

Super D. S 3551

Chapter 3551: Leading the battle

"Who was talking about it? Which old lady's pants broke through a hole and let you drill it out? What's wrong with it, so I don't know how to pick the hour, just to escape in the hole of the moon, look at the one you dyed. Yin blood, disgusting to the uncle after every 100,000 miles..."

Ye Xuan was furious, and the words that were cold and unscrupulous were passed again. This time, the **** people were said to be small muddy, and the blood color of that body was said to be... It's just not to be awkward!

What is even more bizarre is that the old lions of the War Lions who can't keep up with the times don't know what kind of wind. Just now, Ye Xuan's words are not heard, but now it is more than anyone else. Lingguang, Ye Xuan's words just fell, the old guy turned to the **** ship's flagship direction and turned to the past.

I got up: "The old bloody, this kid is licking your mother's pants! I also dyed a blood, don't think the old man can't hear it..."

This time, not only the tribes of the War Lions, but also the **** tribes all raised their hands and raised their faces. The IQ of the old Lion of the War Lions is really terrible!

"Old lion, come back soon, we are all seniors, don't care about this little bastard..."

The commander of the **** clan's Pioneer fleet is about to spurt blood. The words reveal the meaning of gnashing teeth. In the end, the roaring screams: "Hey, he immediately went to war, and gave the old man a small one. The old man must personally Put him in the pants of the old lady!"

"A small **** sorrow is not going to fight? Are you not the second universe of all ethnic groups? If you want to come to a personal battle, then all the ethnic groups will be sent out."

Ye Xuan sneered, letting out the words: "This uncle is one-on-one, single-handedly!"

This nest is used too much insults, including the **** clan, the flagship of the Second Universe Allied Fleet, all of which have heard the roar of anger...

"I can't bear it. In a few words, the two families are buried by this kid!"

"Yes, it's too angry, you must suppress him!"

"There is still a single person picking us up in a nest... Hey, it should be a group of people, it's too arrogant!"

"How come I have seen the feelings of the Nethered Respect? The former patriarch of the Yin Mozu? Why didn't you show up? Here is a copy of the cottage version of the Nether!"

"You don't move, let me come, I must suppress him..."

.....

With this roar and roaring, the flagship of the Second Universe Allied Fleet from the opposite side suddenly rushed out of the figure, and the figure appeared in the void, the first time it activated the blood in the body. Explicit **** veins.

Dozens of huge wise beasts squat in the void, murderous, attracting countless strong players from both sides.

In the end, the dozens of young cybers of the second universe and the various geniuses swayed in front of the opposite camp, one by one, all of which showed the bleeding veins, and one of the lions with the whole body was so crowded and raised. The huge lion's claw pointed at Ye Xuan: "Sha Baofeng is it? Come out and die, Lao Tzu is your lion overlord, kill you today."

"Overlord your mother!"

Ye Xuan opened his mouth and sighed, his eyes turned straight, and looked up and down the lion overlord. Finally, he shook his head and swore: "The hair of a body, you know it must be a hybrid, this uncle is not interested, the second child, on!"

"puff....."

Jero, the flagship of the Pioneer Fleet, spurted blood on the spot. This second child couldn't understand it. He was very sensitive. He knew that he was talking about himself.

Why, hybrids, you are not on, what is Laozi's younger generation of geniuses who are ranked second in the celestial family, and only deal with this kind of miscellaneous hybrids?

It is a pity that even if the heart is not willing, but the arrogance of Ye Xuan, to be precise, it is because of his shamelessness, and he said that the military law is dealt with. The voice of Yero is finally passed from the expulsion number: "One The hybrid of the hairy, the deputy commander taught him how to be a minute... Oh, no, these guys are not people at all!"

Then, the body shape of Chanas rolled out from the expulsion number, which was clearly kicked out by Jero, thus venting his dissatisfaction.

Ye Xuan completely ignored, pretending not to see, Chanas finally stabilized his body shape, his face is the color of sadness, the fart turned to Ye Xuan, and then did not leave.

He found it, and only followed the sand man, he is a personal thing, otherwise, the fart is not counted, even the Jero who usually dare not scream in front of him is raising his feet.

Opposite the emptiness, the younger generation of the War Lions was furious and screamed: "Sha Baofeng, do you look down on Lao Tzu? Send a second child out to fight! The mouth is still not clean, what is not a person? Is the Tianji family a human being? According to Laozi, are you not a human being? It's not a thing..."

"Small hybrids are waiting, this deputy commander blows you!"

Sha Baofeng was angry. When even the mechanical integration was carried out and it was fully integrated, his car fortress did not bring out the Tianji City, but the integration was carried out with the expulsion number. The effect was exactly the same. It was also the starry fortress of 100,000 meters in diameter. There is no difference in basic performance.

"Card..."

"Booming!"

A thunderous sound came out, accompanied by the intensive rain-like mechanical sound of the card, a large expulsion number began to change shape, while the internal huge equipment was also shifted, the molecular structure of the alloy material occurred. Change, density continues to increase, the size of the expulsion number, in just one minute, has condensed to the current five kilometers from the previous 100,000 meters.

An alloy worm with a silver blade is born in the blink of an eye!

The whole body exudes a sharp and extremely fast mood, which is called a person's eyes and looks at it with dignity!

I have to say that this scene is indeed shocking enough, although the dozens of young cosmos of the second universe of the opposite side of the sky are also thousands of feet, that is, four or five kilometers, and fast Like a worm, it also activates the bloodline after a roar, and the blink of an eye reveals such a large body.

However, compared with this, the mechanical fusion ability of the Tianzu people is obviously even more amazing. After all, this was originally an icy alloy fortress, a giant of 100,000 meters, but it was condensed to five kilometers.

If it was not in the first battle of Sha Baofeng and Linghu, the amazing mechanical integration ability has already manifested in the world. I am afraid that the strong players in the major fleets of both sides have already exclaimed. Sounds.

Even though I already knew that the Celestials had this ability, at the moment I saw the exhibition of Jero, and the fleet of the first cosmic slaves here still issued amazement, some obviously with a sneak peek. The words of the intention came out and resounded through the void, because Jero had previously claimed to be the deputy commander.

For the servant group of these celestial families, even if they are the second child, they are also the official squad.

Chapter 3552: Jeroyan

"Roar!"

"The third change in **** lions!"

In the face of arrogant Jero, the lion overlord was furious. When even roaring, this cockroach apparently cast the lion's roaring genius of the genius. As the roar snarled, a large piece of emptiness was stirred up, and it was vague. In the void, the sound of resounding and swaying, shocking people, the strong stars in the camps of both sides only feel the shock, and some of the weaker guys are almost rushed to the ground!

The sound of the screaming lion's voice resounded through this side of the world, and the body was originally a huge lion overlord. It suddenly showed the illusion of a mad lion, roaring blood, anger and anger, making this side empty. They all trembled a little.

As the violent roar rang, the cosmic emptiness of the surrounding universe suddenly blew a cosmic hurricane, and the invisible cosmic energy was smashed into one place, which was formed at the center. A huge invisible vortex, and this energy vortex is located next to the blood basin of the thousand lions.

After being swallowed by the lion, the lion's blood shadow of this huge lion has not entered the body of the lion, and its body shape has suddenly skyrocketed, and the blink of an eye has revealed the third form of the blood.

A **** lion with a size!

Like a huge mountain of blood, a pair of **** smoldering flaming, staring closely at the worm that is only five kilometers, the air machine has been firmly locked.

