

Super D. S 3461

Chapter 3461: Plane level coordinate jump

"Little doll, you said that this emperor, should you kill you? Or should you kill you..."

As the words of this haze came out, the light curtain in the depths of the bottom of the Yinch Lake suddenly flashed again. Then, a figure walked out of the black light curtain.

A black robe, black hair and black whiskers, looks mentally awkward. At the age of 50 or so, there is an invisible ceremonial instrument for a long-time person. In addition, he claims to be the emperor. Obviously, this person should be the patriarch of the Yin Mozu. Yin Emperor.

Ye Xuan's heart sank and his face immediately darkened.

The Yin Emperor has been retreating for hundreds of years, and the closed is the death. If he can't return to his ancestors and shape the body of the Nether, he can't go out.

This matter is no longer a secret in the three universes.

The reason why this person was forced to help at first was that the Yin Mozu was not seen by other ethnic groups in the second universe. Although there were not many enemies in the world, but after all, it was a group of people, and there were more than a thousand people walking outside. It's inevitable, so the enemy who is blindly watching is not too small.

And the Yin Mozu is between the Wanluo Federation and the First Cosmic Hegemony. The wall grass is generally cheaper at both ends. Both sides want to please, and it is also a dangerous way to walk on the blade.

In this case, if there are no top-ranking strong people in the family, they will have no confidence at all.

Although the patriarch of the patriarch, the emperor of the dynasty, has been the fifteenth year of the fifteenth century, the ninth order of the great emperor, for a large ethnic group, it is obviously not enough.

Among the top ten ethnic groups in the second universe, all have the existence beyond the fifteenth world, and even more than one.

As for the Terran of the Third Universe and the Dominion of the First Universe, it is even more unnecessary to say more.

The Tianji nationality claimed that the cultivation of its patriarch, Emperor Yi, was in the fifteenth state, and that it was a great power. This kind of remark made people laugh and just laughed. If it is true, it is estimated that it will die very badly!

Such a naive existence, in the starry environment of the world, is alive soon!

For this reason, the Yin Emperor is like a pledge to publicly declare that he wants to close his death, and never break through!

At the moment, since he has already stepped out of the closed-end cave house in Tandi, the facts are already obvious. With his words, Ye Xuan has confirmed some situations.

Not only has the Yin Emperor broken through the Qiankun environment, it has become a surpassing of the mighty power of Qiankun, and even the blood has returned to the ancestors smoothly, possessing the body of the Nether.

Among the blood of the Yin Mozu, there were only a few hidden blood vessels, but the growth path of the strong stars is different, but it is actually a different way of evolution.

In the great universe of the second universe, this strong growth path is basically the evolution of its own blood, or to return to the ancestors and even beyond!

Before the retreat, the Yin Emperor, who possessed the fifteenth dynasty and the nine-order grand sacred reunion, had its own bloodline that had reached its perfection and faced with a qualitative change. With this breakthrough, the phantom body became one. The gift of inheritance imprinted in the blood will be highlighted in an instant.

That is to say, no accident, the Yin Emperor in front of him, like Ye Xuan, has mastered the magical power of the Nether Claw.

Thinking of this, Ye Xuan's whole heart suddenly sank again.

There is no one in the world who is more powerful than him. Nowadays, he is only the tenth-order heaven and the seventh-order, and the power of exerting this kind of blood and power is already strong.

Ye Xuan can't imagine, a transcendental existence that transcends the mighty power of Qiankun, and it will be a horrible scene when waving a ghostly claw.

At least, he is absolutely unstoppable, and even fleeing is a problem.

If it is the mighty power of the fifteenth world, Ye Xuan may be able to escape with a variety of means. Now, in the face of a super-old monster who has surpassed the Qiankun environment, he wants to live, only two ways. gone.

Either directly call the headless baby body and suppress the other side!

Either use the interstellar coordinate jump ability directly and leave in an instant!

The former method is naturally safe, and the baby corpse is shot. The other party has only been abused. It is said that the wounded person is a little bit worse. The Yin Emperor is not even qualified for the baby corpse.

The latter method, if faced with the mighty power of the fifteenth world, Ye Xuan is sure, but now the Yin Emperor is a super old monster that transcends the Qiankun environment, and the inter-satellite

coordinate jumping ability attached to the system title is fast, start It takes time too. Ye Xuan is not sure whether it can successfully take the coordinate jumping ability in the distance of the other side.

In addition, the position of Ye Xuan's lameness is already the shade of the interstellar coordinates in the second universe. To escape in this way, only the direct expansion

The plane-level interplanetary coordinate jumping ability, the black hole of life in the first universe, or the death star of the third universe!

This is even more insured. The interstellar coordinate jumping ability Ye Xuan has experienced many times, but this kind of jumping across the universe plane has never been seen before. In case it takes longer, it will face the yin. Emperor's shot, Ye Xuan is afraid of how to die.

Too risky!

These thoughts, such as lightning, flashed in his mind for a moment, and Ye Xuan's heart secretly smiled. The headless baby corpse is not expected. The goods are grandfather. When he wants to shoot, he will naturally shoot, but if Ye Xuan takes the initiative Ask him, he will not take care of it.

The only choice is to expand the interplanetary coordinate jumping ability of the plane level, but before that, at least some means need to be used to distract the other party's attention, perhaps... hold it!

Nether claws and These two kinds of **** magical powers do not have to think about it, the power is unquestionable, but Ye Xuan's repair is too weak, the power displayed, can not be bothered by the super grotesque .

It's that Lei Diyin and Lei Yuanzhu can't do it. Ye Xuan had already tried it in the sixth house of the third universe of the comprehension camp. Lei Yuanzhu couldn't hurt the fundamental power of Tian Qianzi. It can only make its wolves into a dilemma, not to mention the super grotesques that transcend the hustle and bustle.

Perhaps after the revision of Ye Xuan is stronger in the future, after the secondary compression and refining of Leiyuanzhu, the bead can have more powerful power, but it is useless at the moment.

The same is true of Shennong Ding, which may not be able to trap the super grotesque in front of you.

After thinking about it, Ye Xuan discovered suddenly that the treasures he had in his hands, even the most precious ones, and the Xingqiang Shentong, can be repaired because they are too weak, and once they meet the real superpower, what is it? Can't use it.

Fortunately, not long ago, the refining of the smog, even if this treasure is contained in the body of the immortal world, Ye Xuan can directly communicate with the ancestral martyrs in Baoluo, with her ability to enemies ten powerful means With the fighting power, facing the Yin Emperor in front of you, even if it is not, you can at least spend a period of time.

One thought of this, Ye Xuan secretly gave instructions to the drought, while sneer and looked at the Yin Emperor who was vacated from the bottom of the Yinchitan.

With both hands on the back, the face is proud of the color, and there is no fear: "Old hybrid, you are the patriarch of the Yin Mozu? In this case, not fast, go to the ancestors..."

Chapter 3462: Terrorist means

"Old hybrids, are you the patriarch of the Yin Mozu? If you are so, don't come up quickly and visit the ancestors..."

"What about the star's main territory? Your Nether's body is given by the ancestors, is it still wanting to turn the Lord?"

At this time, Ye Xuan stood in the void above the Yinchuan, carrying his hands, his face was proud of his color, and the light cloud was light and light, and he did not put the Yin Emperor in his eyes.

In fact, his heart is bleeding, until now, he realized that the 16th state of the starry sky is the main territory of the star, and it has always been mentioned in the words of the existence of transcendental power. This is the same force, this is a kind of awe!

The reason why the Yin Emperor in front of the eyes can break through the glory, everything is because of Ye Xuan.

If non-Ye Xuan was negligent in the previous healing, the mysterious wave that appeared in the mind of the brain and the green and dead claws of the sea was scattered, and was captured and inspired by the Yin Emperor, thus breaking the blood and achieving the Nether. Body, how can this old guy step into this situation?

At least now there is absolutely no chance!

For all of this, Ye Xuan has already realized that the intestines are remorseful, but there is no way, only to be calm, hope to paralyze each other.

