Chapter 3601: a good friend

After listening to the words of Wen Xing's old ghosts, Ye Xuan even sighed and sighed. Originally, he would have no eyebrows and ancestors, and forced the old ghosts to swear to swear the secret of their identity. Even if it is solved, I can still make a fortune like the previous one, and continue to gain stability and gain a period of time to grow rapidly...

But now it seems that this situation is clearly coming to an end soon!

In addition to the eyebrows and the old ghosts, the Tianji City has a comprehensive understanding of the identity of his identity.

Wen Xing's old ghosts already know that his Xuan Huangzi, Linghu Shaozhu, Netheredness and Sha Baofeng are all the same person, so how can they not think of the invincible **** of war that is still tossing in the Terran camp? What about the avatar?

If Ye Xuan is left in Tianji City today, they may not disclose it to the outside world immediately, but once Ye Xuan successfully escapes, the result will be no doubt that Emperor Yi and Wen Xing Lao Ghost Under anger, the matter will be made public in the first place.

At that time, Ye Xuan's troubles will be big.

It is no longer necessary for the invincible God of War to provoke the chaos in the Terran camp.

The two identities of the fox lord and the sorrowful sorrow are to offend almost half of the top three forces in the three major planes.

Sha Baofeng's identity is even more unacceptable. It is obviously counterfeit, but it is actually mixed with the high position of the Tianji ethnic group. This is simply intolerable for the Tianji people. This time, the first universe wanted, fearing that It is necessary to reproduce the rivers and lakes.

Although the ultimate source of these identities, that is, Xuan Huangzi, is the imperial dynasty of the immortal dynasty, but the Xuan prince has caused so much trouble outside, the celestial family is not mentioned for the time being, the second universe of all ethnic groups is the federal ethnic group. Is an ally, how can the immortal dynasty be confessed?

What's more, there is also a pressure on the comprehension camp of the Terran camp... In this case, let alone Ye Xuan is just a fake prince. Even if it is a true prince, the immortal dynasty will not hesitate to give him up, not only Protection, but will also join forces with other planes to fight Ye Xuan and clean up the portal!

This is really a day for the dog. In the blink of an eye, the three universes are all enemies in the world.

If Ye Xuan is a person, he naturally has no fear. Even if these forces are all motivated by the stars, Ye Xuan has the ability to jump in interstellar coordinates. As long as there is no big gap, he is basically safe and worry-free.

But the Arc de Triomphe is hard to say.

Everyone knows that it is Ye Xuan's genius, and Naples and others have already been branded as Xuan's son.

If all the top forces in the three major universes are all escorting Ye Xuan, it would be inevitable that the guys would turn to anger at the Arc de Triomphe if they could not take him.

Mosquito and old ghosts are mysterious, but even if he is strong, can he still protect the entire Arc de Triomphe by one person?

In a word, this time, Ye Xuan is really troublesome!

"It seems that you are also aware of the grim situation you are about to face..."

Seeing Ye Xuan twisted his eyebrows and silently. After the Wenxing old ghost explained two sentences to the emperor, he looked at him again. He smiled and smiled with his face. Only with the sin of your identity, the three universes have no place for you to stand."

"As far as the old man knows, you can be regarded as a person with a strong sense of righteousness. Even if you have a mysterious escape means that does not fear the top three forces of the three major planes, then the Triumph City? The Xuanyuan family? These have had a relationship with you. All the forces and existences are all implicated, and the three major planes are close to all the top forces' joint crusades, which is not a joke."

"The only way out for you now is to cooperate with our Sky City..."

"The old man doesn't want your life. Like you, this kind of enchanting, living value is far more numerous than direct killing!"

"What the old man wants is only the secret of your peerlessness, but the secret that you have seen from the ancient cage, or the one that comes out from inside..."

"Compared with your own life and the lives of all those who have a relationship with you, what the old man wants is extremely important, but in terms of your temperament, it is not so difficult to make a decision?"

"Three minutes! The old man only gives you three minutes to consider!"

"After three minutes, either surrender, or ... you don't want to leave, even if the old man can't leave you, he will definitely send the Tianji national army, smash the triumphant city, annihilate the Xuanyuan sable family, all the people related to you. Both things and things will be wiped out in the world. You know, if the Tianji people are bent on doing this, they can do it with the power of the family!"

Ye Xuan's heart is sinking again!

The most worrying thing finally happened. Listening to the meaning of the old ghosts, I am afraid that I will not let go of the Arc de Triomphe and all the people and things that have a relationship with him.

At this moment, Ye Xuan's heart suddenly burst into violent anger. When he was about to attack, his eyes swept the other side of the sculpture and he still had a sullen face. It seemed that he was thinking about what the emperor was, and his heart suddenly moved.

Then he forced the anger down, and shrugged his shoulders indifferently. He turned to the emperor and sneered in a sneak sneer. "It's really a big tone. I have to use the power of the Celestial family. Uncle started to retaliate? Hey, Wenxing old ghost, see you are not an electronic life body, that is to say, you are not even a family of the Tianji nationality..."

"At this moment, in the face of the celestial patriarch's avatar, as the master usually said such words, the power of the entire celestial group is driven. Is it true that the celestial family has been enslaved by you? This is really big. The secret, I must have shaken the three cosmic planes after I heard the news."

"At that time, the entire celestial family will lose face, and the first cosmic hegemon of the Tang Dynasty will be a slave to the old man. I am afraid to laugh at the big teeth of countless people!"

Ye Xuan said the original intention of this discourse. The original intention was to provoke dissension. After all, even though Wen Xing's old ghost is closely related to the Tianji clan, his discourse at this moment is still a bit too much and overstepped.

However, what Ye Xuan never expected was that, with the export of his words, the emperor, who stood on the other side of the sculpture, was completely distracted, but instead looked at him with eccentricity. Come over, that look, just like watching an idiot.

Ye Xuan was confused. She subconsciously turned to look at the old ghosts of Wenxing. The look on the face of this old guy is exactly the same!

Surprising!

This scene is too strange!

Is it a pair of peerless friends? Feelings are so deep that I can let the emperor ignore the entire ethnic group?

But...maybe?

In the confusion, Ye Xuan even asked subconsciously: "What are the two of you... What is the relationship?"

Chapter 3602: a top two grotesque

"Even if we haven't figured out any relationship between the two of us, we just want to provoke dissension. It really laughs at the dead..."

Seeing Ye Xuan eating, Wenxing old ghost proudly looked up and laughed: "Ha ha ha... Others can't tell you too much, but you only need to know the old man and the emperor, but you have me, I have you. , completely inseparable, equivalent to a whole, this is ok!"

You have me I have you?

Can't be completely divided, is equivalent to a whole?

Ye Xuan listened to him on the spot, and his heart was dark and sullen. Could it be that he had a pair of peerless friends? One is a flesh-and-blood life, and the other is a mechanical life. In this way, they can all work together to make a sense of the basics. It is estimated that in the three cosmic planes, there are no other disgusting guys.

However, whether or not the facts are what he thinks in his mind, one thing is certain, that is, he wants to use this kind of provocative approach to let the gap between Wenxing's old ghost and the emperor's body, so that they can The internal self-regulation, innocent and careless, I am afraid there is no hope at all.

After the two old guys listened to his provocative words, the ridiculous expression on his face at this time has clearly explained all this!

Ye Xuan sighed under the heart, it seems that the idea of the Tianji City side can not be temporarily, after leaving this place, he is about to face the most severe situation, has been avoided!

But now is not the time to worry about these issues, the imperative in front of Ye Xuan is how to try to rescue the dozens of devils in the imperial prison inside the heavens!

One thought of this, Ye Xuan suddenly flashed a flash of light in the brain... Perhaps, I can still get a little buffer time!

