

Super D. S 3591

Chapter 3591: All for the sister

In the third round, one of the two old guys wanted Ye Xuan's quasi-star to the treasure warrior, and the other, the Yeh Xuan's nine to twelve gene solution and the configured gene. Liquid finished product.

The former Ye Xuan used refining and refining again, but the latter could not refine, but as long as he turned back the two old guys, they could get it back.

Therefore, Ye Xuan did not hesitate this time. He directly put the things that the two old guys wanted in a small box and threw them away.

The two old guys received the hand almost at the same time. After they had inspected it, they were very satisfied and looked up.

At this point, Ye Xuan has been the third round of treasures they have been smashed, but still very refreshing, and did not do any hands and feet, play any tricks.

In the eyes of the two old guys, it's all for the girls. They basically believe that Ye Xuan's decision is to pinch his nose and recognize it.

So, the two old guys once again endured the excitement of their hearts...

"This round, the old man wants your Kowloon blue car, hehe, although this thing has no fighting power, but the effect of defense and ratio is still very good, immediately take it out."

"And me, the old man wants the cultivation resources in your hands. In the hands of the Emperor Xuan, there are a lot of top-level stars, and the ones that the fox and the singer are from the hands of the major forces are simply It's a huge amount of money. Don't think about it, don't say it all, at least half of it."

"Yes, the old man, in addition to the Kowloon Qingyi car, can't cultivate resources as much as you can. You can see that you can make two copies. If you can make the old man satisfied, this round will be over, then throw a **** for you. ""

"Kid, generous, think about everything for the sister, don't be stingy, or you will be at your own risk!"

In the end, the two old guys seem to worry that Ye Xuan is stingy, Dun Dun is so tempted and even threatened.

Ye Xuan was cold-faced and didn't pay attention to it. He threw two space boxes directly in the past. They all contained a large amount of cultivation resources. Even the mighty powers could not be frightened, such as the nine-level nine-color star. The source, Ye Xuan put a hundred in each space box, this is absolutely sincere.

Sure enough, after the two old guys received the space box, the gods extended their views and only looked at them, and they immediately became excited.

"Rely! Your kid is really a big fat sheep. It's just a lot of cultivation resources in the small box in the hands of the old man. It's a huge amount. Today, this is really nothing, so a lot of cultivation resources, even the old man. Nothing in yourself!"

"It's made, it's made, this time it's really made, hey, the old man is also the same here. There are a hundred of the nine-level star nuclear source of the nine colors. It is amazing for my brother, the old man." For Qiankun, I have never seen so many nine-level and nine-color one-time, no, let alone one hundred, and even ten have not seen it together. Your kid is really not a person..."

"Since you are satisfied, then you should fulfill your promise!"

Ye Xuan no expression, silent reminder.

"Hey, there is one star in front of the star, old friends, you are bothered to take a trip, before you say good, you are responsible for those two gimmicks!"

I didn't want to fight the old ghosts, but the old-fashioned ancestors raised their hands and pointed to the stars in the past. Zhao Qianru's head was banned there.

Seeing this scene, the war and the old ghost frowned, but in the end, they still did not speak, and their body shape disappeared. When they returned, they would bring Zhao Qianru, and also unlocked her body. Prohibition.

Soon, Zhao Shantou also returned to Ye Xuan's side. At this time, among the three gimmicks, there was only Xuanyuan Zijing, who was still controlled by the eyebrowless ancestors.

"Bad boy, now let's talk about the last business!"

With the return of Zhao Qianru, there was no brooding ancestor again, and there was a sneer on his face: "The old man deliberately investigated the relationship between these three gimmicks and you. If you didn't guess wrong, Xuanyuan's gimmick, It's the closest relationship with you, so...you should understand why the old man put her in his hands and finally got the reason to trade with you?"

At this point, the war and the old ghosts have already stepped forward, and stood with the old-fashioned ancestors, but did not say anything, let him say.

Followed by Ye Xuan's Zhao Qianru and Duanmu Xiaocha's two gimmicks, their faces are anxious, because they listen to the words of the brooding ancestors, fearing that Xuanyuan Ziyang would not be so easy to be Put it back, Ye Xuan needs to pay a great price!

Ye Xuan sneered, his face still has no change: "Let's say, it is expected that your two old things are not good birds, I am listening!"

"I have to say that the sincerity of your boy is still quite good."

The eyebrows ancestors nodded again, as praised, first praised Ye Xuan's previous performance, and then he turned his head and said: "However, it is too much to say that you have such resources, treasures and secrets. Self-deception."

"The old man was originally to take you down and control your gods with the secret law. From then on, take the slave as a servant, drive the dispatch, and drain all your talents..."

"But now that you have made a vow, then as long as you let the old man satisfied, then you will have to stay with you today. You must have never doubted that the binding force of the oath is unquestionable!"

"How much nonsense? Laozi's time is precious, can you sneak a little?"

Ye Xuan frowned, his face was impatient: "It's such a mother-in-law to fight a robbery. I really don't know how you both cultivated into the mighty power..."

"puff!"

"puff!"

Ye Xuan is not the first time to detract from the war and the old ancestors.

The two old guys have never encountered such a arrogant guy, obviously robbed, but he has been complaining that the rhythm is not fast enough, which makes the two old guys feel extremely unhappy, and at this moment, they are almost mad at the old blood.

However, after all, they still bite their teeth and watched it. In the case that the other party is still cooperating today, he will not care about these small things.

"Well, since your kid is happy enough, the old man doesn't wrap around with you. As long as you complete this last round of trading, Xuanyuantou, we will give you the horse immediately, turn and leave!"

Speaking of this, the face of the brooding ancestors showed a greedy color, and then he said: "I have asked you to drive the Kowloon Green Car, but it was a temptation. I didn't expect your kid to come out." In your hands, you really have a certain secret that can cross the endless void in a short time."

"Hey, the Kowloon Green Car has only appeared in the Tianji City Stars a few days ago, and now it is in your hands. It is enough to prove that you have strolled back and forth from Tianji City within a short three days. Even the ultra-long-range transmission array method can't do it..."

Chapter 3592: Comprehensive reversal

"In addition to this secret law, all kinds of experiences concerning medicines, devices, and arrays must be handed out with two copies of God's knowledge..."

After receiving the words of the unbrowed ancestors, the war-torn old ghost suddenly said: "This is the last transaction. After the completion, you and the two sides will be clear, and the old man will turn around and go, how?"

"Oh, I really want to talk about it. The old man and the two are also kind. They have not all the means in your hands. Not only have you left a lot of cultivation resources and magic weapons, even the main class." The wreckage of the one-legged Jinwu did not move you."

"So, even if your identity leaks out, you can't find a way to get it by the mighty tycoon or even the star lord. The kid, you have to be content!"

In fact, for the wreckage of the world-class one-legged Jinwu, these two old guys are not without awkwardness. It is really too dangerous for them. Just the pressure of the air can make them fall, although Ye Xuan seems to There is a way to resolve this, otherwise it is impossible to roast the bird before.

But for this method, the two old guys are completely ignorant. If Ye Xuan has done something in this respect, he is afraid that it will be too late to regret. The first time he has to suffer under the horror of the golden wreckage.

Therefore, after weighing the balance, the two old guys finally reluctantly gave up the wreckage of this world-class one-footed Jinwu. After all, the benefits of today's income have been quite a lot, and there is no need to take the risk.

However, the genius of the fox is called the three pharmacists, and the talents in these three fields are shocking. This is definitely an unimaginable resource wealth. The two old guys can never let go, and these are indeed theirs. The last thing I want to cheat from Ye Xuan...

Unfortunately, the last thing they want, Ye Xuan is destined to get it.

The so-called Pharmacist Array is only the outside statement. Ye Xuan knows his own family. In these three areas, if there is no phagocytic system, he will not be able to toss any waves.

Is it always impossible to hand over the devour system to these two guys?

