

## Super D. S 3391

Chapter 3391: Slaughter star

"Booming!"

"boom!"

The huge roaring explosion came out. This scene was too horrible. The world was cracked, and Qiankun was angry and full of shots. The whole piece of void seemed to be shattered.

With these two giants of energy like a canopy slamming down, the emptiness of the 100-meter ball was completely shrouded, the energy was stirred, the void was torn, and the infinite voids rushed out. The horror of the stock horror sucked the power!

In the ripples of the waves, the 100-meter ball like the waves of the waves was instantly plunged into the void, and one of the two giant palms of energy instantly condensed, turning into a palm-shaped mark, speeding up the pursuit. And go.

Eventually, before this emptiness crack was disturbed, it instantly broke through the 50-meter-thick energy shield and turned into a \*\*\*\* palm print, branded on the hull of the Hoshino.

Then, the void cracks that were jointly opened by the two fifteenth worlds, the great powers, were completely closed!

Since then, all the dust has settled!

In this battle, the top gates and forces of the two camps of the Terran, and a fleet of Zongmen, after paying more than 200 warships, fortresses and small fortresses, the fox lords were finally banished to endless voids. Among them.

If there is no accident, it will never return!

As for the small fortress that can be changed into a mechanical knife in the accident, the accidental escape, but basically half-mutilated!

Even so, the star-studded powerhouses in a fleet of imaginary airs are still very heavy, even if a few have a smile on their faces, it is a bitter smile!

This battle is simply not a terrible victory, it can only be considered a lose-lose!

Especially the second universe of all ethnic groups, can be described as a heavy loss!

The patriarchs of all ethnic groups have been eaten several times. Even the old tribes have fallen down a few, and together with the small fortress they are in, have been annihilated!

It was the immortal army of the dynasty from the immortal star, which also lost two large bastions of 10,000 meters in diameter, while the Senlan Army of the Federal Supervision Institute lost a small fortress.

This is still that Ye Xuan does not know that the Hongdu Liefeng is the commander of the Lansen Army. Otherwise, the fleet of the entire Federal Superintendent will be completely paralyzed.

This time, Hong Duoli's style is a dog's luck and escapes!

The fleet of major forces has been dispersed, and the spread of it has been the impact of this war!

This war, the entire Wanluo Federation has been shocked!

The enchanting talents and abilities demonstrated by the young foxes make the major forces sigh and sigh. This person is too enchanting. The medicinal array is only a watch, and his body must be hidden. Big secret.

Not only is the combat power amazing, but it is still tossing in the camp of the comprehension camp, and I don't know who is the invincible \*\*\*\* of war. Moreover, it has a horrific fortress that transcends the current technology of the human race.

The attack energy can be turned into a mechanical demon, and the guardian can be reduced to a diameter of 100 meters, and the density of the infinite king of the eight shells, this is simply unheard of the starry sky black technology!

If such a enchanting talent can be used by the human race, its far-reaching significance is simply unimaginable. Unfortunately, he eventually fell into disuse and was exiled in the endless void, and no return period...

In addition, the horror transformation ability of the small fortress of the Tianji nationality in this war has also aroused the vigilance of the Terran and the Federation of the Bandar. The entire federation is undercurrent, and numerous experts in the field of warship manufacturing Get together and discuss the measures in the immortal star.

In this battle, the advanced technology displayed by the Tianzu people is worrying about the family and the Federation!

If all the small fortresses of this genius have this ability, then in the full-scale war that is likely to erupt in the near future, the Terran and the Federation will have no chance of winning, and the entire battlefield will fall into a situation of being abused, which is too alarming. Many people do not hope, sigh.

At the seminar, many Terran warship-making special guys angered the Tianshi Emperor, saying that they forced the Terran to slay the fox and the lord. Otherwise, the scientific and technological power of the entire Terran is based solely on the starry black technology he has in his hands. All will jump to a big step.

Even if there is still a certain gap with the Celestial family, at least it can guarantee the power of a battle.

Unfortunately, it is too late to say anything now.

In the face of this reprimand, the Tianshi Emperor sneered, did not express any opinions, and the only Qiankun ancestor who was currently guarded in his family, but completely disappeared after the war.

"Damn, the shot was too hasty at the time, and the derivation produced a deviation. The exit of the void crack actually shifted to a certain star field of the second universe!"

In the emptiness of the sky, the ancestors of the Heavenly Wars and the ancestors of the ancestors stood in the void.

The latter held a quaint astrolabe in his hand, and seemed to be deducing what he was doing. Finally, his face sank and he sighed a few times.

Turning the first sweep to the side of the war-stricken war-torn: "No way, it seems that you and I can only run a second universe, and the action is faster, otherwise, once the boy is waiting for the crack in space The other head rushed out, even if I left a brand on the strange little fortress hull, but if the other party took the ship into the magic of storage, all the induction will disappear, then it will be really a needle in the hay!"

"And this is afraid that it will not last too long. Soon, the power of some forces should be able to be seen. You and I opened up on the same day, not the exile of the void, but a void with a clear positioning. aisle!"

On the side, Zhan Tu deep thought that he nodded. "At that time, I am afraid that someone will pursue you and my whereabouts. They will not be willing to make the creation of the fox and the lord all by you. I will leave immediately. Let's go."

Then, the two did not stop, and they rushed to the funeral star field, where there were two natural cosmic wormholes, one leading to the first universe and one leading to the second universe.

Soon after the disappearance of the body of the war and the ancestors of the eyebrows, the two were originally in different directions around the void, each with a hidden faint faint faint...

