### Chapter 3511: Vicious venom

The atmosphere of the furnace is like the atmosphere of the furnace, it is very thin, this is the endless years of praise, and Ye Xuan once cleaned up.

And the evil source liquid in the huge grinding disc below was also stunned by Ye Xuan once a year. Even those who have already dripped onto the chain and are in the process of transportation are hardened by him. I was born and returned.

Nowadays, in this huge urn, there is only a little nine-colored meat in the central hole of the grinding disc.

It is a little bit, it is compared to the previous total.

In fact, the giant furnace of the furnace is as large as a star, and the inner two-thirds of the area is occupied by huge grinding discs. Therefore, although the hole in the center of the grinding disc only accounts for about one-third of the diameter of the grinding disc, its capacity is also It is very big.

Even if the nine-colored meat mud in the hole is only a shallow layer, it is nearly 10,000 cubic meters.

This nearly 10,000 cubic meters of nine-color meat mud can not be used to condense the evil source liquid, but the blood meat is collected, and the amount used to smelt large drugs in the future is still considerable.

Ye Xuan took out a new space vial and collected it directly. Soon, thousands of cubic meters of colored meat mud were collected into the space vial, but Ye Xuan did not finish it, and stopped when he received half of it.

After the last time the space vial was collected into the body, Ye Xuan explored the huge hole in the grinding disc. The remaining colorful mud at the bottom of the bottom was about 4,000 cubic meters. According to his estimation, the four thousand cubic nine Color blood mud, should be able to condense about ten drops of the source of all evil.

The reason why they didn't continue to collect them was because Ye Xuan suddenly had a new idea.

These ten drops of the evil source, Ye Xuan intends to make a huge grinding disc to condense it, and then it will be black.

The so-called black hand here does not mean taking the dozens of evil sources, but adding them to them, and then letting them drop into the chains and transport them to the users at the end of the chain.

Of course, it is extraordinary to be able to enjoy the existence of such a source of evil. Or it is the ancient power of the ruined and ruined, or even the ancient sacredness, or the \*\*\*\* inheritance of a bloodline. Of course, They have a commonality, that is, the genus of the hostile camp commander Tiandao Qingyan.

However, the strong blood of the people is there, the general toxins are obviously poisonous and do not turn them over.

Since Ye Xuan wants to hurt the black hand, then, not to mention a few poisonous deaths on the spot, at least have to affect their recovery, or leave poisonous roots in their bodies.

Otherwise it doesn't make sense.

To do this, among the toxins in his hands, it is estimated that only the undead can not be done.

The so-called immortality of the pearl is the existence of the ancient and precious treasures. This is definitely the king of all poisons. It is a smattering of the invincible resentment of the ancient warriors. This is absolutely the supreme treasure of the yin.

However, the poison of this bead is too horrible, a poisonous large piece, if it is not timely suppressed after the spread, fearing that a cosmic plane has to fall, it is too dry, and Ye Xuan simply does not dare to use it.

I am afraid that there will be too many causalities in the midst of it, but this time it will be different. Everyone was originally a hostile camp. Although Ye Xuan did not participate in the battle of the past, but because of the headless baby, he has always relied on him. The body, and the \*\*\*\* magical powers he mastered, and some mysterious secrets, are all derived from the wildest supremes of some of the camps.

Therefore, Ye Xuan has already been involved in the invisible, which is to start against the enemy camp, and it is only natural and fearless, and then there is no fear of unnecessary contamination.

However, the immortal poison contained in the undead, although it can definitely have an effect on the existence of the ancient powers or the ancient supreme at the end of the chain, but this pearl is precious, Ye Xuan's hands are only two. However, one finished product is slightly embarrassing because it was used in Shennong Ding, and it was the condensed pearls after Shennong Ding re-condensed.

The other one is innocent and has never been used.

These are just two of them, and they may be of great use in the future. Therefore, Ye Xuan did not intend to use them.

Too precious!

In addition to not killing the beads, Ye Xuan has various resources in his hands. Some of these resources are highly toxic and even strange.

Although it is rare, it is much worse than the immortal bead. Besides, these things have a certain amount in their hands. If you take out some of them, you are not afraid to use them.

When he thinks of it, he will fall to the circle around the grinding disc even if he falls down.

This huge grinding disc was originally used for condensing. Even the causal resentment of the powerful wild creatures contained in the nine-colored flesh can be removed and turned into blue smoke, so the toxin can not be placed in the central hole. Going in, after the smelting of the grinding disc, all will dissipate.

That is nothing to do with white.

Ye Xuan came directly to the side of the groove. After waiting for a while, I finally saw a drop of evil source falling down and rolling in the groove. He didn't hesitate, even when he took out a lot of various poisonous powder venoms, etc. The bones are falling down.

Unfortunately, the effect is that he is speechless.

As soon as all the toxic powder and venom are contaminated into the groove, it will immediately turn into a blue smoke dissipating, and it will not exist at all, let alone melt with the liquid of the evil source that is dripping into a chain.

It seems that these things will not work after all, and they will not come in handy.

Ye Xuan was speechless, and he could only collect it all. He didn't dare to waste it. Then he took out the undead. Of course, it was that one.

"Hey, congratulations to the host, found the wild and sinister poison! Undead and indestructible beads: the intrinsic ruins of the ancient world, the invincible resentment of the world, the grievances of the heavens and the earth, the pollution of the beads! Grade: the ancient treasures! Quality: finished slightly Hey! Is it used right away!"

This smashed undead bead was taken out, and Ye Xuan's mind immediately heard a familiar system sound, but he did not use it immediately. After all, there were other sources of evil that did not drip.

After a little hesitation, he simply dropped the drop that had already fallen with a new vial and waited next to the groove.

After a short period of time, a total of 18 drops of all the evil source liquids entered the space vial. At this point, the nine-colored meat mud in the central hole of the grinding disc was gone, and even the speed of the grinding disc slowly slowed down and recovered. The state before the flesh and blood raw materials were put in.

It seems that, like my own guess, this void refining and large-scale battle is opened for a while, not forever turning, otherwise there are so many wild animals and flesh and blood as raw materials?

Next time, I am afraid that at least one year later...

After confirming this, Ye Xuan was very determined. For him, everything was done here, leaving only the last one.

"This time, these eighteen drops of evil source liquid have to become a venomous venom..."

The thief smiled, and Ye Xuan would not be ruthlessly thrown into the space vial, and then slammed the bottle mouth and swayed...

Chapter 3512: Chain squeaking

After shaking a few times, Ye Xuan decided that the immortal bead had already taken effect, and it was integrated into the eighteen drops of evil source liquid. Now, they have become sinister venom, so they stopped and carefully opened. The stopper of the space vial looked inward.

Sure enough, the undead pearls have disappeared, and the bottom of the bottle has only a shallow layer of liquid. The strange thing is that it looks like the amount is just 18 drops, but the color is slightly different, but the change is very weak, no If you look closely, you can't see it.

This shows that the immortal bead has indeed taken effect, and its toxicity is direct ablation, affecting the original eighteen drops of evil source liquid, without any residue, which is more reliable, will not be found to have impurities and by those At the end of the chain, the ancient powers of the ancients and even the ruins of the ancients glimpse.

With a sigh of relief, Ye Xuan even took out the poisonous venom in the bottle, but did not dump it all at once, but left a third, that is, six drops. After all, this kind of thing is not ordinary. Can get it, 18 drops of evil source liquid cost a whole piece of undead.

Although Ye Xuan's hands still have an undead, but it will definitely not be used again next time.

Therefore, the eighteen drops of venom in his hands are extremely precious.

Ye Xuan decided to leave six drops, still in the space bottle, plugged the bottle and then turned over the body to immortalize.

