

## Super D. S 3401

Chapter 3401: Wanshou Wujiang

"thump!"

"The ancestors are happy, Wanshou has no boundaries!"

"I don't want to be disrespectful, but my ancestors punish..."

Yin 7 finally smashed down, although this is in the void, and the body of the Yin Mozu is not an entity, so there is no sound in the future, but in order to highlight the effect, he squats and deliberately Under the knee, a piece of hemp stone was turned into a pit.

And even the legs were flesh-and-blood in the first moment of the squatting. So when I squatted down, the knee cover hit the uneven bluestone and made a heavy plop, and I heard that Ye Xuan could not help. The scalp is tight.

This old guy is really not a normal brain damage, too good to fool!

Under the heart, I thought about it. Ye Xuan's appearance was not revealed. His body shape once again restored the form of the human white-faced youth. He waved his hand and said slowly: "Well, this is almost the same, this is this. My grandfather's grandson!"

"Returning to the ancestors to pass on the blood and the gods pass the ghost claws, must be the one who picks the most pleasing to the eye, the most popular of the ancestors of the people, now it seems that most of you are... flat!"

"thump!"

"thump!"

.....

This sentence is not good enough. Under the circumstance, the more than one hundred people of the Yin and Mo nationality after the Yinqi body have all gone down, and they all learn the way of Yinqi, and they will basically make the legs and flesh and blood, and change under the knee. There was a big bluestone that was pitted and smashed, so that the sound of the slamming sound slammed into a piece, and even Ye Xuan's defense was shocked.

There are a few more jealous guys who are no one else. The big bluestone that has come out under the foot is not only a pit, but a sharp thorn that is full of sharpness. This squatting down, the brittle head is plunged into the thorn. , blood DC.

After all, their legs are now flesh and blood, and the blood will still flow.

It seems that the sentence before the flat has had an effect. It is necessary to pass the ghosts of the Netherland to pass the ghost claws. At that time, you must pick the one that is the most pleasing to the eye and the most hearty!

That is to say, everyone is equal, there are opportunities!

These guys are all jealous, this is a hard performance.

For this point, the family Laoyinqi is also well-informed. Immediately, he smashed toward the guys who had blood stasis on the knees. In the dark, they had already murdered the machine. After smashing the next door, they dared to rush with the master. This clearly does not want to live!

"A few of you, what's the matter? Is your brain broken?"

Ye Xuan's face sank and he was stunned on the spot: "When you bow down, it's a mind, what do you mean by this imaginary brain? You are already a hybrid, and then you're doing it. It's not a joke. This nest of the Yin and Devils is not only a hybrid, but also all stupid pigs? Wow, killing the ancestors..."

Ye Xuan is also into the play, before claiming that this is a small respect, now Yin seven with this vote Yinmo ethnic group black pressure on the ground, he immediately is a bit of an ancestor, said the thief slip!

The guys who were crouching around the ground didn't feel so harsh. It was the kind of hybrid. They listened to their hearts very comfortably, at least that the ancestors in front of them had recognized their \*\*\*\* descendants. Identity...

"Damn guy, dare to anger the ancestors, what if the anger of the ancestors' body?"

Yin 7 immediately got up, angered and raised his hand and both palms shot: "This is a heart of speculation, leave you not!"

"boom!"

"boom!"

The sound of the two cannons blasted out, and the two guys exploded on the spot and became a cold smog. The consciousness dissipated and the smoke disappeared.

As my own confidant, I can't resist it in the face of huge temptations. I dare to rob myself. This is clearly a white-eyed wolf.

Although these words are not mentioned in the Yin 7th, but the yin of the hundred evil spirits who have smashed the ground behind them are well aware, one by one, the body is shaking, and the atmosphere does not dare to breathe.

"Well, what did the ancestors say about now? Should you still have the ancestors of the three ancestors?"

Ye Xuan sneered under his heart, but his face was heavy and his face was unpleasant.

The guys didn't dare to delay, and they all climbed up in a panic.

The Yin seven waists were slightly stunned, and the eunuchs greeted Ye Xuan in front of him. One fingered the Yin nest entrance passage: "The ancestors, the wind outside is big, if it is cold, it is not good. Please go home with you. ""

"Okay, after all, it is a descendant of this ancestor, although it is a hybrid of impure blood, but how many can be regarded as self-family, go in and see."

Ye Xuan seized the opportunity and never let go. The machine mouth took a few words and it was cheap. The heart was already bubbling, but I didn't intend to stop it. The conversation seemed to be mentioned casually. In fact, it was lost. Go out and remember the treasures of the Yin Mozu family: "It's just that this ancestor was born, and I don't know much about this world today. It's also boring. Just look at your family and your family. Interesting objects can play and play, so that you can spend a boring time..."

"There are some, too, you are please."

As soon as I heard the words of Ye Xuan, Yin Yin was flustered and screamed, and I was in front of you. Leading the way: "The ancestors are assured that there are so many interesting things, and I will send you old people in a while, don't give up, You also know that we are just a bunch of hybrid descendants who can't do anything, and can't find anything that can come into your eyes..."

"It doesn't matter, it's good!"

Ye Xuan swayed his hand in a big thorn, but his heart sighed: "This turtle grandson, really special filial!"

.....

Yin nest, deep in the ancestral land.

In addition, the two clan members are in the house of the old yin and the yin and yin.

Regarding the situation outside the Yinchao, Yin-8 and Yin 92 did not pay much attention.

A young man who doesn't know how to live and scream at home, there are Yin and seven shots, and he will die. They have no intention to pay too much attention to this kind of thing.

Therefore, everything that happened outside, they did not know at first, until the following center of the family centered on the situation, the Yin-8 and Yin 92 talents suddenly stood up, regret it!

"What? The Netherland is less respectful? Actually, the legendary family's blood and magical claws are displayed in public. In a moment, a small meteor beyond Wanli is silently cut into two halves?"

"Wow Kaka, this time is really a big loss, live ancestors come to the door, actually said that you want to pick a look of pleasing to the eye, the most heartfelt to teach the blood of the gods pass the ghost claws ... the old seven this time really hit the big luck! "

"No, you can't let him alone take the bargain!"

"Playing is playing, why? We are also the \*\*\*\* descendants of the Nether, we are also hybrids, we must also see the ancestors..."

In the mouth of the Chinese language, the innocence of the mouth is screaming, and the Yin and the Yin and the Nine Two people even if they put some of the treasures in the Dongfu into a small box of space, they took it with them, and they rushed out of the Dongfu in the first time, heading toward the Dongfu of the Yinqi. Going to go...

Chapter 3402: Who are these two hybrids?

When he led Ye Xuan into the Yin nest channel, Yin Qi had secretly made a look to his confidant. The latter would know, even if he walked a few steps, he rushed to the front.

The Yin seven is counted. The ancestors of the Nethered Family have just been born. There is no city, it is better. Just be happy with him. At that time, you must look at yourself the most pleasing to the eye. The majority of the Nether's blood is supernatural. Passed to myself.

Although he did not say anything else, but after one passed, the latter will be dragged down? After hundreds of years, everyone can't wait.

Therefore, the current Yin 7 is a mind that only wants to make the ancestors happy. Although he has the twelfth emptiness of the virtual environment, the ancestor was born, and the cultivation is not high, only the tenth The state of the horizon is one step.

But Yin Qi has never thought of using force to force!

On the one hand, this little ancestor has no city, anyway, it is good, no need to be like that.

On the other hand, after all, their Yin Mozu is a mixed-race descendant of the Nether. It is true that with a strong approach, facing a pure Nether, they may kill because they are higher than the other. If you want to search for the soul to get the secret of the other's blood, it is completely impossible.

Ye Xuan is also well aware of this point, so he will be so old, and he will throw out the temptation of the Nether's blood and magical claws. He is sure that these guys can't resist, even if they are stronger, In front of him, he can only hold his grandson!

Soon, Ye Xuan, under the guidance of a smile on the Yinqiyi Road, passed through the Yinchao channel and came inside the Yinchao.

Into the eye is a dark and chilly world, although there are also voids and stars, but the main color is gray, there is no source of masculinity, everywhere is a chilly breath.

