lonely family. It can be said that there is no background backing at all. Everyone thinks that he is a soft persimmon and wants to stick out and pinch it.

It is said that although his war is metamorphosis, small private warships are even available in a huge array of killing systems, but these methods can deal with some star-studded powers around the virtual space. Once the domain of the thirteenth realm is on, Or the strongest of the fourteenth-century Jingguang, there is basically no deterrent.

Therefore, if Ye Xuan still intends to walk the third universe in this capacity, he must show a new deterrent means, even the domain of the thirteenth realm, and even the strongest of the fourteenth world. A means of threatening and making them jealous!

Both Yu Tian Gong and Lei Di Yin can do this, but Ye Xuan can't use it. Once it is used, it has to be worn.

In desperation, he can only use Shennong Ding!

Anyway, this trip has been refining by him, and even if others are jealous, there is no way to take it away.

In fact, even before Ye Xuan refining it, this tripod was in the horror form of a huge star in the emptiness of the remains of the drug king, but no one has ever been able to shake it and accept it. go.

It is said that even the Qiankun, who had had the fifteenth big world, tried to shoot, but in the end it was still helpless to retreat, and it did not move at all!

If not, Ye Xuan will not easily sacrifice this trip!

"boom!"

At this moment, with the awning green mans from Ye Xuan's eyebrows rushing out, the wind will rise, but it is just a short break, it has turned into a huge star, the atmosphere of this abandoned star at the foot. It was directly dispersed, the gas field was too strong, and the earth under the feet was cracked in an instant.

This abandoned star is obviously not guaranteed, and this battle will completely collapse and become a cosmic dust.

The huge explosion rang and roared. The battle of the world was one of the magical killings of the magical killing of one of the three types of killing magical powers. It was filled with the terrible energy of the earth, and it spurred the outside world. The piece of the killing cage that was crushed like a sky was completely destroyed in an instant.

For a time, the hurricane was endless, raging a vast expanse of the Milky Way.

Then, the head rushed into the sky with countless ice-like beasts and smashed into the sky, and the beasts of the thousand-footed white bones formed by the condensate also made a low-pitched humming sound in this instant.

This beast is full of the scent of the sky, and seems to devour all the vitality between the heavens and the earth. It originally came to Ye Xuan, and it was fierce.

But at this moment, in the face of the slamming Shennong giant tripod, it was actually a humming sound and then turned around and wanted to retreat.

Unfortunately, everything is too late.

Ju Ding was born like a huge star, and when he touched it, he collapsed the killing cage. Then, at the same moment when the beast of the white bones had just turned around, there was no Suspense suddenly smashed the past.

"boom!"

There is no crack in the crack of the bones, only a low and depressed squeaking sound, the vast body of the savage beast and the beast of the giant body instantly collapsed, turned into a powder, and the terror of the giant ding A blow, disappeared instantly.

"Ding!"

At the same time, the sword that was transported and killed by the war II provoked the infinite killing of the body, and the slashing knife that spurred the power of the heavens and the earth, also smashed at the same moment. On the top of Shennong Giant Ding, it made a crisp sound of gold and iron.

This slashing knife has a length of five hundred feet, and it is condensed by the power of countless sharp gold. It is full of enthusiasm and enthusiasm. It is a sharp and unparalleled trend. It was originally turned to Ye Xuan. Now it is directly stopped by Shennong Juding.

The result is very speechless, accompanied by a buzzing sound, and the sharpness of the sharpness is almost the same as the cracking of the sky, and it is actually a half-lag delay. It collapses directly, and there are countless golden and awnings. The sharp gold fragments exploded in an instant, and then blasted, turning into a golden star rain, spreading away, and smashing a small piece of emptiness.

"puff!"

"puff!"

"puff!"

At this moment, the war one, the second war, the war four or three are also like an appointment, while opening their mouths, each spurting a blood arrow!

The talented heaven and earth cages and the killing of the knives and the vastness of the shackles are all their own strongest powers, and they are closely related to their own bodies.

Now that the offensive has been blocked and forced to collapse, these three old guys have been countered, and they have been seriously injured in the blink of an eye. Although they do not endanger the **** belt, their faces are as bad as gold paper. When the situation is over for a while, it is absolutely impossible to take another shot. .

Until then, the sound of exclamation suddenly sounded...

"What? This is... medicine Wang Ding? This is actually the supreme Wang Ding in the remains of Yaowang. It is like a star-studded void. No one can shake it. How can it appear here?"

"This is impossible! It is impossible. This is only the seventh-order cultivation of the original point. Even the great power of Qiankun can't shake the supreme Wang Ding. Why does he charge refining? Why is it not scientific?"

"Hero! It's a enchanting..."

"Escape, this tripod is too horrible. Once there was a great power to squat, and I tried to cut it off. As a result, I collapsed with a savage savage squad, and I couldn't shake it. If it was When the head is crushed, it must be completely suppressed without dying, and it cannot be turned over..."

With the sound of exclamations in this road, the bloodstains of War One and War II, and the four wars of the four wars were not wiped out, and their faces changed, and they turned back.

And Ye Xuan, but sneered at this moment and turned to the other direction.

Over there, there is a Thunder dragon near the thousand feet, surrounded by infinite thunder, the electric mans blow up, roaring and screaming at Ye Xuan, it is really fierce, it is the third battle to activate its dragon and snake three blood. After one of the bronters changed, it was manifested by the body of the deity...

Chapter 3314: Little muddy don't run

"Hey!"

In fact, just in the next moment when Shennong Giant Ding suddenly slammed into the air, the Thundering Dragon, which was transformed by the brontosaurus and the blood of the dragon, was already screaming and turned around.

Although the sound is high and the number can be cracked, but it clearly reveals a very strong sense of fear and sorrow.

After all, it is not the real Taikoo Leilong. Although the dragon and the snakes of the War III are amazing, they can use this magical power to stimulate the flesh and blood of the deity, change the form, and turn into a giant dragon. I don't know most of it. It is the existence of a dragon after the death of a dragon.

Unfortunately, the brontosaurus evolved from this supernatural power is only empty and sinister. Even though War III seems to have mastered some lightning power, it is still far from the real Taikoo Leilong.

At least, the kind of cruelty and even violent temperament and momentum that Taikoo Leilong should have, he has nothing to do!