At the moment, there are a total of twelve drops of venom that float in front of him.

Originally, it was possible to poison 12 old and even the ancients, or the important blood of the enemy camp, but considering that some guys are strong, one drop is not enough, and the effect may not be satisfactory.

Therefore, Ye Xuan decided to pick nine chains to start.

Six of them are all dripping into a drop of venom.

The other three are all that he has robbed three to four drops of evil source liquid before, and can be distributed to such a large amount, showing that the other party's identity is extraordinary.

Therefore, these three chains, Ye Xuan all have a powerful medicine, two drops of every evil venom!

When the first drop of the vicious liquid droplets, Ye Xuan's whole heart hung to the eyes of the blind, and the fear of the situation before it appeared, it was really in vain.

Fortunately, this time there was no problem at all. The first drop of the evil source liquid just dripped, the chain was lit up, countless crepe patterns flickered, and gradually extended toward the distance, this is the drop of venom In the way that some Ye Xuan has not yet understood the way to the target.

He immediately felt relieved, grinned, and then dripped all the other 11 drops of evil source into the other five selected chains.

Soon, the six chains at the headquarters all lit up the sinuous pattern and extended toward the end of the other end.

At the moment, Ye Xuan's corpse light tattoo on the left chest was finally hot again. This is the headless baby corpse in the police, reminding Ye Xuan to leave at this time.

Before Ye Xuan did everything, the headless baby corpse must be inductive, but it has never said anything, indicating that the baby corpse is also very satisfied, it is estimated that the heart has blossomed, it is rare to see the enemy's strategic resources being My own spokesperson is so plundered.

At this moment, the headless baby corpse is also reminded that after Ye Xuan drops the twelve drops of vicious drops to the six chains, this illustrates two problems.

First, for this matter, the headless baby body is also very much in favor, so in the process of Ye Xuan doing, he did not stop, it is estimated that the heart is also happy.

Second, Ye Xuancai just dropped 12 drops of vicious drops on the six chains. The headless baby immediately alerted him to leave. This shows that when the venom reaches the end of the chain, it will definitely cause some unknown. The change has not been a little bit beneficial here. It has become a land of right and wrong, and will attract some attention.

As soon as I read this, Ye Xuan did not stop again. When she broke through the smog and smog of the sky, she came to the Hongding Giant Ding.

He originally wanted to throw the super-death bomb that was prepared for the base camp of the celestial family into the furnace, but it was estimated that at least the old-fashioned treasure would not be effective, so he finally gave up.

Of course, the main reason is that this will lead to the concern of Tiandao Qingyan. At that time, Ye Xuan may not have the time to leave.

This time the harvest is huge, there is no need to take this risk again.

After the oven giant tripod, Ye Xuan once again saw a large number of ruins of the ancient dynasty in the void around the star of the giant dingding. Near the giant ding, all the breaths surpassed the horror

of the star's main territory, and the far away is the star. The ruins of the ancient and the spiritual ruins of the main territory and the Qiankun.

In the brain, the flash of light flashed, and Ye Xuan took care of the light film of the headless baby corpse. It was still on the surface, and never dissipated, even when it was violently smashed toward the mighty and ruined creatures that breathe beyond the star's main territory.

It's hard to take a trip, and this time I got the active help of the headless baby corpse, which inspired a layer of blood-blue film to cover the body of Ye Xuan, so that he is not afraid of these powerful atmosphere, if not It's a pity to take some of it and take it away.

However, Ye Xuan did not dare to be too greedy. He was fancyd by him and earned the wreckage of a powerful and ancient creature in the body of Shennong Ding, which is only a dozen.

Every one is incomplete, but even so, its size is large enough, basically all of them are thousands of tens of thousands, and a dozen, that is, more than a dozen mountains, the general space vial can not be installed at all, also Only directly received Shennong Ding.

Anyway, whether you are roasting or eating it as a raw material for blood and meat, you will have to invest in Shennong Ding.

After collecting the flesh and blood wreckage of more than a dozen powerful ancient creatures, Ye Xuan originally planned to collect some other blood on the remains of powerful creatures. These bloods are extraordinary, and they have fallen into endless years, but some of them are ruined. On the other hand, those bloods are still in tears, and every drop of blood has Xia Rui bloomed. If it is used as medicine, it is absolutely supreme.

Although Ye Xuan had received more than a dozen wrecks from Shennong Ding, he also had the blood of this kind of spray Xia Rui, but after all, the species is different, and you can do a few more calculations, and it will always be useful in the future.

It was also at this time that the corpse lamp tattoo on his left chest suddenly became hot. This time, more than ever, I immediately let Ye Xuan be alert.

Immediately afterwards, he had not yet been sent back to him. The rear was about a thousand miles away. The huge red dragon that was as big as a star swayed violently. Among them, there were a lot of sounds of shackles. .

Even the layer of milky white smog above the Hong Ding giant tripod was like a hurricane, and suddenly it rolled up.

This scene made Ye Xuan's neck shrink, and suddenly there was a dim sum.

Look at this movement, is it... Is someone poisoned?

Chapter 3513: Blood egg hair ball

When Ye Xuan hardly grabbed the evil source, he chose the end of the void that was connected to the first chain. The distance from the source of this evil is not far away. I don't know how many cosmic planes are separated. Some mystery.

The beast of the red blood scale of the whole body is too heavy to tear the void, and it will fall directly across the plane. At this moment, it can only vent the unwillingness and anger of the heart with the sound of roaring noise, and send out a The sound of the roar of the road.

This beast covered with blood-red scales is scared, because the breath that has been diffused from the body is clearly the same level as the golden dragon, the ancient night fork, and so on. It was seriously injured in the battle of the world. The wheels have split open and have been hidden in this void.

Its injury has already recovered to seven or eight.

Just now, the three drops of the source of the evil source, which was about to be delivered, suddenly went upstream, and it was hard to go back.

At this moment, just as the \*\*\*\* unicorn roared like a thunder, the chain of chains hung in the sky above the top of his head suddenly burst into a glory, and some complicated plaques flickered.

This is clearly a sign that even if the evil source drops.

The \*\*\*\* unicorn stopped screaming and looked up, and the anger in the squat gradually faded out.

Soon, along the end of the chain, two drops of evil droplets fell. Because the void was so dark, the color of the two drops of venom was slightly different from the previous one, but it did not notice, Zhang Open your mouth when you even swallow your belly.

"Roar!"

In the next moment, the earth-shattering roar rang, and a void was shaken. The body of the \*\*\*\* unicorn rolled in the void, and the sinister sin of the sinister sinister smashed into the air. Among the chains that are suspended, go upstream...

At the same time, the second universe, the ancestral home of the \*\*\*\* family.

At this moment, in the secret of the deepest part of the \*\*\*\* ancestral ancestral lands, the distant sky has been \*\*\*\* for a long time, and a huge blood cloud is still rolling.

Vaguely visible, the atmosphere is not as good as the ancient gods of the Golden Dragon and the Wild Night Fork, but compared with the ancient powers of the Void Scoop, the nine \*\*\*\* screams are not roaring.

The nine heads of blood were clearly and seriously injured. They were all nourished and restored by the evil source. In the past, every other year, at the end of this chain, there will be a drop of all the evil sources falling, but the nine \*\*\*\* but not Will all be consumed.

It will leave a quarter of it, and it will be injected into the \*\*\*\* giant egg that is tumbling in this cloud-like cloud field. It is the blood of its descendants. Once it is born, it will have the cultivation of Qiankun. There is no limit to the future.

Previously, it was the day when the drops of the evil source were dropped this year. Seeing that the drops of evil source will drip, the nine \*\*\*\* scorpions have even smelled its sweet smell, but the precious source of evil. The liquid suddenly shrank back and the breath was awkward.