“Welcome to the ancestors, and wish the ancestors of the ancestors to enjoy forever, life and heaven!”

In front of the yin and emptiness of the sky, the black and white people who pressed against the ground were all three or four thousand.

The entire Yin Mozu family has more than 10,000 people. At present, they are controlled by the three ethnic groups. The Yin 7 is exactly three or four thousand people. At present, they are all all here, and they are all here.

Not to mention, the old goods of Yinqi will really come, it seems that it is seen that Ye Xuan likes this kind of arrangement, and the arrangement is really quite what he wants.

If you let him know that Ye Xuan likes this kind of ostentation, it is because watching the gang of turtles and their own children take advantage of it, and they are so willing, crying and crying to find death and living, so the heart is happy, the whole body is refreshing... Seven on the spot will have to fry, not spray old blood!

"Hey, what is this? A large piece of black pressure, is it interesting to do this? The ancestors have always been low-key, and they don't like this one..."

Seeing the black pressure in front of the ground, the Yin Mozu people, Ye Xuanle, the whole person is almost floating, and the mouth says that he likes low-key, but people are already starting to rise, and they come to the gang of gangsters. In front, enjoy their worship.

I was not in a hurry to make people get up. First, I smiled and swept the guys in a circle. Finally, I waved my hand gently: "Okay, enough, hybrids, get up!"

"Xie Laozu!"

"Respect the ancestors of the ancestors forever, life and heaven!"

A group of guys who were called hybrids looked at each other with a smile. The eyes of the ancestors had been carefully swept over them. Everyone felt that they had entered the ancestors' eyes, and maybe they were remembered by the ancestors. Now, this is the rhythm of Fei Teng Tengda just around the corner.

Under the overwhelming heart, these guys all climbed up and did not dare to stop the way ahead, and actively retreated to the far side, eyes glazed in the distant view.

"Old ancestors, please..."

Yin Qi is counted out. The Netherland's lack of respect is clearly a joy to this set. Didn't you see the mouth of the music now go to the ear?

It is normal to think about it. People in the era of the ancient times, but the powerful Nymphs are rare. Now they are born in the present era, but they have found that the Nether has already fallen, and the feeling of loss of the heart is much stronger.

In this case, it is rare to enjoy the honorable treatment of the year in the nest of the hybrid descendants of this nest. Naturally, I am happy.

The old ancestors were happy, and Yin 7 naturally followed him. He vaguely felt that he had touched the ancestors' preferences. It seems that the magical claws of the magical powers can't run away, and they must belong to themselves.

Thinking like this, Yin Qi feels that his body is a little floating...

Here, the three or four thousand Just squatting in front of Ye Xuan, the two leaders are Yin 8 and Yin Jiu!

After the two fell, their heads were hanging, but they held a space box in their hands, and they lifted them up high and screamed in their mouths.

"The ancestors, the old eight, do you forgive me, here are some gadgets, a gift to the ancestors!"

"The playing is the same, the old nine is the same, not a good thing, but it represents the heart of the old nine, but also hope that the ancestors do not dislike, accept it..."

Old eight? Old nine?

Ye Xuan glanced, subconsciously glanced at the Yin seven beside him, and saw his face immediately gloomy, so the heart suddenly realized.

It seems that these two guys are the same as the Yin 7 and the Yin Mozu are old, ranking behind it. This must have received the news, and they have come to flatter, and the ultimate goal is to discuss their own favor. It is good to pass on the inheritance of the Nether Claw.

I thought about it, Ye Xuan was calm at once, as long as the other party had this meaning, then he had to be taken by him, not to mention the fact that there is still a deep poisonous Yin seven beside him, even if the two are not in front of him. Eat yourself this set, there are yin seven, and they don't want to think about themselves.

Thinking like this, Ye Xuan looked a sinking, raised his hand and patted his chest and said: "Who are these two kinds of hybrids? They rushed out coldly, and took a ticket to the head to worship, scared the ancestors to watch the liver jump. Out....."

This was originally a leafless opportunity for Ye Xuan's machine. It's just a word. I didn't expect to pass it into the Yin-8 and Yin 92 people's ears, but it was no different from the sound of the sound of the sky. The two old guys grinned on the spot. Excited by the blood of the chicken, rushing to clarify the identity of the loyalty.

"Right right, the ancestors are clear-cut, are we two hybrids? The old-fashioned descendants of your old family, your old species, referred to as hybrids, is this meaning ancestors?"

"Is it a play? Yes, the one next to you is a hybrid old seven, this is a hybrid old eight, a small one is a hybrid old nine, all of your kind..."

This hybrid was originally Ye Xuan's heart, but now I listened a lot, especially the two guys, a bit of a hybrid, and then said that they are all their own kind, listening to Ye Xuan's ear, gradually it is not so It's a taste.

Isn't this special about yourself?

These guys are hybrids. They are their ancestors.

Chapter 3403: Medicine king passed on hand

When I thought of this kind of hybrid, I went around with my own, and Ye Xuan's heart groaned, and my face could not help but gloomy.

Next to the Yin seven to look at the color, see Ye Xuan face is not pleasant, suddenly overjoyed, just want to jump out to the Yin 8 and Yin Nine difficulties, first laid out their first impression in the ancestors' bad first impression.

The two guys were early in the morning. When they saw the situation was wrong, they quickly shifted the topic. It was extremely flexible and directly opened the space box that was held high in the hand...

"Oh la la..."

"Dangdang..."

In an instant, the treasures in the two space boxes were all dumped out, and they were piled into two small hills in the void, and a large number of jingle local noises were heard, and the various magical treasures were shot.

Many of the Yin and Mozu people around the house looked straight, and Ye Xuan did not jump from the eyelids. Some of them were not treasured, but even the rare minerals were not there. The two clan of the right, this time for the ghosts of the claws of the gods to spare no expense, it really shot!

At this moment, see Ye Xuan seeing all kinds of heavenly treasures, rare minerals and cultivation resources, and even the finished magic weapon piled up in front of the eyes. Almost all eyes are bright, and Yin and Yin are two old and old. Suddenly, the spirit rose, and immediately got up and waved to the back. The six or seven thousand Yin and Mo ethnic groups suddenly retired silently.

The Yin-8 and Yin 92 people left Ye Xuan in the middle and left, one by one, and they excitedly introduced him to these two treasures.

"You see, this is the best material for the Promise Gold Crystal, the refiner."

"This is Tianhuang Fengxuecao. It is definitely the best thing to use for refining medicine. It is said that the 14th grade liquid of the Terran Science and Technology camp needs this medicine. Of course, it is a recipe in the derivation, and the Terran is useless. It's only time to get the eleventh grade..."

"What? You don't know what the eleventh grade liquid is? Oh, yes, you are just born, it is normal to not understand these. The eleventh grade liquid is a kind of refining liquid for the refining of the human race. It... .."

As said, Yin and Yin and Yin have already made Ye Xuan's eyes into two treasures of small hills, and they have all re-into the space box.

Finally, I put the space box in the hands of Ye Xuan. When I was pleased, I said, "My ancestors, with your eyes, these little things can't be entered into the eyes of the law, but the victory is novel and interesting. You are slowly playing. Looking back, we will give you more old collections."

"Play is true, we are your most loyal hybrid descendants, you must remember us, hybrids and hybrids..."

"Old and old, you... too much!"

I didn't wait for the words of Yin 8 and Yin 92. The yin seven, which had already been gloomy and watery, couldn't stand it. I violently screamed: "I didn't see my ancestors coming from my old seven?" I haven't had time to say it yet, what do you mean by this?"

"Isn't that something broken? Isn't this family still there?"

During the speech, Yinyin screamed and took out a space box from his arms. He smiled and handed it over to Ye Xuan's hand. He said, "The ancestors, there are many things here." Rarely theirs..."

"Oh, and they have no one in the little seven."

"Oh, this blue jade ruler is an ancient thing. It is said to be left by a drug king in the ancient times. It records the whole inheritance of the drug king. This is a good thing. The little seven son has not had time to study it. Get it soon."

