

## Super D. S 3451

### Chapter 3451: Winking dog stuff

The corpse of the ancestors suddenly shot, and the five celestial arrogances were suppressed within the three interest zones. This scene shocked the whole audience. The star-studded powers from the top three forces in the three universes were all turbulent.

Qiankun Power was the first time to roar and rushed out.

There are a total of ten in the presence of Qiankun, and a total of five in the second universe.

The two old people of the Qingpeng and the \*\*\*\* people in the Star Fortress are from the old and the two of the Qiankun and the Yin and Qiang, and one is a single-handed horse. It does not represent any ethnic group. It is for the second universe. Powerful dispersal.

In addition, there are also four great powers from the third universe. They are the royal family of the immortal dynasty, the old warriors of the Tianzhao tribe, and the old friends who have invited their old friends, in addition, One is the protection of the Ten Heavenly Palaces from the Completion Camp!

In addition to these nine people, there is still a great power, the whole body is shrouded in a gray mist, I do not know which force from, suspected of the first cosmic celestial family under the servant group of a servant group!

At this time, with the murder of the corpse of Qiankun's great energy level, the ten great powers from the three major universe planes all smashed out, and each means, some even attacked the treasury has been sacrificed. , swarming and rushing together.

This is the siege of the corpse of the ancestors, all of them want to suppress it, and win the rhythm of the ancient treasures!

"How about the karst of the ancestors, in the era of the ancient times, you may still be a personal thing, but in the age of the world, you are just a ruined source of spiritual knowledge, even the memory is incomplete, and you can't afford much of the storm!"

"I will hand over the heavy weapon immediately, otherwise today is the time when you are completely degraded."

"Xiang Xiao Yu, even a smashing soul can not be preserved! The ancestral sorrows, advise you not to make mistakes!"

"Booming..."

"Hey!"

"call out....."

As the roar of the roaring roars, the vast universe of the universe has been disrupted, and the ten great powers, in the area where the pink light column rushed forward and the surrounding area, joined forces to fight the martial arts!

All kinds of energy are raging, and the voids are shattered. From time to time, the whistling out of the void, the radiance of various magic weapons and the splendid bloom of the magical powers, and the horror of a fleet of troops are constantly retreating, fearing and swearing.

The means of Qiankun's power can be too horrible. If the two powerful angeres are in full swing, they will completely disturb a large number of voids. Today, the eleven strong players in this situation are in a big battle, and the battle circle is constantly expanding. Within a radius of a million miles, it was already a rush of energy, and the scene inside was completely obscured and could no longer be seen.

At the same time, the horror and the tyrants who had not been able to prevent sudden damage before were also rushing away. The Qiankun people in the starry fortress behind him had already shot, and the fight for the smog had nothing to do with them. At this time, healing was important.

The magic dust girl, the scorpion demon and the Ye Xuan three are just the opposite. Although the figure is also repulsed at the same time, avoiding the area where the eleven Qiankun might fight, but the three have a heart and soul, and at the same time move, I chose the void on the right side of the Wanli Square in the central domain and continued to entangle!

For the three of them, this war is inevitable, and even if it is dying, it must be continued.

The pressure of the magic dust girl is still slightly smaller, because even if she loses in this system competition task, at most, it is to pay two pieces of system to exchange the treasures in the store, and to pay a large system debt.

Even so, for her, this kind of pressure is almost unbearable. After all, if the system competition task really fails, Ye Xuan and the will never be polite, even if they don't need it, they will definitely pick the exchange price. The highest treasure to start.

The loss is too heavy.

Therefore, compared with the magic dust girl, Ye Xuan and the demon scorpion are under more pressure. Among them, the current situation is not good, it belongs to Ye Xuan.

Previously, the corpse of the ancestors attacked Ye Xuan at the same time. Although the scorpion and the magic dust were all injured, they both sacrificed a ridiculous treasure in the war. Some of them are shared by the ancient treasures of their respective refining.

Ye Xuan is different. He is a talented supernatural power. When the dark green skull of the body is annihilated by the bloodline of the Jurassic, only Ye Xuan himself is suffering from the counterattack.

After that blow, his Nether body was hit hard, but although it can still be maintained, it has no attack ability.

For this, the demon and the magic dust women are vaguely aware, the former frowned, he has realized the hardships of the magic dust, and the consequences of the system task are so unfavorable to him, absolutely no loss, this kind of In the case, although he is also in a competitive relationship with Ye Xuan, he has the intention to work with Ye Xuan to solve the magic dust girl first.

After all, after the crisis of the magic dust woman was solved, even if he lost in the system competition task with Ye Xuan, at most, he lost a system to exchange treasures, and the pressure was completely different.

At the moment, Ye Xuan is in this state, and his plan is no longer realistic. Nowadays, the demon is considering such a situation, and what kind of countermeasures should be taken next.

As for the magic dust girl, she has no hesitation. Now that Ye Xuan is weak, it is naturally the best choice for her to destroy one, because once she wins a system competition task, she will immediately get a lot of benefits, and the injury will be immediately If you don't recover, you will also be able to gain more and more.

One thought of this, the magic dust girl smashed in the awning, and the figure was swaying even when she rushed over to Ye Xuan.

Almost at the same instant, the Devil's side finally made a decision. His choice is the same. First, the weak Ye Xuan will be solved.

This is equally beneficial to him.

He had previously seen a treasure in the system exchange store, which is very beneficial to his current dilemma. As long as he can kill, Ye Xuan, even if he is seriously injured, then the demon will immediately get the Ye Xuan system. Redeem a redemption treasure in the store, and the system in Ye Xuan is also an intermediate variation, and it is very likely that there is exactly the treasure he needs.

It is precisely because of this consideration that the

The two competitors attacked themselves at the same time. The original three-party chaos was a two-on-one, and Ye Xuan became a soft persimmon. It seems that everyone wants to pinch it.

This situation made him angry, and Ye Xuan's heart was bursting with a fierce temper. The scorpion was bloody, and it was just a hot name on the chest. This is a sign that the baby's corpse wants to be shot, making him ecstatic. Immediately roared: "You two blind dog things, want to use this ancestor as a soft persimmon? Come, as you wish..."

Chapter 3452: The breath of my Lord

Blinking dog stuff?

Ye Xuan's words came out in an instant, and they immediately attracted the star-studded powerhouses in the various forces in the surrounding air. They were originally watching the star-studded powers on the other side of the eleven Qiankun's mighty battlefields. Almost all of the sights moved over.

After all, the whole piece of void over there is obscured by the raging energy smog, and nothing can be seen. There seems to be something big happening here, and it must be wonderful.

Before, it was only a big chaos in the three parties. At the moment, the magic dust woman and the scorpion demon have attacked the Nethered Supreme at the same time. The three people have shown the same combat power in the previous war. Although the Netherland seems to be even more amazing, The cultivation of the realm is only the tenth level of the fifth world, and it can be tied with the devil of the twelfth world.

It is suitable for the talents. In the face of the lightning strikes of the ancestors, the sorrows and sorrows are the most severely affected. It seems that the power of continuous combat has been lost.

At the moment, there is a magic dust woman who is fighting again, and the demon \*\*\*\* has attacked him at the same time...

In this case, the situation and danger of the lesser and dignified can be imagined.

All of this, the star-studded powerhouses in the various forces in the vain air are all witnessed, and they know well, so that at the moment they heard Ye Xuan's arrogant roaring roar, they first sighed and then they sighed. I have determined that Ye Xuan is self-aware, and the crazy chaos that was shown before desperation!

"Oh, unfortunately, the Nethered Respect is definitely stronger than the Devils and the Devil. In this battle, the strength of his talents is comparable to that of the two, but only in the fifth stage of the hole, there is no waste in the hands. The hard-line strength of the whole team and their fight for a close match, but at this time they have to fall..."

