Chapter 35: surrender?

The people of Ye Jia and Lin Jia are not desperate, so they generally do not kill things that kill the old and the weak women. After hearing the voice of Ye Xuan, they are coming quickly.

After a while, the number is about 150 people, but the old elders and the second elders of Ye Family are still missing. Even the middle-aged family of the seventh martial arts of Lin Family did not appear.

It seems that there should be some problems.

"Go, let's go out together!" Ye Zhang's face was gloomy.

This time, the action of destroying Chen's family was originally a nail-studded thing. I didn't expect Wu's support to come so fast, and Wu's Wu Liang broke through to the eighth martial arts. This is not a good sign.

However, in the case of the two teams, even Wu's family has to measure the amount. After all, the eighth is not a panacea.

Yeh and Lin, the two hundred people, went out like this. Some city guards saw them and immediately retreated.

Soon, they came to the front of the Chen family.

At this time, in front of the Chen family, there were also a large number of people gathered. There were also the city guards wearing armor, and there were some strange figures. They were no accidents. They were the Wu family.

These people add up to at least three or four hundred, more than Ye and Lin. However, most of them are recruited members of the City Guard. Their strengths are between the third martial arts and the fourth martial arts. They rarely reach the fifth martial arts. They are cannon fodder.

"Ye Zhang, Lin Ming, you are really courageous, even in my city, do you want to be, do you want me to be Wu Tian?"

When Ye Zhang and others came out, a middle-aged man at the door was a big drink. He was the owner of the city of Wuyun.

"Wu Tian, don't put it on the shelf, now the Chen family has been destroyed, and your Wu family can't reach it for a few days." Ye Zhang said coldly.

"Yes, well, then I don't say much, bring it up!" As Wu Tian's voice fell, there were two masters of the Wu family in the crowd, who made it with a five-flowered man.

"Great elders?"

After seeing the captive person, Ye Zhang also opened his eyes. Isn't this the first family of Ye Family?

"Yezhang, they must want to use me to threaten, you don't care about me." Elder Ye Jiada yelled.

As long as it is a fool, you can see it. Otherwise, what does Wu Tianqi's elders of Ye Family do?

"To shut up!"

Not waiting for Ye Jiada's elders to fall, the edge is to go out alone, directly slap in the face of Ye Jiada's elders, it is Wu Tian's father Wu Liang, the martial art eighth heavy weapon!

"Wu Liang, I didn't expect you to break through, it's damn!" Lin Ming said after seeing this person, he also gnashed his teeth.

Today, if it is not Wu Liang, then they can easily destroy the Chen family, and then rushed to the city government to destroy the Wu family.

Unfortunately, there have been changes.

In addition to the elders of Ye Jiada, there are still many masters who have been captured, including one of Lin's family members who are also the seventh middle of the martial arts.

This is hard to do.

"Homeowners, leave us alone, directly on, as long as the Wu family is destroyed, then even Yuncheng is the world of our two."

"Yes, leave us alone, we can sacrifice, but we can't be threatened by them."

"In order to become a big event, we must make sacrifices. We are ready!"

A total of fifteen people were captured by the Wu family. They were all prepared to sacrifice themselves. After all, if the two joined forces, even if the Wu family had a martial arts eighth, they could not fight against it.

"Give me shut up!" Wu Liang shouted and waved to the others to take the captives down and seal them.

Wu Tian, the owner of Lianyuncheng City, is also taking a step forward. He said: "Chen Jia, Ye Jia, you are actually arrogant in my city of Yuncheng. Now, I will give you a chance to put down all the weapons, I will consider putting Have you."

"fart!"

Someone shouted out immediately.

Just kidding, as long as Ye Jia and Lin Jia are eliminated, then Lian Yuncheng is the world of Wu Jia, Wu Jia, will it be so easy to let them go?

Ye Zhang and Lin Ming also looked at each other. They are the heads of the two families and naturally want to think about the whole family.

Although the elders of Ye Jiada and others were captured, they also understood in their hearts that the overall situation was serious, so they had long thought of giving up these captives and fighting with the Wu family.

However, just as they were preparing to order, Wu Liang suddenly said: "Chen Jia is just a chess piece of my Wu family. I just want to borrow your hand and destroy the Wu family first, but I did not expect that your The action is so fast."

"But you better know another point, my captives, not only these fifteen people. Before I brought the team, I sent the city guards to both of you. Now, it is estimated that your wife and children are It has already been taken down..."

what?

When this sentence fell, the people of Ye Jia and Lin Jia were shocked. Wu Jia, there is still a backhand.

"Fart, Wu Liang, do you think we will believe?" A master of Ye Jia stood up.

"Oh, believe it or not, anyway, the overall situation has been fixed, and even Yuncheng is still my Wu family." Wu Liang snorted.

"Yes, if you really don't believe, just wait for a while, I think my guard is already on the way." Wu Yuncheng, the owner of the city of Lianyun, was cold and cold.

Ye Jia and Lin Jia are all silent, and their hearts are also faint and some believe.

Originally, they thought that the Wu family was teamed up with Chen Jia, but they did not expect that the Wu family used Chen as a cannon fodder. When they were throwing out their nests, they threatened their families, but this was not expected by everyone.

The atmosphere became very weird, neither of them was working, just waiting quietly.

"Ye Xuan, if there is anything wrong with the situation, you immediately go to Chen's house and then escape the wall..." The three elders whispered to Ye Xuan, who was next to him.

Ye Xuan did not speak, just stood silently.

It is absolutely impossible to let him go alone. Moreover, there is still a plan in his heart that might shock the Wu family.

Moreover, just now he used the phagocytic points to exchange seven martial arts. In the face of group battles, his bow and arrow can exert great effects, and he can definitely kill the Wu family.

However, I will wait for a while.

The atmosphere on both sides is very weird, and they all want to kill the other side. In this case, even Yuncheng will be peaceful in the future.

However, the expressions on the faces of Ye Jia and Lin's family are not very good, because they feel that the Wu family is really moving this time. If they do not surrender, then the two families may be slaughtered.
