

## Super D. S 3571

### Chapter 3571: Conspiracy

"Heaven, the flesh and blood of the underground..."

"This is by no means an ordinary starry beast. I clearly see a real phoenix. Although it is only a small half-remained body, it is definitely not an ordinary blood-blooded descendant. The wreckage is still bloody, golden, and this is at least infinite. Close to the signs of pure blood phoenix!"

"There are other wreckages as well. Almost all of them are still flowing with golden blood, but they are clearly dead, is this the rhythm of the corpse?"

"There is still breath, and the super old monsters in the family that transcend the star's main territory are far worse. Where did these wrecks come from? Is it also the result of the fox lord? This is too amazing."

"It is impossible. He has not yet reached that level, far from it. What's more, although these wrecks are strong, they are dead, at least for many years. This is clearly the original collection of medicine Wang Ding. Bao meat treasure, was made cheap by the fox lord!"

"It should be like this. It is really enviable. This level of Baoxuebao meat does not say that it is used to smelt the world's medicine. Even if it is simply baked, it has great benefits for the evolution of the body. The movement of the Lord is really against the sky, and there is such a good fortune."

"Don't mention this trick? Look up, this right hind leg of the fine gold iron horns is the sooner you, the four of us, but the head of the lion's wind is baked here. Braised lion head..."

The last words were said by Jin Yuyan, the young priest of the Golden Eagle family who had been whispering a few words. He reminded the later dozens of new recruits who looked up and looked up, and then looked pale and subconsciously swallowed their faces. The color.

In the line of sight, the thick thigh that had just been separated from the corpse of the fine gold iron horned rhinoceros was now roasting in an orange fireworks. The speed was very fast, and the golden-eyed cow began to take off in the blink of an eye. Oil is gone.

A stout rhinoceros leg, originally hundreds of meters long, is now removed by this orange-red flame, and a lot of impurities are removed, leaving the essence, only a hundred meters in size.

At this time, the rich flavour of the meat came out. The nearly twenty guys in the cages below the mountain wall were extremely resentful, but they were all smothered by the smell of the incense, and all of them were all in the mouth, and the appetite could not be suppressed. I was hooked out, the saliva was pulled out from the corner of my mouth, and they were so shy that they all turned red. They all hanged their heads...

Blinking, the 100-meter-long golden right leg is baked, with a string of golden butter falling, and quickly go away!

.....

At the same time, in the void of the first universe battlefield, Ye Xuanxin waved his hand, and on the huge desktop in front of him, he immediately fell into a golden thigh with a hot oil flow, exuding a fascinating smell.

The dining table is made of battleship alloy, which is hundreds of meters wide enough to hold this horrible giant roast leg!

Ye Xuan waved the knife and fork in his hand, and immediately cut a piece of meat on the roasting leg of the giant rhinoceros on the table in front of him. He flew directly into his mouth, followed by the next piece...

Although the blood of this golden iron horned rhinoceros is not as good as the lion's typhoon, but the fleshy quality is very tender, and the huge rhinoceros legs of nearly a kilometer are baked to only a hundred meters, and the things such as the dregs are all seen. Refining and chemical removal has gone, this is the beauty of Shennong's flames, although it is only the weakest orange-red fire, but it is equally remarkable.

Therefore, the things that have been baked by them are all as refined and refined, leaving the essence, which has a miraculous effect on the evolution of the flesh, and can also improve the quality, even the meat is very different.

For this kind of flesh and blood, Ye Xuan is extremely in need. He is now taking the path of evolution of flesh and blood. Every time he eats this kind of flesh and blood, he can get a lot of benefits, and the energy is accumulated. In the body, he quietly improved his physique, and when it was accumulated to a certain extent, it broke out and it will usher in a breakthrough.

In Ye Xuan's view, he will return to the Tianzu race again soon.

At that time, he will try to enter the interior of the heavenly continent, sneak into the imperial prison, and rescue the royals of the demon royal family. In this process, there is a high probability that an accident will occur. Ye Xuan hopes to improve his cultivation as much as possible.

He only broke through once in a while, but now is the fourth step of the tenth dimension of the Visionary. According to his plan, it is best to advance the evolution of the flesh to the ninth stage of the glory, and then swallow one. With the 12th grade liquid, you will be able to enter the twelfth big void.

In this way, his second grasp of the Tianji City trip will be even greater.

At this time, as Ye Xuan constantly flew his wrists, a large piece of golden flesh flew into his mouth. Although this roast rhinoceros leg has a hundred meters, but for Ye Xuan, it is true. It's not a huge thing, because it's all flesh and blood essence, the entrance is instant, and there is more to eat, there will be no feeling of fullness. On the contrary, every inch of flesh and blood in the flesh has a feeling of being slowly nourished!

This scene is too strange, a vast expanse of the universe, a lonely figure sitting alone on the knees, suspended in front of a huge alloy dining table, a huge golden roast leg on the table, flesh pieces flying, Did not enter his mouth, almost never stopped...

Just before and after the tens of millions of miles away from the two sides, there is a huge army of millions of warships, and the eyes of all the powerful inside and outside the warships are all gathered together in the central starry sky.

Everyone was stunned, as if they saw a living ghost in the daytime!

Yes, these guys are indeed being thundered. No one expected that Ye Xuan actually said that he would eat and eat. He actually baked a hind leg of Jinjing iron horned rhinoceros in advance, now in the first place. In the face of the innumerable strongmen of the millions of warships of the various nationalities of the universe, the slow-moving eating, this is a provocation, it is simply the face of the red fruit.

And still the kind of non-stop!

In the enemy camps tens of millions of miles away, the sound of roaring roars soon sounded...

"Damn, what does this kid mean? How dare you so openly provoke and face?"

"Is he crazy? This is clearly the anger of the Qiankun people who forced me to wait for the anger!"

"There is a conspiracy! There is absolutely a conspiracy! Before that, he seems to use this method too. It has tempted me to wait for the 20th Qiankun to be able to shoot. As a result, the man has not yet arrived and sacrificed a horrible giant starry sky... "

"This kid is too bad. This is clearly the meaning of this. I want to take out the Qiankun people in my family with a hind leg of Jinjing Iron Horn, and then sneak once with the \*\*\*\* starry big trumpet. ?"

"This is a dream, I can never be fooled for the second time!"

"But just watching him dress up there, roasting the thighs of my people, this is really blue and thin..."

Chapter 3572: Frightened star lord

A hundred meters long roast rhinoceros legs, if viewed as food, is indeed a giant, but with Ye Xuan's wrists fluttering, the front and back are just over a minute, and this roast rhinoceros leg is left. A skeleton, all the golden rhinoceros all entered the belly of Ye Xuan.

The countless strongmen of the two camps in this scene turned their eyes straight, and their hearts were even more bloated. Some of them even secretly picked up the shackles of the mouth and unconsciously!

Although there is no smell of the roast rhinoceros legs across the tens of millions of miles of the universe, but everyone knows that Ye Xuan is so delicious.

It's such a good taste, but it falls into the belly of a robot. This makes many people have a belly, and they are about to make a sound. It's just a violent thing!

A hundred meters of roast rhinoceros legs under the belly, Ye Xuan's body of blood suddenly surged, he has a feeling of breakthrough, but still a little bit worse.

Just when Ye Xuan hesitated whether to add another fire, and then baked one, there was finally someone in the opposite camp who couldn't see it!

"Little dolls, it's not that the old man is bullying, but you have done too much. If you don't leave you today, I'm afraid that the three planes will laugh. I have no one in the second universe!"

The voice of this discourse was not great, but it was clearly introduced into the ears of countless star powers in the two large fleets of the two camps, which made them feel shocked and sorrowful.

Star Lord!

This is clearly a star-studded singer in the flagship of the Nine Major Groups of the Second Universe. The existence of this level would not have appeared in the early stage of the Star Wars, unless there is a large void before. A huge accident that will completely collapse.

