

Super D. S 3351

Chapter 3351: Cave day

"Don't toss it up. The rock wall at the bottom of this volcano is equivalent to the wall of Shennong Ding. This tripod is the treasure of the wild, and it is the great power of the fifteenth world. Don't even want to leave it on it. Even a scratch! Even if you crack your head, don't even want to shake it..."

I think it's too much of a stimuli for the four guys. Ye Xuan rarely comforted a few words.

"As for the fact that you have eaten this thing, if you have the truth, you can rest assured that this Lord has no plan."

"The reason why you left the four of you, although you still look at the blood in your body, but this young master is not to satisfy the appetite, but to refine the medicine, when you need it at the end of the day, let you Put some blood or cut a little liver, kidney, etc., and give this less medicine to the Lord..."

It is a pity that the effect of his comforting speech is really speechless. It is counterproductive. I am shocked by the four people who are listening to Ye Xuan. They are planning to raise them for a long time in the future, and they have to cut the liver and cut them from time to time. Tablets and kidneys gave him medicine, and all of them were crazy.

The roaring sound is even more exciting.

"what....."

"Kill you! I want to kill you..."

"Devil, the big devil!"

"This young master would rather die, and not do your living medicine, let the fox rush, you will die this heart, big deal, the Lord blew himself..."

In the roar, there is a breath of chaos in the body of the day, and it seems that I am really ready to blow.

"Explosive! You have the ability to explode!"

"Don't forget that this is the land of the Lord. Even if you burst into a **** fog, you can't waste it. You can collect it between the Lord's thoughts, take the bottle and put you up, and use it slowly... .."

Ye Xuan licked his mouth and refused to accept the threat. He sneered and said: "And, what the Lord's Lord remembers, can't be handcuffed? If you dare to blow yourself, if this is the Lord, you can get through the disaster and turn back. Run your pretty bulls, I believe that the old bulls should not only be one of you, but you will catch all the strings of your big brother and sister, and bleed a blood every day..."

"Moreover, in the Shennong Ding of the young master, do you think that you have the ability to blow yourself? Be careful not to die, and the result is half-dead, and slowly grow up, and finally you have to bleed!"

"Hey, love toss you freely..."

After that, Ye Xuan waved his hand and directly sealed the rock cages of the four guys. Nothing could be heard. Similarly, everything outside the cage could not be perceived, either. The sound is still a sight.

However, Ye Xuan did not calm down because of this, because in the next moment, Xuanyuan Ziyan three gimmicks got into trouble.

Three hoes, two one left and one right, swaying his arms, and the other standing in front of Ye Xuan, a small powder punching like a pile on his chest...

"Shen Nong Ding? You said that this is Shennong Ding? That is the legendary wild treasure to the treasure. After the end, this time is really a big hit, and you can find this kind of treasure in the void, which is cheaper and bigger. Minutes! Must be divided!"

"Playing is a yes, as the saying goes, there is a share. When we entered Shennong Ding last time, we also went together, and also helped you cover, never leaked your identity, and you got such a big benefit, but we It's too unreasonable for Mao to be assigned to one. It must be compensated..."

"But this Shennong Ding is the whole, it is not a piece that can be taken away. In this case, Ding can be yours, but you must express it in other aspects, for example... In addition to the armor, help us Let's raise their own small private battleships to a higher level!"

"Yes, everyone is an acquaintance. This time we have to lose some money, but we can't cut corners. All kinds of arrays and the like must be there, especially the killing system, which has killed my brother. I didn't expect it." You are still a master of the battle, and even this ship-based killing system can be made..."

For a long time, it turned out that this girl was waiting for him here. Ye Xuan finally understood it and suddenly shook his head and smiled.

Both hands spread the road: "It is not impossible to help you to squash small private warships, but you have to let me come in a pile. The previous trenches have not been finished yet, this is the first time to complete the melting, you The second fusion material handed over to me last time is still there. I have to finish the battle, and then talk about the battleship?"

Upon hearing this, the three hoes blew on the spot and slammed again.

"What? The second fusion of materials is useless? We have brought the third fusion of treasures and materials this time. Are you too slow?"

"Playing is a yes, negative completion, so you have to work overtime!"

"Yes, today's situation is special, it will not force you, but the next time you meet again, the third melt must be completed, otherwise, it will be liquidated at that time..."

In the end, Ye Xuan can only pat the chest to ensure that after this incident, the first thing to do this, and when you meet again next time, the three treasures must have been tempered for the third time. Otherwise, let it be disposed of.

As a result, Shantou was finally taken off, and he continued to harass him.

"Right, have you said that you want to break through?"

Then, Xuanyuan Ziyang turned a corner and raised the business. He asked Ye Xuan strangely: "Have you just broke through in the battle before? And it is still two consecutive Jin, directly from the original seventh order to The 9th order of the origin is full."

"How come so fast and break through again? So urgently, the realm is unstable. Besides, the breakthrough in the big realm is not so simple. You have to look at the opportunity. You seem to be a bit too hasty..."

"Do you think I think?"

Ye Xuan turned a blind eye and smiled bitterly: "My practice of cultivation has been slow, and now it is still in the black hole. The breakthrough now refers to the evolution of the body, relying on genetic culture fluid to break through. "

"At the moment, my physical body and blood state is the ninth big point of the origin of the ninth order, and I have already prepared the ten-level liquid, and more than one tube, I can take it at any time, and break through. Once successful, I can immediately Advance into the tenth dimension of the first day of the heavens, of course, is the realm of the body and blood of the body..."

"What? You are actually on the road to evolution? And even the tenth grade liquid?"

On the side of Duanmu Xiaocha, even if he jumped up, the big hand stretched out and spread it to Ye Xuan's eyes: "This lady just wants to try it, but unfortunately I have been worried that there will be no 10 grade liquid after the 9th grade liquid. Since you have, Share it now, or that sentence, see you!"

The voices fell, Xuanyuan Ziyang and Zhao Qianru both of them also looked over to Ye Xuan, and the eyes were straight green, which is also a meaning. After all, there is a ten-level liquid, at least to ensure the realm of the body and blood. Break through to the tenth dimension of the natural environment, Shantou is all the original point of cultivation, how can you not be tempted?

Chapter 3352: Harvest

"Reassured, prepared well, you know that Danfan is a little good, and certainly can't escape the search and exploitation of your three gimmicks!"

Ye Xuan turned his eyes blankly, and when he turned his hand, he took three space boxes directly from the immortal world and handed them to the hands of three hoes.

Shantou proudly raised his chin, the first one should be like this, count your expression, and then gradually open the space box in his hand.

"Yeah, how do you have two tubes?"

"And the colors are different, this is not the same level of genetic culture, is it..."

"Eleventh grade liquid? Another tube is eleven grade liquid! Big bastard, you actually prepared the eleven grade liquid, and it is still a small mass production, God, the first person in the human genetic fluid field! It, we can at least enter the mysterious light, big bastard, you are great..."

"Hey!"

The three gimmicks exclaimed, especially Xuanyuan Ziyan, which was particularly happy. After a moment of excitement, he actually tilted his toes and kissed Ye Xuan's cheek, and immediately kissed him.

It's understandable to be so happy. After all, there is a tube of eleventh grade fluid. As long as luck is not so bad, in time, once the breakthrough is successful, they will leap to become the eleventh strongest in the realm of Xuantang. Outstanding among the strong stars, is the three gimmicks satisfied? It's just too satisfying and full of heart!

"Do we... come one more?"

"This time, it's so powerful, it's too competitive, it's really worthy of reward, just... blame and shame!"

Didn't wait for Ye Xuan to return to God, the side of Duanmu Xiaocha and Zhao Qianru's face was red, and after a slap in the mouth, they actually came to each other on Ye Xuan's left and right cheeks.

Although it was just a little bit of water, it was at the touch of a finger, but Ye Xuan was like an electric guitar. The whole body was smashed twice and completely lapped!

.....

