

Super D. S 333

Chapter 333: Lost

"Ye Xuan..."

Song Congjing widened his eyes and looked at himself and Ye Xuan, and the hands of the two were getting farther and farther.

"Do not!"

Ye Xuan clenched his teeth and was ready to follow the impact, but at this moment he met a crossroad. He and the two brothers and sisters were directly rushed into different passages.

The first wave lasted for three seconds, and the second wave lasted for half a minute.

This is not over yet.

There is also a third wave of air that lasted for five minutes.

This time, it can be troublesome!

"Hey!"

Ye Xuan slammed into a wall and almost smashed his body bone, but at this time, he could not attend to this.

After the calm landing, it was quickly swept out and ready to return in the same way.

However, it has been five minutes since he separated from the Song Dynasty and the Song ruling. In these five minutes, he was at least hundreds of thousands of meters. And this deep sea palace is staggered, it is not easy to find two people.

"Damn, what the **** is that?"

Ye Xuan roared while roaring, and his voice echoed in the passage.

Before the impact, Meng San said a word, what is the whale predecessor angry.

It seems that these three waves of shocks are what the whales and seniors came up with.

"Mother's, if I meet you, I will fly you!"

Ye Xuan continued to roar.

He and the Song Dynasty and the Song ruling were separated. If the two brothers and sisters are together, it is still good. If the two join hands, it will be more than enough for the holy beast.

Ye Xuan is afraid that the two brothers and sisters are also washed away. If the Song Dynasty alone encounters the holy beast, it is still very dangerous.

"No, you have to find them."

Ye Xuan's heart secretly rushed back at full speed. However, he himself was rushed out of dozens of roads and wanted to find the Song Dynasty and the Song ruling. How easy is it?

It took him a minute to find the location that was hit at the time and then look for it along the memory.

This time, he did not look at the map, blindly searched and yelled.

Unfortunately, he found a full half an hour, but there is no clue.

Moreover, even he himself lost his way.

"Damn!"

Ye Xuan was so angry that only the three waves of impact, just like the dredging of the pipe, the things in this area were all blasted.

Hundreds of roads have been rushed for five minutes. He is a good road. There are not many mysterious beasts, but other roads are not necessarily.

He calmed down and thought for a moment, then started searching again.

However, when he was looking for an hour, he finally met the second team of shrimp and crabs.

However, he has not seen it, but only sensed it.

He swiftly swept past, and when he was not close, he heard a discussion.

"It's terrible. The whales are angry again. It's been the third time today?"

"There is no way. The predecessors of the whales were attacked by the one-eyed giants of the evil sharks some time ago. They were bitten off the tail. The tail still continues to corrode. If it can't be suppressed, it won't take long for the whales to be the whole person. It will turn into a pool of stagnant water."

"The whale predecessor is our guardian holy beast. If it dies, my sea dragon family will definitely be swallowed by the evil sharks."

"We are still going to collect deep sea cyanobacteria. This deep sea cyanobacteria can suppress the poison of the tail of the whales."

The voice echoed in the entire passage. Ye Xuan listened at the corner. He thought that this team of shrimps and crabs would have encountered the Song Dynasty and the Song ruling. However, when he was ready to go out and ask, he heard other voices.

"Hey, Meng Liu, you are here too."

"Meng Wu, how are you here?"

"Don't mention it, I was rushed to this area by the predecessors of the whales. Only when I met the captain, the captain also arrested two humans who offended him and prepared to return to the Dragon Palace."

"Oh? Humans? How can humans come to the deep sea palace."

"I don't know, I heard that these two humans want to go to the **** continent."

"What kind of jokes, go to the blood rock continent? Do you know that the middle section of the deep sea palace has been occupied by the evil sharks? Even the predecessors of the whales are not sure to cross the middle section. How can some humans in the district be possible?"

The two teams of shrimp and crabs will chat there.

Ye Xuan, who was eavesdropping at the corner, suddenly trembled. There are only three humans in the deep sea palace. First, he himself, the other two, naturally the Song Dynasty and the Song ruling.

Therefore, the two human beings captured by the Hainan captains are the Song Dynasty and the Song ruling.

"The sea and humans have an agreement and must not take the initiative to attack, but in general, they can still be shot if special circumstances occur."

Ye Xuan was stunned, and he began to panic. Although the two brothers and sisters were being sent back to the Dragon Palace, what if they went to the Dragon Palace, were detained, or even executed?

"No, you must save them!"

After Ye Xuan made a decision in his heart, he directly swept it out.

"There is movement!"

The two big crabs reacted and suddenly turned.

"Well? How is it a personal class?" The big crab named Meng Wu was a stranger.

"It seems that it is a group with the two humans." Meng Liu said.

Ye Xuan looked at them and asked directly: "You, we accidentally entered the deep sea palace, only the two human beings in your mouth are my companions. Can you please let them go?"

"Let them?"

Meng Wu and Meng Liu looked at each other and immediately said: "What kind of jokes, the two offended our captain and prepared to go back to the Dragon Palace for trial, how could it be released?"

"Since you are a group with them, then let's get rid of it." Meng Liu added.

It's awkward!

What kind of racial jokes?

If Ye Xuan is a shackle, he will return to the Dragon Palace like the Song Dynasty and the Song ruling, then they will be finished.

"Where did your captain go?" Ye Xuan's eyes turned and turned to look at the Mengwu.

"Why, you still want to catch up with our captain? If you don't talk about the strength of the captain, you will want to cross us?" Meng Wu instantly understood Ye Xuan's intention.

"Since you are so confident, I am afraid that I know?" Ye Xuan opened his mouth and smiled, his face was mocking.

"No matter what your strength, I won't tell you unless you can beat us."

Meng Wu clamped the sledgehammer in his hand.

Ye Xuan has a map of the deep sea palace in his hand, but he only lost his way in order to find the Song Dynasty. And the sea is the only way to the middle of the deep sea palace, so as long as he is sure of his current location, he can find the dragon palace.

However, it seems to be solving the two big crabs, and the four big prawn.