"Of course, for the ancestors, this is a small broken jade ruler, but it is from the ancient things after all, the ancestors you saw a little close, from the same era."

When it comes to this, the Yin-8 and Yinjiu people on the side have long been scornful. This old thing is also shameless. In order to please the party, it's just a success, it's a treasure, and it's a good meal in front of them. Show off, but the trick is not to touch the drug king heritage has come out.

The key is that the little seven sons, like a small follow-up, smashed the next door, want to take the ancestors as their own, it is too shameless!

"Fart, what is this ancient thing!"

Ye Xuan's heart was overjoyed, but his face was never revealed. The white eye turned and said: "The ancient ancestors can't see it? This is the ancient thing, but it's close to the late Paleogene. The old ancestors looked at the heart and thought it was a good idea."

"Small seven, you are a good hybrid, good hybrid..."

Speaking of later, Ye Xuan raised his hand and took a shot of Yin Qi's shoulder. I was very optimistic about you, and continued to work hard. The promising expression of the future, of course, the opportunity was thrown out of a few hybrids, which was enough.

However, Yin Qi is flattered. This kind of good hybrid is not a problem. From the beginning to the end of the word, the word "hybrid" has been told by the ancestors, but it can make the ancestors boast a good hybrid. So far, it seems to be still I really only have one.

The inspiring yin seven times, even the chest is quite strong, and the yin and yin and yin, who are smug across the side, the blue jade ruler in the hand and the space box with a lot of treasures are also respectfully Handed in the hands of Ye Xuan, the latter passed the hands of the immortal world.

At this point, Ye Xuan has not yet entered the door, and he has received a soft hand. It can be said that he has earned a lot of enthusiasm, and how happy he is, the whole person is floating.

"Well, the filial piety of all three of you have seen this ancestor. In one sentence, they are all good hybrids. This ancestor has you as a gangster, and you still feel very comforted."

After the blue jade ruler and the three space boxes were put away, Ye Xuan looked up and glanced at the Yin 7 and Yin 8 and Yin Jiu III sinister demons. He nodded and said: "Overall, you guys All are good, there are hopes, and I will continue to work harder in the future. This ancestor decided that one of the three of you will be selected to pass on the mysterious ghosts of my Nether."

"Hey, you don't know, this \*\*\*\* magical power can only be passed down in a special way. Every time the inheritance, this ancestor must have to rest for a hundred and eighty years. So, you three people, a hundred years. Only one person can inherit it, and the other two can only be placed behind, each one or two hundred years."

"This makes the ancestors feel very uneasy. Three good hybrids, this ancestor can't be a bowl of water..."

It's not a good thing to say this. As soon as I said it, the waists of the Yin three people suddenly became more powerful. They were only worried that their ancestors were lazy, and after the second one, they dragged on for a long time.

Now that I have determined that only one person can get the mysterious inheritance of the Nether Claw in a hundred years, it will be even more tense. Fortunately, the ancestors have decided to select one of the three of them. Then, the chance of 30% is already at hand. Up...

Chapter 3404: Dig the pit first

"This ancestor was sealed in the chilly land of the place where the endless years have been sealed. Recently, I was just born, and I couldn't help myself for a while. You three, led the ancestors to walk around in this nest. And see what fun and fun there is..."

After accepting the blue jade ruler and the three space boxes, Ye Xuan stared at the benefits of this Yin Mozu ancestral yin nest, and turned around and talked about the surrounding 10,000 yin demons. At a glance, he said with a smile: "You guys are also good hybrids. You can see the ancestors back, but now all of them are retiring. This ancestor doesn't like to play the most. It has always been low-key, come here. Come, all there, together!"

After that, Ye Xuan spurs his hands on his hips and stands in the void, enjoying a group of people who admire the public.

Yin seven and Yin eight, Yin nine people pumped the mouth of the mouth, the heart is scorned, and the big scene of people's peace, this is still low-key?

Old things are simply shameless!

However, they apparently did not dare to say this. At the moment, they led the three or four thousand Yin Mozu people of their own, and together they went down in the air, and they continued to swear: "The ancestors of the ancestors are forever, life and heaven!" "

Wan Yu Yin Mozu people at the same time Shantou Gong'an, in addition to Ye Xuan, there is no one standing, this scene is the genie of the Yin Mozu, the Yin Emperor absolutely can not enjoy, Ye Xuanyuan With the eyes enjoying, the whole person is floating up...

Soon after, after the Pan'an, the other 10,000-plus Yin Mozu people quickly retreated. Only the Yin 7 and the Yin 8 and the Yin 9 were left.

Slightly squatting on the side waiting.

Among them, Yin Qi, even if he greeted him, said: "The ancestors, there is also a congenital chilly place in the depths of the hinterland of my family's ancestral ancestors, named Yinchí, except in the Yinchí. Outside the patriarch of the retreat, only the nine ethnic groups in the tribe can enter, and this brings the ancestors to inspect them in the past."

This is also the purpose of Ye Xuan. Generally speaking, there will be some forbidden places in the ancestral lands of this ethnic group. Other ordinary people cannot easily get involved. Ye Xuan just retired those ordinary people. Go to the core of the ancestral home of the Yin Mozu to see if there are any benefits to fish.

The Yin seven people are now listening to Ye Xuan. The turn around in his mind is always a phrase that he can only inherit once in a hundred years. It can be said that it is lingering.

If only three people are here, what can be done, what can not be done, and perhaps there is basically a bottom line.

But the three people are all here at the same time, and they all want to try to please the ancestors as much as possible. The place where the fear can be used is taken advantage of by the other two.

Therefore, the three old guys are simply racking their brains. Everything they feel can make the old man look at himself, without exception, as soon as he thinks about it.

Going all the way, there is a lot of good things along the way, and there is no need for Ye Xuan to scream at all. The three old guys are almost crying and crying for death. They ran around and sneaked over on the spot, honouring Ye Xuan.

After all, this yin nest is also a place of chilly conge. It is isolated from the outer space of the universe. There is only one passage connected, which is equivalent to a closed secret. A lot of chilly air is filled with hundreds of millions of years. Naturally, there will be a lot of rare minerals that are not available outside, and the celestial treasures of the chilly nature.

These things, as long as they are slightly graded, have all been dug up, put them into the space box, and handed them to Ye Xuan's eyes.

In a short period of time, when a group of four people finally walked to the front of the Yincao's core hinterland, Ye Xuan's immortal world had once again had several space boxes, all of which were chilly. The rare minerals and the heavenly treasures can't be found outside, but now they have been dug up by Ye Xuan.

The Yinchi pool is actually a big pool with endless Xuanyin gas. Of course, the pool is not an ordinary water liquid, but a congenital chilly liquid, which is a congenital chilly gas to a liquid. the result of.

"Hey, seeing this cold pool, this ancestor remembered the cold pool where my father sealed me for hundreds of millions of years. Unfortunately, the cold pool has dried up now. If not, this ancestor can't wake up so early. Come, it's really awkward!"

"Oh, I almost forgot my ancestor. You are also a chilly body. The chilly liquid in this congenital yin pool must not be comparable to the old pool where you are sleeping, but it is also rare in the outside world. Things."

Not waiting for Ye Xuan to finish the words, Yin 7 has already slapped his head in a clever way. When he even took out a small bottle-shaped space magic weapon, he directly cast a full bottle, at least 10,000 cubic meters of chilly Liquid, handed to the hands of Ye Xuan.

Invited to grin and smile: "Although the quality is definitely not as good as it is, but the ancestors usually take a bath or something, or you can drop it."

This is a small bottle of tens of thousands of cubic chilly liquid, which is equivalent to one-seventh of the entire yin pool. Now it is not included in the yin and seven words, but it is still used. Soak your feet.

You must know that every drop of this chilling liquid is a treasure. For the Yinmo ethnic group, a drop of chilly liquid can maintain the practice of one year, and the patriarch of the Yinmo family still retreats in the pool. It.

If you think about it, the words of Yin 7 are clearly said to be the meaning of the patriarch Yin Yin's retreat in Ye Xuan's foot wash.

Three old things may not have thought of this layer, but Ye Xuan thought of it. When he took the heavy vial, he almost laughed.

