Chapter 3321: An era

The third universe, the Terran science and technology camp, the immortal dynasty, the Tianchen star field of the Tianshi Empire, Ye Xuan sacrificed the Shennong giant tripod, the domineering universe of this universe!

Three days have passed!

But this star field has not only been deserted, but it has become more lively with the passage of time!

The fleets and star powers who had gathered here before did not leave. Some people were eager to move and some were conspiring. Some people were holding a purely lively mentality and staying there.

After all, everyone knows that this star field will soon have a major event, and the powerful forces of all major forces have come together. It is even said that even the federal tribes of the Second Universe and the hegemonic planet of the First Universe are In the dark, there were movements, and they sent troops to come.

Some of them may be on the way, but some may even arrive early, crouching in a void in a nearby star field.

This kind of star field, nowadays can be described as the wind and cloud, unconsciously has touched the hearts of countless powerful and powerful forces in the three universes.

Even the mighty power of the fifteenth world has determined that at least two people will be alarmed, and that the deity will come at the same time...

This kind of big event is simply an encounter and can't be sought. If it is in other distant stars, it will happen at the same time. It is just in the Tianchen domain. If you can't witness what happened in the future, it would be too regrettable. !

For this reason, after three days have passed, the warships and star powers gathered around this star field have not only decreased, but more and more.

Nowadays, looking around, it is almost full of various types of warships, drowning a vast universe of voids.

The starry sky inside and outside the battleship is countless, too lively, crowded with people...and the sea of Xinghai!

There is a lot of horror, and this is only the forces that appear on the surface of the Ming Dynasty. Some of the forces that are not suitable for appearances must be strong, such as some sensitive federal ethnic groups from the Second Universe. And the conscription army sent by the first cosmic hegemonic celestial family, etc...

For the whole three days, the top ten of the seven heavenly dynasties, including the First War, the Second War, and the War III, were all busy, and almost did not stop. Rest.

Three days ago, a large number of Heavenly War Emperors and the Imperial Army formed an elite army to come, followed by a large number of strategic reserve resources taken from the Tianshi Empire strategic resource reserve.

All are rare minerals and rare materials, and even dazzling finished magic.

These resources are all extremely precious. Even if they are placed on the Imperial level under the imperial rule, they are all strategic reserve-level materials. But this time they have been shipped in large quantities, thrown at the cost and thrown into the void. The Teijin strongmen are organized in an orderly manner and are efficiently and efficiently arranged one by one.

In the end, I disappeared into the void and disappeared. I became a base of the entire huge squad and a squad!

The Tianshi Emperor and the Imperial Army who participated in the arranging of the squad were hundreds of thousands of elites. The specific high-level commanders on the scene were the second and the eleventh. The emperor is old.

In addition, the Tiankun Emperor's Qiankun ancestors' war squad also took the whole position to supervise the matter and never left.

The void covered by the whole squad is too vast. After all, the target of the big squad is the star giant, and the latter's body shape is enough to rival the giant stars.

To ban it, the void in the distance between the stars and the giant Ding must also be included in the unique domain of the big array.

As a result, the whole squad has occupied a huge void of nearly a million kilometers, which is shocking.

From this, it is also possible to deduce the amount of rare materials and minerals that are spent on arranging this horrific array, and how amazing and horrible it is!

Even with the use of nearly a million Tianshi Emperor and the imperial military, the whole team was in a big squad, but it took a full three days to complete it completely!

Before the half-day, after the entire layout of the whole squad was completed, the Seventh and the Seventh, and the other four had the twelfth emptiness of the ninth-order grand empire, and the emperor's elders in the celestial battle Under the guidance of the war and the Tu, at the same time enter the seven main eyes of the trapped large array, then the body shape disappeared, and then invisible.

In addition, the previous three days of non-stop, responsible for arranging the whole crowd of the nearly one million strong and the imperial military elite, and more than half were left, a total of seven seventy-four Tens of thousands of people have also entered the big battle.

The 77,000-49,000 star-studded powers will be responsible for the entire array of four hundred and ninety-three small-scale and large-scale nodes. Once they are officially activated, they will go all out, no. Stop and wait until everything is over!

Throughout the squad, the infinite amount of strategic resources and materials have been invested. It can be said that the people and the people are hurting their money. The voids covered by the array of powers have reached nearly a million kilometers of horror. It's so shocking and shocking. The world.

The innumerable star-studded powerhouses who witnessed all of this in the sky have already been shocked, and their hearts don't know what to do. From a certain point of view, even if the fox lord is finally unable to escape, he also Enough to be proud.

This event will be recorded in the history of the human race. The descendants of the human race after the endless years will read all of this from the epic. A young strong man who is a genie of the human race has once provoked the three universes in this star field. The attention of the plane is closely related to the heartstrings of countless star powers...

Only this is enough to blame all the peers of an era!

"Hey!"

On the third day of the night, with the intensive and fierce humming sound quietly, the three days have been quietly suspended around the stars of the giant Ding, a large universe of nearly a million kilometers of space and a sudden Bright, strong array of light bursts instantly.

At this moment, countless star powers in the distance, clearly saw a horrific array of countless nodes and large and small arrays of eyes, and all the arrays and the size of the array are all alive, all the time. Not in transit.

All of this has formed a horrible giant sky, covering nearly a million miles, temporarily separating this void, and not being able to dial in!

The name of the trap is from here!

It means a universe of voids, and has since fallen into an invisible sky, and has been cut off from all the original planes!

The vast network of trapped and empty nets was fleeting, and countless arrays of nodes and large and small arrays disappeared instantly, and then disappeared. The whole set of trapped large arrays was finally fully activated. This vast universe of nearly a million miles, The blink of an eye will smash up, like a dream.

Even if the Tianzhao Emperor's Qiang's ancestors' war squad quietly left, and the Tianshi's old war, which deliberately stayed outside the tactics to preside over the follow-up, was sneer and vacated, with a big hand and a roaring thunder.

Chapter 3322: Hunting army

With the demise of the celestial ancestors of the Tianzhao Emperor, the Tianzu warriors who had stayed in the follow-up matters outside the tactics immediately vacated and screamed in the void, snarling: "Self From now on, until the return of the war ancestors, any powerful force can freely shoot into the stars and start hunting."

"Including those from other ethnic groups outside the domain, such as the federal family of the Second Universe, etc., so that the fox thief is guilty, everyone is guilty, in this matter, I do not impose any restrictions on the war. It will open an exclusive channel outside the trapped squad, and all the star-studded powers that have been repaired under the first-order level of the tenth largest cave can be entered alone or in teams..."

"However, the old man is here to warn first. Once he can pass through the passage of the big array and enter the star of the giant tripod to start hunting, life and death, if there is a family of arrogance, then I will not be responsible for the war."

"In addition, the thief smashed the fox into a warrior, a trench, or even a small private warship, which is not high, but has a star-to-star class. The comprehensive combat power cannot be used as a common sense. Therefore, the old man hereby advises, all It is best to join forces in the great powers of the stars, and join forces to start hunting."

"Everything is successful in killing the fox thief, otherwise if it is the body, everything is virtual!"

After that, the war one slowly looked around the powerful forces around the distance, smiled and nodded, shaking hands, the piece has been trapped in a large array of imprisoned nearly a million miles The area has suddenly revealed a space channel, which leads directly to the star of the emptiness of the central domain.

After doing all this, the battle has disappeared. When it appears again, it has already reached another small star not far from the big squad, sitting cross-legged, watching the already open space passage, sitting in the town. Here, guard the big picture!

With the advent of this space passage, the forces that were gathered around the sky in the distance were suddenly commotion, and then the figure of the strong ones gradually emerged from the camps of their respective forces. Rising up, with a thousand pride and ambition, they rushed toward the space channel that was trapped.