The process of quenching the flesh with the genetic fluid and improving the potential of flesh and blood in the flesh is that there is no such thing as an unstable state. This evolutionary path is decisive and direct, and the power of blood does not reach that level, and you cannot The order, reached, is the real entry into this realm.

The flesh and blood cells have completely evolved and evolved, and there is nothing stable and unstable!

Therefore, after learning that Ye Xuan was hit by the tenth-level gene culture solution, the Xuanyuan Zijing, Duanmu Xiaocha, and Zhao Qianru were all relieved. They did not bother Ye Xuan and soon left. In the bottom plain of the central volcano of Ding Ding Vol.

Ye Xuan, in the wave of the bottom of a nearby furnace, opened a simple Dongfu, and walked into it. After sitting cross-legged, he took out a tube of ten-grade liquid and poured it in. In the mouth.

Then he closed his eyes and entered the state of cultivation!

The familiar body of the whole body from the inside out the first cell is tearing the strong pain, and soon came, Ye Xuan's forehead immediately burst out of cold sweat, bite his teeth!

Since his body, the road is like the roaring roar of the Nujiang River. It is clearly audible. This is the venom of the flesh and blood cells being completely washed away by the pharmacodynamics of the gene liquid. The greater the movement, the better the effect.

Time is unknowingly flowing, immersed in pain, and Ye Xuan, who suffers from the infighting of the body every moment, has forgotten the existence of time.

I don't know how long it took, when the severe pain in the body gradually eased and eventually disappeared, Ye Xuan's whole person was relieved, and there was a sense of freshness that was reborn, and suddenly opened his eyes.

The next moment, with a fine man shot from his eyes, Ye Xuan's mind, also sounded a familiar system prompt sound: "Hey, congratulations to the host, the body and blood of the realm of the realm! The current realm: the first step of the world! "

Finally, the hole is in the sky!

Ye Xuan's face is full of excitement. From then on, he is the tenth state of the starry sky. Even if it is far from the fifteenth world, it seems that the feeling is not too far away!

With all the powerful magical powers and secret methods he has mastered, even if you don't mention the headless baby corpse, the and the Lei Di, Ye Xuan can fight across a big realm, that is, even if it hits the tenth A strong territory of the black light, he can fight with one under the premise of not revealing his true identity!

As for the original point of view, even if it is a nine-order grand perfection, for him now, it is really like an ant...

.....

At the same time, the hilly area of the Dingnai space.

The eight King Kong are busy counting and registering a small pile of space boxes stacked in front of them. They are all filled with various treasures of heaven and earth, which is what Ye Xuan needs.

Among them, there is a bottle of Moxi Bodhi, a total of thirteen, which is the seed of the empty jade linden tree, one of the most precious heavens.

Nine sections of the seventeen leaves of the iris, this leaf is a kind of water grass, the leaves are long and narrow like a sword, can solve red poison, corpse poison, scorpion venom, dialing scorpion venom, more can be used as medicine, neutralizing the toxicity of some herbs.

Tianxiang continued to reveal a bottle, which is made from a large number of precious secret medicines. It has the miraculous effect of meat and bones and medicine.

Three bottles of Zijing Yurong cream are said to be the secret recipe of an ancient Zongmen in ancient times, and the healing of precious herbs.

Two bottles of which is a liquid collected from a fairy palm that grows purple leaves and white flowers, can emit a strong aroma, smells aroma, and is like drunkenness.

There are seven black blood crabapple flowers, which is a kind of poisonous flower. Its pollen is very poisonous. After poisoning, it can cause people to continue to lose blood. When it is dead, its potency is extremely strong and hegemony. When adding a small amount of genetic fluid or alchemy Used, it can play a role of four or two, to stimulate the effectiveness of the drug.

Forty-seven pieces of Longhuacao, originated from the Second Universe, are said to have been irrigated by the ancient

A bottle of squama scales powder is said to be the scales of the legendary big fish carp. The pieces are all two-finger size, and the whole body is multicolored. It is like the best colored jade piece. It can be used as medicine after grinding into powder, which has the potential to stimulate the human body. efficacy.

Nine Translucent, like the top of the opal, the drug is chilly, and the medicine has a miraculous effect!

In addition, there are various kinds of heavenly treasures and rare minerals such as chalcedony demon grass, Jiulong exquisite fruit and so on!

In short, this time Ye Xuan is definitely a bumper harvest, and the obtained materials are basically all the treasures needed to prepare the 12-stage liquid, and even the 13th and 14th grade liquids can be used!

These Tiandi Dibao and rare mineral deposits, some from the top gates of the Terran, and some from the Second Universe coalition, all are in the space box, the ransom thrown directly from the outside, by the Eighth King Kong led more than two hundred prisoners of war, such as the dust-free and the palace, and they were collected one by one. It was a small box of space, and they all piled up into a small hill...

Chapter 3353: Cave clue

After calming down the excitement, Ye Xuan stepped out of this simple temporary cave house.

Outside, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three gimmicks have been bent over, I do not know when to come back, waiting outside the Dongfu.

Seeing that Ye Xuan walked out of the Dongfu, and then felt the strong atmosphere of the cavernous world that was faintly dispersed in his body, the performance of the three gimmicks was different, but apparently all were happy for him.

"Congratulations, you finally entered the hole!"

"Wow, there is a hole in the sky. Idol brother, you have to cover me. From now on, someone will dare to bully my Duanmu tea, I will report your name!"

"You guy, really a big bastard, this lady just entered the ninth stage of the original point of perfection, and finally saw you on the line, I did not expect to be opened for a long time, too angry..."

Ye Xuan listened straight to the white eye, Xuanyuan Ziyan with a happy complaint, it is no doubt, Duanmu Xiaocha this girl said what is the ghost? It's like she's being a little rumored and being bullied all day long.

It is clearly the little princess of Duanmujia, one of the top three gate valves in the Tianfeng Empire's genetic fluid field. Is it a default heir?

With the temper of his little witch, it would be better not to bully others. How can anyone else bully her?

Ye Xuan is now extremely suspicious whether she will use her own banner to threaten and sway. After all, after the battle, the name of the fox lord must be resounded in the three cosmic planes, and it is very possible for the wind to cover the princes. In the future, when Ye Xuan took the initiative to show his identity, this **** will pull up this tiger skin and sway it!

Unfortunately, he still can't warn about this matter, because it is tantamount to reminding her in advance, with the temperament of this girl, maybe he has to start thinking about it!

Thinking of this, Ye Xuan could not help but smile again, and then, not waiting for him to speak out, Xuanyuan Ziyuan on the side was the first to open, frowning and asked: "Right, I did not pay attention before, forgot to ask you, you It has been said that the practice of martial arts has been slow, and it has stopped at the first stage of the black hole. It has changed the path of physical evolution because... Are you practicing emptiness?"

"Hey? How do you know that the hole is empty?"

Ye Xuan Yi Yi, subconsciously returning a sentence, then suddenly realized, his face showed a happy, excitedly asked: "I understand, the original tortoise I photographed at the Tianhe Star auction house, is actually you Is it like this?"

How can he not be excited?

There is no clue to the follow-up merits of the sinister essays. For the existence of this tortoiseshell auction in Tianhe, although Ye Xuan had the heart and walked a glimpse of the Tianhe Star, it must be able to find out.

But after you find out?

In the unlikely event that the other party is not in the Tianhe Star, or if there is any other thought, it is not as good as telling the truth. Ye Xuan has no way. Because of this, he has always been interested in this matter and has no hope. Anxious to rush to the Tianhe Star.

Of course, there are too many things at hand, and one after another, one of the reasons is not taken out.

But now, all these problems have been solved. The original owner of the ancient tortoise shell in the first eight layers of the imaginary hole is in front of you, and it is still an acquaintance. There is no possibility of any concealment of Ye Xuan. For him, this is definitely a big surprise.

Because it is very possible to get a clue to the whereabouts of the follow-up.

