

Super D. S 3611

Chapter 3611: Group tigers

"You...who is it? Even the Terran can do it? And is it a big camp?"

Hearing Ye Xuan's tone is so big, Zhang mouth is one of the two camps of the Terran, and more than 60% of the camp can get it, and Mo's grandfather is sluggish again.

"Oh, my identity is a bit complicated."

Ye Xuan touched his nose and then smiled. He said: "There are currently more well-known identities in the outside world. There are five, the Shaozu Baofeng of the Tianzu nationality is one, the Netherland is one, and there are three separate It is the sorcerer, the invincible **** of war, and... the prince!"

"What? The five great enchanting worlds of today's world, actually... are you alone?"

Mo Taiye was shocked and almost did not sit still. He slipped down from the sofa and saw Ye Xuan on the opposite sofa again.

After a long time, Mo's grandfather disappeared. This made him feel like a thunderous move to him. He shook his head and smiled: "It's no wonder that with your enchanting talent and means, it's no wonder that you dare to fight against the heavenly family. In today's world, I really want to say that this kind of enthusiasm is openly called the board of the heavenly family. Although it is not without it, you can definitely count as one."

"Unfortunately, you still think too much about this matter..."

"What you said before does have some truth. It sounds like it works. The Celestial family is powerful, but if there is the participation of the immortal dynasty, plus the foundations of the first cosmic servants, and not in every ethnic group. Without surpassing the existence of the star's main territory, on the surface, it seems that there is already a strength that can compete with the Tianji people..."

"But in fact, there is one big problem that you can't solve at all. That is the high-ranking royal family of nearly 10,000 families who have been pledged in this imperial prison. You can't take it all at all."

"There is a small amount of possibilities, at most hundreds."

"And if these royal family members can't escape successfully, everything is empty talk. The first cosmic servants and all ethnic groups, even if they have a heart, will be restrained everywhere. They must be punished. The prison is the best royal family of all ethnic groups. It can be said that it is the hope of all ethnic groups!"

"As long as these people are in the hands of the Tianzu people, they dare not shake!"

"Do you really think that only by the above-mentioned Yindi grotesque and its ruthlessness, the existence of the two stars' main territory, can you mess up the entire heavenly continent, let you fish in the water and make the imprisonment empty?"

"Do you know how many star owners are ridiculous among the tens of thousands of hostages escorted in the imprisonment? How many hundred stars are there? Even the star-like ninth-order grand perfection like the old man has a number ten....."

"When the star's main territory is perfect, the energy shield outside the villa is simply unable to trap us. Why do these dozens of stars and the nine-order grand perfection, but still honestly stay here, even the idea of joining forces to kill is not Moved?"

"Because that is impossible!"

"Tianji City is not as simple as you think. Even if Emperor Yizun was in the vicinity of 10,000 years, the breath disappeared, just like the disappearance. The tens of thousands of people in the celestial family surpassed the horror of the star territory. Since the beginning of the year, they have lost their breath one after another..."

"Today's Tianji City, on the surface, it seems that only the three stars of Emperor Yi are separated and seated in the town!"

"But in fact, the entire Tianji City is a mechanical treasure, as long as there is a mechanical source core, let alone hundreds of stars in the main territory, even this nearly 10,000 royal family hostages, all are star owners, also I can't get out of the imprisonment."

"The small-scale change does not matter. It does not activate the power of the mechanical source core. However, if the number of hostages leaving the energy shield exceeds a thousand, the mechanical source core will be inductive immediately, and nearly 10,000 on the Woye Plain. The energy shield cages are driven by the energy of the mechanical source core and are monitored by it every moment."

"Once there are more than a thousand cages, when the prison is completely banned, even if it is the existence of the border, it will not be able to rush out..."

When it comes to this, Master Mo is full of bitterness, shaking his head and sighing, no more words.

Ye Xuan was completely dumbfounded. Zhang Dazui licked for a few moments, and then he asked: "Mechanical source core? What is that stuff?"

In this regard, Mo Taiye did not respond, rolled his eyes, and then threw a look at Ye Xuan, let him experience, but that look is nothing to say, even the mechanical source core does not know anything, actually dare Run over and say that you want to rob the imperial prison, this joke is really big!

"Hey!"

"Hey..."

It was also at this time that a faint humming sound suddenly came from outside the villa, which continued to linger, and it was like a tidal wave.

Ye Xuan and Mo Taiye immediately glimpsed in a conditioned reflex, and then, after Ye Xuan reacted, the Mo Taiye on the opposite sofa suddenly stood up and screamed: "What happened? All the cages The cover has disappeared. Is it a problem with the mechanical source core? But how can this be?"

At this time, if Ye Xuan is outside the villa, you can see that this vast and innocent Woye Plain is originally densely packed one after another, like countless yurts covering the earth until the end of the nearly 10,000 energy masks. A slight humming sound rang, and all of them disappeared.

The villas, which were originally trapped in the energy mask, were all exposed to the outside air.

In some villas, there have been a variety of pledges of various ethnic groups, who have stepped out of their faces and looked up to the sky...

As for the celestial patrol that was originally patrolled on the Woye Plain, and the ten imperial passage guards waiting outside the villa of Mo's Villa, the celestial people were shocked and stunned at the moment. I don't know what happened.

Since the establishment of the imperial prison, tens of thousands of years have passed, such a thing has never happened, and the battalion cages are all open at the same time.

Even if the previous mechanical ratio was taken out from here, it is only a small part of the hundreds of cages that you are fortunate to observe.

Not waiting for Ye Xuan to react, the Mo Taiye in front of him suddenly thought of something, his face showed an excited look, and his body trembled: "Is it... Is that legend true? This is a mechanical source. The three avatars that took advantage of today's emperor to sit in the town of Tianji City were temporarily dragged, and finally saw the opportunity, want to...?"

"Whether or not, there is no doubt that the mechanical source core must be a problem, at least now its power can no longer cover the imprisonment!"

"Bad boy, what are you doing? The opportunity for a rare event is coming, life is fleeting, we must persuade all the pledges in the entire imperial prison, before the mechanical source core restores control of the imperial prison. They rushed out together, so big things can be done..."

The voice did not fall, and Mo's body shape had already rushed out of the villa, and the stepped step was vacated into the sky, and the voice was high...

Chapter 3612: Big world

Not waiting for Ye Xuan to return to the gods, Mo Taiye has already rushed out of the villa, vacated and screamed: "You friends, don't panic, if you trust the old man, you will gather quickly, the action is fast, sand Baofeng Sha Shao chief, have something to say to everyone!"

At this time, Ye Xuan just rushed out of the villa behind him. When he heard this, he suddenly turned his eyes.

Because he instantly realized the meaning of Mo Taiye.

This old guy is not something. He wants to take out all the members of the royal family who have been detained in the entire imperial prison.

In fact, this is also the best way to dispose of it. If everything is truthfully told, it may not be possible for them to make a decision immediately, and the mechanical source core suddenly loses its power to the imperial prison. How long does this time last? No one knows, neither Ye Xuan nor Mo Taiye, dare to gamble.

It is the safest way to use Sha Baofeng, the patriarch of the celestial family, to take them all out of the imprisonment.

Even if these guys came out of the imprisonment, they immediately understood everything. At that time, people had already come out. There was no way to go back. Even if it was really enslaved in the bones, it was carved into the bone marrow. At that time, it could only follow the tide and rushed out with the army.

This is the use of the bottom of the pump, regardless of whether they accept or not, forcing the guys to go back together!

Sure enough, the old fox, the heart is enough, the means is enough, even Ye Xuan has to sigh.