Most of these strong men are the patriots of the great powers of the major forces, all of whom are relatively young, but there are also some older generations of figures, but the strength is in the late stage of the ninth state, or the seventh order and eighth order. Either the 9th order is perfect, and the 10th big hole has no one.

The first to smash out is the top 16 gatekeepers and the descendants of the genius of the Terran Science and Technology camp in the field of the immortal dynasty gene nutrient solution.

For example, Bodhi Technology, Tianzun Bio, Shennong Gene from the Emperor's Immortal Star, the top-level gates of the Emperor Xuanyuan, Huangfu and Nangong of the Tianming Empire, as well as the three main gates of the Tianshi Empire are extended to the ram and the long fish.

As well as the three families of Duanmu, Wuma and Shentu from the territory of the Tianfeng Empire, and the other four Huyan family, Baili family, Pengcheng Pharmaceutical, Life Gene and other forces with the ability to prepare the eighth grade liquid.

The top-level gates and forces of the 16th National Congress of the Communist Party of China have dispatched a lot of younger generations who have been repaired in the later stages of the original. Some of them and Ye Xuan have more than one side.

Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru are also among them, and their faces are not spoken, giving people a feeling of being close to people.

The top gate valves of the 16 dynasties in the field of genetic fluids, a total of more than 40 ancestors who were later cultivated in the original point, averaging three to four people, or family forces, or

grouping each other, winking All of them passed through the large array of passages and entered the stars of the central domain.

With the top 16 gates in the field of gene liquids in the Imperial Dynasty, more than forty generations of Tianjiao, who were the first to be dispatched, all went to the stars, and the other forces gathered around the distance finally could not sit still. .

Soon there will be more major forces, the younger generations of the arrogant people have rushed out, all of them are extraordinary, full of cold and proud color, for them, this is a rare opportunity to show face.

The younger generations who belong to the major forces in the future, in their view, this time, it is the beginning of their future brilliant hegemony. With the emergence of the two geniuses of the Terran and the four generations of Tianjiao, A new era of glory has begun, and all the descendants of the geniuses are not willing to fall behind.

These follow-up plundering forces have more people in the genius, some come from the top gates in other areas of the Terran, and some even come from the Terran camp. The total number is over 100, or in groups of three or five, or soon. They all entered the star-shaped giants of the central domain through the space passages that were trapped in large circles.

Among the younger generations of the more than one hundred people of the great powers, there are some famous Tianjiao figures who are not weak. The fame is much more than the demon and the magic dust women who have just turned out before.

One of them came from the tenth house of the comprador camp. It is said that it is the close disciple of the lord of the palace. In just a few decades, it has been cultivated to the ninth big point of the original ninth order. This son is called the palace. It is said that he holds a kind of secretive technique called the crystal ball.

This method can project a picture of the other side of the other side of the other side of the surface of the plane, and it is said that this magical power is cultivated to a deep level, even Can glimpse the sky, insight into the past, the end of the gods are incomparable.

In addition, these younger generations of arrogance even have a bald-headed man who practiced Buddhism, named No Dusit, which is said to come from a mysterious Buddhism of the Terran camp.

This son is also a proud Buddha and Taoist priest since the Buddha's eternal years. It is said that he has been able to realize the three-phase transformation of the small runners to Xiaocheng.

This Buddha and Taoism can be moved before the pre-work, pre-repair of the afterlife, between the stone fire and electric light finger, robbed three lives, can be called the rotation of the reincarnation of the transformation of the Buddha.

And the dust-free son is especially good at the legendary Buddhist and Taoist singers of the Western Tianlong Zen. The lions and lions of Buddhism and Daomen seem to be all kinds of gongs, but they are more extraordinary. Power.

The so-called Tianlong Zen sing is not only a sound wave practice, but its voice belongs to Buddhism and Taoism. It can sing people's bones as soft, like a drunk, swaying the mind, self-sufficiency into gray, it is said that when practicing to the highest realm, Once the singer sings, any magic weapon and magical skills that the opponent has sacrificed will be immediately destroyed. It can be described as mysterious and magical.

In addition, there are still two younger generations who have no name with no dust and no heart. A hateful resurrection comes from a comprehension camp, a powerful demon sect. It is good at ghosts and sorrows. The robbery refers to the three major devils.

The last person is a woman named Yuxian Yu. It is said to be the body of the innate spirit. It has already produced heavy water and true thunder. The power is terrible...

Chapter 3323: Domineering

Shennong Ding, like a giant planet inland, the vast territory of the mainland!

At this moment, Ye Xuan is gloomily strolling in the area of the Ding volcano in the central area of Ding's inner space. It seems to be careless, but in fact, the mind is flying and thinking.

In the end, the sudden arrival of Qiankun's power suddenly surpassed his expectations and made Ye Xuan unable to prevent it.

Qiankun's power is too fast, although only a projection is a avatar, but it instantly collapses into a void, and the blink of an eye has come to the front, Ye Xuan did not even dare to issue instructions to the system to start the cosmic coordinate jump ability. Escape from here.

After all, it takes time for the system to start the cosmic coordinate jump ability of the attached starry sky title. In case the sky is as big as the sky, the **** palm has been photographed before, then Ye Xuan is destined to have a cup.

What's more, Shennong Ding has not been charged, and he can't leave.

This tripod and the previous situation in the remains of the drug king are different. At that time, it was the object of the Lord. Although some people remembered it, but after some trials failed, they gave up.

But now everyone knows that this trip has been refining by Ye Xuan. If he hurries away, there will be someone who will stare at this trip and make a fuss, waiting for Ye Xuan to vote for the net.

After all, this trip is extraordinary, Ye Xuan can not give up completely.

In that case, the preparation time for the other party is too abundant. Even if Ye Xuan has various cards in his hand, in the face of the concentration calculations of Qiankun's big energy level, he also plays drums in his heart. The longer the time drags, the less the time is. .

Because of this, in desperation, he can only bite his teeth and avoid the inner space of Shennong Ding.

Although there is no worries for the time being, this trip can be proved even if it is powerful and unable to move. This has been proven before it has been collected by Ye Xuan.

But it is not a long time to go on in the long run.

Can you really be able to shrink in this space?

By the same token, the longer the time drags, the more space is available for planning and planning outside, and it is even more dangerous for Ye Xuan!

"At the moment, if you want to rush out of the giant tripod and forcibly break through, you can only use the bows of the 陨天弓 or Lei Diyin. In that case, the identity must be exposed, and there will be many unnecessary troubles..."

In the muttering to himself, Ye Xuan's mind became more and more chaotic. He had planned to put Shennong Juding away, and then immediately left, and he would receive it. Before that, he would be the fourth and the thirteenth in the war. The big-eyed old guy's three-in-one injury is a very shocking result, and the deterrence is enough.

It is a pity that after all, it is still a slow step. With the projection of the powerful and powerful projections of Ye Kun, the original calculations of Ye Xuan have all been lost, but they have also fallen into a dilemma.

Three days passed by, during which Ye Xuan also calmed down and simply passed the time of cultivation, and planned to wait until the state of mind was completely calmed down.

However, at this time, just as he had just finished this cultivation, when he was blind, the sky above the space inside the tablet, the piece of colorful clouds, the beautiful dreamy sky, but suddenly there was a road. The figure of the strong star has fallen into the land and landed on the land of the Ding interior.

There are some familiar faces, such as Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks, including the Oriental scales from Shennong gene, all of them are the top 16 gates and forces in the dynasty gene liquid field. The ancestors of the ancestors.

In just a few minutes, five or sixty figures have been descended. After landing, they are divided into two groups, each with about 30 people.

One of the descendants of the three major gates of the Tianshi Empire, including the Oriental Scale, including the Tujia and Gongyang families, is among the ranks.