.....

At the same time, the Heavenly War Empire, a marginal star field!

Although it belongs to the territory of the Heavenly War Empire, it is inaccessible, but it is the border of a small country under the rule of the Empire.

Because the nearby stars are relatively barren, even the more expensive minerals have nothing to produce. Therefore, this star field usually has no star-studded powers, and it belongs to a strong and low-flowing star. area.

At this moment, the Zombie King was able to take the wind and take the 108-bit high-altitude cosmic zombie that he had left, but quietly appeared on the edge of this star field.

One hundred and nine cosmic zombies, both eyes are red, staring closely at the seemingly quiet executive star in front.

In their eyes, all the creatures inside this administrative star are no different from the dead, because they came here for the purpose of ... to kill the stars!

Chapter 3394: Poor

After a few moments, Ye Xuan urged Xingye to rush to the blood, and the whole world instantly turned into a \*\*\*\* world. After a short two-three interest, the light came, and the familiar universe was in the foreground!

It was also at this moment that the familiar system prompts also sounded in Ye Xuan's mind: "Hey, congratulations to the host, find the right place! Bloody meditation: in the second universe! The cosmic plane has not yet branded personal interstellar coordinates, Is it branded immediately?"

Blood deficiency domain?

Located in the second universe?

Ye Xuan suddenly stayed, and after rushing out of the void crack, he came directly to the second universe from the first universe?

The two fifteenth worlds of Qiankun and the great powers joined forces to tear open the cracks in the void. Can they have such power?

Actually crossed a cosmic plane!

This is obviously not realistic, at least Ye Xuan does not believe it.

Because if this is the case, the natural cosmic wormhole connecting the cosmic plane will be meaningless. The fictitious power of the fifteenth world, whether it is the Terran or the Second Universe, including the Celestial, is not necessarily few.

If the two fifteenth worlds of the great powers join hands, they can tear open the void cracks and cross the cosmic plane. If this is the case, this approach will become a real nightmare.

The great army between the three cosmic planes can completely fall into the plane of the enemy camp in this way...

This is absolutely impossible. Otherwise, how can the three major cosmic planes today be so peaceful?

"It should be this void crack in the war and the old ghosts, and there is a small chance of accident!"

After some indulgence, Ye Xuan had an analysis result, and the fine mans flashed in the middle: "From this perspective, it can be seen that the two old guys are not at all kind of good intentions. Their purpose is not to exile the Hoshino to endless." The void of the universe going through, the torn crack, should have the original end point, within the territory of the first universe."

"The two old guys are clearly trying to catch the shackles and smash the strong powers of other forces. They want to squat down the Lord!"

"Unfortunately, there was a small chance of accidental cracks in the void, and the Hoshino was moved to the second universe."

"For this, the two old guys should have already noticed that the unshaven ugly ghost that was invited by the warlord and the lord of the Eighth is a good man who is good at this, and should be able to deduct the void passage. The new end position after the small rate has changed."

"If this is the case, the two old ghosts should be on their way to the moment, maybe they are coming soon. After all, the time that the Hoshino was stuck in this void crack is not too short, nearly ten days."

"From the Heavenly War Empire to the funeral star field, then from the natural universe wormhole deep in the funeral star field to the second universe, followed by the final derivation to determine the position, the whole process, about ten It will be completed in a few days..."

One thought and this, Ye Xuan 眸精精精精一 ,,  
,,,

Later, Ye Xuan remembered the \*\*\*\* palm print left on the Hoshino hull.

This is clearly the branding of the war and the ugly ghost used to determine the exact location of his position. In any case, it must not be left.

However, this is, after all, the mark of the fifteenth world's great power, and Ye Xuan is not sure to be able to erase it. After trying it out, the result makes him stunned.

After Ye Xuan gave instructions to the center of the Hoshino, the \*\*\*\* palm print was erased in an instant, and no trace left!

The whole star field is formed by a myriad of micro-molecules of the world's insect self-derivatives. With the instructions of Ye Xuan, the world's insect self-derivative center is only a small piece of the hull area directly imprinted by the \*\*\*\* palm print. Abandon, as the gecko breaks, this problem is solved.

In the blink of an eye, a piece of rice was rounded, and the thick hull was separated from the Hoshino, and fell into the depths of the void, and soon disappeared!

Although this virtual space called Blood Deficiency is indeed suitable for branding his interstellar coordinates in the second universe, like the black hole of the first universe, and the death star of the third universe, but the previous void The exit is here, and the warlord and the ugly ghost should have already derived this.

That is to say, this place has already been exposed, and it will become the focus of attention of the other party, and the small piece of the Hoshino hull formed by the self-derivative micromolecules of the world that has completely died is also falling. In the depths of this void, the \*\*\*\* palm print is still on it, and the role of guiding the orientation still exists.

Therefore, Ye Xuan's personal interstellar coordinates in the second universe are not suitable for branding here!

With this in mind, Ye Xuan did not stop, and stepped out of the Hoshino, and then waved him into the immortal world.

In the end, the cave will be sacrificed and stepped in. After the concealed method is activated, the ship will be turned into an invisible awning and lasing away from the distance...

This time, the difference between the two came to the second universe. For Ye Xuan, it can be said that it is beaten!

After he had intended to end the troubles of the Tianshi Empire, he immediately took the time to rush to the Second Universe. He did not expect to unexpectedly sigh in this way.

There are three reasons for coming to the second universe.

The first is to find a suitable place in the second universe, branding personal interstellar coordinates.