"This is definitely the existence of the two great enchanting gods and the foxes and the lords of the genius. The growth potential goes beyond the magic dust and the sorcerer. Whether he really comes from the wild, he can't bury his talents. It was originally destined to be in the world, it shines!"

"Time is also, life is also! This battle, he has no heavy treasure in hand, and was hit hard by the ancestors, and it is suspected that he has lost the power to continue the war. This is the sorrow of the tiger and the sorrow, the magic dust and the scorpion are not dogs. But the Nether and the Little Tiger, but it is to be in the armpit!"

"When the world will leave an eternal mystery, with the fall of the Nether, the origin of his identity will become an eternal fan, just like the ultimate destination of the fox lord is the same as life and death!"

"Too enchanting person, the ultimate scorio! The sorrow is so rare, so the fox is less like this. Is this a strange circle? Is it really a cursed power? Can the invincible \*\*\*\* of war in the territory of the Terran cult camp be spared?"

.....

As these exclamations and sighs came out, the atmosphere around the void was a little bit depressed and suppressed. All the star-studded powers looked at Ye Xuan's dawn, and they all showed a trace of regret.

In the distance, the black lion's star fortress suddenly turned into full-speed charging, and the muzzle of the ship's dead light cannon has been opened. This is clearly the yin and the yin and the yin and the nine are not willing to fall. As a result, I was already crazy, and I wanted to use the power of the Star Fortress to interfere with the rhythm of the battle.

There is no doubt that they will immediately issue instructions for bombardment when the guns are fully charged.

Facing the fleet of several major forces in the vain air of the Black Lion, it has begun to dodge to the sides to avoid the shackles of the fishing pond.

But all of them are obviously not optimistic about this almost struggling remedy. The magic dust woman and the scorpion demon are the first-order existence of the twelfth emptiness, more human genius, extraordinary means, and still have a piece The ancients are treasured, and they are separated by thousands of miles.

In this case, the situation of the Black Lion is already known, even if it is a dead light cannon, it may not be able to cause any substantial difficulties and disturbances to them.

This battle, the lack of glory is a must-have, this is the consensus of all the watchers around!

However, at this time, it is a shocking change that no one can expect, but it suddenly happens without warning...

"You are high, you have a treasure, this ancestor has nothing, the repair is unrecovered, only the fifth day of the cave, the treasure is even more, only the blood of the Nether family..."

At this time, Ye Xuan's blood eyes were red, and the combination of the magic dust girl and the scorpion scorpion made him mad, and the whole person was a little crazy, and he was near the edge of the runaway.

At the same time, the hair danced wildly, the look was stunned, and the figure was suspended in the void. In the face of the magic dust woman and the scorpion, the full force of the screaming did not evade and completely ignored.

In the end, it is even more angry with the sky: "However, this ancestor also has the final card means to suppress the enemy!"

"Hey..."

With the sound of Ye Xuan's roaring voice, the corpse lamp tattoo on his chest was also silent after a sudden hot, leaving only a scream of smashing the sky, obviously From the chest corpse tattoo inside the chest, but because at this moment, Ye Xuan just looked up to the sky, screaming, and all the strong people around the void, all mistakenly believe that this breath of strange screams, It is from the mouth of Ye Xuan.

There is no screaming in the air, and Ye Xuan's face has already shown a dull color!

Say good baby body shot? Even if you don't manifest the ontology, at least it will show you the power of horror.

For this, Ye Xuan does not reject it. Although he has already said that he wants to sharpen his own body, he tries not to rely on the strength of the baby body and Lei Diyin to resolve the crisis.

But this time he is not the ability to cope, but there are many ways to prevent the identity from being exposed, so it is inconvenient to show it.

In this case, it is perfectly acceptable to occasionally let the headless baby corpse show a way to resolve the dilemma.

But the situation is clearly right, the corpse lamp tattoo on the chest is so hot, Ye Xuan thinks that the mysterious guy wants to put a super big move, so it will be domineering to unleashed such words, claiming to have the final card means , enough to suppress the enemy...

But the result was a big joke with him. The headless baby was just a strange scream, and it was completely silenced. The corpse tattoo on the chest no longer had any sensation of heat. This point, Ye Xuan has already explored clearly, so I can be sure.

This is clearly a pothole!

The last few words were so high-key, and the numerous star-studded powerhouses in the emptiness of the sky all looked blank and looked at them with shocking colors. Even the black lion in the distant sky has stopped charging...

If the last big move is not released, fear that there is no need to smash the demon and the magic dust female, Ye Xuan himself has to be ashamed to death, spurting blood on the spot!

When these thoughts flashed through my mind, Ye Xuan's face was green, and he was rushing toward him. He saw the magic dust girl and the scorpion demon who had reached the front, and their faces were full of vigilance and suspicion.

Just as Ye Xuan didn't know how to be rehabilitated, the eleven Qiankun in the distance could smash the battlefield, and the ancestral drought was suddenly raging!

"This is... the breath of my Lord?"

"Hey..."

Chapter 3453: Ai Qing Ping

"This is... the breath of my Lord?"

"Hey..."

The whistle of the corps of the ancestors screamed, and the star-studded powers from all the top forces in the emptiness of the dynasty all glimpsed, and there was no reaction, and the turbulent land of the air machine suddenly came out with a terrible whistle. The sound clearly reveals an indescribable excitement.

Then, a \*\*\*\* micro-mantle rushed up and was besieged by the ten great powers. The corpse of the corpse that had already fallen into a difficult situation suddenly broke out at this moment, and broke through even a small piece of void. The encirclement that was enveloped in the ban was turned into a mile, and it was blazed toward Ye Xuan.

The blink of an eye has already reached 100 meters in front of him, and it has come to an abrupt end, showing a fascinating figure, but on the beautiful face, the original fierce color has been scattered, replaced by a touch of excitement, even Even the eyes are a little red.

"My Lord!"

Under the gaze of all the strong men in the surrounding emptiness, the corpse of the ancestors who rushed out of the encirclement was directly kneeling down in the void, and the blood-bone rifle in the hand had disappeared, and the head turned to Ye Xuan to sue a lord. !

"thump!"

"thump!"

This scene was so weird that all the people were caught off guard. Some of them were shocked on the spot, their bodies were stagnant, and they almost fell into the air.

Among them, it includes the magic dust woman and the scorpion demon who are rushing to Ye Xuan. Their body shape is just a few thousand miles away, because the words that Ye Xuan suddenly burst out are somewhat suspicious. After all, It is a fascinating singer who can fight with them in the heavens and the world, and they can't be afraid of madness before they die.

The moment when the figure was stagnant, it was completely slowed down.

Even so, the magic dust woman and the scorpion demon still did not expect that the next thing that would be seen would be such a scene, so that they only felt a black spot, and almost fell on the spot.

My master?

What kind of joke?

What means did this kid make?

In a short period of time, it was so easy to fool a mighty power from the ancient times?

You know, just less than a minute ago, the corpse of the ancestors had also shot Ye Xuan, which made him suffer a lot and lost the power to continue the battle.

If this guy really came from the ancient existence, how could the corpse of the corpse not recognize it before, but now he suddenly recognized it after he suddenly snarled?

Moreover, even the Nether Emperor of the ancient times, fear that it is not the qualification to become the owner of the ancestral marsh?

Although the Emperor of the Nether is the ancientest, the ancestral marsh is the only ancient power after the ancient sacred, and as one of the four ancestors of the corpse, it is impossible to respect the Nether Emperor!

All of this has a strong and strange atmosphere, so that the magic dust woman and the scorpion devil have a bad feeling.

Therefore, after glanced at the murder of the corpse in the face, the two men stunned Ye Xuan in a complicated way, and then hesitated, even if he turned to escape!

Unfortunately, everything is late.

In the face of everything in front of him, Ye Xuan is a bit embarrassed, but he is obviously the first to react. Almost at the moment when the corpse of the corpse is screaming, he has already understood what the other party calls the lord. who is it.