If a Taikoo Leilong from the ancients is here, even if Shennong Ding is horrible, it is impossible to turn around and retire!

But everything is still too late!

The Shennong Giant Ding appeared, ruined and ruined, and successively collapsed the cages of the heavens and the earth, killed the knives and the beasts of the dead, and made the war one and the war two, the war four and three three bloodshed seriously injured.

All of this is long-lived, but it is actually happening between suffocation. It is so inconspicuous that it is too late to react.

Under this circumstance, even if the tens of thousands of squadrons of the three sects of the warfare were in the early morning, the first time they screamed and slammed, but the Shennong giant ding was too big, and the body shape even surpassed the average star. An abandoned star can't bear the pressure of it, and it is proof that it is cracking.

Such a huge body shape does not require strenuous pursuit at all, just by rolling in the void, it can span a very distant starry sky.

Ye Xuan is indeed doing this.

These four old guys naturally can't all kill them, otherwise the matter will be counterproductive. His goal is to show the deterrent means, so that all people are jealous and dare not provoke.

If all the four people in the battle are killed, the empire of the Heavenly War will never take a good stop, and will have a stronger presence, which is not good.

However, although it is impossible to kill all of them, it is still no problem to kill people. This is also the price they should and must pay. Not so, it is not enough to stand up!

War one and war two, the war four people have been seriously injured, and the body shape retreat, Ye Xuan does not want to bully the disabled, so pick the war three.

Of course, the key is that this guy himself is dead, nothing to be a good person, actually turned into the fierce beast form of this kind of Thunderbolt.

Although watching is indeed imposing, terrifying and scary, but for Ye Xuan at the moment, the more so, the better the effect of Liwei!

Such a big starry sky, even if one bones will fight one and two, the war four, all three are pressed into a patties, look like that only then, change the battle three is different, this is a thousand feet of Thunder Dragon In public, Ye Xuan took the Shennong Giant Ding into a dragon in the void, the visual impact and shock, it is enough to see the stars and stars in this scene, suddenly scared a big piece!

"Small muddy don't run, this little master promises not to beat you..."

"Booming!"

Ye Xuan's body shape is still unmoving, hanging above the star-sized giant Shennong, and originally carrying his hands, but at the moment, he is slightly lifting his right arm, and the one who is heading in the north is fleeing and fleeing. .

"puff....."

The small muddy scorpion is in the ear, and the three qi vomiting blood is vomiting blood. Rao is the body of the Thundering Dragon, which he manifested at the moment with the blood and the magical powers. He also could not control the trepidation and lived in anger.

The twelfth dynasty of the twelfth emptiness of the ninth-order world is full of supreme existence. With the horrific blood of the dragon and the dragon, the dragon's body is manifested by the deterrent.

In the past, whenever the War 3 triggered the Thunder Dragon, it showed the body of a thousand feet, and which one did not shock the other side?

Even the ones that immediately quit suddenly disappeared.

However, today, I encountered such a enchanting, horrible Thunder Dragon, which fell into his eyes and turned into a small muddy, and still clamoring not to run, to ensure that no words like snoring...

This is clearly to beat him up and play the rhythm of the cockroach!

As these thoughts flashed in the mind, the body of the Thundering Dragon of War III once again stunned a few times. This time it was not mad, but was scared.

This is a thousand feet of Thunder Dragon, if it is slammed in this empty air, it will be violent. The scene is so beautiful, the third is simply unimaginable, and the whole person feels bad!

If it is not necessary for the blood dragon to cool down, it will take a certain amount of time. Even if it is now fully lifted, it will have to delay for at least seven or eight seconds. War III simply can't wait to do it right away. At least that, once the human form is restored, it will be beaten. If it is, it will not be as good as the current body of a thousand dragons.

"Booming..."

Just as he quickly jumped forward and rushed forward, there was a sudden thunderous noise from the violent to the extreme.

That feeling is like the fact that one side of the world has completely collapsed, and the horrible landslide has turned into an invisible shock wave, and it is whistling to chase him.

These thunderous sounds are the explosions that Shennong Ding crushes.

Its body size is too large, it is more horrible than the average star. Although the general star has a running track, it is untrackable, whether it is revolution or rotation. It is slow to be noticeable.

But at this moment, Shennong Ding was under the urging of Ye Xuan, like a meteor rushing, the void was crushed and made a sound of the sound of the blast, it was too normal... too scary!

At this moment, War III was scared almost, because he found that the speed of Shennong Juding was too fast, he tried his best, and the strength of the milk when he was a child came out, and it was hard to rush out a distance, but The giant star of the star is just a roll, so it will cover this distance easily...

According to this trend, at most seven or eight breaths of work, the horrible star giant Ding will be crushed.

Thinking of this, the Three Souls of the War flew a little and a half, and the voice of the human voice was heard in the huge mouth of the Thunderbolt, and it was actually disregarding the face and pleading in public: "Let the little friend of the fox, don't chase it." Misunderstanding, everything today is a misunderstanding..."

"boom!"

Without waiting for him to finish the words in his mouth, the Shennong Giant Ding, which was biting behind him, was suddenly accelerating. He blinked across a distant void and went directly to the sky above Thunder.

Then, with the sound of a more intense and dense sound, the giant star was instantly crushed by an indescribable billion.

"Hey..."

The sound of the tragic screams resounded through the void, and the Thunderbolt was directly suppressed, and the figure was squashed. Like the Zhangpi, only the faucet was not directly pressed, so it still maintained its original form. Otherwise, this is not the way to scream...

Chapter 3315: Scared a big piece

"Hey..."

Although the body of Lei Long is huge and full of feet, it can be compared with the giant Shen Ding, like a huge star, but it is too much to read. It is not even a small one.

Shennong Juding was down, only to use a small corner at the edge to wipe the body, and the Thunderbolt was completely turned into a dragon.

In addition to the faucet exposed to the outside, so the loss, the entire body of the dragon's body has been completely squashed, and a small piece of the void is smeared with red blood.

This scene is too horrible. A thousand feet of Thunder Dragon, was instantly suppressed by the dragons, and the embarrassment that has been issued is no longer a dragon, like a wolverine, let people listen to the heart and splash, how a tragic word Got it?

In fact, even this sullen and indignant wandering has not lasted for too long, and it will be around before and after.