Besides, even if Ye Xuan is willing, he doesn't have that ability and can't make it.

So even if he doesn't want to do it, there is no other choice at the moment.

As soon as I read this, Ye Xuan sighed and sighed with both hands. "In fact, I really want to give you, but unfortunately, I can't get these things out of the way, so... I can only be hard!"

As soon as I heard this, the war and the old ghosts and the two-browed ancestors were so shocked that they didn't get their eyes out!

They never thought that at the last moment, they would be rejected in this regard.

You must know that Ye Xuan had not hesitated to surrender the important treasures of Yan Xuan and Yao Ding.

Although the three fields of the medicines that they both ask for, and the secret of the ultra-long-distance transmission, are also extremely important and precious.

But this is for others. For Ye Xuan, these things are just a copy of God's knowledge and a copy of it. If you really want to say it, there is no loss at all. The importance is absolutely inferior. Want to smoke and medicine Wang Ding!

But he is now... but refused!

And also said what to be hard!

Is this kid not a brain? His warrior armor and some of the powerful and powerful treasures that have been revealed before have all been handed over, even if there are any treasures that have never been revealed in the hands, but now he is facing two great powers, where Confidence?

What's more, before he was the first to surrender the ancient treasures, he was the first to have been refining his body on the spot.

In other words, now Ye Xuan is not only the two great powers, but also the corpse of a half-step star!

One thought of this, the eyebrows ancestors immediately sneered: "Hey... stinky boy, this is your own death, no wonder we are!"

"If you honestly and the old man finished this last transaction, due to the oath of the oath, the old man and the two even today are unwilling, and finally I am afraid that you can not let go of you, big deal and look back The opportunity to kill is."

"But now it is your own overthrow of the previous agreement, then the vows of the old husband and the other two have been automatically lifted. Hey, after surrendering so many treasures and resources, he still can't open it. If you have to find death, your kid is really lacking in his mind..."

"Even if you still have some powerful means that have not been exposed before, but what about it? The two men do not need to be in danger at all, and you can test it with the treasures you have just handed over. By the way, you are suppressed."

During the speech, the brooding ancestors sneered again, and waved the smoldering of the former income in the body...

This is also the biggest reliance on the unbridled ancestors and the war-torn old ghosts. Even if Ye Xuan's hands really have a strong backhand, it's a big deal to let the corpse's marmots stand in front of them. They both are at any time. Can withdraw and retreat.

What's more, there is a Xuanyuan Ziyang around?

Before Ye Xuan could pay such a huge price for Duanmu Xiaocha and Zhao Qianru, he changed to Xuanyuan Ziyang, even if he finally had a temper and wanted to struggle to resist.

But as long as Xuanyuan Ziyang's trump card is still in his hand, they are completely fearless and have a 10% confidence that they can suppress Ye Xuan's struggle this time.

At that time, when he compromised again, the two old guys must once again open their mouths and ask for more things. This is the truth for a while!

Thinking of this, the two old guys are stunned and their faces are full of embarrassing smiles. In their view, Ye Xuan's cold brains at the last minute suddenly converge, and it's just a matter of giving them food, like the sky. The pie is a good thing, but it is a good thing!

It is precisely at this time that the change has suddenly occurred without warning!

"call out!"

"call out!"

"call out....."

At the same moment when the brooding brethren of the brooding brethren had already refining, the two moments of the old guy's body, like the game, rushed to have several faint glare at the same time. Out.

Among them, the one shot from the inside of the self-war and the old ghosts actually turned up in the wind and turned into a huge furnace like a star. The gas of the nine-color sizzling was transpiration, and the atmosphere was shot at the first time. The mist will directly wrap up the Xuanyuan Ziyang on the side of the brooding ancestors, and will be lost in Ding and disappear.

Seeing this scene, Duanmu Xiaocha and Zhao Qianru, two gimmicks standing in the distant sky behind Ye Xuan, were initially stunned, and then they were able to show a ecstasy on their faces, even their respective pair of small powders. Knead tightly.

I know that this guy is not so good to deal with, look, it will be completely reversed soon...

Chapter 3593: Kill me for him

Shennong Ding suddenly emptied, the first time it shot a awning of nine colors of fog, will be swept away by the Xuanyuan purple scorpion controlled by the eyebrows, completely safe.

It's all too hasty, and the two old guys didn't react at all.

When they reacted to what happened, when the look of the face suddenly changed suddenly, there was no leisure time to take care of Xuanyuan Zizi, because everything just was just a beginning.

And Shennong Ding together into a mans, from the two old guys shot, there are several other killing treasures!

Cave virtual shuttle!

Do not destroy the glass armor!

The devil blood blade!

The ship-borne killing system of Dongxuan Shuttle is absolutely extraordinary. It was really impossible to ban the mighty power of the fifteenth world. But this time, after Ye Xuan re-refined with the primary mutated slain, its power was again Something has been developed.

The basis of the shipborne slaying system is the Great Five Elements annihilation. The jewels are an attack magic weapon in the form of a formation. It is a miniature portable killing. All the squad arrays

are all refined. Cured to the front of the market, this array is rare even in the comprehension camp, the higher quality is even less.

It can be said that once it is started, the annihilation of the annihilation will instantly be able to change the earth, and it will be able to convert any energy into five kinds of extinct lightning, and it can be divided into different parts, and the points can be broken through the earth's crust. Then annihilate one side, smash the void!

There are countless combinations of the extinctions of the five kinds of different attributes. The pure detonation power derived from each change is different. It can be said that the whole body is moving, the change is endless, and the power is unpredictable.

At this moment, under the control of Ye Xuan, Dong Xuan Shuttle launched a comprehensive power.

"Hey!"

"Hey..."

The whistling sound of the tremors of the roads, the hulls of the snails of the snails, represent the innumerable patterns of the ideology of the five elements of the Jinmushui, and the ray of light, to the hull. Radiated lasing around.

Numerous different colors of the ray of energy are intertwined like a shuttle. In the blink of an eye, a large void is shrouded, as if a large network of light energy has been laid out at the height of the sky, replacing the sky, shrouded in one heaven and earth, and dazzling!

"Booming..."

The earth-shattering horror roar soon exploded, and the five light-colored Baizhang energy light columns were condensed around the light energy giant network, representing the power of the five elements, pouring invisible pressure, standing in the air and suppressing one side.

And the first time began to pour down all kinds of killing energy bodies, they not only have different powers, but even the manifestations of the changes are endless, there are large and small round Thunderballs, there are smart and erratic Bright lightning, and even the magic weapons, flying swords and other killing soldiers, as well as a variety of fierce beasts, arrogant!

Since the form is different, the way of attack is naturally different, or it is fast or slow, or it is directly suppressed by the crash, or hovering with extreme speed and entanglement, all of which are overwhelming and confusing at the same time, it is simply stunned. I don't know how to deal with it at all.

In the face of all this, the war-torn old ghosts and the two-browed ancestors who had just reacted were completely dumbfounded, and the whole people were paralyzed.

This kind of attack is so complicated that it is horrible, but the number is terrifying. The desperate killing is unheard of. The two old guys have only heard of it, and now they are coldly seeing it, or in this inexplicable situation. Suddenly, they were all dull in their faces, and suddenly there was a messy feeling in the wind. It was indeed not light.

"boom!"

"Hey!"

"Booming..."

Without waiting for them to react, the hodgepodge that had been overwhelmingly rushed down, and the sound of the blast was loud and unceasing...

This is just a hole in the hole.

The other two pieces of starry sky to the treasure will not destroy the glass armor and the devil's blood blade, but also the power can be amazing.

The former directly activated the second mech form, even if no Ye Xuan deity settled in it, but still showed a glass giant armor with a hundred feet high, and the figure was pushed into a glass by the super-powered propeller behind it. The mans circled and danced, and the anti-matter micro-death guns between the elbows were opened directly between the fists. The black energy light column blasted out, and the blink of an eye was dozens of them, and they attacked the two old guys.

