

Super D. S 3341

Chapter 3341: Is the wolf meat delicious?

"Hey!"

"The old man is going to kill him..."

"what....."

"Too too much! Too much!"

"Is this kid a foodie? Just finished the chicken wings of the silver and the young people, and actually stared at the owner of our bulls, and actually said what a big steak! I am a little boy of the bulls. In his eyes, is it a piece of steak that can fly?"

"So, isn't the old man a bigger old steak? This is nothing to be said!"

"Hey..."

As Ye Xuan's words rang, there was a void in the air around the big squad. In the direction of the Second Universe, suddenly there was a voice of angry burdock, followed by a family led by the bulls. The voice of the old roaring thunder rang through the void, and all the people around him thundered out!

When I looked at the silver light curtain in the trapped array again, all the faces changed. For Ye Xuan, all the people have no idea what words to use for evaluation.

This product is too enchanting, it is so arrogant, just after eating the minority of the silver sui, now it is necessary to eat the lord of the bulls, which is clearly to sin the entire federal universe of the second universe. what.

This kind of **** man has been the only one since ancient times. I have never thought of it before!

.....

Shennong Ding, Ding inside space!

After Ye Xuan's words rang, all the people subconsciously turned to look southwest, and then, including Duanmu Xiaocha and Zhao Qianru, all of them opened their mouths and looked dull.

Because of the direction in the line of sight, there is a large body of **** snails roaring from the hoof, which is clearly the strongest of the second cosmic bulls, and also does not have human descent, and the former silver sects and minors are shocked. Like the rainbow, the blood flowing from the ancient barbarian family is flowing in the body.

The front of the eyes is squirting the nose and hoofing, the roaring rookie who is roaring, wants to see the scene that happened in the place from a distance, even when the anger is manifested, even at the speed Come.

The breath that is diffused from his body is only the 9th order of the origin, but the manifestation of the body is full of kilometers. The blood concentration of this bullish strongman is obviously very strong, mostly and before. Like the stunned rainbow, the barbarians belong to the ancestral veins and their status is extremely high.

It is such an important younger generation of the bulls, but in the eyes of Ye Xuan, it is seen as a huge steak that can fly. Listening to his tone, it is clear that he has finished eating the chicken wings and plans to have a rhinestone of grilled steak. !

This is really amazing. It is the dust-free, the palace, the heart, the hatred, the resurrection, the jade, the four people, and the four masters who can't stand it. It feels like the whole person is being thundered.

Ye Xuan sighed at this time, because he knew that the steak could not be eaten this time.

If you want to eat steak, this **** bull will not survive, but Ye Xuan now looks at the rich blood of his bulls in his body, and intends to raise it in the inner space of this Shennong Ding. In the future, when you

cook a big medicine, you need your main beef blood to be taken into the medicine. You can use it at any time!

However, although the steak can't be eaten, it's OK to bake a little beef leg!

And it must be done, otherwise the bulls are not sure that this pure **** cow has fallen, fearing that it will be stuck behind him in the future!

"The big steak, the name is coming, this little master does not eat the nameless generation!"

After the idea was set, Ye Xuan Teng flew into the air, and the huge arm of the glass armor pointed to the huge bull who was galloping. He said unceremoniously: "The key is to make clear whether you have any human blood, if there is, the young master can only kill you on the spot, and ask me to eat nothing!"

"Hey!"

The rhinoceros in the nose has spewed a substantial fireworks. The reason why he roared, even directly manifested the body, came at a very fast speed, precisely because he saw Ye Xuan had previously baked the chicken. The sake of the wings.

The personal relationship between him and Yu Jinghong was originally good. Second, even if you don't mention personal relationships, everyone is the youngest patriarch of the top ten ethnic groups in the second universe. You are eaten by the human race, if this person can continue If you are alive, it is a shame for the other patriarchs of the nine ethnic groups!

Therefore, the first day of the day, he rushed over, the purpose is to kill Ye Xuan, he has already moved the temper of the cow, and even the words of the elders who have been confessed to the family have ignored the words, all abandoned to the back!

"Ling Hu Chong, how dare you treat the young masters of my second universe as a rare dish, this time, the King of Heaven will not save you!"

"Hey!"

I heard that Ye Xuan still eats, and this time the target is still eyeing myself. The weather in the corner of the day is like a thunder. He said: "This is a small patriarch of the bulls, and the corner is also a day. If you don't have a pair of masters under the head of Azaki, you are not jealous!"

"Hey!"

After self-reporting, the corner once again screamed, and the huge horn suddenly skyrocketed by half, almost half of the body was so long, exuding an inexplicable breath, plus its hoof Extreme speed, this road came, even the void was torn apart two cracks, it seems shocking.

"Corner day? I rely on it, and it's a thunderstorm for a long time."

Ye Xuan exclaimed, and turned his eyes on the spot: "Before the long wings were too loaded, and God couldn't see the eyes. Some invisible thunderbolts were smashing it, but you are more hateful here. But don't blame you, you can only blame you for the old stupid cow, what name can't be taken, but take such a big name, and God doesn't care about you, it's just no reason!"

When the words fell, Ye Xuan activated the spirit of thunder and lightning in the first time. The sky was as good as the response, and immediately the card sounded like the sound of lightning.

The shocking, but can not see the location of lightning, the spirit of lightning, originally invisible, can not be prevented!

The result of this war is no suspense. The spirit of thunder and lightning is out, and even if it is strong again, it is awe-inspiring. Several powerful spiritual thunder and lightning techniques directly slammed the head, instantly disintegrating its combat effectiveness, and have no chance to display it. Stepping through the stunned rainbow, I passed out.

All the subsequent Ye Xuan painted the gourd, and sacrificed the blood of the devil. It cut a piece of two-foot-long big scorpion meat from the back thigh of the day, and also made a little bit of effort to get the whole body of it. It fell into the volcano of the Ding Nei Central, and was held separately from the stunned rainbow.

All this happened too fast. When the prisoners of the dust and the palace were unwilling to react, the corners that had just roared and thundered had disappeared, leaving only a large piece of hind leg meat. The devil's blood-blade is wearing it, and it is being grilled in the orange-red flame on the volcano of the central domain.

Didn't wait for this big piece of burdock to bake, Ye Xuan suddenly turned to the dustless and the palace, and looked at it, and asked strangely: "Right, is the wolf delicious?"

Chapter 3342: Greedy wolf

Wolf meat?

No dust and other people face each other, a little can not keep up with Ye Xuan's rhythm, directly dumbfounded.

Didn't you just slaughter a bull? And it's still a few protagonists of the bulls, how do you ask the wolf?

"Hey..."

Didn't wait for them to come back, in the far northwest direction, an angry long wolf voice has been heard, everyone stunned, instantly stunned.

It's been a long time for a wolf to come. It's estimated that this star has been refining the fox's lord, so even if it's still far away, everyone's strength is stronger than him, and God's knowledge has not been sensed yet. He knew it in advance.

But this is not the point.

The key is the question he suddenly asked!

Listening to this meaning, it is clearly the rhythm of the upcoming wolf!

Decisive eating is addictive, as long as it is non-human, everything wants to taste a bite!

I thought so, no dust and no heart, and so on, suddenly sighed, they are completely served this time, although this wolf has not yet arrived, but the two who appeared before are not the minority of the Yin Dai It is the young master of the bulls, and these two groups are all the top ten strong ethnic groups in the second universe.

If there is no accident, the coming wolf is mostly from the second universe of the greedy wolf, also belongs to the top ten ethnic groups.

Moreover, from the identity of the two people, the horror of the singer and the singer, the most recent one is the young and savage of the greedy wolf.

Counting his words, there are three patriarchs of the second cosmic federal group, and all of them are the top ten. This is really awkward. The top ten of the second cosmic federal group has three ethnic groups. The young patriarch was eaten by the same human powerhouse, and the matter was passed back to the second universe, which was to trigger a major earthquake.