Nine heads of \*\*\*\* hatred, but because the injury is too heavy, it is impossible to tear the void across the plane to pursue, at this moment can only vent the general roar like thunder.

All the ethnic groups of the \*\*\*\* people outside the secret world were all stunned and shivering. They did not know what happened within the ancestral secrets, and they made the blood source ancestors so angry.

At this moment, the sound of roar in the secret suddenly stopped, because in the chain that was suspended in the void above the top of the \*\*\*\* head of the nine heads, there was actually a drop of the evil source.

Of course, this is overcharged. To be precise, it is a venom!

However, the nine-headed blood donkey did not know. It thought that the previous accident was just a small accident. The drop of the evil source that belonged to it was still coming.

It has no words!

Then, the nine \*\*\*\* jaws suddenly opened their mouths, inhaling three-quarters of the liquid into the mouth, and the remaining quarter, dripping down, falling on the eggshell of the blood-colored giant egg held by his figure. On, the moment did not enter.

"Roar!"

In the next moment, the nine \*\*\*\* screams suddenly, the figure is unstable, and the three remaining daggers are wilting, and they are nearly withered.

Since the endless years, it has divided a quarter of the source of all evils for each of its descendants, the \*\*\*\* giant egg underneath, which directly led to the injury it suffered in the past. , recovery is slower.

But now, because of the horrible toxicity in this source, the three daggers that have been restored, one eye has to wither, which makes it mad and unacceptable.

However, something that made it even more furious happened soon.

"Brushing brush..."

The faint noise came from the belly of the nine \*\*\*\* heads, causing him to stun the body, and the sound of the roaring roar in his mouth stopped abruptly.

hair!

Bloody corpse hair!

It was densely populated, and it grew out from the \*\*\*\* giant egg underneath it, and it turned from a giant egg to a hairball between breaths!

This is a corpse hair!

Its \*\*\*\* blood, not yet born, is still in the breeding, within the egg body, the corpse has changed!

Even if the breath of life has not disappeared, it means that it can continue to be bred, but God knows what kind of monster will be born in the future?

At least, it's definitely not a pure nine-headed blood.

This means that it has always been the most concerned about the blood heritage, and now, after all, it is still cut off.

Because the more powerful the creature, the more difficult it is to breed the descendants of the blood, the \*\*\*\* giant egg that gave birth to its \*\*\*\* blood, or the \*\*\*\* nine-headed \*\*\*\* battle in the year before, when its strength It was still very weak when it was born.

Now, it is the supreme existence of the ancient power level. Even if it is hit hard, it has not been as strong as before before it has recovered. However, it is impossible to breed a \*\*\*\* giant egg.

"Roar!"

"Hey..."

All of this, nine \*\*\*\* unacceptable, it insisted until now, is for their own blood, but now, everything has changed, nine \*\*\*\* hatred.

After roaring a bit, a decree passed from the secret world of the \*\*\*\* ancestor of the \*\*\*\* ancestor, and turned into a \*\*\*\* man, falling into the hands of the \*\*\*\* patriarch.

In the next moment, the patriarch of the \*\*\*\* squadron was shocked, and then screamed at the sky, showing the blood and body of the body of the eternal body. This is clearly a \*\*\*\* scorpion with a \*\*\*\* return to the ancestors!

"The blood ancestors confessed: the family prepared for the war, united with the second universe, and jointly marched to conquer the first universe!"

This is just a rumor that advertises the whole family on the surface. In fact, the final purpose of this sudden plane-level war is also mentioned in the order, but the entire \*\*\*\* family has only patriarchs and countless Several ancestors who surpassed the star's main territory have the right to know.

That is, to break into the source of all evil, enter the core hinterland, check there, what happened in the end, and the troubles...

Chapter 3514: Source of turmoil

With the decree of the nine \*\*\*\* orders, the prelude to a comprehensive level war will soon be opened.

At this time, Ye Xuan never thought that the things he had done in the depths of the core of the evil roots had caused such serious consequences in the end, just like the wings of the butterfly were moving, this is unintentional, but in the ocean. The other side triggered a catastrophic tsunami...

The source of all evils, as the name suggests, became the real source of this turmoil!

However, this war was supposed to come sooner or later, but because of the \*\*\*\* decrees of the nine heads, the \*\*\*\* people were moved to promote the process, so let it advance.

The \*\*\*\* clan is the strongest group among the top ten of the second cosmic federation. Among the top ten ethnic groups, there are several ethnic groups that are its strategic allies, and the \*\*\*\* clan moves, these groups will never Stand by and watch.

The big battle, the level-level battle, is about to begin!

In fact, the impact of Ye Xuan's twelve drops of venom is not just that.

The chain that he chose to drop the evil source liquid is only six. Now there are two episodes. The nine \*\*\*\* side is going to recover the real black hand that cuts off its \*\*\*\* inheritance because of the anger, triggering a plane level that is about to unfold. Star Wars.

The \*\*\*\* unicorn, just directly separated a sacred beast god, along the chain, straightforward pursuit.

In addition, the existence of four chains at the end of the chain has also been plagued.

Two of them existed, and they chose silence. Although they all roared in their own habitats, they did not have any moves.

The other two horrible existences, one from the enemy camp of the ancient world, the ancient sacred nine sacred crocodile, it is also unruly, like the \*\*\*\* unicorn, chose to differentiate a crocodile god, Shun The chain is chasing away.

The other one, also in the second universe, is the ancestral ancestor of the Qingpeng who ranked second in the top ten of the Second Universe Federation, and a blue sky.

This Qingtian Dapeng, like the nine \*\*\*\* scorpions, was born in the late period of the ancient times. In fact, when they were born, the wild war of the past was almost ended.

However, they are still being created. Although they are old and powerful, they are seriously injured. Their blood source, the \*\*\*\* konjac and the big enchantress of the enemy's ruined level, all fall in that battle!

Obviously, Qingtian Dapeng and the nine-headed \*\*\*\* scorpion were the powerful forces of the same camp in the past, and now they have been concealed at the same time. It is impossible for the two races to easily take the plunge.

Among the various communities of the Second Universe, the top three ethnic groups of the ten major groups can basically represent the movements of the entire Second Universe.

Now, among the top three ethnic groups, two major ethnic groups have vowed to send troops to the first universe. On the surface, they have fought against the Tianji people. In the dark, they have attacked the source of evil and found the real behind-the-scenes.

Therefore, this battle is already inevitable!

However, this kind of plane-level battle can not be said that it can be launched immediately and prepared for war. It takes time.

The war has not yet appeared.

However, in the depths of the core hinterland of the first universe, the result of Ye Xuan's as a result, it appeared in the first time...

"Oh la la!"

"Oh..."

The sound of the chain is getting louder and louder, and there is a loud rumbling sound. The whole house is like a star-like dragon. The dragon is swaying. This side of the sky is ravaged by a smashing scent of scorpion, mourning the sky!

Ye Xuan has already started full speed and galloped toward the edge of the core hinterland of this evil source. He will leave here as soon as possible.

He didn't even dare to sacrifice the mechanical moths, because the target was too big, Ye Xuan worried about getting attention.

Although he did not know what happened in the rear of the huge furnace like the stars, but in general he can guess, it should be the existence of the end of the six chains.

It's not ordinary things, not even the ancients, even if it's the oldest, the cold is not counted, and it's afraid to take off a layer of skin. After all, it's the resentment of countless wild and powerful creatures that fell in the war of the past. Obsessed by the obsession.

What's more, the existence of the end of the six chains, even if it is really the ancient powers or the ancients, they are far from the past, and they are in a state of serious injury.

Judging from the current movement, there must be some guys who have suffered a big loss because of Ye Xuan's calculations. Otherwise, why is it so violent?