"It seems that I guessed it correctly. The practice you cultivated is really a hole!"

Seeing Ye Xuan's reaction, Xuanyuan Ziyang understood everything, and suddenly shook his head and smiled: "This incident also blames me. After I got the ancient tortoise shell, I actually struggled for a long time, and finally I bit my teeth. Abandoning it completely, after all, this is an ancient trick that can be called a treasure, and no one can easily ignore it."

"But then the tortoise shell was photographed by you. I really didn't mean to remind you. If I didn't get an accident soon after I left Tianhe, I will ask you for this and I will give some advice."

"Later you and I separated, you and the green radish fell ... even life and death are not clear, I was even more anxious to forget this thing completely, I did not expect you to be so reluctant, knowing that it is broken, only The merits of the first few layers can only be practiced before they reach the eighth major black hole, but they still practice it..."

Having said that, Xuanyuan Ziyang once again smiled bitterly: "Getting you now can only stop and practice the path of human body evolution, which is all my responsibility."

"Fortunately, your refining talent is amazing, you have prepared a ten-level, eleven-level liquid, and it is difficult to formulate the 12, 13, or even higher-level genetic fluids needed for the evolution of the body in the future. After all, it is I didn't break the road to practice because of this incident, otherwise I really have to live forever!"

After that, Xuanyuan Zijing is already a look of apology, after all, the fact is true. If it is not Ye Xuan, this matter will be extremely troublesome for him. In fact, it is very possible to change to another star power strong. Even the eight-grade liquid and the nine-grade liquid can not get the hand, which is too expensive.

In that case, it is impossible to decide the path of human body evolution, which means that the repair will be completely stagnant, and there is no hope from the previous trip!

"No, no, what are you doing? What are the two things about us? You can't hang me in the pit..."

Because of his excitement, Ye Xuan also had some unspeakable moments. When the words were exported, Xuanyuan Ziyang's face immediately became red, and he was too shy. Duanmu Xiaocha and Zhao Qianru were also covering their mouths and laughing.

But he didn't realize it at all, but then he continued to ask questions. Both hands subconsciously supported the soft shoulders of Xuanyuan Ziyang: "In short, those are not important. Don't say that you didn't persuade me, even if you advised I don't want to fix it. The most important question now is the ancient tortoise shell... Where did you get it?"

"Do you want to find the follow-up part of this?"

Xuanyuan Zisui was shocked, and the shyness of his face quickly dissipated. He looked at Ye Xuan seriously and warned: "I advise you to stop this matter, don't stop tangling, because I also I have been looking for it, not only has no results, but also died in a lifetime, but there is no external pressure, but you are different..."

"You and the people of the Second Universe are now in the same position. The other exit of the giant natural cosmic wormhole between the First Universe and the Second Universe of our Terran has a coalition of the Second Universe. guard!"

"All warships that enter and exit the cosmic wormhole must be inspected in case the celestial or servant race is mixed, as soon as you pass, you will be discovered immediately."

"At that time, I am afraid that the entire second universe will boil. You will be unable to walk there at all. I am afraid that it will be more difficult than the first universe that you were arrogantly arrogant."

Chapter 3354: Sea of tortoise

"What's more, the place where I got the ancient tortoise shell is itself a fierce place in the Second Universe. How can you spare no effort to explore the tortoise when this external pressure reaches the level of terror? sea!"

Wen Yan, Ye Xuan, the whole person is stunned: "The Sea of the Turtle? The Sea of the Second Universe?"

Xuanyuan Zizhen said that it is true that he and the second universe of the various ethnic groups are incompatible with each other. If Ye Xuan went to the second universe, it would be difficult to move.

On the one hand, the exit of the giant natural cosmic wormhole that leads to the second universe in the first universe, there are a large number of second-common federations of the various nationalities, and the investigation is very strict.

On the other hand, even if Ye Xuan can change the appearance again, or simply go as Xuan Huangzi, if there is no accident, he will eventually reveal that he is the singer.

Because Ye Xuan's warriors, armor and warships completed their last meltdown not long ago, this time they all exposed the identity of the younger Fox, and in the short term, it is obviously impossible for them to be the three stars. The basic treasures are once again melted and changed in shape.

After all, it is already the starry sky to the treasure level. The general materials and the same type of treasures are not worthy of them at all. It is forced to be incorporated into the melting, and may even affect the order, and even the failure of melting.

The more you get to the back, the more likely you are to fail, and that is equal to everything you did before.

Therefore, for every subsequent smelting, Ye Xuan can't be rash, and must be cautious.

In addition to the basic treasures of these three star-studded powerhouses, he is exposed to the mysterious secrets of the fox-like lord and has many spiritual skills.

After all this is in the second universe, it is impossible not to show it. At least small private warships are often used, and the sea of the tortoise is extremely dangerous, that is, the periphery is the same. Ye Xuan needs to sacrifice the glass. The virtual sea area is dangerous, but it is just quite good, so not only the strong people of the second universe, but even the strong people of the third universe have swarmed away.

In this case, there are many people with mixed eyes, and the chances of Ye Xuan's exposure are enormous.

Once the identity is revealed, it will definitely have a great impact on Ye Xuan, and at the same time, there will be more crises. All the federal groups in the entire second universe are estimated to be crazy and will want to leave him...

"The sea of the tortoise is the habitat of the second cosmic tortoise. Although the sea of the void is too vast, the tortoise family does not prohibit the extraterrestrial powers from exploring, even from the first universe. The strong people are no exception, but for you, going there is really too dangerous..."

Just as Ye Xuan was indulging, Zhao Qianru took over the words. He also looked at Ye Xuan seriously. "The spirits of the Turtles are not so happy, but they are also one of the second cosmic federations. And it is still the top ten ethnic group."

"If you enter the sea of the tortoise, even if it is not discovered by other powerful people, it will certainly not escape the surveillance of the family of the turtles. The possibility of revealing identity is at least 90%."

On the side, Xuanyuan Zizhen and Duanmu Xiaocha also swore again.

"So, don't think about it again, it's too dangerous, not worth it!"

"After all, after the purple scorpion sister got the ancient tortoise shell, she also explored the nearby void sea. There was no discovery at all. If you go, you may not be able to gain something. Why?"

At the end of the day, Duanmu Xiaochai had a small mouth and looked at Ye Xuan with pity. He said, "If you really have three long and two shorts there, how can our three sisters live? Hey, don't misunderstand, I mean, you are the idol of Miss Ben. If you really want something to happen, I am definitely sad."

"I really can't live, at most, they are both, especially the sister-in-law, who doesn't include me anyway..."

Did not wait for the change of Duanmu Xiaocha to finish the words, Xuanyuan Ziyang and Zhao Qianru have already reacted, and both of them have floated a large piece of red glow at the same time, or because they feel too embarrassed, they are actually concealing the general chasing Duanmuxiao. The tea will be beaten up.

"Oh, you are dead, and you have chosen too clean."

"Play is a play, the evils are very incomparable, we don't see it, the little girl is enough to play with the heart..."

For a time, the three gimmicks became a group, but the face was serious, and Ye Xuan, who thought that he was talking about the big things, was left alone and told him to laugh and cry.

In the end, Ye Xuan still asked Xuanyuan Ziyang that she had inadvertently obtained the location of the ancient tortoise shell, which location is located in the sea of the turtle.

On the surface, he said that he would carefully consider this issue, at least not yet decided to go to the sea of the turtle.

But in fact, Ye Xuan does not need to think about this problem at all. In the second universe, he is absolutely going to go. Even if he goes to the sea of the tortoise to find the hole, he will definitely go there.

Since the last time his system title was upgraded again, now Ye Xuan already has the ability to jump across the plane level.

However, this ability is required to activate the start-up and successfully expand the coordinate jump, provided that the cosmic planes to which they are going must be adjacent and that a plane coordinate has been imprinted on the target plane in advance.

There are only three cosmic planes known at the moment, or already roughly explored, the first universe occupied by the Celestials, the second universe shared by the federal tribes, and the third universe of the Terran Territory.