As long as the Tianji City is completely chaotic, the Tianji people are innocent, and the truth about the secret of his identity, even if it will eventually leak out, but there will be some time left to Ye Xuan to plan ahead and arrange in advance.

At the moment, in the case of the failure of the old ghost and the emperor, in order to do this, he still has the last, the only chance, that is, the imperial prison!

Among the first cosmic planes that claim to be slaves and mortals, although there are not tens of thousands of ethnic groups, at least thousands are still there. Most of these ethnic groups have important figures from generation to generation. Seized in the imperial prison of the inner city of Tianji City.

For example, the demon royal family, and now there are more than a dozen emperors of the past are being held, they are also the object that Ye Xuan came to Tianji City to rescue.

But in addition to the dozens of devils of the past generations, the emperor has entered the imperial prison anyway. Why can't the detainees of other slave groups fall out of their minds?

These are the royal powers of the first cosmic servants of all ethnic groups, and there is no shortage of taste, greatness, or even star blame.

Some of them may not even have the strength and means to escape from the imperial prison.

However, the reason why I did not escape is because there are ethnic groups behind them, so that they do not dare to have scruples, otherwise the entire ethnic group will be implicated once they escape.

But if you can talk about them, the whole prison will be emptied, everyone will flee, these guys will not miss this opportunity.

After all, the law does not blame the public. The arrested hostages of two ethnic groups flee. The Tianji people may also destroy their ethnic groups. But if all the people are released together, the Tianji people can still extrude all the ethnic groups in the first universe. Not doing it all?

When the first heavenly family could dominate the first universe, it was basically slowly swallowed down, and the merger and enslavement were realized one by one.

At that time, the first cosmic slaves, each camped, did not realize that this situation would eventually occur, and the entire first universe was dominated by the Tianzu.

But now, after years of slavish experience of being enslaved, the top leaders of the various ethnic groups in the First Universe must have long awakened, especially those hostages who were detained in the imperial prison of Tianji City, I am afraid that they have long since repented.

Of course, they blame only blame ancestors, after all, the royal family hostages held in the imprisonment of the imperial prison, should not have experienced the original war, everything happened before tens of thousands of years!

Although it has not been experienced, since the tens of thousands of years, the generations of the first major groups of the First Universe have always suffered this kind of consequences.

They just don't have a chance to resist, and what Ye Xuan is doing now is to set this fire, ignite their hopes and arouse their rebellious heart!

At that time, as long as the imperial prison is empty, the high-ranking elites of these various ethnic groups will return to their respective ethnic groups. Will the first universe and the various races be willing to be enslaved?

The kind of slavery is deeply imprinted on the bones of the ethnic group may not be, but it is absolutely impossible, at least for Ye Xuan, this is definitely an opportunity to disrupt the first universe, and the possibility of success is quite high!

With these thoughts flashing in my mind, Ye Xuan's whole heart jumped wildly. Before his mood was gloomy and extremely heavy, now he is extremely excited. If he can take this opportunity to take the opportunity to the city or even the whole The general trend of the first universe is disturbed, then this time it really makes a big profit.

Even inadvertently helping the devils to find the best opportunity to go back to the celestial family. At that time, they must first jump out and rise up, or secretly contact the major groups in which the first universe was enslaved for many years. The situation will only become more and more troublesome. Chaos.

Under this circumstance, even if the truth about the secret of Ye Xuan's identity is revealed by the wrath of the celestial family, then the pressure that Ye Xuan will be subjected to will be greatly reduced. The first universe is in chaos and involves too much. Many forces even Ye Xuan hated it, and for a moment he was afraid that he would not be able to find him.

Whether it is Ye Xuan himself or the Arc de Triomphe, he will once again gain a period of time to grow rapidly...

However, now Ye Xuan has no chance to enter the inner city of Tianji City, let alone close to the imperial prison. There are two powerful existences in front of him, and they are faintly distracted from the emperor and the devil. Out of the breath, this is clearly the two star owners.

This made Ye Xuan feel awkward. He was not surprised by the strength of the emperor. However, it was too exaggerated to go to the old ghost.

He had already expected that the old ghosts of Wenxing had previously hidden their strength, but in his opinion, the old guys were at best the fifteenth world.

Ye Xuan never imagined that he can now show the cultivation of the 16th National Star, and it is very likely that it will remain hidden. If this is the case, then what? It's too unreasonable!

In the face of the two star lords, the only thing that Ye Xuan now misses is the Yindi eccentric, which is also cultivated for the star's main territory. The guy is crazy, really wants to sprinkle, a top It's not a matter of the two...

Chapter 3603: This IQ is so touching.

"Kid, three minutes seems to be coming soon..."

Just as Ye Xuan was excited by the sudden inspiration, and in this excitement, he was eagerly eagerly awaiting that his brain was a little bit uninformed, and the ruin of the dynasty, who was fascinated by a rib, immediately came to the center of the square in front. The old ghost of Wenxing, who was next to the sculpture, was already a sudden sinking face, and urged him to cheer up.

"Of course, your child's means are indeed extraordinary. Even if you face the lord of the Stars, you may not have the ability to escape. But you must not forget, here is the Sky City, and it is still the core of the Sky City, only It's just the central defense circle outside, it's vast, it's a small piece of the star, and countless stars are fixed star fortress..."

"Even if you can escape from the sky and face the stars in the star field with more than 10,000 fortresses, do you think you have the opportunity to leave unscathed?"

"I have to make mistakes myself. It is a win-win strategy to cooperate with my celestial family."

"Roar!"

"Booming..."

"The Nether Child, roll the Emperor..."

"boom!"

The enthusiasm of Wenxing's old ghosts just fell, and an earth-shattering roar suddenly sounded. Then, a huge incomparable dark green gimmick appeared without any warning on the sky above the sky.

Under the flash, it turned into a figure, and it was the Yin and the old blame that Ye Xuan was eagerly awaiting.

For his sudden appearance, Ye Xuan is not at all surprised. Although the old guy has a bit of a problem, he can never be silly and directly roars in the outer industrial zone of Tianji City.

He has the body of the Nether, and is the star of the old world. Without the close attention of the same level of the strong, the possibility of breaking through the peripheral industrial circle and the inner perimeter defense circle is too great. Directly above the Sky City in the core area.

This is the case now, the old guy passed through the outer area quietly, and came over Sky City.

Ye Xuan's heart was overjoyed. In order to avoid the emperor's avatar and Wenxing's old ghosts, he even shouted loudly: "Hey, isn't this the Yin Emperor? I didn't expect the patriarch to be called back to the family. Just before the footsteps arrived, you came later, because of the rush in the Devil's Star field, the gambling promise has not been fulfilled?"

The purpose of his saying is naturally not for the so-called yin emperor to perform the gambling. In fact, Ye Xuan played this gambling at that time, and did not agree on what is gambling.

But this discourse can remind the mind of the evil emperor, and reminds him of the fact that when he was reluctant to return to the rivers and lakes, Ye Xuan was kept in the flagship fortress of the expulsion. I have never left in one step.

This old guy's brain is not very fascinating, and a rib is a deadly one. As long as he remembers this thing, even if the emperor's body and Wenxing's old blame are all in one word, it's true that Ye Xuan is the real Netherful, the evil emperor. It is absolutely impossible to believe, but instead it will be that they have ghosts in their hearts. Is this deliberately confusing, confusing black and white!

Sure enough, Ye Xuan's words just fell, and this avatar immediately chilled up: "Daoyou, you have to be fooled by this kid, he is the Netherland!"

"Yes, if you don't believe it, after I wait for him to kneel down, you can find out the truth."