Soon, with the voice of Mo's words falling, this vast and innocent Woye Plain, just outside the villa, just came out from the inside, and those who were looking up at the sky, they continued to All of them vacated, and gathered together at the location where Ye Xuan and Mo Taiye were located.

There were hundreds of patrol squads on the Woye Plain. The energy masks of all the cages disappeared. All the patrol guards of the priests were all confused and had no idea. At this moment, they looked up and saw the Shaozu Shafeng. As a body, there seems to be no anxiety, but the hands are suspended in the air, waiting for the prisoners around the plain to gather.

These patrol guards immediately set their minds. Even if they are puzzled, they will not be able to do anything more. It is really a problem. Are the patriarchs still here? The sky collapsed and there was a tall one.

The ten imperial passage guards behind Ye Xuan, although all of them were full of surprises at the moment, even some fears, but after exchanging their eyes, they finally did not say anything, honestly. The field also followed the vacated space, standing behind Ye Xuan, holding hands and standing, waiting for the sentiment.

In fact, even if these imperial guards and patrol guards do what they want to do, they are not courageous at this time. There are only a thousand people in total, and there are nearly 10,000 hostages gathered around the moment. They are all above them, and now they can only be honest with their tails!

Soon, thousands of figures gathered around the sky, and the rest are on the way. The body shape is far away. It is certain that all the pledges are basically coming. At this time, no one. It will still remain in the villa of the custodial land.

No matter what, it is a good thing, other reasons are good, after all, it is necessary to come and see, even if it is the right to be out of the ring, it is good to put a wind.

Due to the tight time, Mo Taiye looked around and saw that most of the people had gathered around, and other small parts arrived immediately. He didn't dare to delay too much. Otherwise, if the mechanical core suddenly recovered its power, then it's going to be caught.

Therefore, Mo Taiye even turned his head to Ye Xuan to make a look!

The latter nodded, stepped out of the way, came to the front of Mo Taiye in the void, carrying his hands, still holding the shelf of the patriarch of the celestial family, coughing twice and clearing the scorpion, while suggesting the privateness of the strong people around the family. Discussion can stop.

Then, after taking a picture of the chest, Lang said: "I introduce myself, I am Sha Baofeng, the Tianzu family is currently a young patriarch, just accepted the seal!"

This incident has been heard in the imperial prison, so the royal pledges of the various ethnic groups gathered around have not reacted much, and their faces are full of doubtful colors. Their eyes converge on Ye Xuan's face and wait for him. The following!

"The new official took up three fires. You should have heard of it? Today, when the imperial prison comes, the young patriarch is going to burn the first fire..."

After Ye Xuan's words were finished, the royal pledges of the various ethnic groups gathered around him, many people sank their faces, and the coldness of their noses came out. They were succumbed to the imprisonment of the imperial prison. Some of them have even been nearly 10,000 years old, but not only because they are afraid of the Tianji, but some of them exist, and more are actually considering the survival of the entire ethnic group.

Now a small celestial family and a few patriarchs, after the new job, actually ran to the imperial prison, wanting to be a blessing on their heads, and what new officials are taking on three fires, this fact is ridiculous.

Even in the crowd, even the sound of snoring is even more ridiculous. Some people even give no face, turn their mouths and turn around, want to leave, and return to the house of the cave.

It was also at this time that the words behind Ye Xuan were not too slow to say: "So, the young patriarch decided to swear the world! All the hostages in custody in the imprisonment immediately went out, and the celestial family did not raise idle people, why not eat here and eat white here?"

"boom!"

The crowds gathered around were suddenly in turmoil, and the guys who wanted to leave all stopped, and turned and looked at Ye Xuan, his face was blank and his mouth could not be closed.

In this moment, in addition to Ye Xuan himself and Mo Taiye, including the patrols in the imperial prison and the channel guards, everyone suspected that there was a problem with his own ears. He heard such words from the mouth of the minority patriarchs. !

Big world?

Tianji people do not raise idle people?

All the hostages in the imperial prison, all of them immediately get out of the way?

I am a bit stunned, this is the most funny joke in history!

Think of it this way, the hostages gathered around the four people are more responsive than before. Some people have cursed them with contempt, and they have decided that the newly appointed celestial patriarchs are completely coming to take them to find happiness. I have turned around and want to leave again.

However, the old man was screaming at this time, his eyes swept in the crowd, and he said to the more than ten devils of the devils, and a small number of people who had a close relationship with them: "The patriarchs have spoken. Jinkou Yuyan, did not see the energy shields of all the cages disappeared? Who had the time to make a joke and to alarm the power source core of the entire imperial prison or even the entire inner city?"

"It seems that this matter was granted by the patriarchs. They do not believe that they are their own choices. Let us go quickly, we must not lose, and we will not come again..."

Chapter 3613: Serve people

This fact is too ridiculous, so naturally you need to have a leader!

Now, Mr. Mo has seen all the pavements have been completed, and immediately jumped out and made this leader.

As soon as the words fell, he turned and spurred toward the exit passage of the imperial prison. The other ten devils of the devils' ancestors immediately followed up. Mo's elders were their elders. The oldest qualification is no matter what he helps, others must support it.

Then, dozens of people who had made a good deal with Mo Taiye did not hesitate to follow the exit channel that was far away in sight...

As a result, the crowd immediately rioted again.

It's one thing that no one is going, and now everyone has already led the way to the exit channel, which is another matter.

It can be said that in fact, at the moment when Mo Taiye turned around, the minds of all others have been completely shaken.

Who is willing to stay in this place?

Even if he is being played, there is Mo's grandfather in front, and he can bear this old qualification. What can other people bear?

What if it's really big?

Just to miss the opportunity to be played by others, can't you regret your life?

Retreat 10,000 steps, if there is any tricky thing in this, even if the Tianzu nationality shoots the birds, they will absolutely blame them. It's not the little patriarch who is very different in behavior, that is, Mo Taiye and others. To them...

Thinking this way, more people were shaken in an instant, and the guys who wanted to leave were stopped. Then they turned and followed, and the people who rushed to the exit channel of the imperial prison became more and more. More, in the end, the general trend has been formed, and nearly 10,000 people gathered together are basically moving in the direction of the exit channel.

The only difference is that some are fast, they are in the front, some are slow, their hearts are worried, and they are hanging behind.

This scene scared the 1,000 patrol guards on the ground, and the ten imperial passage guards behind Ye Xuan were even more worried. They all cast their sights on Ye Xuan, pitifully, what they wanted to say. But did not dare to scream!

Seeing that these ten guys were not moving in the same place, Ye Xuan even shook his face and screamed: "What are you still doing here? The young master said that you want to swear the world, have you not heard?" ? Immediately open the alloy giant door of the main exit of the exit!"

The ten guys looked at each other in the face. In the end, they all shook their heads together, and their heads were like a wave of drums. This is obviously not to be held accountable. Although Shabaofeng is indeed the new junior patriarch, he is now at the moment. It's too weird to do what I've done, and I've already made these ten guys suspicious.

If there is any problem in the middle, they are the guards of the exit channel. Once the alloy gates of the main channel of the exit are opened, the first thing to be asked is the guilty.

"If this is the case, then you will stay in this imperial prison and destroy it with it!"

Ye Xuan sneered, even if he turned to follow the crowd, rushed to the exit channel!

With the repair of the ninth-order grand perfection of the main land of Mo Taiye, the so-called mechanical source core has been stopped, and it is not too difficult to open the alloy giant door hard, but it will be alarmed in advance. The emperor was separated.

But if the ten channel guards refused to cooperate, they wouldn't care too much, and the hard hit would be hard.

During the speech, Ye Xuan's head did not return. He waved the body and added the super-death bomb that was added to the volume of the immortal world. After starting the self-explosion procedure, he let it roll down the Woye Plain behind him. .