In fact, at the moment, Ye Xuan is terrified, but his mood is still very happy. After all, this kind of opportunity will basically not have a second time in the world. In fact, even in the era of the ancient times, you can count several old people at the same time. The mighty and the desperate people are afraid that they can't find one or two.

Even if I think about it, Ye Xuan feels very irritating. It can make the top of the enemy camp so embarrassing, and inadvertently eat such a big loss, this feeling is really cool!

However, it is cool, and he still has a sense of crisis. This road rushes to the edge of the core hinterland of the evil source. Ye Xuan has never moved greed along the way, even though it still looks like it is

coming, and sees too much. The powerful wreckage of the ancient creatures, and the layer of blood-blue protective film on his body still exist, but Ye Xuan has never shot again.

Time is very urgent. As long as you stay in this core hinterland, you may become the target of those wrathful wild and even ancient sages, and vent their anger. Although Ye Xuan has the magical power of the mysterious movement, it faces the ancient The horror of power above the power, he does not think this will be effective.

The means of headless baby corpse is indeed a more powerful guarantee for his peace of mind, but in fact, without waiting for Ye Xuan to reach the edge of the core hinterland, the layer of blood cyan film covered by his body surface is completely Disappeared, the original hot meaning of the left chest disappeared.

This does not mean that the crisis has been lifted. On the contrary, it shows that the crisis has become more and more intense. The headless baby must not want to expose itself, so it is completely crouched. Not to mention the outside world, it is Ye Xuan himself. It has not sensed its existence.

This made him squirt his hair in a moment, and the speed suddenly soared. Whether it was the power of cultivation or the power of flesh and blood, or the power of no god, the power of the devil, or the power of electronic consciousness... ... As long as it is all the power that the body can use now, Ye Xuan all promoted them to the extreme.

The whole person, in an instant, can not be captured by the naked eye, it is difficult for God to keep up with the speed of its arrogance, across the void, blinking away to miles!

Finally, just behind the void at the end of the sky, when a sudden roar of the sky came, the shape of Ye Xuan also rushed out of the core hinterland of the source of evil and entered the buffer zone of the central area in front.

But this is not safe.

Chapter 3515: Insect second

The body shape is on the edge of the core hinterland of the source of evil, and the first moment into the buffer zone of the central domain, Ye Xuan slows down the speed, because he knows that there is already a strong presence in the huge furnace, even if it is just a Consciousness, he is absolutely

impossible to have the opportunity to escape the peripheral areas of the source of evil and leave this star field.

At this point, to maintain this extreme speed, it is no different from the bright light in the night, and will directly lead the other party.

He does not think that the consciousness of the supreme being of the advent will only search for the core hinterland of the source of evil. Although it will be the area of focus, but the buffer zone of the central domain and the peripheral area of this star field, the other party certainly does not Will let go.

Even near the void of the universe beyond the source of the evil, it will be searched!

At this time, the best way is to crouch down, try to converge, and let yourself and the surrounding environment become harmonious, at least not as a bird!

Soon after leaving the dividing line between the central buffer zone and the core hinterland, Ye Xuan stopped completely and began to sway the spirit of mystery, but it was not the breath and shape. Concealing convergence, it will also be suspicion.

Instead, let your body shape change into an inconspicuous black beetle, not to be inferior in strength, and at the same time let the breath fit in with the surrounding void as if he had been here for a long time. .

In fact, all the black beetles in the sky are all like this, which was originally an inert life!

After doing all this, Ye Xuan's heart is still uneasy, but he knows that he has done enough perfection. As for whether he can deceive the consciousness of the road that has already arrived in the oven, and even the number of the most powerful. It's only a matter of resignation.

Of course, he still has some emboldened spirit, because if he can't, he believes that he will not be in danger of falling. The real life and death, the headless baby will never be ignored...

"Oh la la..."

"Boom!"

"Roar!"

"Hey..."

The chain slammed, and the giant bang slammed into the sky. Along with it, a unicorn roar and a magic crocodile screamed through the sky, shaking the big hollow of the core of the evil source.

Immediately afterwards, the huge figures of the two giants have risen from the huge furnace, and the pressure of the ancient power level has swept the world, surrounded by the endless years, like garbage or waste. Dingzhong spit out, and abandoned a large number of ruins of the ancient ruins of the void, which collapsed at this moment and turned into fly ash.

A supreme consciousness of the \*\*\*\* unicorn and the nine sacred crocodile finally came, and rushed out of the giant furnace.

At the top of the core hinterland of this star field, you can see it!

However, although the pressure is terrifying, it is only two senses of the ancient and supreme, and it is still the ancient sage that has been seriously injured in the endless years and has not yet fully recovered.

Within the radius of their body shape, everything will be in their consciousness, and the flowers will blossom and fall, and the stars will be born!

This is not a problem!

But when it is thousands of miles away, this power will be rapidly weakened, and the core hinterland of the whole source of evil and evil is only the star-like powerhouse, there are a lot of empty and ruined voids. Millions of miles away.

Therefore, despite the two supreme consciousness of the Scarlet and the Nine Monsters, the emptiness of the core hinterland of the whole source of evil is overwhelming, but on the edge, there are countless powerful creatures and descendants who crouch and inhabit, not willing to leave. In the area where they went, their pressure has been weakened a lot.

Even so, in the face of these two unscrupulous raging, it seems as if you are looking for a strong sense of power, the strong existence of the core hinterland of the evil, whether it is the Qiankun environment, the star territory or the existence of the transcendence of the star, all I chose to crouch and did not resist.

Even if these two consciousnesses are swept away from their bodies, they will not react too strongly, and at most, they will wiggle a few times.

This left them a life, because the consciousness swept away from their bodies quickly left, did not stay, and did not stop, they are searching for the most suspicious existence.

The consciousness of the \*\*\*\* unicorn and the nine crocodile crocodile fell into the huge furnace inside the giant furnace. After seeing everything in the giant ding, I immediately knew what happened. Obviously, this was someone who sneaked in and robbed the giant furnace of the year. The fruit, while still leaving the unknown mysterious poison before leaving, let them unfortunately won the bid.

Although they are angry, they can't wait to destroy this whole star field, but that is obviously impossible. The evil source will still exist next year, but the unknown behind-the-scenes hand is very likely to flee.

At this time, the consciousness of the \*\*\*\* unicorn and the nine crocodile crocodile did not even care about killing here to vent their anger. The only thought at the moment is that they may not flee far from each other. The wicked behind the scenes, pick it up!

However, although they are innocent to kill, but some exist, but have the heart to die!

For example, the black armor!

At this moment, the black armored emperor has just spoiled all five mechanical war insects, and it is still not enough.

It was originally intended to calm down, and then come back with the five guys who are hard enough and lasting for five rounds. At this time, the \*\*\*\* unicorn consciousness swept over, with a slap in the face, extremely You are welcome, and you will come directly from the nest of the black armor.

"Hey!"

This is simply the provocation and contempt of the red fruit, the black armor is immediately angry, the body rises from the old nest, the body of the sky appears above the void, roaring.

Although the black beetle is an inert living body, in the estrus period, it is extremely violent and even boring. In this state, the black armor is only the kind of thing in the whole brain, and all other perceptions are physiologically Desire has weakened to the extreme.

Including crisis awareness!

Therefore, at this moment, it will be so violently angry. After all, it has lived for tens of millions of years here. Since it has grown into a star-class eccentric, every hundred years of estrus, neighbors in the sky Even if it is stronger than it, it will give you a face and not bother.

After all, I know that the black armor of this stage is crazy, it is stronger than it, and there is no interest to provoke, not disgusting!

