

Super D. S 3471

Chapter 3471: New system capabilities

"Congratulations to the host, found that you can swallow intelligent life! Sha Baofeng: mechanical life, moderate level of evolution! Is it swallowed immediately?"

Although the prompt of this system is short, the information revealed is not simple, so Ye Xuan can not help but tremble.

First of all, it shows that the phagocytic system in Ye Xuan's body can already be swallowed up by the mechanical intelligence life of the Tianji family, just like the spiritual strength of the magical cranial nucleus in Ye Xuan's skull. The devour of life must bring no small benefits to the phagocytic system.

Ye Xuan is the parasitic host of the system, and the system has benefited. In fact, it is as significant as his own.

In addition, this kind of engulfing of mechanical intelligence organisms has not appeared before, but now it suddenly appears. There must be some key factors that Ye Xuan inadvertently ignores. This can be carefully observed afterwards. This will give you a deeper understanding of some of the features of the system.

After all, although the phagocytic system is also an intelligent life, it is too old-fashioned. According to the rules, many things are not in sight, and it will not be revealed to Ye Xuan in advance.

For example, this time suddenly you can devour the mechanical intelligence life, and for example, the system's data repository, after having to touch an unknown substance, will display various information about the substance in the database.

For Ye Xuan, this is extremely inconvenient, and it has made too many opportunities and choices that could have been obtained.

If you can understand the system's speechless rules, it is more thorough. In Ye Xuan, it is not a trivial matter to better develop or use the system's ability to solve problems in the future.

In addition, this system prompts the mechanical intelligence of the body that can be swallowed, that is, the identification result of Sha Baofeng is moderate in evolution. This sentence also makes Ye Xuan gain invisibly.

It should be known that Sha Baofeng is the core high-level of the Tianji nationality. Not only does the strength reach the level equivalent to the late 12th, but also the ultimate mystery of the Tianji people, namely the mechanical fusion ability!

This ability is extraordinary. Once it is launched, the entire body of the Tianzu ethnic group will be decomposed into some mechanical parts, biomass energy, etc., which are integrated into some important positions of the warfare, such as the intelligent center, the power system, let The whole battleship was temporarily given life, just as it was born with self-awareness, with wisdom, and became a giant intelligent robot at the battleship level!

Don't look at Shabaofeng and the devil's uncle Mo Qigong before coming to the third universe of the Terran, the battleship under the seat is only a small fortress of 50,000 meters in diameter, but within the Tianzu ethnic group, his status and hands The authority is definitely far beyond the existence of Yingtai and Shanbo who can own the 100,000-meter-diameter starry fortress of the Thunder!

At least, this powerful mechanical integration ability, Yingtai is absolutely not available, including the high-level Shanbo, who was originally killed by Ye Xuan.

Even, even the original owner of the purple armor that was incorporated into the glass is not destroyed by Ye Xuan, that is, the top-level top of the Tianji who was killed by him in the armor, and has the 14th world. The existence of Zhou Guangjing should not have this ability.

Otherwise, when he was in the Death Star whirlpool, he must display it and fully integrate with a Star Fortress. If this is the case, it may not fall.

According to Ye Xuan's speculation, this ability of mechanical integration should be one of the core abilities of the Tianji nationality. It should be mastered in the hands of the patriarch, and the confession will not be open, but can be seen by the emperor's chief. It's a general presence that is accepted by the top of the celestial family.

At least it is equivalent to the level of arrogance of the major heirs of the human race, and the simple point is that it must have strong potential and superior talent.

The genius in this mechanical intelligence life group, the identification results given by the system, is only moderate in evolution!

Then, what kind of enchanting is the existence of a high degree of evolution?

Ye Xuan immediately became alert, because he was about to go to the base camp of the Tianzu people. The unintentional discovery was not a trivial matter, and Ye Xuan was somewhat angered and suddenly awake.

But the base camp of the Tianji nationality, he still has to go, not to enter the tiger's den, but also to win the tiger, not to mention the entire military team, he will not give up in any case, otherwise it will affect the heart in the future.

At the beginning, Ye Xuan had a commitment to the consciousness in the hollow crystal that had merged with the immortal world in his body!

With this decomposition and disintegration, the huge gimmick of the Hoshino Life Fortress changed, and it was soon that Sha Baofeng's pleading was heard, but Ye Xuan did not pay attention. Right now he is no longer Need the other party to surrender, since it is good for the system, then it is an inevitable choice to swallow it.

Time has passed slowly, and the blink of an eye has passed for a few days. Fortunately, although the Xingye Life Fortress has changed its shape, its hidden function can still be opened and has not been affected.

In these few days, there were several warships of the Devil's group passing by in the nearby void. If the Xingyehao started the hidden system, it is afraid that it will be exposed, at least it will be disturbed.

At this time, the Hoshino, obviously does not have much attack ability!

In the end, when the solid alloy ball in the giant mouth of Shantou Sensen was melted and decomposed by the numerous world insect self-derivative micromolecules to a diameter of only about 500 meters, the mechanical intelligence awareness of the top-level core of the Tianji ethnic group, Sha Baofeng, Finally completely swallowed up.

At this time, Ye Xuan's mind also received a familiar tone from the system.

A new system capability, turned on!

"Hey, congratulations to the host, successfully devour the mechanical intelligence life! Get a mechanical core!"

This system prompt tone is still short, and did not mention the new ability that the system opened after the devouring of the Tianzu ethnic group Sha Baofeng, just said that it has obtained a mechanical core!

For the urine of the system, Ye Xuan is quite familiar with it. Some things don't directly suggest it, but since I have already been exposed to mechanical cores, then all kinds of information related to the system database should already be Appeared, Ye Xuan immediately checked it, and sure enough.

The so-called mechanical core, on the surface is an ordinary crystal, but in fact this crystal is the intellectual nuclear crystal of the mechanical intelligence life, the heavenly family evolved from the self-consciousness of intelligent robots, their The body is not flesh and blood, nor is it born, but after giving birth to self-awareness, step by step to perfect evolution, the real core is actually a string of electronic consciousness similar to data.

Like the human god, the spiritual power of the devil!

And this mechanical wisdom core is the condensation of this electronic consciousness, which is equivalent to the magic core in the brain of the devil, or the soul of human beings...

Chapter 3472: Like God

The monks in the starry environment, no matter which ethnic group, which kind of life species, the body and body have long been a form of appearance, even a crystal life, can change the shape, possess

human flesh and blood, and Similar to the second universe of the various ethnic groups, although they are not human, but the daily routine is basically human form.

After all, human beings are long-lasting, and the human race has a lot of influence in all major cosmic planes. This ethnic group has a strong ability to multiply, and it has higher wisdom and more amazing creativity. It has been recognized.

Even the Tianji family, although they are not flesh and blood, can gradually transform their own evolutionary path, and in the body, it is also developing towards the human race.

But this is only the appearance, the essence of the inner, each life species and ethnic group, in fact, is completely different, this is fundamental, once changed, it is no longer the original life species.

For example, the devil, although the appearance is the same as human beings, but its essence and root is the spiritual source of the brain, which is the ethnic characteristics of the devil.

Although Ye Xuan is a human being, he has mastered the ethnic characteristics of the devil before, and after condensing a magic nucleus in his brain, he can walk in the world of the devil with ease and no fear at all.

In the same way, if any of the devil's powerful coincidence possesses the power of the human god, then he can mix into the human race, even if some people doubt the identity, there is no fear, and the power of the gods can be extended. Let the other person shut up.

Because it is well known that the devil has no soul, or a god, naturally does not have the power of God.

The racial characteristics of the Tianji people are their electronic consciousness, which is similar to the spiritual power of the devil and the consciousness of the human race.