This super-death bomb was originally built only by the wreckage of Sha Baofeng's car, and later joined the eight-seat fortress of Emperor Shaofeng and others. Then Ye Xuan added some things in and out. Look at the wreckage of some warships and fortresses.

But all of these wrecks have complete kinetic energy cabins, space oscillators, anti-material light energy generators and the like. They are messed up in a pile, and now the volume has reached a diameter of 500,000 meters. It's going to be a big lap or two, and it's absolutely scary.

The interior is transformed by the phagocytic system. Anyway, it is just connecting important equipment such as kinetic energy and anti-matter energy generators, and it is explosively detonated. Therefore, although the size is large, the transformation process is not Complex, almost no effort to get it.

"Since the young patriarchs have already smashed the world, there is no need to continue to exist after this imperial prison. Whether it is the patriarch or the patriarch, he will be convinced in the future! So, the imperial prison is still bombing..."

After waving this super-dead bomb, Ye Xuan's head did not return. He turned and waved again and waved and said: "This super-dead bomb is a kinetic energy cabin with more than a dozen big fortresses. The space oscillator and the anti-material light energy generator are made together. Now there is still a quarter of an explosion. At that time, the entire imperial prison will be blown up. People will be worthy of praise, since they decided to live with the imperial prison. With the same, let's stay, the young patriarchs turn back and add you to the family."

"Hey!"

"Hey!"

"Hey..."

After waiting for Ye Xuan's words to finish, there was a broken sound of a body that swept away. As soon as the whole imperial prison was blown up, the faces of the ten imperial passage guards were green. No hesitation, the action is faster than Ye Xuan, and his eyes will cross his body shape and rush to the front.

"It's really a bone..."

Ye Xuan grinned, then shrugged his shoulders and murmured: "And the brain is a bit stupid. Although this super-dead bomb is powerful, the whole prison is so vast, it is just like a huge star. It seems that it is a certain layer of space inside the Tianji City. It is integrated with the whole Tianji City, and it will be completely blown up so easily?"

"At most, it's seven or seven eight eight."

If the words are not finished, the exit of the imperial passage of the imperial prison, the figure of the ten imperial guards has disappeared.

Then, Ye Xuangang came to the exit channel, and in the distance from the far side, there was the sound of the mechanical mechanical break after the opening of the alloy giant door.

Turning and looking around, behind the huge Woye Plain on the imperial prison, there are very few figures that can be seen at the moment. Instead, there are a lot of people outside the exit channel, and the positive ones are in order. Enter the channel.

It was the thousand patrol guards who were all gathered together at the moment. They saw the huge super-dead bomb that was rolling deep into the depths of the Woye Plain. At this time, all the faces were scared and followed. Behind the imperial royal family members of all ethnic groups, they only hope to leave this land of right and wrong as soon as possible.

As for everything after leaving, it is not that they have the ability to consider it. In fact, even the current Ye Xuan has never thought about it. Anyway, the imperial prisoners are all blown up. I want to regret it, but I have no way to turn back...

Chapter 3614: Wenxing's plan for the old ghost

Everything is long, but in fact, time has not passed for a long time!

From Ye Xuan, he plunged into the imperial passage. At this moment, the alloy giant door of the imperial passage was opened again. The royal family hostages of the first universe, headed by Mo Taiye, quickly rushed out, only a total of ten minutes before and after. Only.

At this moment, Ye Xuan has already been mixed into the crowd, and quietly and slowly changed his appearance.

All of this can be the so-called Shaosha Changsha Baofeng dry, and the ten channel guards who open the alloy giant gate in front of the passage must be followed by Mo Taiye and others, among the former crowds, first I went out.

If there is no accident, the matter will soon happen. At that time, the news of the minority tribe's Sha Baofeng rebel will be spread in the whole Tiancheng City in the first time.

Not only will the mainland of the core zone be informed that the inner perimeter defense circle outside the mainland and the peripheral industrial circle will all receive news.

Although with the rush of the tens of thousands of royal family hostages of the first universe, the entire Tianji City star field will be in chaos, but the main target of the celestial fleet and patrol forces must be rebel. Shaozu Changsha Baofeng...

At this time, if you still have this identity, you will be swindled and swindled, unless the brain is broken.

Anyway, in this northern region of Da Nan, the royal family of the various ethnic groups has already gone all over the sky. Ye Xuan casually changed the shape to the appearance of a member of a certain ethnic group. Instead, Sha Baofeng was so eye-catching that he could easily fish in the water and escape. To the periphery of Tianji City!

After arriving in the peripheral industrial circle, Ye Xuan still has one thing to do, that is, it is close to the void battle La Baili, so that he can activate the virtual air battle in the hive node. Transfer the array and put in the tens of millions of hollow weapons in the body.

Then, Ye Xuan will start the Void War, gather the strength of the tens of millions of soldiers, and blast the last blow, then drift away, and quickly flee...

.....

There are many layers in the inner space of Tianji City. Although they are a large overall space, each layer is independent of each other and has different access rights.

The core executives who have access to the imperial prison may not have access to other layers.

Among them, there are only three layers of the emperor and the more than a dozen of the domain's main mechanical powerhouses that transcend the star's main territory.

Among the three layers, the layer at the core central domain of the inner space of the Tianji City is the absolute top priority!

In the core central domain, only a few avatars of Emperor Yi can enter, in addition to this, including the old ghosts of Wenxing, and even the Xeon robots of the ten-domain domain of the Tianji nationality have no access rights. .

The reason for this is because the body of the old ghosts of Wenxing is in this core central domain!

His body is the large blue crystal that Ye Xuan once saw in the sculpture of the Tianpao Central Square in Tianji Dalu, which is the mechanical source core mentioned in the mouth of Mo Tai!

In Tianji City, there has always been a legend. Mo Taiye had previously exclaimed that the legend is true? The legends mentioned in this sentence are related to the body of the old ghosts of Wenxing.

Legend has it that the patriarch of the Tianzu nationality has a companion source core. He was originally created by the pioneer of the Terran Science and Technology. He was born in the body of self-consciousness. This companion source core is just a rice grain. The size of the blue crystal, as for its role, no one knows!

Later, with the gradual strengthening of Emperor Yi, this blue crystal was also growing. It was removed from the body by Emperor Yi when he reinvented himself again and again, but he remained at that time. The heavenly city.

Finally, when the machine city was built into a million-meter-diameter super fortress over the years, this blue crystal became the kinetic energy center of the entire huge city.

Moreover, like other celestial tribes, it has born a sense of self, becoming a different kind of celestial being, without a human body, or its body, just a crystal of blue crystal. The existence of ideology exists!

Wen Xing is the crystal consciousness of the blue crystal, the singularity that is differentiated from the body, and the condensed avatar!

Therefore, he will tell Ye Xuan that he and the Emperor are inseparable and are a whole, because the mechanical source core and Emperor Yi, the original is the same homolog!

The only difference is that Emperor Yi removed the mechanical source core from his body, but he did not dare to throw it away. After all, for his own existence, whether it was consciousness or has been transformed into numerous bodies, nowadays Emperor Yi, in fact, is still not completely aware.

Since the pioneer of Terran Technology, who created him, how could he not have a backhand?

Before I could understand all of this, even if it was a small screw that was replaced from the original body, the Emperor did not dare to throw it away. What if it was the key to some kind of backhand?

Over time, tens of thousands of years of development have developed, and Emperor Yi became the patriarch of the huge ethnic group of the Tianji, the first cosmic occupant.

The blue crystal of the size of the millet that was removed from the body by him was in control of the entire city!