It is clearly a headless baby corpse!

He didn't even be surprised. Even the supreme level of the Golden Dragon and the Uncleful Nightshade existed. In the past, there were more than one hundred people who had been sent to him under the headless infant corpse. What did the cadres and marshals who had not reached the age of the ancients counted? ?

However, this at least made him understand one thing, that is, the body of the karst of the corpse, which was also the same camp of the baby's corpse in the same year. It is said that it is his own person. In this case, the accident of accidentally hurting himself has been revealed.

Thinking like this, Ye Xuan's heart's grievances against the karst of the ancestors disappeared, but this is a great opportunity for the big-tailed wolf. He will never let go of it. Now he will put his hands behind his back and squat down. At first glance, he still clenched his fist and bowed his head. On one knee, he was squatting in the empty air of the 100-meter-long corpse, and nodded slightly. He said, "I, if you still have wisdom, you will recognize this ancestor. Love, flatten..."

"thump!"

"thump....."

When the words were exported, there were sounds of plops coming around, and some of the star-studded strongmen fell into the void like dumplings, while the magic dusty women who turned their heads and ran away were more itchy.

Anyone can see that Ye Xuan is in the ratio, can face this situation, who can have any solution, kneeling in front of him, but a powerful person.

"Well? You two squinting dog things, actually want to run?"

Without waiting for the magic dust and the scorpion to escape, Ye Xuan's sneer has already sounded. He raised his hand and screamed at the distance: "What are you doing? Leave them both, and tie them up. Don't hurt your life!"

What he wants is that the two men are soft-conceived, so that he can win the system competition task. If you really want to kill, it is estimated that the exchange system of the exchange system in the other system will be flooded.

In addition, as long as they can win the system competition task, the system in the other party will be branded with subordinate source code, and it must be used in the future. Therefore, Ye Xuan never thought about killing them, including the previous Xiaoyaozi and Yinxia Fairy. same.

"call out!"

Ye Xuan's words just fell, and the eyebrows of the ancestors' droughts and sorrows have already rushed out of a \*\*\*\* smelt, rising in the wind, turning into a pink scorpion with a slap in the face, a roll and a wrap, and instantly the magic dust and the girl The two men were banned and completely banned.

Qiankun was able to take the shot, and he also used the ridiculous treasures to smouldering. The result is no suspense.

In the blink of an eye, the smoky smog that was once again narrowed down came to Ye Xuan with the magic dust girl and the scorpion konjac. They were tightly wrapped around them, wrapped in a personal shape, and half an inch of skin was not revealed. .

Ye Xuan sneered: "Give you a time to admit defeat, otherwise, Bao Luoyi, you immediately burst into flesh and blood!"

In the two pink humanoid shackles, two sighs came out, and at least they could save their lives, so there is no need to choose.

Almost at the same time, the familiar system prompt sounds in Ye Xuan's mind...

"Hey, congratulations to the host, the system competes for the mission to complete! Get the host reward: pick a redemption item from the other's system exchange store!"

"Hey, congratulations to the host, the system competition task is completed! Get the system reward: unconditionally copy all the information of the other party's system database, and at the same time brand the system source code, establish the affiliation!"

.....

The same system sounds, repeated in the mind of Ye Xuan twice, so that his tight heartstrings finally loosened completely, everything settled, no change.

The two powerful competitors have finally lost all of them. From then on, there is no qualification to compete with Ye Xuan. The system parasitized in their bodies has been branded with subordinate

source code, although Ye Xuan does not know what it is. But there will be a day when it will be revealed in the future...

#### Chapter 3454: Target

And when the sound of the system sounded in his mind, the huge body of the \*\*\*\* smoke, the whole body was completely bound, and in the middle of the Jurassic was sealed into a humanoid-like magic dust woman and 陨The demon, the face is more gloomy and visible, and the black ones are almost able to drip out the water!

At this moment, their whole heart is bleeding, gnashing their teeth, and their faces are unwilling, but there is no way. The system prompts to sound, which means competition fails, they have no chance to turn over again. .

But even if they were unwilling, they didn't have the slightest temper. At the last juncture, Ye Xuan exhibited such a supernatural means. Even the sacred and sorrowful martyrs were surprised to be conquered by him. All this, they could not accept it...

"Ha ha ha..."

"You two, after all, are still defeated!"

Ye Xuan smiled and smiled to the extreme, but did not delay too much. At the first time, he gave instructions to the body's engulfment system. From the exchange shop of the demon and the magic dust, they selected each. A treasure of exchange.

All these eyes were completed, and the two selected treasures appeared directly in his body. Ye Xuan did not care about it and directly threw it into the immortal world.

At the same time, the subordinate source code of the system of the demon and the magic dust, and the data information copied from the system of the other party have also been fully completed.

At this point, this time the two system competition tasks launched simultaneously, Ye Xuan completely completed.

And the ancient treasures of the treasures have also arrived. For Ye Xuan, everything about the sea of turtles has been fully completed, and it is time to leave!

However, at this time, there was a sudden roar of roaring anger in the surrounding air, and the smog outside the mile was not swaying, and there were ten horrible figures, and roared at the same time. The blink of an eye is close...

"Juyan!"

"Seven stars step on the sky, ban the sky!"

"Wind and rain!"

"Pour the country silver bomb!"

These ten horrible figures are the ten great powers that have been besieging the ancestors' droughts and floods. At the same time, they are close to each other.

The magic of all kinds of magical powers came to the fore.

The fastest figure is actually the protection method from the third universe of the martial arts camp. This person is a woman, and the display of the national silver bullet is similar to the big \*\*\*\* of shrinking into the inch.

This is a kind of ethereal footwork that can be called a country, with the invisible strength of the infuriating, the changing situation is perfectly combined, and you can quietly grasp the rhythm of the battle without knowing it. Let the opponent's left and right support, weak and strong, and the control of the battle always hold on to the hand, killing and killing.

Unconsciously, Ye Xuan even has his own heartbeat that is closely related to the other's footwork, which makes him feel cold in the back.

It was also at this time that another Qiankun could wave a hand across the distant void. Screaming in the mouth: "Fantasy Trio!"

The so-called three stacks of killings are actually three different types of knives. The knives are like phantom ghosts. One style is stronger than one style, and the style is murderous.

As he waved away, a giant scorpion of energy smashed, and there were three layers of faint shadows on the blade.

However, this embarrassment has also broken the battle rhythm that the female guardian law of the ruthless palace of the ruthlessness of the country has unconsciously grasped, so that Ye Xuan's heartbeat is followed by the other's footwork. The back feeling suddenly disappeared.

The woman's law is cold, he knows that the other party is deliberate. Although the ten people joined forces, they are actually in secret relations. Everyone wants to get the smoke. Once someone has a clear advantage, others will naturally Undermined.

The women's protection law of the unfinished palace has responded. Among the nine great energies behind him, one person waved and sacrificed nine blood awns and turned them into nine hexagrams, which were firmly inserted in the void.

This nine-faced blood red konjac is a set of yin magic weapon, named the nine yin beast soul!

It is said that it is the soul of more than 10,000 starry beasts, and the black silk of thousands of smoldering stars in the depths of the lungs. It is made up of a total of nine faces. In an instant, you can form a trapped array and close a corner of the void!

At this moment, the thousand miles of the leaves of Ye Xuan and the ancestral karsts have been temporarily banned!

Today's Ye Xuan is clearly the target of the public. The ten Qiankun powers have only been targeted at the ancestral squadrons, but now he is surrounded by them, surrounded by a fleet of top three major forces in the universe. The star powers are even more eye-catching.

He has become the focus of the field, which makes Ye Xuan secretly complain, now it has reached the moment of evacuation, and suddenly this group of guys is so eye-catching, how to open?

Seeing the flickering in Ye Xuan, the two men of the battle and the brooding of the eyebrows exchanged their eyes subconsciously. The two men were open-minded and realized what was happening. They quietly slowed down the offensive and even took advantage of the attack and attack to occupy a position.