Wen Xing's old ghost also took over the words, and then turned to the first look at Ye Xuan, smashing and flickering, this is clearly the rhythm of the upcoming shot.

"Roar!"

"The two old men, even dare to fool the Emperor, it seems that the Nethery Child is really related to you, but he did not hesitate to refer to the deer as the horse to sacrifice the patriarch of the shackle, but also to protect him, today will not surrender the child, the Emperor and you Not finished!"

The words of Emperor Yideng and Wen Xing's old ghosts just fell, and the roaring roar of the Yin Emperor's grotesque sounded suddenly. They clearly did not believe the words of the two people. They directly determined that they were the two. In order to protect the Netherland.

This IQ is too touching, Ye Xuan was almost moved to cry, shaking his head and sighing!

"You are an old thing, you have to hang around, and leave quickly!"

"Otherwise, Hugh, the old man turned his face and immediately shot you to suppress..."

Seeing the emperor's grotesque, I didn't listen to it. I actually decided that they were afflicted with the Nether's younger ones. The emperor's body and Wenxing's old ghost suddenly felt awkward, and his face was immediately gloomy, and he was ordered to let the emperor The old blame immediately withdrew.

"Roar!"

"Two old things, this Emperor is still afraid that you will not be?"

"I will hand over the Nether Child at once, otherwise I will tear down your Sky City today!"

"Claws Nether!"

Once again, the body shape of the Yin Emperor suddenly swayed, and it turned into a dark green mist. The swelled swelled, the blink of an eye was already the size of the sky, and it became a bit more than

before. To be much larger, the dark green sneak gimmicks, smashing the blood of the sensation of the sensation, open the blood, directly to the sky below the road.

Ye Xuan's face changed. Before this old guy only had the first form of the Nether Claw, Ye Xuan once showed him the second change of claws in the scene. I didn't expect his understanding to be so superb, short. In the time, this form has been able to be so handy.

But it is so better, the old guy has long believed that he has nothing to do with the Netherland, no matter how toss in the Sky City, will not take the initiative to find Ye Xuan to get around.

Taking advantage of this opportunity, Ye Xuan's body shape retreated, and at the same time, the air machine locked the emperor and the Wenxing old monster, and beware of these two old guys shooting him.

At this moment, on the central square of the Tianji Road, there are still about 100,000 people of the Tianzu ethnic group who succumb to the ground with sorrow and sorrow, and they seem to have lost their souls. There is no movement.

"Damn, Yin Emperor, you are looking for death!"

"Dissipate the tribe immediately and take this s..."

Emperor Yideng and Wenxing's old face immediately changed color, and the voice screamed. The former's big blue crystal at the top of the huge sculpture slowly sinks and eventually disappears. The latter plunges toward the dynasty. The giants of the green inks that rushed underneath.

At this time, the more than 100,000 people who were squatting on the ground had been stunned, and they all returned to the land, and looked up and looked blank.

They obviously have no impression of what happened before, as if they had been deleted.

Immediately afterwards, after realizing the danger, a large number of celestial tribes violently retreat, and the evil emperor is a strong star. The atmosphere is powerful. Although these people have great power, they also Do not dare to scorn their front.

What's more, there are already two strong men of the same level, such as Emperor Yi and Wen Xing, and the only thing they need to do at the moment is to withdraw from this battlefield as soon as possible.

However, at this moment, the huge dark green gimmick that was swept by the sky has just arrived...

Chapter 3604: Nether blood burst

"Card!"

"Card..."

The soothing mechanical grinding sounds, and the sound is a big piece.

This is not the ability of a certain ethnic group to develop mechanical integration, and the movement of the car has begun to change mechanically, but the huge dark green scorpion scorpion, swallowing hundreds of celestial people, and immediately in the mouth Chew, chew your body to a bunch of waste copper and iron.

All the celestial people, almost all of them will pursue everything that human beings have, such as taste, pain and so on, according to their own strengths.

From the moment they emerged from a smart robot, self-awareness, wisdom, and evolution into mechatronic life, all the celestial people no longer regard themselves as cold machines, they are eager to be recognized as human beings, at least There are various sensory abilities such as touch that is not weaker than human beings.

It's impossible to say whether it's evolution or degradation. At least, for the hundreds of bodies that have been swallowed by the dark green giants, they are chewing into a pile of scrap iron and iron. If they don't have Pain, perhaps, even if the body becomes a pile of entangled alloy scrap, its electronic consciousness may be innocent.

Just look back and change your body and you will be able to change your life again.

At the moment, it is precisely because the highly bionic body has a pain sensation, which is passed on to the electronic consciousness while the body is being chewed. How can this pain be unbearable and beyond their electronic consciousness? limit.....

Therefore, with the sound of a large piece of mechanically smashed from the heads of the dark green, the electronic consciousness of these hundreds of celestial people was immediately weak, and there were more than a dozen times in the dead time. The electronic consciousness is completely annihilated.

For all of this, as the emperor of the Tianzu clan, even if it is only a avatar here, it is still very clear and incomprehensible. After all, he is the strongest person in this electronic life group. There are people in the immediate vicinity. If there is no induction, it is too much to say.

Even if he was furious and confusing, every celestial tribe was a precious resource in his eyes. The whole celestial family developed tens of thousands of years of age, and now only a few million people can be seen. .

It can be said that a large Tianzu ethnic group produces countless intelligent robots every year, but from which self-awareness is born, it can evolve into the existence of a true Tianzu ethnic group. Each year, there are basically only a few dozen.

Now that the blink of an eye has fallen hundreds of times, it is only a short-term loss that will take ten years to replenish.

In this case, how can he not be angry?

"Hey!"

"Yin Emperor, you want to leave Tianji City today! Wenxing, you and I will join hands and suppress him!"

Looking up at the screaming screaming, the body of the emperor, when even the rushing out of a majestic retouching, the entire figure is instantly inflated, while at the same time there are a large number of limbs extending from the body Out, in the blink of an eye, it has turned into an alloy **** of war.

With a black sword in his hand, his body rushed out like a star cannon, and spurred toward the void. He blinked and battled with the huge dark green giant.

On the contrary, it was the old ghost of Wenxing. Although it was also angry, and immediately shot, the step directly rushed to the sky, but its figure, after three or five steps, disappeared silently in the void. I can't see even the slightest breath...

Ye Xuan, who saw this scene, had a strong warning. He had to say that these two old monsters were not really fuel-efficient lights, too threatening.

The battle mode of Wenxing's grotesque is obviously in line with his haze and temperament. Like the killer who wanders in the dark night, he will not be hard-headed with you. At this time, he must swim around the figure of the dark green giant. Go, wait for the opportunity to launch a lore.

The avatar of the Tianji tribe, Emperor Yi, is to let Ye Xuan have an eye-opening feeling.

What the old guys are doing, it is clearly the ultimate mysterious mechanical fusion ability of the Tianji people, but the mechanical fusion ability he exerts, and Sha Baofeng and even Emperor Shaofeng and others, are obviously not the same level of secret law.

If Emperor Shaofeng and others are only exhibiting the initial form of this mystery, then the emperor's avatar shows a more advanced form.

In order to display this mystery, the former must also be integrated with a warship to change the mechanical knives or other shapes of the machine.

However, the Emperor's avatar is more direct, and no one needs to be integrated with the warship. It seems that his body is like a warship, and it is directly changing.

From a certain point of view, this is no longer a mere fusion of mechanical fusion, which is clearly an infinitely changing mechanical supernatural power!

This point, even Ye Xuan, can't do it.

Because he is not the real body of the machine at all, before the mechanical devil or the alloy **** of war, in fact, the life of the Hoshino is a change, Ye Xuan basically did not participate!

"Oh la la..."

"Roar!"