This is really going to be a big deal, the federal is unstable, and the split is imminent!

All of this, thanks to the belly of the food, a person who has eaten the whole of the Union of Van Rou, is falling apart, even if they see it, they have a feeling of unacceptability and trust!

At least this domineering thing can't be done, but the Lord is easy to write, but it seems that he didn't care about the identity of the three.

If the cow reaches this level, it will not work if you don't want it!

The young scorpion wolf, who had not waited for the greedy wolf, arrived, and the large piece of sirloin meat cut from the horns of the horns was baked. After all, it was the fireworks in the volcano of the dynasty Even if it is only a single orange flame, power is extremely scary.

Under the simmering and simmering of the orange red flame, the big piece of sirloin meat is cut in half, and the length is only about two meters. The diameter of the rice is not enough, but the golden oil is bright, and it is still smashed with oil. The **** blade screamed back and landed on the ground, where Ye Xuan had already waved a bluestone platform.

"Everyone comes to eat together. This time all are scorpion meat, no bones, and the beef has a chewing head. It is estimated that it cannot be as imported as the chicken wings. It is such a big piece that we can't eat it!"

This time, Ye Xuan even the dust-free and the palace heartless and other people also greeted him. The guys who had scented the sirloin meat from the sky had already stretched their necks and looked at Ye Xuan's words. Suddenly, everyone was overjoyed, and it was the dustless son from the mysterious Buddha. They all subconsciously licked their tongues!

At this time, there was a sudden voice coming from the forest not far away: "Small tea, you must not remind the big **** that I am still breaking through, and don't leave me a piece. This lady can no longer eat federal friends. The tribes of the tribe are flesh and blood, and they will not eat if they die!"

It is clearly the voice of Xuanyuan Ziyan!

And it's clear that it's the opposite. It's all about reminding Duanmu Xiaocha to leave a piece for her. After a while, I'll finish it and enjoy it. At least I have to taste it...

In the next moment of Xuanyuan Ziyan's remarks, the empty space outside the big squad, the position occupied by the Second Universe, the roar of the bulls suddenly screamed in the sky, a pair of red The **** eyes stunned toward the old man of Xuanyuan.

This is the case for the old people of the Yinyin family. He finally tasted it. Before the three gimmicks, including the eight King Kong, it was all acting, and now all are exposed!

Surrounded by silence, all the strong people of the human race are full of faces. Some people even shrink their necks subconsciously. It is blushing. After all, they are friends of the same federation, but now the minority leaders are being stunned by a group of ethnic minorities. They are eating, and this is no face to go out.

.....

Ding inside space!

After being threatened by Ye Xuan a few more words, the palace was unwilling to wait for a group of prisoners of war to finally come together. The eight King Kong were responsible for the meat, and each person cut a large piece, even the Buddha's dustless ones were no exception. I'm holding it, I'm eating a lot of mouthfuls of oil, my eyes are green!

Of course, Xuanyuan Ziyan's one, Duanmu Xiaocha also quietly hid himself, did not dare to see the silver light curtain in the sky, otherwise it would be difficult to turn back and want to die biting silver teeth.

The reason why Ye Xuan is so natural is also purposeful. He thought that he was eating a small patriarch of the Yinling nationality. He did not expect to have a big bull after just wiping his mouth.

The big bull has not been baked yet, and a hungry wolf in the distance is coming soon.

Maybe there is still behind it. It is estimated that the top ten ethnic groups in the Second Universe have to be eaten by themselves. The nature of the incident can be different. He is afraid of being alone. Live, at this moment, the guys are pulled down to eat together, just to tie the entire Terran to their side. Anyway, among the two hundred people, the top forces and gates of the technology and comprehension camps have been included.

It can be said that the forces and background behind them are basically equivalent to the entire human race!

There are these guys **** with themselves, not to mention the young patriarchs of the top ten ethnic groups in the second universe, that is, the young patriarchs of the entire second universe are here, and Ye Xuan dares to cook it!

Soon, when this large piece of sirloin meat was finally eaten by everyone, when it was almost eaten, the greedy wolf family who had roared from the northwest direction was just as strong as the wolf, and finally arrived!

Although the wolf's resolute cultivation is the same as that of the stunned rainbow and the horns, it is also the ninth big point of the original ninth order. However, after it shows the body of the greedy wolf, the figure is only about 100 meters.

This is not to say that the blood of the greed in his body is not as strong as the former two. In fact, the opposite is true. The comprehensive strength of the greedy wolf and the savage wolf is the thirteenth of the second universe of the genius. Among them, it belongs to the most powerful existence.

The blood of his greedy wolf is even more than his father. Today, the patriarch of the greedy wolf is only the realm of the ninth big point of origin, but he can fight against the human race in the tenth day. Unbeaten...

Chapter 3343: Greedy wolf

It can be said that with the enchanting degree of the wolf, in time, after he grows up, he will certainly become a giant in the second universe of the federal community!

However, this time he came to the third universe of the Terran, but he met the one who made the fox and the lord, no matter which aspect, it has been confirmed, and it is recognized that it belongs to the horrible existence of the human race!

No matter who I was before, I have never thought that these patriarchs from the Second Universe will fall to the end of being eaten, but now the facts are in front of them, there are already two patriarchs of the top ten ethnic groups. It's the end of the game, which makes people have to worry about it.

Although the combination of the stunned rainbow and the **** day is not as strong as the wolf, but the difference is not much. After all, it is the ninth state of the ninth-order realm of the nine-order grand perfection, which is the top ten communities of the second universe. The patriarchs, the degree of disparity in strength between them, can not be like the heavens!

If that's the case, it will be impossible for the wolf to rank with them in a range and circle!

Therefore, when the wolf was in the midst of the huge silver light curtain above the Shennong Giant Ding, all the strongmen outside the big squad were all nervous at first.

Naturally, there is no need to say more about the Second Universe Coalition. The Wolf is the most powerful existence of the thirteen second-generation cosmic geniuses who entered the space of Ding, and the third is the encounter with the Little Master of the Fox, so The result of this war is extremely crucial.

All said that things are not three, once the third, the psychological bottom line will collapse!

What's more, the position of the wolf in the thirteen people is originally the highest. If even he can't escape the tragic end of the fox squad, then the remaining ten exist, is there any fortunate?

That means that the two families of the two universes came to the Terran, and the thirteen young patriarchs who entered the Dingnai space will be eaten by the people and will be wiped out.

This bitter battle is absolutely the history of the second universe of the various ethnic groups, and the chain reaction that will be triggered is so strong that it is unimaginable...

For this reason, when the wolf's sturdy figure appeared in the silver light curtain, it was trapped in a large space outside the universe, and it was all moments that it was silent, and the needle fell.

Even the two sorrowful and angry old people of the Yin and Yi nationalities are no longer screaming, and they are also nervously watching the silver light curtain in the big squad!

.....

At the same time, Shennong Ding's tripod space!

Ye Xuan and the newly arrived wolf Gang Lie quickly fought after a few words of confrontation.

According to Ye Xuan's original intention, it was originally intended to ridicule a few more words. Anyway, idle is also idle. He is not in a hurry. It is rare to encounter such a good opportunity to take the old gangsters out of the house but take him to nothing. Ye Xuan does not want to let go of this opportunity to sit down on his own bad name.

Only when people are completely afraid of him, with his status as a savvy lord, it is now a worldly enemy, and the troubles in the future can be as little as possible!

At least the annoying flies must be indispensable. Although it is a big trouble and a big crisis, Ye Xuan has the ability to jump in the coordinate plane of the universe. He has no fear at all. The only thing he asks is just a few cats that are disturbing.

That would delay his collection of all kinds of natural treasures and rare minerals to prepare genetic liquids, as well as the right thing to prepare for the future Shennong Ding

But the wolf is not so strong, he was already bombarded, and he could not wait to kill Ye Xuan immediately, and he seems to have seen it, and he is not the opponent of the fox.