And this kind of electronic consciousness, only the electronic intelligent machine will emerge after the birth of self-awareness and evolution into a mechanical life body. Every electronic stream of consciousness is different, just like the source code of every intelligent computer. The only one is the same.

No human or demonic person can have electronic consciousness. Therefore, the base camp of the Tianji nationality has never been mixed with the extra-strong people. Compared with all other cosmic races such as the Terran and the Devils, the Celestial A mechanical life, they have become the most united race, and this is inseparable.

But now this recognized fact will be broken.

Because of this mechanical core, and after complete refining, the phagocytic system can pass it, so that Ye Xuan possesses the unique electronic consciousness of the mechanical family. He will be able to smoothly merge into the base camp of the Tianzu nationality, and he will be the patriarch of the patriarch. Sha Baofeng's identity.

As long as his body is not cut open and examined, it will never be exposed, but who will do it? Electronic awareness is already the best security code, far more reliable than anatomy to check the body!

More importantly, the mechanical core crystal obtained by the phagocytic system, in addition to Sha Baofeng's unique electronic consciousness brand, even has his memory, all of which is turned into data and stored in the system. In the database, Ye Xuan can view it at any time.

That is to say, as long as he gives instructions to the system and uses this mechanical wisdom core to give him the electronic consciousness of the Tianzu people, then Ye Xuan can be transformed into an instant and become a living and detached Sha Baofeng.

As for the form and appearance, this is too simple, and it will be changed directly to Sha Baofeng.

After figuring out all this, Ye Xuan was even excited. I didn't expect this time to encounter Sha Baofeng in this magical star field. It was unintentional, and he was planning to sneak into the base camp of the Tianji nationality. However, if you don't think that you haven't left yet, you will get such a great convenience, just like God!

When Ye Xuan even checked the memory data of Sha Baofeng, he quickly learned some things.

It turned out that this guy was actually directed at the younger fox, and it seems that he was killed.

In addition, as the core of the Tianzu nationality, Shabaofeng naturally has its own battleship, which is also a 100,000-meter-diameter starry fortress named Baofeng, but this time Shabaofeng did not bring it. Come, but stay in the base camp of the Tianji people.

It is said that the warship construction technology of the Tianzu nationality has a new breakthrough in research and development. Therefore, as the patriarch of the patriarch, the top cadres of Shabaofeng and other high-level people have the first opportunity to enjoy. The reason why Baofeng was left in the base camp of the Tianji nationality was to accept the transformation of the new technology of this warship.

In addition, similar to the magic weapon of other ethnic groups, although some exist in the Celestial family, Sha Baofeng is not keen on this, as for some rare minerals and rare materials used to perfect the meat shell. And energy crystals and other resources, all of them were placed in the Baofeng.

Before this guy was completely stunned from the base camp of the Tianji people to the devil's group, and then with the devil's uncle Mo Qigong, driving the magic warfare into the third universe of the Terran.

That is to say, the current return to the celestial family, if there is no accident, he also has to be alone on the road.

But before that, the devil's uncle Mo Qigong and others must settle down first.

There are more than 2,000 demons in the War of the War. All of them are crowded in the narrow space of the center of the solid alloy ball, which is only about 500 meters in diameter. Although Shabaofeng has fallen, they have solid alloy balls. The protection is completely innocent.

Ye Xuan Dang, even if he urging the Hoshino, will soon spit out the solid alloy ball that has been broken down and melted, and then the shape changes. As the mechanical friction of the card is heard, the huge alloy skull has finally recovered. The original appearance of the Hoshino Life Fortress was earned by Ye Xuan's wave of immortality.

Just waiting for him to turn away, the front of the virtual sky has just been spit out of the alloy ball, a figure suddenly burst out, it is the devil of the uncle Mo Qigong.

Although the Devil Warfare decomposition process disappeared shortly after the start, it lost almost all of its performance, even the everything outside the ship, the inside of the devil strong can not see through the holographic stereo screen, but the uncle Mo Qigong is The twelfth imaginary demon of the devil is powerful, with a high density of alloy balls, and his spiritual strength can be extended to explore everything outside.

Therefore, he knew about what happened outside. At this moment, seeing Ye Xuan want to go, he walked out of the ship in the first time and yelled at him: "Bad boy, know that the old man is here, you are Turning around and leaving, are you really so ruthless? When you were in the Magic Emperor, did the old man forget all about you?"

Ye Xuan's foot was stagnation, his figure stopped, and then he shook his head and smiled. He turned and sighed: "Some words are known to everyone, and they are open, but are they not?"

Chapter 3473: Majin rebellion

"Do you know what you are? Stinky boy, you are not a small person. The entire group of demons is turned by the group you play. Even today, there are still a large part of the devils in the Eight Great Tribes and the Emperor. I believe that the genius Son of the Black Mosquito is actually the Emperor of the Terran..."

Seeing Ye Xuan stopped his body, the uncle Mo Qigong directly turned his eyes and strode: "The old man has not figured out how you did it now, but the devils will count However, the old man was very good at you at the beginning. This matter, the old man, you should always have a confession and a statement? If you simply escape, you are not afraid of your heart?"

"If I told you that I also accidentally came to the first universe, then everything was forced to survive and forced to do so, not deliberately, do you believe?"

Ye Xuan smiled and heard the meaning of the question in Mo Qigong's discourse, but he did not care. The other party said that it was correct. At the beginning of the demon emperor, Mo Qigong did not care for him. Ye Xuan can ignore other people, but Mo Qigong should have said it in person.

Otherwise, it will take a long time and it will have some impact on the state of mind.

"Letter, why don't you believe? Your kid is luck against the sky, otherwise, with your cultivation at that time, even if the foundation is solid and courageous, how dare you go alone to the first universe to scatter wild?"

What surprised Ye Xuan was that Mo Qigong immediately believed in it, and did not think about it at all. It must have been thought of on this matter long ago, and then he said: "But then, even if you are forced Helpless, but after all, I still deceive the old man. You have a problem with me, so you have to repent, you have to compensate, you have..."

"stop and stop..."

The black line of Ye Xuan's forehead was full of enthusiasm. He could see it. The old guy didn't take those things to heart, and he thought about how to knock his bamboo poles.

This kind of thing has always been that Ye Xuan did it to others. Today, he fell over and was knocked down by people. He told him to be speechless.

In the bitter smile, Ye Xuan's hands are spread out. It's completely a dead pig who is not afraid of boiling water. "Apologize, extortion... Nothing, there is one!"

"Rely, you have an iron cock. For a long time, don't mention it. This is the second time in the second universe. How much benefit do you have? The top three forces of the three planes have been smashed by you. Don't dial, mad at the old man!"

Mo Qigong was dissatisfied and jumped to blame Ye Xuan, but he accidentally said that he had missed his mouth.

"What? You..."

Ye Xuan was full of stunned voices and exclaimed: "Is it true that you have a dog's nose?" Even this knows?"

"After this, this uncle also knows more, hey, the invincible **** of war that is still tossing in the Third Universe of the Terran, should be your avatar? And the tenth house of the sixth house." There is no relationship between the half-money, and the old goods are not pitted by you!"

Seeing Ye Xuan's accident, Mo Qigong's face appeared to be bright, and he looked up and down with Ye Xuan. He took a sneak peek: "It's amazing for me to drop my brother, the world's four great enchanting people, all of you are all alone for a long time. If this thing is passed out, it is estimated that all three planes must be completely fry, and there is no heavy news in history!"

"The four great devils?"

Ye Xuan frowned. He had only heard of the two geniuses of the Terran, that is, the invincible **** of war and the sorcerer of the fox. It is indeed him, but what is the so-called demotion of the four worlds? really do not know.

"The four great enchanting sects of the world were put forward after the emergence of the Nethered Respect. In addition to the previous two geniuses of the Terran, the Emperor Xuanzi and the Netherland were added."