In the trepidation, countless powerful people in both camps were depressed.

But nowadays, the young commander of the Celestial Pioneer Fleet is angering a star-studded singer who is always restrained. This kind of trouble-free ability is no one, and it can definitely be with the

singer and the singer. People are comparable, and it really is worthy of the same level of contemporary enchanting!

All of this has been transmitted to the first universe by the star network, and there are even some scout warships responsible for intelligence relays, passing the live image out of the first universe, so the second universe and the human race are in the first place. In the Three Universes, there are countless powerful people who have seen this scene.

For a time, the three universes were all sighs.

The Tianji family finally came out with a small demon king. First of all, they learned the lesser of the fox and the lesser of the Nether. They embarked on a road of nostalgic food, but now they even learn the same thing. With these guys tossing, the three universes will not stop in the future.

It's true that every family has a difficult experience. Even the Tianji people are the same. In the electronic wisdom life, the same can be a super defeated family and a bad guy!

The sound of the words has not yet fallen, and a terrible atmosphere has been rushed from a 100,000-meter-high fortress behind the enemy camps thousands of miles away, turning into a giant palm, toward Ye Xuan. The void in the place was quickly caught.

This is clearly to take Ye Xuan directly to the rhythm of suppression.

Seeing this scene, the three powerful planes have been eclipsed, and some people have begun to sigh.

The celestial genius who was born out of the celestial family was too arrogant, and did not know the current affairs. Previously, there had been a foresight of the fox and the lord and the lord, but still still so rampant.

Now it has finally provoked a star lord to shoot, this time must be in jeopardy, will be in the face of the three major planes of numerous star power strong, completely smashed into a cup.

After all, it is the star lord's shot, he has been unable to turn the sky, can not escape the suppressed finale!

Ye Xuan sneered, no fear, at least he still has a card, that is, he can start the interplanetary coordinate jumping ability at any time, and immediately leave, he has already issued instructions to the body's engulfing system, and prepared the matter ahead of time.

In addition, Ye Xuan also has the confidence that the star lord who is screaming in the opposite direction will not be shot at the end, because he has already expected this and is prepared.

"boom!"

Just as the whistling sky-capped energy giant palm is only a few hundred miles away from Ye Xuan, the emptiness in front of Ye Xuan suddenly descends on a 100-meter-sized Wujin head, slamming into his body. The huge alloy dining table that was hung before.

This is a singular poultry head!

When it was in the starry field of the evil, the furnace had spewed out a horn of gold, which is considered to be rubbish. It is only a half-length body, but the flesh and the internal organs are all pale gold, and the surface of the body is black. feather.

This black-eyed feather of the one-legged Jinwu body, which does not know when it fell, not only has a little golden glitter, but the whole body is shrouded by golden fireworks that are pouring out of the body. However, these golden fireworks are not pure, with gray spots. .

Its breath is beyond the existence of the star-studded level. At that time, the mechanical demon can only be seen from a thousand miles away. Once approached, the alloy body of the worm will collapse, but in the furnace When I walked out, the layer of energy protection film that was held by the headless baby corpse had not faded. Ye Xuan handed the wreckage of the other dozens of ruins of the ruin of the one-legged Jinwu. Shennong Ding in the body!

At this moment, the wreck of the one-legged Jinwu is still in Shennong Ding, but the head was taken out by Ye Xuan, and it has been baked with the one-color orange fire of Shennong Ding, otherwise it will not

condense to only a hundred meters. You must know that the whole body of the original one-footed Jinwu is more than a thousand feet!

The one-color orange fire of Shennong Ding not only refines the dross in the skull of the single-legged Jinwutou, but even the sharp meaning of its \*\*\*\* breath has been completely wiped out. Otherwise, at this moment, it is the same as On the giant alloy dining table in front of him, Ye Xuan had a cup on the spot and could not bear it.

But this does not mean that all of its ranks are all dissipated. After all, it is the flesh and blood wreckage left by the ancient creatures that transcend the star's main territory. The one-color orange fire of Shennong Ding can be refined into the flesh and blood. But it did not erase its order pressure.

Because of this, with Ye Xuan's head of this one-legged Jinwu, he squatted on the table in front of him, and in the front hundreds of miles away, the sky was smashing into the sky, almost like a response, in an instant. Suddenly, after a short period of stagnation in the void, I quickly retreated. Wherever I went, the blink of an eye was a million miles away.

It is also at this time, inside the 100,000-meter flagship fortress in the enemy camp in the distance, the second cosmic star of the horror giant palm, the singer, is also exclaimed, and its sound is resounding. The whole piece of emptiness instantly shocked countless powerful people in both camps...

Chapter 3573: Xuanguang fifth order

In front of the void, the giant palms of the sky are swiftly retreating, blinking millions of miles, rolling up a storm, ravaging the sky.

At the same time, in a flagship fortress behind the enemy camp, the second cosmic star of the second universe, who was screaming at the sky, also exclaimed: "What? The unicorn Jinwu...this is absolutely impossible!"

"Booming..."

The sound is still not yet falling, and the giant palm that is rapidly withdrawing has already collapsed on the way, turning into a horrible energy that covers the sky and spreads!

This is obviously because the star lord stunned and stunned, completely messing up the heart and soul, even the magical powers that he played were no longer in control, and collapsed in the void!

All this happened too quickly, too unexpectedly, and the countless strong people in both camps failed to react. At this moment, all the minds were chaotic, just like the void that was in the sky when the giant palms exploded. !

The star lord was actually taken off?

How can this be?

What is the origin of this poultry head that Sha Baofeng has thrown out?

There was such a mighty power, even the star lord and the old blame could not be prevented, and they were shocked, and the magical powers that were displayed were completely collapsed!

Then, from the opposite enemy camp, there were several more exclamations in succession, all of which were star owners, or the existence of Qiankun's power level. The words were full of shock.

"The main level? Is it the fierce beast of the main level? How is this possible?"

"After the star's main territory is the domain's main territory, after the domain's main territory is the main level, the so-called domain master, a large star domain is respected, and the existence of the main level has been able to traverse a cosmic interface, this existence, Within the three universes, each plane is no more than five fingers. It has been known that it has not been born for many thousand years. Is this bird head actually a transcendental existence of the main level? It's amazing, it's unbelievable... .."

"Absolutely correct, the blood of this one-horned Jinwu is extremely pure. Compared with the legendary ancient Jinwu, I am afraid that it is not much worse, but these are not the key. The only concern for the old man is that... this one How did the kid, the horror bird at the main level, get the opposite?"

"Looking at the poultry's head is still licking the hot golden grease, which was clearly baked just a short time ago. Even if the horror of this level exists, the residual pressure in the corpse will not be completely scattered. Go, even if the star is not easy to approach, let alone lick its head?"

"How did this kid do it?"

"There is a conspiracy. There is no doubt that this person still has such a powerful and powerful means as I can, and I can ignore the horrible pressure in the sect of the lord of the world. At this moment, throwing out the already-roasted poultry head is Deterrence."

"Sure enough, I can't help but be so arrogant. He got a distinctly wrecked scum, licking the poultry's first roast, but the body of Jin Wu's wreck is still in his hands. This is clearly a pile. The big killer, just sacrifice, throw it freely into the void, and its power will make the star's main powerhouse stunned!"

"Hateful! I am so helpless about this? Let him be so arrogant, it is really resentful..."

.....

With the sound of these arguments, among the two hostile camps that straddle tens of millions of miles in the sky, countless strong people are all stupid, and they are stunned to see the battlefield's central domain has waved and began to cut the huge bird head. Ye Xuan, who is arrogantly eating in public, has a complicated heart!

It is no wonder that he dared to provoke and even face up so unscrupulously, completely ignoring the nine star owners who were sitting in the rear of the Second Universe and allied forces. It turned out to be holding such a terrible murderousness in his hand.