The other team is headed by Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, and there are nearly 30 people, but the rest are almost strange faces. Ye Xuan has not seen it. Seeing the guys smile on the girl frequently. The courtesy of the courtesy, most of my heart has other thoughts.

Just as Ye Xuan's **** was on the scene, there was another strong figure in the colorful canopy at the top of the head. This time, there were more people, more than a hundred.

These hundred strong players are basically very strange, and Ye Xuan basically does not know.

Soon, the last hundred of the strongest descendants came together after falling to the ground, and finally formed four teams, all of which have more than twenty people.

The leaders of the four teams are the ancestors of the ancestors of the sacred palaces from the Ten Heavenly Palaces, and the ignorance of some secret Buddhas from the comprehension camp, the little devils of a powerful demon sect. Fighting.

The last person is said to have the body of the innate spirit, the jade fairy who claims to be the first beauty of the comprehension camp!

Although these four are younger generations, they have become famous very early in the Terran camp. Their talents are quite extraordinary. If not, the more than 100 strong followers will not spontaneously gather in them. People are around.

In less than ten minutes, the original Shennong Ding interior space, which was still quiet, has more than one hundred descendants. In addition to Xuanyuan Ziwei and Duanmu Xiaocha, a very small number of people have only cultivated one or two orders. All of them are the late stage of the origin of the seven or eight steps.

It is the ninth-order grand perfection of the original point of the top of the arrogance, there are several people, the palace is heartless and no dust, and so on.

In Ye Xuan's case, these guys are clearly arrogant, because Shennong Ding has long been refining by him, belonging to Ye Xuan's private possession.

"Even all of them are the ancestors of the original generation of Tianjiao? It's so loudly coming, is it..."

Seeing that more than a hundred young strongmen had arrived, they quickly divided into six teams to conduct a search. The look on Ye Xuan's face suddenly became more and more weird, and the vagueness had already guessed the other's purpose.

Then, a sneer of laughter quickly appeared: "In this case, the Lord is not very polite, just take advantage of this opportunity to refine the hand, the path of physical evolution should have been a lot of fighting, in the blood and fire. Growing up in the temper, these guys come too timely, if you are outside, where to find more than a hundred younger generations of the original point to accompany the refining!"

When the words fell, Ye Xuan suddenly waved his hand, and as a faint purple man rushed out of his eyebrows, he would rise in the wind. This time, the eternal glass scorpion was sacrificed and it was the second mech form. Zhang Gao is suspended like a small mountain in front of Ye Xuan.

In the thought room, Ye Xuan stepped into the mech, no delay, turned and swept away to the northeast direction of the Dingnai space.

Among the six descendant squads that were previously searched separately, the northeastern region was responsible for a top-level squad of the imperial dynasty headed by the Oriental scales, including the three days of the extension home, the ram family, and the long fish family. The younger generation of the empire's native gatekeepers, all in this squad, Ye Xuan is directed at them.

He decided to clean up the old monkey's little monkeys and then go to the other five teams. Today, he wants to be aggressive and push all the enemy...

Chapter 3324: All suppression

Ding Nei Space, in the middle of a mountain forest, the ancestors of the more than 20 dynasty's top gates headed by the oriental scales, are rushing at the low altitude above the forest.

For this space inside the Ding, everyone is very curious, they are basically the first time to enter this place, looking forward to the four-phase look, while searching for the figure of the Lord of the Fox, while admiring the strange scene of this secret place.

"A very strange drug king, Ding Ding, I can't think of a vast space in Ding, it is like a secret, the earth is too vast, not only there are all kinds of beasts, but also a lot of spirits and grasses, but unfortunately By the time of maturity, otherwise the harvest will not be small..."

The first time I entered the Ding Nei space, plus the more than 20 of the top-ranking gatekeepers who were behind me, the Tianjiao were the only ones. The Oriental scales suddenly gave birth to emotions.

Shaking his head and screaming: "Unfortunately, because the fox was not able to come in the last time, otherwise the drug king will not fall in the hands of the fox, so maybe the lord will refine it. Oh, miss it. Opportunity!"

"If you really take a fancy to this tripod, it is not too late! The premise is... you have this ability to suppress the Lord!"

Without waiting for him to finish the words, there was a sudden and smug sly drink in the distance. A ten-foot-tall, like a hill-like purple figure has come very fast, and it has been reflected in the oriental scales. Waiting for someone else's sight.

It is Ye Xuan!

The oriental scales scared a big jump, and the complexion was pale as paper. The heart was even more bitter, and it was too weak to sneak into it. When I got it, I met the Lord.

The descendants of the more than 20 top-ranking gatekeepers behind them are also changing face-to-face. Many people have violently rushed out and don't hesitate to sacrifice their magic weapons.

For a time, the sky above a large mountain forest was immediately brilliance, and various magic weapons shook the unique powers of Huimeng to the Ye Xuan.

These guys did not participate in the previous battles that occurred in the sky inside the Tianchen Star atmosphere. They never saw Ye Xuan's fierceness. They basically came from outside the Tianchen area in recent days.

It is the three top-level gates of the Tianzhan Empire, and the princes of the priests and long-lived fishers. They have only recently been recalled by their respective owners. They are completely unfamiliar with Ye Xuan!

At this moment, there are many people, and the cultivation is even stronger than Ye Xuan. These guys are actually fearless. The magic weapon is also directly surrounded by Ye Xuan, one by one excited. Mang, the excitement only screamed.

With the exception of the Oriental scales, his face was pale and his body shape was rapidly retreating. In the blink of an eye, he had already avoided the followers of a group of followers, and the fine mans were flickering, and he was clearly prepared to withdraw at any time.

"There are only future generations who will plan to be old enemies, but since you are looking for death yourself, this is the main reason for all the people, all the people will be suppressed!"

[illegible]

"Booming!"

"boom!"

"boom!"

"puff....."

• • • • •

The thunderous explosion sounded in a big moment, like a small mountain-like mech-sized giant like a tiger into a flock of sheep. It's hard to have a combination of giant punches. The guy who was bombarded had no suspense and wanted to spurt blood on the spot. The bones are broken and flew away.

It was the magic weapon that swept through the sky, and some of them were blown down by Ye Xuan. Although these guys came from the top gates of the immortal dynasty gene liquid field, they were all descendants of the family, even the magic weapon. The grade is higher, and it is absolutely impossible to reach the starry sky to the treasure level, and Ye Xuan's immortal glass is not at the same level.

More than twenty figures, the blink of an eye fell a little, half a minute before and after, this so-called hunting squad completely collapsed the military, the rest of the people who have not been injured before, crying and crying, even waved. The magic weapon of the sacrifice was not taken care of, but it was turned around and ran.

As for the oriental scales, as soon as the first time, a fusiform magic weapon was sacrificed, which was like a fun dog.

The sudden outbreak of this war broke out faster.

With the few surviving guys who were headed by the Eastern scales, the body shape of Ye Xuan also fell from the air. On the **** side of the forest in the line of sight, seven or eight bodies lie horizontally. All of them have broken bones and folds. Although they have not died, they have been seriously injured. In the short term, they don't want to work with others.

In addition, there are more than 20 pieces of statutory stagnation in the vicinity of the sloping land. Although it is impossible to have a heavy treasure from the starry sky to the treasure level, this guy is, after all, the patriot of the dynasty's top-level gatekeepers, and the magic weapon of the whole body cannot be too bad. Basically, they are all legendary in the sky, and there is even a flying sword and a red copper gilt, which is an epic treasure of the stars.

Although the quality is a little bit worse, but for these guys, it is indeed very valuable, but unfortunately in the eyes of Ye Xuan is just a better than nothing.

"From now on, you are the prisoners of the Lord's Lord, giving you a time to heal yourself, then follow the Lord and leave, to suppress all enemies!"

