

Super D. S 34

Chapter 34: Chen family was destroyed

"The sixth-order monster is not the same, one is at least equivalent to 100,000 silver!" Ye Xuan nodded with satisfaction, then he looked at the four stone rooms on the left and right sides.

The treasures of the entire Chen family are estimated to be here.

"Haha, treasure, I am coming!"

Ye Xuan laughed, and a sword smashed the lock on the first stone room, rushed in and began to madly devour.

"Hey, the host devours a strain of Tianxincao and gets a little swallowing score!"

"Hey, the host devours a fiery rock and gains a bit of engulfing points!"

"Hey, the host devours a sneak peek and gets two points to devour points!"

.....

The spiritual power in Ye Xuan's body increased in madness, and he absorbed a lot of good things. After he swallowed all the good things in this treasure house, he finally broke through.

"Hey, the host broke through to the seventh heavy martial arts!"

Finally broke through!

"Haha, broke through, high strength of spiritual strength, physical fitness has also improved a lot." Ye Xuan was shocked and happy, and rushed into the second fact and began to swallow.

Then there is the third stone room, the fourth!

However, after breaking through to the seventh heavyweight of the martial arts, the cultivation resources required for the breakthrough have been greatly improved. After the breakthrough, he has already absorbed more than 20 million yuan of silver, and he has not yet touched the bottleneck.

"But it is not bad to break through once, and the last bottle of medicinal herbs, swallowed and said." Ye Xuan picked up the last jade bottle, but he found that the inside was not a medicinal herb, but a liquid.

He is a little surprised because the liquid inside looks very thick, unlike the healing pills.

"No matter how much, swallow!"

"The host devours the blood of the dragon steel tortoise. The current blood of the beast is 1/100. When the blood tank of the beast is full, it can open the blood of the beast."

Ye Xuan, what is the ghost of this beast?

The next moment, he suddenly remembered, this is not in the blood column, worth a hundred **** points of low-level blood?

"The dragon steel tortoise seems to be a seventh-order monster, can't it be done, and then devour the body of ninety-nine seven-order monsters, can I have the blood of the beast that increases the physical strength?"

Ye Xuan thought that if this is the case, then he will make a big profit.

The essence of a bottle of seven-order monster is not expensive. If it is full of one hundred kinds, at most tens of millions, and Ye Xuan can also kill the seventh-order monster.

"Haha, the blood of the beasts that can enhance the physical strength, and can be upgraded to intermediate blood, good things in the future."

Ye Xuan laughed a few times, but unfortunately, there are not many things worth more than one million in the treasure house. He only got 20 points to swallow points.

This trip to the treasure house of Chen Jia is really too big. It not only swallowed up nearly 30 million good things, but also learned the way to open the blood of the beasts.

"Forget it, let's go out first and let Chen's family go out." Ye Xuan also left the treasure house directly. Now he is the seventh middle of the martial arts, and there is another bursting spirit in his hand, and there are more than 20 points to swallow points.

At this point, it is estimated that even the elders are not his opponents. After all, he has already used the swallowing points to exchange a few seven martial arts. The whole Lianyun City has never heard of any force that has seven martial arts, but now it is.

When Ye Xuan came out, it happened to have hit three elders and four elders. It seems that they have already killed Chen Xin.

"Ye Xuan, how?" asked the three elders curiously.

"One after the other, the martial arts is the seventh heavy!" Ye Xuan replied succinctly.

"Well, I have a martial art seventh in the Ye family." The three elders laughed a few times and continued: "Chen's family has been estimated to have been killed almost, leaving only the old and the weak women, go, let's go back Look!"

At the moment, the three of them are rushing back.

Since Ye and Lin have rushed into the Chen family, it has been more than ten minutes in the past. More than two hundred masters of the group will surely kill the Chen family who have not yet gathered together.

However, the Ye Xuan trio thought it was too easy, because they found that the battle is still going on, and the intensity is not small.

"Well, it must be supported by Wu Jialai. These are the city guards!" The three elders changed their faces and their paces accelerated.

On the road, they also encountered a lot of city guards, but they were all shot by Ye Xuan with bows and arrows. Now he has broken through to the seventh heavyweight of Wudao. Even the sixth master of martial arts can't escape his chasing arrows.

The three men's pace is getting faster and faster because they found the bodies of a Lin family and Ye family on the ground.

"Well? It's Uncle Lin!"

Ye Xuan shot a city guard, and found a familiar voice in front of him, Lin Ming's owner Lin Ming.

At the moment, they are in the past, and they will be smothered by several city guards who besieged Lin Ming.

"Lin Ming, what is the situation now?"

The three elders quickly asked.

After seeing the three elders, Lin Ming also gave a sigh of relief and said: "Wu Tian suddenly brought a large number of masters to come over, the whole Chen family was surrounded, and also rushed into a martial arts eighth heavy warrior, put our People are breaking up."

"What, the eighth is the martial arts, who is it?" The three elders are also surprised.

It stands to reason that Lianyun City does not have the martial arts eighth heavy weapon.

"It's Wu Liang, he broke through to the eighth martial arts!" Lin Ming said a little dignified.

For Wu Tian and Wu Liang, Ye Xuan has heard that Wu Tian is the owner of Lianyun City, and Wu Liang is the father of a city owner, Wu Tian.

"The eighth martial arts, we are afraid not to be opponents, we must gather a hand to do it..." The three elders frowned.

"Well, now the masters of the entire Chen family are almost dead. Even Chen Xiang's family, Chen Xiang, has been killed. Now there are only women and children. We just need to gather together, and we will be the mainstay!" Lin Ming nodded. .

At the moment, he is following Ye Xuan, and he is looking around at Chen's home to find his own master.

After a while, they gathered dozens of people, and the number is still increasing. At this point, they are gathering in Chen's training field.

However, after Ye Xuan saw the leaf of a single person, he couldn't help but ask: "Da Bo, the Grand Elder and the Second Elder?"

Although there is no injury in Ye Zhang, it seems that it is a big battle, and it seems to be a bit of a collapse. After he saw Ye Xuan, he couldn't help but answer: "Wu Jia Wu Liang suddenly shot and took us a group of people. Broke up."

Ye Xuan nodded silently, but his heart was a little ominous.

Soon, the masters of Ye Jia and Lin Jia are gathered in the training martial arts field. About one hundred and three are more people. The rest are still searching for the property of Chen's family.