Mo Qigong even explained: "Before, although the Emperor had suspected that the fox lord was the Emperor Xuan, because of your small fortress, there are some shadows of the original Xingye. This alone, But still can't make me sure."

"But then, after the emergence of the four worldly enchanting sayings, when the old man put these four people together, he suddenly found a stupid."

"The first thing is very similar in style. Secondly, these four people have never appeared at the same time. Even when one person appears here, in other stars or even in the universe, at the same time, there will never be another person. Any news and clues that appear, of course, have been confirmed to be a detached invincible **** of war."

"With the addition of some other tiny beads, the Emperor can basically confirm this, but it is still only the last temptation. As a result, your kid will not be embarrassed. "

"Rely, you old guy..."

Ye Xuan sighed in a depressed mood, but his face was already gloomy. Mo Qigong's words reminded him and let him suddenly realize.

He always thought that he was cautious, but now it seems that there are some traces left behind. If you have the heart to carefully ponder, Mo Qigong can get this guess, and others can do the same.

When he thought of it, he was shocked and gave birth to a strong vigilance.

Seeing his face full of sorrow, Mo Qigong is misunderstood, and once again turned his eyes: "Bad boy, you will not even believe the old man? If you sell your heart, the old man will say this in front of you. Out?"

"but....."

Seeing Ye Xuan once again smiled bitterly, Mo Qigong's turn turned, and his eyes changed his tone: "But your kid now has a handle in the hands of the old man, plus the previous deception, the two layers overlap, the old man does not want you. Say, help me do one thing!"

"Hey, Sha Baofeng, the guy should have been killed by some sort of mysterious means? In the style of your kid, if there is no plot, it will definitely not work. If the old man has not guessed wrong, you are staring at it." The celestial family, this time I plan to go there to harm?"

"It is also true that the two camps of the second universe and the third universe have been plagued by you for a round. Only the first universe, only the guns of our devils, the real first The cosmic hegemonic celestial family has not tasted your means of harm, how should it be wandering around."

"And, your kid's spiritual power can even be vacated, and the electronic consciousness of the heavenly family is not too difficult. So..."

Speaking of this, Mo Qigong's fine mans flashed, and he shone out a smashing color: "So the Emperor's uncle thinks that the opportunity of my devil's group of slaves to turn over should be, calculate the time,

since the first After the demon emperor, the entire demon family has been enslaved by the celestial family for tens of thousands of years, all of which, after all, is at the end..."

"Hey? You want to rebel? The whole demonic group?"

Ye Xuan was shocked and jumped up and forth: "No, no, I don't have the ability. Although I really intend to go to the Tianji National Base Camp, but only for the rescue, it is not to ruin, at least not now, not the ability.""

Chapter 3474: Excuse me

"You still have some self-knowledge!"

What makes Ye Xuan unexpected is that, in the face of his refusal, Mo Qigong even threw such a sentence, and his eyes turned over: "The Tianji nationality is the hegemon of the first universe, and the first cosmic race enslaved by it is endless. In the same year, even the Terran had been defeated in the hands of the Emperor. If his hegemony could be overthrown so easily, can he stand for the first universe for tens of years without falling?"

"Even if we are evil people, although we have anti-heart, but with the current ethnic strength, even the idea of this resistance is not exposed, otherwise there will be a disaster."

"The old man said that the bitter slaves turned over, just want to ask you to help, and rescued my demonic group from the generation of emperors who were escorted to the Tianzhu national base camp."

"As long as this thing can be done, my demon family will be unscrupulous, and everything that follows will be able to start immediately. Of course, in the short term, it can only be carried out in the dark, even the uncles have returned to the devil's domain. , can't leak out!"

"But for the Tianji people, the power to overthrow their hegemony, after that, is finally beginning to sprout, and in time, it will certainly be strong, then it will be something that I will openly do..."

Speaking of this, Mo Qigong seems to suddenly think of something, and asks Ye Xuan: "Yes, what does your kid say about rescue, what does it mean?"

"Void squad!"

Ye Xuan nodded, but did not conceal: "You also know that Xuan Huangzi has an eight-star king in his hand. In fact, the entire squad is involved with me, but now the whole life black hole is empty, count The tens of thousands of soldiers have disappeared, leaving only the remains of hundreds of thousands of soldiers. In addition to the celestial family, can the first universe have other forces to do it?"

"The entire squad group? Tens of millions?"

Mo Qigong was shocked and screamed: "Your boy is out of heart. Is this a big move? The rescue that the old man said is a secret. After all, the devils are still alive. It's just a dozen or so, it's still possible to rescue it quietly, but you're a tens of millions of soldiers..."

"Rely! It's so moving, you must be alarmed by the entire heavenly city. If you want to bring them out, unless you openly fight! It's not right..."

"Things are artificial, take a step and see one step. In short, I have the confidence to smoothly merge into the Tianji City, and I will not give up the soldiers and clans. As for the ancestors of the devils, as long as there is a chance, I will try my best. "

Ye Xuan looked serious and immediately expressed his attitude. Then he seemed to think of something. He suddenly asked: "Yes, how much do you know about Wen Xing? I thought he was only the tenth big hole in the world, but now It seems that if he is like you, it is also the niche of the twelfth world. Then, in the case of the black mosquito field, it would never let him fall on the spot. I always feel that something is wrong! "

"Hey, can the old guy hang so easily? You guessed it. He did hide it. It was not only me, but the Emperor also knew it, even including him and the Union of War. The secret of the double-agent spy of the Tianji clan, we are as aware..."

Listening to Ye Xuan's mention of Wen Xing, Mo Qigong even sneered up: "Oh yes, there is a guy, the demon emperor leads Chanas, the bottom of the guy, the royal family has already mastered... all about this, Go back to the Magic King and say it."

"There are also things about the Voids, and I am not in the Devil's Field during this time. I don't know, but if it is really a shot, the Emperor will know the details, and I will know!"

"Going to the Magic King?"

Ye Xuan frowned, which is obviously somewhat repulsive.

The devil's uncle Mo Qigong doesn't mind the previous things. It doesn't mean that the Emperor Mo is asking for the same day. Although Ye Xuan is no longer comparable, the Devil's Star is a land of people, as a royal family. Ye Xuan simply does not believe that the true strength of the Emperor's veins is the surface of the show, they can not have no star-level blame beyond the power of Qiankun.

In this way, if the Emperor Mo asked the innocent to care for him, Ye Xuan went to the Magic Emperor, although he would not endanger his life, but at least he would be constrained, and it is very likely to be forced to show some unwillingness. The means of exposure.

"Do not worry, the stinky boy, although the devil is not as open-minded as the old man, but the overall situation is still clear, your kid is now a strange commodity, can be mixed into the existence of the base camp before but never heard of it, if you have succeeded before The fact that I have deceived all the devils is that the old man will not believe that you can show the electronic consciousness of the Celestial family..."

Seeing Ye Xuan hesitating, Mo Qigong suddenly smiled and said: "In this case, even if the devil is still jealous of you, but in the past ten generations of emperors still need to rely on you to rescue, the past, He will also convince himself to release his suspicions."

"Moreover, although your kid has deceived us before, but in general, you have not brought too much loss and influence to the devil's group, but it has done a lot of credit. At least, you only take it from the Holy Land. Those who come out of the crystal, especially the gossip silver crystal, are of great significance to the whole demonic royalty."

"In addition, if this event can be done, my devil will be unscrupulous. Although it has not yet been open to the time of the anti-Japanese family, some of the secret preparations must be fully developed."

"In the future, cooperation with the Third Cosmic Terran and even the Federation of the Venezia is inevitable, but there is no reliable and trustworthy person there, and your identity is also extraordinary. It is the ancestor of the immortal royal family. Means, the person who will be in the position of Dabao Dabao in the future, is likely to be you. In this case, you naturally become the best partner of our devil family."