The devil's blood blade directly hides the body shape. Although the blade spirit has not yet awakened, it is in a deep sleep, but Ye Xuan is in the void not far away, completely like an arm, and arbitrarily controls it. Moved with the mind, the speed is almost at the extreme, invisibly swam in the five elements of the murder of the cave.

Deterrence is very strong, and you will have a sneak peek at any time!

Although the two old guys are all powerful, but the evil spirits of the demon blood blade can not even completely ignore them. Once they are smashed, even if they only have a small wound or something, the result is at least small. Take off a layer of skin!

This is not all, just after the activation of the cave shuttle system, the envelope is filled with a hundred miles, and the big five-line array of light curtains formed. At this moment, the huge star-like Shennong giant Ding, also floated a faint mist from the mouth of Dingkou.

Compared with the previous one that took the Xuanyuan Ziyang between the blinks, it's even more smashing. I'm overwhelming, and it's overwhelming, it's going to be a hundred miles, including the big five-line slain that envelopes this void. The light curtain... is covered again!

This is tantamount to double insurance. The big five-line killing light curtain is really not enough to ban all the two Qiankun abilities. Even if it is only the colorful fog of Shennong Juding, it can't be done under the cover of the alone.

However, the two layers of different attributes of the banned light curtains are superimposed at the same time, the effect is completely different, and it is not as simple as one plus one and two equal, and its power is a horrible rise in geometric progression.

At least, in a short period of time, the war-torn old ghosts and the two-browed ancestors are trapped, and there is absolutely no problem!

A short time is enough!

Because even the war and the old ghosts and the two-browed ancestors are the great powers of the Qiang Kun, but they are also destined to be in this horrible array that is almost instantaneously supported, and the support is too long!

In addition to the bombing of the energy of the cave, the indiscriminate bombing of the energy-killing body, as well as the anti-matter micro-death light black bullets that have been blasted from time to time, and the wandering in the space of the sacred space, will be unfolded at any time. Kill the blood of the devil's blood blade... Really afraid, in fact, still want to smoke!

To be precise, it is the only sensible source of the ancient savage that wants to be awake in the smoke---the ancestral marsh!

At this moment, with the eyebrows and ancestors who had previously sacrificed the desire to smoke, let it be turned into a hundred feet of scorpion and squatting in the sky above, the sacred form of the ancestral scorpion, also stepped out from inside the smoky .

Seeing this scene, the entire brain has not yet responded to what happened to the eyebrowless ancestors, even when excitedly smashed up: "Small sly, you come just right, kill the kid to the ancestors, stand Great deeds, the old man must look back and bet you..."

Chapter 3594: The brain is messed up again.

Fortunately, the ancestors of the drought?

Ye Xuan, outside the banned arsenal, heard this sentence and shuddered, even though he was the master of the martial arts, and he still relied on the arrogance of the headless baby, let the drought and flood take the initiative to recognize the owner.

Even if the two of them want to be refining and refining by others, the ancestral sorrows and sorrows will never be betrayed by the kind of stable master and servant relationship... Ye Xuan, but still dare not say to the ancestral martyrs Such words come.

Although the ancestral stagnation and stagnation of the sacred sacred remains in the smog of the sacred sacred source, it is only the fifteenth dynasty of the ninth dynasty, and the half-step star of the star's main territory is infinitely close.

But its body is the same ancient power as the emptiness!

Among the known realms of Ye Xuan, the strongest is the headless baby body and the heavenly eye.

Underneath it is the ancient gods of the golden dragon and the hollow giant tortoise, and the ancient night fork.

Further down, it is the ancient power of the veil and the ancestors.

After the star master, the domain master, and the landlord, it is absolutely impossible to go directly to the ancient powers.

There must be several great realms between the two major levels of the landlord and the ancient powers of the ancient times. Because the main ruins of the main land are repaired, they are directly excreted from the furnace as garbage. I can't look at my eyes.

This shows that there is a big gap between the ancestors and the ancestors, and the landlords are far less than the droughts and sorrows of the ancients, but the eyebrows and ancestors are far from the borders of the world...

In this case, he actually dared to say goodbye to the good fortune!

So courageous, even Ye Xuan had to admire.

Even in his view, the smog of Luo has been refining by him, and the sacred source of the ancestral sorrow is already the equivalent of his servant, but the bottom of the family is there. In this case, he still dares The idea of playing this kind of ambiguity is to say that it is a perfect interpretation of the old guy.

Sure enough, his words just fell, the corpse of the murderer was angry on the spot!

"Booming..."

Without warning, the corpse of the corpse that had just stepped out from the smog of the smog, the **** corpse of the whole body, like a bucket of oil, has suddenly skyrocketed hundreds of times.

Within 10,000 meters of his body shape, he instantly turned into a sea of fire, and the body of the ancestral scorpion was walking on the **** sea of the corpse of flames, and rushed to the unbrowed ancestors.

The surging killings can be clearly detected even by a vegetative person.

Seeing this scene, the two-browed ancestors and the war-torn old ghosts were dumbfounded on the spot.

The former is dull, he does not understand, is this not his own slave? To smoke, but he was refining on the spot, swollen and turned and ran himself? And it is also murderous.

In the sluggish, no eyebrows whispered to himself: "What is the swollen thing? Is there a problem? The old man has to squat, this brain... is a bit messy!"

On the other side of the void, at this moment, I was screaming at the war and the old ghosts who had smashed down the sky from the top of the sky, but it was a flash of light in the brain, and I realized it in an instant.

Anxiously smashed up: "No eyebrows, you are an old ghost, this is a great old man, even if you only leave a spiritual source, people are self-conscious, this kind of existence, you actually have to be lucky, this time Ok, it's getting mad... my husband, my day!"

"No, no... wouldn't it be like this?"

As soon as I heard this, my ancestors who were grievances were crying. The ancestor's temper was too strong. As the master, the old man's mouth would not work twice?

It is a pity that everything has become an established fact at present. The explanation is that there is no way to explain it. He can only admit that he is unlucky. He saw that the horror of the 10,000-meter-wide horror of the corpse has already arrived, and he will not have to escape. The old-fashioned ancestors screamed, turned and turned around and ran, learning the ancestors of the war, and surrounded the circle within the forbidden seal of this thousand miles!

"Booming!"

"boom!"

"Hey..."

The piece of land formed by the cave shuttle system was originally only a hundred miles, but with the force of the second layer of forbidden seal formed by Shennong Ding Jiu Cai fog, the whole block was sealed. The scope of the land has suddenly skyrocketed and has reached a thousand miles.

In this piece of thousands of miles of the emptiness of the array, the inexhaustible variety of killing energy is overwhelming from the bursts of the great five-line extinction, and it bursts from time to time, and the sound of the explosion can be described as earth-shattering.

In addition, the second form of the armor of the glazed glazed glass, which was controlled by Ye Xuan in the air outside the array, also slammed a giant anti-matter dead light gun energy beam from time to time, sharp and harsh. The sound makes people look cold.

In addition, the **** blade of the demon, which is hidden in the dark and waiting for the opportunity, and the murder of the corpse of the corpse of the 10,000-meter corpse

All of this together and together directly led to the miserable situation of the war-torn old ghosts and the two-browed ancestors. The two old guys, in addition to being like a headless fly, stalked everywhere, from time to time. I have already completely lost any power to fight back.

They have not tried to rush out of the power of the squad, but the array of extinctions of the Great Five Elements can be merged with the colorful fog of Shennong Ding, and the formation of this light curtain is so powerful that it is too strong. The two of them were only able to repair in the late period of Qiankun, and they could not forcibly break open.

Unless it is a star lord, maybe there is still a chance!

Of course, if you give a timeless ancestor a certain time, to concentrate on the deduction, there may be hope, but he is like a dog at home, in such an environment where there is no safe place to stay, in the same position. There may be no possibility of staying in the interest rate. How do you calm down?