He has branded a personal interstellar sit in the first universe and the third universe, and only has to brand one in the second universe, then in the future, once the system-level interplanetary coordinate jump capability attached to the system title is activated, Then, between Ye Xuan's thoughts, he can expand the plane between the three cosmic planes, and walk unimpeded!

Second, the ancient tortoise shell that carries the vain murder of the hole, Xuanyuan Ziyang is obtained from the sea star field of the second universe's tortoise. In any case, Ye Xuan must personally run there to explore and find.

And this time may not be short, because the hole is too important for him, the sea of the turtle is a whole star field, Ye Xuan can not rush to go and then leave, so this time came to the second The universe, he may stay for a while.

Third, the second universe of the various races are basically some of the animals and animals with the blood of the wild and the wild. Before Ye Xuan had eaten the grilled wings of the silver scorpion, and had eaten the roast beef tender meat of the bulls, it was excellent. The taste is not mentioned, the energy contained in the flesh and blood of these powerful ethnic groups has a strong effect on his physical evolution.

It can be used as a medicine and can be used to prepare subsequent gene solutions.

Although Ye Xuan has already prepared the eleventh grade liquid, after he has finished repairing the flesh and blood to reach the tenth largest hole in the Tianjiu stage, he can swallow it, thus entering the eleventh level of Xuanguang.

However, since then, there is no way to go. Before his body and blood repairs to reach the eleventh major Xuanton Jiuji Grand Contest, Ye Xuan must formulate the 12th grade liquid...

Chapter 3395: The second nine-inch gold crystal

In view of the above three goals, Ye Xuan feels that it is necessary to create a new identity!

First of all, the identity of the young fox is absolutely useless in the second universe. Once it is known that the fox is in the second universe, I am afraid that this entire universe will be turned into heaven.

As for the identity of the Emperor Xuanzi, it is also not available here.

Because he was later to prepare the 12th grade liquid, he must hunted the second universe group that had great use of flesh and blood and could be used as medicine. Xuan prince is the prince of the

immortal dynasty of the Terran technology camp. Naturally, it is not suitable for doing this kind of thing. It is.

Otherwise, it will not only trigger a civil strife between the second universe and the third universe, but the reputation of Xuan Huangzi will also be damaged!

Thinking about it, Ye Xuan felt that he was walking in the second universe, and finally got a whole body identity, preferably not the human race, but the ethnic group of a certain ethnic group in the second universe!

As for which race to choose, it is not anxious. In any case, there are many ethnic groups in the Second Universe. Not only do they have federal nationalities, but also ethnic groups that have not joined the Federation of Wanluo. There are too many choices.

After determining this general direction, Ye Xuan began to ponder the next step.

This time came to the three purposes of the Second Universe. The first purpose was to imprint the personal interstellar coordinates without worry. Anyway, it is not a day or two. It is a good place to re-brand.

For the latter two purposes, the preparation of the 12-stage liquid is not completed in a day or two. The various natural treasures and rare minerals required, and the harvest of the bamboo knives before Ye Xuan, have basically been completed. .

He has just stepped into the tenth dimension of the first step, and the eleventh grade liquid in his hand has not been used yet. The preparation of the twelve-stage liquid can be slowly studied.

With this in mind, Ye Xuan decided to go to the sea of turtles first. It is a vast star field. Looking for the ancient tortoise shell is a needle in a haystack. It will take a long time. The sooner it goes, the better!

But now there is still a very serious problem to be solved.

In the second universe, the competition among the various ethnic groups within the federation is actually fierce.

The Terran of the Third Universe is a whole, and there is still endless killing between each other. The Second Universe is jointly owned by the various ethnic groups of the Federation, and a large number of different ethnic groups inhabit it. Naturally, there is no need to say more.

Moreover, these aliens basically have the blood of ancient savage birds and beasts, and they are instinctual. Therefore, in the second universe, killing is almost everywhere. If it is not strong enough, it is almost impossible to move here.

Ye Xuan wants to enter the sea of the turtle, and there is no need to find a hidden place to retreat, but to walk around, explore this place, find other ancient tortoise shells.

Then he is destined to meet a large number of second cosmic strongmen. If there is no powerful means, he is afraid that he will only be deceived.

However, all kinds of powerful means in his hands, basically all of them have already violently passed away. They are not exposed as the prince of Xuan, or they are exposed to the identity of the young fox, and they can no longer be easily used. Otherwise, they must be exposed!

"In terms of magical powers, 陨天弓, 冥晦视明, and spiritual lightning, etc., the features are too clear and can no longer be used."

"As far as the magic weapon is concerned, Lei Diyin, Shennong Ding, Hoshino, and even the cave, the devil's blood blade and the immortal glass, are all distinctive and clear, and they can no longer be used!"

In the muttering, Ye Xuan couldn't help but shake his head and smiled: "So it seems that there is no magic weapon and supernatural power available at all. Isn't this really a rhythm that is difficult to move in the second universe? Or it is difficult to move, or reveal identity, the world All are enemies... This is really a dog!"

"Oh, yes..."

In the bitter smile, Ye Xuan's mind suddenly flashed a fascinating light. In an instant, like a sputum, he had an idea. He raised his hand and took a shot and said: "How can I forget the one hundred and seven pieces of Jiu Jin Jin Jing? It's not good. Can only swallow one more, and get a new magical power from it, just to use it in this second universe!"

"Furthermore, now that my cultivation has reached the tenth level of the world, the magical powers on hand are indeed not enough. It is indeed time to devour the second nine gold crystals and obtain a new kind of ancient magical power. Up..."

