

## Super D. S 343

Chapter 343: Easy to win!

"Kid, die!"

A short-eyed shark soldier took the lead and rushed over, holding a trident and stabbing toward Ye Xuan.

"Eight wild winds kill!"

The eight-handed blade began to run at high speed. With his current realm, it is possible to control the eight-handed blade to attack enemies beyond the kilometer.

I saw a flash of cold light, this shark soldier landed, and then directly into the engulfing space by Ye Xuan.

The body of a sacred beast with two dragons is enough to stand up to the body of a sacred beast.

The same is true of the sacred beast.

There is actually a shark soldier with a full force of one hundred dragons. This makes Ye Xuan's eyes smothered directly to the encroachment.

"kill and kill!"

Ye Xuan has already killed his eyes. In just one second, the eight wild winds killed the life of five shark soldiers.

If you follow this speed, in less than half a minute, the group of sharks will be wiped out.

Two seconds!

Three seconds!

Four seconds!

Time passes by little, and the number of sharks is rapidly decreasing.

The people on both sides are watching, and the speed of killing monsters can not be done by the people present.

"Big brother, what should I do?" The black shark looks at the white shark.

"It doesn't matter, even if you die, you don't feel bad. After all, we only have to verify the news this time." The white shark opened his mouth and smiled.

"The Dragon King seems to be really not in the Dragon Palace. Otherwise, he will definitely kill and kill both of us." The black shark nodded.

The white shark continued to smile: "Although I don't know who it is, it must be a sea dragon family. It seems that some people want to join us in the fight, and this Hailong family will be wiped out."

"This Hailong family doesn't matter. Our goal is only Dragon Ball. Big Brother, how much do you think we can improve if we get Dragon Ball?" The Black Shark asked curiously.

"Shut up, don't think about it, Dragon Ball is my king. Even if we get Dragon Ball, do you think you can escape this deep sea palace?" The white shark whispered.

Black sharks close their mouths. They are a shark, but they don't have the ability to live on the shore, and if they want to dye the dragon ball, they will definitely be swallowed by the king of the shark.

During the talks, the sharks died almost the same. After a few seconds, a hundred sharks were all killed by Ye Xuan and then the body was removed.

"Hey, the host has broken through the power of the four dragons!"

When Ye Xuan swallowed more than 30 shark corpses and the sacred beast, he heard a system sound.

Now if he uses the Beastmaster violent, then he can be promoted to the power of the Five Dragons.

"The sharks are really good, and they have sent me welfare. If you come more, just fine."

Ye Xuan shook his head helplessly, and then continued to swallow.

Four points and one dragon, four points and two dragons, four three dragons, four four dragons...

As the bodies in the swallowing space continue to decrease, the power of Ye Xuan is also constantly improving.

It is a pity that these sharks are very poor, and they are much poorer than the shrimps and crabs, so they cannot be allowed to break through to the power of the Five Dragons.

At this time, if he uses the Beastmaster violent, he may be able to reach the strength of the six dragons.

"Hahaha, boy, your strength is very good, are you the human being on the mainland at the entrance to the deep sea palace?" The black shark laughed at that.

"From where, heavy or not."

Ye Xuan opened his mouth and smiled and said: "What about it?"

The black sharks are also nonsense, directly collecting those deep sea cyanobacteria, and then throwing the Qiankun ring to Ye Xuan, which is a kilometer away.

"readily."

Ye Xuan smiled and then received this sacred sacred sacred sacred sacred ring in the arms and said: "You two, don't you come to play?"

"Oh, your kid still wants to challenge us?" The black shark is a bit strange, but he shook his head: "But today, even after the return of the Dragon King, let's come again, leave!"

In his eyes, Ye Xuan is only the power of the three dragons, he can pinch to death with one hand.

But what he didn't know was that Ye Xuan had already broken through, and he also had the power of four dragons.

"Oh, can you go?"

Ye Xuan's eyes suddenly screamed and burst into the air.

If you kill these two black and white eyes, he may be able to break through the power of the five dragons.

So, these two black and white eyes, have to stay!

"Good boy, even dare to hit our idea, let me know that the black shark will come to you!" The black shark came out with a trident and greeted him.

I don't know why, after seeing Ye Xuan Chong, the white shark had an unpredictable hunch and subconsciously took out the trident.

"Big Brother, don't shoot, I will kill him!" Black Shark reminded.

The white shark slammed and stopped.

At a distance of one kilometer, the two are opposite each other and can meet in less than a second.

Ye Xuan mobilized a lot of infuriating condensed swords, and the three mini dragons vacated, and then the black shark was suddenly stunned.

How much force is used by the warriors who are in dire straits, and how many flying dragons will rise around them. If you exceed the power of the Ten Dragons, then the Flying Dragon will be on the 1st, so you can see it at a glance.

After seeing the three dragons, the black shark did not think much, and immediately poked the trident in his hand.

Hey!

The black shark uses the power of the four dragons to directly poke out three small holes in the eight sacred earthquakes. Immediately, the eight sacred earthquakes are quietly broken.

"boom!"

A wave of sound waves swept through, but the black shark is the master of the power of the four dragons. This eight-day-shattering sword does not have much effect on him.

"Pediatrics, see if I don't poke you, then unload you eight, I haven't eaten human flesh yet!"

The black shark swept to Ye Xuan in a loud scream.

"dead!"

The black shark has widened his eyes. His height is more than twice as tall as Ye Xuan. The trident in his hand is bigger than Ye Xuan.

However, just as the Trident was about to pounce into Ye Xuan's head, Ye Xuan's surroundings suddenly floated a dragon.

The fourth dragon!

The power of the four dragons!

"what?"

Black sharks and white sharks are amazed.

Ye Xuan actually has the power of four dragons, how is this possible?

"How about the strength of the four dragons, in front of my black shark, you have to die!" The black shark smashed the trident with all strength, and this shot can definitely kill Ye Xuan.

"Ha ha."

However, Ye Xuan just smiled lightly and escaped the thorns lightly. At the same time, the eight-year-old sword in his hand was also broken.

"The Eight Wild Winds Kill the Second Heavy!"

"Hey!" "Hey!" "Hey!" "Hey!"

A total of eight muffled sounds, all eight sharp edges pierced the body of the black shark. Although he has a hard armor, his head and other places are still exposed to the air.

In such a close range, the black shark was directly hit by Ye Xuan, already has two sharp edges, immersed in his head, and pierced his head.

dead!