At this time, what they thought was no longer to leave the ancestral drought, but to secretly help Ye Xuan to leave, and then shoot again, swallow everything!

Although the karsts are extremely powerful, even if they join hands, they may not be able to kneel down. If Ye Xuan wants to leave, he must change his identity and quietly leave. In this case, the ancestral martyrs cannot follow him. It should be to enter the smog, and Ye Xuan is included in the body.

In this way, as long as they start fast enough, they can control Ye Xuan with lightning speed and sever the opportunity for him to sacrifice Bao Luo. Then, everything will be no suspense.

The two Qiankun are able to shoot at the same time, and they are still in the dark. As long as they are prepared, the opponents only have the fifth-order repair of the hole. To do this, there is no problem at all.

"Let them go, don't bother!"

Ye Xuan glanced at the nine-faced sorcerer's soul in the void, and said nothing: "You can withdraw from the siege of the ten old kings, and it is not difficult now." "

"The ancestors are also lacking. There are still two little white faces in the Kowloon Green Car. They are just used to nurse the body, but you have to find a quiet place first..."

During the conversation, he turned to the black lion in the distant sky and looked at it. He said, "Oh, it is there..."

"call out!"

As soon as the voice fell, the pink smoky smog had quietly shook, and the scorpion and the sorcerer and the sorcerer were thrown out, and then a singer and a roll, the sacred ancestor was also covered. Involved in the inside, the blink of an eye turned into a \*\*\*\* smelt, and began to horrify, without any suspense, rushed out of the imprisonment of the nine-faced beast.

Going in and out, it's just like no one!

In the void around the sky, among the top-level power fleets, a large burst of cool sounds were issued.

Chapter 3455: Gold husk

The ancestral ancestors were all over the river, and they were calmly gone under the siege and trapped seals of the ten-level powers of the same ranks. This is by no means a source of incomplete spirituality from the era of the ancient age. The depth can be explained.

Everything must be related to the smog of the ancients!

Although the source of this sacred sacred sorcerer's sorrow is forbidden to be sealed in this treasure, but also her spiritual source is also integrated with this treasure, perhaps the banned ancient sage The cultivation of the source of knowledge is more than one glimpse, but only now she is awakened.

The power of the treasures of the smog can be fully exerted in her hands. From a certain point of view, this is actually the same as that of Baoluo being the strongest person in the world, and thoroughly refining.

However, if it is in the hands of a strong person in the world, even if it is refining, if it is not enough, it will not be able to bring this treasure to such a degree.

The sacred ancestors of the genus Drama can show off the glory, can attack and defend, and can enter and exit the emptiness, and this may not be its strongest state, at least it needs to be able to play. come out.

If the cultivation is beyond the realm of the Qiankun, this treasure is refining and chemical, and the power can be stronger.

At this point, the star-studded powerhouses who witnessed everything at the moment are all enlightened at this moment, and have a deeper understanding of this mysterious and ancient weapon.

This is exactly the case. When a large block of chilling sounds in the air was heard, a fleet of top-level forces immediately opened up the kinetic energy, surrounded by the Black Lion Star Fortress.

There are a large number of strong stars, followed by the ten powerful people, each offering a magic weapon, using all means, wanting to ban this piece of empty space, do their best to stop the escape of the Black Lion.

It was also at this time that it turned into a \*\*\*\* sculpt of treasures, and finally the main channel of the Black Lion, which had been opened in advance, did not enter the hull.

Then, the main channel was closed, and the kinetic energy of the rumble was heard. In the Black Lion, the sound of the roaring roar of the Yin 7 was also vaguely said: "Charging! Fully energizing, once completed, immediately expand the space, leave here....."

Even he, he has realized that he must escape now, otherwise he will become the siege of all the fleets and the strong. The smog has already been taken, and the ancestors have been conquered by the ancestors. Other forces will not be reconciled. It is no good!

"Want to go? I am afraid that it is not possible today!"

"Yes, I will never let him go. Otherwise, who else can suppress in the future?"

"This guy was originally against the sky. It can be compared with the three great enchanting gods of the Terran, the invincible \*\*\*\* of war and the younger foxes. It is one of the four enchanting singers of the world. Now it has the treasures to smoke. Among them, the source of spiritual knowledge that has been awakened to the world is already the top of the world. It's just like a tiger. If you don't suppress it today, you must be in trouble."

"Especially my second universe, I am afraid that everyone will be in danger in the future. This guy is a big food that is not lost to the fox lord. Even the lion tyrants are roasted in public and become a braised lion head. What else? Is he afraid to do it?"

"Walk up, immediately encircle it, you must not let him escape. If the Black Lion wants to expand the space, even if the treasure is destroyed, I can only shoot, and then the guns will be fired. After a round of volleys, the Black Lion will be turned into a powder, not to mention the gloom of the ship..."

"Hey!"

"Hey..."

As the exclamation of the surrounding air rang, the space oscillator of a warship was fully loaded, with thousands of warships of different ranks. Thousands of different types of power space oscillators were aligned with the Black Lions that were enclosed.

When the void suddenly opened up, it rippled up and was completely trapped. Not to mention the expansion of the space, it was extremely difficult to sail, and the speed could not be lifted.

In this case, if you want to use the Black Lion to walk away, it is no longer possible.

However, whether it is Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, the three women, or the war and the brooding ancestors, there has never been any worry.

The former basically understands the bottom of Ye Xuan's bottom. The latter knows at least the identity of his fox, and the situation is the same in the Tianchen area under the third cosmic empire. But the fox is less. Still calm and leave.

Today's game, it is also difficult to stop him.

At this time, the war and the brooding ancestors secretly voiced...

"This kid is very scheming, and now he has entered the Black Lion. If there is no accident, most of them have changed their identities. I think there will be a change soon!"

"Yes, he must take advantage of this opportunity to take the shell out, you have to pay attention, don't let him run..."

Looking at each other, the two returned to the rear without moving, and the figure gradually disappeared and disappeared.

The ten great people of Qiankun were originally the eyes of the generations, but at this moment, this piece of emptiness is too chaotic, the energy and gas is disordered to the extreme, the figure is built, and in a short time, there is still no one to notice the war and the eyebrows. The mystery of the two is missing.

At the same time, the Black Lion is in the Star Fortress!

Ye Xuan's figure appeared, and then the pink scorpion that was originally wrapped around his body was released automatically. The corpse of the corpse did not show up. The pink scorpion was also waved under Ye Xuan and was directly incomed by him. To the body.

"Old ancestors, what should I do now?"

Seeing this scene, especially the horror of the corpse of the horror of the horror did not appear, Yin seven and Yin eight, Yin nine people slightly breathe a sigh of relief, even if they greeted up, face full of gloom, because the ship surrounded the void In the middle, thousands of warships and fortress space oscillators have been opened, and it is impossible for the Black Lion to expand space and leave.

"It's fine, a group of chickens and puppies. This ancestor will need healing now. After the restoration, the refining treasures will be smoked..."

Ye Xuan's heart sneered, but his face was never revealed. He didn't have any good feelings for this guy, especially Yin Qi. Ye Xuan now knows that he was the undead pearl that he put in Shennong Ding. He is not bad.

At the moment, after the face was faintly waved, Ye Xuan walked to a cabin: "The outside guys don't have to pay attention, the treasures are still in the hands of the ancestors, they will not be willing to ruin, top More threats."

"After the ancestors recovered their injuries and refining their desires, it was a breeze to join forces with the droughts and floods, but it was a breeze..."

Then, the cabin door behind it is closed, Ye Xuan waved the cloth to ban, and then directly issued instructions to the body's phagocytic system, immediately activate the cosmic coordinate jumping ability attached to the system title, jump target: second universe Face, Yin Mozu ancestral land... Yin nest!