This is clearly the rhythm of being killed in the battlefield!

Two old guys are really scared!

After the initial panic, they basically responded at this time, although for how this happened, the two old guys thought that their brains were chaotic, and there was no clue.

But one thing is completely certain, and that is the way of Ye Xuan.

Otherwise, the Shennong Ding, the glare of the glass, and the **** blade of the demon, which had already been taken into the body by them, suddenly swollen inexplicably, and they were immediately activated by their respective power fields. The harvest has started?

Even the sacred sacred source of the ancestral sacred seals that were sealed in the smog, the brooding ancestors at the moment have already become suspicious. It's impossible to provoke a slap in the air. It must be The kid was given a pit.

Until then, they realized that they were still looking down on each other. So many treasures, all of them have been erased by the refining and chemical branding. Even the smog has been re-refined again by the eyebrowless ancestors. But in the end, there is still such a situation. This means of being a little bastard... It's so horrible, it's too abnormal!

Chapter 3595: Kill a power

"Booming..."

"boom!"

"call out!"

"Hey..."

The overwhelming killing energy bombards endlessly, and the war-torn old ghosts and the eyebrowless ancestors are struggling to survive, while avoiding the devastating energy of various forms from the top five five-line exterminations. Body, while still beware of the anti-matter miniature dead light cannon of the Mech giant, as well as the hidden body shape, from time to time to appear some, smashed the blood of the devil.

More and more corpses wrapped in the blood of the 10,000-meter corpse, the murderous scorpion is constantly chasing...

In just a few minutes, the two old guys felt that the past few centuries had been so long. Finally, the eyebrows and ancestors were careless, and the corpse was chased by the corpse, and they waved a **** corpse. On the spot, the left calf was burned into a forest bone.

Although his recovery ability, the blink of an eye has returned to its original state, but the inexhaustible pain of burning souls still makes him cry and wry, and Ye Xuan, who is outside the big array, has some backs that are cold.

On the contrary, Duanmu Xiaocha and Zhao Qianru and Xuanyuan Ziyan are three gimmicks, but they are eyebrows and laughter.

Xuanyuan Zijing has been controlled by Shen Xuan in the past few days, and the ban on the body has been released. The body shape has been released. At this moment, it has already merged with Duanmu Xiaocha and the two women, and together with Ye Xuan, they are trapped and sealed. It's a good show.

"Wow, it's awesome, the sister who plays with the fire, and then work harder, and bake the old things that are too long for the wrinkle eyebrows!"

"Playing is a game, it is his worst. If there is a chance, he will pick up a pair of eyeballs and then stay inside and play slowly. It is impossible to kill him!"

"Yes, the other one will kill first, this must be kept, slowly play to hate..."

Listening to the words of the three scorpions and the dead people who did not pay for their lives, the big-browed ancestors who had been rushed into the headless flies were not good. The situation was not good, even though they were two homes. The group fled in the trapped squad, but the two were treated in the same way in other respects. However, the murderer's drought and sorrow had always clenched behind him, and he had already made him dangerous.

This is clearly the tragic consequence of his proper speech and tempering. For the brooding ancestors, this is definitely a painful comprehension. Unfortunately, everything is late. In such a small space with only a few miles, it is one and a half. The horror of the main star of the step star is eyeing, and his ending is already doomed.

Even if it is a great power, and it is still the existence of the late Qing Dynasty, in this situation of nowhere to escape, the fall is only a matter of time.

It seems that it is also because I realized this. At this moment, the whole body of the eyebrowless ancestors was completely bad. I still had a slap in the face, but with the left leg being shaken by the ancestors, a **** corpse burns. He finally realized the seriousness of the situation, and under the teeth, he began to beg for mercy...

"Little friends, you and I have no time in the past, there is no hate in recent days, and today's business is just a misunderstanding!"

"A little misunderstanding, don't you see each other?"

"Don't forget that the old man and the warlord and the Taoist friends all made a vow not to take your life. We can't be so conscienceless..."

"Hey, do you have a small friend who is suffocating? If you continue to do so, the old man will be really degraded. For you, this is also a bad thing for you. Why do we?"

In the face of all this, Ye Xuan has no sneer, no words, how can he be soft at this time? With the two-browed ancestors and the war-torn old ghosts, it is already a dead end!

It's more than ten minutes past. The situation of the two old guys is even more unbearable. The warlord and the old ghosts are still okay. The corps of the corps is not staring at him, just to deal with the overwhelming killing energy. In the late fifteenth period of his fifteenth situation, there is still no problem at all.

At this time, in the face of the tragic sounds that came from time to time when there was no eyebrow ancestor, the war and the old ghosts were as unheard of as they were, and they clenched their teeth and never ignored them.

In his view, this old goods are self-defeating, and this must be unsuccessful. It's nothing to provoke a remnant spiritual source of the ancient powers, and it's still a slap in the face, I'm afraid that the little boy who is watching the show outside the big line will speak. There is no room for change.

What's more, there are three gimmicks who hate him, while watching the good play, while still screaming and screaming for a few words?

However, this is also good, the other party's grievances have to be beared, and now there is a vent, the only thing that can be cheap is only yourself.

The only thing he asks now is that after the murder of the unbrowed ancestor, the grievances of the other party's heart can be smaller, and at that time, they will pay a certain price, and with soft words, they will make a vow and never make a vow with each other. Qiu, basically should be able to resolve today's robbery!

"Hey..."

Just as the battle of the old and the ghosts was under the circumstance, the other side of the emptiness was not far away, and the horrible sound of the old-fashioned monsters rang again.

Its body shape has been completely overwhelmed by the **** corpse of the hood that was covered in the body of the corpse.

In the tragic sound, the body of the eyebrowless ancestors was constantly burned to the forest bones, and new flesh and blood were continuously grown, and then burned into bone again, so that it continued to consume the repairs in his body. Into a creepy vicious circle.

"what....."

"War, you are a veteran, and you have to run out of your head from beginning to end. Regardless of the old man, the old man hates..."

In the end, a long and horrible scream of screaming resounded through the void, accompanied by a curse of incomparable grievances, and everything went to silence.

If there is no accident, the mighty power of the fifteenth world will be degraded.

It was also at this time that Ye Xuan's voice of voice was finally heard: "It's not a matter of burning the body and the gods, and there is no need to keep it, but the treasure of the storage is worth staying. After all, it's the power of the body. There are still a lot of good things..."

"Yeah....."

Ye Xuan's words just fell, and the other side of the virtual air is fleeing and fighting. The old ghosts took over the words and quickly said with a good intention: "Little friends, the old man is also a great man, and he is also the emperor of the Heavenly War Empire. The old family is more abundant than the old-fashioned old-fashioned dog. As long as the little friend likes it, all of this can be given to the younger friend."

"In addition, there are still many treasures in the treasure house of the Imperial Empire. The old man can swear by the Alliance. As long as the Daoyou have a large number of adults today, they will no longer care about the previous offense of the old man. The old man must try to lead the small friends into the battle. Go to the treasure house of the Empire resources for you to choose one hundred treasures!"

Talking, not waiting for Ye Xuan to answer, the old guy actually fled, and made a loud oath, and still swear, in order to be able to leave a life in this robbery today, the old thing is obviously also spelled .

After hearing this discourse, Ye Xuan has not yet snorted, and Xuanyuan Ziyan, Duanmu Xiaocha, and Zhao Qianru, who are on the side of their bodies, have already cheered up first...

Chapter 3596: Three female bandits

For the war and the old ghosts, Ye Xuan had already embraced the murderous heart, but at this moment, he heard the oath he had set up, and in the future he would try to lead himself into the treasure trove of resources of the Heavenly War Empire, picking one hundred treasures, and suddenly Just make him a little tempted.