In the endless corpse of the ancient cage of the Devil's Star Field, Ye Xuan received almost a lot of chanting crystals, and there are 108 pieces of Jiu Jin Jin Jing inherited.

This one hundred and eight pieces of Jiu Jin Jin Jing, he only used one, from which he got the 陨天弓神通.

Now that the time is ripe, it is inevitable to use the second nine-inch gold crystal!

Now that he has not yet reached the sea of the turtle, Ye Xuan will open the hole to the self-propelled mode, and then take out a space box from the immortal world of the body, which contains a nine-inch gold crystal.

All the nine gold crystals look the same on the surface, and there is no way to know what kind of supernatural powers, so he randomly picked one.

As the nine gold crystals were taken out of the space capsule and thrown into the phagocytic system, the familiar system prompts immediately rang in Ye Xuan's brain.

"Hey, congratulations to the host! Get one of the nine gold crystals! Identification is complete! Grade: ninety-nine grades! Quality: ordinary ninety! Attribute: Spiritual source crystal! Do you start collecting immediately?"

Ye Xuan did not hesitate. When he even gave instructions to take it immediately, he sat down on the ground in the main cabin of the Dongxu shuttle, and closed his eyes and entered the state of cultivation.

The confirmation tone of the system has already sounded, and then the process of capturing this perfect nine-gold crystal has begun.

Soon, a trace of dark green spiritual energy was sent to Ye Xuan's mind and automatically drilled into the purple spiritual source of the sea.

This process continued for a long time. In the end, Ye Xuan, who had already sunk into his mind, was awakened by the system sound that suddenly sounded in his mind.

"Hey, congratulations to the host! Take it all! Get the wild magical powers: Nether claws..."

Nether claws?

Suddenly heard these three words, Ye Xuan is a moment, how to listen to what seems to be a magical magical power?

Just as he was flashing through these doubts in his mind, Ye Xuan suddenly felt that the sea was shaking, and it seemed that something was directly transmitted into the system.

Under the retreat, he saw the situation of knowing the sea.

The central domain is still the left and right side of the Lei Di Yin and Shen Nong Ding kits.

The surrounding seas, originally known as the four sides of the four treasures, are now five, and the positions are slightly offset, apparently vacating the place for newcomers.

The source of the nucleus, the hollow medullary crystal, the black gold dragon scales, the golden bow, and the newly emerged dark green claws!

This dark green claw is the ridiculous magical power that Ye Xuan obtained from the second nine-golden crystal, and the ghostly claws of the gods.

There is still a certain gap with his original expectations. This makes Ye Xuan quite disappointed...

Chapter 3396: Against the sky

This time, Ye Xuan is really disappointed!

Because this dark green claw looks thin and unremarkable, it is almost like a broken bird's claw. It is estimated that there is no powerful power.

When I thought of it, Ye Xuan was depressed and sighed. The fate of the gods was extended to the past. Soon, I touched a dark green claw hanging from the sea!

In the next moment, a blast sounded suddenly without warning. Like a thunderstorm in the dry weather, Ye Xuan's consciousness was shaken in a moment, and he almost fell into a sleep on the spot.

"boom....."

As this huge roar blew open, Ye Xuan's consciousness shook slightly, and when he finally recovered, he suddenly discovered that the surrounding environment had completely changed. It was no longer his knowledge of the sea, but an innocent The starry sky is empty.

Seeing this strange vast starry sky, he is not surprised at all. This piece of emptiness still reveals the quaint and endless scent of the sang sang, and he sees the starry giant turtle and the immortal ancestor. When the dragon blood saw the golden starry sky, the two stars and rivers as the backs of the sky, the breath was surprisingly consistent, which was the brand of the battle of the ancient world.

"Hey!"

"Roar!"

"Hey..."

.....

Just as Ye Xuan's \*\*\*\* was on the verge of the endless distance of the vast expanse of the endless sky, suddenly there was a strange and loud noise.

He has long been used to it all. Without any panic, he has adjusted his mindset. The right thing is to watch an extremely realistic holographic movie!

This star-studded star field is very lively, full of sounds, full of fierce and brutal screams, full of anger and swallowing the power of the river! There are also sorghum dragons that seem to be able to tear the entire universe...

Ye Xuan's body shape suddenly violently shocked, subconsciously turned to the head and followed the sound.

The next moment, he was at the end of the endless starry sky, and saw a fierce battle.

The whole piece of endless starry sky is the battlefield.

In this endless battlefield, there are countless powerful creatures that are invisible today. Even though there is no end to the endless starry sky, Ye Xuan still seems to be able to clearly sense the horror of the body.

"call out....."

Just as Ye Xuan was amazed, with the sound of a high-pitched scream, the innocent \*\*\*\* battlefield in front of him suddenly burst into a dazzling brilliance.

A ghostly green ink paw print, spurting at a speed that almost transcends time and space, instantly rushes to the end of the sky, destroys everything along the way, even the starry sky is cut into two... ..

In the end, divide the blue eyes behind the enemy camp into two!

One claw, actually cracked the existence of the suspected red sky.

Such power, even more than the 陨天弓, even Ye Xuan was shocked.

In the next moment, he looked at the direction of the dark green claws in the direction of the sky, just to see a figure flickering in the void.

Like ghosts!

Then, the inheritance picture disappeared, and Ye Xuan's mind once again sounded a familiar system sound.

"Hey, congratulations to the host! The realm of flesh and blood is elevated! The current realm: the second stage of the cave!"