In the next moment, an invisible sigh of breath emerged from Ye Xuan's body, and it flashed away. In front of Ye Xuan, there was a faint vortex of space. When he stepped into it, Ye Xuan's body shape was silent. The land has completely disappeared...

Chapter 3456: Don't understand

Time passed slowly, unconsciously, an hour has passed!

During this time, the pressure on the Black Lion was not too heavy. Thousands of warships, fortresses and fortresses in the surrounding air were always open to the space oscillator, and a large piece of void was trapped. The black lion of the emptiness of the central domain does not say that the space has jumped, and even the normal voyage cannot be carried out. When an hour comes down, it has not been moved halfway, and it has been in place.

In the meantime, the flagship of the fleet from the top three powers of the three universes came from time to time, threatening words from time to time, saying that they must use force. Every time, they scared the tens of thousands of Yinmo people in the Black Lion. .

After all, there is only one Black Lion, and there are thousands of warships and fortresses around, and even a small fortress or even a real star fortress. If you want a gun, it's a star. The thermal energy of the gun energy beam can directly vaporize the Black Lion.

However, these guys still haven't done it. On the other hand, they are not willing to be destroyed by the treasures. On the other hand, they should still have the hope of being able to catch Ye Xuan or force him to surrender.

In addition, the eight great powers, including the immortal dynasty royal family, the old dragon 梓梓, according to one party, in the past one hour, but there has been no movement.

They have already discovered the strange disappearance of the war-torn and the brooding ancestors, and realized that they must be tricky, but at the moment they have no time to take care of them. After all, they all watched the Nethered Supreme into the Black Lion. This piece of emptiness has been banned, and teleports, space jumps, and even transmission methods cannot be carried out. The gloom of the Nether must be still in the Black Lion.

As long as this point remains the same, there will be tricks and conspiracy between the war and the brooding ancestors, and they don't have to worry about it.

However, because of the ravages of the ancestors, so in the past hour, the eight great geniuses have not shot, even the words are very few, all of them linger in the void, thinking hard.

In fact, they are also anxious, and fears have been changed for a long time, but no one dares to act rashly. Once they are shot, they will be ambushed by the corpse of the corpse when they first entered the Black Lion. It is too embarrassing.

The other party, but at the same time can fight the top talents of the digital power, can not be taken lightly!

At the same time, the top of the Black Lion's Star Fortress is in the master control cabin!

The Yin 7 and Yin 8 and the Yin 9 tribes have been waiting in the lobby of the top-level master control cabin. The distance of more than a thousand meters away is the door of the independent cabin that Ye Xuan entered.

After the fight, the three old guys stepped in and looked at the door. Every minute and every second, they watched it open immediately. This was attacked by the enemy and threatened from time to time. The situation of being completely incapable of moving is really too heart-wrenching.

Unfortunately, they were in a hurry and useless. After entering the cabin, the ancestors never came out. After an hour passed, the patience of the three old guys was exhausted. At this moment, they could no longer sit still. When he got up, he walked toward the independent cabin where Ye Xuan retired.

Yin 7 and Yin 82 people looked at each other and did not say anything, staying in place waiting!

The door of the independent cabin was not closed from the inside. The prohibition set by Ye Xuan was only a simple way to isolate the exploration of the gods. Therefore, after the cabin door was opened, the Yinjiu quickly entered.

After a short period of time, in a few rooms inside, I finished a circle of Yin Jiu, and my face came out palely. When I entered, it was just two people. After just over a minute, I had straightened my eyes. The twilight is sluggish and it is almost like a walking dead.

Mouth is muttering to himself: "No, no, actually no more..."

The face of Yin 7 and Yin Ba immediately changed, and hurriedly greeted him. The former voice trembled and anxiously asked: "Old nine, are you swollen? What is it? Nothing? I am ...I don't know how to swollen?"

"The ancestors are gone! The ancestors he..."

Hearing the questioning words of Yin Qi, Yin Jiu's body shape trembled, and he stunned and stunned. He immediately returned to the soul, and then he screamed and screamed with anger: "The ancestor is fart! That guy is really a fake." Let's throw us down, run alone, don't talk about people in the cabin, there are no hairs, we are finished!"

"what?"

"Well, this is really over, the guys outside will eat the cockroaches!"

Yin 7 and Yin Ba look mad, and when they fall down on the ground, the whole person is stupid...

.....

The black lion starry sky fortress is surrounded by the void!

Since one hour, the Black Lion has never had any movements.

As time passed, the atmosphere enveloped by the emptiness of the sky became more and more different. The star-studded powers from the major fleets of the three major universes were more and more anxious. Some people They have already begun to sit still.

Finally, from the flagships of these fleets, several figures rushed out and rushed toward the eight-fifth world in the inner circle of the surrounding area.

Then they ordered their lives from the Qiankun people in their respective families...

"The old family, this is not the way to go, it has already passed an hour, even if the Nethered Respect wants to recover the injury first, then time is enough."

"Things are too strange. I am afraid that there is something tricky. Although the whole piece of the void has been banned, the transmission of the sequel can't be carried out. The glory of the glory is still in the Black Lion, but..."

"But it is more and more uncomfortable to drag on. If it is a change, it will be even worse. Is it necessary to take any measures?"

"Or, I will send some strong people close to the Black Lion, try it out, if there is no problem, then invade it..."

The eight dragons and the Qingpeng, the \*\*\*\* and other ethnic groups, the eight great people wrinkled their brows, turned their eyes to look at each other, exchanged their eyes, and finally nodded.

This is really not the case, they are already impatient.

Those who came to ask for more than a dozen words were overjoyed, even when they returned to their respective flagships.

After a short period of time, within the flagship of a fleet of virtual air, a small team was rushed out, a total of hundreds of people, from different directions, to the black lion surrounded by the central domain swarmed away, be careful It's close to it.

At this moment, the hearts of other powerful people all mentioned the eyes of the blind, and the fear of this group of tempting forces, when the first one approached the Black Lion, was the first time to be counted by the corps of the corps.

However, the scene that everyone did not expect suddenly appeared at this time.

"call out!"

An energy light curtain flashed, and the main channel of the Black Lion suddenly opened. Then, a big banner was extended from the inside, and the flag was actually a big white cloth!

surrender?

Everyone is dumbfounded!

In the distance from the encirclement, the war-torn that has been hidden from the body shape is a flash of sorrow, even when it is secretly conveyed to the unbrowed ancestors: "Attention, the Lord is ready to sneak..."

Chapter 3457: It's gone

It's not just the war battalion and the brooding ancestors. In fact, the white flag that surrendered on this side represents the next moment from the main channel of the Black Lion, and all the powerful forces in the virtual air around the world, especially Eight dragons and other giants, including the Dragonfly, all raised their vigilance in the first place.

With the temperament of the Nether, how can you admit defeat and surrender?

You must know that there is still a squadron in the hands of the same ancestors who are capable of attacking and defending, and that there is a ridiculous treasure that is capable of attacking and defending, and possessing the power of horror and ban.

Even if you can't take the Black Lion and the 10,000 Yumo people in his cabin, they will leave.

But if he sacrificed his life, it would be possible to leave alone under the cover of the karst of the corps!

Therefore, in the eyes of the powerful people around, they waited for a kind of confession and surrender after an hour. It is clearly a means of hiding their eyes. The younger ones want to paralyze their opponents, and maybe they will create chaos later. Then, wait for the opportunity to leave!

Around the void, some people have begun to sneer, and the war-torn and the brooding ancestors who are hidden in the distance are secretly opening their minds to the maximum extent, gazing at everything invisibly.

After the shaking of the white flag, the white flag slowly swayed out, and then, at the very end of the flagpole, a pair of hands appeared, and then a face was stretched out.

The skull screamed out and looked around, revealing a smile that was more ugly than crying. The yin seven was a bite and trembled out of the main passage, and the figure appeared in the void outside the ship. .