Waving all the more than 20 pieces of magic weapons scattered around the mountain forest into the immortal world, Ye Xuan cold eyes will lie down on the ground, the seven or eight figures that are mourning each other swept through.

Although the tone is dull, it is inexplicably revealing a bit of cold: "If there is a pillar after the incense, who can't stand up, then you don't have to leave, stay here forever..."

The few people on the ground were frightened. In less than a minute before, they had already been stunned by Ye Xuan's fierceness and enthusiasm. At this moment, there is no doubt that he dared to kill the killer. Thinking about it, I quickly got up and got up and took out the healing medicine.

After pouring the entrance, I will panic and take time to start healing!

I have to say that the potential of human beings is indeed endless. Ye Xuan originally thought that these guys had to at least have to work hard to regain their ability to move. The so-called one-minute incense time limit is just a casual statement.

At the end of the day, it took most of the time to spend most of the incense. The eight guys who were wounded in the knees all stood up in succession. Although their faces were still pale, their looks were so good that they reached the extreme.

No one even dared to ask Ye Xuan for a sentence or ask for anger, and without exception, all of them honestly stood by and stood in a row, one by one, and they dared not to accept the situation.

"Okay, as long as you honestly don't think about running away, this Lord promises that you will never hurt your life, otherwise..."

Not waiting for Ye Xuan to finish the words, in the far southwest of the forest, a violent sound has suddenly come...

Chapter 3325: Tianlong Zen Sing

The reason why Ye Xuan wants to leave these eight prisoners of war is actually because of a flash of light in the brain.

At the moment, he is trapped in the inner space of Shennong Juding. Dingwai must have many powerful people from all major forces. In the face of this dilemma, Ye Xuan has not yet thought of a solution.

However, the hundreds of ancestors of the ancestors who had come to the place not long ago, but let him suddenly have an idea, although the grasp is not great, but at least it is a feasible strategy, in Ye Xuan Right, and try it.

These more than one hundred rude intruders come from different forces, but they are young and have the ninth state of origin. They are basically the best in the young generation of major forces.

If they can capture them all, then Ye Xuan will wait for more than one chip, at least not as passive as before.

In the end, if you really can't think of other ways to solve this difficult situation, you will not be able to make a big heart, and put all the hundreds of ancestors of the ancestors into a single sign and rush out.

At that time, the older generations who waited in the periphery of Dingwai will have some taboos, and the time that Ye Xuan needs to fight is actually very short. It is enough for him to suddenly take Shennong Ding. Revenue in the body, and then immediately start the cosmic coordinate jump ability, and instantly smashed away!

For this, the old guys outside are not aware of it. Therefore, in Ye Xuan's view, if a large number of amulets can be rushed out in the hands, the outside forces are too late to defend, and the short ten-day time is still there. Opportunity to win!

When they reacted incorrectly, Ye Xuan was afraid that he had already collected Shennong Ding and succeeded in being far away!

However, in order to make the old things outside the taboo, the number of prisoners controlled by Ye Xuan must be maximized.

Just as the thoughts in his mind flew and quickly calculated the details of the matter, the distant air in the southwest of the mountain forest, a violent violent sound, just happened to come...

"Like the fox thief, come to death! Buddha no dust today will definitely overtake you! Hahaha..."

The mouth is a small thief, and the sound of his mouth is going to surpass himself. It is the temper and the fear is also to blow up the nest, let alone Ye Xuan?

He was angered in an instant, and the squats were fascinating, and he turned to the southwest.

In the line of sight, more than twenty figures rushed into the air, and the positive speed rushed in. When the first person was a bald-headed man with a very savvy figure, this person claimed to be the Buddha, and he should have been a disciple of a Buddhist monk in the comprehension camp. .

"Is it even the size of the sect of the real camp? Have you come here? Is this a poor master so bully, whoever wants to kill a knife?"

Wrinkled, Ye Xuan sighed a little, his face was colder, his heart angered and his fists were itchy!

With such a delay, the hunting squad in the southwest has approached more than ten miles. When the first bald monk and other people almost simultaneously, or sacrificed magic weapons, or used magical means, they did not face it. Has been shot.

"Destroy the Moon!"

"The front is like a tiger! You can't! Tiger!"

"Dragon screams through the sky..."

"What are you doing?"

With the violent screaming of this road, in the southwestern midair of more than ten miles, there were a few brilliant magical rays coming out of the way. The most eye-catching one was actually a stream of gold awns.

Its speed has reached its peak, and the blink of an eye has already crossed nearly half of the distance. When the arrow passes, even the void is torn apart along the way, and the unconstrained edge of the Mo Kefeng front makes Ye Xuan subconsciously associate. It's time for his **** bow!

This meteor-like golden stalk is from the hand of a green robe man on the right side of the bald monk. Although this man is not amazing, the odd-shaped giant python that is held in his hand is quite extraordinary.

Not only did the grade reach the starry epic level, but the quality was almost incomplete. Even Ye Xuan was quite active. After all, he didn't need it, but he could use it to deal with Xuanyuan Zizi and Duanmu Xiaocha.

What he didn't know was that this golden giant python was not the thing of the man in the green robe. It was the treasure of the treasure of the sect behind the guy.

It is said that it is a collection of three hundred and sixty-five two Western Taiyi real gold smelt, shaped like a scorpion, contains five golden pills, a medium-green spring, sent and received by the heart, specializing in breaking the evil fire evil smoke sand, shot of a golden pill Blasting, a large area will be swept away in an instant.

It is a pity that this treasure has already entered the magic weapon of Ye Xuan. Today, it is destined to change the door, and it is easy to change the owner!

In addition to the golden giant python, this one of the more than 20 strong men who are approaching the hunting squad, and the bald-headed monk who took the lead, made Ye Xuan quite surprised and saw a few more eyes.

Although Ye Xuan does not know what the so-called nine-day ten-day Tianlong Zen sings, but the Buddha's six-character mantra can still understand, just now, the bald-headed monk is clearly thundered and thundered out the six-character Buddha!

The bald-headed man was originally awkward, and the image was quite a bit speechless. But at the moment, with the six-character buddha in the mouth, the color of laughter on his face has been fully condensed, and there is quite a sense of solemnity.

When the storm fell, the bald monk did not receive the sound. After the six-character Buddhist scriptures, the continuous sounds of the Taoist voices were successively transmitted. In the vagueness, there was a holy Buddha light, which appeared in the body at this moment. Out of the way, Ye Xuan was unable to prevent it. For a moment, he was able to see God, and his consciousness was inexplicably stunned for a moment.

The nine-day ten-day Tianlong Zen sing is not just a kind of Buddhism singer similar to the sonic attack such as the Daomen Griffin. Its power is not the same as that of a small one.

From the beginning of the singer of the singer, the singer of the singer of the singer, it is the introduction of the famous singer of the singer of the singer.

The biggest feature is that whether it is against the devil or the devil, it has a miraculous effect. When singing to a person, it can sing people to be soft, like a drunk, swaying the mind, and turning into a gray.

As for the effect of the demon on the singer of the singer... I am sorry, even the bald monk has no knowledge of the dust itself. He is far from being able to sing the magical demon in the cultivation of the Buddha's sacred secrets. Degree!

At this moment, the reason why Ye Xuan suddenly lost his consciousness, the consciousness is a bit stunned. The root cause is the effect of the insulting spirit of the sound of the Tianlong Zen sing in the mouth of the bald head!

If you fall in the usual time, with Ye Xuan's state of mind, you will soon be able to wake up suddenly, and you will never be addicted to it. But now it's different, even if it's just a few moments, for him, it's very possible. It is fatal.

Because the golden robes of the man in the green robe raised his hand, it was also a moment of emptiness across nearly ten miles. The blink of an eye came to the front and pointed to the left chest of Ye Xuan, which was less than ten feet away!