But today, it's just a guy who doesn't give a face. When it's about to start the second round, and the five hard-to-last, hard-to-last battles of the 5 million-round round, the initiative is provoking...

How can it not be angry?

It is a pity that its whistling sound only came out and came out one by one. Then, under the pressure of the scary consciousness of the \*\*\*\* unicorn, the whole body instantly collapsed and turned into fly ash.

Seconds!

It is also at this moment that the consciousness of the nine sacred crocodile crossed the dividing line and rushed into the central zone buffer zone of the source of the evil.

Chapter 3516: Seated fleet

"Roar!"

"Hey..."

A unicorn roar and a magic crocodile screamed through the sky, shaking the wider void of the source of evil and all the shaking.

A \*\*\*\* unicorn, a nine-nine crocodile, is the body of the eternal, although it is an energy consciousness, but the power is incomparably powerful, while the emptiness of the emptiness, the numerous black beetles in the buffer zone of the central domain are all shivering.

The same one changed by Ye Xuan, nestled on the edge of a group of black beetles, and the surface did not look strange, but he was twitching at the moment.

He really did not expect that there were two supreme strong people who came here this time. Although it was only their consciousness that came to this source of evil, it was clearly two ancient supreme.

Ye Xuan vaguely remembers that in the picture of the \*\*\*\* magical powers such as Qiu Tiangong, he saw this \*\*\*\* unicorn in the enemy camp in the picture of the ancient world, when it was fighting the golden dragon. As for the nine-nine crocodile, it was not noticed.

Judging from the momentum of the two ancient energy-conscious bodies at the same time, the nine-spotted crocodile is clearly not weaker than the existence of the \*\*\*\* unicorn.

That is to say, this is the horror of the two heads that can be evenly matched with the Golden Dragon. Even if only a consciousness of a seriously injured body comes, it is scary enough.

The rhythm that can completely make this whole star field collapse!

Just as Ye Xuan trembled, a terrible sensation swept the body with a powerful consciousness that almost collapsed his mind. Fortunately, at this moment, the corpse light tattoo on his chest was slightly hot, so this consciousness has nothing to see. And, it was swept away.

At this time, Ye Xuan realized his innocence.

If there is no headless baby body to look after, he will cover him at a crucial moment, just now, he was afraid that he had already been thrown out.

The so-called fine mystery is perfect shock, perhaps in the future, when Ye Xuan is strong, there will be stronger power, but with his current cultivation, he wants to deceive a sense of ancient and supreme, it is a joke.

"Roar!"

"Hey..."

Just as Ye Xuan's heart secretly revived, the roar of the \*\*\*\* unicorn and the nine sacred crocodile resurgence.

They only searched in the core hinterland of the evil source, and they left the Hongdao Ding, but did not expect to have any gains in this central area buffer zone.

Is it really far from the black hand behind the hateful? How can speed be so fast?

With unwillingness, the \*\*\*\* unicorn and the nine sacred crocodile, after the roar, their energy consciousness went straight away, and instantly crossed the void of millions of miles, from the buffer zone of the central domain, to the outer source of evil. The area, launched the same search.

This central area is temporarily safe, but Ye Xuan did not dare to move, like other countless black beetles, still shaking.

The corpse lamp tattoo that he had just slightly scalded on his left chest had already recovered from normality while he was swept away.

Obviously, unless the consciousness once again swept Ye Xuan's body, it would not be shot.

That is to say, Ye Xuan's mysterious technique is perfectly shocked. Although it is impossible to escape the close-up exploration of the consciousness of the ancient and the supreme, it is still possible to cover up the past with such a large environment.

This made him feel confident that he just collapsed, slightly better!

"Roar!"

"Hey..."

Although the outer area of the source of evil is more extensive, the consciousness of facing two ancient and supreme powers came in person, but in fact, after a sweep of the sweep, it was thoroughly explored.

There is no doubt that there is still no discovery.

As a result, the peripheral area also quickly spread the sound of roaring and screaming of the \*\*\*\* unicorn and the nine crocodile crocodile. This time, it was even more thundering, and its voice has been transmitted to the buffer zone of the central domain. Ye Xuan from these two angers In the roaring, I felt the meaning of a strong runaway.

This made him more worried.

The two guys did not hesitate to pay for it, and they came to the buffer zone of the central domain from the core hinterland of the evil source, and finally searched for a wider peripheral area.

This shows how strong their anger is.

But the end result is nothing.

Undoubtedly, in this case, these two ancient and supreme energy consciousness must be vented to be willing to be willing to stop.

However, even if they stop, they must return along the same path. As a result, countless black beetles in the buffer zone of the central area have to suffer!

There is nothing in the peripheral area, only the endless void cracks.

When the two guys turned around and returned to the Hongding Giant Ding, the first thing they encountered was the countless black beetles in the buffer zone of the central area. In the face of this weak existence, for them, it's not even an ant. Just slamming, you have to be the rhythm of total destruction!

At that time, the black beetle that changed by Ye Xuan alone resisted and stood alone in the void. It was clearly the bright light in the night, and it was difficult to avoid it!

Realizing this, Ye Xuan was dumbfounded and worried, but did not dare to move. That would be tantamount to death. Before the two guys vented, they had to be exposed.

Just at this time, in the outer area of the evil source outside, two identical roars and roaring sounds came, but they were distinct but far away. It seemed to be rushing toward the vast first universe void outside the star of the evil.

Ye Xuan stunned, his face suddenly became strange.

These two guys are obviously not reconciled. After searching through the entire source of the evil and the evil stars, they have also chased out the star field. They think of the wider first universe space outside to see it, perhaps fleeing. The behind-the-scenes black hand is not known in the nearby star field.

One thought of this, Ye Xuan suddenly secretly prayed in his heart, this time, he hopes that outside the source of the evil, there is a huge fleet of heavenly people passing by.

If this is the case, the two guys will have no clue when they look at the first universe in the void. When the last hope is shattered, the heart will be angry and mad, and they must vent their anger on the spot and directly destroy the fleet.

As a result, when they returned, they quickly eliminated the chance of the black beetle, which is not as good as the ants in the buffer zone. Basically, it would not exist, at least half of it!

Of course, this kind of thing is generally not possible. How can it be so clever? Want a fleet, come one at once?

In fact, the things in the world are so coincidental, perhaps they are destined in the dark.

Just as the two consciousnesses of the Scarlet Kirin and the Nine Secluded Crocodile rushed out of the starry field of the evil, in the distant void, a huge fleet of Celestials really came.

This fleet, with hundreds of large and small fortresses and large and small fortresses, is not too big, but now they are destined to lay their guns...

Chapter 3517: Escaped

In the entire fleet, large and small fortresses, large and small fortresses, a total of more than one hundred!

But not all of them come from the celestial family!

There are only ten real fortresses in the Tianji ethnic group. Other small fortresses and large and small fortresses are all slaves of the nearby star domain, and are called.

The goal of the fleet is to point to the source of the evil. As for the purpose, it is to enter this star field, and to help the Tianji minority and other minors, such as Emperor Shaofeng.

The high-level fleet led by Emperor Shaofeng has entered the star of the evil world for nearly ten days, but there has been no news. The matter is that there is some worry about the Tianzuo headquarters, so that it is to the nearby star field. The patrol of this celestial fleet issued instructions.

They asked them to summon a fleet of slaves from the nearby star servants, enter the evil star field, and explore the situation. If necessary, immediately rush to aid and accept the command of the young chief.

At this moment, the entire fleet has just arrived, and they have not yet had access to the outer regions of the source of the evil. From this star field, they have rushed out two powerful beasts with huge horrors.

No, it's just the consciousness of two beasts!