So after one arrival, I will not talk about it, report it to my home, and start playing directly!

Ye Xuan is still alone, including the prisoners who have successfully broken through to the ninth big point of origin, the ninth-order grand reign of Xuanyuan Ziyan and the palace, and all of them have not called, let them rush on the ground, and squat to the horizon. Rushed over the past.

"Hey..."

In the void, the figure is 100 meters, and the whole body is silver and silver. The giant wolf without a hairy hair suddenly looks up and screams toward the sky.

Although the sound of the wolverine from the wolf's mouth was not the first time I heard it, I have already heard a lot of noise before I arrived.

But this time the sound of wolverine is quite different.

There is no anger, no slightest emotional color, but it is more long, with some kind of mysterious rhythm in it, meaning that Ye Xuan is shocked, but can not tell what it is.

The next moment, a strange scene appeared.

With the long, wolf-sounding voice of the wolf, the sky of this space is under the huge silver light curtain at the extreme height formed by the palace's heartless film. There was a slow silver moon...

This scene is in the eye, the palace on the ground below, and all the people have opened their mouths, and Ye Xuan has lost some of his life.

This is clearly the internal space of Shennong Ding. How can there be a bright moon?

Undoubtedly, this strange moon is related to the wolf's staunch, and the sound of his secret sorrow and screaming at the moment is as if it is this long wolf call, or condensed!

Just as Ye Xuan's heart is puzzled, he wants to ask the engulfment system for enquiry. The palace on the ground below has no anger, and the voice is exclaimed: "The greedy wolf whistle! This is the legendary greedy wolf!"

"This is the ancient magical power passed down from the blood of the greedy wolf family. Not every greedy wolf can awaken. Sometimes no one of the generations can awaken and be normal!"

"The bright moon of the sky is not an entity, but a projection of supernatural powers. It has a mysterious power. It is said that in the place where the brilliance of this bright moon can shine, all the energy will be sought by this strange supernatural power. Feel free to swallow and drive!"

"As a result, the greedy wolf people who have this kind of blood and magical powers are in an invincible position. He is like a real greedy Sirius. In the battle, he can endlessly consume and greedily plunder. Everything under the bright moon, including its opponents..."

This discourse, in the bottom of the crowd of prisoners of war, led to a wave of exclamation, that is, the high-altitude Ye Xuan could not help but move.

Being able to continually and extensively devour energy for your own use in battle, this is indeed against the sky!

But he is only just moving, but to say envy, but absolutely not.

Compared with his devouring avatar, this kind of supernatural power is still not enough to see. The energy swallowed by the devour of the avatar can be transformed into self-cultivation and strength, which can be realized after refining.

But the illusory moon from the sky is a kind of magical projection to analyze. The energy it draws is mostly a one-time consumption attribute. Although it is not bad, it is not perfect. It fails to solve the fundamental problem. problem.

What's more, whether the power of this round of the moon is as unintentional as the palace said is still unknown.

How about the specific power, how to know!

The thought flashed through my mind, and Ye Xuan did not hesitate, even when she fully activated the spirit of lightning...

Chapter 3344: Breakthrough in battle

"Card!"

"Card..."

Ye Xuan's thoughts, the sky above the sky, responded to the general sound of the sound of lightning.

Everything is exactly the same as before. The stunned rainbow and the **** day are all fallen because of this strange invisible lightning. It is too difficult to guard against. The lightning is originally fast, powerful, but invisible. Who can prevent it? Can you live?

With these lightnings ringing, the dust-free and the innocent people on the ground below suddenly showed a sense of relief, and they basically got used to it.

With a kind of lightning, the conditions of the fallen will be reflected immediately.

Ye Xuan rushed to the sky for the first time and screamed at the thundering rainbow. When the palace was beaten by the thunder, the palace was unwilling to think about it, but it was only a coincidence, but with Ye Xuan's second use of this trick Solved every day, the fool knows what is going on.

Previously, Ye Xuan did not use spiritual thunder and lightning in the third universe of the Terran. Therefore, even if it is used now, it will not be like using a bow, and it will instantly give birth to association and give birth to his true identity. Suspicion.

Although this kind of spiritual thunder and lightning is really extraordinary, but this place is the inner space of the star giant Ding, this giant tripod has been collected by Ye Xuan refining, naturally controlled by him, in the eyes of the palace and others, Ye Xuan It's really nothing to make a lightning bolt between the minds.

If you say no exaggeration, in this space, he is actually the master, almost.

Before the palace was unwilling and others did not realize this, but later understood, and then recalled that the space inside the Ding, which Ye Xuan said before, has been adjusted by him to the internal domain, and can only enter and leave.

This makes them regret the original. Here, Ye Xuan is clearly the existence of God. They don't know how to live and die. They are coming to death and falling to the present. It is really purely alive.

At this point, they really guessed it. It was all right. Ye Xuan did not want to expose the fact that he could control the volcano in the central domain of Dingzhong. Otherwise, when the intruders arrived, Ye Xuan's mind was between It will make this space inside the Ding become a sea of fire.

The rolling hills around the volcano of the central area of the Ding volcano can be innocent in the sea of fire, but all the invaders have to be suppressed!

Of course, that would be too boring. In Ye Xuan's view, this intruder is actually the one he used to spend boring time.

This point, even if the palace is indifferent and so on, has not realized it, otherwise I don't know what it would be like.

At this moment, with Ye Xuan's spiritual thunder and lightning reappearing, in the eyes of Gong Wuxin and others, the younger generation of the savage wolf in the younger generation of the Second Universe Federation's younger generation is more virtuous, mostly before and The stunned rainbow and the same day, the day was immediately suppressed.

In fact, even Ye Xuan thinks this way. He is quite confident that he has already advanced into the high-level spiritual thunder and lightning. Even if he is the tenth largest environment, he is confident to hurt him.

However, the facts have caused all people to fall into the eye!

The greedy wolf of the greedy wolf is really extraordinary. Just a few familiar lightning squeaks are heard over the space inside the Dingnai space. At the same time, the moon in the sky is suspended under the silver light curtain. Guanghai flashed, and then, the moonlight glowed down, and the sky vaguely showed the outline of several thick lightnings.

Moreover, these lightnings completely collapsed in the first time when the outline appeared, turning into a faintly visible energy, and quickly rushing toward the sky.

It was actually swallowed up!

In this round of the lunar month of the lunar wolf, all the energy can be swallowed up, although the wolf has not yet cultivated to the extent that it can devour all energy in the moon of the wolf, but here In the area of the Moonlight, the more energy that is alive, the more it is sensed by the moon, and the more power it exerts on it, and then the possibility of decomposition and engulfment.

The lightning speeds were too fast and extremely active, so they were instantly captured and decomposed.

This scene was too unexpected. Ye Xuan was stunned. The prisoners on the ground, such as the incompetent and dust-free prisoners, were wide open and could not believe it.

The invisible lightning that has been manifested by Lian Dingwei can be defeated. What kind of horror is this screaming moon?

This is how the wolf is only able to cultivate it into the realm of Xiaocheng. If it is a big success in the future, the power will be stronger. Who are the rivals of the younger generation of the three generations of the universe?

Being able to devour energy at any time in battle has long been in an invincible position.

With the occurrence of this scene, for the first time, the palace is indifferent and the dust-free children are a little too optimistic about Ye Xuan.

Only Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks are still nothing. Although they dare not say that they have seen all the abilities of Ye Xuan, they at least know that this invisible thunder and lightning is not even his cards. It's not even a killer. At best, it's a kind of ability to use it!

"Ha ha ha..."

"Ling Hu Chong, your invisible thunder and lightning is useless to the Lord. In the area where the moon of the wolf month can shine, the more active energy, the more likely it is to be instantly sensed and captured, followed by It is decomposition and engulfing. The more you use, the stronger the counterattack of this young master!"