In Tianji City, there has been a secret saying that the patriarch, Emperor Yi, always has to find ways to thoroughly refine and refine this already-grown mechanical source core, refine its consciousness, and

regain full control of the Tianji City. I have an insight into the creation of his star, and whether there are other unknown hidden hands.

At the same time, the crystal consciousness in the mechanical source core is also waiting for the opportunity to refine the electronic consciousness that represents the emperor's deity... Of course, the starting point is nothing, no one knows.

The whole Tianji City, after nearly 10,000 years of age, is basically in the hands of several avatars in Emperor Yi. It is said that because of Emperor Yi's consciousness of the deity, it has entered the mechanical source core, and the surface is the source. The crystal consciousness in the core carries out some secret research. In fact, both sides have been in the crystal, and they compete in each other, and want to refine each other!

However, this kind of infighting seems to have formed a kind of balance. No one has the upper hand and no one suffers. Therefore, Tianji City looks normal and the mechanical source core still operates as usual. The whole Tiancheng City is composed of The emperor's several avatars presided over the bright side, and the crystal consciousness in the source core condensed the Wenxing old ghost as a avatar, and cooperated with the emperor in the dark to unfold everything...

Emperor Yi's tens of millions of people, even an intelligent robot, may be his avatar, but in recent times, the star's main body staying in the celestial city has only three avatars, and all of them have been led to the celestial road. For the old ghosts of Wenxing, this is a wonderful opportunity for a rare event.

Therefore, his plans and actions began when he came to the outside of the Tianji Road in the two emperors of the Imperial Court and the core central domain.

Chapter 3615: Bonfire

Then, with the sudden loss of power of the mechanical source core, the energy shield of the entire prison of nearly 10,000 prisons was suddenly seen, and suddenly disappeared.

Because the old ghosts of Wenxing at that time have already come to the core central domain where their bodies are located!

He wants to get involved, and together with the crystal consciousness inside the body as soon as possible, thoroughly refine the electronic consciousness of Emperor Yi...

If it is successful, there will be no more emperor, and all his avatars will also collapse.

From then on, the entire Tianji City, as well as the entire Tianji, will change hands. The crystal consciousness in the mechanical source core will become the real behind-the-scenes master, and its avatar, Wenxing, will replace the Emperor Yi. Become the supreme overlord who controls the Tianji City and the Tianji in the plane!

It can be said that since the body in which the Emperor first gave birth to self-consciousness, the crystals of rice that have been removed have grown and grown, and like the electronic consciousness of the people of the Tianji nationality, the crystal consciousness that represents the intelligent life is born. The hidden dangers of the Tianji City and the Tianji Nationality have emerged.

The crystal consciousness in the mechanical source core, as well as its avatar Wendeng old ghost, wants to replace the emperor, and control the heavenly city of the Tianji.

The Emperor Yi and his many avatars, and more want to refine the crystal consciousness in the source of the mechanical machinery, on the one hand, to resolve hidden dangers, not to let this situation continue to deteriorate, on the other hand, it is to refine this machinery Source core, to see if you can thoroughly understand the pioneering technology of the Terran technology pioneer, the unknown after the creation of the emperor, in his deity or electronic consciousness, left behind!

To this end, Emperor Yi's deity, before nearly 10,000 years of age, entered the source of the machine core by reason, and the crystal consciousness within it was in secret. Everything on the platform of the Tianji City and the Tianji Nationality was given to the avatar to control. And processing.

But now, this balance has been broken. The only one that Wenxing old ghosts have formed as a crystal consciousness has become the only one. Once inside the mechanical core, its meaning is exactly the same as that of Emperor Yi.

Now, the old ghosts of Wenxing have entered it, the crystal consciousness has become the whole, and the several avatars of Emperor Yi have been dragged, and their electronic consciousness is not the whole...

Under this competition, the final refining, it is likely to be the electronic consciousness of Emperor Yizun!

This is too dangerous, and its severity far exceeds the final consequences of the simultaneous escape of all the pledges in the imperial prison, because once the crystal consciousness is successful, it will refine the electronic consciousness of the emperor's deity, then, All of its avatars will collapse in an instant and disappear.

One move, lose all!

For this reason, the day outside the road is just like the evil spirits of the emperor, and its fierce battle, and the three emperors who have achieved an overwhelming advantage, in the realization that things are wrong, Wenxing old ghosts have not appeared for a long time... ..

Immediately after the sudden emergence of the mechanical source core, after the power suddenly stagnate, the three avatars of Emperor Yi immediately realized what happened, even when they were eclipsed, they roared up!

"Wenxing old ghost, dare!"

"I am thinking about it! Today, finally let you wait for the opportunity?"

"Unfortunately, everything is not so simple, you can't think about it!"

"Hey..."

With these three roars ringing, the inside and outside of the Tianji Road, and even the inner perimeter defense circle outside the main road, the stars in the outer industrial circle are also responding, and at the same time, a shout of screaming and screaming II.

At the same time as the whistling sound, a Tianzu ethnic group, even intelligent robots, and even some large-scale fixed-type mechanical equipment, all smashed.

Tens of thousands of celestial people and tens of millions of intelligent robots, the body and the human race lost consciousness and coma, soft down in place, face some large-scale fixed mechanical equipment, it is like a sudden crash, completely no movement.

They are all the identity of Emperor Yi, and they were injected with a strong or weak consciousness by the emperor, secretly controlling the entire Tianji City star field.

But now, the electronic consciousness that represents the emperor's deity is not good. All of these differentiated electronic consciousnesses, which are not even avatars, are all recovered in an instant.

At the same time, along the star network that enveloped the entire Tiancheng City star field, rushed to the core area of the inner city of Tianji.

Including the Zheng and the Emperor and the ghosts and their savage battles, and the three main stars who occupy the absolute advantage, their bodies, after roaring on their heads, directly fell softly, and the electronic consciousness was withdrawn. Equivalent to human beings without the gods, naturally unable to move!

At the time of this scene, Ye Xuan, who had changed his physical appearance, happened to be near the central square of the Tianji Road in the Great War. He couldn't help but see the emperor's body, which was repaired by the three stars. And with the words that they screamed before they fell soft, Ye Xuan basically guessed something, but he still didn't understand what happened.

But at the moment, it was not the right time to delve into the matter. Ye Xuan's sight was swept up on the body of the three emperors who had fallen to the ground.

This is the body of the Tianji clan chief, one or three stars in the main body, and I don't know how many times it has been transformed.

It can be said that all the materials used by these three bodies from the inside out are absolutely all good things. Now it is like a dead dog lying here, it is too wasteful.

Ye Xuan holds the electronic consciousness of the nine-way Tianzu ethnic group including Sha Baofeng and Emperor Shaofeng, and has been refining, erasing the brand of the Tianji nationality, completely controlled by Ye Xuan.

These nine electronic consciousnesses are equivalent to the Yuanshen, and now they are lying on the ground, like the dead dogs, the three emperors and one body shell, in fact, can be seen as the unowned meat shell without the god.

The key people are still high-level, and the electronic consciousness of Emperor Yi enters it, and can exert the powerful power of the star's main territory. Ye Xuanru is stationed in the electronic consciousness of Sha Baofeng or Emperor Shaofeng. It is equivalent to his three more avatars, and he is still a mechanical person.

Even if you can't play the training of the star's main territory, you should have no problem with the environment. It's not working, the 14th big state of the universe, even the domain of the thirteenth world is also OK!

At least it's better than Ye Xuan's tenth and most powerful realm!

With these thoughts flashing in my mind, Ye Xuan's whole heart, even if it screamed fiercely, he has always had no taboos for this kind of bonfire, and it's cheaper than a bastard. It's the enemy's resources.
!