At this point, Qianzhang Leilong no longer breathe, war three... Fallen!

Until then, the area of abandoned stars that had collapsed at the moment, the battle of retreat and the second and third battles, finally came back.

They roared and roared, and the figure was coming towards this side, wanting to rescue!

"Lake Fox, stop!"

"Do not make mistakes, if the third child dies, you will never be fortunate, you will die!"

"Impression is the devil, Linghu Chong, don't want to die..."

Unfortunately, everything is too late.

Not waiting for the threat words of these three old things, the sound of the violent sounds of the screams in the front of the sky has been heard, and the Shennong Giant Ding has been slammed down, and the horrible sound of the screaming screams suddenly sounds...

Everything happened too fast, from Ye Xuan with the Shennong Giant Ding turned to chase the third, to the thousand feet Lei Long was instantly crushed into a dragon, issued a fierce wolf howling, but before and after the three interest.

It was almost rushing to retire, and it was almost completely panicked. The chaos of the three-dimensional emptiness of the three-dimensional emptiness of the mind, and the fact that there was no time to rescue.

They can only watch their third child being crushed into a dragon, and screaming!

In fact, even if they take the shot, the result is the same. If they have the ability to resist the Shennong Giant Ding, they will not be seriously injured at the same time.

For this point, War One and War II and War Four are well-informed, so at this moment, the three wars have already fallen, and the threatening discourse in the three populations has also come to an abrupt end, and the figure that has just been swept has suddenly stopped.

One canopy is equally majestic, and the wrath of the sky that wants to destroy everything, from the three bodies, ignited the void, and faintly whispered.

But the faces of the three old guys are incomparably pale. Even if they are as bloody, they seem to spurt a real flame, but the face is white and white, and the frost is over the snow!

This is a heart-rending pale, representative, revealing, in fact, the three people's state of mind at the moment!

Until then, they suddenly realized that it was ridiculous to be ridiculous, and how pale and powerless it was to rush to the threatening words that Ye Xuan had made.

After all, the threats in their three populations have not yet been completed, and the people at that end have absolutely crushed the Thousand-Thundering Dragon into a dragon, and that scene is so domineering, it is like crushing a small muddy In public, they will kill their warlord...

This is clearly self-satisfied!

Didn't wait for Ye Xuan to shoot, they picked themselves up on their faces!

Perhaps, at this time, they still believe that Ye Xuan will die, but at least now, at present, they can't see the scene. Although there are many strong stars in the sky, there are thousands of warships, all of which are three kilometers. Even if the large-scale warships above the star level, even the entire army of the encirclement and suppression forces still do not have the strength to threaten each other.

The star Wang Ding, who was born out of the sky, is too horrible. It is in the hand, and the other party is enough to suppress a virtual person. With this strongest person, the 12th big emptiness of the ninth order of the great conquest of the army, nothing can be done!

It was also at this time that after the smashing out of the battle, the three-person battle, the large-scale screams of excitement screamed!

It is those who are entrenched in a warship, and the entire abandoned star is surrounded by a star-studded powerhouse!

Previously, just after Ye Xuan waved his hand and sent Shennong Ding to the next moment, the guys were completely stunned. The scene that followed was even more horrible, and the four emptiness of the Ninth Stage was perfect. Nothing exists, in a short time, less than ten times, one death and three injuries!

This scene was too horrified. All the people were thundered. Until now, they were all shocked and stunned.

"God, let me smash it! What do I see? A thousand feet of Thunder Dragon, turned into a dragon dry instantly? Lively and abused!"

"It's too bad. It's too bully. This is a thousand-footed Thunder Dragon. It's actually awkward and screaming. What a sorrow and anger, what awkwardness?"

"Terror! Fierce! The main reason is that the fox is mainly against the sky. Why do people have a three-pronged medicinal device? Even the fighting power is the same as the enchanting scorpion. It is absolutely impossible to make trouble with the cultivating camp. It is still impossible to determine who is the avatar. The enchanting contend, even before, the giant Ding shot, even the invincible **** of war will be suppressed!"

"The first enchanting of the Terran! The fox lord can definitely be the name, the world is unparalleled, and the anti-sky trend can no longer be stopped!"

.....

With the sound of these exclamations coming into the ear, the top door valve rudders and homeowners of the 16th National Congress of the Dynasty, who had had many dealings with Ye Xuan, have been violently shaken, and their faces are even more exciting, and they cannot be described. description.

"Too horrible! The hidden is too deep! The original Wang Ding, who disappeared in the remains of Yaowang, was actually refining and taking away by him. I lost it at the time and I wanted to take advantage of him. Half of the medicine in his hand is passed down!"

"If it weren't for the chaos of the cosmic zombies, I'm afraid that it's already done. It's really like that... it's just dead!"

In the muttering to himself, Tuo Xiongiong and the ram did not regret, the three old guys of the long fish stunned face each other, and the cold hairs on the back were erected.

At this moment, they are really completely mindless and right again with Ye Xuan, they can't move!

On the other side, I was waiting to watch the show, and my heart even began to figure out that the four people will be Ye Xuan, and how to torture him, so that the big emperor Long Xiang and Tianchen, the war of heaven The two princes of the empire, Ling Feng, and Xu must pour three people, but Zhang's mouth is completely stupid on the spot!

These three guys' heads were originally swollen like buckets. Now they have a big mouth and a slight mouth, and their face is stagnant. The light is dull and cold, but it's getting more and more like a pig man!

Even from the very beginning, he was confident in Ye Xuan, and he decided that he would be able to resolve the crisis. The Xuanyuan Zizhen and Duanmu Xiaocha and Zhao Qianru, who left Enron, were all without exception. They all had their mouths open. Thoroughly scared...

Chapter 3316: Qiankun can be a fart

Despite knowing Ye Xuan's true identity, I believe that he must have some more powerful means that have not been displayed. In the face of this crisis, when you can safely pass, calmly leave.

But at the moment, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks, but still not being light, completely shocked.

When the exclamations of the surrounding sounds rang like water, they woke up like a dream, and they were slightly shocked and finally returned to the soul.

"God, idol is an idol. It's not really good. Even if this lady is already optimistic about him, she is finally shocked. It seems that the previous estimate is too conservative. This guy is a peerless enchantress. Can't take him as a person!"

