Chapter 3371: a group of gatekeepers

When I heard Ye Xuan's gambling proposal, Xiaoyao frowned and thought about flying and thinking!

For Ye Xuan's hardship, he is now deeply experienced, but now this gambling contract is indeed a conspiracy, and Xiaoyaozi has thought about it, and he has not noticed what is wrong with it. Therefore, after hesitating, Even nodded and promised.

Immediately, the two people's brains simultaneously sounded the tone of their respective systems.

Although this gambling was carried out between Ye Xuan and Xiaoyaozi, it was related to the subordinate endings of the engulfment system of the two people. Therefore, all of this was done under the witness of the two systems, and even formed. The system contract does not have the possibility of playing tricks at all.

For this reason, Xiaoyao was completely relieved. When the system determined that the gambling contract was established, his face showed sneer, and he smacked Ye Xuan, proudly saying: "This is your own death, no wonder the deity, gambling Already established, when do we start?"

"Reassure, the deity will not take advantage of you, then you will go out with this tripod, so fair, but unfortunately, you are doomed to have no chance of winning, even if the deity let you go out first, you can't win!"

"Follow it! Blow slowly, don't worry! Anyway, the Lord has time. If you want to leave, you have to deal with the affairs in this trip."

Glanced at Xiaoyaozi, and Ye Xuan's speech had been pressed down and fell to the ground: "This younger master has to put this tripod up after going out, and he has to deal with the strong influence of the outside forces and the door valve. Attacking, it's quite a lot to say that you need to be busy before you break through. If you go out, you can get out and leave. This bet is too big!"

Xiaoyao frowned, although there was no words, but the heart was vaguely giving birth to a feeling of uneasiness.

What Ye Xuan said is true. This gambling seems to be fair, but in fact it is not the case. Once Xiaoyao and Ye Xuan walked out of Shennong Ding, they appeared in the trapped squad outside the Ding, the two will The situation facing will be different in an instant.

Ye Xuan was dragged down by many firms, and his actions were restrained. He couldn't immediately use his means to show up in the first place.

Counting it, he really is suffering!

But since Ye Xuan has already realized all of this, why is it still okay to propose this bet?

There must be a demon in the abnormal situation. Although Xiaoyao had no results after thinking about it, the feeling of uneasiness in his heart was also very strong. He had already paid attention to it and raised his vigilance to prevent fraud!

"Are you all ready?"

I didn't pay attention to Xiaoyaozi. After Ye Xuan's body was down, even when he went to the palace with no heart and no dust, and other people's arrogant prisoners, as well as eight interracial prisoners such as Medusa, they both looked over and said: "Originally, I wanted to take you as a talisman, and pinch it in the hands of the old Lao Wang's eight-bited rat, so that I would like to fight for time. After I got out of this place, I would take Baoding away and forcefully break through."

"But now the Lord has suddenly changed his mind, so you are free!"

"After a while, everyone can leave, remember, including the little master and the stupid hat in the distance, all the people, at the same time rushing out of the top of the top of the sky, I will say it, the reason In this way, this young master just hopes that you can play a little bit of disturbing the situation, so that I can fish in troubled waters and make trouble!"

"Of course, if you don't want to leave, you can stay in this trip. After you return to the house, you will release them. As for the Eight King Kong, don't think about leaving. The family behind you did not pay the ransom. After a hundred years, they are all the people of the Lord!"

"As for you..."

At the end of the day, Ye Xuan suddenly remembered something. He turned to look at the mountain peak in a certain direction in the distance. He turned his eyes and said: "Hey, let's rush out with us for a while, this is less. The Lord's site does not leave idlers, and your arrogant style is not a blessing to the Lord. The previous prostitute's statement was cancelled."

Yinxia Xianzi's silver teeth bite, but it's cold and it's not answered. She's already decided in her mind that she won't be influenced by Ye Xuan's words. She can see it. This guy is a jerk, if it's easy to move. It is estimated that he can live for three days without him!

Must be alive and mad!

A hundred miles away, the face of Xiaoyao, standing in the void, showed a faint color, but there was a slap in the corner of his mouth.

After listening to the words of Ye Xuan Shicai, he finally understood the other party's plan. It turned out that he wanted to fish in troubled waters and escaped. It was naive and too naive!

.....

At the same time, the surrounding area of Shennong Ding!

The top gatekeepers of the Terran camp and the powerful forces of Zongmen are rapidly rushing into the squad, including the alien army from the major groups of the Second Universe, and more than a dozen second universes. The ethnic group's old people all appeared, with a sly color on their faces, and they plucked into a large-scale passage that was temporarily opened.

The silver light curtain formed by the crystal ball return method suddenly disappeared, which made all the forces of the outside world pay attention to it instantaneously.

They feel that the fox lord is taking action and is ready to flee.

After all, the fifteenth dynasty of the Tianzhao Emperor's fifteenth dynasty's ancestral warfare has also been around for some time, and most of it is going to return. At that time, the two Qiankun will be able to enter the Stars, and most of them will be able to enter the Stars. If there are ten conditions for the young master, I am afraid that it is not enough to play. If you want to live, you can only escape before this!

However, it is obviously impossible for him to rush out of the stars and giants with such a big thorn, and the front will be broken, and most of them will have tricks.

Some people think that he will take the captive people's Tianjiao and Medusa and other eight aliens as hostages, holding them in their hands and leaving.

Others think that he may reach an agreement with Yinxia Fairy and even Xiaoyao to let the two men take him out.

After all, before the silver light curtain formed by the crystal ball return method disappeared, the Linghu Shaozhu and the Xiaoyao were talking in the air, and temporarily took the silver light curtain off. Then, he said the next, it was inconvenient to be The words that the outside world knows will be related to Xiaoyaozi in all likelihood.

It is precisely because of this that the large number of star-studded powers who have entered the trapped squad at this moment have basically listed the Xiaoyao as the most important target in their hearts, only waiting for him to rush out from the stars. It will be noticed immediately.

The reason why War One agreed to temporarily open a channel of passage and let all the star-studded powers who want to enter it pass is because the federal ethnic groups from the Second Universe strongly demanded it.

They are worried that the fox lord or Xiaoyao will quickly flee after rushing out of the star giant. At that time, even the other side chooses which direction to break through. It is too certain to be passive. It is better to enter the big squad first. There is no such worry about the siege of the surrounding area.

Therefore, this request will be available!

They have to be a hindrance, and they are still a group!

In this regard, the war-and-old ghost seems to be deeply convinced that it has not been rejected, and the temporary passage has been opened directly...

Chapter 3372: Limited time

With the opening of this temporary passage, a large number of star-studded powers entered the trapped squad, basically all the forces, gates or sects of the scene were included, and each force sent some repairs to the strong presence. They are all repaired above the hole in the sky!

The total number of people has reached nearly a thousand, including even the twelfth emptiness and the existence of the thirteenth world, such as the dozens of old people from the Second Universe Federation. All are empty, the domain begins to repair.

However, the emptiness of the Heavenly War Empire has not entered the big squad, and after all the nearly a thousand stars and strong powers have entered, he will once again give instructions to the temporary passage that will just be opened. , closed again.