"Since it is a partner, it is inevitable that each other will express their sincerity. Therefore, this time the devil is not going to go, the devil royalty and you, there are some important things to be discussed!"

At the end of the day, Mo Qigong took a picture of his chest: "Although I know that your kid is actually not afraid, even if our magical emperor sends out the real heritage, it is the star-class geek that surpasses the Qiankun environment. Retreat, after all, this kind of thing has not happened, the Yin Emperor is tossed by you enough, and is still roaring around the world to find you."

"But the old man still has to pat his chest to ensure that the devil's royal family has no calculation for you. If it is said to be imaginary, the old man is willing to bear the ravage of the devil and the body, and the gods are destroyed!"

I have said this, and what people say is really justified. If Ye Xuan hesitates and hesitates, it will be impossible to say anything.

After a sigh of sigh, he could only smile and nod his head, and then raised his hand to the alloy ball that was not far from the void: "What to do there? There are more than two thousand magicians in it?" This matter is of great importance. It is not a letter to them. In case there is a traitor who is bought by the Tianzu people?"

Chapter 3475: Super big bomb

"This thing really can't let too many people know that the old man means that besides you and me and the emperor, even the top of the devil's royal family, at least no more than three people know."

In the direction of Ye Xuan's fingers, Mo Qigong glanced at the alloy beads in the distant sky. The jaws first said: "As for them, because the Devil Warfare has been destroyed, the shipboard monitoring system has long been comprehensive. For those of you and me to meet and talk, they don't know at all, and no

one has extended the spiritual strength to explore. The old man has been paying attention to it, and this is still certain."

"Don't you say that you have the absolute certainty to mix into the base camp of the Tianzu people?"

Having said that, Mo Qigong grinned and said: "If this is the case, then let the old man see your means now. If even the old man can't pick up the problem, it would be better if he passed them."

Ye Xuan smiled and shook his head. Then he waved a hidden barrier and disappeared. In fact, he also looked forward to the new ability that the phagocytic system had just acquired. If Mo Qigong suddenly appeared entangled, now he said Unexpectedly, I have already begun to experience it in a hidden place somewhere.

After a short period of time, this hidden barrier just under the cloth was removed by Ye Xuan's wave, and his figure once again appeared in the void.

In terms of body shape, Ye Xuan has changed into the appearance of Sha Baofeng, and in essence, he uses the new ability of the body to swallow the system, using the mechanical core that condenses Sha Baofeng. The same electronic consciousness as Sha Baofeng.

Of course, this kind of electronic consciousness is invisible and inferior, and the power of the human race is the same as that of the devil. Only the mechanical life of the heavenly family can sense it.

"call out!"

During the wave, Ye Xuan once again sacrificed the small fortress of Hoshino, which was collected in the body, and directly input all the performance data about the magic warfare small fortress stored in the system database to the world of Hoshino. The insect life center is the intelligent master control center of this life fortress.

At the same time, the electronic awareness of Sha Baofeng was branded and set as the ultimate authority.

The ultimate authority of this life fortress was only two, one is the brand of Ye Xuan's spiritual power, one is his brand of gods, and now there is one more, electronic awareness brand.

In this case, even if Ye Xuan is in the base camp of the Tianji nationality, it is inconvenient to show the power of spiritual power and the power of the gods. Only the electronic consciousness of Sha Baofeng can control the life fortress.

Although this electronic consciousness belonged to Sha Baofeng before, it now belongs to the phagocytic system in Ye Xuan's body. After Ye Xuan opened the new capacity of this system, a crystal appeared in the body, which was previously condensed by Sha Baofeng. The mechanical core that came out, but not in his mind, but in the right chest, corresponds to the heart on the left side of the chest.

Then, he used the electronic consciousness to give instructions to the life fortress, and the object of change was the magic warfare, which changed completely from the inside out.

All of this was carried out in front of the devil's uncle Mo Qigong. When the life fortress began to change, and the appearance gradually developed toward the original appearance of the war warfare, even with the knowledge of the uncles of the Moqi people, I couldn't help but open my mouth slowly.

Suddenly whispered to himself: "God, it's amazing, this... If you don't see it with your own eyes, the old man can't believe it, stinky boy, how do you do it."

Then, as if he suddenly remembered something, he whispered, and his face was even more shocked: "Life Fortress? This is the life fortress left by the legendary Terran Technology pioneer Xingbo! That is The Longye, which you took from the star dock of Magic One, had only a diameter of five kilometers before. Now it has grown to such a degree that it is a small fortress with a diameter of 50,000 meters?"

"Yes, it is the Longye, but now I rename it the Hoshino. I didn't expect it to be seen by you. Before you didn't think it was familiar, so I was suspicious of me?"

Ye Xuan smiled and shook his head: "I was too negligent, thinking that changing the name, the size of the hull has soared so much, just the appearance is slightly past the shadow, it should be no problem, I did not expect it to be seen by you."

Mo Qigong was stunned and subconsciously nodded: "It is no wonder that it was able to change into a mechanical demon like the magic warfare that Shabaofeng has combined. It must be known that this is one of the ultimate abilities of the Tianzu people. Since it is a life fortress. It is not surprising to do this."

"Including the electronic consciousness that swallowed Sha Baofeng before, it was also completed, and now Sha Baofeng's electronic consciousness has been temporarily transferred to my body, so I can return to the sky with Sha Baofeng's identity. At the base camp, no one can detect anything unusual, because this electronic consciousness, originally Shabo Feng, is as unforgeable as the magical power of the devil."

Taking advantage of these words, Ye Xuan directly buckled everything that the phagocytic system had done on the life fortress. The explanation was reasonable, and then he pointed again to the alloy ball in the distant sky: "As for it, I will use Sha Baofeng. The electronic consciousness has invaded, and although the damage is quite a lot, the performance is basically completely paralyzed, but it is still possible to build a close-range transmission array."

"All the demons in the space of the War of War will be transferred to the Hoshino in a sensible situation. At that time, you and I will be able to return to the Magic Star. From then on, Hoshino It's the Battle of the War, and I, Sha Baofeng."

Having said that, Ye Xuan grinned and laughed. As for the surviving hull of the original magic warfare, after all, large equipment such as kinetic energy and shipborne space oscillators and anti-material light energy generators are still in use. It can become a huge alloy bomb. Once it is blown up, the effects of the kinetic energy tank, the anti-material light energy generator and the space oscillator are both at the same time. It must be powerful."

"Rely! Your kid is not going to let it blow up in the base camp of the Tianzu people? It is definitely not dead and you have to get rid of it!"

Mo Qigong's spiritedly shuddered. He was thoroughly aware of Ye Xuan's scourge ability. He was completely here. He could only use it to see if he could only be scrapped. such?

You know, this was originally a small fortress with a diameter of 50,000 meters. The kinetic energy cabin, space oscillator and anti-matter energy generator of the ship are expensive. It is acceptable to build a small fortress. To make a one-time use super bomb, it is too bad, and no one has ever done this in history...

If Ye Xuan really let it explode in the base camp of the Tianji nationality, then the movement will definitely lead to another first universe, and the rhythm of the sky!

Chapter 3476: Re-environment

Everything is done soon!

Thousands of demons in the damaged alloy ball, all of which were temporarily transferred by Ye Xuan in the alloy ball, were silently transferred to the Xingye Life Fortress. In the process, they All perceptions are closed by the array, so no abnormalities are detected at all.

As for the alloy ball, it was taken into the body by Ye Xuan and directly thrown into the phagocytic system for transformation.

The various resources in Ye Xuan's hands are extremely rich, and they can be used by the phagocytic system. In short, there is only one requirement. After the transformation of the alloy bomb, the stronger the power, the better!