The Heavenly War Empire is one of the three great empires under the imperial dynasty of the Terran Science and Technology camp. The collection of the treasures of the throne resources is naturally unquestionable. There must be many things that Ye Xuan needs.

The treasures and resources that can be collected in the treasure house of the Imperial Emperor, the level and preciousness of the treasures, must be extremely difficult to find out. It seems that the temptation to Ye Xuan is even greater.

Anyway, this old guy basically does not have any threat to Ye Xuan. As long as he forces him to make an oath, not to reveal the secret of Ye Xuan's identity, then it is not completely unacceptable to leave him a life!

However, it's not until Ye Xuan's voice, the Xuanyuan Ziyan, Duanmu Xiaocha and Zhao Qianru's three gimmicks behind him have already cheered up...

"Yeah, great, the treasure house of the empire of the empire of heaven, the place where the whole dynasty is everywhere, the three empires and the emperor have one place! There are many people who don't want to go in and look at them for a lifetime..."

"There is a performance, the opportunity is really rare. I didn't expect our sisters to be blessed in this disaster!"

"See who has a share! See who has a share!"

"Old guy, quickly set a vow, we three have to go in for a walk, each person does not pick more, just like him, one person a hundred will do."

"Don't want to quit, we are victims, this hundred treasures are just soothing money!"

"What are you still honing? You can't hear your voice of oath, we immediately ask the young lady of the fire skirt to destroy you. You know, women talk well, especially in the face of your wretched old man. time....."

Hearing this discourse, the old ghosts of the war and the old ghosts are crying, and they are very angry.

Not long ago, the three gimmicks were still hostages in his hands. Now, when they are transformed, they are blackmailed to his head. However, the old ghosts can only recognize their noses. This is really wrong.

In the end, after some bargaining, the share of 100 treasures per person required by the three gimmicks was reduced to 30 per person. In fact, this far exceeded their expectations, and the deal was finally happy. The ground shot the board, and the old ghosts fled in the air of the trapped air, and once again set a new oath, only to make the three gimmicks happy to close.

This is the three famous people who are born in the famous door. It is just three female bandits. The old gods and the ghosts are secretly swearing, and the intestines are revered.

In the end, at the request of Ye Xuan, the war and the old ghosts set a third oath to ensure that the secret of Ye Xuan's identity was not revealed in any form. This matter finally ended completely.

In the wave, Ye Xuan will have the hole in the hole, the glass and the blood of the devil, all in the body, followed by the Shennong Giant Ding, which is turned into a huge star, and the ancient treasures.

Other treasures that had been smashed by the old-fashioned ancestors, including the old guy's own cultivation resources and magic weapons, were all stored in the smoky smog at the moment, and Ye Xuan arbitrarily unfolded his knowledge, and suddenly he was inexplicably surprised.

Sure enough, it is a great power, a huge family, just the interest from the eyebrows, it is enough to make his eyes shine.

It was also at this time that the dejected war-torn old ghosts also smashed all the resources that had been removed from Ye Xuan here, and as a gift, they also presented a space treasure box with various treasures and There are also many cultivation resources.

Although it is not as rich as the amount of looting of the old-fashioned ancestors, it is also extremely impressive. After all, this is the first effort paid by the old guy to buy his life. It is also included in the previous oath, at least to let the leaves Xuan satisfied.

After turning over the space box that the old guy used to redeem the life, Ye Xuan did not continue to squeeze him, because there is a female bandit behind him, Ye Xuan has received the first purchase of money, they are three How could it be that the eyes of the Emperor's treasure house are only waiting to be collected, and it is necessary to collect some benefits.

It's just that people have promised to let them go back to the treasure house of the Heavenly Empire, and each person picks up thirty treasures. For the three gimmicks, this is absolutely a fortune, and the battle is now The big gold master, their tone changed without knowing it.

"Grandfather, you know that you are not stingy. We are not three outsiders. You shouldn't be too polite. You can do whatever you want with a face-to-face ceremony."

"Play is a play, after all, you are also a celestial emperor of the empire of the heavens, the general things can not get a shot, less old you are also embarrassed, but don't be too much, we are afraid of holding the younger generation what!"

"Right right, this is the rationale, how is your old face green? Isn't it a disease? You can't take out the magic of storage, we can pick each one, lest you be embarrassed..."

Subsequently, the old face of the war slayer was green and green, and the three teeth treasure boxes were smashed out of the teeth, which blocked the mouths of the three hoes.

"Little friends, today's old man acknowledged!"

Finally, the three gimmicks were sent away. The old ghosts turned to the front and looked at Ye Xuan. They were unwilling to take the call: "The previous oath, after the old man arranged, he would contact Xiaoyou or three. Female soil... Shantou, however, before leaving, the old man still has a concern in his heart, I wonder if Xiaoyou can solve it?"

Ye Xuan was amazed, and his heart sneered, and he returned with a sentence: "Oh, let me hear it!"

"Okay, little friends are refreshing!"

Nodded, the war and the old ghost then inquired: "Before, the treasures handed over by Xiaoyou have been clearly collected by the old man, and the face of the smoke is even refining on the spot. But then... I don't know how Xiaoyou did it?"

"I want to know this?"

Ye Xuan shrugged his shoulders and said, "Guess?"

"puff....."

The old guy was shocked, and his mouth spurted a blood arrow. This was really miserable.

He originally wanted to deliberately show his weak grandson, and took the opportunity to cover the secrets of Ye Xuan. I didn't expect that even if there was a swearing restraint, the other party was still not swearing, and the vigilance reached the extreme, which really made him frustrated. It is even more disheartening.

In the end, the war-torn old ghost looked at Ye Xuan deeply, and then said nothing, turned and walked into the void, and his body shape disappeared.

It was also at this time that Xuanyuan Ziyan, Duanmu Xiaocha, and Zhao Qianru, three gimmicks behind them, also smiled and looked at Ye Xuan, and the words were scornful.

"I didn't see it, how long have we been arrested by our sisters? You have been mixed up in Tianji City, and you have got a big official hat of the Shaozuo of the Tianzu nationality. Should the oil and water be enough?"

"There is a performance, but there is no eyebrow ancestor, and the harvest is not small."

"Or, oh, come out and see if it's not? By the way, let's take a look..."

Chapter 3597: Rapids

After the war, the old ghosts just left, Xuanyuan Zijing and Duanmu Xiaocha, Zhao Qianru three gimmicks, the idea of extortion was hit on the head of Ye Xuan, the latter is speechless, and the eyes are straight.

Finally, spread your hands together: "It's okay to split up. After all, this time you are also a participant, even a victim... but there are really not many things in the old-fashioned ghosts. They are some resources for cultivation. You must know, give you refining treasures. A, I have been consuming all kinds of consumption in my own life..."

As soon as I mentioned the treasures that I still handed over to Ye Xuan's hands, the three gimmicks immediately changed their mouths, and surrounded Ye Xuan's spoiled, all kinds of soft words not only made Ye Xuan's incomparable, three The hoes are all red with their necks.

It seems that only this move can cure these three crazy gimmicks, Ye Xuan secretly smug, then the words turned a bit, and they talked about the business: "Yes, how are you going to prepare? I am going to Tianji City. And this is very dangerous, it is really inconvenient to take you, but this place is the depth of the first universe, returning to the devil's star field are far away, it really makes me a little rest assured!"

"You still have some conscience!"

"It doesn't matter, let us follow it. It's a big deal to make your Jinwu collection..."

"The playing is yes, the power of the Shennong Ding general can not help, we are safe in hiding inside, anyway, people are yours, if you go to Tianji City, what is the three long and two short, we are not alive..."

The last sentence was actually said from the mouth of Xuanyuan Zixiao. The three gimmicks said and said, all of them were shy and subtly, and they were so proud that they couldn't win, and they were charming and touching. Ye Xuan couldn't help but look at it. swing.

After this time of change, the three gimmicks seem to have begun to face up to their feelings about Ye Xuan, and because of the mutual suffering, there is no rejection between them, which is clearly to let Ye Xuan sit in the rhythm of three beauty. .