The entire trapped squad was once again completely banned!

This is double insurance. If the nearly one thousand who entered the big squad could not stop the fox lord, at least one of the trapped squads would be blocked, even if he had the broken boots. The Xiaoyao team cooperated, and the strong players in this and the array can also delay their escape.

At this time, more star powers and a large number of warships around the big array will be ready to wait for work. Once someone breaks out, they will be fully suppressed in the first time...

At the same time, the emptiness of the vacant space was only on a remote star road of the meal time, a 50,000-meter-diameter small fortress that opened the hidden array method, and was quietly coming quickly!

This is the little fortress that came from the first universe of the devil!

The devil's royal family, the uncle, is in the middle of the town, and there is also a high-level from the first cosmic hegemonic group. And, Ye Xuan's demon slave, the former Mosquito tribe leader, Zuo Fengtai is also in the fortress, but his The identity has not been exposed at the moment, although Zhang Wuji is the event of the immortal dynasty of the Terran dynasty, the first universe is no longer a secret, but Zuo Fengtai's magic slave identity has never been sneaked!

In the other direction, somewhere more distant, the stars and rivers are in the air, and the two bodies are walking side by side. They cross the void in the flesh, and the speed is not even slower than the 100,000-meter-diameter starry fortress.

These two figures are powerful and strong, and they are the great powers of the fifteenth world. One of them is the Qiang Kun ancestor of the Heavenly War.

The other person is also a man, about sixty years old, no need for white face, no eyebrows, triangle eyes, a glimpse of a feminine gloom in the shackles, this person called a brooding ancestor, is a starry sky, However, because of the research and development method, it is one of the few remaining masters of the Marathon Science and Technology camp, so it is highly valued.

Although he is a dissertation, even if he is a warrior of the Tianzong Emperor, he wants to invite him to help him, he can only run it for himself to show respect!

At this moment, the war bats and the brooding ancestors are also rushing to the emptiness of the vacant space, but since the two are too far away from the place at the moment, even if the speed is fast, at least a small half day is needed. time!

.....

Shennong Ding, Ding inside space!

Ye Xuan is ready to go, and he can start the action at any time.

In fact, he has nothing to prepare at all. Basically, he is waiting for the innocent and ignorant prisoners of the Terran, and the eight aliens and other lords of Medusa.

In addition to the eight King Kong, all these guys decided to leave, including Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru and three women.

Once again, Ye Xuan secretly voiced, and made a simple brief exchange with the three women.

As for Yinxia Fairy, it is also clear that as long as Ye Xuan and Xiaoyao Zi leave, she will also leave at the same time. Although she has already been out, the result of the bet between Ye Xuan and Xiaoyao is related to her. Fairy must be witnessed all the time to be assured, willing to be willing!

"It's all here, enter this space, but you guys are really not lucky!"

All the people sneaked into the sky, only after Ye Xuan opened the internal domain rules of Shennong Ding, and immediately rushed out by Dingkou. Ye Xuan also plucked and slid to the ground before leaving. The eight King Kongs looking up, nodded and said: "Remember the words that the Lord has just said. After a few years, you will be fortunate and proud!"

Ye Xuan is quite satisfied with these eight guys. They are indifferent to the original innocence, no dust, etc., only for hunting, even if they were later captured by Ye Xuan, they were sent as prisoners of war with their fingers. Supervisor, and also named the eight King Kong, these eight guys were also unwilling to reluctantly, took the errand because of helpless hard scalp.

But then, I don't know when it started. From the way of their look and eyes, Ye Xuan gradually couldn't see the unwillingness. He shocked all the people who entered Ding's space with an impressive record. The younger generation of arrogance, but therefore respected, and optimistic about him, but only eight King Kong.

Just as Ye Xuan feels that he really needs a few follow-ups like this to deal with some trivial things, so that he has the decision of the next hundred years as a servant. Of course, this is only a superficial

statement. The eight King Kongs are sincerely attached. Not to mention a hundred years, it is a thousand years, and may not leave.

Because Ye Xuan's words at the moment are equivalent to a kind of euphemistic suggestion: rest assured, do things with heart, and in the future, there will be a gift of good fortune...

"Is everything ready? After the tenth, the Ding's power field will be open, but only three times, all people must rush out within this three-party."

From the eight King Kong, his eyes were retracted, and Ye Xuan nodded his face to the nearby Xiaoyaozi, Yinxia Fairy, and Gongwuxin, Medusa and others.

In the end, his gaze was settled in the palace, the heartless and the no-dust, the revenge of the enemy, and the jade fairy, and so on. He warned: "You better not to play tricks, this is the master but wants to use everyone at the same time. The chaos of the chaos is far away, and it will not be lost to you."

"But if anyone wants to break the bad things and deliberately drag on, after the three interest, the Ding's power field will not only be banned again, but the nine-color atmosphere in the sky above the Dingkou will also be turned into A sea of fire, whether it is staying in the nine atmospheres, or in the vicinity of the atmosphere, will be instantly burned into ash, you can do it yourself, so do it yourself!"

After the words were finished, the time of the tenth was just arrived. Ye Xuan's glimpse of the fine man's flash, suddenly violently drunk: "It's now, go!"

The word has just been exported, and the shape of the body standing in the sky has quickly swept out and rushed to the colorful canopy, including Ye Xuan and Xiaoyaozi, Yinxia Fairy, all in a short one or two. Within the interest rate, he has all left, rushing through the sky, the colorful canopy, and came to the big emptiness outside the Ding...

Chapter 3373: a big pit

The void in the array of voids!

The central domain, like a giant star, Shennong Baoding quietly suspended in the void, sprayed around a large number of colorful smog above the Dingkou, there are nearly a thousand star-studded strong body standing, surrounded by a circle, will Dingkou group surrounded.

These include more than a dozen voids from the various universes of the Second Universe, and even the domain starters.

All the people were calm and did not dare to relax. They stared at the huge swell of the colorful smog and were ready to shoot.

"call out!"

"Hey..."

It was also at this time that with the faint sound of a broken air, a large number of figures rushed out of the rolling and sleek Dingkou Jiu Cai smog, and there were more than two hundred roads in just two short breaths. The figure has appeared.

Among them, there will be a few foxes!

All the star-studded powerhouses around Dingkou's body were shocked, and the fine mansions in the middle of the circle were instantly stunned. The dozens of powerful ethnic groups from the second universe of the Commonwealth of the Commonwealth all floated a touch of mouth. Sen cold sneer.

However, before they acted, Ye Xuan, who appeared in the next moment, appeared in the first time and waved Shennong Ding into the body.

Then he became a speedy man, and spurred toward the Xiaoyaozi, not far away, and shouted loudly in his mouth: "Old man, then you will see you all, as long as you can take the Lord." All commitments must be paid..."

At this time, Xiaoyaozi was just rushed out from Ding, and his body shape was visible. After seeing the outside situation, his shoulders were slightly swaying, and he was rushing to a direction and rushing out of the array as soon as possible. In this way, the bet will be won!

Suddenly, I heard Ye Xuan say such a discourse. Xiaoyao's heart is a Grunden, and the whole person is not good at all. The figure is a stagnation and suddenly stagnate, turning to the direction of the sound. The past.