It's also at this moment, just when everyone thinks that Ye Xuan will be seriously injured in the next second, when it changes, it suddenly breaks out again...

Chapter 3326: Mental reversal

Just as Ye Xuan was stunned by the bald-headed monk and the dust-free nine-day ten-day Tianlong Zen singer, the golden eagle arrow that was shot by the man in the green robe was raised in the sky for nearly ten miles. Then I shot it in front of me, and I was looking straight into Ye Xuan's left chest. In the latter's brain, I was unexpectedly sounding a familiar system prompt.

One after another, it was an instant that I was awakened by the heart of Ye Xuangang's confusion!

"Hey, congratulations to the host, the level of the spiritual source is upgraded! The current level: seven!"

"Hey, congratulations to the host, the spiritual level of the nuclear level is improved! The corresponding mental skills and secrets are upgraded to a level!"

"Hey, congratulations to the host, gain spiritual power! Spiritual reversal: Instantly capture and understand the energy trajectory, and exert influence with spiritual power to achieve an instantaneous reversal of the energy trajectory! The specific effect and success rate depends on the level of this magical power! Current level: Beginner! Is it activated immediately?"

Source level upgrade?

How can this be!

As consciousness suddenly wakes up, Ye Xuan's first reaction is whether it will create an illusion!

His spiritual source of nuclear was originally the sixth level. Among the entire group of demons, second only to the demon emperor, if the system sounds in the brain is not an illusion, is it the spirit of his mind? The source nucleus has evolved again and again, becoming the second seven-level source nucleus of the current world of the Devils?

But all this is not scientific at all!

The evolution of the devil's spiritual core is extremely difficult. It is the first generation of the emperor, but only reached the eighth level. There is still a distance from the legendary nine-level source.

Even if Ye Xuan encounters again and again, it also consumes a lot of devil's brain nucleus and sorcerer, even multi-nuclear crystallization, and so on, which the general devil can possess, to improve the quality of his spiritual source, but until then, he The spiritual source core has only reached the sixth level.

Although he did encounter two episodes in the spiritual source of nuclear before and after, until now, Ye Xuan did not understand the existence.

First, the madness of the Emperor, as a World of Warcraft, can have the spiritual source of the magic talent has been enough shocking, but the spiritual source of the old goods has actually reached the eighth level of terror, it is really no reason.

The more natural one is the wretched mosquito, and the old thing in Ye Xuan's impression is now mysterious next to the existence of a headless baby corpse, and its spiritual source core has reached the ninth level. More than the first generation of the emperor, this simply does not know!

But apart from the two existences that cannot be robbed by common sense, all other devils, including Ye Xuan, the invading human being, want to make the spiritual source nuclear evolve and evolve, it is not easy, there must be efforts And accumulation, but also depends on the opportunity!

Now, Ye Xuan is stunned by the heart and mind, and immediately after the consciousness is clear, it has inexplicably ushered in the evolution of the nuclear core in the brain...

This is more bizarre and stranger than the singularity of Jinshan's head. If everything is taken seriously, the root cause is mostly related to the sudden sudden surprise of his own consciousness.

As these thoughts flashed in my mind, Ye Xuan vaguely understood.

Obviously, I am blessed in disguise!

The opposite of the bald monk's Tianlong Zen singer is really effective, but there is some unimaginable unexpected effect on Ye Xuan. The sound of Zen singing affects his spiritual strength, causing a sudden explosion under his oppression. Eventually triggered the evolution of the source core!

Of course, the reason is really not so important. For Ye Xuan, the most important thing is the actual gain of this time.

The source nuclear metamorphosis, the evolution of the seventh level, the first direct benefit is that Ye Xuan's spiritual strength level is raised, the unexpected joy is because this time the source nuclear transformation, all the spiritual strength skills and secret skills he has mastered, actually All of them have improved their ranks.

Before the slave secret was only the primary, now it is promoted to the intermediate level, and it will be better when it is necessary to condense the slave again.

In addition, the two kinds of attacking secrets, the annihilation spear and the ruin vortex, and the two defensive secrets of absolute shock and perfect shock, the previous level is also the primary, and now all are promoted to the intermediate level.

There is also spiritual lightning, before the primary, now reached the intermediate!

As for the mental crushing and spiritual charm, all of them were intermediate, and now they have reached the advanced level!

The above is Ye Xuan's previous possession of spiritual skills and secrets. Although there are attacks and defenses, there are even spiritual thunder and lightning techniques that use the mental power to launch mid-range attacks, but none of them can achieve the supernatural level. .

Before his spiritual nuclear evolution evolved to the sixth level, Ye Xuan had hoped to acquire a spiritual skill of supernatural powers, and finally disappointed!

But this time, he finally got his wish and got the first kind of spiritual power skill that can be called supernatural power. Although his level has just been acquired, it is only primary, but only from the name

of his mental reversal, this spiritual power magical power The power of power must be extremely extraordinary!

Through the general introduction of the system prompt tone, Ye Xuan has basically had a bottom in the mind, and if it is not unexpected, the effect should be similar to the space law of the empty space.

The names of the two magical powers, such as the resurgence of the stars and the smashing of the mountains, are the sacred sacred sacred sacred sacred sacred sacred sacred sacred sacred sacred sacred sacred sacred sacs. When I was in the exhibition, I was already jealous. I didn't expect to have a kind of spiritual power that is similar to the resurgence of the stars.

He can't wait to try his power, now is the best time!

All this is long, but it flashes like Ye Xun's brain. It is almost the moment when his consciousness suddenly wakes up. An invisible spiritual force has stirred up from his mind, facing the head. The golden scorpion shot came and went.

"squeak....."

The sharp, slightly squeaky sound of the teeth suddenly sounded.

Then, the golden 弩矢 is like being moved in the direction. It was originally directed at Ye Xuan's left front chest, and the distance was less than three feet.

But at this moment, with the sharp and sharp squeaking of the Lord, the singularity of the golden glory was suddenly stunned. After Jin Jin's quick flash, it was turned directly to the green robes in the far midair. The man fired away.

The transition between them is like a flash of light, it is more like a turn of the stars, no traces to follow!

"call out....."

"boom!"

The sound of the suffocation suffocated, and the young man in the green robes who had just shot this golden squat in the air couldn't wait to prevent it.

With a slight blast, the Qingpao man was shot in the blink of an eye, and a **** fog was blown out in the air. His little left shoulder was smashed, and his left arm was held. Also detached as a whole, falling to the ground below...

Chapter 3327: Buddha light body is also awkward

"puff!"

The Qingpao man opened his mouth and squirted a blood arrow. The consciousness was lost under the serious injury. The whole person fell into a coma, falling down with his half-armed arm that was already isolated, but still holding the golden bow.

At the same time, dozens of screams filled with sorrows, and they immediately sounded. This scene was too sudden, and the geniuses of the gang of comprehension camps behind the Qingpao men were shocked and unacceptable!

"God, what happened? Is it my eye?"

"The golden cockroach is about to get into his left chest. He suddenly turned around at the last moment, just joking..."

"How is it done? This ability is too horrible, and it is extremely scary!"

"The Qingpao's use of the heavy treasures is inexplicable. What are I going to do? Can I still shoot before I figure out what is different?"

.....

Even the bald monk who was singing in the singer was shocked, and the sound of the sing in the mouth came to an abrupt end, but his mouth was still open, and he subconsciously swept the body of the Qingpao man who was falling down. The face is dull.

After a full breath, he recovered from the body, and his face flushed, and the guys who turned to the rear mid-air screamed and screamed: "What are you doing?" Hurry to save people!"

The voice has not yet fallen, and it has been twisted again. The face is solemnly looked at Ye Xuan, cold channel: "Sure enough, it can be called the existence of the enchanting world, although exaggerated, but you still It's a bit of a skill, but I'm looking at it before I'm young!"