It was too fragrant. Ye Xuan only made up for it in the brain. Some of them couldn't hold it anymore. I didn't dare to go deeper now. I shook my head and shook my heads and thought about things.

Although the decision of the three gimmicks is somewhat reckless, I think about it, this seems to be the most appropriate way of disposal. Otherwise, if they let the three of them step on their own way, Ye Xuan really can't let it go. After all, this is the depth of the first universe, both close to the Tianji City, only about ten days of star flight.

It is too dangerous!

Instead, follow Ye Xuan to Tianji City. As long as the three hoes are hidden in Shennong Ding, the dangerous system will be smaller.

After the decision, a group of four people immediately boarded the road, left the star field, and embarked on a voyage to continue to Tianji City.

In the meantime, Ye Xuan completed the third fusion of the three gimmicks, so that they all advanced to the starry epic level armor, and the quality is perfect, the appearance is even more incomparable, let the three Shantou loves to put it down.

In the following week, Ye Xuan alone controlled the magic warfare changed by the Xingye Life Fortress, and rushed to the Tianji City all the way, while the three gimmicks occupied a whole layer in the War Battle, draped the armor, and sometimes learned. It's a big break.

Until the last three days of the voyage to Tianji City, Ye Xuan took the three gimmicks into Shennong Ding, and then even the magic warfare changed by the life fortress was collected in the body. By reason, even after returning to Tianji City, Ye Xuan did not intend to sacrifice the war battle number easily.

Anyway, after the immortality of income in the body, there are obstacles to the phagocytic system, even if it is beyond the existence of the star territory, it can not be detected, it is still very safe.

In terms of transportation tools, Ye Xuan took out the big fortress with tens of millions of emptiness soldiers and used it temporarily, even if it was taken by the emperor.

As for the entire terracotta group, he was also included in Shennong Ding!

After all this was properly arranged, Ye Xuan did not hesitate to push the 100,000-meter-diameter Sky Star Fortress to the full speed of Tianji City...

.....

At the same time, inside the secret plane of the core area of the Tianji City, the secret room of the gods that Wenxing and the old ghosts retreat!

Wenxing old ghosts and a certain avatar of Emperor Yi are being secretly discussed!

"What is the matter of Netherness? How can it suddenly appear in the first universe? What is the clue?"

In the holographic stereo screen, the image of the emperor's body is slightly frowning, which seems to be somewhat confusing.

"This is indeed a strange thing. What's more weird is that I used the amount of scorio to push forward. The result is the same as the fall of the previous Yan Fengfeng and others. It seems to have no mysterious power, and it hides some. clue....."

The old ghosts of Wenxing are also locked in their eyebrows. They are worried: "There has been a lack of competition in the recent days. In a short period of time, I encountered several things that could not be smoothly carried out in a short period of time. There is a bad premonition, it seems that something is going to happen..."

"And all of this started after the accident of Shaofeng and others. At the moment, the eight people of Shaofeng have fallen, and the lack of respect for the Nether is no trace. The only thing related to the amount of Tianzhu is that there is no fruit, that is, Shabao. The maple kid is still in control in our hands!"

Speaking of this, Wen Xing's old ghosts talked about it, and he took a touch of coldness and then he took it: "It seems that everything is very likely to be related to this person. Now he has become the only one. Break through, so, to solve all doubts, this time... must start with him!"

"I have arranged this matter for a long time!"

When it comes to Sha Baofeng, Emperor Yi's temperament is too cold and his face is gloomy: "Is the patriarch of the celestial family so good? At the beginning, even Shaofeng, I was in his electronics. There is a hidden source code in consciousness. Once he has any changes, I can feel it immediately."

"Even if the Shaofeng is degraded, the hidden source code is wiped out, and I can also sense it here."

"But the strange thing is that from Shaofeng and others who left Tianji City to perform the last exploration mission to the source of the evil, until now his degenerate information has been determined by you, and I have never captured it. Going to the hidden source code to wipe out the atmosphere, but

it is completely unable to sense its existence, which is why I have been degrading him, and some doubts are there!"

Speaking of this, the Emperor's glimpse of the coldness: "However, if there is no accident, all this should have an answer soon."

"If it is the fall of Shaofeng and other tribes, if it is really related to Sha Baofeng's kid, this time the Shaozuo Grand Ceremony, all the truth will be revealed!"

"At the ceremony, I will use the source of the celestial machine to conduct a thorough and thorough analysis and exploration of his electronic consciousness. If there is a problem, it must be suppressed, and the ideology of the ignorance on the spot will be..."

Chapter 3598:

After a short period of time, the faint glimmer of the secret room flashed into the darkness again, and the image of the emperor completely disappeared.

In the darkness, the voice of the old ghosts of Wenxing's whispers quietly sounded: "Perhaps this time will be an opportunity, and this avatar's mission should be completed, waiting for a long time..."

.....

At the same time, the first universe of the universe, only a three-day star flight from Tianji City, a piece of space void!

"Roar!"

"Rolling rough!"

"All the special things are going to roll the Emperor..."

"Booming!"

"boom....."

A horrible roar like a scorio suddenly emerged, and the atmosphere of the star that the giant tribes inhabited was violently stunned like a sea of anger, violently tumbling.

Outside the atmosphere, the universe is in the void, standing with a figure, and the whole body is full of anger and smoldering. It is the star lord of the lord who just came from the battlefield of the front of the devil's star field!

Previously, the first place where Nethered Respect was in the first cosmic plane was this star.

Although the Netherland is basically impossible to still stay here, but for the evil emperor, he will not pay attention to this, he only knows, if there is any place to get clues about the whereabouts of the Nether, Then in this star field, the planet inhabited by the giant tribes is obviously the most likely place.

So, he is coming!

At this moment, with the angry roar of the Yin Emperor, the roar of the sky, through the rolling atmosphere, into the inland of the stars, including the horror of the stars and monsters... the million inhabited by the whole star inland Yu Ju and the tribes all trembled.

Among these giants, the most powerful people are just a few half-steps. Even the fifteenth world's mighty powers, facing the star lords, can only be close to the ants. In general, how dare they have the slightest rebellion?

In addition, the nature of the giants is originally a kind of bullying and fear, belonging to the type of unscrupulous bully. At this moment, they realize that there is a star lord coming, and they are angry and arrogant toward the stars they inhabit. At the time, all the giants of the entire tribe were almost completely fainted!

Soon, the overwhelming giants of the tribes all rolled out from the stars in the atmosphere, trembled and stunned, and even the breath did not dare to spread out, black pressed in the void The blockbuster, like the subjects waiting for the king, shivered there.

Among the tens of thousands of giants and tribes, the two half-steps of the Qiankun family trembled out, and respectfully asked the Yindi blame what advice, the tone was pleasing to the extreme, and the fear caused him to be dissatisfied. !

"Roar!"

"Tianji! It really is a celestial family..."

"Booming!"

After a few moments, the old emperor of the Yin Emperor suddenly screamed again, under the wrath of the wrath, the two palms of the squatting in front of the squatting squatting in the front of the squadron, and the giants of the tyrannical giants were photographed as bolognese, and then all the giants The tribes all waved and put away, and then they turned and went straight to Tianji City.

He is well-informed, he has already understood everything. It turned out that the thousands of figures that were patrolled by the Netherland were all intelligent robots. The hundreds of giants of the tribes were shot on the day. Some of them were smashed and revealed. All this.

Although the intelligent robot is not just a patent of the Tianzu family, whether it is the immortal dynasty of the first universe or the federal family of the second universe, there are actually some intelligent robots. The immortal dynasty is even more, and the intelligent robot has been applied to it. Various fields are extremely common.

But after all, it is the first universe. The Nethered Respect suddenly appears in the Tianji City Star Field. All of them are surrounded by intelligent robots. Anyone who thinks about this matter will associate with the Tianji people.