The wreckage of the horror of the realm of the border, even if it has fallen for many years, its prestige remains, and this alone will be enough to deter the star owners, so that they dare not act rashly. So, what fear?

Although this method is somewhat rogue, it has to be said that it is extremely effective. It is impossible for any star lord to easily risk the horror of a lord of the Lord. This ace will clamp them down. If you don't have the chance to survive or die, you don't have to worry about any lords who are arrogant.

For a time, countless sighs in the two camps echoed one after another, even in the far back of their own camps, and opened the secret warfare that squats in the void, as well as the devil. The seven dignitaries, or the star lords of the devil's group, were all convinced by Ye Xuan's unexpected horror.

As for the deputy commander of the Pioneer Fleet, Jero, the whole person has been completely sluggish. He simply can't figure out how Sha Baofeng did all this. He has a horrible wreck in the hands of the main class.

On the contrary, the old guy of Chanas was stunned at the beginning, but he quickly realized that he had guessed the origin and origin of this horrible bird. He couldn't help but turn his eyes. It seems that Sha Daren still does not trust the old man. The source of all evils, there are still a lot of movements in his back, he was completely ignorant, and was kept in the drum, which made him feel depressed and quite aggrieved!

Obviously said that it is better to be a shackle on the rope. Can this be mixed with the flow?

Between people, even the most basic trust is gone...

At the same time, in the void in the far side of the rear of the Second Universe's coalition camp, from the three observation bastions of the Third Universe, there is also an exclamation at this moment, and the war and the old ghosts and the eyebrowless ancestors are even more It was a double-browed lock, and it exchanged a look in silence, and the whole heart sank to the valley.

This kid's means is really taboo, and the other is not mentioned. It's just the top fighting power or the big killer in his hand. Now there are two known, and the ancestral marsh is the great perfection of the nine-step. Infinitely close to the main level of the repair of the star, now there is such a star-studded master and blame are helpless, can only avoid the lord of the souls far away...

From this point of view, if you want to find this person, you must make another plan. The plan must be well-planned, and you can do it without any loss. Otherwise, once you are scared, let the other party be vigilant, and then fear that there will be no second chance!

Thinking of this, the war and the old ghosts and the two-browed ancestors exchanged their eyes again, and they all saw a deep helplessness from the bottom of the other side. They all sighed.

For all of this, Ye Xuan did not pay attention to it, letting the exclamation and sigh of countless strong people in the two camps in the distance resounded endlessly, but he was completely okay, and he was so busy in public that in just two or three minutes. The whole golden blackbird has been cleaned up for the first time, leaving only a huge hoe, and he was finally waved into the immortal world.

Every piece of gold and black poultry capital is delicious, the entrance is instant, and the golden treasure meat falls into the abdomen, turning into a hot and pure energy, constantly nourishing Ye Xuan's body.

Not waiting for these heats to be exhausted, in his mind, there has been a familiar system prompt: "Hey, congratulations to the host, the body and blood of the realm is elevated! The current realm: Xuanguangjing fifth-order..."

Chapter 3574: Fertilizer and water do not flow outside the field

"Hey, congratulations to the host, the physical and physiology of the flesh is raised! The current realm: the fifth stage of the mysterious light!"

With the familiar system prompts in his mind, Ye Xuan grinned, and it wasn't just that, just a golden blackbird, he succeeded in breaking through again.

This is the head of the terrible existence of the border, even if the one-legged Jinwu has fallen into endless years, the true essence of the meat shell has been basically exhausted, but its horrible level of life is doomed to even just Its flesh and blood contain the pure energy of Dabao.

Absolutely called Baoxuebao meat, let Ye Xuan, compared with his life level, is like the eleventh sect of the sect of the ants, the breakthrough of one or two small steps, obviously no suspense.

Sure enough, the first system prompts that the sound is only less than three minutes after the sound is heard. As the hot energy of the turbulent body in Ye Xuan gradually dissipates, the second and third system sounds are heard, and they are quickly transmitted. .

"Hey, congratulations to the host, the body and blood of the realm of the realm! The current realm: Xuanguangjing sixth-order!"

"Hey, congratulations to the host, the body and blood of the realm of the realm! The current realm: Xuanguangjing seven orders!"

Xuanguangjing seventh order!

Finally, I stepped into the late stage of this situation. Next, Ye Xuan only needs to break through two small steps to achieve the 9th-order grand perfection of Xuanguang. At that time, I can take a tube of 12-stage liquid and enter the 12th largest. The virtual void is just around the corner.

Thinking of this, Ye Xuan clenched his fists tightly, and his pride in the chest was stirring, but he was suppressed by his efforts, including the flesh and blood organs of his entire body and body, which were turned into flesh and blood. When the pure energy nourishes and tempers, every inch of flesh and blood, the qi of Baoguang, which is scattered in every pore, is also suppressed by him, and it is not revealed. Otherwise, the scene must be the treasure of Xia Ruiying. The rhythm that rushes.

If this scene really happens, it will be troublesome. After all, his current identity is the young high-ranking Sha Baofeng of the Tianji nationality. The body is not really the flesh and blood. It is such a vision that will expose everything in an instant!

For a long time, Bao Xuan Xianguang, who was surging in Ye Xuan's body, gradually stopped, crouching in every inch of flesh and blood inside and outside his body, no need to worry about the trouble of the treasure body.

With a sigh of relief, Ye Xuan looked up to the front of the huge camp where the second universe of the various ethnic groups were tens of millions of miles away. The coldness in the nose, no words, turned and crossed the void, stepping into his own camp. Straight through, went to the emptiness behind the camp, and the figure quickly disappeared.

Soon after, Ye Xuan stepped into the inland of a huge ruined star, and fell to the top of a huge peak. After passing through a forbidden curtain wall, he saw the demon king on the side of the cliff of the giant peak. Uncle Mo Qigong, and the star lord of the devil's group, the two have long waited for a long time!

"The momentum is basically the same. If there is no accident, the Tianji people will appoint you as the first patriarch of the young patriarchs, and will soon arrive!"

Seeing Ye Xuan's body shape, the devil's uncle Mo Qigong's face is dignified, and he slightly pointed his head. He immediately opened the door and talked about the business: "Because we just received the news, the Tianji family has already determined that the predecessor is less. The patriarch Emperor Shaofeng has fallen, but he did not mention the details..."

"In addition, there has just been news from the Emperor of the Magic that the Emperor Star has received an order from the Heavenly Family and can no longer use the Spiritual War."

Speaking of this, Mo Qigong's face showed an irritating color, and some angrily answered: "And also let us send the spiritual warfare to Tianji City within a time limit, saying that several core executives in the family are very optimistic about this. A newly developed star-studded killer, but it is believed that there is still a shortage of war, and it needs to be perfected. This is simply the blackmail of the red fruit. I really want to send it to the past. It is clearly a meat buns and dogs, and there is no return!"

"How do you plan to respond? Try to delay or find an excuse to perfuse the Celestial family?"

Upon hearing this news, Ye Xuan also frowned. The Tianji people obviously took a fancy to the special power of the spiritual war, and wanted to get the real thing, and then used this to study the suitable for the Tianji people, even a large number of cheap intelligent robots. The same type of starry sky killer.

After all, the electronic consciousness and the spiritual knowledge of the human monks, the spiritual power of the devil, in some respects, actually have a common point, as long as they devote themselves to research, they may not be able to scream.

Don't forget, the Tianji people are in the field of mechatronics research and manufacturing, but the recognized talents are superb. Even the technology camp of the Terran is far behind.

From this point of view, Ye Xuan naturally does not want the spirit warfare to fall into the hands of the Tianji clan, but he can't control the matter. After all, it involves a huge ethnic group, and the stakes are too serious.