Even so, the terror of the people, but still not the fleet can resist, the entire fleet of more than 100 large and small fortresses and fortresses, was tied to the body in the first time, imprisoned in the void, Do not move.

"For help, immediately ask Tianji City for help!"

"God, this is the supreme being of the far superstar, what happened inside..."

"To turn on the emergency communication system, you must pass the information back!"

"At any cost, fast..."

In the cruising fortress of the more than ten celestial family in the pilot position, more than a dozen people of the celestial family screamed and had various countermeasures.

In the face of two such powerful existences, they never thought about this time and they were fortunate. They are absolutely in jeopardy. The only thing they are asking for is just to take this scene, everything that will happen, to the emergency communication system of the fortress, all Passed to the Tianji City's base camp Tianji City.

It is a pity that this is obviously impossible, because they are not facing the supremacy of the star's main territory, but two sacred and sacred bodies of consciousness. The power is too horrible!

"Booming!"

"boom....."

"Oh la la..."

The huge roaring sounds came in an instant, and the whole scene was illumined. A hundred large fortresses and fortresses were blasted at the same time, turning into huge fireballs. The sparks are overwhelming.

It was only for a moment, the whole fleet was completely destroyed, no one was left behind, and no more message was passed.

Then there were two earth-shattering roars and screams.

"Roar!"

"Hey..."

The two sacred bodies of the \*\*\*\* unicorn and the nine sacred crocodile rushed out of the outer area of the source of the evil, and in the first time they swept the vast expanse of hundreds of thousands of miles away, except for the fleet. In addition, there is not even a living thing.

This made them mournful, made them angry and angry, and finally finally shot, completely destroyed the fleet of this celestial family, vented the rage in the chest, nowhere to solve the raging anger!

For the powerful fleet of this celestial family, the tasks they performed and their missions have not yet begun, they are over.

In the roar, the sacred body of the \*\*\*\* unicorn and the nine crocodile crocodile circled over the fleet that had already turned into a raging sea of fire, and then unwillingly turned around and returned to the star of the evil, directly across the periphery. The area, once again in the central area buffer zone!

At this moment, Ye Xuan had already hung up to the heart of the blind man. He was nervous again. He didn't know everything that happened in the void near the star of the evil. The buffer zone was too wide, even a huge fleet. Instantly blasted, and the movement did not pass.

In other words, only the scary existence of the sacred level of the Scarlet and the Nine Monsters can cross the entire peripheral area in a flash, and then fall to the buffer zone of the central area again.

After the wrath of a whole fleet of celestial squadrons, the \*\*\*\* unicorns and the nine sacred crocodile screaming in the chest, the anger of the sky, seems to have been resolved, at this moment, these two ancient sages are supreme The existing ideology seems to have been as violent as it was before crossing this central buffer zone.

After all, the facts can no longer be changed. It is impossible for such a powerful creature of the ancient supreme level to be easily enchanted by the anger.

They have not re-launched, not only the numerous black beetles in the vast expanse of the buffer zone have been spared, but even the various sinister beasts in the edge of the core hinterland of the evil roots, the star territory and the various starry beasts beyond the star's main territory. All escaped.

Their existence is self-evident, and this is the \*\*\*\* unicorn and the nine crocodile crocodile.

If these starry beasts exist, the savage name of the source of all evils will be greatly reduced. By then, the powers of today's major forces entering this star field will obviously be more, which is the endless years for the core hinterland. The Hong Ding giant trip is not a good thing.

It can be said that these various starry beasts in the buffer zone and the core hinterland area are actually acquiescence, just like a watchdog.

Since anger has already been vented outside the star of the evil, naturally there is no need to take your own watchdog out!

For this reason, after returning to the source of the evil, the Scarlet and the Nine Monsters crossed the peripheral area and crossed the buffer zone of the central area. After entering the core hinterland, they returned directly to the deepest part of the area. The huge furnace of the furnace.

In the end, he was unwilling to make a few roars and roaring sounds, and then he was quiet and there was no movement.

After all, the \*\*\*\* unicorns and the nine sacred crocodiles are only two ideologies. They can't exist for a long time. Moreover, their bodies are in a bad state now. Since they have not been able to take out the black hands behind the scenes, then stay again. There is no meaning here.

The deepest part of the core hinterland quickly and completely quieted down. Not only did the sound of the chain that had been ringing all the time, but the sound of the chain was never heard, even when the thunder of the giant furnace swayed, it gradually became Disappeared, the entire area was quiet, and the source of the unrest began to come to an end.

For Ye Xuan, this time it is definitely a catastrophe.

If there is no fleet of heavenly hordes who have rushed to death outside the star of the evil, the countless black beetles in the buffer zone of the central area will be in jeopardy. At that time, Ye Xuan will only face complete exposure.

At this moment, the entire star field was quiet, but he still did not dare to act rashly, and remained in the same state until a whole day passed, to confirm that the two great gods had already left, and this was the case. Dismissed the disguise...

Chapter 3518: Send the Buddha to the west

Until Ye Xuan lifted the perfect shock and mystery, the figure appeared, and the corpse lamp tattoo on his left chest did not have any abnormalities, which made him relieved that the crisis was really lifted.

Around the void, the dense black beetles are still shaking. For them, the two ancient and supreme consciousnesses are coming. This is absolutely unprecedented. In a short time, I am afraid that it may not be able to slow down from the fear of my heart. It's too angry.

The same is true of the various star-studded beasts, including the hustle and bustle of the core hinterland of the wicked source, the star's main territory, and even the transcendental star.

Ye Xuan was hesitant. He was thinking about leaving immediately, or re-entering the core hinterland ahead!

In fact, at this time, I entered the core hinterland again, and basically there is no benefit to fish.

Although deep in the core hinterland, there are still a lot of wreckage of the ridiculous ancient creatures, but now the headless baby corpse has once again fallen into silence. With Ye Xuan's cultivation, it is impossible to connect with those wrecks. The pressure is too horrible, and there will be a danger of splitting.

What's more, he has already collected some of them, and they are included in Shennong Ding, and they are all the top-level wild wreckage. Of course, it is for all the wreckage in this emptiness.

But in general, the ruins of the ruins of the ancient emptiness in the core of the core of the evil, in the current Ye Xuan, in fact, has long been considered to be dispensable, there is no need to risk again, to smash this piece thing.

However, he still has the reason to have to enter the core hinterland again, that is, the core of the five heavenly races such as Emperor Shaofeng!

These five guys fell in the hands of the black armored emperor who had the horror of the star. There was no chance of escape. Ye Xuan also died for them, because even if this opportunity of escape exists, Ye Xuan also No way, in the face of a starry beast in a star's main territory, he simply has no way to dare to approach.

But now, the black armor of the star's main territory has been clearly degraded. Although Ye Xuan did not see it with his own eyes, he had heard the black horse's angry roaring before, but he only heard it. After a cry, it was completely silent.

Immediately afterwards, all the black beetles in the void of the central area of the central area trembled with fear, and there was a kind of biological fluctuations that were full of sadness.

This is clearly a sign of the black armor of the emperor!

Since the old monster has been shot dead, then Ye Xuan must enter his nest to see the situation. If the five guys of Emperor Shaofeng are not tossed, Ye Xuan can only send the Buddha to the west. Give them a knife.

Otherwise, once the Emperor Shaofeng's five people are relieved of their anger, they will return to the yang, and this is the source of the evil. For Ye Xuan, that is the real big trouble!

One thought of this, Ye Xuan no longer hesitate, even if he waved his hand to sacrifice the mechanical magic insects that had been in the immortal world before!

When he stepped into the inside of the belly compartment of the magic insect, Ye Xuan discovered that Chanas had woke up early, but since Ye Xuan had completely closed the mechanical devil, and even earned it into the immortal world, he could not get out, even Even if you can't even look at the outside situation, you are already anxious like an ant on a hot pot.