"Unfortunately this can't change anything, no matter how you did it, but there is a little bit of awkwardness but you can be sure... Today, you can't escape!"

"Hey!"

The next moment, with the dustless hands raised a little eyebrows, from within it actually spurted a little purple gold mans, the wind will rise, and finally turned into a baby-sized purple gold 钵, hanging over the top of the dustless head , pouring out the endless purple gold and secluded, lingering against his Buddha's clothes.

Just like Buddha light, it has completely covered its body.

For a time, even his body shape was under the highly textured purple gold curtain of the main layer, which became a little embarrassing and blurred!

"This treasure is called Zijinyu. It is the treasure of my Buddha's defense. Although it is not up to the starry sky, it is also an epic poem of the starry sky."

[illegible]

"Are you... desperate?"

In the last sentence, no dust is clearly ridiculous and ridiculous, confident, as if playing Ye Xuan as a rat, and he is the big cat that only suppresses the old mouse.

Ye Xuan smiled, because he suddenly felt that the bald monk was really intimate!

This time, the mental power that I just got has already tried the power. At this moment, Ye Xuan is trying to try out the kinds of mental skills and mysterious skills that have already been mastered, but this time has improved the level. When he decided to try the one first, the intimate monk did well in preparation for the work early.

Since people take the initiative to ask for a human target, it is disrespectful!

Ye Xuan grinned and smiled, and instantly decided which kind of mysterious technique to use.

In this case, the spear of annihilation is the best choice!

This skill is a kind of unique way, which compresses a large amount of spiritual power to the extreme, and makes its density infinite, turning into an invisible and inferior spirit spear to attack the mysterious technique.

When he was only junior, he helped Ye Xuan to smash the forbidden shield of the altar in the depths of the underground cave of the magic mountain star, so that he could get the blood corner of the soul that was later built.

At that time, Ye Xuan's spiritual strength was only the fourth level.

Today, Ye Xuan's spiritual strength has reached seven levels, and the level of the annihilation spear has also been upgraded from the previous primary to the intermediate level, and the power can be even more horrible.

At least in Ye Xuan's view, the Buddha's light, which is the body of the bald monk, should be completely free of problems!

"Escape your sister and escape, did the Lord say this?"

After flipping his eyes and replied to each other, Ye Xuan then grinned and said a word that made everyone sullen: "But look at your intimateness, this Lord is not with you." Care, another... thank you!"

The same is true of the words, he has fully operated to understand the spiritual power of the sea.

In the next moment, the core of the spiritual source suspended in the mind of the brain suddenly spun up, faster and faster, pouring a lot of spiritual power, and quickly gathered and compressed in the sea of Ye Xuan's knowledge.

A short period of time, the seven-level spiritual power that emerged from the spiritual source of nuclear has reached a level of terror, which is that Ye Xuan's spiritual core has evolved to seven levels, and the total amount of spiritual power is It has been a few times in the past, otherwise it will be a big burden for him.

In the blink of an eye, a tiny spiritual cluster formed by the ultimate compression of a large number of spiritual sources has been formed. Without any delay, it will be shot from his sea of consciousness, like a heavy hair with infinite density, facing forward. The airborne suspended dust is lasing away...

"Zi!"

This annihilation of a large number of seven levels of spiritual power is too thin, the cluster is like hair, the density is horrible, and the diameter is small enough to be neglected.

At this moment, Ye Xuan urged the brain's endogenous nuclear spurt to go all out. Because the speed is too fast, although it has issued a sharp broken sound, it does not last long, because it blinks to the front of the dustless body. The target is over.

"Hey..."

Like the sound of mercury leaking out of the ground, the dust-free body surface of the layer of the body of the purple gold Buddha light, the blink of an eye disappeared, the purple gold treasure hanging on the top of the head was also obviously affected, immediately glory, its The energy domain field seems to be disordered and is no longer controlled.

Falling down directly, slamming on the shiny, shiny head of the dustless, a huge convex bulge quickly tomb, this brain is really hard, the purple gold falling, Actually like gold and iron.

Lian Yexuan felt a little surprised. He stared at the big convex bulge on the head of the dustless head and sighed for a moment. He sighed and sighed: "Don't you have the ancestors of the Buddha's ancestors all over the pack, is it this way?" I have to say that the Buddha is the Buddha, and I don't mention it for the time being. This head is really not a porcelain. It's no wonder that it's no wonder..."

"puff....."

The voice of Ye Xuan's words was just beginning, and the dust-free body of the body-protecting body of the Buddha's body had already spurted a blood arrow.

The annihilation of the spear is the ultimate compression of a large number of pure seven-level spiritual strength, in addition to a slight break in the sound when shooting, there is no trace to follow, he simply avoids.

In the face of the horror penetrating power of this annihilating spear, he has a Buddha light body, and it is also awe!

Chapter 3328:

At this moment, a blood hole that is a lot thinner than the toothpick, appears in the middle of the chest without dust, and is brightly lit before and after. This is what the annihilation spear has passed through.

Don't look at this small hole in the hole, but the huge spiritual power contained in it is rapidly spreading after entering the body. Now it is completely eroding the body of the dustless, making him faltering. The feeling of being indulged in the body by an invisible force is not a general pain!

Let him have no time to fight, no time to take care of it, powerless!

"What power is this in the end? It is not the cultivation of the monk, nor the power of the gods. It is not the power of the flesh and blood. It is like...the spiritual power?"

Forced to endure the body is like a violent hurricane is generally invisible to the invisible force, no dust and pain to the face of the convulsions, with a large convex bulge of bright brain covered with fine sweat.

Staring at Ye Xuan gnashing his teeth, when he said that he was finally stunned, he finally understood it. He took a sigh of relief and suddenly exclaimed: "Yes, it is definitely spiritual power, let fox rush, you not human....."

The reason for this is that it is awkward. The original meaning of the dustless is that Ye Xuan is not a human being, but a devil, but the shock of his heart is too strong. Suddenly, even the measures of discourse cannot be taken care of.

"You are not a human! You are a thief!"

Ye Xuan understood what he meant, but his heart was still raging, even when it was broken, he yelled aloud!

Until then, the more than 20 retired camps behind the dust-free camp, the ancestors of the ancestors, finally realized what had happened, and they were exclaimed again under the violent shock.

"I seem to have missed something. The state of no dust is a bit wrong. How did the layer of purple gold body protector suddenly collapse?"

"Do you want to stop the body and the Buddha's light is broken? Are you a cross-eyed eye? Even the one that he just sacrificed, the purple-gold Buddha hanging above his head is under control, accidentally falling... What? What is the top of the brain without a dust? Like, the oil shines brightly, and it is actually a big convex bulge!

"It's too weird. What is the opposite of the Linghu?" Two shots in succession, the first shot of the golden robes shot from the green robes, followed by the collapse of the dust-free body care Buddha, the big convex on the head The bags have been pulled out!"

"The key is that we don't even know how people do it. It all happens in front of us, but there is no trace at all. So that the fox rushes to the opposite side of the void and does not move. It easily defeats the two great arrogances. The means is too sinister. Human creeps!"

"Well, he finally moved, waved a giant punch, and slammed into the dustless... My God, no dust, no fools? I have never resisted, and he was blown away by dust!"

"It's too fierce. It's just a mech killing. Even the dustless ones have been shaken by that fierce anger? There is no desire to fight back!"

"Run fast, the mech kills the horse and comes here..."

.....

Not far from the front, after turning a blind eye to replied with no dust, Ye Xuan did not hesitate, and under the sway, the giant armor of the ten-footer smashed into the dustless front.

Needless to say, the horrible giant fists that are not much smaller than the water tanks are smashed.

"boom!"

"Hey..."

A scalp and heavy scream came out, and then the soundless wolf screamed in the throat of the dustless, facing the horrible giant punch that was thicker than his figure. The child could not resist the loss of the Buddha's light body.