In the air, the 100-meter giant wolf, which was manifested by the wolf and fierce, laughed and said: "Now, try the first round of bombardment with your own strength!"

"Wolf Moonlight Swirling!"

"call out!"

"call out!"

"call out....."

With the last roar of the wolf's screaming, the sky and the sky are suddenly bright and glazed, and the curved moon blades of the half-moon shape are like rain, with swirls and different trajectories. Unpredictable, thousands of tens of thousands of words are rushing toward the bottom at the same time, the goal is clearly all Ye Xuan, this is the rhythm of his body shape in an instant.

"It's a bit interesting, I can swallow my spiritual thunderbolt! But just like this, since the magical technique can't be used, the signs of energy activity are too active, then, with the power of pure flesh, fight him!"

"It's just before eating a lot of big supplements, the strength of the flesh and blood is soaring, there is a feeling of exploding, and now you need to vent, maybe, you can break through in the battle!"

"As long as I can get to the ninth big point of the ninth order, I will be able to kill him with this pair of fists!"

Ye Xuan sneered, whispering in his own voice, ignoring the half moonlight that came from overwhelming, raising his arm and punching the wolf, and shouting loudly: "In this case, the young master will use iron fist The life will kill you, the wolf meat must be stinky, the weasel has exposed everything, this stinky meat does not eat, today Mao does not leave you one, it is necessary to smash into flesh and blood fog..."

Chapter 3345: Jin Yuyan and Medusa

"puff!"

"Little bastard, old wolf, I must tear you off!"

"what....."

Outside Shennong Ding, surrounded by a large array of voids, in the direction occupied by the Second Cosmic Coalition, a family of the greedy wolf squirted a **** arrow, followed by a fierce roar and roar sound.

Not far from the side, several ethnic groups from the Yin and the Bulls all cast sympathy on him.

Too wrong!

Although the previous and the horns were eaten, but at least in the eyes of the fox thief, there is still the value of eating, but now the wolf is strong?

Actually, it is said to be a stinky weasel. I don't even want to eat it. The greedy wolf family is among the top ten in the Second Universe, but it is regarded as a weasel. This is really detrimental. No wonder. The greedy wolf was angry and spurted on the spot.

In the void in other directions around the world, all the strong people of the Terran face each other, and they are deeply impressed. For this enchanting fox lord, they are basically completely obedient.

This guy is just the third place in the medicine array?

The combat power is equally enchanting, and it can be noisy with the people who are in the process of comprehension. At the moment, they still don't know who is the one who is in the same position.

But these are not his strongest skills.

The most powerful part of this product is actually his mouth. Not only can he eat, dare to eat, but also hurts people. The greedy wolf is actually said to be a stinky weasel, the fifteenth big battle of the Heavenly Empire. Can be a war, but he was also turned into a Lao Wang Ba, this kind of enchanting, absolutely no one before the ancients did not come.

Already against the sky!

.....

Ding inside space!

"boom!"

"boom....."

In the air, the giant glass glaze and the wolf Gang, who turned into a hundred-meter giant wolf, just arrived at one place. A huge energy explosion came from time to time. For a time, the two men fought a tie and were equal.

Of course, this is not to say that Ye Xuan encountered a real suppression of his existence, and the invincible power of the small invincible was finally frustrated.

After all, his cultivation is only the seventh order of the ninth original origin, but the other party has the ninth big point of origin and the ninth-order great perfection, and also has the powerful blood of the greedy wolf family. The strong people of the top ten in the late days of the hole struggled and did not lose.

From this point of view, Ye Xuan is still fighting across the big realm. Both sides of the hostile war are such a terrible existence.

The battle was earth-shattering, and the sky was covered by the raging energy storm. Unconsciously, it was more than two minutes passed. Ye Xuan and the wolf were fighting each other. The hearty!

"Weasel, you let the young master look at it!"

"Since embarking on the path of physical evolution, this young master has never encountered such an opponent, and can fight with me to fight so hard, so enjoyable!"

In the fierce battle, Ye Xuan said with a voice that only he and the wolf could be heard: "The strength is strong enough, the body is hard enough, it is not bad, this is the best to accompany."

"Yeah decided, leaving you a small life, but not for eating, but to raise it up, and later to be human flesh... Hey, it should be wolf sandbags, use boxing!"

"Hey..."

The wolf is violently spurting blood, but his mouth is swearing, he is not good at words, he can only look up and scream, in order to express and vent his anger.

After changing his mind, Ye Xuan even began to slowly transfer the battlefield, and unconsciously, the two men had already fought in the sky above the mega-volcanic volcano in the Dingnai space.

It was also at this time that Ye Xuan's mind suddenly heard a familiar system sound.

"Hey, congratulations to the host, the flesh and blood of the realm is elevated! The current realm: the original point eight orders!"

"Hey, congratulations to the host, the flesh and blood of the realm of the realm! The current realm: the original point of the nine-order Great Consummation!"

He immediately became overjoyed. He had eaten a lot of big supplements before. The power of flesh and blood increased greatly, and the genes of flesh and blood cells also changed and evolved to a certain extent. He had long felt that the whole body was about to burst. It is the rhythm of breaking through.

At this moment, after a fierce battle with the wolf, the blood of Ye Xuan's body surged and warmed up. The body's physical strength was mobilized, and finally broke through the potential of the human body and teared it. Struggling with two invisible shackles, on the realm of the body's blood and blood, and then breaking the two cities, officially stepped into the original nine-step great consummation!

"Booming!"

"boom....."

The sound of energy explosion continued, but this time it was not in the outside world, but from Ye Xuan's body. As his body and blood flow broke through two levels, Ye Xuan's body instantly appeared. A huge anger river, the power of horror and blood is constantly flowing.

It seems that the faint resonance of the outside world is triggered, and the sound of the roar of energy in the body is about to spread to the outside world.

"How? If you are not the main one, you will support you. In the future, you will be used as a wolf sandbag. Are you still not satisfied?"

The realm of the realm has raised two small steps, and Ye Xuan's confidence has increased greatly. Nowadays, he has never put the wolf in the eye. Under the circumstance, a punch can definitely stun him.

"Hey..."

The response of the wolf is still strong, still an angry wolf!

"Hey, your sister, my eardrum is hurt, go down and go with your two good partners!"

"boom!"

Ye Xuan punched out, at this moment, the wolf is just screaming at the roar, the ten-foot mech is bigger than the human fist and directly hits his chin, and the horrible blood flows down the fist into the wolf. In the body, such as the same hanging Nujiang roar, it was an instant that made him a slight concussion, and he was unconscious on the spot.

"Hey..."

This time, the screaming voice of the wolf's mouth was just beginning to stop, and the huge figure of 100 meters fell toward the volcano of the central domain, which was directly rushed by the volcanic mountain pass. The one-color orange red flame swallowed, and the blink of an eye disappeared.

The reason is that Ye Xuan is also intentional.

After the coma, it fell into such a volcanic volcano. Anyone seems to be a must-have for the wolf. The flames that will be burned by the flames of the sky are not left, and the smoke is gone.

In fact, it does not hurt, after reaching the bottom of the volcano, it will be locked in another independent prison cage, like the breath or the roar, like the stunned rainbow and the horns. Can't pass it.

It was also at this time that just in the wolf's fierce 100-meter wolf, Ye Xuan was shot down, and the crater disappeared to the lower crater. In the distant direction, there were also some shadows. Nearly, a total of ten people are the other people in this second universe young Tianjiao hunting squad.

The leader is Jin Yuyan, the golden eagle who is the same as the stunned rainbow, the horns, and the wolf, and the Princess Medusa of the Choi!

At this moment, I saw that the wolf was actually suppressed in the single-handed fight, and lost to the hand of the fox, the face of Jin Yuyan and Medusa changed, and roared out loud...