Because he still has to sacrifice the smog, although it is only a matter of wavering, but in front of him, this is the star of the eternal power that transcends the mighty power of the universe. The so-called star owner is the master of the star field, within a star field. Only the meaning of my own respect, the means of mastering are not the same, Ye Xuan is extremely skeptical that the other party has the ability to make it impossible for him to even make a magic weapon!

The old hybrid is also to irritate the other side and distract his attention. Otherwise, how can he face this situation and how can he ask for trouble?

It is a pity that the old monster is obviously not as simple as Ye Xuan imagined. In the face of his irritated words, the Yin Emperor is not only angry, but he smiles again and happily again: "Hey..."

"Little doll, do you want to anger the Emperor? Do it so deliberately, do you want to distract the Emperor's attention, so take the opportunity to escape?"

"I urge you to die this heart, you can't escape, you will be shackled, but you will suffer less from some flesh and blood..."

Upon hearing this, Ye Xuan's whole heart suddenly sinks again. The old guy is really not simple. He is not the patriarch of the Yin Mozu. His heart is too deep, far less than the old things of Yin Qi.

This time it was a trouble, and it was self-defeating. Not only did it not distract the other's attention, but it was a shocking snake and made the other party more vigilant.

Just as he was secretly annoyed, hesitated to try his teeth. In the face of the old goods that looked at him, he directly appeared on the occasion of the smog, and the unexpected episode appeared.

"Old ancestors? When are you coming back?"

"The patriarch?"

"God, the breath of the patriarch... This is the Nether!"

"This must be given by the ancestors. It is no wonder that the ancestors suddenly returned. It turned out that he had taken away all the tens of thousands of people of the whole family. It was actually to confuse the outside world, and now he came back specially to help the patriarchs to conge the Nether God!"

The movement on the side of the Yinkian pool finally brought in the sinister tribes who stayed behind the Yinchao. A large figure of the Black Central Party gathered from around, at least a thousand.

The guys didn't hear the dialogue between Ye Xuan and Yin Emperor at the moment. At this moment, they came in a hurry and saw that the ancestors who had already gone out of the tour had come back, and there was still a figure in the Yinchi. From the beginning, it was actually the patriarch of the patriarch who had been retreating for hundreds of years. After the slight sigh, he soon became ecstatic, even if the head was smashed.

Then, the slogan of a large slogan was resounded, like a thunder, and it was introduced into the ear of the Emperor!

"Happy ancestors, the world's first!"

"Xianfu will always enjoy, life and heaven Qi!"

"Happy ancestors, punch and kick!"

"The three universes, crying and crying..."

"See the ancestors, welcome the patriarch to go out!"

.....

"You guys are idiots! Wow, killing the Emperor..."

The Yin Emperor's Mansion is deeper, and at the moment it can't be calm. The black and the pressure on the ground can all be his people, but now it's screaming that Ye Xuan is the ancestor, and the word is so shameless. slogan.....

No one can stand this kind of thing.

What shocked him even more was that listening to the words of these guys, the 10,000-man family of the entire Yinmo family had already been taken away from the nest by the front, and it was estimated that only the old nest was only There are thousands of thousands of people who have jumped around the land.

As a family leader, this is the most shocking thing for the Yin Emperor.

Under the superposition of the two phases, the Emperor Yin only felt a raging anger in the chest rushing up, and the brain smashed for a moment.

Although he can't wait to immediately shoot Ye Xuan on the spot, but now the 10,000 people are still in the hands of the other party. I don't know where to turn. He subconsciously restrained this impulse, full of anger, all crouching around. The Yin Mozu people vented the past.

If the 10,000-nation people who have been abducted can still get it back, it is not bad for these two thousand ethnic groups. If the 10,000-nation family can't come back... then it will be better to die, to be clean, and to save yourself!

As soon as I read this, the Yin Emperor suddenly flashed a slap in the face, and raised his hand to the ground in front of him. He slammed the palm of his hand and said: "So stupid, what does the Emperor want for you?"

"boom!"

"Booming..."

In the next moment, with the sound of the earth-shattering energy roaring, the vast ground beneath the ground was completely turned into powder, and the flat land of the square was actually a huge deep pit under the remote control of the Yin Emperor. .

Such a means is really awkward!

Ye Xuan didn't even see any energy surges, and there was no trace to follow, but if a large piece of ground and a thousand black and white people who squatted on the ground and pressed black, they disappeared completely. It is.

Within a thousand squares, don't talk about hair, even the rock has not left a piece, as if it was vaporized instantaneously, it will evaporate directly!

Ye Xuan took a sigh of coolness and scared the white hairs of the back. All of a sudden, it was beyond the power of the singularity of the stars, and it was just a palm of the hand. Even the ghosts and claws did not show up. Russ, really want to shoot yourself, that's got it?

In the heart of the slight tremor, a more intense sense of crisis shrouded the body and mind, Ye Xuan did not dare to delay too much, taking advantage of the opportunity of the opposite emperor's anger and distraction, shaking hands will be the body of the immortal world of the desire to smoke come out.

"call out!"

Bao Luo just appeared from Ye Xuan's palm, and there was a figure in it, like a **** lightning, spurting toward the opposite yin of the emptiness.

It's the corpse of the corpse!

At this moment, she was completely injured by the siege of the ten Qiang Kun, and thought that it was the refining of a large number of congenital yin and cold spirits that had been taken before, and the breath actually rose slightly, although it was still the nine-step big Complete, but infinitely close to the star territory.

I'm sure I'm going to stop the Yin Emperor and get some time for Ye Xuan, or it's completely ok...

Chapter 3463: How could this be

"call out!"

As the cadres and marshes rushed out at a rapid speed, the ancient treasures that had just been sacrificed by Ye Xuan were smoldering and smashed, and turned into a **** sculpt. Horses, directly to the neck of the Yin Emperor.

This treasure is different, Shouneng can be turned into a curtain cover, and the attack can be turned into various forms of killing soldiers. In Ye Xuan's hands, it may not be able to exert too powerful power, but now it is The ancestral drought is such an infinite proximity to the existence of the star's main territory, and its power is terrible.

Both the speed and the invisible killing and sharpness are shocking.

Even the super-old sinister emperor of the star's main territory, can't help but look at it, his face is a touch of color, and immediately retreats and retreats, blinking thousands of miles away, but the mouth is proudly screaming and laughing: "Hey... ...good baby, it is a wild treasure of both offensive and defensive!"

"There are more than a half-step star in the main situation of the drought and the remnant soul for the spirit, the truth is extraordinary, this treasure ... the emperor wants!"

In the strange laughter, the old guy even waved a sharp hand. In an instant, it was easy to shoot a dark green mans in the palm of his hand. It instantly turned into a slashing claw, and he would smash the blood and the corpse that went to him one after the other. The ancestral marshes are all shrouded in the shadow of the claws!

It is the blood of the Nether's family, the ghost claws!

Nowadays, the Yin Emperor has already returned to his ancestors and created the body of the Nether. Naturally, he has also acquired this talented magical power in the blood of the Nether.

The main body of the star is really extraordinary. It is only the first time to display it. It is also clear that it is a bit oyster. The wave can condense a huge dark green claw, and the sigh of breath will come, even thousands of miles away. Ye Xuan, there is a feeling of trepidation, too strong.

The same magical technique, but it was displayed in the hands of the Yin Emperor, and Ye Xuan's performance was simply judged.

The corpse of the ancestors apparently did not dare to resist, and the body shape swayed away, and the danger was dangerously taken out from the side of the claw before the dark green claws fell.

However, the blood color of the smoldering of the smoldering is faster. Under the control of the karst of the corpse, a flash of lightning rushes out of the area covered by the claws, and once again slams into the yin.

"boom!"

However, at this moment, the side of the corpse of the corpse was suddenly faintly thundering and screaming. Under the change of color, her figure suddenly stagnate and she retired.

Unfortunately, it is already late!