Although Jiuyi Jinjing contains a mysterious energy that has great benefits to the core of the mind, but this kind of energy has certain advantages for the cultivation of the strong stars and the evolution of the flesh.

However, Ye Xuan's spiritual source core has only recently undergone a metamorphosis and evolved to the seventh level. Therefore, this time it only absorbs the mysterious crystallization energy contained in a nine-dimensional gold crystal, and does not allow him. The source core level is raised again.

However, although the strength of the flesh and blood has only benefited a small amount, it unexpectedly broke through a small stage and entered the second-order Dongtian second-order. This is quite an accident for Ye Xuan. A little surprise!

Compared to this little surprise, this one looks like a broken bird's claw, and it is tantamount to a big surprise. Ye Xuan has been dreaming until now. The feeling in the middle, I can't believe the scene that I saw in this mysterious heritage picture!

This dark green bird's claws, the commander of the enemy's camp, the Tiandao Qingyan, who is suspected of being incarnate in the sky, is one of the two claws?

I am amazed by my brother. If you say that the bow of the sky is called the sky, this broken bird's claw is clearly against the sky. It is not a name. The heavenly eye is cut into two by it. This is really a real anti-sky!

For the ancient battle of the past, Ye Xuan saw a corner in the inheritance picture of the emptiness of the cave and the bow of the scorpion. At least he knew the old night fork, and once smashed a large piece of wilderness, almost smashing the sky. .

However, he did not know about the follow-up development of this war.

For example, in the two camps, the ancient Supreme level is supreme. In the end, how is the war, and the camp of the headless baby corpse, and finally why is it defeated, what happened after the defeat, why the corpse of the baby corpse is dead, All of them were put into the cages of the ancients, and the party that defeated eventually disappeared into the long river of history, not known to future generations...

All of this is like a huge mystery, and it's in the heart of Ye Xuan, so that he can't understand it. Whenever he thinks, he always looks very fascinated.

This time, through the mysterious inheritance of the ghost claws, although he did not solve all the mystery, at least a little more than previously seen.

At least, he knows that in the camp of the headless baby corpse, there was such a dark green figure like a ghost. He once looked at the enemy's vacant rear and looked at the enemy's camp. Suspected of the ridiculous heaven and earth, the Tiandao Qingyan, one cut into two...

"In any case, with the horrible power of this ghost claw, it is absolutely enough for this young master to be in the second universe. Even the heavenly eye that is suspected of being wild and willing can be cut into two, even if this is the Lord's repair. At the level, it is not enough to bring out the full power of this ancient magical power. In this second universe, there is no need for other magical powers and secrets to assist."

"Only this one is enough!"

In the muttering, Ye Xuan opened his eyes, and he took advantage of the fine mans and subconsciously tightened his fists.

Then, he seemed to suddenly think of something, and frowned and he said: "However, the figure that casts this ghost claw in the picture is too erratic, like a ghost, it does not see it at all. Image..."

"To walk the second universe with the phantom claws, it is best to reveal the world with the blood of this magical heritage, so that you can not be suspicious!"

Having said that, Ye Xuan shook his head and smiled: "It seems that you can only check the system's data repository to see if there is any relevant information..."

Chapter 3397: The ancestor of the Yinmo

Nowadays, the data information library of Ye Xuan's body phagocytic system is far from the past!

After successfully completing two system competition tasks in succession, the total amount of information data stored in the data repository of the phagocytic system can be described as an explosive growth, which is several times more abundant than before.

Before Ye Xuan discovered that the information in the phagocytic system was updated only after the host touched a new substance.

The experience of each system host is different, and the materials that have been contacted are also different. Although most of them are similar, some of them do not overlap.

And even for the same things, different systems get different data information.

Therefore, when the database information of the system of Yinxia Fairy and Xiaoyaozi was copied and updated by Ye Xuan's phagocytic system, the amount of data held by Ye Xuan was greatly improved.

In the past, even the database information of the system in Ye Xuan did not search for information about the Nether, but integrated the data database of the three systems, the information about the Nether, but finally got some traces. .

Although there are still not many, it is enough for Ye Xuan to have a general understanding of this so-called Nether!

What he didn't expect was that the Nether was actually the ancestor of the second universe non-federal race and the evil spirits!

This makes Ye Xuan even think of the fox!

The fox slammed into the celestial war empire under the immortal dynasty of the third cosmic human science and technology camp not long ago, it was collusion with the barbarian and the genie.

Although this matter has not been completed, the barbarians have opened up the relationship and said that they have been used by the foxes, and they have nothing to do with the sinisters. However, in the exploration of the remains of the drug king, the foxes and the sinisters Together, they finally took away the blue jade ruler that recorded the inheritance of the whole drug king.

Since then it has completely disappeared and never appeared again.

If there is no accident, it should have returned to the second universe, and maybe it is in the ancestral land of the Yin Mozu.

This point Ye Xuan is right, the piece of the blue jade rule that records the inheritance of the whole medicine king is indeed in the ancestral land of the Yin Mozu, and now the patriarch of the family and the people of the group are working hard. Research.

However, the jade ruler is not the fox to bring back to the yin demon, and the cockroach has already fallen. It is the genus of the genie of the genie who is pretending to be the same, and the blue jade ruler is taken back to the second universe. .

"Since I came to the second universe, it was time to liquidate the entanglement with the fox."

"This guy is the remnant of the fox, but it colludes with the second universe of the evil spirits. It is really insulting the wall of the fox family. After all, the lord has accepted the humanity of the fox family, using the names of others, and now Mr. Hu Other tribes who also took the ancestor of the fox went to the Arc de Triomphe, and they were themselves."