Sure enough, seeing Ye Xuan's shot and asking for the key point, Mo Qigong sighed a bit, and then he shook his head and sighed reluctantly: "Now it's not yet officially broken with the Tianji people, and the Emperor is not a foolish existence. Therefore, even if you are unwilling, you can only hand it over. It is

not reluctant. Without this one, we can build a bigger spiritual war. The key is not to be willing to fall into the hands of the Tianji people. After all, after all, It is against the purpose, and if this is an enemy."

"More than this war, it is also the brainchild of my devil's group. It is really a hand to hand it over to the enemy."

At the end of the day, Mo Qigong shook his head and smiled again, but he did not continue to talk about it, and his chest was really depressed!

"If this is the case, then how can I give it to me? The same is true of the troubles here, especially the appearance of the former golden black poultry head. Presumably, the emperor can't sit still. The expected order should be soon. Will come."

After taking over the words, Ye Xuan said: "It is just right to bring the war to me to bring back to the Tianzu. Of course, before that, you need to make some transformations to fight La, at least to ensure that I need to use it, once Let the soldiers and clans enter the war, and they can use them at any time. If time is sufficient, it is best to let the soldiers and clans enter the war and drill several times after the completion of the transformation."

"After all, I am going back to Heaven City. This thing must be taken away immediately. There is no chance to get familiar with it. It can only be done after the incident, if necessary, let the soldiers and clans enter into it. Start a sudden attack!"

"What do you mean... transforming the spiritual warlord into a virtual warfare that is suitable for the virtual airborne frequency wave drive?"

Hearing the words of Ye Xuan, Mo Qigong opened his mouth and stared at him for a while, then he took a thigh and immediately took the matter: "So good, fat water does not flow outside the field, Giving you a kid is not at least an enemy. Maybe you can let the Tianzu people eat a small loss. Anyway, the war is handed over. You are in the nest of your own, and you are also happy with us. Ethnicity has nothing to do..."

Chapter 3575: Sure enough, there is a problem

Although the spiritual warfare is tailor-made for the devil's group, the attributes and structure of its core components are most suitable for the transmission of the spiritual power of the devil, and can make all

the spiritual powers condensed in each node the fastest. The speed of convergence is concentrated, and in the process, a certain mysterious increase effect is formed.

But in fact, whether it is the spiritual power of the devil, the spiritual consciousness of the monks of the human race, or the electronic consciousness of the celestial tribes, and the unique biological wave frequencies of various star worms and orcs, they are all unique. However, in some respects, there are actually common points.

Spiritual warfare is developed and built by the devil. As long as they give them a certain amount of time, they can definitely transform the warlord into a star-studded killer suitable for the unique biological wave frequency of the Vulture.

In this case, Ye Xuan has confidence in the devil's group. After all, they even got out of the star-studded big-spot smasher, just to transform it to make it suitable for another kind of energy to drive. This is obviously not too difficult.

The two sides have studied it and the results confirm that this method is completely feasible.

Therefore, Ye Xuan waved the sacrifice of the great fortress of the entire patriarchal group, and handed it directly to the devil's uncle Mo Qigong.

Of course, before this, Ye Xuan deliberately motivated the brain to know the hollow medullary crystal hanging in the sea, and communicated with the current leader of the sergeant group, that is, the two eight-star king scoops, so much like this. explain.....

Otherwise, they want to let them listen to Mo Qigong's dispatch, cooperate with him to study the unique biological wave frequency of the soldiers and clans, and, after the completion of the war-rare transformation, lift the entire military and the whole family, and collectively settle in the battle, and practice. I just don't even think about it!

After all the confession, Ye Xuan even said goodbye to Mo Qigong and others, and turned away, and the latter will immediately rush to the spiritual warfare that opened the hidden array to stay in the vicinity of the void, and set foot on the return home of the magic star. .

The transformation of the spiritual warfare, as well as the entry and training of the soldiers and squads after the completion of the transformation, will be secretly launched in the Magic Emperor to prevent the news from leaking out!

At the same time, the first base of the universe in the first universe of the universe, a secret room in the forbidden area inside the mainland.

Not long ago, the old ghost of Wenxing, who had just returned from the star of the evil source, was sitting cross-legged on the ground of the incomparable secret room. His eyes were closed and his eyes were slightly painful. This is clearly the rhythm of being wounded and healing.

Daddy, a dark lacquered secret room suddenly burst into a dreamy halo, picked up from the ground not far from the old ghosts, is a holographic stereo screen.

After a slight flash of two times, a middle-aged man with a white face appeared in the screen. This middle-aged man is the avatar of the Tianji tribe.

"You are hurt?"

The old ghost of Wenxing just opened his eyes, and the middle-aged man in the screen frowned and asked: "What happened? Why didn't you mention it in the previous communication? In addition, did the eight tribes such as Shaofeng be degraded? Who is it? Even you have been hurt..."

"I'm fine, I'm already innocent..."

The old ghost of Wenxing waved his hand and sighed with relief. Although the tone was relaxed, the look on his face was extremely dignified: "The eight-member squad led by Shaofeng has all fallen, and there is no suspense in this matter. I can't deduce any clues because I didn't enter the source of all evils. The fierce land is very weird. Not only can the Star Network signal not enter, but it can even obscure some secrets!"

"Obviously, the eight of them were falling in the star field, and the whole army was annihilated. This matter, after I entered the star field of the evil, I tried to use the amount of Tianzhu again to deduct it. Conclusion, there is no half suspense!"

"However, although I have not found any warship wreckage, from the results of the sacred scorpion, the eight of them should not be in the hands of the horrible existence in the core hinterland of the evil source, but another people."

"As for the support fleet that is covered in the void near the fierce land, it is a certain handwriting in the core hinterland. The specific reason is unknown, but its repair, at least it must be the domain main territory, the star owner can not do it. So instantly destroying a huge fleet without leaving traces..."

Having said that, Wen Xun no longer speaks, frowning and sinking into sinking. The same is true of the middle-aged man in the holographic screen. After a long time, he once again said: "It seems that the core hinterland of the fierce land should have something. It's a pity that we have tried and explored it and paid a heavy price. Now we only extend the tentacles to the edge of the core hinterland. It's hard to know what the depth of the hinterland is. Expand judgment and analysis!"

"This is also the reason for my injury..."

Wenxing old ghost took over the words and suddenly shook his head and smiled: "The stars in the core hinterland have never allowed any alien star-level powerhouses to step into the core hinterland, otherwise they will attack and attack. In desperation, we have been dispatching elites from the middle class to enter the exploration. Unfortunately, their cultivation is too weak to penetrate deep into the hinterland, and this change is obviously extraordinary. In desperation, I can only venture into..."

"What is strange is that this time into the edge of the core hinterland, did not encounter the indigenous beasts of a star territory, what seems to happen, they all crouched, did not dare to take the lead."

"So, I was fortunate enough to cross the edge and touch the outer edge of the hinterland. Unfortunately, although the harvest was not small, I ended up stopping here and couldn't go any further."

"So, what is there in the end of the hinterland, what is it, and we still have no clues on this trip..."

"Is it blocked? So, are you injured by the indigenous beasts deep in the hinterland?"

In the holographic screen, the middle-aged man was gloomy and asked a little.

"If there is a native beast from the depths of the hinterland, I am a avatar, I am afraid I will not come back..."

Wenxing old ghost laughed and laughed at himself, shaking his head and sighing: "It is indeed a resistance, even I can no longer move forward, the pressure is too horrible, the whole piece of emptiness, all overwhelmingly the wreckage of the ancient beasts, the breath is in the stars The main territory and the main domain of the domain are densely packed with a large starry sky. Even if the eternal years have already fallen, the number is too large. The pressures in the tens of thousands of star owners and the lords of the domain are gathered together to cover the star field. I just tried to move forward a little longer and look at the deepest scene. If I was a little careless, it was hit hard by this pressure."

"Fortunately, it is timely to get out of the way, otherwise you will not be able to get out of the big murder..."

"What? In the core hinterland of the source of evil, is it a piece of star owner and domain wreck?"