At the same time, the speed of development, the entire body shape has turned into a beautiful stream of Ye Xuan is also close, only tens of meters away from Xiaoyaozi.

However, at this moment, the shape of the figure is fascinating, but the blink of an eye disappears unexpectedly, as if it was a space magic weapon that can contain a living object, all the atmosphere related to it is in this array. Within the domain void, it completely disappeared!

Xiaoyao's brain suddenly slammed, his face changed instantly. In vagueness, he had roughly guessed the truth. Although he did not know how Ye Xuan did it, he instantly concealed everything, just like disappearing completely, but he Ok, this guy is actually still nearby, but he dug a big hole and buried himself!

This is a double-edged sculpture, because the thousands of star-studded powerhouses who have been watching for a long time will fully lock themselves, and the younger foxes can quietly and quietly leave, not only get out of the way, but also win the bet.

Although I have broken boots, if I am surrounded by nearly a thousand powerful star powers, even if the means are against the sky, I am afraid that it will be delayed for some time.

The young master of the fox has such a calculation. After winning this period of time, how can he not break the ground?

Everything has already been determined, and he step by step, after all, he jumped into the big crater he dug!

As these thoughts flashed in my mind, the entire face of Xiaoyaozi was instantly dark, and then turned green again in an instant, because the nearly thousand stars and strong people around the imaginary sky had swept their bodies at the same time. The land was besieged to him.

Among them, there are even more than a dozen old people from all the communities of the Second Universe. They are all empty and the beginning of the domain. At this moment, both eyes are red because of the grievances in the chest, one by one, and the other are rushing. Come here...

"Sure enough, I know that the moth must be on your kid!"

"Hey, there are double-breaking animal boots on your feet. Are you really ignoring the old man and others? You must blow your silly hats today!"

"Yes, I dare to join forces with Linghu to fight the little bastard, and I will be the enemy with you. Today, you have made a lot of anger. If you don't hand over people, you will definitely turn you into a real gyro!"

"Less and nonsense, immediately suppress, this kid is a king, and it is still Wang Batou, a dozen is shrinking, everyone is tight, don't let him dig into the hole and drill!"

"call out!"

"Hey..."

"Booming!"

.....

As the sound of violent anger and anger sounded, all the nearly a thousand stars and strong people around the city rushed toward Xiaoyaozi, and at the same time they sacrificed various magic weapons. The sound of breaking the air was endless, and the eyes would be green and happy. The submerged.

"what....."

"puff!"

"I am your sister, a big pit!"

In the magical glory of Guanghua, the screaming screams of Xiaoyao's anger and anger are accompanied by a squeaking sound. It is suspected that he is vomiting blood, and he is not hurt by being hit, or is angry with life. of.

These guys are too unconcerned. The truth of the matter has not yet been clarified. I don't even ask him to deal directly with him. Even the Wang Bage's stupid hat and the top of the gyro are more popular than these sensitive words. There are more star-studded powerhouses and battleships on the wall in the surrounding void outside the big squad.

In this scene, these words must be spread out through the star network. Wang Bage is more like a stigma. Xiaoyao is afraid that this life will not be lost. It has spread all over the three planes, and is famous inside and outside!

All of this is a long story, but it happened in a short period of time. From the internal space of the Shennong Giant Ding to the present, the total is less than ten.

The change is too fast, and the degree of reversal is too striking. It is also a group of prisoners who have just rushed out of the Shennong Giant Ding, such as the heartless and dustless, and the interracial prisoners of the young princess Medusa. All of them are all squatting, standing in the void, Zhang with a big mouth, like a hit ghost.

The palace has no heart and no dust, hateful resurrection and jade fairy tales and other four masters of comprehension, but also face each other and look at each other.

They did have some calculations before, and they were ready to rush out of Shennong Ding, and immediately they screamed out Ye Xuan's plan to escape.

But now they find out how ridiculous they are. The shameless lord is shameless, but it has to be admired. It's just playing with everyone in the palm of your hand. Xiaoyao is the best example. They are all blown up!

It was the Yinxia Fairy. It was also scared by this change. I saw that there was no chance to explain the sentence of Xiaoyao. The entire figure was covered with the overwhelming magic weapon, completely trapped. After she suddenly sluggish for a few moments, she suddenly sighed.

Then he shook his head and smiled: "There is an amazing talent in itself, and there are more adventures that make this fairy admire. The body... not only evolved to the intermediate level, but also evolved from intermediate variation. In addition, there are more unpredictable and unpredictable ways and means. Is it really necessary to be the Lord of the Fox?"

"One of the two geniuses of the Terran, really...deserved!"

Chapter 3374: Hate of the deity

"what....."

"You are the size of the old king, it is almost stupid than the pig!"

"Where do you hate..."

"Oh ah..."

In the overwhelming magic weapon, the Xiaoyao son hated anger, and the whole person was mad at it. From time to time, the sound of drinking was heard, and more and more meaningless long and fierce were seen. How bad his mood is at the moment!

Although Xiaoyao has broken shoes, even the emptiness of this level of the void can be ignored.

However, there are too many strong stars in the sky around here, and there are nearly a thousand people. The lowest level of the world has the tenth dimension of the heavens. Among them, there are more than a dozen twelfth and thirteenth The void of the environment and the domain level exist.

The magic weapon that shines with all kinds of glory is more than a few wins, and the dazzling eyes are full of light, and they all flash the eyes of Xiaoyao...

Under this circumstance, even if the power of the smashing boots of the feet is spurred to the extreme, or even overloaded, it is impossible to leave. The whole person is firmly stuck, only in this small piece. The trapped envelopes formed by the gathering of nearly a thousand stars and strong people continue to swim in the air, avoiding the attacks from the lasing.

He even has sacrificed the red blood of the income in his body, turning it into a **** rainbow, circling around, forming a layer of defensive barrier!

Even so, he was still injured in a short period of time, suffered heavy blows, spurted blood in his mouth, and his head was smashed into a pig's head.

Nearly a thousand stars in the sky, in fact, not all shot.

The vast majority of the strong are just trapped around the four, in order to prevent the Xiaoyao pirate machine to escape, even the existence of a few other shots, basically also to sacrifice their own magic weapon, bombardment through a virtual space.

Only the dozens of old people from the various families of the Second Universe, one by one because of the resentment of the heart is too deep, regardless of identity, all personally shot, rushed into this group surrounded by thousands of star power strong, The land of the magic weapon that is unstoppable.

In the eyes of these dozens of old-fashioned old guys, today's Xiaoyaozi is already unable to escape. He can't go, so he has already been included in a certain magic weapon that can accommodate the living body. Naturally, it is even more embarrassing. After suppressing Xiaoyaozi, some work is slowly adjusting him!

For this reason, the moods of more than a dozen interracial old people have all relaxed. At this moment, it is not so much to suppress Xiaoyaozi, but rather to play in the group, it is completely the rhythm of the cat-playing mouse, and from time to time, there is a saying. Taunting voices...

"Little bastard, who have you been swearing? Why didn't you stop licking? The mouth was swollen, can't you scream?"

"Ha ha ha..."