But all the strong men in the void around him directly ignored him, and his eyes fell in the main passage behind the Yinqi, and they were firmly locked.

"And, of course, there is..."

After a sigh of yin, he smiled and smiled. The grandson owed a sin to the surroundings, slowly moving toward him. He still held the white flag in one hand, and the other hand gestured toward the main passage behind him.

Soon, Yin eight came out.

Followed by the yin nine!

Then one by one, one after another, the Yin Mozu...

Just like the long queues, all of them came out one after the other, all the faces were a face of a dead aunt, crying and sorrowful, and after the main passage, they were honestly lining up in the void outside the ship. Starting from the team, it seems to be waiting for review.

Realizing that the ancestors were actually counterfeit goods, and they had abandoned themselves, the guys were completely tempered. Now the only thing in mind is to stick to the tail and be honest, hoping to resolve the top 100 in the sky. In the power fleet, the anger of countless star powers!

At this moment, the void around it was completely quiet!

Everyone's eyes are all gathered together, firmly locking the exit of the main passage of the Black Lion. At the same time, some eyes are patrolling the other parts of the huge Black Lion stern to prevent the phantom from hiding the figure. Going out in other directions and quietly leaving.

However, now this piece of void is under the full power of thousands of virtual oscillators, plus eight of the great powers are only a few hundred miles away from the sky, with even a few layers of God, even if it is top The hidden physique and secret technique must also be revealed.

Therefore, although no matter whether it is the main passage or other positions, the figure of the Nethered Respect has never appeared, but the star-studded powers around the void are not in a hurry.

The picture is poor, when it comes to life!

It's just that what everyone hasn't expected is that it's too long to drag it out!

The Black Lion has more than 10,000 Yin Mozu people in the foot. Until more than 10,000 people walked out of the main passage one by one, when the emptiness in the void outside the ship was crowded with a large piece, the Lord's glory was still lacking. appear.

The guards of the guards were not prepared, and they sneaked out of the battleship again. At this moment, they had successfully reunited, and they were crowded into a place where Xuanyuan Ziyang and Duanmu Xiaocha and Zhao Qianru looked at each other. Their faces were suspicious.

It is even lowering the sound, sneaking quietly...

"What the \*\*\*\* is this guy doing?"

"Delivery and patience? But what can it do?"

"He...will not have left? Look at the expressions on the faces of the gangsters, just like the death of the group. This ethnic affair, if not desperate, will not be like this."

Although the three of them know Ye Xuan's means, but after all, the situation is now, in this case, it is a great power that can't quietly leave, so even if they are, they have identified the leaves. Xuan is still inside the Black Lion.

Zhao Qianru's guess is nothing more than just saying it!

At this time, all the evil demons in the Black Lion have all come out. The main passage of the Star Fortress is no longer shadowed, but the outside is a black pressure. It can be surrounded by a lot of starry sky, but still Locked there.

Yin Qi also saw the problem at this time. His heart secretly complained, and his face twitched a few times. He turned to the face of hundreds of miles away and looked like a kind-hearted person. He swallowed the throat and swallowed. Eyes weakly: "Older...predecessors, all the people have come out, the assembly is complete, there is no ghost in the Black Lion. Now, can we start the next link?"

In his view, since it is surrender, naturally it has to be confessed, whether it is circumcision compensation or other humiliating clauses, as long as the four groups of people who are eager to talk about it are willing to talk, then no problem, at least a life-saving worry!

"Let's go! I dare to fool the old man!"

The old thing that was looked at by the Yin 7 was the imperial dynasty of the royal family. Don't look at his good face, full of temper, not waiting for the yin seven, even when he roared, almost slap him on the spot. dead.

"No, the little \*\*\*\* you are looking for, he he... he is gone!"

After the yin and urgency, I cried. After all, I still said the truth: "After an hour, oh, it's my family... I found out that the room he entered was empty before I got out of the white flag. We are also The victim, the guy is not a sorrowful sorrow at all, it must be a lie, a guilty conscience, I don't know what is wrong with the eye, just like this... no more!"

Speaking of the end, Yin seven hands spread, the look of frustration, only sitting on the spot.

This look, this expression, is not like being put out, eight of the great powers face each other, a very unpleasant feeling poured into the heart.

In the distance, the war squad and the eyebrowless ancestors who had been crouching for the squatting were unable to sit still, and they showed their physique in the void, turning into two spurs and rushing toward the main channel of the Black Lion. Grab.

At the same time, there are more anxious words.

"You are friends, stay half outside and guard against fraud!"

"The other few people, enter the search with me..."

Chapter 3458: Third form

"call out!"

A faint faint flash of light that could not be detected by the gods, followed by Ye Xuan's figure from a sudden emptiness of the vortex.

The hind legs just dialed out, and the void vortex behind him disappeared completely. There were no traces at all. Even the fluctuations of the void were extremely weak. The range of diffusion was not more than that of Zhang Xuan, which was slightly larger than Ye Xuan's figure. A lap.

For this reason, in the independent cabin of the Black Lion, when he stepped into the same emptiness vortex, he would walk so quietly, even if there were ten people in the distance around the fortress. There is no slightest induction.

Although it is not the first time to use the cosmic coordinate jumping ability attached to the title of the system, there has never been a single squadron in the vicinity, including the one in the sixth house of the tenth.

Therefore, after this time, he still managed to leave, but did not provoke anyone to notice, he once again had a clear understanding of the ability to devour the system.

It's really hard to believe that this is just a technological product of the human science and technology community. When the pioneer of the Terran technology pioneer was really amazing, its talents were simply amazing, until this time, the abilities of the phagocytic system he left behind, There are still too many unexplained places.

At that time, Xingbo was afraid that it was far from being a technology pioneer.

Unconsciously, God changed a little, and Ye Xuan quickly shook his head and dispelled the thoughts in his mind because time and place were not suitable.

Turning around and looking around, he quickly saw the environment around him, the white pool that he had recently branded the interstellar coordinates of the second universe of the \*\*\*\* family's nest!

The reason why I chose to come back here instead of the death star of the third universe is because there is still value in use. This pool is congenital yin and cold spirit. Ye Xuan has no intention of letting go. Before leaving, he must take it away. .

In addition, his Nether Body needs to be healed and restored here!

This place is a forbidden place for the Yin Nest. Except for the several ethnic groups and the patriarchs of the Yin Mozu, all other tribes are not allowed to set foot in it.

Therefore, even though there are still many ethnic groups left in the Yinchao, Ye Xuan is not worried at all.

As for the patriarch of the Yinchai deep, the dynasty Yin is in a state of closed life and death. He has never broken through to the environment of the Qiankun, and before the blood ancestors evolved into the body of the Nether, he could not break through.

Nowadays, the Yin Emperor, who has a great accomplishment in the Qiankun area, has been retiring at the bottom of this Yinchai Lake for hundreds of years, but there has been no movement. Ye Xuan did not believe that things would be so clever, just in his quiet return. At the time of healing, the other party broke through.

For this reason, Ye Xuan can be said that his heart has been determined to be extremely, directly sitting in the depths of the Yinchai, sitting in the depths of the Yinchai, running the body of the Nether, began healing recovery...

This congenital yin and cold spirit liquid is not something that can be seen everywhere. In the entire second universe, it is only one place. It is the birthplace of the Yin Mozu. It can be said that every drop of

the yin yin It is a treasure. For the Yin Mozu people, a drop of chilly liquid can maintain a year of practice!

It is precious!

But Ye Xuan, but it is the second time to bathe in this Wangyin pool. At this moment, the whole body is immersed in the amount of the congenital yin and cold spirit liquid, sitting cross-legged and gradually sinking to the bottom of the pool.

With the operation of the Nether, Ye Xuan was slowly repaired by the injury suffered by the corpse.

They all said that they broke down and stood up. This time, although Ye Xuan's Nether Body is far from the extent of the broken, it is extremely serious. After all, after the blow that suffered the ancestral martial law, his phantom body. Even when they have reached the state of being able to maintain their state, they are unable to display their ghost claws and launch an attack.