Chapter 3346: Big chaos

Ding outside space!

With the sinister fall of the savage wolf family, the void around us is once again in a noisy!

"Hey!"

"Hey..."

The party occupied by the Second Cosmic Coalition is empty, the old family of the greedy wolf is angry and mad, the whole piece of emptiness is his crazy wolverine, and it is creepy, but the other people in the other direction are already used to it, shaking their heads. Sigh, secretly squatting this time, the Second Universe Allied Forces is afraid that the whole army will be wiped out.

For the fierceness of the younger foxes, they still quite agree with them.

At least he did not kill the former patriarchs of the Terran, but he was not rude to the patriots of the descendants of the second universe.

The guys were so proud that they had been openly dismissed and looked down on the Terran. Now that they have ended up like this, the people around the world have not applauded, but their hearts are still quite happy.

Only on this point, their favor for the younger fox has increased slightly.

Of course, all people are aware of the fact that the reason why people do this is not to show the good people, the key is to blame the appetite, see the lions from the second universe, directly Drooling.

In the face of the fierce fall of the wolf, and the appearance of Jin Yuyan and Medusa, the golden eagle and the ancestors of the Cailu, and the other eight elders of the ancestors of the second universe, Tianjiao, at this moment All mentioned.

There are hopes and fears!

I hope that the ten people will finally gather together, and perhaps they will be able to suppress the fierce and hateful fox.

The worry is that these ten guys are just like the three people in front of the stunned rainbow. They are too proud and do some heads-up, so they really have to be wiped out.

Fortunately, the screams from the silver light curtain let them put their hearts down a little. Jin Yanyan and Medusa snarled at the same time, and the ten figures rushed up.

It is a pity that the scene that followed was too unexpected, and the heart of the elders of the Second Cosmic Federation was instantly mentioned in the eyes of the blind man...

.....

At the same time, Ding inside space!

Jin Xiaoyan, the young master of the Golden Eagle family, and the Princess Medusa, the Princess of the Caisong family, roared and roared!

"This guy is too ferocious, it is abhorrent. When we didn't arrive, we were completely widowed. We solved the stunned rainbow and the horns and the wolf, and everyone joined us!"

"Yes, there is nothing to say about this gang of ants, the **** debts, all the people here can't run today, and the ten of us must suppress all of you!"

With the roar of the two, ten of the lesser and lesser patriarchs from the second universe of the Commonwealth all roared in the sky, and they activated the blood and showed the blood.

Jin Yuyan is a golden giant eagle that has reached the height of several kilometers. It has a fight with the stunned rainbow. In a moment, Ye Xuan looks right and the scorpion is green.

As for Medusa, it is a giant python with a body length of over a hundred feet. Looking at the very scary, spit a few long snakes, called Ye Xuan shuddering.

Although her blood is bound to be extraordinary, but Ye Xuan is wary of this vicious beauty snake, do not like it, so a little thought, directly give it up, decided to suppress, instead of stealing the mouth to support themselves.

The other eight guys are basically all of a huge size. Although they are not like the stunned rainbow and the horns, they are from the top ten strong people in the top ten in the second universe, but they are not weak. The blood is extraordinary.

At this time, ten behemoths were across the sky, and a small piece of the sky was covered.

After the manifestation of the bleeding veins, the ten behemoths immediately roared to the bottom, Jin Yuyan and Medusa flew to Ye Xuan, although the other eight behemoths were more than half, but there were two palaces facing the ground. Unintentional, no dust, and so on.

This is clearly the rhythm that really wants to suppress the geniuses of the descendants of the human race.

"It's just too much. What is it about us? You are just from the foreign domain. How dare you scatter on our territory? Isn't it too arrogant?"

"Looking down at our human race, it's time to fight. Let's join together and join forces to suppress them."

"Yes, these guys are shameless anyway. It's just that Linghu is rushing to fight, but we say that we are all enemies. Since we have said everything, can we be beaten? Let's give him an enemy."

"Kill, as you wish, abused these exotic poultry!"

.....

Seeing that there were two giant beasts rushing toward them, they wanted to suppress them together. The prisoners of the palace, such as the heartless and the dustless, were all angry. They had been forbearing before, and now they can't stand it anymore.

For a time, more than two hundred figures rushed to the sky together. This time, even Xuanyuan Ziwei and Duanmu Xiaocha and Zhao Qianru did not fall, and they also shot.

Although these guys were injured by Ye Xuan, but the time has passed so long, in the case of taking healing drugs, even if they have not done enough, basically recovered almost.

What's more, they just ate some roast beef meat, which is also a supplement.

At this time, more than two hundred prisoners of war, who had basically recovered most of their combat power, rushed at the same time. Various magic weapons were sacrificed, and the ten-headed second cosmic monsters shrouded in a small piece of the sky were stunned together.

"Roar!"

"Hey!"

"Hey..."

"Booming!"

.....

The screams screamed and roared, and there was a lot of energy blasting sound. For a time, this sky was occupied by a vast battlefield.

Ten giant beasts from the second universe, the warrior group, more than two hundred elites, the scene was chaotic to the extreme, every minute and every second, there was blood rain, and the ground below was reddish. .

This is basically the blood of the ten behemoths from the second universe.

Their size is large enough, even if it is bleeding, it can be stunned for a while, and it has not been hurt by this, but it has been fierce.

Although the ten beasts have the powerful fighting power of the leapfrog, but in the face of more than two hundred people who are comparable to them in terms of realm, they have also been crushed and beaten. All of them look so embarrassing.

Even so, all the prisoners of war did not plan to close their hands. Anyway, everyone was on the shoulders together, and the so-called young masters from the second universe were too arrogant and provocative.

In addition, the law does not blame the public, even if it is killed on the spot, it will not suffer too severe punishment.

I thought about it, all the prisoners of war suddenly hit the chicken blood, and the more the war, the more brave, before Ye Xuan distributed one or two magic weapons to them, is ready to be used for group, now these magic weapons are all When the sacrifice came out, the whole sky was illuminated, and the infinite magical treasures flashed and smoldered, even the silver light curtain at the height of the sky was reflected in the colorful colors...

Chapter 3347: Pit again

"Eagle Flames!"

"Rage blazing red!"

In the space of the Ding, in the chaotic mid-air battlefield, Jin Shaoyan, the young master of the Golden Eagle family, and the Princess Medusa, from the Cailu people, hated anger and made a loud roar.

This is the rhythm of the two people who respectively motivated the blood.

Before, the moon in the sky, the month of the wolf, was suppressed with the defeat of the greedy wolf family and the wolf, and it has disappeared.

But at this moment, with the activation of Jin Yanyan and Medusa, and full force, this sky of chaos after the chaos, there are two different visions!

"Hey!"

"Oh..."

Jin Yuyan's eagle-song flame rain is an energy arrow rain formed by countless golden feathers. After he manifests the body of the bleeding vein, he spreads thousands of meters and nearly tens of meters, and he has a fight with the horror of the rainbow. In fact, there are countless golden feathers.

Right now, with Jin Yuyan, the blood of the Golden Eagle family is full of power, and a small piece of the sky is instantly illuminated.

Every energy plume is golden, not only shining, but also faintly visible fireworks.

This is clearly a powerful magical force of scope attack, but at the moment in the eyes of Jin Yuyan, there is only one threat to him. Ye Xuan alone, this is the golden eagle of the scope of the attack, the Skyline The countless golden flames of the feathers poured down, all overwhelmingly screaming toward the giants of the glass.

As for the color of the Princess of Medhu, Medusa's **** anger and blazing blazing blaze, it is a strong light of two colorful colors. Although it may not be amazing, these two dreamy colorful dawns are from Medusa. After the shot in the eye, the speed is almost at the extreme, and even a strange noise is heard in the void. It is like pouring oil into the ice sheet and is rapidly melting.

"call out!"