The old guy on the opposite side is worthy of being a family member of the Yinmo family. It means sinister and sinister, and the singularity of the singularity of the singularity is actually a sneak attack. The ghost claws are just a sham shot, and the invisible power that is blasted in the dark at the same time. Is the real killing trick.

"Humph!"

The great power of the fifteenth world has been able to come into contact with the law of the universe and the sky, and the existence of the star's main territory is obviously stronger. In this respect, most of the special mysteries have been mastered, thousands of miles away. And it is still such a majestic energy, the Yin Emperor secretly blasted out, there is no trace, even the ancestral marshes are only to be shocked when they rushed to the front.

Although he avoided it in time, he was injured by the invisible energy that passed by, and his body swayed, making a painful sigh.

Seeing this scene, the Yin Emperor in the void in the distance, once again, smirked again: "Oh... you are a half-step star, but you don't take this step, after all, only for the ants!"

"Submission, it is not easy for the Emperor to read your practice. You can accept you as a slave. Hey, look at you, you are already a remnant soul, but still alive, I don't want to be completely annihilated."

"The old hybrid is too shameless, and the main star of the house is a sneak attack! Bao Luo is quick to return, the power of the old hybrid is too strange, there is no trace to follow, and immediately turned into a curtain to protect the ancestors..."

The threat of the imperial ego was degraded, and Ye Xuan, who was in the void, had already slammed his feet and slammed his hands, and raised his hand to the far side.

"call out!"

In the next moment, I was rushing away from the yin of the Yin Emperor. I wanted to sculpt his **** color, and quickly whirl back, and then blinked to Ye Xuan, and the body was full of flames. The seemingly fierce corpse of martyrs, but also stopped at this moment, spurred the teleport.

At the first time, Ye Xuan issued a command to the system to immediately start the full-speed interplanetary coordinate jumping ability at full speed.

However, he himself has not been idle, and he is fully motivated to know the dark green claws hanging in the sea and ready to go.

At the moment, although only a short amount of interest has just passed, but the system's response has arrived, the level-level interplanetary coordinate jumping ability has been warmed up, and it is ready to jump away at any time.

"Old hybrids, it seems that the ancestors taught you, what is the real power of the ghost claws..."

Under the flash of the fine mans, Ye Xuan shakes his hand and throws a mile, and yells toward the Yin Emperor thousands of miles away, and the wind rises, and the blink of an eye turns into a huge green ink claw!

Then the dead claws blasted, and the overwhelming yin energy spread and swayed into a dark green scorpion like a mountain. The **** smoldering smoldering flickering in the scorpion, opened the mouth and screamed in the whistling go with!

Previously, the corpse of the corpse had won time for him. At the moment, Ye Xuan sacrificed the ghost claws, and also directly activated the second form of this magical clawed genius, and more specifically, to attract the attention of the other party with words, purpose, It is the cover that has been withdrawn by the drought-stricken drought machine.

"Well? It really is the Nether Claw, but there is still such a change? Why did the Emperor not know? The little bastard, what is your origin?"

Sure enough, I suddenly saw that Ye Xuan exhibited the second form of the magical power of the clawed Nether, and the opposite side of the emptiness of the evil emperor in the emptiness of a thousand miles away, the attention was immediately stunned by the speed of the anger. Mouth, looked at the huge dark green scorpion that swallowed it.

The mouth was horrified, and then he laughed again: "Exhausted... but it doesn't matter, no matter what your origins, after the Emperor will take you down, you can learn the soul, including all the secrets of this ghost claw. !"

"call out!"

At the same moment, the smoky smog that turned into a **** color also came to the front of Ye Xuan. The ancestral scorpion was directly teleported, and the step returned smoothly, turning into a **** man, and broke into the smog.

"Old hybrids, see you next time, this ancestor will marry you!"

Ye Xuan's heart was big, and he grinned, and even raised his hand and shook his head toward the distant emotic. "But today, even if the ancestor is a little lacking, take a step first... don't send it, Come back!"

"call out!"

The voice has not fallen, Ye Xuan's body shape has completely disappeared. This time, the plane-level interplanetary coordinate jumping ability is unfolded. Even the whirlpool of the space of the Zhang Xuanyuan circle has never appeared, as if it disappeared out of thin air, but There is no trace of space energy fluctuations.

When even the ugly ugly look silly eyes, the dull color of the face, muttered to himself: "What about swelling? This is not a teleportation! It is not a transmission! It is not a blind eye that hides the shape of the body! But This kid... is it swollen?"

Chapter 3464: Frying out

"No matter who you are or where you fled, if you don't marry you, you will never return home!!"

"boom!"

After a brief sigh, the face of the Yin Emperor instantly sagged to the extreme, making a roaring sound and roaring in the sky.

Then he punched out, this time, although he did not show the blood of the Nether's family again, but the power of the body is full of rushing out, like a vent, the huge dark green **** that swallowed toward the sky. Boom.

Then, the Yin Emperor did not see the result of this fist, and the shoulders disappeared.

When it appeared, it was already outside the yin nest. You must know that the yin nest is a congenital chilly land. It is considered to be a semi-independent space like a mysterious and cave-like space, and the second universe of the outer world is empty. There is a semi-open channel connected.

The Yin Emperor took one step at a time, and actually came directly from the yin nest to the second universe void outside the nest. This is not a teleportation. It is clearly capable of some kind of cross-border advent.

Of course, this is not a true leap in the world. After all, the Yinchao is a semi-independent space, and the coordinate transmission ability across the cosmic plane brought by the Ye Xuan systemic title is completely incomparable.

But at least, as the only reason is only a few thousand miles away from the void distance, if the Yin Emperor wants to stop Ye Xuan from leaving, it is entirely possible, so it can be seen that Ye Xuan had previously done to distract his mind. Those means and actions are really necessary. If he is not careful, it is very difficult to be good today.

Either being shackled or forced to the end, the headless baby who turned into a corpse lamp tattoo was helpless. At that time, his biggest card was completely exposed!

"boom!"

"Booming..."

At this moment, with the appearance of the Yin Emperor appearing outside the yin nest, the head does not return to the ground. Even if it plunges away, the inside of the semi-open space channel behind it suddenly has a huge sound of explosion. .

This is the movement caused by the huge dark green **** that was blown by the Yin Emperor and then the two energy hedges.

In order to cover the karst of the corpse, Ye Xuan used to display the ghost claws, and when he showed this dark green bone, he had already exhausted his full strength, and the Yin Emperor was the super old monster in the main territory of the 16th big star, with anger. Under the full force of a punch, the power is even more terrifying.

These two energy impacts the hedging, triggering a chain reaction in the yin nest, and the voids are blasted. This place was originally a semi-open secret, plus the full pool of congenital yin and cold spirits contained in it. Ye Xuan took away the pot and caused the nest of the Yin nest to be unstable.

Now, there is such a level of energy roaring inside, and the result is that the entire yin nest has been fully exploded, turning into a vortex of emptiness flowing through numerous tiny hollow cracks. The degree of danger is definitely a stranger. If you are not close, it is the great ability of Qiankun to step into it.

For all this, the Emperor Yin has completely ignored it. The nearly two thousand people who have stayed in the Yinchao have been stunned by his anger. Other ethnic groups have been abducted by the guy who just fled, and they have disappeared.

He himself roared and roared, vowing, not yelling at each other, swearing not to return home.

Therefore, the roaring explosion inside the yin nest was fierce, and he never looked back. He was suffocating, and his eyes disappeared at the end of the void, and he was no longer visible.

Since then, embark on the road of never returning, exhausting the three universes... the road to kill!

.....

The second universe, the starfish field of the tortoise!

Ye Xuan has been away for a long time, but this piece of void is still a battleship at the moment, densely spreading a vast expanse of the Milky Way.

Thousands of warships, forts and large and small star fortresses, none of them left, still ring-shaped, surrounded by lonely black lions.

In the void in the air next to the Black Lion, the people of the Yin and the Devils, all of them are all necked down and honestly lined up, including the three old people, including the Yin 7 and the old, who dare to breathe. .