"Slayer Dragon! This scene is clearly the Dragon Slayer! Although it is just a **** magical power, but after all, it is a thousand Thunderbolt, at least it has its shape, it was instantly pressed by the adult, and I did not find this guy before. So cruel?"

"The playing is yes, this little temper is too scary, and the young lady who is engaged in it has a psychological shadow. Afterwards, he may have a heartbeat and jump, and the fear will cause his little temper!"

"He dares! Hey, don't look at what he is like in front of outsiders. In front of his sister-in-law, he is just a kitten. This lady has already decided, and the big **** is not good at anything. Only One advantage, as long as you are really good to him, how to rush to him, bully him, this goods will never turn your face, stupid..."

Later, when Shantou had already got together, he lowered his voice and talked quietly. On the one hand, he was afraid that others would listen and reveal the true identity of Ye Xuan.

On the other hand, coughing, the sisters are together in a piece of how to deal with Ye Xuan, these words, naturally can not be heard by him...

In front, the battle of the first and the second, the battle of four or three old guys to endure the anger of the heart, has spoken again!

"Ling Hu Chong, you stare at the stars Wang Ding arrogantly, even disregarding dissuasion, on the spot, killing the war three, this matter is already irresolvable, wait, my empire is not without great power, not to mention the entire dynasty The power of you, your crimes, the wickedness, the wickedness, must be in vain!"

"And this day is not too far away. Today's business has already broken through the sky. Once the empire's great power has been learned, it must be angry. It will be shot in the first time and will definitely suppress you!"

"If you want to live, if you want to live, you will surrender Wang Ding immediately. You will be guilty of self-styled repairs. If you look at the amazing talents of your medicine, you may consider understanding and leave you useful. For the empire, you will be guilty of work!"

These discourses are really shameless. They are obviously the talents of their pharmacists. They want to force their enrollment. They even dispatched thousands of warships and more star-studded powerhouses to implement the Dawei, and four statues. The ninth-order emptiness of the twelve major emptiness is superb.

As a result, the four men joined forces and were defeated by the people on the spot, seriously injuring three people and degrading one person.

At the end of the day, it turned out that the crimes of others were so fierce and fierce...

Shameless to such a degree, it is simply horrifying. Among the teams of the huge fleet of coalition forces in the rear, there are many star-studded powers who screamed and heard their eyes.

I am afraid that they are actually participants. I also wanted to be unfavorable to Ye Xuan before!

At this time, after controlling the Shennong Giant Ding to fight the three bombardments, Ye Xuan has already thrown away the wreckage of the Thousand-Thundering Dragon, which was crushed into a dragon, and let it float in the distant void, cold and lonely. Oh, it has turned.

This scene is too amazing, the huge Shennong giant dings come across the sky, the thirties of the thirties on the top of the mouth, and Ye Xuan is suspended on it, under the feet of the colorful clouds, hands Carrying it, look not happy or not...

It's like a fairy, a peerless and independent, and it's dazzling!

Here, countless star powers have already seen stupid eyes, the big prince Long Xiang and other three pig heads, the look on the face is even more sluggish, which is mixed with all kinds of unwilling!

Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and other Shantou were also seen again by this scene.

Zhao Qianru first stunned, and then the cheeks were red, I don't know what I was thinking.

Duanmu Xiaocha is more direct. Xuan Huangzi was originally her idol, so this girl never concealed her obsession with Ye Xuan. At this moment, she looks at Ye Xuan, who is hanging on the stars and giants. His eyes are straight, and he mutters like a madman: "Oh my God, it's so handsome. This is the idol of this lady. It's deserved, it's unique! Oh... this lady is swollen so tasteful!"

Even Xuanyuan Ziyan, at this moment, was obviously lost, and looked at Ye Xuan, who was slowly approaching. At this moment, she suddenly felt how strange the figure was.

It's not just because Ye Xuan has changed his appearance, but also looks like a rough man, and more importantly, that feeling.

The Xuan prince she knows, although she is famous for the three cosmic planes, is regarded as the first idol of the Federation, and there are countless fans, but in fact, all the achievements of Ye Xuan's fame, including before the first universe in the Magician The things that happened, and the monks who collapsed in the sixth quarter of the mountain gate ancestral land in the territory of the comprehension camp not long ago...

All of this, Xuanyuan Ziyan has never witnessed it, the Xuan prince she knows, in fact, there is really not much amazing performance in front of her.

But at this moment, this scene in front of the eyes is too extraordinary, so that Xuanyuan Ziyan gave birth to an illusion, but also suddenly realized that, unconsciously, the star that she knew The small-scale repairs have grown to such a height, that is, she... can only look up in the distance!

Soon, Ye Xuan has already arrived, and the huge Shennong Giant Ding, like a star, hovered in the void in a thousand miles, pouring out endless nine-color fog, and Ye Xuan carrying his hands on the fog. Stunning side, it is the battle of three old guys can not help but sigh.

This style is truly peerless. They are the ninth-order grand perfection of the twelfth emptiness, and they are not too embarrassed to be in the hands of a brilliant generation.

Thinking like this, the three old guys' heart was a little slow, and while waiting for the voice to continue to persuade, Ye Xuan had already sneered and spoke.

"I have seen shameless, but like your warrior, you don't want to be like this. This young master has never heard of it..."

"Hey, what about Qiang Kun's power? If you want to take the life of this young master, you still have to see if he has this ability. I would like to persuade one sentence, and bring you the power of the war. It is best to let out the wind and say that it is in a retreat, so as not to jump out of the eye, in the eyes of this young master, the so-called power is just a fart!"

This is really too much, the countless stars in the field are all green, and my heart is jumping wildly. I have never seen this kind of dare to say that the power of the dragon is the existence of the fart, so that the fox is really bad. It's a day, too arrogant.

"presumptuous!"

A roar is ringing in an instant, and this moment, the whole piece of the void that is hundreds of miles away, is instantly discolored...

Chapter 3317: Have the ability to come in

Said Cao Cao, Cao Cao!

Ye Xuan's words have not yet fallen, and the fifteenth state of the warshield has no surviving. The only one who has a great power, has finally shot!

In the days of the empire, the Emperor's war of the empire actually had two great powers in the fifteenth world.

These two men, named Wars and Wars, are the ancestors of the Warriors, and they don't know how many years have passed.