In the next moment, Tiangui, a younger generation of a top-ranking valve in a technology camp, was in a fierce battle, and inadvertently plundered one of these two colorful blazing blazes to Ye Xuan.

The goal was originally directed at Ye Xuan's colorful blazing blaze, and hit the unlucky guy without any suspense.

Ye Xuan

However, Ye Xuan did not know what his power would be. At this moment, he was paying attention to it, just to investigate the matter.

In the line of sight, the guy who was inadvertently shot by one of the colorful glare was suddenly stagnate, and then his entire body began to stagnate at a rate visible to the naked eye.

The whole process is approaching the extreme, and there is a time of breathing around. The unlucky guy's entire body is completely transformed into a gray stone, and the life of a trace of life is gone, like a human stone. Like, fall to the ground below!

Undoubtedly, when the humanoid stone carving came into contact with the ground below, the result would have been collapsed. The unlucky guy was shaped into a stone crack, and it was absolutely dead to die!

"Rely! This is too sinister!"

Ye Xuan was shocked by a big jump, subconsciously exploding a swearing slogan, quickly plucking his body shape, avoiding another colorful glare, and turning to the main body of the bleeding vein, turning into a huge color of Medusa Looked over.

The latter was just a flash of anger at the moment, and the eyes stared at Ye Xuan tightly, transmitting a strong hatred, but did not shoot a similar colorful blazing.

Ye Xuan has a clear heart. It seems that this magical power is powerful and strange, but it must be limited. Just like the cooling period of the energy cannon, after performing it once, it takes a while to be able to Casting, can not be applied continuously!

In this case, then there is no fear!

Ye Xuan is unlikely to give her the opportunity to shoot this horrible colorful blaze again!

"boom!"

Under the swaying shape, Ye Xuan's body shape has already reached the front of the huge color enamel. After a punch, the sound of the crack of the scorpion is endless, and the small scorpion of the giant

scorpion is Heavy damage, the bones are broken, I don't know how many knots, a mourning in the mouth, falling to the ground below!

At this time, the golden flames of the sky over the sky were finally coming.

Ye Xuan had no fear at all. As if he didn't see it, let the blossoming flames filled with golden fireworks fall on the surface of the glass armor, but there was no trace left.

After all, it is the starry sky to the treasure level. If the energy flames of the seventh-order big perfection of the ninth big point of origin are not blocked, it is too much to change.

"Now it's my turn!"

Seeing Jin Yanyan's **** magical powers is ineffective to himself. Ye Xuan completely relieved his heart, and his face showed a sneer, whispered, and his body rushed toward the other side.

This time, he even opened the anti-matter energy propeller of the glazed armor, and the speed doubled. The whole person is like a purple-purple flow. Jin Yuyan is inevitable, and half-interest is not enough. Ye Xuan has already appeared. Above the back of the giant golden eagle.

"Go down, you!"

"Card!"

"Card!"

"boom....."

With the screaming in the mouth, Ye Xuan directly provoked the spiritual source of the brain. The spirit of thunder and lightning that was built before was once again displayed. This time, three invisible thunderbolts bite the tail all over the giant golden eagle. On the back of the head.

If it is not faint, it is simply no reason.

However, Ye Xuan still feels unsafe. The golden eagle's feathers are as hard as steel. If you don't get rid of him, it's really troublesome.

In order to insure, Ye Xuan slammed out with a fist and directly squatted on the back of Jin Yuyan. The huge energy explosion sounded, followed by a wailing, and the huge golden eagle that stretched to 10,000 meters was stunned without suspense. In the past, the big body stepped on the stun of the rainbow and the corner of the day, aiming at the lower part of the central domain of the volcano!

This is the third time Ye Xuan has done this kind of thing. The previous and the corners are all the same, and now I shot again and successfully caught one.

Soon, the huge body of the giant golden eagle, which fell down in shape, was swallowed up by the orange-red flame that rushed from the volcano of the central domain. In the eyes of the outsiders, it fell into such a turbulent wave. In the depths of the volcano in Haotian, the result must be that half of the hairs can't stay, and Ye Xuan once again crosses the sea!

"Hey!"

"Hey..."

With the fall of Jin Yuyan, the other nine giant beasts all roared or screamed, but it was previously thrown into the dust by Ye Xuan. At this moment, Medusa, who has recovered the human form on the ground, is no exception. After a cry, I sneaked into the sky, Ye Xuan, and then turned and fled!

At first sight, she was like this, and Jin Yuyan was almost finished. The other eight beasts had no fighting spirit in an instant. All of them had to withdraw from the form of the blood body, and the target became smaller and scattered.

This is clearly the rhythm of the birds and beasts in a word...

Chapter 3348: I ate it in three days without redemption.

"If you can't escape, the internal domain of this star giant has been adjusted by the young master. Although the existence of the tenth big hole below the first level can enter, it can not enter, and if you don't believe it, you can do it." Try it, don't blame me for being bombarded by the colorful smog of Dingkou."

Seeing that the nine patriarchs and little princesses from the Second Universe Federation wanted to escape, Ye Xuan suddenly sneered, and did not intend to chase at all. The figure stood in the ground and loudly warned: "Now you have only one way. Can go..."

"Looking at the Lord has not changed his mind, immediately come over and surrender, seeing that you have saved the power of the Lord and the Lord to arrest the power, to avoid the bitterness of your flesh, and as long as you are honest, this Lord promises not to eat. You guys!"

"Otherwise, once you have been personally arrested by the young masters one by one, it will be difficult to say at that time. If you don't eat meat, but you have a bitter skin, you will never run."

"You think clearly, this young master has always been an acute child, just waiting for three minutes, out of date!"

After that, Ye Xuan turned to the two hundred prisoners who had gathered behind him because of the end of the battle. He shouted loudly: "The guy who didn't come back after three minutes will be arrested. If there is resistance, he will be killed on the spot. Counting the Lord!"

Hearing this discourse, no dust and no heart and so on, shaking their heads and smiling, the eight King Kong is a loud promise, watching the situation is clearly into the play has been deep, the dog legs have been drilled out!

"Booming..."

Ye Xuan's words have just fallen, and there is a violent burst of energy in the distant sky. A young man from a certain ethnic group in the Second Universe does not believe in evil, and one rushes to the sky. The atmosphere formed by the color enamel was directly smashed into slag, and the whole body was transformed into a **** fog, which instantly fell.

This scene was so amazing that the other eight people were suddenly stunned, and at the same time they stopped their steps and turned to look at Ye Xuan.

"Ling Hu Chong, do you really want to be an enemy of the second universe?"

The little princess of the Choi people, Medusa's nose is smashed. She has never been so arrogant. Hunting is not abusive. Now she can't even leave. She has to force herself to surrender to her prey. This kind of thing she used to be. I didn't even think about it. Today, I happened to be on my own body. I was too hurt and self-respect!

"You are a shameless little skinny! Is it not too ugly to say this?"

Ye Xuan suddenly became angry, raising his hand and pointing to Medusa: "You are a group of little scorpions who have come from the second universe across the plane, and I have provoked you to provoke you? Now it is not good, actually I also asked Lao Tzu to be an enemy of you. Hey, have you considered this issue before you come here?"

The voice was degraded, and Ye Xuan's figure was already swept away. He went straight to the Medusa eight people. Even the anti-matter energy propeller of the glass armor was opened, and the whole person turned into a flow. The naked eye is indisputable, and it is immediately in front of Medusa.

In a violent scream, a punch broke out: "Congratulations, Xiao Niangpi, the words just succeeded in angering Laozi. Now that I have changed my mind, the three-minute time limit mentioned before is cancelled, and the initiative to surrender is no longer accepted. I have to take it one by one. You are a pig!"

"Just start from you!"

"boom!"

"Card..."