The black sword that the emperor's right hand has appeared after the mechanical transformation, is obviously not a blade. It is not just a special alloy. It is very likely to be a waste of treasure, because Ye Xuan is distinctly inductive. A trip to the ancient atmosphere.

The evolutionary path of the Tianji ethnic group is divided into two levels. One is the continuous strengthening of its own electronic consciousness, and the other is the continuous transformation of its own body. The combination of the two represents a comprehensive evolution of the form of life.

At this level of continuous transformation of their own bodies, they will use more powerful materials as much as possible, and a more powerful magic weapon, such as the black sword that the emperor is in the right hand at the moment, the body is a wasteland. After the treasure was smelted into the body by special means, the power was obviously stronger.

Suddenly at this moment, it was directly in the lower right side of the right ear of the Wanzhang dark green hoe, and opened a gap, giving a crisp and squeaky noise, like a crack!

It is a pity that this is only a blow. Obviously, it is still far from being able to smash the huge green gimmicks that have reached a huge size, but it has aroused its fierceness.

This old guy had a little bit of awkwardness in his mind. He felt guilty and irritated, and suddenly he ate such a big loss at this moment.

As an earth-shattering roar re-emerged from the mouth of the dark green bones, then, the roar of the sinister ecstasy almost madly screamed in the air: "Hey!"

"I am an old ghost, how dare you hurt this Emperor?"

"Hey..."

"Congratulations, the anger of the Emperor is finally completely ignited. Everyone here today will die!"

"The Nether Blood Burst Dafa..."

Chapter 3605: Meditation

The celestial empire of the celestial family, Emperor Yi, exhibited a high-level mechanical change, and instantly became a giant humanoid ***** of war. The body extended a variety of limbs, one of which was integrated into a black and heavy treasure. The knives, a knife, went to the lower ear of the dark green hoe, and pulled out a gap.

It is a pity that this blow has not only swayed the dark green gimmicks of the body of the tens of thousands of feet, and caused any meaningful influence on its combat power. Instead, it completely provoked the sinister meaning of the evil emperor.

After an earth-shattering horror roar, there was a roar in the dark green gimmick: "The Nether Blood Burst!"

Then, in the wide-mouthed mouth of the dark green bones, there was a large number of desperate and horrible sounds of the giants.

"what....."

"Card!"

"Card..."

Numerous savage screams of resounding sounds, accompanied by dense rain-like squeaking noises, some of which are the sounds of blood and bone **** being crushed, and some are soothing mechanical wear-in sounds.

Through the huge horror of the singer, you can see the wreckage of a Tianzu ethnic group with sparkling electric sparks. It is rolling, entangled, and even blended with the body of a huge giant. Together.

With the huge green blood basin of the dark green skull, the unbroken jaw is like the countless duckweed in the stormy waves. It is unable to roll over, the ups and downs, the souls are dying, and the times are repeated...

This is a secret method!

To be precise, it is an evil technique, derived from the legendary underworld of the underworld!

Even Ye Xuan, although he has a pure Nether body, this kind of "Nether Blood Blasting Dafa", he is not the same, only the Yin Emperor, this kind of ghosts in the blood of the Yin Mozu people, slowly, After cultivating to grow up, until finally relying on the power of the blood to return to the ancestors and reshape the body of the Nether, it is possible to find the inheritance of this sacred method from the blood.

But this is only possible.

There is no doubt that although the evil spirits of the Yin Emperor are a little bit ignorant, he is not the patriarch of the entire Yin Mozu. After tens of thousands of years, the only one who has made his own efforts to return the blood to his ancestors. Reinventing the existence of the Nether.

Even in this blood of the Nether, there are only a few secrets that can only be awakened, and they are fortunate enough to control.

At the moment, the bodies of the hundreds of people of the tribes with various top-notch biomimetic materials and alloy materials, as well as the flesh and blood of the giants of the tens of thousands of people who have been taken away by the emperor's eccentrics, are all accommodated in the eternal The blood of the head is wide open, chewing constantly, gradually blending together, and then no matter what each other, no longer know where the alloy material is, where is the flesh and blood...

In addition, the souls of the tens of thousands of giants and the ruined electronic consciousness of the hundreds of people of the tribes are also forced to stay in the dark green under the mysterious power of this sorcerer. The inside of the blood basin of Shantou.

And also strangely and together, not only the fusion of the soul and the electronic consciousness, but also the evil consciousness that does not know how to describe and describe it, and the same evil is different, mixed with the doping of flesh and mechanical alloys. The fusion between things!

The simple point is that the flesh and blood and the soul of the tens of thousands of giants and the electronic consciousness and the alloy body of hundreds of people of the tribes, all of which have been smashed and smashed, and finally smashed in life. Together, it is turned into an unknown substance that is incomparable.

At the moment, in the huge blood basin wide mouth of the dark green taro... chewing!

All of this is long-lived. In fact, it happens between breathing. Before I just waved the black knives in my hand, I gave the emperor a light-hearted emperor, and the hidden ghosts of Wenxing. God comes, everything, the dust has settled!

A powerful and wicked atmosphere instantly spread out in the wide-mouthed mouth of the dark green scorpion, which is so powerful that it is quite comparable to the cultivation of the evil emperor. In fact, there is still a vagueness in this breath. The scent of a sinister emperor is clearly the reason why he was part of the Yuanshen.

As this powerful and evil atmosphere spread out from the blood basin, even if the emperor was exclaimed, even the body figure of Wenxing's old ghosts had been hidden in the dark, and they showed up at this moment. The look on the face is infinitely dignified, and the air machine locks the huge green ink skull.

There is even more exclamation in the mouth...

"This is the method of refining sputum, and it is a mysterious and incomparable mystery. It should belong to the sacred ancestral heritage..."

"Well, the evil emperor is mad, isn't it crazy? Actually, one third of the Yuanshen's origins are integrated into this kind of meditation, which makes it change, and has the same repair as the Yin Emperor. For, and still have growth, will continue to be strong with the power of the evil emperor!"

"But as a result, the evil spirits of the Yin Emperor and the gods have been damaged. The road ahead has been greatly slowed down. This is simply a slap in the face. Although the current fighting power is stronger, the future growth has been affected and restricted."

"Roar!"

"Yes, this bloody, it really made the Emperor pay a great price, the road ahead was not limited, and the growth rate slowed down!"

"But all this is worthwhile. If you don't even have your own enemy, you can't even use your own enemies. What is the use of this great emperor even if it is so strong?"

"Now, the Emperor is one-third of the Netherness of the Emperor, and it is integrated into this meditation, and it has become one and symbiotic."

"This Emperor is not jealous, it will not die!"

"It doesn't die, this Emperor will not be embarrassed!"

"Unless you can have the power to annihilate the Emperor and the Emperor, and to annihilate in an instant, no matter which side is degraded, after a small price, you can come again!"

"Today, if you don't want to hand over the Nether, the old man will be the whole city, and the dog will be upset!"

"By the way, the old man's meditation is one of the secrets of the world to the evil to the scorpion. It is based on the flesh and the alloy body of the celestial family. Therefore, all flesh and blood and mechanical alloys are its nutrients. As long as it is swallowed to a certain extent, it is the cultivation of the old man, and it will be quickly upgraded because of its anti-feeding and nourishment!"

"So now, let the darkness, cover the sky city!"

"My ignorance...fall!"

As the last sentence descended, the huge gimmick suddenly opened the blood basin wide open, and was constantly chewed by it in the mouth, and now it is impossible to describe what kind of **** green matter, slammed into the sky below the road, spit down.

This scene is too horrified, even Ye Xuan, who has already retired to the distance, can not help but chill in the back, subconsciously shrinking his neck...