At this moment, with the liquefaction of a large number of congenital chills in the Yinchu as a pure congenital chilling force, one by one, along the entire body of his body, the next hundred thousand pores into the interior, Ye Xuan's phantom body, It is like being nourished by the endless moisturizing rain, and it is quickly developed and self-repaired, and it has a certain qualitative improvement!

The special energy of the congenital yin and cold spirit liquid was used to repair the phantom body of Ye Xuan, and more than half of it was followed by his phantom body, and was hanged by Ye Xuan's brain. The one that represents the dark green claws of the Nethered Claws is absorbed.

Gradually, this dark green claw surface slowly reveals some complicated crepe lines, which become simple and quaint, revealing the vicissitudes of life.

And, in the looming, there seems to be a circle of invisible mysterious ripples, swaying from the sea of Ye Xuan, revealing his phantom body, appearing in the pool outside his body.

These invisible mysterious ripples are obviously related to Ye Xuan's genius.

At this moment, they swayed from the sea of knowledge in Ye Xuan's brain. After appearing in the Yinkang, they gradually affected the congenital chilly liquid of this pool.

There are some scales and microwaves happening, like some kind of resonance, which finally affects the whole pool of congenital chilly liquid.

Moreover, in the cave at the bottom of the deepest pool, which was completely banned and completely banned, it seems to be affected by this mysterious resonance. At the entrance of Dongfu, a layer of translucent black forbidden light curtain appears, and this layer of light The curtains gradually spread ripples.

This place is the retreat of the Yin and the patriarch of the Yin and Mozu, and at the moment, Ye Xuan's brain knows some kind of mysterious power that is revealed by the sacred claws in the sea. The curtain penetrated into the interior of Dongfu.

All this, Ye Xuan does not know!

At this time, the whole body and mind were immersed in the complicated lines of the surface of the dark green claws hanging in the brain.

Although he also does not know why this happens, but the vagueness understands that this is the sign of the evolution of his phantom body. With the evolution of the phantom body, the corresponding blood and magical claws, the power will also be more Be strong.

Before, when he displayed the blood of the Nether's claws, there were only two forms, one was dark green claws, and the second was clawed ghosts.

At the moment, the complex lines of the dark green claws hanging on the surface of the sea are reflected in the third change of the \*\*\*\* magical power.

However, the third change is more powerful, and obviously it is impossible to completely reveal it just by this evolution.

I don't know how long it took until Ye Xuan's Nether Body has been completely repaired. When the combat power is restored, the surface of the dark green claws suspended in the mind of the brain has been completely ruined by this quaint and complicated road. covered.

However, the texture is very shallow and somewhat fuzzy, which means that the evolution of this time is still incomplete, and the third stronger change of the genius of the genius is still not revealed.

It was also at this time that Ye Xuan, who was sitting cross-legged at the bottom of Yinchitan, quietly opened his eyes. This time the healing was over...

Chapter 3459: Refinery

"I don't think there are more morphological changes in the Nether Claws. It's just that the second type of clawed Nether has been so powerful. How strong is this third form that is evolving? I am looking forward to it..."

The more difficult it is for this third form to evolve, it means that it must be more and more powerful!

In the faint, Ye Xuan has begun to look forward to it. I think that the next time I will encounter the energy that can make the Nether body evolve, this third change of blood and blood can be completely revealed.

At the moment, these congenital yin and cold spirits, although ineffective, will be used to repair the body of the Nether in the future.

Also at this time, in the mind of Ye Xuan, the familiar system prompts, and quietly sounded: "Hey, congratulations to the host, the body and blood of the realm is elevated! The current realm: Dongtianjing sixth-order!"

"Hey, congratulations to the host, the physical and physiology of the flesh is improved... the seventh heaven of the hole!"

As expected, even the ghosts of the mind that hang in the sea began to evolve toward the third form. The benefits of Ye Xuan's Nether Body are obvious, reflected in his deity, the evolution of the flesh. The road has taken a more solid step...

"The tenth big hole is late!"

Ye Xuan clenched his fists and muttered to himself, and there was a confidence in the chest that was stirring!

Before the cultivation of his flesh and blood was the fifth stage of the cave, it was the middle stage, but now it is the seventh stage of the hole, for the later stage, although it is still the same realm, but the gap between the middle and the late is still very big, now if he is again For any of the captains and the magic dust women, I am afraid that they will no longer be the result of evenly matched forces under the war.

Ye Xuan has absolute certainty to suppress them one by one!

Of course, the war is still unavoidable. After all, it is only promoted to two small steps. It is impossible to win the opponents who are quite equal in the blink of an eye, forming a moment of crushing!

But even so, Ye Xuan is extremely satisfied.

Only when he thought of the zombie king who had not fallen to the accident, his mood became heavy again.

Although I want to smoke, I have already gotten it, but then I want to take down the zombie king to expand the wind. I am afraid that it is not so easy. In addition to the gathering of a powerful elite zombie army, the guy has unexpectedly evolved the body of the demon. The repair is even more soaring, and has reached the eleventh state of the late Xuanguangjing, fearing that when Ye Xuan finally found him, his repairs must at least be a void.

When I think of it, Ye Xuan suddenly shakes his head and smiles. The general monk is difficult to deal with in the virtual space. It is possible to kill with Ye Xuan's various powerful methods, but the live capture is based on the infinite number of variables. Daoyuan, the pressure on his shoulders is still very heavy!

After tidying up the mood, Ye Xuan did not leave, and he soon succumbed to the eternal treasures of the immortal world.

Although Baoluo has not been refining and refining by him, because of the incompleteness of the ruins of the ruins of the ancient and powerful powers sealed by Bao Luo, there has been a full-scale resurrection of the corpse of the corpse, so this treasure is being refined. Before the transformation, it was obviously controlled by the ancestral drought.

It is precisely because of this, in order to refine this treasure, the first step is to get through the drought.

For other star-studded powers, this is definitely a headache, because the ancestral drought is the existence of the fifteenth world in the late Qing Dynasty. To suppress her, we must have a repair beyond the hustle and bustle. Only then.

It can be said that even if the ten dragons and scorpions, such as the dragon plaque, joined forces, the ancestral marshes were temporarily suppressed, and they won the treasures, and they could not refine them.

After all, the suppression of the ancestral marshes can be combined with ten people, but refining this Baoluo... Even if ten people are willing, there is no way to join hands to refine the same treasure!

But for Ye Xuan, this most troublesome problem has turned into a completely unnecessary worry. There is no head baby body, and the corpse of the ancestors took the initiative to recognize him as the main, and because of this, the treasure desire Tobacco leaves can only be freely replenished in the body, and it is no different from being refining.

However, some refining and chemical processes are still needed. Otherwise, if Ye Xuan wants to play the power of Baoluo, it has to be realized through the similar corpse of the corpse, and it is too much trouble.

At this time, Bao Luo turned into a touch of pink and was shot from Ye Xuan's body. When it was suspended in the cold pool of the Yinchuan in front of him, the scales of the pool scaled up and down, and because of its power. Fully converged, only two palms large, it looks like a common Jurassic bubble in the water.

But on the surface of this seemingly ordinary pink jurass, there are six female statues of Vichy!

Anyway, three times!

The figure of these six women's repairs looks like the characters of the characters embroidered by ordinary Jurassic. However, under the close look, it is actually delicate and extremely extreme. Even the eyes are very vivid, with insights from the gods. On the skin of the hands and neck that are exposed, the tiny pores are clear.

Six figures, each temperament and breath are different, but without exception, all are in a stunning position, the body is even more against the sky, it is the Xuanyuan Ziyang and Duanmu Xiaocha, Zhao Qianru three gimmicks compared to it, perhaps The beauty aspect will not lose, but the temperament, but it is obviously worse.