Even the Yin 7 and the Yin 8 and the Yin 9 are only the late 12th, but there are a total of ten Qiankun powers in the eyes. It's strange.

The entire Black Lion has been searched several times inside and outside, but the ten great powers have not been able to find any traces from beginning to end.

Now they, even the **** Netherful Remains have already left with some unknown mysterious means, or they are still hidden by some unknown, even the mysterious means they can not detect. Inside the Fortress of the Black Lion.

Therefore, due to careful consideration, not only did they not leave, but even the space oscillators of thousands of warships and fortresses around the world were not closed, so as to avoid the calculation of the Nether and the lesser, and they were sent by the speculative machine. !

This is a long time!

Among the ten great powers, there are both those who are proficient in arrays and those who have a little research in the space law. However, at this moment, there is no way to look at each other, but they can only blink each other.

Including the four-space star in the three major universes, most of the top forces in a fleet of star-studded powerhouses, basically all the same, all people are not willing to leave, but can stay but can not do anything, The dry and consuming sound of the turbulent space oscillating device is so irritating!

It was also at this time that an explosive and shocking news suddenly came.

The old nest of the Yinmo family has undergone tremendous changes, and the nest has been blown up!

The news came from a small ethnic group near the Yinchao star field. The first time, this shocked world was shaken to the interstellar network of the Second Universe.

Today's yin nest has been turned into a huge emptiness vortex, filled with numerous large and small void cracks, the energy inside is raging, and a new star-level fierce land is born!

The reason is that it is said that the patriarch of the Yin Mozu and a mysterious existence have made a big fight. The guy is the ancestor of the fake Yin Mozu, who claims to be a sinister cow. The reason why he wakes up the Yin Emperor is because He smashed the congenital yin and cold spirits in the entire pool of Yintan, and caused a pot to fall off.

The final result of this war is that the mysterious existence has successfully escaped. The patriarch of the Yin Mozu, the dynasty, angered and smashed all the people left behind in the Yin nest and left.

Have not yet stepped out of the Yinchao Star Field, they have already released words, let the other side wash their neck and wait, the star of the super-royal chasing, not everyone can bear...

With the news coming, the corner of the tortoise star field suddenly fell into a dead silence. All the star powers, including the ten great powers, were completely sluggish, and the brain was banging and screaming. More than color.

After a long time, someone muttered to himself...

"How is it possible? How long has this been? Has it actually arrived at the Yin Nest, and have both fought with the Yin Emperor?"

"So far away, it is a fortress with a diameter of 100,000 meters. It has to be reached after several wormhole jumps..."

Chapter 3465: Four enchanting

After confirmation by many parties, and repeated verification, in the end, after confirming that this news is indeed true, the ten Qiankun can completely smash!

For a long time, some people shook their noses and screamed at the Yinqi and other people who showed their ecstasy on their faces, and they immediately left them.

It is not that they are afraid, although the patriarch of the Yin Mozu, who has successfully returned to the ancestors, has molded the body of the Nether, and since then broke through the universe and entered the 16th world and became the super-role of the star.

But behind the major forces of the main event, there is no star-level blame that goes beyond the hustle and bustle, and even more than one!

The key is that disgusting can not afford, the Lord has already ran, is it necessary to keep this idiot out? This can only be a joke, not to mention trouble, it is unwise!

Soon, the Yin 7 and Yin 8 and Yin Jiu three old guys took the 10,000 people and re-entered the Black Lion. Although the Star Fortress is a warrior, their old nest is fried. It became a whirlpool of emptiness, and even the land of the body was gone. Naturally, the Black Lion will not be missed.

In the future, he will wander in the cosmic galaxy!

At this point, the storm of the sea star field of the tortoise is considered to be temporarily stopped.

The fake Netherful Respect became the only big winner. Not only did he take away the ridiculous treasures, but also the ancient powers of the nine-order grand sacred, and even the roots of the sinister family, that is, the depths of the yin nest. The vast amount of congenital yin and cold spirit liquid in the vast white pool, all give a pot end, half a drop does not stay.

In addition, under the banner of the Netherful Respect, using the deterrent power of the tortoise ancestors, in the sea star field of the tortoise, smashing and searching all kinds of treasures and cultivation resources, and also the name of the protection fee...

It can be said that you have earned a full overflow!

At the same time, however, there are many disasters and troubles in which Nether is less accustomed to the upper body.

The first is the chasing and killing of the Yin and Yin tribes. This is a star-level eccentric in the 16th dynasty. The tribes are being abducted, the ethnic groups are taken away, and even the old nests are blown up. Absolutely It's the hate of the sky, no wonder the roaring public vows, don't marry this person, vow not to return home!

It is conceivable that in the following days, even if there are countless stars in the three universes, the path of the Yin Emperor's pursuit will never stop. Once caught, it is definitely not dying. The rhythm!

Not only that, but in addition to the Yin Emperor, the tortoise ancestor and even the entire Turtle family, this time has also been used, if not the ancestor of the tortoise ancestor worship the banner of friends, then the fake Nethery less respects this way Is it possible to cross the sea star field of the tortoise, and the protection fee is almost soft?

What's more, his identity was originally fake. This is a deception. The genital genital temper is no better, and no matter what the world is, it is hard to swallow it!

Of course, there are also the Second Cosmic Federations, such as the War Lions. After this incident, almost all of the fake Nethers are miserable, even those from the First Universe and the Third Universe. As with the strong ones, as long as they have received protection fees, they are all the same!

Even a small number of forces that did not pay protection fees, secretly hate it, no it, this time they ran a slap, and was also played by people, suffered a lot of anger, can not hate?

Alone, he was able to attract nearly half of the forces of the three major universes, and he hated to gnash his teeth. This fake genius is not an ancient one.

After the matter spread, the three major faces were all together!

Some people exclaimed that the fourth generation of the world's enchanting genius was born!

The previous three enchanting enchantments have been recognized.

The first one is the Xuan prince. Although he has recently been quiet, he alone swayed the first universe, disturbed the celestial family and issued the first cosmic order, and brushed it at an incredible speed and manner. On the federal points list, once entered the top ten, and finally stabilized the eleventh, becoming a federal national idol, as a enchanting.

The second one is the invincible **** of war that is still in the third cosmic humanity camp. It is said that in order to hunt him, the ten heavenly palaces have already dispatched four vice-presidents of the Qiankun era, and even The nine-order grand perfection of Qiankunjing, known as the half-step star master of the dynasty palace.

Even so, the invincible **** of war is still at large, and from time to time to come out toss a bit, with a disgusting pursuit of his ten strong palace strong, and finally, with a wound dying to escape.

The next time I come out again, I will still be alive and kicking and continue to toss...

Such a means is also a enchanting!

What is even more intriguing is that until now, the true identity of this invincible **** of war has not yet been fixed. No one knows whether he is the singer of the ninth house of the sixth prince, or the immortal dynasty The avatar.

If it is the latter, then Xuan Huangzi is really too horrible, and the deity and means are enchanting, and the power is against the sky. It is simply a small force that cannot be killed. If it is a joint effort, who is the enemy today?

The third one is naturally the sorcerer, and everything about him does not need to be described. After all, it is just the end, whether it is the human race, the second universe, or even the first universe. All are still fresh in memory.

It is a pity that this singer is called the singer of the three geniuses, and after all, he has not been able to grow up, he died early, and he was exiled to the endless stream of turmoil, and there is no return.

Mentioning this matter, within the three universes, there are many abbots who sigh.

The fourth is more mysterious. So far, all the forces of the three major planes have not only wondered where he came from, but suddenly he appeared, even if he is human, or other races, or It's really a mysterious family, it's completely undetermined!

For this reason, when someone mentions the patriarch of the Yin Mozu, the look on his face is often eccentric, and the vagueness seems to reveal compassion and intolerance.