"Oh, ah, Shasha... Sha Daren, you can always be back. Before this was swollen? I don't want to go out and look at it. I can't even detect anything in the outside world. I thought it was the black armor. The worm swallowed it, scared me."

Seeing Ye Xuan stepping into the belly compartment, Chanas even greeted him, his face was full of excitement after the robbery, pulling Ye Xuan's arm and said: "Hey, let's go, this place is too evil, I shouldn't have come in at the beginning."

Ye Xuan knew that he was referring to the wreckage of the powerful and ancient creatures that he had seen in the depths of the core hinterland. He then made him look like this. If everything happened later, he would witness it. Really doubt that this guy will not be scared to death.

However, before the mechanical magic insects were included in the body, he originally did not want Chanas to know too many secrets. Naturally, he would not even say everything.

But after all, the follow-up situation can't help him. Ye Xuan can only tell the truth: "There was some accident, the black king and some star-studded masters of the starry sky battle, the scene is too horrible, I have to Exit the core area..."

Hearing here, the look on Chanas's face was slow, because listening to Ye Xuan's tone seemed to be going to retreat.

Who knows that the latter is turning and turning, and when the words are twirling, he suddenly makes his face mad, and the whole heart is hung up: "But now the movement has stopped, it is estimated that the war is over, let's finally You can go in and see the situation."

One sentence finally revealed the long-awaited thoughts of Ye Xuan. Chanas was completely desperate, and did not continue to persuade, holding his shoulders and sitting alone on the ground to draw a circle.

His mind has already made up his mind. As soon as he leaves the source of the evil, he immediately finds an excuse to leave. In any case, he can't stay with this guy again. It is too dangerous. It is simply looking for death!

Ye Xuan did not pay any attention to this guy. When he even ignited the mechanical demon, crossed the dividing line and entered the core area of the source of evil, he rushed to the old nest of the black beetle.

The old nest of the black armor is actually a huge hollow star inside. Of course, this star has already died, no longer glowing, and some stars can be seen inside the death star field. All of this is the case. It was hollowed out and was built into a nest by some powerful starry beasts.

There are not many void cracks around the location of this nest star.

In this core hinterland, although the void cracks still exist, the number is much smaller than the outer area, and all are fixed in the void, and will not move slowly.

At this time, in the interior of the black armored nest, the five mechanical war insects lined up, lying on the ground like a dead dog, and could not move at all.

The entire nest has always been inhabited by black armor, and it has fallen down now. Therefore, in addition to the five mechanical war worms in the nest, no black beetles can be seen.

Although the previous toss did not cause any damage to the five-headed mechanical warfare, at most, some of the alloy limbs were somewhat deformed, because the strength of the black armored insects was too great, and they were almost hit by the mountains. Usually in tossing, even the alloy limbs can not stand, was bent harder.

The reason why the five-headed mechanical war insects are so wilting is like the cucumbers of the scorpion, which is entirely due to the torture of the soul.

The whole process is really too inhuman. The core of the five celestial family, such as Emperor Shaofeng, is in this state of integration with the driver's fortress. It is all about empathy, so this moment will be the same, it can be said that the heart is .....

Chapter 3519: Branding coordinates again

As the mechanical moth entered the star nest of the black beetle, Ye Xuan's mind immediately heard a familiar system prompt, five consecutive times.

"Congratulations to the host, found that you can devour intelligent life! Emperor Shaofeng: mechanical life, moderate level of evolution! Is it swallowed immediately?"

“Congratulations to the host, I found that I can devour intelligent life...”

These five guys, after experiencing the previous inhuman torture, their electronic consciousness has been weakened to this extent. On the surface, the body of the five-headed mechanical war insects has no damage at all, but Ye Xuan is one. When it appears, the system has determined that their status is weak enough to be swallowed up.

This is naturally a good thing, Ye Xuan will not be polite at all.

When even before the body was lifted, the energy on the back of the mechanical moth fluttered, and the heads of the five mechanical war insects all fell off and rolled to the ground.

No way, their size is too big, Ye Xuan can't swallow it all at once, only the head can be smashed, and then the head of the war worm is swallowed. Because the celestial family develops the mechanical fusion ability, the main body of the electronic consciousness is Within the head of the war worm.

Seeing this scene, Chanas in the belly of the magic insect fell to the ground again, the whole person is like a lost soul, his mouth muttered to himself, the scared face is white.

This is really awkward. The sand man is clearly the rhythm of the patriarchs of the Tianji family. Today, he is completely on the thief boat. Once the incident occurs, the sand man can't live without it. Not good.

Thinking of this, Chanas shook his head and smiled, and completely died!

For all of this, Ye Xuan did not pay attention to it. He directly restored the body shape of the mechanical warbler to a diameter of 50,000 meters in the interior of the black armored star nest, and then swallowed all five heads in one bite.

After a refining and refining, a familiar system sound was heard in his mind again. This time, it was still five consecutive sounds.

"Hey, congratulations to the host, successfully devour the mechanical intelligence life! Get a mechanical core!"

"Hey, congratulations to the host, successfully devour the mechanical intelligence of the living body! Get the mechanical core..."

With the five system prompts to sound, Ye Xuan's body, there are five more crystals, plus the three previously obtained, and the one of Sha Baofeng, now Ye Xuan, the hands have mastered a total Nine mechanical cores.

Each mechanical wisdom core represents the life of a celestial tribe, like the soul of a human monk.

That is to say, today's Ye Xuan, already has the identity of nine celestial groups, because each mechanical core is unique, the source code is different, and the wave frequency of electronic consciousness is also different.

This is definitely a big convenience for Ye Xuan, because in the Tianji City's base camp, every Tianzu tribe has different permissions. Even the Shaozu Emperor may not have full authority. The patriarch, Emperor Yi, has his own consideration in this respect. A large Tiancheng City, except for himself, no one else can grasp the full authority, which is too dangerous.

And Ye Xuan has the electronic awareness of the core of the nine cores of the Tianji family. When he enters the Tianji City, he can basically involve and control some of the different authorities in various fields and regions. It will be very convenient!

After doing all this, Ye Xuan even put all the body wreckage of the five mechanical war insects into the body, and gave it to the power of the phagocytic system to strengthen the super dead light bullet.

Counting the original devouring Sha Baofeng, I got the Devil's Remnant. At the moment, there are nine large and small fortresses for this super-dead bomb. Two of them are even large fortresses with a diameter of 100,000 meters. All the destructive parts and equipment, such as cabins, anti-material light energy generators and space oscillators, are all together. At that time, the power of this super-death bomb can be horrible, and now Ye Xuan is not I dare to imagine.

After doing all this, Ye Xuan directly left the star nest of the black armor, and the mechanical magic insect appeared in the edge of the core hinterland of the evil source, and then entered the buffer zone of the central domain.

After this system title exploration mission was completed, Ye Xuan's system title jumped to reach the interstellar devotee, and in any cosmic plane, he had the ability to simultaneously brand two star-space coordinates.

In the first universe, Ye Xuan had previously branded an interstellar coordinate in the life black hole of the Devil's Star Field. The second indicator, he decided to choose the star field in the source of evil.

Because it is not only close to the Tianji City's base camp, but also has a few days of interplanetary voyages, and there is a rebellious refining system like Hongtai Juding.

Ye Xuan also thought about the fruits of the Hong furnace every other year.

However, it is not wise to leave this interstellar coordinates in the core hinterland. If you jump, it is very likely to be locked in by a strong presence.

Therefore, he decided to brand the second interstellar coordinates of the first universe in the buffer zone of the central domain of the evil source, so that it is safe.