Legend has it that the **** lions in the lions of the war lions have changed their minds. Every time they explode, their blood vessels will skyrocket ten times. Even if the atmosphere is unchanged, the power of qi and blood is like the difference between heaven and earth. The opponents of the previous ability will be crushed in an instant! ”

After the ninth change, the degree of horror of the **** body, which is a geometrical skyrocketing, will reach the level of the giant tortoise, and the claws are a star field.

But that kind of realm has never been achieved by any war lions. Even today's war patriarchs, only the third change of **** lions.

The family only had the last young Shaoshi tyrants to cultivate the fourth change. Once it was launched, it entered the fourth form of the blood lions of the war lions. Its body shape will be swallowed after the lions' shadows. The giant of the sky.

That is the real devour of the mountains and rivers, so large that it can compete with the spiritual warfare of the Devils.

It is a pity that when the lion tyrants first battled with Ye Xuan, who was under the ignorance of Nether, he did not have time to display the real **** lion lion, and he was degraded and made by the latter. Braised lion heads are delicious.

In the case of the war lions, this is simply a shame that has never been seen before.

After the lion's war, the Lion King, who ranked second in his family, became the young patriarch. Although he did not dare to fight with the Nether, he was confident in the face of the Tianzu, and came up at this moment. The **** lions will be revealed in the third blood of the lions. It is to be a shame in the battle before the war, to prove themselves in front of the elders in the family!

Seeing this scene, Ye Xuan laughed and laughed, even the chass behind him shook his head and sighed.

It's true that if you don't die, you won't die. It seems that the lion overlord has never had any research on Jero. He doesn't understand the advantages of the mechanical worm. He actually activates the lion's blood and lion's blood. The third form of the real body is turned into a lion.

This is simply a rhythm that the target is not big enough, and people are not comfortable enough!

Even Jero himself couldn't see it anymore. Within the fast-moving worm of five kilometers, his sneer voice came out: "It's really a brain-scarred patient who's so happy, it's obviously looking for death, and it's so happy. Except you, there is no one really."

"Hey!"

"call out....."

At the time of the fall of the voice, with a low-pitched whistling sound, the five-kilometer-long worms rushed out like arrows from the strings, and the blink of an eye had reached the front of the sky, and did not stop there. There was no other means of attack, and he ran straight into his belly.

"Roar!"

Such a very fast speed, the Wanzhang Lions were shocked and violently screamed, and they were willing to withdraw after a shock.

It's a pity that he didn't have this opportunity, because the swift worm hit the body in the first time, and only the five-kilometer-long worm quickly swept through the belly of the lion, without any other The means of attack, because those are not needed, the numerous super-strong alloy blades covering the entire body, is the best and most powerful weapon of the worm!

All of this is true for Ye Xuan and Chanas. I have never seen it again. I have seen it many times in the past. This is the attack method of the worm, simple and unfettered, but extremely rude!

"puff!"

"Oh la la..."

The belly of the lion's lion was screaming, and the lion's blood, like a torrential rain, poured down and became a void.

Then there was a fierce and horrible sound.

"Hey..."

"It is clearly a miscellaneous lion. What do you want to learn?" Do you think that this deputy commander will let you go? The bitter plan is useless. Today, you won't recognize the lion and your mother!"

With one hit, the spirit of Jero was greatly enhanced, and the voice of Mori's madness was heard from the worm, and the star-studded sound system of the flagship fortress was used. The strong players of both camps heard it.

"The deputy commander of Jero is mighty!"

"Blowing his dog's head, it's best to cut it down. Let's learn the Nether and the Lord of the Fox, and stew it directly, or steam the lion's head, it must be delicious..."

"Ha ha ha, is this the young patriarch of the top ten ethnic groups in the second universe? It is too unbearable. It has been drawn out of a big hole, the belly is rotten, and a large piece of void is smouldering and polluted. Starry environment!"

.....

At this time, the first cosmic slaves of various national fleets, from time to time, came out with big laughter and all kinds of provocative words. Before they were stunned by the strong forces of the various nationalities from the Second Universe, they just did not dare to echo. The Pioneer Fleet came, inadvertently in the minds of the commander of the Pioneer Fleet, Sha, who left a bad impression of a weak battle.

Now, the deputy commander, Jero, hits Yangwei, and it's just a big heart. For the servants of the servants, this is an opportunity that can't be easily caught. It's a way to reverse the image and win a little impression. They naturally won't let go. of.

For a time, the entire emptiness of the sky was smashed, and the strong men of the first cosmic slaves were thunderous, and among the opposite camps of the 100,000-mile void, it was dead.

The power of the Lion King is well-known in the young generation of the Second Universe. It is definitely in the first-class camp. Compared with the previous Shaozuo lion of the War Lions, it is only weak and half-funded. Unexpectedly, he was defeated by the other side, and it was hurt that he could not continue to fight. This is absolutely shocking and shocking.

Chapter 3553: The three bullies are in battle

"call out!"

"puff....."

"Hey!"

The sharp sound of the emptiness sounded again, and the worm circling around the circle in a small circle, attacking again, and the body covered with sharp and super-strong alloy was randomly scraped under the left rib of the lion. On the spot was another spurt of blood and rain, accompanied by the fierceness of the lion overlord, so that this corner of the void is shaking.

Its size is too big, it is a huge, full 30,000 meters, and the fast worm is only only five kilometers, the gap is too big, like a small point around a behemoth, the speed is fast to the extreme It's easy to start an attack.

If you want to scrape it to any part, it will be a **** rain.

In less than a minute, with the rapid entanglement of the swift worms, the huge lions and lions have left more than a dozen shocking gaps. The small half of the body is covered by their own lion blood. Dyed red.

In this process, the Lions do not have no counterattacks, claws and shoots, or look back, but unfortunately all of this is useless, not that it is not strong enough, but its strategic direction is wrong at the beginning, and then powerful In the face of a mosquito that is so fast that it is too fast to shoot, what is the use?

Faced with all this, many of the strong people on the side of the Second Universe's coalition forces have already changed their faces, and some people have finally returned to God, and they have heard their voices...

"God, what speed is this? Too fast, who is this guy, after the ultimate secret of the celestial family, the change is not a mechanical knife, but an alloy worm!"

"He is Jero, the second-generation guy in the young generation of the Celestial family, second only to the young chief Shao Shaofeng, no wonder so powerful, the attack method is too old!"

"The whole body is covered with super-density starship alloys. The layers of blades are not required at all. You don't need any fancy attack methods. You can hit them directly. Whoever dies, it is going to be against the sky!"

"The lion overlord is too big, and we have misunderstandings about the mechanical integration capabilities of the celestial movements, thinking that they can only change into mechanical knives."

"In fact, when the last time Sha Baofeng and Linghu had a big battle, the young master had already reminded us. Don't forget, the mechanical worm that changed the fox lord, you should realize that this kind of machinery. The ability to change is ever-changing!"

"When it is really wrong, the Lion King has a **** lion who is just restrained. The other party is not only small in size, but also fast. The powerful force of the Lion King is useless. The huge body is a target..."

.....

As these words came out, the dozens of descendants of the various ethnic groups in front of the huge fleet of the first universe of the various ethnic groups finally returned to God.

After the gangs were plucked from their respective families, they all showed their blood in the first place, and they became the giant beasts. They swayed in the void, in front of the second cosmic united camp. Discharged, not a cold look, but also really imposing momentum, attracting people.

But at the moment, when they saw that the lion overlord was so miserable, there was a strong blood force, but the face was a big mosquito with a very fast speed. It was useless at all, and it was almost succumbing to death. .

Under the change of face, these dozens of celestial geniuses of the second universe of the various generations of the blood vessels have become like the top of the sacred, although they have not withdrawn from the **** state, they have already reduced their body shape. The original giant, that is, three kilometers, condensed to about a kilometer.