The middle-aged man was screaming and screaming, and there was even more glare in the middle of it: "It seems that Sha Baofeng's kid... there is a problem!"

Chapter 3576: Fire line seal

"Sha Baofeng? What is this with him?"

Emperor Yi's avatar suddenly mentioned Sha Baofeng, and Wen's old ghost was quite surprised and full of sorrow!

"You just came back and don't know what happened in these days. It's inevitable that you don't understand!"

The emperor sneered, and then it will happen in the battlefield in front of the devil's star field. The important thing is to say it once again. Seeing the face of the old ghost of Wenxing is also sullen, and

then he said: "His car Baofeng, I have thoroughly checked it, there is no problem, so the problem must be in Sha Baofeng."

"The facts also prove this point. In the frontier battle of the Devil's Star Field, this kid became famous in the war. This morning, the younger generation of the famous three planes is enchanting. In this battle, he is a fusion of The small fortress of the Devil's family has still successfully transformed into an alloy \*\*\*\* of war. Even the dead light shield and the dead light spear are not lacking. Such a strong mechanical fusion ability, except for me, there are only a few old ones. The elders of generations can do..."

"He just ate a bit of pain in the hands of the human race, the fox, and even the epiphany, and never entered the country so terrible!"

"In addition, the golden black poultry head that he blatantly bakes on the front line of the front line is obviously also a big problem. If nothing unexpected, it should be from the depths of the core hinterland of the source of the evil, that is, the one you have just been to. Where..."

"how is this possible?"

Wenxing was stunned and shouted: "Even my avatar is inaccessible, and I can only stay in the outer edge of the core hinterland for a short time. He is a small sacred scorpion ant, why should he enter the depths of the core hinterland? Is there a treasure of the treasure of the king-level one-footed Jinwu?"

Speaking of this, Wen's words suddenly stagnate and frowned again: "However, the outer part of the core hinterland of the murderous land has been seen as the wreckage of the ancient fierce beasts of the star or even the domain. If it is sand The wreckage of the one-footed Jinwu in Baofeng's hands is really a more powerful master, so there is only one explanation."

"The ancient animal wreckage at the main level, even in the murderous land of the evil source, if it really exists, it can only be in the deepest part of the core hinterland! Just... how did he do it?"

"The deity is also very curious. How did he do it? It's getting more and more interesting..."

Wenxing was stunned, but the emperor's avatar smiled, but he said slowly: "But it's no fruit for you and me to guess. It's still a matter of waiting for him to come back. Since Shaofeng has been jealous, my celestial family It is time to set up a new young patriarch!"

"Shabaofeng talent is so amazing, the younger generation of the second generation of Jero has been easily suppressed by him, and now it is more important in the front line of the battlefield. The fire line is also a reasonable thing, just take this opportunity to call him to return to Tianji City immediately. , this matter... do it now!"

• • • • •

## Devil's Star Field, Void Battlefield!

After Ye Xuan and the devil's uncle Mo Qigong and others were separated, even if he returned to his own camp, he was the chief commander of the entire Pioneer Fleet. It was not good to leave too long before he left.

Stepping into the flagship expulsion number, Ye Xuan's figure was revealed. The demon emperor in the top-level command cabin lounge hall led Chanas, and slammed it from the sofa, his face was red, his face The look of excitement is as if I have just hit a needle of chicken blood, and the fart is going straight up and rushing over.

[illegible]

Said, this guy rushed to this, while he had raised his hand and pulled it around his face. It seemed to be quite heavy and creaking, but his face was more brilliant, perfectly interpreting People come to the madness of the patient's symptoms!

However, although this discourse is somewhat incoherent, Ye Xuan still understands. In fact, he had expected this thing, but he did not expect it to be so fast. It seems that Emperor Yi's estimate is better than himself. More anxious, if there is no accident, and the arrival of this line of fire, and there is a call to return to the city of heaven!

And this is exactly what Ye Xuan hopes!

Although Emperor Yi has already raised doubts about himself, Tianji City is the real Longtan Tiger Cave, the most mysterious and most deterrent star city in the entire first universe. However, Ye Xuan did not intend to avoid this opportunity. During his trip to the city, he has his own heritage and he has already prepared a response.

Knowing that there is a virtual mountain, it is biased towards Hushan!

No fear!

"The electronic tiger is coming..."

Just stopped and the expressionless Jero had already come over and reached out and reached out to Ye Xuan: "The patriarch has ordered that you will not delay after receiving the seal order. Within three days, you must return. Tianji City, participate in the Shaofeng Grand Ceremony."

"As for the command of the Pioneer Fleet, it is fully transferred, and I am responsible for..."

"Don't be too nervous. If you don't understand, you can learn slowly. When you come across the arrest, you can also ask Chad to ask for advice. He has been with the young chiefs for more than a month, guiding you to command this level of the pioneer camp. Star Wars, still no problem at all!"

Turning his hand out of the body to represent the little black box that represents the command of the Pioneer Fleet, Ye Xuan threw the garbage into the Yello, and then raised his hand and patted it on his shoulder, comforting a few words.

The latter's face turned black in an instant, gnashing his teeth, swearing with a ray of light toward Ye Xuan, and then turned his head to look at the dumbfounded Chanas, who turned cold and turned and went away. .

Until then, Chanus had not been able to return to God, until Ye Xuan also turned to his own cabin, he was trembled, stunned a few times, and smashed the scorpion and chased it. Come over, mourn with words, resentment: "Hey, my younger generations, this kind of joke can not be opened casually, you are gone, I am still staying here?"

"You are now flying up. As a shackle that has been tied on a rope, I want to be more interested. Even if I stay with me, I will give you a leg and run something."

"I don't really pick you up with Chanas. You can be loyal to you. If you have a slogan, let me call the Thunder Head Office, I..."

"Booming!"

When the words were not finished, the outer universe was in the void, and a thunderous sound of thunderous sounds was heard. The whole flagship fortress with a diameter of 100,000 meters was shaken violently, and the turbulence was amazing!

The unspoken words in Chanas's mouth are already there. Zhang's mouth is standing on the spot and he is instantly thundered...

Chapter 3577: Nether little devil rolls out

"Booming..."

"The Nether Little Ghost, immediately rolled out and died, otherwise the Emperor directly bombarded this fortress and told you to die without a whole body!"

"boom!"

.....

In the thunderous sound of the rumble, the flagship fortress of the entire expulsion was like a small boat in the raging waves, swaying violently, and the battleships suddenly became a mess, but the conscious

big living also Ye Xuan and Chanas, and Yello three, the other are intelligent robots, there is no mood fluctuations at all.

Therefore, even though all of them have become a gourd at the moment, the situation of exclamation is not present.

It was also at this time that an angry roar of anger was caught in the rumble of thunder, and came from the void outside the ship.

Senas was angry on the spot. Before that, he was really scared. He said that he was a slap in the face, and when he had just finished speaking, he really attracted the thunder.

I don't want to be a crazy old man to scatter in the wild. This is the flagship fortress of the Celestial Pioneer Fleet. Where is the Nether?

Even if he looks at his means, the cultivation of this crazy old man must be weak and even strong, but how can Chanas fear him? Standing next to him, but the patriarch of the celestial family, the first sacred position of the first cosmic plane, just a single order, immediately can call several star lords to kill him!

What's more, I have just shown my loyalty. Now that the young people are being shocked, it is time for their performance. When Senas is doing his part, it is absolutely impossible to miss this opportunity. Even if he slams his arms and rushes to the exit passage of the top of the fortress, The man has not yet gone out, and the voice of the curse in his mouth has been ejected by the waves...

"Where is the crazy old dog? I dare to scatter here!"

"Do you know who is the fortress? Do you have a head that is not enough for you?"

"Get out of the way, you are the younger brother, you have to go wild, go and dare to say a word, your mouth is flying your..."

"Karma!"

"call out....."

