Chapter 346: One-eyed giant

Of course, if those sharks don't have long eyes, Ye Xuan doesn't mind killing them.

I have to say that there are a lot of masters in this city of evil sharks. Since he broke in, he has killed hundreds of masters of the three dragons, and there are more than a dozen four dragons, even five. There is one dragon power.

"King of the shark, let me out!"

Ye Xuan suddenly violently shouted.

He just shouted, but did not expect that someone really responded: "Miscellaneous things, come to life!"

The sound is coming, and people are coming.

Ye Xuan looked condensed and found a huge black shadow blocking his way.

"The king of the sharks? Fast speed!"

Ye Xuan was shocked. He had the power of six dragons, and he had a 20% movement speed bonus, but he could not compare with the king of the shark.

This is awkward!

"Kid, who are you?"

After the King of the Sharks swept over, there was no attack, but he looked at Ye Xuan with a high-profile look.

"You are the king of the sharks?" Ye Xuan blinked.

The king of the shark shark is holding a huge trident, standing in front of Ye Xuan, like a sculpture. His eyes, which are bigger than the human head, glared at Ye Xuan, replied with a thick voice: "Not bad!"

"I want to go to the blood rock continent, why did you block the way?" Ye Xuan asked.

"Blood rock continent?"

The king of the shark shark was shocked. He was about to knock the trident in his hand to the ground and screamed coldly: "This is the reason why you invaded the city of my shark?"

"Not all, I heard that there is also a sacred beast of the Seven Dragons. I am coming to take the sacred beast!" Ye Xuan looked at the king of the sharks ten meters away.

"The one-eyed predecessor is the guardian holy beast of the king of the evil shark. Just because of you, I am afraid that even its scale defenses will not be broken. I dare to threaten to kill the one-eyed predecessor?" The king of the shark shark flashed.

"It's my business to kill it, it's my business. You just need to tell me where it is." Ye Xuan sneered, if the king of the shark tells him where the one-eyed giant is, it saves a lot of time. .

The king of the shark shark heard the words, holding the trident in both hands and attacking directly.

"When I kill you, I will give your body to the one-eyed predecessor!"

A big fight broke out!

This man's shark is the power of the six dragons, the battle between the two, absolutely around the shark war sharks will be able to intervene.

"Hey!" "Hey!" "Hey!"

The two figures moved quickly in the city of the Shark.

Just before the fight, Ye Xuan felt a pressure, because the speed of the king of the shark is faster than him.

"Human, your means are very high, but I am practicing the celestial martial arts of the sea, can you keep up with me?"

The laughter of the king of the sharks fell in Ye Xuan's ear.

Heavenly martial arts?

After hearing this, Ye Xuan's body was also a tremor.

Now I can't redeem the martial arts in the swallowing system. I didn't expect it to be found here.

Although the king of the shark shark emphasizes the sea-level martial arts of the sea, but Ye Xuan has a swallowing system, maybe he can learn it?

The two sides played against each other for ten rounds. Although Ye Xuan's speed could not catch up with the king of the shark, the king of the shark shark couldn't help but display the eight wild winds to kill Ye Xuan.

The two sides are caught in a stalemate.

"Who is this human being, and it is not the Tianshui continent that borders the entrance of the Deep Sea Palace? How can there be such a powerful human being?"

"The generals of the sharks couldn't stop even a single move, and they were directly pierced through their heads. This human being is so strong that even the king can't take him."

"Do you want to be a one-eyed predecessor?"

"Is the one-eyed predecessor not in a retreat?"

The sharks sharks around will be discussed in a whisper.

At this time, the scene suddenly changed, and the sharks sharks would see the head that fell on the floor.

Is this head the head of the king of the shark?

At this time, Ye Xuan held the eight-sword sword in his hand and walked over to the body to collect it.

"I really thought that you have a genius of martial arts, can I not you?"

Ye Xuan's heart is a dark sentence.

Although he only has the power of six dragons, after using the Beastmaster violent, it will instantly rise to the power of the Eight Dragons.

The power of the Eight Dragons, the power of killing the six dragons, this is an inevitable thing.

"Let me see how many of you are the king of the shark!"

Ye Xuan sinks his heart into the ring of Qiang Kun. The next moment, he suddenly found out that this thing in the ring is at least ten times more than the shark general!

"Hey, the host has broken through the power of the Seven Dragons!"

"Hey, the host has broken through the power of the Eight Dragons!"

In the mind, two consecutive systems prompted the sound, and Ye Xuanyi opened his mouth and smiled. Now, even if he does not use the Beastmaster violent, he will reach the power of the Eight Dragons.

At this time, he also had the effect of the Beastmaster violent, that is to say, his current strength has reached the power of the Ten Dragons.

"The sea dragons swim, the celestial body martial arts, try first."

"Hey, the host doesn't have the deepest blood in the deep sea and can't learn."

Ye Xuan was helpless, and it was really limited. The blood of the Beastmaster in his body was a physical bloodline. Therefore, he could not integrate the top system blood, such as the deep sea dragon blood...

Moreover, this level of blood has limitations and can only be used in water. Although the Song Dynasty and the Song ruling can breathe in the deep sea palace, this deep sea palace is also considered to be the bottom of the sea.

"Forget it, go back and sell it to the Hailong family."

Ye Xuan took this tour dragon and collected it, turned his head and looked at it, and found that the shark war sharks would all escape in madness.

call out!

He quickly swept out and grabbed a shark of four dragons. He asked coldly: "Where is the one-eyed giant!"

The shark will see the big flying dragon that Ye Xuan flew in the body, and his heart is cold.

A big dragon, representing the power of the dragon!

In the deep sea palace, there is a human being with the power of the Ten Dragons. How is this possible?

He was scared to death and pointed to one direction: "Independence, one-eyed seniors are in that direction..."

He thought that he would tell him the fate of a one-eyed giant, and Ye Xuan would spare him a life.

However, he was disappointed.

"Hey!"

The cold mang flashes and the head of the other person falls.

Ye Xuan took the body and quickly swept it in that direction.

Now he has cast the Beastmaster violent, and every time the Beastmaster violently uses it, it requires a large number of sacred corpses, so he must save some use. While the effect is still there, kill the one-eyed giant, although it is said that this one-eyed giant has only the power of the seven dragons.

Ye Xuan moved in the direction that the shark would point. After a while, it was found that a huge one-eyed python.

However, this one-eyed giant, a bit strange, it squats on the floor, the one-eyed one is closed, and there is no life.