At this time, Ye Xuan's brain suddenly heard a familiar tone from the system: "Hey, congratulations to the host, find the place where the chills are born! Is it immediately branding the personal interstellar coordinates?"

Ok?

Branding personal interstellar coordinates?

Ye Xuan stunned and suddenly got up.

Generally speaking, the personal interstellar coordinates of a cosmic plane can be imprinted anywhere, and the system will not remind you deliberately, but if it reminds, it means that this place is very suitable, and most of them will have other Hide value.

Of course, before this value is reflected, the system will not explain everything to you in advance.

Think of it like this, Ye Xuan suddenly felt heart, just the pool of the innate chilly liquid is also helpful for his Nether body, here the brand of personal interstellar coordinates, the right is in the Yinmo In the depths of the ancestral yin nest, the pit was dug well.

After turning back and the family completely turned their faces, they can activate the personal coordinate jumping ability attached to the system title at any time, and come directly to the place, and give the pot the innate chilling liquid.

Thinking like this, Ye Xuan waved his hand and said, "You a few, look for a few young and beautiful prostitutes, this ancestor is wet and has to take a shower in this pool." ....."

Chapter 3405: Cave third step

Take a shower and take a shower?

Still wet?

Upon hearing this, Yin Qi and Yin Ba, Yin Jiu three suddenly stunned, and the look on his face gradually became weird. This so-called wet hair, they obviously understood wrong, and thought that this ancient level Big Master, this is the kind of interest.

I can understand it. After all, people have been riddled with hundreds of millions of years in the chilly land where they have dried up. Now it's hard to find a nest of hybrid descendants. It is estimated that among the sinisters who visited the gang. I also saw a lot of women with good looks. Now, with this interest, it is inevitable.

It's just that the patriarch Yindi is still retreating at the deepest point in the bottom of the pool. This ancestor is playing in the shallow layer of the pool and the beautiful women in the tribe. The patriarch can look at the glimpse as soon as he looks up. Not right!

However, at this time, the Yin three people have been poisoned for a long time. At this time, they have not been able to take care of this. Anyway, the patriarch of the patriarch is in a closed life, and he will not pay attention to everything from the outside world, and he will not pay attention to it. It's really a bit horrible to do this kind of thing with a beautiful woman in the top of his head, but the patriarch will not know it anyway, and the right has not happened.

The key is that this kind of thing can't be refused. Once the general male repair comes, it is all in a hurry. I can't immediately launch a gun, let alone the ancestors of this ancestor?

I really want to smash his mind on this matter. I am afraid that it is the inheritance of the ghost claws that I want to get to the hand.

I thought about it, the Yin seven people immediately called a group of beautiful women, all of them like flowers, they heard that they were ancestors who were fond of themselves, excited, and they smashed the light. Xuan body came together.

The latter was scared to scream: "Return, go back, this ancestor used to come by himself, just come by himself..."

He was referring to the bath, but everyone around it understood it and suddenly became shocked.

do it yourself?

For a long time, the ancestors were actually a mutual brilliance!

It's no wonder that the chilly land that has dried up in that place has been banned for hundreds of millions of years. It is really only possible to come by yourself. It is estimated that it has basically become a habit!

Thinking like this, the Yin seven and three people suddenly sighed and sighed again, with a group of beautiful women who mourned the sky, went down to the clouds and rain, and always had to appease the resentment of the beautiful women in the family.

For all of this, Ye Xuan is too lazy to pay attention to it. When all the people are retreating, he must now hurry and brand the personal interstellar coordinates of the second cosmic plane.

Everything is exactly the same as the previous two. When Ye Xuan gave instructions to the system and began to brand the personal interstellar coordinates of the second universe, the system's prompt tone soon sounded in his mind, guiding Ye Xuan to expand the coordinates step by step. The imprinting step.

First, we will refine the Yuanshen, which has been treated by various means, into a special brand. Then, this brand of gods will be shot out of the body in a very mysterious and complicated way, so that it is in the same place as the Yinchi. This piece of emptiness, connection, until the final thorough integration!

Although it is the third time, the pain of the hard-seated separation of his own gods from the small ones still makes Ye Xuan unable to adapt, which is difficult to describe in words.

After some efforts, after separating this 缕元神, Ye Xuan could not immediately restore interest rate and restore his mind. He must bear the various discomforts that the gods suffered, and strengthen the spirit, again and again. Using different means and methods to constantly condense the \*\*\*\* of the Yuan, this process has consumed the meal, which is the result of his third light journey.

The last step is to integrate this successful condensed gods into the virtual process. Ye Xuan concentrates on the whole process, from the emptiness of the emptiness to the integration of the gods and the final integration. At the end of the day, I didn't dare to relax. Even the whole person had a bit of a sigh.

After a total of half a day of tossing, his personal starry coordinates in the second universe finally integrated into the void of the Yinchi. After a flash, it was completely stable and disappeared. Can't catch it.

The whole process was not disturbed. Although there was a patriarch of the Yin Mozu in the depths of the pool, the old gods were closed and dead. All the thoughts were sealed in the body, and they walked in front of him. After the squatting put a fart on his face, there would be no reaction.

What surprised Ye Xuan was that after the personal interstellar coordinates of this second universe were imprinted, his familiar mind was sounded in his mind, and it was still two, one related to the breakthrough.

“Hey, congratulations to the host, successfully branding personal interstellar coordinates!”

"Hey, congratulations to the host, the breakthrough of the flesh and blood! The current realm: the third dimension of the cave!"

Actually broke through?

Ye Xuan stunned, and then he was pleasantly surprised, and soon he realized it.

After all, now he is soaked in this pool of yin pool, bathed in a lot of congenital chilly liquid, and his current state is the phantom body that activates the phantom claws.

For the Nether Body, this congenital chilling liquid is the best quenching material. When the personal interstellar coordinates of the second universe were branded, Ye Xuan's Nether body unconsciously unfolds. The cultivation, so the cultivation of the body and blood level can break through a small stage, and naturally it will become a watershed.

This is also an unexpected joy, so that Ye Xuan feels comfortable, this time the Yinchao trip really did not come, not only took back the cyan jade ruler that recorded the complete drug king heritage, but also got a lot of The yin and cold properties are heavenly treasures and rare minerals.

Even more than 10,000 cubic meters of congenital chilly liquid, even even repaired into a realm, are branding the personal interstellar coordinates of the second universe, by the way, a small breakthrough.

However, at this point, the benefits of this yin nest are also almost the same. The core of the ancestral homes have been bathed by themselves. Can there be any good things hidden and not taken out?

I thought about it, just as Ye Xuan was ready to get up and thought that there was no more benefit in this yin nest. In his mind, at this time, a familiar system prompt was heard again: "Hey, congratulations to the host, I found that there is no one to die! Is it charged immediately?"

Do not die?

Ye Xuan stunned and suddenly frowned.

It seems that before the fox smashed the goods in Shennong Ding, the undead pearls, it really got out of the Yin Mozu, and in addition to that one, this yin demon ancestral core in the yin pool, actually There is one more.

This thing is also a strange treasure, although it is not a good thing, but it can not stay in the enemy's head, the threat is too great.

Ye Xuan does not hesitate to charge immediately!

Soon, a familiar gray puff appeared in his hands, Ye Xuan did not dare to touch, wrapped directly with a group of gods, thrown into the body of the immortal world of Shennong Ding, suppressed it...

Chapter 3406: Swinging the sea of turtles

After the second undead bead was collected by Ye Xuan, it was directly thrown into the Shennong Ding of the immortal world, and was suppressed at the bottom of the volcano in the central area of the Ding Nei space, the same as the first undead.

This kind of thing is too evil, Ye Xuan does not dare to touch, even if it is used in a small box of space to stay in the body of the immortal world, not too daring!

After doing all this, the whole Yin Mozu really is no good to be fished.

The various yin-cold properties in the yin nest, the Tiandi Dibao and the rare minerals of the same nature, have been sown by the Yin 7 and Yin 8 and the Yin 9 trio for 77.8.

This is the treasure and resources in the hands of three people.