In this way, in the face of the five-kilometer body type of worm, even if the other party's speed is faster, there is no fear.

After all, the goal is too small, the contrast of physical advantage has been reversed, and lost!

"The lion overlord, you must first retreat, the state is not good, you need to adjust and adjust, this big blade full of sharp blades, let me help you solve it..."

After the figure was reduced, the descendants of the **** family, Tianjiao, and the overlord were full of confidence, and the body shape of the roaring screaming began to rush out and rushed to the battlefield in front of the void.

And a punch in the claws, and then there is a body and its equivalent energy blood roaring out, and instantly has reached the front of the fast-worm.

The tyrants are obviously savvy, and the worms are all high-density super-star alloys, and they are all sharp and unparalleled. They are layered on top of each other.

This is simply not close to me. Even if a fist hits the past, the ultimate splash of blood can only be his own iron fist.

In the face of such an enemy, we must avoid melee warfare and only strike at a long distance. The **** blood of the **** people is just like this kind of attack form. In the distance, even if there is no bombing, it will not damage itself.

In the face of the tyrants, the advantage of the small size of the swift worm has been exhausted, it is full of five kilometers, and the tyrants have condensed the blood to the size of a kilometer.

Although the speed advantage of the worm is still there, but the speed of the tyrant is not slow, the blood of the **** martial arts is **** and punched, and there are more than a dozen energies of blood in the battlefield. The space for the worm's activity, let it be restrained, and seeing the situation is unfavorable, the balance of the battle has tilted toward the other side.

The lion overlord, who had already been bruised and bruised, took advantage of this opportunity to withdraw and retreated, and he was quickly healed.

At the same time, in the rear of the dozens of the second universe of the genius, once again plundered a figure, it is the younger generation of Peng Peng from the Qingpeng family, like the tyrants, lions and tyrants, ranking among the descendants of the family. Second, so they are all named after the overlord.

At this time, Peng Bawang also made great excitement here. The blood of the kilometer-sized body was red-eyed and the blue-eyed Qingpeng madly flapped its wings, and the voids shook slightly.

Then, countless arrows of the shape of the feathers appeared in the void of the universe, as if the cyan hairs were floating in the snow, covering the sky, covering one side of the sky!

It is one of the means of killing the gods of Qingtian Dapeng, a talented god, and the demon Pengfeng.

Moreover, it is directly launched the killing power of this kind of supernatural powers, and the blue-and-white arrows like the goose feathers are in full swing, whistling, except that Peng Bawang specially cares

for the unsuccessful tyrants, all others in this film. The existence of the banned world will be listed as the target of the attack.

Thousands of tens of thousands of Qingpeng 翎 feathers hit the worm, and a whole piece of emptiness was stirred up, and in a moment there was a layer of ripples.

The top three groups in the top ten communities of the second universe, the bloody, the Qingpeng, and the younger generation of the warriors, the second-ranked tyrant Tianjiao successively shot, although the lion king has been seriously injured and retreated, but only the tyrants and Peng The two kings, but enough to change the Jero, which has changed into a worm, was suppressed on the spot...

Chapter 3554: Two little kings

"Puff puff....."

"Boom!"

In the void, with the work of the tyrants and the tyrants, they rushed into the battlefield at the same time, replacing the savage tyrant who had been seriously injured. The war that was originally tilted toward Jero was instantly reversed.

The two guys have already had a comprehensive understanding of the advantages of the worms after the previous slain attack on the lion king. At this moment, they are not close at all, and they are not close to it at all, and the long-range blast is directly launched through the distant void. kill.

At the same time, Peng Bawang's demon Peng Fengtian blood and magical powers are even more like a rainy and dense energy plume between the flapping wings, covering the sky with a swift worm.

The screaming sound came out, and the thunder and thunder blew up. In an instant, the worms were repeatedly bombarded. Although the whole body was condensed by the high-density star-ship battleship alloy, it was still unbearable. The shock under the indiscriminate bombing of energy has already made Jero dizzy.

In the dense and confusing sound, I can hear one or two sighs at a time, and it is he who has suffered a loss but screams without a snoring reaction.

Seeing this scene, Ye Xuan is also angry, really shameless, the wheel war does not say, actually still encircled!

Even if he waved his hand to sacrifice the life of the Hoshino, of course, it appeared in the form of a 50,000-meter-diameter warfare, because his car was preserved in Tianji City. The form appeared, and the life fortress that had grown to 100,000 meters in diameter and large fortress was confined to a state of 50,000 meters in diameter.

Then, Ye Xuan stepped into the Fortress of the Magic War, and the sound of roaring was even more resounding: "Two little kings, you are waiting, this commander singles you two! The second child, return"

"Booming!"

"Card..."

As soon as the voice fell, Ye Xuan's figure had disappeared. The original Emperor Wei's leader, Chanas, had immediately retreated to the rear, lest he could stand alone and be attacked. There was no sand man around him. There is always a lack of security.

The roaring sound, accompanied by a large number of mechanical sounds of the card, the whole body was black, and the size of the 50,000-meter-large giant warfare fortress began to change shape.

In the eyes of all people, it is clear that Sha Baofeng, the commander of the Celestial Pioneer Fleet, is mechanically integrated with his seated warships, but in fact, Ye Xuan's deity is in the inner compartment of the Devil's War, just The electronic consciousness has entered the magic warfare, and it will be used as a giant humanoid mech to launch a starry battle.

Yes, it is the humanoid armor. This time, Ye Xuan's choice of change is still the humanoid alloy **** of war, but now the change has not been completed, the image of the alloy **** of war is rapidly showing up.

Although Jero is not embarrassed, because he was called the second child again, it is estimated that after the war, the name of the commander of the second generation of the Tianji will be spread across the three major planes.

But now he has fallen into the wrong situation, facing the second generation of the two great strong people of the second generation of the great genius, the tyrants of the tyrants and the tyrants of the tyrants, and the other side also peeked at his advantages, all under the targeted attack He could not reverse the situation at one time.

If it is a long battle, serious injuries are inevitable.

In this case, Jero is angry again and can only retreat.

Seeing this scene, the tyrants of the tyrants and the tyrants of the tyrants suddenly revived. A minute ago, the deputy commander of the squadron of the squadron of the lions, who was attacking the lions and tyrants, was hurriedly defeated by them. What is more exciting than this? of?

But the guy named Sha Baofeng actually didn't know how to live and die. He said that the two little bullies in the Tianjiao of the younger generation of the **** and the Qingpeng people became two small kings. This is absolutely deliberate, let the tyrants and the tyrants Very angry.

Under the anger, the nine-headed **** body of the kilometer-sized body and the blue sky Dapeng immediately screamed and snarled, and the mouth snarled, and the arrogance was no longer.

"Sha Baofeng is it? Just rely on you to claim to be one of the top five demeanours of the world? I am, have you forgotten the war that was ruined by the fox lord?"

"I really don't want to be famous. I don't want to be famous. Come here, when the Sunshine Fox Master can make you a pig, you can be like a grandfather today!"

"Hey!"

"Hey..."

In the end, the two tyrants and the tyrants of the tyrants and the tyrants each made a shocking scream and a long scorpion, and their bodies were vacated, and one left and one right rushed toward the empty warfare.

"In that battle, this command was indeed defeated, but the value of defeat, because of the huge harvest, is tantamount to the blaze of fire and phoenix, the talent and heart of this horrible growth in adversity, how can you two small Wang Ba have?"

"I still don't know how big the face is." In this command, you don't even have the qualifications for the singer to take the shoes. Today is destined to kill this command in this void!"

In the magic warfare that is about to expand the mechanical changes, Ye Xuan's voice of disappointment is heard, not only to release the rhetoric, but also to smash the tyrants and the tyrants in this virtual space, even in the tone. It's easy and tidy, just like mentioning a trivial little thing, it's very confident.