The star-level grotesque in the 16th dynasty of the Tang Dynasty was so mad that it took the old nest and lost the entire ethnic group. It also had three major faces to fill the world and pursue it. Then, the most important thing is... Old people who are the ones who chase themselves are still not aware of it!

It's terrible to say!

In addition to the patriarch of the patriarch, the yin and other tens of thousands of yin demon remnants, in fact, the horror is also not much difference, the old nest is gone, can only wander in the universe, even the patriarch Yin Yin did not dare to find, because this time The faces of the entire Yin Mozu were indeed lost by them.

The family was abducted, and the Kowloon-style green car was carried in the sky to sway through the city. From time to time, there were a few more sacred sacred ancestors, and Shou and Tianqi were nothing. In the end, they were turned into a smashing ghost. The hostages of the big forces... This has long been the biggest laughing stock of the three universes for thousands of years.

If you look for the past, if the patriarch Yin Yin is angry, it is really possible to shoot all the dead. Anyway, he has already shot a small two thousand!

There is a star-level main backing in the 16th dynasty, but you can only look at the dry eyes. The sins of the sinisters are really miserable...

Chapter 3466: Eyebrowless

With the departure of the Black Lion, a fleet of top-level forces from the three major universes in the void has also dispersed, and the ten great powers have been drifting away for the first time. It's too embarrassing, they can't wait to stay away for a moment, don't want to stay here for even a second!

Since then, this time the storm of the second universe of the sea of turtles has completely ended.

However, the follow-up storm caused by this incident is obviously far from over and will be tossed for a long time.

The battle and the brooding ancestors are still together, and they are not separated. They are going together. However, the faces of the two old guys are very gloomy, and it is estimated that they can squeeze out the ink.

They think that they have mastered the opportunity, and they have already guessed the identity of the fake Nether, and they use the means of the two of them to make a secret calculation without knowing the other side. This time, they will be able to get what they want. The fox lord was ordered to win the heavy treasure in his hand and unearth all his talents and secrets.

However, the result was disappointing, and the young lords of the foxes were still calmly removed in the eyes of the public. It was said that the injuries were recovered in the independent compartment of the Black Lion before leaving. .

This is simply blushing, especially when I think that the two of them actually thought that they had to withdraw in advance, hiding their body shape and breath, crouching in the distant sky, thinking that this is the oriole, the two old guys I feel that my face is burning like a panic!

"It seems that the secret of this kid is not simple. So in the eyes of the public, I can still leave with ease. It is impossible for you and me to do it."

"What is even more ridiculous is that in a short period of time, he actually appeared in the nest of the Yin Mozu's old nest. This is simply a thought, that is, the main star of the 16th world can not do it. It's too mysterious."

After leaving the starfish field of the tortoise, the two old guys limped in the void, and the murderous sorrows in the battle, and the tone was unwilling to say: "The whole emptiness of the whole mile is blocked. The effect of thousands of space oscillators is not a joke. All teleportation, transmission and other means can not be applied. Even if the transmission array is used, it is not effective."

"But this kid has actually left, there is no trace of it left. It seems that he has a magical weapon in the hands of the ancients to the treasure level, or he has some sort of supernatural power or secret technique, and the law of the universe. Related, and not simply involved in this aspect!"

"This child can't stay! Once you grow up, you are afraid that it will be harder to suppress. Moreover, the heavy treasures and the mysterious magical powers in his hands seem to be more and more. Only this time, there are the ghosts, the ghosts and the claws. A kind of anti-day transmission ability, coupled with the desire to smoke, not to mention you and me, is the star-level eccentric in the 16th world must be tempted..."

Speaking of this, the war-torn language was slightly overdone, and the eyebrowless ancestors who had smothered alongside one another took over the words. The triangle eyes were full of fierceness: "How about that? The talents are going against the sky, the treasures are more, the magical powers Strong... his repair is a short board after all!"

"The tenth stage of the tenth day is only seven steps. If you want to grow up, I don't know what year and month. You and I have time and opportunity."

"What's more important is that his identity is only known to you and me. Even some of the 16th-level masters of the Stars are moving to him, but the information and intelligence they have is not as good as you. Complete, we still have an advantage."

Next to it, the war sneer sneered up: "Is it a short board? Hey, don't forget the smog in his hands. Although the treasures of this ancient treasures are only awakened, they have the same power. Ten terrorist powers of Qiankun and Qiangeng have been successfully completed before, and it is said that after the recovery of the injury in the Yinchao not long ago, it is even further. It is a half-step star owner who is infinitely close to the 16th realm. With you and me, I am afraid that I will block the thief, but I can't help him!"

Speaking of this, the war-torn seems to suddenly think of something, a sigh of sigh: "I am really reluctant, the kid's body must have a big secret, otherwise how can the corpse drought suddenly recognize him as the main? That is a The power of the ancient times can make this kind of existence surrender, even if it is only a broken source of spiritual knowledge, this is enough metamorphosis, and it is not the same."

"Because of this, you and I can't stop, and we can't stop!"

When I mentioned the karst of the corpse, the eyebrows and ancestors shot the sinister eyes in the three corners of the cold and cold, and smirked and said: "The old man made an idea, but said that after the success, the smog All the husbands, as compensation, other treasures or magical powers on the kid, etc., are preferred by you, oh, you know, the old man is good at this, has not played the ancient times of the glory..."

"But one side wants to smoke, it is a foreign object. You and I have been together for many years. If you like it, take it."

Taking advantage of the lack of eyebrows and ancestors, the heart of the ancestors was swaying. When it was not long-awaited, the bottom of the war and the squad flashed a slap in the face, so I casually replied, and then I asked: "But what you said is really effective? The kid can't handle it now."

"Oh, it seems like I have forgotten the three gimmicks. Fortunately, my ancestors have no other hobbies. It is the most beautiful thing for the beautiful women. The three cockroaches are all beautiful. I have always remembered the old man. It is."

As said, the color of lasciviousness on the face of the brooder is suddenly more intense: "If there is no accident, the relationship between the three gimmicks and the thief should be extraordinary, and most of them know its many secrets, as long as Grab them, even if they can't force the fox thief to submit, at least it will make you more aware of the secrets and details of this child. Naturally, there will be more means and choices for him."

"It's just that the family and the forces behind the three gimmicks are extraordinary, but the foxes and thieves have no trace at all. You and I have no way to start. You can only make an idea on these three gimmicks. It's just that this ancestor may not have been there for a long time. I have tasted the ecstasy of a dragon and three phoenixes, and they are all so beautiful, really two birds!"

"Ha ha ha..."

Looking at the eyebrows and ancestors, laughing and laughing, the meaning of sinfulness on the face is no longer concealed, and the sorrowful color of the bottom of the battle is getting thicker, but this is indeed a good method. He is also extremely recognized, slightly After thinking about it, I also laughed...

.....

At the same time, the first universe, the life hole of the devil's star field!

"call out!"

A very weak sound of breaking the air rang, and Ye Xuan's figure suddenly appeared without warning. Then I turned around and looked around. After confirming that it was indeed the familiar first black hole of the universe, I was always hanging in the eyes of the blind man, and finally finally fell back, and then extended the knowledge to the surrounding.

In the next moment, Ye Xuan's face changed wildly and he exclaimed: "How is this? What happened..."

Chapter 3467: Warrior

Although the Void squad is only present in the black hole of life in the first universe of the devil, at least, it is only found here.

However, the number of soldiers in this ethnic group is actually a lot. Before the **** corner of the scorpion, the emperor of the ethnic group was destroyed, leaving the eight-star king's scoop in the late three-point original point, and tens of millions of soldiers.

When Ye Xuan left, he took away an eight-star king scoop and a hundred thousand soldiers scoop, while in the black hole of life, there were two eight-star king scoops and tens of millions of soldiers, and the reason why Ye Xuan did not Take away, on the one hand, it is not necessary, on the other hand, it is to let them guard the black hole of life here.