"You are not a little silly hat from Wang Ba Ge? Can you not shrink? Don't say that the old man and other old guys are bullying you, you have the ability to retract the silly hat!"

"I will immediately hand over the storage magic weapon that Linghu rushed to hide the thief. I can still consider letting you go, but it is enough to make a small punishment. Look at the talent of your human beings, not taking your life! "

"Don't make a mistake, this is not a joke. I am waiting for the old people of all ethnic groups. It's not a comparison of the gyro. I don't have the interest to play with you. I will pay immediately..."

A dozen old guys are all vulgar grotesques that have been cultivated in the twelfth world. At this moment, in the case of a large number of magic weapons combined with bombardment, one person is arrogant, and the result is obviously no suspense.

Although the latter is known as one of the younger generations of the four generations of the great generation of the Tianjiao, but the realm of the realm is really too much difference, the first eleventh major Xuanguang nine-order great consummation, destined to be abused, and even the power to fight back.

In the face of all this, Xiaoyao's anger is useless. His heart is like a mirror. At this time, any explanation is useless. No one will believe it. Unless it is no longer resisting, let go of the sea and search.

But that would be tantamount to destroying the name.

In fact, even the explanation of the voice is equally unacceptable in Xiaoyaozi. These old guys are not things. Why do they show weakness to them, and the soft words are opposite?

It is also unhelpful in his resounding name, and he will be laughed at afterwards. From then on, he can no longer look up and walk in the Milky Way!

For this reason, although Xiaoyao has long been hateful, but there is no soft words in his mouth, either roaring in the sky or screaming, without explanation.

At the same time, it is a matter of thinking, secretly examining the development of the situation, looking for opportunities to break away.

It's just that this reaction falls in the eyes of all the star-studded powerhouses inside and outside the big squad, but it is no different from the default, and it is more realistic to speculate that he has teamed up with the singer.

Therefore, even if there were some other star-studded powers in the mind, they all left their doubts at the moment, no longer pay attention to other areas, and their attention was locked in the film that was covered by a large number of magic weapons. Bombing into the pig's head, Xiaoyaozi.

As a result, for Ye Xuan's departure, this is all the more favorable.

At this moment, Ye Xuan has already retreated to a distant place, but because this array has been completely banned, there is no access, so he is still in the big squad, but at the edge, away from the right and wrong!

All of this is Ye Xuan already calculated, and his current spiritual core has reached seven levels. Under the maintenance of the seventh level of mental strength, his perfect oscillating spirit skills are far from the past.

Before Ye Xuan launched a perfect oscillation to hide the body and conceal all the atmosphere, it is very likely that it will be smashed by the existence of the cave.

But now, unless the fifteenth world's great powers come, Ye Xuan has 10% confidence to pass anyone.

For this reason, after he took Shennong Ding into his body, he immediately rushed to Xiaoyaozi, and at the same time he took out such a whimsical discourse. The purpose was to mislead and lead all the attention inside and outside the big array to the happy. Go on the body.

In this way, on the one hand, it can trap the chances of the other side to win the bet, and at the same time, let Ye Xuan wait on the side, and the possibility of waiting for the opportunity to go out of the big battle is greatly improved.

Right now, he will wait for the edge of the void inside the big array. Once the passage is opened, he will be able to leave at the first time.

Of course, if you really want to leave, Ye Xuan actually has a faster and more direct way, that is, directly activate the ability of the universe to jump, and then you can get out of trouble.

However, Ye Xuan did not want to make such a choice. On the one hand, he did not want to expose this means. On the other hand, he did not want to go away immediately, because after the gambling with Xiaoyao was completed, the other's system was exchanged in the store. There is a free redemption item waiting for Ye Xuan to pick it.

This kind of good thing is rare, and it is rare to meet, how can Ye Xuan miss it?

It was also at this time that under the screams of Xuanyuan Ziwei and Duanmu Xiaocha and Zhao Qianru, the war outside the big squad was finally opened in a certain area of the scene away from the void that was trapped in the happy. A temporary large array of passages.

The three gimmicks are obviously deliberate. I roughly guessed Ye Xuan's plan. Although the same is true of the palace and others, but did not dare to spoil the situation at this moment, all the faces have become sauce purple, but there is no sound, after all, The fox lord is still in the area of the tactics, maybe it is right beside him, that guy is not a general murderer, who dares to find that dying...

Chapter 3376: Come on, I will cover you.

With the sudden appearance of Ye Xuan, the whole piece of the void is instantly stunned, whether it is inside or outside the array!

In the trapped squad, nearly a thousand star-studded strong faces are all black, and the black is still green, especially the ones that are still laughing and screaming at the previous second are from the second universe. Strong family members.

Watching these guys come to the mental expression of almost constipation, Xiaoyaozi body Shutai, as if all the previous pains have disappeared in the blink of an eye, the head that almost swollen into a pig's head does not hurt, look up and laugh. And more than the ridicule of the rock.

This is clearly to expose the sores, and then to the salt on the wound.

Nearly a thousand stars and stars in the big squad were all shy and angry, and they all glared at them. Instead, they were even more ugly. The dozens of the second universe of the various ethnic groups and old people, immediately gave up the Xiaoyaozi, turned and turned toward Ye Xuan's void position rushed.

At the same time, the mouth is more to drink and roar, roaring...

"what....."

"The old guy of the warrior, immediately remove the big array, at least open a few channels, let us go!"

"Yes, immediately, absolutely can't let his kid run, the old man must be stripped of him!"

"Open the array channel, fast and fast!"

"Ah... kill the old man!"

In fact, they do not need to remind them at all. Before the fall of these violent anger and anger, the tribe of the Tianzhao tribes has already controlled the big array in the first time and opened several space channels.

At this time, the battle was black and almost dripping water, but my heart was really bleeding, and I was screaming!

It's too painful!

This trapped large array cost a lot of strategic reserve resources and materials for the Tianzhao Emperor. In the end, it felt like this result, and the little effect did not work. In the end, it was easily slipped out by others, and Still, God does not know.

Could it be that people have deliberately appeared, I am afraid that people are far away, and they are still tossing here!

However, although this kind of trapping is powerful, it is one-off. All the materials and treasures used in the array are consumables. Once the array is removed, it will be completely ruined, and even the recycling may not be possible. .

In a word, this time the Emperor lost a lot of money, and afterwards he had to be ridiculed, and the laborers rushed out a big squad, but in the end they didn't use it, they laughed and generous.

In addition, the Qiankun ancestors who are likely to return at any time will not stop here. Afterwards, regardless of the outcome, the matter must be liquidated. The war will be ruined, and the punishment will be avoided. Even the excuses of excusing will not think about it. Come out one.

Thinking of this, he simply shot on the spot to kill the palace, the heartless and the dustless, and the heart of the gangs, but unfortunately, although he also had the ancestors of Tiantian, he entered the star giant Ding, but now he has not seen it. It was fallen inside, and was killed by Ye Xuan.

Otherwise, those guys will definitely become a gas bucket at this time, and they will be ravaged by a crazy fat!

