Chapter 337: Dragon Palace

"This Naga Kraken is the captain of the two men. It seems that I have not found the wrong way, chasing!"

At the moment, Ye Xuan is rushing out instantly.

With the power of three dragons, he is at least ten times faster.

He did not dare to delay, because this Naga sea demon said that the command of the sea, perhaps already arrived at the Dragon Palace may not be.

However, with his current strength, even if this commander returns to the Dragon Palace, he will also break into it!

.....

Somewhere in the deep sea palace, there are huge palaces.

At this time, outside the walls of these huge palaces, there were three figures.

"Open the door!"

A six-handed Naga Kraken, carrying two humans in his hand, shouted underneath.

The guards of the sea on the wall looked out and immediately said: "It was Lei Ting who came back and opened the gate!"

The trait wall gate was opened and the six hands of the Naga Kraken walked in.

The two men in his hands were the Song Dynasty and Song rulings that were separated from Ye Xuan. However, they were already fainted.

"Respect for the return of Lei Tong!"

A group of shrimps and crabs will shout in a respectful manner.

Lei Tong collar twisted the snake and walked in.

Here is the palace of the Hailong family, and Lei Tong is among the Hailong people, and is also a pivotal figure.

A group of shrimps and crabs will look at the back of his departure and whisper.

"Hey, is Rayton not ready to go back to his place?"

"Look, the image of Raytheon's hands is not like humans?"

"It really is....."

"I know, Lei Tingjun must go to see the king, and want to hand over these two humans to the king."

"Haha, there is more than one of the pets of His Royal Highness."

"Oh, no matter how long it will take, Lei Ting Ling will become the princess of the Princess."

.....

However, shortly after the introduction of Raytheon, there was a flash of shadow in the distance.

"That is the Dragon Palace?"

Ye Xuan looked at a huge wall a few kilometers away from the front and couldn't help but swear.

He did not expect that there was such a building in this deep sea palace.

He tried to destroy the walls of the passage before, even if he had the power of the three dragons, he could not leave traces on it.

How was this palace built?

At this time, the Dragon Palace gate has been closed.

If he can come over a little earlier, I am afraid I will be able to see the Song Dynasty and the Song ruling. Unfortunately, it is still a little slower.

"Damn, they must have been caught inside!"

Ye Xuan was very self-blaming in his heart. He knew that he had to go down and find out for himself. Why did the Song Dynasty and the Song ruling be pulled down?

"It seems that only one method can be used."

Ye Xuan thought of this, it was directly swept out of the maze.

The group of shrimps and crabs will see him all the time, and immediately gathered on the wall.

"Human, how come there is another human?"

A Naga sea demon went to the wall and shouted: "Human, how did you come here?"

Ye Xuan was too lazy to pay attention to him, directly plundered under the gate of the city, and hit a fist on the gate.

"Hey!"

The huge sound spread.

This Naga sea demon is just a big captain. Ye Xuan and he said that so much useless, must cause a big move, at least to have a command.

"Good strength, please inform Utopia, there are foreign enemies!"

This Naga sea demon immediately shouted.

"Hey!"

"Hey!"

"Hey!"

Ye Xuan slammed on the city gate with one punch and another punch, and every time he punched, he could tremble the wall.

"This city gate is so hard that it can block the attack of my three dragons. Unfortunately, there is a battlefield on the wall. Only by breaking this gate, I can go in."

Ye Xuan thought in his heart, that is, then he then retired and took out the Eight Desert Sword.

"Eight wild winds kill!"

The eight-handed blade rotates at a high speed, and then drills in an orderly manner. The eight-handed edge alternates constantly and attacks, which is much more useful than Ye Xuan's fist.

In less than a few seconds, the city gate was cracked.

"Human, you are looking for death!"

"Quick stop!"

"This gate is specially made. If you break it, how can we resist the coming sacred beast?"

The group of shrimps and crabs on the wall will scream.

Ye Xuan also stopped and said: "Your commander has taken away two of my companions. If you don't want the city gate to be broken by me, then hand them over!"

"Sure enough, this human being is the companion of the two captives led by Lei Tong."

"Ah, Utopia is coming."

"Open the city gate!"

In a thick shout, the gate opened and a six-armed siren came out.

"Human, why are you attacking the sea dragons?"

This six-armed sea monster said with a thick voice.

"This has to ask you, why did you take my two companions?" Ye Xuan replied coldly.

"Companion? Human?" This Utopia leader turned around strangely and looked at a Naga sea monster.

"Fang Cai Lei Tong took two humans into it..." said the Naga Haixue.

"Humans, since Lei Ting led to arrest them, there must be a reason, but you are here to make trouble, not to put my Hailong family in the eye." This Utopia took a look at the eyes, directly took out six big knives Come.

Ye Xuan looked blankly and said: "If that's the case, then I won't say much, I will let you know that you got the wrong person!"

call out!

In the meantime, Ye Xuan rushed straight out, holding the eight wild swords and suddenly squatting.

"Hey!"

Utopia held two arms to resist, but the next moment, his look was congested, because he found that both hands could not stop Ye Xuan, and immediately used two hands to resist.

As for the remaining two hands, it is a glimpse of Ye Xuan.

"Mom, do you bully me?"

Ye Xuan's flash of light flashed and suddenly ignited the Eight Swords.

"Hey!"

Utopia was shocked, but he found that after the sound attack had no effect on him, he twisted the snake and swept toward Ye Xuan.

"Sure enough, the Eight-Day Earthquake is not useful for the strongest in the power."

Ye Xuan escaped the two snipers and said something in his heart.

In this case, it will be hard!

He took back the eight-handed blade and reassembled it into a barren sword, and then rushed out.

Although both sides have no heavenly martial arts, both of them also have the power of three dragons, but Ye Xuan has the blood of the beastmaster, and has a 10% attack on the beast.

Moreover, he still has a 10% movement speed bonus, even if the other side has six arms, he is not afraid.

The six-armed Kraken did not expect Ye Xuan to be so difficult. After several rounds, he felt some pressure.

Although he has six arms, but only one head, Ye Xuan is too fast, he can't keep up, and his brain is dizzy.