Even the forbidden yin pool was handed over to Yin Xuan with nearly one-sixth of the congenital chilly liquid.

Although there are still a lot of congenital chilly liquid left, but Ye Xuan has already branded his personal interstellar coordinates. When he wants to be in the pot, he can come over at any time, so he will not remember this nephew.

This is simply a transit of locusts, even before.

It is true that both the Yin and the Yin and the other Yin and the tribes are willing to do so. This kind of thing is estimated to be nothing but Ye Xuan.

In the eyes of these guys, the biggest treasure now is Ye Xuan himself. He is the legendary Netherland. As long as he is happy, he will pass down the blood of the Nether, so that the people who got the magical power will not only be more A powerful means of magical power, the blood in the body will return to the ancestors, and reinvent the body of the Nether, and must be repaired to skyrocket!

If this is not the case, the seven old Yin and the Yin, the Yin and the Nine, and so on, will not be so sweet, let Ye Xuan exploit it so much...

Seeing Ye Xuan's face came from the direction of the Yinchu, and it was just the ridiculousness of the group of women in the family. At this moment, the face of the three old tribes, such as Yinqi, was suddenly weird.

My heart can't help but sigh, the ancestors are different. After finishing the matter, the spirit is better than before. This is really a ghost.

Just squatting, Yin Qi suddenly found the New World in general, his eyes were rounded up in an instant, and he took a sigh of relief and stared at Ye Xuan and said: "The ancestors, your cultivation is the realm..."

"Oh, I just took a shower, and I was so refreshed, and I broke through the first step!"

Ye Xuan did not think much, just returned a word.

Hey?

Cool to directly repair as a breakthrough?

by!

This is the realm of God and horse?

Where did the old ancestors dry up in the chilly land, but also did not produce the sharpshooter? With a shot, the realm can break through?

Not convinced will not work!

These thoughts flashed through my mind, and the seven-seven-year-old sullenly filled with the face of admiration, the conscience of heaven and earth, this time is really not loaded, but from the heart.

A shot can break through the realm of the realm, but there is no one before, the ancestors can be called enchanting, it is estimated that it will never be less than the two geniuses of the Terran.

At least, I have never heard of the two who have this ability!

After all the benefits of this yin nest have been fully recovered, Ye Xuan's thoughts in his mind have changed. The things are searched, but the human resources are still here, and the yin yin sects, if Going out of the nest, as you go to the sea of the tortoise... It's exciting to think about it.

It's one thing to have more than one voter. The key is that this ticketer also treats him as an ancestor. The meaning can be different. Anyone who wants to find trouble must first have more than 10,000. The tribe can only die.

This is definitely a rhythm in the sea of the tortoise. After all, the Yin Mozu was originally a fierce group in the second universe.

The body of this group is the yin energy of a chilly attribute, which can be transformed into other ethnic groups, and can be freely converted between flesh and blood and energy.

As a result, it is particularly difficult to kill.

In addition, this ethnic group must report, so even in the second universe of the virtual universe where the martial arts are smashing, few people are willing to take the initiative to provoke the genie!

"Hey, your nest is too small, this ancestor will just turn around in a circle, it's really boring!"

Deliberately sighed, Ye Xuan then said: "Forget it, you are honestly waiting in the nest, this ancestor went out for a lap, before being banned in the chilly land, I don't know how many years, I have been idle. It's really impossible to get out of the bird."

"Right right, this is your ancestor, if you change to other people, it is estimated that you are already bored."

"You should go out and walk away, it's hard to come to the world, naturally it's better to go and see more!"

"But you are old, after all, it has not been restored. It is only the third-order hole in the tenth world. There are many bad people outside. According to Xiaojiuzi, it is still a few hundred and eighty small. Hybrids, go out with you to get insurance."

"Yes, that's right. If you are an ancestor, you have a little bit of a sentiment, and there is a person around you who listens..."

When I heard Ye Xuan to leave, Yin 7 and Yin 8 and Yin 9 were immediately panicked. This ancestor is a bit unreliable. I want to be out. If I go, I will not come back. Don't you want to cry?

In this way, they thought that even if they expressed their attitude, they decided to take some of the center of the clan to follow the ancestors, to protect their integrity, and to stare, don't let the big day of this slip.

Just two birds!

"With hundreds of people following? Hey, how can this ancestor have such a big audience?"

When Ye Xuan turned his eyes, he waved his hand and said: "No, you have a few kinds of hybrids, and your ancestors have taken the lead. You will not be able to help you all the way. You should be busy with yourself."

This is clearly the opposite of the words, the Yin seven are all old fritters, can you not see?

However, the three did not think much, because they had already become the predecessor before, and this old-fashioned temperament was a ruin of the ancient age, and most liked the ratio.

I obviously like to play, but I always say what my ancestor has always been low-key...

At the moment, it is clear that the ancestors are going out to patrol, and behind them are only a few hundred people of the Yin Mozu family. The ranking is really too shabby.

Thinking like this, the three could not help but repent of the intestines.

The brain is not fascinating. For a moment, I accidentally forgot the ancestors' clothes and morality. This cold impression left a bad impression. It is simply not worth the candle.

As soon as I heard this, the three people immediately piled up a smile, and quickly rushed to speak again, and rushed to remedy it.

"Oh, my ancestors are watching what you said, when you are out of the patrol, how can you not follow a bunch of small hybrids?"

"Playing is a yes, oh, the one hundred and eighty that I said just now refers to the beauty of the family. As for the guards, it must be at least eight thousand!"

"Yes, according to the meaning of Xiaojiuzi, the ancestral yin nest will stay two thousand and stay on the line. The other 10,000 are all dispatched together and go out with the ancestors!"

"It's just that the sea of the tortoise has been quite lively recently. When you are born, you should go out and shake the prestige..."

Chapter 3407: Turtle

"The sea of turtles? What is it? A group of old kings taking a bath? Is there anything fun? Don't go..."

I heard that this guy was still acquainted with each other and finally changed his mouth. In addition to leaving two thousand Yinmo ethnic groups to guard the old nest, the other 10,000 people, all with their own patrol, Ye Xuan was satisfied.

In particular, they took the initiative to mention the sea of the turtle, so that Ye Xuan is more satisfied.

But the face was not shown, and the big hand waved it to veto the matter.

Aside, Yin Qi and Yin Ba, Yin Jiu three shake their heads and smile, wiped a black line on the forehead, and then explained it...

"The ancestors did not know, the sea of the turtles is really not a place where a group of old kings bathed!"

"The sea of tortoises is the name of a star field, just like the star field where the ancestral nest of my family's ancestors is located. It is called the genie of the genie, and the sea of the turtle is called this name. It is because the family of the tortoise family is in the star field, and because the turtle was originally a thing in the water, the star field is called the sea of the turtle!"

"This turtle is not a group of Lao Wang Ba. They are also the top ten ethnic groups in the second universe. Of course, the so-called top ten ethnic groups, the family is not in the eye, they simply do not Dare to offend us, this is all caused by the ancestors of the ancestors. After all, our group of old and small hybrids, all of them can flow the blood of the ancient and secluded family."

"The family of the tortoises, the body also has a \*\*\*\* path of the ancient and strong, this kind of strong existence, called the virtual giant turtle..."

"Oh, my ancestors, I know, it's the big king!"

Didn't wait for the three old guys to finish, Ye Xuan shot the thigh, his face immediately showed a touch of enlightenment color: "The virtual giant turtle, my ancestors, I know, that Wang Ba body thief big, and my Nether, The ancient Yaksha family is still normal in different body types. Once the whole body of the king is exposed, it is comparable to a cosmic plane, and the claws have such a large star field."

"It is the same age of the Golden Dragon and the same size, and it is not as good as it. It must be a small circle. I really want to say it. When the father and the Emperor also met with him, he climbed to him. The king's eight shells were rolled over and sprinkled with urine..."

"I didn't expect this kind of tortoise to be his descendants. I really want to say this. The tortoise family has seen this little honor, and it has to be called an ancestor. When the father and the king of the king were a camp, It is a pity that when the World War I broke out, the younger ones did not participate. They were too young to be left in the ancestral homeland. Later, they heard the news that they were defeated by the father and the other, and they did not know the details. I only know that the Tiandao Qingyan of the other camp was cut open by the father and the emperor, and the others did not know."