"No matter from which point of view, the Lord has the obligation to clean the door."

In the muttering, Ye Xuanzhen couldn't help but smear a cold and sullen manga: "Not to mention, in the exploration of the remains of Yaowang, the fox has also thrown an undead pearl in Shennong Ding. That is the treasure of the young masters, and it is not a garbage dump. Who wants to throw things and throw them indiscriminately?"

"The undead is not provided by the Yin Mozu. In this case, the Yin Mozu also has an unshirkable responsibility."

"Moreover, before the Lord of the Lord, the ancient king of medicine was also the former master of this Shennong Ding. It can also be regarded as the brother of the young master. In this case, the inheritance of the brothers fell into the hands of the Yin Mozu. Can the young masters listen to it and ignore it?"

"There is no such reason at all!"

"In a sense, this young master has now acquired the inheritance of the Nether Claw, which is basically the descendant of the Nether. This family is the second universe of the Yin and the Demon, that is, now the Lord The identity is the ancestor of this Yin Mozu!"

"The children and grandchildren are not ugly. As the ancestors, they should naturally teach them a lesson, teach them how to behave, how to make grandchildren to this ancestor..."

At the end of the day, Ye Xuan became more and more aware of this, and suddenly he was excited.

In this way, this Yin Mozu is obviously indispensable, and this time the past is the ancestral genealogy, think about it and feel addicted.

However, before the past, in addition to the ghost claws must be mastered, their own appearance must also change, at least from the appearance, it must be very similar to the real legendary ghost, so that you can If you show the blood of the Nether, you will be skeptical.

Otherwise, the Yin Mozu is also an entire ethnic group after all. It is still dangerous to go alone and alone.

Of course, even if it is in the identity of the Nether, it is difficult to ensure that there is no trouble. After all, suddenly, an ancestor falls in the sky and wants to sit on his neck and make a fortune. No one can be willing to do anything like this. However, Ye Xuan has confidence in the power of the Nether Claw, plus there is no other means.

At least the safety aspect is absolutely no problem. Therefore, after some pondering, the matter was settled. Ye Xuan decided that the first stop of the second universe was to go to the Yin Mozu and put the family. After leveling, go to the sea of the turtle.

In doing so, he actually has another consideration. After all, the sea of the turtle is too vast, but it is a whole field of stars. It is a bit too difficult to find out the clues of the ancient tortoise. It is.

If the entire Yin Mozu can be conquered before this, and the power of the family will be done for themselves, then the efficiency will be greatly improved, and the chance of finding the ancient tortoise shell will be even greater.

Soon, Ye Xuan once again condensed, and God touched the dark green claws of the sea, and a chilly energy was instantly stirred up.

He is not eager to change, and carefully touches the meaning of it, as the old man is generally groping.

After a full day, Ye Xuan's form began to change. It was transformed from a flesh-and-blood body into a sleek, sultry energy body. It's fascinating, looming, this is what he saw in the picture of the Nether's claws. The whisper of the figure, since then, he finally explored the morphological features of the Nether!

After a short period of time, the enchanting cold energy of this awning is once again transformed into a human form, but it is no longer the appearance of the fox, but it is turned into a pale, thin and long pair of triangular eyes. It gives the appearance of a young man with a deep sense of heart, and there is a sense of chilliness in the body.

"call out!"

Suddenly, this chilly youth raised his hand and waved a thousand miles away. A meteor that was whizzing past suddenly split into two, and a dark green claw was flashing in the void!

Nodded, Ye Xuan was quite satisfied with the effect of this attack. The corner of his mouth outlined a touch of cold, and the cold voice: "Feng

Chapter 3399: Old ancestors

Obviously, with the news that the ancient treasures want to be born in the sea of the tortoise, all the forces of the three major universes must be alarmed. Who does not want to have a human being in their own family? Four great arrogances, even the two young geniuses who are comparable to each other?

There is no doubt that the sea of turtles will soon be lively.

In addition to the strong people of the various ethnic groups in the Second Universe, the strongmen from the Third Cosmic Terran and the First Cosmic Overlord, and their servants, will gather together to unfold the treasures of this ancient treasure. Fight!

This matter, let Ye Xuan a little speechless, crying and laughing!

This time, he thought that after he left the third universe, he jumped out of the whirlpool center. He didn't expect him to run, but the whirlpool of the wind grew his eyes, and he ran to the back of his \*\*\*\* and ran to the second. universe.

It's really frustrating!

For this so-called smog, Ye Xuan is not interested in it. The ancient treasures in his hands are not even absurd. It is not a cold for this kind of thing.

In addition, this smog is a sinister, and it is a sinister form. At first glance, it is known that it is a woman's use, and he is more interested in lacking.

Even so, this time the battle for the treasure, he is afraid to be passive, but also to be involved.

Because the sea turtle of the tortoise can not go.

Although he went there to explore the clues of the emptiness of the cave, try to find other ancient tortoise shells, but others do not know, he must be identified as a competitor to fight for the ancient treasures, and then there must be strangled.

"It seems that the Yin Mozu is not going to go, and the sea of the Turtle will soon be surging. The forces of the three major universes will gather together, and the trouble is not small."

Shaking his head and smiling, Ye Xuan even more determined to go to the Yin Mozu, the plan to hang this family down to his Majesty: "So, this young master alone is not good, will be seen by some forces as soft persimmon, want to feel free pinch."

"If it is forced to rush, it is inevitable not to reveal identity."