After all, his interstellar coordinates in the first universe are branded here. This place is like the same secret. It belongs to the semi-independent space like the old devil's nest. There are still some forces. Ye Xuan does not want to expand the interstellar coordinates in the future. When the ability appeared, the body shape appeared, and it was found that all around it was a strange existence.

That is too cold.

Although the black hole of life is vast, there are tens of millions of emptiness soldiers who live here. If it is a parade here, basically every time there is a void distance, how many soldiers can be seen.

Tens of millions are not a small amount.

But at this moment, Ye Xuan's knowledge was extended, but even a hollow scorpion was not explored.

To be precise, there is no one living!

Yes, although the live Void Scoop is not, but under his knowledge, Ye Xuan has discovered at least hundreds of thousands of Void corpses!

So floating in the void inside the black hole of life, basically broken, there is no breath.

Strictly speaking, the Void Scoop is not really a living being. This group, like the supernova of the stars, is a kind of existence between living and non-living matter.

It is actually an impurity that the void medullary crystal repels during the process of self-condensation. Even so, it is hard enough. The void medullary crystal can be a cosmic plane or a huge independent that has not yet grown to the degree of the universe. The galaxies, after expanding to the extreme, enter the sinking and form the product.

At the end, it will be turned into a tiny origin. After the condensed to the extreme, once the conditions are triggered, it will explode again and enter a new expansion phase, so that it will start again.

The hollow medullary crystal that Ye Xuan got, although not yet condensed to the extreme, is small enough, at least a vast star field, condensed into a medullary crystal like a meteor, showing its density.

Even the impurities that are rejected in this condensation process are far from being comparable to ordinary minerals, and they are hard to notice.

These so-called impurities, which are excluded, form a family of soldiers and are given a unique energy fluctuation, making them look like living things.

At the moment, the hundreds of thousands of soldiers in the emptiness around the sky, not only the solid crystal body is smashed, but even the unique energy fluctuations they have been given have completely disappeared, just as the living body has been robbed. The soul is general and completely transformed into dead objects.

Obviously, after a fierce battle, the hundreds of thousands of soldiers scouted by Ye Xuan's knowledge broke the crystal body and fell in the war.

Among the hundreds of thousands of soldiers and calves, Ye Xuan did not find the two eight-star kings left behind in the black hole of life. It can be seen that they should lead the vast majority of other hollow weapons to rush out of the black hole of life and chase them. The enemy who killed the attack went.

Or, it has been captured all!

The latter possibility is even greater, because the battlefield is clearly inside the black hole of life, otherwise the remnants of these hundreds of thousands of soldiers will not appear here. After the enemy has fought, how can the veterans of the soldiers be sent to their nests? ?

The possibility of the soldiers' chasing group packing their own battlefields and bringing the warriors and relatives back to the old nest is absolutely non-existent, because the remnants of the hundreds of thousands of Void soldiers are completely randomly distributed.

Since there is strength to directly attack the old nest of the soldiers and clans, and use this as a battlefield, then the strength of the enemy of invasion can be imagined.

Under this circumstance, the possibility of being captured by the soldiers was obviously better than that of the enemy who was chasing and killing under the leadership of the two heads and eight scoops. Therefore, they left the place and were more reliable.

Realizing this, Ye Xuan's whole heart sank to the bottom!

The soldiers are in danger!

Tens of millions of emptiness soldiers have killed hundreds of thousands of people, and most of the rest have been captured. This is absolutely a disaster of ethnic extinction.

Ye Xuan can't sit back and ignore it!

"Tianji family?"

In the light and shining, Ye Xuan gnashed his teeth from the mouth with three words, an invisible fierce breath, and instantly rushed out of the body.

Judging from the endgame of the battlefield, although the invasion of the black hole of life cannot be just a few powerful existences, at least it must be a huge fleet. Ye Xuan even captured the anti-material energy of the dead light cannon from the void, and quite Complex, indicating that the other party not only used the 100,000-meter-diameter star fortress, but also not a two-seat.

At least dozens or more!

Here is the first universe. No matter the human race or the second universe, it is basically impossible to send such a huge fleet. Otherwise, the three cosmic planes have already been fried. This is comprehensive. The rhythm of the war.

Before the immortal dynasty was under such great pressure of public opinion, it was just that Napoli brought two star fortresses to the first universe. This is the truth.

In the first universe, among the slaves, there is no such thing as a large fleet of forces that can be dispatched at one time, including the devil.

Only the heavenly family that dominates this cosmic plane can do it!

In this way, the truth will be revealed... The two missing eight-star king scoops and the tens of millions of emptiness soldiers are definitely taken away by the Tianji people!

"It seems that this time it's really time to come back!"

"From the traces of the battlefield and the energy of the air left in the void, the battle that took place in the black hole of life is not too long and should be within a month."

"Since the celestial family chose to take away tens of millions of soldiers, instead of killing them on the ground, it means that they have other plots or uses. No matter what it is, at least one thing is basically certain... only a month has passed. The captured soldiers' scoops should not be disposed of."

"After all, it will take at least a few months for them to return to the base camp of the first universe in the first universe. They are still on the way!"

In the muttering, Ye Xuan's figure suddenly flew, and the target pointed to the exit of the black hole of life. The fierceness that rushed out of his body was even more intense: "It's rare to come back once, but it's a little regrettable last time. Going and patronizing the superstar fortress that is said to be more than a million meters in diameter, that is, a thousand kilometers, is just like a star-like super starry fortress. This time, you can't miss it again..."

"The Tianji National Base Camp, Laozi is here..."

Chapter 3468: Narrow road

The first universe, the devil's star!

In the void, a small fortress of 50,000 meters in diameter is sailing unhurriedly. It is the magic war that has just returned from the Third Universe of the Terran.

In the battle of the Tianchen National Star Field under the rule of the Heavenly War, it represented the defeat of the Demon War.

Even Sha Baofeng, who has already exhibited the ultimate mechanical integration ability of the core of the Celestial family, has even been stunned by Ye Xuan's Xingye, and not only has been stunned, but even limping.

The drawback of this kind of mechanical fusion is that although the hull will be wounded in the battle, the Tianzu ethnic group who merges with the hull will be affected to some extent.

If you don't look at the face of the demon king's uncle Mo Qigong, Ye Xuan will kill him on the spot.

At this moment, Sha Baofeng is in the top control room inside the martial art of the Little Fortress. The face is full of the color of grievances. Looking at the empty space outside the teeth: "Lake Fox, you wait, the deity will not let you go." Unfortunately, you can't wait that day, and you have already been exiled..."

Although the magic warfare has been fixed so far, there is no way to open the wormhole. As for the injury of Shabaofeng, it has completely recovered, but the pain in his heart has been long-lasting and has never been forgotten.

This war is simply a shame.

Moreover, he realized that he was in a strong crisis.

The fox lord is too enchanting, it is a metamorphosis, the drug squad is three, but actually mastered the core of their celestial family, only a few patriarchs were given a part of the esoteric mechanical fusion,

rumors than him They are all high, and the other party has nothing to do with the Tianji people. It is obviously self-researched, which is simply unimaginable.

For this reason, Sha Baofeng will rush back to the first universe after repairing the magic warfare. He must meet the patriarch of the patriarch as soon as possible, and report the details of the matter one by one.

At the moment, after entering the first universe, the Devil Wars is rushing to the Emperor Star, intending to stay there for a while, and then returning to the Tianzuo mechanical nest in the first universe, which is the diameter. A giant star fortress that reaches a million meters!

It was also at this time that Sha Baofeng's eyes suddenly widened, and the degree of exaggeration almost fell out of the eyeballs.

Through the transparent warfare of the top of the battlefield, the wall used to enjoy the night view of the starry sky, he saw a figure that should never appear, at least should not appear here.

It was just the moment he was still mad at the fox!

At this moment, he should have been in the sky of the first universe, and he was not too far away from the magic warfare, and it was just over 10,000 miles. One person plundered in the void.

Although it is only a side, Sha Baofeng recognizes it at a glance, and even if he is turned into gray, he can recognize it and never hate someone.

"what....."