Subsequently, Ye Xuan, in the identity of Sha Baofeng, together with Emperor Mo Qigong, entered the life fortress that had changed into the Devil War, and started full speed, rushing toward the Emperor Star.

Since the original test of the Son, Ye Xuan has never been to the Magic Emperor, this time is the second time this star is coming.

Think about the scene when I first arrived, Ye Xuanton feels guilty, this is less than a year, the change is too big, not referring to the magic king, but refers to Ye Xuan himself!

At that time, he was too weak to be trained. Today, he is already the strongest of the tenth-order heaven and the seventh-order. Moreover, the various details and means are so difficult to explain even himself. If Tianyuan!

Now he is not only cultivated as a powerful, but also rich in his own richness. This time, the identity of the demon emperor is even more important. It is the core of the Tianzu tribe, Sha Baofeng, and the patriarch of the patriarch, for the Emperor. It is equivalent to the imperial minister's visit to the inspection. Therefore, the specifications for the Emperor's star are still very high.

After the magic warfare arrived at the Emperor Star, it entered the harbor in the star dock outside the atmosphere of the star, and then all the demons and strong men all left. Ye Xuan, accompanied by the uncle Mo Qigong, finally walked out of the hatch and then went out of the hatch. With a wave of hand, the magic warfare was collected into the body.

On behalf of the devils who came to meet the enchanted royal family, Ye Xuan had all seen it when he came last time. He was just unfamiliar, but there was a figure that made him very surprised.

Among the welcoming people, they also included the demon emperor's commander of the Emperor's City, Chanas.

This guy is responsible for the Guardian's Responsibility of the Emperor's City. He is acquainted with the high-level people of the Heavenly Family. He does not need to come, and he does not touch the roots.

Seeing Ye Xuan sweeping away to Chanas, the uncle Mo Qigong, who is next to him, whispered a sentence: "This guy deliberately made a knot on Sha Baofeng. Before Sha Baofeng came from the Tianji National Base Camp, he left with the old man. Chanas is looking for an opportunity to get close..."

The later words, Mo Qigong, did not go on, but Ye Xuan was suddenly stunned. It seems that this product is still not dead, and I want to climb up, hoping to get the favor of the Tianzu people.

It is estimated that this time I want to realize the dream of holding the dog's legs by Sha Baofeng.

Under his heart, he did not pay attention to it. When he was led by Mo Qigong, he entered the magical star atmosphere under the crowd of a large group of democrats and members of the royal family, and went straight to the inner city of the emperor.

At this time, in addition to the uncle Mo Qigong, no one knows the true identity of Ye Xuan, even the Emperor Mo asked Tian, they regarded him as the real high-level Sha Baofeng.

Therefore, in the next banquet, Mo Wentian is also a lot of ceremonies in front of Ye Xuan. Although he is a demon emperor, after all, the demon family is a slave to the celestial family. It has long been enslaved. Strictly speaking, Everyone from the Tianzu nationality can come here to live as a master.

Of course, the real people who are so dry and have such awkward attitudes basically do not have it. At least Shabaofeng will not be like this. Therefore, this dinner is also delicious, and the apparent atmosphere is good.

Subsequently, Sha Baofeng sent a star news to the Tianji National Base Camp through the Star Network of the Magic Emperor Star. The situation of the World War I in the Battle of the Star Wars will be roughly made a simple report.

The reply was to let him return to the Tianji National Base as soon as possible.

This is the middle of Ye Xuan, he decided to leave tomorrow, but there are other things tonight, that is, the secret talk with the magic emperor Mo Tian, about the changes in the black hole of life, Ye Xuan needs to understand him.

After two hours, Ye Xuan, under the guidance of Emperor Mo Qigong, came to a small temple in the inner city of the emperor.

There are no devils inside and outside the small hall. The guards here are some young descendants of the demon royal family. It must be an important place related to the demon royal family.

Subsequently, the two entered a secret room, where there are already two figures waiting for it, it is the other emperor of the demon emperor and the demon royal family.

Regarding the true identity of Ye Xuan, Mo Qigong had apparently revealed it to the Emperor Mo, before he took him, so when he saw Ye Xuan again, the dawn in his eyes was completely different from that of the previous dinner. There is a thick and strange meaning.

"The devil, meet again!"

Ye Xuan arched his hand and did not wait for the other party to speak. He had already received: "Before the black mosquito star, the Ye did not deliberately conceal it. It was forced by the situation and was forced to the magic star step by step. The holy land where the scalp has entered, sinned!"

"What a kid you are?"

The emperor Mo asked Tianyuan that there was still some suspiciousness. Now, seeing Ye Xuan personally admit his identity, his face suddenly appeared amazed, and finally shook his head and smiled: "It's really awesome. I can't think of the human race. Junjie, not only can have the spiritual power of the devil, even the electronic consciousness of the celestial family has it, it is simply amazing..."

"Okay, things are just fine. Everyone is not the first time to contact. They are all acquaintances. Don't be so divided, sit down and talk."

On the side, Emperor Wu Qigong played the round field and called Ye Xuan to sit down. Then he directed the discourse to the topic and took the initiative to help Ye Xuan ask about the personal details of the life black hole.

For this matter, the devil also did know, even if he introduced to Ye Xuan.

The latter also quickly clarified the details.

In fact, the black hole of life, the devil's ethnic group also participated, of course, the dispatch of the fleet to assist under the command of the top of the heavenly family.

At that time, Mo Qigong and Sha Baofeng had just left the First Universe. On the other side of the Tianji clan, there was a fleet that had been patrolling outside the Devil's Field. When they received the command from the base camp, they turned to the Devil's Star Field. The target was very good. Clearly, they went directly to the black hole of life, and together with the fleet of the Emperor's Star dispatched to cooperate with the action, they broke into the black hole of life.

In the end, after killing hundreds of thousands of Void soldiers, the two eight-star kings were captured. Then, the entire Bingxu group fell into control, and was taken away by the powerful fleet of the Tianzu nationality. I left the Devil's field for a while and hurried away...

After introducing all of this, the Emperor Mo asked the sky to suspiciously and said: "As for the purpose of arresting this squad, they are looking for something called a hollow crystal. It is said that the patriarch is in urgent need. Things!"

Chapter 3477: Chanas visit

"Void medullary crystal?"

Ye Xuan's heart jumped, and the brow lock was tighter!

It seems that the Tianji people have already figured out the details of the skeleton of the Voids. To know, it is Ye Xuan. In the past, these soldiers were also called the emptied beasts. In the Devil's Field, the original name of the life black hole. It is a hollow black hole.

Now even the Emperor Mo asked Tian to change his mouth, and called the emptied beast a hollow squad. All this is obviously learned from the celestial family, and the latter, even the existence of the emptiness of the medullary crystal is known. .

This makes Ye Xuan very uneasy, because every Void squad has a hollow crystal like a mother. This time the fleet of the celestial family enters the black hole of life and does not get the void of the emptiness that has fallen into the hand of Ye Xuan. Jing, the emperor is angry, the entire terracotta group may be very dangerous.

The reason why the celestial fleet that invaded the black hole of life took all the entire squad group, obviously to trace the whereabouts of the emptiness of the medullary crystal. If there is no result, then all the emptiness of the squad will be angered by the emperor. Kill.

This has strengthened the idea that Ye Xuan will leave tomorrow. He feels that there is not much time left for himself, and then dragging on, the soldiers are dangerous.

Later, Ye Xuan asked the Emperor and other people some other doubts, such as the wretched mosquitoes and the origins of the crazy mosquitoes. Unfortunately, even the devil, Mo Tiantian, did not know this, let Ye Xuan quite Disappointed.