"Only the income of the Yinmo family will be reduced, and the family will be moved by the family. At that time, it will be counted as one party. The existence of the courage to take the initiative will be less, and the trouble will naturally be less and less..."

In the self-speaking, Ye Xuan's fine flash in the middle, the speed of the foot is unconsciously raised a lot, not far ahead, is the western star of the second universe, the yin nest of the Yinmo Just in the depths of this star field.

Destination, it's almost here!

.....

The yin nest is actually a place similar to the void!

This is a star-level chilly land, similar to a black hole, with a fixed entrance. After entering it, it is a dark and chilly world different from the outside of the galaxy!

This yin nest, which has been scattered all over the year, has affected a piece of emptiness, so that this small piece of the horoscope near the Yinchao is almost all sinister, and there is no one in a vast area. A planet of life.

Therefore, this star field usually does not have a strong starry sky, even the heavens and the earth are very thin, almost all of them are chilly, what to do here?

As for everything inside the Yinchao, except for the Yinmo ethnic group, the outside world basically does not know that the family is too mysterious and does not like to interact with the outside world. Everything about this family is basically blank for the outsiders!

There are not many people in the Yinmo family, only over 10,000!

Since the endless years, basically keep this number!

The tribes of this tribe are not continually bred by blood, and all the sinisters are born from the ancestral yin pool deep in the yin nest!

The Yinchu is the forbidden zone in the Yinchao's ancestral nest. Except for the patriarch and the nine majors, no one can and should not be close.

The patriarch is called Yin Di!

It is said that it has reached the fifteenth state of the realm. It is a great power, but the Yin Emperor has entered the Yinkike for a few hundred years ago. He wants to break through the blood and return to the ancestors to become the Nether, and Closed death, basically unsuccessful will not come out.

Therefore, over the past few hundred years, the Yin Mozu is basically controlled by the nine major families.

The nine major ethnic groups are named Yin Yi, Yin Er, Yin San... until Yin Jiu!

Before colluding with the fox, he went to the third universe to fight the empire, and later brought back the yin seven, which recorded the cyan jade rule of the complete medicinal king. In fact, it was only a avatar of the yin and evil family.

The deity of Yin 7 is the existence of the twelfth great virtual void!

Among the nine old people of the Yin Mozu, Yin Qi, Yin Ba and Yin Jiu are the twelfth big void!

Yin 4, Yin 5 and Yin 6 are the beginnings of the thirteenth big territory!

Yin Yi, Yin Er and Yin San are the fourteenth big state of the universe!

The nine major ethnic groups are not all in the family. The first elders, Yin Yi and Yin San, are three elders who have gone out many years ago and are not in the family right now.

The elders of the second and the fifth, the sixth and the third, and some of the elders, some of them broke out, and some went out, and they were not in the family.

In the past 100 years, the entire Yin Mozu was ruled by the third tier of Yin Qi, Yin Ba and Yin Jiu three elders!

That is to say, Ye Xuan came to the Yin Mozu this time, and he needs to face the Wanyin Mozu tribe and the third elders who have been repaired as the real world in the twelfth world.

As long as they don't make much noise, the patriarch and the other two elders who are in retreat are basically not alarmed!

Of course, these conditions are not known to Ye Xuan. He does not even know the structure of the Yin Mozu family, but he does not know his patriarch, Yin, is a great power in the fifteenth world.

Otherwise, Ye Xuan may not dare to find the grandson with such a big thorn!

And I still recognize a grandson!

Of course, this feeling is very good, just think about it makes him feel that the whole body is floating.

He has already decided that he must visit in the future. Among the various ethnic groups in the Second Universe, is there a descendant of the blood of the ancients, and if so, you can go to the door to find a grandson.

As for the top ten ethnic groups of the second universe, such as the Yin Dai and the Barbarian, basically all of them have ancient blood. Ye Xuan estimates that the one hundred and six pieces of Jiu Jin Jin Jing in his hands will surely find the corresponding one. The legacy of the ancestors.

After receiving the inheritance, he plans to go to the door to recognize a grandson. This kind of disciple is a white-haired, and more good.

Anyway, Ye Xuan is not too much. When needed, it can be used as cannon fodder!

Of course, everything must start from the Yin Mozu...

With the excitement of the heart, Ye Xuan soon came to the chilly atmosphere of the second universe of the second universe. The figure stood in the void outside the entrance of the Yin Chao, and it sounded loud: "The Yin Mozu The disciples of your disciples, your ancestors, have come, and all the grandchildren have come out and greeted them quickly..."

"puff!"

In the depths of the yin nest, the tea that the old Yinyin just drank into his mouth squirted on the spot, and the old face was black!

Chapter 3400: Suppressing the rebellious descendants

"puff!"

In the depths of the yin nest, the tea that the old Yinyin just drank into his mouth squirted on the spot, and the old face was black!

Then he roared up: "Damn, who is the one who doesn't want to die, dare to scream at the ancestral home of my Yinmo people? It's really annoying to have a disciple, and the deity can't tear him away!"

The voice was not over, Yin 7 has already set off, followed by a group of confidants, rushed to the exit of the ancestral nest.

This scene fell in the induction of the Yin and the Yin and the Nine. The two were originally furious, but at the moment they all pressed the impulse of the heart and did not leave.

On the one hand, the three ethnic groups who are currently in power among the tribes are only superficially amiable. They are also intriguing each other in private. Since the Yin seven has already been shot, the other two have no interest in the past.

On the other hand, a little thief who didn't know how to live and ran to the door to find death, the three major powers of the Yin Mozu were dispatched at the same time, and it was too much to give him face!

