

Super D. S 345

Chapter 345: City of the shark

"Yes, I only need these, the more the bodies, the better." Ye Xuan nodded.

Aftershocks paused. He looked at Ye Xuan not like lying, and he was relieved in his heart, as long as it was not a dragon ball.

"My Hailong family is living by eating the bodies of these sacred beasts. Although I don't know what you are doing, these are just foods for us. As for the sacred beasts, we are very slow in refining, but they also hoard a lot... .."

Aftershock said, it was to move his eyes to Yu Yi.

"Father, I will go get it!" Yu Yi immediately agreed, nodded and left.

After he left, the aftershocks were against Ye Xuan: "Little brother, if you can kill the one-eyed python and bring back the snake, then you are the benefactor of my sea dragon family."

"Predecessors have said a lot, but the success rate of the kid is a great connection with the bodies of these sacred beasts." Ye Xuan reminded.

"Reassured, the number must not be less!" Yu Zhen solemnly said.

His instincts told him that he believed that Ye Xuan would be able to get what he wanted.

Soon, Yu Yi is back, and then handed a ring to Ye Xuan. Ye Xuan took over this Qiang Kun ring and checked it out.

Sure enough, the number is huge!

"Thousands of corpses with one dragon, and some beasts..."

Ye Xuan showed a smile.

"Ye brothers, is this enough?" Yu Yi asked.

"enough!"

Ye Xuan should be.

These things are enough for him to improve the power of one dragon. Now, he has a grasp of ninety-nine, killing the one-eyed giant.

"Predecessors, I will definitely complete the task." Ye Xuan solemnly said.

"Okay, then get rid of you." Yu Zhen said, took out a scroll made of some kind of deep sea creature's skin and handed it to Ye Xuan: "This is a map of the middle section of the deep sea palace, where the evil sharks are located." The place has been identified..."

Ye Xuan nodded slightly, and then he looked at the Song Dynasty and said: "Cut the menstruation, you will stay here with your eldest brother. I will go back."

"You are careful..." Song Cong said with a strange look.

She thought she had caught up with Ye Xuan, but she did not expect that the distance was opened again. She and the Song ruling have not yet broken through to the dilemma, and Ye Xuan, but it is already a one-eyed giant with the power to kill the Dragon.

"I will!"

After answering one sentence, Ye Xuan entered the passage of black and white.

"Yu Yi, you will stay here, I will give these deep sea cyanobacteria to the predecessors of the whales."

After the aftershocks were finished, they broke into the Dragon Palace.

The whale and dragon are not living in the Dragon Palace, but on the other side, so he has to leave from the other side of the wall.

.....

"Hey, the host has broken through the power of the six dragons!"

After hearing such a tone, Ye Xuan's confidence in his eyes was stronger.

Now, he and the king of the sharks are ranked, and there is only one dragon's power gap from that one-eyed giant.

"The shark sharks become my stepping stones!"

Ye Xuan angered a word and went straight into the middle section of the deep sea palace.

Here, there will be sharks, sharks, and two dragons and three dragons.

Ye Xuan is already ready to kill the Quartet.

He had just stepped into the middle of the deep sea dragon palace, and he met a holy beast of two dragons. This holy beast was killed by him and then swallowed.

"This evil shark family is also blocking the road to the next stage. If you want to go to the blood rock continent, you must remove the evil shark family."

Ye Xuan thought in his heart, that is, moving toward the shark shark at full speed.

With a map in hand, he estimated that it would take half an hour to find the palace of the sharks.

On the way to the evil sharks, he also encountered some shark soldiers. This evil shark is stronger than the Hailong family, and all of them are shark-like sea people.

The Hailong family, there are shrimps, crabs, Naga sea monsters and six-armed sea monsters, Yu Yi and so on are dragons.

The gap between the two can be seen at a glance.

Ye Xuan followed the map for more than 20 minutes, killing dozens of sharks who came out to wander, and finally saw a dark wall of black paint.

It seems that this is the site of the evil shark family.

He looked at the dark wall of this dark wall and muttered: "There is no such thing as a big array of dragon guards. Then, it is the easiest to get in directly!"

.....

However, at this time, in the depths of the black shark's black palace, there is a shark up to five meters, talking to a one-eyed giant with a body length of 100 meters.

"One-eyed predecessors, traitors appeared in the Hailong family, and after a while, Dragon Ball will be able to get it!" The king of the shark shark said respectfully.

"Hey!" The one-eyed giant squatted on the floor and spit out a snake letter that was bigger than the king of the shark.

"Yes, as long as the Dragon Ball is in hand, I will send it to you immediately." The king of the shark shark seems to understand the words of the one-eyed giant.

"Hey!"

The king of the shark shark paused and said: "What, the one-eyed predecessor, you said that you are about to succeed? Haha, if this is the case, if you refine the Dragon Ball, you will be able to break through the power of the Dragon!"

He is also skeptical that the one-eyed giant has been here for a long time, and even if the body of the sacred beast is sent, it needs to be placed in the mouth of a one-eyed giant.

At this moment, suddenly a shark shook over and reported: "My king, not good, someone has broken into the city of the shark!"

"Oh? Who is it? Is it the dragon king of the sea dragon family?" The king of the shark shark asked strangely.

"No, not him, a stranger, it seems to be human!" The shark shook his head.

"Human, then what are you doing, to catch him back, I have not eaten humans yet." The king of the shark shark opened the sharp mouth, revealing a strange look.

"Yes, but we can't stop him, all the masters will be killed by him, even the shark general with the power of five dragons..."

The evil shark did not say anything, because the shark general in his mouth was the number one general of the king of the shark.

"what?"

The king of the shark shark's eyes widened and he couldn't believe it. The number one shark in his hand was actually dead.

At the moment, he quickly swept out.

.....

This human being who has entered the city of the sharks is naturally Ye Xuan.

At this point, he is killing the sharks with impunity.

None of the people he was eyeing could survive, even the masters who have the power of the Five Dragons.

"Hey, what shark general is in good shape? If you kill the king of the shark, I will be able to make another breakthrough and reach the power of the seven dragons!"

Ye Xuan thought secretly and began to look for those who have identity.

There are many sharks in the city of the sharks, but apart from the corpses and the sacred beasts, there are not many things in the ring, I am afraid they have been exploited by superiors.

Therefore, Ye Xuan is looking for the power of the three dragons, or the master of the four dragons.