It is all about the **** corner of the soul. Through the devil, Mo Xuan Tian, Ye Xuan has learned all of it. He knows that this thing was originally related to the first generation of the demon, and he was brought out of the ancient cage. Under the altar, placed in the underground sacred cave of Montenegro, finally solved a doubt in the heart.

As for the purpose of the Wenxing old ghosts to arrest these sorrowful beasts, the Emperor Mo did not know the same day, but he suspected that it should be related to the Tianzu people, perhaps they did not know what they were instructing.

Because the real identity of Wen Xing is the dual-agent spy of the Federation of Wanluo and the Tianzu, the old guy is very mysterious, and he has a connection with the Federation of the Faro and the Celestial, but he is specifically the person, even the devil. Mo asked the day is not known.

But one thing is that he is extremely determined, that is, the old ghost of Wenxing has not fallen, it should be the base camp of the Tianji people.

"So, this time, going to the base camp of the Tianzu people, it is very likely that you will encounter the old ghosts of Wenxing?"

Ye Xuan frowned again. He is quite jealous of the old ghosts of Wenxing. The old guy is so mysterious. He was actually swindled and went to the base camp of the Tianzu people. Even the chief priest of the devil's group. No, the purpose of doing this is really worthy of scrutiny. The plot is not a trivial matter. Ye Xuan smells a very rich conspiracy.

In fact, the same is true of the Emperor Mo.

Seeing Ye Xuan's mention of Wen Xing's old ghost, the looks on the faces of the three people all looked dignified. After exchanging a look, the Emperor Mo asked Tian suddenly said: "With regard to Wen Xing, Xiao You's going to the Tianji family if he met this time. As much as possible, the old guy is not simple."

"Although he is a demon, and he grew up from the black mosquito's son to the chief priest of the devil's group, and later came to the magic city, he stayed under the eyes of the emperor, but even so, Now, the emperor is not sure whether he is a member of the Federation of the Varo, or a person of the celestial family."

"However, since this time he did not go to the Federation of Wanluo after his death, he should go to the base camp of the Tianji nationality. He should be able to make speculations. After all, he still relied on the Tianji nationality. This time, the fraudulent death, the final calculation, ten Eighty-nine should be the federal or ethnic group of Wanluo."

"As for its specific scheme, no one knows except the Tianji family. This time, you will go to Tianji City with Shafengfeng's body maple. You may have the opportunity to get in touch with them. You must pay attention to it, but you must first ensure that you don't want to be detained by Wenxing. Seeing identity, the old guy is too deep..."

Ye Xuan nodded, did not say anything more, then left the partial hall and returned to the inner hall of the emperor's inner city.

What surprised him was that it was not long before he came back. The Emperor of the Devil's City, the leader of the Emperor, came to visit and made a special visit.

Ye Xuan laughed and laughed, but never refused to let him go, let Chanas enter the pavilion.

"Sha Daren, my very important information is to report to you! It is related to the devil's royal family, that is, the magic king's secret in the valley of the forbidden land!"

Just after the museum, Chanas sneered into the front of Ye Xuan and said, while he took out a small box from his arms and handed him over, mysteriously said: "Look at it. !"

"Ok?"

When I heard about the cages of the ancients, Ye Xuan suddenly came to the interest, subconsciously took over the space box, opened it and looked at it, suddenly speechless.

The space box is filled with more than a hundred crystals, about a hundred pieces, mostly six and seven things, including two gossip silver crystals, it is Ye Xuan who was previously in the black mosquito star. This part of the guy is walking away.

My heart was puzzled, Ye Xuan frowned and looked at Chanas: "This is..."

"This is only a very small part. The devil and several emperors have more hands. The other six and seven are not mentioned. They are just gossip. There are dozens of them in their hands. They all came out of the magical secrets of the devil."

Seeing Ye Xuan is obviously very interested, Chanas is overjoyed and pleased to pick up: "These are the things I got not long ago. They are all good things. I will honor you to Sha Daren, and I will report the situation. More chanting is related."

"You also know that the devil's royal family has always been nervous about the magic king's secret. He specially sent two uncles to guard the whole year, although any demon can enter it, but in fact, except the royal family and some dynasties. In addition to the ministers, only the priests, commanders, and sons of the eight tribes can enter. It is me, I have only been in it once, and I have not had time to explore a large area, the time limit is up, Forced to send it out."

"Like all the other entrants over the years, although there are gains, it is not amazing, it can only be regarded as better than nothing."

"But that place is obviously unusual. The ancestors of the immortal dynasty of the Terran, you should know the adult. The guy entered the secret with the identity of the black mosquito, and the result was a lot of scorpion. When I read the crystal, there are dozens of silver in the gossip, and the others are massive. This is what he paid, and how much is hidden in it. I can imagine it. I suspect that the secret. Among them, there are more kinds of resources. The guy of Xuan Huangzi is just a big hit, just explore one of them!"

"This is a big secret. The devil's royal family secretly does not report it. It has never mentioned this matter to the above. I think that they are deliberate and have a disagreement..."

"After the adults go back, they should report this up and have to guard against it!"

At the end of the day, Chanas's face was dignified and painful. The loyal dog-like slave looked like a blind man.

Chapter 3478: First of the top ten murderous places

"Would you like to return to Sky City with me?"

The heart sighed, and Ye Xuan's look quickly recovered as usual, and then he queried to Chanas.

It's a hidden danger for this guy to stay in the Magic City. It's not a thing. I want to hold the thigh of the Heavenly Family. If I keep him, I will find something that is unfavorable to the Devil's group after ten thousand days. It will definitely look like this. As it is today, it is secretly reported.

Taking him away is also quite a disease!

When I heard Ye Xuan's inquiry, Chanas initially stunned, and then ecstasy, nodded and nodded. This was originally the purpose of his deliberate dedication to Ye Xuan, and he did not want it?

"That's good, I will go on the road with me tomorrow. You will know about Mo Qiaotian on this matter, and then hand over the affairs at hand, it will be my meaning."

Nodded, Ye Xuan no longer spoke, and put away a space box containing dozens of plaques, and turned to walk inside the room.

"Xiesha adults are asking!"

Behind him, Chanas was crying excitedly, and there was a strong feeling of gratitude in the words: "The adults recreated the small grace, and the small ones came to the heavenly city, and they must be liver and brain, and they will serve the adults!"

"Do not worry, go to the Tianji City, let your liver and brain cover the opportunity, there will be!"

Ye Xuan's voice came from the front, and Chanas heard that the excitement on his face was suddenly stagnation, and he was on the spot, and his heart was inexplicably uneasy feeling...

.....

From the Devil's Star Field to the long star way of the first universe, although there are many natural wormholes that can open wormholes, some of the important wormholes have high strategic value and have entrances. The direct fleet of the Tianzu nationality is guarded for years. Even if they jump through these cosmic wormholes, it will take a month to arrive.

On the way, you even need to go through the source of all evil!

The source of all evil is a Jedi, and it is the sinister Jedi in the first universe, in the first universe, known as the first dangerous place under the stars.

The life black hole and the starry sky grave that Ye Xuan had explored before can only be regarded as the Jedi in the big star field. The source of all evils is higher than them. The degree of sinister can only be seen.

The source of all evil is not in or around the Devil's Star Field. It is very far away from here. It is located near the central area of the First Universe. It is only a journey of six or seven days from the base of the Tianji Nationality.

Departing from the Devil's Star Field to Tianji City, even if it is a 100,000-meter-diameter starry sky fortress, it will run at full speed day and night, and the wormhole jumps along the way will take more than half a month to arrive.

This time Ye Xuan went to Tianji City, just passing by the source of evil, but he did not intend to explore, although he was there sooner or later.

After getting the Son of the Son, in order to find the source of engulfing, Ye Xuan quietly lurked around the Magic Emperor, searched for the signal of the Emperor Star Network, and then immediately directed his personal communication system and invaded. Directly through this network, log in to the upper-level network of the top-level family and start conditional search.