In this way, even when he started the speed, he quietly approached the past, and without saying anything, he directly put the three soft bodies on the ground like a dead dog, and they all entered the immortal world.

At the same time, suddenly lost the sight of the opponent's Yin Emperor, but also just projected to Ye Xuan here...

Chapter 3616: Shaking

Ye Xuan just put three soft bodies on the ground like a dead dog, and the body of the emperor was all in the body. The sight of the lost emperor's grotesque was projected, and then, a few loud screams resounded through the void...

"Roar!"

"It's too shameless to beat the Emperor. I used this shameless way to escape. The Yuanshen left first, and then sent a small scorpion to receive the flesh. It's shameless than urinating!"

"Roar....."

With the sound of these roaring roars, the sky and the sky were originally unpredictable and the hair was screaming, and the mouth was suddenly opened, and Ye Xuan, who was trying to succumb, was swallowed.

The **** green ground on the ground is also from the other side of the square. It has been struck by a big step. The body of the sky is like a giant peak, and the ground of the square is shaken.

The air machine has already firmly locked Ye Xuan!

"Rely! What is the situation?"

The sinister eccentric and its ruins, the horror of the two kings' main battles, and the ground from the air, this scene scared Ye Xuan on the spot, and then his face was green, and he blurted out: "By the way, you are an old bastard, swollen and turned around and wrapped up with Laozi? Is it a hindrance to a garbage?"

Although the words are not full, but this is after all the two star owners, Ye Xuan, although there is no fear, but the location is not right, now the Tianji City is not a long-term place, at any time there may be unexpected changes, not to mention the imperial prison The super-dead bomb inside is also about to explode. What does the ghost know?

Thinking like this, Ye Xuan did not hesitate, and there was a teleport between the movements. He left the Tianji Road and appeared in the void outside the road. Then he did not return to the outer inner defense circle. And go.

It is a pity that this ordinary void teleport, with his only eight-level cultivation of the mysterious light, is obviously far from the scope of the star lord's perception, almost in the appearance of Ye Xuan in the distant sky. At the same instant, the huge dark green gimmick that the Emperor of the Yin Emperor deified had already lost his head and quickly chased the past.

Behind him, the **** green sorrow that was originally rushing on the land of the Tianji Road was also coming up, followed by the back of the hoe, and chasing it!

One party is the star lord, and one party is only the eleventh major Xuanton eighth-order repair. With the strength of Ye Xuan, it can't escape, and will soon be chased. If the head is blocked before and after. At that time, he will not hesitate to expose some means that he does not want to expose, and he will be hard-pressed.

It can only directly activate the interstellar coordinate jumping ability attached to the system title, and instantly depart from the Tianjicheng star field.

And the two interstellar coordinates that he branded in the first cosmic plane, the most recent one is also in the star of the evil, there are several days of star-voyage from Tianji City, and when he comes over again, the daylily It's all cool.

At the moment, the Void War is still placed in the star dock of a huge industrial star in the outer industrial circle of the Tianji City. The Ye Xuan can be taken away as soon as it is rushed.

If it is a few days later... In case the Void War La is brought into the core star field of Tianji City, Ye Xuan would like to get it back again, I am afraid it will be difficult.

In a few days, enough Tianzu people will calm down today's unexpected turmoil. By then, the entire Tianji City Star Field will be more strictly inspected, not to mention the core area where the Tianji Road is located. He wants to be close to the peripheral industrial circle.

But the Void War, he can not be discarded anyway, this is a big killer!

"But it's just two star owners. It's a big trouble in the end. It's a big problem today. It's just a matter of solving it today, at least it's going to be bad. Why do you want to chase the world like a dog?"

Seeing the dark green skull and **** green scorpion behind him, I was about to catch up. The fire of Ye Xuan's heart was also provoked. Once again, I thought about the truth about my identity after leaving the Tianji City Stars. It will not be long before it will be disclosed by the Tianji people. It is no big deal to expose it to the old emperor in advance.

The right to let him be a good devil!

Of course, even if he is determined to not hesitate to expose, Ye Xuan will not stop at this moment and immediately fight with the other party. For him, he should first rush to the peripheral industrial circle as soon as possible, and control the Void Battle to the hands. Steady, the current Tianji City always gives him a feeling of right and wrong, and can't stay for a long time.

Therefore, what he needs is to open the distance. What is needed is to open the distance between the two star owners behind him.

As long as the speed is fast enough, he can get a little advance to rush to the Void War. At that time, tens of millions of Voids will enter the battlefield, and suddenly, under the attack, the Emperor and his ignorance will be prevented. Absolutely It is the rhythm of not peeling off the skin!

As soon as I read this, Ye Xuan did not hesitate. Even if I waved my hand to the cave, it would be better than a short-range speed. Although the Xingye Life Fortress is not weak, the short-term burst speed is definitely better than the hole. Weakly on the rise!

"call out!"

As a flash of mans flashed, the yelling Ye Xuan figure was in front of the void, and the virtual shuttle appeared quietly. The half interest was not enough for Ye Xuan to rush into it, and then it became a speedy purple awn. Going away in an instant.

Not yet waiting for it to rush out of the line of sight of the evil emperor, the concealed method has been opened, completely lost track!

"Well? Is it so fast?"

The old guy was shocked. This speed is quite inferior to the star owners. This is mainly because Ye Xuan's repair has been improved too much compared to the previous use of this shuttle.

Of course, there is another reason, that is, at this moment, he almost spared no effort to accelerate the formation of the ship in full force.

However, the means of the star lord is far from comparable to that of Qiankun. Even if the speed is quite inferior, and it has lost the other side's shape, it is only in the short-term, in the short time, in the short direction. The screaming ecstasy of the Yin Emperor, not to run counter to one another, completely lost!

At this time, the evil emperor and the **** green behind him have already rushed into the inner circle of the Tianjicheng star field. Through this star field, you can reach the peripheral industrial circle in front.

However, in the short time, the limit speed of all the explosions will be spared. In the meantime, the Void War La will no doubt be prepared for everything, so I will wait for him to have a headache!

It was also at this time that the huge starry sky of the sky in the far end of the sky, but the earth was shaking a few times, a huge sound of explosion, like the sky shaking, came and thundered .

"Booming..."

This huge explosion has never been seen before. Although the explosion point is obviously inside the Sky City, no matter whether it is fire or other light, it is not transmitted, but the whole Tiancheng City is so violently shaking, and the sound of the thunder is passed through. After the alloy hull of the Tianji Road was passed out, even the void had a huge reaction, and the power of the explosion was absolutely horrific.

That is obviously the effect of the super dead bomb in the imperial prison...

Chapter 3617: The first battle of the void war

The entire Tianji City Star Field, including the Tianji Road in the core area, the Inner Circle Defense Circle and the peripheral industrial circle, are completely chaotic!

Originally, the electronic consciousness of Emperor Yizun, although it was nearly 10,000 years old, has entered the mechanical source core, and the crystal consciousness in the source core, launched a long-lasting secret confrontation and contest.

But on the table, at least there are several stars in the emperor's main body to preside over the overall situation, and on behalf of the mechanical source of nuclear, for its inner crystal consciousness, Wen Xing, and the cooperation with the emperor's several avatars, Do something in the dark.

They are still in harmony with each other, maintaining the most basic harmony, and complementing each other, but also let the Tianjicheng Star Field maintain peace and tranquility for nearly 10,000 years!

But now, all this is falling apart!

At present, the most dangerous and most stressful place is naturally the inside of the mechanical core. Except for the electronic consciousness of Emperor Yizun and the main body of crystal consciousness, as the avatar of Wenxing and the old ghost, and the emperor stays in the sky All the conscious minds in the star field are all in the blue crystal at the moment.

