Chapter 342: One enemy hundred

Yu Yi's face was gloomy and said: "What are your evil sharks coming to my Dragon Palace?"

"Haha, the prince of the prince is not nervous, we are just bored in the family, so come and talk to the prince of the prince." The white shark said with a smile.

"Since it is a chat, why have you brought so many troops?" Yu Yi eyes a glimpse.

"Oh, this is the habit of both of us. No matter where we go, we must carry one hundred subordinates. It is impossible. The prince is still afraid of this hundred little sharks with only two dragons?" White shark Answered casually.

One hundred dragons of the two dragons, this is really not worth mentioning for the sharks, but for the Hailong family, if the Naga demon of the entire Dragon Palace is gathered, it is only this number.

Yu Yi paused and opened the door and said, "What are you doing?"

"Well, since the prince of the prince asked this, then we will just say it. We are all ordered to come to the Dragon King to discuss some matters. I don't know, is the Dragon King at the Dragon Palace?" White Shark asked. .

"My father is retreating and practicing. If you have anything, let me tell you." Yu Yi will not tell him that the Dragon King is not in the Dragon Palace at this time.

"Retreat..."

The white shark had a big eye and smiled. "Well, if that is the case, then I will say it. The king of the shark shark said, as long as you donate the dragon ball and then want to be the vassal race of my evil shark family, we can How can you spare your life?"

"Don't give Dragon Ball a vassal of the sharks?" After listening to Yu Yi, he replied directly: "Dragon Ball is just a legend of my Hailong family. I don't know."

"So I let the dragon king come out." White shark.

"Sorry, my father is retreating, please come back." Yu Yi directly refused.

The white shark and the black shark glanced at each other, and the former immediately said: "Okay, my words have already been brought, and our two tasks have been completed. Then, it is the free time of our two. We come here. I don't want to go back empty-handed, little princess, do you want to go to my evil shark?"

"Think of beauty!" Yu Man directly snorted, although her strength is poor, but still not stupid.

"If you don't go, then." The white shark shrugged and stepped back.

Then, the black shark took out a big pliers and bit it off. Then I said, "I heard that your ancestors of the Hailong family were once a member of the northern seas. They have good fighting power and have no interest in coming. More than one?"

"No interest." Yu Yi answered subconsciously.

"Don't say that, I have some deep-sea cyanobacteria here. As long as you send one person and kill my one hundred sharks, then these deep-sea cyanobacteria are all yours, how?"

The black shark opened his mouth and smiled. He waved and took out a thing in the ring.

"Deep sea cyanobacteria, a lot of deep sea cyanobacteria!"

The Utopia leader next to Yu Yi's eyes widened. The deep sea cyanobacteria that the black shark took out had more than a dozen boxes, more than the deep sea cyanobacteria they had found for half a year.

Yu Yi is also watching.

"How, I am all the sharks of the two dragons. As long as your people can kill them all, then these deep sea cyanobacteria are yours." The black shark repeated again.

"His Royal Highness, this must be a bit tricky, how can they come up with such a good heart to take out the deep sea cyanobacteria?" Utopia on the edge of the hurried reminder.

"I know." Yu Yi nodded.

The shark sharks have always been so hot, how could they be so kind to send deep sea cyanobacteria?

A hundred dragons with two dragons, even if they are the commander of the three dragons, I am afraid it is difficult to kill them all, so at least the master of the four dragons is needed.

The master of the four dragons in the Hailong family, except for Yu Yi, only General Lei. However, at this time, General Lei did not know where to go, so only Yu Yi was alone.

"Brother, he must want to seduce you out." Yu Man reminded.

"Not bad." Yu Yi nodded: "And he seems to know that the father is not..."

At this moment, Ye Xuan suddenly went forward: "His Royal Highness, or else, let me go out?"

Yu Yi suddenly turned his head, and he suddenly remembered the power of the four dragons who were in the Dragon Palace at this time, not only him and General Lei, but also Ye Xuan.

"But this is a trap, and the black and white eyes may attack you." Yu Yi frowned.

Now he also knows that Ye Xuan only has the power of the Three Dragons, and has not yet reached the power of the Four Dragons.

"Nothing, I can handle it." Ye Xuan Zheng focused.

The Song Dynasty and the Song ruling on the side stood silently. They all believed in the strength of Ye Xuan. Since Ye Xuan dared to stand up, this means he is sure.

"Okay, then I open the city gate. If the situation is wrong, you will come in immediately." Yu Yidao.

This city wall is only the first line of defense of the Dragon Palace. The guardian dragon array only covers the city wall, and the city gate does not.

However, he holds a fake dragon ball and can control the big dragon.

Then, Yu Yi shouted at the army of the sharks in front of him: "Well, my Hailong family is willing to give one person and challenge you one hundred sharks."

"Well, the prince of the prince is really refreshing, you can rest assured that this time we will not do it." The black shark opened his mouth and smiled.

"Humph."

Yu Yi just snorted and ordered people to open the gate.

Ye Xuan walked out from the gate.

This time, he took a fancy to the sharks of the two hundred dragons, which is equivalent to two hundred holy animals.

If all is swallowed up by him, at least it can be promoted to the power of the four dragons. Coupled with those Qiang Kun ring, maybe it can directly enhance the power of the two dragons to reach the five dragons.

At that time, using the violent words of the Beastmaster, you can reach the power of the six dragons, even the seven dragons.

This is a great time.

"Well? Why haven't you seen this person?"

After seeing Ye Xuan in black and white, they also looked at each other. There are only a handful of Hailong people who can be transformed. They have also seen it.

And Ye Xuan, very strange, is it just a successful transformation?

But what they don't know is that Ye Xuan only has the blood of the sharp-edged fish, so the Hai people feel it, he is a bit like the same.

"Kid, you are also a royal member of Hailong?" asked the black shark frown.

"No, I am human."

Ye Xuan went out and shook his head.

"Humanity?"

The black and white eyes glanced at each other. They were the first to see humans in the deep sea palace.

However, this does not matter.

"Humans, yes, as long as you can kill all these hundred sharks, then these deep sea cyanobacteria are yours." Black Shark said.

"Oh, come on."

Ye Xuanyi opened his mouth and smiled. He took out the Eight-Dangerous Sword and he was ready to make a breakthrough!

The one hundred sharks took a look at Ye Xuan. After getting the consent of the black and white eyes, they rushed toward Ye Xuan.

What Ye Xuan will face next is the sharks of this hundred dragons.