Soon after, he found a more remote area in the buffer zone of the central area. There were few cracks in the surrounding area, and even the black beetles could not see a few.

When Ye Xuan gave instructions to the system and began to brand the personal interstellar coordinates of the second universe, the system's prompt sounded quickly in his brain, guiding Ye Xuan to step through the coordinates of the step.

After a glimpse of the gods after various means, it was quickly retouched by Ye Xuan as a special brand. Then, this \*\*\*\* brand was shot in the body in some extremely mysterious and complicated way, so that it was in front of it. The emptiness of the emptiness, the fit, and the final integration!

Although it is the fourth time, the pain of the hard-seated separation of his own gods from the small ones still makes Ye Xuan unable to adapt, which is difficult to describe in words.

After the separation of the gods, Ye Xuan did not immediately adjust the interest rate, repair the mind, endure the various discomforts that the gods suffered, and strengthen the spirit, repeatedly using different complicated means and methods again and again. Condensing this god, this process consumes the work of the meal.

In the end, Ye Xuan devoted himself to paying attention to the whole process, from the gully to the void, to the integration of the gods and the final integration, and ultimately did not dare to relax, even the whole person has a bit of a sense of fear.

After a total of half a day of tossing, his personal starry sky coordinates in the second universe finally finally blended into this void, completely stable and disappeared, that is, Ye Xuan can not capture the slightest breath.

At this point, all the matters in this source of evil and evil have finally come to an end. Ye Xuan's harvest can be described as huge. The only regret is that there is no source of phagocytosis found here. It seems that apart from the original death star field. It's not an easy task to find the second place to produce this magical crystal...

Chapter 3520: digestion

After rushing out from the outer area of the star of the evil, Ye Xuan was shocked by the scene in the distant sky.

The vast void is still a flash of fire. Hundreds of large and small fortresses and fortresses are not small. It is a huge fleet. After the explosion, even if the energy burns, it will take some time.

"Rely! It is no wonder that the two ancient sacred consciousnesses had not been killed before, but there was already such a huge fleet outside the dead!"

Looking at this spectacular scene, Ye Xuan stunned for a while before he came back and muttered to himself, and then he gave birth to a warning sign, no longer hesitating, even if the Xingye Life Fortress lifted the mechanical demon. The state, returning to the shape of the magic warfare, and then open the hidden array method, quickly away from this piece of right and wrong.

According to his speculation, this fleet should be dispatched from the Tianji clan to assist the Emperor Shaofeng and others. Now, Emperor Shaofeng and others have lost contact, but the fleet sent to the rescue has been completely annihilated, and a huge void has been The fire of the sky is shining, and this matter must have already alarmed the base camp of the Tianji Nationality.

It may be that the follow-up support fleet dispatched from the Tianji City is already on the road and will arrive soon.

The encounter between the Devil Wars and Emperor Shaofeng has not leaked out. If people see the Devil Wars appear in this star field, it may lead to some doubts.

The best way to dispose of it is to quickly evacuate and pretend to look like the source of the evil in the future. As a result, not only the identity of Sha Baofeng will be suspected, including the identity of eight people, including Emperor Shaofeng. It won't be too much trouble to use in the future.

After the follow-up fleet of the Tianji family entered the star of the evil, after searching for no results, the eight of them should be listed as missing, not degraded.

At that time, if necessary, Ye Xuan can completely change into a look of Emperor Shaofeng, find a reasonable excuse to return to Yang!

After leaving the starry field of the evil, the magic warfare still headed for the Tianji City's base camp, but did not choose the main star channel leading to Tianji City, because it would encounter the \*\*\*\* fleet that was coming from the Tianzu , causing unnecessary trouble.

Ye Xuan deliberately deviated from the main channel of the starry sky, allowing the magic warfare to walk in a relatively remote starry sky. For all this, the Emperor Wei's commander Chanas also had no opinion, and even did not even scream.

The old guy is still stunned by the whole person. The reason why he left the magic star with Ye Xuan was originally thinking about going to Tianji City to promote his fortune, but now it seems that this trip to Tianji City is clear. It became a thrilling journey. Even the Shaoyang, the young chief of the Tianzu nationality, was degraded under the watchful eyes of his eyes. This matter must be buried in the bottom of his heart. He could not say anything to anyone, otherwise he would not have a good fruit to eat.

In short, no matter what the sand people do, he can only follow, the two have long been a shackle on the rope, and Chanas has a kind of indignation that is inexplicably smashed into the thief's nest, but completely helpless.

One day later, the War of Wars stopped in a remote void, and there was only a five-day voyage from the base camp of the Tianzu.

Ye Xuan did not intend to move on, because he at least had to digest this harvest.

This kind of digestion does not mean that he got the amazing harvest from the huge furnace in the core hinterland of the evil source, but refers to the mechanical core of the eight high-level cores of Emperor Shaofeng.

The smelting lotion, the sinister source liquid and the wreckage of the twelve colorful meat muds and the twelve powerful wild creatures in the Hongding Giant Ding are all resources that can be used for a long time in the future. The order is too high and can only be at a critical moment. For example, when the realm breaks through, it will only be used when it has torn some human shackles and needs to repair the physical illness and dark injuries.

However, the mechanical cores of the eight high-level cores such as Emperor Shaofeng must be digested as soon as possible, because the front is the base camp of the Tianji people. The memory of Emperor Shaofeng and others contained in these eight mechanical cores As well as their understanding and experience in mechanical integration, for Ye Xuan, it is the most needed and most important thing at present.

He chose an inconspicuous barren star in this remote star field, and then let the magic warrior shrink its body shape and enter a huge abyss of the earth's surface. After a long journey, it lurks in Deep underground!

For Ye Xuan's weird behavior, Chanas did not ask more questions. He is completely disheartened now. Anyway, following this madman, any weird things may be encountered. If you can have a chance, Then choose your own clean, then leave him far away, no longer provoke...

The most important of the eight mechanical cores is the electronic consciousness of the top eight elites such as Emperor Shaofeng. This part occupies two-thirds of the core crystal, and the other one is the electronic life of their eight people. Memory.

To put it bluntly, it is actually dataization and a piece of information. It can be described as extremely lengthy and complicated. What Ye Xuan is doing now is to memorize all the data information in these eight mechanistic habits, all carefully browsed and even combed it again. Then enter the Tianji City's base camp Tianji City, there will be great benefits.

The so-called knowing ourselves and knowing each other is the truth!

After all, it is all the life memories of the eight life consciousness. The hugeness of the data information can be said to be unimaginable. Fortunately, Ye Xuan has the help of the swallowing system to help him sort out the categories, and then browse them one by one.

In this way, after a short day, Ye Xuan has already read all the memory data information, and remember it.

And all of this is stored in a data information classification library that is separately separated from the phagocytic system. If it is forgotten, or needs to be carefully explored on a specific event, Ye Xuan can always get information from this data. Retrieve the view in the classification library.

In addition to these life memories, the biggest gain for Ye Xuan is the insight of the mechanical capabilities of the various celestial bodies contained in these eight mechanical wisdom cores.

Basically, they all have some electronic abilities. Ye Xuan also studied them one by one. Then he focused on the emperor's ultimate mystery of the Emperor Shaofeng, which is the comprehension of the mechanical fusion ability.

The Hoshino Life Fortress is really powerful. As the only life fortress in the world, its ability in many aspects even surpassed the Celestial family. Otherwise, the first battle of the fox lord with the Hoshino was born. It will not be exclaimed by the major forces, and the hands of the starry sky black technology that is far beyond the era!

However, the Hoshino is stronger. It was also learned after Ye Xuan saw Sha Baofeng's ability to express mechanical fusion. It can be seen that the importance of inspiration and creative thinking is four words, brain hole. Big open...