After a short period of sluggishness, Sha Baofeng's eyes were red in an instant, roaring and roaring like a thunder: "Damn, why is this kid so big? Ming was exiled to the vain air, and he lived here. What kind of transport is this? Has he found the void path that he came back to? Is it just connected to the magical star field of the first universe?"

"But it is also good. It should be God's will. It is destined to let the deity personally defend the enemy. This time, the defeat of the deity has broken through. The mechanical integration ability also has new experiences and insights. Must be jealous of you."

"Can't wait, it's now..."

In the roaring, Sha Baofeng's body shape melted like mercury, and it penetrated into the cockpit alloy ground under the foot. Once again, the mechanical fusion ability was launched...

"Card!"

"Card..."

In the next moment, the dense card screamed and rang out, and it rang through the void. This is not the sound of lightning, but the sound of mechanical operation that comes from inside the squad.

The structure inside the huge hull of the entire Warfare is changing in all directions, and all the parts and mechanical devices are rearranged. All this is the result of Shaba's conscious manipulation. Now he has completed it at a faster speed. The perfect blend of the magic warfare, like this small fortress of 50,000 meters in diameter has been born wisdom, has become a small fortress-level mechanical life!

The process of change was extremely rapid. First, the internal structure changed, rearranged, and then extended beyond the hull. The shape of the entire battleship began to change.

A strip of steel limbs stretched out, more sloping corners, tentacles, and a black razor blade like a giant trowel. In just one minute, the magic warfare has changed completely, and the previous small fortress disappeared. I don't see it, it is completely turned into a mechanical warfare that looks like a knife and a knife. A sickle arm has a huge size of 10,000 meters, and it is big enough to be horrible!

In addition to the change of appearance, the internal structure is also developing towards the talent attribute of the knife, possessing the horrible jumping power, and the blink of an eye can be endless empty, and the speed is amazing to the extreme. Like a giant blade, the blade is sharp to the extreme, and the same level of small fortress can be directly split into two halves.

This time, the fusion of the war, in addition to the original hull main gun was retained, moved to the belly of a giant mechanical knife, the back is a pair of huge wings like a light, but it is not used To fly, but to play the role of energy shield, wings can be turned into a complete circular energy defensive cover, to protect the entire body of the mechanical knife.

There is also a sharp-edged spear with a barb on the back of the knife, no less than hundreds, each can lasing out and pierce everything.

Before the war with the Devil Wars, the mechanical demon that abused it could not be used. There are giant hammers and tails. Today's mechanical knives have alloy spears, each with its own merits.

In fact, these two tricks, he learned from the Ye Xuan Longye mechanical monster, got inspired and made him more confident!

It was also at this time that Ye Xuan, who was grazing in front of the sky, finally found the change here, and his face became strange.

After rushing out of the black hole of life, he restored the identity of the young fox, because the identity of the sorrowful sorrow is not suitable here, which is reminiscent of his ability to transmit across the universe. The fox lord, because it was exiled to the vain air, the coldness suddenly appeared in the first universe, but it will not be doubtful.

The turbulent void was originally full of all kinds of unknowns. It might be normal to find a void crack connecting the first universe. It is very normal, although the chance is small enough to be negligible, but no one dares Say nowhere.

However, what Ye Xuan did not think was that this was just after leaving the black hole of life, and actually encountered the magic warfare. It seems that the other party has just returned from the third universe and is heading for the magic king.

The universe is empty, so you can come across it.

Chapter 3469: Fight again or abuse

Coldly seeing the magic warfare, Ye Xuan slightly sighed, lamenting that the road was narrow, and his face was immediately gloomy.

Sha Baofeng in the Devil Warfare has clearly seen it. Even the first time, the integration of the machine family has been carried out. The whole battle warfare has once again turned into a huge mechanical knife.

It seems to be more powerful than the last time. There is a dense and sharp metal spear on the back. Even the visor guards that can attack and defend can be used. This is clearly learned from the Xingye.

"I can't find the celestial family to let the lord vent the fire. Since you took the initiative to send it to the door, the lord will be embarrassed, and then you will be abused..."

The change of the Bingxuan group had already caused Ye Xuan to be extremely annoyed. At this moment, he met Sha Baofeng, and the other party actually took the initiative to show his teeth. Ye Xuan would naturally be polite. In the sneer, he waved his hand in the body. The Fortress of the Stars of the Immortality was sacrificed.

This time, even if he was not in the face of Mo Qigong, he did not intend to give it.

In an instant, as Ye Xuan stepped into the Hoshino, the whole life fortress and the outside of the fortress immediately rang out loudly, and at this time, the appearance of the Hoshino was also changed, with a long mechanical arm. Stretched out, its ship's external shape changes rapidly, and it is about ten breaths before and after, and it has been completely changed into a huge mechanical war insect!

Still the same as before, there are mosquitoes with sharp and sharp horror mouthpieces, as well as sharp edges and knives of the knives, as well as the long legs of spiders that are full of thorny barbs, and the scorpions are huge like scissors. At the end, the pair of attacking and anti-mattering anti-matter light rays on the back of the spine also stretched out.

In addition, the entire body of the knives is covered with various barbs, and there are four long tubular soft limbs like tentacles. The caliber is amazing, reaching a height of 20,000 meters, which can be changed at will. Direction, the energy muzzle of the dead light cannon, used for long-range attacks.

Its shape can be described as eccentric, it seems that there are various characteristics of the universe of war worms, absorbing its strengths, harmony and integration, all together, even now has a long progress and improvement of mechanical knives, still can not Beautiful.

Compared with the mechanical transformation of the Devil War, the Xingye is a real life fortress. The internal and external structures change faster, and it is completed in less than a minute. Then, this huge mechanical monster is in Under the instructions of Ye Xuan, he slammed the wings and swelled.

Like a smashing cannonball, it rushed away toward the mechanical knife opposite the void.

"Oh!"

"Oh..."

"boom!"

"Booming..."

As the body of the mechanical worm rises, the two huge energy lights on the back ridges vibrate at a rapid speed, and with the horrible jumping power of the mechanical giant under the body, it is thousands of kilometers in an instant, all the way, behind The void in the sky left a string of resounding roars and cracks.

This is a resonance reaction in which the void is almost torn.

Under such a speedy speed, only the half interest rate is not enough, it is close to the mechanical knife.

This is too good for the energy diaphragm. It is originally an energy form. It can be put up and discharged. The harvest disappears instantly. When it is released, it is 50,000 meters. It is like a two-handed energy sickle. It is a black anti-matter. The energy is solidified, it is almost indestructible, it is turbulent, and it has an accelerating effect. Like a propeller, it has not been shown in the last war because the battlefield is so big.

This time, when the mechanical demon worm came up, it showed the horror speed reflected by the black light, and suddenly the mechanical knife was scared, and Sha Baofeng, who maintained mechanical integration with the magic war, suddenly had a It's not so good. It seems that although he has made progress, his opponents seem to have no idleness, either hiding it in the last time, or there is a breakthrough!

"boom!"

At the same time, a huge roar sounded, and the tail of the mechanical devil's tail was like a cold meteor hammer. The speed was faster than the meteor, and all the way to the glare, even the void was torn, blinking Then he slammed on a limb of a mechanical knife.

There is no suspense to bend it at a strange angle. Although it is not directly broken, it is severely damaged. Even if it can be repaired, at least this leg is temporarily losing some functions.

"what....."

"How could this be?"

In the face of this kind of unstoppable speed attack, Sha Baofeng was stunned by the whole person, and his mechanical knives came out with his almost mad roar, and once again hated anger.

The mechanical knife at the moment is like his body. At this moment, one leg is discounted. Although it is a magic warfare, the pain is Shabaofeng. In the previous battle, he was hit with a nose and a swollen face. This time, I just met the enemy and was scrapped of a leg. It was a shame.

"what....."

"Lake Fox, I want to kill you!"

"Hey..."