When the voice started, Ye Xuan's right fist had already blasted. The glass glaze was as high as ten feet and thirty meters. One fist was bigger than the others, and the cold was not on the body of Medusa. A large piece of bone shattered, she was caught off guard, was actually a head-on bombardment of a porcelain, stunned on the spot.

The other seven people were shocked and jumped. They said nothing, they turned around and ran. They just gathered together. At this moment, when the crisis approached, they actually wanted to be birds and beasts.

"Ha ha ha..."

"Is this the so-called young patriarchs and enchanting geniuses from the second universe? According to the young masters, it is clearly a group of ugly people who ran in a word, and the movements were so skillful, not the first time?"

Ye Xuan laughed and laughed, and the laughter was still over. The anti-matter energy propeller of the glass armor was still open, and the whole person became a streamlined and unrecognizable flow, and the four sides of each other were directly raised. Punch, followed by the sound of a crack in the crack of the card...

Less than three minutes before and after, including Medusa, the remaining eight second-century cosmic geniuses were all stunned, without exception.

"It seems that it is faster to do it yourself, and it hasn't arrived in three minutes!"

Ye Xuan stopped his body and swept across the ground, and the Medusa, who had fallen from the dust on the ground, turned to the first place and looked at the distant dumbfounded Du Fuzi and Gong Wuxin and others. "What are you doing?" Under the hands of the young masters, there is no idler. In the future, remember to be smart. The Lord is responsible for the deaf, you are responsible for collecting the war and charging the prisoners of war!"

The words have not been finished yet, the eight King Kong has been over the road, the rest of the more than two hundred gates of the Tianjiao prisoners have hesitated a little, but in the end it is still a bite, followed by the body, very Quickly took the Medusa eight back and threw it on a hillside and lay down on the ground.

"Your cultivation is... is it the original nine-step great consummation?"

Ye Xuan's body was just arrived, and the palace was indifferently staring at him with a strange look. He was a little hesitant and a little bit awkward. Before Ye Xuan's performance was only seven steps, it was enough. He is, and now it's going to be the first nine-step perfection, obviously it will be easier.

It is estimated that a fist will go down, and the bones on the whole body will have to be broken on the spot, and I will not want to move it for a long time.

It's no wonder that it was just a punch. In less than three minutes, the eight patriarchs from Medusa and other ethnic groups from the Second Universe were smashed to the ground.

You know, these eight guys all have powerful blood of ancient beasts, and the concentration is extremely high, the power of blood is huge, and the physical body is as rock-solid as their common characteristics. Under the same cultivation, even the palace has no heart. If you are a genius, you must have three or four people to join forces to fight one!

However, under Ye Xuan's iron fist, they are as small as a lamb. In comparison, the latter is more like a savage beast.

The same as the human race, the gap between them is so huge, which makes the palace unintentional and others hit hard, and some have begun to doubt life!

"Yes, I just played with the weasel, and the bones and bones were completely open. I accidentally broke through the realm, so cool!"

Ye Xuan grinned and smacked the matter, and then ignored the expression of the palace's innocent and dustless people, and turned to the top of the silver light curtain covering a small piece of Scorpio.

One finger is on the side of the slope, and the young Princess of the Choi, who is still in a coma, is stunned and stunned. "The second king of the universe, the old kings, listened well, as soon as possible, All kinds of Lingcao elixir and rare mineral deposits are sent in, more and better!"

"The time limit is only three days, and it is not out of date! After three days, these eight little scorpions, Lao Tzu is all stewed..."

Chapter 3349: The world's first food

"The time limit is only three days, and it is not out of date! After three days, these eight little scorpions, Lao Tzu is all stewed..."

"puff!"

"puff....."

Outside Shennong Ding, the corner of the corner occupied by the Second Cosmic Coalition outside the big squad, as Ye Xuan's words came out through the silver light curtain above the big array, there was a sound of the old blood immediately. , can be called one after another.

The people of the second universe, who are responsible for bringing the team to the team, are all mad!

Before Ye Xuan successively cracked down and even killed 13 violins and other tribes in a short period of time, these old guys had already pulled out a belly of evil fire, almost bursting body.

At this moment, I heard that Ye Xuan still wants to swear by this matter, and extorts and extorts all the ethnic groups, and does not directly cook their little masters.

Coupled with the murderous Lao Wang Ba, a group of old people can no longer afford it, completely fried hair!

"what....."

"Gently kill the old man too!"

"Lake Hu Chong, the old man stripped you off!"

"Damn broken Ding, hard with the turtle shell, even the fifteenth big world of the great power can not break, can not enter it to kill this ... hate!"

.....

Under the anger of anger, the void occupied by the Second Universe Allied Forces was disturbed by the roar of the roaring of the various ethnic groups, the airflow was rolling, and the wind was raging!

Seeing this scene, all the Terran strongmen who are in other directions are collectively petrified. For the enchanting degree of the foxes, they have a clearer understanding at this moment.

A person only, the family of more than a dozen ethnic groups to the collective **** madness, a small piece of empty space is tremble, this ability is estimated that he is no one except him.

Later, after these people and the strong people returned to God, the exclamation and sigh of deliberately depressing the sound began to sound.

"There is a rebellion against the sky. The decisive decisiveness of the fox is an era in which the squad is smashed. It is the same as the two planes. The geniuses of the younger generation and the younger generation of the second generation of the universe are all suppressed by him!"

"It's really a fascinating world. This kind of momentum is already invincible. It is the tossing of the camp. At that moment, it is still impossible to determine who is the invincible **** of war. The limelight must be overshadowed by him."

"Yes, the first person in the young generation of the human race, the fox lord deservedly deserved, but unfortunately, too embarrassed, not a sense of ethnic glory, and is actually an enemy of himself!"

"The first generation of the young people of the human race? I don't think so. Don't forget that there is still a Xuan prince. Although he hasn't had any movements recently, which one is more difficult than this? It all collapsed because of him."

"Is it a singer, isn't the invincible **** of war that is still in the practice camp? Isn't it sure who is the avatar? If it is determined that it is the avatar of the prince, then the title of the first person of this younger generation is not his Genus, a avatar can be called a enchanting genius, the deity still use it?"

"The deity is joined together, absolutely crushing the fox, and asking him to sing and conquer..."

.....

"boom!"

"Booming!"

Just as the human race strongmen on this side whispered each other and talked about each other, more than a dozen small fortresses and space fortresses of the second space coalition at the other void were unexpectedly launched, and quickly moved toward the direction of Tianchen.

Obviously, they were afraid, and decided to compromise with Ye Xuan. Otherwise, the eight second-class cosmos, including the young Princess Medusa, will be stewed with a pot. Too beautiful and too fascinating, if it does happen, the second universe of the various nationalities will no longer be a human being.

Although this matter is too amazing, the general existence can never be done, but the fox lord is absolutely not included, have not eaten two before?

In addition to being damaged by him as a squirrel, the sinister wolf is not screaming, and the golden eagle has less lord, Jin Yinyan, the silver scorpion, the singer, the singer, and the singer. People were smashed and smashed, and flesh and blood were eaten, and it was terrible!

The reason why these old guys are rushing to Tianchenguo is to connect to the first-class star network of the immortal dynasty through Tianchen's three-level star network, thereby opening the plane-level wormhole transmission channel and The Tiandi Dibao and rare mineral deposits are transmitted from the second universe to each other as soon as possible.

Of course, this kind of wormhole transmission costing a huge amount of energy, even if they must be meaty, but now they can't take care of it. In order to avoid Medusa and others being stewed, the cost can only be large. Gently swallow your teeth!

Watching this huge second cosmic coalition quickly went away, Tuo Xiong and the ram did not regret, the three old guys of the long fish stunned face to face, both raised their hands and wiped the cold sweat of their forehead.

At this time, they are afraid of it, especially the extension of the male, especially so.