Right now, with Ye Xuan taking the initiative to show up, and after the opening of several large-scale passages in the Tianzhao Emperor's old battle, it was also issued to the Tianshi Empire strongmen who sat in all the arrays of the entire array. With the instruction to withdraw from the siege, the void that was enveloped by the entire squad was flashing a lot of glory.

The array of nodes that had been hidden before appeared everywhere. A large number of Heavenly Warrior's strongmen had been kneeling in the void all over the place, clinging to one node and not paying attention to everything outside.

But now all face up in a gloomy manner, and they have their own magic weapons, and the crowds are rushing toward Ye Xuan.

In addition, among the top gates and forces in the emptiness around the sky, there are also a large number of strong players, including the position occupied by the Second Universe.

A large number of warships and space fortresses and small fortresses around the area directly turned off the muzzle, locked the corner of Ye Xuan's appearance, ready to be bombarded if necessary!

As for the nearly a thousand stars and strong powers inside the trapped squad, at this moment, the whole big squad has been removed, and naturally they will not stop. After the dozens of old people from the Second Universe Federation, they are extremely tacit. The ground was scattered and it was copied to Ye Xuan...

For a time, this whole piece of emptiness seems to have moved, and thousands of nearly tens of thousands of star-studded powers have all come up with magic weapons and overwhelming.

A little further away, a variety of warships and fortresses from different forces and Zongmen, top-level valve fleets, as many as thousands of ships, all locked in Ye Xuan.

Such a battle is too amazing, and it is rare to see it once in a few years. Many young strong people have already been shocked and stunned, and their legs and feet are a little soft.

However, some of the older generation's strongmen are full of emotions, and the fox lord is really against the sky. Even if it is degraded today, its name will be quite vocal, and it will be able to provoke such a level of turmoil with pride. Now!

Only the party, the whole focus of the emptiness of the core focus of Ye Xuan, is like completely ignoring all this. Nobody usually turns to the empty space that was banned before the squad, and swollen toward his head. Xiaoyaozi of the pig's head grinned.

Talked and said: "Man, still alive? That dare, good, come to the bowl, the Lord is covering you!"

"I am! The deity needs you to cover it? Isn't it the treasure of the deity?"

Looking at Ye Xuan, this incomprehensible look, Xiaoyaozi suddenly did not hit a place, Zhang mouth spit a **** foam, white eyes straightforward: "Reassured, the deity is a word, not the kind of words and fat existence! You lose, you want to choose, you pick it yourself!"

This statement is bright, but Ye Xuan does not take it for granted, and grins his mouth. When he gives instructions to the system, he determines what the spoils are.

This guy is just a pretense, there are systems that are parasitic in both sides, even if he wants to disapprove, is it possible?

Soon, Ye Xuan's mind came with a familiar system prompt. He had already selected the redemption item in advance, and it appeared in the body of Ye Xuan in the first place, and he was directly thrown into the immortal world.

Then, the dozens of angry roaring voices from the old people of the Second Universe Federation rang out...

"The little bastard, even dare to gamble with others, what do you take the old man and others as?"

"It's too arrogant! It's just awkward, you need to marry you today!"

"All warships, immediately open the space oscillator, full-load operation, this small private warship is also quite extraordinary, the starry sky to treasure, the speed must be amazing, can not let him sacrifice the battleship, escape ..."

With these roars screaming, a large number of warships and fortresses and small fortresses were surrounded by emptiness, and the space oscillating device was fully opened. In an instant, the vast void of the thousands of warships surrounded by the large and small warships screamed in the wild. The void was trapped.

Although it is not as amazing and absolute as the effect of the big squad, it is not to be underestimated. Whether it is a strong star or a warship or a fortress, the action will be limited.

Chapter 3377: Life fortress first battle

"Hey!"

"Hey..."

Soon, with a large number of warships and fortresses and small fortresses in the air, all of a sudden, the space oscillators were fully opened, and the vast voids surrounded by thousands of large and small warships screamed in the wild, and the void was trapped.

Ye Xuan's figure was awkward, and his speed was limited. His whole person fell into a very stagnant mud.

For the space oscillator, Ye Xuan is still very familiar, but like this kind of thousands of warships and fortresses simultaneously fully activate the scene of the space oscillator, he has never encountered.

This is definitely a big deal!

Under this level of horror shock, the voids trapped by more than a thousand warships and fortresses are almost bursting. For example, teleportation, transmission, etc. can no longer be unfolded, not just limited personal behavior. It is also the case of warships and fortresses, and the navigation will become extremely difficult. For example, the same leaf boat can rise and fall on the raging waves, and it is possible to subvert at any time!

Not only that, including the strong starry sky, in this extremely turbulent void, the action has been greatly hindered, and it is impossible to speed up.

But Ye Xuan is not at all scared, because if he wants to leave, he can always!

The phagocytic system is indeed powerful enough. Even in this environment, the cosmic coordinate jumping ability is still unaffected. He can leave this place only when he is thinking, going to the black hole of the first universe, or the death of the third universe. Star swirl!

Asked about the system, after confirming this, Ye Xuan suddenly got the temper, facing the thousands of warships and fortresses in the surrounding air, and more forces that are whizzing toward his position. Zongmen's star-studded powerhouses, he was not afraid, but sneered!

"Do you think this will trap the Lord?"

"The squad of the gang of gangsters who spent a lot of effort on the tens of thousands of warships and fortresses did not work. How much do you think can be used?"

The cold-eyed sweeping of a large number of star-studded powers that are whizzing around, Ye Xuan's speech suddenly waved: "Why is today's business so far, all of you are well aware that this young master is not a persimmon perk, initiative It is for revenge."

"You must be afraid of all of you, or will there be similar things happening next time? This young master can not have so much time to accompany you to toss!"

"Ready? Gorgeous performance, it started..."

"Card!"

"Card!"

"Card..."

With the last sentence, Ye Xuan's figure disappeared instantly, and he once again started the perfect oscillation of the spiritual power.

In such an environment where the whole piece of void is affected by a large number of spatial oscillators, even the hidden array of warships or fortresses will not function properly and will show their physique.

It is the secret of some hidden bodies in the starry sky. In this environment, the effect will also be affected. However, Ye Xuan's spiritual power secretly oscillates perfectly without worrying. The so-called perfect oscillation is just this secret technique. The name has already been able to explain the problem.

What it pursues is a perfect emotional power oscillation effect. The effect after exerting is strong and weak, and it is only related to its own spiritual strength level and level, and will not be restricted by any external factors.

If in the past, Ye Xuan's spiritual strength was only six, the strongest in the face of the tenth dimension of the environment, it was already exposed, and it was possible to be perceived by the other side.

But now, Ye Xuan's spiritual strength has reached seven levels, and his own cultivation is far from the past, reaching the first step of the tenth world.

In this case, once Ye Xuan fully develops the perfect oscillation of the mysterious technique, if he wants to sneak through it, only the fifteenth big world can take the shot, which is the existence of the fourteenth world. Enough!

Among the large number of star-studded powers that roar around the void, the most powerful ones are just a few old people from the Second Universe Federation. Their cultivation is in the thirteenth world.

Ye Xuan, who has been trained in the heavens and has seven levels of spiritual strength, can't even see through his appearance even if he is the strongest second-class federal nationality.