At that time, the search conditions he gave were the source of engulfment. Considering that the name may be different here, Ye Xuan even described in detail the characteristics of the source of phagocytosis, which is known to the phagocytic system. It will not be taken as a search condition and will be released to the affiliated communication system.

After the order was issued, the communication system was immediately executed, and the star network that invaded the Magic Emperor star launched a leap-level invasion. About a dozen minutes or so, Ye Xuan had already received the search results from the sky-based main network. The origin of the source of suspected devouring, which exists in the first universe, is the source of all evil!

However, the situation at the time did not allow Ye Xuan to explore, and then he was brought back to the third universe by Naples.

Since this time, since the return, the source of all evil must be to explore. The devour source in his hands has already been left after the last system exchange. If you look at the system redemption store in the future, Treasures, when you need to redeem, you don't have that ability at all.

However, this matter may only be carried out after the end of the journey of Tianji City. Otherwise, it will be delayed for too long. Ye Xuan is worried that the Voids are dangerous!

The magic warfare, the top command cabin!

Different from the general small fortress, at this time, the command zone of the magic warfare is empty, and almost no figure is visible. Only Ye Xuan and Chanas are two.

There are basically only the masters of the warships and the intelligent robots as waiters or mechanical maintenance workers. Unlike the Terran or other ethnic groups, a warship requires a lot of people to work in order to make it smooth. Running.

The Tianji people have an electronic awareness, extend it, and can perform various operations on the warships as they please. One person is equivalent to an entire battleship control team, which is the unique advantage of their ethnic groups.

However, the Devil War is not a private car of Sha Baofeng, so there is no possibility of intelligent robots in the battleship. There are only Ye Xuan and Chanas on the road, so those who should have been done by the waiters on the way. Everything happened to the head of Chanas.

Although the Tianji people are not flesh and blood, they have tried their best to pursue the human form in terms of form, so they will naturally enjoy the various enjoyments that human beings can enjoy, such as diet.

Some of the more evolved ethnic groups in the celestial family will make various modifications to their bodies, have artificial systems similar to the human digestive system, and even have taste buds.

Therefore, these high-level celestial people can even taste wine and food like human beings. Of course, they don't need the energy after these foods disappear. This is just a kind of appetite.

After leaving the Magic Emperor Star, Ye Xuan's daily diet has always been Chanas's busy work. He has a few jobs and almost never stopped, because when he left the Magic Emperor, Ye Xuan went to the battle. The food storage compartment is replenished with a large amount of top-grade ingredients. After all, this time it is to help the demon royals, not to take the white.

In the end, Chanas was bitterly changed every day to make Ye Xuan do all kinds of top-class delicacies, and it was not three times a day. At the moment, Ye Xuan's body and blood level has been repaired to the seventh level, requiring a lot of energy supplement. If you eat too much, you won't feel it. It's often possible to get 17 or 8 times a day.

In less than a month, Chanas lost a big circle, and with two black lacquered panda eyes all day, the sleep was seriously insufficient, because he didn't even care about sleeping, basically Busy and alive to Ye Xuan to do delicious delicacies.

On the twenty-fourth day, the magic warfare passed through a dark and dull star field. At the time of Ye Xuan's mind, a familiar system sound suddenly sounded...

Chapter 3479: Interstellar conqueror

"Hey, congratulations to the host! Discover the dangerous star!"

"Assessment Result: Dangerous Star Field! Hazard Source: Unknown! Risk Factor: SSS! Do you explore it immediately? Tip: If the exploration is successful, there will be a chance to upgrade the system title!"

"The current title of the system: the fourth level, the Star Trail Blazer!"

"The next level of the system: the fourth level, the interstellar devotee!"

"Star Scavenger: The title's own halo effect, based on the original four-level title Star Trek, Interstellar Adventurer, Interstellar Explorer, Interstellar Trail Blazers, will add a new system capability, random activation. At the same time, the number of interstellar coordinates imprinted on any cosmic plane, from the previous one, grows to two!"

"Hey, after the system is finished, do you start exploring immediately?"

With the end of the system sounds in the brain, Ye Xuan was caught in the sinking, and his eyebrows were locked and worried.

The reason why he is worried is not because of the identification result of the system, nor because of the danger coefficient of the three S-class. After all, this is the source of all evils. The star-level danger of the plane level is the first danger in the first universe. The existence of Ye Xuan's heart has long been prepared for its danger.

Even before Ye Xing had arrived at the place, Ye Xuan vaguely guessed that after the approach, it is very likely that there will be a situation that provokes the system's title title. After all, the previous four titles, except for the first title attached to the original system. In addition, the three titles in the back are all encountered in such a starry sky, and the conditions are suddenly triggered.

They are the black hole of life, the tomb of the starry sky, and the unknown transmission array in the swirl of the third cosmic death star.

This time, going to the Tianji City's base camp Tianji City, it will pass the first space under the stars of the first universe, the probability of triggering the system's affiliated title is over 80%. This is Ye Xuan's previous speculation, and now it is confirmed!

He is now worried because he is hesitating to accept this systematic exploration mission.

If you accept, the benefits are naturally unnecessary. First, the interstellar coordinates that he can imprint on any cosmic plane will change from one place to two, that is, once this exploration is successful, in each universe. In addition, when he explores interstellar coordinates, he will have two destinations to choose from, which is significant.

But this is obviously not a big one, and the main one is a new system capability that is randomly activated.

Any ability to devour the system, in order to activate, must meet the prerequisites. Before that, Ye Xuan even knows what the conditions of a certain system's subsidiary ability are activated.

For example, personal star communication, Ye Xuan received the system's prompt tone after receiving the fragment of the starry sky super brain, the defendant's system has met the activation conditions.

Prior to this, Ye Xuan did not even know that after entering the starry environment, the phagocytic system in his body had the subsidiary ability of this kind of cattle.

This shows how difficult it is for the system to activate a new subsidiary capability.

Ye Xuan now has the system auxiliary ability, in addition to the interstellar coordinate jump ability bound by the system title, there are only two fusion systems, personal star communication system.

Other affiliate systems and capabilities, he did not know, let alone the conditions of activation.

Therefore, this time the system exploration mission, the temptation of Ye Xuan, is too strong, a new system capability, he simply can not refuse.

If you refuse this, the final result is most likely to be missed.

Even if he goes back to the source of all evils, he may not be able to activate the system title again. The previous three times, Ye Xuan is always accepting the task, never tried to temporarily refuse, and then try to go back next time. .

According to his estimation, the triggering of this system title task should also have certain activation conditions. The second time, it may not be useful!

That is to say, this time the system title exploration task, if Ye Xuan refuses, it is very likely that he will miss it this time, and the next time he reappears, I don't know when to wait.

This makes him entangled, hesitant, because the crisis of the Voids can not be delayed!

"Sha Daren, there is a fleet there, it seems to be another adult of the Celestial family..."

Just as Ye Xuan was in hesitant and hesitant, Chanas, who was next to him, suddenly reminded him that Ye Xuan looked up and looked at the huge holographic stereo screen of the top command cabin of the Devil War. He saw the cosmic void on the right side. A fleet.

The fleet is still quite good, with a total of six small fortresses of 50,000 meters in diameter and two large fortresses of 100,000 meters in diameter.

Judging from the appearance of the hull, these eight star fortresses are obviously from the celestial family, not the other servant groups in the first universe like the devil's group!

Ye Xuan's brows are tightened more tightly, because the other party's direction of travel is very clear, and it is straight to the source of all evil.

They want to enter it!

This is where the first universe is under the starry sky, and basically no one is so ignorant of life and death.

The current fleet from the Tianzu nationality did this.