These three cosmic planes are connected to each other, because there is a giant natural cosmic wormhole connection between them, but Ye Xuan has branded the plane coordinates in the first universe and the second universe, and the second universe is the only one. I have never been to even go, so I have never done it.

Just to complete this, the second universe, he must go!

As for the so-called danger, Ye Xuan did not look at it at all. In his view, all the soldiers will block the water to cover the earth. When he was only the star nuclear environment, he dared to be the only one who ruled alone. The universe, not to mention the world's tenth-biggest horizon, is the star of the sky?

People, can't live more and go back!

Just this reason is enough to make Ye Xuan firmly believe in this trip...

Later, Ye Xuan asked about the time of his retreat. When he learned that the two days had passed, he could not sit still.

At the Xuanyuan Ziwei and Duanmu Xiaocha, Zhao Qianru, three gimmicks waved, and said: "Oh, almost missed the business, before the second cosmic federation of the second universe of the eight kings, said that three days without redemption If you cook it all in one pot, you must not mistake it. Otherwise, I'm afraid I can't live in the market anymore. People can't say no words, they have to go out and show up!"

After that, the person has already swept out and rushed to the ground above the head...

Chapter 3355: Qingsuohualong

The three sons of Xuanyuan, who was behind him, stunned, and then they turned their eyes, and they couldn't believe that the word was used by him. It was really drunk!

At the same time, outside the space outside the Dingwai space, in two different directions, there are two figures, the way to cross the void in the flesh, the speed is coming, it is the Xiaoyaozi and Yinxia Fairy, the Terran recently The second generation of the four generations of Tianjiao!

Right now, it's been two days since Ye Xuan's three-day period.

On the same day, the second cosmic coalition forces that went to Tianchen Guoguo Tianchenxing had returned as early as yesterday, and they cost them a huge price to transport all kinds of heavenly treasures and rare mineral materials from the trans-planetary micro-wormhole. They were each placed in a space box and sent to Shennong Ding.

The same is true of the top-ranking gates and forces of the Third Universe, a space box containing the so-called ransom that they think should be enough, and thrown into the mouth of Shennong Ding.

Of course, each space box has a label indicating the origin of the throwing party.

Next, it was a long day of boring waiting.

Throughout the day, the fox lords never showed up, but the Terran prisoners of war, under the leadership of the so-called Eight King Kong, have been busy.

There are more than two hundred space boxes, and they are piled up into a small hill.

Each space box will open, check the Tiandi Dibao and rare mineral deposits inside, and match the quantity on the list.

I also did my best, but I gnawed the teeth of the federal people in the Second Universe, and the people in charge of the top gates of the Terran were even more incomparable. I could only use one reason to comfort me... ..they are also forced, forced to help!

It was also at this time, in the distant sky, a silver rainbow spurred.

The coming person is Yinxia Fairy, Longxia Star from the science and technology camp Tianfeng Empire. It is one of the four generations of Tianjiao, which was born before the Terran, and has a strong cultivation of the 9th order of the Xuanguang, creating a Yulong Island. Self-proclaimed as the island owner, with a ridiculous treasure!

Although this treasure is in the form of a rope, it is extraordinary, and it is very good.

It is said that when the ancient world was first divided, the world was full of spirits, and there was a spiritual stone that existed in chaos. After the heavens and the earth were divided, this spiritual stone used the essence of the sun and the moon in the ancient times, exploiting chaotic energy, and finally Dacheng, become a spirit beast, wandering between heaven and earth!

This spirit beast was buried in the south of the Great Wilderness, and its body became a cable. After the millennium, the Great Barren Mountain was cracked, and its appearance became visible in the world. At that time, it was a natural vision, and the Taoist Tiancheng was rumored that if it could do this Exhibited, even the gods will be invisible, and the sky will be tied up...

The reason why Yinxia Fairy became famous is that it is regarded as one of the four generations of the young generation of the human race. Although it has nothing to do with its own horror talent, to a certain extent, it is because of this.

At the beginning, he had displayed the entangled soul in public, and this rope was thrown by her hands, and it was instantly made into a silver-colored man, and it became a giant silver dragon shadow. The ancient atmosphere was overwhelming, and it was in the blink of an eye. The star-rated battleship of a kilometer captain was made into two breaks, like a steel wire tofu, which is awesome!

The sudden arrival of Yinxia Fairy was apparently for the sake of the fox, and it caused a sensation. After the initial smashing, the strong people of the human race who were caught in the vain air of the big bangs quickly whispered and talked.

Is it because the Yinxia fairy is not convinced that the fox has less of the genius of the two masters, so they come down in person, want to lose their prestige?

It is a pity that she did not have this opportunity, and the fox lord was huddled inside the star giant, and would not come out at all.

The internal domain of this tripod has been changed by him. Although it is no longer the same as before, only the star-studded strongman who was repaired below the original point can enter, but it only enhances a big realm. The entrant's cultivation is the highest. It is limited to the ninth big point of origin and the ninth order is perfect.

The Yinxia Fairy is the eleventh major Xuanton ninth-order grand perfection. The power is affirmative, but it is beyond the limit of the inner domain of the stars. It is absolutely impossible to enter.

"It's a pity that the main fox is shrinking into the stars, otherwise the battle will be very exciting."

"Yes, the genius of the genius is a fascinating event. This is a grand event for the younger generation of the human race. It may have appeared, but it is completely impossible now. It is really regrettable!"

"It can be seen that the fox lord is still not confident enough after all. He is huddled in the huge star of the giant ding, perhaps not just to avoid the mighty power, the name is too loud, the pressure is naturally big, the fox Most of the lesser owners have expected the situation now, circumvented in advance..."

Some people say this, they feel that the fox lord has escaped today. Otherwise, although he has three medicinal devices and his fighting power is amazing, he is known as one of the two geniuses of the lord, but it is not really The land grew up, even if it had been strikingly broken two small steps in the battle, but now it is only the original nine-step perfection.

Even though he has the ability to fight across the big realm, but after all, it is not the invincible **** of war that is still in the practice camp. This is not his strength. Most of the Yinxia fairy who is the perfection of the 9th-order Shang Xuanguang should drink hate.

At the time of the discussion, a silver skirt fairy with a white dress like a fairy finally came to the front, and his face was cold and he couldn't see any expression, but in the middle of it, there was a lot of glamour, and there was a lot of empty space around the big circle. Star powers and warships, fortresses and even small fortresses are all ignored.

In her eyes, it seems that only the channel that was specially opened by the trapped squadron entered the squad and went straight to the passage of the stars.

Sure enough, after the arrival, Yinxia Fairy did not stop for a moment, even if they sneaked into this large array of passages, they plunged straight toward the stars in the center of the trapped squad.

Seeing this scene, many star-studded powerhouses in the illusion of the sky have once again exclaimed...

"What does she want to do? Is it because she wants to enter the Stars of the Stars? How is this possible?"

"Since I know that the place of the incident is located in this star field, then Yinxia Fairy must have learned some news through the Star Network before coming here. So, how can she not know the limit of the internal domain of the Star Judging? Is it Is there a good strategy to forcibly break through?"

"If this is the case, isn't the ancestors of the war empire of the Heavenly Wars rushing to run away? Is it better to stay here and wait for the Yinxia fairy to go to the door? With the help of the law, it will be..."

"call out!"

The voice of the discussion in the void around the big squad, but the Yinxia fairy who has entered the big squad has already been shot. With a faint sound of breaking the air, his right hand waved. Qinghong venting!

Seeing this scene, a large number of strong people outside the big array were shocked again, and they all stunned...

Chapter 3356: Fairy advent

With the waving of Yinxia Fairy, a pair of smelting, blue smelting, shot from its hands, the wind will rise, it is actually a huge dragon in the blink of an eye.

Many star-studded powerhouses in the void around the big squad that have not been trapped have come back to the world. This huge green dragon has opened its mouth wide and swallowed the Yinxia fairy.