At this moment, with Ye Xuan's body shape completely disappearing, even the breath of nowhere is no longer revealed, but the virtual air suddenly came with a clear and loud sound of lightning.

Spiritual lightning!

I saw the sound, it is difficult to see its shape!

There are at least two or three thousand strong violent spurts from around the world. Among them, the strongest from the Second Universe Federation are the fastest, and because of the earliest movement, Ye Xuan is also the closest.

More than a dozen spiritual lightning techniques, almost all of them are on the hands of these interracial olds, and they are covered with a porcelain.

"Hey!"

"Hey..."

"What about the little bastard? The old man has not smashed his skin!"

"Oh, my head!"

"Rough! Get it right now! Ah..."

"Get out of the way and die, ah... you are stunned by the old bastard, I am going to kill you..."

"Hey..."

.....

The situation is in a mess! The surrounding two or three thousand strong people are all swarming, and Ye Xuan's body shape has completely disappeared. The mysterious technique of perfection has oscillated and swayed all the breath, perhaps at the moment, it is followed by a strong man behind the starry sky, but But no one can detect the traces of it.

On the contrary, the thundering spirit of the sky is thundering, but one after another, the sound of the card is always endless and resounding.

Every card rang, followed by a fierce horror, which was the reaction of a bad guy who was hit by an invisible spiritual thunder.

It's the dozens of emptiness of the second universe, the geeks of the domain, and the old geeks of the domain. They have never been spared. They are even the focus of Ye Xuan's attention, and they're all in the hands of tea. More than a dozen spiritual lightning techniques, although not injured, but were tossed by the wolf.

A dozen old guys are the most fierce and arrogant, and they are the most powerful. Now they are also the most miserable existence of the spirit of thunder and lightning. The hair is all rooted up, and the new chestnut is hot, and the face is more Black is very incomparable, just like a ash on the bottom of a pot.

"Wow, ah..."

"Damn! Little bastard, you **** it!"

"Rough! Get out of the old man immediately!"

"Xiao Wang Ba Lazi, can you have a little other move besides the conspiracy means and the hidden head of the Tibetan head? There is a skill to roll out and fight right and wrong..."

A dozen old guys roared like thunder, and they were almost violent.

It was also at this time that in a distant sky, Ye Xuan's voice suddenly came: "Who said that this young master only knows that the Tibetan head is exposed? Hey, you have a dozen empty, old monsters in the domain beginning with Two or three thousand star-studded powers besieged Laozi, and it's a good idea to say that there is a fair and fair fight, and you don't feel blushing?"

"But this is not a matter of the Lord. Isn't it a positive war? Just now people have already played, let's fight the battle now, I hope you don't run away..."

Then, Ye Xuan's figure was revealed, and during the wave, the small fortress of life blasted out...

Chapter 3378: Dragon battle star field

Two or three thousand star-studded powers, a large piece of black pressure, and even if Ye Xuan's spiritual strength is strong, it is impossible for him to slap them all. In that case, he must have exhausted his mental strength and died.

Therefore, after the main target was abused, Ye Xuan, who concealed his body's hidden atmosphere, even sneaked into the crowd, even to the encirclement of the battleships and fortresses surrounded by the void. Outside.

Then they showed their physique, and they were screaming at the vacant star-studded powerhouses.

When the words fell, Ye Xuan waved his hand, even if the life of the small fortress Longye was sacrificed.

This is the first battle of the Dragon Field!

Today, Dragon Wars Hoshino!

Today's Longye has changed a lot, this is not the same!

The diameter of the hull reached 50,000 meters. Although it is not a true star fortress, it has reached the standard of a small fortress. It is considered a giant warship.

This is still the result of the restrictions imposed by Ye Xuan Ming, otherwise the Longye of the present may be more horrible, and the extent of the 100,000-meter starry fortress may not be impossible.

The reason why he explicitly ordered the Longye to expand only to a diameter of 50,000 meters, the purpose is to use more of the world's insect self-derivative micromolecules, as much as possible to improve the performance of the warship.

As a result, Ye Xuan was quite satisfied, even exceeding his prediction. As for the specific power, this battle is the most direct test!

"Ha ha ha... stinky boy, are you looking for death? Since you haven't ran out, you're still showing your body shape again, and you actually have a small fortress?"

"A small fortress with a diameter of 50,000 meters, would you like to stand out from the crowd? Persuade you to know how many warships around you have to say, to pick one thousand, it's really unheard of!"

"Yes, now the old man is extremely skeptical that this fox is out of the way, and his head is out of order. The battleship is not a magic weapon. Even if it is against the sky, it is impossible to have an enemy situation unless it is a million. The super-strong fortress of rice diameter, unfortunately, there is only one ship in the three universes. It is the base camp of the Tianji people. How could it appear here?"

"The gap of 50,000 meters in a million meters may not really be what we are in the eyes of our young foxes. Since people have this self-confidence, then we will wait and see, and we will not rush to suppress him. First come first. Star Wars, he will be dazzled and say!"

"No one wants to fight, the fleet of the Terran, you are going to sneak around in the first place. I have eaten several ancestors of the ethnic group, and this star war must be shot by my second cosmic coalition!" "

"This is a rare opportunity to vent your anger. You must blast the kid to the chicken and the dog..."

With more than a dozen ethnic groups from the second universe of the Confederate screaming, the top gates of the Terran and the main forces of the Terran, there are quite a few warships that are rushing forward, intending to form an encirclement again, waving Ye Xuan The small fortress of Hoshino is surrounded.

Even on the spot to launch a volley bombardment!

But in the end, these already-launched warships and large and small fortresses stopped after all, and they separated into arrays, giving the main battlefield of the Hoshino to the fleet of the Second Universe.

Soon, the hostile double is convenient for the array.

On one side, there is only one small fortress with a diameter of 50,000 meters, which is the life fortress of Ye Xuan.

On the other side, there are hundreds of kilometers of defense lines, the second is the second universe of allied coalition fleets, and the two are the top-level gates and forces of the Terran camp and the science and technology camp, a total of more than a thousand battleships and fortresses, one The words are lined up and you can't see the head.

This is a huge number of starship wars, although all the enemy ships will not all be shot, at least for the time being, but the Hoshino number needs to face the second universe of allied coalition fleet, but still has ten Several battleships, all of which exist above the 10,000-meter-high fort, and the same 50,000-meter-tall fortress as the Hoshino, has five seats!

With an enemy of thirteen, and there are five small fortresses of the same level of 50,000 meters, the pressure faced by the Longye is conceivable. Almost no one thinks that this Star Wars Longye can win, even Even the three gimmicks of Xuanyuan 辕莺 and Duanmu Xiaocha and Zhao Qianru are the same.

Although the Dragon Field is unique, it is the only small fortress of life in the three universes, but it has not yet grown up.

If it is later, when the Longye grows into a million-meter-diameter super fortress like the base of the Tianji nationality, let's say that it's an enemy, it's a million spaceships, and it's not necessarily able to How much impact it has.

For this, Xuanyuan Zizhen and her three women still believe.

At the moment, the Xingye number, which is only 50,000 meters in diameter, has to single out the entire fleet of the Second Universe and allied forces. They really don't have much hope.