What's more, the old emperor's blame is originally a horrible existence of a brain that is not quite normal. Sometimes a rib is a normal ruler. It is too normal...

.....

As the Yin Emperor screamed all the way from the Devil's Star Field, there was a lot of stops along the way. He searched for the Lesser Nether, so when he rushed to the giant tribes of the three-star voyage from Tianji City, Ye Xuan has already arrived in front of him and arrived at Tianji City first.

The new Shaozuo's seal ceremony was just two days later.

In the past two days, the Emperor of the Heavenly Kingdom did not show up. Ye Xuan had been staying in the high-rise villa belonging to Shabaofeng.

Taking advantage of these two days, he wants to work hard again to see if he can make a breakthrough. Today, he is already the seventh-order powerhouse of Xuanguangjing. Once again, he can enter the eighth order of Xuanguangjing. The distance can swallow a tube of 12 grades, and it is only a breakthrough of a small step.

This time, Ye Xuan once again took a drop of allergy source.

Compared with the effect of swallowing this magical congenital spirit for the first time, the effect of this time has actually decreased, but it is still obvious. Just one and a half days later, Ye Xuan's body represents his potential. The invisible chain was again torn by two.

Immediately afterwards, a familiar system prompt sound came from his mind: "Hey, congratulations to the host, the physical and mental health of the body is improved! The current realm: Xuanguangjing eighth order!"

Opening his eyes, Ye Xuan tightened his fists, only a small step breakthrough, and soon after he finished, he could take a tube of 12 grades, even if one tube was useless, then take the second tube That is, in short, entering the twelfth emptiness of the virtual environment is already a matter of nailing.

Just around the corner!

However, before the patriarchal seal of the Shaozuo, it was obviously too late. Ye Xuan originally wanted to be repaired as a realm to break into the twelfth realm and then act after entering the void.

But now it seems that this is obviously not possible. According to his speculation, the emperor who has already doubted him will definitely take all actions at the Shaozuo ancestral martial arts ceremony. At the moment, he has no change, just because of jealousy. Ye Xuan's hand holds the ruin of the king's squad.

This is also the reason why Ye Xuan was in the battlefield of the Devil's Star Field in the front, deliberately so high-profile to show the cause of the main-level single-legged Jinwu wreckage.

Even if the emperor is strong again and again, it will never be able to reach the main level. After all, there is a domain realm between the main territory of the star and the realm of the border.

If there is no such thing as the wreck of the main-level Jinwu, Ye Xuanyi will return to the Tianji City. The unscrupulous Emperor will definitely start with him, and this is what Ye Xuan does not want.

It is impossible for him to forcibly attack the inland land, and even if there is a murder of the corps, he will not be able to do this.

Therefore, Ye Xuan can only delay the time, create chaos, and then take the opportunity to fish in troubled waters. Now it seems that the short delay is achieved. The emperor is out of jealousy of the shackles of the one-legged shackles, and he did not come when he arrived. Shot, but then if you want to get a chance to fish in the water, you have to look at the evil spirits.

At this moment, Ye Xuan, the most hopeful thing in his heart, is that the ceremony will be unfolding in the Shufeng Grand Prix. At the same time, the eyes of the entire Tianji City are gathered together, and the old emperor of the Yin Dynasty suddenly sprinkles with a splash of water...

Chapter 3599: Don't come innocent

The patriarch of the Shaozuo ancestors was held in the mainland of the Tianji City Star Area.

The place of the Grand Ceremony is in the center of the land surface of the Tianji mainland. There is a mechanical square with a very strong modern style. The square is the place where the ceremony is held.

Although there are not many people of the Tianji nationality, it is not too small. After all, the entire ethnic group has continued for some years. Even if the birth of every new ethnic group is random and uncontrollable, even now, the Tianji nationality still has not We can find a way to stably make intelligent robots, or intelligent electronic devices, to create self-awareness, and to have electronic wisdom and become a Tianzu ethnic group.

However, after years of development, the size of the Tianzu nationality still reached the one million mark.

It doesn't sound like much, but just imagine that you only need a real celestial tribe to lead millions of millions of intelligent robots and build a huge fleet of stars and ships to the battlefield. The terrane is going to the horror of the army of the millions of people.

However, at least one and a half of the Million people have been assigned to perform tasks such as exploring new mines in the stars and so on.

Even the star fields to which some tribes are sent are unknown and dangerous void planes outside the three conventional planes.

The Tianji ethnic group who is stationed in the Tianji City Star Field for many years is only a little more than half.

Among them, there are some posts in the peripheral industrial circle and the inner perimeter defense circle that need one or two Tianzu ethnic groups to sit in the town at all times. Therefore, the ethnic group who is truly stationed in the core area, that is, the Tianji mainland, basically It is more than 200,000!

The sky-like city of the giants needs to operate normally, and there are many ethnic groups in the interior. Therefore, this time it appears on the mainland land surface, and the Tianzu ethnic group who participated in the Shaozuo ceremony of the minority patriarchs is only about 100,000!

"boom!"

Waving the emperor, a white-faced middle-aged man waved his hand, from the ghost-like sculpture dome at the mainland's central square, a large blue ball floated up and burst into the blue sky. mango.

All the celestial tribes around the square were all crouched down, and their looks were respectful. The look on everyone's face showed a sacred sacredness.

Such a scene fell into the eyes of Ye Xuan, letting his heart linger, almost suspected that he had come to the wrong place.

Is this still the core of the Tianji family base camp?

How do you feel that you have come to the ancestral home of a second cosmic group?

The celestial family is different from any other group in the three cosmic planes. They have no inheritance of blood. All the celestial people are born with intelligent robots or electronic machinery in a certain coincidence. Consciousness, which produces electronic wisdom, evolves into an electronic life.

This ethnic group, there can be no blood source of blood ancestor beliefs, but at this moment, this scene in front of the eyes, but with other ethnic groups, in the sacrifice of the family to pay tribute to the blood ancestors.

Even the devout expressions on the faces of the more than 100,000 people who are crouching on the ground around the square are exactly the same.

Judging from the state of these celestial people, it is obviously not normal at the moment, they seem to be tempted by some kind of power, similar to the human monk being tempted by some secret method.

At the moment, Ye Xuan has no sense of abnormality.

Even with regard to all this, the electronic life group of the Tianji nationality, in its core family, has such a memory similar to the existence of the sacrificial scene. Ye Xuan from the electronic consciousness of Sha Baofeng and even Emperor Shao, I couldn't find it, I didn't have any impression at all.

Suddenly, Ye Xuan hearted and realized the crisis.

Obviously, the blue light shining in the big blue crystal ball that is slowly rising on the sculpture in the center of the square has some special temptation to the electronic life of the Tianji nationality. effect.

Ye Xuan has no feeling at the moment, apparently because he is not a real electronic life body, or the effect brought by the blue light has been directly shielded by the power of the headless baby.

But no matter which one, there is no doubt about it.

That is the current Ye Xuan, when this fascinating blue-headed large crystal ball rises, it bursts into a gorgeous blue light, so that all the celestial people around the square are all enchanted, and thus devoutly and devoutly, but only him One person still hasn't noticed, still standing here in silly... Ye Xuan, has been completely exposed!

Ye Xuan secretly screamed, he did not expect that the Tianji family actually had this hand. This secluded blue crystal is very strange, and there is no impression in the memory of Sha Baofeng and Emperor Shaofeng.

Obviously, the nearly 100,000-day-old people who crouched around the central square at the moment, after they ended this strange and enchanted state, all the memories of electronic consciousness were automatically deleted.

This alone is enough to see the unusualness of this blue crystal.

Ye Xuan has countless calculations, but he has not counted it. The Tianji people still have such a powerful touchstone. Even though he has obtained the electronic consciousness of Sha Baofeng and others, it can be said to be perfectly disguised as a real secret. The ethnic group, but in the end, the people just used this blue crystal, and everything he did was completely ruined.