Then he turned his body and smashed into the fog of the canopy of the awning above the stars of the giant ding Ding, and disappeared.

If the cultivation is beyond the ninth state, the ninth-order grand perfection tries to enter the star giant, then when the body shape touches the mysterious nine-color suffocating above the stars When you are in the fog, you will be attacked immediately.

The nine-color smog that is filled by Dingkou will be turned into a mysterious nine-color fireworks in an instant, with the scent of the gods as the guide, locking its body shape, burning constantly, until the gods are destroyed, turned into fly ash... ..

After all, Shennong Ding is an ancient treasure, even when it is combined with Shennong, the level is raised to the height of the ancients.

The nine-colored flame that represents its most powerful power is obviously not the same.

Before the Heavenly War, the Emperor had a strong attempt, and a twelfth-day emptiness in the late days of the celestial empire was almost under the mysterious horror of the nine colors.

This is the ancestor of the emperor Qiankun, the great ancestors of the martial arts. They are extremely jealous and make conclusions. Even if he forcibly breaks in, the result will be non-defeating, and it will be seriously injured, and it will be seriously dying!

If this is not the case, the Qiang Kun ancestors of the Heavenly Wars will forcibly break into the battle, and will not be so laborious. They will visit friends and invite them to help.

This kind of thing, but it is owed to human feelings, and the human condition of Qiankun's big energy level is obviously not so owed, and it is very likely that it will be important in the future!

But at the moment, the one-hundred-thousand-thousand-thousand-green dragon plunged into the star of the giant ding, but it did not cause any change at all. The mysterious nine-color smog that filled the top of the star of the giant ding dynasty was just a rush, and there was no It's moving.

It seems that this Qinglong does not exclude. As for Yinxia Fairy, after she was swallowed up by Qianzhang Qinglong, the body of Qinglong has already obscured her breath, and even the internal domain of Shennongding could not be sensed.

It can be seen that before it raised its hand and swayed out, the treasure of this green dragon will be extraordinary, at least it is also the grade of the ancient treasures, not weaker than Shennong Ding!

"Well, she actually went in, and she was safe and sound. The nine-color smog above the stars of the stars was not stopped. It was so shocking. What is the origin of the dragon?"

"This dragon seems to be a fine rope. Before the Yinxia fairy waved it, it was a blue rope..."

"Worowing the soul! It must be this treasure. I can't think of it as a thousand-year-old dragon. Obviously, Yinxia Fairy didn't rush all its power last time, and there are reservations!"

"From this point of view, the four great celestial arrogances that the Terran was born in the near future must have all been preserved, including the Xiaoyaozi and the scorpion, the magic dust, and the real strength must be even stronger!"

"This time, the main reason for the fox is smashed. The internal domain of the star giant is strong again. After all, there is still a flaw. The Yinxia fairy is the eleventh big ruling ninth stage, and it is more than the singer. Stronger two big realms, even if he is enchanting again, this time will certainly not be defeated!"

"The ending that has been suppressed suddenly is already doomed..."

With the sound of these exclamations ringing, the Tianzhao Emperor, who was outside the trapped squad, was in the twelfth world, and the entire face was completely gloomy.

In any case, he did not expect that someone could ignore the domain limitation of the Star Juding, and rushed directly into the ninth aspect of the original point.

This kind of thing can't be done even if it is a powerful genius, unless it has a targeted secret, but now it is realized in a tenth-largest ninth-order ninth-order grand priest.

In the case of War One, this matter is simply a change!

He is not worried that Ye Xuan was accidentally smashed into the Yinxia Fairy in Ding's space, but worried that all the creations related to Ye Xuan were firstly taken by Yinxia Fairy and forcibly taken away.

With her tenth-largest Xuanguang ninth-order grand perfection, she has strengthened the two major realms of the fox and the lord. It is absolutely possible to have a crushing force and take it away.

And the stalking soul that turned into a thousand-year-old dragon can easily ignore the rules of the field, forcibly breaking into the inner space of the star giant, indicating that its level must not be weaker than the giant tripod, at least the treasure of the ancient treasure.

Yinxia Fairy has this heavy treasure, and it is entirely possible to take advantage of it after the fox has been reduced.

How come, how to go, with the mysterious power of the soul-stricken soul, there is no such thing as the fifteenth big world in this place, the rest... Who can stop her?

As the thoughts flashed through his mind, the face of War One became more gloomy.

After a little thought, he even shouted and said: "I will immediately close the gap in the gap, and this woman has a treasure in the hands of the ancients. So I don't know if I can stop her. Let's raise some gods. Once the situation changes, immediately shoot!"

The implication is that this is clearly reminding the powerful forces in the surrounding air, and the Lord of the Rings in the Stars of the Giants is likely to come out soon, and will be forcibly brought out by Yinxia Fairy. And forcibly.

The people of the human race in the emptiness of the sky were in a moment of spirit. After waiting for such a long time, the key moment finally came. I thought that when the warrior's great power returned, this moment came, but I didn't expect it because of the suddenness of Yinxia Fairy. Arrived and advanced.

At the same time, the void of the second space coalition forces also evoked a mad laughter, revealing a venting meaning!

"Ha ha ha..."

"Is that kid finally finished? It's a big heart! This old man is fighting for his life, and he will definitely leave him! Hehe..."

"Old wolf, count the old man!"

"And me, the old man first said the ugly words in front of him. Any interest in this child, the old man does not care now. As long as he shows up, he must take all his efforts. If he can stay alive, if he can't stay, he will die directly. Don't block the Terran friends, otherwise don't blame the old man for turning his face..."

With the strange laughter of the two strangers of the Second Universe, the top leaders of the First Class and other forces were suddenly frowning.

However, not waiting for them to express, some of the star-studded powers who have been paying attention to the silver light curtain in the squad have already exclaimed.

"Behold, after two days of disappearing, the fox lord finally disappeared!"

"God, the situation is a bit wrong. In the face of the eleventh big sacred light, the nine-step grand perfection of Yinxia Fairy, he does not run for Mao? Actually, he still screamed up, the look of the wretched color, do you want to play? ..."

Chapter 3357: Eight kings

Shennong Ding interior space!

Ye Xuan and Xuanyuan Ziqi, Duanmu Xiaocha and Zhao Qianru just walked out of the central domain of the Ding volcano, and immediately was shocked by the scene.

In the sight, the eight King Kong and the dust-free, the palace is in the heart, and the revenge and other prisoners of war, are excited to be surrounded together, and there are many arguments, one by one like just a shot of chicken blood, excited and inexplicable.

The other prisoners of war were basically all around, looking into the inside, and in the middle of the encirclement circle surrounded by the Eight King Kong and others, a pile of space boxes was visible.

"I rely on! It seems that a few of you are really special, not ordinary gold, ah, three days have not yet arrived, space boxes are piled up like this?"

Ye Xuan stunned a bit, and then suddenly realized that he turned to the head of the Eight Second Universe and other tribes of Medusa and looked at it. He grinned: "Reassure, since the ransom is already in place, as long as the quality and quantity If you can match your value and be satisfied with the lesser, all that you promised before will be counted."

"This Lord does not kill you, nor eat you, go back and find the opportunity, you must give it to you..."

Ye Xuan's words have not been finished yet, Medusa and others roared, and the eight men roared at the same time, hating anger!

"What? Still have to find the opportunity to put us away? Linghu Chong, you should not be too shameless!"

"The playing is yes, the ransom has been received, but it is not willing to let go. This is clearly a rogue, is the Terran so shameless?"

"Too too much, let us go now, we are going now..."

"Yes, you can't delay for a moment, you must release it immediately!"

Didn't wait for the guys to finish, Ye Xuan rushed over, and raised his hand to shave his face, squatting on the face of the guy who screamed the most powerful, squeaking!

After raising his hand, he quickly picked up the tip of the nose of the goods: "The human race is shameless? Do you want to try again? Do you want to let your letter be immediately?"