"Afterwards, this little privilege was sealed. When I woke up again, it was already hundreds of millions of years old. I don't know if my father is still alive. Is the vain king still alive? Is there any inheritance?"

At the end of the day, Ye Xuan's eyes are red, this is deliberately installed, which is to pave the way for the words behind.

The Yinqi and other people on the side have already been shocked by the ancient secrets revealed in his speech.

They only learned about the scales and half claws from the genealogy of the Yinmo people. They knew that there were two huge camps in the ancient times, and there was a mysterious battle of the world. In that battle, the ancestors of the Yinmo people, the Nether Emperor I have used the blood of the gods to pass the ghost claws, and the commander of the hostile camp, the Tiandao Qingyan, who is suspected of being a wilderness, will be divided into two...

That's it!

Everything else related to this war, they are all fascinated, but did not know!

Now, listening to the ancestors' acquaintances, they only know that in the battle of the past, their \*\*\*\* ancestors, the Nether Emperor, were actually a camp with the ancestral emptiness giant tortoise. And the empty giant tortoise once manifested the body of the body, it is bigger than the existence of the golden dragon, and the claw is a star field...

What is even more shocking is that the ancestors in front of him had actually smashed the urine on the turtle's back of the empty giant tortoise. Hey, like the golden dragon and the empty giant tortoise, it is absolutely the most ancient and supreme. The strong, the ancestors in front of him can pee on their backs when they are still young. It can be seen that the Nether Emperor is also the existence of this level.

Sure enough, it is true that the enemy camp can be commanded with one claw, and the Tiandao Qingyan, who is suspected of being a wilderness, will be divided into two.

Think of it like this, Yin seven and other three people suddenly feel full of emotions, although the blood ancestor of the Nether Emperor did not know whether it has fallen, but at least less respect, that is, the ancestors of the eyes survived, and have a complete genius claw blood, once Inheriting, the future of the Yin Mozu is simply limitless!

At least, compared with the \*\*\*\* descendants of the virtual giant tortoises of the same year, they are really lucky too much...

Thinking of this, the Yin seven people could not help but give birth to a little rabbit feeling of sorrow, shaking their heads and sighing, and then introduced Ye Xuan to the family of turtles.

"Speaking of it, the family of the tortoises is really pitiful. I didn't know that their blood ancestors and the Nether Emperor of my family were in the same camp. I didn't feel anything. Now I really feel that I can't bear it."

"Yes, this family of tortoises has nothing to do with the so-called meditation. They are all flesh-and-blood creatures like fakes. The reason why they are called the tortoises is because they are called dead, so they are called For the turtle."

"The blood heritage of this family of tortoises is said to be a kind of ridiculous ancient practice. It was originally etched on a piece of ancient tortoise, which is the treasure of the family, but I don't know when the ancient tortoise shell collapsed. From then on, the tortoise One family has lost its blood heritage, and the ethnic group has lost its spiritual support. The turtles have a long life, and all of them have become living fossils, just like living dead turtles, so they are called to be a tortoise family..."

"If the life of this family is not long, there are actually a few horrible old monsters. I am afraid that they will not be ranked in the top ten of the second universe. They have long been annihilated."

"Oh, poor!"

Regarding these words, Ye Xuan was the first to hear, so the shock of his heart was quite strong.

I haven't seen this family of tortoises. From the narrative of the Yin and the Seven, he has felt a smoldering scent of breath. When he thinks that these tortoises are all descendants of the blood turtles, even Hybrids of impure origin, but somewhat related, but now they fall into such a field.

Suddenly, he called his heart very unsatisfactory. After all, he had already despised the evil spirits as a fundamental exercise. It must be said that these turtles are also homologous.

I thought about it, Ye Xuan's sigh of anger, even when he angered: "Is this reason, my descendants of the old king eight uncles are so unbearable? Hey, this sea turtle of the tortoise is fixed, must Help them, find the hole and the old..."

Chapter 3408: Not near

Since then, everything has been done!

Even the purpose of going to the sea of the tortoises was settled in advance in Ye Xuan's temptation, and everything was logical, and it did not cause the suspicion of the three men.

In fact, for the family of the Turtles, the Yin and the Seven are also very willing.

Although the Turtles are not the leader of the top ten of the second universe, but they really want to talk about the comprehensive strength, it is not the boss.

Only the beliefs of the tribe have been lost. All the tortoises have lost their sanctuary in the tribe, that is, after the ancient tortoise shell, they have all been lost, and they have already had no competition with the world, so they are ranked in the middle and lower reaches of the top ten. .

But in fact, because all the tribes have a long life, they can live for millions of years. Therefore, although there are not many turtles in the family, they are thousands of heads, but they are all masters.

Some of the living fossil-class tortoises have not been born for hundreds of millions of years, just like the real turtles, but in fact they are still alive. It is said that they have far exceeded before the billion years ago. The cultivation of the fifteenth world has become a strength, and now it has reached a level that cannot be imagined.

For this reason, although the Turtles have a total of more than a thousand people, and all of them have no contention with the world, but hundreds of millions of years have been ranked in the top ten of the Second Universe Federation, and the thunder does not move.

Can make a good relationship with such a strong ethnic group, that is everyone who wants.

However, if in the past, the Yinmo family did not dare to think, the first is that there is no such thing, the second is simply impossible.

But now it is different, the ancestors of the ancestors were in the same year, but in the blood turtle ancestors of the genus of the tortoise, the turkey of the emptiness of the king of the eight kings has been over the existence of the urine, there is this source, they have The qualification of the turtle family is good and possible!

For the family of the tortoise, the face of the Yin Mozu, the Yin Emperor, may not be the same thing at all, but they can't help but give up the face of the ancestors, otherwise they will rebel against the blood ancestors. The Void King is in the eye!

Therefore, for this trip to the Sea of the Turtles, Yin Qi and Yin Ba, Yin Jiu three were originally holding the idea of accompanying the ancestors to go out and distract themselves, but now they are different, if this trip can really help The Turtles found the ancient tortoise of the lost family, even if it was just a piece of debris.

At that time, plus the relationship between the ancestors and the family, maybe this time the Yinmo people can really form an alliance with the tortoise family.

If you really want to succeed, from then on, the Yinmo people will no longer have to be ridiculed in the back of the Wanluo Federation and the Tianzu people. They will wait until they have a solid ally, saying yes. Backing up is not an exaggeration.

In the future, whoever dares to provoke the Yin Mozu, the Turtles first do not agree, think about the cool bubbling. The gangsters, all of them are very stubborn guys. If they identify themselves as allies, they will not easily renounce them. This kind of blind-hearted patron or shield is not wanted.

Thinking of this, Yinqi and Yin-8, Yin and Jiu three are happy to close their mouths. Even with this trip to the Sea of the Turtles, they are even more active than Ye Xuan, and they are urging the road that day. .

The latter is in the middle of the mind, and it is half-pushing and agreeing...

Immediately, in addition to leaving the two thousand people to stay in the old nest, the other 10,000-year-old people were led by the old people in the ninth, yin and ninth ninth worlds. And it's out.

Because of the consideration of the ancestors who like to dress up in the bones, like the nature of the arranging, plus the ancestors of the Yinmo family, the ancestor of the ancestors is born, this matter needs to be well publicized. Therefore, in the row of the trip, Yin Yasan People are also painstaking and make some arrangements!

Although the ancestors of the ancestors are the strongest in the tenth dimension of the heavens and the earth, the status of the people is there, and the honor is extremely high. This time, it is naturally not too casual.

Therefore, the Yin and the seven trio took out a ruined and treasured car in the treasure house of the clan. The ancient and incomparable, the bronze was cast, revealing a strong sense of ancientity.

When it is closed, it is only the size of the palm. Once the sacrifice is activated, there are hundreds of feet, bronze ruts, and nine green dragons in the form of energy. The arrangement is simply stunned. I don't know if the real wildest is coming to the dust.