Chapter 3606: Evil is coming

This **** green scorpion is formed by the flesh and blood of thousands of giants and the alloy body of hundreds of people of the race, chewing and smashing together, and including all the giants. Soul, and the electronic consciousness of hundreds of people of the race.

In a mess, all together!

It's just that the body of the tens of thousands of giants and tribes is huge, which means that the inside of the **** mouth of the dark green skull has a space folding effect. Otherwise, the flesh and blood of the tens of thousands of giants can't be accommodated. .

But at this moment, this horrible blood-green thing spews out from the blood-stained giants of the dark green hoe, and when it squats down to the celestial road, its body shape is only a big size, and the green-green **** The size is quite!

This is far less than the flesh and blood of the tens of thousands of giants!

Obviously, this **** green evil creature is in the **** mouth of the dark green taro. When it is chewed in the mouth, it is actually equivalent to being refining. This is normal. Otherwise, it is impossible to manifest a powerful horror. Powerful.

"boom!"

A huge shock came, and the **** green scorpion of the vastness slammed on the ground of the Tianji Road below, and then it squirmed. This scene is very hairy, and some of the celestial people who have never retreated far away are shocked. Retreat.

They felt a strong and incomprehensible atmosphere, and their electronic consciousness was trembling, and they could not face each other.

There was no pause, and as the **** green scorpion fell to the ground and swayed twice, a large body of blood-green color slowly climbed up and finally stood up.

Human form, height and shape, sturdy form, whole body blood green, can not see the body is flesh and blood or alloy, clearly can be like flesh and blood undulating, but the texture, but the starry alloy is no different...

His eyes are even more bloody, and the sturdy forest is wide-mouthed. Two long fangs are extended, and the elbow joints and fingertips of the four feet are all sharp and sharp claws.

This is a monster, a sorcerer who is shuddering at all!

It is full of starry alloy texture, but like the flesh and blood in the body of the undulating and undulating, must have a hard and incomparable attribute, it is all over the various joints and important parts of the body, sharp and incomparable even the appearance of cold and cold Spiked, must have a terrible penetration!

In short, this kind of incomparable power is very incomparable. The breath that is diffused from the body is not only weaker than any one of the three star owners in the field, but also has an indescribable meaning of evil spirits!

Ye Xuan's eyelids jumped straight, and he even had a strong intuition. This horrible **** green sorrow is afraid that it is more difficult to succumb than the yin eccentric!

The thought of the emergence of it, it is entirely because of the strong resentment of the Yin and the old blame, this will not hesitate to take out one-third of the gods, the refining of life, Ye Xuan has a feeling of scalp numb.

This place should not be left for a long time. Taking advantage of the truth of the secret of the identity of the emperor, you must quickly complete all the unfinished matters, and then quickly leave this piece of land!

Fortunately, with the madness of the evil emperor, and the rapid emergence of this horrible horror, whether it is the emperor or the old ghost, the moment has forgotten Ye Xuan.

At the moment, the faces of these two old guys are full of shocking colors, and their eyes are locked in the vast body of this savage body. Even the air machines that previously distracted attention and locked the shape of Ye Xuan are also in the air. Unconsciously relaxed.

As for the Tianji ethnic group who fled nearly 100,000 in the surrounding area, even if there were more than a dozen mechanical powers that had the fifteenth world's fierce battles, they were all similar at the moment, and they were stunned and stunned. No one has noticed Ye Xuan.

Even if you noticed it, it doesn't matter. In their minds, there is no memory of the previous dialogue. In their consciousness, Ye Xuan is still the new Shaozu patriarch of the Tianji family!

Now or never!

Ye Xuan immediately disappeared his body shape. After seven turns and eight rounds, he finally left the Tianshi Road, the central area of the turbulent core, and rushed to the main passage leading to the inner city of Tianji City...

.....

"Roar!"

"Hey..."

"Today, everyone here is going to die!"

"My ignorance, kill everything, let the evil... Come on!"

"Booming..."

Just as Ye Xuan's figure was quietly disappeared, and then quickly evacuated from the central square, the dark green skull in the sky and the invaders of the emperor's demon incarnation was suddenly spread. A terrible roar.

The underlying **** green sorrow is also in response to the general, shouting screaming and screaming.

Then, with the madness of the Yin Emperor and the ghosts, the dark green gimmicks of the sky finally rushed out again, and rushed toward the emperor.

On the ground below, the bangs cracked like a loud bang, and the body was also full of **** greens, striding forward, waving his arms, and rushing toward the gloomy old ghosts.

At the moment, the whole heart has already sunk to the bottom of the valley. The old ghosts are good at stealth assassination, but at this moment, when the fierce meaning of **** greenness locks the air of his body, the old ghosts of Wenxing are suddenly I found that I couldn't do it anymore because I was hiding my body as I had before.

This horrible existence, which is refined by the secret method of the Nether, is not only a shackle but also a avatar. It is also a kind of phantom body that is one-third of the sinister emperor. It obviously has

some kind of gloom. The evil spirits of the evil spirits, the sneak sneak secrets of the old ghosts, in front of it, completely ineffective!

"Hey!"

"Card..."

Waving a pair of sharply thorny arms rushing away, the shape of the meditation on the way to catch a hand, easily and incomparably put the body of dozens of stunned Tianji ethnic people tightly In the huge **** ghosts.

Then he was directly thrown into the big mouth with two horrible fangs.

Then, as it chewed, the sound of the roots of the scalp, the scalp numbness, and the sound of the mechanical squeaking of the scorpion, once again resounded into the void.

Obviously, these dozens of people of the Tianzu nationality can't live anymore. Not only can they not live, their alloy body and electronic life consciousness will even be turned into nutrients and food, which will help the **** and fierce flames. It has become even more powerful!

This scene falls into the eye of the emperor who is lingering with the dark green head, and suddenly he is stunned. Here is the heavenly city, the supreme holy land of the first cosmic plane, tens of thousands of years ago, There has never been such a scene of tragic grievances.

"Hey..."

A fierce and scream of shouting, roaring out of the mouth of the emperor, the entire sky above the sky, the moment is rolling...

Chapter 3607: Imperial prison

"Card!"

"Card..."

The soothing mechanical wear-in sound came from the big mouth of the **** green meditation, and dozens of celestial tribes blinked.

This scene made the emperor angry and angry. As he raised his hair and made a fierce scream, from the depths of the inner city of the Tianji Road, there were two powerful breaths rising in an instant.

This is the other two avatars of Emperor Yi, who are sitting in a top secret place where the imperial prison and the source of the heavenly machine are located, but at this moment, they are all summoned by his anger.

The breath of these two emperors is also the star's main territory, powerful and incomparable. At this moment, it is rapidly approaching.

The three emperors and one avatars were all repaired by the main character of the star. Nowadays, they are all in harmony with each other. In an instant, they are in the void above the vast universe, which inspires a invisible storm.

Seeing this scene, Wen Xing's old ghosts and scorpions have clearly disappeared, and there is a sneak peek at the sneak peek.

It seems that the two avatars of Emperor Yi came from the inner city of Tianji Road and left their original place of sitting in the town. This is his calculation and long-awaited.

However, this sensation of exquisiteness quickly disappeared, and the bottom of the old ghosts of Wenxing was no longer seen.

At this moment, the body of the **** green meditation in the wide mouth, with the continuous chewing and the sound of the mechanical movement of the card, has finally disappeared.

The alloy warfare of dozens of celestial tribes and the nourishment of their electronic life consciousness make this horrible body of **** green, deeper in color, and more to the huge gimmicks of the Yin Emperor. The dark green color evolved.

And the fierce atmosphere of his body is obviously more intense!