After a punch, the bones were broken and the bones were broken. The body was cracked with a lot of blood, and the blood splattered. The whole body almost burst.

In the tragic sound, his figure also quickly fell to the ground below, following the footsteps of the man in the green robe.

The first person of the younger generation of a mysterious Buddhism in the back of the camp, before the birth of the demon and the magic dust, was known as one of the ten great arrogances of the comprehension camp. It should not be so fragile and vulnerable.

The key point is that he was extremely determined, and Zijin, who has always relied on the body to treasure, was too disappointing. Not only did the body-covered Buddha light burst out, but it fell directly on his head and took out a Large convex hull.

For the arrogant arrogance, although it is a Buddhist disciple, there are some people who like to wear clothes in the weekdays. This is already enough, and at this moment, he still screams in his body, ruthlessly afflicting each The seven-level spiritual strength of an inch of flesh and blood cells, he is completely out of state at the moment, and has never been weak.

Therefore, it was so easy that he was put down by Ye Xuan, and his mouth screamed, and his white eyes turned to the ground below.

"It turned out to be a wild wolf in a shackle! The model of the man in the weekdays was so eager to pull the scorpion, what the bottom is exposed, this is really unfortunate." Hahaha..."

A punch will drop the dust without dust, and Ye Xuan's heart will be big and cool, and he will look forward to the sky with a little distant look.

In the line of sight, the 20-year-old compradors of the squadrons who had been following the team without the dust and the green robes were actually pale and stunned like birds and beasts.

These guys were frightened. The dustless and green robes were the strongest existence of their group. The means were even more extraordinary. However, they were bombarded by opponents in a face-to-face time. In the end, how did people do it all? They didn't figure it out until now.

This kind of strangeness is chilling. At this moment, the younger generations of these more than 20 comprehension camps have long been fighting for nothing. The only thought in the heart is to leave this area as soon as possible.

The opponent is too ferocious, too perverted, and enchantingly not like people!

"Don't rush to go! Just one of you is not all powerful, arrogant?"

Ye Xuan's figure was swaying, and he went straight to the past. The loud laughter sounded again: "Reassured! This young master has always been convinced by virtue, not what you are! At least I can guarantee, absolutely not playing. Hey you! Hahaha..."

"boom!"

"Hey..."

The big laughter has not yet fallen, Ye Xuan has already chased one of them behind him, the giant boxing is arbitrarily blasted, the other side spurts blood in a moment, and when the figure falls, the familiar wolf screams also sounds in time...

Opposite of all this, the eight guys who had been captured by Ye Xuan in the past looked at each other in the distance, and the idea that the mind had always survived the opportunity to escape was finally completely dissipated at this moment.

"This guy is too ferocious, it is just a killing of God, the key is still so shameless, it is so violently like this, actually still not screaming and swearing to serve people..."

Seeing the poor guys who were fleeing in the distance, there was another second in the blink of an eye, and the same screaming voice, one of the eight, was heard in the mouth without suspense. The guy looked pale and took a sigh of relief.

Weakly said to the other seven brothers and sisters: "This kind of fierce and shameless guy, we really can't afford to be offended, or be honest and be honest, if you don't escape and get caught, most of them really want to break through the dice. It!"

The rest of the people were so deep in their minds that they nodded frequently...

Chapter 3329: Joint fleet arrival

"boom!"

"Card!"

"Hey..."

Like a small mountain

Nowadays, this is Ye Xuan's 20th shot. From the beginning of the pursuit to the present, it has been completed within a minute.

The immortal glass armor of the star-to-star class is amazing, and the second mech form has anti-matter kinetic energy propulsion device. Once started, the speed of Ye Xuan is doubled.

However, the gangsters of the martial arts camps that fled from the squadrons, because they saw the green robes and the dustless singers, were suddenly defeated in a moment, and they were already chilling and fighting, and once they were caught up by Ye Xuan, they hit a fist. There was no resistance at all.

The last punch hit, the same crack of the bones rang, and Ye Xuan was used to it. Then it was a wolf howling, and the twenty-fourth comprehension camp's descendants Tianjiao Ruojin Paper, the figure fell to the ground.

At this point, the hunting squad was completely annihilated. If it was eight people who had been in the previous team, now Ye Xuan has captured 32 prisoners of war. The identity background is extraordinary. If they are brought together, how much can be a little amulet. It is.

But this is not enough. According to his plan, everyone who enters the inner space of Shennong Baoding can not be spared, and there are four hunting squads to solve!

"Give you a time to heal the fragrant incense, since it is a prisoner of war, you have to follow behind the Lord, and I have been conquered together. After a column of incense, there is no ability to restore action, killing innocent!"

Standing in the middle of the kilometer, Ye Xuan turned around and looked around. The line of sight swept over the twenty-four captives scattered in different directions on the ground and said the same words as before.

Not far away, the eight guys who were captured by Ye Xuan had slipped over at the first time. At this time, their hearts were already convinced. Don't look at Ye Xuan's only ninth-order origin. However, after wearing this stunning cross-hair to the treasure-level armor, his real combat power has completely surpassed the original point, and he has been able to fight across the realm of the big realm and the cave.

In the face of this existence, they simply have no resistance. Before that, they were hunting. Now they know that it was originally a dish.

Realizing this, the eight guys changed their minds unconsciously, thinking that they were at least in the same technology camp as the singer, and they were the first to be captured, and at least passively ended more than four weeks ago. The gang of martial arts in the battle is more superior.

Therefore, at the moment, the eight guys, after squatting, first smiled at Ye Xuan, then they spread out, and their chests were stunned. They screamed at the martial arts camps that were still honed. .

All of them were all qualified as a dog's legs. They looked at the arrogant camps of the self-cultivation camps, but they couldn't help.

"Not bad, you guys are finally open!"

Seeing that these eight guys are on the road, Ye Xuan is extremely satisfied and nods his head. "In this case, the resources of cultivation in your warfare and storage magic weapon will not be collected by the

Lord. From now on, you are The eight King Kongs of the Principal's Prison Camp, including these twenty-four guys, and all the captives are managed by you. Who dares not to accept the direct report, the Lord will give him another punch! ”

In the last few words, Ye Xuan clearly said to the people who did not know the dust, and intended to warn. Listening to the eight King Kong ears is no different from the fairy sound, so that they are very happy, and so on.

Then, these eight guys entered the role quickly and incomparably. After they dispersed, they screamed and screamed. They searched all the treasures in the hands of the twenty-four comprehension camps, and even they were in the battle. The golden sash and the golden jewels of the falling dust were found and handed to Ye Xuan in a respectful manner.

"Sure enough, it's all fat sheep. How did this kind of thing not happen before? The rhythm of a rich night!"

Looking at a small pile of various storage magic weapons in front of the eyes, Ye Xuan invaded among them, and after seeing the cultivation resources and various refining and refining materials inside, he could not help but sigh.

These guys are all from the comprehension camp, but they are the existence of various heirs. Although the resources in their hands are far less than Ye Xuan, because of the geographical relationship, there are some things that Ye Xuan does not have. The harvest was even quite unexpected and he was too satisfied.

In addition to these cultivation resources and various refining and refining materials, the finished magic weapon is not satisfactory. All the defensive and attacking magic weapons of the 24th are added together, and only the golden bow and Zijinbao can The eye of Ye Xuan is the perfect quality starry epic treasure.

All of this has been earned by Ye Xuan in the body of the immortal world, watching the dustless and green robe and other people gnash their teeth, they will become a poor eye, and not only all cultivation resources fall into the enemy, it is the defense used for combat. And the attack magic weapon, have also been fully collected, Mao did not leave one, this time the loss!