The guy was scared on the spot, his face was white and his mouth moved a few times, so he didn't dare to squeeze a word out of his teeth.

"Be honest with me, this young master said that he will let you go, you will not eat."

Seeing the other side, it was the little princess of the Choi family, Medusa and other seven people who all shrank their necks and didn't dare to scream again. Ye Xuan's anger dissipated a little, and then said: "When is it put, that is The younger master said that I thought that Lao Tzu would like to keep you here to be in the eye. When the time is up, you cry and cry to find the dead and live to stay, this Lord does not agree!"

"It's the same with you..."

Halfway through, Ye Xuan turned to the palace and the dust-free and other human-class prisoners of war and looked at the past: "As long as the ransom of the family behind you, the ransom of the ancestral door can satisfy the young master, the previous words will definitely count, look back The opportunity will be put away immediately, but before that, it is best to give me the truth, otherwise don't blame the less the Lord is not welcome."

"Which can you?"

Ye Xuan is mad at the moment, the words are extremely rude, the prisoners of the dust and the palace and the heartless are basically sinking their faces, and their hearts are unhappy, but the eight King Kongs have no such feeling at all, one smiles and the other, the aunts Ye Xuan welcomed over here.

One of the people had already handed in a long list, and said, "You can rest assured that the lords will have a good look. If anyone dares not to be honest, he will cut him..."

"This is a list, the top-level door valves and the space box sent by the Zongmen, including the space box sent by the second group of the second universe of the Commonwealth. All of us have checked, all kinds of heaven and earth. The quantity and quality of the treasure are right, at a glance, you will understand it when you look at it!"

After that, the list has been handed to the hands of Ye Xuan.

Next to it, the innocent and dust-free prisoners of the palace stared at the eight King Kong, gnashing their teeth, and hating the fact that they could not swallow their eight lives.

Ye Xuan couldn't help but look at these guys a bit, and it was quite interesting in the light.

You know, there is a silver light curtain over the sky above the head. The performance of these guys, including words and deeds, and so on, are all transmitted outside the space inside the Ding through this silver light curtain.

All of them have fallen into the eyes of the old guys who are waiting for the void around Ding. They can't do it without knowing it, but they still dare to do so. They are not afraid of being liquidated afterwards. Only by this point, Ye Xuan Can't help but look at them a bit.

"Are the families behind you eight, have you sent a ransom?"

After glanced at the list in his hand, Ye Xuan waved his hand and directly collected all the space boxes into the immortal world. His face was quiet and he asked.

After the Eight Great King Kong, one person then weakly returned: "Wu has, including Xuanyuan and Duanmu three beautiful women, they have not sent ransom at home!"

"The three of them have never shot the Lord, and they are not prisoners of war, but friends of the Lord. Why do you say ransom?"

Ye Xuan licked his mouth and swept the eight King Kong eyes, and then he said: "As for the eight of you, although the recent performance is good, but after all, the former master has been shot, your cultivation resources may not be collected, but since the ransom If you don't arrive, the younger ones don't want to accept it. If you guys, you will get the meat. In the next 100 years, for the younger ones, when the time limit is up, you will be free to leave, no opinion?"

"There was a comment that the young master had killed the scene on the spot, the trouble of the province..."

The eight King Kong scared their necks, but they didn't dare, but their faces were full of joy. The eight guys clearly saw it. Ye Xuan deliberately said this and stunned their wishes, not only with Ye Xuan. Moreover, it is not necessary to worry that the family behind it will be questioned and accounted for by other Terran forces.

All of them know that the current situation is Junjie. These eight guys originally had a small team with the Oriental scales. They all came to the hunting foxes, but they were defeated by Ye Xuan and sealed them as the Eight King Kong. They ordered them to be unintentional. After the other prisoners of war, I don't know when they figured it out. I really wanted to follow Ye Xuan's work.

Just as Ye Xuan also saw this point, I was quite appreciative of the eight guys' knowledge of time and understanding, and gave birth to the idea of earning income for driving.

As a result, there were eight kings under the seat of Emperor Xuan, and the three major universes, and thousands of people admire.

At this moment, standing by the side, they are cold-eyed to the eight of them, and the face of the disrespectful color of the four-master palace is unintentional and dust-free. In the future, in front of the Eight King Kong, there is no qualification for looking up. Only kneel to the ground, respectful worship!

"A hundred years? I am very curious, where can you live with confidence for so long? Is it because the island owner has not yet arrived?"

Ye Xuan's words fell, and the sky above his head suddenly came with a smirk of sardonic meaning. A blue dragon broke through the nine-color fog and fell out of thin air...

Chapter 3358: Just missing a son-in-law

As the voice of the sarcasm of the word came out, the thousand-year-old Qinglong, which was flying from the sky, opened its mouth wide, and a silver-clad figure rushed out of the wide mouth of the dragon. Has stood on the top of Qinglong.

At this time, Qianzhang Qinglong has stopped his body shape, suspended in the distant sky, a pair of green faint eyes watching Ye Xuan, revealing the meaning of ruthless and cold.

This scene appeared too suddenly, and everyone including Ye Xuan all stunned.

Then, no dust and no heart and so on, they began to exclaim.

"Yinxia Fairy?"

"Sure enough, the means are extraordinary. With Xuanguang's nine-step great perfection, it is possible to directly break through the boundary and ignore the internal domain limitation of Shennong Giant Ding. This is against the sky."

"How do I feel a bit uncomfortable? What is going to happen?"

As these exclamations sounded, the look of the face of Gong Wuxin and others all became strange. They were the patriots of the two camps of the Terran, the top gates and the descendants of the forces, and even the invincible in the camp of the comprehension camp. The God of War and the three geniuses who are known as the Pharmacists are not convinced.

For the so-called human races of Xiaoyaozi, Yinxia Fairy, the Demon and the Magic Dust, it is obviously even less convincing.

But at this moment, after seeing the style of Yinxia Fairy, the talents such as Gong Wuxin realized their gap with each other.

Invincible God of War, they have not seen it before, I don't know the style, but the two savage savage lords have all handed over their hands. It can be said that if the foxes and lords have treasures such as glazed treasures, they may not have no war. And the possibility of winning.

From this point of view, in fact, the palace has no heart and so on, and does not feel that there is a big gap between the two and the so-called human race.

The Yinxia fairy, which can be seen in front of them, has been hit hard.

Don't mention it, it's just that people and their generation belong to the same generation, but it is already the eleventh major Xuanguang ninth-order great perfection, which is enough to make the palace unintentional and others lost, not to mention the fact that there is still a treasure in the hands of others. Worried around.

At this moment, a silver-plated sculpt stands on the skull dome of Qianzhang Qinglong. The good-looking style is really dazzling. When the people are absolutely arrogant!

It was the eight patriarchs from the Second Universe Federation who were watched on the slopeside of Medusa. At this moment, they looked up at the eternal grace of Yinxia Fairy, and they were not lost.

As the blood of the ancient gods and poultry, they have always been extremely proud. They did not put the genius of the Terran in their eyes. Even today, they are planted in the hands of the young foxes, and their hearts are not convinced.

Because in their view, the fox squadron is wearing a glazed armor with a stellar space to the treasure level.

But at this moment, the glory of Yinxia Fairy made them without any temper, and finally realized that the size of the human race is indeed a generation of characters, at least not what they can match.

All the people, facing the fairy-like Yinxia fairy, all lost their spirits and could not calm down.

Only Ye Xuan, although initially stunned, but quickly relieved, without any surprise reaction, raised his hand and pointed to Yinxia Fairy: "The island owner? You are from Yulong Island? Yinxia fairy?"

Not waiting for the other party to return, Ye Xuan squatted, vacated, and slammed his fist toward the Yinxia fairy. "It's not as good as coming, the young master is just missing a pleasing niece, it's yours! "

"boom!"