Soon, with the approach of **** greens, Wenxing's old ghosts soon fought with it, and the other side of the Tianyuan Road's central square was the dark green gimmick of the emperor's body and the emperor's eccentric. The fierce battle was in full swing. At this time, the Emperor's body did not notice at all. The other side of the Wenxing old ghost, faintly seems to have a little bit of grinding the taste of the foreign workers. It seems that the mind is completely absent here, just wandering around.

Of course, what he is good at is always stealth assassination, so even if you take this kind of battle, it will not be suspicious.

Even if the other two emperors came to an end, Wen Xing's old ghosts took the opportunity to retreat a distance, so that the bleeding blood of the green can cover the area and once again successfully hide the body shape.

And pretend to wander around, waiting for the opportunity to move, but it is far higher, and never return... The three stars of the emperor's three main bodies should not think too much. In a short time, they must not be surprised. !

And this, it is also the old ghost of Wenxing, the plan that is secretly calculated in the heart at this moment...

.....

At the same time, somewhere in the northern part of the road from the central area of Tianji Road, it is very far away!

Here, it is one of the six main passages of the inner city of the inner plane.

The six main passages are located in different areas of the land surface of the Tianji Road, and the inner city areas that lead to it are also different.

Among them, there are three main passages into the inner city of the secret plane. Even the young patriarchs of the Tianji nationality have no right to enter. Only the patriarch, the emperor, and a few of the older generations of the heavenly elite have the authority.

As the patriarch of the celestial family, one of the three main passages that can have access, one of them is the one that leads to the imperial prison.

And Ye Xuan's gateway to the north of the Tianji Road at the moment is it!

From here, you can directly enter the periphery of the inner city imperial prison, and then from the periphery, into the real imperial prison!

As the young patriarch of the Tianzu nationality, Ye Xuan originally had the authority to enter the imperial prison zone of the inner city through the main passage of the northern region.

However, his young patriarch apparently only hangs a name. Since the emperor has been skeptical about him, he intends to slap him down in the sacred ceremony. Naturally, it is impossible to match the identity of his patriarch. Permission, really sent down.

Therefore, Ye Xuan knows well that if he tries to use his electronic consciousness as Sha Baofeng, he will not be able to enter this passage.

On the contrary, it is the electronic consciousness of the former Shaozu, Emperor Shaofeng. It may be possible.

Although he has fallen, but the division of the emperor, may not have the authority corresponding to his identity, so quickly canceled.

After all, whether it is Emperor Yi or Wenxing old ghosts, although it is guessed that Emperor Shaofeng is in the hands of Ye Xuan, they absolutely cannot think that Emperor Shaofeng's electronic life consciousness is still intact in Ye Xuan's In the hands.

It is no exaggeration to say that as long as Ye Xuan is willing, he can always let any one of the nine people, such as Emperor Shaofeng and Sha Baofeng, resurrect.

The Tianji family is an electronic life body. Its electronic consciousness is equivalent to the spiritual **** of the human race. Ye Xuan controls their electronic life consciousness, just like the gods of the nine human monks, and inject them at any time. In the body of an intelligent robot, you can resurrect the soul like a human monk, or you can win a new life!

But Ye Xuan obviously can't do this. What he is thinking about now is just whether to immediately change an identity and change Sha Baofeng to Emperor Shaofeng. In this case, if the authority corresponding to Emperor Shaofeng is not so fast, If it is completely canceled, then he can successfully pass through the main channel in the north of the front and enter the inner city zone where the imperial prison is located.

Of course, this is also a gamble. If the authority corresponding to the identity of Emperor Shaofeng has been taken back, then Ye Xuan will try this way, not only will not be able to enter the imperial zone, but will also be amazed.

I am afraid that the division of Emperor Yi will be able to feel immediately. After all, he is the dictator and owner of the entire Tianji City. At that time, even if the emperor's avatar is still delayed by the evil emperor and his sorrow, how much will always be Some countermeasures have emerged.

This is not a good thing for Ye Xuan, his time is not much!

If this is not the case, he has no chance at all...

For a time, Ye Xuan hesitated and fell into a dilemma.

However, this hesitation only lasted for a short period of two, and it disappeared completely. It wasn't that Ye Xuan suddenly made a decision, but he didn't have to worry about it. The front was so strong.

Even the main gate alloy gate of the Northern Territory, which is impossible to forcibly break through, is actually rumbling at this moment.

A figure rushed out from inside the imperial prison, and the whole body was full of vigour, and it was a star lord. This is the emperor who was sitting in the imperial prison. He was summoned and rushed out of the alloy giant door. The figure has been teleported and disappeared.

The machine can't be lost!

Ye Xuan's heart is jumping wildly, and he can't take care of the identity of the star lord who just left. In short, there is such a star lord in the imperial prison. It is only good for him, no harm.

The channel alloy gate leading to the imperial prison is slowly closing at the moment, and Ye Xuan does not hesitate to sneak away.

Chapter 3608: The patriarch of the patriarch

"stop!"

"who?"

"Well? Little patriarchs..."

Ye Xuan's figure just rushed into the alloy giant door. In front of this narrow and narrow passage, there were several sounds of screaming, at least ten strong and sinister atmospheres of the twelfth Ye Xuan's body shape.

With Ye Xuan's current strength, although it is only the eleventh major imaginary light eight-order, but the ten virtual planes of the heavenly family strong, he still has the confidence to solve in a short time.

Of course, you have to use some basic means!

But that is obviously unnecessary. The secret of his identity, apart from the emperor and the devil, is not known to the third person in the entire Tianji City, and has not spread.

Therefore, in the eyes of the ten emptiness of the celestial celestial guards, he is not a sneak peek, but has just accepted the patriarch of the patriarch.

It is said that the new official has three fires, and Ye Xuan does not believe it. He is the young patriarch who just took office. In the entire Tianji City, all other ethnic groups have no guilty!

Therefore, he was completely fearless, and stopped his body directly. His hands were carried behind him, and his face was calm and sneer: "How? Do you want to have a few patriarchs?"

"Don't dare!"

"It's just a family rule, no authority, no access to the imperial prison!"

"Small patriarchs, we..."

Soon, in the narrow passageway with dim light in front, there were ten figures of the Tianzu ethnic group. They were divided into two rows, and the hand held the hand, and explained to Ye Xuan.

Even the guards of the guardian channel are the strongest of the twelfth imaginary void, and the faction is ten. This aspect illustrates the importance of the imperial prison connected at the end of the passage. On the other hand, it also shows the heavenly family. The foundation is indeed strong, and the strong among the families are everywhere.

After all, they are all electronic life bodies. They have a long life. Unlike the flesh and blood, the flesh is exhausted. The ten heavenly guards in front of them may have born self-consciousness and become electronic life as long as the years have passed. Body, not strong!

Ye Xuan did not go to listen to their explanations, his face became more and more gloomy, and he did not wait for the last person to finish, he has screamed: "Let's go!"

"You don't know if the young patriarch just accepted the seal."

"The patriarchs have not had time to open up the various patriarchs to me. The foreign enemies will come. You don't know?"

"The roar of the outside war is so huge, but the star lord is coming, can't you hear it?"

"The patriarchs are not worried about the imperial prison, let the young patriarchs come over to inspect, do you not know?"

"Okay, do you, do your duty, right? Well, this little patriarch is going back now, let the patriarchs fight first, and the authority is issued, I can come over and start the tour..."

Said, Ye Xuan's body shape is about to leave, just behind the alloy giant door has not been closed, and timely withdrawal to come still!

"Don't tell me..."

"Hey, the young people grow up, what is this?"

"We are not owed, do you have two sentences?"

"Damn, it has delayed the big things of the young people, really damn..."