After waiting for the curse of the mouth, the forefoot just took out the exit of the top command block passage of the fortress. The small half of the body was still inside the warship, and he screamed aloud. The whole person was like being in a void. The galloping star slammed like it, and the sneak sneaked back on the spot.

The epidemic was swift and swift, until it reached the bulkhead on the opposite side of the fortress. After hitting it on the top, it slammed into a dog, fell from the bulkhead, and squatted on the ground. Like the sling, look at this situation, although I can't die, but for a while, I don't want to climb up.

Ye Xuan frowned, did not pay attention to Chanas, who was squinting on the ground, and stepped out of the fortress's top cabin. The figure appeared in the void outside the ship, slightly rising to the top, hanging over the upper right side of the Milky Way. Look at a figure.

Sure enough, that old thing, no wonder the sound is familiar!

Secretly sighed, Ye Xuan smiled and sighed at the same time, the heart has a deeper doubts, this person is the patriarch of the Yin Mozu, the patriarch of the sinister family, the world's mad dog world has been looking for the glory of the world. The star owner is a strange level.

Listening to the roaring words of his talents, the reason why this old guy appeared here is clearly directed at the Nether!

This is the rhythm of the hard home!

It's just... I don't seem to reveal any flaws. How could he be so determined, and the big thorns went straight to the door?

Or is there any sparseness that has been discovered, and hasn't he been aware of it until now?

Thinking of this, Ye Xuan's heart suddenly sinks. Now, when it's not revealed, it will bring a lot of disadvantages. Ye Xuan still needs time to grow!

However, although his heart is suspicious, but his appearance is still quiet, when he looks up, his face sinks, when he even screams resentfully: "I don't think of the family of the Yin Mozu, the Tang Dynasty star The older generation of strong, so arrogant, even if you are not afraid of other people's jokes, is it not afraid that my Tianzuo Thunder is angry? Is it mad to go to the door to kill people, really can be bullied?"

"Load! Then install! Don't worry, anyway, this Emperor has time to slowly clean up you. This time, let's say that the sky is falling, the means to pass the sky, the Emperor will never let you escape!"

I thought that the prey that I had been searching for for a long time was finally arrested. At this moment, I was in front of my own eyes. I was able to let myself arbitrarily knead. The resentment was exhausted. This time, the world was crazy and looking for the Nether. Where is the roar of roaring people who will confuse which piece of emptiness, attracting a sinister emperor with a chicken and a dog, and it seems to be extremely easy at this moment.

Not only the smile of the mouth is scornful, but the expression on his face is also full of jokes. Even the tone of the voice is ridiculously revealing the sensation of Sen Han: "No wonder this big blame is crazy, you can't catch your kid, you're half-day. Actually, I changed to hide in the base camp of the Tianji people and went to the robot. If it is not a friendly reminder, the old man is afraid that he will not want to take you out of this life to vent your anger..."

A good reminder of a friend?

The speaker did not intend, the listener had the heart, and Ye Xuan's heart suddenly moved, and suddenly sneered.

The old guy in front of him is clearly being shot by a person. What he really counts is actually a black hand hidden behind the scenes.

It is impossible to talk to the star lord and to be called the friend of the Tao. Naturally, it is impossible for ordinary people. Even the mighty power of the fifteenth world does not have this qualification.

In other words, this person should be the star lord of the same level as the Yin Emperor.

In this way, looking back and thinking a little bit, Ye Xuan can roughly list the object of doubt. After all, although there are many other major powers and ethnic groups in the three universes, there are still many Where to go, one by one, you can definitely find the traces.

One thought of this, he felt a big heart, the tight heartstrings under the loose, the smile on his face also bloomed, shaking his head slightly, sighing: "This uncle finally saw it, and for a long time, it turned out to be you. The body of the Nether is not completely condensed, and there are defects, no wonder, no wonder..."

"What do you mean? What kind of tricks do you want to play with your kid?"

Ye Xuan's words have no heads and no brains. The Yin Emperor has been mad at the world since this time, and he is roaring, and his state of mind is indeed a little anxious. He was said to be embarrassed for a while, staring at Ye Xuan with his eyes wide open. I was suspiciously questioning.

"Don't you feel it yourself? There is a problem here..."

During the speech, Ye Xuan raised his finger and pointed at his own brain. He smiled and smiled and said: "If you say something, you will believe it. It is clear that there is no string here. If this is the case, the \*\*\*\* friend said. Know your old mother, and you can't guess if you're young, don't you have to call him?"

When the sinister ecstasy screamed, it leaped like a thunder: "Fart fart! The little \*\*\*\* is really not a thing. When he died, he even dared to tease the emperor. Are you tired?"

Chapter 3578: About three days

"It seems that your problem is very serious. It's not so simple. It's not so simple. If you don't have a good word, you can trust it. The key is to be taken care of by the people. I can't bear to care about you again..."

Ye Xuan turned his eyes and shook his head and sighed. Finally, he said, "Is it better than you and me?" I bet that the real Netherland must appear within three days, maybe not here, but at least take a shot.

Bubble refreshes his sense of existence, like his existence, how can he sit and look at his identity and be replaced by someone else?"

"Although the uncle did not admit it, but you insisted on this, it is unacceptable to him. If it is not in the three days, the young master would rather take a bubble. This black pot is!"

"Three days?"

The face of the evil emperor's face showed a suspicious color. He looked up and down Ye Xuan, and he answered with uncertainty: "You didn't want to play any other ghosts? If this time, let you run again, later. But I really don't want to catch it anymore, this Emperor is not going to be yours!"

"Hey, this grandfather is a big fleet of coalition forces here, need to be afraid of you? What about the star owners? This uncle is not without the prestige of the deterrent star..."

Having said that, Ye Xuan's face is once again sinking, and the Shennong Ding in the body directly evokes the horror of the ruins of the ancient ruins contained in the circular volcano at the center of the Ding's central domain. In an instant, a terrorist pressure that has made the star's main powers have to be disfigured has become a manifestation.

Later, Ye Xuan was too lazy to take care of the other party. He turned and went to the flagship fortress behind him: "No matter what you think, the three-day gambling contract, the uncle has already opened, before then, if there is Anything is entangled, and all consequences are at your own risk!"

The voices have fallen, and the people have disappeared. Only the obsessive emperor and the old monsters are standing on the spot, and they have no idea at the moment.

After a few moments, the old guy seems to have a decision, and he whispered himself: "Hey, look at what your kid said, and there are some truths. Three days, three days, anyway, it's a dazzling one. This time, the Emperor's eyes are all Don't close, keep staring at it, see how you can go!"

Then, his body shape gradually disappeared into the void, but the powerful consciousness of the star's main territory was completely dispersed, and the flagship fortress of the expulsion title suspended in the

void below was completely shrouded. If there was any weak wind and grass, it would definitely not escape his. Perception, the old monster must be the first time to shoot!

"Sha Baofeng, you are not the commander of the Pioneer Fleet. Why do you take the whole fleet and the Yindi blame?"

The style of Ye Fengliang's words just entered the top commanding cabin of the expulsion, and the anger of Yero has already come face to face, and screamed: "The Nether is less like a muddy, the old guy outside is full of world madness. There is no clue to find it. If he does not show up within three days, then the old blame will be in trouble again, how should he end?"

"You ask me, who am I going to?"

Ye Xuan is cold and cold, and his eyes are turned over: "Did you not say it yourself? This uncle is no longer the commander of the fleet. Shouldn't this problem be considered and resolved by you? Anyway, three days. At this time, the uncle should also return to the Tianji City on the way. When the old blame is in trouble, it just creates a mess, away from this piece of right and wrong, oh..."

After that, Ye Xuan shook his head and sighed, and went straight into his cabin: "If you have nothing to do for three days, please don't come and ask for greetings. This grandfather has to recharge his batteries. After three days, he has to hurry back to Tianji City!"

The words have not yet fallen, the figure has disappeared, the hatch has closed quickly, and there has been a slight slamming from the inside.