However, for Ye Xuan, they have almost superstitious trust. Since Ye Xuan has the confidence to do so, Xuanyuan Zizi and the three women believe that he must have his own reasons, and will never go wrong!

At this point, after the two sides of the match were completed, this unprecedented strange star war finally began.

"Little bastard, don't say that my second cosmic united army is bullying you. This star war is your own initiative. It is too arrogant. For this kind of existence, I will not tolerate it. I must learn a lesson." Fan, you can't remember without hurting!"

At this time, in the thirteen big forts and small fortresses of the Hoshino, a small fortress has a voice of the old man of the silver sect, which resounds through the square: "Remember If we can't stand it, we can still accept the surrender. Don't hold it hard. I am really scared. I will shout out the word of mercy loudly."

"The more miserable the better, the more comfortable the old man and others listen, the more vitality you have, hahaha..."

At the end of the day, the old family of the Yin Dai people laughed proudly. He seemed to have seen the Dragon Field being bombarded by the thirteen fortresses and fortresses of their second cosmic unity. Then there was a scream of screaming screaming at the fox.

This is really wonderful, so he can't wait!

"Pharaoh VIII, this discourse, the Lord of the Lord, originally wanted to persuade you, but now it seems that you all have psychological preparations. They all understand people and know what they should do. In this case, the Lord is just the province. This is the strength!"

Without waiting for the old laughter of the Yinxi nationality, the dragon voice in the empty sky opposite the thousands of miles away, Ye Xuan's understatement of voices came over, but the voice was light, but it was full of emptiness: "So, let's get started, is it ready to tremble? The first round of the squad of this young master is about to start..."

This is a bit strange, a small fortress, against the thirteen big fortresses and small fortresses, actually took the words of volley first.

Only one ship, how come the volley?

This thought has just emerged from the minds of all the star-studded powerhouses. Their next moment, their faces have completely changed...

Chapter 3379: Starry Black Technology

The Hoshino is launched, and it is indeed a volley!

This concept is a bit confusing. It is just a warship. Even a small fortress of 50,000 meters in diameter, the so-called volley is still not suitable under normal circumstances.

In general, the starship battleship, whether it is the star of the captain of the kilometer, the star of the 3,000-meter captain, the small fortress of the diameter of 5,000 meters, the fortress of 10,000 meters in diameter, or the small diameter of 50,000 meters Fortress, or a starry sky fortress of 100,000 meters in diameter... Its main gun has only one door!

But the caliber and kinetic energy are completely different!

For example, a starry sky fortress with a diameter of 100,000 meters, the diameter of its main gun can reach 20,000 to 30,000 meters, and the kinetic energy is anti-material light energy, which can bombard the anti-material dead light cannon!

The direction of the power upgraded by the main guns of the Star Warships is basically the size of the caliber!

This is completely understandable.

Imagine the same two 100,000-meter-diameter starry fortresses, one with a main gun and a diameter of 30,000 meters.

The other has ten main guns, all of which are three kilometers in diameter.

Once the bang, is the main gun of the ten-door three-kilometer caliber, or is it only one, but the caliber of the 30,000-meter-tall main gun is so lethal?

For this reason, the main gun of the Star Warship is basically only one. The higher the specification of the warship, the larger its caliber.

Others are accompanied by some small-caliber sub-cannons, but those sub-cannons basically have little effect when they are on the same level of warships. The key is that the main guns work.

Even so, the main gun of the battleship is big, there are limits.

The starry sky fortress with 30% of the hull diameter is already the limit.

The 100,000-meter-diameter starry fortress, its main gun, up to 30,000 meters.

The large fort of 10,000 meters in diameter, the diameter of the main gun is generally one to two kilometers, only 20%!

After all, attacking the main gun is only a part of the function of the Star Warship. Far from all, it is impossible for the entire hull to be a cannon. It is not called a warship. It is more suitable for the Star Fort. Its function is too single. Not very happy!

At the moment, the launch of the Xingye's naval guns has led all the star-studded powerhouses in the hostile camp to be stupid. The reason is simple.

The Hoshino's ship-borne main guns are more than one, but four!

What is even more frightening is that the caliber of the four ship-borne main guns is more than 20,000 meters, arranged in a square!

You know, the Hoshino is a small fortress with a hull diameter of 50,000 meters.

Now, both up and down, or around, there are two ship-borne main guns with a diameter of more than 20,000 meters. Together, it is more than 40,000 meters, more than 45,000 kilometers.

What is this concept?

This is equivalent to saying that the hull diameter of the entire Xingye is basically occupied by the four main ships of more than 20,000 meters... but this is not scientific!

This muzzle occupies at least 90% of the hull, and it is not a starship battleship at all. It is more like a fixed turret arrayed above the walls of the city.

More than 90% of the space of the hull has been occupied by the muzzle. How can other functions be guaranteed?

In this case, such a small fortress can not guarantee even the basic interplanetary navigation, let alone the defensive ability, the concealed array method, or the space oscillator, the space wormhole jumping device... The placement of the facility!

"God, four ships carrying the main guns? And while weighing the number, did not sacrifice the caliber of any one main gun, the four calibers, all have more than 20,000 meters? This is how this is possible?"

"It is a performance, even if it is a 100,000-meter-diameter starry fortress, its only one-ship main gun is only 30,000 meters. Like this 50,000-meter-diameter small fortress, its ship-borne main gun. The caliber is generally more than 10,000 meters, and 20,000 meters are top."

"You are right! This is common sense! What kind of ghost is this monster? Not only have four main guns, but each door is more than 20,000 meters. The ultimate cannon of the small fortress is broken. The number is even worse, isn't Laozi dreaming?"

"Damn, which teasing has created such a small fortress? It's terrible. Four 50,000-meter-tall fortresses of the same class don't want to tie it with it, because the main gun of the ordinary small fortress is not as big as it. Less than 20,000 meters, it is over. So, don't look at it, there are only four main guns, but at least six small fortresses of the same level can be singled out..."

"Only four friends? Do you speak without gasping? Are there four seats? The calibers are all over 20,000 meters. This is simply a steel monster. The caliber of the four main guns occupies the entire hull diameter. More than 90%, in addition to the lethal horror, this small fortress, can you really have other functions?"

"Yes, this is crazy, going to an extreme. Although the lethality has reached the limit, at least one can be picked at the same level, but it is more like a desperate attempt. In case of a bang, there is no chance to escape. Because there is no place to arrange the power cabin, Lao Tzu is now extremely suspicious whether it can start..."

"boom!"

"boom!"

.....

Four energy-light columns with a diameter of more than 20,000 meters were simultaneously blasted, and aimed at a small fortress in the fleet of the thirteenth second-complex coalitions that confronted them, concentrated their firepower, and quickly thundered Directly hit.

The huge sound of the explosion rang through the void, and the small fortress of 50,000 meters in diameter was directly annihilated.

This is equivalent to being bombarded by four 50,000-meter-tall fortresses of the same class at the same time, and the opponent's bombardment is still an anti-matter death gun that can be equipped with a 100,000-meter star fortress. Therefore, this small fortress is also extinguished. It is.

That's right, it's anti-matter death gun!