This treasure does not have any attacking ability, but its speed and defensive ability are extraordinary, but it still can't enter Ye Xuan's eyes. The reason why it can get the value identification of the ancient treasure is because of its luxury and inexhaustible luxury.

In a word, this Kowloon Green Car is definitely a tool, practical, but almost completely ignore it.

The patriarch of the Yin Mozu, who had been in this dynasty for many years, never dared to sit on it once, because he was afraid of being killed, and he was so arrogant, he could imagine his luxury and hate. The degree of itching of the roots.

However, this treasure is just suitable for the temperament of the ancestors.

Therefore, the Yin seven people thought of it, and after they took it out, they offered it the first time. Although Ye Xuan didn't like it, but think about the current identity, it is also a perfect match. So on the spot, refining, this treasure, in the future His!

The Kowloon Green Car is so amazing that the nine energy-shaped Qinglong pull carts, the size of the car body is like a moving palace, and naturally it can't be too bad for prostitutes.

Yin seven people arranged five hundred brilliant Yinmo women to wait in the Qingyi car, all kinds of spirits and spirits that are countless, many things Ye Xuan had not eaten before, it is simply luxury.

After the Kowloon Qinglan car, it was the army of more than 10,000 yin demon people. The array was neat, the prestige was arrogant, and the leader was the three old people. This kind of arranging is the patriarch of the Yinmo clan. Everyone who saw the second universe and all the strong people was stupid, and there was a feeling of living in the middle of the day.

As this huge luxury team gradually traveled, the news spread quickly, and the entire second universe was blown up. All the forces and powerful people were secretly guessing. This is a look of envy and hate. In the Jiulong Qingqi car where the roots are itching, which one is there?

In particular, the flag on the side of the Qingyi car that wrote a huge calligraphy was called a fantasy.

However, no matter how the major forces have racked their brains, they can't think of the history of this sinister family. There is a supreme being, and there is a happy word in the name.

Even in the second universe, the entire three major cosmic planes, among the supreme powers of all time, can not find the existence of a happy word in the name!

For a time, the Jiulong Qingyi car of the Yinmozu and the name of the character sitting in the town of Suizhong had a superb existence, and the blink of an eye became a character that provoked the situation. The three universes were innumerable and powerful. The eyes of the people have come together.

However, this team did not pay any attention to it. It swayed the city all the way, with a supreme power that was not close to people. Soon after, it came to the edge of the sea of the tortoise...

Chapter 3409: Little white face rolled over

The second universe, the edge of the sea star field of the tortoise!

Since the news that the ancient sorcerer wants to be born here, the starfish field of the tortoise has become the focus of the three cosmic planes.

After all, this is a treasure trove of treasures. The four great generations of Tianjiao, which were born only a few years ago, were almost all famous in the world.

If you want to be born, there is no power to despise!

All sent a fleet and a large number of strong people to compete.

Ye Xuan led the army of the Yin Mozu almost to the nest, and when he came to the edge of the sea of the tortoise, he looked around and the area was already awkward.

The fleets of all major forces are all eye-opening, spreading out to cover a large number of stars!

Here is the second universe, so in the fleet of the surrounding air, the second universe has occupied a large head.

In addition to the strong ethnic groups such as the Yin Dai, the Barbarian, the Greedy, the Choi, and the Golden Eagle that appeared in the Heavenly War Empire, there are more Ye Xuan who can't name the group!

Only the owner of this sea of turtles, the tortoise family, did not show up!

In addition, it is the human race from the third universe.

In the area of the Terran Science and Technology camp, there are many forces coming. In the field of gene culture fluids, there are Bodhi Technology, Tianzun Bio, Shennong Gene, and the three empires of Xuanyuan, Huangfu, Nangong, Tuo, ram, Long fish family, Duanmu, Wuma, Shentujia, and Huyan family, Baili family, Pengcheng medicine, life genes and other idle powerful forces.

The power in other fields is even more numerous.

As for the comprehension camp, the ten sacred palaces, the mysterious Buddhism and other large and small sects have teams coming. In these teams, Ye Xuan has seen many acquaintances: the palace has no heart, no dust, hatred, and jade fairy, etc. Wait!

In the distance, there are two shadows in the vague, the two guys, Yinxia Fairy and Xiaoyaozi.

They ate in the battle of the former Tianshi Empire, and their face was greatly damaged. Even now, they were slightly understated.

In addition, the Federal Aviation Headquarters of Wanluo also has two fleets, one of which is the Senlan Fleet of the Federal Supervisory Academy. Its commander-in-chief is still the old enemy of Ye Xuan. In addition, the great emperor Long Xiang actually Also in the fleet.

In addition, in the days of the war empire was smashed by Ye Xuan, the empire Prince Taizi battle Ling Feng, and the Tianchen country's prince Xu must pour, actually appeared.

As for the characters of the older generation, the three empires have the arrival of the ancestors of the Qiankun, and the empire of the Heavenly War is the old acquaintance of Ye Xuan, the old ghost of the war, and his old friend.

The two guys chased the second universe all the way, but they lost the trace of Ye Xuan. In the end, they were not reconciled. Just when they heard that they were born, they came to catch up with the excitement.

In addition, the royal family of the immortal dynasty, there is also the fifteenth big island of the old town, is actually the old acquaintance of Ye Xuan, the last city owner of the death star domain of the old city, dragon 梓 pattern!

Seeing so many old acquaintances, Ye Xuan thought that there would be a rush in the Triumph City, but eventually searched for a lap, but did not see it at all.

I don't know if the mosquitoes and old ghosts are keeping their words in mind, saying that the Arc de Triomphe is now dominated by development, with a lot of money and no other things.

Or the old guy calculated that he had already blended in with the amount of the scorpion, so there is no need to lead a team to join in the fun.

But in a word, the team of the Arc de Triomphe did not come, Ye Xuan was relieved, do not look at many acquaintances around, but in addition to Xuanyuan Ziyan and Duanmu Xiaocha, Zhao Qianru, the fleet of the three Shantou families, all other forces With the fleet, Ye Xuan can be a casual disaster, without the slightest psychological pressure!

These are the forces and fleets that appear on the bright side, and they have already spread a lot of empty space. In the dark, there are many other forces and ethnic groups crouching.

For example, the celestial family from the First Universe and the fleet of the servants of their servants.

There are also other ethnic groups in the Second Universe that have not joined the Federation of the Vatican. These groups have not yet joined the Federation of the Vatican, so in this occasion, even if they come, they are quietly crouching in the dark.

The only exception is the Yinmo!

This is definitely an alternative!

The Yin Mozu was originally relatively low-key, and it was a gloomy route. But this time it was like a gust of wind. It was totally different. At present, the 10,000 people of the Yin Mozu occupied a small piece of void, the front of the frame. The Baizhang bronze rut is extremely eye-catching. Looking around, there are a lot of forces around, but there is absolutely no force like this.

For this reason, the camp of the Yin Mozu has almost become the eye of all, and the eyes of the powerful powers are all on the side.

After all, the Yin and Devils have only a total of more than 10,000 people. This time, they almost came out of the nest. The three tribes, such as the Yin 7 and the old, still waited outside the Kowloon Qinglu car as a groom. This kind of treatment is the clan. Yin Emperor, absolutely can not think!

Around the four weeks, there have been a lot of strong people talking in private!

Ye Xuan's ears are also very pointed, and almost all of them have heard a real cut.

For example, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, the three gimmicks are saying: Hey, this flower rack car does not know which Lao Wang is sitting, watching people hate!

It's playing, it's just more than the big bastard, how can you feel uncomfortable!

On such a serious occasion, the car sings and sings Yan dance, there are quite a few voices of Yan Yan, clearly is looking for joy, Miss is angry, let this lady know who is sitting inside, non I have to smash his skin!

For example, the Senlan Blue Fleet of the Federal Government of Vanda, the federal deputy inspector of the fleet commander, Hong Du Lifeng, after plucking out of the flagship of the main body and patrolling around, thought of being the Kowloon Qingyi car. The voice of Xiao Xiao on this side was disturbed. After frowning and glanced at this side, his face suddenly sank. When he was cold, he said: "Hey, pretentious, something!"