Almost at the next moment, the mechanical change of the Devil's War was finally completed. This time, Ye Xuan did not shrink his body shape. At this moment, it is a giant alloy warrior with a height of 50,000 meters.

The left-handed giant shield is extremely thick. At first glance, it knows that it has the defensive defensive power. Just looking at it can bring a reliable sense of security in people's minds.

The right-handed spear, full of hundreds of thousands of meters, is three times the height of the alloy **** of war. At this moment, it is held in the middle of the spear, and the first time has been lifted over the shoulder, followed by the width of the alloy **** of war. The shoulders turned and the waist twisted. This huge spear of tens of thousands of meters long was thrown out in an instant.

"call out!"

"Oh la la..."

The sharp sound of the eardrums trembled sharply, and the black sky was bursting into a black flow vector that was many times faster than lightning. There was a clear and unmistakable sound of cracking, and the void was also cut into two. .

In the blink of an eye, this huge spear has crossed the Xinghe void of 70,000 to 10,000 miles, and it is extremely incomparably directly appearing in front of Peng Bawang. There is no suspense, when the chest is plunged.

The spear is more than ten thousand meters long and hundreds of meters in diameter. The blood of the Peng Bawang is condensed to a kilometer at this moment. Where is it still nailed? It is simply a big rod, a mosquito, and the blood of Peng Bawang is completely bursting out in an instant. It turns into a **** rain, and it is a half-blinking effort. It has been directly crushed by hard life!

Chapter 3555: Good familiar style

"Mom, what the **** is this!"

Seeing Peng Bawang, who had just rushed forward with himself, was completely bombarded for a **** fog in the time when he was not in the middle of the breath, and the horrible spear that was more than ten thousand meters long. It's just that a small part of the front end of the spear touches his blood.

Apparently, the remaining strength is still there, and Wei Neng is far more than that. The tyrants are so scared that they are all in a hurry. The nine-headed **** body of the kilometer is instantly convenient for the virtual air to come to an abrupt end.

Then, as the scream in his mouth came out, the nine **** heads turned directly, turned and fled, and in a short half-time, he was even scared by the gentian.

Unfortunately, everything is too late.

The alloy spear thrown out by Ye Xuan is not a true ordinary star-ship battleship alloy, but is condensed by the numerous micro-molecules of the world's insect self-derivatives. It is no exaggeration to say that this spear is actually alive at all. of.

Of course, even if it can be done, Ye Xuan can't make the spears make flexible changes like the magic of the human race monks, such as suddenly turning in the void, killing another target, and so on.

That is inconsistent with the technology system of the Tianzu people, and will be suspected by a large number of eyes.

Even if this change is to be carried out, it can only be exposed when it is privately confronted with certain individuals, and at most it will kill the opponent.

At this moment, even if the spear was thrown out by the alloy **** of war, Ye Xuan could not let it continue to exist, just like the alloy battle that was thrown out in the mechanical ratio and the battle of Yero. The spear will eventually burst open.

Otherwise, once it is found by someone with a heart, under some research, it may not be possible to see the material problem of the spear, which will bring trouble to Ye Xuan.

We must know that this kind of blasting is not only self-destruction in the ordinary sense, but the innumerable world insect self-derivative micro-molecules condensed into this alloy war spear, from the micro level, at the same time and comprehensively exploded!

"boom!"

Just as the tyrants screamed in the screams and did not hesitate to escape, they just used a small part of the front end of the spear to crush the tyrants into a huge spear of blood, completely blown up. opened!

The huge roaring earth-shattering, the invisible energy shock wave of an awning swept open, the emptiness of the 10,000-meter circle was shrouded, and the tyrants who had escaped in the future just happened to be in this void, destined to be affected!

"Hey..."

A screaming voice similar to the previous lion tyrants came out, and then the majestic **** rain in the imaginary sky of this mile, but the tyrants did not fall down, at the most critical moment, nine The **** bloodline quickly recovered and was activated to the extreme.

Its shape quickly expanded, and the end result was the nine-headed **** body that exploded at a rapid rate. The first half finally surpassed the area devastated by the explosive energy, and it was only the latter half.

The screaming voice of the wolverine has not yet fallen, and the tyrannical tyrant who has only half of the wreckage has turned into a **** afterimage, rushing into the front of the dozens of the second universe, the descendants of the genius. Within the bloodline of the real camp, directly to the last side, killing does not take the lead...

All of this is long-lived, but it happens within a short period of time.

For the strong camps of the two sides who are far away from each other in the 100,000-mile void, they just saw the tyrants and the tyrants screaming toward the magic warfare that is undergoing mechanical changes.

In the next moment, the magic warfare of the mechanical transformation was completed, and a spear was thrown up. The Pengbawang was solved after half a bit of interest, and then the huge spear exploded, and the tyrant ruined the half-loaded blood. Dragging the body of the wounded, a bubble will plunge into the heap of people, completely disappeared...

Until then, the exclamation of the emptiness in the sky suddenly sounded, regardless of the faction, except for a fleet of the first cosmic slaves, the strongmen of the second universe, and the subconscious Cried up.

"Oh, what happened in the end? Peng Bawang is gone? Hey, he is also half lost? Is this a dream?"

"It's too strong. Is this the Shabaofeng that was originally abused by the fox lord? It's like being reborn and completely changed!"

"I can't think of the war that brought him such a terrible entry and improvement. Shabufeng's mechanical fusion ability changed. It was originally a mechanical knife. Was it inspired in that battle? The one that changed was the humanoid alloy **** of war. The speed at which a spear was thrown out was terrible, and there was a subsequent self-destructive change."

"This is simply impossible to break. With the speed of this spear, even if it can be avoided, it will surely be able to spur it to the side. At that time, it will not wait for God to come back, suddenly blast, and the tempo of delamination will not die. what!"

"It's no wonder that the Tianji people dare to release their rumors, saying that the family also has a fascinating world that can be compared with the Emperor Xuanzi, the invincible **** of war, and the sorcerer and the sorcerer. Now it seems so!"

"Yes, it was only recently that the fox lord was ruined like a dead dog. After a short period of time, the phoenix was nirvana. Whether it was cultivation or talent, the extent of the entry was so terrible. This is more and more frustrated in adversity. The more courageous heart talent, it is really stunned, it is simply a small strong, can not be called the young generation of the enchanting world!"

"After this war, the fact that the younger generation of the three cosmic planes had five enchanting demeanours was finally completely settled..."

As these exclamations sounded, the alloy **** of war took a step, and it crossed the hundreds of miles of the sky, raising the hand to the front of the enemy camp that had already become a mess. After dozens of second universes Respect the large blood of the manifestation of the real beasts.

The momentum is screaming in the world, and he laughs loudly: "This grandfather said before, one person singled out your nest, now hit one, kill one, the rest, one shoulder and shoulder to shoulder, this grandfather teaches you to be a man ... I am wrong, you are not a person at all!"

"puff!"

"Hey..."

As soon as this discourse was exported, the flagship of the major fleets of the Second Universe, there was a strange noise in the moment. Apparently some of the old monsters couldn't hold back, and they immediately vomited blood. .

I don't know if I was shocked by the three major overlords' defeats, or I was greeted by Ye Xuan's mean words!

In the eyes of the Terran and the two powerful observers of the two major observation groups, which fell into the void far behind the huge fleet of the second camp, it immediately sparked a lot of arguments.

Among them, two figures subconsciously turned their heads and exchanged a look, and then they whispered to each other, revealing a thick confusion and suspicious meaning!

"Oh? It's weird, this style... looks a bit familiar!"