The huge sense of shame left Sha Baofeng all over the place, and the roaring sound resounded like a thunder. Almost at the same time, the huge light on his back was closed for the first time, and his body shape was held up.

But before that, the hundreds of huge sharp alloy spears, which are also located in the back of the mechanical knives, are fully launched, turned into a spear of rain, spurted out before the light is closed, direct mechanical magic insect.

"Not only has the light, even the alloy steel spears grow out? It is quite growing, but unfortunately, the waste is waste, and then grow, it is still not playing!"

"In addition, the schooling level of your stealing teacher is not so good. Although the light of the shield is good, but you have only learned the fur, you have never realized the true meaning of this mechanical change. It is a fake!"

Facing the roar of Sha Baofeng, Ye Xuan sneered at him, and the mechanical moth also shook an arm and smashed the shield of the mechanical knife.

"call out!"

"Oh..."

The sound of the speed of the air broke, and this sharp and unparalleled arm broke through the black light that was wrapped around the body of the mechanical knife, and slammed into it without any suspense.

Just like breaking on a thin piece of paper, although there is a block, it doesn't make much sense. The huge body of the knife is directly torn open with a crack, up to 100 meters, and it suddenly flashes a dazzling moment. Burning sparks.

"boom!"

"It hurts..."

"Lake Fox, I want to kill you!"

"Boom!"

The war was still abused, and even the masks that I had stolen from school were vases, flashy, and not at all quintessential. It was too embarrassing. Sha Baofeng hated anger and roared through the void. .

At the same time, the huge mechanical moths of the body were shot again and again, no longer smashing, all of them were gravity bombardment, and the mechanical knives that were already close to the semi-residual smashed again and again, and quickly approached again and again, chasing the past and continuing again. It's just abusing!

All of this fell into the eyes of the mechanical knives inside the devil, the uncle Mo Qigong and others, suddenly provoked a sigh...

Chapter 3470: Fortress

Faced with this child beat, especially psychological humiliation and torture, Sha Bao Feng soon could not carry, but the huge size scarred jump leaping out of a mechanical knife mantis thousands of miles away, and then taking advantage of the leaf Xuan has not yet chased, even if it starts to change again.

The alloy giant of the mechanical knives stretches and contracts at a speed visible to the naked eye, and the number of interest has returned to the previous small fortress, and continues.

At the end of the day, it was reduced to a diameter of only about two kilometers. The inner space was compressed, leaving only a piece of land in the central area for the demon of the ship.

The other parts are all compact and super-strong alloy hulls. Although the surface is already riddled with holes, many areas are concave and look extremely unbearable, but the ability to resist cockroaches is not picking, even the mechanical magic. The worm's appendix hammer is smashed on it, and there will be no more sag or a crack in the hull.

It is like a small hollow ball that has evolved into a small solid ball.

This trick, Sha Baofeng is still stealing from Ye Xuan here. In the third universe, when the battlefield was in the third universe, the Hoshino No. was faced with the power of Qiankun. hit!

Seeing this scene, Ye Xuan of the mechanical devil sneaked a bit, and then grinned and laughed: "The surname of Sha, according to the Lord, you better change the surname, stealing the word is more appropriate, Of course, the 弔 character is also good. Actually, I used the tricks of stealing from me to fight against the Lord. I said that you are stupid like a scorpion. It is a kind of insult to swearing..."

In the sneer, the mechanical devil not only did not chase, but also stopped in the void in the original place, and then came the voice of Ye Xuan's words again: "I really thought that you changed into this kind of solid big ball, this young master Can't you take it?"

"It's stupid!"

"I don't want to think about it. This trick was all thought out by the Lord. It has been used in the battle before. It must be known to you. And as an opponent who also has this kind of mechanical integration ability, it is obviously very likely Will follow suit."

"In this case, how can the young master not consider the countermeasures?"

"This time it's hard to meet the narrow road again. This young master will ask you to see what is called a real mechanical change..."

"Booming!"

"Karma card..."

As Ye Xuan's words fell, the huge mechanical moths again heard a large sound of mechanical operation, dense and dense, and the movement was even worse than before.

Its shape is changing rapidly, and the extended legs and shackles are all shrunk back. Even the pair of black dead lights on the ridge of the worm have disappeared.

It seems that it is going to be restored to the shape of the Star Fortress, but it is not.

In less than a minute, the mechanical devil has changed into an almost circular shape, but it is not a starry fortress. It is a huge alloy hoe, and it opens its mouth wide and reveals its inside. A deep and dark, it makes people feel horrible!

All of this was completed in a short period of time. The mechanical demon that had been powerful and metamorphosed turned into a giant alloy hoe. Although it looked like a scorpion, the combat power was obviously weaker and too much. The arm of the arm also had no light, and even the four dead limbs of the dead light guns disappeared.

The only thing that has a bit of attack power is that it's just a slap in the face, it's just a chicken rib!

Seeing this scene, not only Sha Baofeng is confused, but also the magic man who is in the small space inside the solid steel ball, such as the devil, the uncle, the Mo Qigong, etc., who are also stupid at the moment, face to face In the midst of the fog, I don't understand what Ye Xuan's move is.

"This huge gimmick is also a kind of sturdy and powerful. Is it still going to swallow the magic warfare that has been turned into a two-kilometer solid alloy ball?"

In the stunned, the devil's uncle Mo Qigong whispered to himself: "This is the top alloy used in the Star Fortress, and now it is a compact form. Where is this good mouth?"

The facts were unfortunately in his mind.

"Hey!"

A shocking whistling sound rang, and the Hoshino No., which turned into a huge alloy cymbal, directly launched a space jump. When it reappeared, it reached thousands of miles away. It appeared in front of

the solid alloy ball that changed from the magic warfare. Then, the solid ball was swallowed in one bite, but it was not chewed, just to close the huge sensation.

In fact, Ye Xuan did not intend to let Xingye solve the alloy ball of the magic warfare by chewing. In this case, the devil of the sphere inside the space, the uncle Mo Qigong, will also be affected.

He is ready to solve his opponent in a way similar to ablation!

The Hoshino is turned into this huge steel gimmick, not only the shape change, but its internal performance is the real key.

It was originally a life fortress, and the whole inside and outside were composed of countless micromolecules in the world insect self-derivative group. These micro-molecules have strong penetrating power, which is a hard battleship alloy. The way to slowly invade, the internal molecular structure is decomposed, so as to achieve the effect of ablation.

Don't look at the change of the magic warfare. This solid alloy bead is so large that it has a diameter of nearly two kilometers, but in the face of countless world insect self-derivative micromolecules, at most, it takes a little longer, and the whole sphere will Starting from the outermost layer, from the outside to the inside, it is finally completely melted away!

In fact, Ye Xuan does not need to wait for such a long time, because in this process, the high-level Shabaofeng, who is completely integrated with the Devil War, must be the first to bear the existence. If there is no accident, this kind of Soon after the decomposition and disintegration, the guy will surrender and surrender.

After all, in this state of complete integration, the decomposition and melting of every inch of the civic warfare, in his case, is equivalent to suffering the pain of being slowly melted, which is not something that ordinary people can hold. Even if the mind is firm, there will be a moment of collapse.

For all this, after the alloy **** swallowed the magic warfare into Sensen's wide mouth, Ye Xuan made a briefing to Sha Baofeng at the first time. He didn't want to waste too much time. This is a heart attack, if there is no accident, Sha Baofeng will collapse on the spot after the dissolution.

"Isn't it screaming? It doesn't matter, this little master has time. Since you like to be abused first and then waddle, then as you wish!"

Seeing the other side has not responded, Ye Xuan sneered out, and then no longer speak.

At this time, his brain suddenly heard a familiar system prompt: "Congratulations to the host, found that you can swallow intelligent life! Sha Baofeng: mechanical life, moderate level of evolution! Is it swallowed immediately?"

Hey?

Is this OK?

When can the system be swallowed up by the Celestial family? When I met Yingtai in the past, I didn't see this kind of tone!

Ye Xuan stunned on the spot, full of fog, do not understand what happened...
