

## Super D. S 364

Chapter 364: the first!

After defeating the two men, Ye Xuan did not leave the ring, but turned to look at the elder of Shuiyue, the referee.

"The next is the final, the other two are on the stage!"

The elder of Shuiyuezhong shouted.

what?

Still three?

The winners of the first and second games glanced at each other, and immediately the former shouted: "Can you give us some time to recover?"

When this was said, someone immediately screamed.

Give them time to recover, isn't that a drag on time?

As long as the time is over, Ye Xuan's strength will be reduced, and there may be side effects, and the strength may not be as good as before.

In this way, he became the lamb to be slaughtered.

Everyone is paying attention to the elder of Shuiyuezhong. Now, look at the meaning of Shuiyue.

"Immediately, if you don't come to the stage within three seconds, you will be deemed to have abstained!"

The elder of Shuiyuezhong was cold and cold.

Not taking the stage for three seconds is considered a waiver!

The two men heard this and swallowed it, then jumped up.

Before they went up, they also made a plan in the same place.

drag!

Ye Xuan's strength is too strong, even if they are the peak, I am afraid that they can not fight for one, so they can only choose to delay the time.

But are they OK?

"Start!"

As the referee, Shuiyuezhong's elders shouted.

When the voice fell, Ye Xuan's two opponents' body shape was a flash, but they did not rush toward Ye Xuan, but gathered together, and then looked at Ye Xuan.

"Do you think that if they are together, will they be fine?"

Ye Xuan sneered in the heart, and sacrificed the dragon sword, suddenly plucked out.

The two faces were gloomy and their eyes widened. The speed of Ye Xuan was too fast. They just reacted, and Ye Xuan was already in front of them.

After so many knockouts, the physical strength and infuriating of the two men have been consumed a lot, and there are still injuries on the body, so their strength is probably only 70%.

Ye Xuan is the peak.

Therefore, there is no suspense in this battle.

Two seconds after Ye Xuan rushed to the front of the two, the two of them were thrown out of the ring, and their Qiang Kun ring fell into the hands of Ye Xuan.

The battle lasted only two seconds.

The audience present at the scene thought it would be a fierce battle, but did not expect that the gap was so obvious.

It is incredible that a fierce dragon of fifteen dragons will kill two masters of the power of nineteen dragons in two seconds.

"Ten, 18th win!"

The elders of Shuiyuezhong reacted and announced loudly.

Ye Xuan is the champion of this martial arts conference!

The 100-year-old dragon blood grass belongs to him!

"This person is really the power of fifteen dragons? Is this strength too fake?"

"Really, before the penultimate game, he has always been the power of fifteen dragons."

"I don't know how old he is. If you are young, you will never miss such a genius."

"Thinking more, his age is probably more than sixty."

The onlookers were talking about it, including three high-level people who were also interested in Ye Xuan's age.

After all, who is going to wear a smiley mask?

At this time, Ye Xuan suddenly turned his head and said: "Predecessors, can you give me my reward?"

The elder of the Shuiyue sect heard it, and took a hundred years of dragon blood from the ring.

"Thank you for your predecessors, let your deceased!" Ye Xuan took the dragon's blood grass and received it in the swallowing space, then turned and prepared to leave.

"Please wait a moment."

The white-bearded elders called Ye Xuan and said: "You don't have to leave so urgently. You are very safe in my water moon. I am inviting you to Shuiyue, and if you agree, you will become my Shuiyue. The law of protection."

"This....."

Ye Xuan hesitated for a moment, then shook his head and said: "There is still something to do now, let me think about it, I will come back again."

His words sounded like this, but he did not want to join this water moon, he just did not want to let the water moon entangle him.

come back?

Just kidding, it's the best policy to go now!

When he finished, he did not wait for the white-bearded elder to answer. He turned and quickly left.

However, at the same time he left, there were many people who followed.

Obviously, these people are interested in his dragon grass.

Although his strength shocked these people, everyone guessed that he would run out for a while.

"This person is not like a stupid person, why should he leave in a hurry? Is it still afraid that I am suffering from him?"

The white-bearded elder is very puzzled. After entrusting the second and third rewards to the two disciples, he followed them up.

.....

After Ye Xuan won the first place in the 19th Dragon Group, he quickly left the Shuiyue.

During this period, he also swallowed this century-old dragon blood grass.

"Hey, the host has broken through the power of the 18 dragons!"

This century-old dragon blood grass, even hard to enhance his three dragons.

"Sure enough, good thing, come again!"

In the heart of Ye Xuan's heart, he devours everything that has come from other contestants.

"Hey, the host has broken through the power of the nineteen dragons!"

Two consecutive prompts made his strength have a qualitative leap.

The duration of the violent Beastmaster has long passed, but now he has reached the power of the 19th Dragon.

And what he planned next was to kill the warriors who were chasing them.

These people are all playing his ideas.

The kill!

"Hey."

Ye Xuan, who left Shuiyuezhong, turned his head and looked at it. He found that at least dozens of people came over. Among them, there were some contestants and some spectators. Among them, there were even more than twenty dragons.

These people are indeed playing Ye Xuan's idea, but what they don't know is that Ye Xuan's Beastmaster is violent and has no side effects.

If they dare to do it, they will push themselves toward the ghost gate!

Ye Xuan's footsteps are not fast, even the military of the fifteen dragons can catch up, taking advantage of the noon time, he also explored the terrain on the Megatron.

In the dozens of miles of Shuiyuezhong, there is a small valley, which is very suitable for him.

However, those behind him can't wait for so long.

"Hands!"

Suddenly one person screamed, and then, four figures swept out.

Although there is only one dragon's blood grass in Ye Xuan's body, he has won a lot of people's ring in the martial arts conference.

Moreover, human nature is greedy, and behind this group of people, some people's goal is not him, but other people!

"Is it finally here!"

Ye Xuan smiled coldly and sacrificed the eight wild swords.

A big fight, start this!

While the four men rushed toward him, there was a sudden outbreak of fighting among the group of people.

Killing and winning treasures is obvious in this world.