"Should it not? How can the kid have this kind of skill? Can he get mixed with the Celestial family? He also got the commander of the Pioneer Fleet..."

Chapter 3556: Terran Observer Mission

This time, the plane-level star warfare is currently gathering troops on the battlefield of the first cosmic edge, although there are only a few servant groups and the two universes of the second universe.

But the two camps of the Terran in the Third Universe, as well as the Federal Base of the Faro, obviously cannot really stay out of the way.

It can be said that although this battle is the confrontation between the first universe and the second universe, the final result will have an impact on the big pattern of the three universe planes.

Once the first universe of the hegemonic celestial family led many of its servants to win, then the unfortunate third world of the Terran, in addition to the Second Universe, will be affected.

The whole of the Vatican Federation must be completely immersed in the precarious situation, and it may even be completely collapsed because of this war!

Therefore, although the second universe has long been released, it is said that this war is the private grievance between the second universe and the first universe. It has nothing to do with the federation. The unmanned people have nothing to do with, but the two camps of the Terran And the Federal headquarters of Varo, but still the enemy.

Not only did they all gather a certain amount of troops in the third universe, but only if this situation is not right, when the second universe of the various nationalities can not stand, can be the first time to come to save the field and save the trend!

Even the three camps of the Terran and the Federal Headquarters each sent an observer group composed of several high-level executives!

Of course, these three observation groups from the Third Universe, in addition to paying close attention to the progress of the war situation on the front of the battlefield, obviously have another mission, that is, to explore the sudden madness of the second universe, and to The real reason for a comprehensive war in the universe!

At this moment, the observation groups dispatched by the three major forces are in the void outside the battlefield, facing the two camps facing each other, looking far away.

The observation groups sent by the three major forces have only one 10,000-meter-long fort. After all, it is to inquire into the information to observe the battle, and it is not to participate in the war. It is not necessary to make a big fantasies. It is more convenient to carry out operations in the dark.

However, all three of them have opened up the concealed array at this time. In the 10,000-meter-tall fortress that is closely watched in the distant sky, the three towns are all high-level giants.

After all, this time the matter is too big, it is related to the future pattern of the three major planes, the giants are not sitting in the town, personally coming!

Among the 10,000-meter-tall bastions representing the Federation of Varo, the seat of the Federal Supervisory Academy is the sacred dragon, and its deputy, the first vice-president, honours the wind and comes with it.

On behalf of the thriving dynasty of the science and technology camp, it is the old-fashioned plaque of the old-fashioned princes, as well as some royal high-levels, including the two emperors, Long Xiao, also known as Long Sui, the latter, which was the name he used when he first conducted the imperial trial. In addition, Huang Xiaolong, who has always supported Long Xiao, is also accompanying, and there are several high-level empire and its guards.

As for the representative of the Terran camp, it is a deputy palace of the Imperial Palace, named Gonggutian, and the uterus of the Palace of the Palace is also accompanied by the uterus, and there are also some small masters. .

Among the 10,000-meter-long bastions representing the immortal dynasty of the science and technology camp, the accompanying high-ranking empire of the Heavenly War Empire was a war-torn, and his old friends, who had no eyebrows, also came.

The two figures that had been whispered before the suspicion were the two of them.

Moreover, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru, three women, are now in the storage bag of the old ghosts.

On that day, Nether was less loyal to the second universe, and after the mysterious disappearance, the two old guys stared at the Xuanyuan Ziyan three women, although the three women were separated with the strong among the tribes, but the war After all, with the eyebrows and ancestors, after all, they are the great powers of the fifteenth world. They have tried their best to deal with the yellow-haired gimmicks that are not in the three caves. Naturally, there is no inconvenience.

The three gimmicks are all unsuccessful masters. After returning to the tribes, they all sneaked out of the sneak peek, and they were just captured by the secret war slayer and the eyebrowless ancestors.

Then they were held together and collected a special storage magic weapon that can accommodate the living body, and was held by the war-torn old ghosts.

After the two old guys fell down to three women, they originally wanted to find a secluded place. They started the method of searching for the souls of the three women, and then they gave them to the eyebrows. They were the masters of the sorcerer. The facts have basically been learned, but everything else is completely unknown. I want to get more secret information through the three women, so that I can target the underground.

At this time, it happened that there was news that the second universe of the two nations would launch a plane-level star war with the Tianzu people, and the three imperial emperors ordered by the immortal dynasty also acted as a great power, with the observation team. Travel for the purpose of sending.

There are only two great powers in the empire of the Heavenly War. The war is not going back. The war and the old ghosts are helpless. They can only temporarily put down the soul search, and go to the immortal star with the eyebrows, and then follow the royal family. The crepe came to the second universe.

The above is the reason why these two old guys appear in the second universe.

At this moment, with the suspicion of the two old guys' suspicions, the two men's eyes once again meet in one place, and they started the exchange of knowledge and secretly talked!

"War, the old ghost, this thing depends on you... How sure is it?"

"Not sure, the style is really familiar, but that is the celestial family, the electronic consciousness can be faked? And this Sha Baofeng is the commander of the celestial fleet of the celestial family, how can the patriarch of the celestial family not put a What is it? If this kid is really a fox and a lord, how can he win over him?"

"But... don't forget the Emperor Xuanzi, isn't that guy also a human race? The result turned to the first universe and wandered around, even the whole demonic group was deceived, and it turned into a large tribe of the devil's group. The genius of the Son, since he can do it, can not do it for the Mao Linghu Shaozhu? It must be said that the latter's various means are more mysterious than the Xuan Emperor!"

"Hey, you said this, it's really possible. How do the old man feel like a heartbeat? Looking back, it seems that the Emperor Xuan has indeed disappeared for a while, and then there are other fascinating singers

who have appeared in succession. It seems that the styles are similar. It's shameless, now I'm listening to you, the old man has a bold guess..."

"Xuan Huangzi was able to vacate the spiritual power of the devil, and should also be able to get the electronic consciousness of the celestial family. So if this is the sapphire, it is more likely that the sapphire is less lord and less secluded, then he is more likely It's Xuan Huangzi!"

"I will drop it awkwardly, wouldn't it be like this? It would be too scary. The five cosmic planes of the three universes are fascinating, and four of them are actually one person?"

"No, not four, it should be five people. Don't forget that the invincible **** of war is still in the real camp. Now it is not certain whether he is the avatar of the celestial or the prince of the prince, if the other four are all If Xuan Huangzi is alone, this invincible God of War is more than 90% of him..."

Chapter 3557: Whole body cold

Xuan Huangzi, Invincible God of War, Linghu Shaozhu, Respected and Respect, and Sha Baofeng in front of you!

Is it actually a person?

After a secret conversation, the war squad and the brooding ancestors unintentionally discovered this secret that is very likely to be the truth. They immediately let them look at each other and have a feeling of whole body cold!

If this guess and inference is true, then this guy is a fascinating world? It's just a... well, I can't describe it, it's too shocking!

One person, stirred up the situation of the three universe planes!

Xuan Huangzi and Sha Baofeng have caused a chaos in the first universe, or they have attracted attention!

The fox lord and the invincible **** of war are all overwhelming the two camps of the entire universe of the third universe!

In the second universe, there are more than half of the top-level powers in the second universe. In the second universe, more than half of the top-level powers are playing between the palms of the hands. Not only can the great powers be turned around, but the whole Yinmo family is destroyed by means. And now there is a star owner of the old monster mad dog like the world roaring like thunder, vowed to find him to bleed and vent their anger!

Everything, one piece, one pile, at this time, like a film reversal, flashed in the brains of the war squad and the eyebrowless ancestors. Gradually, the cold sweat of the backs of the two old guys was full. !