Fortunately, the original fox lord did not stay in the extension of the home, and finally took the initiative to leave, otherwise, the master's good mouth and the world's largest food temper, in the future if the braised dragon liver and other top The food is not available, it is difficult to ensure that he will not pick some white and clean presence in the family of the extension, and sneak in the back to wash and peel the pot and stew!

It is too ferocious and horrible!

Thinking of this, Tuo Xiong almost raised his hand and gave him a big ear. Before that, the lard was completely confused. He still thought about leaving the goods in the extension, but it failed. Otherwise, it is to lead the wolf into the room, and it is still a hungry wolf who can eat people!

"Fortunately, the friends of the second universe sent a group of **** rich masters and young patriarchs..."

After a bit of sorrowful sighing, Xu Tuo's face was full of joy, thinking that because the powerful old people from the second universe had already left in a hurry, this old thing dare to say anything. No evasive: "I must have tasted this kind of best food after the enchanting, and most of the braised dragons and livers have been invisible, and we should not come back to us for a few evils!"

"Buddha bless, this enchanting, if there is no such thing as a fuss, don't let him rest on the Terran. Go to the Second Universe, where the universe is a descendant of all kinds of gods and beasts. If you eat... enough!"

Subsequently, the heads of the various camps and the heads of the forces in the surrounding camps began to sneak into each other and became busy.

Although the palace innocent and dust-free people and other prisoners of war do not have to worry about being eaten by the fox lord, but the guy is too ferocious, in case no ransom is received, the person is beaten to death, it is also very possible.

This kind of thing he definitely does!

In the eyes of the heads of these various gates and forces, this time, Ye Xuan is already dead. Undoubtedly, the day after the return of the ancestors of the warriors, it was his first time, so in preparation for ransom, The gates of the gates are very generous. Anyway, they just have to go through their hands. This son will fall back to his own hands!

Anyway, there will be no loss of anything. In order to protect the pride of the family from the bitterness of the flesh and blood, this time, the heads of the various gates and forces are all bloody...

Chapter 3350: All of them

Ding inside space!

In the determination of Shennong Ding's internal domain field has been controlled by Ye Xuan, even the tenth largest hole in the sky below the sky star power, all can only enter, after the out, the two large camps composed of this huge Among the hunting corps, the fish that escaped alone or escaped in the previous war, eventually squirmed and gathered together.

After all, if you want to leave Shennong Ding, you will eventually have to leave Ye Xuan. If you have been hiding from the distance, if you have provoked the fierce and ruthless lord, you will not let them leave. It will be a hassle for a lifetime.

After a small day, the eight celestial celestial patriots of the Second Universe, including the young Princess Medusa, finally regained their enthusiasm.

As for the magic weapon of storage and the cultivation resources in them, everything is naturally searched for the first time, and entered the immortal world of Ye Xuan.

Seeing these guys wake up, Ye Xuan throws a small bottle of healing medicine at the same time, at least it has to let people restore their mobility. Otherwise, the ransom will arrive, can they help them to send them out?

"The eight guys, you look at it well, this is mainly to go through the retreat. If it is not honest, it will be fat and fat, and it will kill me!"

After everything was done, Ye Xuan waved his hand and told the palace that he had no intentions and no dust and so on. He wanted to leave now.

At the moment of turning around, at first glance, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and the three women were looking at him. Although the silver light curtain in the sky existed, the three women did not dare to wink their eyes. People see the clues, but Ye Xuan is not a general understanding of them, just a look, they read the ghosts of this girl.

I was originally bent on not paying attention to it, but I thought that if that was the case, I would definitely be liquidated.

In desperation, he could only sigh, but it seemed to suddenly think of something. After turning around, he looked at the three women and looked up and down. Then he waved his hand and said: "You three, with less. The Lord has gone together, and it is also necessary to have someone to wait for a tea to send a water!"

Although this discourse smashed the wish of the three women of Xuanyuan, but it was not really a taste in the ear, the faces of the three women immediately sank, not loaded, it was really annoyed.

How dare you call this lady to send tea to the water?

OK, it's a long way to go. Is it still necessary to get a bed?

The three women exchanged their eyes, and my heart was so embarrassed, how to clean up Ye Xuan for a while!

As for the palace next to the heartless and dustless people, after a moment of squatting, the look on the face became strange and strange, aiming at Ye Xuan, and looking at the face of the shameful color of the Xuanyuan Ziyan three women, all sighed stand up.

In their view, Ye Xuan suddenly took the Xuanyuan Ziwei three women away, certainly not safe, but unfortunately three beautiful women, will soon be together with the pig arch.

The scourge!

Subsequently, Ye Xuan quickly left with Xuanyuan Ziyan and the three women. Anyway, the unintentional palace and the dustless people could not get out, and they were not afraid that they would run.

Although there is no building in the inner space of Shennong Ding, this tripod has been refining as a whole by Ye Xuan. The internal domain can change with his mind. It is even more difficult to get a temporary cave.

Taking into account the existence of the silver light curtain in the sky, Ye Xuan took the Xuanyuan Ziyan three women into a dense ancient forest, and directly entered the underground, from the underground to the depths of the underground volcano of the central domain.

The shape of the volcano is a circular volcano. The internal structure is the same, and the wider it is, the wider it is.

When I reached the depths, I couldn't see any fireworks, but it was not dark. The orange flame on the top was like a canopy. The flames illuminate the bottom of the volcano, and it's still a delight. Orange color.

The bottom of the Ding volcano is like a vast plain, and you can't see the edge at a glance. The central area is a large lake with colorful mists. This big lake should be the core of the volcano, and the flame of the red flaming It extends from the lake and, like a mushroom cloud, expands and spreads upwards.

Presumably, the two-color fire in the future until the nine-color fire should be the same.

It is Ye Xuan, and now he can't fully understand the Jiu Cai Dahu in the central area, but in addition, he can control it freely in other areas of the bottom of the volcano.

On the volcanic rock wall around him, at this moment, he built five independent spaces in a way that he thought.

One small four!

The small one is sealed, there is no gap, and there is the undead bead inside.

As for the four large spaces, they are like cages, and they are holding four people:

At the moment, all four have been awakened, and they are screaming loudly and roaring. From time to time, there is a huge roar of bombardment of the rock wall. Unfortunately, all this is in vain. The rock wall at the bottom of the volcano is equivalent to the Shending of Shennong Ding. Wall, this is the treasure to the treasure, it is the fifteenth big world of the great power, and don't want to leave even a scratch on it!

Ye Xuan does not nod, they will never think of it, don't look at the fun of the current, the time is long, the same!

At this moment, the three hoes of Xuanyuan Zijing followed the leaves of Yexuan and entered the bottom space of the volcano of the furnace. At a glance, they saw the four people who were detained in the cage of the rock wall. After a glimpse, they suddenly exclaimed. It's up...

"Hey? These four guys are actually here? And they are all locked up. Have you not killed them for a long time?"

"Playing is a yes, this lady said, with your food and morality, how can I be willing to waste such a good top-quality ingredients, cut a small piece of roast and taste it, and I want to raise it for a long time. Eat it

slowly, this is really a good idea. If you lick your mouth, you will cut a piece of wine. Anyway, it will grow in a few days, and the water will flow forever, and you will never finish it..."

"But, why are you still holding the weasel? The meat is stinky, can you sip it? Take it here and carefully smother the big bird and the big eagle, how good it is, if it is It's a pity to smell the meat..."

The three gimmicks only said one sentence, but the lethality was not to be underestimated. Ye Xuan was scared. He looked at them with a stunned look. The whole brain was awkward. This mouth... is too poisonous?

As for the four people in the cage of the distant rock wall, they were violently violent, and they roared like crazy, especially the wolf was strong. This time he was really despised, and the whole person is going to be Blasted like it, took the head and slammed into the rock wall, hate anger!

"what....."

"I want to kill you! I want to kill you..."

"Hey..."

"A group! You are all a group, the **** Terran, too mean, I hate!"