"Sha Baofeng, you, you... can you point to Bilian? Ah..."

Jero was completely thundered and stood on the spot until the slightest sound of the lock on the door, and he finally returned to the soul, and immediately roared, sulking in anger and anger...

At the same time, Ye Xuan's cabin!

"I want to count the uncle? I am dreaming! I will pick you up sooner or later..."

Between the words, Ye Xuan sneered again and again, who is behind the scenes in the darkness of the sinister ecstasy, including what the purpose of this person is doing, etc., although Ye Xuan is still not aware of it, but this matter is actually Not difficult, a little derivation can roughly lock suspicious targets.

It doesn't even cost much effort, but Ye Xuan doesn't have this time at all. Anyway, it's not anxious. It's okay to go back and deal with it.

As for the moment, what he has to do is to leave here quietly, and to show his face to other stars in a high-profile manner.

The reason why this is not because Ye Xuan is still afraid of the yin of the Yin Emperor who is still staring at the outside, if he wants to go, this old guy simply can't keep it.

However, the secret of the darkness of the evil emperor behind the scenes, the purpose of Ye Xuan, although it is still uncertain, but there is no doubt, that is, the other side must have seen from some of the beads The problem began to doubt my true identity.

For this, Ye Xuan actually had psychological preparations. After being recognized by the devil, the uncle Mo, he listened to the other party and said that the reason was that Ye Xuan had already understood that this matter could not be continued for a while. Soon after, The identity of the sorrowful sage and the sorcerer and other lords will be revealed to the world.

In this regard, Ye Xuan does not matter, but today he has not fully grown up, but it is no longer the original small fish and shrimp, even if it is a star lord, it may not be able to bring him, has no fear.

Even so, the secret behind the darkness of the Yin Emperor, but still let Ye Xuan give a vigilant heart, can now infer their identity, the person's means and vision is absolutely extraordinary, after all, Ye Xuan The use of Sha Baofeng's identity has not been a few days. It's the first time that he has publicly appeared in this identity, but he is still suspected. This has already explained the problem.

This kind of unpredictable, the city's deep and insidious people, and hidden in the dark, the repair must not be weak, its threat can not be ignored, Ye Xuan decided to let the Netherland reproduce the rivers and lakes, in another star field In the middle of the brush to brush the sense of existence, the real purpose is to confuse the enemy.

Presumably, the news of Nether's lack of appearance appeared, the black hand behind the darkness must be dumbfounded, and the doubts about Sha Baofeng's true identity will be shaken. In this case, the other side will be chaotic, and Ye Xuan will have a chance. Grab his tail and pull it out to resolve potential threats and hidden dangers...

Soon, with Ye Xuan's ability to immediately activate the interstellar coordinate jump ability, and determine the target position of this jump, the second coordinate point of the first universe, that is, the central domain of the source of the evil. After the buffer zone, its shape, the blink of an eye disappears silently at the origin, and the fluctuation of the space power at half point has never been left behind...

Chapter 3579: Old ancestors travel

"call out!"

With a faint slap in the face, Ye Xuan stepped out of the air and turned to look around. It really has reached the central domain buffer zone of the source of evil.

The area he chose here to leave the interstellar coordinates, located in a desolate area of the buffer zone, not only has no hollow cracks, but even the black beetles can not see one end, extremely concealed.

Recognizing the direction, Ye Xuan immediately disappeared his body shape and plunged to the periphery of the star of the evil source. After passing through the periphery, he left the murderous land quietly.

Although I remember some of the huge furnaces in the core hinterland, I want to see if there are new ruins of ancient wilderness and being transported over. I am refining into a source of evil, but Ye Xuan finally resisted, dispelling this. Nian, did not really leave.

On the one hand, I don't want to make extra-budgets, so as not to affect the actions of the Netherland to reproduce the rivers and lakes. On the other hand, the old-fashioned consciousness that came out of the furnace in the last time was too horrible, in case it still slumbers. Waiting for the rabbit in the furnace, with Ye Xuan's current cultivation as the strength, I really have to go to the food.

Today, Ye Xuan's system title is already a fifth-level interplanetary expedition. In any cosmic plane, it can leave two fixed interstellar coordinates, and also has the ability to expand interplanetary coordinate jumps across the plane. .

Of course, at present, in the second universe and the third universe, Ye Xuan still only left a mark of interstellar coordinates, while in the first universe, there are two.

In other words, Ye Xuan actually has four choices in respect of the location where Nether has less respect for the rivers and lakes.

The death star of the third universe!

The yin of the second universe... Of course, it has been destroyed, and now it has become a huge whirlpool of emptiness, and the power of the second universe of the various nations should be trying to repair.

In addition, it is the black hole of life and the source of all evils in the first universe.

The first one is not suitable. It is the current base camp of Ye Xuan. The current situation of the three major planes is chaotic. The Arc de Triomphe is rarely surpassed. It has a good opportunity for rapid development. Ye Xuan does not want to lead the turmoil to the death star. .

The black hole of life is in the magical star field, too close, and not the best choice.

The remaining yin nests and the source of all evils are still good, and Ye Xuan finally chose the source of all evils. Obviously there are other considerations!

The source of evil is located in the first universe of the universe, adjacent to the Tianji City, only about six days from the base camp of the Tianji nationality.

Once the news of Nether's less respect for the source of evil is coming out, the evil emperor will come immediately. This is definitely an opportunity worthy of making good use of it. Ye Xuan is going back to

Tianji City, if it can bring the old Yin Blame the past, how much can always create the unexpected confusion that the Emperor could not have imagined.

In Ye Xuan's case, this is the best time for him to take the opportunity to rescue the devil's uncle!

Of course, the Netherful Respect is only appearing in the star of the evil, but it is not enough to ensure that the Yin and the old blame can be led to the Tianji City. Therefore, Ye Xuan decided to take another dose of medicine, so it is foolproof!

After leaving the source of all evil, Ye Xuan headed for the direction of Tianji City, rushed for a day in the void, and finally stopped.

In the void in front of thousands of miles, there is a planet of life. The people living above are the tribes of a servant group under the celestial family. Ye Xuan decided to act here.

At this time, his appearance has become the look of the Nether, the pale, the body is thin and long, wearing a white robes with a sash, it is a difficult character.

Then, in the wave of his hand, Ye Xuan will pay for the Kowloon Qinglan car in the immortal world. This is a waste of ancient treasures. It can't be forged. It is basically a sign of the Netherland. Appearing, even the possibility that the current ignorance of the Nether is counterfeited by others is completely ruled out.

Of course, this is not enough.

Ye Xuan decided to add another insurance, that is, the ghosts and claws of blood, this kind of magical power, today's world, in the three universes, only the evil emperor and the Netherful can be used.

With the Kowloon Green Car and the Nether Claw, I am afraid that even the devil, the Uncle Mo Qigong, who knows the true identity of Ye Xuan, should be dumbfounded. Ye Xuan is not known to them.

In addition, the reason why he decided to use the \*\*\*\* power of the Nether Claw, Ye Xuan's other purpose is to make the movements bigger and bigger, so that the news of the Netherland reappears the rivers and lakes, can spread at the fastest speed.

The servant tribe inhabited by this life planet was unfortunately selected and became the target of Ye Xuan's use. Everything will start here.

After stepping into the Kowloon Qingyi car, Ye Xuan waved again and immediately smashed more than 10,000 intelligent robots from the immortal world. This was previously collected from Baofeng and the fortress of Emperor Shaofeng.

Nowadays, the core source code of these intelligent robots has been modified by the phagocytic system, and it has no relationship with the celestial family. It only executes the instructions issued by Ye Xuan through the phagocytic system.

Of course, although they are only intelligent robots, there is no difference between appearance and human beings. The intelligent robots of the Terran Science and Technology camp have long been anthropomorphized. The surface layers are all made of artificial bio-materials, and the Tianji people produce even more.