After a short period of time, Yin Qi will lead a group of confidants behind him. A total of more than 100 Yin Mozu tribes will come out from the entrance and exit of the Yin Nest. The figure is suspended in the void, and the face is glaring toward Ye Xuan. .

Roaring said: "Where is the little thief, dare to come to my sinister to find death, speed up and come, leave you a whole body!"

At this time, Ye Xuan is the appearance of the young man of the ethnic group. The triangle eyes are full of chills and the face is pale and incomparably. The Yin seven is still a small thorn in the human race. The heart is not the same thing. Said, the smirk at the corner of his mouth is up.

"Bold, the ancestors came, why don't you dare to do this? You are simply rebellious and unfilial, and the deity is not suppressing you today!"

Ye Xuan's heart was so cool, but his face was never revealed. He suddenly sank, and when he screamed, his shoulders shook a little, and instantly he turned into a dark green fog of a soul. It is the figure that he saw in the picture of the Nether Claw.

Although it has a human form, it is not an entity at first glance. The whole body is a dark green fog. The yin is visible to the face. The two sacred hesitations are the hesitation of the dark green.

At the same time, an incomparable chilly breath is also at this moment, from Ye Xuan's body, it is he who motivated the brain to understand the effect of the dark green ghost claws hanging in the sea.

"Fabulous... Nether body?"

"This is this...this is never possible!"

Opposite, the face of Yin Qi was instantly green, and the stunned heart, the shock of my heart was too much, even the words were stuttered, and the more than one hundred confidants behind him were even collectively petrified, as the Yin Mozu people, they naturally Can recognize the body of the Nether.

Because they all have a faint glory of blood in their bodies, they don't have to look at it at the moment. When it is the kind of inductive and repressive atmosphere between blood and blood, they can make their minds clear.

In fact, the reason why the Yin and the patriarch of the Yin Mozu entered the forbidden land in the ancestral yin nest hundreds of years ago, the purpose is to seek a breakthrough, the blood to return to the ancestors, and thus gain some kind of power in the Netherland legend. Blood and magic!

But now, the patriarch's retreat has not been successful, and a pure Nether has already appeared in front of him. This breath will never be wrong. The \*\*\*\* level of feelings and suppression can't be faked. Is a pure Nether.

However, is the legendary Netherland not extinct as early as the late Paleo? Just leaving a descendant of mixed blood, that is, the current Yin Mozu, the Nether in this subject is pure and incomparable. It is not a mixed blood at all. Where did he come from?

The problem is entangled in my mind. At this time, the whole person is stunned. When I think of it in a certain sense, this guy is really his ancestor. He suddenly has a messy feeling in the wind.

Anyone who encounters such a thing will inevitably be so cold, suddenly there is a stranger coming, and you can be sure that he is his own ancestor... What is this broken thing!

Not waiting for him to straighten out the doubts of his heart, Ye Xuan has already re-voiced: "This rare respect was born in the late period of the ancients, that fashion is still young, coincides with the catastrophe, was sealed by a father in a congenital Yin The land of the cold, which was finally born recently, was shocked to hear that the Chinese had long been annihilated in the long river of history. It was originally disheartened..."

"Fortunately, there was a \*\*\*\* impure hybrid descendant who passed down to the present, and came to the door with a little comfort. Originally, I wanted to recognize a son and grandson, and at least pass on the blood of my Nether. I didn't expect you to be such a rebellious descendant. When you saw the ancestors coming, they shouted and killed!"

"It's too much to say that this is less chilling!"

"But it's gone. After all, it's just a bunch of hybrids that are impure. This is indeed a matter of obstinacy."

"It seems that the blood of my Nether family is supernatural. I used to divide the heavenly eye into the ghost of the gods in the ancient world. I will completely sever the inheritance from here, and a certain Japanese \*\*\*\* will die. This magical power will become Starry sky sing..."

At the end of the day, Ye Xuan seems to have some feelings, turned to look at the void in the distance, slightly raise his hand, and gently wave!

"call out!"

"Booming..."

A sharp and unmistakable sound of the air rang, followed by a small sky outside the miles, a small star like a meteor, and it was strangely smashed by an invisible ghost. ....

"Mom..."

"The secluded...the claws?"

Seeing this scene, the yin and seven scared almost sat down to the void, and the look on his face changed again, revealing a boundless surprise in the vague.

This kind of supernatural power is the supreme magical power in the blood of the Nether. Now Ye Xuan is displayed in public, exactly the same as the power in the rumors.

And this person actually knows the secret of the ethnic training of the Yin Mozu, which has been recorded in the ethnic group training. The ancestors of the ancestors of the ancestors of the ancestors had built great achievements in the battle of the ancients, and the ghost claws came out. It is the heavenly eye that the wilderness will be separated from the heavens, and they are all cut into two.

Apart from a group of old people and patriarchs, this is not known to the ethnic group. The other party can say it, and its identity is no doubt.

And listening to his words, this person was actually the youngest son of the Netherland tribe, sealed in a congenital chilly land, and now only born...

This is the first time, but it's really awful. It's a smashing day. I'm afraid that the patriarch, Yindi, is here, and he must immediately lie on the ground.

Although the other party is not listening very much, a bit of a hybrid is really annoying, but people are ancestors, and they are just born, do not understand the world, this is still understandable.

More importantly, the ancestors just said that they are here?

Want to pass down the blood of the Nether?

Lying in the grass, this one is enough, nothing else is important.

I thought about it, the knees of Yin Qi were a little soft in an instant, and there was an urge to wait for you to kneel down...