This reminds Ye Xuan of the black hole of life.

The black hole of life in the first universe, although it is not a star-level danger of the upper level, but it is only a level difference, at least it is a star-level dangerous space of the big star domain, but the fleet of the heavenly family is still invading and eventually will The Void squad has all gone.

Is this all that is happening in front of me related to this?

The fleet of the Tianji nationality will never enter this kind of star-space danger for no reason. They go there, obviously it is purposeful.

Thinking of this, Ye Xuan's heart suddenly jumped, almost to the heart, and subconsciously made a positive reply to the body's engulfing system.

He decided to accept this system title exploration mission!

Everything inside the source of evil is like, he does not know at all, but there is a little Ye Xuan can basically be sure, that is, with the entry of the fleet of the heavenly celestial fleet in the distant sky, everything inside the source of evil must be certain The extent is destroyed.

In this case, if Ye Xuan refuses this system title exploration task, the next time he comes back, more than ninety-nine will not want to activate the same task again.

He does not want to miss it!

At the same time, he is also very interested in the task of this celestial fleet that will enter the source of all evils.

With all the dust settled, Ye Xuan received the system to confirm the response to the mission, and after issuing the system prompt tone again, the first time to the magic warfare issued a transfer direction, into the command of the source of evil.

It was also at this time that among the fleet of the heavenly emptiness in the distance, there was suddenly a large fortress with a diameter of 100,000 meters, which opened fire to the War of the Wars!

Chapter 3480: Heavenly machine

"call out!"

"call out!"

Two piercing sounds of screaming sounded, from the front of the fleet of the Tianzu nationality, the first two 100,000-meter star fortresses, the two-kilometer-diameter conventional annihilator gun energy beam, straight Refers to the magic fortress of Ye Xuan.

This 100,000-meter-diameter giant fortress, its ship-borne main gun is an anti-material dead light cannon with a diameter of 20,000 to 30,000 meters. In addition, it is equipped with a number of kilometer-diameter conventional star-killing guns.

At the moment, the other party did not start the main gun. It just opened two sub-cannons. Obviously, it is not really necessary to destroy the Devil Wars, just to expel it.

Because for this submarine gun, even a small fortress with a diameter of 50,000 meters can easily be avoided. The speed of the energy beam is limited by the conventional energy attribute of the kilometer caliber star.

Ye Xuan extended the electronic consciousness for the first time, manipulating the magic warfare and quickly evading, and instantly traversing the tens of thousands of emptiness, easily avoiding the two-kilometer-diameter conventional annihilation guns.

But Ye Xuan's face was completely gloomy.

Too embarrassing!

Is this the other party who treats him as a strong servant group?

Even so, the average high-level elite is not so embarrassed. After all, even a strong servant group, but able to control this small fortress of 50,000 meters in diameter, the status of its family is absolutely inferior. Now, is it possible to accommodate the existence of arbitrary eviction?

But the other party has never ignored this. What is the sacred commander of this fleet?

Just as his heart angered, the holographic stereoscopic display of the top control cabin of the Magic War suddenly flashed, and then a picture appeared, and the other party actively connected the internal LAN of the Magic War.

Ye Xuan sneered, let go of the authority, he just wants to see where the other party is.

Soon, the picture of the stereo holographic screen changed, and the image appeared, which was the image of the flagship top-level command cabin of the opposite fleet.

A young man in his early twenties, his lips are red and white, his face is full of pride, and he is sitting on a long, soft sofa at the moment, half of his body is nesting in, a beautiful woman on the thigh, behind and to the right. Still squeezing a few, all of them are carefully helping him to massage, or let him reach for it.

These beautiful women do not know whether they are intelligent robots, or people or demons.

This point is not visible only through the stereo holographic screen.

However, this proud young man on the sofa is definitely a celestial tribe, and it seems that his status is not low, because with the communication, he actually recognized Ye Xuan at a glance. Even so, the figure is still nestled in the long, soft sofa, and there is no meaning for moving halfway.

The look on his face was still lazy, and there was even a touch of disdain.

Yin and Yang said with a strange sigh: "Hey, who is this thought? Who is it? Is it a sand wastewood for a long time? How? Look at your face black, is it smashed twice by the little dog, you are still not convinced?"

"call out!"

"call out!"

"call out!"

The voice did not fall, and the 100,000-meter-high fortress on the opposite side was fired again. It was also the energy-light column of the conventional star-killing gun with a diameter of three kilometers.

At the same time, the arrogant laughter of the arrogant young man passed over again: "Ha ha ha ... sand waste wood, see the posture you just evaded is very good, give this less two, right, this action What is the name?"

"The yellow dog is still the king's tail? Hahaha..."

Lying grass!

This is arrogant, it is simply arrogance, contempt!

Ye Xuan was blown up on the spot!

In the past six months, only when he bullied others, when was this kind of suffocation?

Even if he also recognized the identity of this arrogant young man at the same time, knowing that people are big and have such strength and qualifications to Shabaofeng, but Ye Xuan is still mad, and wants to attack on the spot.

However, before he responded, the arrogant young man on the opposite side has once again ridiculed. This time, the provocative meaning in the tone is less, but it reveals a deep contempt: "Oh, too boring, waste Chai is a waste of firewood, and it has been bullied by this as a dog. It can still be hard to scream."

"It's like this, it's no fun to bully you to play... Let's get out of the way, this is the source of this evil. But there are tasks in the body, and then dare to disturb, this is the place to kill you, the head of the patriarch will not chase Responsible, so you understand?"

"Hey! Waste..."

The last cold pass came, the other party had already cut off the communication, and the holographic stereo screen of the top command cabin of the magic warfare flashed, and the image of the other party was lost.

"Wow Kaka, mad at me, kill him, you must kill him!"

Ye Xuan fried the hair on the spot, slammed the three feet, once again spurred the magic warfare to avoid the bombardment of these three annihilation guns energy beam, roaring like thunder, even if you want to fire open and fight back!

Seeing this scene, the chasing next to Chanas was almost gone. He had been watching it all the time, and he didn't dare to say anything. After all, this is the top of the two heavenly elites. For him, he is definitely a god. .

The gods fight, and his little devil can only shrink on the side.

But now the little **** is going to do the great gods, but he is still in the battleship of the little gods. This is absolutely going to happen, or the little **** is killed, he is buried together.

Either the big **** is killed, or injured, and turned back to accountability, he is also bad luck.

In any case, you must not let this happen, and you will be better off, otherwise he will not be able to fall, and it will be dead.

One thought of this, Chanas even if he rushed over to Ye Xuan, his face was white, obviously scared, and holding Ye Xuan's arm, he persuaded him: "Sha Daren, impulsive is the devil, 咱Don't be impulsive! The opposite is the prince of the celestial family. You don't know his temperament. He has always been used to it. Let's endure it!"

"If not, it is absolutely necessary to make a big deal..."

The so-called celestial prince, the prince of the heavenly family, refers to the patriarch of the celestial family.

That is to say, the arrogant and arrogant young man, whose name is Emperor Shaofeng!

The Tianji people are not flesh-and-blood, and the ability of the descendants to multiply, they do not have it. Therefore, what is the prince, the patriarch, and the patriarch of the celestial family, naturally, has no blood relationship.

However, due to his better talent, higher degree of evolution, and the time of awakening self-awareness is similar to that of Shabaofeng, but its cultivation has now reached the mid-term of the thirteenth world, far exceeding the tenth of Shabaofeng. In the later period of the second emptiness, it was favored by the Emperor Yi of the Tianji nationality. It was announced to the whole family several years ago, and it was established as the Shaozu patriarch and given the name of Emperor Shaofeng!

For these, Ye Xuan knows all!

At the moment, Chanas's persuasion and speech export, not only did he not calm down, but the look on his face was even more conspicuous...