The competition and competition between each other is not enough for outsiders, but I can only imagine the degree of fierceness.

As for the entire Tianji domain, the three major regions seem to be chaotic on the surface, but in fact, the atmosphere is not so much suppressed. Of course, panic and fear are inevitable!

Because the mechanical source core seriously occurred the most serious changes, all the electronic consciousness of the Emperor Yi, the first time they all rushed over, the whole piece of the sky, the enemy will immediately have no head.

The tens of thousands of first universe servants of the royal family who rushed out of the inner city imperial prison, rushed out of the channel alloy giant door, and saw the chaos outside, they already understood that they had been defamed.

Some of them don't care, others are cursing and swearing, feeling forced to go to the thief boat...

No matter what, now I want to turn around and go back, not to mention the serious turmoil in Tianji City. Even if I really go back and shut myself up, it's hard to keep the emperor's avatar. They won't take them to vent their hearts.

Therefore, whether or not the shackles are willing, the servants of the tens of thousands of royal families, after rushing out of the imperial prison, will be dispersed in groups in the first time, and they will run away!

Regardless of how the subsequent issues are handled, at the moment, let's leave this star field that has been completely confused due to the change!

In the face of this situation, although the emperor's avatars were all withdrawn, but soon some of the core elites of the celestial family were repaired, and they came from the sittings or retreats of various regions to maintain the overall situation.

It's just that they don't know what happened at all. In fact, they are more worried about the patriarch's emperor and the turmoil inside the Tianji City. Therefore, even though the three major regions of Tianji City have organized a road interception line almost the first time, But the real minds of the top-ranking elites who dominate these interceptions are simply not on this matter.

It's all right.

One party has no intention of fighting, just want to leave as soon as possible!

One side is worried about the inner city, just a casual and casual interception!

The final result was that the first universe of slaves and servants who were escorted to the imperial prisoners of the tens of thousands of royal families quickly walked seven or eighty-eight, looking into the three regions of the Tianjicheng star field. It's rare to see the still-shelving figure, or the interception scene of the war!

The vast majority of the core elites of the Tianji nationality, after the horror of the horror of the sky, no exception, the ground color madness, have to withdraw, and rushed to the core of the road.

The inner defense circle is only a fleet led by ordinary people. The peripheral industrial circle is basically just some intelligent robots that execute dead orders. They start a dense battleship and lay defenses layer by layer...

In this case, Ye Xuan rushed to the peripheral industrial circle!

Although the virtual shuttle has opened the hidden array method, but at the moment, the desperate explosion has come, and there are still some energy fluctuations. After being captured by the dense battleships in front, the energy of the star cannons is different. It was blasted in an instant, intertwined in the whole piece of void, like the endless fireworks in the galaxy, so gorgeous!

Although Ye Xuan is depressed, he does not vomit with a group of intelligent robots who only know the execution of interception commands. They can only drive the hole shuttle carefully, as fast as possible, between the intertwined energy beams. Walking through, fortunately, not far from the industrial superstar where the Void War is located, it soon reached the void within a hundred miles.

At this point, Ye Xuan sighed with a sigh of relief, stepping out of the hole, and waved it into the immortal world.

The numerous warships and fortresses that were densely populated in the air and suddenly opened their targets. The numerous energy-lighted pillars of energy that were originally intertwined in the entire void were gradually stopped!

Ye Xuan did not dare to delay too much. After entering the hundred miles of the Void War, he waved his hand at the first time and activated one of the thousands of honeycomb nodes in the battle, and tens of millions of people in the body. The entire entire squad of the sergeant was sent into the hive node.

The two-headed eight-star king scoop was sent to the core hive node of the ninth floor of the battle.

Ye Xuan himself is also the same, and stepping into this core node.

Just relying on these two eight-star king scoops to control the overall situation, he still has some reluctance, and if Ye Xuan's brain knows that the emptiness of the emptiness of the sea, the matter will be foolproof!

War La did not open the huge star dock of this industrial star, but stayed inside, only corrected the direction, let the huge bell mouth with a diameter of 300,000 meters ahead, facing the road that he had speeded before. direction.

Soon, the singularity of the sinister sinister body, and the **** green scorpion that followed closely behind him, appeared in the line of sight.

Without any hesitation, the tens of millions of soldiers in the thousands of hive nodes in the Void War, under the enthusiasm of Ye Xuan, all launched action.

There are thousands of honeycomb nodes with a diameter of three kilometers, and each one has tens of thousands of empty squadrons at the moment, which fully stimulates the unique biological frequency of the soldiers.

These unique biological wave frequencies are guided by the scoop in each hive node and are uniformly conducted out.

Thousands of honeycomb nodes, thousands of biological waves like the river, all along the pipeline, all flocked to the core node of the core circle, and then, under the gathering of the two eight-star kings, they merged into one One.

In the end, with the sudden tremor of the hollow medullary crystal suspended in the sea, the horrible mysterious creature wave frequency, like a tsunami, instantly rushed to the whole...

Chapter 3618: Reinventing the evil emperor

"Hey!"

"Hey..."

Before this majestic bio-wave frequency was completely gathered, the peripheral industrial circle where the war lama was located had already screamed in a faint emptiness.

The effect far exceeds the movements that can be tossed by a large number of virtual oscillators at the same time. Ye Xuan even has an illusion that the entire vast expanse of the stars is trembled under the sudden high-frequency humming. .

Then, the mysterious wave energy that completely converges into one, under the tremor of the hollow medullary crystal, instantly vents out...

"call out!"

Sharp enough to tear the horror of the sky, and immediately let Ye Xuan be deaf!

This feeling is far more shocking than the deafening of the huge explosion.

He suddenly widened his eyes, and there was an invisible tidal wave like a starry sky in front of the void. He vented from the core node, and continued to enlarge along the outer nine-layer ring of the Void War. Turning into an invisible force that plunges into the sea, in an instant, it will completely cover the huge void of the huge bell mouth!

"Oh la la..."

"boom!"

"Booming!"

The sound of clear cracks like the last time, like the rain, was overwhelming, and the void of hundreds of thousands of miles was torn apart by a large number of empties. Some of the larger voids were cracked. A lot of empty turbulence directly formed a hollow vortex like a black hole.

The last time, when the war was motivated by the magical power of the devil, there were three such vortexes of this kind that appeared after the full blow, all located in front of the huge trumpet, facing each other, separated by a distance. Once, there are up to nine!

In the void of the nine void vortexes, the various warships and fortresses that were originally densely packed were completely swallowed up and disappeared in the first time when the whirlpool suddenly appeared.

A large number of warships on the edge of the area were also sucked up by a powerful terrorist force that could not be countered. In the blink of an eye, they disappeared into a whirlpool of emptiness and annihilation!

"Roar!"

"Hey..."

Just before the bombardment of the Void War, he had already rushed out of the ruins of the inner defensive circle and the sorrows behind him. At the same time, he screamed and rushed toward the battlefield. They were At this time, Ye Xuan's air machine has been locked, so that the arrival of the helium machine is clearly and unambiguously detected.

It is a pity that they will not be close to each other.

As the distance is too close, there are a few moments of the giant virtual turbulent whirlpool, and there is still a distance from the evil emperor and the cicada behind him.

Even so, the invisible mysterious biological wave hurricane, but still in the first time will be the huge dark green gimmick, blowing the riddled hole, the shape will be unstable, completely shattered!

This invisible mental storm, or biological wave hurricane, was originally the best way to restrain the illusory spirit!

However, there is a physical **** green meditation behind him. It is a body of giants and flesh-and-mortar alloys. It has steadily caught the invisible biological wave frequency in a short period of time. The blowing, although it is also bruised and bruised, the body shape has plummeted thousands of miles, but compared with the huge gimmicks that have almost never been maintained, it is obviously much better...

