Chapter 340: Goodbye, swallowing beast

"I still don't want to be that much, anyway, I don't look at me..."

Ye Xuan's heart is a dark sentence.

Since it is a misunderstanding, then he does not have to be so hostile to Yu Yi. After all, these two brothers and sisters are savior.

After a chat, Ye Xuan also understands that Yu Yi and Yu Man are dragons, not Naga or Kraken.

At this time, Ye Xuan remembered that he had killed some shrimps and crabs before, and immediately apologized to Yu Yi.

"Oh, there is no way, but the strength of my Hailong family is indeed less. After a while, I am afraid I will not be able to resist the sharks." Yu Yi shook his head helplessly.

"Before I heard that the road to the blood rock continent has been occupied by the evil sharks, no one can pass through?" Ye Xuan turned and asked.

"Yes, the sharks occupy the middle section of the deep sea palace. If you want to go to the blood rock continent, you have to go through the evil sharks. The strength of the Hailong family is very different from that of the sharks. My father only has five dragons. The power of the whales is only six dragons. And the evil sharks are the masters of the six dragons, and the one-eyed giants of the power of the seven dragons. We are not opponents at all, only in the front of the deep sea palace. Activities, I dare not go to the middle section."

Yu Yi repeatedly shook his head.

"The whale's predecessor was..." The Song ruling on the side couldn't help but ask.

The reason why they came to this Dragon Palace was because they were blown away by the shock wave.

"The whale predecessor is a whale and dragon. It used to be the mount of my ancestor Hailong. Later, when the ancestors passed away, it was responsible for guarding my Hailong family." The little girl Yuman explained.

"However, when the whales' predecessors left the Deep Sea Palace some time ago, they were suddenly attacked by the one-eyed giant scorpion of the evil shark family and bitten off the tail. The one-eyed giant python also left a toxin in its body, causing the sky whale. The body of the predecessors is a little bit corrosive, and they don't want to live." Yu Yi added.

After listening to Ye Xuan, I also understood how the shock wave came from.

"Right, the sky whales can leave the deep sea palace?" Ye Xuan suddenly asked.

"Well, both of us can enter and exit the deep sea palace." Yu Yi nodded.

"that....."

Ye Xuan has not finished, Yu Yi is interrupted: "No, now the sea is very uneven, there are a lot of holy beasts killing the seas, such as the sky above the deep sea palace, there are several holy dragons The beast is there, there are countless holy beasts..."

"The power of the Ten Dragons..."

After listening to the three people, Ye Xuan couldn't help but swallow.

A sacred beast with the power of a dragon is enough to destroy the sea dragons and the sharks.

It seems that the Hailong family and the evil sharks are all in order to avoid the pursuit of these holy beasts and enter the deep sea palace.

If you want to go to the blood rock continent, I am afraid that only the deep sea palace will be the way.

"Ye brothers, we are not helping you, but there is no way." Yu Yi shook his head helplessly.

Ye Xuan fell into silence.

That Yuman saw the atmosphere a bit weird, and hurriedly pulled up the arm of the Song ruling, saying:
"Decision big brother, I will take you to see my pet?"

"Oh, okay." Song decided to nod.

Ye Xuan and Song Dian Jing also looked at each other and immediately went out.

If the deep sea palace is like this, then they can only go back to the mainland, and discuss the countermeasures with the elders.

See if the elders can take them around the rioting sea of stars and reach the **** rock continent.

"The ruling big brother, you see, these are my pets..." Yu Man took the Song ruling out and began to introduce him to the sacred beast and the beast that was shackled outside the palace.

However, at this time, Ye Xuan, who was browsing casually, suddenly discovered an extraordinary sacred beast.

When Ye Xuan saw a symbol on the sacred beast, his figure was slightly trembled.

This is a big blue crab, which is almost as good as a tank. However, on the crust of this big crab, there is a round symbol of deja vu.

Devouring the beast!

"what happened?"

The Song Dynasty is somewhat strange.

"Swallowing the beast, it is a symbol of devouring the beast, my God!" Ye Xuan trembled in his heart, hurriedly pointed at the big crab and asked: "His Royal Highness, this is just a holy beast?"

Yu Man turned around and followed Ye Xuan's hand and shook his head. "I'm not very clear about this, Big Brother, I remember it was you caught?"

"Well, I caught it. However, I don't know what this is a holy beast. It only has the power of two dragons." Yu Yi nodded.

"Then, can this holy beast sell to me?" Ye Xuan asked again.

This is a devouring beast. If he can swallow this body, he can at least get a little advanced point. At that time, he can strengthen the blood of the beastmaster.

"Sell?"

Yu Yi turned to look at Yu Man, who immediately nodded: "Yes, this holy beast is very strange, like I don't understand people, IQ is too low, I don't like it very much."

"Thank you for your two Highness!"

Ye Xuan's flash of light flashed and suddenly took out the Eight-Dangerous Sword and directly killed the past.

"Eight wild winds kill!"

The eight-handed blade spins at a high speed and stabs toward the big crab.

"Hey!"

The shell of the big crab was pierced and died instantly.

Then, Ye Xuan quickly collected the body and then swallowed it.

"Hey, the host swallowed a corpse that swallowed the corpse and gained a little advanced point."

Sure enough, this big crab is a swallowing beast!

"Haha, I can advance again."

Ye Xuan laughed in his heart, which means that he can improve his strength.

The Beastmaster Blood has a total of eight advanced routes, namely strength, agility, pet growth rate, pet attributes, pet expansion, beastmaster deterrence, engulfing income, and beastmaster violent.

The world's martial arts are not broken, Ye Xuan's favorite is strength and speed.

Now, he has the power of three dragons in his body. If you increase your strength, it is equivalent to the power of raising zeros and three dragons. If the advanced agility, plus the previous is 20%.

This skill of Beastmaster Fury is also a very bug. If it is advanced again, it will increase the strength of 40%.

However, the body of the sacred beast that the beastmaster violently needs will be upgraded every time it is used, and every time the breakthrough is made, the body of the sacred beast will be raised.

Therefore, this beastmaster violent is not a last resort, it is best not to use.

"Determined, advanced agile!"

"Hey, advanced success, the current Beastmaster blood is advanced to two."

When I heard the prompt of the system, Ye Xuan couldn't help but reveal a smile.

Although the strength must be improved, but in the power of the three dragons, not a lot of power improvement.

Moreover, the power to enhance the strength of one dragon does not mean that the speed can also enhance the power of one dragon. Under normal circumstances, the power of one-stop is enhanced, and the speed is only about half the strength of the dragon.