This is how to be amazed by this ancient, unprecedented metamorphosis?

For the first time, they began to shake their confidence in their own calculations!

Can such a stir up the existence of the three major universes be successfully captured by them? Even if they are both high-powered, but at this moment, the war and the brooding ancestors, for this, suddenly all a little weak!

However, this feeling came faster and faster, and the bottom of the war and the brood of the eyebrows and ancestors quickly shone brightly, but they were well concealed by them.

But the heart of the two old guys, but all screamed.

Before I realized that the Netherland should be the lord of the fox, they were already very excited, because just a little fox, the various benefits have already made them feel excited.

And the Nether's less respected body, the benefits are also quite a lot, only the Nether's **** magical claws, and the face of the ancient treasures of the smog, has already made the two old guys extremely coveted.

Now, when they realize that they are the ones who are calculating their own minds, not only have the two identities in the front, but there are still three other ones that are not weak, and each of them also represents the identity of the great creation and benefits. Being infinitely magnified.

Moreover, in addition to the benefits of the five identities such as Xuan Huangzi, the two old guys are more certain that there must be something more amazingly hidden or secret, secret means!

Otherwise, how could it disturb such a big movement, and the whole three cosmic planes will be tossed up?

If you think about it, if you sort by time, you should be able to find out that from the beginning of the Emperor Xuanzi, until now Shabaofeng was born, in less than a year, the younger generation they calculated For the realm is actually like a rocket, so horrible soaring several realms!

This is not the case with a large amount of cultivation resources in hand, or a powerful magical power and skill.

The cultivation of resources is huge, and the foundation is sufficient. It takes time for you to collect it. Refining takes time, and there are more hands, which cannot be transformed into its own strength. In the end, it is also a loss.

Obviously, in the other hand's hands, there is a certain anti-sky secret method that quickly improves the cultivation of the realm. They do not know the existence of the phagocytic system, so they can only be described by the anti-sky secret method.

In a word, this person has a great creation, once it is obtained, it must fly to the sky!

For any Qiankun power, entering the star territory is the biggest dream. Many great powers have stopped all the life.

If you can get the secret law of this person, the war and the two ancestors will be almost 100% determined, and they will be able to step into the level of the star.

And the time it takes will definitely not be too long!

And in the end, it is definitely not just as simple as stepping into the star's main territory. Surpassing the star's main territory is not a dream...

Thinking of this, the war-torn old ghost and the eyebrow-free ancestors exchanged a look again, and the two old guys saw a strong desire to the extreme from the bottom of each other!

Crazy desire!

The two secretly secreted again...

"Although it is only speculation now, if there is no accident, basically this guess is a fact, this time, we are not white!"

"There is no whiteness? The harvest is too big. In any case, at least one secret is discovered. It seems that we have to change the strategy. This person is not good at dealing with it. It can't be too hasty. Otherwise, it is very likely that the ship will be overturned in the gutter. Don't forget. It's a lot of energy that has been overshadowed by him, and even includes the star lord..."

"Yes, all other strategies have stopped for the time being. Now what we need to do is to stand still and observe in secret, while thinking about countermeasures."

"The timing doesn't happen either. Once it happens, it will kill him in one fell swoop!"

"Hey..."

.....

At the same time, another of the three major observation missions belonged to the 10,000-meter fortress in the Federal headquarters of Varo!

The guardian of the Federal Institute of Supervision, at this moment is also a double-browed lock, the line of sight firmly locks the holographic stereo screen in front of him, and the line of sight falls on the humanoid alloy **** of war formed by the mechanical change of the Xingye Life Fortress.

With a worries, I muttered to myself: "When is the mechanical integration ability of the Tianzu people, when is this powerful? According to our intelligence, this so-called ultimate secret of the heavenly family is not created by the Emperor. It is reasonable to say that it should not be so mature now, even the younger generation of the Tianji descendants have reached this level of understanding in this field."

"There are the worms of Jero, and now it is the humanoid **** of war of Sha Baofeng..."

"What happened in the Tianzu ethnic group? Did the young genius appear like a blowout? It is really worrying!"

Speaking of this, Long Hao shook his head and sighed, and then turned to the back of the Vice-President of the Supervisory Academy, who was honored by the Hongdu. He said: "Try to pass the message to Tianji City, let us put it there. A few of the dark people paused the other work in the hands, first insight into the matter, and submitted an investigation report to come back."

"In addition, how is the progress of the follow-up investigation of Wenxing's old ghosts? Hey, that old thing is not so simple, I have hidden the old man, and with his heart and heart, how could it be really a shot? Give a bombardment?"

"If there is still no result, let the dark child over there increase the intensity after the incident. In any case, you must take him out..."

Chapter 3558: Invincible under the stars

In the same area, the 10,000-meter-large castle that represents the Terran camp, the sacred palace of the Palace of the Imperial Palace is also directed to the people of the martial arts camps behind them. The meaning is basically the same, for Yero and sand. Baofeng launched a full investigation, and the electronic and mechanical talents displayed by Tianpi, the two descendants of the Tianji family, are too amazing, and may become a real big problem in the future!

All of this is just an episode, and in the midst of the undercurrent in the three observation bastions from the Third Universe, the central area of the two fronts of the starry sky in front of the sky, with the half-blooded body of the tyrannical tyrant Escape, the battle has changed again in a moment...

"puff!"

"Hey..."

The dull screams came out, followed by a fierce and fierce sound. After the previous huge spear was thrown out, the alloy warrior flipped its wrist and extended another shot from the palm of his hand. Tens of thousands of meters long, striding out, and facing backwards, directly opened a second cosmic genius with a flying scorpion, and the belly was broken, and the intestines were dragged in the void. Several kilometers.

The scene was terrible, and shocked the countless powerhouses of both sides.

The alloy God of War has once again succeeded, and the figure is slightly chasing toward the second goal. At the same time, Ye Xuan's hearty laughter and ridiculous ridicule are even more coming out.

"This is the so-called post-Tianjiao of your second universe federations? How do you think it's a group of chickens and pheasants? It's so apt to describe them in the words of the wolf, even the words are insulted!"

"The three big fighters in the past dared to fight at least. I didn't expect this big nest standing in the back to be so unbearable. Seeing this uncle is like being a strong little girl, turning around and running, ghosts crying..."

"It's too disappointing. According to this uncle, if the so-called ancestors of the second universe of the two nations are the virtues, simply don't make a shame, this grandfather puts you back, looking for a mother to drink milk, and Why not?"

"Ha ha ha..."

"puff!"

"Hey..."

In the hearty laughter, the spear of the right hand of the alloy God of War was picked again, and a mixed blood dragon was pierced by the tail and nailed directly into the void.

Then, as his tragic voice came out, the alloy **** of war was as if he was stunned to directly shake the huge spear of his right hand. The blood-stained dragon that was pierced at the end was instantly degraded, and the blood was raining.

"It's so disgusting, little muddy also learns wolverines, you are so afraid of death, your mother knows?"

This is too toxic, and it seems that the people of the Second Universe Federation are not the same. The facts revealed in front of the eyes are the same. The strongmen in the fleet of the Second Universe and Allied Fronts are very angry, all of them are gnashing their teeth, and their fists are already Tight, but no one can retort.

The feeling that such a whole universe plane was insulted by a person in public was simply too awkward, and many of the strong people from the second universe were already mad at the scene.

Finally, the people of all ethnic groups who lived in the flagship of the ethnic fleet began to be unable to sit still. Although they did not personally take the shot, they played against the alloy **** of war, because that would only make people laugh more and more. Small, but angry, let go of words.

"All the descendants of all ethnic groups, and then the retreat, all the family rules!"