The four energy channels of more than 20,000 meters are all black, and the fool can see that it is the anti-material energy beam.

But this is unscientific, and on the spot, all the star-studded powerhouses around the world are completely petrified.

After a long time, until the horror muzzle of the four main guns of the Hoshino was once again flashed, and once again, when all the charges were completed, all the talents slammed and they all returned.

Then, the screams of screaming sounded together...

"Dead light cannon? Actually it is anti-matter dead light cannon? But how is it possible? An anti-matter dead light cannon needs to be equipped with an anti-matter light energy generator, the volume of the generator even exceeds the dead light cannon. For this reason, even five The small fortress of 10,000 meters can't be equipped. Only the star fortress of 100,000 meters in diameter can be equipped, just one!"

"In front of this monster, there are four antimatter dead lights, then it needs to be equipped with four anti-material light energy generators that are no smaller than dead light cannons! But..."

"But only these four caliber horrible main guns have occupied more than 90% of the space of the entire hull. How about the four anti-material light energy generators of the same size? There is no place..."

"This is not a problem that can be solved by the simple internal folding space technology! God, what technology is this behemoth used? It is terrible. Nowadays, the three major cosmic planes have never heard of such a thing. It's called star-level black technology..."

Chapter 3380: Starry King

The second universe of all ethnic groups has a total of only 13 warships, including eight 10,000-meter-diameter fortresses, and the remaining five are the same 50,000-meter-diameter small fortress with the Hoshino!

These five small fortresses have only one main gun, all of which are 15,000 meters in diameter!

For the super monster of the upper star field, this level of small fortress, at least six to eight seats can be tied to a tie... This is still the result of light analysis from the data, in fact, may need more!

At the moment, this star war has just begun. The five small fortresses on the side of the Second Universe and Allied Forces have been destroyed. It was not enough to match the Hoshino. Now the top battle force is five times. First, it is undoubtedly worse, there is no problem of winning rate at all!

As the Hoshino first fired, a round of volleys killed a small fortress, and all the star powers, including the members of the second universe, all of them, instantly realized a truth.

That is the battle. The second cosmic coalition has no chance of winning a single point. It is completely slammed and abused!

This is simply too ironic!

Thirteen to one, this is actually the result!

Even more blushing is that just before the count, all people still think that it will be slammed and bombarded by the Hoshino.

As a result, the fact that the people were not able to use the red fruit, they slammed everyone with a loud big ear!

But at this moment, the surviving twelve great cosmos of the Second Universe and the strong fortresses of the Little Fortress have completely ignored blushing or shame.

The only feeling of occupying their hearts, only fear!

Even the dozens of veterans of the emptiness and the beginning of the domain have screamed in horror, and their voices were transmitted through the sound system of the battleships under their respective feet, and they rang through the whole void...

"what....."

"Who can tell the old man what happened?"

"This is not right. It shouldn't be like this! How could there be such a small fortress? Four anti-material dead light cannons of 20,000 meters in diameter were actually placed in the same small fortress. Its anti-material light energy generator? Is there a place to resettle?"

"The old people of the Yin and Dai people are old, and together with the small fortress of the family, no one has escaped. More than 10,000 silver and silver elites have disappeared in the blink of an eye!"

"The whole small fortress is annihilated in an instant, it is too fierce. How can this war be the result?"

"Open the hood and immediately open the hood with all your strength..."

It's a pity that they didn't wait for their screams to fall, and they've completed the second charge of the Hoshino on the speed that they couldn't believe. The four main guns with a caliber of more than 20,000 meters are finally Volley again!

"boom!"

"boom!"

.....

The low energy roaring sounds, four horrible black anti-matter energy light beams are instantly shot, this time it is still concentrated fire, aiming at the other of the four remaining small fortresses of the Second Universe Alliance Fleet!

The result is no suspense!

Another small fortress with a diameter of 50,000 meters was annihilated. After this volley, the four horror main guns of the Hoshino were not hesitant, and they immediately started to recharge quickly.

According to the speed that has been verified before, after just over a minute, the Hoshino will once again have the ability to blast for the third time!

At the thought of this, the numerous star-studded powerhouses in the emptiness of the sky suddenly fell into the cold and sweat, and the screams of madness screamed through the heavens and the earth...

"Damn, this guy is a enchanting, treasure is a enchanting, just a small fortress is also a enchanting, but also let people live ..."

"Can't wait any longer. All the warships are volleyed together. They must be killed as soon as possible. This kind of enchanting can't make him live in the world, and the threat is too great!"

"Yes, even this kind of starry sky black technology that has surpassed the world has mastered it. What else is it that the fox lord can't toss out? This is the drug squad that is the third remedy? Is it cross-border invincible? Even the starry sky black The field of science and technology is an absolute giant. If he is there, the three universes will be in chaos, and it will be a disaster!"

"Destroy him, and immediately kill him!"

"It's too horrible. In just one minute, two small fortresses with a diameter of 50,000 meters are gone. It's not long before all the fleets are tied together. Now, with this ability, all the battleships are volleyed together. Let's kill him..."

They are afraid! Really scared!

In this way, just a battleship of the Longye, you can sweep away more than a thousand battleships on their side. After all, among the more than a thousand warships, the small fortress is less than one hundred, and the blink of an eye has already I was killed by two...

Once all the small fortresses have been solved, there will be more of the remaining big forts and star-rated battleships.

As the scream of this fear rang, the entire void was confusing, and a large number of humming sounds were heard and smashed.

Some warships are fully recharged, and they want to gather thousands of warships to launch a volley and kill the Hoshino.

Some warships are fully open to the defensive hood. The commander of the battleship is obviously conservative in style. At present, it has been frightened by the horror performance of Hoshino Shoji, and it is considered to protect the safety of oneself.

Such a chaotic situation has already scared the people of the tribe and the indiscriminate prisoners of war who have just been released from the stars in the Dingzi and the Palace.

Including Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three women, this is basically the state at the moment, stunned.

Although they have witnessed the growth of Hoshino, they are not clear about the performance improvement of various devices inside, and the strength they display now makes them feel lost.

However, compared with all other unclear, it is determined that all these are the strong players caused by the star-level black technology, they at least vaguely understand the roots.

The so-called Starry Black Technology naturally does not exist.

This is a small fortress of life. It is alive. What are the anti-material death guns of the four 20,000-meter-diameter caliber? If necessary, the countless world insect self-derivative micromolecules that make up the fortress can even be rearranged in an instant, and merge into one, turning into a super dead light cannon with a diameter of more than 40,000 meters!

Thinking of this, Xuanyuan Ziyan and the three women shuddered and shuddered. If that was the case, a shot is a rhythm of a small fortress annihilation.

They finally understand why these powerful forces around the emptiness of the sky are so fearful that such a horrible little fortress is simply a star-studded slayer, the demon-level existence!

At the same time, just as this whole piece of void is completely chaotic, more than a thousand warships, fortresses and fortresses are all in full force to open defensive arrays, space oscillators, or charge ready to attack, somewhere in the distance A black fortress with a diameter of 50,000 meters was forced to appear because it was close to the edge of the turbulent void.

It is the little fortress from the first universe of the devil's group, the magic warfare!