Ten imaginary celestial guards were scared and stunned. Tianji City has never encountered such a situation that it has been killed by foreign enemies in the core area of the tens of thousands of years. The patriarch's emperor is annoyed at the moment, thinking with his heels. I want to understand.

If this is the case, let the young patriarchs go back and ask for the permission to issue the first one. I am afraid that they will all be shot dead in the ten heads...

Under the trepidation of the mind, the ten imaginary celestial guardians of the celestial beings realized that it was too stupid to get rid of his head when he realized that the young people in front of him were in the new term. Is it unclear to ask people to burn the fire to their heads?

In order to calm the anger of the young and the grown-ups, the ten guys soon came around, one by one, and they were eager to take words and wait.

"Boom!"

It was also at this time that the alloy giant behind him finally closed. Ye Xuan thought that he would have to open the door from the inside by the ten imperial guards. They served as the guards of the imperial guard, and opened the channel alloy giant door from the inside. This permission.

So, after a little thought, Ye Xuan decided to take the ten guys behind him and accompany him to patrol the imperial prison. This way, he can always learn from them about various situations, so as to find the more than ten emperors of the demon royal family as soon as possible. Where the uncles are being held.

After all, it is impossible for the imperial prison to put the hostages of the same ethnic group together, and it is not easy to manage. It is a great hidden danger. It is really necessary to find more than ten people together. In the case of rushing time, how much is really true. Back to the ten guys behind me.

Soon, Ye Xuan walked toward the depths of the narrow passage under the guidance and follow-up of the ten channel guards.

The passage is very long. After about a few kilometers, the front end of the passage is faintly seen. The diameter of the mainland is one million meters, that is, one thousand kilometers, but the space folding technology is used internally, so it is extremely wide. A huge star is similar, divided into many layers, only the layer where the imperial prison is located, it is vast and innocent.

The entire imperial prison is the important member of the royal family of the first universe slaves. The first universe is enslaved by thousands of people. Each ethnic group has more than a few dozens, and several important members of the royal family are detained. In the imperial prison.

Therefore, the total number of important royal members of the various slave groups held in the entire imperial prison has exceeded 10,000.

This is not a general hostage. It is all members of the royal family of the servants. The Tianji people are quite courteous to them. It is impossible to separate them into a small single room like ordinary prisons.

In fact, this whole layer of the Imperial District is not only vast, but the environment is quite good. After walking out of the narrow passage, Ye Xuan stands at the exit at the end of the passage and looks at it. It is a beautiful wilderness plain, looking up. Going, even having a virtual sky, is extremely realistic.

I was so cold that I thought that this was the land surface of a certain life planet, and a thriving breath came.

The only thing that is not there is that there is a huge energy shield on the vast Woye Plain, which is half-bowl-shaped. These energy shields are equivalent to prisons and limit the families that are pledged inside. The royal hostages came in and out, and it is clear that the ground is also specially treated.

After all, every guard is held in the master. If there is no layout on the ground, and there are energy shields on the top and sides of the head, can people sneak out and get out of the captivity area?

However, although it is a prison, the interior space of each energy shield is very large. The diameter of the shield is about 10,000 meters. It is a separate villa with gardens and even mountains and lakes. Suitable for the inhabitants of different ethnic groups to live...

Chapter 3609: Nine-level mental strength

Looking at the vast and innocent Woye Plain in front, Ye Xuan frowned, but the grasp in his heart was even greater.

It seems to be full of vitality, beautiful mountains and rivers, in addition to each cage cage has a villa, hills and small water, there is even a river across the plains across the east, surrounded by mountains and undulating, presumably every once in a while The members of the imperial family members who are being pledged will be assured in batches and let them come out to breathe the fresh air outside the energy shield.

In fact, even in comparison with the ordinary universe of the outside world, the aura in this fertile plain is extremely thin, about one percent or so.

Compared with some aura filled with aura or independent small space in the universe, it is far worse.

Which of the imperial members of the first universe is not a member of the royal family?

Which of the ancestral areas of each ethnic group is not a place where the spirit is more abundant?

Therefore, these pledgers live on such a surface, but they are grievances. They seem to be beautiful and beautiful. In fact, even the aura is only about one percent of the ordinary universe, and even the cultivation is restricted. The situation is slow, if there is no leaving, then it is strange!

In this way, it is naturally more beneficial for Ye Xuan to persuade them to collectively rebel!

There was no chance before, there was a chance and I couldn't go. Now the external situation is different. The opportunity to leave is also in front of us. Presumably, except for a few slaves who have penetrated into the bone marrow, most of the pledges will be in Ye Xuan. Under the slogan, we must firmly leave our hearts!

"These energy masks are prisons, are they? They can't get in and out freely? How long does it take to release the wind?"

Stepping out of the passage, Ye Xuan carried his hands on the plains of Woye. From time to time, the probe looked into the energy shields that passed through, and asked the ten people behind him: "Yes, the hostages of the demon people are detained. Where? Take me in the past, the patriarch has a secret order, and there is a task for them!"

Behind him, the words of response came quickly.

"In addition to our ten-person guardian channel, there are 100 patrol squads in the Imperial Plains. Each patrol squad is responsible for 100 prisons. If the wind is released, it is basically open to the number of prisons under the responsibility of a patrol squad. , take turns every day!"

"That is, basically for more than three months, all prisoners can come out and let the wind go."

"Since it is a patriarch who has a secret order, it must be said that he is the most uncle, and his prestige is the highest. All the prisoners basically give him a few faces..."

"Small patriarchs, here, please, Master Mo's prison... Hey, Dongfu, in the plains!"

Can it come out for more than three months?

This time is too long, and Ye Xuan's grasp is a bit more.

In addition, this Mo Taiye should be the No. 1 character in the demon empire of the demon royal family. The celestial guards from the ten guards channel called him, and even his prisons were changed to be called Dongfu. This Master Mo's cultivation must be good.

Otherwise, the pledges of other ethnic groups must not be allowed to give him a few thin faces.

Who cares who is in this place?

To put it bluntly, it is a word, Master Mo, here is very likely to be the same as the existence of the prisoner, at least in nature.

This is even better, this kind of thing is naturally more convenient to find a lead, after all, Ye Xuan's time is not much!

Soon, Ye Xuan came to the plain central area under the guidance of ten Tianzu escorts behind him. In front of it was a slightly larger prison, but it was also banned by the energy shield. Ye Xuan turned heads. A guard behind him glanced at the latter, and the latter noticed that when the right hand was extended, the energy shield was opened to the portal with the authority given in its electronic consciousness.

"You are guarding outside, this little patriarch is going in..."

Ye Xuan ordered a sentence, and then he stepped in. He just entered the inside of the energy shield, and there was a slamming sound behind him. The passage that had just opened disappeared, and even he was locked inside.

Ye Xuan did not look back. The ten guards stood honestly waiting for him. As long as his identity was not exposed, there should be no problem, but in terms of time, it is really necessary to hurry.

"Small patriarchs are here to visit? The new official took up three fires, and they all burned to the imperial prison. The old man is really honored..."

Ye Xuan stepped forward to the villa in front, just arrived at the door, there was an old, but obviously with a sardonic voice.

He smiled lightly and did not respond, and went straight into the living room of the villa.

The furnishings are similar to those of ordinary humans. There are also living rooms and sofas, but they are all alloyed, giving a feeling of coldness.

A strong man who had to be white was sitting on the sofa and meditating on the knees. Just as Ye Xuan entered the living room and sat down on the opposite sofa, the old man opened his eyes and smashed his eyes. , staring at Ye Xuan tightly.

Although the strength is not sensed, but the other party's spiritual strength level, Ye Xuan has a clear and incomparable sense of change, suddenly changed his face, whispered: "Nine levels of spiritual strength? And just broke through not long ago?"