However, before the 10,000-year-old, the trenches traveled out and suspected to have left the three cosmic planes to explore other cosmic planes beyond the three cosmic planes. I don't know if they were lost or fallen in the endless universe. In short, the years have passed and the trenches have not returned.

From then on, the Emperor of the Heavenly War Empire had a pulse, and only one of the warlords was able to sit down.

For this reason, the war battalion, as the only ancestor of the Warriors, has always been very cautious and rarely went out. He has been sitting in an unknown star near the Tianshi Emperor and has been retiring for many years.

This time, the Tianshi Emperor Star was changed, and the Qiankun ancestor who was retreating was not aware of it, but considering that this matter was of great importance, it not only caught the second universe, but also caused a system. After the chain reaction, the Tianshi Emperor had no choice but to worry about regenerating other accidents, so a Japanese emperor was sent a few days ago.

Let him go to the star where the Qiankun ancestors and the sects were closed, and ask for it.

A few days ago, the war and the tortoise had already floated, and the country that stayed in Tianchen State was sitting behind the town. This time, the crusade was the ancestor of the sorcerer. As the ancestors of the warriors, it was impossible for the ancestors to be levied. It's expensive.

At the moment, although the war is still in the Tianchen, but it has already been known through the three-level network of Tianchenxing, the accidents that have occurred here, under the wrath, even if the projections of the apparent phase come, it is only the consciousness. Upon arriving at this void, I heard the arrogance of Ye Xuan's mouth.

So I was furious and I shot it in the first time. I want to suppress Ye Xuan on the spot!

The extraordinary means of Qiankun has already touched the mystery of the Law of the Universe, and it is the most transcendental type of great supernatural power in the fifteenth realm of the starry sky.

Even if it is just a projection of a law, its power is far from being comparable to the existence of the four-dimensional ruling of the twelfth world.

At this moment, with the arrival of the law projections of the war, the vast expanse of the universe is disturbed, and an invisible force of forbidden envelopes one side. The space of tens of millions of miles has been instantly turned into a cage. , was imprisoned by invisible terrorist pressure!

This moment, even the 100,000-meter star fortress of the imperial army of the imperial empire brought by the great emperor Long Xiang, and the flagship of the Sensi blue fleet fortress in the Hongdu Lifeng, were also affected without any suspense. The shipboard super space oscillator that is fully open is directly misfiring.

In the face of the emptiness of the supreme power of Qiankun, even the super space oscillator on the 100,000-meter-diameter starry sky fortress has failed, and it is impossible to shake the void to form a shock effect.

A large number of star-studded powers are even more stunned. The seemingly invisible mountain is suddenly coming down, pressed against the top of the head, and crushed from all sides, giving people a feeling of stagnation and impediment.

This is because the horror of the awning that suddenly came down did not deliberately target their results, otherwise it would be even more unbearable.

When Qiankun's power is angry, it is the war and the old ghost who have the twelfth big void and the nine-order grand perfection. They will also be suppressed in an instant, and they will not be able to resist!

And the target of this terrorist threat is only the target of Ye Xuan, the situation is obviously worse!

"boom!"

The starry sky is blowing, like a skybreak!

At the same time, the violent sound of the wrath of the sky was suddenly sounded. At the top of the head of Ye Xuan, the universe's void was shattered without any indication. The area affected by it was extremely vast, thousands of miles away.

The feeling is like this piece of cosmic void is the paper paste, and behind this fragile thin paper, there is a supreme beast. At this moment, the beast is breaking through the boundary, and this layer touches the barrier. The void immediately became like a piece of paper, and the whole crack collapsed without any delay!

Just a few thousand miles away from this layer, behind a cosmic void that collapsed and collapsed, a huge **** palm print came down, five fingers arrogant, palms down, and headed toward Ye Xuan and his feet. The Shennong Giant Ding is covered...

Although the giant giants of the stars are huge, but the **** palms that come suddenly are not small, the two are quite the same. If this palm is actually taken down, although it is impossible to determine whether the stars will have flaws, but the fog of the colorful pedals is carried. Ye Xuan, whose hands are hanging above the giant tripod, will die.

Or, being directly suppressed, on the spot, the huge blood-colored palms only need to be copied together, and they can take him across the void and disappear.

The situation was in vain, and the sudden arrival of the **** giant palms was extremely fierce. As soon as it appeared, it was nearly halfway away, and Ye Xuan was only two thousand miles away.

According to this speed, at most one breath, the **** giant palm can be photographed on the star of the giant tripod. At that time, if the other party has no intention to stay alive, Ye Xuan will instantly blow up a fine blood fog, and then be The terror of the **** giant palms evaporates, and the hairs are left in the middle!

Under the face of madness, Ye Xuan almost immediately ordered the system to directly open the coordinate jumping ability of the plane, thereby escaping and going to the death vortex in the gap between the two camps of the Terran.

But he still resisted after all, never.

On the one hand, Shennong Ding still stays here, but now it is obviously too late to get into the body, and time is too urgent.

On the other hand, if that is the case, the results and the severity of the impact will be unacceptable.

The reason why he sacrificed Shennong Ding, the purpose is to kill the chickens and monkeys, shake the prestige, so that these guys can give birth to him, and dare not arbitrarily harass.

Even if the performance of the talented person is enough to be amazing, it will have some effect. However, if the final result is still fleeing, it will be too embarrassing. Everything that has been done before will be overwhelmed, and the fierce image just created will be dazzled. collapse!

One thought of this, Ye Xuan will be a heart, and instantly cut off the idea of fleeing, the body shape sinks, the blink of an eye disappears, actually entered the internal space of Shennong Ding, refuge.

"boom!"

In the next moment, a huge explosion hit the sky, and the blood-colored giant palm from the sky collapsed directly on the Shennong Ding, stirred up the countless nine-color smog of the Dingkou, but like the stars. The huge body, but only a slight sway, the hair did not fall.

It is the great power of Qiankun, and it is impossible to shake the tripod. The only thing that is falling on the eye is the body of the projection of the great power of Qiankun. It can make this trip sneak a little, and it is the result of super-level play under the wrath. It is.

"Hey..."

"Bad boy, aren't you crazy? What is the shrinking turtle? There is a skill to roll it..."

Chapter 3318: Event escalation

"Hey..."

"Bad boy, aren't you crazy? What is the head turtle? Have the ability to get out!"