These 10,000 intelligent robots are naturally used to create momentum. When they were in the Second Universe, the Netherland lost almost the entire Yinmo, and the people of the Wanyin Mozu were crowded around the Kowloon Green Car. The scene has been swayed in the void, and that scene has long since become a classic, and now it has been mentioned by countless powerful people from all major stars.

Although the tens of thousands of Yin Mozu people have already realized the truth this morning, they have gone to the vain universe with the yin and the yin and the ninth and the ninth, and they can respect the rivers and lakes, and they can't follow the camp. ?

That is too weak!

In addition, in addition to helping the Netherland to create momentum, these intelligent robots have another role. With them, Ye Xuan will definitely go to Tianji City to go to a big fight.

At this time, Ye Xuan, lying lazily in the Kowloon Qinglan car, squinted at the eyes, enjoying the massage of several beautiful robots, and from time to time there were slender jade hands pinching some odd fruit into his mouth.

This scene, even if it is far apart, can be seen through the half-drawing curtain on the side of the Kowloon Green Car.

"Okay, let's get off now, this less respect...returning to the rivers and lakes!"

Gently waving his hand, Ye Xuan's lazy words came out of the car.

Soon, the green car was lifted by more than 10,000 intelligent robots. Although it has a flying function, it is already being lifted and displayed.

If you are less secluded, what you want is this fan!

Then, the shameless slogan that had horrified countless eyeballs in the second universe, once again, the huge bus camp, in the slogan sounded from time to time, finally set off in a mighty way...

"Happy ancestors, the world's first!"

"Xianfu will always enjoy, life and heaven Qi!"

"Happy ancestors, punch and kick!"

"The three universes, crying and crying..."

Chapter 3580: Cry you in minutes

The life planet in front belongs to the giant tyrant, and the planet is inhabited by a tribe of giants!

The giant tyrannical family looks like a mammoth and looks like a starry elephant. It is a powerful force, but it is a human being, and it is also a huge body. Basically, the giants of adulthood have a size of more than 100 meters.

As the servant group of the first cosmic hegemonic celestial family, the giant martial arts, in the eyes of the celestial family, their value is equivalent to the best labor power, like the devil family, in the eyes of the celestial family, is the best information scout!

The ancestral land of the giants is not here. The reason why there is a tribe, the tens of thousands of giants came to this star field adjacent to the heavenly city, and lived on this life planet.

It is because the celestial family needs their strong, huge body and the innate power of the gods!

The Tianji family is a mechatronic life. They are best at electronics and machinery manufacturing. In the peripheral industrial circle of the three major regions of Tianji City, all the planets have been built into a star-level giant industrial base.

Some build warships, others manufacture a variety of other mechanical and electronic equipment, including intelligent robotic lines.

Some giant products like warships require the participation of giants and tribes in the construction process. Although each industrial star has equipment such as a star crane, some locations are not allowed due to space conditions, such as Inside the battleship, the accuracy of the requirements is extremely high. Therefore, the natural power of the giants has its power.

This life planet is actually equivalent to the staff dormitory of the giant tribes. When they take a break, they will leave from the outer industrial circle of Tianji City and return to here.

It seems to be quite tragic to listen to, but in fact, the giants are not worthy of pity!

Ye Xuan was also on the way to the front of the life star of the Kowloon Green Caravan camp, and searched through the data repository of the phagocytic system to understand all the giants.

The giants seem to be honest, and the work is also the kind of hard work that is solid and steady, but in fact, the nature of this ethnic group is extremely dark, and the words of bullying, fearing weakness, and arrogance are just perfect match for them. .

After understanding these things, Ye Xuan turned his back on his mouth. If it was really a sad and miserable ethnic group, he really couldn't bear to use it with his black hands. Now it seems that he is just in the middle of his mind, facing such a group of \*\*\*\* bastards, and starting for a while. It seems that I have to go to the hustle and bustle, and the right to act for the heavens!

At this time, the army of the mighty camp, who was less honoured, also arrived at this star of life. It was only a few miles away, saying that it was not far away, and it was really impossible to say it!

"Happy ancestors, the world's first!"

"Xianfu will always enjoy, life and heaven Qi!"

"Happy ancestors, punch and kick!"

"The three universes, crying and crying..."

The army of the patrols is huge, and the slogans of the slogans of more than 10,000 intelligent robots are even louder and louder, and they are combined into one voice, even in the universe, the momentum is amazing.

The army of the parade did not directly enter the atmosphere of the life star, because when it was not yet close, hundreds of giants of the giants snarled in the atmosphere and rushed out of the atmosphere.

Basically, it is a cultivation of black caves. Although it is a coolie, it is huge in size and huge in size. In adulthood, there is a giant of 100 meters. The flesh and blood are very incomparable, and it is naturally not too weak to cultivate.

Among the hundreds of giants, several of the leading guys in the dark and thick skin have faintly revealed a yellow-yellow color, and the atmosphere is more powerful, all of which are the twelfth The look of the later stage.

As for the tens of thousands of intelligent robots carrying the Kowloon Green Cars, as the products produced by the Tianzu people, and the strength of the core high-rise private car fortress in the family, it is naturally not the most common type.

Its individual strength is equivalent to the star of the fifth largest stellar star!

A line of parade consisting of more than 10,000 intelligent robots all with stellar ecstasy, its lineup is quite good.

If it is compared with the giant giants who have just rushed out of the atmosphere of the stars, the force is more than absolute.

But if it is really a big battle, it is really not enough to see, it is definitely the rhythm of the whole army!

The nature of the giants was originally a form of bullying and fear, belonging to the kind of unscrupulous bully. It is adjacent to the heavenly city, and naturally there is no fear.

At this moment, I couldn't help but see a arrogant patrol team swaying in the stars, and more than 10,000 people sang in high spirits. The stars in the atmosphere were not safe, and their content was shameless. Fingers!

However, the traveler is not a core executive of the Tianji nationality, and it is not even the local strongman of the first universe, but the so-called enchanting sorrow and sorrow of the identity group.

As a result, the hundreds of angry and vacant giants were almost completely angry for the first time.

Netheredly revered and resounded, and claimed to be one of the five enchanting singers of the world, but now it has not grown up. Although it has been burning for some time, it was not scared by the evil spirits, and did not dare to take the lead. ?

I didn't expect this to escape the second universe. I still don't know how to converge. I want to hate people for a trip. Is it true that the first universe is no one, and the Tianji people are all blind?

I thought about it, hundreds of angry giants, even if they rushed over, they wouldn't talk nonsense, they would have to suppress them directly... What about Netherland? Even if it is really a dragon, to the sky, you must be honestly!

The war broke out in an instant, but it came quickly and went fast!

At the first time, Ye Xuan displayed the blood and the magical claws. On the spot, the two giants who had the twelfth imaginary void were smashed into a \*\*\*\* rain and spattered the stars.

This sharp and decisive style has instantly shocked hundreds of giants. Even if they turn around and retreat, the only remaining results are just a few hundred intelligent robots that have been exploding their bodies and exposed various internal parts. Only the body.

In this way, Ye Xuan's purpose has been reached, so that he did not pursue it, and he did not have the interest at all.

The huge army of patrols continued to move forward, and leaped forward toward the front of the void, until it disappeared completely. The slogans of the slogans that were arrogant and eloquent, still sounded from time to time, and came from far away.

After a full meal, the stars in the atmosphere, there are some giants, the savage and sneak sneak, to make sure that the outside of the void is incomparable, even the shameless slogan can not hear, out of the tour After the gloom of the Netherland has clearly gone, this has rushed out of the atmosphere, facing the vanishing direction of the patrol army disappearing, screaming and screaming and drinking...

"The little king eight lambs have a kind of don't run! Don't kill you..."

"I groan, the \*\*\*\* is less sacred, what is the big tail wolf in the shrinking head turtle? Next time let Laozi meet, crying you in minutes!"

"Must! A finger can kill him..."