As soon as this language came out, the dozens of patriots of the descendants of the various ethnic groups who had followed the three major tyrants, suddenly screamed.

The old meaning of this family is very obvious, that is, since you have to fight yourself, and now you have already gone out, then there is no reason to turn back.

It doesn't matter if you beat it, but even if you climb, you have to climb this battle!

For the bottom line of the faces of the second universe, the old man is obviously biting his teeth, and the old people who are in the flagship of other ethnic groups have no snoring. Obviously, this is also the meaning.

Of course, the fools know that they can't really throw away the dozens of descendants of the various generations, regardless of their arrogance. After all, they can emerge in the previous situation and show up with the three overlords, in their respective families. It is absolutely impossible to be a general.

The old people who are sitting in the flagship of the various ethnic groups, let out this kind of discourse, in addition to deliberately supporting a face, what they need to do is actually pretend to be installed. With the follow-up of the war, if dozens of people are joining forces under the wreck. On the way, if the alloy **** of war can be suppressed, it is naturally good.

If it is still invincible, but the casualties are heavy, then if you can't do anything, the old guys will definitely have other backhand preparations, and it's impossible to really watch them all on the spot!

For this, these dozens of celestial patriots of the second universe, who have already manifested their blood and their true body, quickly thought about it after a few moments of panic, and then they stopped their bodies and stopped each other. Exchange the eyes, and finally bite the teeth, and then do not back, while roaring and folding and rushing toward the alloy **** of war.

"Roar!"

"Hey!"

"Hey..."

The anger of the road can even be said to be the anger and sorrow of the screams of anger and screaming. The dozens of heads are turning around at the same time as the starry beasts of the thousand feet, shrouded the vast void and roared to the alloy **** of war.

This scene is too amazing. Compared with the previous alloys of God of War and the tyrants and Peng Bawang, the power of the violent power has not climbed many times. After all, this is a dozens of stars and monsters, the Second Universe. The body is basically filled with the blood of a powerful and ancient creature. Once the blood is activated, it will not look too much. It is not much different from the beast in the sky.

Dozens of fierce beasts rushed to a 50,000-meter-tall alloy **** of war. This scene is like the same mechanical slashing in the sky, hunting in the galaxy, looking to give people a near-dreamy sense of sight...

"The little girls in the second universe, are you not running? Are you crying and coming back? Hahaha..."

"In this case, this uncle teaches you how to be a man today, and asks you to see what is called the invincible position under the stars!"

In this battle, Ye Xuan simply did not consider the victory of the so-called final victory. He was only the commander of the Pioneer Fleet of the first cosmic hegemonic squad. He cares only that he can fight in this battle. How many eyeballs won in the game, and after returning to the Tianji City Base Camp City, it will be able to successfully become the minority patriarch of the family and then have greater authority.

In order to rescue the devil's group, the dozens of emperors of the dynasties have gained more convenience.

As the commander of the Pioneer Fleet, if he wants to build military exploits, the time he can fight for is the time before the main reinforcements have not arrived.

So, now, if you don't play now, once you play, he must take the highest posture and show invincible as much as possible!

Nowadays, he did the same, and the arrogant words in his mouth were degraded, and the alloy **** of war has stepped out of it...

Chapter 3559: Killing

"Hey!"

"Hey..."

Just as the alloy goddess swelled up and strode out, among its huge hands, there were two high-frequency tremors of tremors!

Then, the huge battle shield held by his left hand and the horrible war spear of the right hand began the form transformation at the same time.

Before the alloy state, now it is the second state, turned into a black anti-material dead light shield and dead light spear!

Anyway, this ability has already been exposed in the previous mechanical ratio. Ye Xuan has no need to blame himself. Ye Xuan can use them to create more shocking results for himself in this battle.

Yes, just before he decided to activate the second energy form of the battle shield and the spear, Ye Xuan has secretly given the dozens of the second cosmic geniuses who have manifested the bleeding veins in their hearts. The judgement was issued in advance.

These guys, who are not dead or hurt, can't escape, and will become a stepping stone for him to build a shocking battle!

Ye Xuan is not stupid. On the contrary, his thoughts are quite sensitive and flexible. Otherwise, it is impossible to sneak into the darkness of the three universes in the darkness of the three major universes. A shocking weather.

When the old man who was sitting in the flagship of the second universe of the second universe released his words to support his face, he roughly guessed the abacus that the other party's heart was playing.

Undoubtedly, these dozens of patriots from the second generation of the universe, they can not really give up, the reason why the old man is so, on the one hand is to face, on the other hand is not reconciled, still want one test.

If it is crowded, it will be better to suppress Ye Xuan, and all problems will be solved, and the face will be completely recovered.

And if it can't, after Ye Xuan seriously injured some of them, the insidious grotesques in the opposite camp must have other actions, and what are the follow-up measures that Ye Xuan might take? Basically, I have a lot of thoughts.

Therefore, he must now kill the more than 30 thousands of body-shaped **** beasts with lightning speed, at least to create a new battle, and at the same time, Ye Xuan is quietly Commanders of the servants of the servants of the emptiness behind them were ready to go to war.

"Hey!"

High-frequency tremors and roars, the alloy **** of war, a big step, across the void hundreds of miles, directly appeared in front of the roaring more than 30 **** beasts, followed by the right hand suddenly, the black mans scratched In the sky, the spear of the giant energy spear of hundreds of thousands of meters is tied to the head of a fine gold iron horned rhinoceros.

"Hey!"

"Do you have any problems with your IQ? Don't you know that the skull and double horns of the fine gold iron horns are one of the hardest biomaterials in the sky? Even the hull alloy of the big fortress can't compete with it, actually want to use it. It's really a laugh to kill the spear and wear it!"

The two-foot-tall gold-horned rhinoceros screamed and the words in his mouth were filled with sarcasm.

It's the other **** beasts around, and they all have some sneer. They obviously support the words of the fine gold iron horns. They have determined that Ye Xuan's spear is not enough to penetrate the back of the turtle. Thick tortoiseshells are harder to the skull.

In the next moment, it was a screaming muffled sound. The spear in the hands of the alloy warrior penetrated the skull of the fine gold iron horned rhinoceros without any suspense, and then penetrated through it. The sharp spear tip drilled from the lower jaw. Come out and go straight through.

Undoubtedly, the fine gold iron horns are instantly killed, and the gods are completely destroyed.

"Rhino beef doesn't know how it tastes, but look at the tofu of the bone cartilage. It's not worn when it's worn. At least the meat should be quite soft."

A spear will wear the skull hole of the fine gold iron horned rhinoceros. The sound of the words of Ye Xuan's light fluttering is immediately heard in the body of the alloy **** of war, just as a mere trivial thing: "Well, if so, it will be good. The value of a little taste, if it is not right, throw the dog!"

During the talk, the alloy God of War gently lifted the right arm, and the sword that had been turned into a black body was easily and easily dialed out, and then a faint flash of light, the huge corpse of the fine gold iron horns disappeared completely. It was directly taken by Shen Xuan in the body of Ye Xuan.

This scene was too horrified, and unexpectedly, in the distant fleet of the two sides camp, and a large number of cool sounds.

The other 30 **** beasts who had just formed a siege on the alloy **** of war, all stayed in the void for a moment, only to feel that the body was cold and completely scared.

Is this too ferocious?

A light and easy spear on the head of a fine gold iron horned rhinoceros? Is that really made of tofu?

Too much more, the killing of the fine gold iron angle rhinoceros will stop, and actually take away the corpse, the mouth is more entangled whether the rhinoceros is soft and delicious, if you don't eat, you have to throw the dog!