The **** giant palm suddenly swayed, turning into the shape of an old man, the whiskers of the air trembled, and helplessly roared to Shennong Ding.

The next moment, a light voice came out from Ding, scared a person: "Pharaoh eight, swearing ghosts? You have the ability to come in, believe it or not, the main turtle, the head have smashed you..."

It is the voice of Ye Xuan!

In fact, not listening to the sound, light from the arrogance of this discourse, can also guess that he is arrogant.

Outside he was smashed into Lao Wang Ba, and he was clamoring to get rid of the turtles and heads, but the fifteenth state of the world.

For other people, even with the support of the stars, this kind of words is absolutely unrecognizable, too amazing, think about it is creepy!

In the distance, the numerous star-studded powerhouses in the huge fleet have already been scared, and they are stunned by War One and War II, and four or three old guys. They have been stunned by Ye Xuan before. But now that I saw the treatment suffered by the ancestors, the hearts of these three old guys were inexplicably flattened.

Compared with the ancestors, they are nothing at all. The great power of the Tang Dynasty can be turned into a pharaoh by him in public. What kind of anger they can get?

"Hey..."

"Booming!"

"boom!"

Qiankun's ancestors were screaming and screaming, and the bombardment continued. The huge explosions continued to come out, and a small piece of the universe's void was collapsed. However, the Shennong giant tripod did not move, and the first hit before the first blast was angered. It is still able to move slightly, but now it has no effect at all. The mosquito ants are like a mountain, just a joke.

This is really too wrong, of course, this is for the war.

For those who are thousands of miles away from the stars, the main words are more ambiguous.

Dignified and powerful, being smashed into the old king eight in a public, a roaring foot roared, the void was collapsed a small piece, but it was impossible to help each other, but this scene was also seen by many star-studded powerhouses, it is... ..

Many people have shrunk their necks, and they have subconsciously turned their heads to other places. They are free to look at them. They dare not look directly at them. Some people even pretend that they have not noticed this and talked with each other.

If a few people are so ruined, they will not be suspicious, but they are not in the battleship at the moment, or almost all the star-studded powers in the void of the extraterrestrial universe are all so, that is, a fool can see the problem. It is.

The ancestors of the warrior's veins quickly noticed this abnormal situation. First, a glimpse, then the old face was white, and it was dark again...

At this point, the war one and the second war, the war four people are arbitrarily talking, cold feelings are a stagnation, three old things in the heart of the mirror, know that this is the ancestors' eyes swept over, and quickly subconsciously shrunk Neck, but the eyes did not dare to meet, but chatted even more joy.

This posture seems to be completely immersed in, and nothing else has been noticed about everything else in the surrounding area.

"Oh, second child, look at you, the clothes are all reddish, I was not hurt just now? I clearly saw that your blood was old..."

"The playing is yes, that kid is too irritating, and he is so hard to spur the **** to the old blood, and then meet him again next time, not catching a meal!"

"Cough, you can talk about the old man, but can you talk about other topics? Also talk about the kid, which is clearly which pot does not open the pot, the ancestors are black face..."

I didn't wait for the cry of the face of the war, and the roar of a thunder like a thunderous sound, and the three old things and the soul flew away half: "The oldest and the second oldest, all of them rolled over to the old man, immediately, immediately!" "

Three old things looked at each other, and his face was followed by black. He shook his eyes and hurriedly greeted him. He smiled and trembled!

"The old man ordered, opened the treasure house of the empire's war preparation resources, took out all kinds of war preparation resources, and made every effort to build a large gap..."

At this time, under the violent anger of the old squad, the singer calmed down, and the scorpion smashed the sturdy mans of Mori, and said coldly: "In three days, it is necessary to complete the formation of the squad and completely ban this piece. Void, within three days, the old man sat down to sit here to prevent the kid from fleeing."

"There will be a large number of traps, and the family will send four more empty nine-step big ones. At that time, each of you will have one side, and each one will take a look from the town to maintain the big battle. The old man will leave for a few days. Ask an old friend to come out of the mountain, and you will be able to take the kid out of this sturdy king's eight shell!"

This discourse wars the old ghosts and does not deliberately suppress the sound, so all the stars in the distance have listened to the real.

At this time, all the faces of the people have changed, and the incident has escalated. The more serious the changes have become, the war and the old ghosts are clearly anxious, and they have to build a large array of traps. This is a terrible big deal.

The so-called trapped large array, the role is to completely seal a piece of void, blocking the connection between this void and the outside world, whether it is teleportation or space transmission, can not be expanded.

Even some space magical techniques of the mighty powers will fail in the dark space.

The various treasures and mineral resources needed to set up this array are top-notch items, even in the three empires and even the immortal dynasty, these things are strategic reserves.

More critically, once the trapped large array is opened, it must always provide energy to keep it running. Once stopped, all the treasures and mineral resources used to construct the large array will be ineffective.

This is clearly a one-time use of the horror array method, not only the required base material is too expensive, but also the loss is huge, or do not stop, it will be abolished.

In addition, the war-torn still publicly stated that he would go out to visit an old friend, and ask this person to come and help each other. There must be a way to smash Linghu from the star.

Can the existence of the war and the old ghosts be the general star power? At least it is also a great power, and may even be stronger than the war-torn ghosts. At least there are more means than him. Otherwise, why should the war-torn go out in person?

what does this mean?

It is clearly the rhythm that at least two of Qiankun's great powers were alarmed. It's really awkward!

I didn't wait to hear the news of the thundering stars, and the gloomy war-torn old ghosts have already re-appeared. This time, the words spoken, let all the stars in the distance hear the eyes Bright, all are a little bit tempted.

"Of course, before the old man returns, you can also send some powerful younger generations to join the star giant, start hunting and kill the kid."

"No matter who it is, as long as it can help the deity to take the kid out of Ding, the deity promises to do one thing for him. This is a commendation! Any force, any strong person, can take a chance..."

Chapter 3319: Pull hatred

"This tripod has its own rules. It is said that it can only be allowed to enter the original point below the original point, or it has been refining this sub-dimension. At the moment, the inner domain of this star giant Ding has allowed the tenth largest hole in the first step. The following strong people are free to enter."

"That kid is the seventh order of origin. Although there is a strong trench, can you still be an enemy?"