After a fragrant incense, everyone recovered their ability to move. Among them, a few guys, such as Duzizi and Qingpao, even recovered their fighting power. Ye Xuan waved his hand and took the guys with great power. The ground is set off again, and there are four hunting squads to solve!

.....

The universe in the universe outside Shennong Ding!

The major forces of the Terran Science and Technology and the Comprehension, and the ancestors of the Zongmen, have entered the Dingzhong space for some time, but at this moment, there is no news, and the disciples from the martial arts camp Although the palace has no heart, there is a method of crystal ball reflection, which can convey everything that happened in Ding, but somehow, it has not yet begun.

When the major forces outside the trapped squad are waiting for some intolerance, a small fortress of 50,000 meters in diameter has come over at a moment in the universe from a distance. The hull is etched with a huge **** head, which is actually the federal bulls from the second universe!

Following this small fortress, there are more than a dozen space bastions, also the federal ethnic group from the second universe, including the silver scorpion, the wood spirits and other groups in the second universe!

Seeing the advent of the joint fleet of the second federation, including the war one responsible for the external affairs of the big squad, all the human races around the world turned around and saw no one.

After all, the war has already been said before, the fox rushed into the evil, everyone has to smash it, although the bulls are from the second universe, but after all, it is also one of the federal ethnic groups, this time to come to want a share is also normal .

The key here is the territory of the Terran, and there are nearly two hundred people in the world who have entered the Ding Dynasty. Only the elites of the second generation of the Second Cosmic Federation, such as the Bulls, join the elite, and they can't change anything!

Chapter 3330: Crystal ball back

Soon, the joint fleet from the second universe of the universe stopped in the distant void outside the trapped squad, occupying a direction, followed by the opening of all the small fortresses and the space fortress in the fleet. There are several strong people who have gone out and walked out.

This fleet is basically composed of the top federal groups in the Second Universe. This time, it came to compete for Shennong Ding, and even did not rule out the possibility of secretly fighting for the Terran enchanting.

Therefore, any of these federal ethnic groups have dispatched senior middle-aged elders, as well as some powerful younger generations.

Some of the high-level elders of these tribes met with the emperor elders of the Tianshi Empire. At this moment, after they walked out of the battleship, they greeted him one after another and asked about the situation.

Subsequently, a foreign hunting squad consisting of younger generations of the Second Universe Federation of various ethnic groups formed a total of thirteen people with extraordinary strengths.

The most striking of them is the Shaozuo of the Yin and Dai ethnic minorities, the protagonist of the barbarians, the lord of the golden eagle, the singer of the Golden Eagle, the Princess of Medhu, the Medusa, the wolf of the greedy wolf. Just five people!

"After you enter the Dingnai space, if you encounter the palace of the Imperial Palace, you can remember to let him display the crystal ball back to the film, and pass the image of Ding in real time, especially after finding the fox, and launching it comprehensively. Before the cofferdam..."

The battle was suspended in the void, sitting cross-legged, nodding and greeting with the senior elders of the second universe, and then the sights swept to the thirteen foreign arrogances such as.

It seemed confident and extremely determined. He smiled and said: "The kid is not tamed, but this time he must be escaping. I am unable to enter it and personally suppress it because of the limitations of Wang Ding's own domain rules. But this happy scene can't be missed, remember this matter!"

In this regard, whether it is the elites of the Second Universe Federation who have just arrived, or the large number of Terran strongmen who are waiting around the void, they all take it for granted and nod.

No one thinks that the war is bragging. After all, he and the war two, the war four, and other wars, although the Emperor of the tribe was not abused by Ye Xuan, one death and three injuries, the lessons were painful, but it was only because of Ye Xuan. Sacrifice the Shennong Juding, taking advantage of this ancient and heavy weapon to suppress people.

At present, Juding has already been sacrificed, but people have entered the space of Ding. In the eyes of all people, even if Ye Xuan is strong, facing the Tianjiao coalition forces of this group of more than 200 people, they will eventually be robbed. .

This scene really should not be missed, it must be extremely exciting. With the thirteen spectators from the second universe, such as See the fact that Ye Xuan was suppressed!

.....

Ding inside space!

After successively suppressing two hunting teams, Ye Xuan with the 32 Tianyao captives behind him just started again and met other hunting teams.

And this time the remaining four hunting squads are all arriving at the same time!

The battle that happened here before has already caused the attention of the remaining teams responsible for searching in other directions. They rushed in, but Ye Xuan was too fast. They did not wait for them to arrive and the battle was over.

At this moment, the remaining four hunting squads were surrounded by voids, surrounded by Ye Xuan and thirty-two Tianjiao captives behind him.

When the guys saw that even the dustless ones had already been captured, and now they were behind Ye Xuan, they were all shocked and stunned. All of them were shocked, but even so, they still didn't think I will follow the dustless trail.

After all, the number of the four hunting squads is more than one hundred. In their view, even if the fox lord has another amazing means, it is impossible to reverse the day, since it has been blocked by four hunting. Among them, his ending is already doomed!

Among the four teams, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru Shantou occupied one side, and most of them followed were the Tianjiao strong people in the science and technology camp, and the number was the highest, with nearly 50 people.

The other strong men including the Oriental scales and his team were among them. The guys and Ye Xuan fled after a battle with Ye Xuan. When they met Xuanyuan Zijing and others, they gathered together.

After all, I still don't give up, I want to wait until the number of people gathers enough, then I will start with Ye Xuan, and in their view, this timing has obviously arrived.

The other three teams are small in number, and there are only more than 20 people. The masters of the comprehension camp and the science and technology camp are all strong, while the leaders are from the camp of comprehension, and the palaces without heart and soul, Qiu Fufu and jade Fairy!

At this moment, the faces of the three people are quite ugly. In the arrogance of the younger generations of the comprehension camp, the three of them and the Buddha's dust-free sons are called the four masters. Now the dust-free son is captured by Ye Xuan, and the shiny head is melon. There is still a big convex bulge like a baby fist, which looks like a wolf, which is just playing the faces of the three of them.

Although the three people are useless, but the heart is even more hateful is Ye Xuan. Once this matter is spread out, it must be advertised behind the discussion. The name of the four masters of the truth is destroyed. Once it is not necessary, the key is tired of them. Three people, invisibly left a stain!

"Ling Hu Chong, don't make mistakes again. You are also a strong man of the human race. Although the reputation of the enchanting world is a bit exaggerated, it is basically a rare genius of the younger

generation. As long as you swear by the Alliance, join me in the Ten Heavenly Palace. Carefully, before the conflict with the Heavenly Emperor, I am responsible for helping you!"

The palace was first opened, and Chong Yexuan said this discourse, but it seems to be insincere. This is the mission of the division. If it is based on his temper, today must take the opportunity to get rid of the other side.

What is the enchanting world, the palace is not satisfied with the heart, has a strong hostility.

"I am embarrassed, is the ten-day palace a bird? Is it also worthy of the pledge of allegiance? You are not waking up, are you still saying that you can't make a dream?"

Ye Xuan sneered, unknowingly replied, the other party did not mention the tenth Heaven Palace, his attitude is not so, mentioning the anger of Ye Xuan's heart: "This Lord also advises you, the most I will hand over your storage magic weapon immediately, and vote for it, otherwise you will be suppressed on the spot!"

"puff!"

The palace was so eager to spurt blood, and the anger of the heart sighed with enthusiasm. The result was actually so. It was threatened, and he was asked to surrender his treasure in the public. It was simply unreasonable.

As soon as I read this, the palace was very angry and laughed: "Well, you are a fox, I have to look at it today, who is the one who will suppress it!"

Speaking of this, the palace seems to suddenly think of something, and the face is a touch of sorrow: "Hey, aren't you very arrogant? I am like your wish, let the reality of this battle be known to the world, the three universes The strong will see how you are suppressed by me!"

"The crystal ball is back..."