If there is no precedent for the fox and the sorcerer, this discourse is likely to be regarded as a deliberate ratio, but with the two unprecedented saga of the big food, now the second universe The family has long been extremely sensitive and aversion to this starry state of the metamorphosis.

Even at this moment, Ye Xuan's words were introduced into the ear, and no one even gave birth to even doubts about it!

Outside the battlefield, the three 10,000-meter-long castles from the Third Universe represent the star-studded fortress of the Terran Science and Technology camp. The war-torn and the brooding ancestors exchanged their eyes and subconsciously. .

This did not run, it is definitely the fox and the Netherland, as to whether it is the mysterious Emperor Xuan, this has yet to be verified, but basically no suspense.

"puff!"

Just as the more than 30 **** beasts were shocked by Ye Xuan's brutality and terror, when the time was sluggish in the void, the former took advantage of this opportunity and once again speared out, without a suspense to open a blood. The huge body of the beast, this time even the words of the drip are gone.

After the buzzing sound, it was a faint flash, and the corpses that were cut into two on both sides disappeared directly with the flesh and blood, and he was included in the Shennong Ding in the body.

Until then, the other **** beasts trembled, and after the spirits, they collectively returned to the soul, and then the screams of horror resounded through this void.

"God, it's too fierce, it's a clear step to kill!"

"The old man saved me..."

"Anti-matter dead spear! Behold, the war spear in this guy's hand is not right, I don't know when it has been turned into an energy form, and it is still condensed by anti-material light energy. God, that giant shield is also true!"

"How is this still played? The spears and war shields are all made up of anti-material light energy, unbreakable, and nothing can be broken. People have already stood in an invincible position..."

Chapter 3560: Black technology reproduction

As the exclamation sounded, the thirty-something guys finally understood why the skull of the fine gold iron horned rhinoceros was so fragile, and it was easily passed through the brain directly by others, and died on the spot!

It turned out that this spear was actually made up of anti-material light energy. Just like the energy light column of the dead light gun that was bombarded by a fortress of 50,000 meters or more in diameter, it is completely invincible, and its attributes are doomed to everything. Matter, whether it is matter or energy form, will immediately produce a mutually offsetting effect without any accident.

This is simply too horrible, and it is simply unacceptable.

In fact, not long ago, in the Tianji national mechanical ratio held near the Tianji City, when Ye Xuan's anti-material light spear appeared, even the world-class celestial family known as mechatronics was shocked.

Not to mention the second universe of all powerful people who are not good at science and technology!

Even in the two camps in the distant sky, there was a voice of exclamation at this moment, and comments were made on this point.

Some people shouted the starry sky black technology to reproduce, and recalled the first few singular foxes who showed several kinds of starry black technology. It is no wonder that Sha Baofeng's entry into the country is so rapid that the fox lord has never been truly exiled, or I have quietly returned safely.

Moreover, they did not know each other with Sha Baofeng. The two had exchanges before. Only in this way, the fact that Sha Baofeng was enchanted after the war was more acceptable.

Only in this way, the new starry sky black technology that he has shown in his hands can explain the passage!

Although this statement is astonishing, it has to be said that there are some truths. Many people have agreed and agreed.

After all, anti-material light energy has always been difficult to control. Even the small fortress of 50,000 meters level, its internal shipborne anti-material light energy generator can only directly bombard the dead light gun energy beam after charging. Just shooting out, you can't achieve more precise and deeper control.

As with the alloy **** of war, the anti-material light energy has been completely condensed into a war spear and a war shield, and it is still in the hands of the war, as a weapon, this is simply unbelievable.

Even if it is a celestial family, if you want to do this, you still need to overcome several technical difficulties.

This is not what Starlight Black Technology is?

For this, Ye Xuan is not aware of it. Although he has a slight understanding of the current level of science and technology, but to what extent the specific areas have reached, and what technical aspects have been unable to overcome the difficulties, but not familiar with them.

After all, there are too many things to do on hand, one after the other, he is completely innocent, no time to study these useless things.

Otherwise, in the previous Tianji mechanical ratio, he will never expose the antimatter dead spear and the dead light shield.

In fact, what he did not know was that the patriarch of the Tianzu tribe and the two devils of the Wenxing family happened to be suspicious because of this.

Of course, the suspicion of this suspicion is currently locked in the Baofeng that he has already delivered. However, as Emperor Yi can't find any problems on Baofeng, the suspected spear will undoubtedly lock Ye Xuan immediately!

It's not just Emperor Yi and Wen Xing. At this moment, even Yero has doubts about Ye Xuan.

He was also shocked by the terrorism displayed by Sha Baofeng. Later he figured out that he suspected that his car's fortress, Baofeng, had undergone a targeted transformation.

But now it seems that things are not the same, Sha Baofeng casually picks a 50,000-meter-tall fortress in the devil, but he can change it at will, and easily put the anti-material dead spear and the dead light shield out. It's impossible to be a starry sky. It's absolutely impossible to do what the so-called mechanical fusion talent can do. It involves too many technical difficulties...

"More and more mysterious, Sha Baofeng he... What happened in the end?"

Staring at the starry battlefield ahead, Elo muttered to himself, but there was a suspicious glory in the middle of it...

At the same time, in the front of the virtual battlefield, the alloy warrior smashed a spear and killed the second **** beast. It was no longer delayed. Even if the Thunder shot, the final attack was launched.

Because he knows that with the advent of the antimatter dead light spear and the dead light shield, there are basically no hopes for the more than thirty elites of the second universe and the other generations.

Under this circumstance, the second universe of the tribes in the flagship of the rear camp will never continue to let this unnecessary sacrifice develop.

If there is no accident, the first large-scale war of this plane-level starry sky war will soon begin.

At that time, Ye Xuan's chance of showing his invincible appearance is basically no longer there. This is the confrontation between the two huge fleets, and like this kind of open-air emptiness, the

commanding art of the commander is also There won't be too high a requirement, and there won't be much room for it to be amazing.

To put it bluntly, you and the two sides are smashing each other, hurting each other, gorgeous but direct, the **** flesh of the red fruit.

Therefore, if Ye Xuan wants to build more military achievements, to build a more solid personal reputation in this battle, before the first full-scale Star Wars is opened, now is the last chance and time!

"puff!"

"Hey..."

"Oh la la..."

With this kind of iron-hearted attitude, the alloy **** of war is under the control of Ye Xuan's electronic consciousness. Even when the horror energy spear of the tens of thousands of meters is swung, even the huge anti-material dead light shield of the left hand is He became a giant round blade waving.

In the blink of an eye, the alloy warrior rushed down among the more than 30 **** beasts, the war spears, the war shields roaring, using the simplest and direct attack method, either smashed or gently picked up... ...

What makes people cold in the back is that no matter what kind of attack, as long as Ye Xuan's hand spear and war shield touch the opponent's scale and half angle, it will cause a strong lethality in an instant, causing buzzing and more The sound of smashing cracks.

As for the fierce misery, it is even more!

These more than 30 **** beasts have been completely chilled, and they have given up their abandonment and become a mourning soldier. At this moment, the only thing they think is to turn around and flee, but their speed is fast, how can they get 50,000 meters tall. Alloy God of War?

What's more, there is a huge spear in the hands of hundreds of thousands of meters. It is often followed by a big step, and then a shield is photographed. If it is still separated by a distance, it will directly pick up the spear of the right hand. The length of more than ten thousand meters, even if only the front end of a spear pointed to the opponent, the result is an instant piercing, there is no accident and suspense!

Less than a minute, more than 30 **** beasts, except for a dozen or so heads of the machine, the remaining twenty, all of them were alloyed by the **** of war or smashed or injured, and then all the bones and brains Shennong Ding, who has gained income from the immortal world...