After all, these six figures are all the top powers of the ancient times, and their own gas field is a kind of temperament that can only be looked up.

Its deity is second only to the existence of the ancient gods and the empty giant tortoises. The ruined spiritual source of the ruins has the fifteenth state of the world, and it is so powerful that it is natural. Far from the three women who have not yet grown up, Xuanyuan Zijing can compare!

Among them, Bao Luo's three positive figures, the obvious temperament is more just soft, and the three figures on the back, the temperament just turned to the evil spirits, it should be the difference between right and wrong.

The figure of the karst of the corpse is one of the three beautiful figures on the back of Bao Luo.

And among the six figures, the breath of the corpse is the most obvious, while the other five are extremely embarrassing. It is clear that it has not yet awakened.

"Where is the ruin of the six great ancient powers? In this world, this is the horror of the six great reunifications. If all of them are awakened by the ancestors, the young masters will be in the account, and they will not stand up." Have six big-level generals?"

In the muttering to himself, Ye Xuan's screaming screams of hotness, and a feeling of incomparable hope in his heart.

Later, he couldn't wait to kneel again, closed the eyes in the endless sinister chilly liquid in the Yinchi, and began the refining process of this ancient treasure-class pink scorpion. I believe that with the cooperation of the ancestors and the marshes, This process should be extremely smooth...

Chapter 3460: Yin Emperor

The process of refining and purifying treasures is really smooth. Ye Xuan did not encounter any obstacles. In just a few minutes, he successfully refining this ancient treasure.

Of course, all of this is because of the help of the corpse of the corpse that has been fully awakened in the smoke!

Before, when the karst was still outside the land, Ye Xuan was able to communicate with her in words. Of course, there was almost no such exchange. At that time, the situation was not given to the two.

Since the ancestral marmots entered Baoluone, although Bao Luo has been included in the body by Ye Xuan, he and his ancestors have lost contact.

Everything is because Ye Xuan has never refining this treasure.

At the moment, with Baolu being refining, Ye Xuan received the awareness of the karst of the corpse from Baolu.

What surprised him was that the first consciousness passed by the corpse of the ancestors was actually healing, and it was clear that she had sensed that there was a strong congenital yin and cold liquid around her, which was very good for her injury, but The amount needed is relatively large, and I would like to consult Ye Xuan.

This feeling makes Ye Xuan a little weird. A wild and powerful man, the nine-order grand perfection of Qiankun, needs to take energy treatment, and he is careful to consult his opinions. It seems that Ye Xuan does not Agree, she will give up immediately, it is really speechless.

But it can be understood if you think about it. It seems normal.

Because in the eyes of the corpse's marmots, Ye Xuan, even if it was not the headless baby corpse, must have a very close relationship with the headless baby corpse. This point, from the scream that she had heard of the headless baby corpse, Immediately rushed out of the encirclement, and bowed to Ye Xuan Na, and called my master, you can see it.

In the battle of the world in that year, the headless baby corpse could be separated from the suspected hunger, and that is the existence of the heavenly eye, although Ye Xuan did not know his specific origin and details, but his heart was vague. There is already speculation.

In that year, there were countless powerful wilderness creatures under the headless baby corpse. There were only a hundred and eight nobles like the Golden Dragon and the Void Giant Turtle, the Wild Ancient Fork and the Nether Emperor.

The body of the karst of the ancestors, in the same year, was only the level of the top-level power of the ancients, and it was weaker than the ancient gods such as the Golden Dragon.

The existence of this kind of class, the headless baby corpse must have more, at least hundreds.

Therefore, even if Ye Xuan is only closely related to the headless baby, not his own, for the martial arts, it is also her absolute and must respect the existence of awe, not to mention her now, just a flaw The source of spiritual knowledge only?

It can be said that if Ye Xuan refuses to take it seriously, the treasures of the sacred ancestors of the sacred ancestors of the scorpion will definitely obey, and immediately dispel the intention of recovering the wounds from the congenital yin and cold spirits.

But that is obviously impossible, Ye Xuan will not do this.

Anyway, the things of others are not used.

Although his phantom body needs this congenital yin and cold spirit in the future, in contrast, the corpse of the corpse is obviously more important to him.

And Ye Xuan had already stored 10,000 cubic meters before, and spent more than a period of time, not to mention the fact that there is such a big pool here, the ancestral drought can not be exhausted, and the rest, Ye Xuan can still take it all away. One pot end!

He came here again, this is the purpose!

Soon, Ye Xuan gave a reply, and the corpse of the ancestors did not have any indications. As the top power of the ancient times, and one of the four ancestors of the corpse, her temperament was arrogant, even in the face of Ye Xuan, who has a close relationship with a headless baby, is not too hot!

Soon, Ye Xuan felt that the congenital yin and cold spirits around him began to flock quickly to the treasures that floated in front of him.

At this time, he was still immersed in the depths of the Yinchuan. In front of him, he was a treasurer of smoke. With a large amount of congenital yin and cold spirits pouring into it, a small vortex gradually formed on the top of Baoluo. The scope has also slowly expanded.

What surprised Ye Xuan was that in less than a minute, the entire Yinkang was all affected. The original pool of only the corrugated scales had a wave of waves. Fortunately, it was not very violent, otherwise it would be afraid. It is to attract the attention of the sinister tribes who stayed in the yin nest.

Of course, even if this is the case, Ye Xuan is not afraid, there is nothing to worry about, big deal and then put a gradual ancestor's spectrum, screaming a few old and old hybrids!

Two minutes later, the vast Yinchuan surface has dropped a lot. According to Ye Xuan's estimate, about one-fifth of the congenital yin-cold spirit liquid has been plunged into the treasures.

At this time, Bao Luo Nei finally came to the consciousness of the karst of the corpse, saying that she had gained enough energy, and now needs refining and rehabilitating.

The vortex that appeared above Bao Luo three minutes ago has disappeared, and Ye Xuan even waved this treasure into the immortal world.

Then he took a palm and took out a bottle-shaped space storage magic weapon. This kind of thing has many hands in his hand. He has obtained a lot of treasures and resources before and after extortion, let alone Ye Xuan's body. Giant?

This kind of congenital yin and cold spirit liquid, Ye Xuan had already stored a bottle before, full 10,000 cubic meters.

At the moment, the space bottle he took out has a larger capacity, with 100,000 cubic meters.

According to Ye Xuan's estimation, the congenital yin and cold spirit liquid remaining in this yin pool is about four to 50,000 cubic meters. The space bottle in his hand is enough.

With the implementation of the control, the support of Ye Xuan's palm in the blue space bottle immediately revealed a powerful force, the congenital yin and cold liquid in the Yinchu, compared with the previous one. The speed of the corpse is more rapid, and it is quickly poured into the bottle mouth of the space bottle.

At this time, if you look down from the top of the yin pool, you can see the entire large yin pool, whose pool surface is falling at a speed visible to the naked eye.

In just two minutes, the body of Ye Xuan, who had been soaked in the congenital yin and cold spirits, has already emerged, and the pool surface continues to decline...

In the end, after two minutes passed, the entire yin pool finally dried up completely, and a drop of congenital yin and cold spirits did not stay. This time it was completely a pot.

At this moment, Ye Xuan's figure floated above the Yinchu, and the last drop of the spirit liquid was broken into the bottle. When he sealed the bottle, he turned into the immortal world.

When I was about to turn and leave, the bottom of the Yinch Lake, which had already dried up completely, suddenly burst into a thick black sacredness. Then, a low and gloomy sneer was introduced into Ye Xuan's ear, making him mad. shock.

"Hey..."

"While you have no intention of helping the old man to break through the blood, he successfully returned to his ancestors and molded the body of the Nether. From then on, he stepped into the realm of the star owner, but he broke the roots of the family, and the full pool of spirits did not leave a drop..."

"So kind of grievances, little dolls, you said that this Yin emperor, in the end is it to kill you? Or should you kill you..."