Almost instantaneous exposure!

"Sha Baofeng, you really have a problem, try it with the source of the heavenly machine, and it will be ready immediately!"

Just as Ye Xuan looked gloomy, his mind was flying and thinking about the countermeasures. In the middle of the square, he was on the side of the sculpture, and he smiled.

For all this in front of him, he seems to have expected it. In addition to the inside and outside of the big square, in addition to his more than 100,000 people in the crouching, there is still a Ye Xuan standing there, with a sullen face and a gloomy face. The color is actually no accident.

Even in the tone, there is a very calm and calm meaning: "Accurately, it is not accurate to use the name Sha Baofeng to call you. Wen sacrifices, according to your opinion, the true identity of this son is exactly Why?"

The voice fell, the other side of the sculpture, the second figure also appeared quietly and silently, looking at Ye Xuan with a smile, the squatting shot of the fine mans.

Seeing this figure, Ye Xuan's body shape is mad, the whole person is not good, and the sense of crisis in his heart is already at this moment, and it is getting stronger and stronger.

It's even more outrageous and exclaimed: "Wen's old ghost? You really didn't die..."

"The old man was not completely sure. It was just a suspicion. But now... I can finally be sure! I have already carried out a derivative of you in the first place, but there is no result. In fact, you are the old man. Scorpio, the first failed inferential object..."

When I heard Ye Xuan's exclamation, Wen Xing's old ghost suddenly smiled: "The Son, don't come innocent!"

Chapter 3600: Invisible exposure

As soon as he listened to the other party's words, Ye Xuan's whole heart sank in an instant.

Since the other party knows that he is the Son of the Black Mosquito, then obviously he knows that he is the Emperor of the Emperor, regardless of whether they even know the three invincible gods, the fox and the sorcerer, but the three identities are all known, but Just Xuan Huangzi and his identity are exposed. For Ye Xuan, the trouble is big enough.

He didn't have the ability, like a war-torn old ghost and an eyebrow-free ancestor, one kills, one forced him to make an oath, and he must not reveal his secret of identity.

In other words, even if he succeeded in getting out of trouble and fleeing from here, Ye Xuan is about to face a situation that is overwhelming... The secret of his identity will be leaked out by the Tianji people in all likelihood!

This is still a matter of fact. In fact, for him, the current imperative is still how to get rid of the problem.

Of course, he has the ability to jump through the coordinates of the interstellar coordinates, ignoring the emptiness of the emptiness. This is mysterious. Ye Xuan still can't understand how the phagocytic system is done. It can only be said that the pioneer of the Terran Technology Pioneer who created it is really enchanting. Too abnormal.

However, if he leaves now, Ye Xuan is really unwilling. If he can't save the dozens of demon people's dynasties, then he and the devil's group will form an alliance, and they may be squandered.

Ye Xuan's own heart will be upset, and there is a kind of guilt that has promised others but has never tried.

After all, for the devil's group, such an opportunity has never been seen before. If this time has not succeeded and did not see hope, they will basically be completely desperate.

Therefore, after a little thought, Ye Xuan made a decision even if he was willing to make a difference.

In any case, since it has already arrived here, since things have been exposed, then even if it is hard, he must try it. Anyway, there are interstellar coordinate jumping ability and headless baby corps. Even if it is not successful, Ye Xuan's own safety is completely ok.

One thought of this, his heart was caught off guard because of this sudden change, and the almost chaotic mind finally calmed down, and his face showed a sneer, watching the old ghost of Wenxing say: "Listen to your meaning." It seems that when I was in the Devil's Stars, I started to doubt me?"

"Otherwise, do you think that the old man is so meticulous about you, just for those gossip silver crystals that you brought out from the old cages, or nine gold crystals?"

"This thing is really precious. There are not a few in the hands of the old man. Even Jiu Jin Jin Jing is only one, but in comparison, what makes the old man interested, is why you can get so many tops. More chanting crystal!"

"The old man of the corpse pool has not been to the place, but the creation there is not easy to take. The old man entered several times, only as soon as a corpse flame broke out in the corpse, he won a nine-golden crystal."

"But after your kid went in, the whole corpse was empty, and all the descendants of the ruins of the corpse in the corpse were almost completely stunned. This is definitely the rhythm of the heavenly eye in the old cage. Otherwise, there is no possibility. So big..."

"It is possible to alarm the avatars of the heavens and the green eyes, so that the entire ancient prison cage is empty, showing the hidden horror of your body, or it is because you brought out some kind of unfortunate treasure!"

"If not, how can the old man swindle?"

"Unfortunately, there is a means on your kid who can cover the amount of the scorio to push the heavens. The old man wanted to follow the scam and secretly followed you, but he eventually lost it. In desperation, he can only temporarily return to the celestial city, waiting for the opportunity to seek this matter again. I didn't expect to make people, but today, you have already been sent to the door by the patriarch of the celestial family. It's really a wish!"

With these words in the ear, Ye Xuan's heart can be described as a violent shock. The old guy's fruit is not as deep as it is. The mysterious degree, in today's Ye Xuan's heart, has already chased the mosquitoes and the old mosquitoes. Can definitely rank third.

As far as he knows, no one can easily enter the space of the ancestral ancestral land. Even if it is a strong man, it is only once in a hundred years, but the old ghost of Wenxing actually went after he left the ancient cage. Going in and looking at it, I learned everything about the cage in the void including the corpse.

In addition, he actually knew that the void was a deadly cage. He even knew that Jiu Jin Jin Jing, knowing that there was a secret in the ancient cage, had the secret of a wild and blue eye...

Oh, yes, he knows how to measure it!

This kind of deductive secret method, Ye Xuan heard for the first time, was learned from the mouth of the mosquitoes and old ghosts, the latter also knows this technique, what is the mysterious relationship between the two?

The so-called amount of Scorpio, Ye Xuan later found in the system data database of the body phagocytic system, but there is no result, it seems that this sorcerer is extraordinary, master the two existence, one is the mosquito The old ghosts, one is the old ghosts of Wenxing, all in the eyes of Ye Xuan, the top three characters in mysterious degree, so that Ye Xuan can not help but feel unpredictable.

"I don't know all these things? Wenxing, you need to give me an explanation!"

While Ye Xuan is still digesting the words of Wenxing's old ghosts, the emperor's body on the other side of the sculpture suddenly burst into silence. His eyes have turned to Wenxing's old ghosts, his face is gloomy and watery, revealing deep dissatisfaction. The meaning.

He just just casually put a sentence on the side of the Wenxing old ghost hidden in the side. I didn't expect that there were so many words in the back, and the amount of information revealed was so great that even he couldn't help but be surprised. Not very good feelings come from my heart.

Today's Wen Lao Gui, there are too many words, some are different from usual.

"Before all this has not been determined, naturally it is useless."

In the face of the question of the emperor's avatar, Wen Xing's old ghost smiled indifferently, and then he turned and said: "At the beginning, the black mosquito sage, which was later known as the prince, was the first time the old man took the scorpion. There is no clue to the existence of any clues."

"But the old man did not associate everything with him later, until later, he gradually promoted the degeneration of the sorcerer, the sorrowful sage, and the Shaofeng and other people, and the Shabao who suddenly appeared in the descendants of my family. Feng Shi, the result is the same, there is a mysterious force, covering up the secret, which makes the old man extremely shocked in his heart, and this is all connected with the original Emperor Xuanzi."

"So, it is gradually glimpsed into the truth, and learned the amazing connection between this series of identities and characters..."

Hearing here, Ye Xuan suddenly realized that he had been in trouble for a long time. The reason why Wenxing's old ghost guessed his identity was because of this reason, he was completely exposed by the powerful cover of his head from the headless baby body. It is.

To figure out all this, Ye Xuan couldn't help but shake his head and smile. This can be really a bad idea for someone. Who can expect this situation...