After all, it is the existence of the star's main territory, and possesses the entity, plus the distance is far away, and it is not in the area where the nine emptiness vortexes are unfolding. The state of blood and green meditation at this time can only be regarded as a little small!

"Roar!"

"Hey..."

The old emperor screamed and snarled, and he was broken. Like the candle-like dark green skull in the wind, he did not hesitate. He immediately plunged into the body of the **** green body.

This was originally his avatar, and there were 30% of the ghosts of the gods, and they belonged to each other. Naturally, they did not separate each other.

In the blink of an eye, the **** green scorpion plunged back thousands of miles, and obviously could not catch up with it for a time. Although Ye Xuan was slightly sorry, this attack did not kill the evil emperor, but only caused his weight loss. I am afraid that there will be no small troubles in the future.

But at this moment, it is no longer possible to stay in detention. The time of the murder of the Void War is too long. It is no longer possible to launch a second strike until the entire terracotta group recovers.

He did not hesitate, even if he took a step in the battle, he waved his hand and the entire squad inside the thousands of hives, and then he was in the body, and activated the interstellar coordinate jumping ability for the first time. This star field has completely disappeared...

.....

At the same time, in the inner city of Tianji City, the core of the core where the mechanical source core is located is heavy!

This layer is the most important part of the whole Tianji City. It is located in the most central part of the giant city of Tianji City, but its scope is not vast, only a hundred miles away!

The area of this mile is dark and the visibility is very low. It just relies on the inside of the blue crystal of the size of the human head.

In fact, in the core area of the whole piece, except for the blue crystals suspended in the middle of the air, there is nothing left in the air!

At this moment, this piece of the circle is only a hundred miles of the faint vacant blue awning flashing, the blue crystal hanging in the middle of the air, like the candlelight in the wind, when the time is bright, affecting this space , reflecting a feeling of repressive atmosphere!

This strange situation lasted about six or seven minutes.

Afterwards, the blue crystals, which were always indefinite, suddenly burst into a strong light without warning.

A few smudges of cold awnings rushed out of the blue crystals in a hurry and wandering, giving the impression that it was as if it was hard to be squeezed out.

After landing, these smudges were immediately turned into four figures, one of which was a gloomy old ghost.

The other three figures are the avatars of the three emperors who had previously fought against the evil spirits and their sorrows. The only difference is that they are all energy forms, because the body that was built for many years was extremely urgent at that time. In the case, it was directly thrown away in the outer Tiantian Road Central Plaza.

After the four figures were extricated from the inside, the blue and blue crystals of the blue mangling flashed again and again, but the frequency and the degree of undulation were far less intense than before, and there was a tendency to gradually In a comprehensive and stable situation!

At this moment, the emperor and the three avatars who showed their physiques, and in the first time, surrounded the gloomy old ghosts, and laughed at them...

"Old guy, you have failed! This mechanical source is your own body after all, your main consciousness, and we don't want us to toss too much inside, causing it to collapse!"

"So, the deity and your main consciousness join hands and force us out together!"

"Now we are three to one, your annihilation period... is here!"

Chapter 3619: Hundred worm

Although both the emperor's avatar and the Wenxing old ghost, who is the source of the mechanical source, they have known each other in the past, their deity or the main consciousness, which has been here for nearly 10,000 years. The blue crystals play against each other.

But before this layer of fig leaf was not torn open or smashed, so the emperor's avatar and Wen Xing old ghosts, while waiting for the result of the confrontation between the deity and the main consciousness, while maintaining the superficial harmony on the one hand, Or at the front desk, or crouching in secret, to maintain the normal operation of the Tianji and Tianji City...

However, as time went by, the old ghosts of Wenxing couldn't help themselves. When they thought that the opportunity came, they participated in the battle between the two deities and the main consciousness, and eventually involved the emperor's avatar.

The only result that has been caused so far is that the layer of window paper used to shame and maintain the surface and air between the two sides has finally been completely smashed!

Under this circumstance, first of all, apart from the eternal confrontation between the two deities and the main consciousness, it is only the three emperors who are in the realm of the celestial city, and the

Wenxing, which represents the mechanical source core. Old ghosts, before each other, obviously can no longer be maintained in the same way as in the past.

The battle is unfolding!

None of the four people left this dark room with only a hundred miles. Although the four stars were in the confrontation, the mechanical source core that was suspended in the central area was originally extraordinary, plus the deities of the warring parties. The main consciousness is all inside, so when you fight, you will be restrained, so that the war will not affect the blue crystal!

"Booming!"

"boom!"

The old ghost of Wenxing took an enemy three, and eventually he was still unbeatable. This was already a doomed ending.

The huge roar sounded, just ten minutes later, the Wenxing old ghost was bombarded into a mysterious and unknown energy, completely disappeared.

It must be said that the life of the mechanical source core is still very magical. As a result of the differentiation of the life consciousness of Wenxing, the old ghosts have perfectly transformed all the characteristics of the devil. Ye Xuan originally thought He was the first outsider in the history of the devil's race to successfully merge into his ethnic group, but in fact, the old ghost of Wenxing had already done this very early in his early days.

It is a pity that a loser and a whole loser will eventually disappear. It is not that he is not strong enough, or that the three avatars of Emperor Yi are not weak. At present, the four people are also due to the efforts of the emperor of the mechanical source core. All were temporarily banned in this narrow space of a hundred miles.

The old ghosts of Wenxing can't escape, and in the end they can only be killed by grievances, and the smoke is gone!

Soon, with the complete degeneration of Wenxing's old ghosts, the temporary ban on the core area of this mile is also completely lifted. The consciousness of Emperor Yi's deity in the mechanical source core must always meet the crystal consciousness of the source core. In order to eliminate Wen Xing, it is not easy to win this short period of ten minutes, to ban this area and to prevent him from escaping.

It is difficult to do more, and the old ghosts of Wenxing are already paralyzed, and there is no need for more!

Subsequently, the three avatars of Emperor Yi rushed out of this core area, one of which remained outside the core area. Its responsibility was originally to keep it here, not to let anyone close, and pay close attention to the changes in the core area. .

Even today's Tianjicheng star field is in chaos, and the emperor's avatar has not left. After all, the confrontation in the mechanical source core is the real top priority.

Of course, the left body has no body, but it is temporarily condensed with its electronic consciousness. Its body was thrown away in the above-mentioned Tianji Road Central Square when it was unexpectedly unexpected. There is another emperor who sent it.

At this time, the electronic consciousness of the other two emperors and ones has already arrived at the central area square of Tianji Dalu Lubiao. The responsibility of the two of them is to sit in the royal domain, and the second is to lead the entire Tianjicheng star field and maintain its normal. Running.

Now the imprisonment is empty, all the first universe slaves and all the royal family hostages have escaped. Even the interior of the imperial prison has been blown up by seven or eighty-eight, and the emperor who sits in the royal domain has no need to Going there, the two will join forces to carry out the expedition of this breakthrough event.

After rectifying the internal order of the Tianjicheng Star Field, the Tianji Nationality will begin to solve the collective fleeing of the slaves and the royal family.

But before that, the three separate bodies that had been abandoned in the Tianpao Park in the central area of the Tianji Road had to be found first. As the electronic consciousness of the star's main territory, they could still move freely without the body. The combat power will be greatly affected by this.

It is a pity that after some searching, the shadows of the three top shells could not be seen at all. The two emperors took over the surveillance images of the Central Plaza and its surrounding areas after the incident, and soon found out.

The top body of the three-star mains was actually taken away by people and taken away.