The voices are falling, the huge punches of the glazed armor have already slammed into the air, and the emptiness of the emptiness of the emptiness of the glass is more than a few times before the previous ignorance: "This Shennong giant trip is the land of the lord, you are not please Come, there is a wild treasure, and I have ignored the domain rules set by this young master. In this case, you will pay your soulful soul, and let you remember for a long time, don't be too blind!"

As the bursting sound of the emptiness sounded, the palace on the ground below was so scared that the little princesses of the Choi family, such as Medusa, and other patriarchs from the Second Universe Federation were also looking Changed and exclaimed.

"What? The power of this punch..."

"I was actually the breath of the tenth big hole in the sky, and the fox has broken through?"

"Before he said retreat, I didn't expect it to succeed, but how could this be possible? It was only once broke through in the battle before, and it was still a fatal two-day Jin. After the battle, it closed again. In just two days, it actually crossed a big one. The realm, rushed into the first step of the cave, is this still human?"

"I have never heard of cultivation. I can still do this. Even the two small steps of Jin are still unfinished. What is this medicine?"

"I understand, it must be the roast chicken wings and roast beef scorpion meat before, so that the fox has the most eaten. The Xuanyuan family's **** has broken through a small step. What does he have to break even the third order?"

As these exclamations sounded, the ceremonial reflexes of the ancestors of the palace, such as the heartless and the dustless, generally looked at the Medusa eight people. They also each had a small piece of roast beef meat, and the key was to be The effect of Ye Xuan's one-color orange-red fire on Shennong Ding is really extraordinary.

These guys are obviously tempted, and the scorpions are all green, and anyone who knows what they are thinking about.

The young tribes of the Choi people, Medusa and others, shuddered, and the eight guys were not good at all. They felt that the Terran was too ferocious, unlike the seemingly gentle and good looking face.

This scene was filled with the silver light curtains of the sky, and all the star-studded powers outside the big circle were in the eyes. The second cosmic coalition immediately rang the angry roar again.

The leaders of the Terran and the top gatekeepers are responsible for the people. They are all face-to-face, and their descendants are staring green at the young patriarchs from the major friends of the Second Universe. The saliva is flowing out quickly, which is really too embarrassing.

The stinky boys, all of them were broken by the fox lord, the goods are poisonous, shouldn't they be infected?

Nowadays, many people are beginning to worry about it. If the owner of his family returns, he will become the same big food as the fox lord. This is really a dog, and it's trouble!

"I want the soul of the island's sorrowful soul? Linghu Chong, your heart is really big enough, but unfortunately, even if the island's hands are covered with you, you can't take it, this rope has been refining, unless the island's Lord is fallen, everyone wins Don't go!"

At the same time, the sky inside the Dingnai space is high, and the words of Yinxia Fairy against Ye Xuan are also sneer, and the body shape avoids the powerful punch of Ye Xuan's emptiness.

Then he nodded and said: "It's a bit of a point. Actually, I entered the first step of the cave. Unfortunately, it is still too far away. I don't have enough to see you in front of the island's main, and suppress you. The island owners feel that some cheeks are hot, feeling in Bullying ants..."

"call out!"

The voice has not fallen, the face of Yinxia Fairy has been steep and sinking. During the wave, the Qianzhang Qinglong, which is stepping under its feet, instantly turns into a Qingsuo, like a snake, smashing the void, and stalking Ye Xuan...

Chapter 3359: Intermediate heterogeneous system

"call out!"

The sound of the empty sound, the entanglement of the soul shows the form of the body, the length of the line is hundred feet, the thick only refers to the Xu, knowing the short heart, like a cyan slender snake, quickly entangled toward Ye Xuan.

This rope is passed down as a spirit beast, so if you can make this Saowei able to show it out, even the gods will have nothing to do, and the flying sky will be tied up, and now it will be unfolded. At the moment, Ye Xuan's heart jumped and gave birth to a strong sense of crisis.

Sure enough, it is a waste of ancient treasures, and Wei Neng is indeed extraordinary. Even Ye Xuan is somewhat tempted.

However, as the Yinxia Fairy said, this treasure has been refining by her, and it will be won. Unless the Yinxia fairy is killed, it is Ye Xuan's reluctance, and the human race is rare. The average person is a younger generation. The future development space is huge, and it may lead the whole race to glory. If it is a selfish desire, it will not be able to do it.

"There is a spirit of treasure. Since you have already recognized you as the Lord, this Lord is naturally impossible to capture the beauty of man. However, I don't want to treasure, but people are not necessary."

Ye Xuan sneer, the domineering discourse between words: "It is the same to accept you as a prostitute. At that time, you are all the masters, let alone this treasure?"

"Yes, just do it..."

"call out!"

The voice just fell, like a slender snake-like spurt of the soul of the soul has come, directly tied the ten-foot up and down like a small mountain-like mech giant, I do not know how many laps, machine The surface of the nail is densely packed.

"Hey, the fox lord is still invincible after all, only to face up, it was suppressed."

"The gap is too big, and Shennong Baoding, who has made the fox less master, has been sacrificed. At this moment, he is in Ding, unable to use this defensive enemy at will, and the undefeated myth is shattered..."

On the ground below, the palace was innocent and the dust-free, the revenge and other prisoners of war sighed, the eight King Kong was even more disillusioned, Ye Xuan was once suppressed, it made them somewhat unacceptable, after all, this was once they were The existence of a comprehensive repression of the nest was so vulnerable that it was a bit disappointing.

Everyone in the hearts of the people poured out the meaning of loss.

Outside the Ding, the surrounding air outside the big squad, there are also a large number of exclamation sounds, the stars and the stars are also feeling lost, a fascinating world is going to fall? It is rare for the Terran to have two ghosts that are enchanting, but now there will be only invincible God of War.

The fox lord... has been suppressed!

At the same time as the amazement sounded, all the people were ready to shoot, especially in the second universe of all ethnic groups who occupied a corner of the void outside the trapped squad. Almost have to sacrifice their magic weapons.

Yinxia Fairy has a soul-worship, and even the internal domain rules of the Stars can be ignored. They have to deal with it all the time, otherwise they will probably run away!

At the same time, the stalker was like a super big scorpion, and even the man with the armor tied a strong Ye Xuan, at this moment the whole person completely smashed.

It was not shocked by the power of the stalker, but because his brain suddenly sounded a familiar tone of the phagocytic system, the content was too amazing!

"Hey, congratulations to the host, find the system carrier! Host: Yinxia fairy, Xuanguang nine-order great perfect! System evolution: intermediate!"

"Hey, congratulations to the host, system competition task activation! Task requirements: accept Yinxia fairy! Mission success reward: the other system store to exchange treasures, optional! Mission failure penalty: one of the system store to exchange treasures, let the other party choose! "

System carrier?

The same system carrier as yourself?

Ye Xuan was shocked. Since he got the devour system, this is the first time he has encountered the same system host as himself!

Previously, Ye Xuan already knew that the phagocytic system was the invention of the pioneer of the Terran technology. After the fall of Xingbo, the second intelligent robot created by him, the present imperial dynasty, was the second generation of the system. Go out and use to pick the Terran genius.

Even though it is now, Ye Xuan does not know what the final purpose of Xingbo or Emperor II will be after the evolution of the phagocytic system to the final level, but one thing is certain, that is, the system that Didi first spread out. Seeds must be huge.

However, there are still more system seeds scattered in the third universe and even other cosmic planes occupied by the entire human race. The star-space powers who have obtained the system seeds as the system host, the possibilities encountered between them are still very small.

After all, the territory is too wide.

At the moment, Ye Xuan has encountered one, but actually inspired the system to compete for the task, to fight with the other side, one side will be emptied!

And the loser will be selected by the other party to choose a treasure from the system. This is not a joke, because the system is not a place to redeem the store. The other party chooses to take a treasure and pay the bill. The matter must be on the loser.

In case the value of the exchanged treasure selected by the other party is huge, it is feared that it will be indebted in an instant. In the future, it will work for the system and look for the devour of the source crystal for repayment.