"Hey? How are you..."

The other person's face immediately stunned, and then horrified.

After all, the magical power of the devil is incapable of sensing, and must be surveyed by some kind of instrument, but Ye Xuan immediately called out his spiritual strength level, and even pointed out that it

was only recently broken. One point, even the ordinary Devil Power can't do it, at least it needs to have eight levels of spiritual strength.

Subconsciously, Mo Taiye had doubts on his face, trying to extend a nine-level spiritual strength, touching Ye Xuan's body, and then he was shocked and screamed: "Eight spirits? You actually have Spiritual source nuclear? How is this possible? There is still the smell of crazy mosquitoes, who are you...?"

"Predecessors, do you know the crazy mosquitoes? It's so good. I asked the Emperor and the Seven Masters before. They all said that they are the masters of the demon people who control the spirit war, and they don't understand."

Upon hearing the other person mentioning the crazy mosquito king, Ye Xuan immediately blinked his eyes and excitedly asked: "Hurry to tell me, crazy mosquitoes, he... Oh, right, and the wretched mosquitoes, the old things, the two of them What is the background?"

"Do you know that this kind of big killer has been developed in the spiritual war? The family has already used it. What happened outside?"

Mo's face is once again furious, and the body's nine-level mental strength is completely shrouded in Ye Xuan, with vigilance, and the rhythm that may be shot at any time: "Hurry up and be honest, even if you are in the position of the patriarch of the Tianji nationality, if there is Half a sentence, the old man must also kill you on the spot!"

Chapter 3610: Words are not surprisingly endless

Obviously, I asked the first thing, but I didn't answer it. I actually asked it, and I wanted to shoot it directly! Opening your mouth is killing!

Relying on the old seller, right?

Is the star's main territory great?

Still not being able to get out of the emperor for many years? Now it's good, look at the uncle's cultivation, and it's fascinating.

Obviously know that this uncle is not a celestial tribe. After all, the eight-level spiritual power is clearly here. It is still treated like this, it is too arrogant, too unreasonable!

These thoughts flashed through my mind, and Ye Xuan's face immediately sank!

Then he sneered, and he looked at Mo's grandfather: "Is your devil's group treating allies like this? If this is the case, this rescue operation can only be cancelled. In addition, the cooperation with your demon family is only Can stop here."

"Additional..."

Having said that, Ye Xuan slammed the armrest of the sofa next to him and angered: "I don't believe you didn't guess that I am not really Sha Baofeng. I don't believe you can guess the purpose of my trip. Is it high? Do you think Laozi can let you bully?"

"The star lord is awesome? The star lord of the old man seems to be more than one. Even if you are a perfect star, you will have to pay more."

"I don't believe you can try it..."

During the speech, Ye Xuan will pull out the breath of the shackles of the sacred land in the Shennong Dingzhong.

On the opposite side of the sofa, Mo Taiye was shocked when he was shocked: "The atmosphere of the realm of the border, you...who is your kid? Is there a treasure and means that can exude the pressure of the border?" "

At the same time, the canopy has been wrapped in the shape of the nine-level spirit of Ye Xuan, and it is like a flowing water, quickly retreating back. Obviously, the other party was shocked by Ye Xuan, first and foremost whether he Really smashed more than two stars in the hands of the lord, just the diffuse atmosphere of the squad that was just diffused, so that Mo Taiye had to be cautious.

If you really want to fight, even if people are finally suppressed, he may not be dying.

What's more, the other party is obviously not a person of the celestial family. It can tell the spirit of war, and the body can leave a spiritual brand of a mad mosquito, which seems to be protective, so its identity is completely unquestionable.

This should be an ally of the new alliance of the Devils, and the purpose of his coming should be exactly what he said!

Thinking of this, Mo Taiye suddenly shook his head and smiled, raising his hand to Ye Xuan, and his face apologized: "Little friends are strange, it is the old man who stayed here for more than 10,000 years, the first encounter with the family. When you come, you are excited, you will lose your sense of proportion, and you will see your little friend forgive me."

"As for what you just asked, the old man may not be able to give you the answer. I can only tell you that the crazy mosquitoes and the mosquitoes are very deep. When the old man is still in the family, they are already the stars. At that time, the old man was only in the middle of the world, and he only saw one side... Regarding his origins and background, they are seniors. How can I find out the facts?"

"As for the rescue you said, hehe..."

Speaking of this, Mo Taiye shook his head and sighed: "This matter is still to be done. In fact, although the Tianji City said that the Longtan Tiger Cave, but if the old man is leaving with a heart, I am now with the nine-level spiritual strength and the star's main perfection. At least 60% of the confidence to escape."

"After all, before the 10,000-year-old, the atmosphere of the Emperor's deity disappeared. It is only the avatar of the three stars in the city. Of course, it has other avatars, but it is not in the city."

"Only by these three avatars, coupled with the power of the celestial city, can only barely enshrine the perfection of the star's main territory."

"While the old man can't take other people away, he's gone, but it's fine, but that doesn't make any sense. Even if you have the means and means, take away all the emperors of the devil's ethnic group,

but that's for For the entire group of devils, it is tantamount to self-inflicted disasters. At that time, under the wrath of the Tianji people, it is possible for the devil's group to be destroyed."

"This is also the reason why the old man and others are willing to be pledged here. Is this the contemporary emperor not knowing it? It is really faint..."

As he said, Mo's face was full of anger, but the object of his anger was obviously not Ye Xuan, but the contemporary emperor Mo asked: "Oh, in fact, even if the old man and others did not leave, Once you collude with the devil, the fact that you sneak into the city of Tianji to launch a rescue is also a catastrophe for the demon people. Asking Tiannaer, it is too disappointing to the old man!"

"We said that we all understand that before I came to Tianji City, the Emperor meant to save people first, so that they did not have the worries, but you did not show up, the devils also continued to imaginary and the snake, secretly unfolding Arrange, wait until the time is right, and start again."

After taking over the words of Master Mo, Ye Xuan explained: "But now the situation has changed, it is more favorable."

"The above-mentioned heavenly continent is already in chaos. The patriarch of the Yin Mozu has been brought over by me. The old guy has reshaped the body of the Nether. Now it is the cultivation of the star's main territory, and it has been refined with the blood and secret method. A meditation that is not under him, is now fighting with the emperor and the widows of Wenxing..."

"It can be said that at the moment they have no time to take care of this place. The imperial prison has temporarily become a regulatory blank area of the Tianji City. As long as we can say that all other pledges are jailbroken together, then the royal family members of the first universe will all escape. Once empty, even if the Tianzu nationality wants to settle accounts after the fall, they are afraid that they will not blame the public. At most, they will pick one or two ethnic groups and start to kill chickens and monkeys."

"At that time, wouldn't you resist? I won't believe it. After these tens of thousands of years of slavery, the first universe of all your races is still as it was in the past, each camp, a sand!"

"If it can be united, how can we dominate the entire cosmic plane only by the number of people who have a million or so people?"

Hearing these words, Mo Taiye on the opposite sofa had already opened his mouth, and his face was dull.

They didn't really think about these things, but they never really tried it. After all, the consequences are so serious that no one can afford it.

At this moment, with the screaming roar of Mo Tai's mind, Ye Xuan's words have not yet been finished. After the briefing, he will not stop and talk endlessly: "More, except for your first cosmic slave. Beyond all ethnic groups, the Second Cosmic Federation and the Third Cosmic Terran have not always been the deadly enemies of the Celestials. I can't say that in the second universe, the two camps of the Terran, I am at least 60% sure to get it. One of the camps, under the joint hand, is still afraid of his Tianzuo dry bird?"