"Any force, any strong person, can make a trip! No matter who it is, as long as it can help the deity to take the kid out of Ding, the deity promises to do one thing for him. This is a commendation..."

As the words of the war-torn old ghosts are finished, the vast majority of the star-studded powers who have already dispelled the enemy with Ye Xuan in the distance have been heart-wrenching again.

Under normal circumstances, what kind of opportunity can make Qiankun owe a human affair?

Moreover, in this case, the promised person's favor, if it is still a human condition, it will be slightly derogated, and it will be ridiculed when it is sent to the outside world. Therefore, even if the reluctant person is too conservative, the war and the old ghost will definitely be proactive. This is about reputation and fame!

And the fact is just as he said, the fox is not enchanting, except for the three talents of the medicinal array, it is the horrible fighting power, but his foot is comparable to the horrible fighting power of the young invincible **** of war. In fact, I still wear it or rely on foreign objects.

If there is no such horrible star, the giant tripod, with its seven-order repair as its strength, how can it kill the war three?

At the moment, this star of the giant Ding has been sacrificed, suspended in the void, and the fox lord is succumbing to the arrogance of Qiankun's ancestors, and has to helplessly avoid the interior space of Juding.

In this case, even if the war is revived, he will not be able to use this defensive enemy again. After all, he is limited by the internal domain of the trip itself.

Although he still has trenches, warriors and even warships in the sky, if there are a large number of hunters entering Ding, there is no chance that they will succeed.

This Ding's internal domain field has been much looser than before, and it can accommodate the highest level of the ninth-order grand perfection, and the number is no longer limited.

The younger fox is only the seventh order of origin. If there are more than one hundred original points and the ninth order is completed at the same time, suddenly it will be difficult to suppress it.

In addition, there is no one or two treasures in the hands of the major forces present at the scene?

It is entirely possible to hand over to the descendants of the Ding Tianjiao, to use against the enemy or to defend themselves.

With these heavy treasures, the power and advantages of the amazing squadrons in the hands of the sorcerer's hands are equivalent to being offset, and this is a great deal!

With this in mind, the high-level members of the powerful fleet in the distance have begun to discuss privately. This scene falls into the eyes of Xuanyuan Ziyang, Duanmu Xiaocha, and Zhao Qianru, and they are really not mad at them.

In their view, the words of the warlord and the old ghosts are clearly deliberately helping Ye Xuan to hate, and the truth is bad, too odious.

The three gimmicks were full of resentment and exchanged one look. They decided at the first time. Together with the heavy treasures of the family, they entered the giant star trip. If there were no accidents, they would follow the hunting army.

And if something happens, they need to be shot, they will not hesitate to sacrifice the treasures of the family, help Ye Xuan.

It's a big deal to kill all the great powers who have entered Ding's genius, and they don't have to worry about exposure.

When I think of it, the three gimmicks are all out of the cold, and they smile at each other...

Soon, with the instructions of the warrior's ancestral warriors, the war one and the second war, the four or three emperor strongmen hurried away and rushed to Tianchenxing.

When the entire Tianshi Emperor was evacuated from the Emperor Star, all the resources of the imperial resources were brought out by the space magic weapon. These things are in the same hands as the emperor's defensive array. .

I need to use it now, I can only return, and I can't ask for the imperial war!

With the decree of the ancestors of the Qiankun ancestors in the tribe, there was no obstacle to this matter, and a large number of resources for the strategic reserve of the Tetris will be continuously sent, and then the Emperor's strongmen will personally release the squad. The huge star-like Shennong Juding is accompanied by a large universe of voids nearby, all of which are forbidden!

At the same time, everything that happened in this emptiness was also spread out at the fastest speed. Not only did the Terran technology camp be in vain, even the comprehension camp, the Second Universe, and the First Cosmic tyrant. All have actions.

Of course, the reason why they came to the news and rushed to the Tianchen Star Field was not the so-called commitment of Qiankun's mighty war, but another plot.

Whether it is the three talents of the medicinal genius of the fox, or the giant of the king, which is as big as a star, and even the mighty power of the scorpion, it is a very jealous thing.

Star Juding doesn't have to say much, but it is the heavy weapon of the people. The masters of the refining camp in the comprehension camp are eager for the incomparable, and promised some benefits. Please move the strong man of the real camp to rush.

The purpose of the second universe of the various nationalities is more complicated. They want both the stars and the foxes who have the possession of the genius.

Although the fox lord is a strong man, but now he has basically turned against the Terran technology camp, it is the Terran camp, most of them can not accommodate him, it is impossible for a fox to rush against the technology camp.

For the second universe of the Commonwealth, and even the first universe of the hegemonic celestial family, this is definitely a gift of opportunity. If this opportunity is taken, it will be able to take and take away the fox lord who has been unable to walk in the human race. The enchanting medicinal device array has three great talents, which will definitely greatly enhance the comprehensive combat power of a group!

.....

The third universe, the Terran Science and Technology camp, the immortal dynasty in the territory of the Tianfeng Empire, Ling Kunxing!

Not long ago, it was born, and it was called the sacred sacred sacred sacred sacred priest. At this moment, if the arrogant dragon was vacated from the sea of Ling Kunxing, it rushed to the atmosphere of the star.

He also learned about everything that happened near Tianchen, and finally decided to take the shot.

"Hey, this cabinet is worthy of a look. This so-called fox lord, in the end, what enchanting things, in a short period of time, it has overwhelmed the limelight of the cabinet..."

In the stimuli, Xiaoyao whispered to himself, and in the middle of it, he shot a cold mangare: "The so-called "Star Ding" is just a joke in front of the smashing boots of the Guardian."

"That kid is only the seventh-order repair of the ninth state of origin, and the Honor of the Court is already the eleventh largest sacred light, and it is stronger than the whole two realms."

"At that time, the treasure boots will break through the internal domain rules of the star giant Ding, and quietly enter it. When the first fall, it must be called the fox babies eclipsed. This is the rhythm that will be suppressed on the spot."

Chapter 3320: Seven public confession

It is also in the territory of the Tianfeng Empire of the Terran Science and Technology camp. Not long ago, it was just announced that the owner of the Jade Dragon Island, Yinxia Fairy, who has sovereignty over Longxia Star, also stalked the soul with the ancient treasures at this moment... quietly started!

