### Chapter 341: Evil shark strikes

Although the advanced strength is very good, but don't forget, humans can still use the body of martial arts, the speed of the speed of the advanced power, but the advanced agile use body martial arts to improve.

Therefore, in the current situation, it is still good at advanced agility.

Fang Caixuan killed the image of the swallowing beast and was seen by a few people. They all showed a strange look.

At this time, Yu Yi could not help but ask: "Ye brother, do you know what the holy beast?"

"That is called the swallowing beast, the body is useful to me. This swallowing beast is characterized by a strange circular pattern on the body. I don't know if the prince has seen it yet?" Ye Xuan asked.

"No, I used to catch it in the deep sea palace. As for the circular road, I didn't pay attention." Yu Yi shook his head.

Ye Xuan's heart shouted pity, but his luck was not bad, and he even encountered a swallowing beast.

He is imagining that there will be a dozen of eight engulfing beasts, and his strength will skyrocket, and he may be able to hang the master of the seven-eight dragons.

"What about the devouring beast, a strange name." Yu Yi said.

"No, devour the beast is just a general name. I have encountered a swallowing beast, but it is just a small snake in the ground." Ye Xuan added.

Yu Yi nodded: "It turns out that, then I will let other people pay more attention."

"Thanks to His Royal Highness Prince." Ye Xuan hurriedly thanked.

Then, Yuman also continued to visit her collection with the Song ruling.

However, at this time, suddenly a six-armed sea monster rushed in.

"His Royal Highness, Your Highness, it's not good, it's a big deal."

This six-armed Kraken is the Utopia leader who was only stunned by Ye Xuan. At this time, he rushed over and shouted.

"how?"

Yu Yi frowned and asked, he was the first time to see such an anxious Utopia, it seems that something happened.

Utopia led the twisted and hurriedly said, "Your Highness, I just received the news that the sharks were killed with a master."

"What, the shark family?" Yu Yi exclaimed. "Damn, the father went to the whales predecessor, what should I do?"

Utopia led: "His Royal Highness, this time the evil sharks only came to two generals."

"The two great four-powered generals? If so, then it is not fast to inform General Lei?" Yu Yi hurried.

"This....."

Utopia received a meal and replied: "You can't find General Lei."

"Damn, how could you not find this bone?" Yu Yi roared.

"Brother, what do you do now?" Yuman asked worriedly.

Yu Yi calmly replied: "I can only preside over the big dragon guards, blocking the two bad shark generals, it should not be a problem."

The big dragon guard is the life-saving straw of the Dragon Palace. If it is hosted by Yu Yi, the power of the four dragons, it is enough to resist the master of the Five Dragons.

If it is the Dragon King who makes the power of the Five Dragons, then you can resist the masters of the Six Dragons and even the Seven Dragons.

It is also because of this big dragon guard, so they have not been slaughtered by the evil sharks.

Later, Yu Yi took a group of people to the Dragon Palace. Before Ye Xuan arrived, the other side of the city gate, and this side of the city facing the opposite is the road to the shark shark, which is the middle section of the deep sea palace.

At this time, the sharks have not arrived yet.

"Ye brothers, I am really sorry, I have not set up a banquet to entertain you, even out of this matter..." Yu Yi stood on the wall, very helpless.

"The two big sharks are only four dragons. Why don't you go out and kill them?" Ye Xuan asked strangely.

"No way."

Yu Yi shook his head and took out a white ball. He said: "I have to preside over the big dragon guard here. If I play, then no one can preside over the dragon guard. At that time, the evil sharks will definitely attack. ""

"The big dragon guard, is this?"

Ye Xuan stood in front of the city wall and pointed to a strange energy cover in front of him. When he bombarded the city gate, he saw that there was such a formation, so he gave up the plan to jump into the city wall.

"Yes, this fake dragon ball is able to control the big dragon guards. As long as the king of the sharks or the one-eyed giant can't come, the sharks can't attack." Yu Yi nodded.

Ye Xuan said in a different place: "In this case, why is the evil shark family still attacking, is this not in vain?"

"Maybe, they came to inquire about the real Dragon Ball." Yu Yi slowly said.

"The real Dragon Ball?" Ye Xuan muttered.

"Yes, the real dragon ball is the base of this dragon guard. This dragon ball is formed by the ancestors of my Hailong family. The evil sharks don't think it is a day or two. If you let that evil After the king of the shark gets the dragon ball, I am afraid that it will be able to break through and increase the power of the two or three dragons." Yu Yidao.

"The power of two or three dragons?"

Hearing this, Ye Xuan is a glimpse of this, is this a bit too much?

"If this is the case, then why is your father and mother not refining themselves? In this case, there will be strength against the evil sharks." Ye Xuan wondered.

"But, this dragon ball only exists in the legend, even I don't know whether this dragon ball really exists." Yu Yi shook his head and said: "This is just a story told by my father when I was a child..."

"If not, then this dragon guards big array..." Ye Xuan frowned.

"Yes, this protects the dragon is a large array of proof, a few years ago, when we moved to the deep underground palace, it is to protect the dragon moved over a large array. So I guess, Fengyun Pearl should be in the hands of my father, However, my father is denied the existence of Fengyun Pearl ..... "

I also do not understand Yi said.

At this time, the other one is connected underwater passage came the bursts of loud noise, not for a while, there is a terrible monster just swept out of the channel.

Evil shark family!

Ye Xuan gazing looked and found this is the evil shark shark family, although no feet, and are moved by the same siren tail, but it is two thick arms, the back is also a sharp fins, and Its weapon is a trident.

A shark was drilled out of the passage, and there were hundreds of them. Then, two tall three-meter sharks came to the queue.

"His Royal Highness, I haven't seen you for a long time?" A white shark in a hyperthyroid opened his mouth and smiled.

"It turned out to be black and white."

Yu Yi's face sank.

Another black big shark suddenly took out a big pliers and threw it into his mouth. While chewing, he said, "It's still delicious for your sea dragon family. It tastes good."

It turned out that the big pliers was the arm of the Hailong family captain.
