

Super D. S 352

Chapter 352: Sword holy blood

When Ye Chong was about twenty years old, he had already gone to the Blood Rock Continent. At that time, he met Ye Xuan's mother.

Later, Ye Chong came back with a baby boy, Ye Xuan.

Ye Chong stayed at Ye Family for a few years and recovered his injury. He then returned to the blood rock continent.

Therefore, the division of the temple into three royal temples should be what happened when Ye Chong returned to the Tianshui continent.

Ye Xuan no longer thinks about it. After all, he is only a dilemma, and when Ye Chong smashes back to the **** rock continent, it seems to be a dilemma.

Therefore, he still has a long way to go.

"Right, girl, these deep sea treasures, is it worth it?" Ye Xuan suddenly asked.

"Well, because the sea is very dangerous, sometimes you will encounter the sacred beast of the dragon's power, and sometimes you will encounter a holy beast that is comparable to the sorrowful situation, so the deep sea's heavenly treasure is more expensive than the land. Much more." Ye Haoer nodded.

"In this way, I used to escape from the enemy and sneak into the deep sea palace. I got a lot of deep sea treasures. I don't know how much I can sell."

Ye Xuan sinks his heart into the swallowing space, but there is a lot of deep sea treasures. Before he swallowed some, he felt that the income was too low, so he kept it.

"Ye Big Brother, I am still a disciple of Xiaoyuezong. We are now scarce of the deep sea of Tianqiao Dibao. If you go to the shop under the moon, the price will be higher than other places." Ye Yier explained.

"Then, look at this, how much can you sell?"

Ye Xuan said, it is to pour the things in the devour space into a ring, and handed it over.

Ye Haoer took a look at the Qiankun ring and saw her face change immediately. She quickly calculated it in her heart and said: "Ye, Ye Big Brother, you may be able to sell 500,000 condensed stones."

"Only 500,000?" Ye Xuan stunned.

"only?"

Ye Haoer reluctantly said: "Ye Big Brother, 500,000 condensed meteorites, can already buy a heavenly martial arts."

"Oh, is it?" Ye Xuan paused, it seems that his blood of the Jiandi can be promoted to the blood of Jian Sheng.

The blood of the advanced Swordsman, up to the top of the Sword of the Sword, requires a heavenly martial arts, and is the sword.

His engulfing crystals are enough, so you can raise the blood of the Sword Emperor to the top with only one sword of the heavenly level.

"Right, I only heard that your father got a heavenly martial arts, what type?" Ye Xuan suddenly asked.

Upon hearing this, Ye Hao's body trembled and replied after a long while: "It's a sword."

"Swords!"

Ye Xuan's eyes are bright, I really want what I want.

"Is this heavenly martial arts on your body? I can buy them from these deep sea treasures." Ye Xuan asked again.

"This....."

Ye Haoer hesitated, nodded slightly, took out a piece of clothing, and took it apart in the face of Ye Xuan.

Ye Xuan looked at her to undress, and immediately realized that this heavenly martial arts was actually written in the mezzanine of this dress.

"Ye, Brother, you saved my life, I will repay you this." Ye Haoer handed this dress over.

"Thank you."

Ye Xuan smiled lightly, took the clothes, then saw the tail from the beginning and recorded it in the phagocytic system.

"Hey, the host has learned the sword of the wind, and the current proficiency is a good one."

When I heard the tone in my mind, Ye Xuan was surprised. I didn't expect that the level of martial arts would have a more proficiency.

Obviously, if this proficiency is improved, then the power of this martial arts will be enhanced.

The next moment, he just understands how to improve this proficiency, that is, constantly exerting and understanding the essence of this sword.

However, the feeling is not too difficult for Ye Xuan, after all, he still has blood.

"Hey, the host has successfully merged with the sword."

The blood of Jian Sheng can enhance the power of 40% and the power of swordsmanship.

Before, he didn't understand the perception. Now he finally understands that it was used to improve proficiency.

Not only that, after the successful integration of Jiansheng blood, Ye Xuan also has a new skill, called sword fusion.

To put it simply, it is possible to combine the two swords methods into a higher level, but the minimum level of martial arts is a heavenly level.

Sword of the Sword:

Advanced Route 1: Sensibility, the current advanced level is four, each level can improve the perception of swordsmanship.

Advanced Route 2: Sword skill, the current advanced level is four, each level can improve the power of one percent of swordsmanship.

Advanced Route 3: Sword method fusion, the current advanced level is one, each time the level is increased by 10%.

This sword method fusion is very practical, as long as Ye Xuan gets a heavenly sword method, then it can be integrated with the Tianfeng sword method. At that time, perhaps you can get a Chinese sword.

Of course, this is a success rate, and the fusion of the sword method requires a lot of engulfing crystallization, if you try a few times, it may make Ye Xuan bankrupt.

The blood of the Sword Emperor was promoted to the blood of the Sword of the Sword, and Ye Xuan improved the sensibility and power of the squad, which also made the Eight Swordsmanship method improved.

At present, Ye Xuan has only learned two things. One is the eight-day-shocking sword, and the other is the eight-ridden dragon sword.

Nowadays, the Eight-Day Earth Sword is no longer useful, and the effect is not satisfactory. However, the Eight-Dragon Dragon Sword is very easy to use.

Eight ridiculous dragon swords have damage bonuses for dragons, plus the increase of Jiansheng blood, the power has increased by 40%, in addition to the blood of the Beastmaster.

If you are using the Dragon's ruling, I am afraid I can kill the dragon-like beast that is stronger than Ye Xuan.

"Hey, these treasures of heaven and earth are treated as rewards for this martial arts."

Ye Xuan smiled slightly and handed over the Qiang Kun in his hand.

"Ye Big Brother, this can't be..."

Ye Haoer hurriedly shouted.

Ye Xuan tried to convince, but Ye Haoer still refused to accept it, so she could only give up.

"Ye brother, do you still stay in the deep sea palace?" asked Ye Haoer.

"I have been in this deep sea palace for a few months, and the outside enemy should have gone, it is time to leave."

Ye Xuan nodded, he felt that he still should not be exposed from the Tianshui continent as well.

"Then let me go with Ye Da Ge, I can also bring Ye Big Brother to the shop under the moon, the purchase price will be higher than the average." Ye Haoer smiled.

"Okay, thank you."

Ye Xuan agreed. He saw that Ye Hao's hand was still in the top of the product, so he wanted to sell these things and bought a heavenly device for Ye Haoer.

At the moment, the two are ready to leave the deep sea palace.

When Ye Laner came in, he also drew a map, so it is not difficult to find an exit.