Ling Kunxing and Longxia are just a microcosm.

In fact, such a scene is being played throughout the third universe occupied by the entire human race.

Even the federal tribes of the Second Universe, and even the tyrants of the First Universe, all have movements!

The First Universe, the Devil's Star, the Magic King!

A small fortress of 50,000 meters in diameter has sailed from the giant star dock of the Devil's One. The direction of going forward is clearly the natural cosmic insect oil that leads to the third universe of the Terran territory.

There are many devil strongmen in this small fortress, including even the original black mosquitoes who have been accepted as the magic slaves by Ye Xuan, but left in the Devil's Star Field.

The repair before Zuofengtai was the fourth order of the origin, but now it has broken through to the 9th order of the origin. It must have been an adventure, and the speed of entering the country is very fast.

And he, it is exactly what the Emperor Mo asked about, this time will enter one of the four magical origins of the Star Juding.

The devil who is sitting in this magical fortress is more powerful, and its status is even more important among the devils. It is actually an old acquaintance of Ye Xuan, the uncle Mo Qigong!

Mo Qigong's cultivation is the same as that of the Emperor Mo, and it was originally the tenth world of the heavens, but the latter is the perfection of the cave, and the imperial Mo Qigong is weaker. It is only seven steps of the cave.

But at this moment, Mo Xigong's vaguely diffused cultivation is a breath, but it is clearly far beyond the tenth largest hole in the sky, reaching the twelfth dimension of the void, the seventh order, and the Tianshi Empire, the Emperor's strong war, the second It is equivalent to the War 4, only two small steps are weak.

I don't know if he had hidden the cultivation before, or in the past few months, he encountered some sort of anti-day karma. If the latter, the speed of this kind of realm is too horrible, and Ye Xuan. Compared with nothing, it spans two big realms!

The reason why the Devils' group has dispatched a small fortress of 50,000 meters, even the uncle Mo Qigong has left the Magic Emperor, but it is helpless.

Everything is due to an imperial order of the Emperor of the Heavenly Kingdom, and it seems that the Emperor Yi is very interested in the terrible changes that occurred in the Tianchen Star Field of the Third Universe.

It was the first time that they had given instructions to the demon people to send an uncle, to lead the army to set off, and to sway the Tianchen star field.

Moreover, the order has even been clearly pointed out that the star giant Ding can fight for it, if it is impossible, then in any case, the genius of the genius who is known as the Pharmacist is brought to the first universe.

If this is the case, the four emperors and the old emperors who were detained in the base camp of the Tianji Nationality, the Emperor allowed them to return to half.

That is to say, as long as you can catch or successfully recruit Linghu Chong, when each generation of the devil is succeeded, the first time will be sent to the Tianji National Base camp as the hostage of four emperors, two people will return!

This kind of thing is unprecedented, and it has a fatal temptation for the Emperor.

If this is not the case, Emperor Wu Qigong will not personally go out.

In fact, in addition to the imperial uncle Mo Qigong, the Tianji nationality also sent a core high-level who also had the twelfth big hole in the void, starting with the army, as a supervising war!

Coincidentally, the core of the Tianzu ethnic group, named Sha Baofeng, has a close relationship with Ye Xuan.

He is not only the pursuer of Yingtai, but also has the vengeance of killing the father with Ye Xuan. Of course, the Tianji people are not human beings, and there is no relationship between blood and in-laws, but the reason why Sha Baofeng succeeded in awakening the consciousness of me is thus The ordinary intelligent robots have become a mechanical life, all thanks to the predecessors of a family.

In the Tianji nationality, this relationship is equivalent to the blood of the father and son of the Terran!

And the mechanical elite who made Sha Baofeng succeed in awakening the consciousness of her, and then jumped to the existence of mechanical life, was the death of the Tianji nationality in the death star whirlpool by Ye Xuan. One of the two top executives.

This person's cultivation is also horrible, reaching the 14th world of the universe, has been able to play the most powerful performance of the Blue Fighter Mech, with the help of this mech, he The fighting power that has been exerted is even comparable to the real power of the universe.

Unfortunately, in the end, it was still grievous.

Although the specific details of the matter were not spread, the blue armor that was seized by Ye Xuan and later incorporated into the glazed glazed glaze was a living sign, which caused Sha Baofeng's suspicion.

This time, he volunteered himself and took the initiative to ask the Emperor of the Heavenly Kingdom to serve as the governor, to sit in the small fortress of the Devil, and to go to the Tianchen Star Field of the Third Universe. The purpose was to see the tribe of the genius who was known as the Pharmacist.

It is best to see his second mech form of the starry sky to the armor!

Sha Baofeng believes that even if this top fighter armor has undergone subsequent refining, it is integrated into the Terran Warlord, which is the starry sky to the treasure, but if it is really the blue armor of his father, he It must be recognized at a glance.

In this way, you can determine your own killing father, who is it!

In addition to Sha Baofeng, Huang Shu Mo Qigong also secretly thought.

Although he did not know that the so-called fox lord was the emperor of the three major universes, he had an expectation. He hoped that this time he would come to the third universe of the Terran and see the rumor. The Emperor of the Emperor.

Since Ye Xuan returned to the Terran, his true identity has also been exposed. When the news was sent back to the first universe, the Tianzu people were furious, and the patriarch of the patriarch was angered and reprimanded the Emperor.

The whole demonic group is even more ambitious. They can't accept the strongest son of the black mosquito, Zhang Wuji, in any case. It is actually the ancestor of the Terran immortal dynasty.

This matter became the biggest incomprehensible in the Devil's Star Field of the First Universe, even the Devil's Mo Tiantian, and all the demons and royals including the Emperor Mo Qigong, And he is worried.

They are also reluctant to accept this. They would rather believe that the devil's group in the black mosquito family has the strongest son ever, just missing...

It can be said that the reason why Huang Shu Mo Qigong decided to personally lead the team to the third universe of the Terran, a large part of the reason is that he hopes to see the rumored Xuan Huangzi through this trip, a solution to the heart!

If he is to let him know the main target of this time, the one who has only recently emerged as one of the two geniuses of the genius, is the Xuan prince, who is the strongest sacred black mosquito he knows. Zi Zhang Wu Ji, even the other one who has recently turned out to be born, the one who is known as the invincible **** of war, is also its avatar!

I don't know how to think about it.