In the same way, this is also an opportunity, because as long as you successfully surrender to each other, you will be able to get a system of treasures that you are fancy but have no ability to redeem.

After thinking about this, Ye Xuan's eyes will light up in an instant. He can't miss this opportunity. Don't be white, this is the system to exchange things in the store, which is hard to find outside.

And just as he turned these thoughts in his mind, Yinxia Fairy fell into a state of sluggishness with a shocked face.

In her mind, the familiar system sounds also sounded...

"Hey, congratulations to the host, find the system carrier! Host: Linghu Chong, the first step of the hole! System evolution: intermediate changes! The authenticity of the basic information is not certain, the identity of the other party is not true!"

"Hey, congratulations to the host, the system competition task activation! Mission requirements: Receiving Linghu Chong! Mission success reward: the other system store to exchange treasures, optional! Mission failure penalty: one of the system store to exchange treasures, let the other party choose!"

"You are actually..."

With the system prompts in his mind, Yinxia Fairy was completely shocked. Like Ye Xuan, he was the first to encounter a system carrier of his own kind.

And, although Ye Xuan's phagocytic system is just like her, it only evolved to the intermediate level, but Ye Xuan's phagocytic system is an intermediate variation. Since it is a mutation, it means that there is an infinite possibility, which makes Yin Xia The fairy felt the threat.

For example, now, the hints given by the system clearly indicate that the identity of the young fox may be false, but it is impossible to detect his true identity, and even the detection of these basic situations is hindered, so that the other party's system can be seen. The evolution of the mutation is a bit strange.

Thinking of this, Yinxia Fairy

Chapter 3360: Repression

"I have to say that you really make the island look impressive. Although it is only the tenth level of the world, it is a mid-level variation. Even the island owners can't see through it. It is enough to be proud." "

In the middle of the killing, the Yinxia fairy stared at Ye Xuan tightly and sneered and said:

"Unfortunately, in the face of absolute strength, everything is just illusory, without any meaning, I don't care about your true identity. What is it, and no matter what you have experienced before, let it enter the path of evolution. In short, you are destined to fall here."

"Or... surrender to me!"

"You don't have much time, the island owner gives you a break!"

"After the ten interest, everything will be settled. Even if you hide in this fighter plane with a star-to-the-class treasure, it is equally difficult to escape the corpse. Don't doubt the sharpness of the soul-wrenching, it is unbreakable... .."

Speaking of this, Yinxia Fairy once again, the corner of the mouth slowly sketched a touch of color, it seems that this war has already been laid out in advance, all things, in her grab the opportunity, to The moment when the entanglement of the soul of the soul is bound by Ye Xuan, it is already doomed!

The so-called system competition battle has not yet begun, it is over!

"puff!"

"I said the girl, is this interesting?"

However, what surprised Yinxia Fairy was that her words just fell, and the opposite side of the sky was **** with a stalker, like a huge human-like scorpion, but not without confusion. On the contrary, it seems to be like a slap in the face!

Even the white eyes turned up: "We are both the same kind of people, who still don't know who? If you pretend to be like this, you simply change the name, don't call it the Jade Dragon Island owner, according to this master, big The tail wolf is quite suitable for you, it is perfect and perfect!"

Said, Ye Xuan did not wait for the Yinxia fairy to respond, the body shape has suddenly shocked when the voice is not falling, violently screamed out: "Isn't it a broken rope? Who is the heavy treasure, who is scared?"

As the words of this voice rang, Ye Xuan's eyes were suddenly blazing, and the two smudges smothered to the almost invisible blue glory, which shot at the top and fell on the stalking rope that bound his body. .

These two blue-colored secluded mans are the power of the enchanting enchanting power of Ye Xuan's eyebrows.

Once this cockroach is activated, there will be a certain chance to stimulate the mysterious effect of the esoteric traceability. In the land of the ancient cage of the first universe, the sorcerer's sneak peek Effectively, I was able to clearly understand the innate chaotic aura contained in the endless corpse in the corpse, and then immersed it in the body shape, and launched the first dragon quenching technique, which successfully awakened from that. The golden dragon blood of the immortal ancestral blood.

At the moment, with Ye Xuan launching the enchanting again, the esoteric source effect attached to this is once again fortunately triggered. In an instant, the whole body shape of Ye Xuan is bound, wrapped in a circle. It is like a big scorpion, and in the eyes of Ye Xuan, the moment is different.

With the enchanting glimpse of the mysterious power of the source, Ye Xuan clearly understands the key nodes of its power field, just like the snake's seven inches, it is the weakness of this cable.

"Worried about the soul? According to the Lord, it's just that!"

"Don't look at the righteousness of your righteousness, if the Lord wants to crack the effect of this bond, but it's just a little effort, hahaha..."

Looking up and laughing, Ye Xuan even ignited the spiritual core of the brain, and an invisible spiritual force emerged from his eyebrows, precisely falling on the chest of his right rib. Physically.

"hiss....."

The next moment, like the faint whistling sound of the crack, originally entangled dozens of hundred laps, the Ye Xuan even people with the armor, the whole bundle of the blue scorpion-like soul of the big scorpion, instantly released, The Yinxia fairy, who had not been holding the end of the cable, had come back. Ye Xuan's figure had suddenly earned a violent rush and rushed into the sky.

"Now it's the turn of the Lord, the girl, I hope you can hold this punch!"

"boom!"

When the figure is rising, when it is still on the way, Ye Xuan has once again violently drunk, the momentum of the captain is stagnation, the right fist is swung, the whole body is violent, like a purple meteor, blinking It was already in front of Yinxia Fairy, and the huge purple boxing head that was thicker than his body shape was awkward.

The latter's face turned wild and the face was full of shock. Apparently, she never thought that Ye Xuan could easily break free from the shackles of the sorrowful soul. It seems to have already understood the power of this cable. In general, it has been resolved directly.

"The moment is Fanghua, the waves are broken!"

"The illusion is boundless, the movie is mad!"

In the heart and soul, the shape of the Yinxia fairy is not retreating, the right hand is a shocking wrist, and the long-lasting blue-colored treasure is changed again, with a dazzling blue glory, hovering in front of its figure. Intertwined, forming a huge network shield.

At the same time, from the gap between the giant grid shields, there are countless cyan stimuli shot out, sharp and unparalleled, toward the already close, Ye Xuan...

"After all, I still look down on you. I can use the tenth level of the heavens to make the first step of the repair, so that the island owner has to go all out to deal with this battle... Linghu Chong, you are proud!"

Seeing that Ye Xuan's entire figure was once again covered by the overwhelming blue-net shield, the right fist that was lifted by the arm was also withdrawn under the numerous treasures. The Yinxia fairy was fine-tuned, and the corner of the mouth was a bit Sensible smile, the tone is still confident and proud: "Unfortunately, even if you resort to the sky again, today I would like to escape the fate of being suppressed, really only the change of the soul of the island's Lord is only these changes? "

"It's the real power, you are not qualified to appreciate it!"

"Just just these kinds of conventional derivation attacks are enough to suppress you..."

Ye Xuan grinned, no fear, and bluntly replied: "Don't be too confident, be careful, the wind will flash your tongue, and the ratio will be thundering!"

"Card!"

"Card..."

Not waiting for his words to fall, the two men battled above the void, suddenly came a few sudden and incomparable crisp explosions, this moment, Ye Xuan quietly activated the spirit of lightning, five or six invisible spiritual lightning Fallen, locked Yinxia fairy, accurately placed on top of her head.

"Hey..."

In the next moment, a familiar sorrowful sorrow was introduced into the ear, Yinxia fairy was caught off guard, and the five or six spirits thundered a porcelain, the whole face was black, and the whole head became a hot roll. The roots stand upside down.

The whole head is like a bird's nest. The body shape of the head is slightly stunned a few times. The previous scent of the sacred sacredness disappeared, and it turned into a mad woman...