As soon as I heard this, Ye Xuan was on fire!

When he saw the winds of Hongdu, he had already had some anger. He had been squatting all the time. He did not expect this guy to dare to provoke him. If he could smash the evil fire of his heart, maybe everyone would have to blow up!

I thought about it, Ye Xuan changed the tone, and the voice of the yin and yang screams came out from the Kowloon Qingyi car: "Hey, the little white face over there, come and see, this ancestor is more pleasing to you, wants to be good. Pity! Within the three interest... Roll over!"

Little white face?

Want to pity?

Within the three interest... Roll over?

Hearing this words, the powerful forces of the surrounding forces in the sky were suddenly stunned, that is, even the Yin 7 and Yin 8 and the Yin 9 were stupid, and the wind was messy.

As for the Hongdu Lifeng, the whole person stayed in the air for a moment and completely smashed.

What is the situation?

In the eyes of this old ghost, the deputy inspector of the Federal Headquarters of Laozi's hall has become a little white face, and has to roll over and pity?

Chapter 3410: The good old dragon of Longyang

"Hey, the little white face over there, come over and see, this ancestor sees you more pleasing, wants to pity! Within the three interest... Roll over!"

With the sound of the words of Ye Xuan and Yin Yang groaning, the surrounding void suddenly disappeared!

The old monster of the Yin Mozu's Saobao Jiulong Qingqi car was an old pervert. In this case, in fact, he fancy the Hongdu Lie, wanting to call him in the past, and pity on the spot?

This matter is too horrible, that is, the dragon scorpion pattern and the war squad, the ancestors of the eyebrows, and other ancestors of the Qiankun are all thundered, and staring at the distant Kowloon under the circumstance of the tens of thousands of evil demons The green car, the face is sluggish.

The virtual powers of the surrounding forces are all eccentric, and look at the Kowloon Green Cars for a while, and look at the Hongdu Lie in a moment. The faces are all sly.

Really want to say that the appearance of Hongdu Lifeng is indeed quite good, very eye-catching.

Although this person is a middle-aged strongman between the four and fifty-five, but it is not necessary, and there is a long flowing hair, quite handsome, not happy, but always gives a calm and mature The feeling of the atmosphere.

To say that it is a little white face, but it is really not too much, but no one has thought about it before, but now the old demon of the Yin Mozu is in public, and the more powerful people around the world are really more and more aware.

It's just that it's really good, it's slightly better than the seventy-three people, and it's the fifth order of the thirteenth. The Yin seven people are only the void of the twelfth world. Although they are all in the late stage of the void, the Hongdu style is indeed stronger than the three of them.

After all, among the five deputy inspectors of the Federal Headquarters Supervision Institute, Hongdu Liefeng has always ranked first, and it is really necessary to calculate it. He is the first confidant of the Supervisory Academy.

And this time, Hongdu Lifeng is the commander of the Senlan Blue Fleet of the two fleets of the Federal Headquarters. He is a high-ranking person. At this moment, he was said to be a little white face in public. He wants to be pity, he is angry immediately.

Roaring like a thunder: "The old monster of the Yin Mozu, don't pretend to be crazy and swear by the old man, otherwise it will definitely suppress you! Hugh to be wrong!"

It's no wonder that he is so fearless. The people of the Yinmo family have almost moved to the nest. Although there are quite a few people, they have already passed 10,000. But there are also two federal fleets behind him, and the other commander who has not handed in the other is open. At least the size of this Senlan fleet, which is in the hands of Hongdu Liefeng, is also considerable.

Five small fortresses of 50,000 meters in diameter and fifteen thousand meters of fortresses, with nearly 100,000 federal soldiers, are completely fearless of each other.

In particular, although the Yin Mozu is a trio of old people, the three are only in the twelfth period of the realm of the void, not as good as the Hongdu.

What the family really fears is the patriarch of the patriarch, but this person has been told that he has been closed for life. As long as he is not born, in the eyes of the real strong, the Yin Mozu will not have to be jealous!

Really want to provoke Mao, Hongdu Lifeng even have the confidence to suppress the Yinqi and other three people in one fell swoop.

Including the perverted old monster in the driving car in the Kowloon Green Car!

Although this person is mysterious, but stronger, it is not to be stronger than the patriarch of the Yin Mozu?

When I heard the warning words of Hongdu Liefeng, the Yin seven people suddenly fell, and the three of them also secretly complained. This ancestor is too enchanting. It is estimated that it is locked in the chilly land that has dried up. For a long time, I have to play with my own problems every day, and I have such a good dragon.

The guy who came to see the pleasing eye was actually a senior executive at the Federal Base of Wanlu. The individual was repaired in the middle and late period of the thirteenth world. The three of them were not opponents at all.

At the moment, facing the warnings of Hongdu Liefeng, the faces of the three of them were all red, but they didn't say anything. They didn't want to go out. The key was not to beat others, let alone to go to the ancestors.

If you really want to take a shot, you will take your own insults. Even the ancestors will be laughed at by the powerful forces around them.

Under this circumstance, the three people looked at each other and there was already an exchange in the dark. It was decided that if the ancestors no longer snorted, the matter would have been treated as

if it had not happened. The Hongdu Lie was also the top of the Federation of Wanluo. I will continue to entangle with it.

Although this is also a big fall face, it is better than really hands-on, completely beaten face strong!

It is a pity that although the three of them are well-planned, their ancestors did not intend to cooperate.

Just as the Yin three people were in the midst of sorrow, the sound of the haze in the Kowloon Qingyi car was already ringing again: "Three interest has passed, Xiaobai face, you dare to rebel against the old man, today you will cut the adult stick first. And then slowly play it..."

"call out!"

The voice did not fall, and the sound of a broken air suddenly sounded. It seemed that there was a faint dark green spurt from the Kowloon Qinglan car. The speed was so fast that it was a few great powers in several directions in the distance. Have not reacted.

Almost at the same instant, in the distance, Hongdue was in front of the sky, and suddenly there was no sign to show a skinny dark green ghost claw. It was not very big, only the size of the rice, and it was fleeting.

"what....."

The moment when the dark green ghost claws suddenly disappeared, the sound of the horrible sound of Hongdu Lifeng, his hands and legs, all broken together, with a \*\*\*\* rain off the body.

It was instantly cut into a human stick!

This scene was too strange, it happened too suddenly, and all the strong people around it were shocked.

A supreme being in the middle and late period of the thirteenth dynasty, Xuanguang, was so easily cut into a human stick?

"God, what is the old metamorphosis in the green car? What kind of magic is this horrible..."

"After a thousand miles away, the blink of an eye will cut a supreme strongman in the middle and late period of the dark light into a human stick, a horrible magical power!"

"Nether claws! The old man remembered, this is the legendary ghost claw!"

"How is it possible? This magical power is the \*\*\*\* power of the ancient and secluded family. Although the Yin Mozu is a \*\*\*\* vein of the Netherland, it is absolutely impossible to reproduce this horrible wilderness unless it is fully returned to the ancestors. It is said that the clan is The reason why the Yin Emperor closed his life and death hundreds of years ago is to return to the ancestors and explore the mystery of this magical power. Has he succeeded?"

"No, this is not the voice of the Yin Emperor, the style is even less, and the Emperor of the Yin Emperor once had two fights. There is no such good dragon. Who is this monster? Why can you show the blood of the Nether? Shentong? Was this family extinct as early as the late Paleo?"

As the exclamations of the surrounding voices began to sound, the sound of Ye Xuan's yin and yang in the Kowloon Green Car has once again come out: "Yin Qi, Yin Ba, Yin Nine, what are your three old hybrids still doing? Quickly bring the stick to the ancestors, this little white face is rare, you have to play well..."

Hearing this call, especially once again saw the horror of the Nether Claw, the ancestors actually used the repair of the tenth largest hole in the sky, and separated from the middle and late stage of a thirteenth There is a person who has been cut into a stick. Although there is a sneak attack, it is worse than two big realms.

Even a sneak attack is amazing enough.

Thinking like this, the Yin three people are ecstatic, even if they squat down...