It was also at this time that there was news from the peripheral industrial circle that Sha Baofeng's spiritual warfare that had just been brought from the devil's group had been taken away, and that the other party had activated the war and sent out a horror before leaving. Hit, hit the evil emperor and its meditation.

In the end, the two sides left, and the outer industrial circle, but left nine horrible vaginal whirlpools, slowly expanding outward, two of which have merged together, fearing that it is difficult Steady...

In addition, the horror blow that was launched before the spiritual warfare was carried out, its driving energy is obviously not the spiritual power of the devil's ethnic group, the energy of the air remaining in the void, but the biological wave frequency unique to those hollow weapons. Very similar!

The two avatars of Emperor Yi immediately understood what was going on. The martial arts family fell in the hands of Xuan Huangzi, and the spiritual warfare also fell into his hands, including three stars that had been built for many years. The top body of the main body also fell into his hands...

In addition, there are a lot of other treasures and creations in this body, whether it is the Xuan prince, the invincible **** of war, or the fox lord, the glory of the lord... behind each identity, it represents a lot of treasures and even It is the secret that they can't ignore!

At this moment, the two priests of Emperor Yi recalled all of them. For a time, they were like the old ghosts and the old-fashioned ancestors, and they had a strong interest in everything that Ye Xuan had hidden. The heart of the pole.

At the same time, far away from the battlefield of the front of the Devil's Star Field, the flagship expulsion of the Celestial Alliance's flagship deportation in a secret room on the top floor, Chanas, who had been lying there, suddenly opened his eyes.

This moment, the smell of a weak star's main territory has stunned from his body, and it has disappeared. However, some of the injuries that existed in the body of Chanas have been fully restored in a short period of time... ..

Chapter 3620: Retreat

"Card!"

"Card..."

As Chanas's eyes opened, his body immediately heard the sound of the skeleton's healing connection, which was a sign of rapid recovery in his body.

Previously, this cargo was directly pulled back from the entrance of the top channel of the fortress by the wrath of the emperor. If it was not repaired as a good strength, it would have to be degraded on the spot.

Even so, it takes at least half a month to fully recover.

Today, in just ten days, although the injury of Chanas has recovered more than half, he still can't get up. Now, all the injuries are healing in an instant!

For a moment, in the body, it smelled like a scent of the old ghosts, but it disappeared quickly and disappeared. It was also fixed in the early 14th century. .

Compared with the original cultivation of Chanas, it has already climbed two realms in the blink of an eye.

However, he still seems to be somewhat dissatisfied with this. After he got up, he first examined the body and then sighed: "Although the original owner of this body is seriously injured, the crystal consciousness seed crouching in his body instantly occupies his brain. The source nucleus has won its flesh, but this repair is too weak, even if it consumes the conventional power of crystal consciousness seeds for growth, it only climbs to the early days of the celestial light..."

"No, it seems that we can only lie for a while, at least first to grow up to the fifteenth big world."

"But fortunately, this physical identity background is not bad, not only in the devil's group, but also in the Imperial City's demon emperor, and even with the most mysterious kid, although not now Together, but think about it, wait for the opportunity, or be able to mix it with him again."

"The confrontation between the main consciousness and the emperor's deity is still not progressing. According to the situation seen this time, if there is no accident, I am afraid that it will last for tens of thousands of years, and the electronic consciousness of the emperor is not occupied. No matter what advantage, there is no need to worry about that."

"However, as a division of the crystal consciousness of the main consciousness, I have to continue to try to promote the development of this process in the outside world. It is also the case of the Tianji City. Now it seems that the three major planes are the most present in the world. It seems that there is only the mysterious kid with the value and potential of mining..."

"Fortunately, when he first entered Chaotic City with Chanas, the old man took precautions and planted a crystal consciousness seed in the body of his neighbors in advance. Once the first avatar fell, this crystal consciousness seed immediately Can wake up... Otherwise, in the case that the main consciousness can no longer be differentiated from the crystal consciousness, the follow-up situation is too optimistic."

"Fortunately, everything has now seen hope again. Hey, this time, the city of the celestial chaos, this servant and the various nationalities, I am afraid that under the command of all ethnic groups, a fleet of troops will be fully evacuated, the entire coalition will be very The rapid collapse of the land, the first universe to be chaotic, will enter a new situation of waiting for the competition, in this environment, the new avatar of the old man, just can be messed up and grow up quickly..."

In the muttering, Chanas got up and pushed open the door and stepped out...

.....

At the same time, Tianji City!

As the star of the Tianzu tribe, the main body of the star, it is naturally impossible to prepare only one body. These three emperors, who are stationed in the inner and outer cities of Tianji City, have a spare body.

Now that the main body shell has been stolen, the three avatars of Emperor Yi can only temporarily enter the spare body. Although it is still the strength of the main character of the star, it is far less powerful than before. Some means are subject to the body. Restricted, unable to perform.

Among the three avatars, there must be a confined space that is always located in the core of the core area of the Tianji City, and you should watch it at any time to avoid any change.

The remaining two emperors were separated, and now they are sitting in the town of Tianji, because the one who sits in the imperial prison, because the entire imperial prison is almost completely destroyed, there is no need to take care of that one.

At this time, the two emperors and ones were secretly discussing in a secret room in a certain area inside the Tianji City.

"Now I am extremely skeptical that the identity of the little son of the prince is ninety-nine, and it is also a fake. The immortal dynasty only cares about the face and pinches his nose to recognize it. In this case, when the son returns to the immortal star, he is immediately If you distribute it, you can explain it!"

"Yes, the immortal dynasty, although holding his nose, recognizes it, but he does not want him to take up too much cheapness, and he does not want to stay with his side and look at the eye, so he will be sent to the death star field, and he will be ordered to return to the world forever. Immortal imperial city, it seems that even if we publish its identity, there will be no too much influence on the current situation, and the immortal dynasty can abandon him at any time, it makes no sense!"

"If this is the case, then it will make him take a little cheaper. The secret of this identity is temporarily secret, so it is convenient for us to arrange for him and to conceal all the secrets in him."

"This is the case! In addition, the imprisonment of the servants and the servants of the servants will soon be returned to the family. The general trend of the first universe is already chaotic. For this matter, we must do it early." Prepare, is it to send troops to crusade immediately, or..."

"It is not appropriate to send troops to attack. The slaves and the servants should still wait and see. At this time, crusade is forced to unite and rebel. Don't forget how we used the entire first universe to occupy..."

"Encroaching! Everything is broken! It can be done that year. This time, it can be done the same. Even if they suffer a loss, they may not be awakened. It is not suitable for everyone to eat a long one."

"Evacuate! Just a few vortexes in the peripheral industrial circle are too much trouble, this star field can only give up."

"But the full evacuation can only be carried out step by step, starting with Tianji City, then the numerous fixed star fortresses in the inner perimeter defense circle, and finally the numerous construction bases in the peripheral industrial circle..."

"In the past few years, because of the existence of Wenxing's old ghosts, Tianji City has always been suspended in this void in the first form of the starry sky, but now, the main consciousness of the crystal life in the mechanical source core has been taken care of by the deity. The electronic consciousness is dragged, and the crystal consciousness that it left in Tianji City is completely annihilated!"

"Since the years have passed, the complete authority of Tianji City has completely fallen into our hands for the first time. This kind of opportunity is too rare. Just several other avatars have explored other unknown universe planes these years. The harvest is also very gratifying. It has been found that An enclosed small cosmic plane with enormous value."

"Immediately expand the authority and activate the second form of the Super Fortress of Tianji City. Before the first cosmic chaos broke out, the main city of Tianji must complete this large plane migration. This is just a retreat. We... very I will be back soon!"
